

VISUAL NEWS of the WORLD in PICTURES

Baer And Braddock Were Well-Matched For Fight

Champion Max Baer and Jimmy Braddock were well-matched from the standpoint of physical attributes. The former held the title over the heavyweights for a record 13 years. Braddock is a former contender. (Associated Press Photos)

AS BRADDOCK WON WORLD TITLE IN UPSET OF THE CENTURY

A year ago Jimmy Braddock was a "has-been" in sport circles but now he's heavyweight champion of the world by virtue of his triumphant decision over Max Baer in their 15-round fight in Madison Square Garden here on Long Island. These visual pictures in part tell the story of Jimmy's victory. At the left, Braddock is a champion taking one on the mouth in the thirteenth round but looks as a fast fighter. Here a harder left jab from Max sends Baer to the right. In the right photo a sign one of Max's shortcomings that cost him the championship is inability to recover with heavy punches. Baer tonight has just swung one, but Braddock is ready to take it. (Associated Press Photos)

Fast Street Train Collision

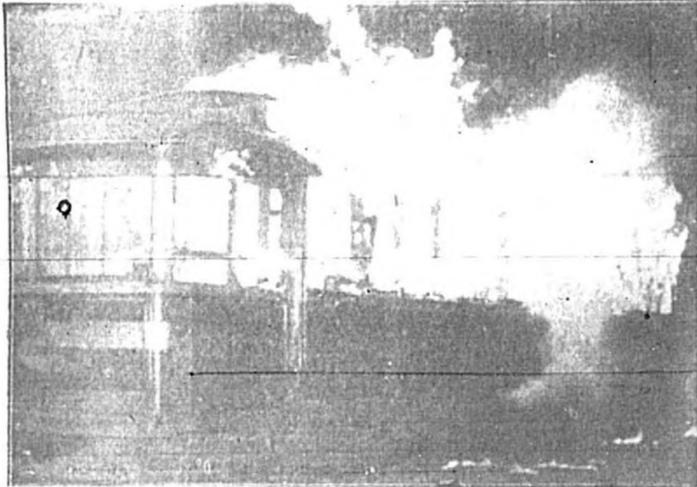

WATER VAY 24—(AP)—Mrs. Vay was killed and her 2-year-old son was critically injured when the Gulf, Mobile and Ohio "Rebel," struck at a grade crossing in service between New Orleans and New Orleans. The train was bound for Fulton, La., and was damaged by the collision. The station was damaged by the collision. The boys' church here, where home two are from here.

CHEERS AND A KISS FOR CHAMPION BRADDOCK

Jimmy Braddock, world heavyweight champion, is shown in Madison Square Garden here on Long Island. Braddock is shown at the left with a crowd as the crowd pounced upon him. Even Max took his rival's triumph good naturedly. And just to show he was a good sport, he planted a kiss on Jimmy's cheek as the picture on the right shows. (Associated Press Photos)

HUEY AFTER HIS FILIBUSTER

Showing evidence of exhaustion and the huey P. Long of Louisiana is shown just a hour filibuster against a congressional resolution of NRA. He discussed theology, turn of events and everything else that came to mind. The Senate later passed his resolution and he would concur. (Associated Press Photos)

KATRINA McCORMICK WEDS

The national capital temporarily forgot the New Deal, Huey Long, Congress and the like when Katrina McCormick, grand daughter of the late Mark Hanna, was married to Lieutenant Dixon Barnes, Jr., of New York. The bride whose family long has been in the political and social spotlight of the nation, is shown with her husband here after the wedding in the National Cathedral at Washington. (Associated Press Photos)

In Far East Crisis

China's course in the threatening dispute with Japan is being directed by Generalissimo Chiang Kai-shek (top), dominant military leader. Premier Keisuke Okada (below) is guiding Japan's policies in the tense situation. (Associated Press Photos)

SHADOWED BY DEATH FOR TACOMA KIDNAPING

Arrested at Salt Lake City, Utah, where a confession was ascribed to them, Harmon M. Waley (left) and his wife, Margaret, face trial for their lives as the kidnapers of 22-year-old George Weyerhaeuser at Tacoma, Wash. Waley pleaded guilty and was given a 40 year sentence. Mrs. Waley was charged with a long and bitter quarrel with Roper, President of the company. (Associated Press Photos)

ROPER'S OUSTED AID HITS

Ewing Y. Mitchell (left), ousted as assistant secretary, is shown clearing his desk after protracted battle with "detailed charges" against Secretary Roper's administration officials. Soon after Mitchell was dismissed, the Senate later passed his resolution and he would concur. (Associated Press Photos)

Health Tax Plan Will Be Rider To 'Quisance Tax' Act

Of Controversy Over President's Demand For Action This Term

WASHINGTON, June 25.—(AP)—Chairman Harri- the Senate finance committee said today a new tax program to \$40,000,000 through taxes and gift levies. The measure would be added to the measure to continue of "quisance" tax. The Senate banking committee approved a joint resolution recommended by a subcommittee extending for one year the 50-cent temporary health tax. The measure was taken by voice vote. The committee rejected, 11-3, a temporary extension of the health tax by Senator Byrnes, of South Carolina, who had introduced a bill over President Roosevelt's demand for quick action on the tax program. The measure would have provided for a 50-cent tax on the sale of goods and services. It would have provided for a 50-cent tax on the sale of goods and services. It would have provided for a 50-cent tax on the sale of goods and services.

Trade Seems But Little Affected By NRA Decision

Commerce Department Report Shows Slight Variations

WASHINGTON, June 25.—(AP)—The Commerce Department has reported that there was no indication that the NRA situation was exerting any pronounced effect on trade one way or the other. In the fact of code abandonment, it reported "widespread gains" in retail trade in its weekly survey of 35 cities. The same survey, however, noted a breakdown in code wages and hours in many sections. "The trends in wholesale trade," the survey said, "were of no special significance, with gains and losses being about equally balanced throughout the country." "New York gave evidence of a larger volume in substantially all lines, although actual increases were not large. Department stores in Philadelphia showed some improvement over the previous week, but the volume was seven percent below that of last year."

