## PSC Aide Missing Since August 10

By BILL SCOTT  
Seminole County sheriff's office has relayed teletype information to state and regional authorities on a report of a Longwood woman who reported her husband, a Public Service Commission employee, has been missing for a week.  
James Wiggs, 53, of 668 Seminole Avenue, when he telephoned his wife Aug. 10 from Live Oak and told her he had car trouble and would be late returning home.  
The man never arrived home, according to his wife, and his picture and information has been forwarded to law enforcement agencies.  
Wiggs is described as 5'11" tall, weighs 235 pounds and was last seen driving a 1968 light tan Falcon.  
During the weekend county authorities sought cause of death for a 43-year-old Oviedo man whose body was found tangled in barb wire in a drainage ditch Saturday morning.  
Harvel Bell, an Oviedo 11-year-old, found the body of James Blake in a partially filled drainage ditch. An autopsy has been ordered by Coroner Robert Carroll to determine the cause of death.  
Sheriff Polk found two missing teenagers Saturday afternoon after the pair had spent a stormy Friday night adrift in their small boat which ran out of gasoline while they were riding on the Wekiva and St. Johns River.

## Chappell Hints At Conspiracy 'Infractions By Secretary'

Blame for possible infraction of laws pertaining to public money in his office was placed today by U. S. Rep. William V. Chappell on his erstwhile personal secretary, Mrs. Patricia Renfro.  
The lawmaker, in his long promised statement, hinted at possible conspiracy between Mrs. Renfro and the Tampa Tribune, which "broke" the story that Mrs. Renfro's pay check had been "padded" to permit reimbursement to an other employee not on the payroll, Mrs. Jeanne McBurney.  
Efforts to reach Chappell by telephone at Ocala were to no avail this morning. Congress is on vacation. Chappell's statement was received in the mail and The Sanford Herald sought elaboration on a number of points and answers to a number of questions. Chappell's Ocala office, in response to a long distance telephone call, stated it would have the Congressman return his call. He had not done so at press time.  
Following is Congressman Chappell's written statement, as received in the mail this morning:  
For seven weeks, I have been under political and personal attack based on alleged wrongdoing in my Washington office.  
All of you know what it is in front. I trusted Mrs. Patricia Renfro. As my personal secretary, I trusted her with my personal checkbook, personal papers, and — most importantly — the establishment of proper accounting procedures to safeguard the public money spent by my Congressional office.  
In March, I asked Mrs. Renfro to arrange salary payment for Mrs. Jeanne McBurney for work performed by Mrs. McBurney in February. Mrs. Renfro increased her own salary. (Continued on Page 1-B, col. 4)

AREA HIGH SCHOOL football teams got "down to things" early this morning with the start of practice for the coming season. Lyman has his eye on the ball (No. 1), while Crooms (No. 2) hits the turf; Head Coach Tom Perrin (No. 3) shows the Seminoles how it's done, while Oviedo (No. 4) is reaching for a winning season.

## Capital Outlay Meeting Slated

By BONNA ESTES  
Selection of the Board of County Commissioners between architectural firms of Switzer and Switzer or the firm of John Burton IV to conduct a study on the feasibility of the county bonding bonds for capital improvements appears certain at the 9 a.m. meeting of the governing body tomorrow. The architects conferred with the Commission last week. Deadline for return of the report and for the advertising calling the special election was given as Sept. 23. At the referendum the taxpayers of the county would decide whether they wish the county to build facilities to temporarily house mental incompetents, a juvenile detention center, agricultural building and a South Seminole branch courthouse. Both firms indicated they could complete the study on time and both have done county work in the past.  
Meanwhile, the long-range planning committee for recreation has called a meeting for tonight at the courthouse to discuss report to be given to the county commission tomorrow on the plan to acquire lands for public parks in Seminole. The committee is headed by Fred Ganax. The possibility that this matter will be completed in time for the November election is slight due to need for reports from appraisers and engineers and identification of lands to be acquired. It is expected the parks issue will go on the ballot in next year's first primary.  
At tomorrow's meeting, County Attorney Harold Johnson will give report on the legal requirements for both bond referenda.

## Girl Sprouts Wings

With a girl who majors in Criminology at college and works in a law office during summer vacations turns out to be the leading lady of a television Private Eye?  
Not necessarily. She might become a Pan American World Airways stewardess like Angela Hurt, of Sanford, Florida.  
The sprightly brunette recently earned her badge — that is, gold wings — at Pan Am's International Stewardesses College in Miami, Florida. Now based in Los Angeles, she serves aboard Jet Clipper flights across the Pacific to Hawaii and the Far East, as well as vaulting over the North Pole to Europe.  
It's a first fling at foreign travel for the new stewardess. She is the daughter of Jennings L. Hurt, Jr., 1011 Oak Avenue, and Mrs. Hurt, 1322 Forest Drive, both of Sanford.  
This is Miss Hurt's year to collect diplomas. She was graduated from Florida State University, was a member of Delta Delta Delta sorority, newspaper staff, FSU Modeling Board, ROTC sponsors and SAE Little Sisters.  
Before joining Pan Am and the high-flying Jet Set, Miss Hurt has been a receptionist for Speer & Speer, Sanford attorney. Tennis is her favorite sport — so she can keep an eye on the racket, perhaps.

