

COMMISSION FORM CITY GOVERNMENT WHAT IT MEANS

Why The Committee Recommend The Change

The following letter of explanation from the special committee appointed to investigate and report for or against a commission manager form of government for the city of Sanford contains substantial reasons...

What a Commission Manager Form of Government is and Why We Recommend Its Adoption for Sanford

On October 8th and again at a later date citizens meetings were held at the Sanford Grammar School to discuss city government and ways and means to bring about a more efficient handling of city administration...

In order now to make ourselves clearer and to give reasons for our recommendations to the effect that we should advise a commission manager form of government for the city of Sanford, we are sending you this letter because as a committee we feel that every one should know wherein lies our reasons...

In the first place, a commission manager form of government takes city affairs out of politics, makes the city progressive and assures its operation at less expenses than under the aldermanic plan...

For a city the size of Sanford, a charter specifying the following officers would without doubt prove adequate and successful:

Three commissioners, who serve without pay and who must be sought by the office and not vice-versa and in the running, the commissioners nominated must not solicit votes, to do so may be deemed to be holding office; this eliminates owing political debts and insures the strict following of business rules...

The commissioners are required by charter to employ a city manager. This must be a TRAINED EXPERIENCED man who must devote his entire time to the affairs and interests of the city...

It is the duty of a manager to supervise and know that all city interests are kept up and in shape. The handling of all city employees are under his supervision including

police and fire employees. He directly cares for the sanitary work, the street cleaning, the correct maintenance of streets and paving and must guarantee efficient service and full value from all companies or persons selling service or time to the city.

The manager handles and adjusts all complaints, this then, provides one head for all complaints and all concerned know definitely who to apply to. However, this does not give him a free rein, his actions and adjustments must be approved by the commissioners and all citizens also have free access to the commissioners when the occasion demands it.

All city affairs are public and the charter should provide that all reports of city affairs and finances be published at regular intervals, also the full detailed cost of operation.

Tax assessments are reduced under the commission manager form of government. An equalization tax board of at least ten citizens from all walks of industry make up this board. They are appointed by the commissioners and serve without pay. They meet from time to time with the managers and commissioners and make assessments. This eliminates the one man plan and makes all pay and pay alike. This form of city government provides for the collection of delinquent taxes, the method following being the same as that followed by the state.

The charter also provides the RECALL AND REFERENDUM and upon a signed petition of twenty per cent of the qualified voters an election may be held to remove any member of the commission board.

The workings of a charter under this form prohibits the city from spending more than its income, except by proper bonding. This always places the city on a self-sustaining basis.

In the matter of bonds and vouchers the commissioners and manager must maintain and know that a sinking fund exists in dollars and cents in order to insure the city's credit and standing. This fact alone makes the city sale of bonds possible and places the city available to money at a low rate of interest; much lower than is being paid under any aldermanic form of government.

Altogether, a commission manager plan of government takes the management and administration of city affairs out of the hands of men, who although safe conservative business men, are, because of their own interests, unable to give the attention to the city needed, and places the active management in the hands of a manager, directed by commissioners. Then since Sanford is actually a business or corporation with a capital of \$3,500,000, it must surely deserve conservative, careful, economic management.

For any town or city to ever own and operate its own public utilities, such city or town must first build a conservative constructive management in order to insure an administration that will provide for such dividends that means less taxation.

Our investigation shows that places like Hickory, Tarboro and Morganton, N. C., St. Augustine, Green Cove Springs, Lakeland and Orlando, Fla., have commission form of government along various lines and all these towns, similar in size to Sanford are succeeding and forging ahead.

In passing on the subject at YOUR request, we did so as citizens and as a duty and our recommendations come after careful investigation of the workings of other commission governed towns and after a careful perusal and study of our present city affairs and finances. In making our recommendations also, we have tried to avoid the pitfalls apparent in the charters of other cities so as to benefit you in your actions in considering this question.

In passing to you our recommendations, we insist that you bear in mind, that we are not nor will not advocate "whom who" for office—we are only recommending a form of government that we believe will benefit Sanford. Further, that we are not criticizing in the least our present city officials. We esteem these gentlemen as friends and colleagues.

GOOD NEWS FROM FRONTS EVERYWHERE

Kerenski In Saddle, Italians Hold Allies Winning

On the Italian front the Italian line in the north has stiffened under the reinforcements it has received from the British and French. Even the German official communication does not mention any further retirement by the Italians, but, on the contrary, admits that east of Asiago, where the Austro-Germans made gains last week, the Italians in strong force attacked the invaders and recaptured lost positions. The Italians took about 100 prisoners.

Along the middle and southern reaches of the Piave the Italians are holding their line tenaciously, although they have been forced to give up the Vidor bridgehead, north-east of Treviso.

The Germans have made no attempts to recapture the ground taken by them by the British Saturday in the region of Paaschendale, contenting themselves merely with the bombardment of the newly-won line. A heavy rainfall prevented the British from extending their gain. Bombardments and minor attacks have predominated on the remainder of the western front except near Hartman's Kellkopf, in the Vosges Mountains, where in a violent battle the French completely repulsed the Germans.

In Palestine the British forces continue to make progress against the Turks, who are being aided by German and Austrian gunners. During the latter part of last week several more towns and villages were captured on the 600-square-mile battlefield. In addition to numerous guns and many prisoners, East of Gaza a large enemy force was defeated and twelve guns, three machine guns and 100 prisoners were captured.

Apparently the Bolshevik uprising is nearing its end, and Premier Kerenski may soon again be in power.

Late advices from Petrograd are to the effect that the revolutionists have been defeated in Moscow at Tsarskoy-Seol, and from the latter town which is 15 miles from Petrograd, are retreating a disorderly mob toward the great capital.

In Petrograd street fighting has taken place with the Cossacks and other loyalists having the better of the Bolshevik element, while Kerenski with 200,000 men is on his way from Gatchina to reinforce the loyalists. To stay his progress, however, the rails of the Petrograd-Gatchina Railway have been torn up and large forces of the Bolsheviks are said to have gone out to give battle.

To add to the troubles of the Kerenski government a state of war has been proclaimed in Finland and the governor-general dismissed, his place having been taken by a sailor. The Diet has voted to elect a state directorate which will have supreme power in the province.

Paris, Nov. 11.—Premier Painleve returned at noon yesterday from his visit with French and British officials to the Italian front and expressed unwavering confidence in the victory of the forces of freedom.

Y. M. C. A. GOES OVER HIGH MARK

Workers Get Over Seven Hundred Dollars Monday

Over Seven Hundred Dollars Before Five o'clock. Have only started Campaign.

The Y. M. C. A. campaign for funds for war work started yesterday after a most enthusiastic meeting had been held in the Lytle Theatre Sunday. Manager Lane secured some good war pictures for the occasion and Chaplain J. J. Brökanahire of the Naval Training Camp at Charleston addressed the meeting, being introduced by Chairman Stevens and with Secretary Greene of Orlando who is feled secretary for the big drive gave the people the facts about the great work of the Y. M. C. A. in the camps, in the cantonments and in the trenches. On the stage with the speakers were the various captains of the teams and the ministers of the city and the occasion was greatly enjoyed by all those present.

The War Work of the Y. M. C. A. will receive a big boost from Seminole county if all reports are true that are coming into headquarters the first two days of the campaign. Of course the amounts that have been given will not be published today but the amounts are very pleasing to Chairman H. R. Stevens and his able assistants and they have the smile that won't come off for good little Seminoles is coming right along just as the always has on these important subjects.

In deciding upon the amount to be given to the War Work Council of the Y. M. C. A. it will be well to take into consideration the statement made by the leaders of America in the present world war. President Wilson favors and is assisting the work of the council. He has made many public statements in which he has praised the work of the Y. M. C. A. and has urged that organization to continue its labors for the good of the soldiers.

Secretary of War Newton Baker has issued a number of statements praising the work of the Y. M. C. A. He has investigated its practical worth and has given it his unqualified support. He is also urging all Americans to

"Their very principle of liberty means that they cannot impose upon themselves the brutal discipline of the Central Powers," says the Premier. "There is evidently different discipline, forged by trials as metal under the hammer."

A meeting of the War Council was held at 5 o'clock yesterday afternoon and the cabinet was in session from 6:30 until 8. After the cabinet meeting a semi official note was issued confirming the news of the establishment of a permanent inter-allied staff under Generals Foch, Wilson and Cadorna to sit at Versailles.

The note adds that nothing has impressed the Italian government and people more than the extraordinary celerity with which the allies arrived at this decision.

"It is the first time that unity of action on a united front has been truly realized," said the note. "Nothing will do so much to heighten the prestige of France."

