ARRIVAL OF BERENGARIA DOES NOT CHALLENGE LAW SAYS BRITISH GOVERNMENT

AMERICAN OFFICIALS STILL HAVE RIGHT TO BREAK SEALS

AND CONFISCATE Liquor or Any Other Goods Sealed at British Ports Beyond Three-Mile Limit

(By The Associated Press)
LONDON, June 22.—In connection with arrival of liner Berengaria at New York is declared in well informed quarters here the British government in no way challenges the authority of American officials to break British consular seals and confiscate liquor or any other goods sealed at British port which ceases once the three mile limit is passed.

WASHINGTON, June 22.—Beverage liquor brought into American territorial waters under foreign government seals will be seized. This policy was announced late yesterday at the treasury and when the liner Berengaria docks at New York today, customs agents will break the British customs seals that guard her beverage liquor stores and take charge of them. Any other attempts to bring intoxicating beverage in, three mile limit, it was declared will be dealt with in same fashion.

Announcement of the treasury's determination to stand pat on its regulations, issued to carry out the recent supreme court ship liquor decision was made after a day of conferences between Secretary Mellon and his advisors and officials of the state department. It came after Mr. Mellon had made it known that the decision of the treasury would remain confidential until an occasion arose requiring action. It was nevertheless made clear that the decision was unqualified and positive.

The procedure to be followed in the case of the Berengaria and it is assumed in respect to other ships making like efforts to retain beverage liquors sufficient for homeward voyages, provides for the seizure of sealed stores, their transfer to the bonded warehouse and the issuing of receipts to masters of the vessels involved. No trouble is anticipated, for, in the cases of the Berengaria and the liner Olympic, which is now on the seas bound for New York, the American agents of the lines operating the vessels have been fully informed of what the treasury intends to do.

Assistant Collector Stuart of the port of New York conferred with the lines agents yesterday and advised Assistant Secretary Moss of the treasury by telephone that each shipping representative will file a formal protest against the American government's action as soon as it is taken. Such protests, in the natural course, will be forwarded to Washington, for consideration. Neither Mr. Mellon nor Mr. Moss would discuss possible action by the treasury on the protests, the former explaining that such a course was the obvious one for the shipping companies to take under the circumstances.

The treasury was left no alternative in deciding what to do, it was stated officially, although Secretary Mellon had said he regarded as a grave question the right of the government to break the official seal of a foreign power. The secretary, however, explained he was not a lawyer and would necessarily have to seek legal advice on that phase. He was informed, however, by advisors in his own department that the seals did not constitute a bar to the seizure of commodities held contraband by American law.

Mr. Mellon, in making known the department's policy after a conference with Secretary Hughes said the treasury felt concern of its position and proposed to adhere strictly to the supreme court's construction of the eighteenth amendment and the Volstead law.

There was some argument that the seizure of the liquor stores might be made the occasion for a new legal test, but these were discounted at the treasury where an official view was expressed that this would be

Temporary Injunction Restraining Simmons from Divulging Secrets

TO NEW ORDER OF KAMELIA— LADIES CAN'T KEEP SECRETS.

(By The Associated Press)
ATLANTA, Ga., June 22.—Temporary injunction restraining Emperor Simmons of Klan and others from "giving away" secret rituals of the Klan to the newly organized Knights of Kamelia was signed late yesterday by Judge Humphries, became known today. The order was issued in response to a petition filed by representatives of the Klan faction headed by Imperial Wizard Evans. The court's order set hearing for Saturday.

Shipments of Coal From Abroad to U. S. Must Not Be Held

SHOULD MINE WORKERS OR FOREIGN UNIONS ATTEMPT IT—LOOK OUT.

(By The Associated Press)
WASHINGTON, June 22.—Any attempt of United Mine Workers of America in combination with unions of foreign countries to prevent shipment of coal from abroad into United States during progress of coal strikes here, will be "prevented by government of United States promptly and forcefully," Attorney General Daugherty, declared in a letter to federal coal commission.

EDITOR SAYS PRESS MUST LIVE UP TO ITS MORAL OBLIGATIONS

(By The Associated Press)
ST. LOUIS, Mo., June 22.—A free press in a free nation is the champion of individual liberty, if it is loyal to the moral obligations imposed by its political rights, James T. Williams, Jr., editor of the Boston Transcript said in an address here yesterday by the 14th annual convention of Rotary International. "A free press is the enemy of propaganda that paints pictures to deceive those who seek truth," he said. "A free press is alive to its responsibilities, is always at war with shame and hypocrisy who ever they stalk and whatever they grab.

"To find the facts; to publish the facts, is the primary function, its constant responsibility and its imperative duty. To interpret the facts, to stimulate thought about them; to provoke discussion, to learn opinion, the direct opinion, to study opinion, all these things the free press must strive to do if it would be a teacher, an interpreter and a leader."

TO CONTINUE USE OF PLANES TO KILL WEEVIL

WASHINGTON, June 22.—Use of the heavier planes in developing methods for dusting cotton to kill the boll weevil will be continued during the summer at Tallulah, La. It was announced today by the department of agriculture.

Several plantations near the landing field have been mapped and arrangements made for dusting the cotton with planes. Laboratory officials expect to have a fairly satisfactory permanent hopper installed in one of the planes for use in actual control work during the summer. Several types of dust hoppers have been made for meeting new conditions, it was announced, but it is believed some time will be required to develop a practical design.

seen for court action. It appeared that if any legal fight is brought it will be predicated upon the treasury's administrative practices and will hardly embrace an attack on the law itself. In case such a contest comes, it was said, the decision of the court will constitute a declaration as to whether the treasury has properly applied itself to the decision of the supreme court.

PRESIDENT HARDING AT ST. LOUIS HEADS BIG AUTOMOBILE PARADE MADE TALKS TO ROTARIANS

Asserts That Service is the Greatest Thing in the World Today

ST. LOUIS, June 22.—President Harding's special train arrived in St. Louis at 4 p. m. yesterday.

Leaving the train the president headed an automobile procession thru the central part of the city to the coliseum, where he made a brief talk to Rotary International.

At the coliseum immediate members of the president's party and newspapermen traveling with the president were forbidden by police to enter the auditorium to hear the president speak.

Mayor Henry W. Kiel presented Mrs. Harding with a bouquet of rare orchids, natives of seven different tropical countries. The bouquet, which was made up by the Missouri Botanical Garden, and which were furnished by plants imported from Brazil, Columbia, Ceylon, Mexico, China, India and Guatemala.

Thousands of persons lined the streets and cheered the chief executive. The procession which was led by mounted police through decorated streets, went seven miles. A mile

(By The Associated Press)
intervals Rotary bands played patriotic pieces.

In his address to the Rotarians, stenographic copies of which were furnished newspapermen, the president said: "If I could found Rotary in every community throughout the world, I would do it and then I would guarantee tranquility and the forward march of the world."

Asserting service was the greatest thing in the world, Mr. Harding told the Rotarians that "if you could plant the spirit of Rotary throughout the world, and turn it to practical application, there would not be much wrong with the human procession."

"And the thing the world needs today more than anything else," continued the president, "is to understand that only service will make the restoration that came of the tumultuous world war and if we can all get down to service, human service, honest service, helpful service, the things that humanity must do to make the recovery, then there will come out of the great despondency and discouragement and distress of the world a new order."

HOTTEST WEATHER ON RECORD IN MANY OF NORTHERN STATES, —SOUTHWEST HAS BIG FROST

West Has Reports of Cooler Weather for the President's Visit

(By The Associated Press)
CHICAGO, June 22.—The longest day of the year also was the hottest in many sections of the country and sweltering inhabitants of the present heat belt found it hard to believe that elsewhere in the United States ice had formed outdoors during the night.

The oppressive heat which spread over Chicago and the Middle West Monday and has since spread to the Atlantic coast, continued here today. More than twenty prostrations were added to the list of seventeen dead and numerous prostrations.

Western New Mexico is in the grip of a cold wave that has damaged garden truck, according to reports. Ice formed so thick at McGaffey that it had to be broken before stock could be watered. "The most severe frost ever recorded in June hit lowlands and mountains alike the report added. Superior, Wis., which recorded its maximum temperature of the year Tuesday, reported that straw hats were shivered in a hurry today and overcoats brought out when the temperature dropped more than forty degrees in twenty-four hours.

The northern Rockies report unseasonable cool weather, Salt Lake City, Utah, even forecasting a "cool" reception for President Harding when he arrives there early next week.

While relief has been promised the East, the temperature is expected to continue high in the Chicago territory for the remainder of the week. Local thunderstorms are expected to provide only temporary relief.

COLUMBUS, Ohio, June 22.—Five more deaths due directly indirectly to the hot weather were reported in Ohio today, bringing the total of those who have died from heat causes in the state since Monday to twenty-seven.

The only hope for relief held out by United States Observer Alexander here was for the lake region; it may be a little cooler there tomorrow, he said.

Maximum temperature for the state were reported from mail sections of the state.

At Tiffin, it was 97. Upper Sandusky reported 95.1-2. The Columbus maximum was 92.

NEW YORK, June 22.—New York slided toward the promised close of its first real heat wave of the summer last night with a record of fourteen deaths and prostrations that were numbered in the scores.

Freshening northwest winds springing up after the mercury had mounted to 88 degrees at 1 o'clock, brought some relief to the suffering millions.

(By The Associated Press)
WASHINGTON, June 22.—Temperatures today, as reported to the weather bureau here, ranged from 28 degrees at Flagstaff, Ariz. to 100 degrees at the highest on record during June green in Philadelphia and Baltimore for either city.

Washington and Harrisburg reported a maximum of 98 degrees. Boston 96, New York city 94 and Atlantic City 90. During the afternoon, according to reports to the weather bureau, cooler weather became a reality in the New England and in interior New York state. In the West, the plateau and the northern Rocky Mountain regions were in the grip of abnormal cool weather.

Last night's forecast was for somewhat lower temperatures today in the lower region, the Middle Atlantic states and New England, with warm weather continuing today and Saturday in the Ohio and Mississippi valleys and the plain states. Scattered thunderstorms were forecast for the South Atlantic and East Gulf states.

Despite the almost record-breaking heat, no prostrations ending fatally were reported here today.

SARASOTA MEN IN ALTERCATION ONE IS KILLED

WIFE IS SHOT BY MAN AND HUSBAND KILLS HIM

(By The Associated Press)
SARASOTA, Fla., June 22.—Edward Andrews, fisherman, was shot and killed in Midnight Pass, near here yesterday and Mrs. B. Britt was shot in the abdomen and her husband, a fisherman, was placed in the county jail after the shooting which followed an alleged quarrel over the fishing rights. Britt declared he shot in self defense. How the woman was wounded was not developed.

SARASOTA, June 22.—Britt said today, according to Sheriff Hedges, that he shot Andrews after Andrews shot Mrs. Britt and threatened Britt. Mrs. Britt confirmed her husband's story. The coroner's jury charged Britt with murder.

The 14-day June Sale at Churchwell's continues to be the talk of the town. The extremely low prices on a choice selection of goods is bringing the crowds to Churchwell's where they sell for cash and sell cheaper.