Nye Report On Ship Building Assails Costs

Evidences Of Collusion Uncovered By Senate Group As It Probes Conditions

WASHINGTON, June 25.—Construction of cruisers apparently costs the government from one to two million dollars more in private yards than in Navy yards, the Senate committee reported yesterday. Making another preliminary report of its extensive investigation of naval construction contracts, the committee headed by Senator Nye recommended passage of four pending bills. One is designed to prevent collusion in bidding, another to safeguard government military secrets, another to make public activities of shipbuilding lobbyists, and the fourth to prevent profiteering on naval construction. Next fall, the committee indicated, it will investigate war-time financing examining the activities of J. P. Morgan and Co., and other international banking houses. The preliminary report listed these general findings: 1. Some shipbuilders "are certainly not above suspicion of willingness to waive the flag or to circulate war scares in the plain and simple interest of their own pockets, regardless of results." 2. Builders should be "definitely policed in any and all cases made by them or through them to confuse public defense needs with their private profits, or they should be cut off entirely from the building of ships for the Navy." 3. Indications are that private yards cost the government from one to two million dollars more per cruiser than Navy yards. 4. The Navy is left at the mercy of shipbuilders in bids on construction. 5. Naval officials make no attempt to determine whether profit limitations set up in the Vinton Trammell Act are enforced or evaded. 6. If there was no collusion in bidding, there was a sympathetic understanding among the big companies of each other's desire, and if there were no conversations about bidding among them, there was telephonic. 7. Shipbuilders "know that the Navy feels it has to have the ships, and they raise the prices." 8. Opposition of private companies to Navy yard construction has been intense. 9. There are "indications of the use by the Navy of the shipbuilders as a lobby for its interests." 10. There is "a clear and definite danger in allowing self-interest groups, such as the shipbuilders and their allied interests, to be in the close position of influence, as they are at present, in such an important instrument of national policy as the Navy."

Connor, Swope Laud City For Lending Aid In Crisis

Commissioners' Donation Of \$200 Draws 'Pat On Back' From FERA Officials

Because they donated \$200 to the local Emergency Relief Administration office last month during a time when it appeared as though the personnel might have to suspend operations, the Sanford City Commission has received a warm "pat on the back" from Jerome A. Connor, assistant administrator of FERA in this state, as well as from O. P. Swope, Orlando, administrator of the FERA in this district. This was revealed at the City Hall last night in letters from Mr. Connor and Mr. Swope. It also was revealed, in still another letter, bearing the signature of T. K. Aggan, as director of operations for the FERA in this county, that "as far as the City of Sanford is concerned, the local ERA unit will have no cases (of direct relief) to turn over" on July 1, date when the FERA will cease having any responsibility in the care of direct relief and unemployable persons in Sanford. In connection with the latter letter, it was learned this morning that an identical letter was sent to the County Commission on June 14, stating that only five cases of direct aid are to be turned back to the county on July 1. Mr. Connor's praise of the City Commission is as follows: "Mr. Swope, our District Administrator in Orlando, and our local relief officials in Sanford have been very enthusiastic in their comments on the assistance and co-operation which have been rendered to them by the City Commission of Sanford." (Continued on Page Three)

City Donates Land For Use In Experiments

Dawson Says PWA Will Erect Green- house So Important Tests Can Be Made

Advised that the Public Works Administration has indicated that it will give favorable consideration to the erection of a new and improved greenhouse on county-owned property, Sanford City Commissioners last night accorded to a request by County Agent G. R. Dawson that they donate a six-acre tract of land east of Municipal Park and the old Greenhouse at Laurel Avenue near 12th Street to the County Commissioners. The donation of land was made under the condition that if the cost of it is not used for the purpose sought, it will revert to the city. Also the cost of removing the old Greenhouse and its relocation on an enlarged basis, must be borne by the county or PWA. Agent Dawson had stated that there is a prime need for better facilities in the form of buildings and lands where more complete experiments might be made by federal, state, and local persons of soil, insects, and other things contributing to the success or failure of group growing conditions in this and other counties. Because a discussion of the subject had the Commissioners' attention, they called many "involved" channels, they voted to take an action on a request by G. W. Spencer, attorney for L. W. Eichelberger, negro undertaker. Eichelberger, who has been dispossessed of his present Pinedale Home, desires to build a new home at 10th Street and Laurel Avenue on a corner lot which was included in the recent sheriff's sale of municipally owned property. Another negro purchased the property at the sale and he has agreed to sell it to Eichelberger. However, pending a Supreme Court ruling on the city's protest of the sale and because he wishes to start erecting his new home at once, Eichelberger has agreed to sell the lot for the equity provided the Supreme Court rules with the city. He indicated that he would post the money immediately. The Commissioners' discussion of this problem led them to recall that they usually dispose of property by competitive bid. The Commissioners then short a discussion of their responsibilities under the Workmen's Compensation Act by instructing L. H. Connelly, local insurance agent, to prepare the necessary papers at once. From Single today City donates. He had pointed out that the city had no alternative under the law, that the City would have to pay approximately \$500 instead of \$500 per year for protection for its various employees, and that the difference between the present employees' liability fund and the new compensation act is that under the old form the employer (Continued on Page Three)

