

### Chinese Attack In Torrential Rain Is Repelled By Allies

SEOUL, Korea (AP)—Allied troops clinging to the southeast slope of Old Baldy fought a bloody battle during which 25 Chinese were killed and 30 wounded, the Eighth Army said.

A reinforced Communist platoon hit the U. N. line in an apparent effort to win complete control of the strategic western front hill.

The attack was beaten off in a bloody 2-hour battle during which 25 Chinese were killed and 30 wounded, the Eighth Army said.

It was the first clash of any size since heavy rains closed in on the 15-mile battle front Saturday. Already 6 1/2 inches of rain have fallen on the western front, Associated Press Correspondent Milo Farnett reported.

He said some soggy bunkers caved in on roads generally were in bad shape.

Fighting for Old Baldy began July 17. The Chinese gained the crest of the hill a week ago after it had changed hands several times.

In another action Monday night and Tuesday morning a small Chinese unit probed Allied positions near Throne Hill, east of Old Baldy. The Chinese were driven off after four hours and 45 minutes of sporadic fighting, the Army said.

It had 20 light bombers of the Fifth Air Force flew through rain Monday night to attack rail bridges in Northwest Korea.

The storm has kept most Allied planes on the ground.

### 15 F. P. & L. Men Receive Awards For Safe Driving

Recognition for their outstanding records in driving company vehicles without a chargeable accident will go to 15 local employees of Florida Power & Light Company, the utility announced in its annual list of safe-driving awards.

To encourage careful operation of its motor vehicles and observance of safety rules by employees, the power company each year makes awards as follows:

For one to five consecutive years of safe driving, the company member is presented a distinctive bronze lapel button.

For five consecutive years of safe driving, the employee receives a 14 karat gold lapel button.

For six years and additional cumulative years of safe driving, an employee is presented an attractive certificate.

For driving ten consecutive years without a chargeable accident, employee is presented a gold watch by the power company. This year, throughout its district, a team, Florida Power & Light Company is presenting 27 watches to employees who've achieved the ten-year record.

In the Sanford district, a gold watch will be presented to H. J. Livers, a serviceman for the power company, who has driven ten consecutive years without a chargeable accident. Livers lives at 1202 Park Avenue.

The following will receive certificates: H. C. Moore and R. L. White, 20 years each; Dawson Amundson, H. H. Coleman, 17 years each; F. Benson, 14 years; J. B. Grant, 13 years; R. L. Porter, 12 years; M. D. Harden, 6 years.

Lapel buttons will go to the following: R. F. Hubbard and J. C. Johnson, 3 years each; H. N. Austin, J. W. Carter, C. E. Rubin and W. A. Foster, 4 years each; R. N. Skinner, 1 year.

The safe driving awards will be made at a meeting of company members, date of which will be announced shortly.

### City Commission

(Continued from Page 5)

serve best and wine at 2501 Sanford Avenue was tabled by the Commission for further study, and an application to place a permit vending machine on the public sidewalk was denied.

A letter from the State Road Department noting that it is unable at this time to re-designate State Road 301 was read to the Commission.

The Commission was requested by Mayor Stegner to be present at the Junior Chamber of Commerce. Thereafter when the session will hear discussion of the City sewerage problem.

The Commission passed a motion to notify civil defense activities in Jacksonville that funds will be available next year to purchase additional fire-fighting equipment in conjunction with civil defense.

The Commission discussed a number of possible sources of additional City water including Green Springs and Puma Lake, both of which were reported to be for sale. It was noted, too, that with an adequate filtration plant water could be taken out of Lake Monroe.

Councilman Kuder suggested that the Commission look into the possibility of setting up an architectural control board. Mr. Shindler read correspondence reflecting favorably on the idea of setting up such a board, but that it would be subject to the approval of the State Board of Architecture.

The safe driving awards will be made at a meeting of company members, date of which will be announced shortly.

### Parok

(Continued from Page 5)

Ralph Stevenson, hurried back to Egypt today and ended on new Premier Aly Maher Pasha with a message from British Foreign Secretary Anthony Eden.

Contents of the message were not disclosed, but Eden told the House of Commons in London Monday that the British government hopes to see a "stable and orderly administration" emerge from the past week's upheaval in the Nile Kingdom which ousted King Farouk and put Gen. Mohammed Naguib Bey and Maher Pasha in control of the country.

Eden also said that Maher Pasha had been assured Britain has "no wish to intervene" in Egypt's internal affairs but that current transfers of British warships, troops and planes to the Suez Canal Zone "are related solely to the possibility of danger to British lives."

Stevenson had interrupted a European vacation in center in London on the momentous Egyptian events and then rush here with the British messages.

Stevenson's return opened the way for a reopening of talks on the Egyptian demands for the removal of British troops from the Canal Zone and British recognition of Egyptian sovereignty over the Anglo-Egyptian Sudan, now ruled jointly by the British and Egyptians.

### WHATLEY WINS OUT FORT MYERS

FORT MYERS (AP)—James M. Whatley, Immokalee, who went to court to have absentee ballots thrown out in the Collier County Democratic primary, apparently has won nomination as sheriff over incumbent Lewis J. Thorp.

Thorp had a narrow lead in the official results, but Whatley brought suit to have the canvassing board throw out the absentee ballots. Whatley contended the registration supervisor issued absentee ballots before written applications for them were on file.

Circuit Judge Lynn Gerald ruled Monday in Whatley's favor. With the absentee ballots thrown out, Whatley is in the winning position.

Thorp's attorney said no decision has been made about appealing Judge Gerald's ruling to the Supreme Court.

### KEY WEST-HAVANA SWIM

KEY WEST (AP)—A dozen Cuban swimmers reached here today after crossing the treacherous 90 miles of open sea from Havana toward the China coast.

There were no reports of casualties.

His rise into upper policy levels came rapidly from one-star rank, which Eisenhower held in 1941. By 1943, with four stars on his shoulders, he was with President Franklin D. Roosevelt on Sicily when the Chief Executive decorated General Mark Clark.

Generals of the Army, Eisenhower and MacArthur met in Japan in 1946, where Eisenhower visited as U. S. Chief of Staff. Their last previous meeting had been in the Philippines in 1939. At that time Eisenhower, only a lieutenant colonel, was MacArthur's aide.

(Another strip of pictures on Eisenhower's life will appear tomorrow.)

The president listened while General of the Army Eisenhower did the briefing during a White House conference late in 1951. Mr. Truman received Eisenhower's report on the needs of the Allied Forces in Europe, which he was organizing under the North Atlantic Pact.

### Forest Hill Home For Delinquents Is To Be Opened Soon

TALLAHASSEE (AP)—The state is going to open part of the long-titled Forest Hill institution for Delinquent Negro Girls, near Ocala in November or December.

The Cabinet Board of Commissioners of State Institutions agreed today to spend enough of a \$150,000 legislative appropriation to equip and operate facilities for 42 girls.

The state now has no place for delinquent Negro girls, and there have been recurrent demands by racial and welfare groups to provide facilities for them.

To take care of the construction of the institution, and it will take several weeks to get equipment and a staff but plans call for putting the school in partial operation by June 1 at the latest.

