NATION

IN BRIEF

Military Aid Bill Faces Filibuster

WASHINGTON (AP) - When Congress returns from a long Memorial Day weekend, the focus of attention will be a multi-billion-dollar military aid bill that faces a filibuster in the Senate over whether funds should go for some southern African nations.

The House returns to session on Tuesday while the Senate isn't scheduled back until Wednesday.

Both chambers have the arms aid measure on their schedules for Wednesday. The House expects to complete action on that day, but the Senate almost certainly will not because of the filibuster possibility. The House version proposes funding of about \$7 billion for two years, the Senate \$6.7 billion.

Airliner Impounded

JACKSON, Miss. (AP) - A chartered airliner's passengers, angered by delays in a flight from London, went to court and got the World Airways DC8 jet impounded in Jackson.

A number of the flight's 248 passengers acted Sunday, a few hours after they landed, on behalf of themselves and their fellow passengers. They complained they were caught in the middle of a labor dispute that stretched their London-to-Jackson trip to nearly 24 hours.

The passengers said they would seek damages of \$1,000 each, and they got a writ from the Rankin County Chancery Court to have the DC8 held for payment of any damages that are granted.

Magna Carta Coming To U.S.

WASHINGTON (AP) - The top leadership of the U.S. Congress last week went to London to accept formally the loan of the Magna Carta. Now the top leadership of the Mother of Parliaments is coming to Washington this week to make the actual delivery.

At the presentation ceremony Thursday, the job of figuring out when everything happens and how long everything is going to take has fallen to the U.S. Army, as represented by the Military District of Washington. The MDW has produced a crisp plan to keep things moving right along from the start at 10 a.m. - oops, 1000

FLORIDA **IN BRIEF**

Search Enters Second Day For Plane, Six Passengers

six persons aboard was missing for the second day as the Coast Guard today searched a 4,500 square mile area in the Atlantic Ocean, a spokesman said. The plane, carrying six West Palm Beach residents returning home from a fencing tournament, took off from Freeport in the Bahamas during a thunderstorm Saturday night, a Coast Guard spokesman said. He said the Cessna 210 belongs to the Southern Machine and Steel Co. of Fort Myers.

VERO BEACH (AP) - A single engine plane with

The pilot was identified as Fritz Hensel.

MIAMI (AP) - Scientists say sugar cane smut is being blown across the ocean from Africa and will eventually reach Florida, but growers in this major sugar-producing state are already using crop varieties resistant to the

"Every country will eventually have every plant disease," admits Norman James, director of the U.S. Department of Agriculture sugar cane research station in Canal Point, "Resistant varieties are the way to go - and we're ahead of the game."

Atmospheric chemist Joseph Prospero of the University

of Miami's Rosenstiel School of Marine and Atmospheric Science said the African fungus has already moved into the Caribbean, threatening to reduce sugar cane production in the Barbados and elsewhere.

Desalination Plant Fails

KEY WEST (AP) - With tourists crowding the Florida Keys on the long Memorial Day holiday, the desalination plant supplying drinking water to the Key-West area has broken down. Residents and revelers are being asked to cut back.

Officials said it may be a couple of weeks before the water plant can be repaired. The water pressure dropped to one-fifth its usual level in some of the Florida Keys after the main turbine in the

desalination plant on Stock Island broke down Friday night. A spokesman said a wheel from the turbine crashed through the roof of the plant.

Drawbridge Stalls Traffic

FLORIDA CITY (AP) - The toll bridge leading to the Florida Keys is back in operation after creating a 12mile traffic jam and firing tempers of irate motorists. troopers say.

The drawbridge over Jew Fish Creek just north of Key Largo was stuck open for more than six hours Sunday as motorists tried to get in or out of the Keys during the Memorial Day holiday. Traffic was rerouted to a roundabout toll bridge but i got blocked for two hours by a large truck.

Woman Killed At Car Race

BARBERVILLE (AP) - Twenty-eight-year-old Linda Peterson of Daytona Beach has died from injuries suffered in a freak accident at a stock car race here, sheriff's deputies say.

Deputies said the woman was headed toward her parked car at the Volusia County Raceway when a rear wheel flew off a race car, past a retaining wall, over a chain link fence and hit her full force in the head. Officers said the driver of the stock car in Saturday's

Skydiver Falls To His Death

DELAND (AP) - A 24-year-old sky diver fell 10,000 feet to his death when his parachute failed to open during a parachute jumping contest here, police say. Officers said Tony Patterson of Lutz tried unsuccessfully to open his chute 2,000 feet above the ground after jumping from a plane flying at 10,000 feet. Police said Patterson's body was found Saturday night about 300 yards off the city airport runway.

