

Sanford Drops 4 To 3 Decision To DeLand Reds

Four Unearned Runs Are Scored In 5th By Reds

Schmidt Hits Home Run In First Inning; Billy Moore Gets Double And 2 Singles To Lead Hitters

The Sanford Lookouts went down to defeat last night before the DeLand Reds 4 to 3.

The Reds scored their four runs in the fifth inning as Hank Banner, Sanford hurler, received poor support from his team's outfield. All DeLand runs were unearned.

Banner, tossing carefully, held the Reds to eight hits while Rice for the Reds held the Lookouts to a like number.

Sanford's Schmidt hit a home run in the first frame for the only earned tally of the game. Billy Moore, Sanford center fielder got a double and two singles to lead the batsmen of both clubs at the plate.

Rutledge of DeLand followed on Moore's heels with two hits in three times up. Decimus Stith, Pitman, and Adz also hit safely for the Lookouts, getting one each. Every man on the Reds hit safely except Jackson and Rice.

Although the game could hardly be called a pitchers' duel both Banner and Rice permitting eight hits each, kept them well scattered and remained spaced each other. Rice gave one base on balls and struck out five while Banner issued four bases on balls and struck out two.

Box Score	Sanford	DeLand
Runs	4	3
Hits	8	8
Errors	1	0
Bases on Balls	4	1
Strikes Out	5	2

Lookouts Engage DeLand Reds Here In Game Tonight

Sanford To Seek Revenge For Defeat At Hands Of Reds

Tonight the Sanford Lookouts meet the DeLand Reds in a return engagement at the Municipal Ball Park at 8:15 o'clock in an effort to get back into a winning stride.

The Lookouts' win column for the week beginning with Sunday, shows only one win against two losses. The victory was secured at Daytona Beach's expense while the losses were to Daytona Monday night and to the Reds last night.

Held to low score games in the last week both while winning and losing, the big guns of the Lookouts should be just about ready to tear loose with a barrage of base hits that should blast their opponents out of the park.

With Adz, Moore, Pitman, Davis, Stith, and Campion on their watches for tonight, the Lookouts should have no more difficulty than they met Monday night in getting the assignment.

Orlando Senators Lose To Leesburg By Score Of 7-3

Gondoliers Climb To Within 1 1/2 Games Of League Leadership

In state league battles last night Leesburg defeated Orlando 7 to 3; Palatka won over Gainesville 7 to 1; and St. Augustine took the decision from Daytona Beach 5 to 4.

The Gondoliers' victory over the Orlando Senators enabled them to climb to within one and one-half games of the lead for the leadership at the G-Men lost.

Three Leesburg hurlers limited the Senators to six hits all told. The Senators also used three pitchers but the Leesburg players garnered 13 safeties off the Senatorial gentlemen.

The league leader, G-Men last night defeated at the hands of Azalea pitcher, Pierce Corley, who limited them to four hits, struck out eight and walked only one. It wasn't until the sixth inning when the Azaleas could take advantage of their hitting prowess combined with errors to produce two runs.

Shaw Buck tripled with the bases loaded in the seventh to effectively disorganize whatever resistance the G-Men had been able to offer.

The St. Augustine Saints committee.

Roosevelt Rests In Warm Springs Preparing Talks

Continued From Page One

Such tactics could be more effective than singling out individuals in southern Democratic primaries for their favor or disfavor. The fact that Roosevelt deemed it necessary to interrupt his vacation trip, even before he landed, to work on his Georgia addresses intensified the impression that those speeches are of more than usual consequence in his eyes.

Unless all present signs are misleading, the speech in Barnstable will mark the opening of a more significant drive to attach the South to the New Deal election parades in 1938 and 1940 than his attitude toward renomination of Senator George, Senator Smith in South Carolina, or even Senator Tydings in Maryland would indicate.

A specific and far-reaching New Deal program for economic rehabilitation of the South may not be outlined by the President; but it has already been written down in the Roosevelt Administration's books as a New Deal objective. If Roosevelt succeeds in firing the imaginations of southern Democratic voters with that prospect, it would make small difference as observers here see it, whom they sent to the Senate or House. Their representatives would have to march with the New Deal anyhow.

A Fair Income

Although Jimmy Roosevelt has not been making the fabulous income which Alva Johnston attributed to him in the Saturday Evening Post...

At the request of young Mr. Roosevelt, the Treasury Department has turned over to Walter Davenport, associated editor of Collier's magazine...

These returns showed, according to Mr. Davenport, that Jimmy's income at no time had quite reached \$50,000 a year...

Admitting that he perhaps had on one or two other salesmen did not, he continued, "I got in a place I never would have if I wasn't the son of the President..."

"Being the son of the President, they'd have been calling me a crook no matter what business I had entered..."

