Woods Orders National Rent Income Survey

Findings Will Determine Increases To Be Granted Under New Control Law

WASHINGTON, Mar. 31.—(AP)—Housing Expediter Tighe Woods today ordered a survey of landlord incomes. The findings will determine what rent increases are to be granted under the new control law.

Announcing the order in a statement, Woods declared the 15 month extension is "a considerable strengthening" of the previous law and does not mean "a general rent increase for all tenants."

The new law does require that rent ceilings allow landlords a "fair operating income." The survey is to obtain information for carrying out that part of the law. Woods said a new regulation will be issued governing rent boosts under the "fair income" clause after the survey is completed. Meanwhile, rent officers will continue to handle landlord petitions for increases on grounds of hardship.

A spokesman said Woods will in the next week or so will allow the removal of rents above 100 percent of the 1934 rent level. It is expected that Congress will pass legislation to give him power to restore ceilings in case of need.

Key West Bandit Suspect Escapes From Hospital Bed

KEY WEST, Mar. 31.—(AP)—Monroe County authorities stepped up their search today for a bandit suspect who escaped from a hospital bed last night, naked and critically wounded.

Sheriff Herlin Sawyer identified the prisoner as David Matthew Lathers, 24, native of Orlando, who was being held on a charge of breaking and entering.

Lathers was shot Tuesday by Deputy Sheriff Albert Guyton when he allegedly was caught robbing the Cosmopolitan Grill in Key West, Sawyer said. The deputy fired when Lathers refused to drop the 25 caliber pistol he carried.

The bullet went through one leg and entered Lathers' stomach, inflicting a critical wound, the officer reported.

Lathers was handcuffed to an iron bed in a room at one side of the hospital. Sawyer said, apparently twisted the chain off the single handcuff and fled.

The sheriff found the room vacant when he and a nurse went to visit the prisoner. He said the bed was arranged as if the prisoner were asleep. A pillowcase had been cut into strips for bandages, the sheriff said, but there were no clothes in the room.

Cub Scouts Receive Advancement Awards

Twenty members of Cub Scout Packs 10 and 34 received advancement awards at the monthly pack meeting last Friday night. The boys participated in a program of songs and skits.

The Cub Scouts were requested to enter kits in a kite flying contest to be held in Fort Mellon Park Monday. Bob Harris, manager of the Ritz Theater, invited pack members to attend the movie as his guests after the kite contest.

The following awards were made: Bobby Williams, Bob Harris, Bob Shomaker and Alan Maffetti; gold and silver arrows, P. Lee, Jimmie Owen and Robert Samuel; gold and silver arrows, Billy Kirkbride; gold arrow, Maurice Phillips, Johnnie Bowen, Al Phillips and Jimmie Owen.

C of C To Honor Giants With Dinner

John Ivey, president of the Seminole County Chamber of Commerce, this morning called attention to notices which have been sent out for the semi-annual dinner for the New York Giants farm teams to be held at the Mayfair Inn on Apr. 1. He requested that responses be made promptly by those members who expect to attend so that arrangements can be made with the hotel as to the number of persons to expect.

Joe Provenzano Denies Killing Jimmy Velasco

Unemployed Carpenter Tells Of Hunting Trip On Dec. 12

TALLAHASSEE, Mar. 31.—(AP)—Joe Provenzano in a clear voice from the witness stand today denied he killed gambler Jimmy Velasco or even knew him.

Taking the stand in his own defense against the charge he killed Velasco, Provenzano half cried out "no sir, I did not" when asked if he committed the crime.

"I hate to call the lady a liar. I never have seen the lady in my life," he told the jury.

He was referring to testimony by Velasco's widow that she stood "face-to-face" with him while he was shooting bullets into her husband.

Asked if he knew Velasco, who also dabbled in politics here, the unemployed carpenter answered, "I never have seen that man in my entire life."

He related he went hunting on Dec. 12—the day of the murder—and returned home about 6:30 P. M. He said he was busy about details of the hunting trip because he often went bird shooting.

He described in detail about relatives and friends visiting his house at the very time the murder occurred. He said he remained at home all that night. He did not know of Velasco's death until the next day.

The state charged Provenzano inflicted eight bullet wounds on Velasco. His case against the defendant centers around Mrs. Velasco's testimony. She said she had no doubt about Provenzano's being the killer.

Mrs. Velasco said she saw Provenzano once before the crime and one time afterwards.

Asked if he ever had provided for the Velasco home as she testified, he answered: "I never have been to her house. I don't know where they live."

It was brought out today that Provenzano's niece was treated at the same hospital for a minor ailment that morning.

Britain Loan Of \$36 Million To Reds Cited

Russia Is Slated To Purchase Non-Military Supplies On British Markets

LONDON, Mar. 31.—(AP)—Britain disclosed today it is planning to loan Russia 9,000,000 pounds (\$36,000,000) so that Russia can buy non-military supplies from Britain in the next 12 months.

At the same time Britain clamped tight controls on shipment of virtually everything of potential military value to Russia and her satellite nations.

A new schedule of raw materials and machinery which might be usable as war goods was announced to the House of Commons by Harold Wilson, president of the government's board of trade. Such goods cannot be exported without licenses.

The schedules have been sent to the 10 Western European Marshall Plan countries with a request that the items listed not be exported to Communist-dominated countries.

Disclosure of the plan to lend Russia funds for non-military purchases was made in budget estimates presented to the House of Commons.

Purchases were made in budget estimates said, was for "non-military supplies under wartime arrangements for which final contracts are being concluded."

A treasury spokesman said he (Continued on Page Four)

Conservation Officer

Les Jacobsen, technician for the U. S. Soil Conservation Service assigned to the Seminole Soil Conservation District, has the responsibility of prescribing treatment for land to be 'made over' here on Apr. 1 by the Soil Day program.

Les Jacobsen To Prescribe Needs Of Airport Land

BY RALPH NASSER
Les Jacobsen never writes L. D. after his name. But it would be appropriate, because he's a "land doctor."

Jake, as his friends call him, is a technician for the U. S. Soil Conservation Service assigned to the Seminole Soil Conservation District here.

In that job, he's had the major responsibility of prescribing the "medicine" for the ailing land that will be treated in Florida's biggest soil conservation spectacle—the Miracle Soil Conservation Day program here Apr. 7.

On that day, the 386-acre farm of the Fellowship Bible College will be made over. Every acre will be put to its best use. Every acre will receive all the needed conservation treatment that can be applied in the spring of the year.

Other measures will be applied the fall.

As more than 200 farm tractors and hundreds of workmen swarm over college farm they will be carrying out the complete soil and water conservation plan made by three-eyed, square-jawed Jacobsen.

Most of all of the soil and water conservation and good land use measures that normally take a farmer four or five years to apply will be put on the college farm in one big day's work.

Open-collared and sun-tanned from his work with farmers in the fields, pastures, and woods, Jacobsen is typical of the technicians or "land doctors" the SCS assigns to the 11 soil conservation districts which Florida farmers have organized.

A graduate of Mound High School at Daytona Beach, Jacobsen went to Stevens Branch at DeLand and to the University of Michigan before he returned to the University of Florida for the last two years of his agricultural training. He received a bachelor's degree from the University of Florida in 1939.

