Local Ministers

(Continued from Page One) of ours. But, it is basically of Christian origin and purpose. Our Pilgrim forebears who established the precedent which we follow annually did not come to the first Thanksgiving as we come to Thanksgiving Day 1955. We come to the season with innumerable blessings, unparalleled prosperity and vast comforts and conveniences. They were almost at the depths of poverty, at least, by modern standards, but they practiced the kind of thanksgiving is not dependent upon circumstances.

First and foremost their Thanksgiving was to God. They were not so concerned with counting their material blessings that "things" actually eclipsed the GOD behind it all.

Let us ask ourselves four questions to see if we are going to practice the kind of thanksgiving that is not dependent upon circumstances.

1. Are we thankful for the greatness of God—revealed to us in the universe; but even more important for the revelation of His greatness in the plan of redemption by the death of His Son on the Cross of Calvary? (2) Are we thankful at the remembrance of God's righteousness and purity and holiness—knowing that we may share in these godly attributes in Christ Jesus? (3) Are we thankful for the times we have to reflect and meditate upon God—realizing His mercy and long suffering, as He patiently waits for our repentance so that He might graciously forgive our sins? (4) Are we thankful for every opportunity of service to God—whether it be large or small, easy or difficult.

From his text, Ps. 55, the Rev. Phillip Schlessman of the Lutheran Church of The Redeemer spoke on "The Prayer for Flight." He said, "Did you ever feel that you would like to fly away from it all, get away from the mess that your life is in. King David in our text had that feeling. He bowed down in prayer before God and said, 'Oh, that I had wings like a dove. For then I would fly away and be at rest.'"

his most friendly associates had turned upon him and were trying to turn the people against him. Those in whom he had placed a great deal of trust had slandered him with one cheek and been his friend with the other. He felt as though he might be safer away from it all.

We find that even in our age we feel the same way. Our daily life becomes a routine of drudgery and hardship, our hearts are burdened with the crosses of life, and finally we look with longing upon the bird in flight and sigh saying in our hearts, if I but had such wings that I could fly away from all these cares and woes.

But would it really be so wonderful? Could we fly away far enough to forget all that we left behind. I think not, for the burdens that have placed upon us cannot be forgotten. We cannot fly away from the temptations and worries of life for they are part of us as God tells us that our heart is wicked; out of the heart proceed all evil thoughts. Nor can we flee wicked tongues as David would have for the tongues are the same all over the world.

Nor could we fly away from the obligations of our family, church or home for they would go with us no matter where we go. Neither could we fly away from God for He would be on the highest mountain or the lowest valley.

How then can we ever come the pressure and hardships of our lives? Is there no place that we can fly to and find peace and rest? Yes, you must set your wings that we might fly to God for in Him we will find the rest we seek, in Him we will overcome sin, death and the devil. In Him we find life everlasting, through His son Jesus Christ. For David finishes His Psalm with, "As for me, I will call upon God; and the Lord will have me."

When we flee let us flee to the household of refuge that David sought, the refuge of God, the peace of the Lord in that hope of

Landscaping

(Continued from Page One) bably will be set the latter part of this week.

T. E. Tucker, chairman, said that this phase of the finishing touches should be completed in the next ten days. Meanwhile, workmen are continuing to add last minute touches to the interior and are moving in furniture and equipment.

When the workmen have finished their work, the staff will then go through a familiarization training, according to Harry Weir, administrator. Because of the thoroughness with which this schooling must be handled, it is difficult to say exactly when patients can be accepted, but the hope is that it will be "shortly after the first of the year."

MORE VOTERS, FEWER PEOPLE

MANILA (AP)—Dinaig is quite a town. The number of registered voters jumped to 16,000 this year from 3,000 in 1941, despite a decrease in population. A congressman from the district says he knows why and has asked the Commission on Elections to knock out 14,000 names. He says that is the number of fictitious names slipped in by sly politicians who used "Moslem words for days, trees, monkeys and dog."

(Continued From Page One) "A Denham Tire has to be perfect before going out to the customer in finished form" Me Roberts explained that Denham manufactures tires of every type. Truck tires, tractor tires, special service tires, with a complete passenger car tire in both regular and tubeless.

The manufacture of the tire and sales representative to talk with, said, "in the short time that we have been organized we are already receiving phone and mail orders from all over the State."

Dale Emery, running through his hundreds of accounts, commented that, "we are doing a

transcendous business with various Federal Agencies."

Butler, in summarizing the prospects over the state said "everyone we are calling on is planning on good business in the future. Prosperity is on the upgrade and it is reflected in the general conversation of all of the businessmen we call on." And he added, "I've not so much business it keeps me humping all the time. The days and weeks just aren't long enough."

Emery, speaking about Cuba where he calls on many customers all over the island said, "there are more farm tractors per capita in Cuba than in the United States. There's been an increase since the war of approximately 30 percent in the private ownership

Florida Hunting Opens Wednesday

Hunting season opens Wednesday, Nov. 23. Again this year many hunters who have never been in the woods before will take a gun and a dog and start looking for game. The farmer, being an early riser, has frequently been taken for game, stated A. H. Frank, Director of the Florida Safety Council.

In 1954 there were 63 persons killed and many injured by firearms. A hunter's wife blew a tire of cars. And he concluded, "Cuba's railroad system is limited so there is a vast network of buses covering the island, buses even more modern than those we see here."

key call and was shot a boy fell down while running with his gun and was injured.