JOLLY EMBALMERS FROM EVERY STATE VISITED SANFORD TODAY

contribute to the fund which will be spent to keep the soldiers in good spirits, prevent homesickness and otherwise serve to sustain the morale of the American legions when they take over the trenches.

Former Presidents Roosevelt and Taft are active in their support of the Y. M. C. A. work. The ranking officers of the army and navy are loud in their praise of the good which has been accomplished and which will be accomplished by these "Red Triangle buildings" in the camps, cantonments and just behind the firing lines. The sailors as well as the soldiers receive the benefit of this money. Buildings of this character have been or will be erected in every navy yard.

H. R. Stevens is directing the work and has W. M. Haynes for his able secretary and Schelle Maines for treasurer and all of these gentlemen are working day and night. To assist them in the work they have the following captains and each captain has a corps of able lady and gentlemen assistants who are combing the various districts. If you have been missed by these workers bring your contribution to the Herald office.

The following are the captains and their territory:

- Team No. 1—Ed. Putnam—West Virat St. and West Side French Ave.
Team No. 2—L. A. Brumley—Celery Ave. and all East Side, east of Mellenville.

Made Us a Helmet The editor of The Herald is indebted to Mrs. A. E. Hill for a fine wool helmet recently knit under her direction by the navy Knitting League. This will temper the winds to the shorn lamb when we go hunting and have to face the cool blasts that sweep over the piney woods. It is appreciated not only for its intrinsic value but for the spirit in which it is given as an appreciation for The Herald's work in behalf of the Navy Knitting League.

Mrs. Leslie Bryan and Leslie Bryan, Jr. have returned from Barneville, Ga. Mrs. Bryan's mother, Miss Howard will be her guest for the winter.

National Association Of Undertakers Meeting In Jacksonville

The undertakers are here today and today is the thirteenth of the month. The only thing that breaks the hoodoo is the fact that it is not Friday. The National Association of Embalmers with a party of some fifty members with their wives and families spent an hour or so here today coming up from Jacksonville on the Clyde Line and while here were the guests of the Sanford Board of Trade.

They came to Sanford upon the invitation of Frank L. Miller who is not only an active member of the National Association but is the secretary of the Florida Association and has held this office for many years. Mr. Miller wanted the party to come to Sanford before their meeting which will be held in Jacksonville for three days of this week and as there are members from every state in the Union they will get a good idea of Florida and of the Sanford section.

O. J. Taylor and A. P. Connelly, representing the Sanford Board of Trade went down to Bereford this morning by auto and met the boat coming on to Sanford with the visitors and giving them badges and literature. Upon their arrival here they were met by President Dutton and Secretary Marlowe of the Board of Trade and city officials and taken in cars everywhere throughout the celery, delta and were shown the points of interest in the city. After the ride they were given a fine luncheon at the Hotel Carnes as guests of the Board of Trade and the different courses were interspersed by toasts and roasts by the local talent and the visitors and at the close of the luncheon they were whisked away to DeLand Landing in time to catch the boat again for Jacksonville. That their visit to Sanford was pleasant was evident from many expressions of pleasure from the visitors at every turn and they will long remember Sanford and the Board of Trade.

Those booked for the trip are: Mr. and Mrs. John F. Martin, Ellenton, N. J., Mr. and Mrs. Chas. B. Moke, New Brunswick, N. J., Mr. and Mrs. Clark B. Rogers, Hordentown, N. J., Mr. and Mrs. Jas. E. This will be a good game as the Klammee girls are said to have the goods. After the game the Klammee girls will remain over for the dance at the Woman's Club house.

Donated to Schools Mrs. M. E. Key has donated to the Sanford High School Library a complete set of Encyclopaedia Britannica which is greatly appreciated by the school board, the faculty teachers and students.

The Grammar School has a fine set of the Britannica that was donated five years ago by Dr. J. F. McKinnon when he left Sanford to take charge of Orange county schools.

Red Cross Notes A meeting of the Red Cross Chapter will be held at the Woman's Club Friday afternoon, Nov. 16th. Please bear this in mind and let us have a better attendance than has been seen at previous meetings.

It is a source of gratification both to Moore's Station Auxiliary and to the Chapter to report \$21.76 netted from the Hallows' social given by that Auxiliary, this sum to be devoted to the buying of material to promote the work.

Meeting In Central Park

There will be a rousing rally in Central Park Tomorrow Night, Wednesday at 8:00 o'clock. The Band will play and Rev. C. J. Vincent of Winter Park will make an address on the War Work of the Y. M. C. A. Everyone is cordially invited to attend.

Presbyterian Church
New series of sermons on at nights at Presbyterian church. These are "Night Scenes in the Life of Jesus." Next Sunday night the subject will be, "A Night in Jerusalem." It is expected that these sermons will attract as favorable attention and bring as large crowds as the series on "The Return of Jesus" which was recently completed. The service begins at 7.

Over 100 Presbyterians are now members of The Daily Bible Readers League, making it their custom to read the Scriptures each day. Daily Bible reading was the subject of the service last Sunday morning, and great interest is now being manifested in this subject among local Presbyterians. They hope to have every church member adopt this custom before the winter is over.

The Presbyterians worshipped with the Baptists Wednesday night to bid Dr. Hyman good-bye. A large crowd from our congregation were present.

First Methodist Church
The Sunday school is in the best condition of its history, well organized and officered. The best teaching force and a teacher training class preparing others to become teachers are prominent features in the school. It meets 9:30 each Sabbath. A cordial welcome awaits all who come.

The preaching services Sunday will be conducted by the pastor, Rev. F. E. Steinmeyer. He has only four more Sabbaths before his pastorate closes in Sanford. He wishes to greet all his friends and co-workers in each of these services. The subject Sunday morning will be "The Life that Wins." The evening subject, "Will I Stand the Test?"

Dr. J. D. Sibert, the presiding elder of this district held the fourth conference for this church on Monday evening of this week. He found the church in good condition. Rev. Smith Hardin of Orlando District was also present.

Missionary Mass Meeting
Mrs. S. S. Harris, a returned missionary from China will address Sanford missionary societies Monday afternoon at 8 o'clock in the Methodist church.

At 7:30 p. m. she will give one of her most interesting lectures on mission work in the Orient.

Missionary societies from adjoining towns have been invited and it is hoped that all members of missionary societies in town as well as others interested in the cause will attend both meetings. No admission fee.

Rest Room Flourishing
The exhibit of fancy work, art goods and novelties given by the Woman's Exchange at the Rest Room this week proved a decided success. Under the active and capable management of Mrs. Mae Collins this department has developed into a far reaching good. Too much praise cannot be given to Mrs. Watson who has been untiring in her efforts to this effect. Both the Exchange and Rest Room will continue under the direct supervision of Mrs. Collins. For information concerning Exchange or Rest Room communicate with Mrs. Collins at The Specialty Shop, First National Bank building.

Soldiers, Come Back Clean
Ella Wheeler Wilcox

The following patriotic poem by Ella Wheeler Wilcox has gained a wide popularity in the training camps. It has received high endorsement from Secretary Daniels, Colonel Callahan and others in high official circles. See that your boy reads it:

This is the song for a soldier
To sing as he rides from home
To the fields afar where the battles
are

Or over the oceans foam.
"Whatever the dangers waiting
In the lands I have not seen
If I do not fall---if I come back at
all,
Then I will come back clean.

"I may lie in the mud of the
trenches,
I may reek with blood and mire,
But I will control, by the God in my
soul,
The might of my man's desire.
I will fight my foe in the open
But my sword shall be sharp and
keen
For the foe within who would lure
me to sin,
I will come back clean.

"I may not leave for my children
Brave medals that I have worn,
But in the blood in my veins shall
leave no stains
On bride or on babes unborn.
And the scars that my body may
carry
Shall not be from deeds obscene,
For my will shall say to the beast,
OBEY!
And I will come back clean.

"Oh, not on the fields of slaughter
And not in the prison cell,
Or in hunger and cold is the story
told

By war of its darkest hell.
But the old, old sin of the senses,
Can tell what that word may mean
To the soldiers' wives and to innocent
lives,
And I will come back clean."

§ Lady driving a car on Orange
avenue in Orlando the other day lost
control of the car and ran it over the
curb and into a large plate glass
window of one of the large stores.
All the damage done was the smash
the principal thoroughfare of Or-
lando and not a person was hurt. I
was just wondering how many shop-
pers would have been killed in San-
ford should a car jump the curb and
smash one of the large plate glass
windows of one of our stores on one
of our principal streets during the
busy time of the day.

