## STRIKE THREAT DISSIPATED BY GREENS PLAN

### Labor Leader's Peace Proposal, Accepted By Both Sides, Has Staved Off Trouble

By The Associated Press  
WASHINGTON, June 16.—(A.P.)—The acceptance of William Green's peace proposal by steel workers has removed any immediate threat of a strike in that important industry.

Although the mediation plan by the Federation of Labor chiefs was the one which brought the truce, it was the measure on which the House worked while they await adjournment at night sessions.

Green put forward the suggestion for an impartial board to be appointed by the President. The measure which the Administration hurriedly whipped together to head off the strike also proposed Presidential duties but it did not go as far as the controversial employee organization question.

Green urged informally, it was understood, that a strike be deferred until at least June 30 pending developments.

His plan, termed a "counter proposal" was given in four points, briefly, it is:

- 1.—An impartial board of three members to be appointed by the President to adjust all violations of the Taft-Hartley act and to conciliate any disputes, offer service as arbitrators; hear and determine any matter of discrimination or discharge of employee.
- 2.—Insure the right of workers to organize freely; clearing the board with authority to hold elections under the board's supervision.
- 3.—All grievances or complaints referred to the board for final decision.
- 4.—If accepted by all parties—the workers, the operators and the government—then the strike should be "called off."

The highest and best interests of the steel workers, their friends and their families will be served through a settlement of the industrial controversy which has arisen, through the acceptance and application of the plan," said Green.

"If I followed my feelings, I would take one course but when I consult my judgment I know the wise man hides his time and I do not believe the time is ready at the moment."

## Herald Invited To Send Reporter On World's Fair Trip

The Sanford Herald is one of the Florida dailies which has been invited to send one of its reporters to Chicago and the World's Fair next week as the guest of Alfred L. DuPont, Jacksonville capitalist and president of the Florida National Advertising Council.

Under the plan proposed to The Herald late yesterday, the reporter would join a party of other reporters and officials of the Florida Exhibit at the Fair in Jacksonville next Friday morning, on a chartered motor bus trip to Chicago.

All expenses of the trip will be paid by Mr. DuPont who believes it would be a real service to the Florida State to have a reporter on the Florida Exhibit at the Fair.

An added incentive, cash prizes aggregating \$200 will be given for the best stories that the newspaper writes about Florida's display at Chicago.

The reporters will attend a special meeting in Jacksonville on Friday morning when Mr. DuPont, Governor Rhoads and the members of the Florida exhibit will discuss ways and means of promoting the Florida Exhibit the remainder of the summer.

Plans now are on hand for the exhibit's maintenance for about 100 days, it was learned today. Mr. Lovelace A. Williams, chairman of the exhibit committee, has suggested that business firms call a meeting and discuss ways and means of contributing to the exhibit in some way to meet interest payments on the bonds.

## Suits Filed Seeking To Halt General Election Vote On Homestead Exemption Law

TALLAHASSEE, June 16.—(A.P.)—Two suits seeking to prevent a vote in the November general election on the proposed homestead exemption amendment were filed yesterday in Leon county circuit court.

Both claimed the amendment to be unconstitutional and both sought injunctions to prevent the amendment from being voted on.

The Secretary of State Robert A. Gray from publishing it as required by law. Such action, they said, would be an unnecessary expense.

A hearing on the suits has not been set but it probably will be next Friday before Circuit Judge J. B. Johnson.

One action was filed for Francis B. Winthrop and Guy L. Winthrop, of Tallahassee, as next of kin of the property which would be exempted under the amendment. The other was brought by the Florida Homestead Exemption Association.

The suits claim that the amendment would discriminate against non-exempt property and would shift to it and similar property taxes now shared by homesteads for operation of school and governmental units.

Thus, they contended, would deprive them of property without due and equal process of law as guaranteed by the state and federal constitutions.

## FATE OF MED-FLY BUSINESS SEEN DAMAGE SURVEY ENTERING PERIOD BILL IN DOUBT OF STEADINESS

WASHINGTON, June 16.—(A.P.)—The fate of two bills of importance to Florida, providing a survey of the damage resulting from the federal fruit fly eradication and extending improvements to the Pensacola naval air base, was in doubt as Congress prepared to adjourn.

Florida Representatives Peterson and Caldwell, respectively, sponsoring the legislation expressed themselves as still hopeful, however, that Speaker Rainey would allow a vote on the bills before the end of this session.

The House today also passed an Administration bill to establish mediation boards to settle collective bargaining disputes. The action was taken without a recorded vote, and the bill was sent to the Senate.

Enactment is demanded by the Administration before adjournment.

The measure was brought to the floor by Representatives Byrns, Democratic leader, under procedure requiring unanimous consent. Republicans demanded an explicit discussion of the measure, and after a brief discussion, it was not a vote and passed before some members realized it.