Units of the Forest Hill institution which cost \$136,000 were started in 1938 and completed two years ago but never have been put into service.

The \$150,000 construction and equipment appropriation for the institution was approved by the Legislature in 1951. It also allotted \$25,000 to operate the institution during this biennial.

However, Gov. Warren vetoed the \$150,000 construction and equipment appropriation after the Legislature adjourned. He said it didn't appear that there would be enough money to cover the appropriation.

He let the \$25,000 operations fund stand. It now will be used to equip a small part of the institution and operate it the last six months of the biennial.

The Cabinet adopted a recommendation of its committee on the institution but it did not authorize expenditures for building, dining and kitchen facilities, and enough other buildings to take care of 42 girls. No part of the central administration building will be opened.

The staff will include a supervisor, two teachers, two house mothers, a cook, a nurse, a janitor, a combination engineer-maintenance man and a part-time doctor.

Mrs. Alice D. McPherson, superintendent of the State Industrial School for White Girls at nearby Ocala, will have charge of the Negro girls' unit.

### Rival Unions Clash At Picketed Plant

TERRE HAUTE, Ind. (AP)—CIO United Auto Workers picketed picket lines at the Allis-Chalmers plant today for a second AFL in violation that failed to materialize.

Eight persons were injured, one critically, in a pitched battle Monday when members of the AFL International Union of Operating Engineers tried to take over jobs of the striking Auto Workers.

The AFL men agreed Monday night not to try to break through the lines today, but about 150 CIO pickets marched in tight circles in front of the plant gates, prepared for a change in the rival union's plans.

There was no sign of AFL men around the plant today.

Several AFL members managed to crack the picket lines Thursday and worked in the plant until about an hour and a half before quitting time when they slipped out a back door while the crowd waited for them in front.

The "side-finding" CIO group barred Plant Manager Martin Carlson and about 300 supervisory employees from the building early today but later permitted them to enter after a plea from Mayor Ralph Tucker.

### Contest To Close For Camera Club

The Sanford Camera Club's Contest "A Day at the Zoo" will end at midnight on Thursday, Patrick Bergere, adviser to the club, said today.

All entries should be turned in to A. J. Greer at the Florida Home Gas Company Judges in the contest will be Gordon Sweeney and Charlie Morrison.

Mr. Bergere added that he himself had dropped out as a judge because Mrs. Bergere, a member of the club, was submitting entries and he wished the judging to be as fair and impartial as possible.

Entries will be judged on a basis of human interest first and composition secondly, he said. Due to the fact that most photo-finishing shops do print 4 by 5 pictures, Mr. Bergere said that any size from 4 by 5 to 5 by 7 will be acceptable. The pictures must be single weight prints.

Prizes of \$12, \$8 and \$5 will be awarded by the St. John's Realty Company. The next meeting of the camera club will be held at the City Hall on Aug. 6.

### No Gambling In State Is Word Of Sheriffs

TALLAHASSEE (AP)—Gov. Warren has the word of 67 sheriffs that there is no open, organized gambling in Florida.

Some conceded there might be some sneak bills, but all claim the gambling situation is cleaned up better than ever before.

The sheriffs made their reports in response to a letter Warren sent each of them on June 14 asking to be informed what they were doing to enforce gambling laws and what steps were being taken against men in their counties who purchased federal gambling stamps.

Many of them reported simply they had no gambling and no holders of federal gambling stamps in their counties.

Others made detailed reports, like Dade County Sheriff Sonny Henderson's statement of 103 arrests between Jan. 1 and May 31.

O'Dwyer, former New York City mayor, has been very popular in this county.

O'Dwyer learned by telephone this morning of the situation of the lobby and immediately summoned U. S. correspondents to the embassy residence.

O'Dwyer's violent reaction was provoked by a news story from the Associated Press which speculated on the possibility of O'Dwyer retiring from public life after he November elections in the U. S. and becoming a citizen of Mexico.

O'Dwyer, former New York City mayor, has been very popular in this county.

O'Dwyer learned by telephone this morning of the situation of the lobby and immediately summoned U. S. correspondents to the embassy residence.

### Wage Stabilization Board Dies Tonite. Another Expected

WASHINGTON (AP)—The old Wage Stabilization Board (WSB) died at midnight tonight but a new one, with less power, is expected to be named shortly by President Truman.

Members must be confirmed by the Senate, but as it is not in session Mr. Truman may name the new board to serve until Congress convenes in January.

It is reported he is having difficulty finding men to fill the posts.

The old WSB was the center of heated controversy during the steel strike because some said certain recommendations it made favored organized labor.

Until a new board is named, Executive Stabilization Administration, Roger L. Putnam could take over as wage stabilizer.

The new board, like the old one, will have equal representation from industry, labor and the public. It will not have the old board's power to handle labor disputes.

The American Federation of Labor Monday ended one government worry. It announced it would not strike with the new board, despite the loss of some of its power.

There had been speculation organized labor might boycott the weakened WSB.

The AFL Executive Council, however, took opportunity to criticize the new stabilization law, which it said has "materially weakened both price controls and wage stabilization policy."

### Louisiana Central Committee Will Settle Party Issue

BATON ROUGE, La. (AP)—Gov. Robert Kennon said the Democratic State Central Committee will decide whether the Louisiana party will support the Stevenson-Sparkman presidential ticket, a survey indicated there was considerable uncertainty in the South about Gov. Adlai Stevenson of Illinois, the Democratic nominee, and his running mate, Sen. John Sparkman of Alabama.

Said Kennon, who led the fight of his 21-member delegation against "loyalty pledges" at the Democratic National Convention last week in Chicago:

"The decision should be decided by the party as a whole. The people will make their wishes known in the 100-member Central Committee. I feel it is a matter for the committee to decide."

The committee runs the party machinery in this heavily Democratic state. It has the power to name the nominee the Louisiana party will back, and to place them on the ballot under the "rooster" symbol.

Kennon had no comment when asked if it was possible the name to Key West in 55 hours and one minute.

The swimmers, who battled 8-foot waves and 36 hours of rainfall after leaving Havana at 12:30 p. m. EST Saturday, Havana at 12:30 p. m. Monday night. They had not been expected to complete the swim before Wednesday.

The swim was made in relays of three hours each inside a wooden frame 12 feet by 30 feet. The frame was floated by oil drums and towed by a tug, Francisco Suarez. A wire mesh beneath the frame kept the swimmers out of Havana Harbor.

Jacinta Perez Ferrel, 66, was the oldest swimmer in the group. Youngest was...

### 2 Women Are Killed In Highway Accident

LAKE HARBOR (AP)—Two Detroit women were killed and two other members of their family injured in a 3-vehicle crash on a bridge today.

The James Hudson, 41, and her mother, Mrs. Rachel Black Dyer, 68, were killed.

At Belle Glade Memorial Hospital are Alfred Adrian Hudson, 46, husband of the younger woman, and their daughter, Carol Ann, 19. Hudson has fractured ribs and facial cuts and the child has a broken arm and a lacerated eye.

The occupant of the car, David R. Payne, 26, Hialeah, and English stopped their vehicles to discuss the accident. The truck was rammed from the rear by the Hudson car, said Bertram.

