LONG DEBATES DELAY ACTION ON TAX CHANGE

Gift Tax Amendment and Reduction Newspaper Mail Rates Is Voted by Senate.

WASHINGTON, May 9—Continuing its program of night sessions, the senate Thursday night proceeded with consideration of the final phases of the revenue revision bill but last minute hopes of completing consideration of the measure before adjournment were dimmed by lengthy debate and a private announcement by Senator Norbeck, Republican, South Dakota, that he intended to propose the McNary-Haugen farm relief bill as an amendment.

Confronted with this situation leaders of both parties endeavored to reach an agreement whereby a final vote on the tax measure would be taken Friday afternoon. Consideration of the revenue committee amendments was completed today and the way was opened for voting upon individual amendments.

As the debate dragged along, amendment after amendment was tacked on to the bill, members of the finance committee which framed the measure, offering little objection. Chairman Spoot essayed the role of buffer to these individual proposals but he usually yielded with the declaration that reconsideration of the proposition would be reserved for the conference with the House. The McNary-Haugen farm relief bill was accepted Thursday night and was rejected by the senate finance committee. The rates were reduced, however, to conform with those of the donor, adopted child, or grandchild; and \$10,000 on any other person. The tax would apply on the donor and to the total amount of gifts he had made in one year.

EVIDENCE VERSUS JOHN LANGLEY IS FINISHED TODAY

Government Closes Case Against Congressman On Trial For Conspiracy To Defraud.

COVINGTON, May 9—The United States government today closed its case against Congressman John W. Langley of Kentucky on trial in the federal court here with two co-defendants on charges of conspiracy to defraud the government of tax whiskey illegally removed from the distillery. United States Attorney Smith announced the government has concluded its evidence shortly after the court convened today.

Langley, with M. E. Ruth, Alliance, Ohio; Walter B. Carey, Canton, Ohio; Albert F. Slater and Milton Lipschutz both of Philadelphia, were indicted by a federal grand jury here on April 7, and a few days later entered pleas of not guilty. At the opening of court Thursday, Ruth and Carey reversed their plea and entered pleas of guilty, leaving Langley, Slater and Lipschutz on trial.

Where Evidence Centers
The government has sought to develop its case on testimony of witnesses who admit having been parties to the transactions in 1921. The evidence against Langley centers on money he is alleged to have received for using his influence in the issuance of illegal permits for removal of whiskey from the Belle of Anderson Distillery Lawrenceburg, Ky., and on a conference he is alleged to have had in Louisville with federal prohibition officer Samuel Collins of Kentucky at which he is alleged to have used pleas and threats to get Collins to sign permits. On this conference and others with his associates hinges the conspiracy charge.

Evidence Showing Deposits
District Attorney Smith also succeeded in getting into the evidence records from banks showing deposits by Langley at about the time of loans mentioned by Mortimer. Gus Schwarzkopf, Philadelphia, substantiated testimony by Mortimer and others Wednesday that Carey, Ruth and Thomas F. Finn, Columbus, Ohio, had paid \$30,000 to Langley for the purchase of whiskey from the Kentucky distillery in Philadelphia. He testified that the money was paid to Lipschutz in his presence. He did not connect Langley with the money end of the transaction except through Mortimer, who, he testified was the man "who fixed things in Washington," and was associated with Langley.

Official List Of Registered Voters Announced as 2,835

According to official figures supplied Friday by Supervisor of Registration H. C. DuBose, there are 2,835 citizens who have registered for the coming primary. This number is approximately 150 less than the unofficial figures given out a short time ago.

On the latest count many of the names have been stricken because the persons have died or moved away since the last election. However it is likely that there will not be this many qualified by reason of the fact that some of the citizens fail to pay poll taxes. About two weeks before the election Mr. DuBose will go over the tax receipts and check with his list and the qualified list announced at that time.

RUMOR MORGAN HAS A GERMAN LOAN CONTRACT

Financier Returns From Europe Reported With a \$100,000,000 German Loan Contract in His Pocket.

NEW YORK, May 9—Wall street reports that J. P. Morgan was returning from Europe "with the \$100,000,000 German loan contract in his pocket." Morgan's return was reported by the press at length since the financier was expected to arrive Thursday on the Homeric.

Accompanying Mrs. Morgan home after a two month's sojourn abroad, the financier emerged from his customary reticence to discuss at length the subject with which his name had been prominently linked since the Dawes committee recommended an allied loan of \$200,000,000 as the foundation of its reparation plan.

He declined pointblank to corroborate the Wall street report. He would not discuss the possibility of raising the \$75,000,000 share of the loan the Dawes committee allotted to England, and the \$25,000,000 it was proposed to raise among continental European nations.

SENATORS RAP CONFEREES FOR DELAYING DATE

Agreement of House and Senate Conferees to Postpone Effective Date of Japanese Exclusion Amendment Until March 1, 1925, Is Criticized—Setting Aside Decision by Subterfuge

WASHINGTON, May 9—Approval by senate and house conferees to postpone effective date of Japanese exclusion from July 1 to Mar. 1, next, that opportunity may be given for diplomatic negotiations to abrogate the gentlemen's agreement, was subjected to severe criticism Thursday during a two-hour debate in the senate.

Both Sides Disagreed.
From both sides of the chamber disagreement with the president's position and compliance to it was expressed. The majority of the conferees, it was charged, but is indicated an attempt to set aside the expressed decision of both houses of congress by subterfuge.

The conferees report was not submitted to the senate today but was presented to the house by Chairman Johnson of the immigration committee with the announcement that it would be called up for action Thursday.

Mr. Johnson and Republican leaders for the most part, expressed confidence that the house would approve the report. On the other hand members of the majority with the Japanese exclusion on Japanese exclusion, said they would seek to recommit the report to the conferees and they asserted they would have the votes to do so.

