Reporter Discovers Official War Secret In California Resort

OAKLAND, Calif., July 11 (AP)—One of the best kept secrets of the war, almost within sight of the skyscrapers of Oakland and San Francisco, came to light yesterday.

Joining hands and smiling jovially at Lake Success, N. Y., are (l. to r.): Andrei Gromyko, U. N. Soviet delegate, Henry A. Wallace, former vice president of the U. S., and Herschel Johnson, U. S. delegate to the U. N.

There never was any chance that Russia would let them participate, except the slight one that she might keep one finger in the Marshall plan for disruptive purposes.

SECOND BASEMAN of the Philadelphia Phillies, Emil Verban, smilingly crosses his fingers as a sign of his good luck after narrowly escaping serious injury when his train crashed into a switch engine at the entrance to Chicago's Grand Central Station.

CURFEW—CONTINUED

MANILA, July 11 (AP)—A ban on all U. S. Army personnel movements in and out of Clark Field here and Camp Angeles in Pampanga between 7:00 P. M. and 6:00 A. M. imposed after shooting incidents, will continue for an indefinite period, the Philippines-Ryukyus command announced today.

Since 1942 the concrete and brick hotel had been isolated, and all traffic on the Byron-Tracy highway carefully screened.

It was learned officially, however, that the entire operation was directed from Washington, with district intelligence officers barred.

7 Nazi Scientists Working For U.S. Navy

LOS ANGELES, July 11 (AP)—The Los Angeles Times published a story today saying that seven German scientists, experts on Nazi secret weapons in World War II, are now working for the U. S. Navy under voluntary contracts.

Yearly Citrus Report Made By Department

WASHINGTON, July 11 (AP)—Growing conditions for the 1947-48 citrus crop have been "satisfactory" in most citrus areas, the Agriculture Department said today.

Blaschak Defendant, Herby Plaintiff

T. BLASCHAK, defendant, and MARY WORTHY HERBY, plaintiff, are before the Circuit Court in Sanford today for divorce proceedings.

Don't you know those western powers intend to enslave you. They'll lend you money so you can buy their goods at a nice price and then let you repay the money with interest.

other fellows are heading for a big bust. And just for emphasis, there may have been something in the Kremlin air that whispered:

Its disclosure came when a newspaper reporter for the Oakland Tribune passed the report and noted the open gates.

The application of the science of chemistry to glass making dates back less than a century.

## Senate Approves Income Tax Slash Measure By 60-32

### Two-thirds Majority Falls By 2 Votes: Special Session Is Not Anticipated

WASHINGTON, July 14 (AP)—The Senate passed the \$4,000,000,000 income tax reduction bill today, sending it to the White House where a certain veto awaits it.

The vote was 60 to 32, which was two short of the two-thirds margin the supporters of the bill would have to run up in order to make the bill law over President Truman's objections.

WASHINGTON, July 14 (AP)—The Senate today rejected a proposal to amend the \$4,000,000,000 income tax cut bill by permitting husbands and wives in all states to split their income tax purposes.

The amendment, offered by Senator McClellan (D-Ark.) and 23 other senators, lost 52 to 40 on a roll call.

Several other amendments remained to be disposed of, but Senator Millikin (R-Colo.), manager for the bill, said he is hopeful that a final vote can be reached during the day.

Arguing for his amendment, McClellan shouted that it is an "indefensible injustice" for taxpayers in 35 states to have no opportunity to participate in the community property plan.

The Arkansas Senator said that while he regards the issue as nonpartisan, "The Republican Party has the primary and major responsibility to pass the amendment because it is now in the hands of the majority."

Monthly leaders today forecast nothing to interrupt full (Continued on Page 11)

## Dick Aiken Rests At Home Following Radio Triumph

Dick Aiken, winner of the Fourth of July Arthur Godfrey talent contest, who also appeared on the CBS Chesterfield program conducted by Mr. Godfrey on Monday, Wednesday and Friday, arrived home Saturday afternoon and was visited and telephoned by many friends who offered their congratulations.

He revealed that he had nearly recovered from the cold contracted in New York two days before his broadcast, which he attributed to the "icebox cold" of the air conditioning in Radio City Music Hall, which he visited.