In 1940, Jacobsen went to work for the U. S. Soil Conservation Service as a student aide at Graceville. When that temporary assignment was over, he worked a few months at the U. S. Forest Service (CCC camp) at Tallahassee. Early in 1941 he returned to the SCS as a student aide at Graceville. And he's been with the SCS since then, except for a three-year hitch in the Navy. He went into the Navy as an aviator and was discharged in 1937.

More Planes Join Search For Craft

MIAMI, Mar. 31.—(AP)—Coast Guard and Navy air and surface craft continued to sweep the Gulf of Mexico today in a search for the missing Calcasieu trader with five men aboard.

Two coast guard planes from Elizabeth City, N. C., joined others from Miami and St. Petersburg bases. Navy aircraft went out from Key West and the Coast Guard patrol boat Nike, out of Gulfport, Miss., joined the hunt.

Plane Crash Kills Head Of Dow Company

Dr. Willard Dow, Wife And 3 Others Die As Craft Wrecks Near London, Ont.

LONDON, Ont., Mar. 31.—(AP)—Dr. Willard H. Dow, president of the vast Dow Chemical Co., his wife and three other persons were killed today in the crash of their private plane near London, Ont.

The 52-year-old Midland, Mich. executive and his party were heading for Boston, Mass., when their plane plunged into the ground a mile from this Canadian city's airport. The time of the crash was 10:55 A. M.

The victims were identified as Dow, Mrs. Martha Dow, Mrs. Calvin Campbell, 45, of Midland, Pa., and A. J. Howe, Midland, and Captain Fred Clements, Midland.

Mrs. Campbell's husband, head of the Dow Company's legal department, was taken to St. Joseph's Hospital where his condition was pronounced "not too serious" (Continued on Page Four)

Airport officials said wind conditions might have caused the crash.

The party took off from the city airport near Midland at 9:30 A. M. planning to fly to Boston to attend a banquet tonight at the Massachusetts Institute of Technology. Entering in bad weather, the plane fell into a farmer's field and burst into flames.

Dow had been president of the Dow Chemical Co., one of the world's largest producers of chemicals, since 1930.

Born on Jan. 4, 1887, Dow was the son of the founder of the firm, Dr. Herbert H. Dow. In 1919 he was graduated from the University of Michigan and the married in 1920.

An honored chemist in his own right, Dr. Dow was (Continued on Page Four)

Over 100 Persons Attend Hearing On ACL Reroute Plans

LEESBURG, Mar. 31.—(AP)—More than 100 witnesses will be heard in the Florida Railroad Commission's hearing of an Atlanta Coast Line Railroad plan to reroute two trunks between Jacksonville and St. Petersburg, and discontinue two others, it was indicated today at the hearing.

Trunks 191 and 192 would be rerouted and trunks 193 and 194 would be discontinued.

About half of the witnesses favor the proposal, which would put Gainesville, Ocala and Leesburg on the route of 191-192, the railroad's streamliner, the Champlain.

E. B. Bush, ACL superintendent of transportation, was the principal witness of the morning. He said Gainesville, Ocala and Leesburg citizens have for many years asked that 191-192 be rerouted through their towns. Over the present route of 191-192, there is little patronage, he said.

During 1938, 166 persons got on or off at Newberry, 191 at Dunnellon, 341 at Inverness.

President Declares He Wants Tax Boost, Anti-Inflation Plan

Adjustments For Police Salaries Gets City Okay

Pay Of Chief Roy Williams Is Increased To \$275

At time of the recommendation of City Manager C. F. McKibbin Monday night that Sanford policemen be given a 10 percent increase, the City Commission granted policemen monthly salary adjustments of \$5.00 every six months up to a two-year period, and increased the salary of Police Chief Roy Williams from \$270 to \$275 a month.

The recommendation followed an inquiry of Mr. McKibbin into the salaries of police officers paid to policemen by municipalities comparable in size with Sanford. A study of the salaries of policemen was ordered by the Commission and Mr. McKibbin is now undertaking this task.

The salary adjustment increases, he pointed out today, will be given to policemen who come up to and maintain a high standard of efficiency. The new rate of salaries in Sanford is based on a survey of other municipalities, he pointed out, and is the highest in the State.

The investigation revealed that the only other municipality comparable in size with Sanford, pay policemen \$215 a month, computed with \$175 in overtime pay a month. In other two cities, \$215 and \$210 a month, whereas in Sanford the salary is \$191 (Continued on Page Four)

The salary of the chief of police in Sanford is \$270, whereas the average of St. Augustine and Ocala is \$260, and in most cities investigated averages \$210.

Among the cities whose police salaries were investigated were Jacksonville, Leesburg, Ocala, St. Augustine, Gainesville, Clearwater, Tallahassee, Lakeland and Winter Park. In these cities, average pay for policemen average \$225 (Continued on Page Four)

Sanford's present salary scale does not reflect improvement in service in the individual," Mr. McKibbin stated. "A new man could get a higher salary than the man who has worked for the city for many years."

Sanford's present salary scale does not reflect improvement in service in the individual," Mr. McKibbin stated. "A new man could get a higher salary than the man who has worked for the city for many years."

In pointing out to the Commission the requirements of police work, Mr. McKibbin stated: "Police work is, of properly done, unique among the municipal services. An officer must have a physical build and an outward attitude that is (Continued on Page Four)

Concert Pianist

Jacob L. Rosen, pianist from Cuba, will be presented on the Cuban Music Concert Series tonight at 8:15 o'clock at the Woman's Club building. Mr. L. Rosen has received excellent notices all over the country for his brilliant performance of a concert tour and was ranked for "instant success" by the Philadelphia press following his appearance in that city.

Western Nations Begin Lining Up Solid Peace Front

Nations of the West today began lining up a solid front which they hope will offset peace in the world.

British Foreign Secretary Ernest Bevin and Secretary of State Dean Acheson scheduled the first of a series of major conferences in Washington this afternoon.

While the main reason for Bevin's visit to the United States is the signing of the North Atlantic Security Treaty, the meetings were expected to cover the whole problem of confining the unity of the West against Russia.

Bevin, L. Bevin, Secretary of State, is expected to discuss the situation in Europe with Acheson. Bevin is expected to discuss the situation in Europe with Acheson.

The security of Middle Eastern countries such as Turkey, Greece and Iran, the possibility of forming a Mediterranean defense pact, and how to deal with the spread of Communism in the Caribbean zone.

Other issues to be threshed out may include the security of Middle Eastern countries such as Turkey, Greece and Iran, the possibility of forming a Mediterranean defense pact, and how to deal with the spread of Communism in the Caribbean zone.

Commission To Request Civic Clubs To Discontinue Tourist Center Use

At the request of a group of tourists representing the Sanford Tourist Club and Sanford Shuttleboard Club for year around building facilities in which to hold meetings and entertainments, Mayor Andrew Caraway secured the permission of the City Commission Monday night to lay the request before all civic clubs, now using the Tourist Center, to the end that the building may be used exclusively by winter visitors and the Chamber of Commerce.