There were indications that an attempt might be made to have the exclusion substitute thrown out on the point of order that the conferees exceeded their authority in writing it into the bill. Republican leaders and some Democrats, expressed the opinion that such a move would be a "blatant violation of the constitution."

Robinson Opens Fight.
Senator Robinson, of Arkansas, the Democratic leader, opened the fight in the senate and commented at length upon the "quick change" in the president's attitude on Japanese exclusion before and after the California primaries.

Senator Reed, Republican, Pennsylvania, chief of the senate conferees in reply declared action of the conferees should be interpreted as confirming the status of immigration as an exclusively domestic matter. It was intended, he said, to obtain the abrogation of the gentlemen's agreement which classified the situation as a classification.

Political Meeting at Geneva Thursday Night A Big Success

SURVEY ON CANAL PROJECT WILL BE COMMENCED SOON

Washington Delegation In Report To Chamber of Commerce Sees Success of Efforts in Behalf of Canal.

At the weekly meeting of the Chamber of Commerce at the Valdez Hotel Friday, the organization had as its guest of honor, Montmolin and Dr. Warren of Patkta. The former, a member of the delegation, which has recently returned from Washington, where it went in behalf of the St. Johns-Indian River canal project, gave a detailed report of its trip. The committee accomplished on its trip.

The speaker stated that as a result of the conference, that he as well as other members of the delegation, are confident that the desired results will be obtained. Toward that end, he pointed out that a survey has been ordered by the United States engineers which will begin within a short time.

Mr. de Montmolin stated that when the committee went to the capital it found that the rivers and harbors bill contained an amendment ordering a survey of a proposed canal between the St. John's River and the east coast, but it contained nothing about the local project. During a conference with the chief engineer, General Taylor, the committee learned that the last survey of the local project had been filed but nothing done about it.

St. Elmo W. Acosta, the Jacksonville member of the committee requested Senator Fletcher, with whom the committee conferred, to strike out the proposed survey of the east coast canal and substitute therefor the local project. This will be done, it was reported, and the district engineer, Col. Gilbert Youngberg, of Jacksonville, is making plans to begin this work at once, according to word received here today.

Mr. de Montmolin urged duplication of the survey of the St. Johns as given in a recent report to the war department by Col. Youngberg will be substituted in the current survey, with the remaining distance of the canal waterway to Miami, completing the entire proposed route.

A conservative estimate shows the survey will consume five months' time. An average of fifteen men will be required to help with the work.

Mr. Simpson's operations will be based on the work attained at that time, but will consist principally of rechartering and bringing up to the current time, new data and study of possible improvements of the line then selected.

Fourteen Candidates Speak To Citizens At Rousing Rally Held At City Hall

Two Hundred Are Present At Meet

Judge Dickinson In Talk Lays Stress On Citizens Duty

Good "eats" prepared by the members of the Geneva Woman's Club and an abundance of "hot air" furnished by candidates for the several county offices, were features of the political rally and supper given at the town hall at Geneva Thursday night.

Fully 200 people were present to enjoy the occasion and hear the candidates present their views. The well prepared supper served in cafeteria style, held forth until 8:30 o'clock when Robert J. Holly opened the meeting with a few remarks in which he expressed appreciation to the club women for the occasion. He then turned the meeting over to J. H. Huddleston, who acted as chairman of the meeting.

Fourteen candidates appeared on the program and each was allowed five minutes to speak. The crowd was kept laughing throughout the meeting by the charges hurled back and forth by the aspirants. One candidate expressed appreciation to the voters if they would elect him to the office "to which he is elected," while another, as if to explain the hardships of the campaign, declared that during the present campaign he has "traveled to all sides of the county and vice versa."

The two candidates for sheriff were called to the center by J. R. Lyles, who favored the passage of the county-wide bond issue, and asked Mayor Forrest Lake whether he supported the bill passed during the last legislature which in substance prevents an officer to search an automobile for liquor without a search warrant.

Judge J. Dickinson, who is a candidate for delegate-at-large to the National Democratic Convention, was the first speaker. The judge impressed his hearers more with their duties as citizens in casting their ballots than with pleas in behalf of his candidacy. He declared that if citizens wish to hand down to their children and posterity a government of which they could be justly proud, that they must exercise their rights in the matter of casting the ballot.

If the government is bad, he declared, the people have themselves to thank for it. In substance, he showed that a government and especially a democratic government, that supports the people, is one that supports the people. Another thought which he brought out was that without law enforcement, the country cannot have law enforcement.

J. R. Lyles was the next speaker. He declared in favor of tax reductions, equal county assessments levied for state purposes, a better school system, and a better road system in Seminole county. He reminded his hearers that he is a "four-square" man, and if elected to the legislature, will serve to the best interests of all his constituents. As he completed his talk, a voice in the crowd asked him if his stand on the county bond issue, and the speaker said he was in favor of it.

Banquet at Baptist Church Thursday Night Attended by Over One Hundred

From the singing of the hymn, "Onward Christian Soldiers," which opened the entertainment, to the benediction, which closed the affair, the banquet given by the Sunday Morning Club to the members of the Big Branch Brotherhood at the First Baptist Church Thursday night, was a tremendous success.

Frank E. Jennings Received By Large Crowd Clearwater

CLEARWATER, May 9.—(Special to The Herald)—More than 1,000 people heard Frank E. Jennings of Jacksonville, candidate for Governor discuss the issues of the campaign at the Pinellas county court house Thursday night.

About half the audience were designated as members of "Jennings for Governor" club by judges. Following several selections by the Knights of Pythias band, Col. T. J. Watkins, prominent retired business man, introducing the candidate declared "It gives me great pleasure to introduce to Clearwater people a man whom I know to be of such a fine character. Mr. Jennings has been known to me for several years and I can vouch for his Christian and moral character."

