

Seminole's Celery Feds Have A Fast And Puzzling Aerial Attack

Red Line Appears Somewhat Stronger In Scrimmage Tiff After Blocking Assignments

System That Celery Feds Will Use Is To Be Puzzling To Landon High Squad

Line Improves In Speed And Power

Nearly Prepared To Meet Landon High Team Friday Night

The Seminole High School Celery Feds looked somewhat better yesterday afternoon during their initial practice session of the week when an extensive blocking session was conducted while the Fed backfield men underwent the same routine.

Things are beginning to brighten up a bit after a gloomy past week that was spent with injured men as they are coming back much with speed and power and the line, that still doesn't look as strong as it should be, is rapidly gaining in the old system knowledge.

The boys are showing some interest in the work that Head Coach McLucas has planned for them and the Feds play their first game of the season in Jacksonville Friday evening at the Jacksonville Municipal Stadium against the powerful Lions of Palm Landon High School.

It will be the first game of the season for the Trojans coached outfit which will give them a somewhat more of a chance and with the new system that the Celery Feds are using, they will be apt to give Landon a big puzzle for the first quarter at least.

The Celery Fed backfield is one of the best backfields of McLucas has had in some time as the old hand of reserve power still lurks in the shadows. The Feds, in the scrimmage session yesterday, unbridled a strong passing attack that looks as if it will add to a great extent in their hand schedule. The attack is mapped out in more or less an unbreakable manner and defensive backs are going to have another puzzle in stopping it.

The Feds are blocking very well in scrimmage as well as during other assignments of that nature. The backfield is blocking as nicely as if they were veterans. They are running an interference on a par but it will have to pick up slightly in order to aid those ball carriers.

During the scrimmage session yesterday, a passing attack was featured and the McLucas drive the first eleven through

Cowell To Drill With Full Squad In Coming Week

Two New Hatters Report For Initial Practice Today

DELAND, Sept. 21.—Barring injuries, the Stateon Hatters will drill this week with a full squad for the first time since pre-season practice got under way on Labor Day.

Vincent Schaeffer of Indianapolis, ace pass receiver and flankman of last year's freshman team, and who Coach Brady Cowell considers one of this season's mainstays, worked out yesterday for the first time. The other late arrival, another end, was Charles Cobb of Miami.

Practice sessions were cut to one drill a day with the opening of school and the Hatters will work out from now on only in the afternoons.

A number of candidates for the frosh squad worked out in shorts yesterday, but Cowell said freshmen practice would not begin until later in the week.

Dick Saule of Palm Beach, a guard injured in last Thursday's scrimmage was back in uniform today leaving only Hall Goodbold of Gliffoed, tackle, out with a sore hack, on the injury list.

Coaches Cowell and Chet Freeman drilled the backfield and line separately on blocking and tackling and indicated they would scrimmage today.

A hard group of plays using the unbalanced line with single and double wingback plays.

The line-up for the first string was as follows: Sam Walts, L; Robert Howell, LT; Whitely Young, LG; Fred Ganax, C; N. A. Harkey, RG; Ashby Jones, RT; Billy Colbert, RE; Johnny Morgan, QB; Darrell Ferguson, LHB; Leon Lawson, RHB; and Robert Stolnoff, FB.

The second string outfit was as follows: Walter Turner, L; Robert Hymbley, LT; Hubert Smith, LG; Jim Riser, C; Sidney Nix, RG; Raymond Hasty, RT; L. M. Telford, RE; Walter Cooper, QB; Douglas Stenstrom, LHB; Frank Merchant, RHB; and Billy Ward FB.

Iowa is the nation's greatest corn producing state.

The medicinal waters of the Saratoga Spa, New York, have been famous since the time of the Revolution.

Clearwater Drops Initial U.S. Decides To Participate In League Studies

Gridiron Tilt To Paterson N.J. School By A 13-7 Score

It Was The 19th Straight Win For The N. J. School As 7,000 Saw Them Get Decision Over Al Rogero's Squad

PATERSON, N. J., Sept. 21.—(AP)—Pompton Lakes High School ran its string of football victories to 19 in a row at the Hincliffe Stadium here last night, defeating Clearwater, Fla., by a score of 13-7 before a crowd of almost 7,000 persons.

Pompton pushed over touchdowns in the second and third periods, and held the Southerners to one in the final period.

By scoring the second Pompton touchdown, Quentin Cooper, Pompton halfback, made it 19 straight games in which he has scored at least one touchdown.

Neither team could make much headway in the first period, but midway in the second quarter Pompton marched 32 yards for a touchdown.

Gene Redinger passed 13 yards to Bill Stagg in the end zone for Captain Whifey Erickson falled the first score of the game, in his effort to convert the extra point from placement.

Throughout the first half the defensive work of Cecil Reed and Warren Wasple, Clearwater end and tackle, respectively, was outstanding.