I am glad to note that Sanford
church societies are cutting down on
the refreshment idea and conserving
foods along the lines laid down by
the government. The private
families should not be asked to
cut out certain foods and then be
asked to donate these foods at a
church social. The Miami Metropol-
is hits it on the head in the follow-
ing:

Consider the consistency of this!
Organizations, notably church or-
ganizations, that have given loyal
and enthusiastic assistance to spread-
ing the propaganda for Food Con-
servation, continue to hold their
banquets and their suppers with all
the good things to eat that they
have always had!

As a "bait" to bring the men to-
gether in a church meeting, food
must be served--much food, too.
And the families in the church that
have been advised, yea heckled, into
savings that almost cut off proper
nourishment for the children in the
home are "solicited" into furnishing
food for these Christian gentlemen
who, it seems, cannot be enticed
into a church by any other means!

One good church woman in Miami
who has never failed to give to
church suppers--both food and labor
says she has been asked to be ready
with donations for several affairs
that are scheduled for this month.
"If I give these things," she said,
"I must take food from my own
children--if I refuse to do it, I will
be accused of being mean and un-
loyal to my church, but I do not be-
lieve in feeding people these times to
bring them together. There should
be no need of inducements of that
kind to bring people to church af-
fairs. If the food was to go to hun-
gry and needy people, I would glad-
ly give, even though my own family
for this one occasion would go hun-
gry, but the people that attend
church dinners are not hungry. They
do not need to be fed in this way."

And she is absolutely right. In
these days of food saving "to win
the war," the fancy "spreads" that
mark church sociables should be
eliminated. While from the stand-
point of simple consistency, it is
anything but "on the square" to
talk and urge Food Conservation in
the home, and then beg for dona-
tions of fancy goods for church func-
tions.

There is a great campaign on
now for the War Work of the
Y. M. C. A. and many volunteers of
the business men and the ladies of
the city are out giving their time and

attention to soliciting funds for the
Y. M. C. A. in the army canton-
ments, in the fields and in the
trenches of Europe. I said they
were volunteers but they are really
drafted men because from this time
on they will not be asked to volun-
teer for this work but will be re-
quested to do it and they should be
drafted. There are a few men
right in this city that are supposed
to be prominent citizens who have
neither given their time or their
money for any of these things and
they have plenty of time and plenty
of money. The government has
asked for the names of those citi-
zens who refuse to do any work for
these necessities of the war and they
will be marked so in future years
they will bear the brand of shame
for all time. And it is high time
that every citizen of America real-
ized they have a part to play in this
war. If they can't go to the front
they should work behind the lines
and all this Red Cross, Liberty
Loan, Y. M. C. A. and other work
should not be left to a few while the
great men of the city sit around in
idleness and luxury and after the
war is over it will be the first ones
to ask for some of the pie. They
should be marked by the real citi-
zens of the community and never
asked to take any part in public af-
fairs when peace is declared and we
settle down to everyday life again.

Those playing bridge are asked to
pay 25c each and in the knitting
and sewing circle a silver offering
will be taken.

BIG SPECIAL EDITION Sanford Herald Will Go After the Trade of Central Florida This Year

The Sanford Herald is in receipt
of many inquiries from people living
in this section as to whether we will
publish the special Holiday Edition
of The Herald and to all of them the
answer has been sent that not only
will this edition be published as
usual but it will be bigger and bet-
ter than ever. In fact the Sanford Her-
ald this year will go after the trade
for central Florida and bring it to
the doors of the Sanford merchants
and the Sanford merchants have al-
ready signified their intention of
taking more space this year than
ever before. There never was a
time in the history of the business
world of Sanford when the merchants
needed advertising as now. There
are so many different distractions
that our local merchants should get
right down to brass tacks and com-
bat the foreign advertising by taking
a liberal space in The Herald, the
paper that covers this part of Flor-
ida as no other paper covers it.
The family paper is the one that
gets results and the Christmas
edition of the Sanford Herald is looked
forward to each year especially by
the readers who live in the county
and in nearby counties, for the San-
ford Herald issues one of the largest
and best Holiday Editions that is
published in the state by any paper
other than the big dailies of Jack-
sonville and Tampa. These holiday
editions bring the business to San-
ford and this business must be
brought this year of all years for the
Sanford merchants have the finest
stocks of goods that they have ever
carried and all they need is to let
people know about it. Sanford is
the natural trading center of this
part of Florida and the Christmas
editions of The Herald that have
been issued continuously for ten
years have helped to make it so.
We would not think of eliminating
one of these editions and this year
the big special edition will be issued
several weeks before Christmas in
order that the shoppers will have
plenty of time to glance over the
illuminated pages and scan the
prices and make their selections.

We believe in the "shop early"
slogan and the Holiday number of
The Herald will make them shop
early for there will be such a glitter-
ing array of good things in the paper
that Sanford will be filled with early
shoppers and we expect this city to
start the Christmas trade this year
in the first week of December and
keep it up until the last day before
Christmas.

Bear in mind the fact that The
Herald will issue the usual special
edition and there will be 5,000
copies printed as usual for the dis-
tribution all over the country. Last
year there were 2,000 copies mailed
out of Sanford to people in the north
making new history for Sanford.

The Music Department wishes to
announce that on next Wednesday,
Nov. 14th at Mrs. Frank Woodruff's
Mrs. Takach will begin her series of ten
lessons in choral work, which splen-
did opportunity, as has been an-
nounced is open to each club mem-
ber for the small fee of 50 cents, this
to defray expenses.

This is an opportunity for us to
have a chorus and also for us indi-
vidually to obtain some valuable in-
struction along this line from one
thoroughly competent to instruct.
Why not lay down our cares for a
brief while and enjoy this chorus.

A world war bridge and sewing
party will be given at the Woman's
Club next Tuesday afternoon at

2:30, this being the regular Social
Department day. The entire pub-
lic is invited and those not caring
for bridge are asked to come and
bring their knitting or Red Cross
sewing.
The object of this party is to pro-
vide funds for the purchase of Xmas
boxes to be sent to our Seminole
county boys in the army and navy
and as the cause is so worthy and of
deep interest to many of us a large
crowd will be expected.

For the interest of those not play-
ing cards a contest has been arranged
with a prize, and there will also be
raffled--everyone present expected
to take a chance at 10 cents each--
a war cake.

Those playing bridge are asked to
pay 25c each and in the knitting
and sewing circle a silver offering
will be taken.

Please phone Mrs. Housholder at
phone 179, between the hours of 12
and 2, 6 to 7 p. m., and reserve
your place.

On next Thursday, Nov. 15th the
Seminole Chapter Red Cross will
give a Bridge and Five Hundred party
at the Club house, game starting
at 3 o'clock prompt. Fifty cents
will be asked and the proceeds of this
party will go toward buying material
for the furtherance of Red Cross
sewing. Prizes will be given to the
fortunate winner in each game.

This is an object not only worthy
but dear to the hearts of many of
us and the larger the crowd the
larger the proceeds of course and
larger amount of work that can be
provided for and accomplished.
Phone Mrs. D. L. Thrasher No.
74 for reservations.

Where Woman Excels.
Another evidence of the difference
between the male intellect, if any, and
the female one is the way a woman
can stew cherries and make soap on
adjacent holes of the same stove, ap-
parently without incurring the slight-
est risk of getting to thinking about
something else and putting some im-
portant ingredient of the one into the
other.--Ohio State Journal.

The Proper Attitude.
The proper attitude of a man toward
woman is not a very complicated af-
fair. The fellow who admires her if
she's beautiful, honors her if she is
a mother, respects her if she works,
has sympathy for her if she is in dis-
tress, and pities her if she stumbles
in a fair way to become a gentle-
man.--Houston Post.

Well Answered.
Old Lesterich, an uncomplimentary
husband, who used to appear in the
Austrian paper Floh, said to his wife:
"If nature had made me an ostrich,
perhaps I could get your cooking."
"That would be fine," answered his
imperturbable wife. "Then I could get
some plumes for my hat."--Christian
Register.

**Our "Faith Shown by Our Works"
--Planting More Citrus Groves**

That our faith in the future of the citrus industry of Florida is a matter of
practice rather than of theory is proved by the fact that we are increasing our
present grove acreage. We shall plant this season as many trees as our obliga-
tions to our customers will permit us to take from our nursery stock.

It has never been the policy of Buck-
eye Nurseries to advocate that which
we were unwilling to apply in our own
methods. Our advice as to varieties,
cultivation and other factors in citrus
growing has been based on practical ex-
perience. Often, however, advance
ground has been taken in our adver-
tising and in our catalogs.

We believe that we are called on to
keep ourselves fully informed regard-
ing everything pertaining to the citrus
industry of Florida. We feel that it is
our duty to our loyal friends and cus-
tomers to keep them advised of all
that we learn, regardless of whether
or not our immediate business interests
are advanced by the facts.

