**CLIFFORD JORDAN** ... 'pitfalls to look for

LEE MOORE 'Sanford will help you'

The first in what probably will be a series of 'Town Meetings' was attended by more than 275 residents of Lake Mary last night at the Lake Mary School auditorium where a panel of speakers discussed Sanford annexation versus incorporation or to stay 'as is'.

Serving on the panel, which accepted written rom the floor, were Harlen Hanson, of the Orange-Seminole-Osceola Joint Planning Commission; Randal Chase, local resident of Lake Mary and prominent Sanford businessman; Attorney S. Joseph Davis, and the mayors of North Orland and Sanford, Clifford Jordan and Lee Moore, respectively, During the two-hour meeting, the speakers presented

varied views on all three points as well as fielding profound Davis cleared the air when he replied, "Yes, Lake Mary could be annexed to Sanford, providing that the land in be

tween the current boundaries was also annexed and that it (Lake Mary) be contiguous to Sanford. And most importantly that both parties show an interest to proceed with annexatic your natural appeal, people will want to live here. You're

right in the path of commercial development, along with a residential increase . . . it's going to change and get larger. What has to be done now is to decide on what services you want and make the proper advance planning to accommodate the growth pattern."

Randall Chase proposed a special tax district, where when problems warrant it, a special assessment could be levied to handle the items, whether they were for fire or police protection, or street improvements, etc. All of the moneys collected via this assessment would be used solely for that purpose and the taxation would rise and fall, depending on the needs of the community.

North Orlando's Mayor Clifford Jordan cited that Lake Mary's current position is similar to those shared earlier by the residents of North Orlando. "There are pitfalls. But basically, you have to decide what you want in services and whether you want to be governed by a city or county government. As far as I'm concerned, a city form of government is better because it's closer to the people as compared to the county type which doesn't have the flexibility. They usually have to clear But the nation has its better section and southern portions of things through Tallahassee." said Jordan.

> interested in Lake Mary. But, we're not interested in forcing anything onto anyone.

Mankind was introduced by the chairm always been antiens to know Ged and to have a sure of the Commission of Missions nertiain faith in His love and morey.

The Christian message is called "Gospel" — "Good News" because it is exactly that. The one great aspect of communi-ting the Gospel to others is that we don't have to depend on our words for others to discover the message. We show both our faith in our lives. And, if we fail for words, we can always fall back on the words of our Lord, Jesus. Jesus' words seem to strike home and make sense to everyone. The Good News begins with Christmas. God loved the world so much that He sought the one way in which men could behold the truth of his love and grasp it to themselves. He sent His Son into the world to be a man, and to share all the The Christian measure is called "Gospel" - "Good News" Sullivan.

## Better Mean It

We ness along to our readers the following. man because we think it necessary to cite any further proof of the "pulling power" of advertining in a good newspaper, but because it is an amusing story:

Mark Cross of New York ran a small space ad Ser a handbag sale. The sale featured 120 handtage regularly priced from \$60-\$200 (and six Mentor bags valued up to \$460) for the sale mice of \$85. The store was to sell a bag-e-minthe for 120 minutes. What happened?

Within 12 minutes after the store opened the merchandise was gone, one woman's handbag had been stolen, another woman was bitten by a follow customer, salesgirls fought their way to safety and were replaced by a male service mew, 40 extra bags were put out to pacify cussomers and the police were called. George D. Wasserberger, the store president, was asked if the store would run another sale. He said. "Well. yes, but not tomorrow."

This sneckote has several points, we suppose. One is that lady shoppers are a hardy lot and too much for most merchandisers to handle with only ordinarily tough sales forces when aroused by the scent of a bargain. Another is don't advertise a sale on our pages unless you have the goods to back it up. Don't ask us to print it if you don't mean it! - Greenville (S. C.) News

The Sanford Terald

PRANK VOLTOLINE, Circulation - General Manager

WRID VAN PTIAT

It is, therefore, with considerable satisfaction that we see words from Francis Roumillat Jr., Port Administrator, which emphasize not only the obvious good effects that the nort will have on our local economy, but the benefits for all of Central Florida. Construction of Disney World is proceeding a-pace. It demands large amounts of bulk materials. One need not be an informed economist to recognize that waterborn transportation is by far the chapter. This the Port of Sanford will supply. Add to this the mileage factor which will allow

bulk cargoes to be unloaded in our port and then shipped along 1-4 to Disney World, a distance of about 80 miles thus vastly reducing the mileage re-quired for overland shipping from any other port.