DEMOCRATS TO REGAIN POWER, SAYS TRAMMEL

SENATOR SEES NATION-WIDE DISSATISFACTION WITH ADMINISTRATION

Return to Democratic control in both houses of congress, and election of a Democratic president, were predicted yesterday by United States Senator Park Trammell, in the city for a few moments, motoring from the east coast to Lakeland.

Senator Trammell said dissatisfaction with the Harding administration was increasing daily all over the country and that since the last congressional elections, which disclosed a pronounced tendency to turn again to the Democratic party, the anti-Republican sentiment had been steadily increasing.

"In Florida we hear very little discussion of partisan politics, but in other sections of the country, especially in the middle west and the great agricultural centers, the political speculation is not who will be the nominees for the presidency, but who the Democrats will nominate. The voters seem to believe the Democratic nominee will unquestionably be the next president."

The senate has been practically conceded by Senator Moses of the Republican senatorial committee. Although there is less certainty about it, the house is very likely to be Democratic by a substantial majority, Mr. Trammell said.

The senator laughingly referred to Chairman Lasker's "million dollar joy ride" on the steamer Leviathan, with 600 guests. He indicated he hoped Senator Fletcher would ascertain what the trip accomplishes, if anything, and just how much it is to cost the taxpayers. An investigation by congress to determine whether there was any justification for Mr. Lasker's big party is being considered.

Dillard Thinks Negro Migration to Result in Good

CAMBRIDGE, Mass., June 22.—The present migration of negroes from the South is a natural progress which will result in good, James Hardy Dillard, of Charlottesville, Va., said in an address at the Harvard Alumni exercises yesterday.

"Advanced works of negro education," he said, "is remarkable, especially in the amount of public funds appropriated. The colored people are showing each year remarkable growth in holding property, in undertaking business projects, and in supplying from their own ranks the professional needs of the race. The Southern white people are more and more recognizing these facts.

"Sixty years is a short time in history, for any great readjustment. There must be, of course, ebbs and flows and now and then special movements. Just now, for example, we are interested in the renewal of the migration to the north and west. It is a natural process that will result in good, and it will not change the fact that the great majority of these colored people will continue to live in the South, and in the South, on the whole, I think the advance toward better understanding between races in a new relation is as fast as it could well be in order to progress steadily without harmful reaction. I am more and more convinced of one fact, that it is not wise to be continually pulling up the plant to see how it is growing."

JAIL IN HOUSTON IS THREATENED BY MOB OF 2,500 PERSONS

HOUSTON, Texas, June 22.—Approximately 2,500 persons late last night were congregated around the county jail where are confined three Goose Creek residents who refused to answer questions propounded by a grand jury which is investigating a series of whippings.

As precaution against possible violence the day police force was put on extra duty.

The oldest paper money was that used in China in 2607 B. C.

BALTIC SLIPPED INTO PORT WHILE OFFICIALS AWAITED TO SEIZE SURPLUS LIQUOR

Man Who Stole Three Millions Bonds Caught at Tulsa

THE ARGENTINE GOVERNMENT BONDS RECOVERED YESTERDAY.

(By The Associated Press)
TULSA, Okla., June 22.—Walter Chitwood, young Indian attorney, of Tulsa and Con Sullivan, described by federal authorities as wealthy gamblers of Tulsa and Fort Smith, Ark., are in federal jail at Muskogee, following recovery late yesterday of \$14,000 in Argentine government bonds which authorities say are part of approximately three million dollars worth stolen two months ago in a daylight robbery in New York.

Great Play at H. S. Tonight "The Girl From Upper Seven"

The greatest success of the year—"The Girl From Upper Seven"—will be given again by special request tonight at the High School Auditorium. This play has been granted the palm for being one of the best ever given by high school talent and it drew two crowded houses during the school term. It is being repeated by special request for the benefit of the DeMolay chapter. The tickets are going fast and you should buy them and be there at 8:15 tonight and get you a good seat. "The Girl From Upper Seven" is great and you will enjoy every bit of it.

RETAIL JEWELERS ASSOCIATION CONVENTION ELECTED OFFICERS

GAINESVILLE, June 22.—The following officers were elected to serve the Florida Retail Jewelers Association the coming year and were duly installed at the closing business session of the convention in this city yesterday afternoon:

T. S. McLaughlin, of Winter Haven, president, re-elected; Alvin Magnon, of Tampa, vice president; H. L. Coles, of Gainesville, second vice president; N. Weil, of Jacksonville, secretary, re-elected; L. C. Hull, of Plant City, treasurer.

The following directors were elected: Earle Middleton, of Miami; Sterling Smith, of Jacksonville; Alfred Hess, of Jacksonville; E. P. Allen, of Orlando; and W. E. Payne, of Bradenton.

Orlando was chosen as the meeting place for the 1924 convention. The second day's session of the convention was called to order yesterday morning at 10 o'clock in the Woman's club by the president, T. S. McLaughlin, of Winter Haven, followed by unfinished business of the preceding day which was disposed of. The feature address was made by W. M. Pepper, president of the Pepper Printing Company of Gainesville, on Business Ethics, and furnished much food for thought and good business advice. A most interesting feature was the debate on the Value of the Horological Institute.

Adjournment was taken for lunch at 12:30 p. m., and business resumed at 2 o'clock. The afternoon session was featured by the address by Mr. Alfred Hess on Price Maintenance, followed by election of officers and selection of next convention city.

At 4 o'clock adjournment was taken and a trip to Poe Springs and a swim were enjoyed, and at 7:30 p. m., a sumptuous banquet at the White House, featured by several short talks and several of the songs, ending with The Star Spangled Banner, brought the fourth annual convention to a most successful close.

It is said that the Florida association has more members in proportion to the number engaged in the jewelry business than any other state. Over 85 per cent are members, while in some states with approximately the same number, less than 30 per cent are affiliated with the organization.

Bound travel through wood faster than it will through air.

WAITING TO CATCH THE BERENGARIA AND BAL- TIC BEAT HER IN

LIQUORS SEIZED

And Will Be Carried to Bonded Warehouses—Outcome Awaited With Interest

(By The Associated Press)
WASHINGTON, June 22.—Treasury officials arriving at docks today to find British steamer Baltic had arrived unexpectedly at New York with a supply of liquor under seal, declared New York customs officials had instructions to seize all such stores and that there should be no question of their authority to proceed at once against the Baltic.

NEW YORK, June 22.—While treasury officials were concentrating their attention on Berengaria the steamer Baltic slipped into quarantine this morning with sixty-one hundred and eighty-two bottles of liquor under British government seal for her next east bound voyage in defiance of American dry regulations. Upon announcement that Berengaria was coming with sealed liquor to test the treasury department ruling no liquor except for medicinal purposes must be carried across the three mile limit, Secretary Mellon from Washington ordered his agent to board the Britisher and seize wet goods.

WASHINGTON, June 22.—Instructions from treasury sent out yesterday provided sealed stores be seized and transferred to bonded warehouse and receipt issued to master of vessel. In case both the Berengaria and the liner Olympic which also now bound for New York with sealed liquor stores American agents of operating lines has been advised in advance of intended action of treasury. The agent in each case had been informed customs officials formal protest would be filed as soon as action was taken.

NEW YORK, June 22.—The fast Baltic also defying the dry edict apparently not known to American government as no dry officials were at quarantine to meet her. The Baltic reached quarantine while Berengaria was approaching Sandy Hook. The Baltic reached pier shortly after 11 o'clock. It was learned that while customs authorities intended to seize her liquor they did not plan to act after Captain Roberts had applied to United States public health services for permit to enter with liquor for medicinal purposes. After permit was issued customs agents were under instructions to seize all liquors in excess of medicinal requirements after 11 o'clock and after a brief stop during which her sealed liquor remained unmolested she started for her pier where customs agents awaited her.

EIGHT CRUISERS ARE INCLUDED IN NAVAL PROGRAM

WASHINGTON, June 22.—Eight cruisers, four river gunboats and three cruiser submarines will comprise the building program which the Navy Department will present to the budget bureau and to congress at the coming session.

Since the naval power treaty limits cruisers' tonnage to 10,000 tons the general board has been instructed to consider plans which will give the navy the most efficient vessel of the cruiser type within this limitation.

Secretary Denby said it was expected, however, the eight new ships would follow closely the design of the Detroit class, now in process of delivery.

POSTMASTERS WILL MEET AT CLEARWATER

JACKSONVILLE, June 22.—The Florida Association of Postmasters, which closed their 15th annual convention here today, selected Clearwater as the next meeting place in April 1924. The appointment of a secretary-treasurer was left to the next president, N. C. Lynch of Gainesville.

SOCIETY

MRS. FRED DAIGER, Society Editor Phone 217-W

If you have any friends visiting you... write a postal card to this department...

SOCIAL CALENDAR

Mr. and Mrs. Donald Whitcomb and baby expect to leave today for their home in Aiken, S. C.

Mrs. Tom Getzen and son Jack and sister, Mary Connelly, of Bartow, are the guests of their mother, Mrs. H. B. Connelly.

Edith Smith and Dorothy and Harold Gore have returned from Ruskin, where they spent several days visiting the latter's grandparents.

Mrs. R. M. Martin, and Misses Elsie and Dorothy Martin and Robert Martin, of Hillsville, Ga., are the guests this week of Mr. and Mrs. Darsey on Palmetto Ave.

Mrs. Forrest Lake, Misses Maude and Sarita Lake, Edna Greer of New Smyrna, and Mae Holly, and Walter Connelly left this morning in the Lake car for Tampa, where Miss Sarita Lake will join friends and attend the Chi Omega house party at Clearwater Beach. The rest of the party will return to Sanford this evening.

DICKINSON-BRAY

A marriage that came as a great surprise, although it had been expected for some time, was that of Mrs. Sinah Millen Bray and Judge Joseph J. Dickinson, which was solemnized this morning at nine o'clock at the First Baptist church, Dr. F. D. King officiating.

The bride was attired in a lovely costume of grey canton crepe, a three piece model, worn with hat and other accessories also being of grey. Her flowers were a corsage of roses and maiden hair ferns.

Immediately following the ceremony, Judge and Mrs. Dickinson left in their car for a trip down the west coast. Upon their return they will be at home to their friends at their new home just completed on Magnolia avenue.

Mrs. Dickinson has made her home in Sanford since early childhood and has hosts of friends here. She is a graduate of Sanford High school, later teaching in the Grammar School.

Judge Dickinson is the judge of the circuit court of this district, and has friends all over the state and is very prominent in business circles.

The many friends of this couple are wishing them every future happiness.

DUTTON-McGHEE

The following announcements have been issued:

Mr. and Mrs. Jacob McGhee announce the marriage of their daughter, Sylvia Edith to

Mr. Stewart Lyle Dutton June 16th, 1923, at 4:00 o'clock First Christian Church, Jacksonville.

A wedding of great interest to the many friends of this popular young couple, was that of Miss Sylvia Edith McGhee and Mr. Stewart Lyle Dutton, which was solemnized Saturday afternoon at four o'clock at the First Christian Church, in Jacksonville, Rev. J. P. Boone officiating.