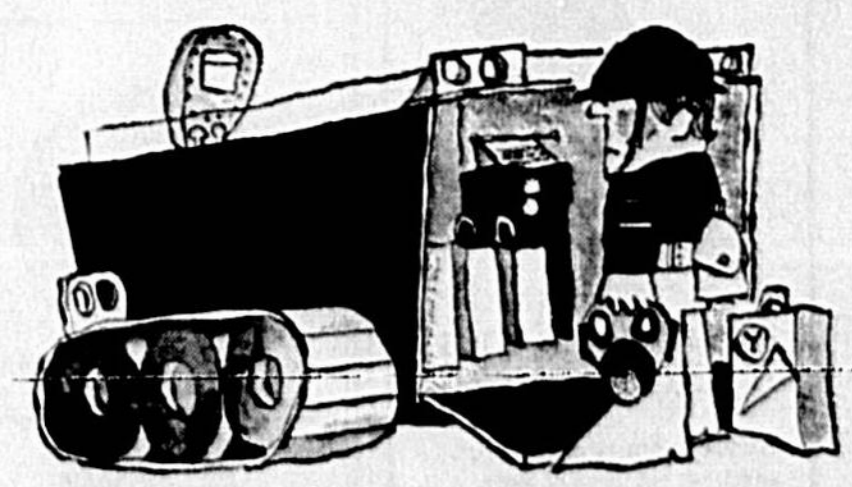

ANGELA HURT

## Police Action Heavy

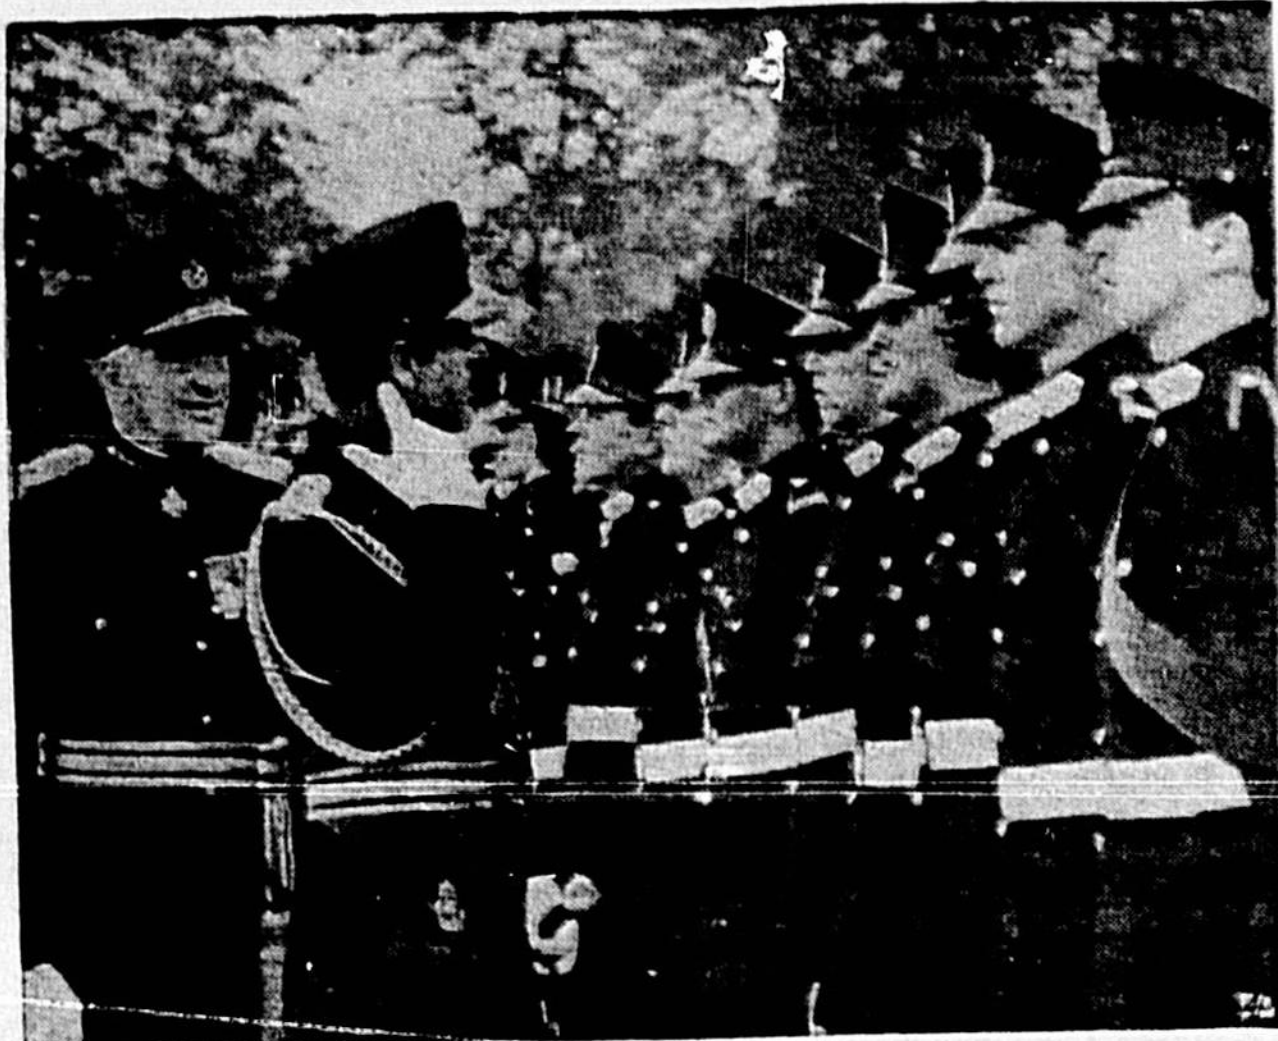

Sanford police and Seminole County authorities received the usual complaints during the weekend, which consisted for the most part of burglaries and petty thefts.  
Sanford Patrolman William Foster Sunday afternoon charged Dean Merle Rudy, 25-year-old Horrell, New York man after receiving a report from South Seminole that the man tried to use a stolen credit card.  
Rudy is also under investigation by L. J. Kriz, county investigator, on another charge.  
Foster charged the man with an driver's license and possession of a stolen credit card before turning the accused over to county authorities.  
Sanford Detective Sgt. Ralph Russell is probing the entry of the Army, Navy Surplus Store at 310 S. Sanford Ave., which was entered during the night by breaking the front door lock. Approximately ten watches, several knives, articles of clothing and radios were removed by the intruders.  
The entry was reported by Melvin Skindin, store operator.  
New Spring Lake School just completed in time for school opening in two weeks was hit by vandals during the weekend and a considerable amount of damage was done to 20 intercom sets, several television sets were smashed, glass coverings on three clocks were broken and several light fixtures were destroyed. L. J. Kriz, county investigator, is conducting an investigation.

## White Way Bids Set

A bid opening for street lights to make possible the long awaited "White Way" project is scheduled for today by the State Road Department, according to information from W. E. Knowles, Sanford city manager.  
Knowles said he was notified this morning that the opening would be today but exact location was not mentioned.  
Approximately 80 fixtures will be used to hang the mercury vapor lights.

### Lake Mary Roster Is Open

Mr. Morris M. Ruby, Principal of Lake Mary Elementary School, wishes to remind new residents that the school office is open and taking student registrations between the hours of 8:30 a.m. and 2:00 p.m. Besides Lake Mary the area includes Park Ridge, Sunland, back of Sunland along Old Orlando Road, Five Points, Country Club Heights, Big Tree Road, Longwood Road and Lake Mary Blvd. at Markham Road. Bus service will be furnished except within the immediate Lake Mary area. There are still vacancies in the kindergarten classes and you do not have to reside in the Lake Mary School area to be eligible.