The Tornadoes failed to click with their vaunted "aerial circus," however, one of their forwards being intercepted and their only lateral losing considerable yardage.

Pompton continued to dominate the play in the third period, mostly because of the hard-charging tactics of the Cardinal line.

Clearwater, taking advantage of the change of rules to conform with the Florida style of play, opened its aerial attack. The first efforts proved disastrous, however, Johnny Frederick, Pompton fullback, intercepted one of Stan Moore's forwards on the Tornado 25 and ran it back to the 18. From there Cooper carried it over for the touchdown on four tries. Erickson kicked the extra point.

Clearwater broke the ice in the final period, a prolonged aerial attack carrying 60 yards to a score. The combination of Moore to Gerald Merritt finally clicked for 11 yards and a touchdown. Merritt kicked the extra point to make the score 13-7.

U. S. Will Seek Harlan Indictments

WASHINGTON, Sept. 21.—(AP)—The Justice Department said today it would ask a federal grand jury at Frankfort, Ky., on Sept. 22 to indict "certain Harlan county coal operators and other individuals" on charges of interfering with the civil rights of Kentucky coal miners.

The decision to seek the indictment follows completion of an investigation by federal agents on Harlan county which Attorney General Cummings ordered on May 19 after he received complaints from Senator LaFollette, Wisconsin Progressive, chairman of the Senate Labor sub-committee, and John L. Lewis, leader of the Committee for Industrial Organization.

Baseball Club Ends Season With Surplus

(Continued From Page One)
Lookouts purchased \$479.49 worth of Goldsmith baseballs, spent \$419.38 for uniforms, bats and catchers equipment. The club members were fined by the League president for a total of \$115.00; the official scorer was paid \$74.32, medical supplies totaled \$20.59, and other miscellaneous expenses ran up to \$148.00.

The athletic association has paid the City in numerous payments, a total of \$2,500.00 for the installation of the lighting equipment at the ball park. The club paid \$178.38 for telephone calls and telegraph expenses, \$781.49 for the upkeep of the park and things but must convince the voters of their honesty and ability to get results.

"The most pleasing observation on the entire trip was the widespread indication that the verting and had on hand from people of the State have accepted the efforts of the Tax Revision League as a sincere and honest effort to revise the State's tax structure for the betterment of Florida and all its people," Mr. Ramsey said.

The total compensation paid injured workers is about \$240,000,000 a year in the United States.

Japan Bombers Kill 200 Nanking Civilians; 300 In Raid On Canton

U. S. Ambassador To China Is Ordered Back To Embassy Post In Nanking

Cholera Epidemic Continues Spread

Canton Is Bombed 4 Times In 24 Hours; Great Damage Done

SHANGHAI, Sept. 22.—(AP)—An unchecked epidemic of cholera spread in Shanghai today dwarfing the threat from the closely drawn Chinese and Japanese battle lines in the war zone to the north-west. Official statistics disclosed that more than 1,500 cases of cholera had been confirmed in the International Settlement and French concession. The epidemic was considered the worst in Shanghai's history and is spreading at the rate of 100 cases a day.

NANKING, Sept. 22.—(AP)—Less than 48 hours after the British and American protests to the Japanese government against the unrestricted bombardment of this capital, more than 50 Japanese airplanes twice rained death and destruction from the skies today killing, wounding, or burning to death more than 200 Chinese refugees.

Three hundred lives were feared lost at Canton today in a series of devastating raids by Japanese bombing planes. The fourth attack of the day and the sixth within 24 hours came in mid-afternoon. Estimates of the toll in lives and property—all unofficial—mounted hourly.

Foreign eye-witnesses told of piles of bodies, most of them civilians, in the streets of the southern Chinese metropolis. Official comment on the havoc wrought by the raiders was lacking. Japanese airmen apparently were trying to crush the morale of the Canton populace. Railway facilities were taxed by throngs trying to leave the city. The killed or injured in Nanking were mostly those who had been too feeble or helpless to join the exodus into the safety of the interior.

Japan Apologizes For British Injuries

TOKYO, Sept. 22.—(AP)—Japan today expressed regret for the wounding of the British ambassador to China in an aerial attack outside Shanghai and British quarters said the note demanded for an apology and assurance such incidents would not again occur.

The British demand for punishment of the aviators who machine-gunned Ambassador Sir Hugh Knatchbull-Hugessen on Aug. 28 was, however, answered ambiguously by the British.

The note on this point observed "it is needless to say the Japanese government will take suitable steps whenever it is established that Japanese aviators killed or wounded intentionally or through negligence nationals belonging to a third country."

U. S. Protests Again Against Jap Bombs

WASHINGTON, Sept. 22.—(AP)—United States government today delivered to Japan a second and more vigorous protest against the bombing of Nanking. It was signed by Secretary Hull who said the new representation differed from those addressed previously in that it contained a formal written note.

