

### Miss Henderson Christian Church Guest Speaker

Miss Agnes Henderson, of Enid, Okla., will be the guest speaker at the First Christian Church, at 11 o'clock Morning Worship, when the annual Woman's Day will be observed. Miss Henderson has just retired as state secretary of the Christian Women's Fellowship of Oklahoma, where she has served a long time. She was sponsored for several years of the "King's Messengers" at Phillips University, a group of young people and graduate students who were dedicated to full-time Christian Service.

Mrs. Perry L. Stone will preside; others having part on the program will be Mrs. O. D. Landress, Mrs. John Blair, Mrs. A. R. Stroup, Mrs. Geo. W. Morgan, Mrs. Chandler Vall, Mrs. W. L. Rowland, Mrs. Bartow S. Hinson Jr., and Mrs. W. H. Young. The choir will sing "Heralds of Christ". A missionary offering will be received, beside the regular church offering, which will be added to the Women's pledge for the worldwide program of the church.

The public is invited. At the evening service at 7:30 p. m. Pastor Perry L. Stone will deliver a New Year's message on "A Technique for Day Living."

### Some Veterans Not Affected

Veterans receiving nonservice-connected disability pensions from Veterans Administration are not affected by the recent increase in rates of VA disability compensation for service-connected disabilities.

Benjamin B. Beach, Officer in Charge of the Central Florida VA office, made the announcement today in answer to queries.

Pointing out that only disability compensation rates have been increased, Beach said many people mistakenly think the words "disability pension" and "disability compensation" mean the same thing.

Disability pension, he explained, is paid only to a wartime veteran for disease or injury not connected with his service, and then only under certain conditions.

Disability compensation, on the

(Continued From Page 1) find it necessary in the public interest to curb the activities of unscrupulous labor leaders and unions.

"I am hopeful that we can enact legislation bringing unions under the provisions of the anti-trust statutes," he said. "Most certainly, in my opinion, picketing will be curbed and pension and welfare funds brought under federal supervision."

other hand, is paid to a veteran for disease or injury resulting from his service during either war-time or peacetime, he said.

Public Law 85-168, which became effective October 1, 1957, increased only disability compensation rates. It did not affect VA disability pension, Beach said.

"WONDER IF I SHOULD PEEK" is the expression of Pat Tully, grandson of Sgt. Richard Cosgrave, at the Sanford Police Department's Christmas Tree. Santa Claus is distributing gifts to members of the department. (Staff Photo)

### Scholarship Night Tonight At SOKC

The annual Scholarship Night program is scheduled tonight at the Sanford-Orlando Kennel Club.

All profit from the 10-race card will go to scholarship funds at the University of Florida, Florida State and Florida A and M.

Since the scholarship plan was installed in 1948, hundreds of thousands of dollars have been turned over to these three state institutions of higher learning by the Sanford-Orlando Kennel Club and other Florida race tracks.

It is widely publicized as a fund for athletes, but this is far from true for thousands of academic scholars have benefitted from the

#### Four Boys Escape

MIAMI (UP)—Four teenage boys escaped from the Dade County Youth Hall Wednesday night after beating up their 58-year-old jailer, authorities said today.

Walter Larson, night supervisor, was taken to a hospital in serious condition, but was reported "fair" this morning.

Larson said two of the boys

slugged him with a bar of soap wrapped in a sock, then opened other cells in the juvenile prison. However, the jailer's wife, Mrs. Viola Larson, night supervisor for girls, heard the commotion, and ordered all but four of the youths back to their cells.

The four who escaped were unidentified by detectives, but were said to have lengthy prison records.

Mrs. Larson was beaten by escaping youths two years ago. She said her husband was always "very careful."

In addition to the slugging, the boys severely beat the middle-aged jailer, breaking his false teeth, and punching him in the eye.

# Republicans Must Get Top Flight Political Strategist-Or Else!

WASHINGTON, (UP)—No telling what the Republicans wanted for Christmas but there is no doubt about what they need most. The Republican Party needed a top flight political strategist, a political genius type. They are hard to come by. The Republican Party must, however, come by such a leader—or else!

Or else refers to the 1938 Congressional elections and beyond that to the Presidential contest of 1960. There are politicians in Washington who keep not one but both ears to the ground. In this strange posture they have been listening to the grass roots for portents of a next November's Congressional election.

Republican ears-to-the-ground men do not like what they hear. From what they hear they fear that the Republican Party will emerge from next year's Congressional contest weaker than at any time since the political upheaval of 1936.

**Remember Roosevelt**  
That was the year in which FDR carried all but Maine and Vermont. The 75th Congress elected in 1936 consisted of:  
Senate: Democrats 78; Republicans 16; Progressives 1; Farmer-Labor 2; Independent Republican 1.  
House: Democrats 333; Republicans 88; Progressives 8; Farmer-Labor 5; Vacant 1.

That was the low point for the Republican Party since the war between the states.  
The 85th Congress elected last year consisted of:  
Senate: Democrats 40; Republicans 47.  
House: Democrats 233; Republicans 200; Vacant 2.  
Differences Pointed Up  
The consensus is that although the Republicans are not heading

for a new Congressional low next November, they surely will take a bad beating. Thirty-two Senate seats will be up for grabs in 1958, eleven of them now Democratic and 21 Republican. All 436 members of the House must seek reelection or retire.

There is a peculiar difference between the political outlook for Senate Republicans and what actually happened in the New Deal election triumphs of 1934 and 1936

which so humiliated the Grand Old Party.  
In 1934 and 1936 the voters cut down the flower of Republican conservatism. Republican candidates who survived those elections generally were politicians who latched onto FDR's New Deal and promised mostly that they could do it better.

**Conservatives Listed**  
The voters picked off such Republican Senators as these:  
Frederick C. Walcott (Conn.), Simon Fess (Ohio), Hamilton F. Kean (N.J.), Arthur Robinson (Ind.), Roscoe C. Patterson (Mo.), Felix Hebert (R.I.), and David R. Reed (Pa.). Patterson was succeeded by an unknown named Harry S. Truman.

These defeated senators are gone and long forgotten but they once were among the shock troops of the conservative GOP. Next year it probably will be a bit different.

Of the 21 Republican senators whose terms are expiring, the experts generally agreed that only two could be absolute shoe-ins, couldn't be beat. They are Sen. George W. Malone (R-Nev.) and Sen. William E. Jenner (R-Ind). Jenner has decided not to run again. That, however, does not alter the fact that he and Malone—conservative anti-like men—alone have it made.

**Weather**  
Fair and cool today becoming partly cloudy and mild tonight and Saturday; low tonight 58 to 61.

## Crowded Conditions Showing Up In Schools

MISS SYBIL GRANT of Longwood as she delivered her county-wide-winning essay to the Jaycees yesterday. Miss Grant was winner of the Jaycees "Voice of Democracy" contest.

### Jaycees Astounded By Teenage Girl's Talk On Democracy

A 16-year-old Lyman High School student astounded members of the Sanford-Jaycee County Junior Chamber of Commerce yesterday when she delivered her "I Speak For Democracy" county-wide winning essay.

Miss Sybil Grant, a junior at Lyman High School, was accompanied by her mother, Mrs. J. R. Grant of Longwood, at the Jaycee luncheon meeting.

M. L. Raborn Jr., president of the local Jaycee organization, and chairman of the "Voice of Democracy" contest, presented Miss Grant with a plaque for her winning essay in the Seminole County contest conducted by the Sanford-Jaycee County Jaycees.

Thomas McDonald was program chairman for the meeting.

Raborn announced yesterday that the Jaycees cleared approximately \$400 from the sale of Christmas trees. This money, he said, will go toward our new building.

Crowded conditions are beginning to show up in Seminole County Schools according to an announcement made this morning by R. T. Milwee, Seminole County Superintendent of Public Instruction.

Milwee said this morning that three grades from Lyman School at Longwood will be moved into a church building when children return to school from the Christmas holidays in January.

The Superintendent of Public Instruction said that the first grade, a first and second grade, combined class, and a third grade will be moved in January to the Educational Building of the Casselberry Community Methodist Church.

"We will not reach our peak enrollment in Lyman School until February," said Milwee this morning. At this early date however, "we are finding it necessary to secure facilities to take care of children in our schools without resorting to double sessions," he said.

However, Milwee pointed out, some relief is in sight. On Jan. 9, at the next regular meeting of the Board of Education, his will be opened for 10 new classrooms at Seminole High School and eight classrooms and a heating plant at Crooms Academy.

This, Milwee said, "is a temporary measure to avoid overcrowding and to avoid the double sessions that are ahead of us unless additional classroom space is provided."

It is expected that an early announcement from the Superintendent of Public Instruction for Seminole County will outline the conditions throughout the county and what can be looked forward to during the next year or two in the local schools.

Increases in food costs and the already below average hospital salaries account for part of the larger budget, he said. \$320,000 a year is spent on salaries for the 120 employees at the local hospital, it was revealed.

Weir explained that the hospital offers the best in modern facilities and the fact that it became fully accredited when less than a year old, is an accomplishment not known to many hospitals in the entire country. The increase in room rates will insure the continuation of good service and health to the citizens of Seminole County, Weir concluded.

## Hospital Room Rates To Increase Next Year

### Second Sight Dog Will Be Rotary Speaker's Subject

Members of the Sanford Rotary Club will have the opportunity, at their regular meeting Monday noon at the Yacht Club, of hearing Fred Fenwick, formerly of Long Island, N. Y., but presently living in St. Cloud, tell of his dependence on "Mischief", a Boxer Second Sight dog, trained at the Guide Dog Foundation for the Blind, at Smithtown, L. I.

Fenwick, until about four years ago, was employed by a hospital supply manufacturing company. He lost his sight as the result of a trucking accident. He took a course at Smithtown to obtain a "guide dog", and now lectures to civic clubs and other organizations on the subject of the training of these dogs and their inestimable value to the blind.

Hospital room rates at the Seminole Memorial Hospital will increase two dollars a day, effective Jan. 1, according to a report by Harry Weir, hospital administrator.

At the December meeting of the Board of Trustees, the budget was reviewed and the increase found necessary. Inflationary cost of supplies and salary demands are largely to blame, Weir stated, however, that room rates for a semi-private room in this area are still from one to two dollars cheaper at the Seminole Memorial Hospital, including the increase, than at other hospitals.

For instance linen underpads which sold for \$9.67 a case in December of 1956 now cost \$10.50 a case in December of 1957. In this one item alone the additional cost will run to \$100 a year.

Increases in food costs and the already below average hospital salaries account for part of the larger budget, he said. \$320,000 a year is spent on salaries for the 120 employees at the local hospital, it was revealed.

### Boat, Ski Club Plans Trip Sunday To Ponce De Leon

Members of the Sanford Boat and Ski Club have been invited to be the guests of the Ponce de Leon Springs Boat and Ski Club Sunday, Dec. 29.

The boats will leave the Lake Monroe bridge at 9 a. m. to return at 3 p. m.

All members of the club are urged to take part in the cruise; also any other interested boaters who would like to participate.