## Caldwell Urges Strong Federal, State Relations

### Opposition Cited To Weakening Of Govern- ment Structure

SALT LAKE CITY, July 14 (AP)—Governor Millard F. Caldwell of Florida today told delegates to the National Governors' Conference here the states should "continue to oppose every move calculated to weaken our governmental structure."

Caldwell, chairman of the conference, said there is "a widespread conviction in the part of both federal and state officials that relations between the national and state governments stand in need of thorough-going redefinition."

"There is general agreement on the principles which should govern but not as to the manner in which they may be applied in practice. Some spots usually develop in connection with federal state grants-in-aid. The airport development program, the federal hospital-aid program and the perennial question of federal assistance to public schools are representative of the difficult problems which must be faced in the coming months and years."

He reported the "issue of state title to tidewater lands is not yet settled," but said it seems "probable to expect the Congress to enact legislation clarifying and confirming the titles of states to these lands."

The United States Supreme Court recently ruled California oil-rich tidewater lands are the property of the federal government.

Caldwell's address opened the conference of state executives. He said the future was uncertain because of shifting economic policies.

## Warden Said Sober During Mass Killing

ATLANTA, July 14 (AP)—A state investigator said today he did not believe Warden W. C. Worthing was drunk or had "been drinking" when he opened fire with a pistol in last Friday's mass convict escape attempt at Brunswick, Ga., in which seven prisoners were shot to death.

## Coal And Steel Urged To Wait On Price Hikes

### Truman Asks "Fair Test" Of Effects Of Wage Contract Prior To Action

WASHINGTON, July 14 (AP)—President Truman appealed to coal and steel producers today to wait until a "fair test" has been made of the effects of the coal wage settlement before making price increases.

The President, in a statement, said the effect of the wage settlement "is badly misrepresented by the bare statement that it amounts to an increase of about 45 cents per hour in the wages of miners."

"It is only reasonable to ask coal and steel producers to wait until a fair test has been made of the actual effects of the wage advance under conditions of maximum production," the President asserted.

"If prices are raised at once, and a wave of increases in related prices upsets our economy, we never will know what would have happened if the coal and steel managers had been willing to wait."

The risk involved by continuing present prices of coal and steel long enough to learn what the increased costs of production will actually be under the new wage agreement is not serious, especially in view of the fact that such action will greatly reduce the hazards of renewed inflation."

Saying the producers of coal and steel "have been enjoying their full share of high profits," he concluded:

"I am sure that they, as responsible leaders of industry, will want to invest a portion of those profits in the maintenance of business stability and prosperity for all our people."

## Greeks Force Invaders To Albanian Line

### UN Balkan Group Flies To Make Inquiry; Another 1,500 Are Arrested In Plot

BEograd, Yugoslavia, July 14 (AP)—General Enver Hoxha, Communist premier of Albania, declared in Tirana today that Greek Albanian border incidents are part of a general anti-democratic plan of Anglo-American reactionaries whose aim is to bring about a new war, recommended by Truman's Doctrine.

ATHENS, July 14 (AP)—Greek officials reported today a 1,000-man force which attacked the village of Konitsa yesterday had been pushed back to the Albanian border, six miles away.

The guerrilla ring around Konitsa apparently was broken during the night. Greek veterans of resistance fighting during the German occupation under Gen. Napoleon Zervas were engaging the rebels.

One official report said fighting was still in progress at a tiny, unidentified village about two miles from the Albanian frontier.

Government forces were reported officially to have recaptured the Greek half of the Saranta River bridge at Borozani.

A subcommittee of the United Nations Balkan Commission flew at noon from Salonika toward Konitsa for a spot investigation of what the Greek government said was an invasion by an "international brigade. Representatives of the United States, Russia, Brazil, Australia and Syria were on the team."

A letter from the Greek liaison officer yesterday told the commission an "international brigade" had invaded Greece from Albania, and that this comprised a "large force of Greek and Yugoslav irregulars, and a small force of Albanian irregulars."