A hunter was accidentally shot in the stomach while banding a loaded rifle to his buddy. Another man was killed when a hunter fired at a duck across a point of land behind which the unfortunate man was concealed.

A boy of ten accidentally shot his sister through the lower back while playing with a .25-caliber Colt automatic.

"HUNTERS, be especially careful while in the woods and always know what you are shooting at," urged Frank.

TRUCK AND TREAT
DAVY, W. Va. (AP)—It was near Halloween. Drug store manager Opal Neely told police she was "amused" when a man in a long, gray coat — wearing a paper bag over his head — entered the store at closing time and began clowning.

She wasn't laughing, however, when the man pointed a gun to her and the other clerks, ordered the safe opened, and fled with \$1,500 in cash and checks.

Perry Appears Before Board To Give County Agent Qualifications

Condemnation proceedings are set underway to acquire three sections of right-of-way property for the widening and paving of a three-quarter mile stretch of road off the Markham Road in South Seminole County, according to action taken by the Board of County Commissioners this morning at their regular bi-monthly meeting.

Dickson Road, involving 19 persons, will be improved following the necessary right-of-way acquisitions. Properties of EAD Hildebrande, Georges King, and Doyle, will be acquired through the condemnation proceedings approved by the Commissioners.

In other business transacted at the morning session of the Board of County Commissioners included plans for the retirement of County Agent C. R. Dawson.

F. S. Perry, District Agent for the University of Florida Agricultural Extension Service, appeared before the Board to explain the qualifications of a person needed to replace Dawson whose plans to retire are now tentatively set for July, 1956.

Commissioner Otis Foraker told the Board that, "I think we should extend the courtesy to Mr. Dawson to allow him to retire at the completion of his service but adapted to his retirement plans."

The District Agent told the Commissioners, "You have an advantage now that you can look at a number of men. It is important that we have top men in these positions."

Admitting that the announcement of Dawson's retiring was premature, Perry told the Commissioners, "We won't start looking for a replacement until there is a vacancy."

Board Chairman John Melich said, "We have three local applicants for the position but we don't know if they come up to the requirements necessary to be approved by the University of Florida Extension Service."

Attorney Says No Power To Extend Fire Protection

"There is no charter authority to extend fire protection outside the city limits," City Attorney William C. Hutchinson, Jr. told the Board of Sanford City Commissioners last night.

In making his report to the commissioners, Hutchinson said, "I don't believe there is an authority to furnish fire protection and charge for the service, to anyone beyond the city limits." He said, "There is liability on the part of the city if equipment is not within the city limits for the protection of the citizens property."

Mayor Deaver Cordell said that, "from my observation at the recent meeting of the Florida League of Municipalities in Jacksonville, we are the only city sending equipment out of the city without charge."

Commissioner Earl Higginbotham commented, "I prefer to change the charter to allow us to charge a fee. However, we aren't going to prevent a fire truck from going outside of the city to save a man's home from fire."

Following lengthy discussion, the Board of Commissioners agreed to table the consideration until near the time for the 1957 Legislature when some definite action should be taken.

With letters from two citizens regarding the use of the present hospital building, when the new one is put into use, for an old folks home, the commissioners decided to table the suggestion until complete details of the requirements for such an operation could be studied.

S. Reid Harris was authorized by the Board of Commissioners to operate a photographic commission at the Sanford Zoo, with a percentage of the gross income from the operation benefiting the zoo.

Action by the commissioners revealed that an extra traffic officer will be assigned to the Sanford Police Department as soon as the new police cars for city service.

Checks along Pump Branch Creek are stopping. City Manager Warren E. Knowles said the Board of Commissioners' corrective measures were authorized.

A 1954 Buick was for tapping on a new sewer line set by the city was authorized last night. A group period of 60 days was set for the commission.

Damage Reported As Tractor, Trailer Skids, Hits On Side

A tractor and trailer, owned and operated by Bill Bakert of Daytona Beach, skidded for a total of nearly 300 feet and came to a stop on its side at a telephone pole on Seminole Boulevard Friday afternoon shortly before 3 o'clock.

The 1914 GMC tractor and Muter Van Trailer was driven by John Dallas Black Jr., 23-year-old truck driver of Daytona Beach.

Damage was estimated at one thousand dollars. However, the telephone pole against which the truck came to a stop, had to be moved before the truck could be removed.

Investigating officers L. E. Beck and Ben Butler, in their accident report filed at the Sanford Police Station said that an unknown car pulled out of Holly Ave. into the path of the oncoming truck.

The driver, according to the report, pulled the truck sharply to the right and locked his brakes in order to avoid hitting the car. The truck skidded on its wheels for a distance of 30 feet, turned on its side and skidded an additional 100 feet.

The accident, said the investigating patrolmen at the intersection of North Holly Ave. and West Seminole Boulevard, just east of the new approach to French Ave., was unexplained.

Another accident, investigated by the Sanford Police Department, occurred at the intersection of W. 18th St. and Oak Ave. when a Daytona Beach attorney ran the stop sign and smashed into the side of an oncoming car.

A 1950 Dodge Sedan, driven by Ivan Hyde Yentich, 31-year-old attorney was traveling west on 18th St. Damage to the car was estimated at \$600 when the front bumper and fender were smashed.

