## MOCK COURT TRIAL IS SUCCESS

Many Amusing Incidents Are Related Which Keep Large Audience in An Uproar

The suit for breach of promise in the Mock Court Trial filled the High School Auditorium last Friday evening. Court was called by the Hon. D. L. Thrasher who gave the "Oyez, Oyez," in all the old style figures. C. H. Leffler acted as clerk and called the docket like an old timer. Hon. Thos. Emmet Wilson acted as judge and carried out the part with stern demeanor and decorum. Marshal Green Smith acted as court officer and kept the witnesses moving lively. Hon. Geo. A. DeCottes was attorney for the defense and sat at his desk in severe legal demeanor.

In the witness box sat Mrs. Yeiser, Miss Peachea Leffler, Mrs. Bowler, C. R. Walker and A. T. Rossetter. Hidden behind his attorney as the defendant in this celebrated case, sat B. F. Whitner.

The jury impanelled was as follows: John L. Sullivan (F. P. Forster), Bill Taft (J. K. Mettinger), Joe Cannon (S. O. Chase), Chauncey Depew (M. F. Robinson), John D. Rockefeller (J. D. Parker), J. Pierpont Morgan (T. J. Miller), Teddy Roosevelt (L. P. McCuller), Senator Bryan, (E. W. D. Dunn), Gov. Gilchrist, (H. R. Stevens), Robert Peary, (Felix Frank), Dr. Cook (J. D. Roberts), Admiral Dewey (N. H. Garner).

The first case on the docket was that of P. M. Elder, charged with working. It was clearly proven that he had done nothing of the sort for twelve months and the case was dismissed. The case of Archie Botta, charged with eating more than one oyster at a church supper was next. Mr. DeCottes moved the indictment be quashed on the grounds that but one oyster was ever found in church oyster soup. Then came the case of D. A. Caldwell, charged with selling undressed kids. Mr. DeCottes for the defendant explained that undressed kids meant undressed kid gloves. Judge Wilson let the defendant go, provided he would hereafter dress the kids and spank the undressed ones.

Then cost the most important case—that of Jerusha Rug Perkins (Mrs. Yeiser) against Benjamin Franklin Whitner for breach of promise and several thousand dollars to heal her wounded feelings.

After swearing the jury, most of them holding up their left hands, a statement of the case was made. The complainant was the first witness called and she told a pathetic story of how the ruthless Whitner had made love to her and after having gotten her consent to become his better half, he settled his affection on another. She swore that Mr. Whitner was the most gallant beau she had ever had, rarely if ever missing an opportunity to take her to church or to a free show. Her story was well told and Mrs. Yeiser played her role to the satisfaction of all. The next witness was Mrs. Bowler, who substantiated the testimony of the complainant, and added that Mr. Whitner had also trifled with her affections. She also told the court and the jurors that Whitner frequently accompanied her to the various free attractions. Rossetter and Walker told of seeing the defendant and complainant in company many times while they boarded with Mrs. Perkins at her Perkins' Paradise. Miss Jerusha Ray, impersonated by Miss Peachea Leffler, was questioned and she admitted that she was the Perkins that Whitner was in love with and that he frequently called on Jerusha Rug Perkins and stayed very late in order that she should retire early the following evening and give him an opportunity of seeing her niece of nearly the same name. Mr. Whitner's testimony was along these lines, he swearing that the love letters exhibited in court by Mrs.

Perkins were intended for her pretty niece. The testimony of Dr. T. A. Neal was very important, as he had made a study of the various diseases and troubles he thought Mrs. Perkins' heir to. He used medical phrases like a veteran and admitted that he had a license to practice medicine from the drug store. Rapt attention was given the testimony of the witnesses, all of whom acquitted themselves with credit. During the testimony of the much damaged woman, attorneys and jurors shed tears copiously, and at one time the complainant and the defendant both swooned. Mr. DeCottes made an excellent speech for the defense and was followed by Col. Newton, who was most eloquent. He first had the jury weeping and then applauding. Speeches completed, the jury was charged by Judge Wilson and under the escort of court officer Smith they were taken to their room to make a verdict. No sooner had they gotten in, when one dry member ran back to the court and inquired if any one had a cork screw? Col. Newton happened to have one and he took it to the jurors forthwith. Mr. DeCottes, suspecting something, also had business with the jurors but returned soon while wiping his mouth. A few minutes later the jury filed into the court, each man using his handkerchief as if he had been there before and was trying to wipe the odor off. "Have you made a verdict?" asked Judge Wilson. "Yes, your honor," answered John L. Sullivan, the foreman. "Then read it," said he. "We the jury, find for the complainant and award damages of \$2.48, two dollars for the jury and 48 cents for the judge.

The trial was a very clever piece of acting and the local hits were greatly enjoyed. The High School realized a neat sum for the performance, as did Col. Newton, the man who made the play possible.

### CULLED FROM THE STATE PRESS

Epitome of the Week's Most Important Happenings in the State's Domain.

Felix Faust, a chauffeur of New York, was killed, Misses Doris McDonald and Gertrude Pfeiffer, of Boston, fatally injured and Miss Emma Laird, of Boston, hurt internally in an automobile "joy ride" accident on the Port Orange road Daytona on Sunday.

The eleventh biennial report of Commissioner McIna is a very interesting and valuable compilation, and it should prove of special interest and value to home-seekers and new settlers. It is a book of more than 800 pages and is very handsomely printed. The arrangement of the matter is convenient and intelligent.

The twenty-eighth annual meeting of the General Congregational conference of Florida and the southeast was held in the Union Congregational church, West Tampa, beginning Tuesday evening and continuing through Tuesday.

St. Augustine's postoffice is to be the fifth first-class postoffice in Florida. This became known when Postmaster Alba completed the task of totalling up the business of the office for the past quarter and the past year. St. Augustine's postoffice has well exceeded the \$40,000 annual business required by the department at Washington before establishing a first-class office.

One of the most notable addresses delivered before the Southern Commercial Congress at its Atlanta meeting was that by Secretary of Agriculture James Wilson. He predicted a remarkable future for this section through its agricultural development and declared that the most important question now before the southern states is in its fields.

Director Rolfe of the experiment station says that Florida can produce more nutritious forage crops than any other in the Union. The plants are for the most part of foreign origin. This accounts largely for the tardy development of the state in cattle raising and dairying.

One of the strange facts about the Everglades region of Florida is that it is really a decayed mountain top. The crest is formed of massive limestone, usually covered by a mantle of sand. In this formation are numberless potholes, which vary in size from a few feet to thousands of acres; also countless lakes of fresh water, springs and frequent subterranean streams and pools.

A Bermuda onion crop, raised on Henry Brothers' large truck farm in south Tampa this year, has netted the grower \$830 an acre.

Mrs. John McDowell of Gainesville was killed and Mrs. Louise Lynch was badly wounded in an accident to their auto on the road from Gainesville, nine miles north of Ocala last Tuesday. In the car, which was on its way here, were Mrs. Youngblood, her daughter, Mrs. McDowell, Mrs. Lynch, Miss Annie Scarratt, Misses Lou and Bettie Miller and Messrs. G. M. Youngblood and J. H. Whitney. A tree blew down just as the car was passing and fell right across it. Whitney was driving. He was knocked senseless, but instinctively shut off the power. Miss Scarratt had a painful bruise. The others escaped with slight hurts.

At least part of the \$10,000 which was stolen from a registered mail pouch somewhere between Tampa and Tarpon Springs on March 23 has been recovered. J. J. Abbott of Brooksville, mail clerk on the Tampa Northern train which carried the pouch from Tampa when it was consigned to the Bank of Clearwater by the Exchange National Bank of Tampa is in jail at Brooksville. The amount recovered is \$3,210 and somewhere, presumably at Ocala, is H. H. Horace, who is being sought by the detectives as the man who first located the money, and who is presumed to be playing the part of the hero in the "Brewster's Millions" story—getting rid of his easy money as fast as he can.

**Holy Cross Episcopal**  
Services during Holy Week at the Church of the Holy Cross will be at 10 o'clock a. m. and 7:30 p. m. every day except Saturday. Friday evening the rector, Rev. B. F. Brown, will speak on the intermediate state or Christ in Paradise. All seats free. A cordial invitation is extended to all.

## PUTTING UP THE DOUGH

Sanford Business Men Are Wanting That Geneva Bridge

The question of that drawbridge connecting Sanford with Geneva is in a fair way to be built. The business men of Sanford are always alive to the best interests of the community.

The following merchants have subscribed the amount set oppose each name, to help build a bridge across the river at Geneva ferry. This is the result of about two hours work by the committeemen Saturday afternoon, April 1.

The banks have not named the amount they will give and the committee have not heard from the fertilizer factories.

Mr. J. T. McLain, Mr. Speer and Mr. Peters of Geneva covered the city with the committee appointed by the Commercial Club.

This is a creditable showing and indicates that the part the city of Sanford has been asked to subscribe will be forthcoming. It is just as the members of the Commercial Club who were present at the last meeting predicted. When the people of Sanford see that a proposition is for the welfare of the community they come to the front as one man and stand by the biggest city for its size in the country. There is not room for doubt when the public spirit of the people of Sanford is appealed to. A city with a citizenship like we have here marches in the front rank all the time.

The committee called on a large number of merchants, some were not at their places of business, some were out of the city and one of our big merchants was sick. If those who the committee were not able to see will send their subscriptions to the secretary of the Commercial Club much time will be saved.

The committee is giving the time of its members to this work and the hearty co-operation of not seen Saturday will be appreciated.

### Catholic Church

Father Bresnahan wishes to announce, for the benefit especially of those who have not been attending the lectures regularly this week, that they will continue at least until Sunday night and perhaps longer if all the questions have not been answered by that time.

The subject for Friday night is the Worship of Images by Catholics; Saturday night, Devotion to the Virgin Mary; Sunday night, The secret of Catholicity's progress.

The services will end Friday night with the solemn Way of the Cross.

Sunday being Palm Sunday palms will be blessed and distributed at the 10 o'clock mass.

Devotions for Holy Week will begin Thursday morning, April 13.

### High School Notes

Monday afternoon the Boy's Debating Society held a debate, "Resolved that the duties of the Policemen in the larger cities are more hazardous than those of the Firemen". The negative won.

Monday morning, Mr. Fagg superintendent of the Florida Home Mission, gave us an interesting talk on the lives of the children of the poor in the large cities.

The play to be represented by the High School commencement week has been selected and the rehearsals have begun.

The Irving Literary Society held its regular meeting Monday.