### Assault And Battery Case Is Continued

THE case of the State vs. Calvin McKinney, charged with assault and battery, was continued to the next term in the County Court today, according to George A. Speer, Jr., prosecuting attorney.

The prosecution was unable to bring the case to court because the most important witness, Nathaniel Redmond, the man allegedly attacked, has gone north and cannot be found at this time.

The case against Charles Jordan, charged with assault and battery, was nolle prossed after full investigation showed it to be a case which ought not to be brought to court, Mr. Speer said.

### Spouse, Amazed at Husband's Crimes, Admits Own Guilt

BUTLER, Pa. (AP)—The attractive 28-year-old widow of Millard F. Wright confessed burglar who vainly hoped brain surgery would halt his life of crime, is in jail today charged with helping him loot a store or more homes of more than \$25,000.

Mrs. Roberta Wright, described by neighbors and friends as the "wholesome, quiet type," had always maintained an air of shocked innocence when confronted with her husband's crimes.

But now state police have filed 22 charges of burglary against her. Sgt. Paul A. Robinson said she admitted serving as lookout while her husband burglarized homes in four states.

Wright attracted nation-wide attention in 1947 by undergoing brain surgery (frontal lobotomy) in an attempt to cure his pathological urge to steal. Two years later he was paroled from jail as cured and appeared to be leading a normal life.

Police arrested Wright last June 8 and found his Pittsburgh apartment jammed with stolen goods. Taken to the Butler State Police Barracks for questioning, he killed himself June 20 in a fit of remorse.

Said Mrs. Wright when her husband was arrested:

"I'm past amazement. I don't know how he could have done it. I was visiting a girl friend."

### Fahs Will Relinquish Post As Collector

JACKSONVILLE (AP)—Florida Collector of Internal Revenue John L. Fahs said Monday he had advised U. S. Commissioner of Internal Revenue John B. Dunlap that he was "no longer interested in continuing in the internal revenue service."

Fahs, collector in Florida nearly 13 years, said he turned down a directorship under the Revenue Bureau's reorganization because he would have to give up a number of his business interests.

Fahs' outside interests, although he has been inactive in them, include a directorship and vice presidency of the First National Bank of Leeburg, ownership of a citrus grove and an interest in an automobile dealership.

### Mrs. Banks' Part In Lunch Program Told

The newspaper of the Buffalo Veterans Administration hospital, where Emmet Banks of Sanford is now a patient, carried a story about Mrs. Arlee Banks of this city in its July 18 edition.

The story tells of Mrs. Banks' part in the movement begun in the early 1930's to supply noon-day lunches to school children in this county. A small fee was charged. The story says, "those who could pay, and to those who couldn't pay it was free."

"This plan has been copied throughout many cities and towns since," Mrs. Banks, mother of Emmet Banks, a patient in B. played a leading role in starting that depression day idea. This was accomplished by collecting free food from farmers."

### Maddy Group Obtains Another Hotel Unit

DAYTONA BEACH, Fla. (AP)—The Ocean Hotel properties at 1130 S. Ridgewood Ave. have become the sixth unit in the chain of homes for the elderly owned by Fellowship Foundation, Inc.

C. A. Maddy, director of the Fellowship Center, Ormond Beach, announced that the foundation had bought the hotel for \$150,000 from Mr. and Mrs. Charles Booth.

The purchase includes the hotel, which will provide 124 sleeping rooms, several two-room apartments and 20 rooms for office, and the building now occupied by Ridgeview Osteopathic Medical Hospital, which has a lease of two years and three months more.

Other units in the Foundation chain are the Center in Ormond Beach, formerly fashionable Hotel Ormond, the Casements and homes at Lake Alfred, Tampa and Arcadia.

## Second Part Of Jeffries Report Told

### Changes In Police Department Urged; Steps Are Taken To Bar Dope Peddlers

Section Two of the "Jeffries Report" dealt with the traffic situation in the City of Sanford, and covers the "General Recommendations," "Citizens' Assistance," and the "Termination Survey Coverage."

Reorganization and modernization of the Police Department is recommended with several new recruits being added immediately. The practice of policemen of the Negro race being assigned to Negro areas is encouraged. The use of dark patrol cars operated by three men each are also proposed, one for the Negro areas, one for white, and one in reserve. The use of motorcycles by the department is discouraged.

A 50 percent increase in police telephone call boxes is suggested, as well as the maintaining of a Mobile Police Radio Auxiliary Broadcasting Station.

Committing today on the reported sale of illegal drugs in Sanford children, Mayor W. H. Stegner said, "I would like to take this opportunity to state that immediate steps have already been taken to protect our community from the infiltration of narcotic peddlers from the nearby areas.

The proper authorities are already working on the few instances reported. The local police shall diligently continue assisting and initiating the apprehension of violators. Also, I should like to repeat that the Commission will be necessary help of all the citizens in planning to launch programs for improvements and the elimination of the evils.

The unbiased evaluation of the recommendations in the "Jeffries Report" can furnish the impetus to effect necessary and practical improvements for more service for the people of Sanford. It is a healthy growth. The citizens of Sanford are urged to cooperate by active participation and constructive criticism, and by attending Commission meetings and learning more of your City Government. Your opinions are respected and needed to insure government for all of the people," the Mayor concluded.

Pointing out that the City is losing considerable revenue by insufficient patrol of the parking meters, the Jeffries Report recommends that a 30 minute patrol of parking meters be instituted, that the present manually operated meters be placed in outlying business districts and that 500 new automatic parking meters be purchased within the next two years for use in the business district. This would facilitate the parking problem benefiting both the shopping motorist and the merchants.

The purchase of two offstreet parking lots is also recommended as a means of easing the parking problem. Curb parking on First Street, should be discontinued and parallel parking substituted and the growing importance of First Street as a major thoroughfare is emphasized.

The replacement of overhead traffic signals by two-way six inch light post station traffic signals is advised. All new traffic signals should be equipped with safety signals (Walk-Walk) especially in the vicinity of schools, churches, and hospitals. All major dead end streets should be protected by red seven foot, reflective stop street signs should be retrofitted. Present street signs are declared to be inadequate and antiquated and should be replaced (Continued On Page Three)

## Earl Brown Is Named President Of St. Johns-Indian River Canal Group

An association interested in the St. Johns-Indian River canal project had George Gibbs, leader in the project, named Earl Brown as its president.

The group was also addressed by Gordon Mable of the Corps of Engineers in Jacksonville, Col. H. G. Lee, Col. A. G. Matthews, Harry Fuzzard of Jacksonville who served as temporary chairman and J. Edwin Baker, chairman of the Localities' waterways committee.

The organization, to be known as the St. Johns-Indian River Improvement Committee, selected Earl Brown of Deland as its president. Earl Brown is a first vice president and Ed Goodson of Titusville is second vice president.

The chairman will appoint a secretary, treasurer, and a board of directors consisting of two members from each county involved. The committee plans to take over the charter of the present St. Johns-Indian River Canal Association if possible.

The project, which is estimated to cost \$10,000,000, recently received the endorsement of the Marine Association of Florida, an organization of Florida boat owners. A resolution which said that the project "endorses the canal and does urge and recommend its early construction to meet the immediate needs of national defense and commerce."