War On Drugs A Tough Battle

The enemy is drug abuse - a multibilliondollar business that feeds on its victims and robs American taxpayers of another \$17 billion a year in drug-related crimes, treatment and lawenforcement efforts.

President Ford acknowledged the persistence of the drug-abuse problem in a message to Congress April 27 in which he noted that 5,000 Americans die each year from misuse of drugs. But despite the renewed emphasis on "the war on drugs," victory seems remote.

The tolerance of the public - or perhaps it is apathy - toward the drug culture has combined with tighter law-enforcement budgets to encourage more individuals to risk the hazards of trafficking

And the President's approach offers little new or dramatic. He has proposed stiffer penalties for persons convicted of dealing in hard drugs, search and seizure provisions to curtail the flow of cash across the border or purchases and use of tax laws

to crack down on drug profiteers. But the one area in which federal officials see real hope for improvement is the cooperative effort with the Mexican government to wipe out heroin sources south of the border.

There are no guarantees, however, that new sources will not emerge overnight. New trends in legislatures and in the courts leaning toward more tolerance

decriminalization is the euphemism - toward possession and use of drugs have not captured the public fancy. Mr. Ford's determination to remain tough on drug dealers clearly puts the burden on federal

officers to close the gates through which narcotics

flow into the United States. But our drug problem is a global problem, too, and must eventually involve experts worldwide in the search for solutions. It will be a long, hard fight.

'They're Lasty'

There's a homey old hill country word that's still used now and again to describe some enduring artifact. Of a kind of basket known for its durability a woman may say, "They're

It is a word Herbert Cedarblom, a retired pipefitter in Idaho, might apply to one of his possessions. In 1915, when he was 17 years old, he bought an Ingersoll Yankee watch for a dollar. The other day there was a news story saying the watch still keeps good time.

There's just no quibbling about it: Herbert Cedarblom has a "lasty" watch. It is a thing to treasure in an era when so many consumer goods seem built to sell rather than to provide years of useful service without repair. Sometimes we catch ourselves wishing the word "lasty" would find a more prominent place in the lexicon of modern

Guest Editorial

In declining to override President Ford's veto, the House kept in force the Hatch Act protections against federal workers being coerced into political activity and the protection against the federal service being turned into a partisan political force. That doesn't mean that the fight is over, however. Those pushing for revision of the Hatch Act — the politicians who want

to use the three million federal workers for partisan political activity, the unions that would use Hatch Act liberalization to increase their muscle - will be back. That they were able to move it to passage in the House and

Senate — it never got that far before — will encourage them to try again. We hope the Congress will not again succumb to the siren song of "freedom" for government employes. JACK ANDERSON

"Give it to me straight! Is all this campaigning really necessary? My golf game is going to Around

The electric bill for one junior college track meet held recently at Seminole High School was \$306.01. That was one bill for one night's lighting for a single event. And it equals about what it normally costs for a summer of sports-related activities. When Seminole High Principal Don Reynolds received the bill from the power company, he flipped. Reynolds called Florida Power and Light (FPL) to protest, but FPL officials said a certain "demand" rate schedule is used for events of the type conducted at the school and that the bill was

That wasn't good enough. So, Reynolds got on the telephone and complained to none other than the Maitland housewife. Paula Hawkins, who is a member of Florida's

school-related athletics are exempt from the high "heart" are those teachers and administrators put it, they have "heart."

rates charged Reynolds under the schedule which produced a whopping \$306.01 light bill. Reynolds said he received the bill about two weeks ago. He's waiting to hear what the spokesman in Mrs. Hawkins' office can come up

In the meantime he's still burning over the fact that the bill was so high. The point is we used the facility for a night and

the bill was \$306.01; no athletic program can afford that kind of thing," Reynolds declared. Reynolds says he figures the school owes FPL. under a normal rate schedule, about \$34. If FPL refunds the balance, it'll be a nice savings brought about by a principal who didn't believe the charge

was fair and set out to do something about it. While discussing the FPL bill with Reynolds, he mentioned something which should interest tax-A spokesman in Hawkins' office said he thinks payers. Reynolds said he felt school personnel with salary increase, but because, as Reynolds so aptly

at sporting and other school-related events. For a principal, though, it's practically mandatory he attend major functions. But then a principal is considered a management type who supervises

This concept of "heart," however, is interesting I wonder how many employes of major corporations would attend corporate functions unless they feared the boss might blackball them or refuse to put through that much-needed raise.

Yet it's not uncommon to see a lot of teachers turn out for school events. Guess the reason for that is some teachers, although it doesn't always seem that way, are professionals in the truest sense of the word. Some turn out not because they expect a