Representatives of the tourist groups met Monday afternoon at the City Hall with Mayor Caraway, City Commissioner C. F. McKibbin and John Ivey, president and Edward Higgins, manager of the Seminole County Chamber of Commerce, and their initial request, said Mayor Caraway, was for a new tourist building measuring 50 by 80 feet.

Representing the Shuttleboard Club was Carl Elenhower, president, J. Roy Hall and Joseph Murray, F. A. Eterly, past president of the Sanford Tourist Club, appeared as chairman of a committee that included L. C.

Truman Says Federal Deficit Is More Dangerous To U. S. Than Tax Increase

WASHINGTON, Mar. 31.—(AP)—President Truman declared today that he will want his anti-inflation program and higher taxes. He spoke of the recent drop in prices as only a temporary let up in inflationary pressure. He said his request for stand-by price controls has been a factor in checking price rise.

The Administration program has not been shelved, Mr. Truman asserted, certainly not on the basis of any consultation with him.

As for taxes, the President said a federal deficit would be much more dangerous to the country's economic health than a tax increase.

He said a news conference he had agreed with Senator George (Doc) Aiken that the tax increase, as a reporter put it, is the only thing that would get the country into a serious depression. George is wrong, he said.

The President denied that his anti-inflation program is a "stop gap" but it has been shelved, as some published reports said. He said the mere fact that he had requested stand-by price and wage control powers and other steps has been the main reason for the temporary holding off of inflation.

He added that those powers are just as necessary now as when he made the recommendation. Existing powers have been used in the past and the new ones would be used the same way, he added.

Asked if the stand-by powers (Continued on Page Four)

City Dog Owners Warned To Have Pets Vaccinated

All dogs in the city must be vaccinated against rabies by the first day of May under a vaccination tag must be worn by dogs on a collar or harness during the remainder of the year, or dogs may be picked up by police and disposed of as a nuisance.

Chief Clerk McKibbin announced this morning.

In order to accommodate dog owners, Dr. Raymond L. Haas, veterinarian, will make a rabies clinic at the City Hall on Apr. 13, 20, 27 and on May 4, at 3:00 to 6:00 P. M. to vaccinate dogs.

A shortener formerly used at the Municipal Airport has replaced the old one at the City War Plant and will be put into use Friday, Mr. McKibbin revealed. The new device is more easily operated and gives a steady flow of chlorine for purification of the water, he said. He declared that the water plant is in good condition.

CHEERY BLOSSOMS

WASHINGTON, Mar. 31.—(AP)—The Capital's famed cherry blossoms, supercharged with hormones for the first time, hit their peak today.

The hormone treatment, in the form of an expensive spray, is designed to keep the blooms at their shiny best through next week-end's cherry blossom festival.

THE WEATHER

LAKELAND, Mar. 31.—(AP)—The Federal State Frost Warning Service forecast for peninsular Florida tonight and Friday morning was partly cloudy and warm in South and Central districts, a few local showers and slightly cooler in North.
Friday's forecast was partly cloudy and mild in North; continued warm in South and Central districts with a few widely scattered showers in Central areas. The outlook was warm through Sunday.

From where I sit... by Joe Marsh

Remember How We Talked?

It went like this at the Hooper's the other night. Hap's eighteen-year-old daughter is talking about "a real one guy—solid out of this world, but def."

"Now what kind of language is that?" Hap barks. "Can't she speak English?"

"I'll translate it for you," Ma Hooper says. "In the language of the twenties, when you were about twenty years old, 'solid' means 'this fellow is the cat's whiskers.' 'Remember how we used to talk sometimes?' Hap went back to reading his newspaper."

From where I sit, it's easy to criticize the other person when we don't take a good long look at ourselves. Sure, there'll always be some differences. I'm fond of a temperate glass of beer and maybe you would prefer ginger ale, but let's just live and let live. Because when we go out of our way to find things to find fault with in others, chances are they can find a few in us, too.

Joe Marsh

Marlow Outlines ABC On New Rent Control Measure

By JAMES MARLOW
WASHINGTON, Mar. 31 (AP)—Here's an ABC on the new rent law which keeps controls another 15 months from ending today. Once President Truman has signed the new one goes into effect Friday and ends 15 months later, June 30, 1950.

Before examining the new law, remember these things: Territory. Lighter Woods, called the housing expediter, is rent control boss for the country. His office is here in Washington.

Under him are 600 area offices around the country with staffs to handle inquiries in their territory. In these 600 areas are about 400 rent control advisory boards made up of citizens volunteering their time.

They advise Woods or his aides on whether they think rents should be raised in their territory. Woods will have a man there to go over your problem with you. If you don't get satisfaction there, you may consult your advisory board.

And if you're a tenant with a complaint about your landlord, tell it to your area rent control office. Now for the new law which made changes in the present one. The parts which are new will be labeled in parentheses.

(New) now any state legislature can wipe out all federal rent control in the whole state or any part of it whenever it wishes.

(New) any city, town or village provided the governor of the state approves, can wipe out all federal rent control whenever it wishes.

(New) the new law does not authorize further 15 per cent "voluntary" increases in rent. And it records any dwelling decontrolled under such bases, at the rent figure contained in such leases.

(New) Alaska becomes the 49th state in the union, it will be the largest.

Just as under the present law, Woods, the housing expediter, can remove control in any area any time he desires. If the advisory board recommends that to him, he's pretty sure to do it.

(New) Woods not only can take controls off any area in the next 15 months but also can slap them back on any area he has decontrolled whenever he thinks they're needed.

(New) landlords must get a "fair net operating income . . . so far as practicable." What does that mean? At this minute no one knows. Woods will have to work out a formula that can be used around the country.

(New) apartment hotels in New York and Chicago go back under controls now at the rental they were getting Mar. 1, 1949. Practically all apartment controls previously had been lifted. If you're an owner or tenant of one of them in New York or Chicago and have doubts about your particular case, say your local area rent control office.

Veterans of World War II still have 30 days' preference in buying or renting a newly built place. But—

(New) such veterans now have 30 days' preference in buying or renting a place newly converted into living quarters.

(New) trailers and trailer spaces, which had been decontrolled, are now back under controls for permanent guests.

(New) the housing expediter has been given back his power to control evictions. He can get a court injunction to stop an eviction he thinks is wrong. If you're being put out in a way you think is illegal, see your area rent control office. There are about 15 ways in which a landlord can tell a tenant to move.

(New) the housing expediter can sue a landlord for three times the amount of rent he's overcharged a tenant (Under the present, expiring law he could sue only for the amount overcharged). There still are no criminal penalties for doing anything wrong under the law.

(New) the new law does not authorize further 15 per cent "voluntary" increases in rent. And it records any dwelling decontrolled under such bases, at the rent figure contained in such leases.

If Alaska becomes the 49th state in the union, it will be the largest.

All law is. Even physical laws must have a spiritual harmony. Else the whole universe would be out of tune and harsh. For we know that the law is spiritual. Rom. 7:14.

It was, we hope, obviously a typographical error when one of our star reporters pointed out the other day in writing about the swimming pool, "I will be 60 feet wide and 100 feet long."

