## LEGISLATURE MUST SPEED UP AT DOUBLE TIME FOR THE NEXT FOUR WEEKS

Much Time Has Already Been Lost on Just a Few Bills

### THREE MEASURES

Of General Nature Have Been Passed by Both Houses and Flood of Locals

(By The Associated Press) TALLAHASSEE, April 28.—Unless the legislative hoppers produce at double capacity next month the present session of the legislature seems likely to establish a record in few weeks enacted with virtually half of the 60-day session gone and only three of the four so-called general measures passed both houses. There have been an unusual flood of local measures enacted. Of general bills on was to give one Confederate veteran back due pension of \$400 and two others when signed by the governor, will give judicial circuits of Hillsborough and Duval counties additional circuit judge. Much of the session given to consideration of convict reform measures and one to eliminate practice of leaving convicts to private firms and individuals has almost passed.

TALLAHASSEE, April 28.—Yesterday was convict day in the Florida legislature. Virtually every piece of business related to them and all of it was brought on, at least given impetus, by the excursion more than 15 months ago of a North Dakotan, who met death in a private prison camp.

The house passed in amended form a senate bill that when its final passage is effected, will mean the end of leasing convicts to private firms or individuals in this state.

The house then turned to work on a measure to give vagrants a more appropriate trial, the senate voting on a bill to prohibit corporal punishment. It was this phase of the day's legislative activity that brought the most attention in view of the assurance held for the success of the other prison reforms. The lash, before it goes, if it does go at all, is going to make a fight. The senate which has it first to deal with, is so closely divided on the subject apparently as to preclude more than a hazard of its outcome. The upper house orated the question for one hour and forty-five minutes, and when it saw that the end was not in sight, decided to go home for its usual week-end.

Senators Stokes and Wells spoke of the whip in uncompromising terms, it was defended on the other hand by three staunch supporters, Senators Johnson, Phillips and Knight. Medical authorities have stated and Senator Phillips believed them, he said, that the whip is the most humane punishment yet evolved by man. It's a remnant of barbarism in the opinion of Senator Stokes. To abolish the whip would demoralize discipline in the state camp, Senator Phillips asserted. Other states have found better means of discipline for their prisoners; let's put Florida in the list, Senator Stokes pleaded.

Senator Stokes with Senator MacWilliams, is a member of the joint vinct treatment, and it was he who committee investigating brutal condescend the burden of the fight to send the lash the way of discarded things today. As the senate closed Senator MacWilliams had brought to him the whip which it is alleged sent Martin Tabert to his grave. Senator MacWilliams plans to let the senate look at its bulky strength Monday afternoon. It was described by Mr. Stokes today as the most brutal instrument of punishment he had ever seen, certainly it compared with the tortures of the lquisition, he said.

The measure to prohibit corporal punishment introduced by Senator W. C. Hodges came before the senate yesterday on crutches. It was reported unfavorably by a committee headed by Chairman Pittman. Mr. Stokes came to its rescue and called it to the calendar and there it was taken up for consideration under a special order of business.

Senator Johnson promptly coupled

## PRESIDENT WANTS POWER TO USE NAVY

AGAINST RUM RUNNERS AND IS LOOKING FOR AUTHORITY

(By The Associated Press) WASHINGTON, April 28.—At the Department of Justice today the president's request for an opinion on U. S. naval vessels against rum runners were referred to Assistant Attorney Willebrant in charge of the legal aspects of the prohibition enforcement. Mrs. Willebrant at once began examination of legal technicalities involved. She indicated considerable time will be required before her opinion could be formulated.

### SEEK TO SOFTEN VAGRANCY LAWS

TALLAHASSEE, April 28.—Assertions that some sheriffs and their deputies were conducting the offices in "very rotten ways," were made in the house today as that body debated a measure introduced by Representative Hendry, of Taylor county, which would require that all violators be given jury trials. Final action on the bill was postponed until Tuesday. Representative Hendry declared one of its objects was to offer protection to a man honestly seeking employment for being picked up on the highways and railed to jail on the broad charge of vagrancy.

Mr. Hendry declared that it was often the case now that the maximum of six months was imposed and the defendant sent to a convict lease camp.

The cost involved in jury trials met with some opposition and Representative Carmichael led in the fight to have the jury trial provision stricken. Representatives Kennerly and McComb spoke in favor of the adoption of the bill.

Representative Weeks of Holmes declared the vagrancy law as now stands merely allows sheriffs and deputies to get rich off fees, while Representative Kennerly related parts of testimony adduced at the joint legislative committee's investigation of reported convict brutalities.