Hon. Don C. McMullen, former state senator of Tampa, characterized Mr. Jennings as a "man of sterling worth whom every citizen should be proud of as Governor." He spoke in highest terms of praise of Mr. Jennings' record as speaker of the House in 1921 and as a member of the State Plant Board and State Board of Control.

Law enforcement, education, the state marketing bureau, road roads and business administration of the government were discussed by Mr. Jennings. He was interrupted frequently by cheering and at the conclusion of his remarks, he was surrounded by hundreds of fans and supporters.

GOLF COURSE PAYS

JACKSONVILLE, May 8.—The 18-hole municipal golf course, opened for play last fall, is proving a money maker, according to figures announced by Dr. M. B. Herlong, city commissioner in charge of the course. For the five months of its operation, the course produced a revenue of \$12,729.50. This is compared with an estimated revenue for 1924 of \$10,000. These figures show the course is already paying a ten per cent return on the investment, states Dr. Herlong, who further says the number of players is increasing daily.

"TREAT 'EM ROUGH" ORDERS

TAMPA, May 8.—"Treat 'em rough" orders have been issued by the police authorities to the regular police force and the 600 citizen-police who have offered their services in a drive against thieves, highway men and footpads who have made their presence felt in this community recently by daring hold-ups. "Do your stuff," Chief of Police Williams instructed his men. "Then call an ambulance. Don't bother about calling the patrol wagon when you catch a crook at work. More ambulance rides for knaves and fewer patrol wagon calls should have a singularly deterrent effect on crime," the chief declared.

POLITICAL TREND IN FRANCE IS FOR LIBERAL PARTIES

Political Chaos Reigns in European Republic As Elections Are Close at Hand — Liberals Appear to Be Leading.

PARIS, May 8.—The French electoral campaign has been waged in greater political confusion than has existed in the country since, just after the fall of the Second Empire, a royalist parliament was sent to Paris to inaugurate the Third Republic.

Party lines are so broken and party politics so vague that political prophets are at a loss to find a basis for any sort of predictions. The only certain element in the situation is that for several months the pendulum has been swinging toward the Left, that is to say in favor of the more liberal parties, Radicals and Socialists, and against the moderate and conservative government majority.

All the special elections held since last fall, including parliamentary, city and departmental, have shown large gains for the Socialists and Radicals. Local circumstances entered into some of these results but on the whole they are accepted, even by the moderates and conservatives of the "National Block" as showing a decided tendency toward radicalism and socialism.

The Radicals and Socialists, however, have big gains to make if they wrest the majority of the chamber from the "National Block" which, in 1919 won 116 seats from them and constituted a government coalition of 400 members in the lower house, in spite of the fact that the Radicals polled 2,000,000 votes as compared to 1,800,000 in 1914, and the Socialists increased their vote of 1,400,000 in 1914 to 1,700,000. The Radical and Socialist coalition, however will not go to the country with the full strength of the parties, as polled in 1914. The Communists have supported a great deal of the strength of the Socialist party. Only the result of the coming election will show how many votes the Communists have taken, but surface indications are that the faction which takes its orders from Moscow will poll in the neighborhood of 1,000,000 votes. This would leave the Socialists with about the same number, supposing that the two factions together show a small gain over 1914.

The Radical party also has been weakened by the resignation of exclusion of a number of deputies who supported Poincare's foreign and fiscal policies. These men have formed a new Radical Federation, which will cooperate with the other groups of the government majority.

Lord Mayor of York Will Not Be Kidded

YORK, England, May 8.—The Council of the Corporation of this town are a lot of piffing frauds in regard to the recognition of the Civic Sunday, is an utterance of the first Lord Mayor, Alderman Dobbie. He added that the members of the corporation have recently attended church in such small numbers that he would not waste his time putting on the mayoral robes, even to keep up the traditions of the city, if other members would not accompany him. "If they have kidded other Lord Mayors to go to church in these circumstances, they won't kid me," Mr. Dobbie declared.

Visiting Pianist Of Germany Is Impressed With Music in Country

BERLIN, May 8.—The United States within 30 years will be producing an unlimited amount of American music fully equal to the work of the composers of Europe, in the opinion of Ignaz Friedman, the German pianist, who recently returned here after a tour of the United States. Mr. Friedman was particularly impressed with the interest in music shown in cities of the middle west.

NEW PACKING METHODS

ORLANDO, May 8.—Several new methods of packing and shipping citrus fruits are expected to grow out of a meeting of his officials called for this city on May 13 by B. W. Dunn, chief engineer of the American Railway Association. Meeting with the railway officials will be representatives of the large citrus marketing organizations of the state. Discussions will revolve around proposed improvements of shipping containers and methods of loading cars.

The strength of the different groups in the present Chamber is as follows: Republican Democratic Entente (National Block), 170; Independents, mostly royalists, 27; deputies belonging to no group, 22; Republican and Social Action, 47; Republican Democratic Left, 48; Republican Left, 56; Republican Socialists, 32; Radicals, 82; Socialists, 50; Communists, 13.

Practically all the parties, excepting the Communists, Socialists, Radicals, Republican Socialists and a few Republicans of the Left, were in the government majority and were classed as part of the "National Block." The full strength of the Chamber was 626, but a number of seats were vacant and some deputies not inscribed on any list. The next Chamber will contain only 584 members. The Radical-Socialist-Republican Socialist coalition must win 115 seats from the government majority in order to gain control.

Japan Imports Wheat As Rice Prices Rise

VANCOUVER, B. C., May 9. — Advances in the price of native rice are forcing Japan to buy Canadian wheat in heavy quantities, according to T. Shimusaki, representative of a Tokio milling firm, who is investigating the wheat situation.