Previous protests were made on the grounds that the threatened bombing violated humanitarian and international laws and were delivered orally. Hull said official reports to Washington indicated one shell exploded in the American embassy compound during the raid.

Mississippi Beauty Leads Legion March

Pretty, vivacious Ann Bishop of Tupelo, Miss., stepped high and handsome in leading the American Legion's spectacular parade in New York. She is shown as the line of march headed up Fifth avenue.

Plans Completed For Local Census Among Religious

Plans were completed for the religious census to be taken in Sanford soon under the auspices of the Sanford Ministerial Association. The Rev. W. P. Brooks, member of the association, announced today, adding that this census is taken in Sanford on the average of every two years.

Police Will Patrol Municipal Ball Park

Members of the Sanford Police force will patrol the Sanford Municipal Baseball park to prevent any damage to property or interfering with the game. Chief of Police Roy G. Williams announced today.

President Approves Plans For Census

HYDE PARK, Sept. 22.—(AP)—John D. Biggers, administrator of the unemployment census, announced after a summer White House conference today that President Roosevelt had approved final plans for the voluntary enumeration.

TRADE INCREASES

OTTAWA, Ontario, Sept. 22.—(AP)—The great increase in trade between Canada and the United States under the Canadian-American reciprocity trade agreement is being well maintained during the second year of operation of the pact.

OTTAWA, Ontario, Sept. 22.—(AP)—The great increase in trade between Canada and the United States under the Canadian-American reciprocity trade agreement is being well maintained during the second year of operation of the pact.

U.S. Plans Cut In Work Relief Appropriation

Attempt To Balance Budget Also Means Discontinuance Of Public Works Act

WASHINGTON, Sept. 22.—(AP)—Informed fiscal officials predicted today the Administration will trim work relief spending substantially during the next fiscal year in an effort to balance the budget. Hearings on the 1938-39 budget already have been started by Daniel W. Bell, acting budget director.

President Roosevelt will submit estimates to congress in January. The cue for the relief prediction came from a statement issued yesterday by Marvin H. McIntyre, White House secretary saying Mr. Roosevelt has made a final allocation under 1937 Public Works Extension Act.

Officers Are Nominated By Local Future Farmers

Nomination of officers for the annual election of the Future Farmers of America was made at the first meeting of the organization this year in their club-room in the Seminole High School last night.

Chiropractors Plan Annual Convention

Plans for the annual convention of the Florida Chiropractors' Association to be held in the McFadden Develille Hotel at Miami Beach Oct. 5 and 6, were discussed at the meeting of the board of directors of the organization in the Valdez Hotel here Sunday, according to Luther T. Doas, president.

Elks Will Meet At 8:00 On Friday

The local Order of B. P. O. E. will meet in their Club room at 8:00 o'clock Friday night to discuss matters of importance to lodge members.

CITY NEWS BRIEFS

At the meeting yesterday Fred Williams was appointed chairman of the program committee for the next week and an attendance committee was appointed to make an effort to get a larger attendance of members at their weekly luncheons.

GEN. DENHARDT SLAIN ON EVE OF MURDER TRIAL

The night before he was to have gone to trial again on charges of murdering his fiancée, Mrs. Verna Garr Taylor, Brig. Gen. Henry H. Denhardt, former lieutenant governor of Kentucky, was shot to death at Shelbyville, Ky. Mrs. Taylor's three brothers, surrendered immediately afterwards and officers quoted one of them as admitting he fired the shots. The picture of Denhardt (upper left) is one of his latest. It was made last August 10 during summer army maneuvers. An hour after the killing, a crowd is shown (upper right) at the hotel door in which the general fell dead. The man on the floor lies just as Denhardt was found. The Garr brothers are shown (below) just after they surrendered. Left to right: Jack Garr, Dr. E. S. Garr and Roy Garr. The confession was attributed to the latter.

Officers Are Nominated By Local Future Farmers

Nomination of officers for the annual election of the Future Farmers of America was made at the first meeting of the organization this year in their club-room in the Seminole High School last night. It was announced this morning.

Jaycees Consider Plan To Develop Lake Front Park

Development of the proposed lake shore park is the prime objective of the Sanford Junior Chamber of Commerce, according to E. E. Loney, vice-president of the Junior Trade body.

Not Guilty Pleas Entered In Court By Twelve Negroes

Twelve negroes were arraigned before City Judge Frank L. Miller in a session of the Municipal Court yesterday afternoon. All pleaded not guilty to the violations with which they were charged and only two received sentences.

Legion Will Meet In Los Angeles In 1938

NEW YORK, Sept. 22.—(AP)—The American Legion today selected Los Angeles as the city for the 1938 convention.

WEDNESDAY, SEPT. 22, 1937
FITTING PUNISHMENT:
Wages cannot be too high for the man who works hard. He must have something to live on.

The Orlando Sentinel has a new dress for its editorial page. And we must say it is very becoming, looking like the New York Times on a Sunday picnic.