### Private Firms Speed Education

WASHINGTON (AP) — Seventeen private companies are expected to seek a chance to prove they can teach disadvantaged children with more measurable results than now shown through the schools—with no payment if they fail. Bids are due Monday from the companies, including large educational technology firms, on the first test of a possible Nixon administration alternative to the current system of education assistance. The initial project calls for raising the reading and mathematics levels of about 20 potential dropouts from the Texarkana, Ark., junior and senior high schools. This is backed by a \$270,000 federal grant. The winning bidder will sign a performance contract that calls for payment only if skills are increased a specified amount within a certain period. The contractor will get before-and-after standardized tests. The contractor is paid for his successes but gets nothing for his failures. He must also prove gains last for at least six months after the special training ends. This is intended to curb teaching techniques aimed only at test scores and not at lasting benefits. Office of Education officials see the business approach as a possible substitute for many of the in-school enrichment programs financed by the \$1.3 billion annual federal grant program for poor and disadvantaged children.

What we must devise is measurable relationships between dollars spent and results obtained," says Dr. Leon Lessinger, associate commissioner of education. "Education, like industry, requires a system of quality assurance." He says White House officials, including Urban Affairs adviser Daniel P. Moynihan, are enthusiastic about the Texarkana project. One variation, Lessinger says, is a system where parents would receive educational vouchers entitling them to buy training for their children—either inside or outside the school.

James S. Coleman, a Johns Hopkins University professor and education consultant to the government, refers to this as "opening up" the schools; making school a home base "that carries out some teaching functions but which serves principally to coordinate activities and to perform guidance and testing functions." "This has not changed the basic factors in our thinking," one official said.

### Moon Beams on Earth

Have you noticed the diamond sparkle on your neighbor's house? It is being caused by the remarkable new KENITEX coating that is being used in place of paint in new construction. ### Renewed Enemy Activity Notwithstanding

## U. S. Considers More GI Withdrawals

By RON HORTON  
AP Military Writer  
WASHINGTON (AP) — Pentagon officials indicate the latest flareup of enemy activity in South Vietnam has not affected prospects for further U.S. troop withdrawals. Their assessment came about the time President Nixon was meeting Thursday with the National Security Council at San Clemente, Calif. The President and his top military, diplomatic and intelligence advisers reportedly talked over the heavy enemy attacks launched this week. Military sources here said the development in South Vietnam was not critical. "This has not changed the basic factors in our thinking," one official said. More enemy shellings and ground attacks are likely in the coming days, he said, but unless these are considerably more damaging, the Nixon administration will be inclined to move troops out of the war. Best estimates at this point is that the net withdrawal would involve around 25,000 men, although the precise recommendation from Gen. Creighton W. Abrams in Saigon has not yet been received in Washington. A report that President Nixon has asked the Pentagon to plan for the return of 100,000 more Americans by Christmas was labeled "speculative" by the Defense Department. Some ranking Pentagon officials believe it would be precipitous to pull large numbers of forces out of Vietnam in a short period of time and might affect the stability of the government in Saigon. Officers are calling the latest enemy effort a "high point" of activity rather than an offensive because of its brief duration. Officers are normally thought to last two weeks or more. Brief flare-ups in enemy activity, as opposed to sustained offensives, may be the new pattern of the war, officers say.

### New Award

FRANKFORT, Ky. (AP) — To encourage new education ideas, Gov. Louie B. Nunn has set up an annual award to the secondary and elementary schools with the most outstanding innovative approach to learning.

### reasons why

## Maverick is the fastest-selling new car in automotive history!

- 1. **LOW PRICE.** Maverick is the best seller of the '70s at 1969 prices. And you get your money's worth. A complete car all ready to drive home.
- 2. **LOW FUEL BILLS.** In tests by professional drivers, where we set our best to duplicate actual driving conditions, Maverick averaged 22.5 m.p.g. (Some Maverick owners report they get 25 m.p.g. and better.)
- 3. **105 HORSES.** Maverick's high-spirited 1600 cc. V-6 gives you more power than most cars in its class. You get fast acceleration, easy passing.
- 4. **PEOPLE-SIZED INTERIOR.** Maverick pinches pennies, not people. Its front seat gives you nine inches more shoulder room than the leading import. Plus lots of leg room, hip room and head room.
- 5. **EASY HANDLING.** Maverick can outmaneuver the leading economy import. It can U-turn in a tighter circle, nip around corners and slide into tight parking spaces with amazing agility.
- 6. **FEWER SERVICE CALLS.** Maverick is actually easier and less expensive to maintain than an economy import. Maverick oil changes come only once every 6,000 miles and change, hand-tightens once in 30,000 miles. The leading import recommends an oil-change twice as often and a chassis lubrication six times as often. (Maverick gives you economy without inconvenience.)
- 7. **SIMPLE SERVICE AND REPAIRS.** The Maverick Owner's Manual has 24 pages of instructions for routine maintenance jobs you can do yourself, if you wish. You can change spark plugs, replace fuel filter, adjust ignition timing, and more. Even a sandblasted grille can be replaced in as little as 15 minutes.
- 8. **WIDE-OPEN TRUNK SPACE.** No more cramming in luggage just because you have a small car. Maverick gives you 10.4 cubic feet of baggage space—nearly twice as much as the leading import. (With Maverick, you can take it with you.)
- 9. **SOLID DURABILITY.** Maverick's unitized body construction makes it light, strong and durable. And Maverick's 3 speed transmission is tough enough to handle twice as much horsepower as the engine runs out.) (Maverick may be little, but you don't have to treat it like a kid.)
- 10. **BUILT-IN SAFETY.** Unlike most economy imports, Maverick's tread is wider than the car is high. That means stability—mighty important when the road is wet or the wind is strong.