**Buckeye Nurseries Stock Selling Rapidly
Little Need for Advertising This Season**

We do not need to advertise exten-
sively to dispose of our stock of trees
for the coming season. The unusually
heavy advance reservations give us
assurance that by the first of the year
most of our trees will be taken.

Why, then, are we spending good
money in advertising our faith in the
citrus industry of Florida? For the
reason that we believe in doing so we
are rendering a service to the people
of Florida, and that as we help them
we shall ourselves profit.

Our sources of information are such
that naturally we can get a more com-
prehensive idea of what the citrus in-
dustry has in store for it than may any
individual grower. We feel under obli-
gation to the industry which we have
helped to build to inform the persons
engaged in it as thoroughly as we can
of what our investigations disclose.

We wish we had half a million more
citrus trees than we do for sale this
fall. The facts as we see them would
justify growers in planting that many
more dependable trees. We believe we
could dispose of this quantity of stock
in addition to that we have. As it is,
we can only hope to supply a portion
of the demand that exists. Neverthe-
less, we shall consistently and persist-
ently urge the planting of more citrus
groves by all who can get good trees.

If you have no copy of our new catalog, ask us to send you one--free.

PUBLICITY PULLS PROGRESS

PRODUCING NOT PROMOTING BOARD OF TRADE RESULTS
(BY THE SECRETARY)

Will Again Oppose Freight Rate Increase

Several similar organizations have affiliated with the Sanford Board of Trade, and again the freight rate increase will be opposed. The carriers and shippers of the east are now in Washington, before the commission and in turn should come to the west and southeast. The original committee of seven composed of Harry T. Moore, Atlanta, John S. Fletcher, Chattanooga, S. A. Spivey, Columbus, Ga., Morgan Richards, Selma, Ala., T. M. Henderson, Nashville, Tenn., W. S. Creighton, Charlotte, N. C., and D. C. Marlowe, Sanford, are being held in fact and will file at once opposition to this increase. By appearing and putting up the evidence as in the first case which took place last May, we should be able to again stop the increase. There is no more reason now than then for increased freight rates. The fiscal year ending June 30th, 1917, shows that railroads generally had more actual dividend money to show than in any other year of their history save one. The Louisville & Nashville still maintains a surplus of around fifty million dollars, the Atlantic Coast Line shows up with around thirty-five million, the Southern with a dividend earning capacity of around sixteen million within a year and even the poor old Seaboard can boast a surplus of something like eight million dollars. Since then, these carriers have been excused from expansion, since during the past summer, they have reduced passenger trains to a minimum; one road alone taking off more than one hundred schedules, thereby saving the hire of men, coal, equipment, locomotives, wear, and tear, why should they seek an increase in freight rates when they admit themselves that they cannot even now handle the great increasing tonnage ordered them. It is the idea to maintain and sustain our railroads but this is not a reason for greater dividends in view of the facts already cited, and once shown and the producer and shipper backs up the showing, again the increased freight rate request will loose as before. The Board of Trade will oppose freight rate request will loose as before.

this matter just as far as its members wish to oppose it and will do so for the good of all.

Tonight you are invited to attend the Board of Trade meeting to be held in Geneva. Several cars will leave the Carnes Hotel at 6:45 p. m. and if you have no other way to go a seat is being reserved for you if you will go out with us.

We are in receipt of a letter from Mr. L. J. Hartley of Longwood, which we greatly appreciate. Mr. Hartley intended being in attendance at a special meeting of the board of governors at the Carnes Hotel last night but was unable to get in, but wrote his recommendations and ideas of things that could be done to benefit the county. His suggestions will be carried out, if such a thing is possible to the letter.

Along with boosting our town and our county how about boosting the many things "made in Sanford." One of the industries in particular that is now doing business in Sanford is the cigar business. Wouldn't it be much better to buy and smoke the "made in Sanford cigar" and in turn increase the output of their money for material and labor which after all goes back through the channels of trade in Sanford, than to spend our nickels and dimes for the product of some other town; our cigar money eventually paying the salary of the man who lives in some other city and uses his money of course for the upbuilding of the community where he resides. Today the Sanford cigar factory is turning out as good cigars as any in the state and the unanimous support of the cigar smokers in Sanford, in buying home made cigars would boost the enterprise and add several more workers to the factory that is really helping by its goods to boost our town in many places that would otherwise never take time to wonder or to know who, why and where Sanford is. Let's all first learn to boost each other's business, boost each other individually and before we realize what is taking place we'll all be working for our town and county and together all will prosper. If there's anything made in Seminole county or Sanford, give it preference in your purchase; firms like Sears Roebuck, Montgomery Ward and the Peruna Drug Co. are millionaires because all of us have been too anxious to help the other fellow and let starve our home grown product.

Bentley & Sons, cantonment contractors at Jacksonville are in need of several concrete mixers. If you have any for sale phone 128, the Board of Trade for data.

Fifty excursionists from New York reached Sanford on the Osceola today. For the first time in history, all during the fall, twice each week the Clyde Line has been bringing from fifteen to fifty Easterners into Sanford and this means that in January and February there won't be accommodations in Sanford to hold the tourists that will, without doubt reach us.

Mrs. Manchester, Chamion Knitter The following is a clipping from

Tidings, the official paper of the Woodman Circle:

Mrs. Emma B. Manchester, Supreme Guardian of the Woodman Circle, knits at night when she can't sleep and knits in her berth in the Pullman when making railroad trips. As a result of her knitting fervor she has turned into the Red Cross headquarters the largest single contribution to date. It consists of thirty-four pairs of wristlets, fifty-nine surgeons' sponges, nineteen wash cloths and two sweaters. Now she is working on socks and has already made three pairs. She plans to make 100 pairs of wristlets and one dozen sweaters.

Mrs. Manchester, in addition to all of the finished articles knitted by herself has taught all of the members of the Executive Council how to knit and each member has been doing their share, as they have all been busy every spare moment.

Mrs. Manchester is Supreme Guardian of the Woodman Circle with headquarters in Omaha, Neb. She is 68 years of age but is full of patriotism and urges all members to the assistance of our government and practice conservatism in all things.

Celery City Circle purchased one hundred dollars' worth of Liberty Bonds. They also donated wool to the Navy Knitting Circle. Those who could knit put in all their spare time knitting wristlets and sweaters for the navy boys. Others gave individually for the purchase of material. Mother Manchester's heart was made glad to know that her girls of the Celery City in the Southland were doing their mite in this great work, and to know that one of our members, Mrs. A. E. Hill is the promoter of this work.

Wanted an Escort.
A little boy had a birthday party, his guests being around the ages of five and six years. After having spent a pleasant afternoon they all started for home at about five o'clock. After a while the little boy's mother noticed two little girls sitting on the steps and said: "You better go home, little girls, before it gets dark." One spoke up and said: "I want a boy to take me home."

Too Hasty.
"Mr. Crowley, can you lend me \$100?" "No, sir, I can't. And if I could I wouldn't. I have been lending you money for a year, and you make no effort to return it!" "But I wanted to know if you wouldn't lend me \$100." "And I tell you beforehand I won't!" "Well, then, don't. I wanted to borrow your fountain pen to make out a check for what I owe you, but, if you're in no hurry, I'm not."

Oh, No, Doctor.
Doctor: "What you need more than medicine, is a good, refreshing sleep at night." Patient: "I know, doctor, but I'm afraid the boss wouldn't like it. You see, I'm a night watchman."

Two Things to Learn.
Learn these two things: Never be discouraged because good things get on so slowly here, and never fall daily to do that good which lies next to your hand.—George McDonald.

Fairview, N. J., August 28, 1917.
Editor Hudson Observer:
Dear Sir—About six years ago I was in the U. S. Navy. I boarded the Montana which was detailed to Turkey waters. We expected our stay to be about a month or two. At the end of three months our canvas tent stores began to run low and at the end of four months we were buying Bull Durham at 25 cents a pack from some of the boys who had taken a good supply in time. It was not long before we could not buy Bull Durham at any price. Although we could have the real Bull Durham at 20 for 10 cents, we would rather give 50 cents for a pack of Bull Durham. I know from experience that the tobacco you send to Europe will be welcomed by every American man. So I am sending \$1.00 to you so that the soldiers and sailors will not worry for the rest of the "makings."

Bob Holly of the Sanford Herald recently went to Tallahassee to give the governor the "once over" and says Catts is getting better. This will help some.—Bradford Co. Times

Bob Holly, editor of the Sanford Herald says he is not too proud to accept sweet potatoes for subscriptions. You are right; a bushel of sweet potatoes looks like a pay streak in the lucky gold mine.—Bradford Co. Times

Among the new Florida newspapers coming to our exchange table is the Klamimsee Independent, a six column eight page paper that is well printed and well edited and promises to be one of the right sort in the galaxy of Florida journals. It is edited by B. S. Brown which to us is a good name for a newspaper man.