The many friends of Mrs. E. C. Boman will be glad to learn that she is recovering from an operation by Dr. Mitchell at Robson's Sanitarium. She will soon be out again.

Australian mines produced the largest amount of gold since 1903 last year although the output of New South Wales decreased from former years.

the parental whip with that of the convict guard's lash by offering a sub for all of Mr. Hodges' measure except its enacting clause, which first would have made it assault and battery for a parent to whip his child; second, the same offense for a school teacher to whip one, and third a ban against the whipping of convicts. Mr. Johnson based his support of corporal punishment on the absurdity of his sub, which he said he was sure no senator on the floor and neither would he support. He had a thought, he said, to also legislate eternal punishment out of existence.

TALLAHASSEE, April 28.—The State Road Department in regular quarterly meeting today, heard delegations from all parts of the state seeking work on certain projects. The department yesterday awarded several contracts, bids for which had been promiscuously advertised.

## TWENTY-TWO ALLEGED COMMUNISTS WERE ARRESTED IN PITTSBURG, PA., AFTER A RAID BY THE OFFICIALS

Of Pittsburgh, County and Federal Officers Last Night

(By The Associated Press) PITTSBURGH, April 28.—Twenty-two alleged Communists, including one woman were under arrest here today after raids last night by city, county and federal officers. The prisoners, according to the authorities, had planned a big May day demonstration in Allegheny county. The district attorney announced raids would continue until every one suspected was in jail. Large quantities of illegal literature were captured by authorities. It included subscription blanks for a fund to defend the men arrested in Michigan.

### Burke Will Be Tried in Police Court on Tuesday Morning

And where is President Lang and why doesn't he step in with his suspensions as did the President of old? The season does not have to be over a week or two old before the "extras" start and the first big event to be pulled off seems to have been Ernie Burke's "gab fest" with his honor the traps in the fray at Lakeland at the opening game of this last series. We of course did not see the game, and would not be guilty of trying to pass judgment if we had, but what we would like to know, is this: how can a man be arrested, put in jail, tried in court, etc., for conduct unbecoming a ball player while on the field, and then not hear a word from the President of the league about it. Sanford had the same trouble once or twice and we will leave it to you, how many times and how many men did the ex-President Rose fine and suspend for us. But of course, we should worry, 'taint our troubles, and Mr. W. J. Merrill, writing in the Lakeland Telegram says:

The real event of the day was the fracas in the fourth, which ended in Burke's ejection from the park. Hunter and Saunders had singled in succession. Smith endeavored to catch Saunders off first, and Umpire Walker ruled that Bert Humphries, coaching on first, interfered with Stewart's try for the throw. The ball rolled out toward the auto line, and both runners advanced a base. Walker's decision to put them back where they were, brought forth a storm from Ernie Burke. When we storm, we mean a storm of cursing, directed rather impartially against the umpire and others, among whom he finally included Catcher Smith, who attempted to knock the jet name back down his throat. McLaughlin, who was at the bat at the time, tried to horn in, and Smitty gave him a little of the same. Players, spectators and police intervened and Burke was finally escorted from the park by Officer Hutchingson and Deputy Sheriff Purvis. Sweetland took his place at first, and the game went on, as games have a habit of doing, despite little interruptions and side plays, such as this.

The whole matter will be aired in police court Tuesday morning when Burke's side of the story will also be heard.

Add to the Tinkerism that was so noticeable last year in the special crabbings of the Bulldogs, was the presence of Joe Tinker yesterday on the field of action who walked out on the diamond after the little flurry and romped on the bumps, and in general made himself very important and also sat on the bleacher bench and also sat on the dug-out and gave his instructions to the Orlando players, all of which was out of order and contrary to all rules of baseball.

A similar trainload, which comprised 40 freight cars was shipped to Buffalo April 4. During this same week a trainload of Oakland's filling 30 freight cars was shipped to the Chicago branch.

The special trainloads mentioned above are in addition to the regular section of the... railroad shipments made to every section of the country.

In addition there are the regular overland drive-aways to nearby points.

W. R. Tracy, assistant sales manager, stated that every effort is being made to get cars to dealers in time for the spring buying which is opening with a decided rush due to the recent prolonged cold weather.

He reports that railroad equipment and facilities for the shipping of motor cars to the west and the south-west are all right, but there is still a considerable tie-up on shipments to Eastern points, although this is not so bad as it was earlier in the year. He likewise reports a steady increase in the number of blessed models being shipped—a general tendency noted in the whole industry.

### WITNESSES GIVE ALIBIS IN CASE ON JAIL RAIDERS

STARKE, Fla., April 28.—A score of witnesses for the defense today presented alibis for six of the nine men on trial in circuit court for alleged complicity in an attack upon the Putnam county jail, March 2, in which Sheriff P. Bryan and John Baumgartner. Six more will testify tomorrow.