Editorial Comment

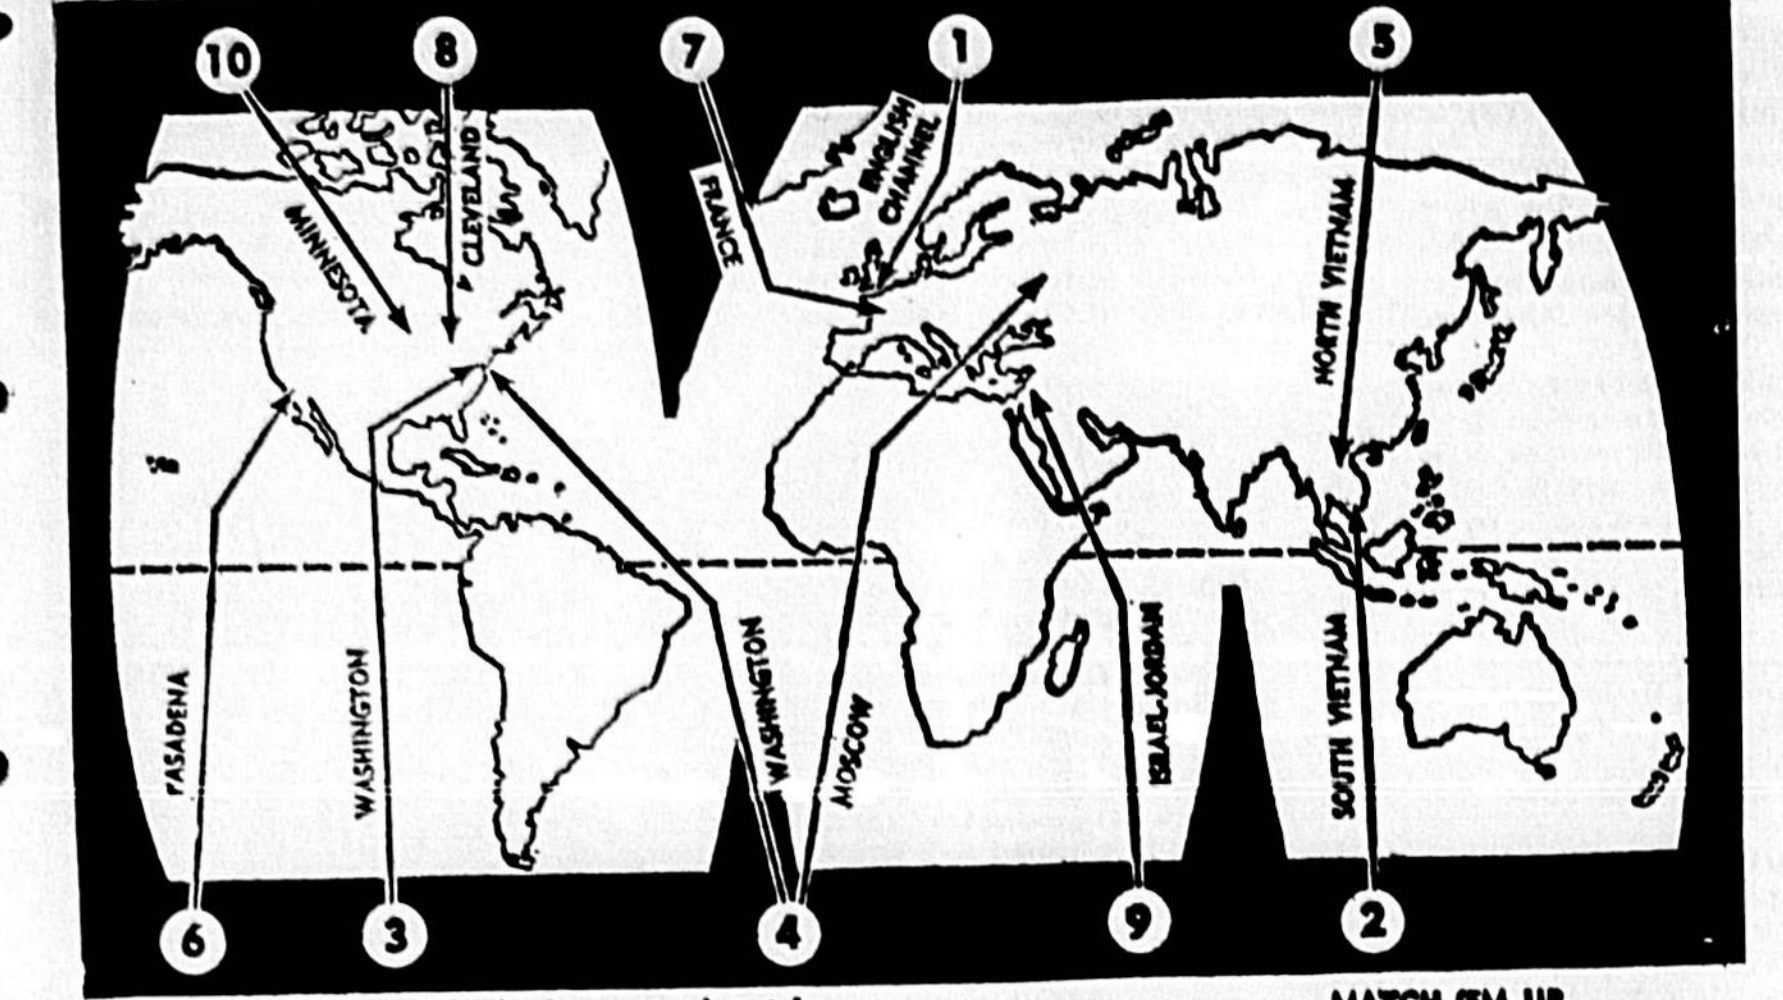

Government And Living Costs Pose Challenges

Balance of payments - dollar gap - money market - and the like formal terms dancing fiscal conditions on a global basis have very intimate, very personal and very urgent meaning for every Sanford-Seminole householder.

for government to perform the services which civilized man required. This, we admit, is a round-about way to come to the point of what would bring to our readers' attention today. Yet it does point precisely to the situation which most householders find themselves in as the dollar in their pay envelope buys less and less and the tax becomes more and more.

buy more or less of foods, clothes or housing? One way to make your dollar buy more and thus increase real wages, reduce your dollar gap, is by wise buying. The most practical way is to buy where and when the sellers are offering bargains. Try looking carefully at the advertising sections of this newspaper.

## Collins Hangs Up His Suit

By PAUL REGER  
Associated Press Writer  
SPACE CENTER, Houston (AP) — Apollo 11 astronaut Michael Collins, the man who orbited the moon while his crewmates made history, says he is hanging up his space suit and taking a nonflying job in the space program if it's offered to him.

Edwin E. Aldrin Jr., another of the Apollo 11 crew and the second man to walk the moon, also casts doubt on his specific future plans.

The third crewman, Apollo 11 commander Neil A. Armstrong, says he would serve the space program "in any capacity," including space flight.