Also endorsing the proposal is a telegram to Forrest Breckenridge, member of the Senate County Commission from the Jacksonville Power Station, an organization of Jacksonville power plant owners.

George Gibbs of Jacksonville in his address to the meeting, called for a state port and waterways authority to coordinate the project with the debt being paid off by the receipts from the ports.

Mr. Gibbs told the group that:

## Angas Report Urges Broad Sewer Plan

### Outlay Of \$1,216,000 Estimated As Cost Of Modernizing City Sewerage System

The cost of improvements to Sanford's municipal sewerage system as recommended by Robert H. Angas and Associates, consulting engineers of Jacksonville, amounts to \$1,216,000, not including the primary sewage treatment plant (disposal plant) advocated by the city.

The program as outlined by the Angas Report includes repairs to existing sewerage system, construction of a collection system for the open "sewer" which in George town and vicinity of sewer pipe from the county of the railroad, but not from the entire town.

The Angas Report was recently criticized by the State Board of Health for recommending an extension of present sewers prior to the installation of a disposal plant for the treatment of raw sewage. The Angas Report says that the city would not be notified in going to the expense of purifying the water of Lake Monroe at this time unless the water is to be used for public health.

Nevertheless, the Report says the City of Sanford discharges raw, untreated sewage into Lake Monroe. Most of the sewage ends at the North end of the Salkhollow, as these portions of the lake in close proximity to the sewer outfalls are highly polluted and the pollution is quite noticeable to observers. This condition is especially noticeable just east of the Municipal Pier where the 18-inch sewer discharges. It is also quite noticeable in the mouth of the small creek West of Deen Avenue.

"As the Jacksonville survey made by the U. S. Public Health Service, indicated an average degree of pollution on a scale of 100, the report continues, 'our conclusion is that the City of Sanford is not justified in spending money on sewage treatment until a plan to use the water of Lake Monroe for recreational purposes such as bathing and boating is in effect. The present system of sewage disposal is a complete failure. The cost of treating the water with the sand filter would be prohibitive.

"We are of the opinion, however, that some method should be devised to handle the sewage of the severe pollution in the vicinity of the Municipal Pier, and in other locations in close proximity to the lake. We are also of the opinion that any method which is devised should be such that it will fit into a scheme of collection and treatment of the sanitary sewage which will probably be necessary at a later date and will certainly be necessary in the population of Sanford increases to 30,000."

The board was advised by A. E. Shindler, city attorney, that Mr. Lee could not be removed from office unless he had violated the Civil Service code, and he further advised the Commission that he knew of no instance of any such violation.

Mr. Lee had previously been appointed without opposition, but at a meeting on July 13 the Commission carried a motion of Max Siempp's to reconsider the appointment over the opposition of Commissioner Caraway.

The question was brought up Monday night by Commissioner John Kauter, who urged that it be finally settled, and the Commission thereupon voted to sustain the original appointment.

Mr. Lee has served on the board since its formation in 1941. His reappointment is for two years.

The Commission voted to pay a \$1,200 bill due for appraisals on property along French Avenue.

A resolution was adopted recommending the long and able services of Howard Jones in charge of public information.

County sub-committee chairmen are Homer Sewell in charge of Altamonte, Forest City and Bear Lake; J. T. Jacobs in charge of Lake Monroe; Mrs. J. M. Thurston in charge of Lake Mary; Mrs. Ruth Hamilton in charge of Fern Park and Caseberry; and Mrs. Max Lehnart and Mrs. Charles Niblick in charge of Oviedo.

Further appointments will be announced later.

## Governor, Cabinet Members Pledge Efforts For Stevenson; GOP Heads Sees Hurts Healed

### New Committee Chairman Announces Appointment Of Key Campaign Officials

WASHINGTON, July 28. National chairman Arthur H. Summerfield announced today that he had named a new committee of key campaign officials to be appointed by the National Committee.

Summerfield said all four men will be named by the national headquarters.

They are: Ed L. Bruce, former director of the National Committee; J. M. Starnes, former director of the National Committee; J. M. Starnes, former director of the National Committee; and J. M. Starnes, former director of the National Committee.

## Ferris Bryant Clarifies "Misnamed Loyalty Pledge" Of Demo Convention

OWAIA, Ia. Considerable confusion exists as to the nature of the Blue Book resolution adopted by the Democratic National Convention and the nature of the loyalty pledge of Ferris Bryant, chairman of the Florida delegation.

Bryant said he had been asked to clarify the pledge and to state that it was not a pledge of loyalty to the Democratic party, but a pledge of loyalty to the United States.

Bryant said he had been asked to clarify the pledge and to state that it was not a pledge of loyalty to the Democratic party, but a pledge of loyalty to the United States.

## Warren Says He's Behind Slate And Will Do All He Can To Help

ATLANTA, Ga. (AP) - Gov. Herman Tamm today said he was behind the Democratic slate for the November election and would do all he could to help it.

Tamm said he was behind the Democratic slate for the November election and would do all he could to help it.

## Civil Air Patrol Will Entertain Canadian Cadets

Civil Air Patrol officials in Sanford will play host to a group of Canadian Air Force cadets at a luncheon at the Fort Garrison Hotel Monday night, Thomas Lemmon, city manager, said today.

The board was advised by A. E. Shindler, city attorney, that Mr. Lee could not be removed from office unless he had violated the Civil Service code, and he further advised the Commission that he knew of no instance of any such violation.

## Lee Is Retained On Civil Service By Commission

The City Commission retained its reappointment of Harry Lee as chairman of the Civil Service Board at its meeting in City Hall Monday night, Thomas Lemmon, city manager, said today.

The board was advised by A. E. Shindler, city attorney, that Mr. Lee could not be removed from office unless he had violated the Civil Service code, and he further advised the Commission that he knew of no instance of any such violation.

## Phone Operators In Chattanooga Strike

CHATTANOOGA, Ga. A walkout of telephone operators who protested their office is too hot to work in spread to all three shifts here today, adding approximately 250 workers.

The walkout of members of the CIO Communications Workers left Bell switchboards empty. Only emergency long distance calls were accepted.

Southern Bell District Manager C. Sawyer said approximately 50 workers also were out at Cleveland, Tenn., but it was not immediately clear whether they walked out in sympathy or in protest of their own office conditions.

## Red Cross Disaster Group To Meet

The disaster committee of the Red Cross Chapter of the Red Cross will meet tomorrow with Stone Crane, disaster field representative for the southeastern area, Raymond Lundquist, Red Cross chapter chairman, said today.

The committee is headed by A. H. Peterson, Jr., with Albert Elfts and Ewing Dean acting as vice chairmen. Others on the committee are Forrest Breckenridge, chairman of the sub-committee in charge of survey, rescue, transportation and communication; Roy Hutter and Randall Chase, co-chairmen in charge of shelter, food and clothing; Dr. O. L. Barks and Dr. Vincent Roberts, co-chairmen in charge of medical and nursing activities; and Howard Jones in charge of public information.