They are executing a lot of men in Russia these days. But over there, anyone is a spy who intimates even in the privacy of his own boudoir that perhaps Stalin occasionally errs slightly in running the Soviet government.

The members of the younger dancing set at Palmetto are going the Big Apple one better. It is called the Sandspur Shimmy, and paradoxically enough, according to news reports, it is no sticky affair.

The American ambassador to China left Nanking, after being warned to do so by the Japanese, so fast that his coat tails got caught in the embassy door. Other embassy staffs also wanted to leave Nanking as fast as they could. It was an inglorious exit for the American, but of course it was time to keep this country out of war. And yet one wonders, in a world so full of dangers, if one can always avoid a fight merely by running away from it.

Berlin enjoyed an air raid, as realistic as if Russian bombers were actually flying over the city dropping tons of high explosives. Every civilian stopped work, took to bomb proof cellars, while aircraft guns atop Berlin buildings blazed away at mythical enemies and men with red paint splashed over them dashed about to hide from the pandemonium. It must have been great sport, though too realistic for comfort.

Automobile Peter S. Roy of Sanford is today's new member. He qualified as a Motorador back in January on Cow Path 17, and last week won his class on No. 44 by engaging two cows, killing one. "My car can be photographed for proof," he assures the secretary of AHOMA. If the meeting is not too sudden and severe, cows probably do not mind running into him, as he is a doctor of veterinary medicine and qualified to render first aid and all. —Phil Betaney.

The State Hospital for the Insane at Chattahoochee is no "insane asylum," says Dr. J. H. Bradford, head of the institution. It is not designed primarily to incarcerate persons hopelessly out of their minds, but to take persons temporarily deranged and through careful treatment restore them to useful membership in society. "There is no more disease in becoming mentally sick than physically sick," says Dr. Bradford. And if the head of hospital succeeds in doing nothing else in his administration than abolishing the antiquated notion that the mentally sick are witches, he will have done much.

Whatever else may happen to the popularity of the New Deal in other parts of the country, we doubt if anyone in Key West will ever cease to sing the praises of President Roosevelt. There a few years ago eighty percent of the population was on relief. Everyone who could get out had left the city. Buildings were dilapidated, and streets completely deserted, while a dependent population had neither money to give nor a job or initiative to know what to do. The Federal Government has changed all that, made Key West an attractive tourist spot where business should be booming again. More than that, it has built an automobile highway from the mainland to the Key West. Key Westers should be grateful.

Drunken Driving

In Tampa the other day three persons who had been charged with drunken driving during which the lives of fellow civilians had been sacrificed or endangered were given prison terms ranging from 26 days to 15 years. The 15-year sentence was given to a 38-year old crane mill worker who had run down and killed a 23-year old laborer on a grove immediately after having drunk nine bottles of beer.

Evidence produced at the trial brought out the fact that the driver after hitting the pedestrian had failed to stop or attempt to render any assistance, but had driven on only to be arrested by the police at the next town. It was also shown that he was driving at a terrific rate of speed although, after drinking the nine bottles of beer, he was probably incompetent to drive at all.

The next case brought forth a five-year sentence for a negro, driving while drunk, who killed a negro woman. The most impressive thing about this sentence is its moderation. The judge pointed out that in this case the drunken driver was not driving fast and that he stopped his car the minute the accident occurred. That, of course, is worthy of consideration. But the woman was killed nevertheless.

In the third case a light sentence was awarded a woman for driving while drunk. She hit another car and wrecked it, but nobody was hurt, so she lucked out. Perhaps the 26 days spent in jail will give her time to reflect, may prevent her from driving while drunk again, when she might kill someone.

The awarding of jail sentences for drunken driving seems to be the only effective way of dealing with this problem which more and more is endangering the lives of citizens on public highways. Driving a car is dangerous these days even for a person in the full possession of his faculties, but when his brain has been thoroughly drugged by alcohol, of one kind or another, he is nothing more nor less than a potential murderer if he gets behind the wheel.

Women In Politics

It has been less than a generation since women in this country were given the right to vote. Before that time they were regarded in political matters somewhat on a par with infants, aliens, and convicts. Today, however, the woman in politics, as well as her right to vote, is accepted as a commonplace and nothing more than ordinary justice.

"The English-speaking nations have been pioneers in this bit of social justice," says the Miami Herald. "But there is a long way to go for women of most of the so-called civilized nations before they become recognized as on a parity with men in enjoying the rights of democracy. It is to the credit of the Philippine islands that the national assembly enfranchised its women. The argument once heard about the presence of women at the polls purifying politics will be found as groundless in the Philippines as has been here.

"It is not a question of whether women in a democracy will raise the level of politics in the matter of suffrage. It is one of simple justice, whatever the women do with their vote. If the tone of politics has not improved since women came to vote in this country, it surely has not become worse. In fact, women may rightly claim that to them can be traced the best of the social legislation of the last decade. Their influence has been felt and for the general good.