Mr. Shimusaki said Canadian wheat could be imported by Japan at about 15 cents a bushel cheaper than Japanese wheat could be produced, was much cheaper than rice. The Japanese people, he added, have come to prefer wheat to rice.

Japan has imported 80,000 tons of Canadian wheat in the last three months, according to statistics of the port of Vancouver. China also has been a heavy purchaser, taking 120,000 tons.

SIX MURDERERS OF CALMES HANG TODAY AT AMITE

(Continued from page 1.) asking for clemency.

It had been established that only one, and at the most, two men, had fired at Calmes and for three years efforts made to determine the guilty man. He would not admit his guilt nor would any of his companions disclose his identity, if they knew it. The Saturday before Easter Leona requested the Rev. Father Raymond Carra, of St. Patrick's Roman Catholic church, in New Orleans, to visit him that he might perform his "Easter duties". Leona, in his confession to the priest, said he fired the shot which killed Calmes. Father Carra told him he could not hope for forgiveness from his Maker if he did not make a public confession and clear his five companions. Leona agreed to do so, and on Easter Sunday, in the presence of the superintendent of the Orleans parish where the men had been held for safekeeping, Father Carra and newspaper men dictated a confession and signed it.

In his statement Leona said he and Giglio came to New Orleans late in April, 1921, to make and sell whiskey. He had been told by Vito di Giorgio, who later was killed in Chicago, that he could become rich in a short time if he robbed the bank at Independence. Leona thought well of the suggestion and asked Giglio to join him. He had met Lemantia in New Orleans and when he broached the subject to him Lemantia and his friend Rini agreed to participate. The next step was to find a man who knew the highways about Independence and Deamore was persuaded to become a member of the party. Deamore asked Bocchio to join them and the sextette set out for Independence. When the bandits approached the bank shortly after midnight Leona and Rini, Leona said, left the car while the other four remained. Rini, however, Leona said, did not accompany him, but disappeared in another direction.

"I tried to see out of the bank means of the rear yard of Mr. Calmes' house," the confession con-

tinued. "As I jumped over the fence one of the pickets broke and the noise must have awakened Mr. Calmes. Mr. Calmes opened the door and shouted 'Halt!' and fired four shots at me. Being surprised and frightened I fired two shots in the direction that the fire of Mr. Calmes' revolver was coming from, but unfortunately for him and for me I killed him. I was alone when Mr. Calmes shot at me and I alone returned the fire which killed Mr. Calmes."

When the confession was made public Tangipahoa parish authorities, attorneys and the widow of Calmes pronounced it "a trumped-up affair" in an attempt to save the lives of Leona's five companions. They pointed out that his confession did not coincide with the evidence and Mrs. Calmes declared she had seen two men. There also was a question concerning the fact that Leona is supposed to have fired, for bullets were found where Calmes was said they could not have come from his pistol or that of Calmes.

Another feature dealt upon by those who placed little faith in the confession was that it came after all hope to escape execution had vanished, and that Leona had contracted tuberculosis during his long confinement, which physicians said would prove fatal within a few months.

This was referred to by Governor Parker in a formal statement April 23 in connection with his declaration that no reprieve would be granted. After stating the convicted men had had the benefit of counsel the Governor added: "At the 11th hour one of their number, now afflicted with tuberculosis, seeks to assume responsibility, but in his own statement convicts every man proven to be a member of the party."

"Keeping thoroughly posted with every detail of these cases, having carefully watched the trial, realizing mine is an executive duty and being determined to back up to the fullest extent the decision of the courts, after having carefully read all the evidence, in my opinion these men are guilty of deliberate conspiracy, wilful murder, and the law should take its course without interference from the Governor. This decision is final."

CIVIC IMPROVEMENTS.
HAINES CITY, May 7. — Several miles of streets will be widened and paved within the next three months with proceeds of the bond issues authorized in the election held here on April 29. The total of civic improvement expenditures will be between \$250,000 and \$265,000. The issue which carried by a 40 to one majority also provides \$230,000 for improvement and extension of the city water system and water mains for fire protection.

RANCHER HEARS WHISTLING SPRING.
VISALIA, Cal., May 7. — Scientists are investigating a miniature volcanic eruption reported by a rancher and his wife who live near here. They said they heard a peculiar whistling sound and saw clouds of white smoke rising from the vicinity of an old spring. The whistling continued for several minutes, then subsided.

HONG KONG, May 5. — The passenger motor boat Oporto, sailing from Hong Kong this morning to Canton was seized by pirates immediately upon her departure by pirates who killed the Portuguese skipper and the Indian guard, and kidnapped forty passengers.

Is Any Person Indispensable?

Have you the idea that you are indispensable? Do you think that your presence is absolutely necessary for the continuance of the business in which you are engaged or the institution with which you are connected? If you have this idea, the more quickly you change your notions the better off you will be.

Hugo Stinnes, they say used to chuckle "Europe Can't Get Along Without Me. Germany, Austria, Hungary, they can't get along without me—and neither can England." But just at the time he thought himself to be the biggest and most important man in the world, death came along and decided he had to turn over his work to someone else.

It is easy for us to get to the point where we consider ourselves indispensable to the future life of the movement or business concern with which we are connected. We get the idea that if we were to step down everything would go to smash. But it is noticeable how well things go when some person, outstanding and considered essential to the life of an organization, suddenly dies.

There is no person absolutely indispensable. The world will continue to go around after we are all gone. Cities will continue to flourish. Improvements will continue to be made. Business will continue to grow. Florida will continue to grow rapidly. Sanford will continue its rapid pace ahead. And so on. One little human being avails little. We are here today and gone tomorrow.

It is up to us to make every moment count for the most but we should guard against allowing the idea to get into our heads that we are indispensable and that things will stop if we quit.