There seems to be a little feeling among the Home Guards regarding the supply of rifles, the government being unable to furnish a full supply for numerous companies throughout the state. It looks like this would be a golden opportunity for Gov. Catts to make good his campaign pledges and gain the good-will of the Home Guards. During the campaign Rev. Catts said the Knights of Columbus had thousands of rifles in their halls in this state, and if elected he would confiscate them. Now, Sidney, make good, and give the rifles to the Home Guards.—Wauchula Advocate.

You are asked to give this week to the Y. M. C. A. fund. You have been asked to give to many other good things but to our mind the Y. M. C. A. is one of the best in which to place your money for they are looking after the welfare, physical and spiritual of the boys at the front. We are all giving and giving and giving and must continue to give until the war is over. But it is better to give than to receive. Better to give to our own government than to receive the yoke that the Imperial government of Germany will place around our neck unless we win and win quickly this great war for humanity. You will be asked for a donation this week. You know how much you can give and you should give all you can.

Editor Bob Holly of the Sanford Herald says he is for Gov. Catts as long as he "stays put." What do you mean, Friend Holly? Who is to be the judge in this case? While we admit Gov. Catts is but mortal and

makes mistakes like other men, the truth remains that he has made some scheming politicians "set up" and take notice," and we hope he will keep it up until the "infernal machine" is busted.—Sebring White Way.

We mean, dear Pets, that we have taken him off the pedestal where a lot of you hero worshippers placed him after election and before the election and we have set him down among the meek and lowly where he belongs. He is just an ordinary man, an ordinary governor, nothing more and nothing less. It is true that he has ousted officials where they should be ousted and ousted some where they should not be ousted and he acknowledges that he has made mistakes just as any ordinary governor will do. That is the reason we said that he was not above making mistakes, he admits it and the event is closed. Also we intend to give him a square deal just as we have always given every official in office, although many of them have not given the newspapers a square deal by any means.

TO KERENSKY
 Kerensky, premier of Russia and the real man of the hour, cheer up. If you are not already in jail at this writing get to Moscow as soon as you can and get a split of fifty fifty with the square heads who have set up a greed and gold government at Petrograd. You are the savior of Russia and if you pass today Russia is losing the only real man that war ridden country can hope for in the next decade. Set up your own government and then establish the blood and iron rule that you talked about when you took charge and stand up against the wall all those square heads who are trying to get control for their own personal gain. We are betting on you Kerensky, old fellow, for we like your style and with you in the saddle Germany will never have a look in. Kerensky, you are having the same troubles that all real men have when they are trying to do something for the people. The people, the most unresponsive, the most complaining, the most ungrateful bunch that a public man has to deal with and the bunch that would crucify a real man on the altar of public criticism any day as a passing fancy and then weep for his demise the next day.

COMMISSION GOVERNMENT
 The government of a city is hot or should not be a matter of politics. It should be strictly a business proposition; just like the running of a mercantile business, a newspaper plant or any kind of a factory. The town should buy in the cheapest market, and strive just as an individual to get a dollar's worth of service for every dollar expended. A town should not ask for the free services of a man to act as marshal, clerk, mayor or councilman. Five thousand individuals are as able to pay for the services of a member of council as they are for a man to cut wood, or grow potatoes, or interpret the law.

DeLand needs a commission form of government, with three paid men to look after the expenditure of the \$30,000 to \$100,000 spent each year. For the year 1917, the town of DeLand has spent about \$100,000, including the cost of street paving, and no man has been employed to see that the city got value received. If the city did get the value of its money, it was simply because the officials gave time from their own business—neglected their own business to attend to the business of the people at large.

The News suggests that the DeLand Commercial Club and the city council take up this matter at once and get a modern government before the time arrives for the city election in May.—DeLand News.

NOBODY REALLY KNOWS FLORIDA
 St. Elmo Massengale, an advertising man of national reputation, speaking before the Southern Commercial Congress at its recent convention in New York, told his audience a number of things that must have been distinctly "news" to a large proportion of the people present, and to even a larger proportion of northern newspaper readers who read accounts of his speech.

"I gave passing mention a few moments ago," he said "to the citrus industry of Florida. There is a state that is surprising the country. A few years ago we looked upon it as a source of early fruits and vegetables, and an excellent country for invalids to spend their winters. It is both. But you may be surprised to learn that Florida this year produced \$85,000,000 worth of corn, \$8,000,000 worth of cotton, and \$4,000,000 worth of tobacco.

"Her total agricultural output amounted to more than \$118,000,000.

"Her fish and oysters brought \$25,000,000, and her lumber \$50,000,000.

"The plant of America smoked \$50,000,000 worth of Florida cigars last year.

"Many of you perhaps look upon the south as purely an agricultural region, but you are far mistaken in this. Of the 57 useful minerals mined in the United States, the south mines all but two—platinum and borax."

But it was at this same meeting of the Southern Commercial Congress that attention was given to the lack of good advertising of the south. It was pointed out that the south has always had plenty of bad advertising and plenty of calumnious articles traveling about through northern newspapers and magazines, and no end of uncorrected "information" that has given anything but accurate ideas of the resources and the advantages of the southern states.

As for Florida, this state is only beginning to discover itself. The people of Florida are only beginning to comprehend the incomparable advantages and opportunities that are offered on every hand, and it would be unreasonable indeed to expect the country at large to know Florida or to be even partially cognizant of this state's wonders when our own people do not know them.

But we are learning, and the country at large will learn, for Florida is comprehending one thing pretty well and that is the wisdom of advertising. The counties and cities of Florida which have been progressive enough to advertise have conferred inestimable benefits upon all sections of the state. And there should be much more of it.—Miami Metropolis.

"VALUE OF HOME GUARDS"
 The St. Petersburg Times has the following sensible words concerning the value of the County Guards. It seems as if in an enlightened community such an article is unnecessary, but it should be known that it was only a few days ago the Honorable (?) board of county commissioners of Dade county even went so far as to refuse to recognize the Home Guards of that county. We sincerely hope that no-one will in our presence criticize our Home Guards any more than he would our boys in khaki for the purposes of the organization of each are very nearly akin—that of defense of liberties—and our patience and forbearance has its limitations. Here is what the St. Petersburg Times has to say:

Despite the earnest manner in which the men of Pinellas county have entered into the work of the County Guards, there are those who are yet inclined to stand on the side lines and sneer at the "tin soldiers" as they call the Guards in a popular pastime with unthoughtful persons.

This is not as it should be, but it is truly characteristic of the American public, which needed the lesson taught by the great world war before it would see any degree of clearness the efficacy of military preparedness. So it will no doubt be with the County Guard movement until such a time as there is real need for the services of the men who are loyally giving their time to perfect themselves in things military.

But the great good of the County Guard movement throughout the state and nation will not be alone that of protection from dangers at home, although this is important enough to justify the effort being made by the men. This movement will produce a great body of trained men, many of whom may later be called in to the active military service of the country. Even now the great need of the nation is trained men to aid in the training and development of others unversed in military tactics.

From the ranks of the County Guards when the need comes, if it ever does, for the full man power of the nation, may be drafted hundreds of men who have been in given elementary schooling in military matters. Then indeed may the oft quoted phrase of a "million men springing to arms" over night be actually demonstrated. And when these men spring to arms they will not be unversed in the discipline and training necessary to become effective soldiers.

Don't sneer at the County Guards! Don't think of them as "tin soldiers," for if this world war should continue for several years, as some military critics believe, these same men may yet be in the front trenches. Not because their enlistment calls for any such duty will they be sent to the front, but they will go when Uncle Sam calls, ready trained to begin their duty in the battles to make the world safe for democracy."—DeSoto News.

Y. M. C. A. WORK NEEDED

A Worthy Cause That Should Be Helped
 Letters from Y. M. C. A. war work secretaries and from soldiers who are now in France show clearly how badly the Y. M. C. A. work is needed in the American camps "over there" just now. The soldiers are arriving in France daily. They are being thrown among strange people whose very language is Greek to them. The country has been ravaged by cruel war, German war, for the past three and one-half years. There is nothing for the men to do to amuse themselves.

Officers have frequently appealed to the Y. M. C. A. headquarters in Paris to do something to save the men. Amusements are wanted. Places where the men can go and spend their idle hours are wanted. Recreation is wanted. The officers see the need of just such work as the War Council of the Y. M. C. A. has been doing for some time. This work can only be continued with the help of the American people. The sum of \$35,000.00 is to be raised this week to keep this work going until July 1, 1918.