"The national Philippine assembly has done no harm to the islands by enfranchising the women. Social justice has been served by the measure. When justice is met the vote politic will profit by it. In giving the women the vote the Philippines have advanced a step in modern civilization of which many older countries cannot boast."

THE "SPY MONOCLE," latest invention to win popularity in Nazi Germany, looks like an ordinary monocle, but instead of being an ordinary glass is a mirror. Held against the eye at the proper angle, it permits the wearer to observe unobtrusively whether anybody behind him is spying on his conversation in search of punishable utterances against the State.—N. Y. Times.

THE DIRECTOR of the publishing house, Albrigh-Segati, has been condemned to five years' exile because he declared in a private conversation that he loved his dog better than Mussolini.—World Events.

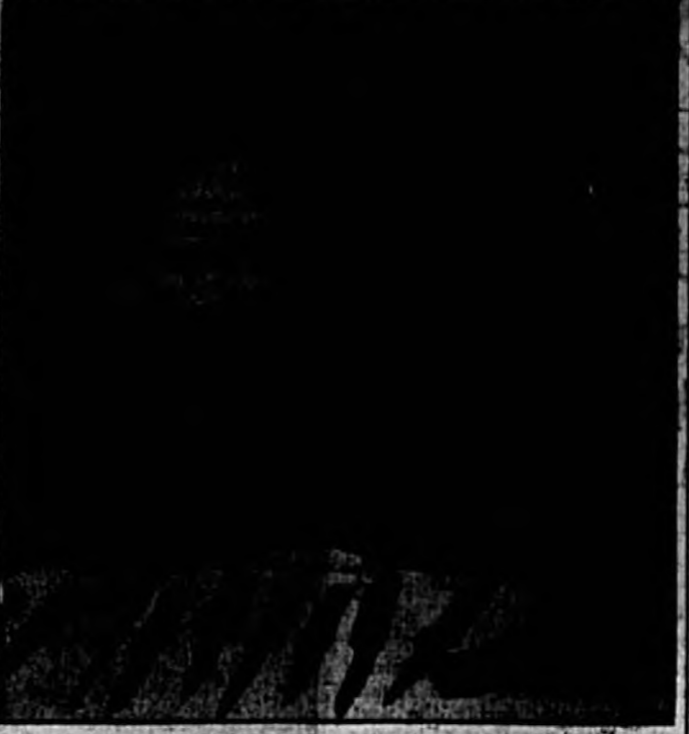

WASHINGTON DAYBOOK

WASHINGTON, Sept. 21.—It is amazing how the defeat of the Supreme Court bill almost shut off the triumphant blizzard of speeches and handouts that blew from government offices through the long months of the fight.

Secretary of Agriculture Wallace is a prime example of those whose verbal bombardments of the public ear ceased when the court plan went down for the ten count. During the progress of the court debate Wallace would be found speaking before colleges, farm groups and over the radio as often as three or four times a week. The speeches always dealt with some phase of agriculture, but it was unnecessary the way he could weave into almost any farm subject an argument for juggling down the court to make room for younger men with plow-under ideas. Advance copies of speeches handed on correspondents' desks in Washington in columns of two to the bewildered of persons who didn't know how well the Wallace lingo could turn out nice-rounded speeches.

But the present dearth of speeches is only a temporary affair. Wallace, like Roosevelt, has "just begun to fight" for the sort of farm bill he wants. Congress promised to make farm legislation No. 1 "must" on its calendar of business next time.

PRISON RIOT BRINGS DEATH TO THREE

These crudely fashioned knives and toy pistols were the instruments seven convicts used in an ill-fated attempt to break out of the state prison at Polson, Calif. Two convicts were killed and a guard slain during the riot. Above, Otis D. Babcock (left), Sacramento County district attorney, and Warden Court Smith of San Quentin prison, examine the arms.

Plea To Be Made Denhardt Killed in Self Defense

Brothers Say General Reached For Pocket As If For Gun

SHELBYVILLE, Ky., Sept. 22.—(AP)—A self-defense plea. It was indicated last night will be made by Jack Roy and Dr. E. S. Garr charged with the murder of Brig. Gen. Henry H. Denhardt on the eve of the lawyer-soldier-politician's second trial for the slaying of his widowed sister, Mrs. Vera Garr Taylor, his fiancée. "Men don't kill each other for nothing" was the terse reply of J. Ballard Clark of LaGrange, their attorney, to questions concerning reports the Garrs planned such a plea.

Patrolman Jephtha Tracey, to whom the brothers surrendered a few moments after seven bullets cut down General Denhardt on Shelbyville's main street Monday night, said they had indicated as much then. "They said that before any shots were fired they saw General Denhardt reach for his pocket and they thought he was reaching for a gun," the officer said.