## Program Put On Van Fleet Sees Peace Chance In Korea Lessening

SEATTLE, Korea. A Gen. James A. Van Fleet said today there is less chance for an armistice in Korea than ever before.

Gen. Van Fleet said there is less chance for an armistice in Korea than ever before.

Frances Givens Wed To Charles Willis

Laura Frances Givens, daughter of Mrs. Thelma Givens, became the bride of Charles Edwin Willis, son of Mr. and Mrs. G. M. Willis, on Friday night at 8:00 o'clock at the Assembly of God with the Rev. Panay Sample officiating at the double time service.

The church was beautifully decorated with white gladioli ferns and palms and the marriage ceremony was performed under an arch of the white blossoms and ferns at the front of the church.

A program of musical music was played by Pianist Mrs. John Head. Prior to the ceremony soloist Rev. Carl Brumback of Jacksonville sang several selections including "Because." Following the service a prayer was offered.

The bride was given in marriage by her brother, Leonard Givens, and wore a two-piece Navy fashio laced suit accented with touches of white. Her accessories were blue and white and she wore a white choker with dark blue nose veil. She carried a satin covered Bible decorated with a lavender orchid and streamers.

Following the wedding a reception was held in the home of Mr. and Mrs. W. E. Moore, where mixed summer flowers were used to decorate. The bride's table was overlaid with a lace cloth and centered with a laced wedding cake flanked with white tapers.

Among those assisting at the reception were Miss Carl Brumback and Miss Donna McTeer, who served the wedding cake and Mrs. Shirley D. Taylor, who acted as Sally Miller who presided at the punch bowl.

Late in the evening the couple left to spend a few days at Dayton Beach and are now making their home at 313 West First Street.

The bride received her schooling in Wildwood and for the past two years has been employed with the Raymond M. Hall Real Estate Agency. Mr. Willis attended Sanford schools, graduating from Seminole High School with the class of 1951.

Friends of little Miss Brenda Kay Carroll, daughter of Mr. and Mrs. Vernon Carroll, will be glad to learn that she has returned to her home after having been ill in the Fernald Loughton Memorial Hospital.

Sanford Sewerage System

(Continued From Page One)
The plan had been adopted on this point.

Mr. Mobley said he believed it would take three to eight years to get construction started on the canal and added that the only authorized flood control projects in the state at this time are in the Oklawaha area, that there are no authorized projects in central and north Florida.

Col. Geeser stated that the canal be presented to Congress as a modification of the presently authorized Central and South Florida Flood Control Project rather than as a new project. He said that it would move rapidly with acceptance this way.

Col. Matthews told the group that, "If you want to develop anywhere near your school parking lot, if you want your children to have jobs when they graduate from school, if you don't want to have to report your kids, then they ought to support the plan."

He added that if the project came under the Central and South Florida Flood Control Project, then the territory covered by that project's authorization would have to be enlarged.

Mr. Fozzard, speaking on the defense aspect of the plan, noted that the country had been depending for far too long on means of transportation which more easily treated in item E. If that done, item E will cost about \$250,000,000.

Mr. Fozzard stated that the cost of the proposed sewer system would be approximately \$1,200,000, which would be paid for by the city through a bond issue.

# Mel Fleischer Hurls Sanford Legion Into Area Finals

"Mighty Mel" Blanks Wauchula On Four Hits; Finals To Be Held Tonight

WAUCHULA — Wauchula played Lakeland here today for the right to meet Sanford in the finals of the Central Area American Legion Junior Baseball Tournament.

Sanford beat Wauchula, 7-0, in Tuesday's game and to remain undefeated. Melvin Fleischer held Wauchula to four hits and got two of his team's nine victories.

Catch Bill Fleming will probably turn over the hurling chores for the final game to either Jimmy "Jock" Krider or Junior Metts, the winning combination in the Lakeland game on Monday afternoon.

The winner of the Wauchula Lakeland game will oppose Sanford in the state tournament which will go on the state tournament West Palm Beach won Tuesday's game, 2-1 in 11 innings, to tie the series at one game each after three games.

Two singles with a sacrifice sacrifice in between won the game for West Palm Beach after three games and the home team tied it in the seventh. "Blondie" pulled the play to stop a West Palm Beach rally and send the game into overtime.

**Miami Beach Cuts Sun Sox Lead By 1/2-Game On Split**

Associated Press Staff Writer

Miami Beach picked up half a game on the Florida International League's leading Miami Sun Sox Tuesday night by splitting a pair with the Tampa Smokers, while the leaders bowed to St. Petersburg.

Tampa won the opening game, 5-2, but Miami Beach took the finale, 2-1. Lakeland blanked West Palm Beach, 2-0, and the Key West Havana game was rained out in Cuba.

Cecil Keiser, Negro southpaw making his first start for Tampa, checked Miami Beach on six hits in the opener and the Smokers topped three Florida flingers for nine hits. Keiser singled in the tying run in the second and singled in another in the fifth when the Smokers scored 11 runs.

Lefty Moran did not pitch in the nightcap while Red Barrett allowed seven Home Runs settled the matter in the fifth with a home run.

George Greene allowed Miami only three singles while the Saints reached Billy Harris for six. Billy Speers' double with Greene and Frank Gallardo, alone in the fifth, produced the only runs.

Lefty Covington shackled West Palm Beach on seven hits and singled home the first Lakeland run in the third. Three Lakeland singles in the ninth, aided by a passed ball, let in the second tally. A sparkling double play by Gene Stewart unassisted choked off a West Palm Beach rally in the ninth when the Indians made three hits.

**"Sizzling" Cards Continue To Push Bums And Giants**

Associated Press Staff Writer

Can lightning strike twice in Eddie Stanky? Will it be the miracle of Cooper's Bluff in 1951? Stanky is leaning discretely quiet as his sizzling St. Louis Cardinals continue to apply pressure on the Dodgers and Giants in the National League race. But there is no doubt the scrappy little infielder is thinking if it happened once it can happen again.

Who will forget the '51 pennant race in which the Giants, sparked by Stanky, rose from a 13½ game deficit on Aug. 11 to nose out the Dodgers for the pennant in a play-off? With that in mind, it would be hazardous to discount the third place Cardinals because they trail the pace setting Dodgers by 9½ games with 57 more to go.

Especially when the Cards have won 39 and lost 29 since Memorial Day, have captured their last five consecutive games, including straight from Brooklyn and have fired five games from the Dodgers' once awesome lead in a major league.

"To win we'd need a lot of help from the rest of the league because we're still 12 behind on the losing side," Stanky counseled.

But despite the terrific odds, the Redbirds are looking through 13 innings Tuesday night they finally downed the Braves in Boston, 6-5, to pick up a full game on the Dodgers and Giants.

Murry Dickson gained the honor of becoming the first Pittsburgh pitcher to defeat Brooklyn in this season, ending a 13 game Dodge winning streak over the Pirates with an 8 hit 7-1 triumph. Rookie Warren Hacker, with the help of veteran Dutch Leonard, gained his ninth triumph as the Chicago Cubs defeated the Giants, 4-2, in a double play. Phillies continued their blistering pace, sweeping a twilight twin bill from Cincinnati, 6-1 and 4-3.