Seven witnesses testified today that Chesley Fowler, identified by Sheriff Hagan as a member of the mob which sought to remove a negro held for the murder of H. C. ### FIRST NATIONAL BANK SHOWS WONDERFUL PROGRESS IN STATEMENT TODAY

The First National Bank continues to improve and is "getting better day by day" as it would seem. About a month ago the First National issued a statement showing a wonderful gain in deposits and in other parts of the statement and today a new statement gives the bank a high level in deposits. "The best part of the statement today is the comparative statement made a year ago and today. This year the deposits on April 27th were \$1,431,057.34. Last year on the same date they were \$1,265,567.90 showing a big gain in deposits and the immense business now being done by the First National.

Miss McClatchie died in the water, a short time after a fish believed to have been a barracuda, severed the artery in her left leg. Miss Buhner held the lifeless body of her chum above water for more than 45 minutes and swam ashore believing she was only unconscious. ### THE ETERNAL TRIANGLE

The eternal triangle is indeed eternal! Five thousand years ago in the cave-man age there existed love triangles just as there do today. In the Paramount picture "Adam's Rib" produced by Cecil B. DeMille and which will be shown at the Princess for the last times today, the featured players are seen in a "vision" of the stone age.

Milton Sills, Anna Q. Nilsson and Theodore Kosloff compose this triangle. This is in the episode in the giant red-wood forests, but again in modern times Milton Sills, as a successful broker, comes home to find his wife (Anna Q. Nilsson) entertaining Theodore Kosloff, playing the role of M. Jaromir, the exiled king of Moravia, a small state in Europe.

## WOMAN'S CLUB COLUMN

Mrs. Henry Wight, Reporter  
Phone 345-W

The regular monthly meeting of the Literature Department, was held last Wednesday afternoon at Comfort Cottage, the hospitable residence of Mrs. Margaretta Martin, chairman. The report of the program committee was of unusual interest. For some seasons the study of drama has been tentatively discussed, and now at last it is definitely planned to take it up for the new club year, in one of its newest and most fascinating forms—the reading of plays. The following is the outline handed in by Mrs. Leonard:

- October—The Servant in the House, by Charles Rann Kennedy.
  - November—Chanticleer. Edmund de Rosland.
  - December—The Chastening.
  - January—A Doll's House, Henrik Ibsen.
  - February—Abraham—Lincoln, Drinkwater.
  - March—Lady Windemere's Fan, Oscar Wilde.
  - April—Peter Pan, Sir James Barrie.
  - May—The Blue Bird, Maurice Maeterlinck.
- In May, Peter Pan is to be given

## SANFORD'S TEMPERATURE

For Florida: Fair tonight and Saturday.

publicly, directed by Mrs. Richard Maxwell.

The above outline is so interesting that no doubt, many who have not heretofore belonged to the Literature Department will send in their names for membership to Mrs. S. O. Shiholser, Secretary-Treasurer.

The program for this particular meeting had to do with denominational missionary effort in China, and was ably handled by Mrs. L. R. Phillips, Methodist Missions; Mrs. C. C. Woodruff, Presbyterian; Mrs. Martin and Mrs. Leonard, Episcopalian Missions.

The work on the new club building is going on apace, and it is more or less of a problem to keep ahead of the necessary weekly payments. The building committee, however, is right on the job every minute, and the club membership constantly congratulates itself upon this efficiently functioning group. Every woman in the club lives it to herself to give quick and ready response to everything asked of her—confident that nothing unreasonable will be demanded. The rummage sale Saturday in the new Hill store on Sanford should be a whale of a sale, and will be if every woman will give just one or two articles. These articles will be gathered up by Mrs. John Meisch, Mrs. Fitts, and Mrs. S. Puleston.

The Welfare Department has now its new committee actively at work on the Cemetery. The sexton is daily looking after his duties again, the tank will be kept full of water, and grass planted lots will be cared was delivered this week.

Among the acquisitions of real value to the Woman's Club the past year have been, Mrs. Dr. Gibbs, who was transferred to the Sanford Club from Crown Point, Indiana. Mrs. Gibbs has served several terms as and still holds the office of club president of the Crown Point club, parliamentary.

Mrs. Walter Wight, also served for several terms in her home club at Cairo, Georgia, and was for years a member of the state board of the Georgia Federation of Women's Clubs.

Mrs. C. E. Hinton comes to the Sanford Club from the Progressive Culture Club of Titusville, Florida, and Mrs. Roy Peoples from Sorosis of Orlando.