For years everybody has been kicking about high prices, and demanding tighter federal legislation to hold prices down or roll them back. Now that prices have begun to slide and the cost of living is getting in reach of the average man's pocketbook, everybody is scared to death and government agencies are doing everything they can to boost them up again. We are never satisfied.

Minnesota, of all places, where Rep. Humphrey, who loudly advocates civil rights for negroes, now pops up with a law prohibiting Indians in that state from buying liquor as all other races are permitted to do. This is revealed when the Indians themselves petition Congress to repeal the law as discriminatory. Rep. Humphrey might look into this situation before he concerns himself with the constituents of other representatives.

The Tampa Tribune suggests that instead of praying for the Legislature, the good people of Florida ought to be praying for the taxpayers. They now pay \$24,000,000 a year for state government as compared to \$7,000,000 in 1940. Furthermore, federal, state and local governments took approximately 21 percent of all the salaries, wages, and profits of Florida people in 1940. Today they take 35 percent. "Yes, let us pray," says the Tribune, "for the taxpayers."

Governor Warren points out that elimination of the entire salaries of all state officials would make only a slight dent in the State's expenditures. "More than three-fourths of the budget is for schools, welfare, and higher education," he adds. But he did not say how much could be saved if jobless benefits were not paid to people who do not deserve them, or welfare payments to children whose parents can afford to take care of them themselves. Such benefits have increased from \$4,500,000 in 1947 to \$16,000,000 in the budget for 1951.

The Miami Herald reveals a nation-wide bookmaking syndicate which has moved in on the horse tracks in this state is now doing business out an even grander and more elaborate scale. The syndicate will take bets on baseball, football, ice hockey, basketball, polo, and virtually anything else. "The setup," says the Herald, "is potentially the largest south of the Mason-Dixon line, with the syndicate applying the same operational methods that have proved so successful in the horsebook field," but the Legislature will have an easier task at breaking up the racket next month.

The recent signing of a death warrant for Arthur Barry, 22 year old youth convicted of the knife slaying of a 14 year old Dade City girl, serves to emphasize the growing seriousness of juvenile delinquency. Scarcely a day goes by that some teen-age child is not arrested, convicted of murder, or exposed to participating in some reckless, wild and frenzied spree, more often than not stimulated by the influence of liquor and drug. Parents may well wonder "What can I do to keep my child from becoming a delinquent? How can I, as a parent, become a delinquent?" The answer is not hard to find. It is to be a good parent, not a bad one.

Duplicating Nature

One of the recent fields of exploration in medicine has been in the use of drugs which are derived from mold in the soil and from the chlorophyll which is used by green plants to manufacture food in the mysterious factories of their leaves. Penicillin and chloromycetin are among the mold mold drugs; both are very potent and have been used with great success in treating a wide range of diseases and infections.

Now one of these, chloromycetin, has been produced synthetically, by laboratory chemical processes alone. The drug firm which discovered the way to do it is well enough pleased with test results to call them satisfactory. A relationship was found between this recent drug, which writers like to call a "wonder drug," and a relatively common chemical. As to this specific drug, the discovery means that medical people now can have all the chloromycetin they want. For the general field of medicine it is another step toward duplicating the curative and protective processes of nature, many of which are still deep mysteries.

If the day ever comes when all of these mysteries of the drugs and chemicals of the body and of plants have been solved and put to work in the laboratory, man will have compensated in large part for the way he upset nature when he civilized himself.

Filipino Leader

Like an echo from the past comes the news that Emilio Aguinaldo has been celebrating his eightieth birthday. Half a century ago anything that Aguinaldo did was sure to appear on the front page. As the leader of the Filipino rebels, who had revolted against Spain and had no more desire to be ruled by Uncle Sam, he commanded much sympathy among Americans, who disliked the idea of this nation depriving another of freedom.

Some called him the George Washington of the Filipinos, a title which derived some plausibility from his success in keeping the insurrection going for three years. Then Gen. Frederick Funston captured him in a successful raid, and the revolt collapsed.

Aguinaldo's later career did him less honor. He collaborated with the Japanese, and escaped heavy punishment probably only because of his past prominence in Philippine history.

British Diet

"I was impressed by the large portions at meals. I could not eat so much."

The speaker was a 24-year-old British girl visiting the United States. This is a reminder that, though her country is emerging from its economic plight, food is still severely rationed, in the British Isles, to a degree that Americans would find intolerable.

Another British visitor is Winston Churchill, who came to visit President Truman and make a speech in Massachusetts. When he came to the White House during the war, the suggestion was made that his most memorable experience might be getting two eggs for breakfast instead of his customary one. Now he's probably lucky to get one egg for breakfast at his home table.

Congress Roundup

(Continued From Page One) rent bond. The "fair income" section of the law "leaves it up to the housing expediter to determine what is fair net operating income," he added.

It clearly does not involve an administratively unworkable plan of fair return on some valuation, nor does it mean a general rent increase for all tenants.

Meanwhile two familiar ailments—butter and oleo—looked for a showdown fight. The question is:

Will Congress free oleomargarine of all federal taxes and prevent any new restrictions on its sale?

Confident oleo forces claim they had the votes to upstage the butter bloc. But dairy state members, while conceding the house will vote to repeal the special oleo taxes, said they expect to win their fight to outlaw sale of yellow oleo in interstate commerce.

Taxes that would be repealed, if the measure becomes law, are: On colored oleo at retail 10 cents a pound; on the uncolored product at a retail 16 cent a pound; \$600 a year on oleo manufacturers; \$480 a year on wholesalers of colored oleo; \$300 a year on wholesalers of the uncolored product; \$48 a year on each retailer of the colored oleo and \$6 a year on retailers of the uncolored product.

The butter bloc won an initial victory when the House Agriculture committee on Mar. 9 approved a bill repealing the oleo taxes but at the same time preventing the sale of yellow oleo in a state unless it was manufactured there.

And the labor bill ran into an ersatz filibuster in the House. Actually, the House rules committee's delaying tactic is not a filibuster, but it serves the same purpose.

The Administration measure to repeal the Taft-Hartley Act and replace it with a modified Wagner Act has been approved by the House Labor Committee to say when and under what procedure it will allow the House to begin debate. Since Tuesday it has been holding hearings on this. Chairman Sabath (D-Ill.) of the rules group called the deliberations a filibuster and another member agreed. Others just grinned.

The Veterans' Administration designated that 75 to 80 percent of World War I veterans would be eligible at age 65 for a 17-a-month pension under the new Rankin bill.

The estimate was given to the House Veterans' Committee, but VA officials refused to venture a guess on what the total cost would be.

The bill by Rep. Rankin (D-Miss.) would give the pensions to World War I veterans who at age 65, have income less than \$2,000 a year if they are 60-64, or married or with dependent. It is a substitute for Rankin's original proposal to provide 80 monthly payments to each World War I veteran for the first year of his pension.

THE WORLD TODAY

By DEWITT MACKENZIE

The foreign ministers of 11 nations are assembling in Washington to join U. S. Secretary of State Acheson next Monday in signing history's most notable alliance of its kind—the Atlantic Defense Pact.