## PASS RESOLUTIONS

Adopted By City Council Protesting Against Incorporation

Whereas, The City of Sanford, Orange County, Florida, has drafted and prepared a new city charter to be presented to the legislature of 1911 for passage, and,

Whereas, in said proposed charter the territorial limits of the city of Sanford have been extended, and

Whereas, on April 3rd, A. D., 1911, twenty-six residents of Orange County, some of whom are negroes, all alleged to be qualified electors of the state of Florida and further alleged to be residents of the suburb of Sanford Heights, did purport to effect a permanent organization of a municipal corporation under the name of the town of Sanford Heights, Orange County, Florida under and by virtue of the general laws of the state of Florida, and

Whereas, said purported corporation is immediately adjacent and contiguous to the present southern territorial limits of the city of Sanford, Florida, and

Whereas, practically all of the male residents of Sanford Heights have their places of employment and business in the city of Sanford and derive their livelihood and income from business enterprises conducted in the city of Sanford, and

Where, at the present time there are hardly more than seventy-five inhabitants in Sanford Heights, including men, women and children, and

Whereas, Sanford Heights cannot seriously be considered as a growing or thriving community, entitled to the privileges of a municipality, and

Whereas, there are no business enterprises in the alleged territorial limits of Sanford Heights, and never likely will be as said addition to Sanford, Florida was intended, solely for residential purposes, and the said community of Sanford Heights at the present time is nothing more than a suburban residential district of the city of Sanford, Florida, proper, and

Whereas, the said Sanford Heights is located inland, immediately to the south of the present limits of Sanford, a distance of approximately three-fourths of a mile from Lake Monroe on a straight line, and as the said suburb increases in population it will necessarily be forced to install a sewerage system, and

Whereas, Lake Monroe is the only available outlet for a system of Sewerage to Lake Monroe except through the streets of the city of Sanford, which could not be done without the consent of the municipality of Sanford, and

Whereas, it will be many years before the said town of Sanford Heights could possibly be in a financial position or condition to undertake said work, and

Whereas, by necessity, said town of Sanford Heights must at this time dispose of the present sewerage matter and will be forced to eventually install a system of cess pools, not having any available outlet for an up-to-date system of sewerage, and

Whereas, the said town is on a higher elevation than Sanford, and

Whereas, by natural laws the seepage of sewerage from Sanford Heights would naturally flow through the present municipality of Sanford to Lake Monroe and will be a serious menace to the health and safety of the entire population of the city of Sanford and extremely offensive, disagreeable and obnoxious in every respect, to every one living within the confines of the city of Sanford, and

Whereas, the said alleged municipality has been solely organized for political reasons and not because of the fact that the present conditions in Sanford Heights necessitate the forming of a municipality, and,

Whereas, the said alleged municipality has been promoted and effected by a disgruntled few who depend upon the businesses and enterprises of Sanford for a living and income, who have formed said municipality primarily for the purpose of avoiding paying their proportion of the just and lawful taxation intended to be imposed by the city of Sanford in the near future.

Therefore, Be it resolved by the city council of Sanford, Florida, in session the sixth day of April, 1911, that it is the sense of this board that the attempted formation of the town of Sanford Heights is unreasonable, uncalled for, unfair, unjust and without precedent, and detrimental to the thriving and progressive municipality of Sanford and will work a hardship upon the municipality of Sanford and its citizens with a correspond-

## THOUSAND DOLLARS PER ACRE

Five Acres of Sanford Land Sells for That Price This Week

A. S. Nidor has sold his five acre farm on the West Side this week to Herbert M. Dowley of Norwich, Conn.

The price paid was the regular price for improved land in the great subirrigated Sanford celery delta, \$1,000 per acre. Mr. Nidor was satisfied to accept this price because it was the same price he paid for the land just fourteen months ago. In that period he has made \$6,000; last year taking over \$2,000 net and this year he has already sold \$2,460 worth of lettuce and celery and has returns coming to him from two cars of celery that will net him over \$1.00 per crate.

Mr. Nidor was not a practical farmer and yet was able to make a good profit in vegetables after hiring all the labor and trusting the crops to other people. His success under these conditions is only another proof that good returns are possible on Sanford's subirrigated lands—results that cannot be duplicated anywhere else in the world.

On the other hand the purchaser, Mr. Dowley, is satisfied to give \$1,000 an acre for land that has proven true to name and if he succeeds half as well as Mr. Nidor will be well content.

This is another instance of a man making good on Sanford land that costs \$1,000 an acre.

### The Wednesday Club

A large attendance of the club were present Wednesday afternoon for their first meeting in the charming home of Mrs. D. L. Thrasher.

The first paper on the program, "Patrick Henry, Virginia's Great Commoner," which was to have been given by Mrs. H. H. Chappell, was postponed until next week, as Mrs. Chappell was detained at home by sickness in the family.

The reading from Halle River by Mrs. J. C. McDaniel was also postponed until next week.

Mrs. O. W. King entertained the club with a finely written paper on Chief Justice Marshall. The life sketch of this great son of Virginia was a well deserved and gracefully offered tribute to the noble life and service of a patriot whose memory will live with the history of Virginia, and fittingly paid to him by one who proudly claims Virginia as her native state.

The sketches of Monroe by Miss Alice Whitner, George Mason by Miss Peachon Leffler, and the Randolph by Miss Mell Whitner were postponed until next week, owing to the absence of these young ladies.

Mrs. Lyman Phelps gave a sketch of George Wythe, reminding the club of the proud peace this patriot won for himself in the history of his country, by his services in his behalf and his attitude toward the famous Stamp Act. This sketch was supplemented by a reading by Mrs. Key, and giving in detail more of the life of George Wythe.

Mrs. S. O. Shubolser, in her sketch of the illustrious and patriotic family of Lees mentioned in detail only reminiscences of Richard Henry Lee, father of Gen. Robert E. Lee and Henry Lee, a cousin. The incidents reviewed in the lines of each were most interesting and were pleasant reminders of a name and patriotism as closely woven in the history and fame of Virginia as that of Washington.

To the roll call of the patriots many of the members responded with quotations, reminiscences and suitable readings.

"Virginia has become among friends and enemies the recognized field of romance," T. N. Page.

Program for April 18th:

I. Wisdom, Wit and Pathos of Virginia Authors, Mrs. L. R. Phillips.

II. My Lady of Literature, Miss Alice Tetherly.

ing benefit to the citizens of Sanford Heights, and

Be it further resolved that a certified copy of this resolution be forwarded to Honorable L. C. Massey, Senator from Orange county, Fla., and Honorable S. A. Robinson and Honorable Forrest Lake, Representatives from Orange county, Fla., in the legislature of 1911, and that they are hereby urgently requested to exercise and use every effort possible to secure the passage of a bill to abolish the present municipality of the town of Sanford Heights, Orange county, Florida.

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

The old battleship Texas has found a watery grave. The guns of the New Hampshire proved too much for her and she was practically demolished by the twenty-volley fired the first day of the target practice. She now lies a mass of twisted metal and jagged armor on the mud flats in lower Chesapeake Bay.

It is estimated that there are in the United States about 700,000,000 acres of land under cultivation; which produced in 1910 crops worth \$8,828,000,000, an average of \$12.75 an acre. Florida soil product was worth \$109.78 an acre.

Uncle Sam has more gold in his possession than he has ever had before in his life. Treasurer Lee McClung looked over his balance sheet March 1, and found the government had over \$1,000,000,000 in gold coin, to say nothing of \$128,000,000 in billion. Never before in the history of the government, according to the New York Globe, has it had so much gold piled up in its coffers.

The Presbyterian Church in Waycross Ga., has discarded its bell as a means of calling its members to worship. In its place a group of high-power electric lights has been installed on the highest point of the steeple. When services are to be held, the light is turned on and remains on until the service is concluded.

Eight hundred persons arriving on the Italian steamship Verona, from Genoa and Naples, via New York, are detained aboard the vessel because of an outbreak of smallpox among the passengers.

Assurances that foreign interests in Mexico will be protected are made by Francisco I. Madero, Jr., president of the provisional government of Mexico, in a communication to Secretary of State Knox and diplomatic representative of other interested governments.

The druggists who desire to cut the rates on prices of proprietary remedies will have the right to continue so to do. The attempt to put a ban on such practice in this country received the unqualified disapproval of the supreme court of the United States when that tribunal this week declined, in an opinion rendered by Associate Justice Hughes, to give its aid to such an attempt, on the ground that it would afford the manufacturer of medicine an unlawful monopoly.

Fines and costs aggregating \$15,000 will be collected from "soft drink" sellers who pleaded guilty to violation of the state liquor revenue laws. Nearly 300 persons were assessed fines of \$25 each and costs.

The wonderful record made by sixty hens owned by Henry Johnson of Glenville, New York, which laid 1,038 eggs in February, winning a bet for their owner, has been passed. The hens have kept up the good work, and last night Mr. Johnson said they had laid 1,228 eggs during March.

So Says Saunterer.

*Special Correspondence to The Herald.*  
I see my friend, Dr. Gosman of St. Augustine, has an article in this paper on capitol removal and thinks Sanford would be the place for it. Well, when the time comes we will bring it to Sanford. The only trouble about it now is that you can't pry it loose as long as the legislators are sitting on it. But when we do pry it loose from Tallahassee Sanford will sure get it. We have the location, the transportation facilities and every other requisite and we can guarantee to keep the law makers from going to sleep when they camp in Sanford.

The editorial in last week's Herald enant the grafters who travel Florida in the winter putting on entertainments presumably for the benefit of some home institution, but in reality for their own gain, seems to have struck a popular chord among the people. Now follow out this line of thought and get up your own entertainments and keep your money at home. What stunts are put on under the name of charity? If any institution in Sanford needs money let the fact be known and the liberal hearted, liberal minded people of this city will respond every time.

I am glad to see my friend C. O. McLaughlin make Sanford his home. Mac is a live wire and he and his family will be warmly welcomed to our city. There is not a man in Florida who will do more good for Sanford than C. O. McLaughlin and we need him. On the street, on the train, wherever you see McLaughlin he is boosting his city and state and like every good Georgian he makes a good citizen wherever you happen to find him.

Don't forget to send your friends and enemies a post card on May 1st. This will advertise your city as nothing else.

"Take heed what ye hear" as to slan-

derous reports and insinuations. There is a vast amount of defamation in the world. Perhaps we have all suffered more or less by it, hence one would think we might be prepared to estimate it at its real value. But notwithstanding our own experience in regard to its evils, how prone we are to listen to what evil tongues may say of our neighbors though jealous enough for our own reputation we seem to have little concern for that of others. We should remember that we have no more right to hear what evil tongues may say, than evil tongues have to say what they ought not. We could not give the tongue of slander a more pointed and successful rebuke than to refuse to listen to it. If we are watchful of our ears, others would be constrained to bridle their tongues. If all men were deaf and blind there would be no slander, because there would be none to hear or read it, and the unruly member would of necessity be kept in order. But now there are hearers and readers, and hence the tongue and pen must be guarded. Idle words are often the cause of incalculable mischief. A good name is rather to be chosen than riches, but the tongue of slander may rob us of our good name and leave us poor indeed. What havoc has been made of the peace and happiness of individuals, of families, of neighborhoods by an evil tongue! What wars but trifles are swelling into importance by repetition, and thus difficulties which a single word might have explained and healed, increase in magnitude and at last become incurable. The tongue will be evil while the heart is wrong, for out of the abundance of the heart the mouth speaketh. The best remedy for an evil tongue is a new heart, but as even the best of us are sanctified in part only, we must adopt such a remedy as will meet the evil from whatever source it may come, and this is the remedy: Take heed what ye hear. We must refuse to listen to what the evil tongue says. Listening to slander is so nearly related to slander itself that, if we give place to the one we are likely to be infected with the other. The listener is partaker with the speaker; therefore, at all times, now and ever, take heed what ye hear—don't hear everything, and don't repeat everything you hear.