"If I had opened a neat little corner grocery store and was making anything above the rest they'd have been saying that relief money would have had to be spent in my store..."

Killing The Goose

Declaring that the current economic depression in Mexico is clearly the result of "killing the goose that lays the golden eggs"...

"Regarding Mexico there can be little serious dispute concerning what was done and what effect," the Times says.

"An Associated Press dispatch remarks that while business slackened there as early as January, the real slump began on March 18 when properties of seventeen American and British oil companies were taken over by the Government..."

"Regardless of how Mexico solves the technical problem of operating the wells and the more difficult problem of holding a world market for a steady absorption of their product..."

"The Mexican episode may end by serving a salutary purpose if it helps to make clear to the parties of the left in all countries that the real wealth of a nation lies not primarily in its existing physical plant..."

"The Mexican episode may end by serving a salutary purpose if it helps to make clear to the parties of the left in all countries that the real wealth of a nation lies not primarily in its existing physical plant..."

WEEKLY NEWS COLUMN

By JOE HENDRICKS

THIS WASHINGTON WEATHER—Weather is usually the topic of conversation when there is nothing else to talk about but let me assure you that the weather in Washington recently (August 4) was really news because it was unusual...

TID BITS—It was urged recently to sign a pledge in those words: "The object is to secure, in three states but thanks to providence, Florida does not need this."

MAURY MAVERICK—In discussing the recent Primaries in Texas, the press amused me with this statement: "Maury Maverick, leader of the New Deal Block, was defeated."

FLORIDA DOES NOT NEED THIS—Fresh steaks, roasts, and chops during the summer and fresh homegrown fruits and vegetables during the winter are becoming the regular diet of many farm families since the development of refrigerated locker plants.

Lookouts Blast Red Pitchers For 11 To 1 Victory

Joe Pinder Limits DeLand To 5 Hits But Walks 11

Adz, Pitman, And Davis Lead Savage Attack On DeLand Hurlers With Several Extra Base Hits

The big siege guns of the Sanford Lookouts went into action Wednesday night at the Municipal Ball Park for the first time more than a week, and blasted DeLand hurlers for 11 hits to one in an 11 to 1 victory.

The first man up in the first inning for the Lookouts was Joe Pinder, Sanford leftfielder, who walked. On Schmidt's single left field, Moore went to second. Coming to the plate Adz, Pinder sent both Moore and Schmidt in with the first runs of the game. Pitman, the next batter, scored the third consecutive hit when he doubled to left field. DeLand pitcher came in on Davis' single to left for the fourth run in the inning.

The next frame saw Adz collecting another run when he singled to left, Moore second, went to third on a passed ball and Moore on a force in. With Adz on third, Pitman, meanwhile had taken a first after being hit by a pitched ball and advanced to second when Davis walked to fill the bases. Then Smith walked and Adz made the score 5 to 0. Pinder added another run in the third on a sacrifice by Williams. A passed ball and Schmidt's fielder's choice.

The third inning saw Sanford shoot three additional markers. Pitman made first on a single and advanced to second when Davis walked. Smith sacrificed both Adz and Pitman scored when Schmidt threw the ball away. DeLand singled to center to score Davis and Smith.

The last two runs were added in the seventh when Adz walked to second on Pitman's lead. Adz went all out of the night, Adz went third and Pitman advanced to second on an error by Taft, Red scored baseman, and both scored

Orlando Senators Down Gondoliers By 5 To 1 Score

Palatka And Daytona Beach Win In Other State Loop Games

Orlando set Leesburg down last night with a 5 to 1 loss, the Palatka Azaleas defeated the Gainesville G-Men 9 to 7, and Daytona Beach won over St. Augustine in 10 innings by 10 to 9, in state league games.

Hurling his first game for the Senators, Charlie Atwater, former Sanford moundman, pitched two-hit ball to rack up a 5 to 1 win over Leesburg in Orlando. Atwater gave up one run in the fourth frame as a result of a wild pitch. He fanned nine Gondoliers.

The Azaleas got 13 safeties off three Gainesville pitchers to win their second successive game from the loop leaders in their home town. Frank Hudson, overcoming a six-run lead piled up by the G-Men in the second and third frames, went on to receive credit for the win. Bill Letts, first baseman for the victor singled four times out of five times at bat. Gallagher was the only G-Man to make two safeties off Hudson.

The Islanders took the Saints into camp in a fray featured by 10 errors, 28 hits and the use of six pitchers. The Daytona manager humbled in the fourth with none on. Four fingers were used by the Saints with However being charged with the defeat. Caesar Dulan was the Saints' best man at the plate, as he collected five hits in six times up.