Mickey Mantle's grand slam home run with two out in the ninth gave the New York Yankees a thrilling uphill 10-7 triumph over the Chicago White Sox and enabled them to retain their 3-game first place margin over Cleveland. The Indians whipped Boston, 4-1, to bulldoze the Red Sox 4½ games off the pace.

The St. Louis Browns won their sixth game in seven starts as Ned Garver and Earl Harriet pitched a 7-3 decision over Spec Shna and the Washington Senators. Philadelphia and Detroit split a doubleheader, the Flyers talking in to win the second game, 10-8, after Harry Byrd had hurled the Athletics to a 6-0 shutout victory in the opener.

**Tom Mills Scores His 22nd Victory For Beach Birds**

Associated Press Staff Writer

Tom Mills, stenter, Jacksonville Beach right-hander who stacks up on the winningest pitcher in organized baseball today is sticking close to that record with a fourth straight victory today.

In his weekly column of news of major leagues around the nation Associated Press Sports Writer Jack Hand reported Mills was the first to beat his 20 games this season.

Tuesday night, Mills breezed through his 22nd victory, 6-2 over Leesburg. With another month to go in the Florida State League season, Mills has plenty of chance to improve on the record.

In other league action, Fred Brady, pitcher of Daytona Beach, beat leading DeLand the second straight time, 3-2, Palatka defeated Cocoa, 5-2, and Sanford scored a 4-3 win over Orlando in the second game of a doubleheader after losing the first, 5-3.

Mills held Leesburg to four hits, but his Victory No. 22 was marred by a double play in the third. Dr. Adolph Cone said Brady had a mild concussion and advised he be kept under observation 48 hours.

Bill Miller pitched the Daytona Beach Islanders to a triumph that solidified their hold on second place. He gave up just six hits and singled home Chuck Pardee with the first score.

A double by Bill Shores highlighted a 3-run Orlando uprising in the sixth inning of the first game, with Sanford in the eighth. Sanford's Jorge Rivera pitched 7 hit ball. Rivera was in trouble only in the sixth inning, when Bob Hampton hit a bases-loaded double.

## Blues Split With Orlando To Gain Half Game On Leading Hats

"Mighty Mel" Fleischer... because the finest of Sanford with his steady form but without victory over Wauchula yesterday in the Junior American Legion Regional.

**Ovidioan And Son Find Fishing In Gulf Successful**

Thad L. Lingos and his son T. L. Lingos, Jr., just returned from an interesting and highly successful fishing trip in the Gulf of Mexico.

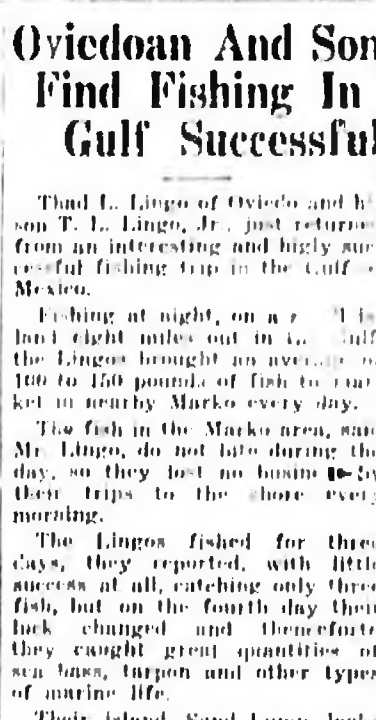

Fishing at night, on a 15-foot boat eight miles out in the Gulf, the Lingos brought on average of 100 to 150 pounds of fish to market in nearby Marco every day.

The fish in the Marco area, said Mr. Lingos, do not bite during the day, so they lost no time in the boat trips to the shore every morning.

The Lingos fished for three days, they reported, with little success at all, catching only three fish, but on the fourth day their luck changed and thereforforth they caught great quantities of sea bass, turbot and other types of marine life.

Their island, Sand Lamp, looks like somebody's hat floating in the Gulf from the shore, Mr. Lingos said, but a closer inspection reveals it to be a small spot of sand and shell inhabited by a myriad of sea birds of all sorts. In high tide Mr. Lingos said he would like to be there in a big blow in a storm, under no doubt it would wash right across the island, which, by the way, is treeless.

The Lingos made the trip to the island, which is located west of the inland waterway and south of Marco, in a 12 foot boat propelled by a 10 horse power kicker. They returned highly satisfied as their cash returns from the sale of the fish and their satisfaction to pay the costs of the expedition.

Thad Lingos, Jr., son of Ovidioan's town clerk, recently caught this 45 pound turbot on a spinner and six pound line on a fishing trip to the Gulf near Marco with his father.

**"Blue Bombers" May Smash Out 92 Homers Before End Of Year**

By KENT CHETAIN

There has not been a home run hitting machine to match the likes of this year's Seminole Blues in the 15-year history of the Florida State League. The "Blue Bombers," as they are rapidly becoming known as around the circuit, have called the fences for 68 homers in the first 101 games this season to equal the all-time FSL record set by the Sanford Giants in 1950.

Every circuit club from now on during the remainder of the regular season will constitute a new record in the number of home runs during the season. The "Blue Bombers," as they are rapidly becoming known as around the circuit, have called the fences for 68 homers in the first 101 games this season to equal the all-time FSL record set by the Sanford Giants in 1950.

Every circuit club from now on during the remainder of the regular season will constitute a new record in the number of home runs during the season. The "Blue Bombers," as they are rapidly becoming known as around the circuit, have called the fences for 68 homers in the first 101 games this season to equal the all-time FSL record set by the Sanford Giants in 1950.

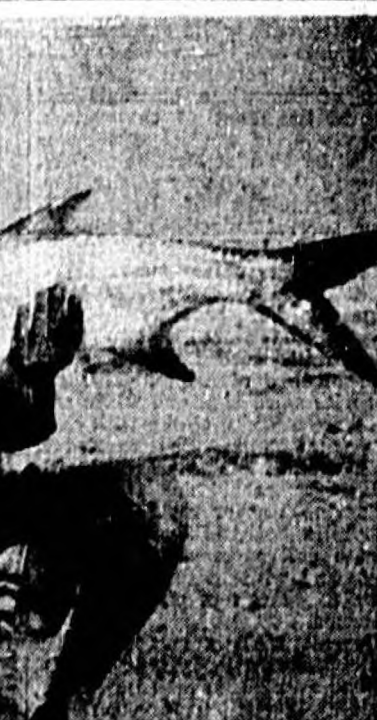

Ed Levy, pitcher of Daytona Beach, beat leading DeLand the second straight time, 3-2, Palatka defeated Cocoa, 5-2, and Sanford scored a 4-3 win over Orlando in the second game of a doubleheader after losing the first, 5-3.

**Imbra, Kenis Star Afield For Blue Bombers; Packers Play Here Tonight**

By KENT CHETAIN

Sanford's "Blue Bombers" had their heavy artillery silenced in spacious Tinker Field last night and the victory momentum was momentarily halted as the Orlando Senators won the first game of a twin bill, 5-3, but the peppy Blues snapped back to snare the nightcap with a convincing 6-3 triumph.