Mrs. E. M. Galloway, the newly elected chairman for the new club department of Junior Work, expects to organize the young ladies in the very near future. This plan for Junior Work was emphasized in the Biennial Convention in Chautauqua last year, and all the states are making an effort to harness the splendid energy and fresh viewpoint of youth for the great influences of the organized woman's work, and incidentally training leaders to take up and carry on as the older leaders become less active.

The plans for Garden Week have been most attractively carried out, and a full report of the activities will appear in this column next week.

Clara Phillips, the hammer murderer should be sent to Clara, Florida for life.

Sheriff Jones denies the charges that he was anything except what a good sheriff should be. We did not expect him to own up.

"The Japanese Peril" is again taking its place in daily papers and forming part of the summer fiction. We are not afraid of any Japanese peril. There are greater perils right here at home.

The son of Attorney General Daugherty has been sent to a sanitarium for habitual drunkardness. Too bad and we feel sorry for his father. It seems strange that the Attorney General cannot control the booze traffic any better than that.

The growers of Sanford should organize for a number of good reasons and the greatest reason is that it would insure a good pack, would mean that the Sanford brand would guarantee good stuff and the buyer would be protected. If nothing else was accomplished by the organization the first year it would pay to organize. And it is up to the growers to see to it that they want an organization or not. They are the people vitally concerned and they should know what they want. And last but not least there should be at least sixty per cent of the best growers and the biggest growers in the organization before it is launched.

It seems that the City Commissioners have definitely decided that all the street paving will be asphalt. The Herald believes that the City Commissioners are honest in their convictions and that they are trying to get the best paving for the money that they can buy. However, if there is a better kind of asphalt paving that can be secured either for the same money or maybe for a little advance in price over the pure asphalt that will give asphalt what it needs for long life and wearing qualities in this climate we believe that the tax payers are entitled to get the best. We live and learn and there are new ideas in street paving as well as in automobiles. The editor of the Herald is not an expert on paving. We honestly believe that brick is the most durable paving that we have ever obtained but we are also open to conviction on the subject and would not say there is no other material in the world for paving and it is also a well known fact that the freight rates on brick make the price almost prohibitive. We want the best paving obtainable at a price within our bond money but we do not want anything but the best at that price and the best way to find out about paving material is to give it the test.

WHEN CHARITY IS NOT CHARITY

Why is it that heads of business and moneyed men are considered the logical dispensers of charity? It is because they are judged as having taken more out of the community than strict justice would permit, and "charity" becomes a means of salvaging the public and their own conscience. It is wholesome when churches and colleges and other public institutions depend on the doles of the rich and not upon the general abundance of the people. Is there anything more degrading to a business concern than to underpay its men and then supply even churches and pay ministers and give them to the men as gifts? And is there anything more degrading to the men themselves? Charity in this sense is a most despicable thing, staining him who gives and him who takes.—Henry Ford.

THE KU KLUX KLAN SHOWS ITS HEART.

The Ku Klux Klan yesterday brought about \$200 in cash, laid it on the Sentinel's desk, and through its representatives stated that the money was to be used for the relief of Mr. and Mrs. Patterson, and for assistance toward an investigation into the death of their son Frank in a Michigan reform school. The Orlando chapter of the Klan shows that it has a heart, wants to help those who are indigent and wants an investigation that will give all the facts without fear or favor. In donating \$200 to the Patterson relief fund the Klan is doing constructive work. It is proving to the community that it desires a square deal and justice. From a general survey of the press of the United States it would seem that opposition against the Klan has run its course. We have observed that the organization has performed a great deal of service in various sections of the country, produced respect for law and order, intimidated those who thought they were beyond the pale of the law, and in a general way gained favor by their principles. In giving to the Pattersons the organization has done a generous thing and those who are unprejudiced will think it, even those who are prejudiced will respect the motives that induced the membership to so handsomely subscribe such a large amount.—Orlando Sentinel.

DAYTONA HAS SOFT WATER.

"We never miss the water until the well runs dry," is an old saying that doubtless occurred to Daytona people hundreds of times during the past ten days. The closing of the softening plant, while a new pump was being installed gave Daytona natural water, just as it boils up from the depths of the earth, just as it is served to most towns and cities in Florida.

But Daytona has been accustomed to better water for all purposes so long that the temporary reversion to the natural product of the earth was anything but pleasant.

In this connection it might well be timely to remind the public that Daytona has about the best water in Florida, as pure as that found anywhere, and Daytona has a water plant that is considered a model. Scores of other cities in this and other states have sent engineers and city officials here to find out how we get this water.