Orlando 010 000 031—5
Leesburg 000 100 000—1
Gainesville 025 001 000—7
Palatka 095 200 208—9
Daytona Bch 003 100 131 1—10
St. Augustine 011 015 100 0—9

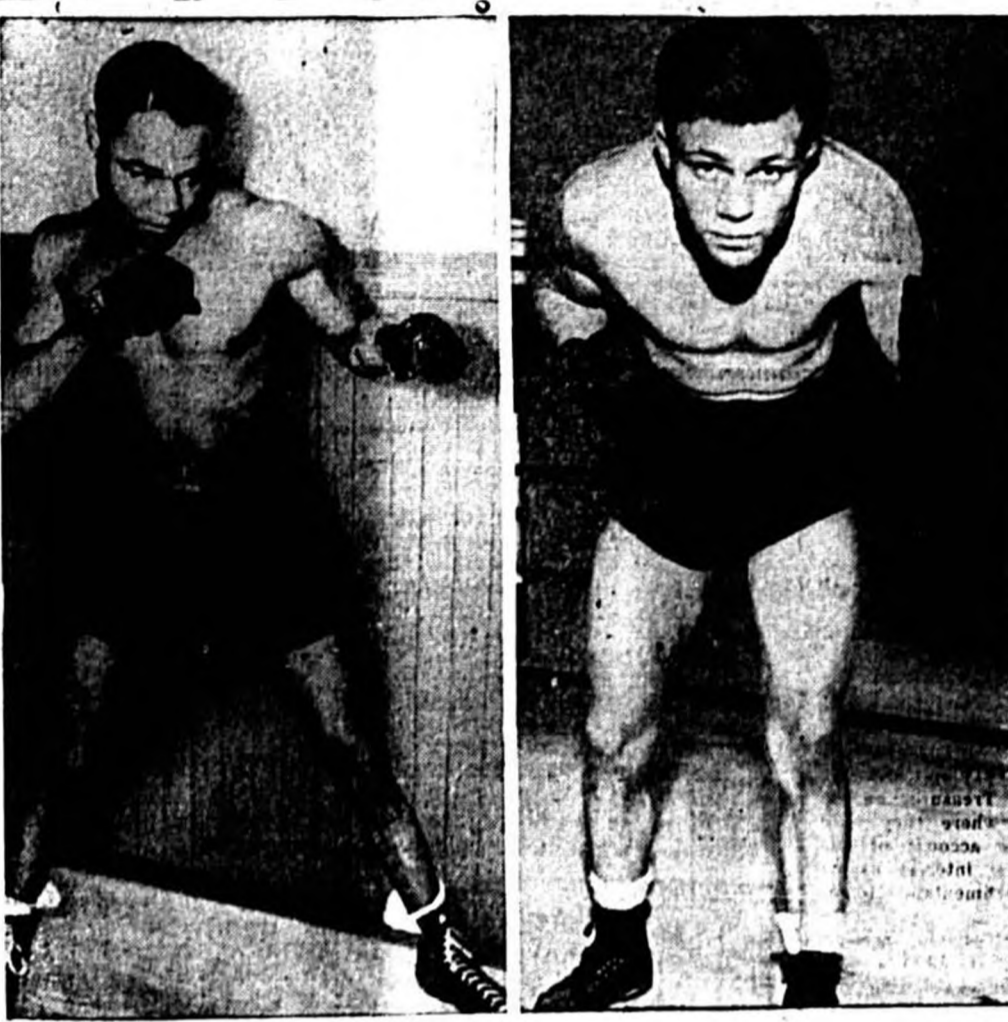

Sanford Engages Palatka Tonight In Azalea City

Journeing to Palatka tonight, the Lookouts will meet the Azaleas in an attempt to better their average for the week.

Having won two games and lost two this week, a win tonight would give them a psychological advantage when Palatka comes here tomorrow night for a return encounter. Their record for the week shows losses Monday night in Daytona Beach and Tuesday night to DeLand while wins were recorded against those two outfits on Sunday afternoon and last night when the Islanders and Reds were defeated in the order named.

Following the game with the Azaleas here tomorrow night, the Lookouts here Saturday night. Tomorrow night will be "Men's Night" at the Municipal Ball Park. Each man accompanied by a lady with a ticket will be admitted free. Economists have reported that women handle nine-tenths of the money spent each year, and no doubt, the Lookout bigwigs have heard it bruited about. Anyhow, the men will now have a chance

AND IN THIS CORNER WE HAVE:

THE BATTLE OF THE CENTURY between Henry Armstrong and Lou Ambers was postponed last night due to rain. The fight will take place next Wednesday. Most postponements force a change in the betting odds but the chances are that the odds won't change in this case except possibly to favor the negro battler.

NEW ORLEANS BUYS WILLIS FROM G-MEN

Dr. George F. Robertson, president of the Gainesville Baseball Association of the Florida State League, said yesterday Ken Willis, right-handed pitcher, had been sold to the New Orleans team of the Southern Association for an unannounced sum.

