NO SWAPPING DEAL, BRITISH VIEW ON DEBTS

Neither Does Country Contemplate Immediate Return To Gold Standard

LONDON, Feb. 1.—(AP)—Great Britain does not look upon the approaching debt conference at Washington as a "great swapping deal," Neville Chamberlain, chancellor of the exchequer, declared today at the luncheon of American newspaper correspondents.

Neither can England "contemplate with equanimity the return to the gold standard until we are certain it will work better than it did just before we left it," he said.

"Great Britain believes in a stable international standard of value but there are many conditions to be fulfilled before she returns to gold."

Meantime London newspapers reported the possibility that the United States will grant a moratorium on further war debt payments from Great Britain until the new settlement is completed. The next debt payment is due June 15.

WASHINGTON, Feb. 1.—(AP)—Mixing and warping over the approaching war debt negotiations with European powers were scolded in the Senate yesterday, with criticism of Franklin D. Roosevelt's announced intention to deal in person with the representatives of Great Britain.

The new string of the debt topic coincided with the departure of Sir Ronald Lindsay, the British ambassador, headed for London to negotiate with his government for the settlement which are to open here immediately after inauguration day.

Right afterward, also, the Italian ambassador, Augusto Rosso, called at the State Department to deliver his government's acceptance of the proposal by Mr. Roosevelt for discussing the debt with Italy along the same lines as the hearing granted England.

Senator Borah (R., Pa.), then Democrat, opened the debt debate with a speech in which he warned the American people against the possibility of a concerted drive from abroad for a new moratorium and called for reassertion of the opposition of Congress to any new moratorium or any reduction in the debts.

Junior Red Cross Activities Stopped By Unanimous Vote

SOMERVILLE, Mass., Feb. 1.—(AP)—All Junior Red Cross activities stood discontinued in the public schools yesterday by a unanimous vote of the school committee. Distribution of the January issue of the "National Junior Red Cross News," publication of the American Red Cross, also was ordered suppressed.

A drawing in the current issue of the "Red Cross News" was denounced by committee members as "sacrilegious" and bans were placed on the Junior Red Cross activities and the national publication "until an apology from the publishers is forthcoming."

The drawing, termed by committee members as "cartoon that is an insult to more than 30,000,000 Americans" depicts a priest in vestments administering the sacrament of Communion to a donkey held on a string by a small child. The drawing was used to illustrate a children's story of Spain.

Patty Is Appointed To Race Commission

TALLAHASSEE, Feb. 1.—(AP)—Governor Sholtz today accepted the resignation of R. B. Burdine, Miami, as a member of the State Racing Commission and appointed E. F. Patten, West Palm Beach, as his successor. Burdine, who was chairman of the commission, recently resigned saying he was compelled to give more time to his business as a merchant. The commission will name its new chairman at the next meeting.

Tampa Police Seek Solution Of Attack

TAMPA, Feb. 1.—(AP)—Police today said they have detained several persons for questioning in connection with the wounding last night of Peace Justice Lawrence Hernandez and Dr. E. J. Hernandez while they were talking to J. B. Pacheco, brother of a city alderman at a cafe entrance. A shotgun was found nearby. The men said they could not explain the attack and declared they had no enemies. The justice of the peace was wounded in the body and arm and the physician in the arm.

EFFORT PENDING TO FORCE R. F. C. LOANS INTO USE

Charge Is Made That Funds Lie Idle In Vaults Of U.S. Banks

WASHINGTON, Feb. 1.—(AP)—Action is being taken to force into productive enterprise millions of dollars loaned by the Reconstruction Finance Corporation and now allegedly lying idle in the nation's bank vaults last night became a prime subject of legislative speculation. Congressional leaders were chary of comment but they were studying, nevertheless, the results of the opening session of an extensive investigation of R. F. C. loans to railroads which produced an accusation that the bankers had failed to fulfill their duty, in which the chairman of the corporation's board and the investigating committee's chairman joined.

Sanford Kiwanians Entertain For Wives With Interesting Program

In a setting that was reminiscent of a Broadway night club, and offering as a feature a well-presented showing of bits of Betty Ball Brown's "Hilda Revisited" that will soon tour southern cities, Sanford Kiwanians last night entertained for their wives and a few other guests at the Parish House at a Ladies' Night party that was enthusiastically received by the nearly 60 persons who were present.