## Five Nations To Supervise Operation Of Marshall Plan

### As Czechs Withdrew From Marshall Plan Parley

SHORTLY AFTER THE CEREMONY shown above was staged in Moscow, the Czechoslovakian Cabinet in Prague, acting on phone instructions from Premier Klement Gottwald, withdrew from an earlier decision to attend the Paris conference at which the Marshall Plan will be acted upon. The presence of Soviet Foreign Minister Molotov (left) stressed the importance of the occasion. Foreign Minister Masaryk (right, background) stands by with members of the Czech group as Premier Gottwald talks into microphone. Behind Molotov (in cap) is Deputy Foreign Minister A. V. Vishinsky. (International Radiophoto)

## 12 Victims Of Plane Crash Are Still Unidentified

### Death Toll Of 21 Ex- pected To Rise As 2 On Critical List

WASHINGTON, July 14 (AP)—Municipal Judge Allen K. Brady today ordered a coroner's examination for William F. Kater, former Capital policeman charged with firing two shots Saturday at Senator Bricker (R-Ohio). An Associated States Attorney John H. Brownell asked for the examination.

Kater is to be held without bond. The examination will be given at Gallinger Hospital here. Judge Brady directed that the findings be brought to the court to a hearing on Aug. 14.

Diamond disclosed the Kater case to two separate charges in connection with shooting which occurred in the Senate subway. One is a second attempt to kill; the other carrying a deadly weapon. Kater had 18 months on the United States Capitol force.

Bricker, target of two 22-caliber pistol shots that missed, did not appear at today's first hearing. He previously told a reporter he would be present.

Kater appeared dazed and swayed when he was led into court for his appearance before Judge Brady. The session lasted less than a minute. Kater stumbled a little as a policeman took him out of the room.

## Mental Exam Of Bricker Assailant Ordered By Judge

### Death Toll Of 21 Ex- pected To Rise As 2 On Critical List

WASHINGTON, July 14 (AP)—Senator Brewster (R-Maine) said after a White House call today that a congressional investigator would inquire into the crash of a twin-engine DC-3 chartered airplane in a swamp near Melbourne, Fla., yesterday.

MELBOURNE, Fla., July 14 (AP)—Twenty-one persons were killed yesterday in the crash of a DC-3 chartered airplane in a swampy wasteland near here, and today 12 remained unidentified mainly because of a confusion in Spanish names.

The death toll was expected to amount to two of the 13 injured on the "critical" list.

The plane, en route from New York to Miami with 36 persons aboard, a crew of five and 400-pound Puerto Ricans, cut a 300-foot swath through the scrub pine six miles from the Florida East Coast town as it plunged to earth shortly after 4:30 A. M.

Civil Aeronautics authority investigators reached the scene early but would not comment on their findings.

The plane had last been heard from as it passed over Jacksonville, Fla., after leaving August, Ga.

## Floridians Urge Bill Of Authority For Glades Park

### Congressmen, State Cabinet Members Seek Legislation

WASHINGTON, July 14 (AP)—Florida's congressional delegation and five members of the Governor's cabinet urged a House Public Lands subcommittee today to approve legislation which they said would give the Secretary of Interior "unquestionable authority" to acquire 2,000 square miles in south Florida for inclusion in the Everglades National Park.

Attorney General Tom Watson, a member of the governor's cabinet, and Miss Elsie Knowles, a Florida land owner employed by the Justice Department, appeared to oppose the legislation but did not take the witness stand before the subcommittee.

Senator Holland (D-Fla.) told the subcommittee that Secretary of Interior J. A. King has rejected the governor's plan to acquire the Everglades National Park on 454,000 acres in south (Continued on Page 11)

## C. M. Farnell Funeral Is Held In Oviedo

Funeral services for Carl M. Farnell were held yesterday afternoon at 4:00 o'clock at the Oviedo Cemetery by the Masonic Lodge assisted by Rev. H. H. Link and Rev. Lionel Nelson, who was reported today by the Erickson Funeral Home.

Mr. Farnell died at his home in Oviedo Thursday morning at the age of 54. He was born in Oviedo and had lived there his entire life. He was a grocer and was a member of the Baptist Church, the Masonic Lodge and as a veteran of World War I was a member of the Oviedo American Legion Post.