"Apollo 11 is my last flight," Collins said Sunday during a televised interview on the CBS program "Face the Nation."

"I think it's difficult to keep up year after year, to really approach the training, the living in simulators, with the zeal that you have to in order to do a good job," Collins said. "Of course there are a lot of encroachments on my family life which I have not enjoyed."

Collins said he intends to contribute whatever he can to the space program in another job, but the 35-year-old Air Force colonel said he didn't know what that would be.

Aldrin said he expects to continue in the program, but has not decided about going back into space.

"Whether I'll remain on flight status or not, I haven't had the opportunity to make that decision yet and we have not been in a rush in making up our mind as to what we'd like to do," he said.

"I'm available in any capacity in which I could serve best," Armstrong said. He also indicated he would like to make a long space journey, such as to Mars.

Armstrong said he and Aldrin were determined to land on the moon despite alarms given by their on-board computer during the final seconds of flight to the lunar surface, but they were ready to give it up if necessary.

"We were concerned primarily for the success of the flight," he said.

# The Troubled Emerald Isle

By COLIN FROST  
Associated Press Writer  
BELFAST, Northern Ireland (AP) — The crisis in Northern Ireland moved into the talking stage today as British troops enforced an uneasy peace.

Prime Minister Harold Wilson flew back to London from an island vacation to formulate proposals he hoped would ease the likelihood of further religious warfare.

The Irish Republic asked the U.N. Security Council to meet and send a peacekeeping force to Northern Ireland. British opposition appeared certain to prevent any such action.

Pope Paul VI appealed for "reciprocal pardon and mutual agreement" between the Catholics and Protestants.

In Belfast, 100 police fought 1,000 demonstrators outside the Ulster fire in the fashionable Mayfair district. Sixty-five persons were injured in the battle, which followed marches by three Irish organizations.

At least two gasoline bombs were thrown during a barrage of stones and milk bottles.

In one isolated incident Sunday night, armed soldiers opened fire on a police station in Crossmaglen, a small market town in County Armagh two miles from the Irish Republic border.

Police said they returned the fire, and the raiders fled. No one was hurt.

## Reds Build Up Forces

By GEORGE ESPER  
Associated Press Writer  
SAIGON (AP) — A top-ranking American commander said today that more enemy red units are in position between Saigon and the Cambodian border to the north than at any time since May 1968.

Lt. Gen. Julian J. Ewell, commander of the U.S. 2nd Field Force, added that many of the units are "first-line regiments traditionally kept up to strength" but are now operating under strength.

"I can't figure out the meaning," Ewell said in an interview. "It's the first sign we've seen of elite troops being put into battle in less than a real good solid strategic figure."

The general, whose command stretches from Saigon to the Cambodian border, said parts of at least five enemy regiments have been committed north of Saigon, and at least seven fresh regiments are hidden in the jungles and available for future attacks.

Total enemy strength in the 11 provinces around Saigon where the 2nd Field Force operates is estimated at 65,000 troops.

Asked if the large number of incidents reported in the 11 provinces around Saigon at the start of the campaign, the figure has since dropped sharply but remains higher than during the two-month battlefield lull broken by the wave of attacks last week.

## Suspects Freed From Stockade

By GEORGE MARTHUR  
Associated Press Writer  
SAIGON (AP) — The U.S. Army took the eight Green Berets charged with murder out of the Long Binh stockade today and confined them to regular billets at the big headquarters north of Saigon.

The Army's chief spokesman said the seven officers and one enlisted man who are accused of murdering a Vietnamese believed to have been a double agent are no longer under armed guard.

The seven officers are confined to an officers' billet at Long Binh, 15 miles north of Saigon, while the enlisted man, Sgt. Alvin L. Smith Jr. of Naples, Fla., is in an enlisted men's billet "in another area" of Long Binh, the spokesman said.

The eight men, headed by Col. Robert B. Beahm of Vineyard Haven, Mass., former commander of all Green Beret forces in Vietnam, have been at Long Binh since their arrest July 20.

The civilian attorney for one of the officers, Maj. Thomas J. Middleton Jr. of Jefferson, S.C., charged last week that Middleton was being held in solitary confinement in a cell only 5 feet by 7 feet and without proper ventilation.

The attorney, George Gregory of Cheraw, S.C., filed a petition last week for Middleton's release, but this was denied. On Sunday he petitioned the Army for a speedy trial or dismissal of the charges against his client and renewed his charge that Middleton was confined under "inhuman conditions."

The Army began an investigation July 30 similar to a grand jury hearing to determine whether the Green Beret men would be brought to trial. The investigation was recessed Aug. 2 and is to resume Wednesday.

"Isolation of the prisoners, which was necessary during one phase of the investigation, no longer is required," the Army said in a statement today.

The statement added that the Army could not predict how much longer the investigation would last.

longer is required," the Army said in a statement today.

## Famed Heart Patient Succumbs

By HOON LEWALD  
Associated Press Writer  
CAPE TOWN, South Africa (AP) — Dr. Philip Blalberg, a new heart 19½ months ago on Jan. 2, 1968, the younger Blalberg is also a member of the Groote Schuur Hospital heart transplant team.

The certificate did not indicate whether any rejection of the heart took place.

Blalberg, who was 60, died Sunday at 7:40 p.m. An autopsy by Dr. Martin Barnard, younger brother of Dr. Christian Barnard, the pioneer transplant surgeon who gave Blalberg his new heart 19½ months ago on Jan. 2, 1968, the younger Blalberg is also a member of the Groote Schuur Hospital heart transplant team.

## Area Deaths

**GEORGE B. CHABOT SR.**  
Mrs. Elizabeth C. Trimmer, 56, of 3236 Orange Avenue, Orlando, died Thursday, Born in Philadelphia, Pa., he moved to Sanford in 1955. He was a retired chemist and a member of All Souls Catholic Church of Sanford and the Holy Name Society.

Survivors include his wife, Mrs. Henrietta Chabot, Sanford; two sons, George B. Chabot Jr., Skokie, Ill., and Leon Chabot, St. Petersburg; one sister, Mrs. Edward O'Leary, East Orange, N.J., and five grandchildren.

Funeral services were held Monday morning with Brison Funeral Home in charge.