A man said canning factory to me the other day. I promptly anote him with the jawbone of an—mule.

This canning factory business in Sanford is a joke. Some time ago Harry

Ward imbued with the idea of helping the growers to dispose of their surplus beans and tomatoes started a canning factory and put up a fine product. He failed in disposing of his goods in his home city. He took the goods to Orlando where they have a ready sale and one large grocery firm is anxious to take all the output every year. There won't be any put out, this year because Harry Ward is utterly disgusted with the idea of disposing of any goods to home people. Here is an industry killed by the home merchants. If the tomatoes and beans were not up to the standard or were not cheap enough why does the Orlando merchant make a profit on same and why does he want more?

Another thing! Sanford has a cigar factory. The cigars are good because the smokers say so and yet several merchants do not keep them preferring to handle some cheaper cigar that will build up some other city. I do not wish to advise the merchants how to manage their own business but I do wish to impress upon them the necessity of keeping all the money at home. I have suffered from this same "buying out of town" and it is the ruination of any city that keeps it up any length of time.

More anon.

The new character for the city of Sanford is creating as much excitement as a charter usually does and much curbstone gossip is rife concerning same. I have not seen a copy of it yet but hope to do so and will give my view or same in next week's issue.

There are a few demagogues in Sanford that think they can trample upon the common herd at every turn. Now I would like to remark that there are some issues upon which the common people have ideas of their own and you can't choke them off. There is an easy method for accomplishing every measure and the people have a right to be shown every time.

I do not see any cause for the long faces that adorn some of my friends when I ask them how the country is wagging. Sanford was never in better shape and with celery bringing such a good price a most prosperous season ought to result. There are many people prone to look upon the dark side of everything and in the midst of plenty yell about a famine. Sanford ought to do more this year than ever before and the many improvements

contemplated will keep the wheels of progress humming until the fall cropping commences.

Well, they are off!  
The legislators I mean are off to Tallahassee, not off their trolley or off their feed. Just what they will accomplish remains to be seen and their actions will be watched with much interest. Many a man makes a reputation at Tallahassee and many a man loses one and just what our two legislators will do is left with them. In Senator Mahsey and Representatives Robinson and Lake we have a good trio and something is bound to result.

### OPERA HOUSE ALL RIGHT

Manager DeCottes Doing Business at Same Old Stand

The Imperial has recovered from the black eye received last week by expert opinion, and with the assistance of a dozen iron pillars which effectually block the view of the stage the house is as good as ever. The posts do not enhance the looks of the auditorium, but they dispell the fears of the timid ones who were scared after the real danger was over.

Manager DeCottes and Owner T. J. Miller will see that the building is absolutely safe and the posts will be removed as soon as the new braces can be made.

Meantime the popular moving pictures are drawing the usual crowds and are just as good as ever.

### WASH THAT ITCH AWAY

It is said that there are certain springs in Europe that give relief and cure to Eczema and other skin diseases. If you knew that by washing in these waters you could be relieved from that awful itch, wouldn't you make every effort to take a trip to Europe at once? Would you not be willing to spend your last cent to find the cure?

But you need not leave home for these distant springs. Relief is right here in your own home town!

A simple wash of Oil of Wintergreen, Thymol and other ingredients compounded only in D. D. D. Prescription will bring instant relief to that terrible burning itch, and leave the skin as smooth and healthy as that of a child.

If you have not already tried it, get at least a 25-cent bottle today. We assure you of instant relief.

COLUMN DEVOTED TO PEOPLE

In This Department will be Found the Views, Opinions and Comments Of Practical Writers

**After Socialist**

To the Editor of The Herald:

A reply in detail by Socialist to "J. P. W."

First. Now what does Socialist want? Answer: The earth and the fullness thereof for all the people and not for a part of the people, as at present. Socialist wants the fence of special privilege built around the world by corrupt politicians, to fence out the worker from what he has created, pulled down, and he is going to employ the carpenter Socialism to pull that fence down and give each and every worker a chance to work and create and build up and beautify a chance for the idle rich a chance for the idle poor.

Socialist wants to destroy the profit system because it keeps a vast army of workers idle, because it's not profitable to the idle rich to keep them employed.

Socialist seeks to employ the profit system because, he knows that therefrom arise nine-tenths of the evils and sins of mankind. Take the 10 cents profit out of the 15 cent drink of whiskey and Mr. Toper will be forced to brew his own beverage.

Second. Is not this the best government on earth?

Ans. Undoubtedly it is for the few, but not for the many.

Third. Is not our system of business economics the finest, grandest, most honest the sun ever shown on?

Ans. Yes, for the few, but not the many. I cite World Almanac prepared by R. G. Dunn & Co.: Business failures for 1884, number 520, liabilities \$8,579,000; business failures for 1908, number 15,840, liabilities \$222,315,684. How is that increase for the finest business economics and the most honest the sun ever shown on? No wonder Old Sol hides his face now and then in an eclipse! Possibly at the time of eclipse some merger is taking place and he doesn't want to see it.

Fourth. Are not the people satisfied with present conditions?

Ans. No. Read the handwriting on the wall—the growth of Socialism—not only throughout the world but the United States in general and our own Orange county in particular, which at the last election which at the last election, without the name of a Socialist candidate published, made over 400 per cent Socialist gains.

Fifth. Is not competition the life of trade?

Ans. It may be the life of trade, but it's the death of the individual; viz. the number of trusts that have been formed in the past few years give evidence that the great minds and moneyed men disagree with you in regard to competition, as they are operating collectively and co-operating, but also for only a part of society.

Sixth. Is not the survival of the fittest a law of nature?

Answer. No, sir. It's a law of the profit system, whereby the fittest with his cunningly devised laws and strong chains of ignorance, prejudice and superstition he holds the unthinking, unreading masses in bondage and appropriates through wages nine-tenths of the product of their labor. Hence, the misery of disease, spread by poverty, seared by the profit system, damned by ignorance and rocked in the cradle of prejudice. More anon.  
Yours for the awakening,  
SOCIALIST.

To the editor of The Herald:

The writer has read with much interest the article in Mar. 24th, issue headed, "When the worker comes into his own." This article is household work. It ought to be familiar to our Sanford farmers anyway. Every shipper of vegetables knows full well that this article is only true, and still they go on making the rich richer and themselves poorer.

Congress could help these matters if we had one, but lamentable indeed it is that the servants of the people (or men we employed as such) go to Washington to have a good time. Legislate for the Monopolists and draw their salaries. And they don't forget to raise their salaries to often. The railroads going into the Interstate Commission in regard to raising of rates, shows plain what could be done if we had the right men at the Capitol. Standard Oil was fined you all know, we suckers really thought it was pure. I expect the tariff revision will be next. How will it come out. In behalf of the Monopolists that got their breath from this high tariff act.

Every voter ought to think just as our friend does who wrote the article in last week's paper. This gentleman asks us to guess his name, he need not be ashamed of it I am sure. If I were going to guess I would say it sounds like good sense, and perhaps from our untal friend McDougal. Anyway farmers, it is all right. Don't care who wrote it.

**CELERY AVENUE NEWS**

Special Correspondence to The Herald:  
Good rains have fallen throughout the celery delta recently and all the spring crops, such as beans, squash, tomatoes, cucumbers, etc., are on the jump.

The very sudden death of little Angus, the four-year old son of Mr. and Mrs. Angus Chappell, Thursday night of last week has cast a gloom over the family and friends which only time and the thought that there is a better world beyond can dispel. Little Angus was only sick a few hours.

Mrs. Consey, who has been visiting Mrs. Welker at Beck Hammock, has returned home.

I have had a postal card from my friend who is now or was then in Wilmington, N. C., and priced celery on the market and quotes six small bunches for 25 cents. Now this means \$3 for a six dozen crate. If the retailer bought it of the commission merchant for say \$2 the retailer's profit would be \$1 or 50 per cent. Would you, Mr. Trucker, be satisfied with a 50 per cent profit. If so, it means this: If it costs \$350 per acre to raise celery, 50 per cent profit on \$350 would be \$175 or \$875 for five acres. Then your other crops would bring your net profit up to \$1,200 or \$1,500 per year, and a decent living assured. If you are not getting this you are asleep and should wake up and get into the Union; for in union there is strength. United we'll stand, divided these truck farms will grow up to weeds.

The recent sad automobile accident in DeLand, by which a Mr. Sellers lost his life by being run over by an automobile, should be a warning to some of Sanford's reckless auto drivers, lest the same thing be repeated here. And right here I might say that one thing that helped to defeat the brick roads proposition was the utter disregard for other people's rights as shown by the autoist. A. FARMER.

**PAOLA POINTS**

Special Cor. to The Herald:  
Surely no one can complain of the delightful spring weather we are having and moonlight nights thrown in.

Miss Stanley and Miss Hoffman of St. Louis, Mo., who have been visiting Mr. and Mrs. W. B. Buchanan left Wednesday morning of last week for St. Louis, accompanied as far as Jacksonville by Mr. and Mrs. Buchanan, all taking the beautiful river trip.

Miss Sara Smith, after a brief vacation at her home here has gone to teach a short term in Ft. Pierce.

C. F. Cooley and Miss Sara left for their home in Wisconsin Saturday last.

Mrs. E. A. Curtiss returned to Sanford Monday.

W. H. Taylor spent Sunday last in Paola.

Miss Ramona McLain of Geneva arrived Monday evening to spend a week with her sister before school closes.

A small picnic party enjoyed a day's outing at Palm Springs Thursday of last week.

Mr. and Mrs. W. H. Chadderton made a short visit in DeLand the first of the week.

Mr. and Mrs. Howard and Mrs. Roberts of Euatis spent Tuesday in Paola, the guests of Mrs. C. F. Cooley and Mr. and Mrs. Chadderton.

Miss McLain gave an afternoon party for her scholars and their little friends last Saturday at the home of Mrs. W. H. Taylor. An egg hunt and various games were enjoyed, and delicious cake and lemonade were served.

**GENEVA JOTTINGS**

Special Correspondence to The Herald:  
We are sorry to know that our little friend, Mede Baker, is quite ill with throat trouble.

Mrs. G. R. Nicholson and Bunny Tillis are again at home after a pleasant trip to Osteen and Sanford.

Mrs. Ashton Baxter and baby boy, of Gainesville are visiting Mr. and Mrs. Huddleston.

Meedames Twitchell and Sutphene who are visiting at Winter Park, visited their friend, Mrs. C. A. Raulerson, last week and attended the school picnic on Tuesday.

Dr. J. J. Burns accompanied his son R. L. Burns, home and will make a visit of some length there before visiting in Terra Haute, Ind., and other places.

Mrs. Will Hand and two interesting

children, Clarice and Carl, are visiting Mrs. Aubrey Moran this week.

Mrs. I. T. Peters returned Saturday from Daytona Beach where she visited her daughters, Mrs. O. R. Nicholson and Miss Irene Peters.

All are glad to welcome Miss Mabel Daniel home for the summer.