HOW TALL CAN MAN GET?

**Editorial Comment** 

Both in the matter of the port and specifically in the speeding of the canal Sanford is fortunate in having in Washington two senators of differing po-litical persuasions but similar in their understanding

of the value of these two projects to Control Florida in Senator Spaceard L. Rolland (D) and Senator Ed-ward Gurney (R). Senator Holland moved immediately to ask the Senate Public Works Committee, Senator Jennings Bandolub (D) chaines Committee, Senator Jennings men of Sanford have been vitally and effectively con-What all of these must now see is the breaking light in skies which have been stormy to the point of deep blackness, at times, and the dawning of a truly new and bright day for Sanford, Central Flori-Randolph, (D) chairman, to give priority to removing an existing block to the annal's new alignment as the senate met for business. This is the kind of practical da and the loosening of chains which have held back progress on the waterways.

## Spacemer In 'Canyoi Of Heroes'

NEW YORK (AP) - The Apollo 8 astronauts come to New York today to take another spectacular ride, this time through the "Canyon of Heroes" amid a blizzard of ticker tape. A daylong program of honors

and festivities await them. The spacemen, Air Force Col. Frank Borman, Navy Capt. James A. Lovell Jr., and Air Force Lt. Col. William A. Anders, with their wives and children, arrive at LaGuardia Airport at 11:15 a.m. EST. They were in Washington Thursday. Plans called for them to travol by motorcade from the air-

pert to Whitehall Street in lower Manhattan, where they transfer to open cars and start up Broadway to the City Hall. This is the "Canyon of Heroes."

Three of their predecessors in space travelled this route, cheered by millions of New Yerkers. They were Lt. Col. John Glenn Jr., the first American sent inte orbit, in 1962, and the late Virgil I. Grissom and John W. Young, the Gemini astronauts, in 1965.

MRS. OSCAR M. DENNIS JR.

MISS JULIE KAYE HUTCHINSON

# Betrothal Revealed

Mr. and Mrs. Frank R. Hutchinson of Sanford announce the engagement and approaching marriage of their daughter, Julie Kaye, to Paul Eugene Caudill of Orlando, son of Mrs. Orval Caudill and the late Mr. Caudill.

The bride-elect is a graduate of Seminole High School. While a student there, she served as president of Future Homemakers of America, earning her chapter and State degree; vice president of Candy Stripers; and president of Teens of Tomorrow 4-H Club. She was also an active member of Tri-Hi-Y,

Drama Club, French Club, and Para-Medical, Miss Hutchinson also served as a tutor, and in her senior year she was chosen as "Outstanding Student" by the newspaper staff. She is now a sophomore at Seminole Junior Col-

lege, where she is a member of Young Republicans. She was also program chairman for the Baptist Student Union during her freshman year. She is employed as bookkeeper for the Southern Industrial Savings Bank of Orlando. Mr. Caudill is a graduate of Boone High School.

After completion of his tour of duty with the U.S. Army, he is now employed by the central office of Winter Park Telephone Co. The wedding will be an event of Feb. 15, 1969 at 7:30 p.m. at the Elder Springs Baptist Church.

All friends of the couple are invited to attend the wedding and reception immediately following in the church social hall.

# **FAA Takes Property** For Use By Sanford

City of Sanford will receive the Sanford Naval Air Station for free from the Federal Aviation Agency as soon as an application for the base can be made to the FAA by city officials. This acquisition includes the entire base-approximately 1,-800 acres, including the 138-acre cantonment area which General Service Administration (GSA) had sought to sell to the city for \$700.000.

City will not be required to pay anything for the property as the base has been taken by the FAA away from the GSA for the purpose of an airport under a law used here for the first time, which gives the FAA authority to take hased - out government property for establishment of an airport, if the need s considered severe. This information was made

known during the weekend to Sanford Commissioner W. Vincent Roberts.

Roberts received a telephone call from Neil Peterson, an aide with Vice President Hubert H. Humphrey, who ad-vised the former mayor that the FAA legal counsel had decided to take the entire base for an airport and would offer Dr. Edith Duerr is expected