Every form of entertainment was offered as a means of satisfying the tastes of all present. There were talk and committee reports, round-the-table singing of Kiwanian songs, a brief bit of entertainment by Kiwanians, Julius Dingfelder, the floor show, dancing to the music of Bob Timson's orchestra, and bridge for those who did not care to dance.

A feature of the evening came in the appearance of Roy Williams, local commercial artist and female impersonator, who for more than half an hour after dancing began, was the center of all eyes, those of the men seeking a new dancing partner and those of the women who were heard on all sides asking "Who is that woman?" No less than seven men, including Judge J. G. Sharon, Julius Dingfelder, Harry Kent, Dave Bonlake, and W. B. Zachry, "fell" for the coy girl.

The drawing, termed by committee members as "cartoon that is an insult to more than 30,000,000 Americans" depicts a priest in vestments administering the sacrament of Communion to a donkey held on a string by a small child. The drawing was used to illustrate a children's story of Spain.

With Kiwanian Peter Schaal acting as master of ceremonies, the floor show opened with the introduction of Joyce Pritchard, city Orlando dancer, leading a chorus of six girls in their latest

GARNER TO BE ASKED TO HAVE CABINET SEAT

Roosevelt Discloses He Was First To Suggest Plan Put Into Effect By Harding

WARM SPRINGS, Feb. 1.—(AP)—President-elect Roosevelt will ask his running mate, the outspoken John N. Garner, of Texas, to share a seat at the cabinet table as a part of his vice presidential offer.

Informing newspapermen of this yesterday, Mr. Roosevelt disclosed it was he who first suggested this practice put into effect by President Harding in 1921. As vice-presidential nominee in 1920, Roosevelt said he made the suggestion to James M. Cox, the Democratic presidential candidate. Cox announced if elected he would ask Roosevelt to the cabinet table.

Mr. Roosevelt said he had discussed the matter with the Harding cabinet, however, Vice President Dawes did not follow the innovation. For the last four years Vice President Curtis has been at the Hoover council table.

In Mr. Garner, now this speaker of the House, Mr. Roosevelt will have a sage veteran adviser. This was as far as any official talk went yesterday by his political advisers, the President-elect's cabinet, surrounded by his political advisers, the President-elect's cabinet, surrounded by his political advisers, the President-elect's cabinet, surrounded by his political advisers.

Arkansas House Refuses To Probe Charge College Is Run By Bigheaded Yanks

LITTLE ROCK, Ark., Feb. 1.—(AP)—The Arkansas House of Representatives yesterday refused to authorize an investigation of charges that President John C. Futrell, of the University of Arkansas, had "stacked" his faculty with "foreigners" and "big-headed rotters."

An assertion that radicalism and atheism were taught and that two of the "foreigners" referred to but unnamed were "disciples of Mussolini" and another "a disciple of Lenin and Trotsky" were countered by the university's defenders with the declaration that the charges were "unsubstantiated" and "an insult to the intelligence of people of this state and country."

The university president and his five foreign-born faculty members were alternately attacked and defended through an hour's debate that ended with the defeat of a resolution for the investigation by Representatives Grant and Smith by a vote of 31 to 60.

Former students at the university, now representatives in the Arkansas legislature, took the floor in defense of their alma mater. Representative Hule, one of the university's defenders, said that the charges were "unsubstantiated" and "an insult to the intelligence of people of this state and country."

U. S. STEEL PAYS FIFTY CENTS AS STOCK DIVIDEND

Long Record Of \$1.75 Quarterly Payment Broken By Action

NEW YORK, Feb. 1.—(AP)—Ordering a payment of 50 cents a share, directors of the United States Steel Corporation yesterday clipped a 33-year string of successive \$1.75 quarterly payments on the preferred stock which long has held a high investment rating.

Faced with a \$90,186,567 total deficit on surplus in 1932, and a net operating deficit of \$12,919,937 after income of \$60,350,000 for 1931, the company's board confirmed its own statement of last summer, when it had said maintenance of the preferred dividend must depend on business improvement.

There was some pick-up in September and October, but demand for steel slumped again in November and December. Legal production has been gaining slowly but steadily in January but the steel officials made no comment on current operations or prospects.

