State's Biggest Golfing Event Opens Here Tuesday

Noted Pros To Be Here For PGA

Golfers from every section of the country will converge on Sanford next Tuesday to take part in Florida's biggest golfing event, the Mayfair Inn \$15,000 PGA Open. Four of the nation's outstanding and leading golfers have indicated that they will be in Sanford for the forthcoming tournament.

Doug Ford, national PGA Champion in 1955 who finished second to Sam Snead in the Vardon Trophy race, will be among those at the Mayfair Inn's \$15,000 PGA Open. He was named PGA golfer of the year and finished in third place with \$33,000 winnings in 1955.

Dardner Dickinson Jr., of Panama City, who just won the Palm Beach open Sunday, will not drop out of Sanford for the next week's event. Dickinson tied for seventh place in the Mayfair Inn Open last year. He won the Miami Beach Open early in 1956. Dickinson has been under the tutelage of Ben Hogan.

Bob Toak, who has indicated he will be in Sanford for the Mayfair Inn Open, won the World Championship of Golf in 1954. He got a "birdie" three on the 18th hole which brought him \$50,000. In 1954 Toak also won the Balon Rouge Open, the Eastern Open and the Azalea Open and finished that year with the total earnings of \$65,819.21.

Dow Finsterwald is another top golfer to be here for the Mayfair Inn event. He is the second leading money winner for 1956. Finsterwald finished here last year in a tie for fifth place. He won the Ft. Wayne Open in 1955 and placed second in the Colonial Invitational which was played in Ft. Worth, Tex.

Wekiva Is Being Worked On

Game Commission officials of the Hyacinth Control Division indicated today that they will complete the job of eradicating hyacinths in the Wekiva River by the end of this week.

"We hope to have the river navigable all the way up to the St. Johns," said W. R. Holley, Field Supervisor of the Hyacinth Control Division. Starting last Monday, Holley explained, and after finding that the use of outboards, airboats, and airplanes were not successful, the Game and Fresh Water Fish Commission, through its Hyacinth Control Division, contracted for the use of helicopter service from appropriations by the state for St. Johns, Lake and Orange counties to spread 24D over the hyacinth infested areas. Jack DeJean, Director of the Hyacinth Control Division stated that "Weather permitting, we hope to complete the project. At this date, hyacinths are dead to both forks, and we will continue until it is clear all the way to the St. Johns."

Orange County had indicated the would clear the block at State Road 46.

The entire operation will be followed up by a boat crew, said Holley, however, no date has been set for this phase of the work.

Helicopters have been spraying the 2-4-D mixture daily. This method allows the low flying machine to glide down between trees, hover, and even back up to get to the "hard-to-get" places we have not been able to reach otherwise, Holley explained.

"This has been a tough job," Holley said, "it is one of the most difficult rivers in the state to reach."

Efforts to eradicate the hyacinths in this particular river were instigated by a joint meeting of sportsmen, boards of county commissioners, and officials of the Hyacinth Control Division a number of weeks ago. Boards of county commissions agreed to pool their efforts to eliminate one of the bad hazards in our streams and lakes, at the joint meeting.

"EYES AS DEEP AS THE SEA" are those of Captain Red Beard, skipper of the Trotramundus, docked at the Sanford Bandshell. He is shown as he searched Lake Monroe from aboard his 23-foot ketch before taking off to visit the entire length of the St. Johns River. (Staff Photo)

Captain Red Beard:

Sailing Is Lonesome But Interesting Life

A rather youngish looking, full bearded man, who prefers to be known as "Captain Red Beard," dropped anchor along the seawall at the bandshell yesterday to spend a while around Sanford. His small cabin sailboat isn't the gleaming white and shiny brass that one might expect of a man of the sea, but Archibald "Yow" seems to like to loll about his stony deck which, no doubt, he knows inch by inch.

Bass fishermen, duck hunters, boat captains and others plying the St. Johns River may have seen this rather strange red bearded sailor. And once you see the beard, as hefty a one as might be expected on a sailor, it is readily understandable why he has been dubbed "Captain Red Beard."

Yow, casually leaning back against the cabin of his boat said "Having knocked about the Atlantic, Caribbean, and Pacific for seven years, off an on, gathering a bit of salt in my beard by the time I reached the mouth of the St. Johns early in November, I was ready to try fresh water for a change."

"I'm off to cruise the full length of this beautiful river, all the way to its headwaters," said Captain Red Beard as he waved his arms out across the lake.

"This will be no easy feat of navigation," he said, "because my 23-foot ketch 'Trotramundus' has no motor."

Even the sails, he said, which are its chief means of propulsion, are ineffectual along the narrow, twisting stretches of the stream, where the thick stands of trees on each side blanket off the wind.

"A frequent use of a 14-foot oar for sculling through deep water and poling around the edges of shore to avoid the swift down stream current is necessary," Yow said. And he exclaimed "That is hard work."

In maneuvering his cabin sailboat around for photos to be made, he demonstrated the use of the oars (and he has several of them) powered by huge sinewy arms that swell as he manipulates the only power he has other than the wind.

"What is the speed of your boat while traveling, he was asked. "Of course, my speed will not be great, particularly on the upstream trip," he commented. "Sometimes I oar along at a quarter of a knot and at the most when struggling against the strong current I make only three knots."

"On my return trip downstream I will have the current with me and I can go faster," he said. "Captain Red Beard was rather quick to comment, however, that speed is not important. I am out to see the river and meet the people who live and work along its shores. I have found from previous experiences in faster ves-

"I USED THIS METHOD of moving more than anyone would think," Captain Red Beard yelled from his ketch as he maneuvered around for this picture. (Staff Photo)

Work Scheduled To Begin Dec. 6 On State Road 500

The State Road Department today reported that work is scheduled to begin by December 6th on an \$842,061 construction project on State Road 500 in Seminole and Orange Counties.

A contract for this work was awarded to W. L. Cobb Construction Company of Tampa, who was the apparent low bidder when the project was let on October 11th.

Work on this project is scheduled to take 320 working days for completion, and consists of grading and paving between a point approximately 3.5 miles northwest of Orlando and a point northwest 2.01 miles. Also constructing double overpass bridges over the S. A. L. R. R. tracks; a double underpass bridge at the A.C.L. R. R. track and 129-ft. double grade separation bridges over a County road.

The lot referred to is a section of property located on Commercial Ave. on which a bid was expected from a local firm.

Commissioner Olin Foraker asked Lins, "What part did you want the county to play in this?"

Lins replied, "We would like to buy the lot."

Explaining that it would be necessary to hold a public sale for the property involved in the request, Commissioner Fred Dyson said "It looks like you will have to be at the sale if the property is to be bought legally."

Clerk O. P. Herndon explained to the commissioners that "at present the lot is dedicated as a public park. The county does not have to sell."

Seminole County Attorney Mack N. Cleveland Jr. said "We had the same situation on Park Ave. property. The city has indicated that they will go along on the same plan in regards to this property."

Commissioners agreed that no definite answer could be given to the Farm Bureau in regards to their proposed building.

Farm Bureau Seeks Lot For Proposed New Building

"We will finance the building ourselves," said W. W. Lins, president of the Seminole County Farm Bureau when he appealed to the Board of County Commissioners this morning for property on which to construct a Seminole County Agricultural Building.

"Don't you think an agricultural building is important to Seminole County?" Lins asked the commissioners.

Commissioner John Melach said "I think the building is important but not important enough to use our most valuable lot."

American Legion Post To Join FHP Auxiliary

The Campbell-Losing Post of the American Legion last night unanimously agreed to participate in the Florida Highway Patrol Auxiliary and will become a part of Troop D.

Overwhelming response to an appeal made by Florida Highway Patrol Trooper T. Mark Mack and Capt. Ralph Breckenridge of Troop D, resulted in 20 applications filed for participation in the program and to become part of the organization.

Commander Lynn Lyon of the local American Legion Post said that "Trooper Mack and Capt. Breckenridge outlined the program and what the needs are in this county, and how the efforts of the legionnaires would fit into the community traffic problem and in national emergencies."