Lo, The Poor Fisherman.

While in Florida the fishing season lasts for twelve months, perhaps what is properly called "the fishing season" begins at about this time of year. In the winter months many of us are too busy to devote very much time to sport of this kind, but as the warmer months of the year approach and the Thursday half holidays roll around, fishing becomes part of our weekly routine.

In Outdoor Life the following detailed description of the fisherman and his ways was found:

He riseth up in the early morning and goeth forth animated, filled with high hopes and exalted expectations.

When he arriveth at his destination, he setteth about his arduous duties. Soon he wormeth his way into the confidence of the unsuspecting and guileless fishes and feeleth not a-shamed.

He gloateth as he contemplates feeding on their flesh, as do the ravens when they view the remains of one of his dead countrymen who hath fallen by the wayside.

He smiteth the water with his rod in his wrath, if the fishes falleth to be ensnared by his hypocritical allurements, and with his slouch hat wageth war on the six-legged parasites which swarm about his head—crazy for his heart's blood.

The heavier and larger fishes are many times during the day drawn to the surface of the water, only to effect their escape, but the unsuspecting and venturesome youth sometimes graceth the frying-pan.

It is with tired limbs, worn out by constant sitting; tired eyes, which have been intent on watching; and eyes-out, befogged brain, taxed almost to exhaustion, trying to concoct new lies to tell his friends, that he ploddeh wearily homeward at night-fall, his feet and clothing soaked with muddy water, a liar, who regardeth not a shadow of the truth.

After he arriveth home, a good, juicy steak greeteth his reawakened interest in life, and after doing it ample justice, he salliyeth forth to greet, repeat, and be the blatant hero of the day.

IN CALIFORNIA his (McAdoo's) foes organized what was declared to be an effective campaign, but it withered to the tune of six to one. In Texas, Governor Neff, a popular official stumped the state for an uninstructed delegation which would presumably put the governor forward, but the McAdoo followers so far outnumbered the opposition that the victory there was almost as outstanding as that in California. Oklahoma indorsed the former Secretary by an overwhelming margin. South Carolina is reported to have committed to the McAdoo banner. Other states to name delegations soon are in McAdoo territory, so that he takes again the rank he held at the beginning of the campaign as the leading candidate likely to go into the convention with a majority of the delegates.—Jacksonville Journal.

MY FAVORITE STORIES

By IRVIN S. COBB

Extremes are drawn to extremes—that is a well-known fact and I cannot direct attention to it. But at least it does remind me of a story. In the sideshow the romance had ripened. The midge fell in love with the geatess. She was nearly eight feet tall; he measured from crown to toe, just thirty inches. But he had just as much love in his soul as though he weighed a ton.

However, the lady was coy; she had been properly raised. She wouldn't even let him hold her hand. One Sunday morning in the spring, when the circus train was lying in a siding, the pair went for a walk across the fields. As they promenade in the grass meadows, the dwarf begged the lady object of his affections for just one kiss. Finally she yielded to his importunities but, in order for his eager lips to reach hers, it would be necessary for her to kneel down. Merely bending over would not do—there still would remain a hiatus of at least a foot between her face and his upturned nose.

And she absolutely declined to kneel. In the first place, the matter was not dignified; in the second place the ground was muddy, and she had on her smartest walking skirt, made to order for her by a concern specializing in tests

As Brisbane Sees It

Southwest and Northwest. Ford Bids Real Money. Rough Abroad, Smooth Here. First Prize for Casting. Copyright, 1924

AN EL PASO bank closes its doors in the southwest, that should know only prosperity. The other day an important bank in the northwest was in trouble and only saved by merging with another bank.

Farmers can't make a living, and while everything is done for railroads and other corporations, to make sure that their stockholders get dividends, nothing is done for farmers except to give them fatherly advice.

SOMETHING BETTER must be done before long or there will be trouble in more banks, and trouble in two old political parties. They have done nothing in many years for anybody except politicians and corporations.

HENRY FORD bid real money for Muscle Shoals, agreed to manufacture fertilizers, and the farmers know that he would manufacture them. Many other concerns are now bidding, but not real money. One bid offers one hundred and twenty million dollars, and reminds you of the conversation between Messrs. Webber and Fields, burlesque actors, in the old days: "I'd give \$5,000 for that dog," says one.

"But, Mike, we ain't got \$5,000," says the other.

"I know it, but ain't it a good offer?"

Ford offered to pay the government \$215,000,000 during the period of his lease, and he has the money.

WE ARE MORE gentle here. Men steal a navy reserve or take a few hundred million out of a government shipbuilding or airplane enterprise, but they are not shot to death. They go to Palm Beach, or to Paris. And their lawyers say, with hearty approval of many newspapers, that it is outrageous to make a fuss about such things, and do so much investigating.

THE RECORD for casting a fish-hoop goes to F. C. Berger, who heaved his line, with a four-ounce singer, more than 495 feet. That's interesting, but not important. Whita's wanted is ships with steel nets, to scoop up each day a few thousand tons of fish that are waiting to be caught, and distributed to the people at a fair price.

THE GOVERNMENT should help the fishing situation by killing off the tens of thousands of small-sized whales that are the original manure. It is a pity in cold northern waters. Joseph E. H. of Milwaukee has seen those whales literally in tens of thousands following the shoals of salmon.

D'ANNUNZIO, having tried everything, is now bankrupt and will sell his original manuscripts. He need not fear that he will know actual war, for Italy will see to that, and Mussolini personally would see to it if Italy didn't.

The king has just made D'Annunzio a prince. Mussolini will give him a pension if he needs it. Dictators are able to take short cuts. The best thing that real kings did was penning able men. But to live in a republic where the really able man can pension himself is better.

