

OFFICIAL WASHINGTON EAGER TO HONOR MARSHAL FOCH GIVING HIM GLAD HAND

Paying Brief Visit to Capital Enroute to Kansas City

GUEST OF LEGION

WILL RECEIVE GENERAL PERSHING AT HIS HOTEL AS GENERAL OF THE ARMIES

(By The Associated Press)
WASHINGTON, Oct. 29.—Official Washington was eager today to express to the fullest its sentiment of heartfelt welcome to Marshal Foch of France, who is paying a brief preliminary visit to the national capital enroute to Kansas City where he will be the guest of the American Legion at its annual convention there. Foch, who was greeted enthusiastically on his arrival here last night from New York, faced a busy program today of official calls, and courtesies, including luncheon at the White House as the guest of President and Mrs. Harding. Marshal Foch planned to pay his respects to Secretary Denby at the Navy Department and Acting Secretary Wainwright at the War Department. He will also receive calls at his hotel from General Pershing in his official capacity as general of the armies and chief of staff, Admiral Koozts and other high army and naval officers.

RAILROADS LAY PLANS TO REDUCE

WILL SEEK WAGE CUT THROUGH RAILROAD BOARD ANYHOW

CHICAGO, Oct. 29.—The strike of 600 trainmen of the I. and G. N. railroad operating in Texas, has been called off by the general chairman of the road, according to a telegram received here last night by W. G. Lee, chief of the Brotherhood of Railroad Trainmen.

CHICAGO, Oct. 20.—Railroad heads last night declared the nation's carriers would go right ahead with their plans to seek new wage cut through Railroad Labor Board hearings despite the announcement from the unions that their action in calling off the strike scheduled for October 30 had been influenced by the board's announcement that pay reduction petitions for any class would not be considered until working conditions for that class had been settled.

"The calling off of the strike will have no effect on the plans announced by the carriers October 14 to seek immediate wage reductions so that rates could be reduced," said Samuel Felton, president of the Chicago Great Western and chairman of the Association of Western Railroad Executives.

"I don't know how long under the board's ruling it will take to reach a decision on any pay cut petition but these petitions undoubtedly will be presented in a very short time. It will be up to the board then to decide when action should be taken.

"I want it made plain, however, that we will seek these reductions in accordance with the law, posting notices of cuts, then discussing them with the employees and if no agreement is reached, appealing to the board to settle the dispute."

Mr. Felton's statement was echoed by Samuel Dunn, editor of Railway Age, who in an address at a luncheon of the local railroad executives declared that "the unions' action settles only one thing—that there will be no strike."

"It does not settle the question of further wage reductions or of rate reductions," he continued.

"The roads are going right ahead with the plans to get further pay cuts and thus reduce rates, but if the Interstate Commerce Commission reduces rates and the Labor Board refuses to reduce wages, the roads will be in a disastrous condition."

SOUTH FLORIDA GETTING BACK TO OLD ORDER.

ST. PETERSBURG, Oct. 29.—Except for the damaged waterfront, St. Petersburg is back to normal today, with street cars in service on all lines, and all except a few small sections of the city provided with electric lights. The local loss from the storm of yesterday will be less than the estimates of half a million dollars, and most of the damage has already been repaired.

Immediate reconstruction of the old recreation pier at the foot of Second avenue, north, has been ordered by the city commission and the work is to be started in a day or two. This is to be for temporary use only until a new pier can be built. It is proposed to build a pier of concrete and steel to cost half a million dollars and plans have been ordered drawn for this.

Floods of telegrams poured into the city today with the restoration of service by the Western Union, which has several wires working now. Telegrams came from all parts of the country from persons who have relatives in St. Petersburg; and wanted to know if they are still alive, as greatly exaggerated reports of storm damage were published in northern papers. Another flood of messages went out to relatives assuring them St. Petersburg was little damaged.

MILLIONS FOR GOOD ROADS IN FLORIDA

State Road Department Let Out Contracts Yesterday

HALF OF IT NOW

SOUTH FLORIDA GETS SOME BUT ROAD NO. 1 RECEIVES THE MOST

TALLAHASSEE, Oct. 29.—Authorizing close to \$1,000,000 worth of state highway improvements and letting contracts for another half million dollars worth, the State Road Department had its busiest session in months here yesterday afternoon. The principal project let was the hard-surfacing of the Lake City to Baker county section of the Jacksonville-Pennacola road, which will cost \$255,033.