The brothers were formally charged with murder yesterday in warrants sworn to by County Attorney Coleman Weight. Arraignment was set for Friday morning and the Garrs remained in the Shelby County jail. Clark said no effort would be made to provide bond until today. Circuit Judge Charles C. Marshall, who presided over General Denhardt's first trial last April, formally granted a commonwealth request at nearby New Castle, to dismiss the murder charge against the Lieutenant-Governor and former head of the Kentucky National Guard. The second trial was scheduled to open yesterday.

The body of the doughty 61-year-old Denhardt was returned to his home town of Bowling Green, Ky., yesterday for burial. Mrs. Elizabeth Glasse Denhardt, the general's divorced wife, a brother, J. G. Denhardt, publisher, and a sister, Miss Bertha Denhardt, live there.

Private funeral services will be held at 10 A. M., Thursday, at the home of Mrs. Denhardt. The net public debt of the United States at the end of the calendar year 1936 was \$28,801,000,000.

Finality, or perhaps not finality, Senator Thomas proposes to attach to the farm bill a requirement that the President do something more energetic about pumping new currency into circulation. There is already authority on the books for the President to issue \$5,000,000,000 in currency if his prosperity alone, Thomas wants to make the President use the whip.

Woman Bequeaths \$147,000 To Charity Trust Fund

PITTSBURGH, Sept. 22.—(AP)—Andrew W. Mellon's will was filed yesterday and left his millions to charity with only two exceptions.

The household furnishings in Woodland Hall mansion in Woodland, Pa., were left to his son, Paul, and his daughter, Allan—Mrs. David K. E. Bruce.

The former secretary of the treasury left \$150,000 for distribution among his servants and personal employees. The rest of the vast fortune, estimated between \$100,000,000 and \$200,000,000 was bequeathed to the A. W. Mellon educational and charitable trust.

But no estimate of its value was made by the three executors of the estate, Paul Mellon, David K. E. Bruce, the son-in-law, and Donald D. Shepard, personal attorney to the former financier.

By arrangement with Registrar of Wills Huston, a \$500,000 trust was provided for Bruce and Shepard in securities of the Mellon estate to be placed in the Mellon Trust Company under a custodial agreement. The son was allowed to serve as an executor without bond.

While the bulk of the estate was directed to the educational and charitable trust, the state's tax experts said Pennsylvania would collect up to 10 percent of the fortune. The percentage, they explained, would be collected through the state's transfer inheritance tax, which does not exempt charitable gifts.

What To Do - If A Burglar Gets Into Your Bedroom

- 1. If your bed is near a telephone quietly take the receiver off the hook. The operator may become suspicious and send police.
2. Pretend you're asleep until a chance comes to act without getting hurt.
3. If within easy reach of a firearm, and sure that it really is a burglar, use the weapon at the first opportunity, probably when the burglar's back is turned.
4. Try to take a mental picture of the burglar without being observed. This will help when notifying police.
By AP Feature Service
Just how far you would go in following some of these suggestions of New York City's Police Commissioner, Lewis J. Valentine, depends on how tough the burglar is.
Night house burglars, says the Commissioner, fall into two general classes:
Speak thieves who steal money from pants pockets and purses after climbing fire escapes to get in.
The dangerous type who carry weapons which vary according to the kind of robbing in which they specialize.
Other factors governing your

Rebels Start 'Big Push' To Reduce Gijon

Offensive Begins By Land, Sea, And Air, To Smash Iron Ring Of Loyalists' City

Surprise Move Made At Badajoz

Government Plans Attack In Rebel Territory Near Seville

RENDAYE, Sept. 23.—(AP)—Spanish insurgents were reported today to have opened a concerted offensive by land, sea, and air to smash the Asturian "iron ring" defense of Gijon.

Advices reaching the French border said, the "big push" was centered on government positions near the mouth of the Sella River, about 30 miles east of Gijon.

Generalissimo Francisco Franco's bombing planes swept Rivas, a Basque fishing port on the Bidasoa, and also dropped bombs on nearby Asturias or government fortifications.

Great numbers of loyalist troops were said to have been moved from Northeast Spain to the southwest front for a surprise thrust at Badajoz, which is bounded by Cordoba on the east and Seville on the south.

Loyalist tanks rumbled across the valley near Granada de Torrehermosa in Badajoz while government artillery pounded the insurgent lines protecting the town.

HAPPY SEQUEL TO WAR DAYS!

Twenty years ago the doughboys bade their sweethearts a cheerful farewell when they sailed for France and the battle lines. But now it's different with more than 1,000 veterans leaving the American Legion convention in New York for a tour of Europe's battle fields. Typical of the happy goodbyes was that of Alfred Russo of Boston and Fay Marble of New York as he and his buddies boarded the Queen Mary.

Comptroller Lee Explains Stand On Gas Tax Fund

Mr. Lee told newsmen he is merely asking the court to tell him which of several acts will follow in those counties having one or more special acts in addition to the original law. There are 115 local acts—some counties having six and some acts apply to five counties, making quite a conglomerate.