Dr. Robertson said Willis would report to New Orleans at the start of the 1937 Spring training season.

Gators Due For Better Year Is Wright's Opinion

Veteran Line To Be Mainstay Of Team; Many Soph. Backs

By FRANK WRIGHT
GAINESVILLE, Aug. 11.—Brethren, we must admit it... it's been a little war of late... but one thing is certain... sooner or later it will get cooler... it always has... and like the weather... the old Gator gridiron record is due to get better... Florida has stumbled around in the dog-house for quite a spell now... but the horizon looks brighter... maybe there's a rainbow in the sky...
Win, lose, or draw... one swell thing about Josh Cody... he's an optimist... he's been in the game too long to be tricked by idle hopes... and false notions... he knows he has a squad coming back in September that is exactly two-thirds sophomore... absolutely untried in varsity ball... but Josh knows one other thing... most of the boys rolling in September aren't truly like their football... they have the desire... they will be real competitors... and he knows too that there is some mighty good talent around...

Josh knows too that he has a veteran line from end to end... and a forward wall that proved itself defensively last year... one that with the added experience... and more offensive skill... should rank quite high this season... and he knows too that while his sophomores must be the mainstay of his backfield... and sophomores frequently make mistakes because of a lack of experience... he is not counting those errors until, when, and if they are made...

There are always some people who won't look at all the facts... who think you'll win when your chance is as slim as a piece of onion skin paper... and in Florida today there are those who believe the Gators are headed for one sweeping victory after another... but there are not many who believe that... and fewer still who talk it... during March, April and May it was my good fortune to talk with former students of the university... and citizens generally... in 58 Florida towns and cities of this state... and folks, there is no warped enthusiasm... the people look for a better team, yes... they feel good over the likely improvement... they think 1938 is definitely the year the pendulum begins its upswing... and believing that is okay... for Josh and his staff are certainly pointing that way... and these lads who are going to block and tackle and carry the old pigskin seem to ooze a sort of confidence that

Budge's Backhand Unorthodox But Best In Tennis

Redhead Wins Nine Titles With Help Of Lethal Stroke

By BILL BONI
NEW YORK — Experts long have proved that a champion can make his own game, even if it means rewriting the copy book.
Paul Runyan, the welterweight golf pro from White Plains, N. Y., has won two U. S. A. titles with a hammer-froswing that makes him a stunner but would make any other golfer a laughing stock. Lou Ambers went to the head of the lightweight boxing class, although with his arms dancing at his sides, he goes into action looking like an animated punching bag. Al Simmons won two straight American league batting titles with his foot in the bucket so far it almost was in a will.
And Don Budge, for two years the world's ranking tennis amateur, does his most lethal execution with a backhand that is as unorthodox as it is effective.
There's no question that it's effective. In the past two years it has won him six Wimbledon titles, the U. S., Australian and French singles championships, has left him seeming only a second American victory for a one-year, four-tournament grand slam, and has made him the boy figure in the Davis cup situation.
Nor is there any question that it's unorthodox. The copy-book backhand is a smooth stroke with a full follow-through, generally made with the right foot forward and the body firmly planted.
Budge's backhand follows the book only on the "right foot forward" point. It has virtually no follow-through and includes a sharp pivot that brings the whole body into play. The body as often as not is moving through the air, and nine times out of ten it is a stabbing stroke in which Budge and his racket go forward in one piece to meet the ball and when it back over the ball with jerky and uneven, tailing results.
It isn't strange that a tennis teacher would attempt to impart to his pupils any more than a golf, boxing or baseball coach would set up Runyan, Ambers or Simmons as a model for his class. But since it is so undeniably effective, no one has made or would dare to make any change in it.
At least at this stage in the proceedings warrants a right to feel that we're going to climb the stairs in Gatorland this fall... forgetting if you please, have over was or is such a thing as a stairway to the basement.

The first official U. S. Patent was issued in July, 1790.

Expedition Finds Unusual Weather In Northern Area Cold And Rain Found By Bartlett In His Cruise Into Arctic

By CAPT. ROBERT BERTLETT U.S. BOARD THE SCHOONER MORRISSEY, Aug. 11.—I now know how Noah and his gang felt when the weather cleared and the sun showed itself. Ever since leaving New York around June 20 it has been rain, and now we are crossing Melville Bay and for the first time in days have seen the sun for a few hours.

This happened before and after midnight. Thus many of the lads saw the midnight sun in all its beauty for the first time. It was refreshing to hear their comments. It has been the same weather condition in Newfoundland and Labrador. Speaking to the natives, they say the season has been very backward.

Notwithstanding this, the cod, capelin and salmon came to the coast much earlier than usual. Leaving the Labrador coast at 10 o'clock we came across the Davis Straits and found as we came into the Greenland coast the water cold.