A 1951 Dodge Coupe, driven by Eloise Snyder Pfeilaut, 18-year-old Sanford bookkeeper, received damage to the side estimated at \$245.

The investigating officer, Patrolman Arnold Williams, filed charges against Yentich for "running a stop sign."

Thanksgiving Day Talk To Be Given By Rev. R. Spear

The annual Union Thanksgiving service, sponsored by the Seminole County Unitarian Association, will be held this year at the Congregational Christian Church, Park Ave. and 5th St., Thanksgiving morning beginning at 9:30.

The Rev. Robert H. Spear, pastor of the Church of the Nazarene will deliver the Thanksgiving Morning message this year.

The Seminole County Ministerial Association issued the following statement in regard to the Thanksgiving Services:

"At this Thanksgiving Season, we should all turn our thoughts to the giving of thanks to our Heavenly Father for the multitude of blessings He bestows upon us. This year's Thanksgiving Service has been prayerfully and carefully planned and it is hoped that the church will be filled to overflowing."

Library Memorial Group To Meet

A meeting of the General Sanford Library Memorial Association was announced this morning.

The important planning meeting will be held next Monday afternoon at 8 o'clock in the Educational Building on Commercial Ave.

Members of the committee and those interested in the forwarding of plans for this important addition to the cultural life of Sanford and Central Florida are urged to attend this meeting.

Billie Joe Horton Fund Is Increasing

The Billie Joe Horton Fund, of Oviedo, received again Friday night when another contribution was made to swell the total.

Fifty dollars was contributed by those attending the Farmer's Association Market this last Friday night.

Dr. Kitchen Makes Plea To Rotarians At Close Of Talk

Concluding his 80th Rotary—Its 50 Years of Service and Its Opportunities in the Years to Come," Dr. Arthur S. Kitchen, Governor of the 24th District of Rotary International, made this plea to his fellows at the weekly meeting of the Sanford Rotary Club, at noon yesterday:

"Do all the good you can by all the means you can in all the ways you can, in all the places you can, at all the times you can, to all the people you can, as long as ever you can."

"This," the speaker stated, on the occasion of his official visit to the local club, "summed up, in just one sentence, much of the ideals of Rotary. The object of Rotary, he emphasized, was to encourage and foster the ideal of service as a basis of worthy enterprise and to encourage and foster the development of acquisitive enterprise as an opportunity for service. High ethical standards in business and professions, the application of the ideal of service by every Rotarian to his personal, business and community life and the advancement of international understanding, good will and peace through a world fellowship of business and professional men united in the ideal of service, were inspirationally brought out by the man in charge of the 48 clubs comprising his district. There are over 8,805 Rotary clubs in 98 countries and geographical areas in the world with a membership rapidly approaching a half million members.

His address was received with enthusiasm and applause by over 20 members of the local group in attendance at the meeting presided over by president William (Bill) Bush Jr. At the close of the meeting the District Governor went into a session with president Bush and Secretary R. W. Ruppel in preparation for the club assembly held at 7 o'clock last night at Spencer's restaurant.

The following directors and committee chairmen were present: Bush, Ruppel, Dr. Kitchen, H. L. Perkins Jr., Robert Lamont, Lloyd Lowe, Lowell Oiler, C. L. Redding, M. L. Raborn, Klion J. Moughton Jr., the Rev. Lucian Scott, Roy Holler, H. C. Coleman, Myron Reck, A. W. Lee, R. J. Bauman, James W. Holthead, R. A. W. Epps Jr., Earle V. Turner, Walter M. Haynes, Charles E. Morrison, George A. Stine and Robert Trus.

Commission Opens Following Area For Hunting Season

The Game and Fresh Water Fish Commission on Oct. 28, 1955, at DeLand, opened the following described area in Seminole County, to hunting during the present hunting season:

Beginning on the south shore of Lake Jesup at a point where the south shore of said Lake Jesup intersects with the division line of Ranges 30 East and 31 East, thence run south to the northernly side of Sanford-Oviedo public highway, thence southeasterly along the northernly side of said Sanford-Oviedo public highway in the Town of Oviedo, Florida, at a point where said Sanford-Oviedo public highway intersects with the northernly side of said Oviedo-Geneva public highway to the right of way of the Florida East Coast Railway, known as the Kissimmee Valley Division, thence northerly along the westerly side of said right-of-way to a point where the same intersects with the east line of Section 29, Township 20 South, Range 32 East, thence northerly along the east line of Sections 29, 20, 17, and 6, all in Township 20 South, Range 32 East, to the southerly side of State Rd. No. 44, known as the Sanford-Geneva Road, thence northerly along the southerly side of said State Road 44, in the east shore of the St. Johns River, thence southerly along the east shore of said St. Johns River to Lake Jesup, and thence southerly and westerly along the East and south shore of the said Lake Jesup to point of beginning.

Board Is Now Faced With Additional Pump Expenditures

The Board of Sanford City Commissioners is faced now with an additional expenditure of \$4,000 (approximately) for the addition of a pump at the new water tank on Mellonville Ave.

City Manager Warren E. Knowles explained to the Board of Commissioners that the estimated cost to put the water tank into use has been submitted by engineers and that the recommendations would include both the pump and valve which would be controlled manually from the main water plant as well as operating automatically.