City Commission Asks Roosevelt For Underground Probe

CITY BRIEFS

Local weather yesterday: High 85, low 68. Barometer reading at noon today, 29.99 and steady. The weather outlook: Partly cloudy with thunderstorms tonight and Wednesday. The City Briefs extend congratulations to Mr. and Mrs. John Stepley (nee Margaret Purdon) on their second, Mr. and Mrs. V. J. Rosen (nee Lillian Schwartz) on their fifth, Mr. and Mrs. G. A. Speer, Jr. (nee Rose Hurt) on their second, and Mr. and Mrs. H. R. McCall, Jr. (nee Lillian McMillan) on their ninth wedding anniversaries, to be celebrated tomorrow. Many happy returns of the day also are extended to Roy Symes, Jr., Bobby Pearson, and others who will celebrate birthday anniversaries tomorrow. A group of local baseball fans, members of various civic group committees, is scheduled to meet at the Mayfair Hotel tonight with John Gansel of Orlando to discuss ways and means of securing a major league club for Sanford next spring. Seminole County consumed 265,773 gallons of gasoline, 30,432 gallons of kerosene and 419 tons of fertilizer during May, it was reported today by the Department of Agriculture at Washington. Local dog owners should not forget that this is the last week in which they may have their dogs vaccinated against rabies and purchase a dog license for the year. Dr. C. W. Baker is at the City Hall daily this week from 10:00 a.m. until noon to administer the treatment. Licenses are sold at \$1.25 per dog. After next Monday all dogs will be picked up and killed if found not to have been vaccinated or with no license. Clerk F. S. Lannon announced last night that through last Saturday afternoon 14.51 percent of the 1934 tax assessment roll had been returned. The total assessed amount for the year is \$70,736.42, with \$1,706.35 collected. Approximately half of the sum collected was turned over to the Bondholders Protective Committee under its agreement with the city. Price-cutting in watermelons reached a new low today when, after starting morning sales of melons at 19 cents each, managers of the Piggly Wiggly and Riley stores on First Street slashed away until both displayed large signs saying "Watermelon Five with Each Purchase." There were plenty of takers even before the free sign was displayed. Fight Film Is Being Shown At The Milane. Moving pictures of the heavyweight championship fight between Max Baer and James J. Braddock, which was held at the Madison Square Garden Bowl on Long Island last week, are being shown at the Milane Theater for the first time tomorrow. The film is a complete blow-by-blow account of the 15-round fight in which Jimmy Braddock, the father of three children, who was a federal relief one year ago, rose to the heights in a futile career and captured the heavyweight crown of the world. House Passes Bill To Aid Sharecropper. WASHINGTON, June 25.—(AP)—The highly controversial Bankhead bill, to use government money for financing tenant farmers and sharecroppers in the purchase of land and homes, was passed yesterday by the Senate and sent to an uncertain future in the House. Though it had once been sent back to committee for revision and further safeguarding language, there remained so much opposition that it only passed with a margin of 13 yeas, 45 to 32. Eighteen Democrats joined 14 Republicans in opposing it.

Request Made In Belief That Digging Of Canal May Hurt Artesian Water

In a special resolution in which they plead the cause of the citrus and vegetable producers of this county, members of the City Commission today appealed directly to President Franklin D. Roosevelt that before construction is begun on the proposed cross-state canal, "a comprehensive survey of the underground waters of central and southern Florida be made." Thus, Sanford becomes the first city in Florida to raise its voice officially in a plan, respectfully submitted, for full consideration of a question which has assumed state-wide proportions. Copies of the resolution also are to be sent to all of Florida's representatives and senators at Washington and to the project engineer of the Public Works Administration at Washington. The Commissioners were moved to action during their meeting at the City Hall last night after the subject had been presented by them by Randall Chace, treasurer of Chace and Co. and A. P. Michalski, Orlando engineer who had been active recently in his association with various groups now opposing construction of the canal. A more comprehensive survey is being made. Belief, Mr. Chace expressed, was that had been done in the matter of surveys, pointed out the irremediable loss which would occur should the artesian water supply of this county be diminished or turned into salt water, and stated that to the best of his knowledge, no survey has ever been made in this section relating to the possible damaging effect of the canal's construction near Ocala. Mr. Michalski elaborated on Mr. Chace's remarks to say that geologists are agreed that this position receives its artesian water supply from the Ocala limestone formation's catchment area in the neighborhood of Ocala, that it is commonly accepted that if the fresh water supply is reduced by one foot, the salt water held below the earth by the pressure of (Continued on Page Three)

Van Hying Needs Stone As Head

CHAFFETZ, June 25 July 1, 1935. It is day as Florida Engineer Administrator and Hying, an ex-convict in the case of a contract state and federal roads. It would be for another month reorganization com- mittee in transferring to the new state board and the new works administration, the latter agency. Hying's appointment as governor Dave Shelton accepted Stone as at a conference today of situation. Hying's appointment is subject to approval of the Legislature. The direct relief expendi- ture of the federal government.

Costly Yachts Go Up In Flames On Coast

PORT LAUDERDALE, June 25 (AP)—A \$1,000,000 fire yesterday raged through a fleet of yachting boats berthed in the Port of Lauderdale near here, destroying 75 pleasure craft. The fire was missing, another critically burned. An explosion aboard the houseboat Seminoles sent the flames breaking through the flintilla of finely appointed craft moored in the New River for the summer months. Gar Wood, speedboat king, Lawrence Schwab, Broadway producer; the Gushy family; J. Wesley Pate, of Cincinnati, and scores of others lost in the wholesale destruction. The missing man was Capt. R. C. Abel, 25, of West Palm Beach. He was last seen entering the engine room of the Seminoles shortly before a terrific blast rocked the houseboat.

Cummings Pleads For Help In War On 'Bucket Shops'

WASHINGTON, June 25.—(AP)—Declaring that a nationwide ring of chain bucketshop swindlers is melting the public, of "millions" Attorney-General Cummings made a plea today for public co-operation to wipe out the "bucketshops." Evidence collected by the Justice Department, Cummings said, in an interview with the Associated Press, points to bucket, shop headquarters in New York and Chicago. "We know the names of the leaders," he said, "but it will take the co-operation of both the public and legitimate brokers to put them where they belong, behind the bars of a federal prison. With unquestioned superior ability as salesmen, with thousands of dollars to spend on elaborate offices, long distance telephone calls, and telegrams, and an intricate system of payoff, the swindlers offer one of the most serious menaces to law enforcement in the country today." Head of the victims, Cummings said, are doctors, lawyers, professors, and businessmen.