David Speer and J. T. McLain of Geneva met the soliciting committee of Sanford Saturday and together they canvassed the business section of Sanford funds to aid in constructing the draw bridge at Geneva ferry across the St. Johns; they were much gratified with the ready response with which the good people complied. This bridge is a sure thing now and will be of incalculable advantage to Geneva and Sanford. With this new bridge and our railroad, so fast nearing completion, this portion of Orange County is sure to boom.

On last Thursday afternoon Mrs. I. D. Hart had the misfortune to fall and break her right arm just above the wrist. Dr. Nixon responded to the call and rendered all necessary attention. The considerably bruised Mrs. Hart is doing as well as can be expected. Her many friends extend sympathy and hope she will soon be up.

Grandpa McLain of Jackson, Ga., is now with his son J. T. McLain and will make Geneva his home for a while.

Mrs. Lee from Lake Chalm visited friends in Geneva this week.

Dr. and Mrs. Lewis returned to their summer home in Defiance, Ohio this week. With much pleasure will we look forward to their return next winter.

On last Sunday evening the program of recitations and music for the benefit of the orphan's home at Arcadia, was successfully carried out. The church looked very pretty with quantities of ferns and cut flowers arranged near the pulpit. The children acquitted themselves creditably, the reading by Mrs. Moran, the latest fact about the home by A. B. Doane and the address by our pastor, Rev. E. Lee Smith, were listened to with interest and very much enjoyed. The beautiful music was one of the most delightful features of the evening, besides having some of the best singers from the Methodist church to assist, we had Meadames Will Adams and Sutphene, the best alto and contralto singers that have ever visited Geneva. The duet by Mrs. Adams and Mrs. Pattiehall, and the solo by Mrs. Sutphene with Mrs. Raulerson at the organ were delightful to listen to and the Baptist congratulate themselves at being fortunate enough to have these to sing. A very liberal sum was contributed for the exceeding the expectations of the committee, and to the public the thanks of the church are heartily extended as well as the thanks of the children at the home.

Quite a pleasant party consisting of Mrs. Harris, Miss Maude Harris, Stanley Walker and Stanley Foster came out from Sanford Sunday afternoon, in their car, visited the family of Mrs. Devid, attended the exercise at the Baptist church and returned later.

**MOORE'S STATION**

Special Correspondence to The Herald:  
Mr. Erlich, the Christian Jew of Atlanta, Ga., gave a very interesting talk here Sunday to a large gathering.

Mr. and Mrs. J. O. Packard, Mr. Packard's mother and the Packard young folks of Sanford were entertained at the Gilbert home Saturday in honor of Howard Gilbert's fifteenth birthday.

We understand that Mrs. W. A. Minnick of Cameron City is quite ill.

Miss Jennie Randall left for her home in Shelton, Conn., last Thursday, after making an enjoyable six weeks' visit with her uncle and aunt, Mr. and Mrs. R. M. Warner.

Geo. Mitchell, for several years guard at convict camps, has given up the work and together with his bride is here and erecting a home on Mitchell avenue.

Mrs. Louie Willis was the guest over Sunday of Mrs. J. M. Prevatt in Geneva.

The McLellan children visited their grandmother in Geneva over Sunday.

Potato digging has begun. About next week will see the work in full swing. A good deal of cabbage is being cut and shipped.

If your aim in life is to economize and to have for your everyday use dependable goods at the lowest possible prices we ask you, not for our sake, nor for this town's sake, nor for the sake of anything but your own pocket book and your bank account, to aim for our store and hit the centre of economical buying. Closing Day of Woodmen Convention  
[This article should have appeared two weeks ago, but was crowded out for lack of space.]

One of the largest state conventions ever held in Florida was entertained in royal style by the Woodmen of the World Camp and Circle (the ladies' auxiliary) of Sanford. This organization is for the protection of the widow and orphan and the uplifting of the home to the highest development. While the order is a non-religious one, yet every member must believe in God and all meetings are opened and closed with religious ceremony, that is sublime in character, beautiful in ritualistic work, developing within each participant a determination to follow more closely the Savior, Christ's teaching, thus making universal the "Fatherhood of God and brotherhood of man." And the closing act of this great convention in Sanford was an example of the customary rule the world over—a donation given by the Men Sovereigns to the ladies' auxiliary to be used for charitable purposes as they desire. It was the unanimous wish that this offering be given to the Orphanage at Enterprise, which is under the auspices of the M. E. Church, South.

A naphtha launch was chartered Thursday afternoon, Mar. 16th, and a large party of the ladies enjoyed a ride across beautiful Lake Monroe and were graciously received by Rev. and Mrs. Hoffman and their charge of twenty-seven orphans, who gave a most cordial welcome and also an exhibition of their training.

Mrs. J. D. Parker, guardian of the Woodmen Circle of Sanford, gave the response, and in closing explained that this visit was to present to them a cash gift.

Immediately the twenty-seven little orphans fell upon their knees and voluntary prayers for a girl and a boy were offered, asking God's blessing upon this great order, as their return thanks. There was not a dry eye in this assembly at this touching and holy spectacle. It clearly showed the prayerful guidance and teaching of Rev. and Mrs. Hoffman, whom words cannot praise too highly.

Mrs. Mary Henry of Tampa also gave the children an interesting talk.

This fund came at a time when the interior decorations of the home had been stopped, for their means had been exhausted and no promise with which to finish. Rev. Hoffman informed this committee that the work would be resumed immediately and be known as the Woodmen of the World memorial painting.

Huge boxes of fruit, candies and a large supply of dainties for the dining table were then given for the cheer of the little ones.

The joy this visit gave and the sunshine cast at the Orphanage at Enterprise will be a precious recollection as long as memory performs her function to all so fortunate as to be present.

Business Kept Things Lively  
In Council Chamber

Council met in regular session. President—D. L. Thrasher, president; W. D. Holden, J. D. Davison, S. Runge, H. Ward and H. R. Stevens. Absent—B. A. Howard.

Minutes of last meeting read and approved. Reports of marshal and treasurer for March read and ordered filed.

Ordered that the board of bond trustees be instructed to deduct their commission from the amount on hand and turn the balance over to the city treasurer, taking his receipt for same.

Moved and seconded that the clerk be authorized to lower the assessment of W. C. Stewart from \$3,500 to \$3,000 and the assessment of R. McPherson from \$1,800 to \$1,600.

Request of R. McPherson in regard to exemption from taxation of the property of Friendship Lodge referred to the clerk.

Report of Mr. DuBose, who was appointed to audit the account of the bond trustees and Mr. R. C. Maxwell reported everything O. K. and Mr. Maxwell was discharged from all liability under his bond.

The clerk was instructed to refund Mr. Joe Cameron the amount paid for tax redemption certificate and Jupiter Lodge, it being exempt from taxation.

The following resolutions were duly passed:

Be it Resolved by the City Council of Sanford, Florida, that the Clerk, Treasurer and Assessor be allowed pay at the rate of \$80.00 dollars per month for his services; this rate of pay to date from the time the present incumbent assumed the duties of his office.

Resolved by the City Council of Sanford, Florida: That the city will accept vouchers in payment for any sidewalk and paving done due to the city, if paid during the months of April and May 1911, and that the City Clerk is hereby instructed to notify all parties owing such liens of this resolution.

Be it Resolved by the City Council of Sanford: That the occupants of all premises within the city limits, where garbage is removed by the City Scavenger Department, shall deposit all garbage in a closed receptacle; and, that water must not be thrown, or allowed, in such receptacle, and that the said garbage receptacle must be placed at a point that the scavenger can have easy access to same.

Resolved Further: That the City Sanitary Inspector shall strictly enforce the above resolution.

Resolved by the City Council of Sanford, Florida: That the House Committee be empowered to employ a janitor, to be paid not more than \$30.00 dollars per month, whose duty shall be to keep clean and in good order the city building, jail and fire house belonging to the city, and to perform such other services as the committee above named may direct.

Whereas, the city of Sanford has more than doubled in population since the year 1893 and is still very rapidly growing and developing, and,

Whereas, it has come to the knowledge of this board that the present city charter passed and approved by the legislature in 1893 is inadequate in many respects and,

Whereas, it is important for the general welfare of the city of Sanford at the present time as well as in the future, that ample provision should be made by legislative enactment, allowing the city of Sanford certain rights and privileges not now possessed, and,

Whereas, this body has caused to be drafted and prepared a new charter for the city of Sanford, which has been submitted to this board for examination, and,

Whereas, the proposed charter has been thoroughly examined by the city council, Therefore be it Resolved, that the same meets with the hearty approval of this board, and the Honorable L. C. Massey, Senator from Orange County, and the Honorable Forrest Lake and the Honorable S. A. Robinson, Representative of Orange County, in the legislature of 1911, be earnestly requested and urged to use their best efforts towards the passage of the proposed new charter for the city of Sanford, Orange County, Florida.

### Why Not Sanford?

The question of capitol removal has been buzzing in the St. Augustine bonnets for a long time, and recently it has been discussed by a number of state papers. The capitol is bound to be removed from Tallahassee to a more central location sometime, and when that time comes a location ought to be considered with all the advantages, instead of merely with more advantages than its present location.

Some of the papers seem to hold the opinion, with sort of a helpless air, that Jacksonville is bound to get the capitol when it leaves its present sleepy quarters. Such is not necessarily the case. In point of importance the Gate City would, of course, capture first honors, but there are other considerations. Most of the country is so far south of Jacksonville, that from an economic point it may be dropped from discussion. The Ancient City Beautiful may have many reason for wishing and expecting the Capitol, but about the same reason of distance and inconvenient transportation applies to it as to Jacksonville. St. Augustine would be an ideal location and is the most beautiful and cleanest city in the State, but as Jacksonville is the Gate City, St. Augustine is merely on the Garden Wall, and the Capitol must be placed in a central location.

The Tampa Tribune suggests either Gainesville or Ocala for the site, being somewhat centrally located, but all remarks on the subject of Capitol removal have missed the logical point, geographically and with due regard to the center of population. If we are building only for the present, either Gainesville or Ocala, or even Palatka for that matter, would be near enough to the central part of the state to be of advantage. But are we merely building for today? Has not the future a claim on our work and on our plans? The one point that can overcome objections, the point where the Capitol logically belongs, and where it will no doubt be placed, is Sanford, Lucky Sanford.

Altho Sanford is not exactly in the geographical centre of the State, it is nearer than any other point with the transportation facilities. Aside from the fact that Sanford is destined to become one of the greatest cities of Florida, its present natural advantages give it first claim for the Capitol. Sanford now has five railroads, one city and interurban street car line in operation seven miles long, an interurban street car line in course of construction, running through one of the most populous and most rapidly growing sections of the state; a steamship line with growing freight and passenger service, and another steamship line proposed; Another railroad which will soon be in course of construction, and to add to that, Sanford is in the heart of one of the most fertile and best producing sections of land on the face of the globe.