A feeling existed, during the Board of Commissioners meeting last night, that the engineering firm responsible for plans, specifications, and other data, should be held responsible and accountable for the expense involved in putting this new tank into operation.

Commissioner-elect David Gatchel said that "it is time to get the legal minds together to get some action."

A suggestion presented in the commission would withhold payments of money due the engineering firm in lieu of action on putting the tank in workable condition.

Fish Biologist Will Speak At Session Of Local Sportsmen

The Seminole County Sportsmen's Association will meet Monday night, Nov. 21, at the Elks Club picnic grounds.

Porter Lansing, president of the countryside sportsmen's group said that the meeting is being changed from Tuesday evenings because of the conflict with the hunting season.

The Monday night meeting will be a barbecue and regular meeting beginning at 7 o'clock. Lansing said that there would be a small charge to defray the expense of the barbecue.

Edward A. Lagar, fish biologist, with the Game and Fresh Water Fish Commission will be the principal speaker for the evening. Lagar will speak on "Fish Culture."

The president of the local organization said that there will also be reports to be given on the Florida Wildlife Federation and the Game and Fresh Water Fish Commission's last meeting.

A full attendance of the membership is urged, said president Lansing.

POST OFFICE REMAINS CLOSED

WASHINGTON—Post office hours for Christmas, The Post Office Department is relaxing its rules to permit inclusion of personal messages in packages and second-class mail. But you still have to see the office postman.

Accidents Reported In County

Two accidents were reported in Seminole County last night about three hours apart.

The first accident occurred at Mobley's Corner when a 1952 Dodge Pickup truck, driven by Otis Axel Ekholm, 26-year-old Lake Mary man, stopped for a left turn and was hit in the rear by a 1947 Ford driven by Wellington William Starr, 78-year-old Seminole County man.

Starr, according to Florida Highway Patrol Trooper T. Mark Mack, was traveling 30 to 35 miles per hour when he smashed into the rear of the truck.

Damage to the truck were estimated at \$100 and to the 1947 Ford a total loss.

Starr, according to Trooper Mack, received lacerations of the face and head, possible fracture of the left knee and contusions of the right knee.

Charges of driving a car with "improper lights" were placed against Ekholm.

The second accident occurred at approximately 10:15 last night on the old road between Maitland and Altamonte Springs when a 1955 Plymouth Sedan, driven by Merrill Hollett of Altamonte Springs, traveling north at an apparent high rate of speed, failed to make a curve and ran off the road on the left side smashing into a power pole breaking it into three pieces.

Florida Highway Patrol Trooper T. Mark Mack said that damage to the car were estimated at \$1,400. It was also reported that Hollett received minor lacerations to his face.

Trooper Mack said today that charges are pending.

City Hall Room Packed

Odham Says 'Better Homes'

A packed commission room was featured at the Sanford City Commissioners' meeting at 8 o'clock last night at a public hearing on a rezoning application from the Planning and Zoning Commission that would change the east and west side of Mellonville Avenue to residential use for houses of 1,200 square feet of living area.

The Planning and Zoning Commission, with Bill Brown as its chairman, recommended to the Board of City Commissioners that a new designation be adopted setting the area, some 100 EAH with a minimum of 1,200 square feet of floor area, as R-100.

The new zoning, said Brown, would contain all of the elements of the R-100 zone with the exception of the four acre front yards, side yards, back yards, overall space and distance from streets, would remain the same as in the R-100 zone.

Entering the discussion was the request by Odham and Taylor, located on J. Bradley Odham, for the rezoning of an area on either side of Mellonville Avenue just south of 20th Street, for the 1,200 square feet area houses with the exception of those houses built directly on Mellonville.

The new subdivision, "Grove Manor," created from the Cornell property and the Lingo Grove, bought by Odham and Taylor, Inc., has been planned for a possible 100 new homes.

"Detailed plans have been filed with the audience so Brown explained the Planning and Zoning Commission's reasoning behind the new zone and the recommendations for rezoning the proposed area.

Questions were asked by the Planning and Zoning Commission chairman, with each one answered at once. "What is the necessity for changing an area? What security is there in the zoning or changing of property?" and "I think the thing was all out and done," were asked of the chairman.

Brown explained that instead of 100 in taxes from the property prior to rezoning, the City would now receive approximately \$1,500. Explaining that the Planning and Zoning Commission had no power to legalize and could only recommend, he said, "as well as a zoning board we are a planning commission."

Bradley Odham took the floor in behalf of his proposed subdivision, presented proposed plans for homes in the area and showing plans proposed for his own home to be built in one section of the subdivision. "I have tried to find property in Sanford for modern development and growth," Odham said. "I am sure, every day, how many people want to buy bigger and better homes."

Some of the objections to the rezoning expressed fear that other undesirable factors might creep into the subdivision. Prominent was the complaint about a commercial nursery being operated in the present area.

Following the hearing, and the adoption of the new zone for residential use, the Board of Sanford City Commissioners unanimously approved the rezoning and Planning Commission.

SNAAS Personnel Get Commendation

The Personnel of the U. S. Naval Auxiliaries Air Station of Sanford, have received special commendation from Major General U. W. Christensen, U. S. A. (Ret.), President of the American Korean Foundation, for contributing \$1771 in support of the Foundation's health, welfare and education programs in Korea.