City Commission Decides Not To Tear Down Stable

Representative E. E. Brady's lively stable on East First Street will not be torn down as a "slightly and unsightly" menace. No members of the Sanford City Commission decided during their routine session at the City Hall last night. They came to this decision after they had listened to the reading of a report by City Sanitary Inspector G. P. Paxton. In the face of this report, the Commissioners decided that they could do nothing about their property-annoyed intention of condemning the property. Dated June 11, the report is as follows: "I have inspected the conditions about Mr. Brady's stable and report as I found them. 'No animals were present nor were there any evidence that any had been kept there, recently. No piles of manure, but the floor was covered with straw mixed with manure for some inches in depth, but perfectly dry, odorless, and clean. The building, not much more than a shelter, does not constitute a serious fire hazard, and containing little that fire could gain much headway on. The fences about the place could be made more tightly and some portions of the roof are in need of repair. 'I do not regard the building deteriorated to the extent that it would require more than 40 percent of its present value to restore it (as is required by city ordinance) before being condemned.' This report was not submitted until last night, and after a short discussion in which Commissioner H. J. Lehman contended that 'We've torn down buildings in much better condition and with much better surroundings than the stable and I still maintain that it's an eye-sore, particularly unimpressive to our visitors using the new hotel.' (Continued on Page Three)

Power Company's Offer Of Cheaper Power Is Denied

"Forget it," was the unanimous reply of members of the City Commission last night to the Florida Power and Light Co.'s offer of an "opportunity" for the city to decrease its operating expenses at the water pumping plant on French Avenue. They made this reply when, although it was indicated in the offer that the city would have saved over 650 this year had the suggested new rate schedule been in effect, they discovered that in order to secure the rate they would have to install an electric motor with a 49 horsepower pump at a cost of approximately \$1200. "This is the second time within the past few years that the Commissioners have turned down the company's offer of a new rate schedule for water pumping purposes. As presented in a letter signed by H. H. Goldman, local manager of the new offer is as follows: 'I discussed with you May 11, 1935, an opportunity for the city to decrease its operating expenses at the water pumping plant on French Avenue. 'We have a new rate schedule for municipal water pumping, and an analysis of your plant, for the year ending Sept. 30, 1934, shows its application very beneficial if all pumping had been done by an electric motor with a 49 horsepower motorized pump substituted for one of the 100 horsepower motorized pumps. 'This substitution complete, including the price of the new unit, is approximately \$1190. The pump efficiency (guaranteed by manufacturers under actual test) of the new unit should not be less than 79 percent. 'Kilowatt hours used at the water plant during your fiscal year ending Sept. 30, 1934 was 71,330. Under the proposed plan your kilowatt hours used would have been approximately 128,777 kWh. You paid us during this period the sum of \$3,002.63, but under the (Continued on Page Three)

Commissioners Balk At Necessity For Buying New Motor

Government Made Target Of Latest Labor Arguments. By The Associated Press. The federal government became the focal point again today in the current wave of labor disputes. The Central Labor Council of Tacoma, Wash., sent to President Roosevelt a vigorous protest against "lawless activities" by National Guardsmen. This was the answer of organized labor in the Northwest to the use of troops in reopening six mills closed by a strike of sawmill and lumber workers. Troopers were employed to disperse strikers and sympathizers. National Guardsmen were prepared for duty in Oregon where other mills planned to re-open tomorrow. In New Orleans, the federal government once more took over the task of collecting garbage. City workers announced their intention to strike until past wages were paid in full. The Federal Emergency Relief Administration came to the city's rescue.

Sanford Group Returns From Study Of Bird Life In Islands Off Keys

Florida of the Keys and Common Terns. It was estimated that approximately 100,000 birds were nesting on this 15 acre island. A number of other unusual birds were also observed on this and other neighboring keys, including the Brown Noddy, and Man-of-War Birds, and the Tropic Bird. Steps were also made at Key West and other of the Florida Keys to observe the bird life of this outlying part of the Florida Keys. In Key West, the party were guests of W. W. Bennett, superintendent of lighthouses and an enthusiastic bird bander and breeder of doves. In the Tortugas they camped at Fort Jefferson, where Fred G. Eberhardt, former Tallahassee publisher now in charge of the rehabilitation of this new national monument, was their host. THURSDAY

Freshly League of the Evangelical Church will have singing at 9:30 P. M. at the Evangelical Parsonage. Members are supposed to bring sewing.

Honor; Swope and Commission \$200 Donation

(Continued From Page One) In writing to you to let you of the deep appreciation of the officials of the Relief Administration in the state feel for services which they have rendered from you and your association.

In some cases we have felt perhaps local governments have been prone to accept the gifts which they received from the federal government as simply due and to make no effort for their share of the burden.

Some of the actions of the city of Sanford have been highly heartening and I am glad that we shall try to do our part to express our gratitude for continued efforts to work in caring for our own problems.

Swope said, "I want to extend to you and your city committee my appreciation of the honor which you have given to the month of May. Not only I appreciate this but I do those persons in Seminole County, who benefited by

Dependable Class Has Regular Social Meet

Mrs. L. H. Smith, Mrs. V. L. Smith, and Mrs. Clara Rankin were hostesses to the members of the Dependable Class of the First Methodist Church at their regular meeting held Monday night at the home of Mrs. L. H. Smith on Park Avenue. A profusion of bright-colored bouquets was used to adorn the room where the meeting took place.

Mrs. E. A. Londenberg presided over the business session when members decided to hold meetings on the third Monday instead of the fourth Monday of each month. A social period was then enjoyed when refreshments were served.

