

Ballinger Resigns
The resignation of Richard A. Ballinger, of Seattle, as secretary of the interior, was accepted on Wednesday by President Taft and Walter L. Fisher, of Chicago, was appointed as his successor. It appears in the correspondence between Mr. Ballinger and the president, which was given out in full by the White House,

that the secretary's resignation has been in the president's hand since January 19 last, that it was held in suspense at the urgent request of the president, and that the latter at last accepted it only at the urgent request of Mr. Ballinger. In his letter of resignation Mr. Ballinger gives the condition of his health as the reason for retiring.

Or why the very smallest maid Puts on a fearful "hat" And staggers down the street beneath A flower garden hat.

Henry J. Aufgang was a prosperous farmer. He saved money and got to be well off. He bought his stuff at the store in town and so did his neighbors. Almost every day Henry drove to the store with a load of something which he sold and then "visited around" with his neighbors in town and his brother farmers who, like him, drove in often. The women folks came sometimes and it was nice and sociable and everybody grew to know everybody else. Henry J. Aufgang had a telephone in his house and a rural free delivery carrier brought him a daily paper from the Big Cities every day. He could call up the doctor in town if his folks took sick or he could ask the store keeper the price of eggs over the phone and take some in if the price was right. One day he got a catalog from a "mail order house" and read what it said about saving money by buying of the big concern (which was many stories high according to the picture on the cover of the catalog and employed thousands and thousands of people). Henry thought as he read the catalog. "Business is business," he said and sent in an order for a stove—not to his friend, the store keeper in the town, who in the past trusted him and credited him when he was hard up, but to the man he had never seen—the man who ran the mail order house in the Big City. "Business is business," Henry got his stove. One of the legs was loose—wouldn't fit. His friend the blacksmith in town fixed it. He ordered his clothes and his hats and his shoes and his wagons and his furniture and his carpets and his crockery and his boots and rubber boots and shoes from the mail order house. "Business is business." Many of his neighbors followed his example—"business is business." Henry had been so busy getting in the crop and sending orders to the mail order house that he forgot all about going to town for some months. One day he thought he would take in some dressed poultry and fresh eggs and visit 'round. He called up the store keeper to find the price of his stuff. Central said "line disconnected" and Henry wondered. Finally he went out and hitched up. Went to town; didn't seem to be much doing there. Drove to the store—it was closed! Went over to the furniture store—closed, too. So was the dry goods store; also the millinery store and the hotel and restaurant didn't look prosperous. "Nobody makes the town now," said the hotel man

to Henry. "Business-tion poor—town going back—stores all closed." Henry sought his friend, the blacksmith—yes, he was doing business at the old stand. "What's the matter with the town?" inquired Aufgang. "Nothin'," said the blacksmith, "except a lot of crazy people around here have taken the notion that they don't need any town and are sending all their money away to millionaires who run the catalog houses. Course they've got to come to me and I'm here yet just because the catalog fellows haven't devised way and means for shoeing horses by mail. But when they do I'll have to flit to." Henry was astounded. "Why, I'd no idea—" he commenced. "Course you hadn't," rejoined the blacksmith. "Course you hadn't, you hadn't an idea. You don't think. Well you had better do so now. Where are you going to sell your butter and eggs? Can you sell 'em to the mail order houses? You can get rid of your wheat at the elevator, but you won't have any fun any more in this town visiting with your neighbors 'cause there isn't any town and the people you used to know have all gone away to some place where they can make a living. "Pretty soon the town will be all gone. Then your good roads will be gone, too. And you can't bring your mail order jewelry and castings to town to be repaired. If your mail order shoes don't fit you'll just naturally have to squeeze your feet and bear it. If your mail order clothes which you buy "sight unseen" aren't what you want, what are you going to do about it?" The blacksmith paused. It was a long speech for him and it had got to Aufgang. "Business is business," finally said Henry. "Yes and foolishness is foolishness," answered his friend. "You may think it's business to kill of your town, but I don't. Think it over Henry, think it over." Henry did "think it over" as he drove slowly homeward with the dressed poultry and eggs which he had intended to sell to his friend, the store keeper. As he neared the house his lips moved. "Business is business," he said to himself, "and self-preservation is nature's first law. We've got to preserve our town and our neighborhood and our good roads. That's business." The next day he called a meeting of his brother farmers for miles around and they all came. After the meeting Henry invited them all to stay to supper and after supper there was a big bonfire out in Aufgang's yard near the well. In that bonfire were consumed all the mail order catalogs in the county! Moral—Don't wait for it to get too bad.

Grand Head Camp Convention of Woodmen of the World

Jurisdiction V, of Florida—State Convention of the Circle Ladies' Auxiliary of the Woodmen of the World

Monday was a busy day in the Celery City on the borders of that grand old lake, Monroe. Every train that arrived in the city was loaded with delegates to the State Head Camp Convention, Woodmen of the World, and the State Convention of the Woodman Circle, the ladies' auxiliary to the Woodmen of the World.

This dual convention, in the Celery City has completely filled the city to overflowing. The reception committee of the Sanford Camp and Celery City Grove met the train and escorted the visiting delegates to their hotels, which were reserved for them.

At 8 o'clock Monday evening the delegates to the Circle and visiting sovereigns, jointly with the delegates to the Camp, were informally received at the fraternal hall of the order, the Eagles, by the Celery City Circle, No. 10. A delightful time was spent with the flow of wit and humor and fraternal greetings dispensed with the necessity of introductions.

This reception at 9 o'clock was called to order by Mrs. J. D. Parker, Guardian of Celery City Grove, No. 80, Woodman Circle, and impromptu talks were made by Sovereigns Steed, DeLand; Wood, Deputy Organizer; N. W. Sheets, Lakeland, Col. T. W. Mitchell, Jacksonville; Dame, Ocala; Joe Andrews, Jacksonville; Epps Lakeland.

The delegates were then treated to that delightful drill by the Tampa Degree Staff, under the direction of Mrs. Mary E. Henry, Capt. of the Staff of Gate City Grove, No. —, Woodman Circle. During the evening a delicious punch and cake were served by Celery City Grove, of Sanford, and they proved themselves accomplished hostesses.

At 10 o'clock Tuesday morning the sound of State Head Camp Counsel Commander J. M. Towne's gavel called the State Head Camp convention of Woodmen of the World to order at Sanford. One of the first things on the order of business was the appointment of a committee to carry the greeting of the state head camps to the convention of the Woodmen Circle, inviting them to take in the opening convention, about 75 of the ladies being present. The convention was called to order and head camp honors were given the ladies, and then the presiding officer called on Rev. Sovereign Green, pastor of Baptist church, for the opening invocation. The address of welcome was given by Hon. D. L. Thrasher, president of the city council of Sanford, in lieu of the absence of the mayor of the city. Sovereign Adams responded in behalf of the convention, Mrs. Alice Wall of Apalachicola, Grand Guardian of the Woodmen Circle of the state of Florida, responded to the address of welcome in behalf of the Circle. Mrs. Mary A. Gardner of Miami gave a brief history of the Circles in the state of Florida, she having spent about fifteen years in the work of Woodcraft. Sovereign Mrs. M. Florence Keyes gave a delightful address of welcome to the conventions in behalf of the Sanford press and extended them an invitation to make the offices of the Sanford Herald their headquarters during their stay in the city, where two rooms had been fitted up for the convenience of the conventions and the individual members.

At 2 o'clock Tuesday afternoon The State Headcamp was called to order and the Committee on Credentials reported and the delegates were seated and the order of business proceeded the following committees were appointed. Committee on Mileage and Per Diem, Committee on Resolutions and Laws, Committee on Press, Committee on Greetings. The reports of the State Head Camp Officers were read and approved a resolution was received from J. C. Roat, Secretary Commander of the Woodmen of The World. At 5:30 the convention adjourned to meet Wednesday morning at 9:30.

Elections of Officers

The election of officials for the ensuing year was held Thursday and the following selections made: Head consul, Dr. T. S. Anderson, Live Oak; head adviser, F. E. Brawner, Pensacola; head banker, C. K. Sage, Ocala; head clerk, W. W. Anderson, Jacksonville; head escort, J. A. Quince, Lake City; head watchman, E. Henderson, Altus; head sentry, W. R. Anderson, Key West; representative to sovereign council, Hal W. Adams, Mayo;

alternate, George F. Cook, Miami; head managers, L. B. Sparkman, Tampa; G. R. Calhoun, Sanford; C. L. Leggett, Greenville; R. J. Hamrick, Monticello; C. E. Shaw, Graceville.

At the election of officers, the convention in a body was invited to attend a banquet tendered them by Celery City Grove, Ladies' Circle, at the Eagles' hall, where covers were laid for 300 delegates, who were served with delicious delicacies and everyone who partook of the hospitality of the ladies went away with a feeling of good will to all men. After the banquet the delegates returned to the convention hall to witness the initiatory work of the Woodmen of the World which was exemplified by the degree team of Palmetto Camp No. 3 of Jacksonville under the auspices of Palmetto Guards Uniform Rank W. O. W., under the command of Capt. Purdy. This team came down for special work and returned the same night, and to say that it was enjoyed in expressing it in small terms, as there were at this convention many delegates, who had never seen this work put on before and the scenes presented to them caused them to open their eyes to perfected Woodcraft.