Calling the contribution "a concrete expression of goodwill and sympathy," General Christensen said: "The Personnel of the U. S. Naval Auxiliaries deserve warm praise for so generously helping our organization to carry out its work to better the lot of the Korean people."

In a letter of thanks he stated: "The response from the members of the Armed Forces, both here and abroad, as well as from all governmental employees, has been most encouraging. The people of Korea will be notified of this particular support from those in governmental service."

The American-Korean Foundation is not a relief agency, General Christensen pointed out, but rather "is concerned with providing the equipment, training and facilities urgently needed to enable Korea to take its rightful place in the community of free nations."

Postmaster Field Tells Patrons Time To Start Mailing

"It's time to start your Christmas mailings!" Postmaster Joel S. Field warned today, launching his 1955 "Mail Early for Christmas" campaign.

"On the calendar it's a month away but here in the Post Office it's Christmas today — and every day until Dec. 25," he said. Extra mail carriers and office help have been secured, the delivery trucks serviced, Post Office inlets filled and in fact everything is ready for the mammoth flood of Christmas mail that is expected to smash all records.

The Post Office has already dispatched a tremendous quantity of gift packages headed for members of the Armed Forces overseas. Christmas cards for service personnel can still be delivered in time if they are sent by air mail before Dec. 1. In the U. S. A. smart people are now mailing gifts to friends and relatives living in other states.

Postmaster Field especially calls on housewives to help in his effort to deliver every package and Christmas card before Dec. 25. "The lady of the house," he emphasized, is really in charge of each family's Christmas mailing program. She selects the Christmas cards, buys most of the gifts and sees to it that the mailing list of friends and loved ones is up-to-date.

"Actually, success in having all Christmas gifts and greeting cards delivered on time is largely a matter of advance planning and preparation which should be done this week," Postmaster Field pointed out.

He urges that you take the following steps at once: Get out your Christmas card list and carefully check through it. Make sure that each address includes the full name, street and number, city, zone and state. Then, pay a visit to the Post Office, stock up on stamps (use three cent stamps on your Christmas cards for first-class mail service) and ask any questions you may have about mailing regulations.

You can do this in a leisurely way if you will come to the Post Office before 1:30 p. m. or between 1:30 and 2:30 p. m. thus missing the rush hours. Or you may home pack up a supply of heavy wrapping paper, sturdy empty cartons, string cord and graft paper adhesive tape. A modest investment in these necessities will pay big dividends in safe delivery of your cherished Christmas gifts.

After your gift wrapping and packing is complete, plan your mailings so that those for the most distant points go first. Try to get all long distance mailings into the Post Office before Dec. 5 and those for nearby points should be mailed by Dec. 8. Don't let you do it.

New Residential Zone Is Adopted, Approved

SNAAS Personnel Get Commendation

The Personnel of the U. S. Naval Auxiliaries Air Station of Sanford, have received special commendation from Major General U. W. Christensen, U. S. A. (Ret.), President of the American Korean Foundation, for contributing \$1771 in support of the Foundation's health, welfare and education programs in Korea.

Calling the contribution "a concrete expression of goodwill and sympathy," General Christensen said: "The Personnel of the U. S. Naval Auxiliaries deserve warm praise for so generously helping our organization to carry out its work to better the lot of the Korean people."

In a letter of thanks he stated: "The response from the members of the Armed Forces, both here and abroad, as well as from all governmental employees, has been most encouraging. The people of Korea will be notified of this particular support from those in governmental service."

The American-Korean Foundation is not a relief agency, General Christensen pointed out, but rather "is concerned with providing the equipment, training and facilities urgently needed to enable Korea to take its rightful place in the community of free nations."

Officials, Group Attempt To Solve Expansion Problem

The Seminole County Chamber of Commerce Industrial Committee met with officials of the Sanford Manufacturing Company last night in an attempt to solve the expansion problems of the local manufacturing concern.

Faced with the necessity to expand at least four times the space being used for immediate expansion, and provide for more than twice the space required now for future expansion, are the requirements with which we are faced," Jerry Maltzer told the Industrial group last night headed by Don Ryke.

"We have employees crowded so close together now that we lose from 15 to 25 per cent of the efficiency that could be produced," Maltzer explained.

Leading the discussions from the local Chamber of Commerce Industrial Committee angle were Don Ryke, chairman of the committee and Forest Blackbridge, manager of the local chamber.

"Jerry" Maltzer, in charge of overall operations of the Sanford Manufacturing Company represented the company and his father, Hyman Maltzer, president of the local organization, led the general firm in New York with Maltzer in point of the drive need for additional space for the local industry was Maria Stolsky, manager of the plant.

Following last night's discussions, tentative plans for enlarging the local industry. However, further negotiations will have to be conducted, said Ryke, chairman of the Industrial Committee, between both groups before final arrangements can be made.

Church Members Hear St. Paul Story Plans For Next Year

The combined congregations of the Lutheran Church of the Redeemer, Sanford, and Faith Lutheran Church, Little Rock, heard the "St. Paul Story" and the plans for 1956, when the visitor of the Central Florida area came to Sanford to address the two groups.

The Rev. Harold Kramer, pastor of Faith Lutheran Church, Lake Wales, gave the "St. Paul Story" and appealed to the two mission congregations to make their 1956 pledges to show church and its mission, "God's Share."