The broad significance of this momentous treaty was summed up by Paul-Henri Spaak, Belgian premier and foreign minister, like this:

"I'm convinced that since the end of the war and the organization of the United Nations, the Atlantic Pact is the world's most important step toward collective security."

Specifically—to quote the language of Senator Wiley of Wisconsin, member of the foreign relations committee—the treaty will create a moral obligation to resist aggression if there is no peaceful way out. When the United Nations has become a real force, he added, then the pact can be dissolved.

This would seem to epitomize well the viewpoint of democratic countries. The Russian bloc of course charges that the Alliance is a breeder of war.

Lealand, tiny in size but a mighty atom strategically voted yesterday to join the Alliance, making the 12th nation to subscribe. The others are Britain, France, The Netherlands, Belgium, Luxembourg, Norway, Denmark, Italy, Portugal, the United States and Canada.

Among them these nations must be included the two strategic lines calculated to render them invulnerable to attack from any quarter.

One of the most interesting adherents is Portugal, which is stuck into the side of Spain like a plum in a Christmas pudding. Obviously for Lisbon to endeavor to settle the Atlantic problem without reference to Madrid, would be like trying to touch your nose with your elbow.

Portugal's problem was delicately touched by the Generalissimo Franco has been the last link of Western Europe. However, Portugal initiated conversations with Spain and diplomatic sources in Madrid are quoted as saying that the talks cleared the way for Lisbon to join the Alliance.

More than that, these sources said the Spanish view was that Spain indirectly was linked to the Atlantic Alliance through her agreements with Portugal. If true, that's a mighty important development. For, like it or not, if there should be another big war the Atlantic Alliance would need the adherence of Spain.

By the way, it will be worth while to keep an eye out for a possible change in the attitude of Western Powers toward Spain. Already there has been a quiet easing of hostility to the Franco government.

Next Monday's gathering of statesmen in Washington will be colorful one. Among the most striking personalities will be Britain's Ernest Bevin and Italy's aging Count Carlo Sforza.

Both these men are fighters. Sforza, the most bloodthirsty of nobility, was born with a golden sword in his mouth and got fought for democracy to the limit of right; his life by defying Dictator Mussolini and even refusing to obey a summons to a conference with a monarch in whose kingly prerogative he didn't believe. His vast fortune was sacrificed to the cause.

Even, an agricultural laborer's son in England, went out into the world as a small lad to earn his living the hard way. His life was devoted to the cause of the workers, and he battled his way to the top of British labor ranks as a leader of men. Now he represents his socialist government in the foreign field.

So each, after his own fashion, has been working for the aims professed by all the nations represented among the treaty signatories—the general welfare of mankind, for which peace is essential.

Plane Crash

(Continued From Page One) right, the younger Dow took over on his father's death as president and general manager of the concern when he was only 33 years old.

He and Mrs. Dow are survived by a son, Herbert H. Dow II and Mrs. Helen Whiting, both of Midland. The son is a student at Massachusetts Institute of Technology.

The giant chemical firm is located in Midland, Mich., about 20 miles from Saginaw. It has numerous subsidiaries.

Dow also served as president of the Iowa-Dow Chemical Co., Cliffs Dow Chemical Co., Dowell, Inc., and the Kuhl-Dow Chemical Co. He was vice president of the Midland Ammonia Co.

The devilfish or giant octopus is the largest mollusk.

Early French and Spanish settlers of New Orleans built their houses on stilts.

The total capital invested in the U. S. gas industry totalled nearly six billion dollars in 1948.

Many drugs, chemicals, petroleum, wax, saccharin and valuable oils are made from coal tar.

The gas industry has more than 210,000 miles of pipe to gather, transmit and distribute gas to consumers.

Information Flow

On Atom 'Secrets' Hits Flood Level

WASHINGTON—The flow of atom secrets from the Atomic Energy Commission (AEC) is reaching flood level.

The vast project itself only four years ago was an official secret, so well guarded that newspapermen would not even write "atomic energy" on their typewriters.

Presently, however, they will have a hard time keeping up with the volume of atomic data pouring out of the unmentionable laboratories. Besides publishing its 213-page annual report, the commission in 1948 cleared 2,100 scientific papers on atomic research written by its workers and collaborators. Its declassified 1,500 more formerly-secret reports.

It now has an elaborate program of new publications, including one on atomic weapons, to be released in the next month or two.

Sen. Tydings (D-Md.), chairman of the Senate Armed Forces Committee, expressed deep concern at all this publicity at a recent hearing of the Senate-Home Committee on Atomic Energy of which he is the general chairman. (Continued)

Pact Meet

(Continued From Page One) gium, Holland, Luxembourg and Italy.

The foreign ministers of Iceland, Denmark, Norway and Portugal are also expected in time for the first formal meeting of the pact countries Saturday morning. Iceland and Portugal decided yesterday to join the alliance.

In Bonn, Germany, members of the constituent assembly made another try today at reaching agreement on a constitution for the West German state proposed by the U. S., Britain and France.

Squabbles between German political groups over how the state should be set up have blocked assembly action on adopting a constitution.

Britain's wartime prime minister, Winston Churchill, speaks in London tonight on what hope he sees for man in this war-torn century.

Churchill, who electrified the world in March, 1940, with his "iron curtain" speech in Fulton Mo., will speak in "The 20th Century, Its Promise and Its Perils."

The veteran statesman's address will be broadcast over much of the world.

Truman Speech

(Continued From Page One) alone had been shelved temporarily. In view of the price adjustments going on, Mr. Truman said they had not and there is plenty of time for action on that. He said if they had been discussed, as reported, he certainly would have been consulted.

Edwin G. Nourse, chairman of the President's Economic Advisory Council, has not resigned, the President said. There have been reports that he might quit because of differences with Leon Keyserling and John D. Clark, fellow members of the council. Nourse said yesterday he had turned in his resignation a couple of months ago but expected to stay on the job as far as he knew.

The President said he certainly will recommend extension of installment buying curbs beyond June. He made this statement in reply to a question whether the Federal Reserve Board is considering further relaxation of present regulations.

Mr. Truman emphatically opposed any cut in the \$5,600,000,000 the Administration wants to carry on Marshall Plan aid to Europe.

Asked about the 10 per cent reduction urged by Senators Taft (R-Ohio) and Russell (D-Ga.), he said the sum should not be cut at all. He added the total requested was based on the best possible information and is needed to run the plan through the next fiscal year.

Mr. Truman also predicted the Senate would ratify the North Atlantic Defense Pact. A reporter quoted a report that Taft is opposed to it and thinks a majority of the Senate will be. The President said he had no way of telling what Taft thinks, but he believes the Senator is wrong.

Mr. Truman told the newsmen he had a long winded telegram from the real estate lobby giving him all sorts of what-for for signing the Rent Control Bill, so it must be a good bill. He said the message was sent by the head of the National Association of Real Estate Boards and he had no objection to the sender making it public.

The President said he will remain here during May as he has so much work he can't get caught up. He has not accepted an invitation to visit Trinity College at Hartford, Conn., in June, but wishes he could go.

In reply to other questions, the President said:

He is against a proposal by Rep. Vinson (D-Ga.) to boost military appropriations \$1,500,000,000 beyond the amount asked by the President. He said if the added money was needed he would have asked for it in his budget.