Chief duties of the FHP Auxiliary members are to ride with the Trooper to assist him in automobile accidents, directing traffic, and to take part in national emergency efforts, it was explained.

Since the program has been approved by all members of our post, said Commander Lyon, we expect to have at least 20 men trained within a short time.

"There will be eight men to the squad, and we hope to have our own squad to assist in these emergencies," said Lyon.

"With as many as 20 applications, classes will be held here in Sanford twice each month," he said.

"I urge any veteran with an honorable discharge, that is interested in taking part in the program, please get in touch with George Maybury by phoning 33 to make arrangements for an application blank," said the local American Legion post commander.

Jerry Collins, operator of the Sanford-Orlando Kennel Club was

also a guest speaker at last night's American Legion Meeting where he outlined "the program to participate in Charity Night along with other civic organizations on Thursday night Dec. 20."

"We will have a bigger and better program than last year's for the second Annual Charity Night," said Collins.

The American Legion Post No. 33, at 8 p. m. on Charity Night will present an American Flag to the Sanford-Orlando Kennel Club for their new flagpole which will be dedicated at that time.

Next meeting of the local American Legion Post will be an Annual Christmas Party on Monday Dec. 17 when admission will be one toy to be turned over to the Sanford Kids Club Underprivileged Childrens Christmas Tree.

Ministerial Assn. To Elect Officers

The Seminole County Ministerial Association will meet tomorrow morning at the School Administration Building on Commercial Ave.

Myron A. Reck, owner and manager of Radio Station WTRR is slated to speak to the ministers on "religious broadcasting."

A nominating committee headed by the Rev. W. P. Brooks Jr. will make its report and officers for 1957 will be elected.

The Rev. Milton Wyatt will preside.

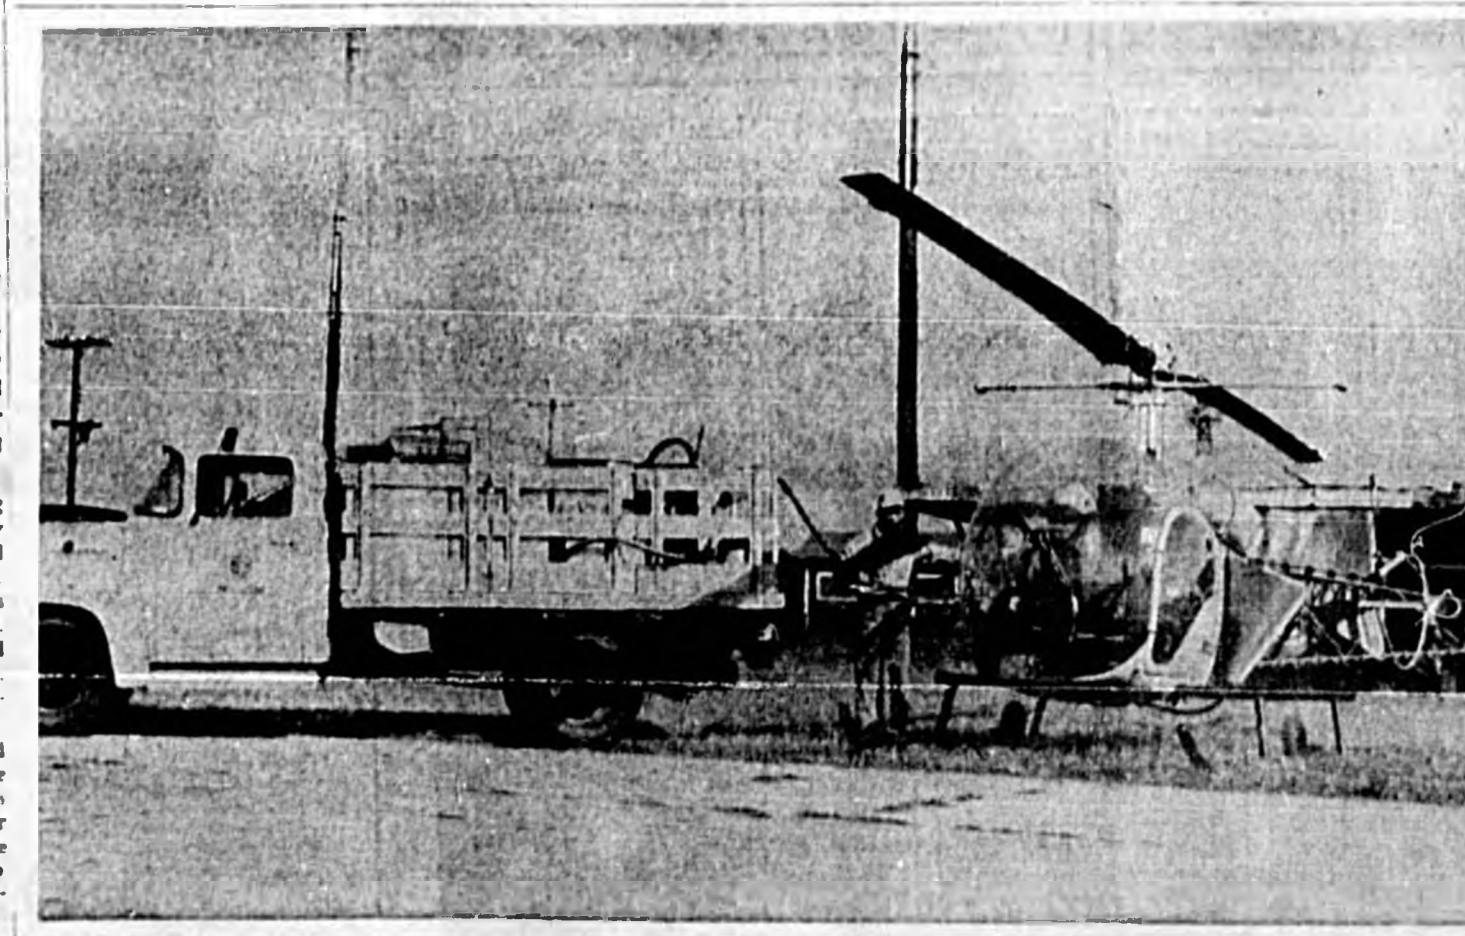

Christian Church Congregational Meet Wednesday

The annual congregational business meeting of the First Christian Church will be held Wednesday, beginning with a potluck supper at 6:30 p. m. Reports on the activities of the church during the past 12 months will be heard from Pastor Perry L. Stone, treasurer, W. H. Young, Sunday School Superintendent Clyde E. Feathers, CWF President, Mrs. O. T. Pearson, and functional committee chairmen. The 1957 budget proposed by the board of officers will be considered for adoption. George W. Morgan will make an inspirational talk.

The report of the nominating committee will be presented by Lester Sharp. New officers will be elected for a two-year term; the nominees being: Earl Evans and Belt S. Purvis for elders; E. C. Dobson, Chandler Vall and John Ross, deacons; and Mrs. Harlow S. Hinson Jr., as a deaconess.

It was announced that rolls and coffee will be provided for the supper with attending families asked to bring the rest. In order to keep the women out of the kitchen families are asked to bring their own dishes and silverware.

A large crowd is expected for the occasion, the minister indicated today.

Post Cards, Colc's Aid Help Couple Complete Vacation

A few post cards, a bit of perseverance, and the "know-how" of where to turn for information and assistance, helped a visiting Illinois couple round out their Florida vacation as they had anticipated.

Ernest Otter and his wife of Lovington, Ill. recently stopped off in Sanford for a visit with his brother, Lowell Otter and Mrs. Otter at their home on Summerlin Ave.

The visiting Otters were enjoying their trip through Florida but their gaiety was somewhat dampened when they discovered the loss of the address of their daughter and son-in-law, Mr. and Mrs. Joe Cooper who were also in Florida.

Before leaving Illinois on their trip, Ernest Otter had a card had been misplaced and the Florida town in which the Coopers were stopping could not be recalled.

What to do? They turned their problem over to Mrs. Lowell Otter.

She knew that since the Coopers were traveling by trailer their card would have been mailed from a trailer court. She also knew that the Coopers had planned to confine their trip to the East Coast and was reasonably sure that they would choose a court in Daytona Beach, Hollywood, or Miami.