Practically every section of the state will draw some of the authorized work or of the contracted jobs. Among the principal projects authorized was the bridge over the Kissimmee river in the cross-state highway, and joining Highland and Okeechobee counties; completion of Marion county's part of the state road No. 2, supplementing that county's \$450,000 with whatever funds are needed; finishing the various gaps in Volusia and Putnam county on the east coast road to Jacksonville; and calling for bids on the road between Columbia county line and the Duval brick road.

Following adjournment at 6 o'clock last night the following summary of the day's work was available: Resolution passed to finish state road No. 2 within Marion county, supplementing the bond funds amounting to \$450,000 which Marion county will put on the project. The work will begin at once and a convict camp will be moving within the next week to begin operation.

Resolution passed authorizing the chairman to advertise for bids for four forty-foot spans reinforced concrete for use on the western approach of the Apalachicola river bridge. Resolution passed authorizing the appropriation of \$5,000 to be used in

LAKE OKEECHOBEE BOATS ARE DAMAGED.

OKEECHOBEE, Oct. 29.—Following in the wake of a week of rain, the storm broke over the Okeechobee section on Monday night. A southeasterly gale created havoc among the fishing camps on the north and west shores of Lake Okeechobee, washing up onto the beach and dragging small boats and equipment from their moorings and piling them among the hyacinths on the shore.

Roads in and out of Okeechobee are impassable, on account of mud and washouts, but will be repaired soon. All wire connections to the north were blown down Tuesday night.

TREE SPRAYING.

The matter of compulsory spraying of citrus trees was given polite liberal consideration at the late Seminar and the consensus of opinion was that at the next session of legislature this question must be given attention. It does not seem as though there could be any opposition to such a proposition, at least by fair minded people who have a consistent regard for the rights of their neighbors. The question should be kept alive by extensive newspaper publicity.—DeLand News.

Fathers' and Sons' Banqueted Last Night, 150 There

Men and Boys Enjoyed a Most Delightful Occasion

The Fathers and Sons Banquet at the Parish House last night was one of the most delightful as well as one of the most interesting affairs of the season. There were over one hundred and fifty sat down to the long tables and disposed of a fine banquet that had been arranged by the Men's Club and the Brotherhood classes of the Parish House.

The idea of the Fathers and Sons banquet was originated by Father Peck, who was anxious to have the fathers of "his boys" as he calls them, know more about what the Parish House was doing for the boys and the kind of place where they were spending their spare time.

After the banquet followed by ice cream and cake and cocoa and coffee had been disposed of President Whitner called the assemblage to order and called upon a number present to speak a few words about the work—those who belonged to the Men's Club to tell of the work and those who did not to tell how they felt about the work of the Men's Club and the Parish House Brotherhoods. Those called upon who responded with many fine talks were Hon. George A. DeCottes, Billy Holden, H. C. DuBose, Judge Housholder, S. O. Shinholsler, Hon. Forest Lake, Mayor Stevens, R. J. Holly and Father Peck.

A sextette of the Men's Club gave many vocal selections during the evening and the songs compiled by the Club were printed and put in book form in order that everyone could join in the chorus. With songs and speeches and a general good time the meeting was adjourned by President Whitner with the request that all of those present take a tour of inspection and see just what comprised the Parish House plant. The visitors were astounded at the fine place that has been improved and added to from time to time and it looked like Father Peck had stored up "much honey" at various times and also that those who attended the meeting last night would in the future assist in making more honey for the boys to enjoy in the future.

There are many big improvements contemplated at the Parish House and the addition to the big auditorium is being started now that will mean so much to the entire citizenship of Sanford. The Parish House will have a gallery and place to seat many hundreds of people who can see a good entertainment now and then, a movie show, a basket ball game and athletic events and the Parish House will be a real community house in every respect in the near future.

The Men's Club is doing a great work in the community and deserves a helping hand from all those who

Railroad Strike Has Been Called Off by the Big Five Unions

(Continued from Page One)
crafts unions—publicly announced that he "would fight tooth and nail to avert a walkout by the eleven standard unions."