Led by the inspiring fielding of the poor man's "Nelle" Fox—"John Imbra"—Sanford annexed the second contest behind the seven-hit hurling of Jorge Rivera, who notched his 11th win in 21 decisions this year.

Last night's split gave the Blues an enviable record of 19 wins in their last 26 outings. The Senators gained a 4½ game on the league leading Red Hats as Daytona Beach swept their two-game set with DeLand last night.

The race for first place looks something like this:

W. L. Pct. GH	
DeLand	27 11 .711 4
Daytona	24 16 .600 4
SANFORD	21 17 .553 5

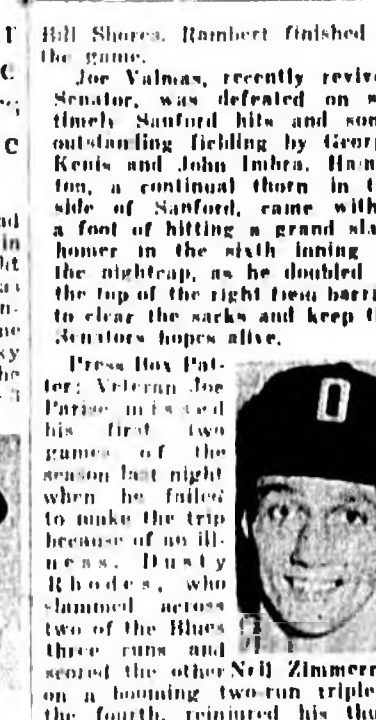

Four of the 12 Senators who have contrived home runs this year to record-breaking total are no longer members of the Blues. They are Dominic "Yogi" Petrosino, the no longer estimable pitcher who quit the team early in the season for an apparent reason, Solly Grant, the high-analmy Muck Indian, who couldn't find the hitting range, Frank Santora, the flashy infielder that was recalled by the Lakeland Pilots, and Ted Brooks, who was sold to DeLand after hitting a grand-slam for Sanford.

Here is the running total for the two record hitting home run clubs in the FSL.

1952 Blues	1950 Giants
Aleno	20 Levy
Rhodes	12 Newell
Imbra	12 Hafenecker
Smith	9 Rose
Cavallaro	5 Tunk
Santora	3 Murphy
Grant	3 Jackson
Eske	2 Berkerton
Brooklyn	1 Lake
Kenis	1 Foraythe
Petrosino	1 Bailey
1 Long	1
49 Totals	69

The Packers will be playing without the services of their third baseman Fred Brady, who was headed last night in 28 game winner Tony Mills. Brady was taken to the hospital and reported in good condition but will have to rest for a few days. This is the second time in the season he has been struck by a pitched ball. Two months ago, Sanford's Murray Byrd hit former Leesburg Manager, Walter Chipple in the head that hospitalized the Polish outfielder for four days.

Nell Zimmerman man threw a seven litter at the Senators in the first game of the doubleheader in Orlando to win a 5-3 decision. The Blues starter Louie Roberts couldn't hold on to a 3-2 lead and was driven from the box in the sixth inning, eighth by hits off the bat of Bob Hampton, rookie bonus baby, and

### Export Subsidy On Citrus Is Chiefly Help to California

LAKELAND (AP) — California is getting the bulk of funds spent under the U. S. citrus export subsidy program because of its large fresh orange shipments.

The U. S. Department of Agriculture reported California and Arizona have sold 2,756,081 boxes of oranges overseas this season, receiving subsidies of \$3,774,000. While the California and Arizona figures are not right in the official report, all but a very small percentage comes from California.

Florida shipped only 116,008 boxes of oranges abroad for a subsidy of \$128,356.

For fresh grapefruit the shipments and subsidies reported were California-Arizona 108,881 boxes, \$37,992; Florida 37,506 boxes, \$33,627.

Florida dominated the single strength juice field, sending abroad 433,290 cases for a subsidy of about \$505,600. California and Arizona shipped only 644 cases and received \$2,300 in subsidies.

In the concentrate field, California-Arizona took over again, shipping some 48,500 gallons to Florida's 28,600 gallons.

One reason was the booming market Florida has in this country for most all concentrate it can produce.

For the week ended July 19, retail sales of frozen orange concentrate hit a record of 1,061,000 gallons, the Florida Citrus Commission reported. That was \$2,000 gallons above the previous weekly mark and nearly 1 1/2 times as much as was sold the corresponding week a year ago.

### Rural Common Sense by SPIRITS JOHNSON

Florida's lightning and thunderstorm season is at hand. Farm families would do well to take steps to protect themselves, their buildings and their animals from this hazard.

The National Safety Council reports that Florida has more thunderstorms than any other section of the country — an average of 70 to 80 per year, and that lightning is the highest single cause of farm fires in the state. But something can and should be done to prevent injury and loss from lightning on the farm.

A. M. Pettis, farm electrification specialist with the Florida Agricultural Extension Service, says lightning rods, if properly installed, give almost complete protection from direct lightning damage. He adds, however, that lightning rods should be installed in conjunction with lightning arrester systems for a poorly installed system only gives a false sense of protection and may prove extremely costly with a lightning loss.

A direct strike is just one way that lightning damages life and property. Excessive surges of power over electric lines resulting from lightning often burn out appliances and start fires. A special arrester, known as a lightning arrester, can be installed to prevent such losses.

If a farmer does not wish to buy the arrester he can follow other precautionary measures for safety, such as making sure the electric service is properly grounded, turning the main switch off during thunderstorms or disconnecting all electrical equipment from outlets.

To ground the electrical system an eight-foot ground rod should be used at the meter and at buildings with electrical service.

With television gaining in popularity it should be noted that TV aerials are a prime target for lightning and should be grounded with a No. 8 copper wire from the mast and driven at least eight feet deep.

Personal protection is of main concern during electrical storms. Mr. Pettis says if you are caught in such a storm, the best place to stand is in a building protected from lightning or an automobile with a metal top. Even a large or small unprotected building is better than open space.

For added safety, stay away from open doors and windows, fireplaces, stoves and other metal objects. If you can't reach shelter, be sure to keep away from wire fences and trees, especially single trees on high ground.

**VOGELER WON'T LECTURE**  
NEW YORK (AP) — Robert A. Vogeler said today he will not lecture nor in any way take part in a contemplated course in "techniques of espionage" at Peekskill, (N. Y.) Military Academy.

Vogeler spent 17 months in a Hungarian prison as an accused spy.

An agency spokesman for the school said that he incorrectly assumed that Vogeler might do some lecturing if such a course is offered in the fall. Vogeler is trustee of the school.

"I am not going to conduct or lecture at a course in the academy on any subject. Such an idea was never even discussed with me," Vogeler said.

**COLONEL'S WIFE CONVICTED**  
WISSBADEN, Germany (AP) — Mrs. Katherine Reed, 44, wife of a U. S. Air Force colonel, was convicted today on five black market charges and fined a total of \$1,300. She was accused of selling ration and gasoline coupons and making illegal currency exchanges on the German black market.