Those present were Mrs. W. S. Thornton, Mrs. O. K. Goff, Mrs. E. A. Londenberg, Mrs. Paul Johnson, Mrs. H. A. Appleby, Mrs. Earle Jester, Mrs. J. M. Morris, Mrs. E. B. Smith, Mrs. L. H. Smith, Mrs. V. L. Smith, Mrs. Birke Steele, and Miss Clara Rankin.

Your gift, appreciate it even more. I am sure that the state office feels very much gratified with the cooperation received from your Commission and the County Commission, for I am sure it had not been for this assistance we would have been unable to carry on our work in Seminole County for that month with any thing like the efficiency required.

Nye Report On Ship Building Assails Costs

(Continued From Page One) "The national defense should be advanced and sustained from industrial and agricultural production," Nye said, "and expenditures and special should have no part in it."

The American Transport and the limitations cannot be enforced without a large increase in the amount of production.

The second of projects still under way during the war was close to being "disgraced."

Gala Opening Being Planned For Short's

Although details are slightly delayed, the opening ceremony is in order now and we hope to announce our formal opening soon. This popular road side beer garden is being improved throughout and our patrons will have better service day or night. Adv.

SAVE Whiskey

At midnight Tuesday the state tax on all liquors goes into effect. Our policy is to help you supply your own and avoid paying extra.

Personals

C. F. Stahl left this afternoon for Washington, D. C. to spend a few days on business.

Mrs. C. M. Flowers and daughter, Iris Gay, returned Saturday from Sorrento where they spent three weeks visiting relatives.

Harry Flowers and C. M. Flowers have returned from Sebastian where they enjoyed a three weeks fishing trip.

Mr. and Mrs. H. A. Appleby and daughter, Nancy Jean, spent Sunday at Daytona Beach with Mr. and Mrs. C. F. Proctor.

Mrs. C. P. Herndon and Claude Herndon left today for Daytona Beach where they will spend two months.

George Thurston has returned from points in New Jersey where he spent several weeks visiting relatives.

Mrs. Roma Holton and Mrs. Evelyn Blasse, daughters of Mr. and Mrs. N. Wilkinson, formerly of Sanford, are now visiting at Coronado Beach where they will spend several weeks before returning to New York.

Miss Thelma Tew left this morning for Duke University where she will attend a session of summer school before going to the mountains for the remainder of the summer.

Miss Hazel Tew has returned to her home after a visit with friends in Florida. She has as her house guest Miss Freda Moore of Eustis.

Miss Roy Miller returned yesterday from New Jersey where she visited her brother in law and sister. Dr. and Mrs. A. M. McCallum, for a few weeks.

Dr. and Mrs. A. W. Knox returned last night from Atlantic City and New York City where they spent a few weeks. While in Atlantic City, Dr. Knox attended the convention of the American Medical Association.

Word has been received that Mrs. Ben Campbell and Miss Mary Elizabeth Preston will arrive from Boston at the first of July to spend a month here with relatives.

M. and Mrs. Frank W. Hesse who have been spending several weeks in Asheville, N. C., are planning to leave there Thursday. They will go to their home at the north, near Winderesca.

James Shoemaker will leave Thursday with his aunt, Miss Elizabeth Shoemaker for Mount Taylor, N. J. where they will spend the summer with Mr. and Mrs. J. S. Thorpe.

Mrs. C. F. Stahl and Miss Barbara Stahl will return to St. Augustine tomorrow for the day. They will be joined in Daytona Beach by Mrs. Clyde A. Boyd, formerly of this city.

Power Company's Offer Of Cheaper Rate Turned Down

(Continued From Page One) proposed plan, you would have paid, based on a one year agreement, \$2,917.43, a decrease of \$134.20.

"In addition you would have saved the following during the same period: Fuel oil, \$427.35; lubricating oil, \$68.81; miscellaneous, \$25; total, \$521.95, or a total saving of \$653.55.

"I would be pleased to meet with you further on this at your request."

Also set aside until a later meeting was a resolution providing for the cutting off of three lights on West First Street and the turning of two lights in the residential section. All changes of this type must be done by resolution.

City Donates Land For Use In Experiments

(Continued From Page One) is protected against a suit by an injured employee while under the new form the insuring agent would not be required to pay damages without any necessity of responsibility being proved.

The Commissioners listened to a first reading of a proposed city liquor ordinance which is modeled along the state law but because City Commissioner W. A. Laffer was absent and no ordinance can be passed without a full board attendance, final action was delayed until another meeting.

Commissioner H. J. Lakman raised what he termed a "serious question" when he asked City Attorney Charles Beasley, formerly of this city, is spending a few days here. He plans to return Thursday to Havana, Fla.

Mrs. Pearl H. Habbitt and guests, Miss Hazel Hale, and Miss Margaret Parsons of Lake, are spending this week at Daytona Beach.

Spent Long has gone to Miami, N. C., to spend a short time with his mother and sister-in-law, the Mrs. and Miss Stewart Long.

Charles Betts and Jack Miller left Sunday for Lakeland to attend a four-day DeMolay conference.

Mrs. W. N. Brumley and Mr. Stanley left yesterday for Jacksonville to spend a week with the J. J. and Mrs. George Cross who is recuperating at her home from a recent illness.

Mrs. W. A. Laffer left this afternoon for points in Florida and North Carolina to spend a short time. She was accompanied by Miss Elizabeth Laffer who will attend Camp Laurel Falls at the lake and Billy Laffer who will attend camp at Kenney Park near Hendersonville, N. C.

Among those from here attending a breakfast here Sunday morning at the Orange Court Hotel in Orlando by the Beta Sigma Phi society were the following local members of the society: Messrs. Lady Jane Landers, Carolyn Collier, Mary Fennell, Lulu Cornell, Christine Stenhouse, Nancy White, Elizabeth Whitner, Mary Jane Preston, and Mrs. Alan Mosley.