A few days after the "big five" strike call, the United States Labor Board stepped into the situation. The three members of its public group who had been summoned to Washington to confer with President Harding, announced their plan to avert the strike—no further reduction of wages and immediate reduction of rates by the roads and acceptance of the July 1 wage decrease by the unions. Both roads and unions immediately declared the plan impossible. The board then called the union chiefs into a conference at Chicago, and, pending this conference, the eleven "standard unions" deferred action.

Nothing developed at this conference and the board then formally announced that it "assumed full jurisdiction" over the rail crisis and ordered the unions not to strike pending a board hearing to determine if the transportation act had been violated in the strike activities.

The activities of the shop crafts, representing 600,000 men, then announced that they would not authorize a walkout. This was the "first break" and others followed rapidly until every one of the eleven "standard" unions except the Order of Railway Tele-

graphers had refused to authorize a strike.

The labor board hearing was held yesterday. It adjourned when the unions, at the instigation of the board, requested permission to confer with their chairmen. These conferences led up to the "big five" final action.

On last Saturday, however, six hundred trainmen on the International and Great Northern began a strike. This strike had been authorized previous to the "big four" strike call. What the settlement there will be is not yet known.

BLANTON, IN TEARS, LEAVES HOUSE AFTER RECEIVING REPRIMAND.

WASHINGTON, Oct. 28.—Saved from being thrown out of the house of representatives by a bare margin of eight votes, Thomas L. Blanton, a Texas democrat, was publicly reprimanded late today by Speaker Gillett, in accordance with a resolution of censure, against which no man cast a vote.

Then, a moment later, as he walked out of the chamber with all eyes upon him, he toppled over in a heap. Some of his colleagues who had voted to expel him, picked him up and placed him on a lounge, but he did not stay there long. Rousing himself, he stumbled out, the tears streaming down his cheeks, and as he went away he was heard to express the hope that he might never see the house again.

There was not doubt of the fact, as members expressed it, that the Texan was utterly crushed and worn by his experience of the day, an experience that seldom comes during the life of a man in congress. For an hour and ten minutes, with hostile eyes upon him, he fought to defend himself from the charge that he had transgressed the law by putting into the Congressional Record a document described as "unspeakable vile."

Some men think they know it all, and some try to help their twelve-year-old children work school problems.

BUY A BIG FLAG FOR ARMISTICE DAY.

The civic committee of the Woman's Club, of which Mrs. G. I. Loucks is chairman, is fostering a strong movement to place a flag of permanent value in every home in Sanford for Armistice Day. The flag of our country should be honored, and proudly displayed on every holiday, and sacredly taken care of between times. It shows very little forethought when one decorates with the cheap printed affairs that are faded and ruined by the first sprinkle of rain, so by ordering a large number, the Civic Committee has procured a fine aggl of wool bunting, with sewed stripes and the correct number of stars, to sell at \$1.75 each. Orders may be telephoned at once to Mrs. Henry Wight, Mrs. R. J. Holly.

Having reduced the glare in headlights, the traffic authorities are now seeking to reduce it in crossing officers.

FOR MISS MURIEL.

One of the prettiest parties enjoyed this season, was the delightful Halloween affair at which Mrs. R. Ernest Tolar and Miss Sara Muriel entertained last evening in honor of Miss Gerardine Muriel.

Quantities of golden rod and mar-chel roses adorned the lower floor which was opened on suite. Lights shaded with yellow crepe paper, witches, bats, black cats, and ghosts, indicated that the evening was to be a spooky one.

Various games, including heart dice and fortune telling were the order of the evening. Later, a real witch appeared to read the future of each young guest. After the lively yarns and the reading of humorous questionnaires, the prize for the questionnaires was awarded Mr. Walter Connally.

The hostesses served a dainty ice course which carried out the color scheme of orange and black.

Assisting Mrs. Tolar and Miss Muriel in serving, were Misses Bessie Zachary and Ida M. Gray.

About twenty young people enjoyed this delightful affair.

TUESDAY—St. Agnes Guild will entertain at a Halloween measuring party at the Parish House from 8 to 11 o'clock.

Mr. and Mrs. J. H. Gay, of Jacksonville, are spending some time here at the Montezuma, before going to other places of interest in the southern part of the state.

W. H. Wood, of Concord, Mass., Grace Rackle, of Concord, Mass., Clara C. Messer, of Cambridge, Mass., are spending the day here today en route to St. Petersburg.