### Lemon Sued For Divorce

BLOOMINGTON, Ind.—Mayor Thomas L. Lemon was named defendant in a suit for divorce filed in Monroe Circuit Court recently by his wife, Betty.

The complaint in the action was "cruel and inhuman treatment."

The Lemons were married in 1934 and have two sons, ages 13 and 12.

Lemon is serving his second term as mayor. His first term ran from 1948-1952. He was candidate for secretary of state in the last general election, and was city manager in Sanford, Fla., in 1953-54.

Mrs. Lemon has been manager of her husband's insurance business since he has been serving his present term.

### Dyson's Condition Remains Critical

The condition of W. R. Dyson, who is confined to the Orange Memorial Hospital in Ocala, remains critical, members of his family revealed this morning.

Dyson, salesman for the Cumberland Case Company, who resides at 1210 Magnolia, was taken sick recently and at first confined to the Seminole Memorial Hospital.

He was transferred to Orange Memorial Hospital early this week.

## Courtesy Week Material Arriving

Badges and other material to be used in the Courtesy Week event of Jan. 12 are beginning to arrive. Howard McNulty, chairman of the Jaycee Courtesy Week committee said today.

"Very soon, all of this material will be in the hands of local merchants who are going to participate in the week-long observance," he said.

McNulty said this morning that committees, which are to remain secret, have been appointed and are now lining up their work for the week in selecting winners in

the five categories. The committees will select "the most courteous waitress," "the most courteous saleslady," "the most courteous salesman," "the most courteous policeman," and "the most courteous act."

"It seems as if everybody is catching on and planning to take part in the first annual Courtesy Week to be observed in Sanford," said McNulty this morning.

Already planned are several special events for the week, he said. Courtesy Week is a statewide program staged in each community. In Sanford Courtesy Week is being co-sponsored by the Seminole County Chamber of Commerce and the Sanford-Jaycee County Junior Chamber of Commerce.

Merchants in Sanford are planning to participate in Courtesy Week by stating Courtesy Week Clearance Sales, and, according to the local Chamber of Commerce, the sales are to be of such nature that folks will be attracted to Sanford from all around.

Salespeople and all of those who come in contact with the public will wear badges calling attention to Courtesy. Also, there will be bumper strips to be attached to local automobiles.

It is also planned, according to McNulty and M. L. Raborn Jr., president of the Jaycees, that streamers will be distributed to all of the merchants and business people publicizing Courtesy Week.

Purpose of the program, according to a proclamation already issued by Governor LeRoy Collins, is to improve public relations, to stimulate tourist trade, and to promote business generally throughout Florida and in each community of the state.

The proclamation, to be issued by Mayor David Gatchel of Sanford, states that "the people of Sanford and Seminole County are ever alert to their responsibilities and are aware of the advantages of bettering relationships with their fellow-citizens and visitors alike, priding themselves on their courtesy and friendliness."

### Girl, 14, Loses Control Of Car; Crashes Into Ditch

A 14-year-old teenager lost control of her car late yesterday afternoon as she attempted a left turn from Geneva into Summerlin Ave. and crashed into a deep roadside ditch.

Taken to Seminole Memorial Hospital, Gertrude Stafford, daughter of C. H. Stafford, 2418 Summerlin Ave., was found to have received a gash above her left eye. She also complained about her knees.

Captain Arnold Williams of the Sanford Police Department, investigating the accident, said that damage to the 1954 Willys sedan was estimated at \$350.

Emory Griffin, 18, of Paola, riding in the front seat of the car with the 14-year-old driver, received scratches to the left side of his face.

Two other occupants of the car escaped uninjured. They were Troy Richardson, 20, 1703 West Third St. and Richard Youmans, 20, Paola.

The car, owned by T. G. Richardson, was being driven east on Geneva Ave. shortly before 8 o'clock when the accident occurred.

Miss Stafford narrowly missed crashing into a power pole only inches from where the car straddled the deep ditch. The front end of the automobile buried into the soft embankment and the rear end of the car fell into the roadside bank.

Captain Williams said that charges would be placed against the teenage driver.

### Authorities Seek Woman Hitchhiker

PORT LAUDERDALE (UP)—Authorities searched today for a short woman hitchhiker in a red party dress in connection with the "Christmas earrings" rife slaying of a handsome young engineer.

Police said a Miami salesman told them that he drove past a woman walking along the highway Thursday morning about five miles from where Robert Winston Lee, 24, was found. Lee's body was sprawled across the front seat of his car, hanging halfway outside the right front door.

The salesman described the woman as "short and sort of chunky . . . about 25 years old . . . and wearing a red party dress."

He spotted her walking north toward Belle Glade about 8:30 a. m. He said there was no town nor car nearby, and she made no effort to flag him down. In fact, she turned

### Additional Local News On Page 8

## Detachment Ends 6 Months Of Deployment

The Mighty Mousequeeters of VAH-7, officially known as Detachment 34, have recently completed the first six months of their present deployment aboard the USS Randolph, CVA 13. Under the leadership of CDR H. M. Cummins,

Officer in Charge, the detachment left Sanford on June 6 with ten officers, 120 men and five airplanes (A-1J Avengers).

Since that time, the Mousequeeters have taken part in the International Naval Review, crossed the

Atlantic Ocean and patrolled the Mediterranean Sea as part of the Sixth Fleet. Being part of the nation's first line of defense, they are ready to provide air support for a "brush fire" war or launch an all out atomic attack on a few

hours notice should the need ever arise. This proficiency was arrived at after participating in a dozen exercises or "war games" and over 800 hours of flying time.

One of the unique features of the detachment is that its five planes serve in the dual role of tankers and bombers and can be converted from one to the other in a few hours. It is not at all unusual, therefore, to find a plane flying a bombing mission in the morning and refueling jets that same afternoon.

BEFORE EVERY FLIGHT the crew makes an inspection of its plane. Here, W. G. Sowell, AQC, bombardier-navigator; F. Etting AN, third crewman; and LCDR. R. E. McMurray, pilot, complete the pre-flight inspection. (Official Photo, U. S. Navy)

Still another unique feature is that a shore based detachment is maintained at Port Lyautey, Morocco. This is necessary because of the size of the A-1J and also enables the heavy maintenance to be accomplished without taking up important space on the flight deck of the carrier.

In spite of its small size the detachment is organized along the lines of a full squadron. The nerve center is the Operations Department directed by LCDR H. Francisco and LCDR. R. Mann. It is here that the plans of admirals are transformed into the daily flight schedules that actually carry out the assigned missions. Maintenance, the largest department by far, is of tremendous importance aboard a carrier where every foot of deck space is urgently needed during flight operations. Lt. L. R. Bauer has been in charge of this department and together

WOMEN IN THE JAYCEE Christmas Lighting Contest presented awards yesterday at a weekly Jaycee luncheon. Left to right are: Mrs. Gretchen Crowell, Mrs. E. L. Lane, M. L. Raborn Jr., presenting the FP&LCo "Traveling Trophy" to Mrs. W. H. Heinbuch, W. H. Wicboldt, Mrs. E. L. Lane, and William H. Heinbuch. (Staff Photo)

Woman's Day service, 11 a.m., with the Christmas Women's Fellowship in charge. Nursery facilities. Off-street parking. Prelude—"Star of the East" (Kennedy). Offertory—"If a v o n l y Grace" (Himehaugh). Miss Agnes, Enid, Okla., will speak on "Greater Things Than These Shall Ye Do."  
Evening Worship, 7 o'clock. Pastor Perry L. Stone will deliver a New Year's sermon on "A Technique for Daily Living."  
The public is invited. Especially appreciated is the presence of holiday visitors, winter residents, newcomers, Navy families, and any others lacking a regular place of worship in Sanford.

## When he stops being cute

This is his very first New Year. He's celebrating it in his own talented fashion, just being cute. Last year thousands of boys and girls were arrested as juvenile delinquents. They had all been cute—once!

But did they have the priceless example of active Christian parents? Were they given moral and spiritual training in the Church? Did they grow up in a Christian atmosphere?

This young fellow can't be absolutely sure that the New Year is worth celebrating. His future is in the hands of his parents. But he's smiling because of his confidence in them.

During this New Year their faith in God, and the sincerity of their relationship with the Church will begin to determine just what their son is going to be when he stops being cute.

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For the sake of his community and nation. (2) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

TODAY'S THOUGHT  
Found between 12:45 and 1:15

## Courtesy Week Will Provide A Big Event For Sanford Soon

One event coming up should be a "most looked forward to" observance.

Instilled into each of us has been the "be courteous" admonition, a real test of good citizenship and good ambassadorship for those by whom we are employed.

During the week of January 6-12, secret committees of the Sanford-Seminole County Junior Chamber of Commerce will be watching and observing salespeople throughout the Sanford area in an effort to choose the most courteous waitress, the most courteous salesman, the most courteous saleslady, the most courteous salesman, and the most courteous act.

Jaycees, jointly with the Seminole County Chamber of Commerce, are sponsoring the week-long event which will be observed throughout the state.

No doubt, salespeople, and those who meet the public, will be on their toes since they will not know whether or not the person on whom they are waiting will be a representative of the Jaycees attempting to select whom they believe is the "most courteous" in the varied categories already announced.

Frankly, it will be a "big week" in Sanford since the contest will be coupled with a gigantic Courtesy Week Clearance Sale staged by the merchants of Sanford.

The Seminole County Chamber of Commerce is financing the Courtesy Week contest and the Jaycees are doing the work. It is another one of those events where the two organizations are working hand-in-hand to make Courtesy Week the biggest event ever staged here.

It would be wonderful if the Jaycees committees could come up with the report that every person in Sanford "tied" for first place. However, we know that there are certain traits among those who meet the public in general that will make them stand out as the "number one person" in the category in which they are being judged.

We think that the contest and everyone will join in to make it Sanford's most-looked-forward-to annual event to follow the pre-Christmas rush.

The Seminole County Chamber of Commerce is to be commended on the intense interest it is taking in the staging of this annual event. It is a commendable effort to put Sanford on the map as a "putting Courtesy Week over the top."

Whenever they are called on, Jaycees "turn to" to do their part for making Sanford and Seminole County a better place in which to live.

## Interstate Road Costs Going Up

There have been numerous complaints, lately, that the big federal highway program authorized by Congress a couple of years ago has bogged down. After about eighteen months of shelling out money for the 41-thousand-mile network, taxpayers are starting to ask, "Well, where are the roads?"

The answer appears to be that the new roads are being built about as fast as had been planned. More than 1,200 miles of sleek, new highway, ranging from four to eight lanes, is already in use. Taxpayers are not aware of it because the new roads are scattered about the country, but the highway system is growing at the rate of about ten miles per working day.

Here in Seminole County, news has come to us from the Fifth District Road Board member, William A. Dial, that the huge span across Lake Monroe and the section of Interstate Highway that leads into it for joining with State Road 46 will be let in April of 1958. Coupled with this is the announcement that West First Street, from French Avenue west to the Inter-Change, will also get underway at about the same time.