Not many years hence the great Everglades will lose all of their mystery and will be peopled by tens of thousands of happy and prosperous citizens, and the strip of land along the Atlantic Ocean for about 500 miles will furnish its quota of people. The Capitol will then be in reach of the multitudes that will inhabit the fertile valleys of the Manatee, the Kissimmee, the Caloosahatchee and the vast region around Lake Okeechobee. The dwellers of the fast growing city of Tampa will be able to reach the Capitol in a few hours by train, and eventually by trolley car. The new lines of railroads being built through the orange growing sections of the State will open up the country for its thousands of people who can reach Sanford in a very short time. Even Jacksonville will be nearer the Capitol than she is now. In fact, practically every part of the state that is showing much progress and that has a future will be benefitted when the Capitol is removed to Sanford. With the Ocean not many miles away the Governor may motor to the Beach for an afternoon dip in the glorious surf at Daytona or Coronado, or he may go by electric car, which is the way most of us will go within a few years. The St. Johns will be bridged for wagon, auto and trolley, as well as for more railroads.

With the state house on Sanford

Heights and the other state buildings on either side, all facing the majestic St. Johns and the beautiful Lake Monroe, the capitol of the great state of Florida can be made the peer of any in the south.

J. W. GOSSMAN, H. D.

### To Patriotic Floridians

This paper invites you to help the Florida citrus fruit grower to create a bigger demand for his product in the markets of the country. You can do this by mailing to your friends in the North a card which this office will furnish you in any reasonable amount. The card can either be mailed inside of a letter or as a post card by affixing a one cent stamp. The prosperity of the Florida orange grower means prosperity for Florida. Write to this office for your quota of cards and do it now.

### Ripe Peaches in April

A. McDonald brought some ripe peaches into The Herald office last Saturday. This is going some in the peach business, as the sweet things are not supposed to blush for several months yet. On account of the extreme warm weather prevailing for the months of January and February the peach tree bloomed and the fruit matured, and the peaches are now happy in the stomachs of the office force.

Where seems to be great dissatisfaction throughout the State generally as to the results obtained from most of the fertilizers used last season.

Many growers are now beginning to see clearly what we have been suggesting for some time, they might expect to have happen from the continued use of the Acid Phosphate (rock) goods.

A curiously large number of those of our old customers who were gotten away from us by the inducements of the so called "cheap goods" "Just as good as Mapes," are coming back to us this season to have their groves and fields restored.

The Mapes Fertilizers are evidently considered a refuge in extremity when help is needed and hope almost gone. **THE SANFORD HERALD**

Published every Friday Morning at Sanford, Fla.  
R. J. HOLLY, Editor and Proprietor

Subscription Price, \$2.00 a Year in Advance

Entered as second-class mail matter August 22nd 1908, at the Postoffice at Sanford, Florida, under Act of March 3rd, 1879.

Office in Herald Building  
Telephone No. 148.

The Herald wishes to remind the smokers of Sanford that we have a cigar factory in this city making good cigars. Are you pushing for your home industries?

On account of the incorporation of Sanford Heights the new home of Editor Holly is for sale. We are leaving the Heights and seeking the level again, which demonstrates that fate usually kicks an editor when he attempts to get on a higher plane.

For the benefit of our readers the paper will publish two columns of matter covering the legislature during the sixty days' session. A special representative of The Herald, Mr. R. A. Gray, will send in the report each week and the general proceedings will be covered.

**FRANK CLARK'S SACRIFICE**

Because he sacrificed his own interests in order that Congressman Stephen M. Sparkman might be made chairman of the rivers and harbors committee of the House, Congressman Frank Clark is the toast of the state today—and he deserves the praise that is being and will be accorded him.

Mr. Clark is senior Democratic member of the important marine and fisheries committee, and was therefore entitled to the chairmanship. The committee is one of much importance to Florida. He considered, however that Florida would be most benefited in case Mr. Sparkman could be made chairman of the rivers and harbors committee. In the appointment of chairmanship honors it was evident that one of the Floridians would be defeated. Therefore Mr. Clark, without hesitancy notified the ways and means committee that he would withdraw his candidacy for the chairmanship of the marine and fisheries committee and devote his strength to Mr. Sparkman. Because of his relationship and association with Speaker Champ Clark, Frank Clark could undoubtedly have secured the chairmanship of his committee, but he gave up his ambition for the good of Florida. There are but few similar cases in Congressional history.—Jacksonville Metropolis.

**SANFORD AND SANFORD HEIGHTS**

Several weeks ago a majority of the citizens residing in the suburb of Sanford Heights decided to incorporate a separate and distinct municipality. Their action was taken because they had reason to believe that the city of Sanford intended to embrace them in the corporate limits of Sanford and they would be forced to pay city tax without getting any improvement in return. While some of the residents of the new town may have been impelled by the thought of dodging city taxes a majority of the residents were willing to become a part of the city of Sanford in the near future and had no wish to stand aloof or to restrict the growth of the greater city.

During this period the editor of The Herald has taken no part in the controversy, thinking an amicable adjustment could be made. Occupying a position as he has between the firing lines of contending forces and in the unenviable position of owning a newspaper in the city of Sanford while residing in Sanford Heights the Herald editor was hopeful of a peaceful conclusion without the resort of airing our grievances to the public eye of the outside world. But the gauntlet has been thrown down by the two cities, Sanford Heights going ahead and establishing a chartered town and Sanford in a new charter extending the lines to embrace the recalcitrant inhabitants thereof.

Lack of space forbids an extended account of the merits of the case. The main point at issue is that The Sanford Herald always an advocate for a greater and better city does not and will not aid or abet the establishment of a city close enough to our borders that would in any way conflict, infringe or restrict the growth of Sanford. Since the very inception of this paper into the public life of Sanford the aim has been to help the city to grow. Our efforts along this line have blinded us to the call of friendship.

If this has happened it was only because the paper has blindly and unselfishly labored for the Greater Sanford and this issue has been paramount to every other.

In this crucial period the editor of The Herald wishes to state that he has always been against the incorporation of Sanford Heights, solely because it stopped the progress of Sanford at a time when

our city should move ahead—a united movement on the part of every true citizen. The mission of The Herald in the main has been a peaceful one, yet events are now shaping themselves in a manner that demands action and we are for Sanford first, last and always.

A city divided against itself can never hope to become great, and the petty warfare now being waged on account of the stretching of the boundary lines will not give us concerted action of our citizens upon the great questions that are right now confronting the city.

An internecine war that should have been avoided and yet it is one that is bound to occur in every growing city.

And Sanford will continue to grow.

**THE HERALD'S PIANO CONTEST**

The Herald's popularity contest closed last Saturday after a several months' campaign waged with good natured rivalry. The contest, started from the beginning on a large scale was taken in charge by Mr. Seitzles of the New Method Contest Co., who fell down on the job. Mrs. M. Florence Keyes afterward took charge of the contest and in the face of difficulties has carried it out to a successful termination and it is due alone to her efforts.

The contest has proven beyond peradventure that The Herald has the best list of paid up subscribers of any weekly paper in this section of the state. Solicitors and contestants were up against a hard proposition in securing subscribers in a field so thoroughly covered and it seemed a foregone conclusion that the contest would prove a tame affair.

The Herald can recommend Mrs. Keyes to the fraternity in Florida as a lady of honesty and ability in her profession, and any paper contemplating a piano contest can get results by a contract with Mrs. Keyes.

The Herald wishes to thank each and every one of the young ladies who worked so hard in the contest. Under better conditions the management could have rewarded each and every one of them as they deserved, but as there was only one piano the other contestants will each receive cash rebates that will entitle them to purchase a fine piano with a small amount of cash money.

Miss Maude Harris won the piano by dint of hard work on her part and that of her friends and is receiving congratulations upon winning the prize—a piano purchased from A. H. Crippen & Son of this city and an instrument of value, not one foisted upon the public for revenue only.

In conclusion the management of The Herald wishes to announce that in the early fall a larger contest will be arranged, in which there will be four prizes: An automobile, a fine piano, a horse and buggy and a diamond ring, provided that the field will warrant such an outlay of cash for such large prizes. At this time the Daily Herald will be launched and will give the contestants a chance to work an entirely new field.

**New City Directory**

The new city directory for Sanford is now being compiled by R. L. Polk & Co. and will be ready in a few weeks for delivery. The representatives are meeting with success and every one seems interested in having this valuable information compiled in the form of a directory. The canvassers state that the new directory will give an efficient count of the inhabitants of the city besides other information. The last Sanford directory was one of the best ever compiled in this section and gave general satisfaction, and this edition will be just as accurate and will no doubt please the public.

**HEAT AND COLD.**

The Range Between Liquid Helium and the Arc Light.

Have you never wondered on some terribly cold winter day, when the falling temperature had long since passed the zero mark, if it could possibly be any colder anywhere, and then, when summer comes and the mercury is apparently never going to stop climbing, you cannot imagine how anything could be hotter or more uncomfortable?

Fortunately, we live in a world where the temperature seldom exceeds the limits of, say, 50 degrees below zero Fahrenheit and 110 above. This seems a tremendous range of temperature, but it is only trivial compared with that found on every side in nature or in the laboratory. Why, this 100 degrees is less than the range through which a dish of cold water is heated when you place it on the stove to boil.

A moment's thought of some of these higher and lower temperatures is well worth while. Liquid air at 313 degrees below zero is cold, but liquid hydrogen at 421 is still colder, while liquid helium at 451 below zero is the coldest thing we know of. Going the other way, lead melts at 620 degrees above zero Fahrenheit, while gold remains solid up to a bright red heat, or 1,948 degrees. A good furnace fire may get several hundred degrees hotter than this. Platinum, one of the most refractory of metals, melts only when intensely white hot at a temperature of 3,280, but even this is 100 degrees or so less than the temperature of the flame on your gas stove.

The hotter a body is the more light it gives, so the tungsten lamp filament, which runs at about 4,500 degrees, gives a brighter and whiter light than the carbon filament at 3,500. The electric arc gives still more light for a given amount of current consumed and generates a temperature not far from 7,200 degrees Fahrenheit. This is the highest temperature we can produce artificially. No metal known can stand this terrible heat, and even most refractory substances, such as carbon, are volatilized by it.

But, while the arc is indeed hot, it is by no means the highest temperature to be found in nature. There are the best of reasons for believing that the temperature of the sun is some 12,000 degrees or more, and it is probable that some of the stars are still hotter. This great heat explains the almost unbelievable fact, found by Langley, that sunlight is 5,000 times brighter than the dazzling stream of molten metal from a Bessemer converter.—New York Tribune.

Fagg of Jacksonville, of the Children's Home Society, during the few days recently spent in Sanford made several fine addresses, and created considerable interest in the Juvenile Court and Child Labor Bills that will soon come up before the legislature now in session. Mr. Fagg addressed the ladies of Sanford Thursday afternoon in the Welaka club on America's New Justice to Children. Sunday morning he spoke at Cameron City, Sunday afternoon in the First Presbyterian church, Sunday evening in the Congregational church and Monday morning in the Sanford High School. During Mr. Fagg's stay in Sanford he was the guest of Mr. and Mrs. Henry Wight at their home on Park Ave.