WHILE JAPAN tells us how much insulted they feel because we break let them come into the United States, the Chinese are warning Matsui, Japan's Foreign Minister, that they, the Chinese, are not allowed to settle on Japanese soil. Somebody in Japan must lack a sense of humor.

"THE FORCES of evil are always organized," says President Coolidge to Republican women of Philadelphia, "and the virtuous must also be organized."

The inmate of a public institution, craving alcohol, cut off his hand, knowing that whisky would be given to him to sustain his heart. You rarely find the virtuous going to such extremes.

DIGNITARIES of the Methodist Episcopal Church suggest deporting all aliens caught violating the Volstead act. That new idea would enable the shipping board to earn a profit, if it got all the business. The Methodist gentlemen are mistaken in their statement that aliens make up the bulk of those who break the Volstead law. The gentlemen who go down to the sea in ships to meet the rum fleet 12 miles out are, as a rule, Americans of several generations.

DR. BUTLER, of Columbia, has legitimated the "drys" and delighted the "wets" by coming out against the Volstead Act. At the head of a great college, observing the effects of "prohibition" on thousands of young men and on the public generally, President Butler's opinion can not be ignored, even by the most virtuous.

SOME DEAR YOUNG masters of the Y.W.C.A. seek to lacerate the people with loud cries of "No, no," to the suggestion that all Americans be the Y. W. C. A., regardless of their religious belief, and they eagerly protest against shipping Japanese out of the United States. They may exclude, if they so wish, Uncle Sam may not.

CIRCUS DAYS ARE HERE AGAIN

KEEP THE DOLLAR MOVING MIAMI DAILY NEWS

"You pay him, he'll pay me, I'll pay you," and three bills are paid by the same coin, and without added effort on the part of any or the need of making sacrifices; though it would be better to sacrifice some pleasures now and then, if such deprivation were needed in order to pay debts. Every week should be a week for paying bills, but since it is not, this week has been designated as "Pay-Up-Week" in Miami and vicinity, and if the mayor's proclamation is heeded many an old account will be settled and many a Miami man will get on the right side of the ledger.

THE LOVE OF MUSIC

PALM BEACH POST

The coming of Music Week brings with it the thought that from time when the morning stars first sang together, man has found in music the same of peace and culture. Music has its own purposes in the world no less than congresses and administrative speeches. Its uses and benefits are manifold and subtle and altogether wonderful.

While the lessons we first learned are the best; and the songs we first heard sung are the sweetest; still, there are anthems and airs and melodies of times more modern that raise us far above the workaday life and here us to an elevation of peace and joy and entertainment. The music that sends men into battles and thrills them and stirs them until every drop of "fighting blood" is tingling on its way, is but a variation of the cradle song that in an earlier day soothed to rest those same valiant soldiers. When the funeral dirge is played and notes come whisperingly low and soft in solemn measure, that is but a differentiation of the notes of the mocking bird and thrush when in their happiest moments they sit on the highest treetop and pour out their gladsome hearts.

ADVERTISING

TAMPA TRIBUNE

There are still some dumbbells who claim that newspaper advertising doesn't pay. If they are right, then we must write down the great American public as hopelessly insane for a people must be insane who throw away, spend without return, the vast sum the American people pay every year for advertising space.

A statistician has figured out the record for 1923. The total spent for newspaper advertising in that year were not including magazines or other mediums, but daily and Sunday papers only—amounted to \$1,722,861 a day! Advertising is paid for directly by firms and concerns which use it to give their message to the people. But the public really pays for advertising. It is figured as a part of the cost of everything that is bought and sold. That the advertisers of this country spend nearly \$2,000,000 a day to tell the people what they have to sell and find the investment profitable, else they would not keep it up, is a responsive answer to the few who are so unenlightened as to maintain that it is a waste of money.

DAN DOBBS SA... Many parents are getting long terms with their children. A used car owner tells me that he is driving a bargain. People go to a lot of trouble should keep away from. Absence of winter makes heart grow fonder of it. Many of us can't give clothes to the poor because we would get sunburned all winter. Detroit woman dived into a lake, but she didn't claim it was the wrong side of the street. Honolulu has the world's efficient phone system, which not be so darn efficient. There are more ducks in the world than in all the rest of the world but not more smart ducks. We suggest Bergdoll be president of the United States for a term. Cuba is shipping us candy with booze, so taking candy from the baby may become a new thing. Seattle society woman has a pet and we just wonder how hubby has to put the lion and the lamb together. It never rains in the Sahara. Gobi deserts so they would be places for penics. Thousands of men today their lives to the fact that women shoot with both eyes. A Virginia boy who thought could rob a man and get away with it will be 50 before he gets according to a judge.

Business Women Meet

The Sanford Association of Business Women held their meeting at the Phoenix, Wednesday. An out-of-town guest for luncheon was Mrs. Ballard, of Altamonte Springs.

The meeting was a purely social one.

A vote of thanks was given Mrs. Fannie Munson for her musical Monday night and Mr. Holly's appreciation of Mrs. Munson, published in the Sanford Herald of May 1923, was read aloud to the club.

Among the business women were Mrs. Maxwell, Mrs. Skipper, Mrs. Leonard, Mrs. Meekin and Miss Mary Zachary.

Women's Club Column

(Mrs. John C. Leonard, Chairman) The Sanford Woman's Club has added its quota to the celebration of National Musical Week which at the business meeting yesterday a short musical program was given.

Two of the most beautiful numbers on the program were the singing of "America the Beautiful" by the club women and a trio by Mrs. Colcolough, Leak and Mrs. Fox, accompanied by Mrs. Deas. The slogan of the club women of America is "To make good music popular and popular music good."