W. R. Frier, of Douglass, Ga., is spending several days here as the guest of friends.

Warren E. Elgelmann, of Charlotte, N. C., arrived last night and is the guest of his sister, Mrs. Fred Daiger, Jr.

Daughters of Wesley will be entertained by Mrs. W. A. Lester and Mrs. Vance Douglas, at 803 Magnolia avenue, at 7:30 p. m.

IN HONOR OF MISS KERSEY.
Mrs. Vance Douglass entertained most delightfully at an informal dance last evening at her home on Magnolia avenue, complimenting Miss Ethel Kersey. The decorations were carried out in the Halloween suggestions, witches, cats, Jack-o-lanterns and other novelties being used.

Dancing was enjoyed until a late hour when Mrs. Douglas served refreshments consisting of a salad course, coffee and candy.

Among those enjoying Mrs. Douglas' charming hospitality were: Misses

Edna Chittenden, Marlu Brown, Edith Magee, Ethel Kersey, Mrs. W. A. Lester, Mrs. Serrell; Messrs. Stewart Dutton, Alfred Robson, Lee Peck, Tom Terry, Albert Bearden, Vance Douglas and W. A. Lester.

C. E. ENTERTAINMENT FOR MISS MAY THRASHER

The Presbyterian C. E. entertained with a Halloween party last evening at the church parlors in honor of Miss May Thrasher, a popular bride-elect, and J. D. Woodruff. The guests assembled downstairs in a dim room downstairs where they were blindfolded by ghostly figures and conducted up a stairway to a dark, lonely tower where they clasped a cold, clammy hand, while chains rattled and clanked.

They then were led by their ghostly guides, one by one, up and down stairs till they came to a dimly lighted room where their blindfold was removed, while the air resounded with groans and shrieks. The sight that met their eyes was blood-curdling. In the center of the room stood a skeleton clothed in white and around it danced two black imps with horns and tails.

Next the guests were invited into the church parlors and the folding doors to another room were opened, disclosing a witch bending over a cauldron, reciting strange spells. Around her danced ghosts and imps. She drew from the cauldron a fortune for each guest present which the ghosts distributed.

The lights were turned on and a jolly marshmallow contest and a peanut race followed.

Then the boys and girls in turn were seated and guessed the owners of the shadows which passed before them on a sheet.

Miss Gayle Marshall next presented Miss Thrasher, the honoree, with the official C. E. wedding gift, a silver tomato server.

Delicious cocon, sandwiches and doughnuts were then served by the Social Committee.

The decorations for the occasion were the regular Halloween effects, black and yellow pumpkins, cats, witches, etc.

The party closed with the C. E. benediction and some C. E. songs.

The committee responsible for this delightful entertainment were: Mrs. Brownlee, Mrs. Greene, Mr. and Mrs. Donald Whitcomb, Misses Florence

RESOLUTIONS BY THE WESTMINSTER CLUB.

Whereas, Our Heavenly Father, in His Providence, has called to the home above Mrs. Mary Ransome Woodruff, our friend and fellow member, the first treasurer of our club, Therefore it Resolved, By the Westminster Club, that we express our sorrow at the loss of her presence at our meetings, and from association with us in our work.

We submit to our Heavenly Father in His love, knowing that "all things work together for good to them that love the Lord."

We express our sympathy to her husband and other loved ones and commend them to the Comforter and His words of tender ministry.

UPSALA AND GRAPEVILLE

Miss Eva Mann, of Ormond, on the east coast, is spending a week of her vacation with her cousin, Mrs. Alma Niece, of this place, and visiting other friends in the neighborhood and in Sanford.

Mr. and Mrs. West and son, Leonard, who are camping out here, motor to New Smyrna on Friday to spend the week-end with Mr. and Mrs. Hubble, of that place.

The fishing seems to be good; our neighbors took out fourteen trout or black bass as we northerners call them in an hour and a half, and again on Monday, 11.

This has been so far, a very stormy week. A little rain all day Sunday, more on Monday and on Tuesday a regular gale, and our barometers gave the lowest figure I have ever seen it register, at 8 p. m., it was at 29.60, and by nine it had fallen a trifle below 28.90, and then began to rise again. Somewhere near, there was an awful storm. The wind shifted from the northeast to west on Wednesday. Hydrometer, 28.60.

Mr. and Mrs. Volle Williams had a house full on Sunday, among them their relatives from Sanford, her father from Orlando and Mr. and Mrs. Campbell and children of this place.