## Editor To Speak At Jaycee Convention

Edward W. Barrett, editorial director of Newsweek Magazine, one of the outstanding weekly news magazines of the country, will be the main speaker at the Florida State Junior Chamber of Commerce convention, which will be held in Sanford on Aug. 9 and 10, it was announced today.

## Inside Improvements Announced By Hotel

The lobby and halls of the Valdes Hotel have been repainted and revamped, new draperies have been ordered and new stair and hall carpets are to be laid, according to Ben Small, manager.

## Bath House Finished At Lake Mary Park

A six room concrete block bath house was completed Saturday at the PTA sponsored park at Crystal Lake in Lake Mary by Robert H. Eubanks, who has devoted his vacation time to this work. Last month, during a vacation period, he built a pier into the lake.

## Optometrist Opens Offices In Sanford

Dr. Charles L. Persons, optometrist, will open a suite of offices Thursday on the fifth floor of the Sanford Atlantic Bank Building, he announced today.

## Danny Dondero Signs To Play For Sanford

Danny Dondero, an infielder who has been playing for Hickory, N. C. in the North Carolina league has reported to the Sanford Colley Feds. It was announced by Manager Don Murray today.

## \$1,208,000 Received For School Lunches

TALLAHASSEE, July 14 (AP)—Florida's county schools received more than \$1,208,000 in federal funds for lunchroom expenses during the 1946-47 school year, State Supt. Colin English reported today.

## MEET POSTPONED

Due to the illness of two City Commissioners and the fact that another is out of town, the regular meeting of the Commission has been postponed from tonight until Wednesday evening. It was announced this morning by H. N. Sager, city manager.

## Dutch Advocate In- clusion Of West- ern Germany In Recovery Program

PARIS, July 14 (AP)—France, Britain, Italy, Norway and the Netherlands were chosen by the 16-nations rules committee today as members of an executive committee to supervise the operation of the Marshall proposal for European recovery.

The rules committee completed a draft plan for organizing the economic recovery along the lines laid down by the U. S. Secretary of State. The recommendations will be submitted to a plenary session of the conference at 4:00 P. M. (10:00 A. M. EST) tomorrow.

The rules committee also named four technical committees which will advise European resources for self-help before making a bid for U. S. financial aid. The committees were:

- Food and agriculture: France, Britain, Denmark, Greece, Eire, Iceland, Italy and the Netherlands.
- Steel and iron industries: France, Britain, Luxembourg, Belgium, Norway, Portugal, Switzerland, Norway and Turkey.
- Text and power: France, Britain, Austria, Belgium, Denmark, Greece, Italy, Sweden and Switzerland.

## Plans Made By Coast Guard For Labor Day Regatta

Plans for an annual Sanford regatta to be held over Labor Day each year and occurring next Sept. 1 were made at a meeting of the U. S. Coast Guard Auxiliary held last Thursday night at the Chamber of Commerce office.

This will be one of the outstanding events of the state and the largest ever attempted by Sanford. Manager J. Higgins stated, "The regatta will be held under the auspices of the Florida Outdoor Association. It is expected that from 65 to 75 contestants of different classes will be entered from all over the state."

Members of the Coast Guard were reported anxious to participate in the regatta as an annual event and are planning a campaign to secure the most substantial assistance of the merchants to carry out this program.

## Brisson Wins First In Story Contest

Gordon Brisson won first prize in a short story telling contest conducted by Charles Morrison at the regular weekly luncheon of the Rotary Club at the Tourist Center today. G. W. Spencer won second prize and Dr. C. W. Baker and S. G. Gray tied for third.

At the suggestion of Joel Field, the Rotary Club authorized the secretary to write a letter to State Headquarters of the American Legion at Tallahassee urging favorable consideration of Sanford as the site for the proposed Memorial Building.

Others participating in the contest were Frank Evans, Fletcher Rolfe, W. A. Laffer, W. A. Kader, Harry Kudell and George Touhy. Visitors at the luncheon included Clark Bellows of DeLand and Charles Luke and James Holclaw of Sanford.

MONDAY, JULY 14, 1947

BIBLE VERSE FOR TODAY
CHILDREN NORMALLY FOLLOW THEIR PARENTS IN FAITH AND DEEDS. WATCH YOURSELVES. But for me and my house we will serve the Lord. - Joshua 24:15.