The reduction was hardly a surprise to the financial community (Continued On Page Three)

Corliss Palmer Is Taken From Hotel Suffering Ailment

SAN FRANCISCO, Feb. 1.—(AP)—Booked as Corliss Palmer, an attractive blonde, received treatment at a hospital today for what records said was chronic alcoholism.

Police removed the woman from a hotel where she registered as Edith Mason, Pasadena. Hysterical and struggling she was taken to a hospital with her wrists in leather handcuffs.

SENATE URGED TO SPEED ITS LEGISLATION

LaFollette Declares Nation Faced With Its Gravest Crisis; Calls For Action

WASHINGTON, Feb. 1.—(AP)—Asserting "Never in recent history" has legislative procedure been "in such a hopeless tangle," Senator LaFollette called upon the Senate today to work night and day beginning next Tuesday with a program of expediting legislation, prohibition repeal, and beer in addition to appropriation bills.

"Some effort should be made for orderly legislative procedure to transact pressing business before this Congress," LaFollette said. "This country faces the gravest crisis in its history. People are hungry and starving in the midst of plenty. Farmers are being ruined by the drought which they carved out of the wilderness. Business concerns, which have been regarded as impragable, are hovering on the brink of bankruptcy."

DES MOINES, Iowa, Feb. 1.—(AP)—American farmers, debt ridden with prices now at 51 percent of the pie-year level, for the most part sat back yesterday while federal and state governments, along with big business, accelerated plans for their relief.

Three Local Persons Re-Elected To Board

Mrs. J. G. Leonard, Karl Lehmann, and P. J. Felner, of Okaloosa, are the Seminole County residents who were re-elected as members of the Board of Directors of the Florida Tuberculosis and Health Association meeting at Daytona Beach on Monday. Election of 1933 officers will follow within a few weeks.

The Association went on record as pledging support to the health and welfare program of the present state administration, stressing the importance of adequate public health activities to a program of economy.

Partly Clad Woman Is Taken From Canal

MIAMI BEACH, Feb. 1.—(AP)—A young woman about 30, clad only in flimsy underclothing and in a hysterical condition was pulled from the Collins Canal near a fashionable night club here today by two boatmen attracted by her screams. Taken to a hospital the woman was able to identify herself only as Dorothy. Physicians said she was too hysterical to give an account of how she came to be in the canal and police were unable to uncover any clues.

Attempts To Purchase Plowed Up Celery Decried By Fred F. Dorner

Into the picture of co-operation coming from every grower in this section regarding the plowing up of one-third of the present matured celery crop as a regular device intended to restore celery prices to a normal figure, have come reports that today were termed "regrettable" by F. F. Dorner, president of the Seminole Agricultural Club.

Buyers of small lots of celery have been reported as having attempted to purchase some of the plowed up celery at a ridiculously low figure. Mr. Dorner said, and already talking of reprisal against this method of "apparently delib-erately placing celery on the market contrary to the wishes of the united celery farmers of the state," has been heard.

Ford Sees Nation On Threshold Of Brilliant Future

States Development Of Machines Will Bring About Bright Era Of Prosperity

NEW YORK, Feb. 1.—(AP)—The New York Times published today, under a Detroit dateline, a copyrighted interview with Henry Ford in which the automobile manufacturer declared "these are not bad times but good ones and that we are on the threshold of an inconceivable bright future."

While the Ford plants still lay idle because of the strike in the Briggs Company's factories, Ford gave the leisurely interview at Detroit in the Times representative, Harold Penny.

He said it is the development of machines which will bring the bright new era and he smilingly dismissed technocracy. Turning to present conditions, Ford said it "was exploiters who brought on this whole thing" and that the "workingmen have been exploited all the way up and down the line by employers, landlords, and everybody. Exploitations went on clear up to the banks. People will have to learn how to handle their currency. Now bankers who have all the money seem to be the only people who know how to handle it."

Chemists Arrive To Aid Celery Growers

E. Longfield-Smith and B. J. Owen, of Tallahassee, attached to the Chemical Division of the State Department of Agriculture arrived in Sanford this morning and opened a field laboratory in the Bureau of Entomology building on Elm Ave. at 11th Street.

For the next two weeks they will analyze all farmers and growers in their laboratory samples of celery and other vegetables that the grower believes are tainted with arsenic spray residue. The service of these two chemists is free to the growers, it was pointed out.