"The St. Paul Story" is the re-valuation of plans promulgated at the Synodical Conference in St. Paul, Minn., with representatives of congregations attending the Missouri Synod Lutheran Church planning session.

The 1956 budget will be in excess of \$12,000, but will be entirely paid off by special fund campaigns which have plagued ministers and congregations over the years with a growing evidence of other special campaigns coming up. The planning increased the broad-wide budget to take care of the entire needs of the worldwide ventures in faith by the Missouri Synod Lutheran Church.

The Rev. Phillip Schlessmann, pastor of both the Lutheran Church of the Redeemer, Sanford and Faith Lutheran Church in Little Rock, spoke of his confidence that the congregations would do their part in making the mission work of the Church "God's Share."

Couple RENEWING MARRIAGE

VIRGINIA CITY, Nev. — Movie actress Yvonne De Carlo is renewing today in this historic old mining town with a Hollywood stunt man, Robert Morgan.

The 73-year-old actress and Morgan, 38, drove to Reno and were married yesterday at the Episcopal chapel.

Miss De Carlo, one of Holly wood's most favored performers, was also one of its most eligible spinsters. She required an \$8-year-old stampbook by the marriage license in a witness.

AGREEMENT REACHED

LOS ANGELES — North American Aviation, Inc., has announced that an agreement has been reached for the manufacture of 250 F-100 fighter bombers in Japan.

North American said that under the terms of a license and assistance agreement with Mitsubishi Heavy Industries Reorganized, Ltd., the plane will be built at the Japanese company's Nagoya plant.

2 Officials Attend Florida Cemetery Association Meet

The details of a local cemetery organization were returned to Sanford after attending the Florida Cemetery Association meeting at Punta Vista Beach.

Ray Nelson, head of Oakland Memorial Park and City Annex associated with the local organization, attended the annual meeting held at the Inn.

Both of the local executives said that the meeting, one of the most enthusiastic and informative they have ever attended, presented an excellent program was conducted for the benefit of the statewide members who took advantage of the opportunity to hear outstanding speakers as well as to discuss some of the problems common to every member of the organization.

Speakers for the meeting, said Nelson, included such well known cemetery officials as J. Howard Wendolph, president, Memorial Sales Company, who spoke on "Facing up to the future," W. A. Skward, Sales Manager, Bellows Memorial Park, Daytona Beach; A. H. Craig, president, Florida Funeral Directors and Embalmers Association, Martin; F. Gaudin, Executive Vice President, National Cemetery Association, Washington, D. C.; and Dr. Gene Stuart, Department of Anatomy, University of Florida, who spoke on "Florida Burial, Grief and Sorrow."

Cliff Abus said that, by far, the most interesting program presented during the meeting was an address by John B. Priney, a landscape architect of Jacksonville, who presented "Long Range Planning for the Modern Cemetery."

Traffic Charges Over Weekend Told

More than a dozen traffic charges were made over the weekend, according to reports filed in the Seminole County Sheriff's Office yesterday morning.

Ben Taylor, 45-year-old Coon Lake, was taken into custody and charged with driving while intoxicated. Constable J. O. "Slim" Gallaway made the arrest.

Three charges of improper passing were filed. Herman J. Rieba Jr., a retired Louisville, Ky. man, stopped by Trooper T. Mark Mack; Frank Poligo of Daytona Beach, stopped by Deputy John Hennell; and Leroy Harris of Crescent City, stopped by Deputy A. E. Evans.

Rick's driving charges were placed against three offenders with FHP Patrolman Carl Williams, Trooper T. Mark Mack and Deputy Sheriff A. K. Evans stopping the violators. They were Leona Dying Nelson, Winter Park laundry owner; Henry Watkins, Sanford; and Charles Sherman Riggs Jr., an 18-year-old Lakeland student.

Seven of the traffic violations were in excessive speed. One of the charges was made by Trooper T. Mark Mack and six of them by Deputy Sheriff A. E. Evans. Those charged were John Cliff Blanton, Lakeland; Robert Leslie Wilson, LAAPR, Orlando; Donald Lee Brownstein, Joe Riley, Mize, Liza Monroe, Hebert, Red, Sanford, and Joe Hawkins, Sanford.

Constable J. O. "Slim" Gallaway charged Alexander Mettman, Sanford, with operating an automobile without a driver's license.

Williams, Cleveland Cited For Service

Police Chief Roy Williams and Fire Chief Mark N. Cleveland were praised last night by the Board of Sanford City Commissioners when resolutions citing them for their long and faithful service in the City were read and presented.

In addition to the resolutions, the two chiefs each received a handsome watch with an inscription for their service to Sanford.

Public Invited

Special Thanksgiving services will be held at the First Church of Christ, Scientist at 11 o'clock Thursday.

The public is cordially invited to this Thanksgiving Day service.

PAUL'S DRUG STORE

Dark Intent

By RAE FOLEY

CHAPTER TWENTY-ONE

BY THE TIME Lois reached the village she was uncomprehendingly aware of the sun blazing down upon her. She walked slowly around the village green, in front of a small white house, freshly painted, with flower beds arranged for self-conscious prettiness, she found the neat plaque, Marshall Thomas, M.D.

She knocked at the door and a motherly looking woman with a beaming face admitted her.