**MYRA HUCK**  
Mrs. Myra W. Huck, 90, of Lake Wales died Friday night in a nursing home at DelRay. A native of Washington, D.C., she had resided in Bridgeport, Conn., and Portland, Me., before moving to Lake Wales in 1952. She was in charge of the art departments at Fort Edward College, N.Y., and at Washington Seminary, Washington, Pa. She is survived by three children, Beatrice, of Sanford; J. Orton Jr., of New York City, and J. Randolph Huck, of Grasse Point Park, Mich., and four grandchildren.

## Public Must Wait For Moon Rocks

By GREG HERRINGTON  
Associated Press Writer  
WASHINGTON (AP) — Americans who paid the freight will have to wait a while longer to get a personal glimpse of the moon rocks brought back by the Apollo 11 astronauts.

While the three U.S. space heroes are being mobbed from coast-to-coast, the 60-gal. cans of rock and dust they brought back are being pampered by the delicate gloves and sterile instruments of National Aeronautics and Space Administration scientists in Houston's Lunar Receiving Laboratory.

Officials still aren't saying when the rocks might be offered for public display.

But after NASA scientists finish their studies, there are 142 other scientists from around the world who also will run tests on the samples.

Present plans call for releasing about 15 per cent of the material to the scientists sometime next month.

Public displays will come after the scientists are through. Exhibits may be offered in large U.S. museums and there could be traveling displays. One problem still to be worked out is whether the samples will need to be kept hermetically sealed to prevent atmospheric damage.

Whatever the presentation, the Smithsonian Institute here has bid in for a display on a "soon-as-possible" basis.

One Smithsonian source said he is confident NASA has no intention of passing up a good public relations opportunity while interest in the moon project is high.

### From The Bench

By: Tom Alexander

This morning, if you listened very hard, you might have been able to hear the stamp of feet, the hard breathing, and the shouts of players as formal football practice got underway at all county high schools.

Since the end of last season many things have changed here in Seminole, especially the coaching ranks. The biggest switch was made in the coaching ranks. The late coach and athletic director Ralph Stumpf stepped down and became assistant coach at Oviedo High. Taking the reins of the Seminole program is smiling Dick Copeland but the Lyman mentor had to replace most of his coaching staff due to one reason or another. Leaving the Lyman ranks were Tom Joyce, Dick Evans, and Jim Farley.

Lyman also suffered a complete coaching turnaround after filling a regular season record of 10 wins and no losses in '68. Lyman's loss tonight for the Junior League All-Stars to the head of the pack at the Sanford school, taking over for Willie Hill, who will coach at Lakewood Junior High.

Looking over the teams, Lyman will be as tough as ever and could possibly have another 100 season behind the hard and determined Lyman Senior Dick Browne, one of the most outstanding backs in the nation. Charlie Matthews will also make his weight felt.

Seminole will be young but possibly very talented. Tommy Jarks will probably be the starting quarterback but look for competition from Kevin Sposki in this slot. Watch for Mike Votolone, Mike Haridin and Dana Yelincok to also be bright stars for the Seminole who finished with a 6-4 record last year.

Oviedo will be much stronger than last year as will Crooms. Sanford Naval will again have a fine team behind the coaching of Bill Klein who has brought the school from nowhere. Klein will have team take on much rougher opposition this year but this is the way he likes it. Crooms will be even money in anyone's book. Last year the Panthers had their troubles but showed that they did have a lot of hustle and determination by slowing Lyman's pace and allowing the Greyhounds only a 14-0 edge. Evans will change many things at Crooms.

This year the county ranks will see much more action from other county schools. Lyman and Crooms will tangle with Seminole and the Panthers. Seminole will meet Lyman and also Oviedo. This will be the first time the Seminoles have met the Lions from Oviedo.

Next year Lyman, who will be playing under the Double A banner this season will eliminate playing any OBC opposition. Due to scheduling problems Lyman will play OBC teams this season.

RALPH STUMPF TOM PERRIN

### Rotary Meets Creamons In City Title Series

Rotary and Creamons Chevrolet will begin their battle tonight for the Junior League All-Stars to the head of the pack at the Sanford school, taking over for Willie Hill, who will coach at Lakewood Junior High.

The series will be held at Pinehurst Park, with another game tomorrow night and the third game, if necessary, to be played Wednesday. Game time for all games will be 8 p.m.

Rotary will rely on the pitching strength of Mike Koffel and Brent Raborn, who led them to a first place finish during the first competition here in 1968. Koffel has the only perfect game of the season, as he retired 21 batters in order in the first game of the season.

Creamons Chevrolet will depend on Frank Sloan and Donald Brown to handle the pitching chores. Creamons coasted to a 10-0 second half victory before the strong arms of Sloan. Sloan pitched a no-hit performance during the second half.

Rotary will be much stronger than last year as will Crooms. Sanford Naval will again have a fine team behind the coaching of Bill Klein who has brought the school from nowhere. Klein will have team take on much rougher opposition this year but this is the way he likes it. Crooms will be even money in anyone's book. ## At All Local High Schools Grid Sessions Get Underway Today!!

Here we go again. The football season will soon be getting underway. The first few practice sessions will be workouts to get into shape before the rough contact begins. Lyman, hoping to repeat last year's undefeated season will be under the guidance of Coach Dick Copeland. Copeland has lost several of his coaches from last year's staff who have a lot of new faces on the staff as they begin practice. The schools are scheduling their biggest loss was Crooms' Dick Evans, coaching at Seminole High, has taken over the role of head coach at Crooms High.

The Crooms staff will feature Orlando Padner stand-out Bob McAdams and Lamar Richardson. The Panthers better last season's record. Oviedo football practice got underway bright and early today as they hit the field at 7:30 this morning. They also will be hoping to better their record of last season.

Tom Perrin, the new football coach at Seminole High, got his first contact with his squad out at 7:30 also. Perrin, who comes to Seminole High with an impressive winning record, will be looking to post a better record than last season's mark of 6-4.

Seminole will be featured in a four-way jubilee in Winter Garden Sept. 5, as an added treat for all Seminole High fans.

## Major League Standings

Table with columns for National League, American League, East Division, and West Division, listing teams and their records.

## Jets Romp

By ROBERT MOORE. Associated Press Sports Writer. The Jets today belong in pro football history books for the fact that they have won their first Super Bowl.

Namath insulted the Giants pass defense by completing 14 of 16 passes for 188 yards and three touchdowns. So, once again, the cool and controversial Namath, as he did in the Super Bowl, made good his pre game boast.

"I don't think too many people are going to take the Giants seriously any more."