The Republican regulars, after a conference yesterday, proposed three amendments to the labor resolution — which, drafted as an intended compromise, would authorize the President to appoint boards to mediate labor disputes and conduct workers' elections in cases of disputed labor organization jurisdiction.

The Republican Old Guard wanted the activities of the board restricted to carrying out the purposes of the famous Section 7-A of the National Industrial Recovery Act and asked, too, that the life of the measure be limited to one year.

Senator Robinson of Arkansas, the Democratic leader, carried their suggestions to the White House and returned to renew negotiations. (Continued On Page Three)

## Measure May Be Lost In Rush Of Adjournment Of Congress

WASHINGTON, June 16.—(A.P.)—The seasonal recession in trade has been less pronounced than it was in some of the years immediately preceding, and in most districts a moderate amount of business activity is being reported.

Business activity has increased in many parts of the country, particularly in the industrial districts, and in some of the agricultural districts. However, in many sections, particularly in the agricultural districts, business activity is still reported to be less than normal.

The recession in trade is attributed to a number of factors, including the general economic depression, the drought in many sections, and the fact that many businesses are still operating at a reduced capacity.

Despite the fact that business activity has increased in many sections, the recession in trade is still reported to be less pronounced than it was in some of the years immediately preceding.

## Seasonal Recession In Trade Appears To Be Less Pronounced

NEW YORK, June 16.—(A.P.)—The seasonal recession in trade has been less pronounced than it was in some of the years immediately preceding, and in most districts a moderate amount of business activity is being reported.

Business activity has increased in many parts of the country, particularly in the industrial districts, and in some of the agricultural districts. However, in many sections, particularly in the agricultural districts, business activity is still reported to be less than normal.

The recession in trade is attributed to a number of factors, including the general economic depression, the drought in many sections, and the fact that many businesses are still operating at a reduced capacity.

Despite the fact that business activity has increased in many sections, the recession in trade is still reported to be less pronounced than it was in some of the years immediately preceding.

## Circuit Court Term Is Adjourned Until Next Wednesday

Spring term of circuit court was adjourned late yesterday afternoon until noon Wednesday morning, when White Smith, of Cleveland, South, is scheduled to go on trial for murder in the first degree.

Adjournment was ordered by Judge William B. Smith at the end of the trial of Foster, and after a motion for adjournment was made by the defendant's lawyer. The court adjourned until Wednesday morning, when White Smith, of Cleveland, South, is scheduled to go on trial for murder in the first degree.

## Europe Turns From War Debt Issue To Discussion Of German Moratorium

Both France and Great Britain contemplate setting up a clearing office to handle transactions with Germany through which funds from commercial accounts could be taken for payments to the British and French bondholders.

While other nations were engaged in "kitchen sink" Germany's economic and political situation was the chief topic of discussion in the press and official business quarters.

Attention was divided between the question that came due the United States, already formally declared, by the United States, and the question of German reparations for the war. The latter was the chief topic of discussion in the press and official business quarters.

Attention was divided between the question that came due the United States, already formally declared, by the United States, and the question of German reparations for the war. The latter was the chief topic of discussion in the press and official business quarters.

## JOHNSON SEES 1ST YEAR NRA RECORD O K E Y

Administrator Says 2 Results Prove That Nations On Way To Economic Recovery

By HUGH S. JOHNSON  
WASHINGTON, June 16.—(A.P.)—The first year of NRA has demonstrated that we are on the right track — American business, labor and government have met in concerted, planned, and stimulated production on same lines.

The year, with all its accomplishments, has laid a firm ground work for execution of the ideal with which Franklin D. Roosevelt and his supporters in industry and labor started out. We have no time to spend patting ourselves on the back for eight months in the months ahead the task confronts us of consolidating the national gains that have been secured, of refining and perfecting codes and their administration.

But the record of NRA to date is one for Americans to take pride in. Once the program started by the signing and the signing of the act, we have had, in fact, no time to spend patting ourselves on the back for eight months in the months ahead the task confronts us of consolidating the national gains that have been secured, of refining and perfecting codes and their administration.

## MENDIETA INJURED BY BOMB BLAST

### 2 Men Die As Result Of Explosion. That Occurred During An Official Luncheon

HAVANA, June 16.—(A.P.)—With scattered fragments of a camera of the type used by newspaper photographers as their primary target, Cuban authorities today reported a shocking investigation of the bombing, thought to be the work of the President and his cabinet members.

An investigation was directed on behalf of the navy by Capt. Angel Gonzalez, whose theory is that Alberto Guerrero, one of the top photographers, being detained at Pinar del Rio, carried the bomb into the dining room at the Diccionario Detention Camp.