Good old Tallahassee down in the West Florida, among the clay hills of Leon County the capital of Florida and the home of our state officials was selected as our next city to hold the convention of the Head Camp Jurisdiction V, two years hence in 1913.

THE WOODMAN CIRCLE

The convention of the Circle was called to order 2 o'clock by the Grand Guardian Mrs. Alice Wall, Tampa Degree Staff seated the officers in their respective chairs. The following committees were appointed: Resolutions, Mrs. M. Florence Keyes, Tohopekaliga Grove No. 83, chairman; Mrs. Any E. Cook, Royal Palm Grove, Miami; Mrs. Lousia A. Smith, grand banker, Punta Gorda. Committee on Credentials, Mrs. W. B. Olesen, chairman, Pensacola; Mrs. Mary E. Henry, Tampa; Mrs. Mary Douglass, Lake City; Committee on Greeting, Mrs. Mary A. Gardner, Miami; chairman, Mrs. Mary E. Henry, Tampa; Mrs. J. D. Parker, Sanford. Committee on Mileage and Per Diem, Mrs. Mary A. Gardner, Miami, chairman; Mrs. Mahony, Tampa; Mrs. Mary E. Needles, Riverview. The Grove then adjourned to meet Wednesday morning at 9 o'clock.

After supper the delegates from both conventions enjoyed a beautiful ride in launches on Lake Monroe by moonlight, those who did not partake of this pleasure visited the moving pictures and enjoyed a promenade around the city.

The morning and afternoon sessions Wednesday will be cherished in the memory of the large assembly of delegates and visitors for the fraternal love which permeated through all the questions requiring heated arguments to settle.

The greatest work accomplished was the decision of accepting the magnanimous offer from Gate City Grove, Tampa, of five acres with \$500 cash, with which to form a fund for the erection of a home for the orphans of the Woodmen of the World and the Woodman Circle. Tampa has the largest membership of the order in the state. Mrs. Mills of Jacksonville ably represented her beautiful city for this home. Mrs. Lousia A. Smith's eloquent appeal and offer for Punta Gorda was received with applause. This home will be erected from funds given by Woodcraft, and will be one more monument of what women can do for the development of American life to the highest attainment in home development.

The election of officers was without caucusing or wire pulling, and women once more can "show you" how to pull off an election with rapidity. The result was as follows:

Grand Guardian, Mrs. Martha B. Olson, Pensacola.
Grand Advisor, Mrs. J. D. Parker, Sanford.
Grand Clerk, Mrs. Hattie N. Bugg, Plant City.
Grand Banker, Mrs. Amy E. Cook, Miami.

Delegate to the Supreme Convention at Rochester, N. Y., June, 1911, Mrs. Mary E. Henry, Tampa.
Alternate Delegate, Mrs. M. Florence Keyes, Tohopekaliga Grove, No. 83.

Promptly at 7:30 the entire convention convened in Fraternal Hall when the Tampa Drill Team under the proficient Captain Mrs. Mary A. Henry gave the Memorial Services of our departed Sovereign of the Circle. Words are inadequate to express this sad but beautiful service.
The Tampa Drill Team by special request gave an exhibition of the floor work, receiving loud continued applause and have won the recognition of being The Banner team of the state. Council Commander ordered his Sovereigns to fall into rank file and follow the ladies and they soon found themselves in Sanford's largest hall which had been transformed into a

Special Correspondence to The Herald.
 ¶ The Woodmen's Convention this week has demonstrated that Sanford needs more apartment houses—a need that I have pointed out time and again. Just where they stored all the visitors this week is a puzzle, but the good folks of Sanford would not let them sleep in the streets and took them into private residences. Sanford needs more dwellings, more apartment houses and more furnished rooms if the city is expected to grow. You can't get new people if there is no place for them to lay their head.

¶ My doctor friends are making faces at me because I do not believe in compulsory vaccination, but I still take the stand that as long as small pox is confined to a few isolated cases among filthy negroes there is no reason why we should be forced to take the puncture and injection from booby. Small pox is the natural result of filthy surroundings. Typhoid is disseminated by flies. Both diseases could be stamped out and entirely obliterated by the city forcing a general cleaning up day. I have no wish to propagate an epidemic and do not want any one to follow my teachings unless they are in accord with my views, but I have my ideas upon these subjects and may be the readers of the Herald will find out some day that I was not altogether wrong. There are other wise guys who are of the same opinion as your humble servant, as the following from the Estero Eagle would indicate:

"We would advocate the same course in dealing with a municipality, as with an individual. We would not first inoculate the arms of all the inhabitants with disease breeding vaccine virus and send them back to unsanitary surroundings as 'immune' from small pox. Not at all. We would first patrol the city and especially the poorer and more unsanitary quarters—with a cleaning up brigade, armed with shovels, rakes, hoes, soap, disinfectants, scrubbing brushes, rat traps, flea powder, roach paste, etc., and every-

thing which would make for cleanliness and sanitation. If the residents would not cooperate with this municipal cleaning process the expense would be charged up against the property owners. With this job completed, danger of contagion would be averted. That's the way they do in Leicester, England, a city of 250,000 inhabitants where vaccination has been almost entirely abolished. Read in the January number of the Twentieth Century Magazine, 'How Small Pox was Banished from Leicester.' If you will promise to read it we will loan you a copy of this interesting article by Dr. Hodge.

In the Columbus Medical Journal for November, 1910, appears an article by the same writer, entitled 'Small pox in Japan,' in which he shows conclusively that although Japan is one of the most completely vaccinated nations on earth, the death rate from small pox is something appalling, being innumerable greater than before the introduction of vaccination in 1872."

¶ My friends, the ladies, are now coming to the front and will inaugurate a "cleaning up" day in Sanford. It has been my contention all along that a first class cleaning up will do Sanford good. I take the advice to myself as much as any one. We are all prone to let our property run down at times and get the seedy appearance that neglect will bring. The Sanford Improvement Association has started a crusade that is bound to get results in a more beautiful city. There is not a yard, not a house, not a street but what needs improving in some degree and it takes ceaseless toil and watchful care to keep everything spick and span. With our miles of brick streets and parkways, with our fine city parks, with our fine residences, our city can truly be made a "city beautiful" in every sense of the word. Leave it to the ladies to suggest the improvements but help them in every way. The spring is the time for cleaning up before so many go away for the summer. Get your places in good shape and they will have not only a better appearance but the health conditions will be greatly improved. "Help Make Sanford Beautiful."

A young gentleman happening to sit in church in a pew adjoining one in which sat a young lady for whom he conceived a sudden and violent passion, was desirous of entering into a courtship on the spot; but the place not suiting a formal de-

claration, the exigency of the case suggested the following plan: He politely handed his fair neighbor a Bible (open) with a pin stuck in the following text: Second Epistle of John, verse fifth—"And now I beseech thee, lady, not as though I wrote a new commandment unto thee, but that which we had from the beginning, that we love one another." She returned it, pointing to the second chapter of Ruth, verse tenth—"Then she fell on her face and bowed herself to the ground, and said unto him, 'Why have I found grace in thine eyes, that thou shouldst take knowledge of me, seeing that I am a stranger!'" He returned the book, pointing to the thirteenth verse of the Third Epistle of John—"Having many things to write upon to you, I would not write with paper and ink, but I trust to come unto you, and speak face to face, that our joy may be full". From the above interview a marriage took place the ensuing week.

One of our exchanges tells of an old German who had a boy of whom he was very proud, and decided to find out the trend of his mind. He adopts a novel method by which to test him. He slipped into the boy's room one morning and placed on his table a bottle of whiskey, a Bible and a silver dollar. "Now," said he, "When dot boy comes in if he takes dot dollar he's going to be a beeznis man; if he takes dot Bible he's going to be a preacher; if he takes dot whiskey he's no good, and going to be a drunkard." Then he hid behind a door to see which his son would choose. In came the boy whistling. He ran up to the table picked up the Bible and put it under his arm, then snatched up the bottle, took two or three drinks, picked up the dollar and put it in his pocket, and went out smacking his lips. The Dutchman poked his head out from behind the door and exclaimed: "Mein Got, he going to be a politician."

¶ The "tempest in a teapot" stirred up over the incorporation of Sanford Heights seems to grow less and the matter will probably be amicably adjusted later on. As I stated last week there is always two sides to every question and while I am for the city of Sanford first, last and all the time the main question for all of us to consider is to stop these internal discussions and get together. The only man that will really get the rough end of this Sanford Heights discussion is

The People of Florida Want a Parcels Post

The State Retail Dealers Association holds its annual convention in Jacksonville last week. The State Retail Dealers Magazine, which is the official organ of the association, advises that "one of the most vital questions that will come up before the convention is the parcels post bill," and the Magazine then proceeds to tell what a "tremendous loss" this bill would mean to the merchants in the state.

