## Key To End Test Late Today

### Mississippi Brothers Broke Unofficial Endurance Record Shortly After Noon

SANFORD, Fla., July 1.—(AP)—The Key brothers, Al and Al, holders of a world record in a ground crew they organized to land their endurance plane, "Ole Miss," at 10 o'clock tonight.

Key talking with his crew over a short wave, said the descent would be made after the official record of 247 hours, 23 minutes, 30 seconds, set by Dale Jackson and O'Brien at Lake Okechobee, had been broken. That record was equalled at noon today after a careful checkup and verification of the plane. Al said that crystallization had set in due to the long flight on the number of small leavings, and that the undeposited world record would be the lag we drove in to remain in the air any longer than the afternoon.

Al said the inclemency of weather the past few days also had helped the brothers in their flight.

They have been forced to make rest stops in the past few days and the strain has been on their minds. They began their descent at 10 o'clock and the strain has been on their minds.

They have been forced to make rest stops in the past few days and the strain has been on their minds.