Gonzalez said Guerrero's camera was found shattered, and that Guerrero, chief ministerial A. G. was found dead.

Gonzalez said a second shot, fired by Guerrero, struck the dining room with his own hand and that he was injured.

Gonzalez carried the injured Guerrero to the hospital and placed him behind the President's hospital, where he is recovering.

The President has recovered from his injury and is expected to return to his post in a few days.

President Mendizola were injured during the explosion. He was taken to the hospital and is recovering.

The explosion occurred during a luncheon given in the dining room of the Diccionario Detention Camp.

The explosion occurred during a luncheon given in the dining room of the Diccionario Detention Camp.

## FLORIDA FLOODED DAMAGE SLIGHT UNDER HEAVIEST IN CITY DESPITE RAINS IN YEARS UNUSUAL RAINS

Local Shower Forecast Indicates Lifting Of Water-Laden Clouds

Sanford and its environs, soaked and sudden under the pressure of some inches of rain which has fallen on almost continuously since early Tuesday morning, presented conditions today that closely resemble those reported from other sections of the state except that the property damage is slight by comparison.

Very street and roadway in the area were covered by the swirling waters which covered them for several hours early Friday, to leave debris of all kinds gathered from automobile tires, farms, and other properties.

Storm clouds, unable to carry off the water being unloaded as rapidly as possible in every part of the city, and mud branches and other refuse was being removed at the same time.

Streets were all passable today, though today that closely resemble extent on West Hugley Avenue in Sanford on the road to the County Club.

Police Superintendent James Moughton, who has been busy working over time since Wednesday, reported today that damage from the rains is slight as far as the city is concerned.

He reports several minor cases of sewer and drainage dishes, but little else that would indicate that serious damage has occurred.

County Engineer Tom Patch also reported that with the exception of the tenacious Chalton bridge area traversed by Leon buckthorn creek, county roads and bridges are in good condition throughout the town.

Mr. Patchford announced that because the "Flood" is rising so rapidly it has been necessary to close the road between Oviedo and Chalton. He urges persons to tell the fact on going to Chalton's that controlled persons use the Chalton bridge road.

It was also reported that it may be necessary to close this road in a few days because the "Flood" is rising so rapidly.

The event the "Flood" is rising so rapidly that it may be necessary to close this road in a few days because the "Flood" is rising so rapidly.

## Nearly 9 Inches Of Water Has Fallen Here Since Tuesday

Sanford and its environs, soaked and sudden under the pressure of some inches of rain which has fallen on almost continuously since early Tuesday morning, presented conditions today that closely resemble those reported from other sections of the state except that the property damage is slight by comparison.

## Mrs. E. T. Austin, 37, Dies After Illness

Mrs. E. T. Austin, 37, who had been ill for the past two months, died at the home of her brother-in-law in Winter Park yesterday afternoon.

The body was sent by morning train to Perry Fla. Mrs. Austin's funeral will take place tomorrow.

Mrs. Austin was born in Perry on Oct. 1, 1896. She has lived in the Lake Monroe section for many months but recently she had moved to Oviedo with her husband, A. T. Austin, section foreman, and family.

Surviving her are her husband, E. T. Austin, and four children, Annie, Ruth, Gene and Clifford Austin, all of Oviedo.

## River Cut-Offs May Be Completed Soon

Work has been received at the Chamber of Commerce office from Congressman Mark Wilcox, Joe Sears, and J. Harold Peterson, that requests already have been filed with the Public Works Administration for enough money to pay for the digging of three cut-offs along the St. Johns River between Sanford and Palatka.

It was stated that some disposition of PWA money in this matter may be expected within the next 30 days. Congressman Wilcox has advised that the cut-off projects are included in the list of those scheduled to receive prior consideration when the funds are released.

## House Passes Bill To Establish Rail Labor Grievance Board Of Adjustment

WASHINGTON, June 16.—(A.P.)—The Cresser bill to establish a national board of adjustment to hear railway labor grievances was passed yesterday by the House and sent to the Senate.

The measure, designed to promote peace between carriers and workers and to prevent interruption of rail transportation, was approved shortly after the House had passed another bill by the Ohio Democrat to provide pensions for railway employees.

The labor dispute bill prohibits carriers from influencing workers labor organizations and outlawing contracts forbidding workers from joining labor organizations.

It provides that in the event the adjustment board fails to reach an agreement on a dispute over wages, working conditions or contracts, the board of mediation shall appoint an umpire.

The pension bill places a limit of \$100 a month for retired railroad workers over 65 years of age with 30 years of service.

The measure created a railroad retirement board of three to administer an initial \$50,000,000 fund, \$30,000,000 of which is to come from the workers and \$20,000,000 from the railroads.