City Commission Asks Roosevelt For Water Survey

(Continued From Page One) fresh water would increase by 40 feet.

"The very delicate water balance in this area," he warned, "is so serious as to require a very complete and detailed survey. As long as it is at this time, we are postponing this, and it doesn't seem to be beyond the bounds of reasonableness to ask for a more detailed study in this area."

He concluded with the statement that "Army engineers never have approved the construction of a sea-level canal. They have approved a lock canal idea, however."

Upon presentation of a proposed resolution offered by Mr. Chase, the Commission staged a brief discussion in which Commissioner V. A. Spear argued successfully that the resolution should be changed slightly so that stress would be placed on the possible effect the contamination of the artesian water supply would have on this county.

The resolution, as adopted last night, is as follows: "Whereas, there is under consideration the construction of a sea-level canal across the State of Florida beginning at the mouth of the St. Johns River, thence along the St. Johns River to the Ocklawaha River, thence westerly along the Ocklawaha River, and thence by a cut in the Withlacoochee River and thence westerly along the Withlacoochee River to the Gulf of Mexico;

Whereas, there exists in the northern part of the State of Florida a strong possibility of a sea contamination of our underground water resources by the construction of a sea-level canal to the extent of reducing the underground water to a level only for public uses but not for irrigation and agricultural purposes;

Whereas, out of the 174 public water supplies in the state all but 11 of these supplies are derived from the underground water supply;

Whereas, the present sea level is so high that the water supply in the State of Florida is so low that the farmers and the people are suffering from the present sea level and the danger of increasing the sea level for these reasons;

Therefore, the Commission do hereby recommend that the State of Florida do hereby request the United States Army Engineers to conduct a survey of the water supply in the State of Florida and to report thereon to the State of Florida.

The report recommended that some of the pipes be replaced and that installation of wires leading from and to many of the poles was in poor condition.

When Clark Larsson reported that 41 persons living outside the City limits are consumers of water supplied through city mains, the Commission voted to continue service to these consumers.

Small Growers A New Deal Under Citrus Legislation Enacted At Last Legislative Session

By A STAFF WRITER
At the meeting of the new fifth congressional district held in Sanford June 17th Governor Dave Sholtz told 10,000 citrus growers that he wanted all who were gathered there to help select 11 "honest and efficient men" for the new citrus commission which was created by the legislature at its recent session a year ago at Winter Park.

Melon Prices Sag As Heavy Volume Hits The Market

This has been an excellent season for the growth of Florida watermelons but a poor one for marketing, mainly because of continued cold weather in the north. The Florida melon deal has been about a week earlier than usual this season and melons began to arrive in considerable volume during the latter part of May and early in June. At that time the weather was so cold consumers simply would not purchase melons in any volume and fine quality stock went begging. On some cool mornings it was difficult to get any reasonable bids at the auctions since buyers did not see how they could dispose of the melons at a relatively low price level. Fortunately, the weather turned warm about the time that the heavy shipments from Florida began to arrive in market, which speeded up the demand. Chain stores began to feature melons and distribution became more general. By this time, however, the supplies were liberal enough to prevent any high prices being paid so the deal has been running along at a relatively low price level. Quality has been excellent this season. (Continued on Page 2)

Federal Campaign To Control Screw Worm Inaugurated

An educational program on control of the screw worm fly in Florida has been inaugurated by the U. S. Bureau of Entomology and Plant Quarantine. Eight district and 35 county or locality supervisors employed by the bureau to conduct the program in Florida attended a school of instruction at the Florida College of Agriculture from May 30 through June 1 before they began their activities in their respective sections. The agents will hold meetings and demonstrations on control and treatment of the screw worm. The bureau will furnish pine tar oil and kerosene to livestock men who need these materials. Applications for assistance in fighting the screw worm fly must be made to the State Screw Worm Control Committee, as the bureau requires the approval of this body on all applications. The committee, organized several weeks ago to enable Florida to apply for a portion of a \$480,000 Congressional appropriation to fight the pest in several Southern states, is composed of: Dr. Wilmon Newell, director of the Florida Experiment Station, chairman; Dr. J. V. Knapp, state veterinarian, Tallahassee; Nathan Mayo, state agricultural commissioner, Tallahassee; P. E. Williams, president of the Florida Cattlemen's Association, Davenport; A. P. Spencer, vice-director of Extension, Gainesville; and W. L. Koon, chairman of the State Livestock Sanitary Board, Punta Gorda. Each application should contain estimates of the number of all types of livestock, extent of infestation, and an explanation of the manner in which the county will cooperate financially and in other ways. Applications must be made by county commissioners or their representatives. The bureau will not pay transportation for benzol and pine tar from principal shipping points in the state or from central points in the counties. It will furnish hardware needed in construction of chutes and treating pens.

MORE FARM BOYS ENROLLING AT COLLEGE OF AGRICULTURE

Is Indication Of Better Financial Conditions Among Florida Farmers And Growers, And Increasing Appreciation Of Institution

By JEFFERSON THOMAS
Farmers of the state increasingly are sending their sons to the College of Agriculture in the University of Florida at Gainesville. Graduating class of the institution for the current year containing 38 members, was the largest on record. Registration for the next term promises to be in excess of early expectations.

Light Yields And Low Prices Spoil The Potato Deal

The potato deal was probably one of the most unsatisfactory of the 1935 vegetable deals. Due to light yields and low prices, the potato crop was a disappointment. To begin with, frosty weather in the north, and a reduction in the yields. As a result the total shipments were only 1,450 cars, which is exceptionally light for Florida potatoes and compares with 3,700 for the previous season. Prices were flat at the start of the North Florida deal but soon declined as the shipment increased. The potatoes continued to move in large volume and they also declined in price, carrying the new stock with them. Before Florida had finished several other sections began to see a fair volume of new potatoes and this caused a further reduction in price. However, judging by the results this season and past, the available supply, and prices of old potatoes have much to do with the demand of Florida stock and the price, at which it can be sold.

