Gangland Gun Blasts Death At Law Maker

Illinois Legislator Slain In Typical Underworld Fashion At Chicago

Police Suspect Gambling Motive

Shotgun Charge Rips Through Head Of Retreating Victim

CHICAGO, July 9.—(AP)—John M. Bolton, Illinois state representative, was assassinated in typical gangland style today when a shotgun blast ripped through his head after falling to out-distance pursuers in a 60-mile-per-hour chase.

Police admitted that they were at a loss for a definite motive behind the shooting, although they considered efforts made by Bolton to legalize handbook betting.

Authorities indicated that legalization of bookie methods would divert millions from the revenue channels of the Chicago underworld.

Shortly after the legislator's death, a newspaper investigation into this city's gambling situation. Police hoped to establish the identity of buyers as well as bring to light point facts of the two bookie-bitten will.

Police today recalled old prohibition days when underworld rackets struck boldly and openly with regard for the law.

The death resulted after a prolonged chase through Chicago's west side and mob haunts. Bolton whipped his machine through the streets recklessly and on open throttle in an effort to throw his pursuers off trail.

Pedestrians gazed open-mouthed at the running battle.

A single blast from a shotgun struck Bolton in the head and his automobile careened from the street, smashing into a trolley pole. His killers fled.

41 Bidders Seek School Bus Routes

Trustees Hoping To Give Recommendations By Monday; New Autos Needed

Forty-one bids for Seminole County school bus routes today were in the hands of district boards who received the estimates after an inspection by the county board.

T. W. Lawton, superintendent of county education institutions, said bids probably would be returned for action Monday after they had been approved by the local groups.

The county board Wednesday spent practically the entire day in considering applications for school routes on which new, all-steel buses are to be used with the beginning of the next school term.

Superintendent Lawton said the county has approximately 20 routes on which bids were submitted. Some 25 buses are needed to cover them adequately, he added.

Officers Are Told To Club Rand Pickets

Connecticut Governor Halts Vacation To Launch Attempt At Stopping Strike

MIDDLETOWN, Conn., July 9.—(AP)—Tear gas was rushed into the Remington-Rand strike area Wednesday night as Governor Wilbur L. Cross cut his vacation short to intervene in the crisis.

Orders went out to more than 100 state and local police officers to club strikers who attempted to mob workers leaving the plant, where a strike has been in progress for more than six weeks.

Meantime, James H. Rand, Jr., president of the Remington-Rand typewriter manufacturing empire, declared he would have no dealings with labor organizations in his plant. Neither, he said, would he recognize the authority of the National Labor Relations Board to take up union complaints against his branch at Buffalo, N. Y.

After the unions which have either halted or impaired operations at some of his branch plants, Rand challenged: "I will continue to operate the plants on an open shop basis. I will close them down completely rather than give in to the union. But I don't believe that will be necessary. Of the eight plants now operating six of them are producing at 95 percent capacity, or better."

Rand said he would "absolutely refuse to recognize the authority of the National Labor Relations Board at Buffalo. The constitutionality of the act creating the regional labor board has been undermined by the Guffey seal decision," he said.

Even as he spoke, Governor Cross hurried back to the state capital in Hartford from his New Hampshire summer home. He was apprised of the Middletown situation by Philip Hewes, his executive secretary, and State Police Commissioner Anthony Sunderland.

Hewes told the governor in a telephone conversation that Mayor Leo B. Santangelo of Middletown would demand National Guard troops be called into the strike area if further violence occurs.

Said Mayor Santangelo: "It's not a question of winning or losing the strike, as maintaining law and order in Middletown. Stuntings and attacks on the homes of workers will not be tolerated."

Chapman Is Named As President Of Credit Unit Board

R. B. Chapman was named yesterday as president of the board of directors of the Sanford Production Credit Association. Jno. Weisch was elected vice-president.

A report of the group's activities made at the annual meeting yesterday said that 94 applications for loans had been made by growers. Of that number, 22 have been completed while 64 are not yet forwarded to district headquarters.

Light Rains Arouse Hope In Dry Area

Blistering Heat Wave Is Responsible For 168 Deaths In Middle West Regions

South's Condition Reported Relieved

AAA Says 5,000,000 Are Affected By Scathing Hotness

(By The Associated Press) Scattered rains today brought temporary relief to a few sections in the nation blanketed by stifling heat but no general break was forecast in the torrid weather.