## Ray Floyd Caps PGA

By HAL PARIS. Associated Press Sports Writer. DAYTON, Ohio (AP) — Ray Floyd, one of the young rising stars on the professional tour, says he learned a lesson from his one-stroke victory in the PGA Championship.

"After today, I know I'll never play safe again. It's not my game," he said after edging slick Gary Player for the coveted title.

The 26-year-old native of North Carolina skidded to a 74 Sunday for a 72-hole score of 276 en route to his third major victory and his first major triumph in an eight-year career. He was eight under par for the distance.

"I feel lucky," said the hand-some, curly-haired pro. "It's a good thing none of the others had a hot round. I can only remember five or six shots I was played with."

Player, the diminutive South African bidding for his second PGA conquest, finished with a 76 on 27. He started the day five strokes back, rallied to within one shot going to the 16th hole but missed the putt.

Yuse Bert Greene closed with a 71 for 27, two back of Floyd, while Jimmy Wright finished fourth at 279 after posting a 71, Larry Zigler, 28, and vet Earl Miller Barber, 28, tied at 280.

Deadlocked at 281 were Chicago's Coody, U.S. Open champ Ernie Moody and Terry Wilcox.

## Best Houston 11

By B. F. KELLUM. HOUSTON (AP) — Salt-spoken Coach Wally Lemm says this year's edition of the Houston Oilers could be the best Houston team he has ever coached.

"This would make it a pretty salty outfit because Lemm, beginning his fifth year as head man of the Oilers, guided Houston to an American Football League championship in 1961 and to an AFL Eastern Division title in 1967.

## Cubs Manage Split With Giants

Elsewhere, the Mets swept San Diego by identical 3-2 scores. St. Louis trimmed Atlanta 8-5. Los Angeles trounced Montreal 9-3 and Houston edged Philadelphia 3-2.

That left the NL West in its daily state of confusion, with the Reds one game in front of the Dodgers and 2½ ahead of the Astros, Giants and Braves.

In the American League, Minnesota, nipped Washington 4-3 in 13 innings. Detroit shelved Oakland 9-4. Baltimore downed Seattle 4-1. Boston shod Kansas City 1-0. The New York Yankees took the Chicago White Sox 6-2 and California tripped Cleveland 7-6.

The Cubs-Giants game was a cut-and-dried affair. Jim Hickman's 11th homer gave Chicago a 1-0 lead. Mays' 11th homer and 58th of his career put the Cubs in front 3-1, and the Giants tied it in the sixth. Bonds and the left-hander retired pinch hitter Jim Hart on a tap back to the mound.

An inning later, McCovey walked intentionally and with one out Ken Hensley on singled. With Mays striding to the plate as a pinch hitter, a real pitcher was just around the corner, so Hensley needed a big one of his strongest relief — Reagan.

The 23-year-old veteran slipped a called third strike past Mays, retired Don Mason on a grounder and sent the Giants down 7-1 on the sixth inning. Bonds and Hunt called third strikes.

23rd homer in the fifth after the Cubs had gone ahead 3-0. With two out in the seventh, Bonds and Tom Hunt singled and Buscher started to feel the first symptoms. He called for a 1-0 lead, Mays' 11th homer and 58th of his career put the Cubs in front 3-1, and the Giants tied it in the sixth.

An inning later, McCovey walked intentionally and with one out Ken Hensley on singled. With Mays striding to the plate as a pinch hitter, a real pitcher was just around the corner, so Hensley needed a big one of his strongest relief — Reagan.

The 23-year-old veteran slipped a called third strike past Mays, retired Don Mason on a grounder and sent the Giants down 7-1 on the sixth inning. Bonds and Hunt called third strikes.

23rd homer in the fifth after the Cubs had gone ahead 3-0. With two out in the seventh, Bonds and Tom Hunt singled and Buscher started to feel the first symptoms. He called for a 1-0 lead, Mays' 11th homer and 58th of his career put the Cubs in front 3-1, and the Giants tied it in the sixth.

## Pearson Roars To Yankee Win

By BLOYD BRITT. AP Auto Racing Writer. Dennis Hulme, Al Unser and David Pearson denied their already healthy bankrolls in auto racing during the weekend, while old pro Ernie Furrer merrily along toward his 10th short track driving title.

Hulme, former world Grand Prix champion, So, once again, the cool and controversial Namath, as he did in the Super Bowl, made good his pre game boast.

"I don't think too many people are going to take the Giants seriously any more."

Training School Status In Limbo

Sanford Industrial Commission Director Don Rathel yesterday informed the commission that status of the proposed job training school at Sanford Airport was "sad" meaning for the present time the proposals of Aveco Corporation and General Electric to establish a training school to teach various job skills is in limbo.

TUESDAY Headlines Inside THE HERALD World News

A Northern Irish interchurch committee calls for more use of British troops while the IRA sounds new threats. (Page 2)