Mrs. Harry Heeron, chairman of the Parks for the Woman's Club gave her annual report and told of her work in adding plants to the various parks and other beautification work for the club in Sanford. The names of the women who generously gave plants to Mrs. Heeron for her splendid work and to the women who so generously gave plants for the beautification work were:

It will not come as a surprise to many of the members the raise in dues, for each of the following departments the dues are now each \$3.00: Literature, Music and Welfare; the Social department dues are now \$7.00 and associate membership is \$12.00 per year. All club dues are now due and payable but a new by-law has been passed that if club dues are not paid by the first of June that for each month in arrears the delinquent member will be charged fifty cents per month and this will have to be paid before the member can be in good standing as to club membership.

To aid the members in remembering their club dues a membership drive will be put on during the last week in May.

The recording secretary resigning to accept the chairmanship of the music department, Mrs. F. F. Dutton was unanimously elected as recording secretary of the general club.

The social department will have a subscription bridge on Tuesday night at 8 P. M. with the price fifty cents per player. Not only are the members of the social department invited but any friends interested.

A most delightful and beautiful tribute was paid to the retiring president, Mrs. R. E. Toler by Mrs. Wight, the incoming president. Mrs. Toler's work is too well known by the club women of Sanford not to be appreciated for her untiring efforts and her self-sacrificing ability and Mrs. Wight's words found a ready response in the hearts of the members present.

Mrs. E. M. Galloway who has been ill at her home on Cameron Avenue is now in Phoenix Sanitarium and her many friends are glad to know that this will in no way interfere with her club duties and that she is already busy on the next year's year book.

Mrs. Chase Entertains Honor Mrs. Mauldin

Among the affairs that have been given in honor of Mrs. Mauldin, was the all day party of Mrs. S. O. Chase, when she entertained the members of the Entre Nous and a few extra guests at her bungalow, Idleworth, in the Chase grove, several miles from Sanford.

The ladies motored in the morning and enjoyed a lovely picnic lunch after which several rubbers of bridge were played.

The guest of honor received a grapefruit knife as a souvenir. Mrs. Turner, making high score for the club, won a handsome pair of pillow cases. Mrs. Barrett, making high score over the other guests was awarded hand made handkerchiefs.

The guests attending were Mrs. Mauldin, Mrs. Barrett, Mrs. Luque, Mrs. Conolly, Mrs. Nerrling, Mrs. Whitner, Mrs. Turner, Mrs. Mobley, Ms. Harry Wilson, Ms. Ball and Miss Mattha Fox.

Sanford is certainly among the cities observing the National Music Week. One of the interesting events of the week was the concert at the Hintermister Music Store, Wednesday afternoon. The attendance was splendid, from forty to fifty people turning out to enjoy the Edison programme rendered from 4 to 5 o'clock.

Nothing but the best records were played and classical music predominated and every one who took advantage of this opportunity of hearing good music on the phonograph, went away believing that music is a most important element in the life of any people.

Mrs. Lawrence Brown had the pleasure of entertaining several of her library friends from Orlando yesterday afternoon. After visiting the Sanford library, which they thought most attractive, a dainty luncheon was served at her home on Myrtle Avenue. The guests included Miss Olive Brumbaugh, librarian, Mrs. Wallace, Mrs. Conner, Miss Barnum and Capt. Albertson, for whom the Orlando library was named.

Miss Carrie Grey, proprietress of the Phoenix, has returned from a trip to Orangeburg, S. C., where she went to accompany her sister, Mrs. J. L. Zura and baby, home, who have been visiting in that place.

A party of young people motoring to the beach Thursday afternoon were Miss Alberta Aycock, Miss Jewel Carter, Miss Drane Roberts, Miss Anna Mason, Mr. Bryce and Mr. Johnson.

Thursday evening at 8 o'clock the members of Mrs. L. N. Hanzel's class of boys, the G. & G. Class of the Baptist Church, each inviting a young lady, went out to the Boy Scout camp at Silver Lake to enjoy a good swim and picnic supper. There were about twenty in the party with Mrs. Hanzel as chaperone.

A bright fire was soon glowing and wieners toasted to a delicious brown which when served with the picnic lunch, which was spread on tables in the mess hall, proved most tempting. At 9 o'clock the young folks started for home, having had a general good time.

"My Baby Was Nervous And Very Fretful"

A nervous and fretful child is a sore trial to the tired mother, who often is at a loss to discover the cause of the little one's distress. But babies have nerves just like grown-ups and can only express their feelings by crying. In such cases a dose or two of Teethinga will usually soothe the fretting child and bring quietness and peace to the household.

Mrs. J. M. Butler, of Orlmer, Texas, writes: "I have four little ones and used Teethinga with all of them. When baby is fretful and nervous I give her a dose and it quiets her nerves and she is soon laughing and playing."

Teethinga contains no opiates or other narcotics and can be safely given to the youngest child.

Teethinga is sold by all druggists, or send 30c to the Moffett Laboratories, Columbus, Ga., for a package and a free booklet about babies.

ST. LOUIS RECRUIT IS IN GOOD FORM; HOLDS INDIANS

Sialer Is Star of Game Getting His First Homer of Season—'Big' Train Loses to Boston Red Sox.

CLEVELAND, O., May 9.—St. Louis made three out of four from Cleveland today, winning four to one. Wingard, college recruit, held Cleveland to six scattered hits. Sialer won for the Browns. With two out in the first inning, he singled and stole second, scoring on McLanahan's single. In the fifth with two out, he hit his first home run of the season, scoring Ellerbach ahead of him.

Score by innings: St. Louis..... 10 0 10 0 0—4 6 0 Cleveland..... 0 0 10 0 0—1 6 0 Batteries: Wingard and Severeid; Smith and Sewell.