Strong resolutions should be drawn up protesting against the parcels post, says the Retail Dealers Magazine, and our congressman and senators should be urged to cooperate for its defeat.

The Journal hopes the Retail Dealers will not be so foolish as to do anything of the kind. They will simply make themselves ridiculous by such action.

The parcels post is coming. The United States is today practically the only civilized nation that does not possess it. The people would benefit by it, the people want it, and the people are going to have it.

The real opponents of the parcels post are the railroads and the express companies. The express companies do not want it because it would prevent them from longer getting two and three and four times the real cost of carrying small parcels. The railroads do not want it because, through the express companies, the railroads are now enabled to practice their biggest graft on the public.

An attempt is being made to array the dealers of the country against the parcels post on the ground that it will hurt their business. The parcels post will not hurt their business at all, but will help it. The parcels post will enable these same dealers to develop a rural trade that they now neglect or are unable to get. The parcels post, combined with the rural telephone, will put the retail dealers in direct touch with the farmer and with the valuable patronage with the farming districts are making bigger as improved facilities permit.

But suppose the parcels post did hurt the retailer. Would that be any reason why the great consuming public should continue to pay exorbitant and unjust transportation charges? The argument which the retailer presents in opposition to the parcels—viz: that high transportation rates are necessary to the existence of his business—is an argument that will do more than anything else to convince the consumer that the parcels post is a good thing.

But the retailer will discover his error. When stage coaches first came into use the inn-keepers all protested on the ground that the stage coaches would destroy their business because people would not have to stay all night at the inns. Labor saving devices of all kinds have, when first introduced, always been fought by laboring men on the ground that the machines would throw the man out of work, though with the installation of machines came more work for more men than there was before. Harvesting machines and thrashing machines were burned in some sections of the country because the farmer's hired hands thought the machines would put them out of a job. Printers kicked on the Mergenthaler because they said the printers must all starve to death when it was installed, but there is no more work for printers than ever in the history of the world. The trolley car and the automobile were to put horse out of business, but they didn't.

And so it will be with the retailer and the parcels post. The parcels post will come and the retailer will wonder how he could ever have been so foolish as to oppose it. Revolutions never go backwards.—Pensacola Journal.

Mrs. Leffler Entertains

Mrs. C. H. Leffler charmingly entertained the Woman's Christian Temperance Union at her home last Tuesday afternoon. A brief business session was held and a splendid paper on Habit Formation was read by Mrs. R. M. Mason, after which the meeting was turned into a "comfort bag social," and many busy fingers were employed in making some of the comfort bags that are to go to the sailors on the battleship Florida. Elegant refreshments were served at the close of a most delightful afternoon. Mrs. Leffler was assisted in caring for her guests by Miss Peachea Leffler, Miss Lillie Fair Smith and little Miss Winnie Strong.

Some of the members of the Welaka Club enjoyed an informal game of bridge at the club rooms Tuesday afternoon. There were two tables of players and a number of others who came in for the social hour. Mrs. R. S. Keeler was hostess and was ably assisted by some of the young ladies of the club.

Mrs. D. L. Thrasher was the charming hostess of the Book Circle, last Thursday afternoon and a most delightful occasion it proved. Mrs. A. P. Connelly captured the prize in an interesting guessing contest. Those present were Miss Simmons of Tocon, Ga., Mrs. J. W. Dickinson, Mrs. May Dickinson, Mrs. F. J. Gonzales, Mrs. B. W. Herndon, Mrs. Robt. Newman, Mrs. S. Puleston, Mrs. M. H. Bowler, Mrs. N. H. Garner, Mrs. J. B. Stryker, Mrs. Henry Wight, Mrs. Geo. Speer and Mrs. R. L. Peck.

Miss Beard entertained the young ladies' sewing circle at the home of her sister, Mrs. N. J. Perkins last Thursday evening.

The Wednesday Club

A goodly attendance of the club with six visitors, were present Wednesday afternoon, in the home of Mrs. Geo. H. Fernald.

An interesting program had been arranged for the afternoon, and the members and visitors, anticipated much pleasure in listening to the paper reading and selections about one of Virginia's honored sons; her great statesman and worthy president of the United States, Thomas Jefferson.

"The glory of man, said Solomon is strength, and Jefferson was strong," Daniel.

Mrs. S. O. Shinholser read a most interesting paper on "Jefferson and His Family", giving a brief sketch of his parentage, early life, and manhood; when he made his impress upon affairs of moment and was accorded the flattering recognition by his county which he merited.

There were touching details of his home life, and devotion to his family—that setting, in which the real diamond always shines with greatest luster.

Mrs. B. F. Whitner, read a description and reminiscences of Monticello, Jefferson's beautiful home, near Charlottesville, Virginia, by Mrs. M. B. Smith; as it was during the year of its greatest glory, and the charming hospitality, of its courtly owner, and his beautiful daughter, Mrs. Randolph and her family.

"Jefferson in Fiction", Mrs. Geo. H. Fernald, read some entertaining selections from "Lewis and Clark's Hearts Courageous", in which Jefferson figured as the political hero, of these times and novels.

Miss Mable Bowler, accompanied by Miss Flossie Frank, sang "I Love You Truly", and "Just Awaiting For You". Which the club enjoyed very much.

Bates Has Aviary

When it comes to advertising T. K. Bates of the Title Bond & Guarantee Co. has a window that puts them all in the discard. Aside from the ocular demonstration of the Sanford irrigation system Bates keeps the window filled with plants, flowers and vegetables, and this week he has added two canary birds. Coupled with the foliage, the feathered songsters flitting from branch to branch makes one of the prettiest scenes imaginable and the window attracts the attention of the passerby every time. It is a cold day when Bates fails to have something new and startling.

A Deserved Promotion

On March 1st Mr. J. R. Phillips sold an interest in his business to Mr. F. E. Roumillat, who has been in his employ for many years. The Mapes Complete Manures

Where seems to be great dissatisfaction throughout the State generally as to the results obtained from most of the fertilizers used last season.

Many growers are now beginning to see clearly what we have been suggesting for some time, they might expect to have happen from the continued use of the Acid Phosphate (rock) goods.

A curiously large number of those of our old customers who were gotten away from us by the inducements of the so called "cheap goods" "Just as good as Mapes," are coming back to us this season to have their groves and fields restored.

The Mapes Fertilizers are evidently considered a refuge in extremity when help is needed and hope almost gone. You certainly get the benefits of over thirty years experience in Florida and over fifty years in the manufacture of fertilizers generally. If we cannot help you the case is indeed hopeless.

THE SANFORD HERALD

Published Every Friday Morning at Sanford, Fla.
R. J. HOLLY, Editor and Proprietor

Subscription Price, \$2.00 a Year in Advance

Entered as second-class mail matter August 22nd, 1908, at the Postoffice at Sanford, Florida, under Act of March 3rd, 1879.

Office in Herald Building
Telephone No. 148.

Sanford never entertained a finer body of men than the 'Woodmen of the World.'

The Herald extends a hearty welcome to the visiting Woodmen. Make this office your headquarters while in the city.

Sanford needs a large auditorium that will seat 2,000 people. Our city could then take place as the convention city of Florida.

That post card day idea should receive the support of every citizen. Nothing will advertise your city in a more through manner.

The aviation meeting scheduled to take place at Lake City did not materialize and Editor Sparkman thinks the people of his burg were "stung" for the advertising.

Editor S. J. Triplett of the Kissimmee Gazette has been appointed a delegate to the American Academy of Political and Social Science, to be held in Philadelphia April 7th and 8th.

It is said of Bob Holly of the Sanford Herald that he complimented a northern lady visitor in his paper and she promptly sent him a seven-page communication. Case of cruel and not unusual punishment.—Tampa Times.

Gen. Joseph Kiefer, congressman from Ohio, will retire from public life at the close of the present session. This will give him time to wash the "bloody shirt" which he has waved upon any and all occasions and in his retirement he will not be missed by the Southern people.

For the benefit of those aspirants to the toga of Hon. Geo. A. DeCottes as county solicitor, The Herald wishes to state that Mr. DeCottes will again be a candidate for this office and not only receive the support of this paper but every one of his numerous friends expect to rally to his support. His record is a good one and his election is already assured.

Although the election of treasurer of Orange county is over a year off, we hear of several candidates having announced their names. We think that it is time for our end of the county to have some of the county offices, and when the proper time comes we expect to announce the name of Capt. Richard Marks as candidate for this position, and we believe he will come very near to polling the solid Sanford vote.

The esteemed Tampa Times states that railroads never gave passes for, advertising. They were called tickets which in the words of the late Hamilton Jay would be a "distinction without a difference". But whether tickets or passes The Herald will have neither without paying for them. Of course if the President of the Sanford Traction Co., invites the editor to take a ride through the celery delta we accept with pleasure which is an exchange of courtesies which might be turned a difference without a distinction—the distinction all resting with the editor.