The work has progressed so far as to take in a plan of establishing a resort in the mountains near Switzerland where the American soldiers absent on leave can go. All kinds of winter sports are to be provided for this resort. This will be much better for the men than would be a trip to Paris. In the great French capital all kinds of temptations await the soldiers. The American soldier is an especial victim because of the fact that he always has money and is the best spender in France today.

The Y. M. C. A. is establishing Red Triangle huts at all points in and around the camps and firing lines. These huts can be found right up in the trenches. Here the men are served hot coffee and tea, they are furnished with the material to write home, they are given books and papers to read, they are supplied with music and games, sports are not forgotten in the huts back from the firing lines, and also in these huts religious services are held at regular hours and the soldiers are good church goers.

These are a few of the things for which the money to be raised this week will be spent. There are also a number of reasons why the money asked for this week should be freely given. Many of these boys, about 5,000 at the present time are Florida boys. They are from our own cities and towns. They are the men who were tilling the soil last year. They are saving that soil this year and should not be overlooked.

YOUR COMFORT CARED FOR "A Hotel Man With A Conscience"

business men visiting the International Live Stock Exposition in Chicago during the first week in December.

This is recognized as the court of last resort in the show rings of America. Some of the best cattle, sheep, swine and horses in the country will contest for championships in the pure bred classes. A feature of the show will be the fat stock exhibit in shingles and car load lots, which will be of special interest to the feeders and breeders of market animals.

Arrangements have been made for members of the party to assemble at Jacksonville or Pensacola, which ever is most convenient, on evening of November 29th and go direct from these terminals to Montgomery, Alabama, where the two parties will unite and spend November 30th as guests of the Montgomery Board of Trade inspecting live stock development on tick freed farms in that community. The following day will be spent as guests of the Selma Board of Trade visiting live stock farms in their territory, where wonderful progress has been made since the cattle fever ticks were eradicated.

The special party will arrive in Chicago Sunday evening. Monday and Tuesday will be spent at the Exposition, watching the judging and inspecting the stock and then the party will return direct to their homes.

The railroad company which has been selected to handle this party will make special arrangements and give a ten party rate if that number or more start from either Jacksonville or Pensacola. Special attention will be given to the comfort of ladies. Correspondence about the trip will be handled by Mr. D. U. Wilder, 134 West Bay street, Jacksonville. Registrations should be given to the party and get a new inspiration for helping to develop the live stock industry of Florida.

Baldwin Memorial Service A service that was somewhat of a departure was the memorial service held Sunday at the Baptist Temple. This memorial service was held to do honor to the memory of the late Deacon W. S. Baldwin, who was for a number of years a devout member of the Baptist church. In this service the Independent Order of Odd Fellows and the order of Free and Accepted Masons were asked to anticipate and did send representatives to pay tribute to the memory of their departed brother. The entire first floor of the Temple is a me-

Paper Shortage Causes Delay to Tax Receipts On account of the shortage of paper, Tax Collector Jno. D. Jenkins has been delayed in getting tax receipts from the State Comptroller, who wired that the movement of soldiers and government supplies had been so heavy that the contractor had been unable to get the necessary paper on time. However, the blank receipts have at last been received, and the tax collector's force are working overtime getting out receipts to the taxpayers who have paid their taxes.

Dear Mother: Pt. Still, Okla., Nov. 6, 1917.

Letter in the Air The following letter from Lieutenant Earle Loucks to his parents here, Mr. and Mrs. G. I. Loucks was written while he was in an aeroplane to which branch he will be assigned: Pt. Still, Okla., Nov. 6, 1917.

This will be your first letter written from an aeroplane. I am now up 3,500 feet and the tangle of the lip makes it hard to write. Wish you could see the ground flying by beneath. It is the greatest sensation in the world. We pass over little bumps of air just as a rowboat goes over a wave. In the cockpit there isn't much draft but when you lean over the side the breeze is great. We are toasting and bumping along like an auto on a very rough road as the air is bumpy this a. m. It is hazy and the aviation camp looks misty as we swoop over it, while Lawton is obscured in the distance. Well, I won't waste any more time writing now as I want to enjoy the scenery. Will finish this on the ground. Much love to both. Earle.

Leach—Herson Wedding One of the prettiest of autumn weddings was solemnized last Saturday night, Oct. 20th, at six o'clock at the pleasant home of Mr. and Mrs. D. Leach, when their daughter, Cora Mae was united in marriage to Mr. Wm. Warren Herson of Detroit. The wedding ceremony was performed by Rev. A. T. F. Butt, pastor of the M. E. church at Ft. Austin in the presence of about fifty guests. The ring service was included in the marriage ceremony. In the north side of the music room a dainty bower had been arranged. Ferns and Mountain Ash formed effective decorations throughout the house. Mr. Sherman Lloyd of Minden City sang, "Oh Promise Me." The bridal party marched promptly at six o'clock to the tune of Mendelssohn's wedding march, which was played by Miss Dolly Bradbeer of Detroit. Marlon Holly of Detroit acted as flower girl. The bride was attended by her sister, Miss Lila Leach; the groom by the brides brother, Mr. G. Monroe Leach.

The bride wore a Grecian gown of crepe chiffon over pussy willow taffeta with silver trimmings, and carried a shower bouquet of white roses, her only ornament being a string of pearls, a gift from the groom. The bridesmaid wore a gown of green pussy willow taffeta, trimmed with silver lace and pink rosebuds and carried a shower bouquet of pink rosebuds. Miss Iola Brown attended the door. Immediately after the ceremony a banquet was served at the Hotel Arlington. The tables were artistically decorated with pink rosebuds and white chrysanthemums.

The out of town guests were Gov. and Mrs. Sleeper, Miss Phepe Clark, Mr. and Mrs. X. A. Boomhower Florence Boomhower and Mr. and Mrs. Arthur Slack of Bad Axe; Miss Blanche Lamlain of Port Huron; Mr. and Mrs. Sherman Lloyd of Minden City; Mr. and Mrs. Hurl of Capac; Rev. and Mrs. Butt of Ft. A large and enthusiastic audience was present Friday night at the High School Auditorium when a most delightful evening was spent. The entertainment was given for the Seminole Xmas Box Fund. Mrs. Robert Herndon opened with the "Bugle Call." Her name is always welcomed on any program. Mrs. Takach was fine in her little waltz song, "Hoover will Get You if you Don't Watch Out." Mildred Holly gives promise of wonderful things with her dancing. She was charming. The piano solo by Royal Klintworth and violin solo by Eleanor Herring were exceptionally good. Miss Helen Hand was very inspiring, she recited "Your Flag and My Flag." The character sketch tableau, Humo Rumpus as Uncle Sam was splendid. Mary Elizabeth Puleston was dear as a Red Cross nurse. Fern Ward made a very imposing Statute of Liberty. Ed Betts was the barker. The entertainment was a great success financially, and it looks as if "Our Boys" are to have a Royal Christmas.

Red Cross Card Party "The Man Who's Worth While," with apologies to E. W. W. March and the world marches with you. Slack and you slack alone. For the Red, White and Blue Has need of you. And the very best that you own! It's easy to be patriotic.

When peace and plenty befall, But the man who's worth while— Is the man who can smile And answer the bugle's call. —Elsie Parrish.

The card party for the benefit of the Red Cross will take place next Thursday afternoon at the Woman's Club. It is hoped that every woman in Sanford who plays either Bridge or Five Hundred will be there. Every woman in the United States feels she wants to do her share. All we can do is to give and give gladly our time and money. These Red Cross card parties are being given everywhere and with great success; Sanford has done such wonderful Red Cross work, and in fact Seminole county has made a remarkable showing, let us keep it up. "The Red, White and Blue Has need of you And the very best that you own!" Telephone Mrs. D. L. Thrasher and reserve your place.

Notice of intention to ask for charter for a new line of railway to be known as the Kissimmee River Railroad Company, to be seven and a quarter miles long, extending southeastward from Wallawa in Polk county has been filed. The articles of incorporation show J. A. Griffin of Tampa to be president; E. M. Hendry of Tampa vice president and treasurer, and I. S. Craft, also of Tampa, secretary. It is understood that the new road is to be an extension of the Seaboard Air Line, and that it is a continuation of that road's gradual extension eastward, which some day will bring it to the East Coast. The new company is capitalized at \$100,000, and its main office is given at Tampa. Those connected with the road had no comment to offer.

The Lee county agent reports to the state experiment station that one farmer who planted eight pounds of Egyptian wheat gathered 1,800 pounds the first crop, and is now harvesting the second crop. If the poultry food problem can be solved by this method this will become a great poultry county.

That an issue of \$750,000 of good roads bonds voted by Hillsborough county would sell at par or very close to it is the opinion expressed by J. G. Yeats, chairman of the board of county commissioners. The proposed bond issue for the extension of the present permanent road system to meet connecting roads from other counties has not yet been voted, but it is probable that an election will be called in a short time, as tentative contracts have been let for the construction work. Brick grouted with concrete and asphalt block are the two types of paving accepted.