## Laboratory Seeks Maximum Safety In Auto Design

BUFFALO, N. Y.—Cornell Aeronautical Laboratory, which since 1947 has investigated many facets of the over-all problem of protecting airplane and automobile passengers, has developed a "safety car" that affords maximum protection in a crash.

CAL directors feel the exhibition car is a big step toward reducing the loss of life on the nation's highways.

Research, they said, clearly demonstrated that the head is the most vulnerable part of the human body. Thus, the CAL safety car has been predicated on the need to protect the head during a crash.

Six basic principles were followed in designing the vehicle. The first four were similar to those used daily in packaging any delicate object for shipment—use a strong shipping case, fasten lid securely, pack tightly and remove hard objects from wadding.

Wrap-around Bumpers  
In addition, the driver's working environment was improved to lessen the chances of an accident by increasing visibility, simplifying controls and instruments, and lowering the carbon monoxide of his breathing atmosphere. Dangerous objects also were eliminated from the exterior of the car to increase safety for pedestrians.

The exterior of the car does not differ greatly in appearance from the average four-door sedan or station wagon. The grill, hood, headlights and bumper were designed,

and the radiator ornament was eliminated.

The car has a wrap-around bumper system with plastic foam material to absorb some of the shock. The side bumpers are connected firmly to the frame, which has been extended and reinforced.

Doors are "accordion-type," fashioned like telephone booths or bus doors for easy entrance and exit. They are securely closed by three bolt bars which keep them shut in a collision, thus maintaining full structural support of the car body.

Bucket Seats  
Two roll-over bars, one over the front seat riders and the second over the rear, have been incorporated into the top of the body.

Bucket seats were decided upon to give better lateral support to the hips during an accident. Because the driver has the greatest exposure, he has been placed

in the center front seat where he has more car body structure between him and crash contact points.

Two other front seats on either side of the driver are slightly to the rear and slightly lower, preventing interference with his vision or arm movements. Two forward facing rear seats are placed inside the rear wheel wells. They are not directly behind the front seats but are staggered so that the rear passengers, if thrown directly forward, will not strike the front passengers.

Then there is a sixth rearward facing seat behind the driver. Seat belts and restraining panels hold all passengers secure.

A new concept of steering is supplied by hydraulic pressure. A control panel has been devised which the driver pulls back into his lap.

## RUSSIAN 'MAN OF LETTERS'

## Pvt. Teddy E. Bear Gets Permanent Assignment To Zoo

By JAMES BAAR  
United Press Staff Correspondent  
WASHINGTON (UP)—Pvt. Teddy E. Bear of the U.S. Army has reported for permanent assignment to the National Zoo.

The one-year-old European brown bear was officially transferred from the Army to the zoo in a ceremony yesterday morning attended by at least two generals and several top government officials.

Teddy, who bears serial number BR-17461871, has been serving as the regimental mascot since last May. He was presented to the city of Berlin as a symbol of U.S.-German friendship. He only weighed 23 pounds then. After six months of Army chow he weighed 170. Then the Army decided to give him a new assignment where "his special abilities could best be utilized."

**Military Career**  
Teddy's career has been spotty. Twice he rose to the rank of private first class. Twice he was busted back to private.

The first time he was busted for mauling a sergeant. The second time he left his post during night maneuvers. MPs arrested him near a subway station.

But the Army gave him a "citation for achievement" anyway.

"His devotion to duty and untiring efforts to curtail his keeper have helped keep the entire regiment on its toes," it said. "When marching with his company his military bearing and smartness were an inspiration to the regiment."

**Credit to Bears**  
"His faithful and meritorious conduct reflects great credit on all European brown bears."

Ted arrived at his new post about 3 a. m. Saturday accompanied by his buddy and keeper, Pfc. Donald G. Phagan of Enigma, Ga.

Several lady bears noted Ted's arrival with great interest despite the zoo's other star bear boarder—Smoky the forest fire fighter—who ignored it.

**MOOSE METER REVENUE**  
SIOUX FALLS, S. D.—(UP)—Although the city had fewer parking meters in operation this October, it took in more revenue than for the same month a year ago. In October 1956, with 417 meters in use, revenue amounted to \$9,045.50. The October, 1957 take, from 415 meters, totaled \$10,541.50.

## Classroom Has \$25 Million History Lesson

**EDITOR'S NOTE:** This is one of a number of year-end dispatches on news and feature developments in the South in 1957, written by United Press staff correspondents in the South.

By CHARLES E. MAHON  
United Press Staff Correspondent  
RICHMOND, Va. 47—The Commonwealth of Virginia was the classroom in 1957 for a \$25 million dollar history lesson.

It cost that much to impress on the world that America had its humble beginnings 250 years ago on a swampy bit of land called Jamestown Island. From all appearances, the eight-month show known as the Jamestown Festival, was worth the money.

As a commercial venture—which all concerned emphatically point out it wasn't—the affair drew close to 1,200,000 visitors to the

glittering Jamestown Festival Park. While that's 800,000 fewer than had been predicted, the festival and Chamber of Commerce officials still pronounced the event a success, financially and culturally.

The visitors to draw swelled Virginia's tourist trade—normally a \$50 million dollar annual business—10 per cent above its 1956 volume. Some sections of the state reported increases in guests up to 30 per cent, according to the Virginia State Chamber of Commerce.

**Bustling Tourist Business**  
Chamber officials pointed out that neighboring states benefited directly from the bustling tourist business in the Old Dominion.

In its primary function as a cultured display, the festival likewise was a success. It pointed up the fact that Virginia and the nation began in 1607 with the arrival of 104 men and boys to found the first permanent English settlement in North America.

The festival also had a hand in making some history of its own. It brought Queen Elizabeth II to the United States for her first visit as reigning monarch. It brought together the world's largest peacetime assembly of warships, 113, for an international naval review.

Those two events combined to focus world wide attention on Jamestown and the South, said Richard S. Gillis, activities director for the Virginia State Chamber of Commerce.

"The festival itself," said Gillis, "sharpened our awareness of the history and sacrifices of the Colonists made in building the nation."

**Point Paved**  
Williamsburg, the restored colonial capital some seven miles from Jamestown has "already proved that people will visit historical shrines without a hurdy-gurdy being added," Gillis said.

Jamestown drew crowds, he said "without Little Egypt on hand doing a koochie dance."

Jamestown's crowds included 45 of the nation's governors who attended the municipal administration are now thinking of turning the second stretch of the street into an underground tunnel.

But there is another aspect of the "Americanization" of Milan from the point of view of human interest—the success the "flipping" pinball machines have had among Milanese of every walk of life.

The machines are everywhere, although an old police regulation prohibits any kind of gambling machine in bars, shops, etc. Police, however, are very strict about slot machines which made a timid appearance but immediately met the hostility of authorities.

According to police regulations young people under 18 years of age cannot "flipper." But girls and boys do have available hundreds of jukeboxes which constitute still another aspect of the process of "Americanization."

## Milan City Full Of Skyscrapers

MILAN—Of all Italian cities, Milan is the one going through the fastest process of "Americanization."

The city's skyline already shows eight skyscrapers—four 25 to 35 stories each—all of them located near the central railroad station and in the business center. Blueprints for others are ready.

Milan was heavily damaged during World War II by Allied air raids, but since the end of the conflict 287,000 rooms have been built, twice the number of rooms destroyed.

A new very modern city made of glass and steel and flooded with neon lights is conquering the baroque Milan of last century.

**Traffic Problem**  
Milanese of the young generations are proud of the changes their city is going through, but those who were born at the beginning of this century and earlier seem to be disturbed by the transformation.

The building of the skyscrapers and the increase in the number of automobiles have complicated the problem of the traffic jams in the downtown section.

Studies and initiatives followed each other for the past three years in an effort to solve the problem, and two plans were approved.

One was to cut an avenue 25 meters wide through the center of the city; the other was to build a "directional" center destined to include all the private and public offices, away from the center of the city.

The first one had to be abandoned because, after building the first stretch of the avenue, traffic experts realized that the wider the streets, the more cars ride on them and consequently traffic jams remain.

**Pinball**  
The machines are everywhere, although an old police regulation prohibits any kind of gambling machine in bars, shops, etc. Police, however, are very strict about slot machines which made a timid appearance but immediately met the hostility of authorities.

According to police regulations young people under 18 years of age cannot "flipper." But girls and boys do have available hundreds of jukeboxes which constitute still another aspect of the process of "Americanization."

## YOU'RE TELLING ME!

By WILLIAM MITT

WITHOUT question, the biggest celebration anywhere of World Animal Welfare Week took place in India where 100 elephants were given a ceremonial bath in the Ganges river.

Unfortunally, we'll never know if the huge pachyderms could ever be doing as contributing to their welfare.

Moscow announces the Russian plan to launch 125 rockets into outer space next summer. To which P.E.P. has a two-syllable comment: "Show-off!"

Leaky faucets, according to a household columnist, cause the waste of millions of gallons of water annually. Hmmm!—and

The Brooklyn Dodgers who moved west still haven't found a port. They don't know if they'll wind up in the Coliseum Kids or the Rose Bowl Bums.

While paying a traffic fine a cop gave a Kansas City man's car another ticket. While he was setting this second violation, the guy's car got a third ticket. This kind of thing can get mighty monotonous!

### Conning The News

By VIRGINIA CONN, Society Editor

When to start—at our house we are so tired today that the mind is even slower than usual. Christmas started with a rush this week as busy parents tried to sandwich shopping, cooking and decorating into a schedule jammed with parties and open houses.

Monday night a tremendous crowd gathered at Cy and Jean Fitton's for one of the famous Fitton parties. The house rang with Christmas carols and other seasonal songs led by Cy and Lee Cuning. Lee has a beautiful voice and pleased everyone with a solo "Around the World".

Home for the holidays and seen at the party were Carlyle and Molly Reedy, college daughters of Jim and Jean Reedy. Also in evidence were Gary and Betty Arthur, son and daughter in law of Lionel and Riddle Arthur. The younger Arthurs are stationed at Myrtle Beach, S. C., where Lt. Arthur grinds away with the Air Force.

Joe Davernport has gone to New York where he will marry Elizabeth Kretschmann this weekend. This I understand by the grapevine, perhaps not reliable news, but at least interesting. Am sure that many in Sanford remember dear old Kurt Kretschmann, who is now in Jacksonville. His sister, I hear is most delightful.

Was delighted to hear that John Fox and Melba Johnson will soon be married. Their engagement was revealed at a party Tuesday night. John is attending Real Estate School in Orlando.

It is traditional with a very nice group of Sanfordites to drop in at Hidden Lake Christmas night and nibble on Bart and Mary Peterson's left over turkey. This is a relaxed way to end a hectic day—with feet up and a turkey sandwich at one's side. Cozy and old fashioned in the Peterson's home with the huge tree and many almost forgotten handmade Christmas toys and baubles. After a round of visiting what could be news?

One of the most practical of any gifts was one received by W. McRoberts, this year. It is a "Happy Hour" clock. All the numerals say five.