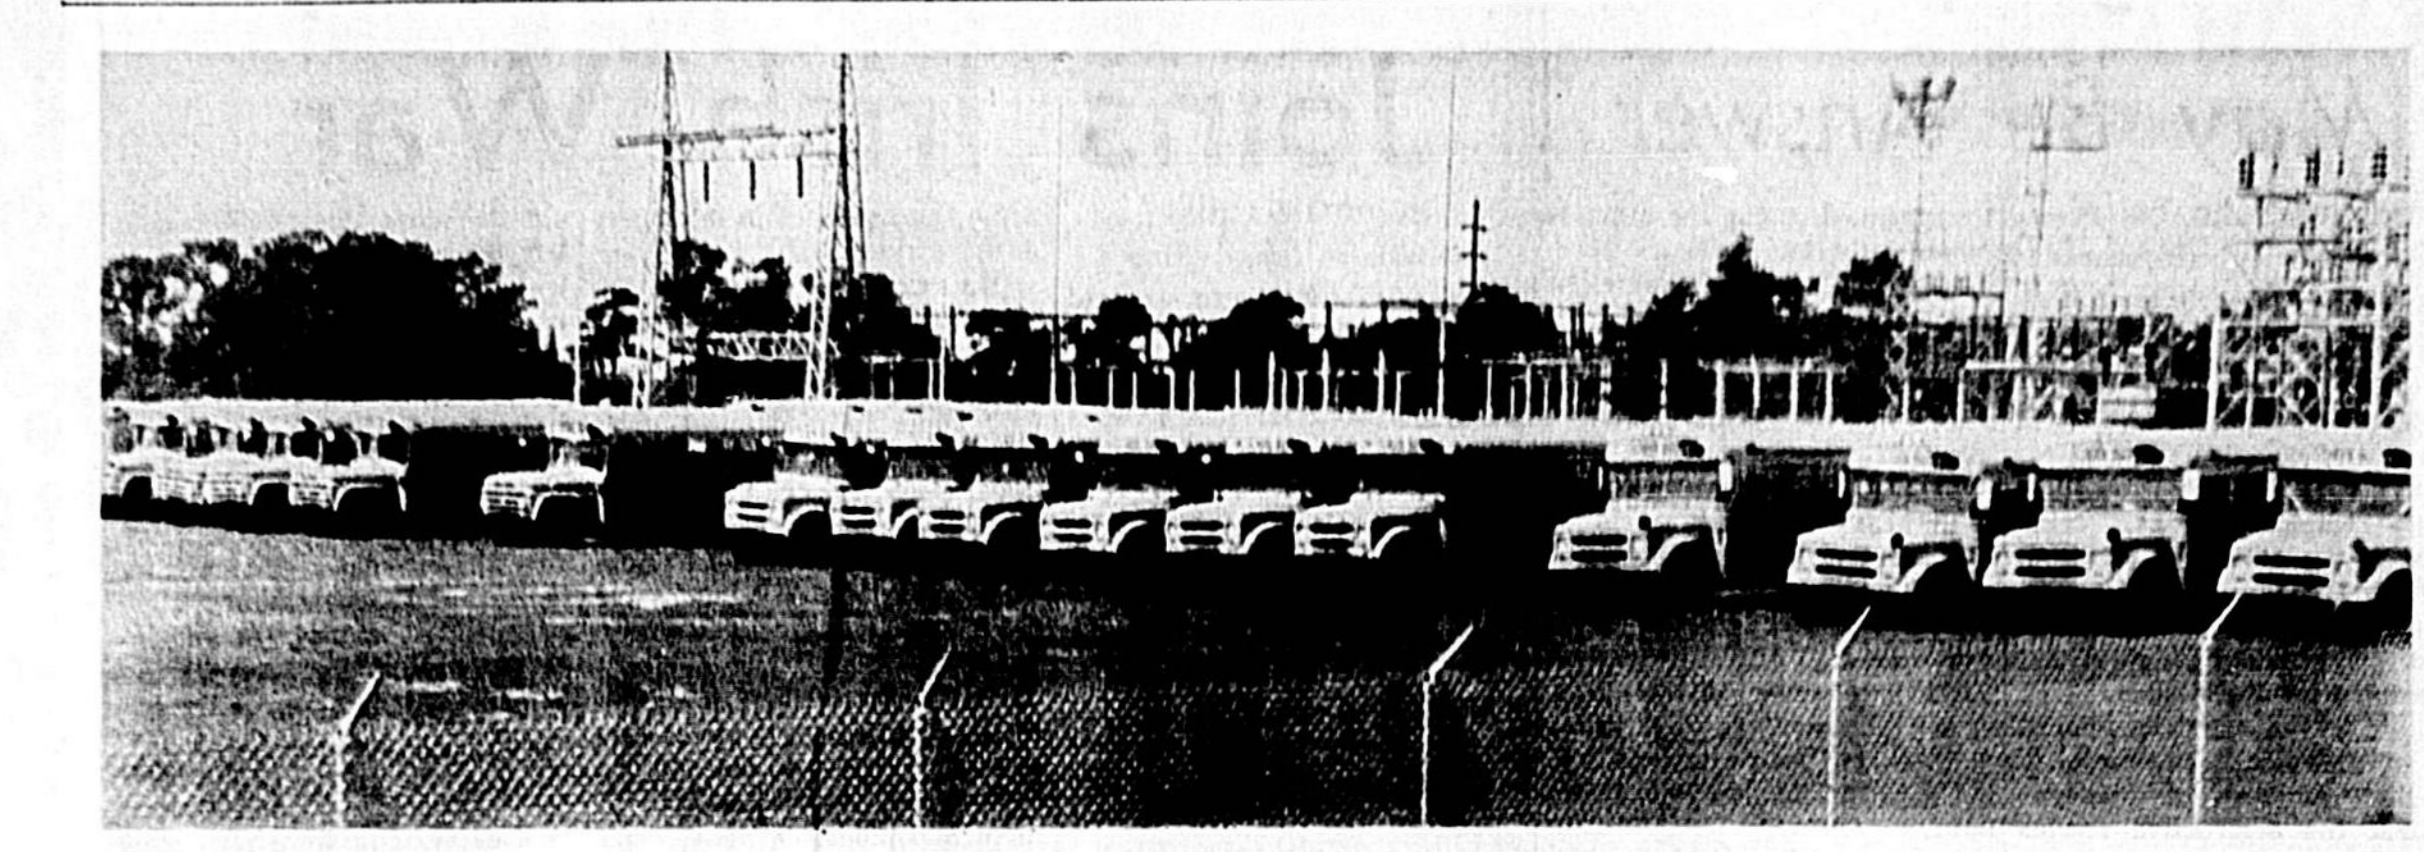

Death toll reaches 100 as information trickles in from Mississippi's hurricane ravaged coastal strip. (Page 2)

Big coaching change hits Lyman and Seminole. Porter quits, Daugherty now Seminole assistant principal. (Page 7)

Joe Hardenbrook, weak with the flu, dives into icy river to save a man's life. Today he receives a bronze medal and \$700 for brave feat. (Page 3)

Sparked By City Manager SIC Tightens Airport Leases

By BILL SCOTT
Sanford City Manager W. E. Knowles, newest member of the Sanford Industrial Commission, (SIC) succeeded at Monday afternoon's commission meeting in getting board approval of all future SIC leases of property at the Sanford Airport.

HEY KIDS, look what's waiting for you two weeks from today. New school term of 1969-70 opens with first classes on Sept. 2.

Feasibility Study Coming Shortage Of Building Money Cited

By DONNA ESTES
Work on feasibility study for four capital improvement projects which may be placed on the ballot in the general election this November was split between architectural firms of Switzer and Switzer and John Burton IV by the Board of County Commissioners today.

OUCH! FORT LAUDERDALE, Fla. (AP) — Deputies ran down prisoner Ozzie W. Brown after a two-block chase.

PLAY BALL . . .

By JOHN A. SPOLSKI
It's been said that "all good things take time." In the minds of some of the citizens of this area, having a major league baseball team conduct its spring training in Sanford would be a "good thing."