Rev. G. J. Albertson writes us that Rev. R. W. Edwards has left us, which all will be sorry to hear, and that he is planning to be here on the first Sunday in November in his place, and at Lake Mary and Paola also, with an evening service, Saturday evening at Lake Mary.

Mr. and Mrs. Cramer and children, were guests of Mr. and Mrs. Collier, in Sanford on Saturday, and Charlie on Sunday while his wife spent the day with a friend, Mrs. Battle.

We love the birds and our place has always been a refuge for them and no gun is ever used except for a couple varieties of hawks. Little Jenny Wren has arrived now, with her scolding note to keep the phebe company, but not the hobo as the misprint had it.

We note that Mrs. Anna DeForest has arrived home after having spent the summer in the north.

UNITED DAUGHTERS OF CONFEDERACY AS AN EDUCATIONAL ORGANIZATION

We cannot express in figures all the work of education in colleges and universities throughout the United States from Vassar College in New York state to those of prominence west of the Mississippi into Texas.

The work of education is not limited to scholarships, but everything that tends to the educational uplift of the community comes within our province. We are an educational force for we accomplish a definite work recorded in six figures, and because yearly we come nearer realizing our ambition of giving the highest possible education to every southern boy and girl—we have an interest and privilege in expressing ourselves in all educational subjects for advancing education. The United Daughters of the Confederacy are a cooperative organization in every community, with their schools and colleges, and all organizations interested in the educational work of the youth of the country, town and state.

The following figures mark the advance along educational lines in the U. D. C. The Florida Division maintains eleven scholarships at the two state universities with a total of \$1,950.

The general organization and division maintains over 386 scholarships, value \$70,838; have given various schools and colleges assistance to the value of \$4,139.38; assistance to libraries \$218.50; presented volumes to the number of 1364 to libraries, valued at \$1,535.25; have awarded 237 prizes and medals to students in various colleges and universities; gifts to schools, \$3,031.50. Total expenditures for educational purposes from November 1919 to November 1920, \$31,539.78.

Besides this educational work and scholarships the U. D. C., maintain what is known as the "Hero Fund" in memory of the world war soldiers, the interest from this fund of \$50,000 is used for educational scholarships for the sons and grandsons of Confederate Veterans who served in the world war.

A great many books have been placed in the Bodleian library, England, and Library of Parliament, Ottawa, Canada, by the United Daughters of the Confederacy. Our interests are far reaching, we are travelling over

NO WINE OR BEER IN FLORIDA SAYS WHEELER NEW RULING DOES NOT APPLY.

TALAHASSEE, Fla., Oct. 29.—(Special)—The Florida state law is absolutely in line against wine and beer sales from drug stores on physicians' prescriptions, said C. W. Crooke, superintendent of the Anti-Saloon League of Florida, at the Leon hotel, today, when asked about the new regulations issued from Washington yesterday.

Wayne B. Wheeler, general counsel of the National Anti-Saloon League and Rivers H. Buford, attorney general of Florida, are of the same opinion, said Mr. Crooke. Wheeler, in a statement in Washington, today, said: "No beer can be made or sold legally in Florida."

Mr. Buford, when seen at the office of the attorney general, this morning, stated that in his opinion the regulations issued by the secretary of the treasury of the United States, will not apply in the State of Florida. He said: "The manufacture, sale, barter or

AMERICAN LEGION MEETING AT ST. LOUIS WILL BE IMPORTANT.

KANSAS CITY, Oct. 29.—When the representatives of nearly a million members of the American Legion gather at Kansas City, October 31, for the annual national convention, many problems of the ex-service men will be brought up for settlement.

One issue upon which Legionaries everywhere seem to be at one is that of adjusted compensation. Most state conventions of the Legion have expressed regret and many have denounced the action of the senate in recommitting the federal adjusted compensation measures, and it is expected that the national convention will be asked to urge the reconsideration and early passage of this bill.

Another big problem that will be dealt with is that of unemployment. A recent survey conducted from the Legion's national headquarters revealed that between 600,000 and 700,000 world war veterans were out of work, many in actual want. The Legion maintains welfare departments and employment bureaus and action is expected to be taken that will help widen the scope of these departments in giving relief to the service man in need.