Some of us felt pretty old Christmas night at the Interfraternity Ball. The young things seem to look younger every year—or is it because—no sense going into that! Anyway the crowd was pretty well divided, and there was more than one rock and roller on the dance floor who had passed the age of indiscretion. The Tony Perez orchestra was excellent and provided good variety for older and younger.

Holiday stowns were much in evidence. Red was perhaps the most popular color.

The lobby of the Mayfair Inn is centered with a huge Christmas tree. Santa Claus came to the Inn Christmas Eve for the forty children who are vacationing there.

Not to slip away from the subject—seen in the crowd Christmas night were Bill and Sally Hutchison, Cy and Jean Fitton, Cliff and

Jane McKibbin, Bud and Priscilla Talley, George and Audrey Spear, Catherine and Charlie Park, Ann and Lee Moore, Alice and Ernie Mills, Andy Carraway (never did see Helen), Crella and Earl Higginbotham, Mike and Hazel Rowell, Tommy and Penny Peterson, Doc and Betty Linker (and a table full of relatives), Jane and Wally Phillips, Claire and Kirby Fite, John and Suzie Dickey, Harry and Ruth Lee, Paul and Pankin O'Dea, Ruth and Bob Bilheimer, Roy and Sally Green. Roy just recently home from the midwest, Buddy and Annabelle Henderson, Mary and Ed Higgins, Rose and Albie Spear, Brack, and Jessie Perkins—and scads of others, including many whom I do not know.

Remember the Art Steddom concert tonight at the Mayfair. Starts at 8:15, and you may get tickets at the door. Art will play many popular numbers during the evening. Dancing will follow to the tunes of Patsy Duke. The fund from this dance and concert will all go to charity. Beta Sigma Phi sorority is behind the whole thing, and they plan a very nice gift to the hospital.

MRS. MAE SHEPPARD was installed at this ceremony recently as Worthy Matron of the Order of the Eastern Star.

(Staff Photo)

### Mrs. Mae Sheppard Installed In Impressive O.E.S. Ceremony

The Masonic Hall was transformed into a veritable bower of pink and blue for the installation of the 1958 officers of Seminole Chapter No. 2, Order of the Eastern Star. In the East, two living palms flanked the steps leading to the Worthy Matron's station.

In front of the palms were low garden trellises intertwined with pots of lavender and white chrysanthemums were centered in front of each trellis, and a large pink rose was attached to the Worthy Matron's pedestal.

Tall baskets of white glads, interspersed with branches hung with miniature Christmas balls and tiny bows of pink ribbon, stood at the stations of Ruth and Martha.

In the West, in front of and to the right of the Associate Matron, stood a slender tree fashioned from a cluster of palm seeds, sprayed and hung with pink angel's hair.

In front of and to the left of the Associate Patron was a wheel, the spokes entwined with fern and delicate blue artificial flowers.

On the floor before the pedestal was an arrangement of pink roses in a blue vase, and between the West and East's station stood an arch wreathed with fern and pink roses.

The secretary's desk boasted an arrangement of lavender and white chrysanthemums in a pink fluted vase. On the dais in the East, a small white Christmas tree hung with blue lights and pink and blue balls put the finishing touch to the decorations.

After the 1957 officers had retired, the 1958 officers then retired. The following officers were installed for the ensuing year: Mae Sheppard, Worthy Matron; Leslie T. Sheppard, Worthy Patron; Linnie Moyer, Associate Matron; Henry B. Bullard, Associate Patron; Augusta Bilibrey, Secretary; Henrietta Raines, Treasurer; Marjorie Shepard, Conductress; Helen Leinhardt, Associate Conductress; Virginia Anderson, Chaplain; Essie Cole, Marshal; Bertha Snyder, Organist; Irene White, Adah; Ethel Peurifoy, Ruth; Billie Schnabel, Esther; Marge Brademeyer, Martha; Joyce Nicholson, Warder; and Elmer J. Still, Sentinel.

Elizabeth Thompson, Electa for 1958, was absent due to illness. Mrs. Bradshaw installed the Chaplain, and Vivian Welch substituted as organist while Mrs. Snyder was installed.

The Worthy Matron and Worthy Patron were saluted with Grand Honors. They were congratulated by the installing officer, who presented them with gifts and a certificate.

The Junior Matron, Mrs. Cordell, presented the Katherine McKay pine which is worn by every Worthy Matron of Seminole Chapter during her term of office. She also presented to the Worthy Matron the styrafoam heart. The heart is Mrs. Sheppard's symbol for 1958.

The Junior Patron, Robert H. Williams, presented a gift and best wishes to the Worthy Patron.

The Worthy Matron gave a short address, and introduced her husband and Worthy Patron, Leslie Sheppard, and her sister, Mrs. Bradshaw. She especially thanked Mrs. Salisbury, who was largely responsible for the beautiful decorations, and wished for everyone a happy holiday season.

The Worthy Patron endorsed the Worthy Matron's remarks and assured her of his loyalty and support. He extended best wishes to everyone and asked for their cooperation in the coming year.

The marshal introduced the Worthy Matron and escorted her to the altar, where she knelt. The Junior Matron read a verse pledging love and loyalty, and placed a lei about her neck. Mrs. Corley sang "The Rosary of the Star".

The officers formed a circle about the Worthy Matron while the Chaplain said a prayer. The Star Points, Associate Matron and Junior Matron each made a little speech in verse, giving the meaning of the colors in the lei.

After the Worthy Matron had returned to her station she was presented by her sister with a beautiful and unusual gavel in the form of a star.

The Worthy Matron presented gifts to all her installing officers, who responded graciously with pledges of love and loyalty. She thanked all who had helped to make the evening a success, and for the gifts at her station.

Everyone joined in singing "Happy Birthday" to the Junior Matron Grace Cordell.

In the outgoing march the officers formed a heart about the star while the soloist sang "Into My Heart." Throughout the evening all officers carried wired and ruffled hearts of pink net.

The Worthy Matron's colors of pink and blue were carried out in panel, for driving the car, all within fingertip reach.

### Personals

Mr. and Mrs. L. G. Hunter have as their guests this week, their daughter Miss Betty Hunter of Fishersville, Va. and her fiancé Vernon Leigh Vason of Portsmouth, Va.

Visiting Leadr. and Mrs. D. W. Linker in their Mellenville home are Mrs. Linker's parents, Rear-Admiral (ret.) and Mrs. Preston Stricker of Arlington, Va. Also Mrs. Linker's aunt and uncle Dr. and Mrs. Carl Wirts of Pittsburgh, Pa. and son Hank, who is a student at Dartmouth.

Spending the winter in Sanford with her daughter, Mrs. D. S. Talley, and family, is Mrs. Arthur Stewart of Boothbay Harbor, Me.

The Worthy Matron presented gifts to all her installing officers, who responded graciously with pledges of love and loyalty. She thanked all who had helped to make the evening a success, and for the gifts at her station.

Everyone joined in singing "Happy Birthday" to the Junior Matron Grace Cordell.

MISS COLLEEN ENGEBRETSON, whose engagement is announced today to Lt. Robert Beckwith of the United States Army.

### Miss Colleen Engebretson Will Wed Lt. Robert Beckwith, U.S.A.

Mr. and Mrs. Forrest F. Engebretson announce the engagement of their daughter, Colleen Dawn to Robert Eugene Beckwith, Lieutenant, United States Army, son of Mr. and Mrs. Arthur H. Beckwith Sr.

Miss Engebretson attended local schools and is a graduate of Seminole High School, class of 1955. She attended Black Hills Teachers College, Spearfish, South Dakota, and also the University of Florida, where she is presently enrolled as a junior in the College of Education. She is one of the Gator Band majorettes at the University and is also associated with Zeta Tau

Alpha social sorority. Lieutenant Beckwith attended local schools and was graduated from Seminole High School in 1952. For one year he was a student at the Citadel in Charleston, South Carolina and then entered the United States Military Academy, West Point, New York, where he graduated in June of 1957. He is presently assigned to the 101st Airborne Division, Fort Campbell, Kentucky.

The wedding will be a spring event. Definite plans will be announced at a later date.

### Shower Honors Miss S. Monforton

Miss Sandra Monforton, bride-elect of Ens. Fred Wilson, was honored Saturday afternoon with a miscellaneous shower given for her by Mrs. W. A. Morrison and her daughters, Miss Dorothy Morrison and Miss Margaret Morrison.

Pointsettia arrangements and a lighted Christmas tree carried out the Christmas theme at the Morrison home at 1904 Sanford Ave. After opening her many lovely gifts, the honoree and her guests were invited into the dining room where refreshments were served from a lace covered table with silver appointments and a Christmas centerpiece arrangement.

Mrs. E. A. Morforton poured coffee for the guests.

Those invited to be with Miss Monforton were Mrs. E. A. Morforton, mother of the bride-elect; Sonja Monforton, sister of the bride-elect; Mrs. A. L. Wilson, mother of the groom-elect, and Mrs. W. A. Cook.

Also, Mrs. Douglas Stenstrom, Mrs. Ralph Cowan Jr., Mrs. E. C. Harper Jr., Mrs. W. H. Stemper, Mrs. Mark Jacoby of Apopka, Miss Martha Stemper, Miss Harriett Heiding, Miss Elizabeth Woodruff, Miss Jo Ann Moore, Miss Alice Brown, Miss Nancy Cash, Miss Mary Rose Spear, Miss Lennie Rundon, Miss Marilyn Calhoun, Miss Grace Marie Stinecpher.

### Happy Birthday

Clayton Smith  
Mrs. Gordon Sweeney  
Kathleen May  
Mrs. H. S. Duggar  
Peggy Bowes  
Evans McCoy  
Robby Gene Caruthers

### Foreign Mission Problems Subject Of Baptist Program

The Young Women's Auxiliary pine cones, and candles made up entertained recently in the home of Mrs. E. C. Campbell with a supper and program meeting. The tables were decorated in the Christmas style. Holly, painted pinecones, and candles made up the center piece. Little Christmas houses were used for place markings.

A program followed the supper. The name of the program was "I Am The Door". It was all about the discouragements and hardships that missionaries have to go through when they are appointed to a foreign mission field.

The supper and program were enjoyed by Marian Routh, Anne Turner, Marcel Efrid, Hilda Ergle, Marchetta Campbell, Mrs. E. C. Campbell, Twilla Campbell, and Mrs. M. C. Hagan.

## Coast Guard White Stern Light Ruling

The white stern light, required on all motorboats up to 85 feet, may be mounted off the centerline on powerboats under 26 feet, according to a ruling approved by Vice Admiral A. C. Richmond, U. S. Coast Guard commandant.

In announcing the ruling, the Coast Guard explained it had "received many inquiries from the motorboating public and the small boat industry concerning the location of the stern light. The Coast Guard has reviewed the subject and finds that clarification and interpretation of the applicable rules and regulations... are necessary."