Coming over the Helleflek Bank we counted twenty-one Portuguese fish-catch vessels anchored. We spoke to some of them and they reported "no cod," as the water was too cold. I judge the middle passage is well over to the Greenland shore. Dr. Parsild in Godhavn told me that many cod had been picked up dead, lying in cold water off the Greenland coast.

Crossing Davis Straits, we passed many bergs, all of which were reported to the Hydrographic Office, Washington. A stay of a few hours at Godhavn followed, where I preserved official papers. These were gotten from Denmark through the State Department, enabling us to visit Greenland and to add to our collecting of birds, flowers, mammals and marine specimens for the Smithsonian and the Cleveland Museums.

I am happy to say one of the boys, David Nutt, who has been with us on several trips, has charge of this and, with other assistance, he has done good work in Newfoundland, Labrador and around Ditto.

At Godhavn, they said the reason was one month late. It was a severe winter. The natives did well with seal and walrus. Dr. Ash coast surveys are using airplanes to supplement survey work. They, too, have had their difficulty with bad weather. We have ahead of us a lot of work collecting. All the lads are keenly interested. We are all well and happy.

St. Augustine Is Named From Date It Was Discovered

ST. AUGUSTINE, Fla., Aug. 11.—St. Augustine, oldest city in the United States, received its name from the date on which it was sighted by Pedro Menendez de Aviles.

Menendez, historians say, sighted the shores here on August 28, the feast day of St. Augustine, in the year 1565.

Through the years since, this city, predominantly Roman Catholic, has acclaimed St. Augustine as patron saint.

Although sighting this location on St. Augustine's day Menendez continued to sail along the coast and returned Sept. 8 to found a colony.

Old chroniclers say he landed with much fanfare and took possession of the land in the name of God and the King of Spain and that priests, who accompanied him, invoked blessings.

The history of the settlement of St. Augustine is one of hardships and bloodshed. For many years the Spaniards were beset by enemies from land and sea before the city along with the rest of Florida was ceded to the United States.

Two of the best known landmarks are the old fort of San Marcos (Fort Marion National Monument) and the C.F. Ocala, part of the Spaniards' defense works. Both are built of Coquina, native rock quarried at

NEW NICKEL bearing Thomas Jefferson on the face and replica of Monticello on the other side was designed by German-born Felix Schlag, now an American citizen.

Household Hints

By ISABELLE K. THURSBY Extension Specialist in Food Conservation

It's high time for jam and jelly lovers to dust off the big, preserving kettle and get out the heavy aluminum saucepan which rich, thick jams and "spreads" cook to fruity perfection. Time to gather luscious grapes, and sugar sweet figs or to go to market for peaches, pears, pineapples, and mangoes. Time to convert these beautiful, bountiful July fruits into sparkling glasses of jelly or into delicious preserves and relishes that will change the simplest lunch or supper into a company feast.

Rabbit-eyed blueberries in North Florida are in their prime for delicious pies and roly pollys or for making jellies and jelly. Likewise, the wild gooseberry is yielding bountifully.

When too busy to make jelly but have lots of fine fruit or berries on hand, eat the juice by boiling it briskly for a few minutes and then immediately pouring it into hot, sterile jars and sealing. Label and store in a dark, cool, dry closet until you have time to add sugar and finish the jelly making.

If you wish to surprise the family with a bowl of amber figs swimming in delicious, golden syrup, remember that the figs should be fully ripe. Figs do not manufacture sugar after being picked; hence their flavor and sweetness should be at its highest point and they should not be more than two or three hours off the tree when canned or preserved. Short stemmed figs may be canned whole, but the long stemmed, little sugar fig may have half of the stem removed.

For splendid Florida figs, place ripe figs in a strainer and set in boiling water for five minutes. Drain and place in a syrup previously prepared as follows:

\$8,000,000 Fund Is Collected To Insure Workers

Contributions Made By Employers Of Eight Men Or More

TALLAHASSEE, Aug. 11.—The Unemployment Compensation Division of the Florida Industrial Commission, which will participate in the statewide celebration of the third anniversary of the Federal Social Security Act on August 18, has collected more than \$8,000,000 from employers for the payment of "Jobless Insurance" to eligible unemployed workers starting Jan. 1, 1938.

These contributions have been paid by employers of eight or more workers who are liable under the law and employers of less than eight who are not liable but have elected to become so. These firms have more than 250,000 workers on their pay rolls and the wages upon which contributions are paid total over \$200,000,000.

Contributions to the State fund are collected quarterly at the rate of 2.7 percent of the employers total pay roll and forwarded to the Treasurer of the United States where they are credited to the account of the State and draw interest as do all other governmental obligations.