Miss Marjorie Clay attended the bride as maid of honor and the groom had M. D. Barthelsson as his best man. The bride wore a smart and becoming costume of white canton crepe, the skirt draped effect with panels of lattice work. Her hat was a picture model of white viscra-straw. Her flowers were a corsage of roses and valley lillies.

Following the ceremony the young couple left in their car for a trip down the east coast. After July first they will be at home to their numerous friends at their new home on Sanford Heights.

Mrs. Dutton's traveling costume was of grey Egyptian crepe with trimmings of blue, worn with chic hat of grey and other accessories of grey.

The bride is the daughter of Mr. and Mrs. Jacob McGhee, of Seneca, Kans. She has enjoyed wide popularity, not only in her own city, but wherever she has visited and it was while she attended business college at Quincy, Ill., that she met her fiance.

The lovely young bride is noted for her beauty and charming personality. She attended Seneca (Kansas) high school and was a graduate of the Class of 1920. Also a graduate of the Gem City Business College, at Quincy, Ill.

Mr. Dutton is the son of Mr. and Mrs. F. F. Dutton of this city, attending the High school here, later graduating from the Gem City Business College at Quincy, Ill. He holds a responsible position with F. F. Dutton Co. here and has many friends who will join in wishing he and his charming bride every future happiness.

PEMBERTON-CHAPPELL

In the presence of a large assemblage of friends and relatives the marriage of Miss Frances Louise Chappell and Mr. Harrison Joseph Pemberton, of Jacksonville, was beautifully solemnized last evening at 7 o'clock at the First Methodist church, Rev. W. J. Carpenter, officiating, the impressive ring ceremony being used. The decorations of the church were confined to the chancel, which was artistically banked with ferns and palms, forming a lovely background for the French baskets of green wicker filled with pink dahlias, and roses, on either side of the pulpit. High above these were the brass candelabras in which burned pink tapers, casting a soft glow. The altar rail was gracefully entwined with Love vine.

The wedding music was in charge of Miss Charlotte Smith, organist, assisted by Mr. W. H. Corder, of Jacksonville, who sang very sweetly, "From a Garden" (Harry J. Pomar). The Bridal Chorus from Lohengrin was used as processional. During the ceremony, "To a Wild Rose" (MacDowell) was softly played.

The ushers were, Fred Ball and Mahlon Wright, while the groom was attended by Harry Hoffner, of Jacksonville, as best man.

The bride entered with her sister Miss Martha Chappell, who was lovely in pale green georgette over satin, with wide sash of green ribbon. Her hat was of pink horse hair braid with trimmings of pink roses. She carried a large bouquet of pink La-France Roses and ferns.

The beautiful bride was radiant in her wedding gown of white silk lace over Georgette and satin, with court train which was fastened to the shoulders with ropes of pearls, and fell in graceful folds. The tulle veil was caught to her hair with a Dutch cap effect edged with valley lillies and pearls from which fell a small face veil and she carried a shower bouquet of sweetheart roses and valley lillies.

Immediately after the ceremony the happy young couple left in their car for a trip down the east coast, also going over to Cuba. Upon their return they will be at home to their friends at 38 East Fifth street, Springfield, Jacksonville, Fla.

The bride is the lovely daughter of Mr. and Mrs. H. H. Chappell and is very popular in social circles. She attended Sanford High School, and when the call came for Red Cross nurses, entered St. Luke's Hospital at Jacksonville, where she graduated. She possesses an exceptional graciousness and charm of manner which has made her a favorite with a host of friends, and has been honored with a number of delightful pre-nuptial courtesies, since the recent announcement of her approaching marriage.

Mr. Pemberton is the son of Mr. and Mrs. Pemberton, formerly of Pittsburgh, Pa., but now of Jacksonville and is well known in business and social circles and is connected with Chase & Co., of Jacksonville.

DAVIES-LAMBRIGHT MARRIAGE BRILLIANT EVENT OF LAST EVENING

An event of unusual social brilliance and centering the interest of a wide circle of friends was the marriage last evening of Miss Mary Wallace Lambright and Mr. J. Frank Davies, which was beautifully solemnized at 8 o'clock at the Hyde Park Methodist church, Rev. M. H. Norton officiating, the ceremony being witnessed by a large assemblage of relatives and friends.

The church was beautifully decorated, numerous potted palms encircling the chancel, while in the center was a huge basket of exquisite pink roses and fern. On either side were golden candelabra holding pink tapers, these being lighted just before the ceremony by Miss Elizabeth Castor, bridesmaid. The chancel and choir rails were entwined with graceful sprays of asparagus fern, and extending over the chancel was an arch formed of ferns, from which pink roses nodded their lovely heads, the effect being one of rare artistic beauty. The windows were outlined with greenery, and the chandeliers were draped with asparagus fern, the lights being covered with pink shades.

Midway down the center aisles was arranged a gateway of pink entwined with the fern and caught with loops of pink tulle, the entire setting representing that of a lovely outdoor garden, and when during the ceremony the church was darkened save for the rose glow of the shaded lights near the chancel and the tapers within the chancel, the wedding scene was one of exceptional beauty. The pews for the relatives and intimate friends were marked with ropes of pink tulle.

Preceding the ceremony, the following artistic program of nuptial music was rendered under the direction of Mrs. W. H. Ferris, organist, assisted by Mrs. Claude Park, soprano soloist; Organ, "Andante a Flute" (Beethoven); "Song of Odorata" (Straughton); "The Golden Wedding" (Thome); Voice, "Love, I Have Won You" (Ronald); organ, "March Triumpante" (Adia);

"Dreams," "In Summer" (Straughton); voice, "It Is Not Because Your Heart Is Mine" (Herman Lohr); Prelude to processional, voice, "Because" (D'Hardelot); intermezzo, "Love Sends You Gifts of Roses"; the "Bridal Chorus from Lohengrin" was used as the processional and as the recessional, Mendelssohn's "Wedding March" was played, while as the postlude march, "Le Phophet," was used.

The bridal party was led by two handsome little pages, Master Wallace O. Stovall, Jr., son of Mr. and Mrs. W. O. Stovall, and Master Jim VerPlanck, son of Mr. and Mrs. Beckman VerPlanck, who were carrying page suits with white French voile blouses and trousers of white linen as they advanced down the center aisle, taking their places at the gates which they opened for the approaching bridal party.

Particularly effective was the dainty bridal motif of pink, beautifully featured in the gowns worn by the bride's attendants. The group of charming bridesmaids, Misses Bertha Snyder of Jacksonville, Elizabeth Range, Carolyn Thomas, Sarah Keller, and Elizabeth Castor, niece of the groom, wore lovely French models of pink chiffon over a foundation of pink taffeta. The bateau neck was finished with a pleated band of the chiffon, and in the back, a cut-out effect of the chiffon, over the taffeta, revealed a bow of silver ribbon, from which graceful streamers fell below the hem of the skirt. Silver ribbon roses ornamented the skirt, and also formed the girdle, and bandeaux of silver leaves were worn becomingly, while the flowers they carried were quaint colonial bouquets of pink roses and valley lillies, encircled with paper lace and tied with pink tulle.

The bridesmaids entered with the groomsmen down opposite aisles in the following order, taking their places just within the chancel rail: Miss Bertha Snyder, with Mr. Malory Shirah; Miss Elizabeth Range with Mr. James Stevens; Miss Carolyn Thomas, with Mr. Charles Clewis; Miss Sarah Keller, with Mr. John O. Perry; Miss Elizabeth Castor entered alone down the center aisle, followed by the maid of honor, Miss Mary Louise Dickinson, both of these taking their places just outside the chancel.

As maid of honor, Miss Dickinson was very attractive in a beautiful gown of pink chiffon over taffeta, made sleeveless, and embroidered with silver baskets overflowing with French flowers. An accordion-pleated georgette loop was caught at one side of the skirt, the other featured with a plain panel of georgette, and the skirt hem ornamented with silver ribbon in latticed effect. About her hair was a bandeau of silver leaves, and she also carried a colonial bouquet of pink roses and valley lillies.

Next came the little flower girl, Miss Patsy Wall, pretty young daughter of Mr. and Mrs. Houston Wall, who was indeed fairy-like in a lovely frock of pink taffeta, with trimmings of tiny frills, made sleeveless. Silver ribbon streamers fluttered from a bow caught at the back, and she carried a basket of pink rose petals, which she scattered forming a fragrant pathway for the bride.

The groom, attended by his best man, Mr. Joe B. Johnson, came from a side entrance, joining the bride at the chancel.

The bride, who entered the church with her father, Mr. Edwin D. Lambright, by whom she was given in marriage, was radiantly lovely in her exquisite wedding robe of white crepe black satin, beautifully embroidered in crystal beads. The waist fashioned in long lines, was gracefully draped from the front to the

back, and there caught with a handsome pearl ornament and the sleeves were quite long and close fitting, the same crystal embroidery which ornamented the waist, being repeated on the skirt. The handsome veil of Rose point lace arranged in coronet effect in front, covered the face, and was caught at the back with a wreath of orange blossoms. Her flowers were a shower bouquet of bride roses and valley lillies.

Immediately following the ceremony the happy couple repaired to the home of the bride's parents on Parkers street, where they were showered with congratulations and good wishes by members of the bridal party and relatives, leaving on the 9:40 o'clock train for an extended wedding trip, going first to New York City, then to Boston, where they will join a party of friends on a delightful motor trip to the White Mountains of New Hampshire, being guests at the New Balsam Hotel. They will also probably visit Canada before returning. Mrs. Davies is travelling in a handsome imported three-piece model of brown faille silk, fashioned with bodice of tan paillette crepe richly embroidered in oriental colors, and short cape of the brown faille lined with the tan crepe. With this is worn a very becoming hat of brown and tan silk, a Mme. Jardin model, its only trimming a cluster of silk cords at the side, fastened with a rhinestone ornament. Other accessories are in tones of brown and tan, to match.

The bride is the only daughter of Mr. and Mrs. Edwin D. Lambright, one of Tampa's loveliest young society girls, being endowed with rare personal beauty, and gifted with a charming personality. She was graduated from Hillsboro High school, and later attended the Florida State College for Women, and is a member of the Chi Omega sorority, of which organization most of her wedding attendants are also members. She recently was honored by being selected by Charles Dana Gibson, noted artist, from a group of attractive girls, as one of the most beautiful young women in the South. She has been a popular member of Tampa society since her return from school and was chosen as one of the honor maids at the fifteenth annual coronation ball of Ye Mystic Krewe of Gasparilla last February. Since the announcement of her approaching marriage she has been complimented with a series of delightful pre-nuptial courtesies.

Mr. Davies is a son of Mrs. Elizabeth Davies and a brother of Mrs. G. L. Castor of this city, and is one of Tampa's most successful young business men, being manager of the Wholesale Auto Supply Co. He is also prominent socially, and is at present captain of Ye Mystic Krewe of Gasparilla, having most capably conducted the affairs of this social organization since his election to office last fall. Mr. Davies is originally from Huntington, West Virginia, but has resided in Tampa for a number of years, and during the World War saw active service overseas. He is a member of the Beta Phi Sigma fraternity.