John R. Jones Is Named Candidate For High Degree

John R. Jones, prominent member of the Seminole Chapter of the Future Farmers of America, has been selected as a candidate for the American Planter Degree, according to information received here today from J. F. Williams, head of the State Department of Vocational Agriculture Education in Tallahassee.

This is the first time in the history of the Seminole Chapter that one of their members has secured this national recognition. Only two boys from each state are eligible to receive this honor. Mr. Jones and Myron Connelly of Haines were the candidates selected from Florida this year.

This selection entitles both the boys to an all expense trip to the National Convention in Kansas City in the near future where they will be awarded their degrees.

Alex R. Johnson, adviser of the local chapter, stated.

John Jones will leave Sanford Oct. 18 and will be away about two weeks.

Townsdenites Plan Rally On Sunday

Local Townsdenites will hold their 4th rally on Sunday, Sept. 24, according to an announcement made today by W. H. Hughes, president of the Club.

According to Mr. Hughes the meeting place of the organization has been changed from the City Hall to the Women's Club on Oak Avenue, Sunday, Sept. 24, according to an announcement made today by W. H. Hughes, president of the Club.

"Thirty million Americans have pledged their allegiance to the principles of this organization," Mr. Hughes asserted. "The Townsdenites will succeed, we are sure, because in confidence that we are doing our best."

REPAIR CANOPY

Workers yesterday began repair work on the canopy of the J. C. Penney store building here. The canopy will be replaced and related to the water pipe. At the present it has been covered with water.

Work Resumed On High School Athletic Field

Building Of Bleachers, Installation Of Lights Begins; Accommodates 1,000

WPA workmen yesterday began construction of the bleachers at the new Seminole High School Athletic Field after they had been held up for a considerable period of time because of the lack of the necessary materials.

The bleachers and the fence which will surround the field are the final improvements included in the approximately \$20,000 WPA playground improvement project.

The bleachers will be located on the south side of the football field and will cover almost the entire distance of the field. The foundations have been laid for some time and the erection of the heavy timbers is progressing rapidly under the direction of the local WPA superintendent.

Fourteen rows of seats 125 feet in length with a seating capacity of approximately 1,000 is called for in the construction specifications and an enclosed press box elevated above the bleachers with a row of windows facing the playing field to assure perfect vision for the pressman.

A carload of heavy fencing materials which will be used to build the high fence to surround the field has also arrived here, a Herald reporter learned this morning, and erection will begin as soon as the bleachers are completed.

WPA officials yesterday indicated that they hoped to have the project entirely completed before the first game in Sanford, October 23.

The field is located inside the oval track back of the school and on completion of the projects underway it will be one of the best prep school fields in the state.

E. D. Randall of the Randall Electric Company here, which was awarded the contract recently for installation of lighting equipment at the field, announced that ten 60 foot poles had been taken to the field and would be erected immediately.

The reflectors and lights, similar to those used at the Municipal Park during the baseball season, will probably arrive from the factory in Syracuse, N. Y. the latter part of this week or the first of the following. Mr. Randall stated, adding that the equipment will be installed immediately on arrival.

This type of lighting equipment, it is believed, affords a light most adaptable to night playing.

Susan Matilda Swain, 79, Died At Noon

Susan Matilda, a Swain, 79, mother of Mrs. E. D. Barber of this city, died at the home of her daughter at noon today following a long illness.

Mrs. Swain was born in Savannah, Ga. July 19, 1858 and has lived with her daughter here for several years.

Funeral services will be held in Green Cove Springs tomorrow afternoon at 3:00 o'clock and interment will be made in the cemetery there.

She is survived by her daughter and several grandchildren.

High School Students Enjoy "Pep" Meeting

Bidnets of the Seminole High School enjoyed an enthusiastic "Pep" meeting at their regular chapel program this morning, in accordance with the custom of the school just preceding a football game.

The new cheer leaders for the year led the students in many lusty cheers for the Alma Mater. The cheer leaders are: Warren Odham, Lillian Adams, Marjorie Cochran, Bryan Hurt, Walter Haynes, Martha Telford and Bradley Adams.

Odham Youth Given College Scholarship

Bralley Odham, son of Mrs. H. B. Odham of this city, has been given a full four year scholarship at Louisiana College, according to the school authorities.

Young Odham was awarded the scholarship, which includes room, board and tuition for four years, for his work as a tackle for the college football team. Odham weighs 205 pounds and has a regular berth on the squad.

Eugenia Warren To Attend Roosevelt

Miss Eugenia Warren, superintendent of the Seminole County W. P. A. Recreational Department, is planning to attend a two weeks course in recreational work at Camp Roosevelt near Ocala.

The camp is under the direction of the Extension Department of the University of Florida.

SMILES FOR THE MILES!