Many recommendations will be offered in the convention. The Iowa delegation will ask the national body to condemn the participation by poets in entertainments and sports on Memorial day. The Montana department will urge the formation of an international organization to include all ex-service men of the United States and allied countries.

Indiana Legionaries will ask the convention to officially approve "Hello, Al" as a salutation between men of the legion.

Five cities are contenders for the 1922 convention and the fight probably will be a hot one. San Francisco and New Orleans are two strong contenders.

Everybody in church tomorrow.

It won't hurt you and it will certainly help you.

Sunday morning is a good morning to sleep with those who have to get up early through the week, but get up anyhow.

We are glad to note that every home in Sanford will soon have a regulation flag to float in the breezes whenever there is some occasion for it. The old flag is our greatest anchor.

Postmaster General Hayes was hurt in a railroad wreck Thursday morning and the strike was called off at midnight that next night. They should have shaken Billy Hayes up a little sooner.

We expect to give old man Foch a great welcome to America today when he arrives in New York. America owes much to France and France owes much to America. We wish the general would visit Sanford while he is over here but suppose he will be too busy to more than read the Sanford Herald.

PUBLIC OPINION SETTLED THE STRIKE

Public opinion settled the railroad strike.

Cancellation of the general strike order is neither a victory for the railroads nor the unions, but a victory for the great American public.

L. E. Sheppard, president of the Order of Railway Conductors, admitted this when he said: "The strike was called off because of the growing public opinion that the strike would be against the labor board, and consequently against the government, and not against the railroads."

The government is an organization representing the general public, and the unions are to be commended for recognizing this, since the general public was looking to its government for a settlement of this strike.

It is possible that the railroad executives and the union officials reached some agreement which has not been announced. Each side had arguments in its favor, but the public rightfully assumed a position of self-defense and defeated the strike by failing to line up solidly behind either faction and by demanding continued transportation service, which naturally required co-operation between the executives and employees.

A general railroad strike would have paralyzed this country. The "outsiders" would have suffered more than either the railroads or unions—and knew it. This knowledge and emphasis of it caused the strike to be called off.

There is a significant sign in the outcome. The unions, and doubtless the railroads, too, have awakened to the importance of the great majority and its power. "We won't be the 'goat'" was a generally held sentiment. "The point is not whether the railroads or the unions are right, but whether the great American majority should be forced to suffer" attitude was voiced on all sides, and the opposing groups dared not turn deaf ears to this expression of self-protection.

The whole country is glad the strike has been called off, particularly since the country has won a great victory.—Jacksonville Metropolis.

FLORIDA IS FIRST

The third quarterly bulletin for the year, compiled and issued by the commissioner of agriculture, Hon. W. A. McRea, has come out in a new and attractive dress. Printed on heavy book paper, and elaborately illustrated, the pamphlet will prove of inestimable value to the state as an advertising medium. Mr. McRea did not attempt to exploit the agricultural resources of the state, but the purpose pursued was to present some of the attractions which Florida has to offer the tourist, says the Orlando Sentinel.

With the aid of the commercial secretaries of the state, much of the material was collected for publication in this bulletin, and each county has its share of detailed information and illustrations. Not even the seven new counties have been alighted, and the wonders of each section are told in such pleasing style, that all will find it delightfully "readable" and of compelling interest.

When asked about the circulation of the volume, Mr. McRea stated that the secretaries of commercial organizations throughout the state had furnished names and addresses of those inquiring about the various sections and that from the list thus compiled more than 2,000 copies would be mailed to people outside of the state.

In the closing pages of the book, Mr. McRea points out that "Florida is first."

- In diversity of food products. In value per acre of farm products. In united area that is tillable. In number of growing days. In phosphate production. In naval stores production. In fuller's earth production. In fishing industries. In area of standing timber. In muck soils. In length of coastline. In variety of trees. In variety of fish. In variety of birds. In variety of hay crops. In winter-grown truck products. In coconuts. In bananas. In camphor. In sisal.

- That Florida is: The orchardist's Lotus land. The trucker's opportunity. The farmer's three chances a year. The stockmen's living world. The fisherman's Galilee. The lumberman's last stand. The dairyman's flowing bowl. The beekeeper's land of milk and honey. The tourists' land of promise. The sportsman's rendezvous. The yachtsman's paradise. The film-maker's dream. The home-seeker's goal. The manufacturer's future. The citizen's cornucopia.

LUCKY FLORIDA.