Upon their return to this city Mr. and Mrs. Davies will be at home to their friends at Oakhurst Villa on Hyde Park avenue. They will have the best wishes of their host of friends for every future happiness.—Tampa Tribune.

REBEKAH MEETING.

Regular meeting of Seminole Rebekah Lodge, Friday evening at 8 o'clock in Masonic Hall. Election of officers. Every member urged to be present.

SECRETARY.

LOCALS

Raining again for Thursday afternoon vacation.

The good old summer time has arrived and fishing and picnic will be the order of the day.

Donald Whitecomb is home from South Carolina where he is engaged in the U. S. Bureau of Markets and will be the guest of home folks for a few weeks.

Mr. and Mrs. Victor Cheek have returned from several months spent in many points in the west and southwest and will remain here during the summer months.

If the weddings keep up in Sanford there will not be much material left in the way of boys and girls. Sanford is getting larger all the time and instead of two or three weddings in June we now have several dozen.

W. H. Carter of Woodhaven, New York, is among the visitors to the city and is looking around while here thinking about some investments. This is his first trip to Florida and he came in the summer time to get some idea of our summer climate.

Ensign Griffin Herring is home for a furlough and is the guest of his parents, Judge and Mrs. George G. Herring. Griffin has made good at the Naval Academy and graduated last year with honors and is now getting the real experience of the deep water sailors.

F. E. Demott was here today calling on the typewriter trade. He now has headquarters in Daytona having recently married Miss Luella Perkins

CLAY AWAY THE YEARS

Apply Boncilla Beautifier casmic clay to your face, and rest while it dries, then remove and see and feel the wonderful difference in the color and texture of the skin. Guaranteed to do these definite things for the face or money refunded. Clear the complexion and give it color. Lift out the lines. Remove blackheads and pimples. Close enlarged pores. Rebuild facial tissues and muscles. Make the skin soft and smooth. You can obtain regular sizes from your favorite toilet counter. If not, send this ad. with 10 cents to Boncilla Laboratories, Indianapolis, Indiana, for a trial tube.

of that city. Mr. Demott is well known here where he has been coming for many years selling, and repairing typewriters.

Mineral deposit discovery like Radium, gives the medical world a substance of great virtue. Try Acid Iron Mineral Compound for Indigestion, Rheumatism, Kidney and Bladder trouble and blood disorders. Satisfaction guaranteed. Ask your druggist. 67-1tp

NOTICE TO REGIMENTAL BAND.

Headquarters Band Section Service, Co. 154th Infantry, Sanford, Fla. June 14th, 1923.

Orders No. 1. 1. Monday night each week 7:45 p. m. is hereby designated regular drill night for this organization. 2. All members of this organization be present at all formations. 3. Any violation of this order will be dealt with accordingly.

SICKLY, FEEVISH CHILDREN

Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath and takes no interest in play, it is almost a certainty that worms are eating away its vitality. The surest remedy for worms is White's Cream Vermifuge. It is positive destruction to the worms but harmless to the child. Price 86c. Sold by UNION PHARMACY Sanford, Florida

WOMAN'S CLUB COLUMN

Mrs. Henry Wight, Reporter Phone 345-W

SOME INTERESTING FACTS CONCERNING THE WOMAN'S CLUB BUILDING

Up to the present time no public statement has been made as to the matured plans and the financial status of the building program of the Woman's Club. It is now feasible to make a clear expression, and it is the desire of Mrs. Tolar, president, and of the building committee to have every club member and every friend of the organization share in a complete understanding of what has been accomplished and what is being projected.

Financial Statement of Building Committee, June 9, 1923. Table with columns for item and amount.

Total cost of Club House, \$10,780.04. Table with columns for item and amount.

On April 30, a circular letter was mailed to the membership, enclosing printed forms for pledges, calling attention to the urgent need for strong co-operation and giving in detail the proposed cost and plans for the work of construction.

The Club House will be turned over complete to the Building Committee on July 20, and inquiries are already coming in about dates for rentals. As one of the best sources of income is derived from these rentals, it is imperative that the house be suitably equipped at the earliest possible date, and with this end in view the club membership has been divided into committees with the following chairmen, who will be asked to assume the responsibilities mentioned opposite their names.

- Shades and Draperies—Mrs. D. P. Drummond, chairman. Card Tables—Mrs. Edward Lane, chairman. Card Table Covers, Mrs. R. R. Deas, chairman. Luncheon Sets—Mrs. D. L. Thrasher, chairman.

HAD TO HAVE IT An East Sider thinks the world is all wrong, says the Detroit News. Hoping to induce his landlord not to raise his rent he decided to redecorate his flat at his own expense. With his wife he toiled far into the night to scrub and clean the place, and paid a pretty penny to the paperhanger and painter. When the flat had been transformed the tenant received a notice from the landlord to move. The landlord explained that his daughter had to have that flat, it looked so pretty.

WEEKLY WEATHER AND CROP BULLETIN

For the week ending June 19, 1923, There was less rain and much more sunshine than during the previous week, although heavy to locally excessive rains fell over Gadsden, Madison, Columbia and adjoining counties, resulting unfavorably for cotton generally, and other crops, especially those on low lands. Temperatures were moderately high which, with the bright sunshine, added to the unfavorable situation. Warm weather with overcast skies would have been more in keeping with the needs of most crops. Cotton showed slight local improvement on uplands, notwithstanding its grassy condition and the prevalence of weevil. The condition of corn varies very much; on the whole, it is improved on uplands, especially where effort was made to cultivate it. Some small fields are excellent, but large areas on low lands are very poor; much was abandoned, and some fields where the crop was fair to good has been laid by. Melon shipments continued in a small way; melons are small and inferior, with indifferent local demand. Shipments have ended from the lower counties, current activities being from the more northerly portion of the belt. Shipments of tomatoes continued, but the crop is very short and generally inferior; there is no movement from the south and but little from the central division. The dry weather during the week improved tomatoes in some localities of the northern division, although most of the crop has largely deteriorated. Cane made fair progress, except on wet low lands; peanuts, cow peas, and velvet beans improved, where effort was made to cultivate, but grass has a great headway and the situation is difficult. The harvesting of tobacco made fair to good progress; shade tobacco is very good. Citrus trees are doing well, as a rule, although some low lands are too wet, and to that extent locally unfavorable.

Don't be the early worm or the birds will get you. Steve.

NO MORE SPEED. Bill Jones lay dying on a bed—a broken, mangled wreck—his brains were oozing from his head, he had a broken neck, three broken ribs, twisted spine, one leg all gone to smash; his epiglottis out of line, across his breast a slash. I asked poor Bill what mighty force had brought him to this state. He answered me with great remorse: "I tried to beat the freight to Spijngs Crossing and I lost. Oh, woe is me," he cried, "if I had stopped to count the cost, to beat it I'd not tried." His supercilious is now a wreck and not worth thirty cents; the rudder and the after-deck are hanging on a fence. And Jonessie in the the grave-yard sleeps, while o'er his silent tomb his widow wrings her hands and weeps, bewailing her sad doom. Oh, why will mortals try for speed when trying brings sad end; for better far it is agreed on safety's trail to wend. I one time drove my spangled rig at seventy miles an hour; but I ran down a Poland pig and ground him into flour. It cost me forty bones for pig, three hundred for repairs; the doctor drew a pension bid, the nurses all got theirs. So now I jaunt along at ease, no speedster fend am I; I do not yearn for graveyard trees nor mansion in the sky.

KILLING THE GOOSE. The franchise of the Daytona Public Service Company is estimated to be worth from \$250,000 to \$350,000. It belongs to the people of Daytona, but was intrusted to the Public Service Company under a pledge that it would live up to certain restrictions—charge certain rates and deal fairly and without discrimination with all our people. The company has violated the contract with the city and has forfeited its franchise. It has lost an asset worth more than a quarter of a million dollars. That valuation returns to the people of Daytona to do with as they choose—to sell to the best advantage or erect a plant and serve themselves. A resolution by the city council and an endorsement of the courts will take the franchise completely out of the hands of the Public Service Company. This action will doubtless come in due time. Greed is at the bottom of the whole matter. The Public Service Company was

not satisfied with the very liberal rates allowed it by its contract with the city. It sought to get more money than it could lawfully collect for the service it rendered. And it sought to do it by dishonest and often sneaking and underhanded methods. People are prone to be careless in dealing with large corporations. They presume them to be honest until proven otherwise. The people of Daytona assumed the Public Service Company to be honest. The company took advantage of this fact and sought dishonest gain by adding a few cents or a few dollars to the bills of consumers of electricity. So long as they could get by with this procedure it was easy to steal \$25,000 a year, more or less. This easy but dishonest money looked good on the books—looked good because it increased dividends. It won't look so good now that the company is about to lose ten times what it was able to steal in one year. There'll be an awful howl about abuse of capital and discouragement of enterprises. The people of Daytona will be asked to forgive and forget with a promise that the company will steal no more. The company wants to settle now with the people from whom it has taken dishonest dollars. It wants to settle by keeping what it has stolen and giving a promise that it will steal no more. The Public Service Company is in the position of the burglar who is caught with the goods as he emerges from your home. He offers to compromise with you, and says: "If you'll let me go and take these goods I have stolen from you I'll promise not to burglarize your home again." You'd hardly agree to that proposition from a burglar. Why agree to a similar proposition from the Public Service Company. If you are one of those who have been robbed you will probably receive a request to call at the Public Service Company office and adjust the matter. Be careful how you adjust it. And don't adjust it at all without a refund of every cent you have been overcharged. Demand what is rightfully yours and get it. Don't sign any agreement to let bygones be bygones. The Public Service Company has killed the goose that laid the golden eggs. Now let it pay the funeral expenses.—Daytona Journal

SUSPICIOUS. Ethel—Coming home in Tom's car, Sunday evening, we made more than fifty miles an hour! Clara—What did you quarrel about, dear?—Judge.

A MARTYR. Wife—So you expect to get into heaven by hanging onto my skirts? Hub—No, but I might by showing St. Peter the bills for them.—Boston Transcript

MULLEN BUYS OUT HODGES. In yesterday's paper the announcement of the change of Hodges & McMullen barber shop was given and they did not get a mention of same in the locals so we are making up for same today, and we want to say that Lonny McMullen will be on the job as ever before with the same good old service and barbers to do your work well and efficiently. The firm will now be called McMullen's Barber Shop, and if you want a cool place to go to get your hair trimmed or a fine shave and in fact anything in the line to make you more beautiful they have the equipment there to do it with. Their shop is long and spacious

and there's always a cool breeze to greet you upon entering the shop as the breeze comes in the back doors of the shop right off the Lake Monroe. There are plenty of barbers to wait on you and give you the service that you like to have, so call on them and be sure and ask Lonny if he likes cranberries. He will enjoy this question as he sure is fond of the little red berries. PRESIDENT AT KANSAS CITY ON HIS LONG TRIP. (By The Associated Press) KANSAS CITY, Mo., June 22.—President Harding arrived at Union station here at 10 o'clock this morning.