This interest at the present time is more than \$300 a day. All of this fund including the interest can be used for only one purpose—The payment of "Jobless Insurance" to eligible Florida workers starting next January. Administrative expenses of the division are paid by direct grants from the Federal Social Security Board.

Peel green mangoes, cut from seed, chop or put through coarse blade of food chopper enough to make one quart. Chop or grind two large onions, six sweet red peppers, and two large hot peppers. Add 1 tablespoonful of salt, 1 tablespoonful each white mustard seed and celery seed, 1 cupful sugar, and 1 cupful vinegar. Also add two cupful raisins if desired.

Combine all ingredients. Bring to boil 5 minutes. Let stand overnight. Next morning, cook until slightly thickened (about 10 minutes). Pack boiling hot and seal. Mango may be combined with sweet fruits as papaya or pineapple for making jams and other products.

Melons should be served ice cold. Do not try to chill them by filling them with chopped ice. Chill the melon thoroughly in the refrigerator and serve it as quickly as possible after it is cold. You may put a little ice around the outside, if you like, to help keep it chilly.

America's Strangest And Newest Hero Dresses Part

By HUBBARD KEAVY
LOS ANGELES, Aug. 11.—Aviation's most west and strangest hero—Douglas Grace Corrigan, unemployed airplane welder at ways dresses the part.

He wore the clothes on his unexpected flight to Ireland that he always wears, rain or shine, work or wedding. He wore a good suit, but he just never finds an occasion to wear it. Even his brother Harry's wedding wasn't important enough for Douglas to put on his blue serge.

"I really believe he wore his checkered pants and his leather jacket to Harry's wedding," says the Rev. S. Fraser Langford, Douglas' uncle. "But, my goodness, we're so used to seeing him in that outfit, we didn't pay any attention to him."

Douglas doesn't have any hobbies, except flying. He's an omnivorous reader—of books about aviation. He's a great talker, too—about flying.

Douglas is a great kiddie. All ways laughing. Why, nothing bothers him. Gracious, he even laughed about the time three years ago he was caught in a storm in Virginia in the old crate. He plopped the machine

No Slack Season On Etiquette For Rest Of Summer

There's no slack season in good behavior.

Sultry summer days should be an incentive to it, if anything, even though you don't feel up to par. There are a number of things we can do to help each other comfortable.

The hostess, for example, will suggest on a hot day that men guests remove their coats, if she senses they would like to do so. If she doesn't suggest it, it's perfectly all right, and fairly informal circumstances for them to ask permission to do so. Naturally, they shouldn't ask permission on such occasions as formal dinner parties. Nor should they let the coat-removing habit hold over when business turns drop to comfortable levels.

Neither the hostess nor her guests will take summer informality as an excuse to fall all over the place in extremely informal attire. Lolling over your feet is another hint.

To the ladies: Don't take off your shoes in public. Buy comfortable shoes and keep them on. And don't roll your hose down below the skirt line.

To the men: It's all right to mop your brow when occasion demands. But don't forget to have on hand a supply of clean handkerchiefs if you're going to need them.

A Word To The Younger Generation: Watch your behavior in the park and on the beach. Reserve your good night kisses for privies.

To guests who visit in beach towns where there is lots of swimming: Don't sit in your wet bathing suit anywhere except on the beach or in places the water won't ruin.

Doug Corrigan On His Homeward Journey

Quiet, smiling Douglas "Wrong-way" Corrigan, who flew his 5900 'old crate' from New York to Ireland to become the World's Number One Hero, takes life easy and calls for a cup of strong tea as the liner Manhattan carries him homeward. The riotous welcome given him in New York rivaled that of Colonel Lindbergh's triumphal return 11 years ago.

Clyde Mallory Offers New Summer Cruise

The towers of New York, the walls of Quebec, the cliffs of the Saguenay and the quaint English countryside of Canada, all are in the August cruise combinations offered by the Clyde Mallory Lines.

One can leave Jacksonville at 4 o'clock in the afternoon of Wednesday, Aug. 24, aboard the luxurious S. S. Shawnee, with its great glass-enclosed promenades, sheltered dancing deck, music room and other appointments, arriving in New York on the following Friday morning. After a day and a night in the metropolitan passengers on the combination cruise, take the Shawnee's sister ship, the Ironsides, at 3:00 o'clock on Saturday afternoon for a 13 day cruise to the St. Lawrence and Bermuda.

Want a piquant, crusty covering for your meat loaf? Mix half a cup of brown sugar, three tablespoons of catsup, one teaspoon of nutmeg and one teaspoon of dry mustard and spread it over the loaf just before putting it in the oven. This amount will cover a two pound loaf.