Mrs. Otter contacted the Seminole County Chamber of Commerce for a registry of trailer courts which were supplied from the Chamber's file of Florida City directories.

A total of 63 post cards were sent to trailer courts in the three chosen areas by Mrs. Otter asking that "if Joe Coopers are parked there, please have them get in touch with Sanford telephone 1350."

Two days later, the astounded Joe Coopers called from Miami where they had settled down for the winter.

Of course, a meeting was arranged between the Ernest Otters and the Joe Coopers. The Florida vacation had the very famous fairy story ending "They visited happily soon after."

Dade County's Agriculture Report Given
MIAMI (AP)—Dade County had an income of more than \$3 million dollars from agriculture during the past year to put it among the leading counties in this country. John D. Campbell said Dade produced \$24,690,000 worth of tomatoes alone, more than half those shipped from Florida, as well as large quantities of potatoes, beans and tropical fruits such as avocados, mangoes and limes.

Voters Reject Plan
DAYTONA BEACH (AP)—Voters rejected a plan to fluoridate the city's water by a vote of 2,456 to 3,028 yesterday. The proposal also lost four years ago and by a bigger margin. The State Board of Health advocates fluoridation as a means of retarding tooth decay. Fluoride is present in the natural water supply of some Florida cities and 19 others now add it.

This Is The Way We Wash Our Hands
So you think you know how to wash your hands? So you do, for everyday purposes. But cleaning them properly after an oily, dirty job is different. Here's how:
Wet your hands first, then apply soap to the palms. Rub it into a lather on the palms, on the backs of the hands, and up over the forearms. Add more water while doing this. Rinse off the dirty suds, and repeat the procedure until all soil and soap are removed. Then wipe your hands dry with a clean towel.

"We Invite Charge Accounts"

People Looking To Uncle Sam For 'Something For Nothing'

Like a normal grandfather—a grandson is always a smart boy. And there is a specific illustration to sustain this opinion.

The grandson accompanied his Granddaddy in the airport one day recently where he was waiting for a plane for Washington.

As the elderly man started toward the train, he turned to his grandson and said "Skipper, I'm going to look around for Uncle Sam while I'm in Washington. Do you reckon I'll find him?"

The youngster thought briefly about it and then replied, "I doubt it."

In expressing this opinion, he was quite contrary to the opinion held by just about ninety per cent of the people in this country—and even through the youngster is hardly four years old—he's smarter than just about ninety per cent of the people.

Certainly, there are entirely too many people who believe that Uncle Sam actually does live right in the capital city of Washington. As a matter of fact, they go there expecting to find him.

Deep down in the hearts of the people, there is known, and certainly any thinking person should know, that this is not so, that it is not even possible in a free nation. People know that Government in a free nation has never had any money and never will have any money that is not first provided by the people themselves from back home. In other words, it is known, or at least should be known, that the Government can only give the people what it has first taken from them. In still other words, "we know who Uncle Sam really is."

But it is not surprising the people have reached this attitude of self-delusion, because there has been a political philosophy promulgated for the last quarter of a century at least that has been intended to lead to this conclusion. People have been told that whatever they desired the Great White Father could provide. People have been fascinated with the return of their own money.

This practice of looking to the central government in Washington to provide the "gifts" from Uncle Sam with "something for nothing," with fulfillment of all the needs and desires, is not confined to any one group—it permeates just about all groups.

Sunday have indicated they will play in the Mayfair Inn 15,000 Open. Gardner Dickinson who took first place, Al Balding, Mayfair Open winner in 1955, who took third place, and Bob Toski who came in fourth, Sam Snead has not yet indicated that he will be here next week.

Qualifying rounds will be played on the first day, Dec. 11. It is expected that golfers will exceed the number qualifying last year for the 1956 event. Announcement that qualifying in the Mayfair Inn's \$15,000 PGA Open will automatically qualify for the California tournament will attract many.

Hosts for the event will be "Porky" Oliver, Mayfair Inn's winter pro, Mayfair Inn's General Manager Frank Mebane Jr., Jay Hebert, playing pro for the Mayfair Inn, and Mayfair Inn Pro Mario Carfagne and his assistant Gary Franz.

Socialite and sportsman Dan Topping is expected to be in Sanford for the top winter event of the golfing world. Horace Stoneham, general head of the New York Giants, will be here for the week's event, as will Carl Hubbell, head of the sprawling New York Giant's Farm System.

There will be no Pro-Am played in this year's Mayfair Inn Open, however, a number of amateurs will be in Sanford to play during the tournament. Mel Fleischer, who has taken top honors in military golfing circles, will be at home to play in the Mayfair Inn top golf tournament.

PGA officials will begin arriving this week to lay final plans for next week's tournament. It is expected that they will arrive before the weekend to begin their preparations.

Parking of the hundreds of automobiles will again be under the direction of Joe Baker who last year, according to Manager Frank Mebane Jr., "did such a wonderful job taking care of our most annoying yet necessary problem." Baker will be assisted by many volunteers from local civic clubs.

Another task to be turned over to civic club volunteers will be the handling of the ropes along the fairways while play is in progress. Working in shifts, the volunteers will take care of the three-day job.

Ticket sales have been under the direction of the Women's Golf Association. However, tickets are also available at the Jaycee Information Booth.

Mario Carfagne recently announced that the Mayfair Inn's \$15,000 PGA Open defending champion, wily Al Balding of Canada, will again be in Sanford for this year's event.

In Clearwater today, half a dozen big name golfers conducted a teaching clinic at the annual meeting of the Professional Golfers' Association.

They were Jack Burke, Sam Snead, Patty Berg, Bob Toski, and Jay Hebert.

The PGA will hold its annual banquet tonight when Burke will receive his award as professional golfer of the year; Harry Sneyd of Elmira, N. Y., will get a trophy as the PGA club professional of the year; and Craig Wood will be inducted into the PGA Hall of Fame.

Blackhawks, War Eagles Need Strong Offensive Team

The Peanut Bowl game Friday night will be an interesting one to watch.

Teams matched for the final play of the season have seen action in 18 games on their home fields. And under the lights their football technique may be even better than the daytime tussles.

The Blackhawks, whose colors are black and gold, have been coached by Mrs. Alice Grant, and it has been said that this team has the best rounded team of any of the four to be seen on the field.

Friday night, the Blackhawks will be wearing red numbers on the back of gold jerseys since no black or dark blue numerals could be found.

The Blackhawks lost more games than any other team at the Peanut Bowl.

But, they've played more theory football which in the final analysis may turn in their favor when faced with hundreds of people for the top game of the season.

They will call every defensive signal before the plays (the only team to do this in the Peanut Bowl competition) and at the end of the season were really coming into their own.

This team boasts of a record including the defeat of every team at least once—but that is all. Offensively they are weak along with the War Eagles. On the other side, they have developed a kicker and their short passes over center along with the down and out pass seem to click.

Oddly enough, the Blackhawks lost one game by a 13-0 score while making 9 first downs to 0 for the winners. In other words, they pushed the ball all over the field but couldn't get it over the goal line.

The game between the War Eagles and the Blackhawks should be very close, with the team that has the stronger offensive the winner.

Their defensive teams are very equal.

Here are the players to watch:
No. 4 — Leo Watson: Leo passes, plays end, and can hang onto the ball.
No. 5 — Brad Wallace: Brad plays backfield or end and is very fast.
No. 9 — Ducky McMurray: Ducky plays end and backfield, throws some, and can run well after he gets started.
No. 10 — Johnny Bewiechick: line backer, and one of the best prospects for high school football. Charges in on runs but still covers the long pass well.
No. 19 — Raymond Lee: One of the fastest men on the field in a straight away run. Is dangerous once he gets in the clear.
No. 20 — Barry Brown: a defensive player that has changed to offensive end and backfield man. He can kick the ball a country mile when he gets his foot on the ball.

REPORTED IRREGULARITIES IN PETTY CASH FUND PROBED
BARTOW — Reported irregularities in the petty cash fund under former Sheriff Pat Gordon are being probed by the Polk County grand jury today.