U. S. CUTTER LEAVE FOR LIBERIA TODAY TO SHOOT THE BOBS. (By The Associated Press) TACOMA, Wash., June 22.—Coast guard cutter Bear has left Nome for East Cape Siberia where four American schooners, including Iskum of Tacoma, were seized recently by soviet authorities ostensibly charged with violating trading regulations. This information reached General J. M. Ashton, one of the officers of the Iskum, in a telegram from Secretary State Hughes. The Bank of England has its own well, which is 400 feet deep.

GENEVA

Mrs. Mary Taylor spent Monday with Mrs. Claude Raulston.

Mr. and Mrs. P. T. Wakefield were in Oviedo Monday.

Mr. and Mrs. R. E. Franklin and daughter and Miss Ellen Doan, spent Sunday at Daytona Beach. They were joined at Sanford by a party of friends from Pine Castle.

Mrs. G. A. Nicholson is spending the week with her son, Mr. J. Nicholson at Osteen.

Mrs. A. E. Mathis of Quay, Fla., arrived this evening, having been called home by the serious illness of her mother, Mrs. J. M. Prevatt.

Mr. Oscar Nicholson returned to his home at Daytona Beach last Saturday.

Mr. W. R. Prevatt of Moore's Station is here staying with his mother, Mrs. J. M. Prevatt.

The Community Club will give a social tea at the home of Mrs. J. T. McClain Thursday afternoon at two-thirty.

Miss Mary Stones of Tavares, Fla., is visiting her sister, Mrs. R. E. Prankler for a few days this week.

Among the many out of town visitors who attended the barbecue here last Thursday, given by the Geneva Packing Company, were Mr. and Mrs. Ed. Farnell, Mr. Theodore Aullin, Mr. Clark, Mr. Jim Lee of Oviedo, Henry Mathis and family, Jesse Rouse and family, Mrs. Paul Saurbwin and daughters of Orlando, Sheriff Hand, Judge Dickison, Mr. Schelle Maines and Mr. David Spear of Sanford, Mr. P. K. Sloggy, Mr. John Fender and Mr. Hancock of Daytona Beach.

Mrs. J. M. Little and daughter of New Smyrna spent last week with her daughter Mrs. T. W. Prevatt.

Miss Georgia Pattishall and Mr. Swartz of Jacksonville spent the week-end with Miss Pattishall's parents Mr. and Mrs. H. H. Pattishall.

Mrs. J. W. Elynt and son Ossie, were shopping in Sanford Saturday. Mr. and Mrs. B. E. Griggs and daughter of Orlando spent Sunday with Mr. and Mrs. T. W. Prevatt.

Mrs. Ross Franklin and daughter Fleita, called on Mrs. Thompson of Franklin in Sanford on business. Meade Baker and Lester Brown spent Saturday and Sunday at Coronado Beach.

There will be a band concert at the town hall June 28th, at 8 o'clock. Everybody welcome.

Several from here attended the Federated Club meeting at Oviedo Saturday. Ice cream sale was well attended Saturday for the benefit of the Community Club.

Mr. and Mrs. Charles Phillips were shopping in Sanford Saturday.

Miss Mildred Drawdy from Pine Castle, Fla., is visiting at the home of Mr. and Mrs. R. E. Franklin.

HENRY CELEBRATES TWENTIETH BIRTHDAY—SOME RECORD

FORD MOTOR COMPANY HAS PLANTS ALL OVER THE WORLD.

DETROIT, Mich., June 20.—The Ford Motor Company is twenty years old today. And this birthday anniversary finds it enjoying the greatest prosperity in its history and engaged in carrying out an expansion program of enormous magnitude, necessary to bring manufacture up to meet the ever increasing demand for Ford products.

In the score of years which has passed since its incorporation on June 16, 1903, the growth of the company has been amazingly rapid, and now its activities extend to nearly every country on the globe, and the Ford car is in use in practically every land on earth.

The capital originally subscribed in the company was \$100,000 of which only \$28,000 in cash was actually paid into the treasury. Among the 12 stockholders of the company in its infancy, Henry Ford held 25 per cent of the stock.

Ford "sold" his car to the public at the very start by practical demonstration, for he piloted the first Ford racer himself and won a race after race in all parts of the country. Driving old "999" on an ice track at Baltimore Bay, Mich., he was the first to break the mile-a-minute record.

In 1907 Mr. Ford acquired additional stock sufficient to bring his holdings in the company up to 56 1/2 per cent.

Development of the company since 1908 when the Model "T" Ford car was first placed on the market, has been marked by unusual success until it now occupies the foremost position in the industry.

In 1913 Mr. Ford set a new standard for the industrial world when he announced his new famous \$5.00 a day minimum wage and the \$10,000

600 profit sharing plan, a move that gained him international fame. Many will remember, too, a year or so later when announcement was made that if sales went to a certain figure every Ford purchaser would receive a rebate. The sales passed the figure and the checks went out by the hundreds of thousands.

When in 1919 Edsel B. Ford assumed the presidency, his father turned over to him all the responsibilities of that office, and he has taken an important part in all developments of the company since that time. Upon becoming president, Edsel Ford purchased the remaining 41 1/2 per cent held by outside stockholders, and on July 9th, 1919, the company was reorganized under the laws of Delaware for an authorized capitalization of \$100,000,000.

In his ambition to do the greatest amount of good for the largest number of people, Henry Ford has always kept the Ford car within the reach of persons of average means.

Last October the price of Ford cars was again reduced, bringing the various types to the lowest level in the history of the company. And only recently the inauguration of the Ford Weekly Purchase Plan has opened the way to automobile ownership for additional millions of people who can now buy Fords on weekly payments as low as \$5.00.

The first car manufactured by the Ford Motor Company was on the road in June, and sold the early part of July, 1903. In the initial year, 1903-04, the company produced 1,708 cars and each year has seen its steady expansion, until in 1922 production totaled 1,351,33, and this year will pass the 1,500,000 mark, a figure which it is estimated will equal, if not exceed, the combined output of all other automobile companies in the United States.

Since its start the company has produced more than 7,750,000 Fords and sent them to all parts of the world, and more than 6,000,000 are now in use in the United States alone.

Manufacturing methods of the Ford Motor Company have been and remain the marvel of engineering experts of the world. All are based on the most scientific principles, distinctly individual in their advanced steps, and they bring quantity production with high quality coming automatically in the process.

Under its present expansion program the company is carrying out on a larger scale than ever before its policy of effecting every manufacturing economy possible. Thus with costs cut to the minimum all along the line, from primary raw materials to finished cars, trucks and tractors, it is able to give the purchaser a high quality product at a very low price.

It has its own coal mines in West Virginia and Kentucky, and iron ore mines and forests in Northern Michigan.

The Ford Alitrad, the Detroit, Toledo & Ironton, connects with practically every transcontinental line, which affords unusual shipping facilities.

At River Rouge, with a plant area of 1,200 acres, the company besides having the largest foundry in the world, operates its own blast furnaces, machine shops, body plant, saw mill, coke ovens, cement plant, paper mill, power plant, locomotive repair shops and the Fordson tractor plant.

The parent plant of the company in Highland Park occupies nearly 300 acres, of which 123 are under roof. Here are the general offices, the Detroit Sales Branch, the boys' industrial school, and the world's largest individual automobile plant.

The company has a glass plant at Glassboro, Pa., another at Highland Park, and a third is under construction at River Rouge.

There are also manufacturing units at Hamilton, O., Northville, Mich., Troy, N. Y., Iron Mountain, Mich., and several points in and near Detroit.

CANDLER AND BRIDE IN WASHINGTON; HE WONT SEE REPORTERS

WASHINGTON, June 22.—Aaa G. Candler, Sr., Atlanta millionaire, arrived here today at noon with his bride of yesterday and registered at the Hotel Willard, where he refused to be interviewed by newspaper men.

Mr. Candler told the Associated Press, however, that he had nothing to say on any subject except to express displeasure at the linking in press reports of his marriage with a breach of promise and slander suit brought against him by his former fiancée, Mrs. Onesima de Bouchet, which he characterized as "an unfortunate" affair.

Mr. Candler said that after two or three days in Washington they would go to New York and return to Atlanta shortly thereafter.

In 1919 the United States produced 240,647,000 gallons of gasoline.

Without their soap boxes, how will anyone know they are Socialists?

INDUSTRIAL ACTIVITIES SWEEPING OVER THE SOUTH

MANUFACTURER'S RECORD

No one can take the sweeping glance of the industrial activities throughout the South reported in this week's issue of the Manufacturers Record, and what is true of this week's issue is practically true of every issue, without realizing that the panorama which is being unfolded of Southern activity has probably never before been surpassed, if it has ever been matched in this country. It is reaching all parts of the South, from Maryland to Texas the sweep of construction activities is under way. Picking here and there a few of the outstanding items in one week's issue, we give an indication of how great is the development now under way in the South.

Precisely is this true in textile mill building, but textile mills are not by any means monopolizing the situation. The Pacific Mills of Boston, Mass., is putting out \$5,000,000 in the building of a great cotton mill and bleaching plant near Spartanburg, S. C. This is especially interesting in view of the fact that years ago one of New England's foremost political economists, Mr. Edward Atkinson, often took the ground that it was impossible ever to develop the bleaching industry in the South, "because," said he, "the glacial era demonstrated that pure spring water suitable for bleaching purposes could never be found in the South."

Among other important cotton mill enterprises reported during the week was a \$300,000 mill company at High Point, N. C.; a bleaching and dye works plant at Lanet, Ala.; the sale for about \$1,000,000 of cotton mills at Opelika, Ala.; and a projected \$500,000 mill at El Paso, Tex.

In Polk County, N. C., \$1,000,000 is to be expended for the development of water power. An Alabama company is projecting an expenditure of about \$7,000,000 or \$8,000,000 for the development of one plant of 105,000 hydro-electric horse power, and the enlargement of another plant at a cost of about \$1,000,000.

Contracts are being let from time to time for the \$10,000,000 hotel in Atlanta; the heating and plumbing plant contract having recently been awarded to an Atlanta concern at a cost of \$500,000.

Fifty school buildings are projected in Virginia to be constructed during the present year at a cost of \$1,500,000.

The Virginia Railway was recently reported to spend about \$15,000,000 on the electrification of its line tho it already has the largest steam locomotives in the world hauling the heaviest freight trains ever moved in this or any other country. Work on this electrification is actively under way.

Though Galveston when it was rebuilt a few years ago constructed a seawall regarded as amply strong to meet any emergency, it is to spend nearly \$700,000 for the extension of its seawall and is carrying on considerable dredging operations for deepening its harbor.

Miami, typical of the general activity prevailing throughout Florida in municipal improvements, has sold \$2,730,000 of bonds and proposes to spend \$1,000,000 of this amount for park purposes and filling-in along the bay front; \$750,000 for an enlarged water supply; \$400,000 for the extension of the municipality owned street car system, and small sums for other betterment work.

Atlanta is spending \$1,000,000 in building a half-mile viaduct 60 feet wide to lessen traffic congestion and carry travel over several railroad lines.

Birmingham is preparing to build at a cost of over \$450,000 an auditorium to seat over 6,000 people.

A life insurance company in Jackson, Miss., will build a \$500,000 office building to contain about 200 offices.