One thing about these flying discs, you don't have to drink that darned stuff if you don't want to.

As we get it, Mr. Petrillo will let the little children play over the radio if they don't show up their elders.

Rep. Farris Bryant, who addressed the Jaycees last week, may well represent this district in the United States Congress one of these days.

It has about reached the point where you are a perfect nobody if you are not among those who have actually witnessed one of these Flying Saucers.

Dick Cooper, a Newton law student, announces he will run for governor next year. He has no idea of being elected, he says, but if he gets struck by lightning...

The onetime 'dream goal' of 600,000,000 civilian jobs has been attained -- and better -- for the first time in the nation's history, says an AP dispatch in the Tampa Tribune.

President Truman has served notice on Congress that it is wasting its time in trying to reduce taxes since he says he will veto the bill anyway.

America is so afraid of losing its atomic bomb secrets that a couple of Army privates picked up important files on their manufacture as souvenirs on a trip through the Los Alamos atomic testing station.

John L. Lewis may be regarded by coal miners today as something of a hero, having forced higher wages for them than they ever dared dream of.

City Commissioners are considering a 10 percent increase in assessed valuations in order to meet rising costs of government.

WHITE SANDS, N. M., July 14. (AP) - New safety controls kept another German V-2 rocket from going out of bounds in a test flight at the Army's White Sands proving ground yesterday.

Our Latin Neighbors

South America, for most Americans, used to be simply a big area on the map whose name indicated that it was south of the United States.

Such misconceptions can not continue if the Carnegie Corporation's new award accomplishes what it hopes. This body has set aside \$250,000 for four centers of South American study.

Tulane has already become widely known for its collection of books on Central America, and the useful volumes which it has published on the remains of early civilization there.

Not included in the Carnegie program but making a distinguished contribution in the Latin-American field is Rollins College.

More and more the United States should come into closer acquaintance and cooperation with its Latin neighbors.

Learn To Swim

"When you go swimming, bear in mind that drownings take fourth place in the United States as a cause of accidental death, and give due thought to your safety while enjoying yourself," warns Dr. Donald B. Armstrong.

To be a safe swimmer, points out Dr. Armstrong, means to be a good swimmer -- to be master of at least one stroke, and to know how to float and tread water.

- (1) After a hearty meal, wait at least two hours before swimming.
(2) If you tire easily, stay in shallow water.
(3) Get out of the water when you feel tired or start to shiver.
(4) Get an instructor's advice about diving, so that you learn to dive properly.
(5) Investigate a new diving place beforehand for rocks and obstacles, and recheck every season.
(6) Never dive in the dark. The swimming pool may be dry. The tide at the beach may be low.
(7) Heed the warnings of local health authorities as to the pollution of swimming places.
(8) Learn the safest and best way of getting a drowning person out of the water.
(9) Finally, learn artificial respiration. By doing so you will be ready to save the life of someone after rescue from drowning.

Details as to water rescuing and as to artificial respiration will be found in booklets obtainable from Red Cross chapters, from Metropolitan Life Insurance Company offices, and from other sources.

Family Court

A group of Juvenile Court judges, meeting in Chicago to discuss their problems, were addressed by Judge Elwood F. Melson of the Family Court of Wilmington, Delaware.

The judge said that during the two years since the formation of the Family Court in his county, the number of commitments to three juvenile correction institutions has been reduced 18, 20 and 25 percent respectively.

The functioning of such a court should be good not only for the child who has broken laws, but for his parents, as well. If, under its direction, instead of spending their evenings in the corner juke-joint, they stay at home to help the children with their homework...

SANFORD FORUM

Editor, Sanford Herald, Sanford, Florida. Dear Sir:

The Florida Industrial Commission wishes to thank you for the splendid cooperation you have given the local manager of the Florida State Employment Service in publishing the Monthly News Release as well as other publicity.

We are sure that the publicity obtained through your newspaper has assisted your community to achieve fuller employment.

Carl B. Smith, Chairman, Florida Industrial Commission

New Safety Controls On Rockets Now Used

WHITE SANDS, N. M., July 14. (AP) - New safety controls kept another German V-2 rocket from going out of bounds in a test flight at the Army's White Sands proving ground yesterday.

to 28 miles, it hit two miles from the launching platform and unexpended fuel exploded.