Deaths reached at least 168. Blazing destruction continued to mow crops in the fertile fields of the Middle West. Misery, want and despair grew in the agricultural regions. Spreading east, the heat wave involved about half of the nation. Temperatures in three figures were in prospect for most states from mid-continent to the eastern seaboard.

Rain fell spasmodically, dampening parts of North Dakota, Minnesota, Iowa, Illinois and Indiana. Electrical storms hit New England, doing property damage. In Washington, the AAA estimates placed three to five million persons directly affected by the drought. In Wyoming, forecasts on Page Two.

Conservation Head Is Satisfied With Advancement Here

R. S. Dennis, head of the federal soil conservation program in Florida, yesterday visited Seminole County and expressed his satisfaction with progress made here.

Mr. Dennis told C. R. Dawson, county farm agent, that 90 percent of the growers in the general farming sections of the state are participating in the conservation plan.

The state head urged that local farmers and growers act quickly in becoming affiliated with the movement, since next year's county allocations from the federal government are based on this year's activities and the number of individuals and acres represented in the current program.

Agent Dawson said he was satisfied with the program being made here, since several of the larger farming interests have indicated they will participate in the conservation plan.

Commission To Get Proposal To Build Sanford Dog Pound

The establishment of municipal dog pound will be proposed to the City Commission at the next meeting of the body. City Attorney Fred R. Wilson said today after discussing the matter with Chief of Police Roy Williams.

Results Of HOLC

When the Home Owners Loan Corporation closed its books on June 13, the end of its lending period and the time for its campaign of collection to begin, it found it had lent more than three billion dollars to the one million distressed home owners in the three or four years of its existence. The average amount of all these loans was \$3,027.

Practically all (98 per cent) of the money advanced by the HOLC was devoted to the refinancing of mortgages which had become defaulted in whole or in part and had either been foreclosed or were on the point of being foreclosed. Most of the HOLC loans were extended over fifteen-year periods at small rates of interest and repayable both as to principal and interest in small monthly payments.

The HOLC also lent a little over six million dollars to 12,158 borrowers on unimproved properties either for the purpose of making repairs, paying delinquent taxes, or both. With respect to both this type of loan and the loans for refinancing mortgages, it was necessary for the applicant to establish that all other avenues for credit had been closed to him.

One important result of the HOLC's activities, often lost sight of by the public, is that not only were home owners relieved of the fear of losing their homes, but many mortgage lending institutions, such as banks, building and loan associations, life insurance companies and so forth, were able to substitute for their frozen, and in some cases worthless mortgages, gilt-edged government bonds bearing approximately four per cent interest. As a result they are now in a position to resume private lending.

During the lending activities of the HOLC some \$30,677,884 was lent to 13,549 home owners in Florida.

Hitler Spreads Out

The speech of Dr. Greiser, the Nazi president of the Danzig Senate, delivered before the League of Nations Council, in which he demanded the restoration of the "free city" of Danzig to Germany, seems to have taken the place in the minds of foreign diplomats occupied for many months by Italy's conquest of Ethiopia. The question of Danzig is now given to her, exactly as she remilitarized the Rhineland in defiance of the Versailles Treaty?

The danger of an explosion of the German propaganda machine is increasing as the decision of the League Saturday to abandon Ethiopia to Italy, the St. Petersburg Independent explains. "The League members want Italy's support against Germany. The League assembly refused Hitler's request for a loan to rearm Germany. Even so, it is doubtful that the League can continue indefinitely to enforce upon Germany the terms of Versailles bearing on the Polish Corridor. It was originally so obviously a fragile arrangement. From the moment that the corridor was marked out on the map, the League was in a position to destroy this arrangement. It should have been quite apparent to everybody that Germany would never rest until this wound was healed.

"For a parallel case let us assume that some foreign coalition, comprising America, Michigan and Indiana, and in order to give the new country an outlet to the sea, set aside a corridor a hundred miles wide to the City of New York, and then made New York City 'free city,' governed by the foreign coalition. The strip of land or corridor would separate New England from the rest of the country. It need not be added that American troops would be sent to guard the corridor. That is, the position of having to choose between fighting and backing down. More than likely the latter will happen."

Estabrook Reaches Eastern Semi-Final

PROFIT, July 9.—(AP)—Eugene Estabrook, the 18-year-old golfer from Dubuque, Iowa, shot his way into the semi-finals of the Western Junior open tournament yesterday by a blazing one yesterday with an impressive 7 and 5 victory over Harriet Randall of Indianapolis.