The ruling follows a statement issued by the Coast Guard which pointed out, "The Coast Guard has noted an increasing number of small motorboats carry the required all around white light well off the centerline. While it considers the centerline location desirable, the Coast Guard has so far published no regulation requiring this. Whether such a regulation will be published depends on the outcome of further discussions with representatives of various boating groups."

## 5 FSU Trackmen Will Be Competing In Bowl Carnival

TALLAHASSEE—Five members of Coach Mike Long's Florida State University track team will compete in the Sugar Bowl Track Carnival in New Orleans, Dec. 29.

The Seminoles are entered in three events of one of the nation's best holiday track attractions.

FSU's Jack Terwilliger, Dade City senior who has been timed in 9.7 seconds, will compete in the 100-yard dash.

Junior Jim Castel of St. Petersburg, defending Florida AAU 440-yard dash champion, will enter his specialty. Castel has done a second-flat 440, holds the FSU school record with a 49.4 clocking.

Orlando senior Mike Conley, Doyle Butt, Orlando sophomore Charles Nye, and Castel will represent the Seminoles in the mile relay.

## Player Shift In East Texas Lineup Told

COMMERCHE, Texas (Special)—Folk in Texas say, "If you don't like the weather, stick around. I'll change." And members of East Texas State's Tangerine Bowl-bound football team are saying the same thing about their grid positions.

He did this, and kept his name on the scholastic honor roll, despite the laziness of his mother and father dying of heart attacks within weeks during the football season.

Ray is the son of the late Charlotte attorney Ray Farris, an all-time great guard at the University of North Carolina.

"Dad gave me my first football when I was one," Ray says. "He taught me all the fundamentals, I guess, and we always went to the North Carolina football games together."

But Purcell said his teammates "understood." They beat a cross-town rival 43-0 in that game.

The elder Farris suffered a heart attack and died on a Friday. Ray's high school coach, Gus Purcell, said Ray "just didn't feel like playing our game Saturday night."

Purcell said his teammates "understood." They beat a cross-town rival 43-0 in that game.

Ray was back in gear the following week despite the blow. He seemed to suffer a slight slump but the team continued its undefeated pace.

SHRINE DRILLS OPEN  
MIAMI — Practice opened yesterday for 46 college players scheduled to compete in the North-South Shrine football game in the Orange Bowl on Christmas night.

The entire South squad, and coach Bobby Dodd of Georgia Tech were scheduled to arrive today, as were halfback Dick Lynch and end Dick Prendergast of Notre Dame, both members of the North team.

## Ray Farris Grid Player With Heart Stout As Football

By RICHARD W. HATCH  
United Press Sports Writer  
CHARLOTTE, N. C. — Ray Farris is a 17-year-old boy with a heart as stout as the football he handles with such skill.

The handsome youth quarterbacked the Myers Park High School football team here to state honors and was named a high school All-American by a national magazine.

He did this, and kept his name on the scholastic honor roll, despite the laziness of his mother and father dying of heart attacks within weeks during the football season.

But Purcell said his teammates "understood." They beat a cross-town rival 43-0 in that game.

The elder Farris suffered a heart attack and died on a Friday. Ray's high school coach, Gus Purcell, said Ray "just didn't feel like playing our game Saturday night."

By RICHARD W. HATCH  
United Press Sports Writer  
CHARLOTTE, N. C. — Ray Farris is a 17-year-old boy with a heart as stout as the football he handles with such skill.

The handsome youth quarterbacked the Myers Park High School football team here to state honors and was named a high school All-American by a national magazine.

He did this, and kept his name on the scholastic honor roll, despite the laziness of his mother and father dying of heart attacks within weeks during the football season.

Ray is the son of the late Charlotte attorney Ray Farris, an all-time great guard at the University of North Carolina.

"Dad gave me my first football when I was one," Ray says. "He taught me all the fundamentals, I guess, and we always went to the North Carolina football games together."

But Purcell said his teammates "understood." They beat a cross-town rival 43-0 in that game.

The elder Farris suffered a heart attack and died on a Friday. Ray's high school coach, Gus Purcell, said Ray "just didn't feel like playing our game Saturday night."

Purcell said his teammates "understood." They beat a cross-town rival 43-0 in that game.

Ray was back in gear the following week despite the blow. He seemed to suffer a slight slump but the team continued its undefeated pace.

SHRINE DRILLS OPEN  
MIAMI — Practice opened yesterday for 46 college players scheduled to compete in the North-South Shrine football game in the Orange Bowl on Christmas night.

The entire South squad, and coach Bobby Dodd of Georgia Tech were scheduled to arrive today, as were halfback Dick Lynch and end Dick Prendergast of Notre Dame, both members of the North team.

This is the seventh of 16 dispatches on the off-season outlook of each major league team for 1958, written by the managers of each club.

By BOB SCREFFING  
Written for United Press  
SCOTTSDALE, Ariz. — If we can start next season as we finished the last one, the Cubs will do all right.

During the last two months of last season we won 29 and lost 27, and that is the kind of baseball we want to play all season. We've done a lot of building, and some trading, and we'll do more to get the material we need to become a solid club.

The baseball writers have been ribbing me about the trade we made with Milwaukee, in which we gave right-handed pitchers Bob Rush and Don Kaiser, along with outfielder Eddie Haas, for left-handed pitcher Taylor Phillips and catcher Sam Taylor.

I think we helped our club in the deal. We got youth, as both Taylor and Phillips are 24. And in Taylor we got ourselves a probable starting left-handed pitcher, which we badly needed last season.

Looks to Future  
When you are trying to bring a club up, there is nothing like trying to find young players, with lasting qualities, who might not win the pennant for you the first year or so but will improve with experience and make you a contender for several years.

We brought up some young players in the second half of last season and our winning percentage started going up. We've got some good young pitchers, probably the best staff of young pitchers of any team in the major leagues. Barring physical handicaps, they'll get

had suffered a fatal heart attack. Purcell said Ray took this second tragic blow in stride even though he had no other immediate family to turn to. He moved across the street to live with longtime neighbors.

The following Friday, Myers Park played in the western state playoffs. Ray was nothing short of sensational in this game.

The pitching staff of Taylor, better with seasoning, Dick Drott, Jim Brosnan, Johnny Briggs, who seems to be recovered from an arm injury, Bob Anderson, and a couple of youngsters we've brought up should do all right. Ed Mayer, up from Fort Worth, and Glenn Hobbie, a left-hander from Memphis, are highly regarded, although still a little rough around the edges. So was Drott when he first came along.

Outfield Problems.  
Don't be surprised if Fernando Rodriguez, at 35, gives us some good relief pitching. We got him from the Giants' Minneapolis farm team, and he's doing well in the winter league down in Cuba.

We haven't any deals in sight right now, but we still have outfield problems, particularly in centerfield. The outfielders we have are Lee Walls, who came from Pittsburgh last year in the deal which also gave us Dale Long at first base; Jim Bolger, Bob Speake, Walt Moryn and Chuck Tanner.

Third base was a problem last year until John Goryl came along and did a pretty good job for us. We've got Bobby Adams for third base duty also, and have been given high recommendation on Antonio Taylor, a 20-year-old from Minneapolis.

Jerry Kindall and Bobby Morgan give us pretty good protection at second and Ernie Banks—well, you just tell me a better guy to have at shortstop who hits those long ones for you like he does.

Cal Nelman, another youngster who made the team last season, caught more games than any other catcher in the National League and was only out-hit by three or four catchers, if memory serves me correctly. I know he can do a good job for us, and Taylor will be of help.

OREGON IN GOOD SHAPE  
EUGENE, Ore. — Oregon, described by coach Len Casanova as in good physical condition for its Rose Bowl game against Ohio State, was busy with term examinations today instead of football drills.

Casanova said his squad will leave by plane for Los Angeles on Saturday and undergo 10 practice sessions during the 11 days there.

FINALS CURTAIL OSU DRILLS  
COLUMBUS, Ohio — National champion Ohio State was listed for only one pre-Rose Bowl football practice this week because of final examinations.

Coach Woody Hayes said the Buckeyes would hold a light workout on Wednesday and will leave Saturday for Pasadena, Calif.

RED AIR FARES DOWN  
LONDON (UP)—Radio Moscow said Monday Soviet airline fares will soon be as low as those on the railways. A broadcast said increasing use of new types of aircraft would soon bring air fares down. It said some fares were reduced 12 per cent from last year and as much as 40 per cent on some northern Siberian routes.

## Navy Will Be Playing For More Than Victory

The Navy team that meets Rice in the Cotton Bowl on Jan. 1 will be playing for more than a victory.

The Middies hope their second post-season bowl appearance in recent years will help spotlight a national campaign being conducted by the Naval Academy to raise funds needed to assure construction of a \$1 million Navy-Marine Corps Memorial Stadium.

Navy is the only major football team in the country without an adequate stadium, being forced to play its "home" games at Baltimore. No Federal funds are available for the project.

To date, Navy personnel at sea and ashore have dug into their pockets to contribute more than \$800,000 to the Stadium fund. The Naval Academy Athletic Association, a private non-profit organization which supports the Academy's entire intercollegiate program, has pledged \$1 million. Both groups have gone their limit.

Assistance is needed from individuals, firms and veterans organizations who are being asked to subscribe to a \$100 memorial chair, \$1,000 plaque or larger tribute to associates, members or employees who have served or are now serving in the Navy or Marine Corps. The facade of the stadium will be adorned with memorial plaques, while memorial chairs will be inscribed with the name of the person to be memorialized.

Contributions to the fund in any amount however, will be gratefully accepted. The address is Memorial Stadium Fund, P. O. Box 777, Annapolis, Md.

THE PURCHASE OF A SECURE FUTURE CAN BE ACHIEVED BY REGULAR PURCHASE OF U.S. SAVINGS BONDS. SERIES B BONDS NOW PAY 3 1/2% WITH HELD TO MATURITY AND THEY MATURE IN 8 YEARS, 12 MONTHS.

### Schomburger Goes To Academic All America Squad

TALLAHASSEE—Florida State University football captain Ron Schomburger has been named to the second team Academic All America squad.

The 196-pound senior end from Pittsburg, Pa., was listed on the second unit along with end Jack Regan of Boston University. First team ends were Jim Phillips of Auburn and John Nikkel of TCU.

Schomburger caught 11 passes for 160 yards and three touchdowns during the past season. He carries better than a B average in the classroom.

The Scholastic All America team is compiled by Southern Methodist University from nominations made by newspapermen, sportscasters and sports publicity directors across the nation.

CLOSE BOWL SCORES  
DALLAS, Tex. — With Navy and Rice preparing for their Jan. 1 football game in Dallas, it's interesting to note that in the 21 previous Cotton Bowl contests, there's a difference of only 1.6 points between the average scores of the host and visiting teams.

LIONS DRAW CROWDS  
DETROIT — The Detroit Lions played before 618,253 spectators during their 12 regular season games this year for an average of 51,521 per game.

## Soldiers Of U.N. Emergency Force Relax In Cairo

BY LARRY COLLINS  
United Press Staff Correspondent  
**CAIRO**—(UPI)—Take a batch of GI's from nine different nations, put them on duty in a wineless, womenless desert and you have problems.