Sanford can boast of some superior advantages for her young people, not the least of which is the excellent school of vocal music that is being taught by Mrs. R. Homrighous. At her home last Saturday evening there was a most creditable recital of pupils in vocal music, in which the advanced pupils took part. Those on the program were Miss Flossie Frank, Miss Gladys Gardner, Miss Mercedes Munson, Miss Laura Fish, Miss Ellen Mahoney, Mrs. George L. Speer, Clarence Mahoney and Frank Adams. These recitals will be given every week. UNDER PRESSURE OF LEATHER TRUST MANIPULATION

Today, in the United States, more than one hundred leather tanneries are closed down. WHY? In order to reduce the available leather now on the market and thereby force the manufacturer to pay an increased price for leather, who, in turn, is compelled to make the retail merchant pay an increased price for shoes, or slight the shoes in their quantity and construction. The retail merchant protects himself in turn and the consumer pays the price put on the shoe.

If you buy your Shoes from us, you are not at the mercy of the Leather Trust. We can save from 10 to 15 per cent. on every pair of shoes you buy of us.

We are the SOLE agents in Sanford for the ONLY Shoes made in AMERICA, INDEPENDENT of the Leather Trust.

### WON CORN GROWING CONTEST

#### Illinois Man Wins \$1,000 Trophy For The Best Ear of Corn

R. A. James, of Charleston, Ill., has the proud distinction of having grown the best ear of corn in all the 3,125,713,600 bushels of last year's bumper crop. At the National Corn Show just held at Columbus, Ohio, this gentleman was awarded the W. K. Kellogg National Corn Trophy, denoted in 1909 by W. K. Kellogg, president of the Kellogg Toasted Corn Flake Co., of Battle Creek, Michigan.

Thousands of ears of corn from all parts of the country and of all varieties were entered in the competition. The selection of the grand champion Sweepstakes and the award of the Kellogg trophy were made on general points of superiority.

The ear of corn grown by Mr. James is of Reid's Yellow Dent variety. It is 10 inches long, 7 1/2 inches in circumference, and has 20 rows of kernels, 6 to the inch in the row, average 5-8 of an inch in width. It is indeed a very correct type of yellow dent corn.

work and painstaking seed selection and careful breaking from season to season.

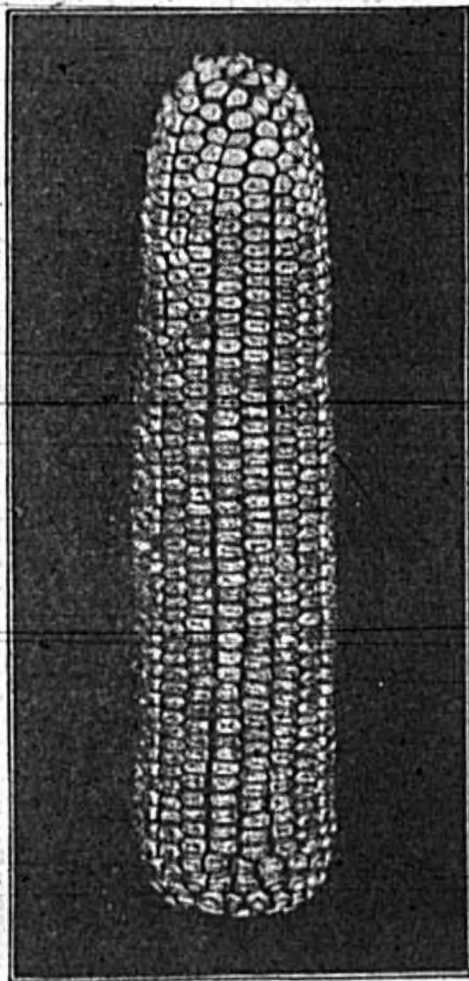

Illinois growers are especially elated over the result for the reason that this is the first time in four years that the honors have been wrested from the state of Indiana. Last year's champion ear, the first winner of the Kellogg trophy, was grown by Mr. Fred C. Palin, of Newtown, Ind. And it was also Reid's Yellow Dent variety, crossed with Alexander Gold Standard. Last year's prize winner is the most perfectly formed ear of the two, though it requires a careful judge to distinguish the points of superiority.

The trophy awarded to Mr. James was made by Tiffany, of New York, for Mr. W. K. Kellogg, at a cost of \$1,000. It is made of Sterling silver, bronze and enamels, and is a truly artistic creation. It stands 30 inches in height. Mr. Kellogg's interest in corn growing can be understood when it is stated that the Kellogg Toasted Corn Flake Co., of which he is president, has an output requiring 10,000 bushels of corn a day, raw product, for its manufacture. A peculiar

feature is that while the Kellogg product is made exclusively from selected white corn, the Kellogg trophy has been won each time by a yellow corn exhibit. The trophy is offered for annual competition until won twice by the same grower.

The National Corn Show at which the award was made, was an event of tremendous magnitude. At one of the sessions President Taft was president and delivered an address.

### HERALD'S PRIZE PIANO CONTEST

#### Concert Grand Piano Won by 106,500 Majority Votes by Miss Harris

The closing chapter in the Sanford Herald's Popularity Contest seals the record of one of the most successful contests ever in South Florida.

Miss Maude Harris, a charming young lady won by a majority of 106,500 votes.

Miss Gladys Gatchel, an expert stenographer followed with a flattering support and secured second honor, a \$200 rebate certificate. Miss Gatchel will apply this rebate and secure a piano.

Miss Mildred Potter, only eleven years of age, displayed unusual business tact to secure third honor and received a \$175 rebate certificate. Miss Mildred has been presented by her parents with an elegant piano, applying the prize certificate.

Miss Stuman won fourth prize, a rebate certificate of \$150. And Miss Jessie also plans for an elegant piano.

The High School won fifth prize, re-

ceiving a rebate certificate of \$125. And it is only a matter of time when a piano will adorn these classic halls.

Cameron City church gained sixth prize, a rebate certificate amounting to \$100.

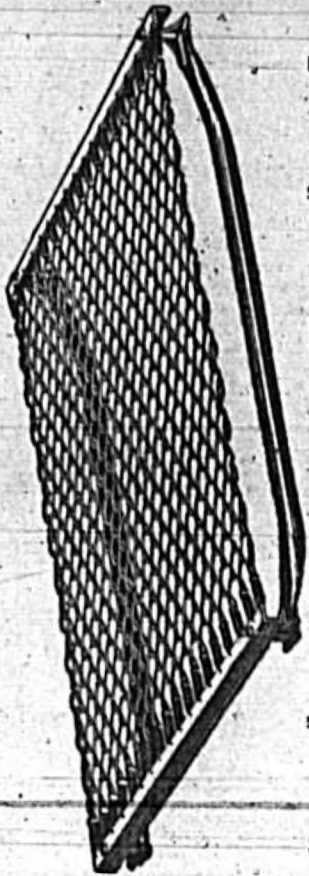

The remaining contestants will each receive a rebate certificate of \$100.

All through the contest there has been the greatest effort on the part of each contestant, and friendliness and goodwill has permeated throughout this keen rivalry to secure the Grand Prize Piano.

To each contestant and their friends I wish to extend thanks for kindness and courtesies shown and shall remember "Lucky Sanford" with fond recollections.

M. FLORENCE KEYES,  
Contest Manager.

The growth of the little city of Sarasota and its prospective development have warranted the opening of a new bank, which was organized March 7, with a capital of \$25,000, all held locally. It is to be called The Citizens' Bank of Sarasota.

#### Richard Howard Whitner

Born October 25, 1861. Died April 2, 1911.

Howard Whitner, as he was familiarly called by his friends, was born in Florence, S. C., and removed to this city with his family in 1868. During his residence in Sanford he was actively engaged in different lines both mercantile and agricultural. After the freeze Mr. Whitner removed to Atlanta where he married and engaged in business, coming back to Sanford a few years ago. While a sufferer from heart trouble for many years, few people realized his condition as he was always of a jovial disposition and inclined to look upon the bright side of life.

About one month ago his condition became so serious that he consented to an operation at John Hopkins in Baltimore, but the heroic measures came too late and he never rallied from the operation. He leaves a wife and one son, who are residing in Atlanta and a brother, Hon. J. N. Whitner, of this city to mourn his loss.

The funeral occurred from the Whitner residence on Wednesday, Rev. J. F. McClunon officiating. Interment was made in Lakeview cemetery.

**Lectures at Catholic Church**

Father Bresnahan is giving a course of lectures this week at the Catholic Church that are interesting and instructive.

He tells you what Catholics believe about Jesus Christ, and what Catholics think of the Bible, why they confess to a priest, why they pray to the Saints, why they pray for the dead, what they believe about Holy Communion, why they pray before images, and so forth. The object of these lectures is not a pecuniary one as all seats are free and you may leave your pocket-book at home, nor is this an attempt to proselytise but rather an appeal to your reason, better sense and fair judgment as American citizens in behalf of the greatest and oldest church in Christendom, a church that gave the Bible to the world and Christianity to every country where it is found today, a church that was in existence 1500 years before the other churches around you were even thought of, a church that never tolerated slanderous and calumnious attacks on the members of other churches but has patiently with those who would make attacks on her own children, a church whose charity is universal and one from its beginning has given to the suffering and ignorant world self-sacrificing nurses and devoted teachers.

Every one is cordially invited to attend the lectures. Every night including next Sunday night.

**Anderson-Baker**

On Sunday, April 2nd, at 10 o'clock at the home of the bride's mother, Mr. Sandy Anderson and Miss Sarah Olive Baker were united in the holy bonds of wedlock, Mr. DuBose performing the ceremony.

Miss Baker is the daughter of Mrs. H. W. M. Baker, a graduate of the Sanford high school and a charming young lady.

Mr. Anderson is a young man of splendid character, honest, hard working and highly respected by all his acquaintances. He is with the Florida Vegetable Growers' Assn. and Fruit Growers' Express, where he has proven himself capable of holding both positions.

We wish for Mr. and Mrs. Anderson a long, happy and prosperous life, and may they always reside in Lucky Sanford.

**Money in Strawberries**

Several growers who tried strawberries this year made good profits on same. One grower netted \$500 per acre and sold most of his berries right here in Sanford.

**ROYAL ALBERT HALL, LONDON,  
CHRISTIAN MASS MEETING.**

**Is the World's Largest and Finest Auditorium—Audience Estimated at Seven Thousand—Which is the True Gospel and What Must Our Creeds Sacrifice in Order to Christian Union?**

London, April 2.—Pastor Russell addressed the huge Convention at Royal Albert Hall tonight. Few preachers are so well known in Great Britain as he. Many of the leading newspapers, both here and in America, publish his weekly discourses. He took for his text, "I am not ashamed of the Gospel of Christ" (Romans 1, 16). He said:—

Let us approach our subject reverently! With reverence, because many of our creeds are white with centuries. They were the creeds of our fathers and mothers. They must not be handled ruthlessly, unkindly. But we must approach the subject with courage because it is a Christian duty. For long centuries God's people have been divided into sects and parties, separated by creedal fences. At one time they gloried in their differences, and destroyed one another in their zeal for what they believed to be the Truth. Now we see more clearly that none of our creeds are without flaw. Now we are willing, yes, glad, to take the Truth wherever we find it and to acknowledge the error, though it be our own. The oneness of the Church requires that we should have this courage! The interests of the world demand it! We have come here realizing that the time for covering errors, of which we are ashamed, is past; that the time for reverencing God and His Word has come.