Mr. Owen, who has appeared here before for a similar purpose, was careful to point out that this service is not at all compulsory. "We are here," he said, "to test produce and to report our findings. It is understood that every grower knows that if he ships produce that contains traces of arsenic spray he not only stands liable to a fine, but he assists in ruining his local area because of the adverse criticism which is bound to be directed toward an area shipping arsenic tainted produce. Ours is purely an information service in which we leave the responsibility in the hands of the grower."

Odd Fellows To Have Open Meet Thursday

The attention of all local members of Sanford Lodge No. 27, I. O. O. F., as well as visiting Odd Fellows today was called by D. C. Howard, noble grand, in an open meeting of the lodge to be held at the Odd Fellows Hall at Fourth Street and Pine Avenue tomorrow night at 8:15 o'clock.

According to Mr. Howard, this meeting is for the purpose of renewing and pledging anew, allegiance to the order. "All members, visiting brothers, and all former members," he said, "are urgently requested to attend, and lend their assistance in putting forward a program and outline for a course of action that will put Odd Fellowship on a higher plane than has ever been known in this community."

Because there will be a short regular session at 7:45 o'clock, Mr. Howard today asked members to come early. A large delegation is expected from the Orlando, Kissimmee, and St. Cloud lodges, he added.

Findings of a day-old white male baby with distinct negro features, buried in a shallow grave in an open field near Third Street and Locust Avenue Monday afternoon led shortly after to the arrest of Annie Mae Ashley, negro girl who came here about five months ago from White Springs.

At an inquest held at the Court House yesterday afternoon, a jury decided that the child came to its death at the hands of the negro woman and ordered her held for action by the grand jury. State's Attorney L. F. Boyle said that a probable charge of first degree murder will be lodged against the woman for this, he said, every indication that the infant's throat had been severed.

Sanford, Fla., Feb. 1, 1933. The Best Policy. The New York Life Insurance Company has set a splendid example in its handling of a mortgage on a farm...

Under the circumstances the logical course is first a reduction in the rate of interest, and second, wherever necessary, a compromise as to the principal itself. Foreclosure is a practical means of washing out excessive liability in normal times, but whenever the wash-out process becomes necessary on a wholesale scale, foreclosure becomes more impractical to the creditor than to the debtor.

WEDNESDAY, FEB. 1, 1933. THE GOLDEN RULE. An advertisement for a business or service, mentioning 'The Golden Rule' and 'The Best Policy'.

Many mortgage companies are beginning to find themselves in possession of innumerable farms with the operation of which they are totally unfamiliar. To secure any revenue whatever they must sell the farms back to the farmers, and the unloading of many farms on the market at one time only tends to further reduce the price and to delay the whole process...

Operating expenses of the school already had been cut to a minimum with the budget less than half of what it had been in previous years. We ended last year with a deficit but our staff of nine teachers—the school covers all work from kindergarten through high school—has volunteered to serve again this year at greatly reduced salaries, to be paid only if we could afford it.

GOVERNOR HEARS NEEDS OF PUBLIC SCHOOLS RECEIVED

\$7,500,000 Is Stated Amount Needed to Operate Next Year

TALLAHASSEE, Feb. 1.—(AP)—Florida public schools will need \$7,500,000 in state funds during next year to carry on an eight months' term, Governor Holt was told yesterday by the executive committee of the Florida Education Association.

The educators said at a conference with the Governor that they hoped the legislature would appropriate that sum annually for the next two years and to provide for it in such a way that it may be paid in full.

They estimated that the current operating expenses of the public schools could be cut from \$13,419,292 to \$12,944,322 a year, but said the maximum ability of counties to raise school funds would produce only \$5,211,466 a year.

Current expenses for the fiscal year 1931-32 aggregated \$13,419,292, the committee said. While capital outlays amounted to \$2,113,195 and debt service \$2,197,023. The total was \$22,529,410.

Reports from 64 of the 67 counties showed \$240,000 in unpaid teachers' salaries and \$250,000 in unpaid current expenses carried over from the fiscal year 1931-32.

Reductions in classroom programs and administrative costs, recommended by the committee, would save \$872,570 a year. The general financial condition of the counties and schools and the shortage in tax payments, however, the Governor was told, make it necessary for the schools to ask the state for the same appropriation given in 1931 and to request full payment of that sum.