County Solicitor Clifton Kelly said there are discrepancies involving thousands of dollars and forgeries of a number of vouchers. Gordon's name is among those forged, Kelly said.

Fourteen deputies who serve under Gordon or who are working for Sheriff Joel Gerrard are among the witnesses.

No one has been arrested in the case.

They were Jack Burke, Sam Snead, Patty Berg, Bob Toski, and Jay Hebert.

The PGA will hold its annual banquet tonight when Burke will receive his award as professional golfer of the year; Harry Sneyd of Elmira, N. Y., will get a trophy as the PGA club professional of the year; and Craig Wood will be inducted into the PGA Hall of Fame.

MIAMI MAN NAMED TO BOARD TALLAHASSEE
— Joseph Herbert Pero Jr. of Miami was appointed to the Dade County Board of Adjustment by Paul E. Collins yesterday.

Collins appointed Paul E. Esquinada of Key West judge of the Small Claims Court of Monroe County. He named David F. Lanier of Sebring Highlands County Small Claims judge.

Sailing

(Continued from Page 1)

on the river all winter spending my time writing and enjoying the Florida climate.

"Right now," said Yow, "I find Sanford and Lake Monroe pleasant. After a few days I will continue on to Lake Harney, and from there as far as I can go up the St. Johns."

Future plans? He said "By spring I plan to be back on salt water, cruise down to the Florida Keys, and perhaps over to the Bahamas or Cuba."

There's a fellow named in Captain Red Beard's voice as he answers every question posed to him.

He's traveling alone—and he admits that he's mighty lonesome at times except for wildlife. "I find each and every one of the birds and animals I see a sort of friend," he said.

"I keep a daily journal," Captain Red Beard admitted, "and as I have time, from day to day, try to write of my experiences."

He talks of a new seater encountered along the coast when high winds swept him, at high tide, over high grasses that were dry land and would be the next day. But fortunately, the storm drove him through the shallow waters and into another body of water. "My sails, fattened as they are, could never stand anything like that," he said.

But sails he has—the mainmast quite sturdy on its handmade boom which caught the slight breeze and billowed out to help him maneuver his boat into position again at the handshell. However, he pointed to one which he said was burned one day as he was cooking a meal—even burning his clothes he commented.

Questioned as to his reasons for spending the lonely life aboard the small ketch where he prepares his meals, sleeps, and makes his home, he said "there are several reasons, and as I think of them in the stillness of the day on the water, they seem to dovetail together."

He said, "My only direct answer to the questions about the reasons was 'You have to like this kind of life to enjoy the lonesomeness.'"

"I hope someday to be able to write a book about my travels and experiences. And then—maybe—I can own a fine boat even much larger than this one," he said.

Captain Red Beard lived up to his name—vagabond sailor, writer, artist, and adventurer.

Fruit Can Be Sent Without Inspection

Fruit can be shipped without inspection. C. L. Collins of the Railway Express said today.

"Many people believe that they cannot ship fruit without inspection because of the fruit fly," Collins said.

Local people, shipping fruit for Christmas, can do so without an inspection of the fruit, Collins said.

MISS GRACE MAXINE SMITH

Miss Grace Maxine Smith Is Betrothed To George Smith Jr.

Mr. and Mrs. James O. Smith of this city announce the engagement of their daughter, Grace Maxine, to George A. Smith Jr., son of Mr. and Mrs. George A. Smith, of Pittsburg, Pa.

Miss Smith was born in Lexington, Ky., and attended schools there and in Sanford. She was a member of the Tri-Hi-Y and the "Celery Fed" Staff. She is now employed by the telephone company.

Mr. Smith was born in Pittsburg and attended schools in that city. He is now in the U. S. Navy attached to S.N.A.S.

Plans for the wedding are incomplete and will be announced at a later date.

Financial Expert To Speak Dec. 13 In Winter Park

Mrs. Alice B. Morgan, the investment and financial expert who won national fame and \$32,000 on the TV Show "The \$64,000 Question" will give two talks on finance and investments in Winter Park, on Dec. 13, it is announced.

She will be presented by Miss Dorothy Lockhart as an "extra attraction" in the Town Hall Series, in the Annie Russell Theatre, at Rollins College.

Mrs. Morgan is slated to appear as a contestant on the "64,000 Challenge", the companion TV show but her appearance is being held up until CBS can find a challenger competent enough to give Mrs. Morgan a battle. It is reported that CBS has already screened 350 potential challengers but has been unable to find one good enough to compete against the wizard from Bristol, R. I.

A former member of the faculty at Roberts College, Istanbul, Turkey, Mrs. Morgan became interested in investments when her husband died and left her an estate containing an assortment of securities. Since her appearance on the "64,000 Question" she has written a book "Investors' Road Map" which has had an advance sale of 100,000 copies. She keeps busy in Bristol by teaching, without charge, a class of her fellow citizens who study under her guidance the broad subject of securities.

According to the announcement from Miss Lockhart, the Winter Park talks by Mrs. Morgan will be her only appearances in Florida this season.

Tickets for either or both Mrs. Morgan's talks can be secured by writing to Miss Dorothy Lockhart Town Hall Series, Winter Park.

Skits Illustrate Month's Subject At Pack Ten Meet

Cub Scouts Pack Ten had their monthly meeting Thursday night at the First Methodist Church. The opening ceremony was by the Webelos Den who led the assembly in the Pledge of Allegiance.

Cubmaster Ted Williams inspected all the Cubs, and the results found Den 4 and Den 6 tied for first place. Staging of skits followed, illustrating the month's subject of Puerto Rico. The history, economy and social customs of the country were exemplified.

Den 4 was the victor in the attendance count with Den 2 placing second. An impressive Webelos ceremony was conducted by W. W. Tyre, Scoutmaster, in which Billy Ball, Jack Ivey and Tommy Luke graduated from Cub Scouts to Boy Scout Troop 34. After this, Donny Hall was inducted into the Pack as a Bobcat.

E. D. Kirchhoff, Committee chairman made awards as follows: Wolf badge, Don Boggs, Glen Webber, Pat Hall (with gold arrow), and Richard O'Connor (assistant denner); Bear badge, George Towell, Steve Willis and Larry Chester (with Service Star).

Other honorees were: Silver arrow, Joe Helms, Cecil Jones, Emory Spier, Rodney Laney, Donny Shepard (2), Steve Hillner, Donny Fortner (denner), Buddy Jeffords (assistant denner), and Richard Mann (with service star), also, both Vihlen, gold and silver arrows, Robert Glenn, gold arrow. Further recognition came to George Willman, denner, Robert Hopkins, assistant denner, David Scott, denner, Danny Nettles, service star, Jay Payne, denner and service star, Billy Ball, service star, and Jack Ivey, assistant denner and service star.

A Christmas party was announced for the next Pack meeting on Dec. 20. Because this is a week earlier than usual, Den mothers were advised to turn in their award requests to Woodrow Cash, secretary, during the week preceding the regular Committee meeting on Dec. 17. In January the Committee hopes to increase its number of participating parents during annual registration.

Miss Allyson Lee Is Honored At Surprise Farewell Party

The Yacht Club was the scene of much mirth and music Saturday night, as a group of young people gathered there for a surprise farewell party, honoring Miss Allyson Lee, Sanford's brilliant young pianist, who will be leaving soon to make her home in Birmingham, Ala.

Allyson has gained renown, not only in Sanford, but in all of Central Florida, having appeared at numerous public functions and on WDBO-TV.

Miss Sandra Estridge, Miss Mary Helene Washburn and Miss Penny Pulver were hostesses for the affair, and host was Jac Cash. Entertainment was provided by Miss Suzanne Jones and Miss Cindy May, who were accompanied in their renditions by the honoree.

Dancing was enjoyed throughout the evening, with time out for a brief intermission to provide the young guests time to enjoy the delightful refreshments served by the hostesses and host, and to watch Allyson open all the lovely gifts presented to her.

Barbecue At Elks Club Huge Success

The Barbecue held at the Elks Club Saturday night, under the joint sponsorship of the Elks Club and the Band Parents Association, was a tremendous success, with about 400 tickets to the affair being sold.