**Are We Not All Christians?**  
Our topic must be, What is the Gospel of which St. Paul was not ashamed—the faith once delivered unto the saints—"one Lord, one Faith, one Baptism" (Ephesians iv, 6).

The speaker showed that the Roman Catholic Church, in order to unite with others, would need to cut out of her creed everything not found in the Bible—prayers to saints, homage to pictures and images, the sacrifice of the mass, holy candles, holy water, Purgatory, the infallibility of the Pope and the general theory that the clergy alone are the Church and brethren of Christ, and the laity the children of the Church.

The Protestant Episcopal creed next had attention. Little that was objectionable was found therein. One point alone could cause any hesitancy, he was sure—Apostolic Succession. He urged that no Scripture could be found sustaining this theory in clear terms. On the contrary, he gave numerous citations in proof that the twelve Apostles only possessed plenary inspiration and were directly under Divine control—St. Paul taking the place of Judas.

**Election—Foreordination—Predestination.**

The Westminster Confession, the foundation of the majority of Protestant creeds, distinctly emphasizes the teachings of Brother Calvin. We can all agree that the words elect and election, predestinated and foreordained, are Scriptural terms and that truth must underlie and pervade them. But it will give none of us any pain to repudiate entirely the peculiar definitions attached to these words by Brother Calvin. Surely we are all prepared to deny that a God of Justice, Wisdom, Love and Power foreordained and predestinated from before the foundation of the world that everybody but the "elect" should go to eternal torment.

Baptists and Disciples, Pastor Russell declared, have something further to surrender. Surely they may keep water immersion. Surely they may claim that, more fully than sprinkling, it represents the underlying thought expressed in the symbol. But the unreasonable and unscriptural thing which they must renounce in favor of union is that water immersion is a test of membership in the Church of Christ. They must admit that Cornelius, at least, was accepted of the Lord and begotten of the Holy Spirit before his baptism in water (Acts x, 47).

Baptists and Disciples should see the absurdity of claiming that only the water immersed members of the Church of Christ, for thus, according to their theory, they would be doomed to eternal torture as unsaved all of their Christian brethren who had not been immersed. Surely Baptists and Disciples, therefore, may be expected to promptly and heartily repudiate these test features of their theories.

The Methodist Creed was next examined. It was commended for the prominence it gives to the Love of God and His forbearance with the misrepresentations of those who honestly seek to be His children. The speaker asked the Methodist brethren to forgo the worship of their Church

and to give the more homage to the Lord. He admitted the masterfulness of their organization, but reminded them that their Episcopacy is not modeled after anything shown us in the New Testament. It does not even pretend to be any authority along the lines of Apostolic Succession. It must admit that the establishment of its Bishopric was, at least, semi-fraudulent—a supposed emergency, born of error that an Episcopal ordination was necessary to authority to preach.

**That's Sufficient.**

"I am poor, but honest."  
"Don't waste words."  
"Don't what?"  
"Don't say 'but honest.'"

**Some Difference.**

Yes, borrowing is sorrowing.  
Though that depends a lot,  
I'm very sure, on whether you're  
The borrower or not.

**One or the Other.**

"It is easy enough to be a great orator."

"Tell me the secret?"  
"You simply arrange words in a beautiful cluster."

"Yes."  
"And then deliver them with appropriate gestures."

"And wait for the applause?"  
"Or the vegetables."

**Hope For a Poor Girl.**

"England is about to create 500 more lords."

"Think of that."  
"Think of what?"

"Why, they will be on the bargain counter."

**Hard Job.**

"Money made him."  
"It did?"  
"Yes."  
"Must have taken an awful lot."

**With an Ax.**

"One of my hens has quit laying."  
"What are you doing about it?"  
"Laying for her."

**Uncertain.**

When women vote the polls will close,  
And then the man who always knows  
Just how results are bound to swing  
About it will not know a thing.

Pollled carefully the district may  
Have been before election day  
To find how each to lean inclined,  
But can't a woman change her mind?

She may have been determined to  
Proceed to vote her ballot true  
For Jones, but is that up and down  
Sure proof she will not vote for Brown?

She may have been determined, set,  
But it would not be safe to bet  
That she, regardless of advice,  
May not have shifted once or twice.

In the beginning she had thought  
To cast her little vote unbought  
For one who when she came to look  
Allowed his wife to be the cook.

A dozen reasons might be found  
To cause a shifting all around.  
She might discover e'er too late  
He didn't wear his necktie straight.

We'll have to reckon with all this  
When woman enters into bliss,  
For she'll be governed anyhow  
The same as men are governed now.

No more than man can put aside  
His prejudice can woman hide  
The little item that appeals,  
And she will vote the way she feels.

**They Both Knew.**

When the war ended Thomas B. Reed went to California with a vague plan of settling in that new country. He used to tell with intense delight of his examination for admission to the bar of California. A young southerner came before the judge for examination at the same time. The judge asked the southerner if the legal tender acts were constitutional, and the young man answered without a moment's hesitation, "No." Then the judge turned to Reed and asked him the same question. Mr. Reed with equal promptness answered, "Yes."

"Very well," said the judge, "you are both admitted. Two men who can answer that question without hesitation ought to be admitted to any bar."  
—Henry Cabot Lodge in Century.

**Very Simple.**

A rather simple looking lad halted before a blacksmith's shop on his way home from school and eyed the doings of the proprietor with much interest.

The brawny smith, dissatisfied with the boy's curiosity, held a piece of red-hot iron suddenly under the youngster's nose, hoping to make him beat a hasty retreat.

"If you'll give me half a dollar I'll lick it," said the lad.

The smith took from his pocket half a dollar and held it out.

The simple looking youngster took the coin, licked it, dropped it in his pocket and slowly walked away whistling.

**Making Life Worth "Livin'."**

The other day I beheld a woman whose husband earns something less than \$200 a month purchasing her season's wardrobe. Into it went one hat at \$50 and another at \$30. Her neighbors in the flat building admired and envied. One of the bolder wondered.

"Well, I can't help it," said Mrs. Jones. "I just tell Mr. Jones life isn't worth livin' if I can't have what I want."

## ALL AROUND FLORIDA

### The General News of "The Land of Flowers."

## CULLED FROM THE STATE PRESS

### An Epitome of the Week's Most Important Happenings in the State's Domain.

On Franklin street, Tampa's chief business thoroughfare Tuesday afternoon, Josiah Richardson, one of the best known real estate men in the state, shot several times with a pistol at L. D. Geiger, also a well known real estate dealer. One of the shots took effect in Mr. Geiger's right foot, inflicting slight injuries, but the others went wild. That some of the shots did not strike spectators is almost a miracle, as the street was crowded.

Rear Admiral Hutch Coffe, a Floridian, is one of the biggest men in the United States Navy today. He won his place through sheer merit and deserves all honors that have accorded him.

County commissioners of Gadsden county have decided that a new court house shall be erected at Quincy, to cost about \$80,000, and the matter of raising the money to pay for it, by direct tax levy or by floating a bond issue, will be submitted to the people of the county at an early day.

The Titusville Star tells of the probable establishment of a steamship service between Jacksonville and Miami, by the inside route.

Lee county is being urged by the Fort Myers Press to hold a fair next season. It should by all means, and the showing would be attractive enough to draw a large crowd from all parts of the state.

The Palatka News has brought forth Dr. E. S. Crill of Palatka and Hon. Fred T. Myers of Tallahassee as strong gubernatorial timber.

## NEW RECLINING CHAIR CARS

### Just Put into Service on The Atlantic Coast Line

These cars are equipped with all metal trucks, steel wheels, and heavy steel underframes fitted with friction draft gear and heavy buffing device to prevent shock. The air brakes are the latest improved apparatus of the Westinghouse Air Brake Company known as the High Speed Brake. The cars are sixty feet in length, and have a handsome exterior appearance; the gothic windows being arranged to give the effect of a Pullman parlor car. The interior finish is mahogany with a delicate line inlay and tasteful parquetry over the piers between the windows. In addition to the double floor there is a deafening floor provided to reduce the noise of the car when in motion. The floor covering is of Wilton Brussels. The seats are the latest design of reclining chairs upholstered in green frieze plush. The window sash are double to avoid drafts and to exclude dust and smoke. The cars are provided with ample racks for hand baggage. The lighting is especially brilliant being the latest form of Pinac mantle lamp with corona shades, which produce the softest diffusion thereof. There are two women's retiring compartments, one a toilet room equipped with two large mirrors, and dresser, and white porcelain washstands with running water; the other is provided with sanitary convenience flushed with water, the same as Pullman cars. In the other end of the car is a large smoking compartment, in one corner of which is a white porcelain with running water. There is also a men's saloon with a sanitary convenience as described above.

Special attention has been given to ventilation by means of roof ventilators which automatically change the air in the car and keep it fresh and pleasant. The heating is what is known as the Vapor System which is so arranged as to prevent the overheating of the car and affords a mild pleasant temperature. Special care has been exercised in the design of the springs and the cars ride as softly as a Pullman car.

### Tom Johnson Dies

April 10.—Tom L. Johnson, twice congressman from the Twenty-first Ohio district, four times mayor of Cleveland, champion of 3-cent street railway fares and prominent advocate of the single tax theories of the late Henry George, died in his apartments at 8:45 o'clock Monday night after a long illness. Death was caused by cirrhosis of the liver. He was 87 years old.

## IMPORTANT NOTICE

### Citizens of Sanford Should Not Be Misled in Signing Petition

A petition circulated by the promoters of the town of Sanford Heights, asking the members of the legislature to delay action upon the Sanford charter bill if the matter can be left to popular vote. They are asking residents of the present City of Sanford to sign this and are securing signatures.

It is solely for the purpose of defeating, not so much the present charter bill, but to prevent the annexation of the outside territory at any cost. If a popular election upon the question of annexation of territory was desired, this could be had within twenty days; because, under the election laws of Sanford, the call for an election need only be advertised for two weeks.

The very fact that this petition is being carried around by the leaders in the Sanford Heights movement is an absolutely good reason why no resident of the city of Sanford should sign it. It is only meant to prevent the annexation of territory.

A meeting is called by the Commercial Club to be held next Wednesday night for the public discussion of this charter bill and its concomitant measures now pending before the legislature, and if the persons circulating this petition were not bent on mischief, they could at least await the result of a public discussion.

### To the People of Sanford

The undersigned officials of the town of Goldsboro, and representing its citizens, appeal to the citizens of the city of Sanford for aid and sympathy in protecting our town from spoliation or destruction as the result of a plan on the part of your city officials to procure from the present legislature an amended charter, whereby the corporate limits will be so extended as to include the town of Goldsboro and thus destroy our corporate existence.

This town was duly incorporated about twenty years ago and it has ever since regularly maintained its official corporate existence, performing all the duties of a municipality.