MRS. KEYS HONORED

Mrs. M. Florence Keys, Contest Manager of the Sanford Herald, represented this paper at the Woodman's convention and was also a delegate from Tahopekaliga Grove, No. 55. Mrs. Keys is an indefatigable worker and was called upon the floor by Grand Guardian Olson and given the Grand Grove Honors in appreciation of her untiring efforts in assisting Celery City Grove in the entertainment of the visiting sovereigns.

USING OUR PRODUCTS

Last year there was a complaint from the tourists that our hotels did not furnish enough vegetables. Being in the heart of the greatest vegetable section in the world the dearth of fresh, crisp vegetables was apparent. This season all the hotels and boarding houses are making an extra effort to supply vegetables and fruits. The beneficial results are easily seen in the expressions of satisfaction from the visitors. Such a course is the best advertising our city could achieve.

A WORD TO THE UNWISE

If you value the good will and esteem of your editor, there are two things that you must shun as you do the bill collector. First don't tell him what you would do if you were in his place. If you can run a newspaper better than he can start one, make a fortune, and retire. The editor's business is to give advice, and he is no more supposed to take it, than a doctor is supposed to take his own pills or prescriptions. Another thing, don't carry a yard or two of clippings into a newspaper office and tell the editor you have brought him something to kill space with, unless your life is fully insured. He is apt to rise in his wrath and smile you with the shooting stick.—Plant City Courier.

SUBSCRIPTION PRICES

Speaking of the subscription prices of weekly papers, which are being just now somewhat discussed, The Times once knew a man who published a pretty good weekly at a dollar a year. He became ambitious of a large circulation and so reduced his price to fifty cents, expecting to get every newspaper reader in the county. At the end of a year he changed back, and later raised it to \$1.50. He related, in a burst of confidence, that in the first place he had every reading citizen in the county and had no field for additional. Then he resolved to strain his subscribers for what he thought they would stand. They came across, with few exceptions, and he repaid them by buying a new and larger press, an increase of one column per page, the keeping of new and live rollers, using a trifle better paper, putting in a little more matter, paying special attention to local and social happenings, and in five years he was the foremost and most prosperous publisher in the county.

A Wide Range.

When the surgeon who happened to be spending a night at Bushby Inn had set the broken leg of the weather beaten stranger who was the chief victim of an automobile accident the patient looked up at him anxiously. "See here, doc," he said in a husky voice, "I haven't got much of any money. Would you take out your fee in trade?"

"Yes, I guess so," said the surgeon cheerfully. "What is your trade?"

"Well, I've got a number of things I can do soon as I'm on my feet again," said the patient. "I can hang window blinds, or I can put on lightning rods, or I can play the cornet, and I can do 'em all first rate, if I'm the one to say it, doc."—Youth's Companion.

Women Oyster Gatherers.

The work of oyster collecting and culture is most unsuitable for women, but in France, owing to its tedious nature, it does not appeal to men. Often from an early hour in the morning till late into the evening the women are standing up to their knees in water, with a strong sun beating down on them. The result is that never a year passes without some of them going mad and having to be hurried away to the asylums. The work is well paid, as, indeed, it ought to be, while in the case of the few who own beds the profits are large, and small fortunes are quickly amassed.

The New Congress

The members of the Sixty-second Congress began to draw their pay from noon of March 4th. They ordinarily would not be required to do service until the first Monday in December, or thirteen months after their election.

The new Congress will show a practical reversal of the body it succeeds. The Republicans had a majority of forty-seven in the last House, the Democrats will have sixty-six majority in the present.

At any rate it is unlikely that this feeble majority will try to run counter to the vote of the strong Democratic House in its support of a Republican President, so we believe that the reciprocity agreement will be adopted with reasonable promptness.

Once in session the body is not likely to stop with that work; it will, in response to the demands of the people, proceed, with trust and belief, to change the notoriously oppressive schedules of the tariff and lift it entirely from the necessities of life.

Florida's Brightest Sons

Florida's brightest sons seem to be the mark of the angel of death. Men in the prime of their usefulness and those who seem to be needed most are called to leave the field of work where they are loved and honored.

Tolstol on Doctors

"The late Count Tolstol loathed physicians," said, at a dinner in Washington, a Russian diplomat, according to the St. Louis Globe-Democrat.

Every time that Peter Williams would build a fire in his newly acquired home at Easton, Conn., bees would issue from every nook and cranny and drive the family out to seek shelter in the house of a neighbor.

A Philadelphia woman who is exceedingly fond of animals had an odd experience while waiting at a city railway station for a belated train, says Lippincott's.

In the seat next to her sat a small dog, which evidently belonged to an elaborately dressed woman just behind.

Rev. E. Lee Smith delighted his member as also the entire community when he said he would remain with the Baptist Church at this place a while longer. On account of existing circumstances in his family and his own physical condition he did not accept the call for the entire year. Mr. Smith is very much admired for his untiring energy in God's work, for his earnestness, for his friendliness and humor, and we trust he can see his way clear to remain indefinitely.

On the first Sunday night in April at the Baptist church there will be "An Orphan's Day" program of recitation and music rendered, and an address by the pastor, Rev. E. Lee Smith. The collection taken will be sent to the orphan home in Arcadia. We hope every body will be present who can.

Work on the new railroad is progressing rapidly, the great number of tents have made portions of the country look like white cities. This road will cross the St. Johns at Cook's ferry, now if some energetic man who has a nice house boat will make connection with trains there every day or twice a week as patronage would warrant, Sanford will still have the bulk of Geneva's trade, but if no way is provided to reach Sanford our next best place will be Titusville.

Quite a jolly party from Sanford visited Lake Harney last Thursday afternoon returning by moonlight.

Mrs. W. H. Howard spent last Saturday in Sanford.

The Geneva school closes on the 27th, inst., and on the 28th, will be the annual picnic at Harney dock to which every body is cordially invited.

ing ground for a good many years. Since his death Mrs. White has lived largely in Washington but many winters have been spent with friends in Orlando, Lake Charm and Oviedo who are always glad to welcome her return.

Mrs. Judge Kilham of Central New York and Mrs. Hotchids, a niece of Chicago paid a visit lately to Lake Charm. CAMERON CITY ETCHINGS

To the Editor of The Herald:

At the suggestion of Prof. and Mrs. Maris about twenty-five of us, in three farm wagons, drove to their beautiful home on Silver Lake Monday evening and spent a few hours boating, wandering about the grounds and visiting comfortably on the verandas. The drive through the woods in the moonlight was altogether enjoyable and the hospitality of the Maris home is always delightful. The affair was entirely informal, no invitations were issued—word was simply passed along and those fortunate enough to hear of it and be able to go enjoyed the occasion.

Our Farmers' Club held a pleasant meeting Tuesday at which a constitution and by-laws were adopted and the organization made complete. The regular meetings will be held each month on Tuesday evening on or before the full of the moon. The club adjourned to meet Tuesday, Mar. 25, at which time a short musical and literary program will be given, followed by a discussion of some questions of pressing interest to the farmers. All interested in our community most cordially invited to be at the church at 7:30 and enjoy the evening with us.

This evening, the 17th, St. Patrick's Day, the social committee of our Sunday school has planned a social in honor of the day. The ladies will bring boxes containing lunch for two and the evening will be spent telling Irish stories and with games suggested by the occasion.

A young people's society of Christian Endeavor was organized Sunday evening with Miss Grace Rich as president, Miss Neva Gormly vice president, Walter Haynes secretary and treasurer and Will Benton chorister. We look forward to many pleasant, profitable Sunday evenings spent with this new society.

Rev. G. B. Waldron of the Sanford Congregational church will exchange pulpits with our pastor, Dr. Swartz next Sunday morning. While we shall miss our pastor we shall be very glad to have Mr. Waldron with us and hope all of our people may avail themselves of the opportunity to hear him.

Dr. Minnick and family anticipate with great pleasure a visit from Mr. and Mrs. J. S. Johnson of Wichita, Kans., next week. Mr. Johnson is of the Wichita Produce Co.

Much celery and cabbage are being shipped at prices which are far from encouraging to the farmers.

Snow is not a frost by any means, never gets cold feet and will always receive a warm and melting welcome in Sanford.

BREACH OF PROMISE CASE

Prominent Citizen is Charged With Trifling With Widow's Affection

For some time, it is alleged, one of our prominent citizens has paid more or less attention to a young and beautiful widow of this town, forgetting or at least not heeding the advice of the immortal Mr. Weller to his son, Samuel, to "beware of the vidders."

He now claims that he was not serious in his intentions and that he was not attached to her; but however that may have been the widow became attached to him, and as he seems to have lost interest in the matter she has attached his property, which is a form of attachment that he does not enjoy.

The result is, that he finds himself the defendant in a first-class breach of promise case and his questionable attitude towards the widow will be given an airing in the near future.

The parties in the case are so prominent that it is feared no court room will hold the vast crowd desirous of attending the trial, so it will be held in the auditorium of the High School building on Friday evening, March 24, under the auspices of the School Improvement Association, for whose benefit the proceeds will be devoted.