Appreciation was expressed to Cotton Brown, for supervising the barbecuing of the chicken, and to all other individuals and firms who helped in bringing about the successful outcome of the picnic.

Little Theater May Put On High Fever Follies

The Little Theater Guild has been asked to help the Woman's Auxiliary of Seminole Memorial Hospital to put on their "High Fever Follies". They will meet tomorrow night at 7:30 p. m. in the City Hall auditorium to discuss this possibility.

Mrs. Mike Stone, representing the Auxiliary, will be present at the meeting to discuss the project and explain a little more about the follies.

Also at this time, Mrs. Betty McReath, director, will make an announcement about the casting of "Bell, Book and Candle".

With the opening of the Mayfair Inn coming up Saturday and the qualifying round for golfers not exempt for the Second Annual Mayfair Inn Open \$15,000 PGA Golf Tournament the following Monday, activity has begun to pick up on the local scenes as the various civic organizations begin preparation for the biggest sport event in Sanford history.

The Women's Golf Association is reporting great success in ticket sales, and the Jaycees, along with the Kiwanians in preparing for the invasion of spectators to begin next week.

The tremendous job of head marshal is again on the very capable shoulders of Joe Baker. Baker is in charge of synchronizing the activities of all volunteers of both the Jaycees and the Kiwanis Club.

In the meantime the Chamber of Commerce is busy getting imposing posters distributed announcing the tremendous event. John Krider has been sending out the posters boasting the Sanford attraction.

Leading the host of guests in the golfing world will be Jay Hebert, traveling pro for Sanford and the Mayfair Inn along with Ed "Porky" Oliver, winter pro for the Mayfair Inn Seminole Country Club.

Resident pro Mario Carfagno will host the tournament.

On Tuesday the local fans and many visitors will witness, for the first time this year, a Clinic and Exhibition. The display of the forces of many of the golfing greats will be sponsored by the PGA and will be conducted by Jay Hebert.

SHS Basketball Team To Take On FMA Five

Bud Laver, cage mentor for the Sanford Seminoles, said yesterday that his charges were in for a lot of work in the next few days in order to be ready to take on Florida Military Academy Thursday afternoon in the season opener to be staged on the auditorium stage at the high school.

"F. M. A. has no football team, and they were on the go as soon as basketball season was officially opened, whereas we were late because of our lengthy football season," Laver said this morning.

"The starting quintet has not been picked as yet," Laver said, "and we're at a particular disadvantage with interrupted practices."

Seminole High does not have a gymnasium, only a cage floor on the auditorium stage. Frequently the basketball practices must be called, so that the stage can be used by others.

Metts Approached About Pro Ball; Wants To Coach

Buck Metts, former Seminole High football ace and senior star halfback for FSU, revealed in a telephone interview with the Herald that he had been definitely contacted in person regarding pro football. "But," Metts added, "there are some important points that may keep me from playing."

Scouts from two clubs, one from the Cardinals, came to FSU and talked with Metts. "I could make more money playing ball in Canada," Metts pointed out, "but I've already played eight years of ball, and I definitely want to get into coaching as soon as possible."

Metts said that he may go on to get his masters degree at FSU—he has a high C average—before going into coaching.

"Then, too, I'd sort of like to get married and settle down in the next year or so," he said. He had no comment on available prospects but said that he had "pinned" one of the co-eds.

Metts said he preferred coaching in any of the towns in central or south Florida from Ocala down. "The only time I'd hesitate would be in Sanford," he said. "It's tough on a fellow to come back to his home town; there's too much pressure, and that's not the purpose of high school football."

Jack Christiansen and Jim Davis, defensive halfbacks for the Detroit Lions, were college teammates at Colorado A & M.

Orphans To Be Guests Of School At Peanut Bowl

The unfortunate children of Central Florida Orphan Homes will be the guests of Sanford Grammar School Friday night at the Second Annual Peanut Bowl through the generosity of the downtown merchants of Sanford.

Many of the merchants of Sanford bought tickets and then turned them back over to the school. Grammar School officials in affiliation with the P-TA invited children from the Methodist's Childrens Home of Enterprise, The Lutheran Haven in Slavia, and the Mt. Dora Christian Day School to be guests for the event. The Methodist's Childrens Home and the Lutheran Haven have already accepted and word is expected from Mt. Dora shortly.

The youngsters will have a happier yule season, thanks to this wonderful offer by our school merchants. And the children will thrill to the boys' game as they mingle with the anticipated 3,000 fans at the event.

THE OVIDIO LIONS pictured above roared to a season opener victory 75-28 over Pierson last week and moved into the spotlight as the favorites to be awarded the coveted Sanford Herald Trophy for the winner of the First Annual Seminole County Invitational Basketball Tournament, sponsored by Seminole High School, to be played on the SIS courts Dec. 20-21. Ovidio, Lyman, Seminole, and DeLand will participate in the tourney. (Staff Photo)

Conning The News

BY VIRGINIA CONN

The Legion Hut was the scene of HATU's farewell party for its executive officer Don Miller, and his lovely wife Diana. A huge fire flickered, as the men cooked steaks outside and brought them in for all to enjoy accompanied by salad, rolls and coffee. Tables were placed before the fire in the Hut, and after dinner everyone watched the fight on TV. Forest Norville presented the Millers with an engraved silver cigarette box, on behalf of HATU. Both Diana and Don thanked the assembled crowd with brief speeches and regrets on leaving. Attendees were John and Mollie Barlow, Lib and Red Cleveland, Rosemary and Cliff Duncan, Lil Rosemary and Cliff Duncan, Lil and O. B. Gray, Helen and Harry Griffin, Anita and Bob Hadden, Mildred and Ollie Loper, Betty and Joe McLean, Lew and Mary Millaps, Betty and Verne Norville, Ruth and Forrest Norville, Virginia and Jim Schaeffer, and Sally and Howie Weigle.

Louise Parker and I had a Hawaiian Party for Walt and Beryl Swinson Friday night. Betty Guy made beautiful camellia leis for them and all the guests came in Hawaiian garb. Cary Stribling and Jean Stelson were particularly eye catching in their mums (not sure of spelling). Cy and Jean Filton wore matching shirts, and Polly Brubaker was draped in a sarong that defied description. Chop suey, pineapple salad and Chinese chews were served. After dinner Beryl and Walt opened a variety of amusing gifts to loud shouts of laughter from the natives. Naturally we had to watch the fight. I'd like to meet the strongminded women who kept their spouses from seeing it Friday. We finally decided to give in gracefully and at least get the credit for being good sports. Those who came were Fete Patrie, Louise and Jim Parker, Tom Blackburn, Cy and Jean Filton, and weekend guest Helen Phillips, Ronnie Schroeder, weekend guest of the Swinsons, Dottie and John King, Betty and Bill Lemos, Jane and John Miller, Jean and Bill Stelson, Cary and Jack Stribling, Jean Dooley, Polly Brubaker, and John and Harriet Williams. We missed Betty Guy, who was at home tending the fire, as Jim was in Chicago for the weekend. Betty has no fire screen, so if you have a spare one, and no fire place, please call her, so she can relinquish her fireman's job to one of her capable boys.

Jim Guy, incidentally, won the N.A.S. handicap tournament, with an 83. It's all done by practice, he tells me.

Saturday afternoon a number of people gathered at the Swinsons home in Lake Mary to watch the Army-Navy football game. They sipped eggnog before the fire and placed all their bets on Navy, I hope. Enjoying this pleasant afternoon were Jim and Louise Parker, Ann Bear, Jane Miller, Jean Dooley, Tom Blackburn, Helen Phillips, Ronnie Schroeder, Cy and Jean Filton and Bill Lemos.

Betty and Bill Lemos entertained the HATWING staff at a cocktail party Sunday evening in honor of, you guessed it, Beryl and Walt Swinson. At this time the wives presented Beryl with a set of leather covers for her woods. Have to send this girl off well fitted if she is to represent Sanford on Hawaii at all their lush golf courses. Seen at the Lemoses were Bill Hill, Cy and Jean Filton, Marge and George Dickson, Louise and Jim Parker, Dusty Rhodes, Pat and Dave Todd, Jean Dooley, Doc Linker, Marvin and Geneva Quicker, Johnny Blak, Tom Blackburn and Bob Conn.