Approximately 75 percent of the \$7,500,000 appropriated during the fiscal year 1931-32 was paid the county school systems by the state, and officials estimated payments for this fiscal year would not exceed that percentage.

State school funds come from net receipts of the sale of automobile licenses, a one-mille ad valorem tax and interest on principal of which cannot be spent.

For future needs, the committee recommended the following: Constitution amendment, providing a non-salaried state board of education and a state commissioner of education the members of the board to be appointed by the Governor with the approval of the state Senate for four years, overlapping terms and the commissioner of education to be named by the board and subject to removal only by impeachment.

SENATE URGED TO SPEED ITS LEGISLATION

(Continued from Page One) Heretofore active in preventing tax sales and mortgage foreclosures, farmers watched the country today, waited action which their cries for assistance had precipitated.

From Washington, New York City and various home cities of insurance companies and the seats of state legislatures came reports of speeded effort to ease financial pain of mortgage distressed farm lands.

One farm sale only was halted during the day. At Tuscola, Ill., a group of farmers chased a representative of mortgage holder off a farm when he attempted to raise bids on the property. Otherwise attention centered on those who have been asked for relief.

Principal of the day's developments included: 1. At Washington a Senate committee pushed hearings on the domestic allotment bill, said by its backers to be the cure for the farmers' plight.

2. Decision of the New York Life Insurance Company to suspend farm foreclosures in Iowa pending enactment of renewal state legislation, announced Monday, continued to hold a prominent spot in discussions of the situation.

3. Other insurance companies, following the lead of the New York institution, issued statements they would use the utmost leniency in dealing with the farmers until legislative aid had been devised. Four companies at Hartford, Conn., the Prudential, of Newark, N. J., and all the large Iowa companies announced they had temporarily suspended foreclosures at the request of Governor Herring, of Iowa, pending legislative aid.

4. The Minnesota legislature requested Governor Olson to issue a proclamation asking creditors and mortgagees to refrain from foreclosures during the present crisis. The legislators asked a proclamation similar to the one by Governor Herring. It was sent to the Senate judiciary committee with request for speedy action.

5. Arkansas joined the state active in pushing relief when its Senate passed a measure for a mortgage moratorium. The bill suspends jurisdiction of circuit and chancery courts in mortgage foreclosure proceedings involving any homestead for a period of two years.

6. Down in Mississippi Judge R. W. Cutler, of Magnolia, in chancery court, declined to order forced sale of land, asserting that the present "is no time for such disposition," under orders of a court.

7. The Mutual Home and Savings Bank Association announced it had reduced its interest rate on mortgages from 7 to 6 1/2 on Jan. 31, 1933. The new rate shall apply for one year.

8. Evidence of co-operation which has resulted in the farmers' situation obtaining right of way action in the various legislative halls was shown at Deshler, Ohio, and Tuscola, Ill. At the former city farm implements, two horses, two cows and the household goods of Cecil Klister, 28-year-old farmer, brought \$2.17 at an auction attended by 200 rural friends. The property was given back to Klister with a \$5 collection for good measure. At Tuscola, friends bid four cents for a cow and two cents for a horse on Charles Grady's farm and then an agent of the mortgage holder attempted to raise the bid.

Group Is Organized To Conduct Bartering

PHILADELPHIA, Feb. 1.—Getting back to the fundamentals of barter and exchange, the Emergency Exchange Association of Pennsylvania has been organized here to trade work for products or services for goods, scrip being the medium of exchange.

Headed by representatives of a number of groups of unemployed, as well as by social agencies, the new association plans to use the services of its members, skilled in various lines, paying the workers in scrip, issued by the association.

The scrip will be redeemable in cash and clothing which has been donated by the members of the association. In turn, have been paid in scrip.

commission reduced staffs of deputies and inspectors 50 percent. Two state officers followed the governor's lead in voluntarily reducing their salaries 10 percent. They are J. J. Taylor, Tallahassee, state chemist, and Joe Chittenden, Jacksonville, state service officer.

New Vehicle Commissioner Announces Plans For Economy

TALLAHASSEE, Feb. 1.—(AP)—George H. Wilder of Plant City will take office today as acting motor vehicle commissioner, succeeding W. L. McLin, and announced yesterday that more than 30 temporary employes of the department would be dropped immediately.