In other words, it will be a mock court trial, and it promises to be one of the most enjoyable affairs of many years, as a large number of our leading people will participate in the proceedings.

The committee having the trial in charge have engaged Col. A. V. Newton, the well known lawyer lecturer of Worcester, Mass., to attend to the details, and personally conduct the entertainment.

Col. Newton has had remarkable success in conducting similar entertainments and without doubt the Breach of Promise Trial will be here, as elsewhere, an event long to be remembered with pleasure.

The following is the make-up of the court:

Judge, Hon. Thos. E. Wilson. Clerk, Mr. C. H. Lefler. Plaintiff, Miss Gelsie Butt. Defendant, Mr. B. F. Whitner, Jr. Defendant's Attorney, Col. A. V. Newton of Worcester, Mass.

Court Officer, Marshall Green Smith. Crier, Hon. D. L. Thrasher. Witnesses: Mrs. C. E. Walker; Mrs. M. H. Bowler, Dr. T. A. Neal, A. T. Rosseter and C. R. Walker.

Jurors: F. P. Forster, S. O. Chase, J. D. Parker, N. H. Garner, H. R. Stevens, H. H. Chappell, L. P. McCuller, J. D. Roberts, Felix Frank, J. K. Mettinger, T. J. Miller and J. F. Turner.

Talking About Sanford

J. W. Gamble of Port Clinton, Ohio, has been visiting in Florida the past few weeks and writes his views to his home paper, the Ottawa County Herald. Mr. Gamble is largely interested in grape culture at Port Clinton and has seen the great benefits to be derived from an association of growers. The following article descriptive of Sanford, appears in last week's Ottawa Herald:

We arrived here last evening. I am going out to my Sanford farm this morning to see how the potatoes are getting on. Weather here has been the same as in Tampa. Seven weeks of the most perfect weather one can imagine, followed by a cold wave from the north that has made fires in the early mornings and evenings very comfortable; the sun shines through all day after 8 a. m. and the climate is worth those "One hundred dollars per acre."

Celery, cabbage, beets, etc., vegetables of almost all kinds are going forward to northern markets, with prices fair.

In order to keep posted on matters down here I subscribed for the Sanford Herald this morning. The editor, R. J. Holly, is a live man and publishes a very newsworthy and interesting paper in this busy little growing town, in the celery delta of Orange county, Fla., with its thousands of acres devoted to the production of all sorts of vegetables in the winter. The flowing artesian wells and such irrigation are two of the largest factors in the gardeners success here.

Later, when I have more time, I may write up this section of Florida, Sanford being at the head of navigation of the famous St. Johns river, has two outlets to the northern markets and a freight rate of nearly forty per cent less than the towns in the more southern part of the state. Hastily yours, J. W. GAMBLE.

Sanford, Fla., Feb. 25, 1911.

All Like Sanford

The visiting Woodmen in the city this week are loud in their praises of the hospitality of Sanford people. The boys are all good fellows and seem willing to take no pot luck in the matter of accommodation. They are all well satisfied with Sanford and her people, and agree that no better city and no better people can be found in the south. The visit of the Woodmen will always be remembered as a most pleasant episode, both by the visitors and the people of Sanford.

The General News of "The Land of Flowers."

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

When James R. Fowler drove his big touring car into the incorporated limits of Cedar Key Thursday morning he won for himself the distinction of being the first automobilist to enter the well known Gulf City with a machine of this kind. That the entry of the Gainesvillian can be appreciated was emphasized when he roared the horn while speeding up the main street of the city, as every dog and several of the colored population headed towards the farthest part of the island.—*Gainesville News*.

Government revenue figures for the month of February in Tampa show excellent gains over the same month in the preceding years. Receipts for February totaled \$234,168.31, being a gain of 65 per cent.

The health officer of Jacksonville has issued instructions to enforce rigidly the screening ordinance. All fruits and vegetables must be screened.

It is said that a Wauchula farmer last year planted seven-eighths of an acre in sugar cane and between the rows of cane planted sweet potatoes, which were dug and cut of the way before the cane grew large. The potatoes were sold for \$84.84. The cane made 620 gallons of syrup, which sold at 55 cents per gallon or \$310, making an aggregate of \$394.84 from seven-eighths of an acre of land.

There is a desire on the part of some of the St. Petersburg citizens to have a city flower named and that it be grown more extensively than any other on the lawn and other places where shrubs or flowers are desired. The polinsetta is spoken of in this connection, as it blooms nearly the whole year.

It is said that the grapefruit trees in most places are not blooming at all and the orange bloom is not as plentiful as it would have been if we could have had rain.

The Orlando Florida Farms Co., has contracted for a full page ad. and a thousand copies of the Weekly Sentinel for six months. The papers will be distributed over the north and will have a strong influence in attracting new settlers to the property of the company.

Purchasers of Everglade lands are receiving their allotments this week amounting to some 12,000 farms.

A yellow cur dog, suffering with an attack of rabies was killed on East Adams street in Jacksonville Saturday by Sheriff R. Fleming Bowden, but not until after

the canine had bitten several people. As soon as the animal was killed Dr. Charles E. Terry, city health officer, took the head to the State board of health laboratory and had it examined. It was found that the animal had a genuine case of hydrophobia.

Tampa cigar factories are now making over 1,000,000 cigars a day and the era of prosperity has returned and everybody seems to be ready to forget that there ever was any trouble down that way. Local business conditions are reported excellent and the year promises to be one of the best in the history of the city.

The Cecilia Music Club
The Cecilia Music Club, friends and patrons enjoyed a long and varied programme last Saturday, Mar. 11th, in the studio of Mrs. Fannie Munson.

Specially delightful among the piano solos were those of the Misses Hill, Packard, Lucca Chappell, Muriel Harrold, Blanche Ludlum, Adelaide Higgins. Miss Annie Lee Caldwell's paper on Franz Schubert contained cleverly selected facts of his life and various compositions.

Miss Sara Cooley brought much pleasure to all in beautiful vocal selections.

The program concluded with selections from McDowell's Woodland sketches given by the president, Miss Ruth Abbot, and followed by the Club Chorus, in charge of Miss Helen Rowland.

UNDER PRESSURE OF LEATHER TRUST MANIPULATION Today, in the United States, more than one hundred leather tanneries are closed down. WHY? In order to reduce the available leather now on the market and thereby force the manufacturer to pay an increased price for leather, who, in turn, is compelled to make the retail merchant pay an increased price for shoes, or slight the shoes in their quantity and construction. The retail merchant protects himself in turn and the consumer pays the price put on the shoe. If you buy your Shoes from us, you are not at the mercy of the Leather Trust. **TWO DISTINCT SALVATIONS
ALL IN ONE OR THE OTHER.**

Every Human Being is to Have a Full, Fair, Intelligent Opportunity For Eternal Life—A Second Chance For Adam Only.

was confirmed unto us by those who heard Him."

Pastor Russell observed that according to our creeds the salvation will not be so great, but rather so little, so few—only the saintly handful out of earth's thousands of millions. He thought it evident, therefore, that the creeds were in error and quoted the prophecy that the Savior would see the fruitage of the "travail of His soul and be satisfied" (Isaiah 53:11). The Pastor did not believe that Jesus would be satisfied with His work if it rescued merely a handful from eternal torture. He quoted various Scriptures which afford a larger hope, declaring that God sent not His Son into the world to damn the world, but "that the world through Him might be saved" from the condemnation already upon it because of Adam's disobedience. These Scriptures cannot be applied to the Church, but must be held as applicable to the world. Of the Church Jesus says, "Ye are not of the world."

Theologians for centuries have missed the key-note of the Bible, which is that the salvation of the saintly handful, the true Church or Bride of the Lamb, is merely a preliminary work—only the salvation of a "first-fruits" (James 1:18). This first-fruits class or "Church of the First-born" is to have a different salvation entirely from that which is provided for the world. The Church is to constitute God's Kingdom, for which we pray, "Thy Kingdom come." Under its Messianic away God's will will be done on earth even as in heaven.

The World's Salvation Earthly.

As the Scriptures show distinctly that the salvation of the Church, or the Kingdom class, is to a heavenly plane or condition, they equally show that the salvation of the world is different—an earthly salvation. To the Church the Apostle wrote, We must all be changed in a moment, in the twinkling of an eye, because flesh and blood cannot inherit the Kingdom of God (1 Corinthians xv, 50-52). Of the world's salvation we read not of a change of nature, but of a "Restitution to the perfection of the nature already given to man, but lost through the sin of our first parents—redeemed through the merit of the precious sacrifice at Calvary. The Restitution Salvation which is to come to the world through the changed and glorified Messianic Church is described by St. Peter as awaiting its due time—the Second Coming of Christ—"Times of Restitution of all things which God hath spoken by the mouth of all the Holy Prophets since the world began" (Acts iii, 19-23).