A railroad strike commencing the end of the week is neither "unthinkable" nor "inconceivable" since it has not only been thought of but planned and ordered. The country at large are thinking of little else these days.

The Post fully realizing that such a strike will be a very serious matter, refuses to become panicky in contemplating the possibility, and has not yet given up hope that it will be averted. If it does come the situation will have to be met.

A query received by the chamber of commerce serves to remind the people of this section that we are in a position to meet the exigencies of the occasion better than many others. The letter referred to stated that the writer is on his way to Florida and asked if it would be wise to continue to West Palm Beach in view of the threatened strike. He wanted to know especially if there would be any danger of food shortage.

A general railroad strike will hurt Florida business at this time just as it will hurt every other part of the country. Travel will be held up and what is even worse, freight shipments will be reduced to a minimum if not completely halted. All business is bound to feel the effects.

On the other hand, Florida can congratulate itself that there is no great food problem and no heating problem. Here we cannot starve and we cannot freeze. Both are tremendous advantages. We need no heat, and although we might be deprived for a time of the variety we are accustomed to in our diet and which is made possible by shipments from outside the state, there will be plenty to eat. As long as the ocean and rivers and lakes are the home of fish, the soil provides vegetables and fruits and the poultry does not die overnight it will take more than a strike to create anything approaching a famine condition in Florida. We know that we have the seafood and the fruit of the soil. We have poultry and a fairly good supply of dairy products.

We do not realize how lucky we are. A very short strike would work terrible hardship in many centers, especially the great cities which must de-

pend on transportation for every bite. Even without railroads we can feed our population with the help of the roads and the waterways.

If there is any moral to this event it is that the country that can feed itself is best able to take care of itself in time of disturbance and that transportation is the second great essential of modern civilization. We have food for this emergency and the area under cultivation is constantly being increased. So far so good. We can muddle through now with our very meager transportation facilities, but unless they are extended in proportion to the growth in population and settled territory, there may come a day when Florida will suffer for the lack of them. It's an ill wind that blows no good but it ought not take more than the threat of a strike to start us looking more intelligently after our transportation needs.—Palm Beach Post.

BUILDING PUBLICITY.

Building statistics from Florida have become a regular news feature with the Associated Press. The news-gathering agency was quick to see the unusual in the Florida situation and has been giving the state exceptional publicity. St. Petersburg, ranking near the top among Florida cities, gets a big portion of the publicity. How this news feature is attracting attention may be seen in the following editorial appearing in the Industrial Index, published at Columbus, Ga.:

Florida continues in the news—the real, worth-while news—the news that tells of constructive effort, and of upbuilding.

Once more the Associated Press has carried a lengthy dispatch regarding building in that state showing wonderful construction records during the month of September.

It may be said in passing that while this dispatch is sent out over the country purely for its news value, yet it constitutes a great compliment to Florida, and a unique compliment, too; for no other state in the union is at present so honored, as indicated in the publication of general press dispatches.

The September building statistics in Florida are a great credit to Florida and to the southeast.—St. Petersburg Times.

WOMEN MUST PAY POLL TAX—BUFORD.

In a communication from Rivers H. Buford, attorney general of Florida, the statement is made that "women will be required to pay a poll tax and qualify as voters under the same conditions under which men are required to pay such poll tax, from and after the day upon which taxes for the year 1921 become due, which is November first."

The Attorney General's statement

that women must pay the poll tax like the men after November 1, as a condition of voting, sets at rest various constructions upon the Florida law. The poll tax must be paid after November 1, or there will be no franchise privilege for the women of the state who wish to cast their ballot at elections.

The committee of fifty appointed recently to see that a full registration of all Daytona women is secured reported Monday evening, considerable work having already been done.

In his decision the attorney general says that "under the act of the legislature of 1921 no person who became eligible to qualify as a voter in the year 1920 is required to pay a poll tax for that year to qualify to vote. Therefore until taxes become due for the year 1921 women will not be required to pay poll tax."—Daytona Journal.

ASK FOR YOUR RECEIPT.