The Iowa champion did not lose a single hole. She went two over par yesterday, but her dazzling 77 yesterday, which shaved two strokes off her par and the competitive record for the Oakland Hills course set by Helen Hicks and Virginia Van Wagoner, left her with par for the 81 holes she has played in the tournament.

Miss Estabrook will meet Elizabeth Dudley, defending champion from Chicago, in the semi-final round Thursday. Miss Dudley defeated Billie Mahoney of Topeka, Kan., yesterday, 8 and 8.

Sanford Twenty Years Ago

Me. and Mrs. G. P. Smith report a delightful two weeks spent in New York state. From there they will go for the murder of a Michigan western states before returning to Sanford.

Mayor J. D. Davison left yesterday for St. Petersburg, Fla., where he will join for several weeks. Mrs. Harry Sanford and child are spending several weeks at Tampa and Sarasota.

Meigs Scott and Baker, two five-year-olds from Miami, will be in the city yesterday enroute to Orlando to attend the meeting of the many children's bodies in that city today and tomorrow. Mr. Scott is secretary of the North Coast Chamber of Commerce and Mrs. Baker is president of the Miami Improvement Association, one of the strongest bodies in Miami.

Reports from Gorge DeCoster, Osborne Herndon, and Ed Bourke, who are attending the fish convention at Ballantown, state that they are enjoying every minute of the time, and they will be in Ballantown very much.

At the meeting of the court house last Friday night, Judge J. D. Davison presided over the trial of a large crowd of business men present. J. P. Frazier was called to the stand and testified that the commission on compensation was not a part of the bill.

The State Democratic Executive Committee says Gov. Shultz's approval of the administration of state affairs under the executive authority of Governor Shultz, and point with pride to the fact that under the sound fiscal policy of the state budget has been met and Florida is in a position to meet all its obligations.

The bill for the appropriation of \$2,000,000 for the purchase of land for the state is still in the hands of the committee on appropriations.

Light Rains Arouse Hope In Dry Area

(Continued from page one)
While Washington authorities needed a united front attack on drought created distress in the Northwest and the South, new estimates indicating a revision of previous damage totals poured in from the western territory.

C. A. Russell, agriculture secretary of South Dakota, calculated the crop losses for that state alone would aggregate \$140,000,000 at current levels. Previous statistics had set the total for the entire at \$200,000,000.

With conditions daily growing worse, according to crop observers from a dozen or more Midwestern states, this total would prove an underestimate, observers predicted.

But the sensitive domestic grain price was quiet today. After yesterday's wild trading, which saw \$14,000,000 bushels of wheat alone change ownership, the market based on reports of extensive rainfall in Canada's western wheat provinces. Wheat prices closed generally 1-2 cents lower with July 15-16-34.

One more to quicken federal assistance to the resourceless was the allotting of \$375,000 to cover a short period in the program of relief eventually to care for 151,500 families facing ruin. The money was earmarked for six of the western states. The government outlay were figured to run \$1,600,000 monthly for aid above grants in kind for the relief of the element Administration. At Chicago, regional WPA Director Howard Hunter ordered state heads of relief agencies to make plans to take up the slack in the college and night school classes of the needy. Thousands already had jobs or were certified for them in North and South Dakota and other states in "the heart" of the drought stricken territory.

Heavy rains during the last 10 days virtually had ended drought conditions in many sections of the South, but as many as 100,000 were scarred by sun-baked fields.

While the booming cotton market gave farmers hope that sagging prices could bring premium prices, the AAA designated 50 Tennessee counties, 28 South Carolina counties and 14 Virginia counties "emergency drought areas."

Since early April when the monsoon series of rains fell on the nation, the Dixie mounted into the millions. Recent rains, however, greatly alleviated conditions in the mid-South, Mississippi, Louisiana, and Arkansas and today Tennessee, Georgia, Florida, Carolina and Virginia were the southern states still held in the grip of relentless drought.

Runs Plentiful As G-Men Annex Saint Game, 13-8

Gainesville Tallies Four In Fourth Inning Of Wild Fray

ST. AUGUSTINE, July 8.—The Gainesville G-Men took a wild and woolly battle from the Saints here yesterday afternoon, 13-8. Each team collected 15 hits and, contributed five errors but the Gainesville crew had better luck with men on the bases.

Everyway went the entire route for the University City side while the locals called upon three batters. Bullard started for the Saints but was replaced by Johnson at the start of the fourth who in turn gave way to H. Davis in the eighth.