The fact is that the Old Testament Scriptures treat entirely of the Restitution blessings, incidentally mentioning also things pertaining to the great Messiah, through Whom those blessings will come. Christians have neglected study of the Old Testament Scriptures and hence have failed to get their blessing. Prior to the coming of Jesus no one ever dreamed of the First Resurrection change to spirit nature. Everybody had the Restitution view of salvation in mind—the hope of being raised up out of death to human perfection. Hence it was not necessary for the Apostles to emphasize this feature. Rather they drew the attention of their hearers away from the earthly prospects, which are for the world, and gave them the message of the "high calling."

The High Calling Closing.

Now that the "high calling" is drawing to a close, having accomplished its election or salvation of the saintly handful, Divine providence is pointing us back to the Old Testament, that we may appreciate more than ever the "length and breadth and height and depth of the love of God which passeth understanding." Now we begin to see that the Scriptures foretell that Israel is to be the first amongst the nations to receive Messiah's blessing, as soon as His Kingdom shall have been established. Now we see how all the families of the earth will be blessed, not only through the Spiritual Seed of Abraham, typed by Isaac, and the Church, typed by Rebecca, but also through Abraham's natural seed these blessings will proceed to every nation under heaven. "All the blinded eyes shall be opened," "All the deaf ears shall be unstopped," "The knowledge of the Lord shall fill the earth," "The earth shall yield her increase," "The wastes and deserts shall blossom as the rose."

Ultimately the Paradise of Eden will bloom again, world-wide—God's Kingdom made glorious. The resur-

rection of the dead is the salvation which God has promised, even as death itself is the penalty which He has proclaimed for sin. The resurrection will not only include the awakening of those who have gone into the tomb, but, additionally, the uplifting (resurrecting) of Adam and all His family from sin and death conditions, weakness, meanness, depravity, etc.—up to full human perfection in the image of God, as Adam was before he sinned, plus increased knowledge.

FOR THE HOUSEWIFE

Mincéd Fowl on Toast.
Remove from the bones all the meat on either cold roast or boiled fowl. Clean it from the skin and keep covered from the air until ready for use. Boil the bones and skin with three-fourths of a pint of water until reduced quite half. Strain the gravy and let it cool. Next, having skimmed off the fat, put it into a clean saucepan with half a cup of cream and three tablespoonfuls of butter mixed with a tablespoonful of flour. Keep them stirred until they boil. Then put in the fowl finely minced, with three hard boiled eggs, chopped, and sufficient salt and pepper to season. Shake the mince over the fire until just ready to serve. Dish it over hot toast and serve.

Repairing Window Shades.
When window shades begin to look shabby around the bottom it is not necessary to throw them away. The curtain should be taken off the roller and the hem in the bottom ripped out. The curtain should then be put back on the roller with the worn edge at the top—that is, nearest the roller—and the other edge should be neatly hemmed and fitted up with a stick. There are a great many windows in every home where the curtains are never pulled all the way down to the bottom, and the worn part in this case will hardly ever show.

Correct Method of Darning.
Always leave a small loop of the thread at each end when darning a hole to allow for the shrinking of the mending cotton when the stocking is washed. Run the darning cotton or yarn half an inch beyond the hole on each side; cover the hole with threads that are run closely together and not drawn too tight over the darning ball. Then cross these threads in the regular darning style. Now run the needle a short distance around the darn with the mending cotton, and the stocking will not draw and tear about the mended hole.

Mulled Buttermilk.
One quart of buttermilk, one rounded tablespoonful of flour, two rounded tablespoonfuls of granulated sugar. Pour the buttermilk into an enameled saucepan and put on the range to boil. Upon boiling add the following mixture: Break an egg into a bowl and beat until light and foamy, add the sugar, then the flour, stirring until smooth, and pour into the boiling buttermilk, stirring rapidly to prevent scorching. Boil up once, remove from the fire and serve hot or cold, as preferred.

An Unofficial Order.
Thomas, tenth Earl of Dundonald; at his death vice admiral in the English navy, tells in his "Autobiography of a Seaman" of an incident on board the Hind, on which he served as midshipman. The pet of the ship was a parrot, the aversion of the boatswain, whose whistle the bird learned to imitate exactly.

"One day a party of ladies paid us a visit aboard. By the usual means of a 'whip' on the yardarm several had been hoisted on deck. The chain had descended for another. Scarcely had its fair freight been lifted out of the boat alongside when the parrot piped, 'Let go!'"

"The order was instantly obeyed, and the unfortunate lady, instead of being comfortably seated on deck, was soused in the sea. Luckily for her, the men were on the watch and quickly pulled her out, and, luckily for the parrot, the boatswain was on shore or this unseasonable assumption of the boatswain's functions might have ended tragically for the bird."

The Sewing Machine Needle.
Be sure that your sewing machine needle is not blunt if you want to avoid trouble in the start. Especially when stitching silks it is necessary to take particular notice that the needle is fine and sharp, and it is better to commence with a new one and take no chances if you don't want to ruin a good new piece of taffeta. It is just as bad for the needle to be rusty, and any experienced seamstress will tell you not to economize in needles.

Frog's Legs Fried.
The green marsh frogs furnish the best hams, as they are more tender and have less of the strong, muddy flavor. They are generally liked fried. Pare off the feet and trim them by inserting the stump along the skin of the other leg. Put them, with salt, pepper and lemon juice, to steep for an hour, then drain and roll in flour, then in beaten egg and in fine bread-crumbs. Fry to a light brown in hot fat. Serve with fried parsley.

An Overworked Ideal

We do not believe that any State in the Union offers as rich rewards as Florida to the man who cultivates the soil. In some cases one or two acres of land prove sufficient for the support of a family and if good land is selected and properly cultivated five acres will yield as much revenue as fifty would yield in other States.

This is a present advantage and a future danger to the State. There is no glut at present in the early vegetable market and no prospect of one in the next year or two, but this five or ten-acre vegetable farm idea threatens an over-production that will not only result in disappointment to the new-comers, but will also rob the old settlers, who have long been engaged in growing vegetables, of the profits they have been making.

Near the larger and more rapidly growing cities five or ten acres of land may permanently be sufficient to support a family in comfort and make provision for the future. Jacksonville is at present inadequately supplied with home-grown vegetables and with butter, milk and eggs produced at home. We take it for granted that Tampa is similarly situated. Even with the present population of these cities there is room for many vegetable growers, dairymen and poultrymen; and since Duval and Hillsborough counties are almost sure to have each an urban population of 150,000 in ten years there is no danger of either having too many small farms. The same is probably true of the country around Pensacola and the islands near Key West.

But speaking of the State in general, the small farm idea is being overdone. Prospective settlers should be told that they need enough land to support themselves and that they should ship only their surplus to the markets. They cannot live on vegetables alone. They should have a cow and hogs and raise corn and other stuff to feed them on. They should make their own sirup, set out fruit trees of all kinds and in general try to live as nearly as possible on the products of their farms.

To do this more than five or ten acres of land are needed. There are so many crops that can be grown successfully in Florida that it is extremely unwise to trust to one, and especially so when that one depends for its profit on markets more than a thousand miles away.—Times-Union.

Obituary Gems

When the Rev. Samuel Stone of Hartford, died a couple of centuries ago, says an exchange, an admiring friend produced the following epitaph in which the name of the deceased gentleman is made to perform a hypro-technical part:

A stone more than the Ebenezer fam'd;

Stone splendid diamond, right orient named;

A cordial stone, that often cheered hearts

With pleasant wit, with Gospel rich imparts;

Whetstone, that edgify'd the obtusest mind;

Loadstone that drew the iron heart unkind;

A pond'rous stone that would the bottom sound

Of scripture depths, and bring out Arcan' found;

A stone for kingly David's use so fit;

As would not fall Gollath's front to hit.

When John Sherman, of New Haven preacher, mathematician, almanac maker and father of 26 children, heard of the death of his good friend Jonathan Mitchell, a Harvard pastor, he exclaimed (after due thought and many poetic pangs):

Here lies the darling of his time,

Mitchell expired in his prime;

Who four years short of forty-seven

Was found full ripe and pluck'd for heaven.

When Thomas Dudley, father of the first American poetess, Anne Bradstreet, came to his deathbed, says the South Atlantic Quarterly, he showed where his daughter had received her surprising gift by composing such farewell lines as:

Dim eyes, deaf ears, cold stomach shew

My dissolution is in view;

Eleven times seven never lived have I,

And now God calls, I willingly die.

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

Although reduced, Pullman berth rates have been in effect since February 1, passenger traffic officials on lines entering Chicago declare there has been no appreciable increase in demand for upper berths, the price of which was lessened to 80 per cent of the lower berth prices.

The corporation tax provisions of the Payne-Aldrich tariff act were sustained as constitutional by the supreme court of the United States today. The court was unanimous in its decision. By the court's decision a source of income of approximately \$25,000,000 annually is assured to the government.