We have always been and we are now a peaceable, orderly and law abiding community. We appealed to your council, protesting against the proposed action so far as it affected the interests of this town but our appeal was unheeded. We now appeal to you, citizens of Sanford, for your help in this matter. We are proud of the prosperity and development of your city; but it is no good reason that, because you are big, you should swallow up our town just because we are little. There can be no just charge brought against us to justify the abolishment or overthrow of our corporate existence. If it is done in the way proposed it will be an instance of the tyrannical use of might, of power, and because we are few and feeble. Surely you will not justify and uphold such a proceeding?

We have acquired some property as a town. We own our own house, school and other corporate property. We feel a pride in our town organization and earnestly wish to preserve it. To swallow us up in the corporate limits of Sanford will add very little to Sanford and take a great deal from us. It will impose upon us a part of the burden of your bonded and other indebtedness and add heavily to our burden of taxation while we reap no material benefit thereby. We shall make our appeal to the legislature in this behalf and beg that you, the justice loving citizens of Sanford, will give us such support as you can and we shall be ever grateful to you.

G. W. BENTON, President Council  
M. B. BRELLAMY, Mayor Goldsboro  
T. T. GREEN, Town Clerk. 35-41c

### To Cut Expenses

Congressman Clark of Florida dropped a small bomb among his colleagues in the house on Monday when he introduced a resolution the effect of which was to cut off the pay roll a large number of useless employes and to save the government about \$30,000 a year. No sooner had the object of the resolution been stated than members flocked to the clerk's desk to see for themselves who was to be hurt if it passed. Almost immediately there was objection from Chairman Underwood of the ways and means committee. Mr. Clark claimed the resolution was privileged. Representative Underwood, of Alabama, the majority floor leader, insisted it wasn't. Speaker Clark took Mr. Underwood's view and sustained a point of order against the resolution referring to the committee on accounts for consideration.

## A LINE ABOUT SANFORD

### Kansas Man Writes About This Section of State

## OUR REAL ESTATE MEN PRAISED

### Short History of Sanford That Gives Few Salient Facts on The Situation

The Sterling (Kansas) Bulletin gives following interesting account of a trip to Florida that included Sanford:

Still pushing southward, we came to Sanford. At the depot a big sign announces "The Celery City". This one vegetable has made Sanford famous, and in order to impress the passing visitor, a stand along the train platform contains bunches of this succulent white vegetable. It is ice cold and is flanked with dishes of salt. It is free to every one who wishes to sample it, and the passengers who have been riding through the sandy pine forests and sweltering in stuffy cars lose no time in "falling to." A bright-eyed young lady presides and answers all questions. A sign reads, "Ask Sally Ray; she knows." Sally's smiles are delivered impartially, but the honey of her words are for Sanford alone.

The city is too tempting to pass by. It is situated at the head of navigation of the St. John river, which rises in the southern part of the state and flows "northward" for over one hundred miles, paralleling the Atlantic coast line. Steamers load at Sanford and deliver their cargoes in Baltimore, New York and Boston. In addition, two railroads contest for the products of the soil. Sanford has, without effort, what Kansas City is spending a million and a half to obtain—water transportation and freight rates based upon the lowest boat charges.

Everywhere around Sanford are celery gardens of one, two and three acres. It was going to market by the train load. The side tracks were filled with refrigerator cars. Men, women and children were pulling and packing it. Whites, blacks and chocolates were busy. It is packed in crates—125 stalks to a crate. It sells delivered at the cars for \$1.25 per crate. As high as a thousand crates to the acre are raised in good years. Sometimes the price has been \$1.60 to \$2.00 per crate. The stories of big profits in the industry are built around the returns on these good years. But this section has the celery mania, and the visitor has to give his wife his pocket book and stuff his ears with cotton to keep from being enchanted by the song of the siren. Gross returns of \$1000 to \$2000 per acre sounds mighty big. A number of Kansas people have settled around Sanford, Wichita contributing a large number of these. A land company operating in that city has directed one of the many streams of home seekers.

The real estate dealer really deserves more praise than he generally receives. While working for profits, he sings of the country's good points. He is like the sweet voiced mocking bird heard in every treetop in Florida. In his repertoire, he has gathered the best of every tale he has heard of the country's products, of its fruits and flowers, of its climate and soil and water, and of the success of the farmer and vegetable grower. His song is always joyous. In the morning he greets the home-seekers with a cordial welcome and at noontide rests with him in the cooling shade. At evening he soothes the wearied traveler with a lullaby as soft and sweet as the night-in-gale's call to its mate. Without the real estate man, Florida would still be an unknown land to thousands who have learned to appreciate its delightful winter climate and its wonderful resources.

In every town the Observer visited in Florida it was the real estate man who was his best friend, his guide and counselor. In some places we were told, that land companies were selling white sand and blue sky, or swamps and lakes, but every proposition we saw had some good points. In one case an enthusiastic real estate man declared, "This climate is worth \$500 an acre". Believing this, he did not hesitate to ask \$50 an acre for as poor a piece of soil as the sandy bed of the Arkansas river. The land broker has his faults, but he is helping to fill up the Florida peninsula.

At Sanford as well as other points in Florida, artesian water is found at a depth of 75 to 150 feet. This enables every man to have an irrigation on his own place. Water and sunshine are two

## HOSPITAL FOR SANFORD

### Assured by Activity of Ladies and Generosity of Holden Real Estate Co.

The ladies of Sanford (God bless them) have formed a temporary Hospital Association to provide for emergency cases, either of accident, injury or illness. They have collected between four and five hundred dollars in cash. The Holden Real Estate Company have given, not a lot, but sufficient land for present and prospective needs, which is to be selected with the assistance of a committee of physicians and immediately deeded in trust for hospital purposes, pending the permanent organization of the Hospital Association.

The ladies are preparing a plan to submit to a meeting of the association, soon to be called, to make a permanent organization, when actual work will be begun. Who will be members of the organization and participate in the organization? Everybody is invited and should become members.

The membership fee is one dollar and everybody in Sanford and the celery delta, east and west, should join, as well as our friends and visitors. At least a thousand names should be enrolled in the next ten days prior to the meeting. This would insure one wing of the building. In addition to the regular members paying one dollar it is expected that one hundred names will be secured who will pay one dollar per month to the support of the hospital. It will be remembered that most of the patrons will be willing and able to pay for the treatment received. We have efficient surgeons and physicians who no doubt will take turn about in visiting the indigent and all will have a place to care for special cases.

Citizens, this is a necessity. The loss of one valuable life from appendicitis or accident that a hospital could have saved would cost more than the hospital. What home is safe from the need of one. Is yours? The ladies propose to call on every one, but do not wait to be solicited. Send your dollar to Mrs. A. T. Rossetter, secretary, or Mrs. G. H. Fernald, treasurer, and a membership card will be mailed you.

### State Information Bureau

The development of the state of Florida and the injury wrought our fair peninsula by mis-statements of none too particular colonization companies, certainly merits the establishment of a state bureau of information maintained at the expense of the state and to be free from every form of political influence.

If a prospectus claims flowing wells where flowing well are not obtainable, the bureau should have power to cause the truth to be told or take such action as would lead to prosecution for using the mails to defraud. Advertisements and prospectuses could be sent to the bureau for endorsement would greatly add to the value of such publicity and in time non-endorsed untruthful, booklets would cease to be published.

The bureau could furnish information regarding the whole of Florida or any part of it as asked for by Northern people.

There are many other details that could be worked out which would tend to free the state from much harmful publicity.

No better man comes to the Herald's mind than Percy P. Vyle, the well known author editor of Jacksonville. Mr. Vyle is known throughout the state both in person and by reason of his numberless booklets for development companies and municipalities.

By the nature of his business Mr. Vyle is unprejudiced and has no axe to grind about any section. He knows Florida thoroughly and stands well with all those who have the development of the state at heart.

Whoever takes charge, the Herald believes that the establishment of a bureau or similar institution by the State should be one of the most important questions brought up at Tallahassee.

of the requisites for successful farming. Soil is the third necessity. Whatever the Florida soil lacks in essentials, is supplied with fertilizers. It is fed regularly like a hog or steer being made ready for market. No matter what is being grown—vegetable or fruit, the best results are obtained by the use of fertilizers. The cost of these run from \$20 to \$75 per acre, but the farmer here says that is only an investment. It brings sure returns. It is the long season—practically the whole year, which makes tilling the soil so profitable here.

### Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

Judging by the increase in Chicago, St. Louis and other cities where municipal elections have been held recently, the socialists are gaining ground rapidly. In Chicago they polled 84,000 votes, which is double the number cast at the last election, and in St. Louis they cast 1270, which was fifteen per cent of the total.

Dr. B. Clark Hyde, who was convicted after a sensational trial for murdering Col. Thomas H. Swope, the millionaire philanthropist, at Kansas City, has granted a new trial by the Missouri supreme court sitting at Jefferson City. Hyde has been in the county jail at Kansas City nearly a year, following his sentence to life imprisonment.

It seems that Chas. A. Compton of St. Louis must be married before October, 1911. If he has no wife before that time he will forfeit an inheritance of \$25,000, willed to him by his grandfather, Richard Compton.

A Missouri young woman has proved that a woman's "sphere" is a very elastic thing by going into the fields and performing a man's work on her own farm. She is Miss Loretta Judson, twenty-four years old, of Cadde, Webster County.

An amendment which is like to bring the question of what the Christian Science religion is, squarely before the courts, is to be made to the papers in the suit brought in New Hampshire, by the son and adopted son of Mrs. Mary Baker Eddy against the executor of her will and officers of the First Church of Christ, Scientist, of Boston.

Only fifty-four bodies of the 128 victims known to have perished in the Pratt City Coal Company's mine, had been brought out up to Wednesday. Sixteen other bodies are at the bottom of the pit and will be brought to the surface at once.

### Stealing Chickens at Oviedo

Recent hen-roost robberies at Oviedo have caused a little detective work to be done and it appears that the depredators are not poor people at all, but a small gang of sneak thieves belonging to the "best families" and that their work has been going on for several years. It began as "pillau parties," which were thought of as boyish pranks, though the destruction of fowls was so wanton and wasteful that several citizens suffered severely, and in particular Capt. Christiansen had to give up his large chicken ranch as a means of livelihood. The regular pillau parties were soon given up, but the young men have kept on making occasional raids even to the present day. Most of them are afraid of being caught, so the actual stealing is usually done by two individuals, one of whom keeps watch while the other bags the fowls.

It is to be hoped that by and by all these young men will realize that stealing is no longer an amusing prank after the thieves have arrived at so-called years of discretion, and also that while a secret may be safe with one person, a second usually makes it the property of eleven and a third one makes 111, when it can hardly be called a secret at all.

### Fire at Winter Garden

A disastrous fire occurred at Winter Garden last Tuesday night. The loss is estimated at \$15,000 to \$20,000, with only about \$5,000 to \$7,000 insurance. Those who lose heavily by the fire are L. Miller, Dillard & Boyd, building and undertaking parlors, Croft & Jones, building and goods, Mrs. A. E. Jones, building, Roper's meat market, J. J. Vinling, meat market, Griner Brothers, L. D. Jones, Winter Garden Pharmacy, and two barber shops. It took hard fighting to save the little city from entire destruction.