Boston, 4; Washington, 2. Boston, 4; Washington, 2. Triple off Walter Johnson in the first inning scored two Boston runs and was the outstanding feature of the Red Sox four to two victory over Washington today. Ehmske held the visitors to five hits. While Johnson struck out eight, he walked three, and hit two and all three of the players were passed eventually scored.

Score by innings: Washington..... 0 10 0 0 0—2 5 0 Boston..... 0 10 0 0 0—1 6 2 Batteries: Johnson and Reul; Ehmske and O'Neil.

Golf Contestants Will Face a Tricky Course in Detroit

DETROIT, May 9.—The golf course at the Oakland Hills Country Club, where the national open championship will be played June 5 and 6, is regarded by expert golfers as providing about the best test of golfing of any course in the country. Deceiving distances, shifting winds and fairways that are well trapped are some of the handicaps that beset players unfamiliar with the links, and even those who have played over the course before must be on their game, or they will find themselves in trouble.

The total yardage of the course is 6,771 and par is 72. "Always there is a wind. Most often it is from the west, and it is the player who can't get out holes but dead against him on 7, 8, and 9, while on the other holes he is never in any trouble. The breeze is never constant, shifting frequently enough to make the course a different test entirely, even on the same day. The difficulty found by most golfers trying out the course for the first time lies in the deceptive distances, resulting in under-clubbing shots. Although the fairways are wide and rolling they are not so well kept, and shots that are sure to cause the proffer who makes them considerable trouble.

Number 1 hole of 338 yards calls for a down hill drive, with deep traps about midway down on either side of the fairway to catch holes and slices. Number 2 hole is 389 yards, with a wide trap running across the fairway to catch topped drives. No. 3, 109 yards, is the first short hole, with green well trapped, while No. 4 is an elbow hole and measures 410 yards. The drive from No. 5 tee calls for a carry over a slight hill, and the same condition prevails on the next hole. Number 5 is 425 yards.

Number 9 hole is only 250 yards, but any curves either to right or left from the fairway take the ball into traps. The 450 yard No. 10 and the 360 yard No. 11 require careful drives and second shots to avoid hazards. The No. 12 hole of 600 yards is the longest of the 18 and regarded as the most difficult. The drive is from a hill into a valley, with a pond at the right about 200 yds. from the tee. A slice is apt to go into the water, while on the left is long grass. Par for the hole is five.

The 350-yard No. 13 is negotiated with a mashie pitch to the green which is surrounded by sand. The drive on No. 14 calls for a carry of 175 yards over a marsh. The hole is 475 yards. Number 15 hole of 390 yards is another elbow and No. 16, measuring 360 yards, is one of the most picturesque and difficult of the course. Number 17 is another short hole (183 yards) with a par three, and No. 18, which is 420 yards, is an elbow calling for a good brassie to follow the drive.

ELECTION DATE SET.

MIAMI, May 8.—The city commission has fixed May 21 as the date for holding an election when the people will vote on issuance of \$350,000 in bonds for public improvements. Classic Marathon Race Crown Event Of Track Athletics

NEW YORK, May 9.—A silver cup donated by an enthusiastic Frenchman to a runner able to negotiate the marathon distance "without dying as a result," was responsible for the revival of this classic event, considered today the feature of the Olympic Games and the crowning exhibition of athletic prowess.

The marathon, 42 kilometers or 26 miles 385 yards, takes its name from the site of the ancient battle of that name, and its distance that over which the runner with news of victory travelled to waiting Athens.

M. Michel Breal, a young Frenchman, advanced the plan to put such a race on the program when Baron Pierre de Coubertin first suggested the revival of the Olympic Games.

The first race, held at the 1896 games at Athens, was won by a Greek shepherd named Spiridon Louys, who fasted for two days and spent the nights after his triumph in prayer before holy pictures. Astounding tales of human endurance have been told about athletes who have won honors in this long grind. In Antwerp in 1920, Hannes Kolehmainen, a Finn, won first honors in the Olympic record time of 2 hours, 52 minutes, 35 1/2 seconds, crossing the finish line 13 1/2 seconds ahead of J. Lossman of Estonia. Four minutes behind Lossman came young Italian, A. Valerio who, upon crossing the finish line, turned about and addressed the spectators by turning a double somersault to prove his physical condition. A. Broom, a Belgian, followed the Italian to the tape and then made an extra lap, the big track carrying a shield with his national colors.

BIRMINGHAM, May 9.—The Barons won out in a hectic struggle here today over the Chattanooga Lookouts, 7 to 6. After losing chances to the score, or probably in the game in the seventh, the Barons came back in the ninth and scored the tying run, winning the contest in the tenth. Score: R. H. E. Chattanooga..... 300 0 20 1—5 12 2 Birmingham..... 0 10 0 0 1—7 15 1 Roy, James and Nunamaker; Deates, Gray and Robertson.

TAVARES, May 9.—In a slow game of the national pastime here this afternoon, the Winter Park club defeated the locals to the tune of 9 to 1. The score: R. H. E. Winter Park..... 0 12 1 0 Tavares..... 1 3 1 1 Taylor and Overstreet; Barksdale, Thornhill and Robins.

UMATILLA, May 8.—McClanahan this afternoon beat Lassater in a hurling duel and Umatilla won a fast game from Apopka, 2 to 1. The features of the game were: McLanahan's stop and throw to rob Johnson of a hit in the second and a stellar play by York in the seventh. McClanahan struck out 14 men. The score: R. H. E. Apopka..... 1 0 4 2 Umatilla..... 2 0 2 1 Lassater and Sharpke; McClanahan and Patrick Johnson.

According to Rickard's heavyweight program the winner of the Romero-Johnson fight will be matched with Jack Renault in June. The victor of that contest will probably face Wills in a double fight in the opening of the little Madison Square Garden when Gray which the promoter now plans to stage at Boyle's Thirty Acres September 6.