A queer case is that of Susan G. Macomber of East Orange, N. J., who up to a month ago was cashier and book-keeper at \$19 a week for the John Lane Company, bookseller at 114 West Thirty-second street, and is being tried for forgery in the third degree. In a letter which she wrote her former employers a few days after she left she pointed out to them the folly of trusting the book and cash of so large a concern to a \$19 a week employe and then admitted that she had misappropriated about \$9,000 of the company's funds.

The \$500,000 fire which started on Saturday afternoon in the Pratt Oil works plant a Standard Oil subsidiary, is still burning. Two fireboats and three companies of firemen are endeavoring to keep the blaze confined to the wharves and storage plant of the company.

A spectacular raid in San Francisco's Chinatown by immigration officials resulted in the capture of six Chinese slave girls who were illegally imported into this country for immoral purposes by a gang of Chinese who are in the "girl slave" business.

Russia in its treatment of the Jews within her borders continues to show that with all the veneer of civilization upon the surface there is a good deal of savage barbarism in her character. If Russia were as vulnerable to attack and as weak as are some small nations probably the more civilized nations would in the interest of humanity interfere and put an end to the persecution, just as this nation did with Spain in the matter of Cuba.

When to Trim Orange Trees

We are informed by those who are in position to know, that in pruning citrus trees, it would be much better to wait until the present crop of white fly, which are beginning to fly now, have disappeared, which will be in about ten days or two weeks, when all trees may be trimmed beneficially. It would also be of great benefit, not only to the early growth, but to all fruit to thoroughly spray immediately after pruning is done. If these directions are carried out, a marked improvement may be expected.—Reporter Star.

High School Notes

Friday afternoon the local High School team defeated the team representing the DeLand High School, by the score of 7 to 3. This game, which was well played, opened the season here. Score by innings was as follows: Sanford 1 0 2 0 0 2 2 0 R 7. H 14. DeLand 0 1 0 0 0 1 0 0 1 R 3. H 8. The team plays the return game in DeLand next Tuesday.

Thursday morning found both Camp and Grove in early sessions. The Camp sent greetings to the Circle highly complimenting them for their noble work and to a substantial donation of \$32 to be presented by the Circle to the Orphanage a non fraternal home of the state.

A purse of \$100 was also presented to the Circle from the Camp for the Tampa Drill Team as a token of the appreciation of the entire convention. The candidates initiated by this excellent team pronounced the work the most beautiful in their fraternal experience. Space forbids detail mention of the wonderful work being done by the Circle throughout the state of Florida. The convention closed Thursday noon with feelings that Celery City Grove had left nothing undone for entertainment of the guest in the city.

Following is a list of official delegates to the convention: Mrs. M. A. Robbins, Mrs. Kate N. Miller, Mrs. Addie S. Evens, Tampa Florida; Mrs. Leona Banghich, Pensacola Florida; Mrs. Winifred McDonald, Jacksonville; Mrs. Ida Long, Macomb; Mrs. Mary E. Neel, River View; Mrs. Mary F. McCann, Punta Gorda; Mrs. Mercy Phillips, Lake City; Mrs. Ida Balsley, St. Petersburg; Mrs. Laura Mahoney, Carabelle; Mr. T. N. Dorsey, Concord; Mrs. Lizzie Farrington, Durant; Mrs. Amy E. Cook, Mrs. Mary E. Gardner, Miami; Mrs. Anna King, Montbrook; Mrs. Virginia A. Harper, Kynesville; Mrs. Jennie J. Jennings, Fort Pierce; Mrs. Lillian Walker, Aucilla; Mrs. Mamie B. Gardner, High Springs; Mrs. Sarah E. Parker, Sanford; Mrs. Katherine A. Wheeler, Fort Lauderdale; Mrs. M. Florence Keyes, Kissimmee Grove, 65; Mrs. Mary M. Alexander, Palmetto; Mrs. Eva A. McKeown; Cypress.

Several good resolutions were passed by the convention toward bettering conditions in this Jurisdiction. One of the leading resolutions placed before the convention and passed was one pertaining to the Junior Order "The Boys of Woodcraft". This resolution also was passed by the Circle at their convention.

This convention was noted for and will go down in history as being harmonious and filled with good feeling from beginning to end and many funny but pleasing incidents were recorded. Every delegate who attended was there to do his best to better the conditions of and uplift perfected Woodcraft.

The reports for the years of 1909 and 1910 of the offices were made and well pleased were the representatives of Woodcraft on her great gain in Florida and the great amount of good work performed by the great order to the widows and orphans of deceased Sovereigns.

Conspicuous among the membership of this great order in Florida are such men as J. M. Towne, L. B. Sparkman, C. D. Mills, W. W. Anderson, Dr. T. L. Anderson of Live Oak, Byrd Sparkman, W. H. Max Boehning, C. H. Dannes, T. W. Mitchell and many others too numerous to mention, who can be found with their shoulders to the wheel of their home Camps in their home cities.

Fire at Pensacola

Pensacola suffered a \$150,000 loss yesterday by a fire which for a time threatened to sweep the city.

The fire had its inception near the depot. Fanned by a stiff wind from the northeast, it advanced steadily and rapidly toward the business section of the town. Flaming brands carried along by the wind ignited the roofs of buildings blocks away and, for a time it appeared as though the department could not control the situation. The firemen fought hard and by 1 o'clock had the situation under control. Nine buildings, including the Southern hotel were destroyed.

Attacks "Kingdom of God"

Cleveland, Ohio, March 10.—A warrant for the arrest of the Rev. T. A. George, leader of the "Kingdom of God," religious colony, was obtained today by Mrs. Carrie Smith, of Connecticut.

Mrs. Smith charges that the leader converted her sister, Mrs. Edna B. and enticed her and her husband to the colony here.

"I went to his home Monday and they mocked at me," Mrs. Smith said, "George and my sister met about a year ago when he was pastor of the Holy Mission church at Conneaut. He came to Cleveland, bringing my sister and her husband with him."

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain

Closing its tenth volume with the issue of last Friday, the Wauchula Advocate very pardonably and properly refers to its record and is pleased to be able to tell of ten years of uninterrupted service.

St. Petersburg is working hard on the charter to be submitted to the next legislature, providing for a commission form of government and otherwise changing things for the Sunshine City. The committee preparing this new charter is having plenty of work, but it will complete the document in plenty of time.

The Kissimmee Valley Gazette is rejoicing over the completion of the survey of the route of the Citrus Southern railway, which is designed to run between Kissimmee and Sanford.

The three-day automobile race meet to be held under the auspices of the Jacksonville Motor Club on the Atlantic-Pablo beach, starting March 27, promises to be a great success. All of the leading American cars will compete. That the mile record established by Oldfield will be broken is the general hope.

Dr. Hobson, pastor of the First Baptist church of Jacksonville, thinks the church should look after young people, and to this end has decided to give a moving picture show each Friday night. The pictures will be of a wholesome, moral character.

Phillipowski-Colbert

A quiet but beautiful marriage was solemnized at the Presbyterian church Wednesday morning, 22nd, at 11 o'clock, when Mr. J. M. Phillipowski of Maricopa, California and Miss Beatrice Colbert of Sanford, recently of Norfolk, Va., were joined in holy wedlock by Rev. J. F. McKinnon, pastor of the Presbyterian church, Mrs. W. T. Johns and Miss Mabel Doty being in attendance.

The marriage of Mr. Phillipowski and Miss Colbert is the culmination of a pretty romance and was not unexpected to their friends.

Mr. Phillipowski is a successful business man, being an official of the Kern Trading & Oil Co., of California, one of the large developing companies in the California oil field, and was compelled to leave immediately for California to resume his duties.

Miss Colbert is a charming young lady of Norfolk, Va., and is associated with the Florida Vegetable Growers' Association. Mrs. Phillipowski will remain in Sanford with her mother and brother, at the residence of Mrs. Johns, until her home at Maricopa, California, is completed.

"Miss Peggy," while she has been in Sanford only a short time, has a great many friends here and they join us in wishing the young couple all happiness in their new life.

Rubenstein Recital

Beryl Rubenstein, the young boy pianist who played in the studio of Mrs. Fannie S. Munson last Saturday evening, greatly delighted, and even surpassed the expectations of those who were so fortunate as to hear him. The young boy's technical command, combined with a most artistic interpretation was marvelous.

Specially delightful in technical evidence his smooth flowing and brilliant arpeggios—the trial of every piano student. The most difficult of such passages, under his little fingers, were as connected, clear cut and well modulated as a single five finger exercise could become.

Master Rubenstein's memory is prodigious and covers a repertory of 200 compositions, including the best from all the world's masters, ancient and modern, of which his program of last Saturday night was a type, and included compositions of Chopin, McDowell's The Eagle and Witch's Dance, Rubenstein's Barcarolle, an elaborate left hand number of Leschetizky from Lucia di Lammermoor, concluding with a masterful rendering of the Hungarian Rhapsody No. 2 of Liszt!

Beryl Rubenstein's genius places him on the roll of the world's "Child Wonder," while the result of his few years' study added ranks him with this country's artists.