CANCER KILLS

By W. V. BITTING, Tuckton Drug Co. Cancer has demonstrated its power to kill.

Each year, 170,000 die of this disease. Of this number, 20,000 are boys and girls under the age of 20.

Alarming as these figures are, they represent the ravages of an enemy who can be defeated. We know now that Cancer can be prevented, can even be cured if discovered in its early stages.

This is the 166th of a series of Editorial Advertisements appearing in this paper each Monday.

Copyright

SPEAKER OF THE HOUSE, Rep. Joseph W. Martin, Jr., (left) congratulates Rep. Harold Knutson (R-Minn.), chairman of the House Ways and Means Committee and sponsor of the revised tax-reduction bill, following the measure's passage by a vote of 302 to 112. (International)

More than 825,000 fires that could have been prevented occurred last year in this country. Sixty percent were put out when they were only blazes.

When picking up a hot dish use a thoroughly dry holder as heat travels rapidly through moisture and it may be unsafe to use a wet cloth.

U. S. Has Oil Supply For Over 1,000 Years

By VERN HAUGLAND, WASHINGTON - We have enough oil and gasoline for 1,000 to 2,000 years, in the opinion of Dr. R. H. Sayers, director of the U. S. Bureau of Mines.

Oil shortages, which have been freely predicted for the coming months, would be caused by lack of transportation and lack of steel for equipment for oil production, according to industry spokesmen.

But, according to Dr. Sayers, there is plenty of oil underground. "If the liquid fuels research and development program is carried out to the full extent that has been authorized," he says, "I believe we can meet any foreseeable needs in oil and gasoline for 1,000 to 2,000 years."

Research Makes Strides - The Bureau of Mines has made "substantial strides" toward establishment of a synthetic liquid-fuels industry upon reaching the half-way point in a five-year \$50,000,000 program of research and development, to be completed by 1950, Sayers says.

Pending completion of an oil shale laboratory at Laramie, Wyo., research has been carried on there in temporary quarters. An oil shale demonstration plant was dedicated at Rifle, Colo., in mid-May. At Bruceton, Pa., an almost-completed laboratory and pilot plant is to begin imitating synthetic oil and gasoline from coal this summer.

stantially less if used also to make oil and gasoline in large volume. Petroleum reserves would last only 12 more years at the 1945 rate of consumption.

Viewing another section of the nation's fuel bin, Sayers adds "we have more than three trillion gallons of coal in reserve in the United States. That is adequate to meet our needs for 3,000 years, even considering the use of coal for distillation into gas or for jet fuels."

He says it is a mistake for anyone to assume that atomic energy will replace coal.

NOTICE

At eleven o'clock on Thursday morning July 17, 1947 the Board of Public Instruction will receive bids on repainting the Lyman School roof and alterations to the Lyman School shop building. For specifications call on Architect Elton J. Moughton, Sanford Atlantic National Bank building, Sanford, Florida

Now! LIFE INSURANCE EXPERTS PROVE THAT FORD TRUCKS LAST up to 19.6% LONGER

FOR THE first time in history, scientific methods used by life insurance companies in computing rates have been put to work in figuring out life-expectancy tables for Ford Trucks.

4,967,000 Trucks Tested... Wolfe, Corcoran and Linder, leading New York life insurance actuaries, assembled the records of all trucks of the five sales leaders registered from 1933 through 1941 - 4,967,000 trucks in all.

Trucks are built stronger. They're built to last longer! That extra life that's put into Ford Trucks comes from Ford experience in building more trucks than any other manufacturer. Ford knows how to build trucks that last longer!

Certified Proof

Ford Trucks On Top! The result? Ford Trucks Last Longer! Up to 19.6% longer than the other 4 sales leaders! Why is this true? Because Ford

What Longer Truck Life Means to You... Why It Pays to Wait for a New Ford Truck!

It stands to reason the longer you use a truck, the less it costs to own. That's why longer-lived Ford Trucks are the top truck value. And, logically, Ford longevity means lower maintenance costs... less time in the shop. It means more unused miles when you're ready to trade, and a better trade-in. Yes, any way you look at it, you'll get more truck for your money with a Ford Truck... because Ford Trucks last longer!