The "you" with these problems is Boston-born Joe Noia, recreation director of the United Nations Emergency Force.

He's just opened the UNEF's rest center here in Cairo. GI's from the world's first international army get the recreation and Noia gets the headaches.

His headaches come in nine different languages and in nine different forms than you could find at an officers' convention. They range from the Finn who wants to know where he can find a real sauna steam bath to the Indian corporal who wants a plate of honey-to-goodness curries. (The Finn had to settle for a Swedish massage, but the Indian got his curry.)

The center was opened here recently after six months' operation in Beirut.

Each week 350 soldiers will swap down from Gaza for seven days of relaxation earned every three months in the command's lonely desert outpost.

**TOUR AND SPORTS**  
Waiting for them are prearranged package tours to the pyramids, Luxor and Cairo's museums and sports-free fun and games at Cairo's best sporting clubs.

"We're trying to give the boys something they couldn't get in Beirut or any place else for that matter," Noia said. "Here they have a chance to see some of the great history and art treasures of the world."

"Our idea is to keep them occupied and interested with this treasure chest of other things to do and see here. If they're occupied, they won't be so apt to notice that made the night life here just as free as it was in Beirut."

UNEF officials said the move here was motivated largely by suggestions from the Egyptian government. The Egyptians reasoned, they said, that if UNEF is stationed on Egyptian soil, why shouldn't it relax on Egyptian territory?

Noia estimated that UNEF's relaxation here over the next six months will mean about three million dollars in new tourist income to the Egyptian economy.

Egyptian government officials, he said, "are bending over backwards to make the center a successful reality, and the boys to go away with a good feeling about Cairo."

**TWO HOTELS USED**  
"They have even gone so far as to invite the individual battalion commanders to town at their expense to see what is being done for the troops."

The center itself is run by a 20-man permanent staff headed by Yugoslav Major George Petrakic. It includes 10 M.P.'s, three drivers, a doctor, medical non-com and clerical help.

The first step of the staff was to take over two hotels in downtown Cairo to house the leave parties. The soldiers, food, lodging and transportation bills are paid for by the United Nations as a result of a General Assembly vote to give the soldiers seven days in rest camp for every three months service in the desert.

The underwriting of these bills also has the effect of leveling out to an extent the differences in pay scales among the nations. Private force which range in privates, pay all the way from \$300-plus received a month by the Brazilians to less than \$30 received by the Indians.

The center staff has lined up 10 half-day tours to sights in and around Cairo, one-day tours to Alexandria and Luxor, and a two-day tour to Jerusalem—all at bargain prices.

## Weather Bureau Names Next Year's Atlantic Storms

WASHINGTON (UPI)—The chances "are overwhelming" the weather bureau says, that the girls Nola, Orchid, Portia, Queeny, Rena, Sherry, Thora, Udele, Virginia, Wilma, Xara, Yureth, and Zorina will never do anybody any harm.

But look out for Alma, Recky, (No. 11), Ella, Flo, Gerda, Helene, Iva, Janice, Kaye, Lily, and Mully. Some of these kids are bound to cut up rough.

These are the names the weather bureau, with the advice and consent of the Air Force and Navy, has picked for next year's Atlantic hurricanes.

Norman F. Hagen, the bureau's public information coordinator, said "the chances are overwhelming that we'll never get to the bottom of the list."

Tropical storms of the kind that spawn hurricanes occur on an average of only eight or nine times a year. They seldom number as many as 13. But once, some 20 years ago, there were 21. So 21 names would appear to be enough.

But the bureau is afraid not to pick a name for each letter of the alphabet. One year it stopped at 21—and reaped a harvest of several hundred letters from scornful school kids wanting to know if nobody ever told the bureau there are 26 letters in the alphabet.

Hagen said the bureau can prove there is a real person named Xara, a girl in North Carolina.

## THE CARD OF THANKS

Very often a Card of Thanks in The Sanford Herald meets a need which is difficult to fill in any other way. Not only is it a gracious expression of gratitude to those who have sent floral tributes but also courteously acknowledges the services and kindnesses of the many to whom a personal note of thanks cannot well be mailed.

Newspaper Cards of Thanks are accepted as socially correct. Emily Post, the noted authority on etiquette, feels they serve many good uses.

There is no prescribed form for a Card of Thanks. It can be as brief or as detailed as you desire. When the occasion comes you will find a sympathetically understanding member of our staff to assist you.

## THE "IN MEMORIAM" NOTICE

It is the custom of many families in this country to commemorate a bereavement by an "In Memoriam" notice in newspaper classified columns. They find a real solace therein. Preparation of a suitable verse brings back to them tender, pleasant recollections. As Eliza Cook, the English poet has so beautifully expressed it:

"How cruelly sweet are the echoes that start  
What memory plays an old tune  
on the heart."  
Most frequently an In Memoriam is inserted on the anniversary of death. However, other dates, which it is felt are appropriate or meaningful are also selected. The birthday of the departed, the wedding anniversary, Memorial Day, even Christmas are among other significant occasions chosen.

If you are hesitant to express your tender thoughts in poetic form, you may avail yourself of the Herald's collection of original verses. These express in poetic beauty the emotions of the heart-strings. Among them are verses appropriate to any circumstance.

**THE RATE**  
Cards of Thanks and In Memoriam notices, due to the fact they may run to considerable length, are billed at \$1.00 per column inch.

# Week's Good, Bad World News

By CHARLES H. MCCANN  
Lead From Staff Correspondent  
The week's good and bad news on the international balance sheet:

Speakers for both the United States and Soviet Russia marked Christmas week with expressions of desire to reduce world tension. President Eisenhower and Secretary of State John Foster Dulles spoke for the United States. Soviet Communist Party Leader Nikita S. Khrushchev spoke for Russia.

Eisenhower and Dulles gave a joint report to the nation by television and radio on the North Atlantic Treaty Organization meeting in Paris. Eisenhower said that the 15 NATO countries aimed not at aggression but at "the pursuit of a just peace." All Russia has to do to ease tension, he said, is to give "clear evidence of Communist integrity and sincerity in negotiation and action."

## Special Watch Night Services Set Dec. 31

The Sanford Church of the Nazarenes will be among the 4,500 congregations of the international Protestant church that will pray at special Watch Night services around the world on Tuesday, Dec. 31, opening the denomination's golden anniversary year. Beginning at 8 p. m., there will be five 45-minute parts to this four-hour observance which will conclude at midnight with the sacrament of Holy Communion. The public is cordially invited to attend any or all of these parts, starting with a service of 250 churches and 10,414 members in 1954, the Nazarenes have grown to 1,100 churches and 100,000 members in 1957. In the U. S., Canada, missionary work in 23 world areas. The denomination stands for the spread and conservation of the Wesleyan doctrine and experience of entire sanctification, or heart holiness. Among U. S. Protestant denominations, it is 30th in membership, 15th in Sunday school enrollment, and ninth in its publishing house sales.

Nazarenes consistently have been among the first five denominations in stewardship or per capita giving. Members believe in and practice tithing and per capita giving in 1957 will exceed \$133.

The special watch night services will average from three to four hours in length around the world. Each local church will take part in other simultaneous services during the 1958 jubilee year.

## SOKC Announces Feature Race Slated Tonight

A closely-matched field of eight Grade A steppers will battle for honors in the featured ninth race tonight at the Sanford-Orlando Kennel Club. Lo Stretch, who likes to run the rail, could be dangerous out of the number one box. The handsome brindle greyhound, owned by B. C. Davis of Longwood, finished a solid third in the main event Tuesday after leading most of the way. Grate Receipts, who closed fast to take second in that same race, is ready to go for the Circus City Ranch from the six hole. Three fleet dogs who rated star billing at the Volusia County Kennel Club during the summer are also in the lineup. They are Ed's Goldrush, Black Elaine and Rockin Jo, runnerup to Pretty Pam in the Daytona Beach Derby.

## Angel's Eat Shack Changes Ownership

Angel's Eat Shack on South Sanford Avenue has changed ownership, it was announced to the Herald today. The new owners are Estelle and Chief Petty Officer Ezekiel Erickson, presently stationed at the Sanford Naval Air Station.

The Ericksons have been residents of Sanford for the past four years, and plan to make this city their permanent home. They reside at 2459 Elm Avenue and have on son, Rick, a junior at Seminole High School.

W. M. (Cotton) Brown told the Herald today that an immediate need of an operation was the reason which forced his sale of the restaurant. Mr. Brown plans to enter Seminole Memorial Hospital sometime early in January.

has persistently obstructed all attempts at controlling nuclear weapons and attaining disarmament. But the NATO countries, he promised, would continue "probing" to find out whether Russia has the "good will to resume serious work to achieve nuclear peace."

## Detachment

(Continued From Page 1)

The Material Department is small, but with LCDR F. P. Dwyer directing its efforts it has kept a steady supply of parts available to the Maintenance men. Another small department is Administration under the leadership of LCDR R. E. McMurray. In addition to the news coding paper was this department has handled the details of three re-enlistments and 27 advancements in rate.

Operating on an aircraft carrier is hardly the safest job in the world, but during the first six months, the detachment has had only one minor accident and not a single personal injury. This record is not the result of good luck alone. Safety First has been and will continue to be the slogan of the Mousequaters.

Sandwiched among the war games have been visits to many Mediterranean ports in line with the motto, "Join the Navy and see the world." Because of the crisis in the Middle East, most of the ports visited have been in Greece, but there is hope that with the easing of tensions in the area, the Sixth Fleet will return to the western Med. To date the Mousequaters have visited such ports as: Genoa, Palma, Athens, and Rhodes.

In addition to the souvenirs bought and pictures taken, there are many things that will be remembered by the men of Det. 36: The cake cutting ceremony in commemoration of the 29,000th landing on the ship made by LCDR Dwyer; the flu epidemic; movies in the hangar bay; the Detachment party in Rhodes; the cramped living spaces; bingo on the flight deck; the \$200,000 contributed to the United Fund; and hundreds of personal memories.

The thought uppermost in each man's mind is to return to Sanford, his family, and his friends. The job, however, is not yet finished over here and won't be for several months. Having done an outstanding job in the first six months the Mousequaters intend to continue to do so and assure themselves of a "Well Done" when their work is finally finished.

## Authorities

(Continued From Page 1)

high heels and a crushed box of chocolates with the paper-wrapped candy strewn over the ground gave police a mysterious set of clues. Authorities requested all motorists to report on any women hitchhikers they may have picked up along Highway 27 which connects Miami with Lake Okechobee.

Ben Grigaby, chief criminal investigator for the Broward County sheriff, said an autopsy indicated Lee died about 3:30 a. m. Thursday from a 22 caliber rifle bullet fired into his brain "at very close range." An automatic 22 rifle, which Lee apparently bought a few days before Christmas, was found in the back seat of the car.

Two spent cartridges also were found on the rear floor but authorities had not determined whether the fatal bullet came from Lee's rifle. A second bullet had shattered the left front vent window of the car.