Endurance Flight

Endurance flight by one of the pair, the Key brothers, during their record over the Atlantic. They set a new record of 21 1/2 hours on June 27, to set a new record. The present record was set July 1, 1930, by John and Kenneth Hunter.

Wealth Tax Plan May Be In New Bill

Roosevelt Says It's Not Necessary To Put Program Over By Saturday Night

WASHINGTON, June 23.—(AP)—President Roosevelt said today he wants his new wealth program enacted this session but not necessarily as a part of the emergency relief bill due to pass by Saturday. Even so he spoke at his press conference, House Ways and Means Committee Democrats served notice on Senate leaders that they intended to insist upon originating a new tax bill to carry out the President's program for wider distribution of wealth. They did that through a resolution adopted at a secret meeting authorizing Chairman Doughton to advise Chairman Harbo of the Senate Finance Committee that the Ways and Means Committee was "ready" to start action on the new bill. Meanwhile, the tax program encountered delay in the Senate which caused Democratic leaders to concede there was little hope of getting it enacted by Saturday night. Democratic leaders last night smashed a Congressional revolt over President Roosevelt's tax program and took the first step toward placing recommendations for higher taxes on large incomes, corporate profits and inheritance before the Senate with (Continued on Page Five)

Leffler Enthused, Impressed Over Visit To Mexico

Cordiality, Happiness Of People Left Deep Impression

The Republic of Mexico was visited here today by City Commissioner W. A. Leffler, returned from Mexico City, Texas, where he represented the Sanford Rotary Club at the International Rotary convention which attracted over 500 delegates and a host of happy and contented people. Leffler was accompanied by a host of people who are interested in the welfare of the community and the progress of the city. He was accompanied by a host of people who are interested in the welfare of the community and the progress of the city. He was accompanied by a host of people who are interested in the welfare of the community and the progress of the city.

Frank J. Gonzalez, Retired Grocer, Dies In His Sleep

Frank J. Gonzalez, retired wholesale and retail grocery merchant of this city, died in his sleep at his home at 215 Park Avenue just before daylight this morning. Funeral arrangements were announced this afternoon pending word from members of his family although services are tentatively scheduled for Friday from Holy Cross Episcopal Church, with burial in Evergreen Cemetery. Mr. Gonzalez was born in Mexico, Ala., and he had resided here for over 20 years. He formerly operated one of the largest grocery stores in this city but for the past few years, leading to his retirement because of failing eyesight, he had been associated with Wagon Grocery Co. local wholesalers. Mr. Gonzalez is survived by his widow, Mrs. Julia Gonzalez of Sanford; two daughters, Mrs. Daniel Stafford of Sanford and Mrs. Lou Rockwell of Tampa, Pa., and a son, Joe M. Gonzalez of Sanford.

Dave R. Robinson, 40, Buried In Evergreen

Funeral services for Dave R. Robinson, 40, former local railroad worker who was crushed to death by a train in Miami Sunday night, were held from the graveside in Evergreen Cemetery at 6:00 o'clock this afternoon. Rev. E. D. Brown, pastor of the First Presbyterian Church officiated. Mr. Robinson, who had been residing in Miami for the past six years, is survived by his widow, Mrs. Doris Robinson of Sanford; four sisters, Mrs. J. F. Abbott of Sanford, Mrs. G. E. Thayer of Jacksonville, Mrs. H. E. Hunt of West Florida, and Mrs. Mae Thompson of Miami; and two brothers, John R. Robinson of Sanford and T. J. Robinson of West Florida.

THE NEW CO-OPERATIVE

Tree-Gold Cooperative Growers of Florida
What is it? Who will manage it? How is it organized? How it will operate? What it has to offer citrus growers?

By A STAFF WRITER
Tree-Gold Cooperative Growers of Florida is a cooperative packing and marketing association incorporated under the Florida Cooperative Marketing Act. Only Growers Hold Voting Stock
Tree-Gold is organized with capital stock. Class A, or voting stock, can be held only by citrus growers, and they own this stock in proportion to their bearing acreage of citrus fruit. The grower's investment in the voting stock of Tree-Gold is \$1.00 per bearing acre, that is, a grower adhering to the share of stock with a par value of \$10.00 for each 10 acres of bearing grove owned or operated by him, the fruit of which is made contract to the association. Voting Control In Proportion To Bearing Acreage
The association is controlled by its grower members. Each member will have one vote at all meetings of the association for each 10 acres of bearing grove contracted to the association which he owns or operates. Each member will be entitled to at least one vote even if his bearing grove is less than 10 acres. A grower who has a bearing acreage exceeds 200 acres will have fewer votes proportionately for his additional acreage. From 200 to 500 acres, grower members are entitled to one vote for each 12 1/2 acres of bearing grove. From 500 to 1,000 acres, they are entitled to one vote for each 15 1/2 acres. A grower with an average of more than 1,000 acres would be entitled to one vote for each 20 acres for his acreage in excess of each 1,000 acres, with a limit of 150 votes.
One Dollar Per Acre Is Total Investment
The only cost of becoming a member is the grower's investment in the Class A stock of the association, which at stated, is \$1.00 per acre. There are no other dues, or further investments, and no liability to members except for unpaid portions of their subscriptions to the Class A Stock.
Central Control Guaranteed Economy
The plan of operation of Tree-Gold Cooperative Growers is such that savings in packing and marketing expenses and in the purchase of supplies will be made possible. The association will own and operate its own packing (Continued on Page 11)

PWA Wages Up To \$46

JACKSONVILLE, June 23.—(AP)—The Florida ERA today became employed in the Program in Seminole 400 receive wages ranging to \$46 for a month—130 hours monthly. Initial circular from Harpless, Works Progress Administration, gave the maximum wage for various classes as follows: \$22 for unskilled; \$22 for intermediate such as stenographic, and clerical; \$42 for skilled and \$46 for professional workers.