By a vote of 14 to 6, the city council of Jacksonville recently adopted the 1917 budget with a millage of 15.6, carrying with it an appropriation of \$50,000 for the purchase of additional land at Black Point for the probable enlargement of the quartermaster's training camp. Although the millage is slightly higher than this year, which is 12.8, the reasons for the increase as outlined by Councilman W. H. Baker and John T. Alsop, Jr., is due to the war and in all instances a necessity.

The farmers in the Dade county section of the state are preparing for a large harvest and more land is being cultivated. Prospects for large crops are exceedingly bright. Hundreds of acres are being planted in corn and other household necessities.

Optimistic Thought. The man who speaks with prudence, do not think him to be tedious, though he speaks much and long.

Tobacco and Bullets

One Seems As Essential As The Other

In a speech not long ago, Lloyd George said that silver bullets, meaning money, were more necessary in winning the war than lead bullets.

Maybe so. But "tobacco bullets" will play a big part, too. Just ask some soldier who has had a bit of first hand trench experience over there. He'll have one of your cigarettes first, thank you, and then he'll answer your question: in his opinion, and he ought to know, good smoking material is one of the most important brands of ammunition the men at the front need.

Sammy and Tommy MUST have fags (cigarettes). They want them, they need them, and they can't fight at their best when they don't have them.

Wonderful thing how this war is teaching the world the big part cigarettes play in heartening the men and fitting them for the grueling hardships of trench life.

Still, its easy to say why. A cigarette is the ideal smoke over there—compact to tuck away in the pocket during action, short enough so that it may be enjoyed during even a very brief breathing spell, mild, nerve soothing, comforting.

In the lull of battle, down somewhere in comparative safety, Sammy lights a fag—when he has one—and through the haze of those satisfying fume he breathes a little sigh of relief; thinks of the folks back home and forgets for a little while his dismal surroundings over there just this side of No Man's Land.

The cigarette in war is the smoke that cheers, and it's up to you here at home to see that Sammy has plenty of them—plenty of the right kind and gets them often.

You may send these important little "tobacco bullets" to the boys at the front through our Tobacco Fund. Let's have your quarters now—a Soldier's Kit costs you only 25 cents. It contains twice as much tobacco as that.

There are many drains upon the people of Sanford these days not only for the war but for their own affairs and yet the boys in the trenches must have their comforts and the Christmas packages are going out this week and every one of them should have these tobacco kits in them. So send along your quarter and give the boys the real Christmas cheer. Sanford boys in the trenches will be glad to get tobacco kits from Sanford people. Eating Shark Meat

Miami, Nov. 7.—J. G. Crosland, who was appointed by Herbert Hoover to catch a quantity of shark the meat to be tested for food, has followed the directions of Mr. Hoover. Shark steak is now on sale at the Miami Fish Company's market and if reports are true those who have tried the meat pronounce it fine and very palatable. The Miami Fish Company has been shipping quantities of salt shark meat during the past few weeks, for which there has been found a ready market.

Coast Line to Put on Tampa Special

November 26
The Tampa Special Service will be inaugurated on the Atlantic Coast Line November 26.

The first outgoing train will leave Jacksonville at 9:15 a. m., arriving at Tampa at 4 p. m. The north-bound trains will leave Tampa at 12:45 p. m. and reach Jacksonville at 7:30 p. m.

Because of the all-steel equipment, quick service and convenient hours, the train is very popular with winter visitors going down the west coast.

Women Get Vote

New York, Nov. 7.—New York state voted in favor of woman's suffrage yesterday, by a majority of nearly one hundred thousand. The occasion will be celebrated tonight by a tremendous outpouring of suffragettes and their friends at Cooper Union.

From the latest reports Woman's suffrage has been lost in Ohio.

Eight Million Sign

Washington, D. C., Nov. 7.—The eight million mark has been passed on the score board at the headquarters of the Food Administration in Washington for the enrollment of families.

Indications are that half the people of this country have agreed to support the food conservation plans.

Railroads Want Increase

Washington, D. C., Nov. 7.—Railroads today applied to the Interstate Commerce Commission for authority to increase rates on sugar in carloads about 20 per cent from eastern seaboard points and New Orleans to interior cities.

13 Cent Postage Stamp

Washington, Nov. 7.—The post-office department is planning to issue a 13-cent postage stamp for

tered and special delivery letters. Heretofore a 12-cent stamp has been in use but the increase in postage makes necessary the printing of a new denomination.

The stamp will bear the head of Franklin and will be of the size and border design of the current issues above seven cents. The color has not been selected.

Don't Need the Money

Washington, Nov. 7.—One of the most striking indications of farmers' prosperity under war prices reaching the federal farm loan board was a report today from the Houston, Texas, bank that many farmers have abandoned plans to make loans because they received enough from this year's crops to pay off their farm indebtedness.

Send Your Magazines

Save your late magazines, the ones that have the red lines on the top

explaining about how to send your magazines to the boys at the front by putting on a one cent stamp and send them over there where the boys will thoroughly enjoy them. All you do is to stick the stamp on the red letters and the postoffice will do the rest. But if those red letters are not on the magazine they cannot go. B. F. Whitner of this city has been sending his Literary Digest over there and received the following letter from the boys in France:

France Somewhere.
October 18, 1917.

Dear Mr. Whitner:
It may interest you to know that as a result of your thoughtfulness the Literary Digest, of which the enclosed is a portion was delivered to American soldiers in France and it is appreciated.

FF Harry Gibson in France
Friends of H. L. Gibson, Jr., in Sanford will be interested to know

that he has been safe in France since the latter part of August, and the first letters from the interior of France received in Sanford have been from him. Censors do not allow much to get through, but among the things passed are, "I understand now why the French make such fine soldiers," and "We over here can understand how Dante got his inspiration to describe Inferno, we could do it now." Mr. Gibson has visited H. L. Gibson, his father, and Mrs. E. D. Brownles, his sister during the past few years. He went from San Francisco with an engineering regiment, the 18th.

The Problem of Shipping Fruit and Vegetables to Avoid Freight Congestion

For several years increasingly difficult for the individual grower to handle, the problem of how and when to ship fruits and vegetables this season will be complicated further by unprecedented freight congestion.

The railroads and other transportation agencies at this time are struggling under a burden of traffic that has strained their capacity to the utmost, and which will be continued as long as the war lasts.

In consequence there will be many times this fall and winter when even the preference given food products, by order of the government, will not prove adequate to carry highly perishable fruits and vegetables into the great markets quickly enough to avoid heavy losses by decay.

Under circumstances of this kind the grower who attempts to market his own produce will be

heavily handicapped by lack of complete information regarding market conditions and about the freight situation in various parts of the country. There will be needed more than ever the advice and direction of a well-organized selling agency, with an active traffic department.

The Florida Citrus Exchange will be the growers' salvation in this situation if they use its machinery. They can depend upon the Exchange to know where cars may be moved without delay, and the markets that are paying highest prices. The sales department of the Exchange has been perfecting itself for years and now is higher in point of efficiency than ever before. It gets the facts about markets and freight conditions every day and uses these for the protection and profit of members of the Exchange. Join it and share these profits.

For further information consult the manager of the Exchange packing house or sub-Exchange nearest you or write the business manager of the Florida Citrus Exchange, at Tampa, Florida.

Million Letters in the Mails Today Bearing Magic Words "With the Colors"

Keynote of the Splendid Work the Y. M. C. A. Does Among Our Men in Uniform Is Keeping Them in Touch With the Folks at Home.

STAMPED WITH STARS AND STRIPES AND RED TRIANGLE

Multifarious Ways in Which the Association Appeals to Your Boy, Your Neighbor's Boy, or Some Boy You Know and Love—Creates a Helpful Environment in Cantonment, on Way Overseas, in Front Line Trench and Beyond—First to Aid as He Comes Tumbling Back—Give Your Share of the \$35,000,000 Required to Accomplish This "Last Evidence That Somebody Cares."

It was evening on the broad Hempstead Plain, Long Island, where the Rainbow division was spending its last night before embarking for France. It had been raining hard in the afternoon—a cold, steady autumn downpour—and there was nothing to suggest the rainbow in the outward aspect of the camp. Lines and lines of sodden canvas housed 37,800 men, gathered from 37 different states. The ground was dotted with pools and quagmires. Under the wet canvas it was damp and cold, with a penetrating chill. Lit by flickering candles, the tents were far from cheerful abodes for a man's last night in his native land.