FORD TRUCKS LAST LONGER!

The life-expectancy of a Ford Truck is! 13.1% longer than that of truck "B" 3.3% longer than that of truck "C" 7.6% longer than that of truck "D" 19.6% longer than that of truck "E" OFFICIAL ACTUARIAL CERTIFICATE

Helen LeLand Trippe Weds Orin Landress

In a beautiful ceremony, Helen LeLand Trippe, daughter of Mrs. Helen W. Trippe of Linden, Ala. and the late LeLand D. Trippe, became the bride of Orin Davis Landress, Jr., son of Mr. and Mrs. O. D. Landress of this city...

The bride was given in marriage by her uncle, J. H. Trippe of Linden. The fitted ladies were crisscrossed with hand-made lace and the full skirt extended into a long train. The lace also formed a coronet for her hair from which fell a finger-tip veil of bridal illusion.

Mr. and Mrs. Harold Thomas Madden, whose wedding was an event of June 22. The bride is the former Pauline Hasty of Sanford and the daughter of Mr. and Mrs. Paul Hasty of St. Cloud. The marriage was performed at the First Presbyterian Church. Upon their return from their honeymoon they plan to make their future home in Orlando.

Hollywood

HOLLYWOOD, July 14. (AP)—As an investment, the cartoon feature picture is getting to be like a toll bridge—you are sure to get your money out of it if you wait long enough. That can be gathered from the words of Walt Disney...

The economics of the movie industry are enough to make a business administration professor turn in his cap and gown. And trying to figure out the whereabouts of cartoon profit-making might cause him to blow his top. For instance, it might be 10 years from now when an idea pops into Walt's head, until the time the finished picture shows a profit.

"Now we have to depend on a reissue for a profit from cartoons," said Disney. The timetable of a feature reads something like this: preparation—some and a half year; drawing—two years; release—three years. Then it is withdrawn for two years and reissued. By that time it starts paying off.

Disney will throw his whole staff into work on "Alice in Wonderland," his first post-war super-special, and even so, production will require two years, maybe more. The picture's cost, now estimated at \$7,500,000, may be a long time ascending back.

"But all we have to do is wait long enough," commented Walt, an insurance man with undulating eyebrows. "Fortunately, our pictures do not age. We can release them indefinitely because every few years a new audience comes along."

Disney's business flourishes in times when moviegoers are discriminating and are concerned more with quality entertainment than the sure-fire formula movies that have crowded the screens in recent years. Not that he's wishing for a theater slump, mind you, but he isn't afraid of it.

"I don't mean that everybody likes cartoons," he smiled. "Some people can't stand them."

"There are times when I can't stand them myself!"

of the Arthur Godfrey Talent Scout program which was won by Dick Aiken of Sanford and said they were extremely proud of the local singer.

SINCE roses are complimentary to brunettes, film star Ann Miller wears them on top and side of her head, tied together by black veiling. The tiny hat is ideal for the summer and should be worn only with the more sophisticated type of hair-do. (International)

Keep Turning In Your Used Fats. W. A. HARRIMAN, Secretary of Commerce. Used cooking fats have represented a substantial part of our total industrial fat supply. The more than 600 million pounds of used fats that American homemakers have saved and turned in since 1942 has been of vital importance. It is a record of which every woman who contributed may well be very proud. The United States still lacks adequate supplies of fats and oils. And we are particularly short of industrial fats. Many, if not most, of the things we all use and wear require industrial fats, or the products of industrial fats, such as soaps and glycerine, in their manufacture. So won't you keep up your good work and continue to save and turn in every possible pound of used fat? W. A. Harriman, Secretary U. S. Department of Commerce. SAVE USED FATS.

# Senators To Appear Here In Twin Bill This Evening

### Largest Attendance Of Season Is Expected To Witness Tonight's Contests

By ARTHUR BECKWITH, JR.  
The Sanford Celery Feds will play tonight at the Municipal park in a twin bill at the Municipal park tonight in what is likely to be two of the most hotly contested battles seen thus far in the year at the local ball orchard.