Good water, pure and soft, is a real asset to any city. Here it is taken as a matter of fact.—Daytona Journal.

This is the same water that Sanford uses only Sanford has never been able to get it softened and never will until Sanford owns its plants. The Southern Utilities Co., have agreed to soften the water but have never made good on their promise.

HUMAN NATURE IN FLORIDA AND MICHIGAN.

Human nature is much the same whether you find it in Florida or Michigan. If there is a vein of brutality in a man it will certainly show itself regardless of his place in life. It is a curious coincidence however that while Florida was stirred to its very foundations by the stories of horrible brutality practiced against its helpless convicts, Michigan should come to the front with a similar story, almost identical in its details of awful and inhuman brutality, followed as in our own case by the death of the victim, in this case a Florida boy. As we welcomed the action of the North Dakota legislature in its endeavor to protect one of its citizens, and promptly started an investigation to lay bare the facts however discreditable they might be to the state, so now it is the duty to demand the same action on the part of Michigan. Give us the facts, no matter whom they hit. That is the first step towards correction. We do not know if the Michigan legislature is in session or not. We think not, but that does not abate the state from an atom of responsibility

for the crimes of its officials. There must be some authority for the punishment of crime, and brutally against helpless prisoners is one of the worst of crimes.

The Florida whipping boss, has been removed from his position and is now under indictment for first degree murder. If he is tried and convicted, he will suffer the extreme penalty. Let Michigan show the same zeal in behalf of right and justice and humanity if it would clear its skirts of the stigma which now rests upon them.

There are some differences of detail between the Florida case and that of Michigan. The Florida lad was an inmate of the Michigan state reformatory, an institution, as its name implies, for the reformation of the young, who would otherwise become criminals. He was under a three year's sentence, which was near completion and had hopes of an early release. There was every reason why he should have been treated with kindness and forbearance. It is difficult to believe that he made an assault on the guard, and the latter acted in self defense as is alleged. There is all the more reason why the investigation should be thorough and impartial. No state can afford to shield criminals who may happen to hold an office which gives them an opportunity to exercise unwarranted brutality against those who may be placed in their power.

It will do good to have the methods of these institutions which aim at the repression of crime and the reformation of criminals, shown up to public view. The people have very little idea of what goes on behind the closed doors of the penitentiaries. It is a mistaken idea that the inmates of such institutions must be treated brutally and sternly; that they will not respond to kindly and just treatment. Our own state prison farm is a living refutation of that idea. It is ruled by the honor system, which is seldom abused, and is regarded as a model by other states.—Tampa Times.

### Memorial Beats Sanford, 6 to 4

Memorial High school defeated Sanford High school yesterday at Exposition Park in a hard fought game. The score was six to four. Roland Timker, Memorial's second baseman, injured his ankle in the fourth inning and had to retire from the game.

Elliott kept Sanfords hits well scattered and, apparently, had the Seminole boys at his mercy throughout the game. M. Moye pitched well for the visitors, but bunched hits combined with errors gave Memorial four runs in the sixth inning, a lead which it never lost.

### FIRST CAR OF PEPPERS SHIPPED OUT TODAY

The Sanford Truck Growers, Inc., shipped the first straight car of peppers today and they were some of the largest and finest that ever left Sanford. They were from the farm of G. F. Smith on Celery avenue and will bring the top market price. It is stated by those who know that peppers and tomatoes and all spring crops will bring good prices this season and the growers will be enabled to recoup on some of their celery losses. The Herald had some of the Smith peppers today and they were certainly fancy stock.

### There is No Mystery about the Telephone Business

There are probably some things about the telephone business which mystify you, just as there are things about other businesses which you do not thoroughly understand.

Perhaps it is a charge on your bill or some practice about the service which confuses you, even if it does not annoy you.

When these occasions arise, why not ask the local manager about them. He will be glad to explain our entire rate schedule or to tell you the necessity for any of our practices.

All telephone practices are designed to make it easy for you to do business with us and to improve your service. They are the result of long years of experience and reflect our best business judgment. They are flexible and are constantly revised in the interest of cordial relations with our patrons.

There is no mystery about the telephone business and one of our greatest difficulties is to induce our subscribers to tell us about the things that worry them.

We want you to be familiar with the reason for every charge we make and to be satisfied, as we are, that it is a proper and necessary charge.

Errors are inevitable in all enterprises using human agencies and we particularly want you to tell us when there is error in the account rendered you or when you do not fully understand any feature of it.

Our success depends largely upon the measure of the good will of the community we can win and hold.

Willingness to correct error and to cheerfully explain every detail of our business are, we believe, two prime elements of public service.