He said, "Shucks, I'll fix that." And he took 13 days to ferry the antique from New York to California. He tinkered with the plane, after taking it apart and putting it back together again. Then he decided its 90-horsepower engine wasn't powerful enough. So, he bought two used Wright engines, to make the best parts of each make one good engine. Total cost of repairs and overhauling, \$500. All together, the plane set him back \$900.

Corrigan was and probably is determined to be a transport pilot. He's told friends he'd rather fly a big plane than do anything.

Mr. Langford, a Baptist minister who refused to be a newspaperman, "traded" roles in his little yawl for roles in his nephew's airplane. Douglas' practical navigation from his uncle and theoretical navigation from books. The trade deal ended when Doug put an extra gas tank in the cabin which took up the passenger's place.

"Silent Doug" is five feet six inches tall, weighs 130 pounds, has blue eyes and wavy brown hair. He is of Irish and German descent, mostly Irish. His forebears came from the north of Ireland. He sold papers to pay his way through high school. His parents died when he was young. His father was killed by a

freight engine in New York, his mother died of grief a few months later.

He got a job making deliveries after school. It was dull, so he quit when he heard that a company, building metal monoplane, might take on some hands. Sure enough, he got a job in the Ryan plant. He helped bolt the gas tanks onto many planes, including the one destined for Lindbergh. From the day Lindbergh flew to Paris, Doug was a coner.

He dressed like Lindbergh, acted like him. To escape attention, he even flew non-stop to New York when the crowds were giving huzzas to five big name flyers who had just flown around the world. And he stood for clean living. His uncle says Doug always has been that way. Doesn't smoke or drink or swear. Occasionally, he attends his uncle's church and he always takes part in the family's home devotions.

He never has spent a cent foolishly. And he even starved himself so he would have extra money to put into his airplane. For lunch, he frequently drank only half of his pint of milk and ate only half his sandwich so he'd have some left for supper.

All the time, he was aiming for one thing: to fly, and fly well, so he could land a job as a co-pilot on a big transport.

When word of the flight to Ireland got around the airports where Silent Doug and his "clippers" are known, the reactions were varied. One pilot said Doug ought to have his head examined. Others said "incredible" and "astounding."

But one said, "He'll get that job now. I don't think he was any more foolhardy than Lindbergh was. That flight took courage and that's what aviation needs."

Silent Doug, who used to get \$35 a week and who has been out of work for two months, may very possibly come back to step into the job he's always wanted in one of the giant air liners—so new and trim and modern—that he's always admired.

You have to give a fellow credit for trying, especially when he does it the hard way.

Relief In U. S. Was Designed For 1929 Depression

Aid Received By Families Depend Upon Source Of Money

WASHINGTON, Aug. 11.—(AP)—Unemployment relief in the United States is a patched-up job—patched up from expedients designed to meet the 1929 depression.

As a result, the relief received by a destitute family depends on the source of the money—federal, state, county or city. You have one group of 2,600,000 "relief cases" living on the comparative luxury of \$53 a month each, which is itself below the standard minimum living standard set up by WPA co-operating with the United States department of Labor. And you have another group of 2,000,000 getting an average dole of about \$25 each a month.

That's generally recognized as a cock-eyed state of affairs, but the question of what other such a system should be adopted is still unworked.

If you are asking which is cheaper, most authorities reply the dole costs less, because with it you do not have to pay for materials that go into WPA work relief. Thus the dole apparently would save the taxpayer at least \$26.80 per month per relief case. He would not have, however, thousands of local improvements that work relief has accounted for.

But if you are asking which is better, you've opened up a dark labyrinth out of which no debate has come with a whole skin.

Obviously Director Harry Hopkins and his WPA staff are solid on work relief and they can cite statistics and facts by the yard. On the other hand, many a critic backs that work relief costs too much, that it is making buses out of citizens or that it's all rotten politics anyway. The critics cite the "coercion" of relief votes by political supervisors. They tell you how Harry Hopkins himself endorsed a candidate for the senate in Iowa recently. They say "reliefers" are forced to wear buttons and get out the vote.

Arguments at either extreme seem a little too pat.

So let's turn to a sharp critic of WPA, who also is a recognized authority on relief, and get his opinion on two points, work relief vs. the dole, and the character of relief clients.

The man is Charles P. Taft, the lawyer, who is chairman of the public welfare committee of Cincinnati, and a national figure in private relief enterprises. Taft is a Republican.

Here is what Mr. Taft had to say early this year:

"There are many business men who have not come within squares of either public or private welfare agencies, who say: 'All reliefers are bums.' That is not true. It never has been. At the time of the depression there was a 10 per cent turnover in relief clients, which means 100 percent in a year. We have not got a sissy man at the bottom. It has constantly changed. Somebody goes off and somebody else comes on. Reliefers are not bums.