He knows nothing of any proposal for a government loan for Mexican oil development but would favor such a loan if the interested departments recommend it.

A dozen men have been mentioned in published reports for appointment as Ambassador to Russia, but none is under serious consideration now. This was in reply to a question whether Jefferson Caffery, ambassador to France, would be named to Moscow job which Lieut. General Walter Bedell Smith gave up last week.

He had no comment on a report that Jonathan Daniels, editor of the Raleigh (N. C.) News and Observer, would be named Secretary of the Navy.

country in the atomic field more quickly, nor more surely slow up research in cancer control, say, than to permit science and scientists to be kicked around by the organized forces of ignorance, demagoguery and petty politics. There is only one real protection against the harm selfish and ignorant and fanatical men can do and that is an informed public."

In 1789, Paul Revere was appointed president of the first Board of Health in Boston.

"Look upon this task of becoming familiar with the essentials of atomic energy as an obligation directly to your children." He told an audience at Crawfordville, Ind. "If schemes or foils or ruses or hysterical stuffed shirts get this thing out of your hands, it may then be too late to find out what it is about, robbing civilization the security of our

FRIDAY

The Azalea Circle of the Garden Club will meet at 8:00 P. M. with Mrs. A. F. Hunt, with Mrs. John Clark as co-hostess.

Campbell-Losing Post, American Legion Auxiliary will have a business meeting at 7:30 P. M. at the Legion Hall.

Spring Frolics will be held at the Junior High School auditorium at 8:00 P. M.

MONDAY

Circles of the First Methodist Church will meet at 3:00 P. M. as follows: Circle No. 1 with Mrs. W. E. Raines, 2115 Holly Avenue; Circle No. 2 with Mrs. H. B. Cronley, Silver Lake; Circle No. 3 with Mrs. Fred Wilson, 1900 Sanford Avenue; Circle No. 4 with Mrs. P. H. Wyatt, 616 Magnolia Avenue; Circle No. 5 with Mrs. E. G. Kilpatrick, 228 West Eighteenth Street; Circle No. 6 with Mrs. M. L. Tillis, 1100 Elm Avenue.

The Philanthropic Class of the First Presbyterian Church will hold a meeting at the home of Mrs. W. E. Hollyhead at 8:00 P. M. Mrs. H. A. King and Mrs. Police West will serve as hostesses with Mrs. Hollyhead.

Chapters of the auxiliary of Holy Cross Episcopal Church will meet at 3:00 P. M. as follows: St. Agnes with Mrs. W. A. Fitts, 1015 1/2 Avenue, co-hostess, Mrs. Irving Feliberty; St. Ann's with Mrs. Miriam Russell, Loch Arbor; St. Catherine at the Parish House, St. Mark's will meet at 8:00 P. M. at the Parish House.

The Ruth Sprigg (Ep.) Auxiliary of the First Baptist Church will meet at 4:30 P. M. Group No. 1 with Laura Phillips, 1216 Oak Avenue; Group No. 2 with Nancy Rountree, 604 Elm Avenue.

TUESDAY

The Daughters of Wesley Class will meet at 8:00 P. M. at the home of Mrs. Ruth Lundquist, 301 French Avenue.

Fresh green peas should be cooked in the smallest amount of boiling water possible—no little that by the time the peas are tender almost all the water will be evaporated and it will not be necessary to drain them. For a flavor change, add a few chopped sauteed mushrooms to the peas and serve with a cream sauce, just lightly with paprika for an attractive garnish.

Woman's Club Scene Of Circle Party

The Palm Circle of the Sanford Garden Club entertained last Friday at 1:30 P. M. with a bridge and Chinese checker party presided with a hot show at the Woman's Club building on Oak Avenue. Accounting a springtime theme were the attractive decorations which included lovely arrangements of azaleas and peach blossoms.

In charge of the affair was Mrs. M. L. Tillis and assisting Mrs. Harry Osburn, Mrs. H. E. Duncanson, Mrs. Herman Jacobson and Mrs. Robert Miller.

Prior to the event Roger Harris rendered a half hour of music on the Steinway piano and Miss Le-Jane Kates of Ocala opened the showing with pantomimes of the songs "Little Old Lady" and "The Easter Parade." Soft background music was played during the hot show which was presented in a garden gate setting formed of fern, gladiators and tulips.

The hot show was sponsored by the Shoppe Chaparran under the direction of Helen Hurlbutell, manager, assisted by Mrs. J. P. Thurmond, Models participating were Mrs. Harry Duncanson, Mrs. Roy Green, Mrs. Max Fandum, Mrs. Lurine Johnson, Mrs. Dan Wright, Mrs. J. W. Ruppert, Mrs. Francis Hote, Mrs. Ralph Dean, Mrs. J. M. Moyer, Mrs. George Thurston, Mrs. Ploma Lewis, Mrs. Hurlbutell, Mrs. Jack Russell, Mrs. Ernest Southard, Mrs. Wallace Plimton, Mrs. Raymond Kader, Mrs. Martha Chapman, Miss Betty Duncanson and Miss Dorothy Anderson.

Following the hot show several progressions of bridge and checkers were enjoyed with prizes being won by Mrs. F. D. Scott, high score for bridge; Mrs. L. E. Spencer, second high and Mrs. R. C. Long was awarded a prize for Chinese checkers.

Mrs. R. T. Hunt Honored With Party

Honoring her parents, Mr. and Mrs. R. T. Hunt who celebrated their Silver wedding anniversary Tuesday, Miss Margaret Hunt entertained with a surprise party for relatives at their home on East Second Street Tuesday evening.

The rooms of the Hunt home were artistically decorated with bougainvillea, roses and fern. The dining table was covered with a handmade lace cloth and held an arrangement of roses and bougainvillea balanced by burning tapers in crystal candleholders.

Mr. Hunt presented Mrs. Hunt with a complete set of sterling silver in a Chantilly pattern.

Late in the evening refreshments consisting of ice cream and cake were served to the following: Mr. and Mrs. Hunt, guests of honor, Mr. and Mrs. John Cranston, Mr. and Mrs. T. B. Middleton of Sanford; Mr. and Mrs. Emmett Thompson, Mr. and Mrs. James Williams and Mrs. Robert Hopkins, Mr. and Mrs. W. A. Hunt, Mrs. Attie Hunt, Roosevelt Kirkland and William Taylor all of Orlando; Mrs. C. E. Ryle, Winter Park; Millard Hunt, Americus; Gae, Miss Shirley Middleton, Mrs. Joe Daniels, Frank Cranston and the hostess, Sanford.

Finely sliced radishes and scallions give cold slaw a different taste and a spring-like touch. Toss some of the radish slaw to sprinkle over the top.

BIRTH ANNOUNCEMENT

Mr. and Mrs. R. C. Hope announced the birth of a daughter, Lynn Carolyn, on Mar. 20 at the Fernald Loughton Memorial Hospital. Mrs. Hope is the former Madeline Wright.

Pittards Entertain Friends With Supper

A covered dish supper was held on Tuesday evening at the home of Mr. and Mrs. George Pittard at 7:30 P. M. Games were enjoyed following the dinner.