And here I'd personally like to say goodbye to Beryl and Walt Swinson. They have been wonderful friends. There are not many people who would come to your aid at two o'clock in the morning, but Walt and Beryl would. Last summer while Bob was

Spotlight On Hollywood

HOLLYWOOD (AP)—Nomination for the hardest working TV gal in Hollywood—Dinah Shore.

Oh, how this doll works: She does a quarter-hour song fest every week. And she's doing nine one hour special shows on NBC as well. These are not termed "specials," but they might as well be. They are high-powered, all-star hours that have set a high standard for TV variety shows.

"Sometimes I think I must be crazy to undertake all this work," sighed Dinah in a rare moment of relaxation before last night's show.

Does her family ever see her? "Oh yes," she replied. "I've got that pretty well organized. I don't leave home until 9:30 in the morning, and I'm home for dinner except on the week I'm doing the hour show."

"We manage to keep our family life much the same. The only thing I'm deprived of is special treats, like getting down to Palm Springs. We haven't been able to do that this year, nor have we done much entertaining."

Dinah admitted that her husband, George Montgomery, has indicated he'd like her to slow down the furious pace. Perhaps next year. She suspects NBC will drop her 15-minute show, since the networks are steering away from that kind of programming. But will she then be doing more hour shows?

"I just don't know," she said. "I'm too busy even to think about that."

Nice topping for muffins: brown sugar mixed with nutmeg. Sprinkle the muffin batter with the topping before baking.

Popular spread for crackers: a three-ounce package of cream cheese mixed with the minced clams (drained of liquid) from a seven-ounce can. Seasonings may be added to taste.

Do not over-beat cream when you are going to add it to a pie filling or perhaps a custard dessert. If it is very stiff, it will be hard to fold it into the mixture evenly.

'NO MORE FLAT ROOFS' WIVES TELL WASHINGTON

One of the demands for homes of the future made by delegates to the Women's Congress on Housing in Washington, D. C., was for an end to flat-topped houses. Instead, the women said, they want pitched roofs. Among the reasons listed by the delegates were that a pitched roof offers attic space for either storage or expansion, makes a house more distinctive in appearance, and can be covered with asphalt shingles for more color and long-lasting protection.

Hammer, Saw Can Make Your Wife's Christmas Present

Any of your home craftsmen who don't yet know what to give the little woman for Christmas are about to find the answer. A cedar closet. It's as simple as that. Only a few hours of spare time applied to hammer and saw can result in a job you'll be proud of and a gift which will delight your wife.

HERE'S AN IDEA designed to beautify not only the lady of the house but her bedroom as well. It's a combination storage wall and beauty nook built of ponderosa pine cabinets ingeniously arranged around a bedroom window to let in natural light for more careful grooming. Although the cabinets are kitchen cabinets, the fact that they're made of wood lets them fit naturally into a bedroom—or, for that matter, into any room of the house. Local building material dealers stock them in many sizes, shapes and styles. A combination can be found to fit any space and match most room decors.

Every Home Can Have Cedar Closet

Although luxurious in appearance, cedar-lined closets are no longer expensive. The home handyman can line an existing closet with aromatic red cedar closet lining for less than the cost of replacing a moth-damaged suit.

Moths, of course, don't penetrate cedar closets. They are repelled by the fragrant aroma of the wood.

Aromatic red cedar closet lining is now sold in packages at most lumber yards, and all pieces of the wood are tongued and grooved or edges an sides for easy application. Genuine aromatic cedar, which is the kind that thwarts moths, is identified by a red and green industry label which appears on the package.

Cedar closet lining is so easy to apply that even the housewife can do the job. Certainly any home handyman worth his hammer and nails can line an average closet in a few hours over a weekend. Before actually applying the cedar to the walls of the closet, remove all protrusions, such as baseboards, shelves, clothesbars and hooks. Locate the studs behind the plaster and mark them with vertical pencil lines to indicate where nails should be driven. Start at the bottom of one wall and work upward. The first board should be placed with the grooved edge against the floor and the grooved end against the adjoining wall. This method will facilitate applying succeeding courses, or rows, to the wall. When cutting a

board to fill out a course, always remove the tongue end, so that the board will meet the adjoining wall snugly.

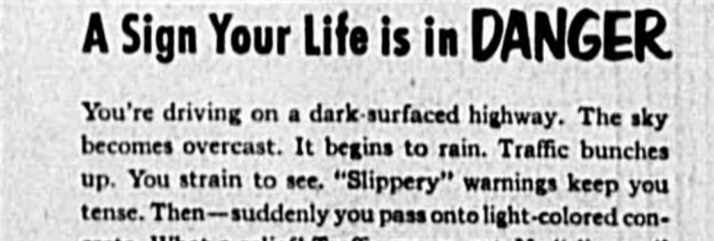

After the walls are lined with cedar, it is wise to line the ceiling and the inside surface of the door for more complete protection against moths.

Corner molding, clothesbars and shelves all may be made of cedar to carry out the rose-colored decor.

If lining the door with cedar is not feasible, by all means make sure it is carefully weatherstripped and kept closed in order to retain the valuable moth-chasing fumes.

Low cost installation is not the only economy feature of a cedar closet. Maintenance is kept at a minimum because cedar closets need never be painted or varnished. As a matter of fact, paint or varnish would seal in the very aroma which will save your clothing. The only care needed to keep the cedar closet always beautiful and always aromatic is an occasional wiping with a damp cloth.

You can remove a cork that has been pushed into a bottle by pouring in enough ammonia to float the cork and letting the ammonia sit for 24 hours. The ammonia will crumble the cork and you can pour it out.

A Sign Your Life is in DANGER

You're driving on a dark-surfaced highway. The sky becomes overcast. It begins to rain. Traffic bunches up. You strain to see. "Slippery" warnings keep you tense. Then—suddenly you pass onto light-colored concrete. What a relief! Traffic moves out. No "slippery" signs. You know you're on a safer pavement.

Yes, the difference between a sickening swerve and a safe, quick stop often is the pavement. Concrete grips tires—helps you avoid accidents. Wet or dry, its gritty texture provides uniformly high skid resistance.

Remember, no driver expects trouble but if it comes your chances are much better on concrete pavement.

Color 'Magic' Can Improve Shapes, Sizes

Houses, like women, come in many shapes and sizes. That's why color is so important to the appearance of both, says a professional color stylist.

"Just as the colors a woman wears make her appear slimmer or broader, taller or shorter," she points out, "the colors worn by a house can make it higher or lower, wider or narrower, smaller or larger."

The magic of color not only changes shapes and sizes, the color stylist says, but can work "personality changes" in women and houses. The right colors can make a woman look fresh and young, gay and exciting, or cool and crisp. Similarly, correct colors can change a grim, forbidding-looking house into a warm, inviting home.

How does color perform these "near miracles"? By playing tricks on the eye, says the stylist. Light, bright shades appear to take up more space because they seem to advance on the eye or to "swell." Cool, deep shades, on the other hand, seem to recede and make objects look smaller.

"This is the reason," she says, "that stout women rarely wear light colors. They know that darker shades make them appear slimmer."

Color stylists use these same "tricks" to improve the shapes of houses. Small homes look larger when they are painted in light colors and roofed with asphalt shingles in one of the many light, pastel shades available. This "highlights" the roof, increasing the illusion of height and, at the same time making the house more colorful.

Tall, boxy houses can be made to appear lower and longer by painting the siding in muted tones and emphasizing horizontal lines with lighter, harmonizing colors on window boxes, horizontal trim

on windows and doors. Several feet are "cut" from the height of the house with a roof of asphalt shingles in a rich, deep tone which tends to keep the gaze downward.

Jackie Gleason was clowning around on a bicycle backstage at TV studio until Toots Shor admonished him, "Act your weight!"

If you and your family are in the "wondering" stage about a house — wondering whether to buy a new one or keep the old one—remodeling may be the answer.