# July 30th - Waves Tenth Anniversary

**PLANNING AND PLANNING** In the technical area, are the lot of the Navy draftsmen. Their work includes the reading and interpretation of blueprints, the preparation of a listing of topographical, hydrographical, architectural, structural, mechanical, electrical and statistical drawings, plans, sketches, tracings, maps and charts. Sgt. Glenn Bergman, of Long Island, New York, is pointing out a detail of the drafting table.

**A TEASMAN'S WORK IS NEVER DONE**—but every WAVE room enjoys being a member of the Navy's tremendous office force. Mary Schultz, Yeoman First Class, of Biloxi, Mississippi, makes an important entry in an enlisted man's service record which follows him wherever he goes.

**YES, IT'S TAPE, BUT NOT RED TAPE**—WAVEs are a familiar sight in a Naval Communications Station where the profession many functions. These Yeoman women operators II, in 21 Station, Jacksonville, Longwood, Colorado and Sara Lutz of Tucson, Indiana, check the tapes as they come into the San Francisco office as part of their duties.

**MAINTAINING COMMUNICATIONS** EQUIPMENT IN TOP OPERATING CONDITION requires highly trained personnel. Yeoman First Class, Elizabeth Robinson, of Memphis, Tennessee, checks the equipment of a radio receiver.

**GOOD HEALTH IS A FORM OF INSURANCE**—ALWAYS IN EFFICIENT. At naval hospitals and dispensaries the WAVES perform numerous types of medical and dental duties. Joan Paul, Hospital Nurse First Class, of Philadelphia, Pennsylvania, examines the teeth of a patient.

**KEEPING TABS ON NAVY PERSONNEL IS A BIG JOB**—WAVEs have been taught to operate almost all of the complicated machinery by which the Navy's personnel are kept up to date. In this case, a Yeoman First Class, of Longwood, Colorado, is operating a radio receiver.

**SEE DIRECTION OF NAVY AIR TRAFFIC**—A high degree of accuracy, precision, and reliability is essential in the operation of the Navy's air traffic control system. In this case, a Yeoman First Class, of Biloxi, Mississippi, is operating a radio receiver.

### UNIONS PICKET STAND

TERRE HAUTE, Ind. (AP) — An AFL union has agreed to call off any more attempts to break through a CIO picket line to go to work in the strike-bound Albia. Chalmers jet engine parts plant.

Eight men, including members from both groups, were hurt in an outbreak Monday when some AFL men forced their way into the plant.

The AFL withdrawal promise came at the request of State Labor Commissioner Thomas H. Hutson, who suggested "violence might mean martial law."

Gov. Henry E. Schricker also asked the AFL Operating Engineers to get away from the plant. The pickets are CIO United Auto Workers, a union which is official bargaining agent for the workers.

**MOSLER SAFE HEAD DIES**

## YOU'RE TELLING ME!

By WILLIAM RITT  
Central Press Writer

THE DEMOCRATS, we read, had scouts studying the maneuvers and proceedings of the GOP convention. Paying particular attention, no doubt, to that new quarterback of the Elephants, named Eisenhower.

What probably intrigued the Donkey scouts the most was that new play, the Texas shift.

Hollywood is making a movie without dialogue. Oh, no!—not back to subtitles again?

Now that new superliner the United States has broken the westward record. Guess there's

Just no denying it—she's the world's biggest—and most expensive—speedboat!

In Pittsburgh six polar bears tried to tunnel out of the city zoo. The keeper, however, quickly put the chill on that.

"Damos Differ on Man to Bear"—Chicago convention headline. We thought their main concern was finding a man to elect.

Almost anything can be blamed on the prolonged heat wave these days. However, that doesn't explain why thieves in West Germany swiped 100 live anti-aircraft shells from a munitions dump.

**DRAMATIC DEAN DIES**  
NEW YORK (AP) — Charles Jehl, 86, dean of the American Academy of Dramatic Arts and teacher of many top stage and screen stars, died Tuesday.

## "Now there's a Beautiful Roof"

That's what your neighbors will say when they see your new Barrett\* Asphalt Shingle Roof. And there'll be more such compliments, too. For the Barrett Asphalt Shingle, with its rich harmonizing colors and neat geometrical pattern, is an eye-stopper anywhere. That's the way the women see it, at least.

Of course, from the man's view-point, the real beauty of the Barrett Asphalt Shingle is its durability. It's a tough shingle—made of high rag content felt, saturated with specially refined asphalt and surfaced with fire-proof mineral granules.

Anyway you look at it—"She's a real beauty."

### Blues In The News

By BOB ANTHONY

It was party night last night at the Navy Center and a nice crowd was on hand to enjoy the games, dancing, and refreshments. Since the Navy Center has become a USO, more money is available which makes it possible to stage bigger and better evenings of entertainment for the men aboard NAAS. The people at the Center work hard to give servicemen in this vicinity a place to dance, play games, read, write letters and meet friends but their success depends largely upon your attendance. Why not make a habit of stopping by the Navy Center. Show the people of Sanford we appreciate what they are doing for us.

Fred Peterson of Attack Squadron 36 left the station yesterday for Jacksonville, where he will receive an honorable discharge from the Navy due to the expiration of his enlistment. Fred was active aboard the station as a photographer. He plans to enter the University of New Hampshire this fall under the recently passed Korean Veterans Bill. His home is in New York City.

Two hospitalmen that reported aboard NAAS recently are Duane Coombs and Harold Gokey. Both men reported here after a tour of duty at the Naval Hospital in Memphis, Tenn. Duane hails from California, while Harold's hometown is Miami. Harold is a graduate of the University of Florida. Welcome aboard men. We'll find Sanford a peaceful and friendly community in which to live.

Tuesday has been set by the Station I & E Office for examinations for advancement to Seaman, Airman and Fireman. Those men eligible and the rate for which they will be striving are Charles E. Dalton, Seaman; Douglas E. Heuser, Airman; Donald L. Hite, Airman; Robert E. Richardson, Seaman; Robert J. Webb, Airman; and Ralph J. Stukel, Airman. If these men successfully pass these exams, they will be able to compete in the next service-wide exams for advancement to petty officer.

Tomorrow will be the big day for John M. Greer of the Station I & E Office. He has completed his tour of active duty with the Naval Reserve and tomorrow will be released to inactive duty. John intends to return to his home in Georgia and has tentative plans of returning to his position with Western Auto Supply Company. He has been stationed here aboard the station since April of 1951 and has been very active in the field of Education and Public Information. Good luck to you, John, and don't forget to stop back to Sanford occasionally to say "hello" to all the friends you've made in this fair city.

**MIAMI TO AWARD DEGREES**  
MIAMI (AP) — The University of Miami will award 217 degrees to seniors and graduate students at mid-summer commencement exercises tonight in Dade County Auditorium.

### Van Fleet

(Continued From Page One)

a chance for an armistice than ever before," Van Fleet asserted. He reported the Reds have built up their defenses on both coasts in fear of an Allied amphibious attack "of which they always have been frightened."

Van Fleet said he believed the main reason the Reds thinned their front-line forces was the Eighth Army's "heavy pressure by artillery fire."

"At long last, it has become apparent to the enemy that he has been a damn fool to stay in the front lines for us to shoot at."

"Eighth Army military pressure causes more casualties and damage than the enemy is capable of maintaining."

"The best way to win is by pressure."