Those enjoying the evening were Mr. and Mrs. Harry Robson, Mr. and Mrs. Arthur Beckwith, Jr., Mr. and Mrs. Max Fandum, Mr. and Mrs. Homer Osburn, Mr. and Mrs. Curtis Lavender, Mr. and Mrs. Alfred Stanley, Mr. and Mrs. Earl Evans, Mr. and Mrs. Roy Reed, Mr. and Mrs. Jack Russell, Mr. and Mrs. Ed Willink, Mrs. Ed Montague, Mrs. C. D. Purrier and Mr. and Mrs. Pittard.

Personals

Mrs. A. D. Zachary and Miss Beale Zachary will have their guests for the weekend their nephew and his wife, Mr. and Mrs. Clay Bridges of White Plains, N. Y.

Friends of Mrs. W. D. Stine will regret to learn that she is confined to her home as the result of an injury received in an accident at the Junior High School on Tuesday.

Hollywood

Mrs. Williams Honors Daughter On Birthday

Little Miss Jane Williams was honored on her seventh birthday Tuesday afternoon with a party given by her mother, Mrs. Theodore Williams at the Williams home at 211 Maple Avenue. Pastel colors were used in decorating to carry out an Easter motif. The young guests enjoyed an Easter egg hunt and prizes were awarded to Holly Williams and Helen Watson. Other games were also enjoyed throughout the afternoon.

Following the games the guests gathered around the dining table which was centered with a three-tiered birthday cake decorated with small candy Easter eggs and tapers. "Happy Birthday" was sung to Jane as she opened her birthday gifts.

Those enjoying the afternoon with Jane were Carolyn Hall, Helen Watson, Mary Jean King, Fay Alderman, Mary Anne Ludwig, Jane Osburn, Dottie Williams, Thelma Rushton, Anna Rushton, Jeannette Harvey, Mary McKinley, Barbara McKinley, Sylvia Williams, Ruthie Carlton and Linda Williams.

Also Tommy Williams, Philip Meeks, Gene Smith, Berry St. John, David Andes, Soledad Frey, Holly Reed, Bobby Williams, Riggle Johnson, Doyle Carlton and Jimmy Williams. Also Mrs. C. E. Carlton, Mrs. Robert Williams, Mrs. John D. Carlton, Mrs. L. R. Johnson, Mrs. T. J. Williams, Mrs. Robert Tuttle, Mrs. W. H. Stewart, Mrs. Irene West and Miss Mary Carlton.

Wise Mothers Should Make Easter Outfits

BY DOROTHY ROE, Associated Press Fashion Editor

Now is the time for smart mothers to start sewing Easter outfits for their small fry. With the price of children's clothes still a distinct strain on the average budget, it's wise to sew them at home.

This spring, particularly, there is a wonderful collection of new and handsome fabrics from which to choose. Old fabrics are back on the market, and the textile manufacturers are turning out new weaves and textures that makes home sewing a delight.

Smart and effective for children's wear are the new light weight, pastel colored tweeds which avoid the bulkiness of regular weight tweeds and are charming for small coats, suits and dresses.

Old fashioned wool challis also is available once more, as are fur-worsted flannels which make up into handsome classics for boys and girls.

If fried eggs are cooked over low heat in a covered skillet they will have much the same qualities as poached eggs.

Good Cooks Deserve No Honor, Glory

BY CYNTHIA LLOWRY

Whatever else science and invention have done they have certainly taken the honor and the glory out of being a good cook.

Once upon a time, a stock joke was concerned with a bride's first biscuits. Today, by reading simple directions and adding a cup of milk to something out of a box, a bride's first biscuits compare handsomely with anything mother used to charm the family with. In fact, it's such a foolproof technique that it's an exceptional woman who fails to turn out anything but perfect hot breads.

And the bride-biscuit joke is as dated as an electric brougham.

How about the pies that used to build a woman a neighborhood reputation and make her the star of church food sales? Any one male or female with a mental age of eight years, can buy a ready-mixed package of flaky, short ready-mixed crust, dehydrated apples already properly dried and seasoned. Why bother to learn all those tricks of a plumb of this, properly bred bird and all the rest of it?

Women can't even be martyrs, slaves to the hot stove, any more. There's little credit according to the woman who spends all of an afternoon over a hot stove. If she has sense enough to come in out of the rain, she knows she can buy a pressure cooker and get the same results in 15 minutes. And if she doesn't take the short cut, front husband can pull her up short for wasting gas.

Remember the days when people looked forward to dining at a certain house because they were sure to have a culinary treat that was the family cook's specialty? If it were summer and father liked to fool around, it might be a palate-tickling barbecue sauce, or spaghetti. Or if you were a particularly lucky city dweller with country friends, fresh pulled corn on the cob.

The cane and the deep freeze have faded that fine New England dining guest no longer pushes to her husband about cooking.

Stopping at a magazine stand to look over the current reading material, MRS. W. A. LEFFLER downtown shopping.

A passenger boarded a crowded bus and handed the driver a 45 bill, saying apologetically, "I'm afraid I haven't a nickel." "Don't worry," the driver assured him grimly, "in a minute you'll have one."

"I figured out that out of 20 shows a year I do 31 for nothing. Why should I work so hard just to get paid for those eight shows? I might as well be doing some other sort of writing for Jack Benny."

This might seem surprising in view of the Allen-Benny feud. Among other things, Allen has accused the comedian of being unable to add 10 to a hotel offer a check.

Hunter's career, Allen says, is a feud exists only in such quip. Both admire each other as creative comedians.

Allen declared his own air show has been in a rut.

"I have to devote all my time to it, so I can't get out and see new things and get fresh ideas to do it."

The Boston wit has been reported signed for a daily newspaper like Will Rogers' but he declined the offer. "No sponsor today would give anyone the freedom to talk on controversial subjects the way Rogers did."

Television?

"Let someone else pioneer it. The only good programs now are vaudeville shows, and they will soon run out of material."

Writing?

"I might try it but doing stuff like Henchley and Tumber and Lardner is much harder than radio writing, which is primarily a trick of making things seem funny."

I met Allen at NBC studios during my whirlwind visit of New York. While there, he was annoyed by a kid who wanted to sell him some jokes.

"What do I want jokes for?" Allen asked, "I'm going off the air in June."

ing skills and tries to wheedle her secret recipe. No, indeed, she uses the direct approach and asks quite simply just exactly who puts up that delicious barbecue sauce or can that spaghetti.

And what is the point of gardening like crazy eight months of the year when deep-freeze peas or garden-fresh corn are available in the bucket of the corner store?

Even the so-called "gourmet cooking" has gone into mass-production. In New York—and doubtless other places all over the map—smart housewives who have spent the afternoon at a matinee or bridge table can stop at their favorite food store and pick up an entire luxurious dinner—from shrimp cocktail complete with horseradish sauce, to guinea hen with wild rice and fruit tartlets—all ready for eating after a 15-minute oven treatment.

Actually, the kitchen skills needed by a woman who wishes to produce good food beautifully cooked, are currently limited to a knowledge of how to operate an automatic can opener, how to remove a bottle top and how to read and follow the simplest of directions.