He declined to say what other changes are to be made, but it is said 30 or 40 tag agents throughout the state are scheduled to be released. Auditors completed a transfer of the department Monday.

Wilder will take office along with a number of new appointees named in Governor Sholtz's general shakeup.

The governor yesterday named George Ives, Fort Lauderdale, as a member of the state board of barber examiners succeeding S. A. Sweating of Miami, who resigned at Sholtz's request. Bryan Willis, West Palm Beach, today will become state auditor, succeeding W. S. Murrow.

George W. Davis, Arcadia, will become sheriff's commissioner, succeeding E. C. Strickland. Walter Donovan, St. Petersburg, succeeds E. D. Reagin as the state racing commission. Harry Duncin, Tavares, will become acting attorney for the state road department, in the place of Ben A. McGinnis. W. H. Dowling, Jacksonville, takes the office as engineer for the road department, succeeding F. W. Berry, Jr.

Ives' appointment on the state barber board leaves one place on that board still unfilled. Ralph Spence, DeFuniak Springs, recently was named to replace W. S. Matthews, also of DeFuniak Springs, who was removed by the governor. No successor has been named to succeed V. V. Veight, Jacksonville, who, resigned at the governor's request.

R. H. Burdine, Miami, chairman of the racing commission, also resigned recently saying his business required his full time, but the governor has not acted on the resignation.

Governor Sholtz's first sweeping change that of replacing all members of the highway commission, has been in effect several weeks.

While it has been rumored there would be changes in the personnel of the state auditing department and sheriff's commission, none so far has been reported. Ten assistant state auditors and eight uncommissioned emergency auditors have resigned but their resignations had not been acted upon.

At the comptroller's office, where J. M. Lee succeeded Ernest Amos Jan. 3, a total of 23 employes were dropped while 15 persons have been employed.

The state forest service and livestock sanitary department have put workers on a half-time basis until the game and fresh water fish department and hotel

Attention Called To Prospects Of State Truck Crop

GAINESVILLE.—County Agent Fred L. Craft recently called attention to the outlook for Florida truck crops as compiled by the Agricultural Extension service of the University of Florida.

This report, Craft said, is of especial interest to Alachua county farmers at this time. It follows:

"With the reduced consumer buying power, a generally low price level and the additional competition of considerable supplies of home grown vegetables, Florida truck crops, during the spring of 1933 may be expected to sell generally for rather moderate prices. Transportation and selling cost become more burdensome with low prices. Any improvement in business conditions is likely to be slow and not in time to improve prices very much by spring.

"The quantity marketed in the case of several of our truck crops seems likely to be the greatest factor in influencing prices. Unfavorable growing conditions in competing areas may so reduce supplies that prices will be good in localities and for certain crops.

"The general outlook indicates that this is the time to watch production costs and hold them as low as possible. The use of the best adapted and the importance of securing good stands, economical insect and disease control and careful fertilization are factors involved in reducing production costs.

"Competition from areas with lower freight rates should be avoided this year wherever possible."

Economist Sees World Standing At Cross-Roads

NEW YORK.—The world stands at a crossroad, where it must choose between strong economic nationalism and a system of general international change like that which "until recent years marked the pathway of economic progress," according to a group of American delegates to the preparatory commission of experts for the International Monetary and Economic Conference.

They are Dr. Edmund E. Day of the social service department of the Rockefeller Foundation; Dr. John H. Williams of the department of economics, Harvard University; and Dr. Frederick Devesey, assistant economic director of the Department of State, who returned from Europe recently.

Criticizing movements which are known as "buy American" or "buy British," Dr. Day, speaking for the group, declared there was no progress along such lines and that Great Britain's departure from the gold standard was "in part attributable" to the adoption of that policy.

The restoration of international trade would depend upon the success of the International Monetary and Economic Conference, Dr. Day asserted.

If the United States went off the gold standard, it would encounter very different results from those which Great Britain gained some benefit although it was at the expense of world trade, and prices, he held. Because English securities are payable in sterling only linked to gold while the gold standard is in operation, American securities, however, usually contain a clause making them always payable in gold. Therefore, if the United States went off the gold standard it would entail business distress, increased debt load and the flight of gold to other countries, he said.