An electric light and power company of Hot Springs, Ark., has awarded a contract for power development at a cost of \$1,500,000. This is the first of three units which the company proposes to build, and the entire plan contemplates an expenditure during the next ten years of \$15,000,000.

In Houston a \$3,000,000 professional building is to be erected, the financing to be handled by one of the trust companies of that city.

A New York company, capitalized at \$2,350,000, is planning the development of what is to be known as a double super-phosphate plant near Tampa, Fla., involving the raising of phosphate rock on 4000 acres of land.

An asphalt company, capitalized at \$500,000, is beginning its plans for mining asphalt on a 2,000 acre tract of land at Flint, Ala., including the erection of a plant to have a daily capacity of 500 tons.

The new bridge recently voted at \$1,000,000 for the

Record for outstanding business newspapers of the South.

For further information, ask the Manufacturers Record, Baltimore, Md.

TEMPTED AND FELL

A fastidious friend of mine, when moving, ran over to my apartment with her new gown over her arm, asking if she might hang it in my closet until she got settled, as she didn't want to get it all mused up in her trunk.

The next day I received a lunch-box invitation, and after much battling with my conscience I succumbed to the temptation to wear the gown.

Yes, I met my friend on the street! She faced the situation like a true sportsman—but I acted like the culprit I was.—Chicago Tribune.

The Herald delivered six times a

ORDINANCE NO. 53

AN ORDINANCE DEFINING THE CRIME OF UNLAWFULLY POSSESSING, CONTROLLING, USING, MAKING, REPAIRING, AND EMPLOYING ANYTHING FOR THE UNLAWFUL MANUFACTURE OF DISTILLED INTOXICATING LIQUORS, IN THE CITY OF SANFORD, FLORIDA, AND PRESCRIBING A RULE OF EVIDENCE GOVERNING SUCH CASES, AND PROVIDING A PENALTY FOR THE VIOLATION OF THIS ORDINANCE.

BE IT ENACTED BY THE PEOPLE OF THE CITY OF SANFORD, FLORIDA:

SECTION 1.—That it shall be unlawful for anyone in the City of Sanford, Florida, to have in his possession, or under his custody or control, any still, still piping, stilling apparatus or still worm, or who shall have in such possession or under such custody or control, any other piece, part or parcel of any such still, still piping, stilling apparatus or still worm designated or adapted for the unlawful manufacture of distilled intoxicating liquors in whole or in part.

SECTION 2.—That it shall be unlawful for anyone in the City of Sanford, Florida, to make, construct, or repair in any manner whatsoever, any still, still piping, stilling apparatus, or still worm, or any part thereof, designed or adapted for the unlawful

manufacture of distilled intoxicating liquors with knowledge that the same is so designed or adapted for the unlawful manufacture of distilled intoxicating liquors.

SECTION 3.—That it shall be unlawful for anyone in the City of Sanford, Florida, to have in his possession, custody, or control, any receptacle whatsoever containing any mash, fermentive cane juice or any other fermentive liquid whatever, capable of being distilled into an intoxicating liquor, except where expressly permitted by the Laws of this State.

SECTION 4.—That it shall be prima facie evidence of a violation of the several sections of this act if any person is found in the City of Sanford, Florida, in any of the several things in this act mentioned, in his or her dwelling house or on or about his or her premises, or so near thereto as to lead to the reasonable belief that said things are within the custody and control of the occupants of the house or premises.

SECTION 5.—That any person violating any of the provisions of this Ordinance shall upon conviction, be punished by a fine not exceeding Two Hundred (\$200.00) Dollars, or by imprisonment not exceeding Ninety (90) days.

SECTION 6.—That all Ordinances or parts of Ordinances in conflict with the provisions of this ordinance are

hereby repealed. SECTION 7.—That this ordinance shall be published once each week (10) days after its final passage, in a newspaper of general circulation in the City of Sanford, Florida.

SECTION 8.—That this ordinance shall become effective immediately from and after its final passage.

Passed by the unanimous vote of the City Commission of the City of Sanford, Florida, this 18th day of June, 1923.

FORREST LAKE, Mayor. C. J. MARSHALL, City Commissioner.

Attest: L. R. PHILIPS, (SEAL) City Clerk.

Moved and seconded that the requirements of a second reading of the above and foregoing ordinance, at another regular meeting of the City Commission, not less than one week from this date, shall be dispensed with by the unanimous vote of the City Commission of the City of Sanford, Florida, this 18th day of June, A. D. 1923.

FORREST LAKE, Mayor. C. J. MARSHALL, City Commissioner.

Attest: L. R. PHILIPS, (SEAL) City Clerk. 73-12c

It is Our Constant Aim

to bring before the public eye the qualities and merits that accentuate the OAKLAND'S superiority. It's almost super-power of climbing and taking the grades without excessive consumption and its remarkable response under trying conditions are but of the few points strongly emphasized in its road test. "A super car" says the automobilist and he's right.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

Well, anyhow, Asa Candler is married and it seems he did not ask the family about it. Coca Cola is all right.

The picture of Juan Ponce DeLeon in the St. Augustine Record looks just like Herb Folkel after his whiskers grow out.

Headlines say "Wall Street is Awaiting an Explosion." Why wait for it? One explosion there made the millionaires sick for months and the explosion of the bucket shops is giving them another jolt.

Volcano victims think Mussolini can save them from the ravages of old Mt. Aetna. Mussolini is a big man who knows how to manipulate the "bull" along the lines of advertising but he is not big enough to tackle old Aetna.

Another sea monster has been taken near Key West. The proximity of the Gulf and other wet spots in the gulf are either bringing in the big fish or enlarging the vision of the fishermen. Some of this stuff offered for sale now would make a man see all kinds of monsters.

The old guns mounted on the wall of Havana harbor will be tested today to see if they are fit to use. They have not been fired since the Spanish War and if they are in the shape we think they are the guns will be as dangerous to the men who fire them as the "embalmed beef" was to the men in the trenches in '18.

"Many Die of Heat in the North" are the headlines in all the daily papers just now. There are no people dying of heat in Florida and just why the people of the north will stay in the north in winter or summer is the mystery of this life. There are so many of them who could come to Florida, invest their money and live comfortably the rest of their days. Come down in the summer and enjoy our wonderful summer climate. No need to speak of our winter climate.

JOY KILLERS

Nothing so effectively ruins the average moving picture, even if it be the best, as the determination of some of the patrons to discuss their private and general problems during its progress. This is not confined to the younger set, who accept the semi-darkness of the theatre for their amorous embraces, but by the rest of us.

Let's remember our neighbor and let him enjoy the picture even if it doesn't interest us, and enjoy our conversation when it won't annoy others. —Clermont Press.

FOR A FIRE SUMMER

A harassed housekeeper called on one of her neighbors and found her putting hooks and ornaments away in boxes. "Housecleaning or moving?" she asked. "Neither," said the hostess. "I'm just clearing decks for a fire summer." Then she went on:

"John and I can't get away for a regular vacation this summer. We will have to do our vacationing in the late afternoons and over week-ends. I am reducing housekeeping to its lowest terms accordingly. I am going to alight everything that is compatible with comfort and a fair degree of decency. I am not going to handle one thing that is not absolutely necessary. The house may look bare, but it will seem just so much cooler, and I will have just so much more time to sit on the porch or go out riding. If, by the simple process of not having my house all fussed up in the hot weather I can keep from getting all fussed up myself, so for that! And I'm going to simplify the cooking and serving problem just the same." —Jacksonville Metropolis.

CHEER UP—THE SUN IS SHINING

We all have our troubles and the fellow that smiles has just as many troubles as the fellow that spends his time grousing around and telling about the hardships of life. Some people find special pleasure in telling all their friends about how times might be and how much money they have lost and how difficult it is to make a living. Usually the grouches are making more money than anyone else in the community but they take real pleasure in throwing cold water on everything and everyone that would tend to build up the community and make this world better. They seem to think that by grousing around and talking hard times that they will beat down the price of property and then buy it in at a smaller price. They are not good citizens in any sense of the word for the good Lord put us here on earth to enjoy what he has provided for us and he never intended the world to be inhabited by grouches—although they do seem to live a long time.

No one ever made anything by having a blue feeling all the time. There is so much to enjoy in this life that we can easily take the bitter with the sweet and the bitter is sent to us in order that we may the better appreciate the sweet when it comes. No life is filled altogether with happiness and no life is filled altogether with sorrow. We have the clouds and the sunshine but there is so much more sunshine in this grand old state of Florida than there is of clouds and gloomy weather that we ought to feel better here than the people of any other state in the union. The Daytona Journal says:

FLORIDA JUSTICE

From time to time northern papers have taken special delight in throwing off on Florida justice. In some instances in the early days they may have been justified but the new Florida of today is trying by every means in her power to give everyone a fair trial in the courts and this is especially true of the more populous counties. The rule applies to both white and blacks and it is refreshing to note that in the last two weeks the law has taken its course in two cases that prove beyond any shadow of doubt that the negro in Florida is getting justice. In Gainesville a drunken negro shot a white man in cold blood on the streets for no cause whatever. He was taken to Palatka for safe keeping and the friends of the white man stormed the jail and the Putnam county sheriff fought them off and saved the negro for trial. The trial came off in Gainesville and Col. Bob Davis, editor of the Gainesville Sun, former congressman and one of the ablest lawyers in the state was named by the court to defend the negro. He was given a fair trial and adjudged guilty of murder and will be hung by due process of law.

In Manatee county an aged and respected negro man was killed in front of his home. Two white men living in the community suspected of the killing have been jailed for the offense and if they are found guilty they will receive the full measure of the law.

This is a sample of Florida justice that we would like to see spread broadcast in the north and especially in those parts of the north that have been printing stories of the miscarriage of Florida justice where a negro is concerned. It shows that Florida is honestly trying to purge the state of any stains that might have been incurred from time to time by lax laws that brought one class of criminals to the bar and allowed others to escape. In truth there are no more lynchings or law breakings in Florida than in the states that have been slamming Florida and the court records will prove it. Florida may be a new state in development but it shows an honest effort to be fair to all people.

EASILY EXCITED.

Alabama papers are lauding a farmer of that state who produced 1,700 bushels of Irish potatoes on eight acres and sold them at \$1.35 a bushel, receiving for his output \$2,295. The Selma Times-Journal says this farmer "deserves a medal for real achievement," and that, according to the well known formula, "the world ought to make a basket

JUST KIDS

track to the door of this Monroe county farmer to find out how he did it."

Well, we must say, those Alabama farmers are easily satisfied, and those Alabama newspapers make a lot of noise over a very mediocre performance. Why, if a south Florida truck farmer nets as much off a single acre of celery, lettuce, strawberries and many other varieties of truck as this Alabama farmer boasts of making off eight acres, he doesn't think he has done anything remarkable. When the yield from a three-month crop passes \$2,000 per acre, as it sometimes does, then it is considered worth mentioning; and we have heard of returns as high as \$2,500 per acre.

There are many orange groves on the west coast which produces more than \$1,500 worth of fruit per acre.