All this has removed one important star from the housekeeper's crown.

In making stuffed green peppers for a main dish many cooks like to soften the peppers before stuffing by simmering them in boiling water for a few minutes.

Women can't even be martyrs, slaves to the hot stove, any more. There's little credit according to the woman who spends all of an afternoon over a hot stove. Orlando Tells Plans To Erect New Ball Park

Stadium To Be Paid For By Tax On Admissions To Games

ORLANDO, Mar. 31 (Special)—A new baseball park costing over \$100,000 is expected to be ready for use by the Washington Nationals when they arrive here next week for their annual Spring training camp, Mayor Headall announced last night before Pres. Clark Griffith of the Nats.

Headall said the City would take passage of an enabling act in the State legislature this Spring authorizing the City to obtain up to \$150,000 through sale of revenue tax bonds to defray construction costs.

The Mayor said the park would be paid for out of a 10 per cent tax levied against admission to baseball games, and would not represent any burden upon tax payers.

"We have almost completed pumping in fill dirt for the south field of this new park just South of the Tinker Field grandstand," he went on.

"We're reasonably sure we will be able to put this thing over right away, and have you a good baseball park ready when you come back next year," Headall added.

"We've been talking this new park for several months, but now we feel we're ready to go ahead. We already have the plans drawn for construction of a grandstand that will please you and be a credit to our City," he continued.

Headall spoke at a dinner given by Griffith for Phil Berger, chairman of the Greater Orlando Chamber of Commerce's baseball committee, and other City and Chamber officials.

Griffith earlier during the dinner had urged "better baseball accommodations."

"The present field is a discredit to your City and very inadequate for the training of baseball players or for the playing of games," he cited.

"The 70-year-old Nat boss told his guests that 'Orlando is not only the most beautiful, but the most beautiful city in the State and the finest place there is to condition ball players.'

"You've got a climate that beats all other places I know here in Central Florida.

"And don't forget," he went on, "Baseball has helped more than most anything else to advertise and build up your State."

COMMENTS From The SIDELINES

BY ARTHUR BECKWITH, JR. Herald Sports Editor

Palatka's A's
Manager Julian Morgan of the Palatka Azaleas has begun intrasquad contests and reports that the team looks pretty good right now even though we have only had five practice sessions.

He describes the infield as potent, already. Danny Hanson, who has been with the A's for the past two years, is returning and is a good bet to hold down the third base position. Walt Singer is working at shortstop. Singer played three years of college baseball before going to the Palatka team last year. Jim Coseny has been playing second base, and is described as a pretty good by Manager Morgan.

John McCardell, a lanky six-foot youth appears to be the best bet to fill the initial lead post. "He looks great at the plate and handles himself well on the field," Morgan asserts.

Hank Neider, with two years experience in semi-pro leagues in Ohio, and Tony Solla, a rookie from New York, are being groomed for the catching duties.

A large number of outfield and pitching prospects are in the Palatka camp.

St. Augustine Saints
Manager Frank Piet of the St. Augustine Saints is calling for help in his outfield, but says the infield will be filled with a fine talent.

Carl Butler at first, Lyle as second, Johnny LaPorta and His Duncan behind plate is the way the infield is shaping up. All these men are returning from the 1948 team.

John McCardell, a lanky six-foot youth appears to be the best bet to fill the initial lead post. "He looks great at the plate and handles himself well on the field," Morgan asserts.

Gruber Begins To Slash Budget Of Sanford Giants

Manager Hal Gruber of the Sanford Giants today released Bal Ferrare, an outfielder and Dick Ranganham, a second baseman.

"We are beginning to cut the squad so that we can better determine our actual needs so that we can get help from the higher class teams in the system," Gruber declared this morning.

"We will continue to weed out men for the remainder of the week and during the first part of next week," he added.

"With the opening of the Florida State League season two weeks from tonight, we must begin to get our team into some semblance of playing form," he commented.

Yesterday the Sanford club trimmed Springfield by a 7 to 6 count to extend their victory string to six games in the spring training drills. A Miller, P. Muller and R. Becker went the nine inning route for the Giants, while George Schmagranoff worked behind the plate.

Manager Gruber planned to send his youths into a contest with Lenoir, N. C., this morning and formulated plans to meet another of the New York Giants farm clubs in a contest tomorrow.

Millers, Rochester Meet Here Tomorrow

The Minneapolis Millers of the American Association will meet Rochester at the Municipal Park tomorrow afternoon at 2:00 o'clock, and will meet the Jersey City Giants on a benefit game here on Saturday.

Sunday afternoon the Millers move to Daytona Beach to meet Rochester in a return engagement.

Horse Racing Opens In New York Friday

NEW YORK, Mar. 31—(AP)—Horse racing returns to New York tomorrow. If the balmy spring weather of the last few days holds about 50,000 fans may welcome the sport back to Jamaica.

On opening day a year ago 33,654 turned out in rainy weather, but the more optimistic, having in mind the return of the daily double after three years, believe the crowd will be far greater tomorrow.

The \$25,000 six furlong Pannonek Handicap, which has come to be regarded as a traditional opening day feature, provides the main interest.

Sports In Brief

HOCKEY—The Toronto Maple Leafs entered the final round of the Stanley Cup playoffs, beating Boston, 3-2, for their fourth victory in five games.

TENNIS—Hamilton, Bermuda—Don McNeill, Earl Cochell and Bill Vogt advanced to the semifinals in the Bermuda tennis tournament. Dorothy Head of Alameda, Calif., and Nancy Chaffee gained the women's final.

Tourist Center

(Continued From Page One)
ing is in the business district and within easy walking distance for many merchants and business men, civic clubs such as Rotary, Kiwanis, Lions and Jaycees have found it a convenient place for luncheon meetings. Ladies of the Pilot Club meet on Tuesday evenings twice a month. Junior High School and Grammar school groups also use the building for social events.

CITRUS REPORT
WINTER HAVEN, Mar. 31 (AP)—The State Citrus Inspection Bureau 10:30 A. M. report today in boxes:
Grapefruit 71,842 3,938
Oranges 21,999 91,085 491
Total 72,031 126,531 5,189

Colored Churches

The Substantial Beauticians Club was entertained at the home of Mrs. Alfreda Wallace. The members are working to make this a very successful year. The next meeting will be at the home of Mrs. A. Wallace, West Thirteenth Street.

Mrs. A. Wallace, President
Mrs. Hortense Claize, Reporter

Fire Protection

(Continued From Page One)
for 30 counties which have contracted individually with the state for fire protection. "Forest land" is defined in the proposed law as "all wooded lands and all other lands the best use value of which is the propagation, production and development of forest trees and forest products."

Velasco Murder

(Continued From Page One)
body was carried there. Provensano said no one told him about the body on Dec. 12.

Provensano said he has been unemployed for two and half years and no one in his family had any income except a \$25 weekly payment from a relative by his mother-in-law.

The umbrella bird of South America is so named because a large crest, resembling an umbrella, falls forward so far it almost conceals the bird's bill.

The gas utility companies in this country employ about 160,000 workers.