POPULARITY PIANO CONTEST

The Herald Piano Contest Will Close on Friday, March 31st

Those who are interested in The Herald's Voting Contest can appreciate the hard work done by the hustling contestants who are working for the grand prize piano. For two weeks the closing warning has been sounded, giving each contestant notice to exert themselves to gain first place and hold it.

The contest will close March 31st and the ballot box will remain open until Saturday noon, April 1st, in order that each contestant can have a chance to get all possible. This will also give ample time for letters from other states to be received.

There will be no change of standing by the closing of the contest. In this way each contestant will have a fair show, and the one securing the largest number of votes will be given the \$500 Piano. Up until this time each week a correct standing was given, and it was quite easy to tell how many votes it would require to gain the leadership the next week. But there will be no way now, so we suggest you go after subscriptions with a vim and win the piano. Organize your forces. Re-canvass every home in this city and vicinity and make the closing home run a winner. Others have done it and so can you. Try it once and see.

The following schedule will be effective until the close of the contest:

Terms	Price	New and Renewal Subscriptions
1 Year	\$ 2.00	2,000
2 Year	4.00	5,000
3 Year	6.00	10,000
5 Year	10.00	25,000
10 Year	15.00	50,000

Write your name plainly and address The Herald's Contest Editor, Mrs. M. F. Keyes, Sanford, Fla.

This picture is an illustration of three curved spoons made by the Alaskan Indians. The largest of the three measures 16 inches from the tip of the handle to the end of the bowl. It is made from the horns of the mountain sheep, and the handles of all three are fine specimens of Indian skill in the art of carving. The smallest spoon is ebony colored and is made of mountain goat's horn. They were obtained by Francis Labadie in Skagway, during his trip to Alaska last summer.

GREAT DEVELOPMENTS

The Celery Delta Will Startle The World This Season

IMPROVEMENT ON RIGHT LINES

The Proposition is Assuming Proper Proportions Satisfactory to Outside Capitalists

Every place comes into its own!

There may be bright days and dark days for every section in this world of ours. There are times when it seems that every cloud has a silver lining and then a dark cloud obscures the sun and it may seem for awhile that a total eclipse will occur—Sanford for the past few years has been more talked about than any other section in the entire south. Like every other proposition that is good there are plenty to imitate and the original suffers until things right themselves.

Sanford is being righted! The small grower, the large grower, the merchant and the capitalist will now realize more than ever before and their profits can be figured upon a systematic basis.

Organization will now take the place of irregular methods. System will prevail where it did not exist before, and the investor who now seeks Florida as a place to get regular returns will come to Sanford first. Many changes are taking place at present to bring out the very best results in the great vegetable industry. Many improvements will be made this summer that cannot be given to the public at this time.

Chief among the many developments is the plan of the Sanford Land Development Co., whose prospectus appears in this issue. The purpose of this company is to put into cultivation 1,000 acres of land, plant crops and market them under a systematic plan that will guarantee results.

Instead of individuals working at variance the land will be under one head, thus effecting a large saving in every stage of the work.

Instead of buying a farm, the investor will buy stock and realize a profit on his investment, without giving his time and attention to a work with which he himself is not familiar.

The celery delta may in time be given over to just such a cooperative plan.

As stated above there are large developments in store for Sanford. The business of raising winter vegetables is a manufacturing enterprise—"a farmer's factory"—and like every other great industry will have to be transacted along systematic lines.

Great things are in store for Lucky Sanford—so great that only the future can foretell.

The Sanford Land Development Co. are the pioneers.

The cooperative plan rules the world!

About the New President

The following is taken from the American Banker:

"At a meeting of the directors of the Orlando Bank & Trust Company, Orlando, Fla., March 4, 1911, M. M. Smith, was elected to the office of president.

The bank has been successful from its organization, and enjoys well deserved prestige in financial circles by reason of the personality and business qualifications of its former president, the late Judge James D. Beggs. Following the death of Judge Beggs, it became the duty of the directors to select a man of that strength necessary to not only retain the confidence of the community, but be able to assume the responsibility of continuing the prosperity of the institution.

The new president has been intimately associated with the affairs of the bank since its organization in 1906. He is the president of the Peoples Bank of Sanford, Fla., vice president of the Florida Trust Company of Jacksonville, Fla., and vice president of the Bank of Winter Garden, Fla.

Mr. Smith has every qualification for successfully handling the affairs of those who are associated with him. His election to the presidency of the Orlando Bank and Trust Company is an expression of confidence, the reward of merit, and is a gratification to his many friends in Florida and other states."

50,000 Votes Reward

As a reward for faithfulness the Contest Manager will give the contestant securing the largest number subscriptions by Mar. 31st 50,000 extra votes.

The Wednesday Club

A goodly number of the club with one visitor, was present at the Meeting Wednesday afternoon; at the residence of Mrs. Geo. H. Fernald.

"Our University, the last of my mortal cares, and the last service I can render my country" Jefferson.

The entire program Wednesday afternoon was interesting condensed histories of the great Universities, and "The U. S. Academy at Richmond. The paper on "The University of Virginia," prepared by Mrs. C. W. Goodrich, of Orlando; and read by Mrs. S. O. Chase, was not only most interesting but entertaining and instructive, retracing as it did the earliest history of this great institution, from the time of its inception in the mind of Jefferson, one of its principal founders, its subsequent history and vicissitudes up to the present time.

"Washington and Lee University," was very cleverly considered in a fine paper, prepared by Miss Peacha Leffler, and read by Mrs. J. C. McDaniel, in Miss Leffler's absence.

The interesting history of this bulwark of learning was carefully reviewed from the days when it was known as "Liberty Hall," continuing to its change of name, to Washington University; after endowed the college, and still later, when the name of its illustrious President, Robert E. Lee, was added to that of Washington.

The paper on "Hampton-Sidney College" was given by Miss Gertrude Speer, was postponed at her request to a later date.

The members who were present are indebted to Mrs. D. L. Thrasher, for her able paper on the earliest history, of the brilliant French-American scheme, to found, "The U. S. Academy at Richmond. Some of the historical minds among the members, may have had some of the cobwebs brushed from their memories, while others, received historical instruction about the Academy, charmingly told.

"His name was long ago indelibly inscribed in the World's Hall of fame". Program for March 29th.

Edgar Allen Poe—Life Sketch and "Pathological Study", Mrs. G. B. Waldron. Poe's Place in Literature, Mrs. A. E. Phillips.

Here the Readers Will Find a Brief Historical Spring Flowing For Hurred Readers

Richard A. Ballinger, former Secretary of the Interior, will begin a libel suit against Gifford Pinchot and others as soon as he rests from the duties of his office that have kept him busy during the closing months of his incumbency.

Thomas T. Williams, business manager of the New York Evening Journal, is dangerously ill from erysipelas and a complication of diseases. Mr. Williams is a prominent figure in the newspaper world. It is feared that his death is imminent.

The Billy Hitt-Katherine Elkins romance has come to life again, with the news that Miss Elkins and Mr. Hitt have been house guests of Mr. and Mrs. Joseph Leiter on their houseboat, now in Florida waters.

Next Tuesday the Sixty-second Congress will convene in extraordinary session to take up the Canadian reciprocity matter. That the Solons will not stop at that, however, is certain from the statements given out by the Democrats who will control the lower house. Present indications are that immediately upon the convening of Congress a resolution will be introduced which will have the effect of putting President Taft on the grill in regard to the sending of troops to the Mexican border.

Champ Clark, while attending a dinner in honor of William Jennings Bryan's fifty-first birthday, last night made observations about the coming session of Congress. Some Republicans said Mr. Clark, have begun an effort to force Congress into acting on reciprocity, and that alone, by asserting that the President has the right to adjourn Congress if the two Houses cannot agree on a date for adjournment. No President has ever adjourned Congress and the chances are ten to one if President Taft adjourns Congress to prevent our curing outrages in the Payne-Aldrich-Smoot tariff bill he will not be able to command one-third of the votes of the electoral college, and there will be hardly enough Republicans in the House to call the ayes and nays.

The negotiations for the loan of \$50,000,000 to China by American groups of financiers have reached a final stage, all points at issue having been agreed upon. It is expected that an imperial edict sanctioning the loans will be issued this week.

Soft nose bullets, forbidden by the rules of war, are being used by both sides in the Mexican campaign. Col. Cuellar, who commanded the Mexican troops at the battle of Casas Grandes, reports officially that nearly all of the wounded men received their injuries from soft-nosed bullets. The report also comes from Agua Prieta that almost every federal soldier wounded there was shot with soft-nosed bullets.

Bonds of the new Panama canal loan, which will be floated before June 1, will be of three denominations—\$100, \$500 and \$1,000, according to present plans of the treasury department. There will be no \$20 bonds, a denomination issued in some of the previous so-called popular loans.

In a statement issued by the comptroller of the currency, it is shown that the forty-four national banks in Florida are, apparently in a healthy financial condition. They have loans and discounts amounting to \$20,459,554.35; capital stock \$5,850,000; surplus fund \$2,344,309; individual deposits \$28,292,301.59.