"May I see the doctor?"

"It's not on a house call but he'll be back at any minute." The woman opened the door of a room that originally had been a parlor and now was a doctor's waiting room. The furniture was heavy, old-fashioned. It was typical, Lois thought, of the old-time family doctor's waiting room. She wondered vaguely why she was surprised and then realized that a few things conform to type. This atmosphere had deliberately been created and she recalled a cause comment, "He's so busy trying to be the old family doctor Roger made him out to be."

"Will you be comfortable?" the woman asked. "I'm Doctor Helen Thomas. He let me give you the room. He's not here, but waiting for a reply."

Lois stood looking out on the green. How curious she thought, that everyone seemed to be waiting for her. First time she stepped out into the open, she felt as if she were being watched. She looked up at the house and saw a sign that read "DR. MARSHALL THOMAS, M.D."

"You're Mrs. Fleming, aren't you?" she laughed when she saw Lois' surprise. "Carol Brindle had supper—dinner, she calls it—with her girls here. People came from all over town. First time I'd seen you here. You're a new girl in town, aren't you?"

Army Will Feast On Tons Of Turkey

Army Quartermaster Corps buyers are completing procurement of approximately 7,000,000 lbs. of turkey for the Armed Forces for Thanksgiving, Christmas, and New Year's Day dinners, the Department of Defense announced today.

Turkey is scheduled to be served on all three of the holidays at most overseas stations. Baked ham will be the piece de resistance on the New Year's Day dinner at post, club, canteen, and stations in the United States.

Quartermaster Corps buyers began procuring the holiday turkey, electrified and ready to cook, for the Armed Forces last August and shipments to overseas military stations commenced in September. Most of the turkey for the Armed Forces overseas, plus mince pies, pumpkin, fruit cakes, nuts, candies and other holiday food items, were on route in October.

The Army Quartermaster Corps procures subsistence for all of the military services.

The Army overseas commands prepare their own menus. Their Thanksgiving Day dinners, menus will be similar, generally, to the Master Menu for Thanksgiving Day for personnel stationed in the United States. The Thanksgiving Day dinner, as listed in the Army Master Menu for the continental United States, is as follows: Chicken, turkey with sage dressing and dried fruit, cranberry sauce, mashed potatoes, candied sweet potatoes, buttered peas, creamed onion, assorted relishes, hot rolls, butter, fruit cake, pumpkin pie or mince pie, assorted fresh fruits, candy, nuts, milk, tea, coffee, and apple cider.

"How odd! I only understood from the first Mrs. Brindle that a New York specialist gave him a clean bill of health only a month before he died."

Infections Are Risky For Diabetic Victims

By **HELEN H. HENNING, M.A.**

An infection is a diabetic's danger. No matter how minor it may seem, it should be treated as an emergency since an infection tends to create a dangerous circle. High blood sugar favors infection and infection reduces the effectiveness of insulin.

Don't walk around in your bare feet. Don't wear circular glasses. Don't use hot water bottles on your feet. Don't pick, cut or use sharp instruments on your nose. Don't use adhesive tapes or bandages on your skin. Don't sit with your legs crossed over your knees. Don't bathe in very hot water. Don't wear poorly fitted shoes or arch supports. Don't use tight bandages. Don't use adhesive tapes or bandages on your skin. Don't sit with your legs crossed over your knees.

There may be some burning of the tongue as well as some pain in most instances, these infections can be cleared up by the use of antibiotic preparations. A physician should be consulted concerning the condition.

'Captain Kangaroo' Is Heartbreaker

NEW YORK—A girl friend of mine has a favorite television program which she enjoys watching while lying on her side drinking from a bottle. Her favorite program is "Captain Kangaroo" which she watches the few minutes in charge of this program finally has moved me to get in touch with the guy and try to learn what he's got that I haven't.

When this heartbreaker comes on the TV screen he very cleverly uses another name an disguise himself with drooping eyelids. He has a long name "Captain Kangaroo."

At right, Captain, it's time we exposed you. Your true name is Bob Keeshan and you have a nice wife and three children at home in West Long, N.Y. and what are you doing breaking hearts at 8 a.m. every Monday through Friday over CBS-TV?

Lynn Brown Named Orange Bowl Queen

MIAMI—The new Orange Bowl Queen is a green-eyed blonde from Fort Lauderdale, 18-year-old Lynn Brown.

The 5-foot 6-inch beauty was chosen from a field of more than 100 candidates. Saturday night her measurements are 35-25-35 and she tips the scales at 130 pounds.

Miss Brown, who recently was crowned "Miss Orange Bowl," is a freshman, will receive a scholarship of \$500 to any school she chooses to attend. She will be crowned at a coronation ball at the University of Florida where she is a freshman, will receive a scholarship of \$500 to any school she chooses to attend. She will be crowned at a coronation ball at the University of Florida where she is a freshman, will receive a scholarship of \$500 to any school she chooses to attend.

MOBERN CASTLE

NAOGYA, Japan—City of the future is going to reconstruct a 350-year-old castle destroyed by an air raid in World War II. It will be an exact reproduction except for two things—two elevators to hoist tourists to the top of its five-story tower.

'PROVIDENCE HAS GIVEN US HOPE'

There is now no reason why you should fear any possible illness. Modern medicine can give you relief for any ailment, and in most cases has the knowledge to effect a cure.