Gainesville's big inning was the third when they showed four runs across on four hits. Bray singled to second, Buck hit one to Stenner who threw to Turnblom in an effort to catch Bray at second but Turnblom dropped the ball and both were safe. Then successive singles by Ferruzzi, Pfeifer, and McDougal, capped with a sacrifice and an infield out accounted for the four tallies.

The Saints counted four markers in the sixth frame when they batted completely around. Swindell's triple, Zupanic's double, plus three singles and an error, producing the goods.

McDougal led the G-Men with three singles in five times up. Stenner did best for the Saints getting three hits, one a double. The locals celebrate "Red Star Day" today at 4:15, meeting the Sanford Lookouts.

TONY COMES HOME A HERO

A cheering victory was given Tony Stenner, winner of the 1928 National Open Golf championship, when he returned to the Sedgefield Country Club near Greenwood, N. C., where he is the pro. John Howe (left), secretary of the club, and Vernon Ruzicka, president, gave Tony a free ride into the clubhouse as they cheered while others cheered. (Associated Press Photo)

Victory By Reds Results In Tie For Third Place

PALATKA, July 8.—DeLand moved into a tie with the Azaleas for third place in the Florida State loop here yesterday when the Reds posted a 9-5 victory over the local aggregation in a free-hitting contest which saw 26 base hits injected into the fray.

The Reds posted 12 safeties off the offerings of Jake and Louis while the Azaleas combed the combined deliveries of McMullen and Bunch for 16 blows.

Eight two-base hits and a pair of home runs, evenly divided between both squads, were registered during the afternoon. Bolling and Andrews contributed the four-ply swats.

Two local blows which sailed over the right field barrier here were limited to doubles when the arbiters claimed that they hit on the berm and could go for only two-base hits according to ground rules in force. Lowe smashed one in the sixth stanza and Smith in the seventh session.

Ace Casaler, local infielder, was the batting star of the tilt with four singles in five trips to the rubber.

The Azaleas play Gainesville here today at 3 o'clock.

Angler Gets Fish; Snake Takes Catch

CLARENDON, Tex., July 8.—(AP)—Fishing for the first time, 8-year-old Freddie Rathjen caught a half-pound crappie. He stalked it at the water's edge. Returning an hour later, he withdrew the stringer—and found a writhing water moccasin at the end. The snake had swallowed the fish and part of the stringer.

Los Angeles Girl Takes First High-Diving Event

Mrs. Dorothy Hill, Former Olympic Star, Defaults As "Baby" Ruth Hoerger Captures Second Place

NEW YORK, July 8.—Escorting her dives with flawless technique, 16-year-old Ruth Hoerger of the Los Angeles Athletic Club yesterday defeated three other of Uncle Sam's Olympic candidates in the National A. A. U. high lower diving championship at Astoria pool.

Miss Hoerger, a five-foot-two blonde youngster, scored 82.19 points for her four optional and four compulsory dives off the high tower, to replace Mrs. Dorothy Faynton Hill of Los Angeles, Olympic winner in 1932 who defaulted.

Second place went to little Ruth Hoerger of Miami Beach. Mrs. Hoerger, sister to 13-year-old Mary, who won the national springboard in 1935, scored 81.11 points. Cornelia Gillissen of the Women's Swimming Association, New York, was third with 80.47 while her teammate, Helen Howard, was far out of the running with 64.32.

Katherine Rawls of Miami set a new American long course record for 50-meters breaststroke in an exhibition swim. She covered the distance in 29.9 seconds, compared with the former record of 40.6 set by Agnes Geraghty in Coral Gables, Fla.

Gene Rose, all-Southern end of Tennessee, is under contract to the New York Football Giants.

As directors of the Texas-Oklahoma Wolf Hunters Association assembled in annual meeting at a ranch near Quanah, Tex., a coyote appeared on a rock ledge 100 yards away. On the first ballot, Quanah was chosen for the 1936 field trials and bench show.

Frank Guernsey of Orlando Fla., seeded No. 4, defeated Jim Burnett of Spartanburg by 6-2, 6-2.

Archie Henderson of Chapel Hill, N. C., seeded No. 5, defeated Billy Gillespie of Atlanta by 6-1, 6-2.

Men's doubles: Roswell Lee and Bill Hardie of Miami, Fla., defeated Tom Gold and Zeno Wall of Shelby, N. C. by 6-0, 6-1, 6-2.