There are many advantages to remodeling an old home, but the two principal ones that are important to almost every family are:

1. Economy. Remodeling often can give an old home most of the modern living features of a new house at a cost that's frequently less than the cost of buying or building.

2. Friends and neighborhood. Modernizing an old house lets a family stay among the friends and familiar surroundings. Children don't have to be introduced to a strange new school.

A good example of what can be done to bring an old house up to date both inside and out is shown in the illustrations.

The remodeling contractor removed the useless front porch, stripped off the "gingerbread" trim and took down the attic dormers. The house was widened to give it a longer, streamlined look, and a new roof of long-lasting asphalt shingles was applied. A deep tone was chosen for the roof to make the house look lower.

New double-hung windows of ponderosa pine were installed throughout to give the house more interior light. These colonial-style, many-paned windows were matched with pine French doors opening onto a new porch built at the rear of the house.

One remodeling process which does not show in the finished product but which has a marked effect on comfort and economy is mineral wool insulation properly installed in exterior walls and attic floors. The mineral wool can reduce heating costs by as much as 40 percent. It makes a house cooler in summer, too.

Use roofing shingles that match the roof on your own house to cover the dog house roof and seal out the weather.

Insulation helps keep a house cleaner by eliminating "ghost marks" on walls and ceilings. These wide, shadowy lines are caused by dust which collects on surfaces that are cold, since warm, dust-bearing air naturally is attracted to a cold surface. Mineral wool insulation keeps the walls and ceilings at a more uniform temperature with the air in the room and the "ghost marks" do not appear.

The color of window blinds can be refreshed by brushing them with linseed oil.

Build Your Dog House Of Cedar

Does Rover need a new residence? Perhaps he's outgrown his abode or it is simply too old and rickety to be repairable. If the family is acquiring a new dog, the pet certainly will need a home of its own.

An attractive dog house, a welcome addition to any yard, can easily be made by the home craftsman in only a few hours.

First, decide on the size of the dog house. It'll have to be large enough for the dog, but not so large that it's not cozy. A frame of two by four lumber will make the house sturdy. A floor should be included to keep the house snug and draft-free.

An attractive and practical material with which to enclose Rover's new palace is aromatic red cedar closet lining. The wood is easy to work with and is available at most lumber yards in handy packages containing enough pieces to cover at least 32 square feet of wall area. The pieces are tongued and grooved for snug-fit and easy construction, are up to 8 feet long and are from two to four inches wide.

Aromatic red cedar is extremely durable and weather-resistant, even if it is not painted or varnished. The inside surface of the dog house, at least, should be finished. Paint or varnish would seal in the fragrant aroma of the cedar which has a repellent effect on small insects.

Use roofing shingles that match the roof on your own house to cover the dog house roof and seal out the weather.

Insulation helps keep a house cleaner by eliminating "ghost marks" on walls and ceilings. These wide, shadowy lines are caused by dust which collects on surfaces that are cold, since warm, dust-bearing air naturally is attracted to a cold surface. Mineral wool insulation keeps the walls and ceilings at a more uniform temperature with the air in the room and the "ghost marks" do not appear.

The color of window blinds can be refreshed by brushing them with linseed oil.

DOOR OF ponderosa pine opens off new rear porch.

Label Offers Key to Quality Buying

Often the only way a purchaser can judge the quality of a product is by the information on the label it bears. This is true in clothing, food, and appliances and now is being recognized by manufacturers of home-building materials.

For example, an institute's seal of approval now is affixed to many top-quality double-hung, casement, awning, and fixed windows of ponderosa pine.

This seal guarantees that the window meets the specifications of the U. S. Department of Commerce, as published in the department's booklets on commercial standards.

Try and Stop Me

By BENNETT CERF

THREE DARN FOOLS out of four, maintains the editor of the Echo Valley Vigilant, will sign any petition that is stuck under their noses. To prove his point he printed a circular beseeching the state governor to burn the bridges on the only two roads leading into town, and to fine every citizen twenty thousand dollars. He collected sixty-three signatures the first hour.

A Park Avenue psychiatrist reported a disquieting case to his colleagues. "I had a poor patient," he recalled, "who was firmly convinced that a letter was on its way to him, informing him that an unknown relative had left him ten million dollars. It took me three years to cure him — and the day I completed the cure, the letter arrived."

Jackie Gleason was clowning around on a bicycle backstage at TV studio until Toots Shor admonished him, "Act your weight!"

Color-keyed

for the finishing Touch

STRIKING DECORATIVE EFFECTS are easy to create with fine Vitralite Enamel Eggshell or Gloss. The exclusive colors are keyed to match or harmonize with the wall colors of New Lytall Flowering Flat. The porcelain-hard film of Vitralite resists hard knocks and keeps its color and luster even after repeated washings.

Mayfair Opens '56-57 Season Saturday Night

Fans Urged To Keep Keen Eye On War Eagles In Bowl Tilt

It will be in order to keep a keen eye on the War Eagles of Sanford Grammar School during the Peanut Bowl game which is being played at Sanford Memorial Stadium.

Coached throughout the season by homeroom teacher Richard Jones, the War Eagles have been one of the stronger teams this year.

Only until the last game of the season did they lose out on the championship game. All in all, they are strong on defense, but their offensive game is weak.

They needed someone who could throw the long passes for them, along with a player that could kick the ball well out of danger for them.

Colors worn by the Eagles during the Peanut Bowl game will be billy green with white numerals.

Players to watch are:
No. 16 — Eugene Taylor: one of the bigger boys of the forward wall. He has kept the opposing team on guard all season. Other teams usually have to double-guard him if they wanted to really keep him out of their backfield.

No. 19 — Tommy Hinson: an offensive end and backfield man. Is talented as an end on the down an out pass.

No. 3 — Joe Lee Thompson: one of the smallest men on the War Eagles team. He can run, pass, or kick. Especially dangerous as a downfield runner.

No. 4 — Willie Waden: A defensive line backer. Has intercepted several passes this year and is very good on play diagnosis.

No. 8 — Billy Stevens: The big question mark in the backfield for the War Eagles. When Billy was on, the War Eagles rolled on to victory. He was out part of the season due to illness.

Funeral Friday For J. Trubak

J. F. Trubak, 84, passed away at his home at 2:40 a. m. Monday following a lingering illness. Mr. Trubak was born Nov. 6, 1872 in Vienna, Austria.

He is a retired merchant and has lived in Sanford for the past four years.

He is a member of the First Baptist Church. Survivors include two daughters, Mrs. Oscar B. Johnson of Minneapolis, Minn.; and Mrs. R. J. Wallstedt of Sanford; one brother, Albert Trubak of Canby, Minn.; and five grandchildren.

Funeral services will be held at 2:30 p. m. Friday at Brison Funeral Home with the Rev. Fred Dowers of the Free Methodist Church officiating.

Burial will be in Oaklawn Memorial Park.

Festivities Will Begin At 7 p. m.

The Mayfair Inn will officially open its 1956-57 season Saturday night when a record crowd will join with hotel officials for the colorful event that annually begins the tourist season here.

Manager Frank Mebane said this morning that reservations are "fast coming to a close as local citizens make arrangements for their parties which will help celebrate this year's event."

Invitations were mailed several weeks ago announcing the fourth-coming Saturday night gala affair.

Festivities will begin at 7 o'clock Saturday night when cocktails will be served. Dinner is announced for 8 o'clock and dancing is slated to begin at 9:30.

A New York orchestra will arrive in Sanford in time for the Saturday night gala opening and will remain here at the Mayfair Inn for the entire season. The three-piece orchestra ensemble will play for Mayfair Inn events throughout the entire winter season here.

"Those who have made reservations for the Mayfair Inn Opening Saturday night are slow in picking up their tickets," officials of the Mayfair Inn pointed out today.

"It doesn't look like it now, but we will be completely ready by Saturday night to welcome all of our Sanford and Central Florida friends at the formal opening of this season of the Mayfair Inn," said Manager Frank Mebane Jr.

The opening will coincide with the beginning date of the Mayfair Inn's \$15,000 PGA Open which will be played next Tuesday.