Epitomizing the sacrifices made in the World War, smiling Sergeant Paul Bolin of Birmingham, Ala., minus a leg, drew thundering applause as he stepped briskly along on his crutches in the American Legion's gigantic parade in New York. Trailing him are other members of Birmingham's delegation.

Officer Pledges Enforcement Of School Bus Law

All motorists must come to stop before passing bus

The State statute which requires that all motor vehicles come to a complete stop before passing a school bus will be rigidly enforced without favor or partiality, Deputy Sheriff Carl Williams announced today.

This year, the Deputy Sheriff said, there has been a larger than usual number of motorists violating this law, adding that all violators would be arrested and fined for their failure to comply with this regulation.

Deputy Williams indicated that their seemed to be many motorists ignorant of the requirements of the law, thereby causing confusion and sometimes congestion of traffic.

The law requires that all motor vehicles passing a school bus from either direction on which children are getting on or off must come to a complete stop, this law as can be readily seen is a precaution taken to protect the lives of the children who sometimes start in front of a speeding motorist. The law, however, Deputy Williams said, does not require the motorist to remain at a standstill until the bus is again in motion. This misinterpretation of the law has, no doubt, been circulated by the bus drivers and sometimes causes considerable congestion of traffic.

Roosevelt Confers With Party Heads In Mid-West City

ABOARD ROOSEVELT TRAIN ENROUTE SEATTLE, Sept. 23.—(AP)—President Roosevelt, during the first day out on his West Coast trip, conferred for more than an hour today with Illinois and Nebraska party leaders at his special train was switched through Chicago.

Governors Henry Horner of Illinois and R. L. Chatham of Nebraska were among the officials who boarded the train at Root Street Yards where a small crowd had gathered. Mr. Roosevelt did not appear but Mrs. Roosevelt stood on the steps of the private car and waved to spectators.

Although the route of his 10-car special train lay through big Eastern and Midwestern cities, Mr. Roosevelt planned no personal appearances until he reaches Cheyenne, Wyo., Friday morning.

After that, the President will swing through Wyoming, Idaho, Oregon, Washington, Montana, North Dakota, Minnesota and back to Washington via Chicago.

Rear platform appearances, providing opportunities for the President to speak 15 or 30 minutes to crowds knotted around his private car, will be made in each State. Mr. Roosevelt will inspect Federal power and reclamation projects in Idaho, Oregon and Washington.

Mrs. Gladys Kendall Helps I-H Clubs

During the past two weeks, Mrs. Gladys Kendall home demonstration agent here, has been working extensively throughout the county organizing I-H Clubs and Home Demonstration Clubs prior to outlining projects and launching their program for the coming year, it was learned this morning.

At the present time Mrs. Kendall has organized I-H Clubs in Chalusta, Ovieta, Geneva, Lake Mary and Lake Monroe and plans for the organization of Clubs in the other sections of the County are well under way.

Women's Home Demonstration Club has also been organized in Lake Monroe, Chalusta and Geneva and definite plans are under way for the outlining of projects for these clubs and the re-organization of clubs in other sections of the County.

MISS CANNON DIES

ATLANTA, Sept. 23.—(AP)—Mrs. Cecil R. Cannon, wife of President of Henry Grady Hotel, died in her apartment in the Hotel. The survivors include a sister, Mrs. Kate Jones of Sanford.

2,000 Chinese At Canton Are Reported Dead

Japanese Raids During Two Day Period Wreak Awful Toll In Life And Property

Nanking Escapes Bomb Raids Today

Japanese Apparently Impressed By Foreigners' Protests

SHANGHAI, Sept. 23.—(AP)—Two thousand Chinese, most of them refugees, are estimated to have been killed or injured in the two days of Japanese aerial bombardment of Canton, a south China city. Raids today and yesterday left wounded women and waiting children searching the ruins of the densely-packed dwelling areas of the poorer classes.

Thousands roam the streets bewildered and almost dazed with anguish and terror. The Japanese bombing of non-combatants throughout the nation's seaboard provinces and northern areas extended to Tainan, the capital of Shantung province when a lone invader flew over the suburb and loosed one bomb wounding nine civilians.

Bennett Returns From Vacation In North Carolina

E. J. "Bink" Bennett returned from his vacation yesterday after spending several weeks in western North Carolina and a week in Savannah, Ga.

While in North Carolina, Mr. Bennett made his headquarters in Travel and when asked this morning by a Herald reporter about the weather conditions, he replied that it was actually cold, especially in the western portion of the State.

Mr. Bennett, accompanied by his wife, returned to that section and spent several days in Asheville. During his visit to Asheville, Mr. Bennett said he saw many good baseball games played by the Asheville Tourists of the Piedmont League.

When asked about business conditions and the farming in that section, Mr. Bennett stated that the business has picked up considerably and was in excellent condition.

Mr. Bennett went on to say that the farmers have had a very good year and that the present tobacco and cotton crops are excellent.

Mr. Bennett further said that he was glad to be back in Sanford and to be able to get back to his work.