## Economist Hits Republican Policies

CAMBRIDGE, Mass. (UP)—One of the nation's leading economists said today that the Eisenhower administration's fiscal policies this year showed a "willingness . . . to jeopardize the security of the country."

Prof. Sumner M. Slichter, Lamont University professor at Harvard, made the charge in an article to appear Saturday in Business Scope, a business newsletter published here.

"It is clear that in 1957," Slichter said, "the interest of the administration in short-run stability of the price level was given precedence over the security of the country itself."

"See Information Withheld" In its efforts to hold down government spending, the administration was careful to keep from the people information concerning Russian technological progress reported by our intelligence service.

## Purpose Of State Highway Patrol Safety, Courtesy

TALLAHASSEE — Every time a visitor crosses the Florida line, more than 200 Highway Patrol Troopers wait for him.

But they're not a "speed trap." The troopers are on an around-the-clock vigil to spread safety on the highways and make the visitor's trip to the land of sunshine, fishing and good times a pleasant one.

That two-fold purpose, safety and courtesy, has won the Highway Patrol and the state national acclaim that has spilled over into foreign lands.

State troopers have the unpleasant task of handing out traffic tickets and clearing the highway of mangled bodies of wreck victims.

But in the main, they'd much rather help a visitor find some highway that will take him to the coast of a pleasurable visit or secure gasoline for a forgetful motorist.

Between seven and eight million visitors pour across the state line every year.

Those drivers, coupled with the three million people who live in Florida, present an ever mounting traffic situation with which to cope.

"It takes the total cooperation of every driver on Florida roads to hold down the traffic death score, and that doesn't mean just half-way cooperation, but the real will to drive to stay alive," declared veteran Patrol Commander M. N. Kirkman, who has watched the outfit grow from a mere handful of troopers to a giant organization which now spends 24 hours per day and night on the highways.

Florida has a simple set of laws. It is against the law to drive over 65 miles per hour in the daytime or to exceed 55 miles per hour at night.

Trucks are held to 40 in the daytime and 45 at night. The same law goes for trailers. The urban and city speed limits in even the smallest towns are plainly posted by the cities, or the State Road Department, which has in recent years gone all out to work simplified directions for all.

Florida visitors can drive on their own driver's licenses, so long as they don't remain in the state on a permanent basis, become full time employed, and send their children to school.

"In other words," Kirkman said, "if you're a careful and considerate driver in New York, Cleveland, Boston, Milwaukee, Chicago, San Francisco, Seattle or any other city in any other state, you'll be a pleasant addition to our driving force here in Florida."

Patrol headquarters stations are located in all towns and cities of any size in the state. No motorist in trouble along the highways is more than a few minutes away from aid by a passing state trooper.

MORE CREDIT FOR HUNGARY (UP)—The Soviet Union has granted Communist Hungary a new credit of some 75 million dollars for expansion of Hungarian industry, Budapest Radio reported today. The broadcast said the credit will be used for industrial investments under Hungary's new three-year plan that will go into effect on Jan. 1.

Ilan Burbank, Robert Altman and Arnet Byers. Another out of town visitor was John Zemme, of Columbus, Ohio.

Slichter, regarded as a "businessman's economist," said administration "blunders in basic and economic policy for 1957 do affect the long-range economic outlook, especially the long-run outlook for prices."

"The willingness of the administration to jeopardize the security of the country," he said, "was, of course, by far the worst feature of administration policy."

Cody Burkhardt, a member of the Randallstown, Md., Lions Club was among the guests which included Pete Alexander, Boss Long, E. J. Mower, Kenneth Arnold, Wil-

son, Wright's Market and Johnson's Supper at Longwood was picked up and packed for distribution before Christmas day.

The club received a cash donation of eight dollars from the Casselberry Women's Club for food and Mrs. J. R. Gilpin's seventh grade pupils at Lyman School made a substantial contribution of foodstuffs for the Lion's project.

production, when missiles and other new weapons are in production on a considerable scale, would have been avoided."

Slichter said the present recession " . . . is largely the result of overdoing of credit restraint . . . he said the recession, with its companion effects, "tends to increase the long-run likelihood of a rise in the price level."

But he predicted the business contraction "will not go far and will not last long." He said the business upturn will come when current cutbacks in inventory slow down "certainly by the second quarter of 1958, and possibly in the first quarter."

## Over 200 Kiddies Guests At Lions' Christmas Party

CASSELBERRY—More than 200 children were guests of the Lions at its fourth annual children's Christmas party held Saturday afternoon in front of the Casselberry Farmers' Building.

Stanley Patterson, in the role of Santa distributed gifts of candy and chewing gum, and his own and each child were given the children by other club members.

During the entire party, lasting almost three hours, Christmas music and carols were played on recordings from the club's sound equipped trailer. Entertainment for the children, a Punch and Judy show by puppet showman Punch Allen, of Orlo Vista, was presented several times during the afternoon.

An added attraction, one that was in continuous demand by the children was Ray Ryan's Shetland ponies. Ryan, a Casselberry winter resident and well known amusement concessionaire offered his services and four of his ponies at no cost to the club when approached by committee member Hubbard Casselberry.

A large Christmas tree was procured and erected on the party grounds by Paul Bates, superintendent of the local water company. Bates and O. J. Perry, another Casselberry employee, assisted committee men Ben Evans, O. J. Henning, Ernest Lowndes, Wilson Alexander, Paul Altman, Miller Evans, Joe Weimer and president Robert (Snuffy) Scharpff, with

stringing colored lights and decorated the tree and grounds for the occasion. Two other workers assisting Charles were Ed Simmons and Charlie Williams, employees of Casselberry Gardens, Inc.

Financial assistance to conduct the Lions party was received from collection jars set up and operating for the past two months at the Casselberry Post Office, Eph Mower's Buckhorn Bar, Hollis Market, Dolly's Market, the Glass Tower, N. L. Heuston's Appliances, Glass Fountain, Keyser's Pharmacy, Lang's Hardware and The Turf Club.

## Englishman Makes Armored Vests

LONDON (UP)—Meek, middle-aged Leonard Barrett has made his fame and modest fortune off men who walked in danger. Armored vests are his stock in trade.

But he also has made a bullet-proof giraffe for Mrs. Chrising Kal-

shel, thousands of anti-air strapped "flak pants" for the U. S. Air Force, and steel trousers for an intrepid big game hunter who wanted the thrill of chasing lions on foot.

"I haven't yet been approached on making space suits," said the gaunt-faced, eagle-eyed Londoner, who has been making armor for the Wilkinson Sword Company for the past 40 years.

"You see, even in peacetime, plenty of people need personal protection. And I keep a pretty good business providing it."

Barrett, in a conservative black checked suit and tie to match his British reserve, looked like the typical English office clerk who abhors violence. Yet violence is his business.

He was more adept at talking about armor even than about the English weather. The mention of bullet proof vests made his serious eyes shine.

"Did you know that there were more armored waistcoats vests worn in the last war than ever before in history?" he asked as he sipped a cup of tea.

Wade Fish Sales "Why, I made 15,000 of them for the American Eighth Air Force at the special request of Brig. Gen. Malcolm C. Grove during World War II. The American B17 boys thought that nothing could hit them. But they did not figure on shrapnel."

Barrett said that his lightweight flak suits were completely shrapnel and bullet proof. The U. S. Air Force surgeon general's office backed this up.

In fact, they proved so successful that the RAF tried to order special shipments of the "American-made" vests.

Barrett said that he offered to test the armored suit himself on B17 runs over Germany, but that the U. S. Air Force turned thumbs down because of his top-priority work.

# President Expected To Unveil New Space-Age Education Program

GETTYSBURG, Pa. (UP)—President Eisenhower was expected to unveil a new space-age education program today calling for 10,000 federal college scholarships a year for talented high school graduates. The program, somewhat reduced in size from previous plans, was also expected to propose federal grants to states to improve the teaching of science and mathematics in the public schools.

Total cost of the program, originally forecast at around 300 million dollars annually, was understood to have been pared to between 200 and 250 millions. It does not call for federal aid for school construction.

While the administration still considers construction aid desirable, it was understood this has been given a low priority in favor of the new program geared to scientific needs of the missile and space era.

The President scheduled a conference at 9:30 a. m. e. s. t. at his Gettysburg farm with Secretary of State A. A. Acheson, Secretary of Health, Education and Welfare Department, and other officials to discuss the program.

Presidential press secretary James C. Hagerty was expected to release details of the program following the meeting. Folsom also was slated to hold a news conference at Gettysburg to discuss it. The program, as hammered out over a period of several weeks to take into account views of scientists, educators and government officials, was expected to have these major features:

1. A plan to prevent the loss of an estimated 200,000 students a year in the upper one-fourth of their classes who now either do not complete high school or fail to enter college for financial reasons.
2. Federal grants to states, with states putting up a share, to improve teaching of science and math in public schools. The states would be free to decide how to use the money—whether to buy additional equipment, pay higher salaries for science and math teachers, hire more teachers, set up state supervisory agencies for science and math teaching, or other means.
3. Establishment with federal aid of foreign language instruction centers in the states, plus a small number of foreign language scholarships to high school students with the goal of encouraging study in long languages important in the world of today—such as Asian, African and Near Eastern languages.
4. Federal fellowships to encourage more college graduates to go into graduate schools to become college teachers.

5. A big expansion of the National Science Foundation's existing program of special seminars and instruction for teachers of science and math to improve teaching techniques; updating of textbooks and materials; and graduate fellowships in basic re-

## Weather

Generally fair and mild except moderately cool northern districts tonight. Some late night and early morning fog.

# The Sanford Herald

VOL. XLIX Established 1909 SANFORD, FLORIDA, MONDAY, DECEMBER 30, 1957 United Press Leased Wire NO. 158

DRIVER OF THIS CAR escaped without a scratch. Jezreel Jowers, 30-year-old Navy man, left the highway 150 feet from the scene at Lake Monroe Bridge and flipped over after swearing "to miss a car." Car was declared a total loss. (Staff Photo)

## Man Wrecks Car, Faces Charges In 2 Counties

A 30-year-old Navy man faces charges in both Volusia and Seminole Counties as a result of the crash of his automobile near the Lake Monroe Bridge last night shortly before 10 o'clock.

Jezreel Jowers, attached to the Sanford Naval Air Station, was charged by Florida Highway Patrol officers with speeding and reckless driving.

Jowers said "I swerved to keep from hitting a car in front of me and flipped over." His car, which came to a stop on its top about 50 feet to the east of 17-92 and south of the bridge was declared a "total loss."

However, Jowers escaped from the wreckage without any injuries. He was driving a 1950 Chrysler.

FHP officers said that he was being chased through DeBary and across the bridge where Deputy Sheriff J. L. Kriz said "I saw him come off the bridge and flip over." The FHP officer failed to see the accident and spent an in an attempt to overtake the speeding car.

## Russia 20 Years Behind U. S. In Agriculture

"The Russians are 20 years behind the U. S. in agriculture," John Darby said Friday as he introduced Dr. R. W. Ruprecht, vice-director in charge of the Central Florida Experiment Station, to the Sanford Kiwanis Club.