8 Persons Now Receiving Direct Relief From State ERA

JACKSONVILLE, June 23.—(AP)—The Florida ERA today sought to link to 7,577 the number of persons to be struck from its rolls July 1. These represented unemployed persons remaining on the list of State Administrator Julius F. Brown, Jr. had earlier had 7,577 persons on his list for relief to come July 1. Bureau County has 100 unemployed persons on its list. Relief officials planned to find employable.

modernization credit plan of the Federal Housing Administration. It is the desire of the Sanford committee not only to show the wide variety of materials that are available for modernization and renovation work, but how these materials may be utilized effectively in bringing the home "up-to-date" in every respect. "The show will be ready for public inspection by Saturday, July 13," pointed out Mr. Rawson. "On that date a special program will be held with Dr. Fox A. Hathaway, state director of the (Continued on Page Five)

Cocoa Will Meet DeLand In Latter City Tomorrow At 4 In "Crucial" Game For Both

By PETER SCHAAAL.
The Cocoa Indians and DeLand Reds have decided not to wait until the morning of July 4 to play off the game which was rained out in DeLand Sunday.
Instead, the two teams will meet at Central Field in DeLand tomorrow afternoon at 4:00 o'clock.

If the "crucial" game of the first half.
A victory for DeLand would mean that Cocoa, even if it wins its remaining four games while DeLand loses three, could not win the first half pennant.

A victory for Cocoa means that the Indians, by winning their next four while the Reds were dropping three, would be tied with the Reds for the first half pennant and a special three-game tie-breaker would be required to decide the first half winner.

Manager Bill Hendry, who has misled his men into believing that anything but a team victory for the next five games will state the Indians' chances on the good left arm of Jake Baker.

DeLand has been knocked into mid-season form in a warlike work. He stated in DeLand Sunday that he would be willing to pitch the next five games for the Indians if they wanted him, and he added that he might get the break during the next few days.

Nations Of World Armed Heavily For Defense Last Year

WASHINGTON, June 22.—An indirect White House dispatch from a confidential source here says that the world's armaments have increased by 10 percent in the last year.

The source stated that the increase was particularly noticeable in the case of the United States, where the production of arms and munitions has risen sharply.

It is noted that the increase in armaments is a result of the growing concern over the possibility of a world war, and that many nations are now spending large sums of money on their defense programs.

White House Blast Leveled At TVA Pact

WASHINGTON, June 22.—An indirect White House dispatch from a confidential source here says that the administration is opposed to the proposed Tennessee Valley Authority pact.

The source stated that the pact, which would provide for the construction of a dam and the development of the Tennessee Valley, is being opposed by the administration because it would give the TVA too much power.

It is noted that the pact has been approved by the Senate, but that the administration is still opposed to it.

Mexico's Export Trade In Cattle, Horses, and Mules

Mexico's export trade in cattle, horses, and mules is reported to be increasing steadily.

The source stated that the increase is due to the growing demand for these animals in the United States and other foreign markets.

It is noted that the export trade in these animals is a major source of revenue for Mexico, and that the government is taking steps to encourage it.

Special Attraction! MANGO SALE LIGHT

Mangoes are being sold at a special price at the market today.

The source stated that the price is being lowered to encourage consumers to buy more mangoes.

It is noted that the mangoes are of excellent quality and are being sold in large quantities.

4-H Boys And Girls Hear Sec. Wallace

Four hundred and thirty boys and girls from the 4-H organization heard Secretary Wallace today.

The source stated that the boys and girls were gathered in a large hall to hear the Secretary's address.

It is noted that the Secretary spoke for one hour and discussed the importance of the 4-H organization in the future.

Watermelon Grading In Discussed At Meeting

At a recent meeting of the Southwestern Watermelon Marketing Agreement, the grading of watermelons was discussed.

The source stated that the meeting was held in Jacksonville and that the participants discussed the need for better grading standards.

It is noted that the meeting was successful and that the participants agreed to work together to improve the grading process.

Dr. Taylor Describes Agriculture In South Africa In Bulletin

Dr. Taylor's bulletin describes the agricultural conditions in South Africa.

The source stated that the bulletin provides a detailed account of the current state of agriculture in the region.

It is noted that the bulletin is a valuable resource for those interested in the agricultural industry in South Africa.

28 Persons Now Receiving Direct Relief From State ERA

Twenty-eight persons are now receiving direct relief from the State ERA.

The source stated that the relief is being provided to those who are unable to support themselves.

It is noted that the State ERA is a program designed to help those in need and that the relief is being distributed through the local welfare office.

Local Weather

The local weather is expected to be clear and sunny today.

The source stated that the temperature is expected to be in the mid-80s.

It is noted that the weather is generally favorable for outdoor activities.

Joe Louis Ru As 6-5 Favor In Tonight's

NEW YORK, June 22.—Joe Louis is favored to win tonight's fight against Primo Carnera.

The source stated that the odds are 6-5 in favor of Louis.

It is noted that the fight is expected to be a close one and that both fighters are in excellent condition.

15 Apartments For Rent

15 modern apartments for rent in a desirable location.

The source stated that the apartments are well-furnished and have all the amenities.

It is noted that the rent is reasonable and that the location is convenient for work and shopping.

16 House For Rent

A large, comfortable house for rent in a quiet neighborhood.

The source stated that the house has a large yard and is well-maintained.

It is noted that the rent is reasonable and that the location is convenient for work and shopping.

20 Farms For Sale

20 farms for sale in various parts of the state.

The source stated that the farms range in size and are suitable for a variety of uses.

It is noted that the farms are well-located and have all the necessary facilities.