"Many of our guests will begin arriving this weekend," said Frank Mebane Jr., "to get in a few practice rounds at the popular Mayfair Inn Country Club."

FGAM Announces Officers For '57

Wally Dietrichs was elected Worshipful Master of Sanford Lodge No. 62 F & A M at a regular communication held last night.

Other officers named for the coming year were: I. E. Estridge Sr., Warden; W. W. Cash Jr., Warden; L. T. Sheppard re-elected treasurer and F. L. Miller re-elected as secretary.

Appointed officers, according to a release from the local lodge, will be announced later and installed in a joint installation of the several masonic bodies on Dec. 27.

List Of Noted Golfers For PGA Open Growing

The list of prominent golfing names is growing longer each day as the Mayfair Inn's \$15,000 PGA Open reaches its final planning stage.

Mayfair Inn Manager Frank Mebane Jr. said today that Frank Stranahan, rated as 5th best amateur of all time by U. S. golf writers, has indicated he will be in Sanford for next week's event.

Many top golf honors from around the world have been won by Stranahan. He is four times winner of the World Amateur Championship, four times winner of the Western Amateur Championship, a former National Amateur Champion, and former British Amateur Champion.

Stranahan turned pro last year and immediately won the Eastern Open at Baltimore, tied for second place this year at the Texas Open and tied for fifth place at the tough Greensboro Open.

In a telephone conversation with Manager Frank Mebane Jr. yesterday, Stranahan said "I'm skipping the West Palm Beach and Havana tournaments and practicing for this one in Sanford—I want to win it."

Other top golfers who have indicated they will take part in the Mayfair Inn Open are: Gardner Dickinson Jr., Doug Ford, Bob Toki, Dow Finsterwald, Porky Oliver and Jay Hebert.

Porky Oliver will be winter pro at the local Mayfair Inn Country Club this season and Jay Hebert has represented the Mayfair Inn around the golf circuit as playing pro.

One of the newcomers in the pro circuit of the golf world, Earl (Continued On Page Ten)

McNab Awarded Distinguished Flying Cross

By direction of the President of the United States, 1st Lt. Richard K. McNab, son of Mr. and Mrs. D. K. McNab, of Sanford, was awarded the Distinguished Flying Cross for "extraordinary achievement while participating in aerial flight."

1st Lt. McNab is stationed at Lockwood Air Force Base, Columbus, Ohio.

The award, news of which was received in Sanford today, was made on Oct. 18 by order of the Secretary of the Air Force, Gen. Nathan F. Twining, Chief of Staff, United States Air Force.

1st Lt. McNab is known to his friends in Sanford as "Zeke."

Kiwanians Observe 35th Anniversary

The Sanford Kiwanis Club celebrated its 35th anniversary last night with a ladies night and inter-club meeting.

Organized on Dec. 3, 1921, three of the charter members are still affiliated with the club, one of them, Ed Lane, an active member who last night served as Master of Ceremonies for the entertainment portion of the program.

Cutting the eight-tier blue and white iced anniversary cake, were Mrs. Ed Lane, wife of the charter member, and Mrs. A. L. Wilson, wife of the club's president.

More than 100 members and wives attended the banquet given as an annual Ladies Night pre-Christmas party.

A group of Kiwanis members and their wives from the Tavares Club attended the local celebration and inter-club meeting.

Fred Wilson, past lieutenant-governor of Florida Kiwanis read the list of 30 charter members who originated the Sanford Kiwanis Club. The three original members who still retain their connection with the local organization are: T. W. Lawton, J. C. Hutchison, and Ed Lane.

Ten past presidents of the club were recognized and president A. L. Wilson who presided at the meeting, Wilson read a greeting from Reid C. Culp, president of Kiwanis International. He also read a tribute to Ralph Smith, Sanford Kiwanis Club secretary, sent in a greeting from Kiwanis International's secretary.

Jerry Shellentrager announced the Sanford Kiwanis Club participation in providing marshals for the Mayfair Inn's Golf tournament. He called for volunteers to serve during next week's event.

Frank Mebane Jr., a member of the club and Manager of the Mayfair Inn told Kiwanis Club members "We received so many compliments on how the marshals conducted the tournament last year I hope we can continue that record."

Miss Bonnie Fleischman, young accordionist, entertained with

musical numbers and led club singing.

Allyson Lee received a standing ovation when she concluded the playing of three selections: Impromptu; her own arrangement of Autumn Leaves and Trees; and

Concluding the entertainment were the popularists: Paul Caskey, Pete Buker, and Jack Rosman, with original arrangements and impressions.

Assistant Coach Paul Odom, who was Captain of Stetson's football team, will be the guest speaker at the Jaycee weekly luncheon and meeting.

Odom graduated from Orlando schools, attended Rollins College and later attended Stetson where he graduated.

There is a possibility that Odom will have additional news and comment on "Buck" Metts and "Bubba" Hisee, both of Sanford, and both prominent players in the FSU football lineup.

A La Carte Portions Served SHS School Girls Can Count Calories For Trim Figures

"Diet conscious Seminole High School girls and hearty-eating boys have helped us maintain one of the finest lunchrooms in the state," Andrew J. Bracken, principal of the school, revealed recently.

As a matter of fact, he said, many folks who visit us here will go out of their way just to eat one of our meals.

"Dave Fuller, for instance," said Bracken, "told me on the telephone recently that if we were serving those good lunches here he would come down to visit us." (Dave Fuller is the baseball coach and football backfield coach at the University of Florida.)

Prof. R. J. Longstreet, at Stetson University remarked "I'll go out of my way to stop by to eat."

Mrs. Louise Hasty, lunchroom manager at Seminole High School remarked in an interview "You'd be surprised how many girls eat just a salad, but the boys are always asking for larger helpings."

"We can serve lunches so reasonable because of the help we get from the federal government's surplus commodity program," said Mrs. Hasty. "Already this year we have received around \$2,000 in surplus commodities. And we get a cash reimbursement of 3-cents a pint on milk," she said.

Food is served in several different ways Mrs. Hasty explained as she looked over the lunchroom, crowded of course, but clean and literally filled with the aroma of food cooking and being prepared for the noon lunch periods.

She explained that there are two lines which the students are served—one line is for the plate lunches where each student has a choice of vegetables and salad—then there is the la carte line where students can choose from various salads, pies, cakes or individual helpings of food.

In addition, Seminole High School students have a sandwich bar where they may choose from six different sandwiches—egg salad, lettuce and tomato, ham salad, chicken salad, pimento cheese, bologna, and spiced ham—sandwiches, other than ham and chicken salad, are 10c. The two salad sandwiches are 15c each.

Another service available in the lunch room at Seminole High School, explained Mrs. Hasty, is the hamburger table. These sandwiches are 15c with toppings of cheese, pickles, relish, mustard or catsup served at an extra charge.

As for drinks, milk is tops on the list of high school boys and girls. "We have more than doubled the use of milk this year over last year," Mrs. Hasty said, "with pints costing 7c and half-pints only 4c."

Boys getting two hamburgers for lunch usually get a quart of milk with them, she explained. This is Mrs. Hasty's seventh

year managing the Seminole High School lunchroom. And the care she takes in "seeing to it" that each boy and girl is served properly and receives the food he or she should get, reflects the thoughtful analysis she applies to lunch preparation.

"If I find a boy or girl coming through the line selecting a poor lunch—I try to find out why," she said, "and usually the thinner they are the lighter they eat."

Commenting on the difference in diets Mrs. Hasty remarked "Boys just eat better than girls—and not because they are diet conscious either."

Now, take the usual lunches that are served here—the boys choose a meat, mashed potatoes (and they eat plenty of them, too), one or two vegetables, dessert and milk. Mrs. Hasty said. As a result, she said, the average cost of a boys lunch is 40c while the girls' lunch averages about 25c.

"We serve a variety of foods," the lunchroom supervisor said. There are jelled salads, cottage cheese and fruit, egg salad, cole slaw, cottage cheese salad and potato salad, "not all at one time, of course, but varying from day to day."

"We do our own baking too, every bit of it, with the exception of the hamburger buns," said Mrs. Hasty. "We bake pies, cakes, rolls, cornbread, and