And the returns from an avocado grove in full bearing—well, we hesitate to give the figures. But they would make those Alabama farmers dizzy.—Tampa Times.

WORKERS WELL OFF

Dr. Charles A. Eaton, a minister who left his church to work on a broader scale for better industrial relations, and who now reaches 3,000,000 men every week, explains his work and his viewpoint as follows:

"I am trying to combat the foolish statements of some of our socialists who assert that the rich are getting richer and the poor poorer. Nothing could be further from the fact. The workers in America have never been so well off as they are today. Naturally, there are still reforms to be made, wrongs to be righted; but to chop down the whole tree, as some of our socialists advocate, instead of cutting off some of the rotten branches, is too ridiculous for words. One has only to look at the banks and trust companies that have been started by labor organizations to disprove our socialists who want to solve our problems by introducing foreign ideas that have no place here."

He tells this to workmen, and great numbers of them believe it. They can not do otherwise if they are fair-minded, reasoning men. And as the consciousness of how well off they are spreads among the working class, the efforts of the radical malcontents grow weaker.

There is comparatively little "dangerous radicalism" in this country today, and it is steadily growing less, as American industrial problems are taken up and settled in a typically American way.—St. Augustine Record.

FROM OTHER SANCTUMS

Miami, in common with all the other cities of the state, needs a city planning board with teeth. The city is growing, and there seems no way to prevent it from continuing to grow. The trouble with it is that it is growing like Topsy. It is growing like a tree in the forest, which is all right for forest trees, but not for trees in society. Miami is going to find itself in difficulties of a very serious nature in the not distant future if something is not done to plan and shape and direct its growth. In fact, it is already finding difficulties in the matter of traffic, for example, that would be avoided if certain changes

ST. PETERSBURG—A bottle of whiskey was found in the grass and in an effort to determine its contents he essayed to smell it when a policeman arrested him, according to a story told in municipal court recently. He was fined \$25.

Break in canyon in colors.—Roumit & Anderson.

The Herald delivered six times a week for 10c.

ORDINANCE NO. 52

AN ORDINANCE PROHIBITING ANY PERSON, FIRM OR CORPORATION FROM RECEIVING OR HAVING IN HIS, HER, THEIR, OR ITS POSSESSION ANY SPIRITUOUS, VINOUS, OR MALT LIQUORS IN THE CITY OF SANFORD, FLORIDA, EXCEPT SUCH SPIRITUOUS, VINOUS OR MALT LIQUORS BE RECEIVED OR HAD OR HELD IN ACCORDANCE WITH THE LAWS OF THE STATE OF FLORIDA, AND PROVIDING A PENALTY FOR THE VIOLATION THEREOF.

BE IT ENACTED BY THE PEOPLE OF THE CITY OF SANFORD, FLORIDA:

SECTION 1.—That it shall be unlawful for any person, firm or corporation to receive directly or indirectly or to have in his, her, their or its possession, custody or control in the City of Sanford, Florida, any spirituous, vinous or malt liquor, except if received, had or held in his, her, their or its possession in accordance with the Laws of the State of Florida.

SECTION 2.—That any person, firm or corporation violating any of the provisions of this Act shall upon conviction be punished by a fine not exceeding Two Hundred (\$200.00) Dollars, or by imprisonment not exceeding Ninety (90) days.

SECTION 3.—That this Ordinance shall be published once within ten days after its final passage in a newspaper of general circulation in the City of Sanford, Florida.

SECTION 4.—That all ordinances or parts of ordinances in conflict with

Brick ice cream in colors.—Roumillat & Anderson. 73-31c

Pirates Take Close Game From Braves

PITTSBURGH, June 22.—Boston ended its western invasion yesterday by losing to Pittsburgh 2 to 1. Score: Boston 000 000 001—1; Pittsburgh 001 000 001—3.
Chicago 4, St. Louis 6
Chicago 000 002 200—4
St. Louis 000 000 000—0

CELERY SEED

Rain yesterday.

Made wet baseball diamonds. But two games were played just the same.

By the way the Oviedo boys mopped up with the Big Berean Brotherhood it looks like a new pennant winner.

But wait until Tuesday when the Oviedo team meets up with the Orlando Sentinel. Then we'll see whose boss. Oviedo, in our opinion won't clean up with Orlando so easy.

Slippery diamond, made slippery playing in the Oviedo-Berean game, on the part of the Big Berean players. The Big Berean players didn't look so big after the game. With this loss they lose the league leadership to Oviedo.

Sanford-Monroe game was a corker until the ninth when with the score tied, 3-3, upon a little argument which the umpire should have settled at once, spectators from both sides rushed upon the field and prevented further play.

Two McCall brothers pitched yesterday. Babe McCall pitched the Oviedo team to a big victory in Sanford while his older brother, Emmet McCall held the Monroe swatters down at Monroe. A few more McCalls in the vicinity and Sanford could put out a first rate team.

Babe McCall's pitching and hitting was superb in the Oviedo-Berean game. He fanned twelve, walked four and gave up only six hits, three being of the scratch variety. The twelve he struck out certainly made his hair whistle in their attempts to locate his curves.

Monday afternoon the Big Berean will meet the Orlando Sentinel team on the home diamond. It will be the first game of the season for the Orlando bunch and the outcome of this game is looked forward to with great interest. Last week the fast Sorrento semi-pros defeated this team by the score of 5 to 3.

Ed Hendersen will probably do the hurling for the Big Berean while Black will hold down the receiving end. The Orlando pitcher is reputed to be one of the fastest amateur pitchers in this part of the country so a good scrap can be expected.

Senators Rally in 9th and Beat Indians

WASHINGTON, June 22.—Washington defeated Cleveland 6 to 5 yesterday. The score: Cleveland 103 001 000—6; Washington 100 001 004—6.

Chicago 6, Philadelphia 1
Chicago 100 410 000—6
Philadelphia 000 100 000—1
St. Louis 1, Boston 3
St. Louis 021 000 000—3
Boston 000 000 010—1

Crackers and Lookouts Split a Double Bill

ATLANTA, June 22.—Atlanta and Chattanooga, divided a double bill here yesterday, Atlanta winning the first game 6 to 3 and the Lookouts the second 4 to 3. The score:

First game:	Chattanooga	000 000 210—3	10 2
Atlanta	021 300 00x—6	10 2	
Second game:	Chattanooga	000 220 0—5	7 2
Atlanta	000 102 0—3	7 0	

Seven innings by agreement.

Nashville	002 000 000—2	7 3
Birmingham	500 000 01x—6	9 0

Oviedo Takes One-sided Affair from Big Berean Brotherhood

By the large score of 18 to 1, Oviedo team of the Pepper League swamped the Big Berean Brotherhood under on a sloppy diamond. Oviedo gave her pitcher, McCall, excellent support despite wet balls which seemed to slip in all sorts of directions from the hands of the Big Berean players. King was hit hard and backed by poor support, gave up eight hits, struck out six and walked five. Hoolehan, who relieved him in the seventh, gave up seven hits, struck out three and walked one. McCall, for Oviedo, struck out twelve, gave up six hits and walked four.

Oviedo scored in all but three innings while Big Berean's only run came in the eighth when Shipp reached first on a slow attempted double play, stole second and scored on Ricker's long single to center.

The box score:

	Oviedo	Big Berean
Slavick, ss.	6	1
Kelsey, c.	5	3
Thompson, cf.	7	5
McCall, p.	6	5
Williams, 1b.	7	2
Sistrunk, 3b.	5	2
McFarlan, 2b.	6	1
McCall, rf.	6	0
Carter, lf.	6	1
	54	18
	15	27
	6	2

Summary: Two base hits, Carter, McCall; stolen bases, Thompson 2, Sistrunk, Kelsey, McCall, Shipp; bases on balls, McCall 4, King 5, Hoolehan 1. Hit by pitcher, King (Sistrunk). Struck out, by McCall 12, Hoolehan 8, King 6. Losing pitcher, King.

Italy has only twenty letters in its alphabet.

FOR THE MOVIE FAN

Charlie Chaplin pleased another large crowd last night.

And tonight Rex Ingram presents with distinction and artistic finesse his newest cinema creation "Where the Pavement Ends" with Alice Terry and Ramond Navarro.

This is a wonderful picture and should be seen by every one in Seminole county.

And then the educational feature—International News only one day old.

And the honor guests tonight will be Mrs. H. S. Hamrick and daughters and will see "Where the Pavement Ends" without cost to them, the treat being on Osborne.

ORLANDO LOSES 1ST TO ISLANDERS

DAYTONA, June 22.—Cashion strode to the plate here yesterday afternoon as first man to bat in the 9th inning with the score tied at 1 to 1 and on the first ball pitched by Ferguson slashed the apple over the center field fence for a homer, enabling Daytona to defeat the Orlando Bulldogs 2 to 1 in the second game of the series. The score:

Orlando	000 001 000—1
Daytona	000 010 001—2

FLORIDA AS A SUMMER RESORT

"Florida as a Summer Resort," says a Florida Times-Union headline. There is a popular impression that summer does resort to Florida, Greenville (S. C.) Piedmont. This humorous item from the Piedmont contains the one idea more than any other which is hindering many people from taking up a year round residence in Florida. Those of us who have spent several summers at Greenville can testify that it is a far hotter place in the summer than is Crescent City. We are glad to publish to the world that summer does resort to Florida, but only in the season in which summer is generally scheduled north of the equator, but also in the season when old Sol crosses the line. Our summers are delightfully tempered by cooling breezes from the Gulf and Atlantic Ocean while our winters are warmed by the southern sun. Our climate is the freest from extremes of both heat and cold of that of any locality in our great country. These are the facts which must be published until the false conceptions concerning this great state of Florida are dispelled. If a person enjoys violent temperature changes Florida would not suit but for those who do not enjoy extreme heat in summer and extreme cold in winter Florida offers the most delightful climate in the United States. Along with this are amazing opportunities along all lines of development. For many decades Horace Greeley's advice, "Young man, go west" held the attention of all young opportunity seekers. Today the big opportunities are in Florida and we must replace the Greeley slogan with "Young man (30 to 90 years young), come South."—H. T. Chafer in Crescent City Call.

Give it a Good Home

To keep your car running smoothly and looking its best you should give it a good home. You can economize on rental by owning a garage and its convenience is also a great advantage.

Select your garage with these points in mind; it should be fireproof, reasonably low in first cost, attractive in appearance and easy to clean. Moreover, it should require little or no upkeep.

"Choosing the Garage" is the name of a booklet that you should read before deciding on the type you will build. We'll be glad to give you a free copy.

HILL LUMBER CO.

Phone 130 Sanford, Florida

Up to 1904 the quickest a mile had been traveled was fifty-two seconds.

EAST SANFORD

Beardall avenue folks are now receiving their Sanford Daily Herald each evening by carrier instead of the morning after by R. F. D. The carrier boy is Frazier McNeal of Celery avenue and one would have to go along ways to find a more courteous, friendly little gentleman.

A daughter was born to Mr. and Mrs. Hal Colbert Saturday at their home on Margaret avenue and given the name of Betty Jane.

A daughter was born to Mr. and Mrs. Graham Hunter at their home on Beardall avenue Thursday and has been named Mary Alice after her two grand mothers.