"Those who are not on relief are so utterly confused and shaken by the new spectre of depression that they are permitting treatment of fellow human beings that can only be described as cruel. They are confused about work and relief. They are told that WPA is now employing all employable men who need help. This is not true today. And it never was true. WPA is a good work program, but it costs twice as much as it needs to."

And what if the federal government and the states pooled their money into one system, supervised by the federal government but handled by local authorities?

"In November of last year," was his reply, "my guess is that if (the money) would have been spent for direct relief in the homes (the dole). My suspicion is in my own community, however, since that time, cynicism as to that there is a tremendous pressure for work relief."

So apparently leaders in both camps are getting away from relief in the kind of relief the public wants.

As for politics in relief, it is impossible to settle that issue. Hopkins have been dismissed from WPA for political activity, but there must be some dirty work to get across roads. But nobody is yet prepared to a national standard. And these are difficult days of interesting and disconcerting news.

As for alternatives to the present patchwork of assistance, it is clear they are difficult to find. Some people have suggested that a national relief program be set up from Washington, which would handle relief cases.

Toronto, Queen City of Ontario, Again to Hold - Its Great Annual Canadian National Exhibition

TORONTO SKYLINE, ROYAL YORK CENTER

AUTOMOTIVE BUILDING, CANADIAN NATIONAL EXPOSITION

FAMOUS PRINCES' GATE AT EXPOSITION

TORONTO, largest city in Canada save one, will hold its famous annual Canadian National Exhibition Aug. 26-Sept. 10, and will celebrate its Diamond Jubilee entertaining at least two million visitors from Canada, the United States and Overseas. Overlooking picturesque Lake Ontario, opposite Buffalo and Rochester, this beautiful and enterprising metropolis of Ontario with population exceeding three-quarters of a million, is reached easily from the west by New York Central and Canadian Pacific, and from the East by many routes.

Toronto is an Indian word meaning "a place of meeting," and as it was settled by United Empire Loyalists after the American War of Independence, its citizens are cousins of the United States. It is not only a great Canadian city, but a city also

in which Americans find themselves thoroughly at home because Toronto is so much like home. Its swimming championships during the Canadian National Exhibition have won world wide attention. This exhibition has the unique reputation of being "the world's most comprehensive annual fair and the only fair entirely self-supporting."

Headquarters for visitors to the Canadian National Exhibition is the largest and most magnificent hotel in the British Empire—the Royal York which cost \$14,000,000 and looks and acts the part "Meet me at the Royal York" when the Canadian National Exhibition is on and all through the year besides. Toronto has additional attractions on its lake front in the city itself and in the country nearby. Known as the Queen City of Ontario Toronto once visited is never forgotten.

TOO LATE TO CLASSIFY

By RUSSELL KAY

Daytona Beach. There may be some folks who might need to ponder over Mr. Dale Cameron's famed volume on "How to Make Friends and Influence People" but these folks over here in Daytona Beach know all the answers.

I don't know anywhere in the world where a country boy can beat right in and feel as much at home in as short a time as you can right here. Take me for instance, I picked the family in the pastime game, piles a mess of luggage, trawls a base and the family dog on top of 'em and tel gramme Fitzgerald of the Observer and Summer Reporter that they're on the way and ask him to let him help 'em find an old piano box or deserted shack about the beach somewhere as shelter and I'll follow 'em over as soon as the laundry brings back my own shirt."

Well, Fitz goes down to the city hall and tells 'em a funny new-papper guy is coming and suggests that instead of trumpet suit to greet him with the "keys to the city"—which is an old gag any how—why not meet him at the city gates with the key to a beach cottage?

The commissioners liked the idea, but they didn't have any unoccupied cottages layin' round loose, so Commissioner Ralph Richards stops the argument about the city trying to rent out by offerin' to turn his home over to the Kay family for the month of August as his family was out of town. So he moves out and I arrived over here last week to find the family lollin' around in luxury that to me seemed downright sinful, makin' themselves at home in a stream of beach castle, right on the Ocean front completely furnished and as up to date as to-morrow, with terraced lawns, spacious grounds, a solution, tiled baths and showers, a whole flock of bed rooms, and any many other advantages that makes our modest Tampa home look like a dirty deuce in a dirty deck.

The only trouble with Daytona Beach is that these folks just never know when to stop bein' nice to a guy. Here they be more than 'get me parked comfortable in a cozy cottage than they begin tryin' to keep me away from it by providin' so much to do, so many things to go to, and such interesting and pleasing engagements and entertainments, that a guy don't have a chance to much more than change clothes in it and maybe knock off a wink of sleep now and then.

Durin' the day they are con-

FIRST NEGRO TOWN

EATONVILLE, Fla., Aug. 11.—(AP)—Investigators of the Federal Writers' project of Florida report that they have substantiated this Orange county hamlet's claim that it was the first incorporated town for negroes in the United States.