Subscribers to the Daily Herald should ask for a receipt when the carrier boys collect from you. It is the only protection you have in case the carrier changes or there happens to be a mistake in the account. Each carrier boy is supplied with receipt books, and is commanded to give a receipt by the Herald. See that you get your receipt at the end of each week if you are paying that way.

being the editor of the Enterprise and
engaging in other business, Mr. Frier
is mayor of his town. He thinks San-
ford is growing fast since his last
visit and likes Florida very much al-
though it is natural that he should
think Georgia the best State in the
Union. Mr. Frier says that his home
State is rapidly recovering from the
depression due to the low price of cot-
ton, and business is picking up along
every line.

GEN. FOCH CALLED ON WOODROW WILSON COULD NOT SEE HIM.

(By The Associated Press)
WASHINGTON, Oct. 29.—General
Foch called at the home of former
President Wilson, but Brigadier Gen-
eral Connor, honorary aid to the Mar-
shal, was told that Mr. Wilson's phys-
icians had given instructions that it
would be inadvisable to receive any
visitors. General Foch thereupon left
his card.

"JUNEBUG IN A BOTTLE."

The management of the enterprises
that are putting Florida forward at
such a rapid rate are all made up of
men who plan and work hard. There
is nothing that will take the place of
planning and working. Without plan-
ning, one may work over so hard and
accomplish nothing. A wolf in a cage
works hard, but nothing is done. So
does a Junebug in a bottle.—Fort
Pierce News-Tribune.

IT DOESN'T MATTER.

Some people would like to play pol-
itics every day in the year, but the less
politics we have in Hardee county the
better the county will be. Why should
we wrangle over politics. What real
difference does it make to the average
citizen who is in office so long as we
have a clean, honest administration?

ROMAN RECORDS IN AFRICA

Discovery It is Believed Will Throw
Much Light on Early History
of the Empire.

A discovery which, it is claimed,
will form one of the fundamental
sources for a history of the Roman
empire under Augustus has been made
recently by Doctor Oliverto, an Italian
savant in Cyrene, the ancient
Greek colony in Africa, founded in the
Seventh century.

A Morning Post correspondent, writ-
ing from Cyrene, says that excavations
at Bengual—the ancient Berence,
which stood in the midst of the gar-
dens of the Hesperides, near the mouth
of the River Letho—have resulted in
the unearthing of a block of marble
eight feet long, one face of which
bears a flawless Greek inscription of
over one hundred lines; the transla-
tion of a letter from Augustus on the
government and administration of jus-
tice in Cyrenaica, giving a wonderful
insight into the financial and judicial
conditions of the country at that time.

Other interesting finds are a sanc-
tuary dedicated to Eastern divinities,
probably of the time of Julian the
Apostate, with a remarkably well-preserved
black marble statue of an
Egyptian goddess. An extensive
Ptolemaic cemetery also has been lo-
cated. At Apollonia, a Christian ba-
silica of the Fifth century is being ex-
cavated, and at Merjd, the ancient
Iraee, some Coptic inscriptions have
been found which are held to be of
great importance when the history of
the Arab conquest comes to be written.

Fight Plant Diseases.

While continual effort is being made
to introduce promising new plants into
the United States, the various
branches of the Department of Agricul-
ture are striving to avoid making
additions to the imported insects and
plant diseases that are already cost-
ing millions of dollars yearly. For-
eign countries have listed several thou-
sand insects of troublesome kind, with
many plant diseases that are not yet
included among these immigrants.
Besides special quarantines and plant
inspections the further precaution is
being taken of restricting the numbers
of the plants introduced and growing
for a considerable time in greenhouses
or under conditions of isolation, to
make sure that all pests have been re-
moved. After it is made certain that
the plants are thoroughly freed from
insects and diseases, they are propa-
gated more extensively, and are dis-
tributed in the usual way to growers
for experiment.

Aid for Struggling Authors.

Here is an item from the New York
Globe of interest to impetuous writ-
ers: "It is not generally known that
the Authors' league has a fund for
authors who are in distress. Re-
cently the league learned that a young
woman who had won considerable dis-
tinction and prominence as a writer
had through a series of misfortunes and
through illness been reduced to dire
distress. A representative called to
see her and found her on the verge of
a physical and nervous collapse, due
to actual starvation. Immediate means
were supplied her, and in order to give
her an opportunity to regain her health
and to get her back to her work a
substantial amount was raised among
the members to carry her through
this period of enforced inactivity.

Noise Eliminated.

"You charge more for board than
you did last summer."
"The place offers more rest and
comfort," answered Farmer Corn-
meal. "There ain't any election for
guents to sit up all night and argue
about."