Dr. Ruprecht described, in detail, the economic impact of the Central Florida Experiment Station and some of the work being done there.

"The first experiment was conducted here by the United States Department of Agriculture in 1923," he said.

Then, explained the experiment station's top man "the 1932 legislature appropriated money to establish a field laboratory here." In 1937 the work enlarged and in 1943 "the status of the laboratory was changed to a branch station."

"We've continued to grow until now we have a staff of seven scientists, six of them with doctor's degrees," said Dr. Ruprecht.

He also explained that two United States Department of Agriculture men used the Central Florida Experiment Station for field work.

All of these men own their homes here, are most active in civic and church affairs, he said.

"We are part of the University of Florida and the university's college of agriculture," he explained.

It is hard for some people to understand the difference between the experiment station and the extension division, "but we are primarily concerned with research," said Dr. Ruprecht.

The Central Florida Experiment Station was among the first to test DDT, imported from Switzerland, for agricultural use, he stated as he listed the accomplishments of the field research center.

"One of our problems," Dr. Ruprecht pointed out, "is trying to find a substitute for celery as a main crop here." He named cabbage, sweet corn, cauliflower, pink tomatoes, cantelopes, English peas, onions and carrots as vegetables on which the Central Florida Experiment Station has conducted research.

Naming the members of his staff and praising their work in the various fields of research, he said "we would like to get a man to do extension work."

"If we can ever be of service to you, do not hesitate to call on us and we will do what we can to help," concluded Dr. Ruprecht.

Also introduced was Cecil Tucker, Seminole County Agent, who described his job as "the one who takes the findings of the experiment station and the University to the field."

"We are happy to have your co-operation," he said.

# West Warned Against Imposing Political Ideas

JAKARTA, Indonesia (UP)—President Sukarno of Indonesia has warned the West that it will be cut off from the "majority of mankind" unless it stops trying to impose its political formulas in other areas of the world.

The veteran Asian nationalist also cautioned against putting a communist tag on "every deviation from western thoughts in Asia."

Sukarno, who is scheduled to leave the country soon for a rest, made his statements Sunday in written replies to cabled questions from United Press at a time when his country is embroiled in a diplomatic battle with the Netherlands.

He was asked specifically about a recent allegation by a London newspaper that Indonesia is heading for a communist regime dependent on China and Russia.

"I am rather reluctant to comment on such an allegation... since it seems to me to become rather a hobby for some quarters to accuse a country or people as communists if their views on political or economic affairs do not coincide with the West's," he said.

Firm Warning

He noted that Indonesia was one of the last countries to establish diplomatic relations with the Soviet Union and conducts relatively little trade with Russia or Communist China compared with other nations in Asia and many in Western Europe.

"But apart from that, let me express a firm warning to these quarters that it would not be wise to ascribe every deviation from western thoughts in Asia to Communism or communist influences," Sukarno said.

He said development of political and economic stability calls for ingenuity of leadership and methods that blend with the times.

"I am afraid that if you regard as your opponent every nation, every country, mainly because they differ from you, soon you will be isolated from the majority of the world and the majority of mankind," he said.

Sukarno said, however, that Indonesia has no intention of taking measures against other foreign nationals or foreign properties as it has against Dutch residents and Dutch business and agricultural enterprises here.

## Auto Pulls Out In Front Of Bus; Both Drivers Hurt

A 1956 Greyhound Scenic Cruiser traveling north on Highway 17-92 was stopped early Sunday morning by a passenger automobile which moved out of the Motor's Inn parking lot in the wrong direction and in front of the bus.

Sanford Police Department reports that Bus Driver Carl J. Hughes of Jacksonville received an injured knee and Lela Jackson, a Sanford waitress, received deep lacerations of the left forehead.

The Greyhound bus was damaged an estimated \$100 and the automobile damaged approximately \$150.

Passengers on the northbound bus were forced to wait about 90 minutes for a replacement bus to continue their trip to Jacksonville. The automobile was thrown an estimated 60 feet when struck on the left side by the bus.

Charges of careless and negligent driving were placed by local officers against Miss Jackson.

The accident occurred at 2:11 a. m. Sunday morning near the intersection of French and Seminole Boulevards.

## Fugitive Dies In Wreck; Roadblocks Set Up Here

Roadblocks were thrown up in Seminole County and in Sanford last night when reports were received that "it was believed Henry Clay Overton and Wayne Carpenter, subjects of a southwest search in connection with a double killing

in Washington, D. C., were seen in DeLand."

Florida Highway Patrol officers, Deputy Sheriffs, and local policemen were stationed at strategic points to stop the two men reported to be traveling in two stolen automobiles from Jacksonville.

The lookout was posted for a 1953 and a 1957 two-tone Chevrolet possibly heading in the direction of Sanford.

Sgt. R. L. Knight and Cpl. F. R. Talton of the Georgia Highway Patrol said they had chased the 1953 car Overton was driving for about a mile and a half when he apparently looked back and allowed the vehicle to swerve into the wrong lane. Overton was thrown out, along with a sawed-off shotgun and a suitcase full of shotgun shells.

The Overton car burst into flames, Charlie Wray of Cocoa, Fla., was found dead in the back seat of his demolished car.

The FBI, which had been on the trail of Overton and Carpenter since they killed two men in a bar and commandeered a getaway car, sped agents to the wreck scene in an effort to find some indication of what became of Carpenter.

United For Centuries

The anti-Dutch action has been in retaliation for the Netherlands' refusal to give West New Guinea, which the Indonesians call West Irian, to Indonesia. It remained Dutch when Indonesia won its independence from the Netherlands in 1947.

"West Irian is part and parcel of the political entity of Indonesia which was previously called the Netherlands East Indies," Sukarno said.

"... The people of Indonesia including West Irian were united for centuries not only by their history and their common struggle for national existence and their eventual freedom."

He said Indonesia has "no claim whatsoever" to East New Guinea, which is administered by Australia.

## Citrus Commission Official To Speak At Kiwanis Meet

Homer Hooks, Executive Secretary of the Florida Citrus Commission, will be the principal speaker at Kiwanis on Friday, Jan. 3 at 12 noon. Senator Douglas Stenstrom is in charge of the program.

The Kiwanis meeting has been set for Friday due to New Year's Day falling on the regular meeting day.

Hooks was recently appointed to the \$25,000 a year job as administrator of Florida's citrus program. He is a graduate of the University of Florida, and following an outstanding newspaper career, became associated with the citrus industry some years ago.

The Sanford-Seminole County Junior Chamber of Commerce, said M. L. Raborn Jr., president of the group is sponsoring Courtesy Week in Sanford in cooperation with the

Sanford-Seminole County Chamber of Commerce.

John Krider, manager of the local Chamber of Commerce, said that the impact of Courtesy Week can be tremendous and "we are happy that the Jaycees are cooperating with us in an effort to make Courtesy Week one of the most successful events undertaken here."

A Florida man, who was unable to get his car out of the path of the stolen auto Overton was driving at 110 miles an hour, was killed in the collision. Officers found no trace of Wayne Carpenter, 22, listed as the man who helped Overton shoot up a Washington, D. C., bar early Friday.

Automobile Tags To Go On Sale Here Jan. 2

John L. Galloway, Seminole County Tax Collector, who acts as Agent for the Motor Vehicle Commission, stated today that 1958 motor vehicle registration plates will go on sale at the Tax Office in the Seminole County Court House on Jan. 2.

Based on the records over the past several years it is expected around 21,500 automobile tags will be sold during 1958 in Seminole County, Galloway said. "On the average, auto tag sales have increased 11 per cent each year over the past several years," the Seminole County Tax Collector said.

The sales through Dec. 27, of this year, he said, totaled 19,046 and total sales in 1956 were 16,983.

Over 200 tags have been reserved for 1958. These tags, however, will not be distributed until Jan. 2. Unless tags have been previously reserved they will be sold strictly in sequence when the sale begins Thursday morning.

## 78-Year-Old Man Invents Flexible Walking Frame

A 78-year-old Sanford man received his first patent Friday and said "I am working on another one right now."

Walter E. Blake, 417 West First Street, displayed the seal-stamped document for a flexible walking frame.

Blake, a retired railroad man, said the frame is one which assists in the exercise and training of the muscles.

"My frame is easier to use," said Blake, for unlike the old type frame, this new one merely needs the patient to lean on it to move along. The old type frame, Blake explained, had to be picked up to be moved.

"There are six swivel joints that allow the frame to adjust to the body," the elderly inventor said. It is also adjustable for different age groups, he said, as well as differences in height, width and girth.

## Uoff Choir Will Make Appearance Here In February

GAINESVILLE — University Choir of the University of Florida has announced its mid semester tour through Florida in February which includes an appearance in Sanford.

The group of 35 mixed voices will present a varied program to public audiences at seven towns and cities in the state under the direction of Dr. Elwood Keister, assistant professor of Music.

The choir has scheduled appearances in Daytona Beach, Feb. 2 and 3, Sanford Feb. 3 and 4, Vero Beach, Feb. 4, Palm Beach and Fort Lauderdale, Feb. 5, Hollywood, Feb. 6 and Miami Beach, Feb. 6.

## 'Garden Of Month' Is Discontinued

A "Garden of the Month" will not be chosen by the Sanford Garden Club in January, due to the recent freeze. The award will be resumed at a later date.

GOVERNOR LEROY COLLINS RECEIVES first 1958 "Boast Florida" front from Robert M. Silver, Coral Gables, State President of the Florida Junior Chamber of Commerce. Bud Carrigan, local Jaycee chairman of Boast Florida front tag committee announced that tags are on sale at the Seminole County Court House. Proceeds from sale of tags will finance the many Jaycee projects and committees.

## Courtesy Week Plans Near End

"Courtesy Week plans are nearly complete," Howard McNulty, chairman of the Jaycee Courtesy Week committee reported this morning.

Secret committees to select the most courteous salesmen, salesman, policeman, waitress and set have been appointed, said McNulty, and plans are being completed to get the committees in action on Jan. 6.

Already the badges to be worn by salespeople throughout the area have been received and will be distributed along with streamers by a Jaycee committee.

Streamers announcing "Courtesy Week Jan. 6-12" have been printed and will be ready for distribution immediately.

Also received are the bumper strips which will be attached to local automobiles to promote the week proclaimed by Governor Leroy Collins as a week in which to "stimulate interest at the local level promoting the practice of courtesy among all citizens, especially those catering to the tourist trade, public service personnel, police, and other civic employees, and all those having contact with visitors and new residents."

The Sanford-Seminole County Junior Chamber of Commerce, said M. L. Raborn Jr., president of the group is sponsoring Courtesy Week in Sanford in cooperation with the

Sanford-Seminole County Chamber of Commerce.

John Krider, manager of the local Chamber of Commerce, said that the impact of Courtesy Week can be tremendous and "we are happy that the Jaycees are cooperating with us in an effort to make Courtesy Week one of the most successful events undertaken here."