It is important to the fact that Physicians are daily learning more about disease, and what are warning him about that. When I first met him, he was surprised when I told him I was a doctor. He was surprised when I told him I was a doctor. He was surprised when I told him I was a doctor.

McIntyre To Join Faculty Of FSU

TALLAHASSEE—Earl McIntyre, associate professor of journalism at Michigan State University, will join the faculty of Florida State University as professor of journalism Jan. 1, according to President Frank S. Campbell.

Director of the Michigan Communications Study, McIntyre supervised preparation of such books as "Pipeline to Superstition," "Pipeline to Editors," and "What Michigan Newspapers Tell About the Schools."

McIntyre is advertising and public relations consultant of the Michigan Retail Hardware Association. He is vice-president and director of Capital Advertising Inc.

Before going to Michigan State in 1954, McIntyre served in the Army for four years. He spent two and a half years in the South Pacific where he won the Bronze Star Award. He is major in the Military Intelligence Reserve.

Professor McIntyre received his bachelor's of journalism degree from the University of Missouri in 1929 and his master's of science degree from Northwestern University in 1932. He is a member of Sigma Delta Chi, Alpha Delta Sigma, Phi Alpha Mu, Kappa Alpha Mu, and various professional organizations.

The professor had seven years experience as a newspaper editor in Illinois, and later branched out into advertising.

Florida Is Better Off Weatherwise

LANEALAND—Weatherwise Florida is a little better off than it was a year ago. Both seasons had some chilly days at the start. This season has been generally better than that of the start of the 1954 winter season, reports meteorologist Warren D. Johnson.

At the corresponding time a year ago there had been five frost nights and there were some 20 inches of snow in North Florida.

Some tender crops still are left in North Florida. At the corresponding time a year ago all vegetable were gone.

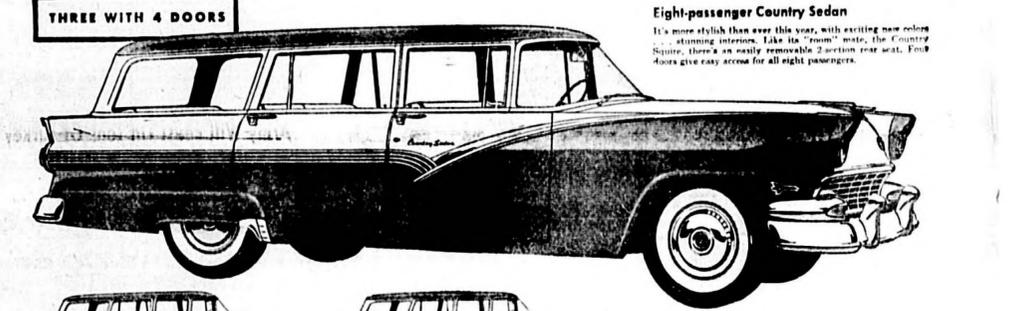

A cold weather is in sight but the big citrus crop could use a little in garden and flavor the fruit.

THE BOURBON DE LUXE COMPANY, LOUISVILLE, KENTUCKY

For '56 choose FORD... America's Favorite Station Wagon!

With Thunderbird Y-8 power... Thunderbird styling... and exclusive new Lifeguard Design

Eight-passenger Country Sedan

It's more stylish than ever this year, with exciting new color-stunning interiors. Like its "room" mate, the Country Squire, there's an easily removable 2-section rear seat. Ford doors give easy access for all eight passengers.

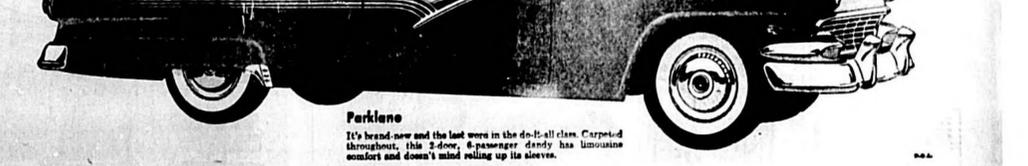

Six-passenger Country Sedan

The popular model is designed for those who prefer 4-door convenience with seats for six. Like all Ford Station Wagons, it has Ford's fold-in-the-door Stowaway seat.

Country Squire

A queen among all station wagons. Mahogany finished steel panels, wood-grain interior, chrome-plated trim, wood-grain beauty to this 8-passenger double-duty dreamboat.

THREE WITH 2 DOORS

There's more than meets the eye as to why Ford Station Wagons sell more than the two runners-up combined! Their Thunderbird beauty is apparent in all six models. But their beauty is more than skin-deep. Underneath that Thunderbird hide there's a heart of "GO"—for the Thunderbird Y-3 engine is the standard eight in all Ford Station Wagons, at no extra cost. If you need any more reasons why Ford is your soundest station wagon buy this year—look into your Lifeguard Design which was designed for your protection... and is found only in the '56 Ford.

Ranch Wagon

This all-around favorite for work or play has two wide doors, easily seats 6 people. As in all Ford Station Wagons, it's gas and tail gate can be operated singly with one hand.

Custom Ranch Wagon

A 6-passenger beauty that's at home on the range or in the big city. Converts in a split second from luxury limo to a super-specious cargo carrier. Easy-to-clean interior can take it.
