Television promises either to fortify home life or drive a man out into the street forever.

It'll remove the desire of a lazy man even to get out of bed. He can turn on the television set Sunday morning and watch a ministe, preach an inspiring sermon. In the afternoon he can still lie there and watch a baseball game without worrying about having a rabid fan in the row behind him drop hot dog crumbs and mustard down his neck. THERE HAD TO BE A FIRST TIME

Advances in American naval ships and equipment have been marked throughout the century and a half of the Navy Department's history by important milestones of progress. One of these was the first flight from the deck of a ship, made in 1910 by Lt. Eugene Ely, when he took off from a miniature flight deck on the foredeck of the USS Birmingham (upper). Three years later naval aviation had its actual start when Admiral George Dewey signed the report of the General Board, which recommuded the establishment of a Naval air arm. Today aviation is one of the elements in the three-pronged American Navy. Flowering of "Navy Air" can be symbolised in such scenes as the lower photo in a his har. Sports Roundup By HUGH FULLERTON, JR.

ST. LOUIS May 26 (A) — There's a saying as old as golf that it's "an humblin' game" and the just-completed PGA tournament proves it . . . The field in-cluded several former PGA champions, American and British open champions, the leading money, winner of the tournament circuit, and holders of assorted lesser titles. They had good reason to be proud of their golf, but at the end all had been humbled except little Ben Hogan, the guy with an aching back who feels he can no longer stand the grind of playing all the way around the circuit. A notable example, perhaps, was Claude Harmon, who was kidding between the halves of his semi-final match with Sammy Snead. The St. Louis Cardinals cardinals are to his rescue that Mike a big apartment and a car at my disposal for the open championship at Los Angeles. And for the British open Bob Sweeney mays his valet will meet me at the plane and we'll live in the house he has taken for the week. Well, Shead carried Harmon to 42 holes that day and Mike Turness eliminated him the next afternoon.

Sound and fury

Even Hogan didn't entirely escape the humbling effects of golf

. On two occasions his ball rolled under a loud-speaker truck following the final match and once it got there Ben almost pushed a shot out of bounds.

When he made that shot, Ben growled: "If it isn't out of bounds, it ought to be." . . He found his isall deep in the rough and changed his mind two or three times before deciding which club to use.

Then he knocked it over the green and under the truck again.

What Ben said then couldn't be heard and probably shouldn't be reported anyway.

Mike Turnesa, yesterday's run-ner-up, tells a story about his match with Sammy Snead at Den-ver in 1941 . . . They had to play across a creek and as soon as