Mrs. Tolbert of Cameron Villa road has gone to Kentucky, called there by the illness of a sister.

Mrs. Herman Steele and little son Alton, of Orlando, were visitors at the Steele home on Beardall avenue the first of the week.

Burk Steele and Nelson Stenarum made a quick trip to Virginia, from here to Richmond starting here Wednesday morning and arriving there on Saturday evening. That is going some fast.

Leon Purvis was in Dr. Robinson's hospital a portion of last week for the removal of his tonsils.

The party given for Mr. and Mrs. R. C. Long and daughters by friends at the Hazelden pavillion at Silver Lake before their departure for the north, was unintentionally omitted in the last week's East Sanford column.

John Brumley and Malcolm Cameron are chums, Malcolm was taken sick and went to the hospital week before last and was operated on for appendicitis there last week. John went to the hospital and was operated on also for appendicitis. Both boys are recovering nicely.

Mrs. L. A. Brumley and her John, will leave for Charlotte, N. C., as soon as John is able to travel, by train. Mr. Brumley and their son Will, are to go by automobile the same day.

Mrs. Monroe, who has been carrying on the store at corner of Celery avenue and Mellenville has gone to Orlando to reside. B. Steele & Sons will take over the store and goods again.

Mrs. Curtis Coleman and Mrs. A. D. Abrams had as their guest last week their brother, John L. Boyd, of Fairburn, Ga.

Mr. and Mrs. Curtis Coleman had as week-end guests Mr. Coleman's aunt, Mrs. J. E. Edmondson, and cousin, George E. Edmondson, wife and children, all of Fairburn, Ga. Also Mr. and Mrs. S. B. Edmondson and baby, Mrs. S. M. Swoford and three children and Carl Wetherall and little daughter, all of Daytona.

Clark Leonard has bought 10 acres of partly improved land on Beardall avenue of Joe Cameron.

There is a rumor about here that the American Fruit Growers, Inc., are about to move their tenant houses, mule barns and all of the other buildings belonging to them that are located on Beardall avenue over on to the east side of their 100 acre farm near the railway tracks. It would be greatly appreciated by the Beardall avenue property owners who have their homes here. There is talk of a petition being circulated about here asking the Fruit Growers to do this if they do not do so soon.

DELAND LEGION PLANS BIG YOUTH

DELAND, June 19.—Plans are shaping up for the Fourth of July celebration in DeLand sponsored by local post of the American Legion. All central Florida is to be invited and the fun is to start with the firing of tab lightning cannon at 8 a. m. followed at 9 by the capture of the city by the legion army when the mayor will be rounded up and the keys of the city seized. Mayor Campbell is expected to capitulate gracefully and make a short address of welcome to visitors. Next will come the running of the gauntlet by new members of the post. Music by the local band will be switched on at intervals during the day. At 10:30 the first baseball game will be played while at noon the visitors will gather at the auto camp to partake of a free barbecue, three hours, seven bags and many sheep having been engaged for the feed.

OVELDO

Mrs. T. W. Lawton was the charming hostess at a delightful "gossip party" Friday night at the Club House. About fifty-three guests were invited, thirty-six of whom were present. The room was beautifully decorated with palms and cut flowers with festoons of gay colored confetti ribbon. One side of the room was separated from the main part by a complete wall of palm leaves. Every form of the "gossip" game was played. Finally Mrs. Lawton passed around huge capsules each of which contained a piece of gossip, which she said the guests could swallow or not as they pleased. After each one had read the "dose" of gossip Mrs. Lawton read hers, which now meaning to the letters "C. E." which in Oveldo have stood for Christian Endeavor more than anything else, but which stood in this case for "Coming Events" of the season, the most interesting being the marriage of Miss Ruth Young and Mr. Beverly R. Wight in the late summer. While the guests were trying to "swallow" this astonishing piece of news, Miss Elizabeth Lawton and Mrs. B. F. Wheeler passed around trays of ribbon confetti which were thrown at the prospective bride and groom, completely blinding them with its tangles. After this a round of congratulations and amusements, followed by delicious refreshments entertained the young people until almost midnight and but for the remembrance of another day's duties to perform they would have been the guests of their charming hostess indefinitely.

Mrs. Carleton and grandson Roy Hendricks, returned Monday to their home at Island Grove after a visit to Mrs. J. N. Thompson. Miss Lulu Hughes entertained a number of her friends at the home of her foster parents, Mr. and Mrs. O. G. Wolcott at Lake Charm Tuesday night, the occasion being the birthday of Miss Hughes.

The Sunday school training class of the Methodist church took their second examination Tuesday afternoon, five of the regular class being present. The meetings held at the Methodist church each night this week by Rev. A. Macfarlan under the auspices of the Christian Endeavor Society have been well attended by the young people and much interest is being manifested. Bro. Macfarlan has given three very stirring talks, directing his remarks especially to the young people and their work.

Mrs. C. W. Wynne of Selma, Ala., returned home Friday after a visit of two weeks to her aunts, Mrs. Frank Norris and Mrs. L. R. Mitchell and her brother R. M. W. Sturdivant.

Mills Lumber Co., is again shipping lumber after an interval of several weeks hold up caused by the rebuilding of their mill which burned about six weeks ago.

The Seminole County Federation of Clubs met in Oveldo Saturday, June 16th. The Oveldo club had planned to have dinner at Lake Charm, which plan was carried out under difficulties and a cloudy sky. Just at noon a heavy shower came which not only inconvenienced all, but delayed the dinner for some time. After dinner the party was carried to Sweetwater Park and given an outline of the plans on foot for the beautification of that spot. Later they returned to the club house and held their meeting.

Mrs. Frank Norris, Mrs. E. R. Sturdivant, Mrs. L. R. Mitchell, Mrs. C. W. Wynne and R. M. W. Sturdivant spent Thursday at Daytona Beach.

Miss Janet Macfarlan was a visitor to Orlando Wednesday.

Jan. L. Malcolm of Oveldo and Miss Hazel Corinne Duval of Punta Gorda were married at the latter place Sunday. They returned to Oveldo Tuesday and for the present are doing light housekeeping at Mrs. A. J. McCully's. The friends of these young people extend to them congratulations and best wishes for happiness and usefulness.

Mr. and Mrs. Bullington and daughter Malye, returned Monday to their home at Rebecca, Ga.

W. C. Moore, Seaboard engineer, is again in Oveldo to the delight of his many friends. "Billy" is doing some surveying down in the Hammock and seems to be developing into quite a mosquito fighter.

TAMPA—Extension of part-time and evening classes in this city's schools has been decided upon by the Hillsborough county board of public instruction. The board also decided to use \$2,050 from the state and county fund and \$3,450 from the federal, Smith-Hughes fund, for vocational training in the county.

The Herald for first class job work.

UPSALA AND GRAPEVILLE

Mr. and Mrs. Gant and children were out Sunday from the West Side, taking Mrs. West and children for a drive.

Mr. and Mrs. Volle Williams and children and L. Powell spent last Sunday at Coronado Beach and today (Thursday) Mrs. Williams and the children and Miss Florence Tyner are going over to stay for a couple of weeks at least.

Mr. and Mrs. August Swanson are including in a part of their porch for an outdoor sleeping room.

We notice Mr. Hood's furniture is being moved out from town to their fine new home near Twin Lakes and close to the Contry Club.

Rev. Wahlberg will be here for preaching at the Lutheran church next Sunday morning at 11, and in the evening at 7:30. It may be Rev. Eckhart will be here then, too.

Mr. and Mrs. Harold Haskins and baby and Mrs. Elsie Henson spent the day Sunday, with their father, G. Malm and Alster, Mrs. Alma Neece. The family as often, took a picnic lunch out to Twin Lakes on Saturday evening. Mrs. Elsie is suffering from a sprained ankle just now.

Mrs. Forrest West is starting a beginners class in piano music at her home. This is handy for the country children, not having to take a trip in to town. She is a splendid musician and has had a lot of experience in this line, having taught music for a number of years in their schools.

Mr. and Mrs. Edwin Lundquist and their two children, their sister, Miss Mildred Lundquist and brother, Gardner Lundquist, went over Sunday to Coronado Beach to spend the day with Mr. and Mrs. Elmer Lundquist. Elmer returned to his work here at the Crown Paper Mills after a pleasant week spent with the family in Jacksonville.

Mr. and Mrs. Fred Krell and children and Miss Eunice Tyner left last week in their Ford for southern Georgia, where they will pack cantaloupes.

The children are busy practicing their parts for our Children's Day on the first of July.

Rev. Clark and wife were with us last Sunday and their daughter, Mrs. Podmore and baby who are staying with them while her husband is away, also came with them. He preached in the evening at Lake Mary.

There is to be an ice cream social tonight (Thursday) at Crystal Lake for the benefit of the Lutheran church at which ice cream, cakes, lemonade and coffee will be for sale. The ladies are donating the cakes and we hope there will be a good crowd out. Rev. Eckhart will be here and plans on having Mr. and Mrs. Foster and sons for some good music for the occasion. Emil Magnuson brought over Mrs. Elmer Lundquist and children from the beach for the social.

DEATH OF E. M. SIEG On Sunday night, June 10, the death of Mr. E. M. Sieg occurred at the home of his sister, Mrs. J. V. Wicks, of Geneva. Mr. Sieg, who had been in poor health for a number of years, came from his home in Georgia to Geneva about two years ago, hoping that the milder climate might benefit him. In that time he had greatly improved and his friends all looked for his ultimate recovery. With this hope in view, his sudden death was a great shock. During the time he had lived in Geneva Mr. Sieg had made many friends who will miss his genial smile, and hearty handshake. The funeral services were held at the Geneva cemetery Tuesday morning, June 12th. Rev. J. N. Thompson, pastor of the Baptist church officiating. A beautiful profusion of flowers covered the casket and grave. Mr. Sieg leaves to mourn his death, a wife, and two sons of Savannah, Ga., also four sisters, and six brothers, Mrs. David Spear, of Sanford; Mrs. O. E. Liggins, of Americus, Ga.; Mrs. J. V. Wicks and Mrs. Carol Culppepper, of Geneva; C. P. Sieg, of Jacksonville; Eugene Sieg, George Sieg, Frank Sieg and Joe Sieg of Georgia, and W. L. Sieg, of Geneva. To these sorrowing relatives the sympathy of all Geneva is extended.

CARD OF THANKS The family of E. M. Sieg, who died June 10, wish to express thanks to their many friends for the sympathy and acts of kindness extended to them in their recent bereavement.

MIAMI POST AMERICAN LEGION ADDS NEW MEMBERS MIAMI, June 21.—The recent 10-day drive for increased membership by the local post of the American Legion resulted in 110 new members. The campaign was continued.

New stock tally cards, place cards, nut cups and favors at Roumillat & Anderson 73-31c

Notice of Application for Tax Deed Under Section 575 of the General Statutes of the State of Florida. Notice is hereby given that W. B. Young, purchaser of Tax Certificate No. 341, dated the 2nd day of June, A. D. 1919, has filed said certificate in my office and has made application for Tax Deed to issue in accordance with law.