But there were seven big tents where electric lights, numbers and friendliness made the night pleasant.

least is on its way to you. Each one of our 16 cantonments, where the new national army is being trained, is using more than a million sheets of this paper every month. In the draft army alone that means 16,000,000 sheets of love every month reaching out from the great encampment where the men are being trained into the greatest army this nation has ever dreamed and blinding them to the hearth at home. Multiply that by thinking of all the other places where Uncle Sam has men with the flag—in navy yards, on the high seas, in arsenals and officers' training camps and "Over There" in France. In all these places men are writing home. Those unassuming little sheets of notepaper gladden millions of hearts a day. They transfer more love from one

forego coveted possessions or even necessities. The work must go on, because there is no one thing that contributes so much to the spirit and efficiency of the troops. The Y. M. C. A. is working night and day to help the government win this war. And every penny that is given to aid the work is a direct assistance to the health, happiness and strength of your boy and mine.

Snapshots of Kaleidoscope Work.
In all the big cities in France where our men pass through in large numbers, the Y. M. C. A. is operating hostels, where they can get beds and meals at a minimum cost. In London the American Y. M. C. A. has erected a large building for our soldiers and a clubhouse for American officers.

There are Y. M. C. A. dugouts right behind the front line trenches, where the soldiers can get hot drinks, crackers and other comforts at all hours. Over 2,000 men who had been rejected on account of physical disability have been able to get into the British army by reason of the physical work of the British Y. M. C. A.

A fleet of motor cars leaves the big Y. M. C. A. headquarters in London at midnight every night to pick up soldiers who are wandering about the streets without any wholesome lodging in which to spend the night. These cars are operated by Englishwomen of position and refinement, who report that they never meet any discourtesy at the hands of the soldiers. The importance of this service can be estimated by the fact that at least 50,000 soldiers are on leave in London every week. Over half of these sleep in Y. M. C. A. beds every night.

Entertainment on Vast Scale.
The Y. M. C. A. has erected a big auditorium, seating 3,000, in each of the big draft camps, and huge chalet-like tents, seating 2,500 in the other encampments. The association is running a 22 week entertainment circuit among the camps and is paying 16 companies of entertainers, who are traveling to 30 camps performing before the men.

In each of the draft camps the Y. M. C. A. has ten secretaries engaged in educational work. The association is seeing to it that every man who cannot speak English is taught to do so. In many of the camps the association has a singing director, who is teaching the men to sing the popular and martial airs that do so much to keep up their spirits.

Of 84 Y. M. C. A. men at Camp Dix only three are being paid full salaries. In all the camps the majority of the Y. M. C. A. men have left lucrative positions to do this work simply because its appeal is irresistible to any red blooded man. Harry Lauder, the famous Scotch singer and comedian, now on his farewell concert tour in the United States, is giving all his spare time to the service of the association and is singing to the soldiers at all the camps he can reach.

In one of the draft camps the Y. M. C. A. is supervising athletics on 120 playing fields, providing full athletic equipment. The winners of the inter-regimental games will play the champions of the other camps.

One of the greatest services rendered by the association is the making

Music, Games, Good Reading and Correspondence Facilities in Y. M. C. A. Building.

In each of these a soldier was strumming on a piano; others were reading books and magazines; hundreds were writing letters home. Behind the raised counter at one end three or four young men were busy passing out notepaper and envelopes, selling stamps and weighing parcels, which the men were sending home. One of the soldiers said to me as I stood in the tent used chiefly by men from Iowa: "We came all the way here from Des Moines, and we were mighty lonely. Then we found this Y. M. C. A. on the job, and it's been a home and more than a home to us. It gave us what we wanted, when we needed it most. We'll never forget it. The boys' best friend is the Y. M. C. A."

Fine, Clean-Cut, Upstanding Fellows.
How close those benches were packed with men, bending over the long tables absorbed in their writing! What an appeal to the sympathies those great groups of soldiers make! Fine, clean-cut, upstanding fellows, some of them mere boys, one thinks immediately of the sacrifice they have made for the rest of us and how precious they are to some one back home. Somewhere, in far off farm or village or city street, there are parents or brothers or wives who would give all they possess for one glimpse of those sunburned faces as you and I see them on their last night before going across. And it was with a throbbing heart that I watched them, bent over their letter paper, in one after another of those seven big tents.

These were the tents of the Y. M. C. A. On that last night in America the association was serving the soldiers in the best of all ways—giving them an opportunity to write home. On previous nights they had enjoyed boxing bouts, movies, concerts, dramatics and a score of healthy entertainments as well as religious meetings. But on this last night home ties were strongest. And perhaps that is the keynote of the splendid work the Y. M. C. A. is doing among our men in uniform—keeping them in touch with home.

Magic Words, "With the Colors."
In these times there are some letters that mean more to us than any we have ever read before. They are written on sheets of paper stamped with the Stars and Stripes and the red triangle of the Y. M. C. A. and they bear the magic words, "With the Colors." There are many more than a million such letters in the mails today while you read this. Perhaps one as

part of the world to another than statistics can express. Statistics are pretty poor anyway when it comes to reckoning in terms of love and human tenderness. Let's put it this way: That the Y. M. C. A. is the biggest express company the world has ever seen, and the parcels it is handling are the loves and devotions of human beings.

World's Best Loved Trademark.
This war has made us think hard and fast. Your boy or your neighbor's boy or some boy you know and love has been called to do his share in the big job of policing the world for democracy and human liberty. Is it any comfort to you to know that wherever his duty may call him your boy will have a friend that will serve him in body, mind and soul? Are you glad to know that this friend will place books and magazines at his disposal, organize classes to teach him whatever he wants to learn, give him a pocket testament and invite him to join religious meetings of the faith that he was brought up in? Did you realize that the association provides athletic equipment for his favorite games, teaches him games if he knows none and holds concerts, lectures, movies, Bible classes, dramatic entertainments and every kind of wholesome amusement to keep him interested? Are you glad to know that this friend will go with him overseas, help to shield him from a score of difficult and dangerous temptations and follow him right up to the front line trench and beyond it? The last contact the soldier has with this life he loves so well is a cup of tea given him by the Y. M. C. A. free just before he goes "over the top" to a land to hand struggle with the enemy. And as he comes tottering back from No Man's Land, wounded, but strong enough and plucky enough to keep on his feet, even before his wounds are dressed the Y. M. C. A. is waiting for him with tea and sweet chocolate, the great comfort of the man in the trenches. Do you wonder that the Red Triangle is called "the best loved trademark in the world"? One soldier in France has called it "the last evidence that anybody cares."

If every thinking citizen could see with his or her own eyes something of the actual work being done for our men by the association there would be no question of the Y. M. C. A. having to appeal to the public for money. Rather than let this essential work falter for an instant rich men would sell their motorcars, post men would

A Red Triangle Dugout in the Trenches.

out of money orders by which the men can send their pay home to their families. In some of the big camps the Y. M. C. A. is providing banking facilities for the men as well.

Do Your Bit With a Tensar.
This month (November) the Y. M. C. A. must raise \$35,000,000 to carry on its work among our soldiers and their allies until next July. Of this \$35,000,000 about \$24,000,000 will be spent on the work with our own troops or about \$10 for every man in Uncle Sam's uniform. If every boy who has received letters from soldiers and sailors were to contribute \$10 the task would be easy. Are your boy's health and happiness and clean soul worth \$10 to you?

Your town mayor, your pastor, your school superintendent will know who is the treasurer of the campaign committee in your county or town. Otherwise send a check or money order to Cleveland E. Dodge, treasurer, 114 East Twenty-eighth street, New York city.

Only sacrificial giving by millions of givers will make possible the continuance of this vast work for American soldiers and for those of our allies.

Heavy Picture Frames Passing.
Picture-framing in Great Britain has undergone many transformations in recent years. The building of smaller houses made obsolete the fashion of heavy frames which were the pride of Victorian dining rooms. There are patterns of the Charles II. and the Louis periods which by their merit in design have escaped destruction, and have served as models for frames made out of "composition." Old frames of baser design have been burned that gold in the old gilding might be salvaged.

Hardwoods of North America.
More valuable hardwoods are found in North America than are native to any other region of similar area in the temperate zones. In addition to these the great range in minimum temperatures, ranging from Canada down to Florida and the wonderful Pacific coast, also allow us to grow a greater range of foreign hardwoods than may be found introduced to any other similar area in any zone.

Apples Most Valuable Fruit.
The apple is pre-eminent in the household economy for no other fruit excels it in culinary usefulness. It graces the table in a far greater variety than any other fruit. Of all fruits grown in North America, the apple leads in amount and intrinsic value. No fear of an overproduction, however, if the means of transportation and distribution are perfected. What if we do raise 125,000 carloads of apples or 62,000,000 boxes a year? This is but half a box to a person not counting what we export. That isn't very many.—Exchange.
