

Deadlock Over Evacuation Question Imperils Success Of the London Conference

OVER THREE AND ONE-HALF MILES MAINS LAID JULY

Meeting This Morning Between French and German Delegates Shows Little Progress And No Tangible Results of Many Meetings Seen as Yet

Report City Manager Shows Work Done Under His Supervision; Much Sewerage Has Also Been Put Down

From July 4 to Aug. 1, 18,908 feet, or over three and one-half miles, of new water mains were laid by the city under the supervision of City Manager W. B. Williams, according to his July report submitted to the City Commission last Monday.

The report shows that two crews are at work laying mains, one having laid 9,894 feet during the July 4-Aug. 1 period and the other having laid 9,014 feet. W. W. Hasty's crew has laid: 3,189 feet of 12-inch pipe; 5,819 feet of 10-inch pipe; 86 feet of 6-inch pipe; cost of labor, \$1,488.10 or \$1.16 a foot; cost of lead and oakum used, \$1,020.50. W. E. Jamieson's crew has laid: 9,514 feet of six-inch pipe; cost of labor \$1,170.40 or \$1.2 a foot; cost of lead and oakum used, \$660. Hasty's crew put in 16 hydrants, six 10-inch valves, five six-inch valves, and one four-inch valve. Jamieson's crew put in six hydrants and five six-inch valves.

Further reports on the waterworks operation and extension show that the pipe is being handled for approximately \$1 a ton, and that the city now has 812 meters and 117 flat rate water customers. More meters will be installed as soon as is practicable and convenient.

Mr. Williams' statement showed that 147 arrests were made by Sanford police during July. Fines, costs and arrested bonds amounted to \$2,347. Of the cases, 18 were dismissed and one was transferred to county court.

The remainder of the report is as follows: "There were three fires during the month, one of which was at Lake Monroe. Building permits approximated \$62,320; there were 23 plumbing permits, 10 of which were for sewer connections, and 24 electrical permits.

Maintenance costs: garbage removal, \$101.95; street sweeping, \$52.30; street maintenance, \$29.75; care of parks, \$59.50; sanitary department, \$327.50; care of athletic field, \$32; painting street signs, \$17.05; old waterworks (labor), \$160.

Work on the Paola road, catch basins on Sanford and Palmetto Avenues, on Thirteenth Street, Oak Avenue, Park Avenue, Magnolia Avenue, Palmetto Avenue and Central Avenue. Cleaned sewers and constructed catch basins on First Street and Myrtle Avenue.

Laid 150 feet of wood curb at Fifteenth Street and Park Avenue; repaired bridge at Eighth Street and Pine Avenue, Sixth Street and Pine Avenue, Seventh and Eighth Streets, Pine Avenue and Eleventh Street, corner of Pine Avenue and Fifth Street, Tenth Street and Olive Avenue, Eleventh Street and Olive Avenue, and Fifth Street, Olive Avenue and Fifth Street.

Sanford Kiwanians, 18 or 20 strong, left this morning in automobiles for Plant City where they will battle this afternoon for the second time with the Strawberry Grove baseball team for championship honors. Last Thursday City 5 to 0 in this city. It was the fifth straight victory for the Sanford team and the first defeat experienced by the visiting team during the past three years, according to Manager H. H. Huff, of the Plant City outfit.

Manager E. F. Lane of the locals stated this week that although he would not be able to go to Plant City with the team, he expected them to do about as well without him as if he were along. "W. D. Gardner has been appointed manager during my absence," he said, "and will take care of the Unbeatable in fine shape."

No Sickness

End of sickness is on the way, according to Dr. David C. Bruce, of the governing board of the Lister Institute of Preventive Medicine, who says the possibility of virtually eliminating disease in all civilized countries is not far away.

ORLANDO ROAD IS BEING REPAIRED BY STATE CREWS

State Road Department Engineer L. B. Thrasher Says Shoulders of Road Being Fixed With Ocala Limerock

Part of the lime rock for the repair of the shoulders on the Sanford-Orlando road is already on the ground and the work of straightening the shoulders and filling the holes in them will begin in a few days, according to an announcement made by Secretary R. W. Pearman, Jr., of the local Chamber of Commerce by L. B. Thrasher, state road department engineer, during the early part of this week.

It was learned from Mr. Thrasher that the rock is being unloaded from sidings at Longwood, Altamonte Springs and other places along the road conveniently located. The worst holes and places will be filled and repaired first, the engineer declared. After that is done, the work crew will start at the city limits of Sanford and work until the job is completed.

A permanent crew will remain on the Sanford-Orlando road even after the repair work is completed, Mr. Thrasher said, in order to keep it in good condition at all times. It is expected that the repairs on the shoulders will be completed in time for the heavy tourist travel during the winter.

In places where the brick road is in bad condition, the bricks will be taken up and relaid. According to Mr. Thrasher this and much other work will be done to put the road in A-1 shape.

The program also includes repair of State Road No. 3 in the western part of Seminole county. All will be taken care of in time and well taken care of by the state crews.

It was learned that the labor to be used on the roads in this county is not convict labor but free labor. Mr. Pearman stated that according to information furnished by Mr. Thrasher, Volusia county convicts are already at work on the new proposed State Road No. 3 through that county from Orange City to the bridge at Lake Monroe. The survey of the road shows that it will go straight from Orange City to the lake instead of taking the winding path of the present road.

It is not known when the new road will be completed, but Mr. Thrasher announced that a \$250,000 bascule bridge will be built of concrete by the state at the point where the road comes out on the lake. He was enthusiastic over the proposed lake front boulevard to be constructed along the shore of Lake Monroe from the bridge to Sanford whenever the bulkhead along there is completed. He declared that the whole department is anxious to see such a driveway and wants to see it realized as soon as possible.

Republicans Gather. WASHINGTON, Aug. 14.—President Coolidge confined himself Wednesday largely to government business and particularly the agricultural situation as Republicans assembled here preparatory to launching their national campaign today with the delivery by the president of his speech formally accepting the nomination of the Cleveland convention.

Mr. Coolidge centered attention on the agricultural situation at a conference of more than an hour with Eugene Meyer, Jr., managing director of the War Finance Corporation, and C. T. Jaffrey, president of the recently created agricultural committee.

DAVIS CONFERS WITH HYLAN ON PARTY ISSUES

Visit of New York's Mayor is Believed To Be Result Far Reaching Influence of Davis Speech—Strengthen Party

Both Men Appear Pleased at Meeting

Campaign Finances Discussed by Nominee With Some of Close Political Advisers

NEW YORK, Aug. 14.—Returning here early Wednesday from Elizabeth, N. Y., where he accepted the Democratic presidential nomination, John W. Davis gave immediate attention to plans for his speaking tour and the financing of his campaign; had a luncheon conference with Mayor Hylan of New York City, and discussed the general political situation with other party leaders.

The visit of Mayor Hylan was pointed to as another evidence of the effect Mr. Davis' acceptance address has had in bringing together discordant elements within his party. In a statement last week the mayor left open the question of his support of the national ticket, but after reading the address at Clarkstown he announced he was for Davis.

At the meeting yesterday with the candidate he personally extended his congratulations. The conference lasted an hour and a half and a spokesman for Mr. Davis said afterward that it had been very satisfactory. General political conditions were gone over and it was stated that the nominee had received further encouragement.

The question of Mayor Hylan taking the stump for Mr. Davis did not come up, but it was declared that the nominee would like to have him do so. Immediately upon reaching his headquarters early in the day, Mr. Davis approved additional selections of officials in the eastern division of his campaign organization and then discussed with Senator Pittman of Nevada, plans for his speaking tour in the West. While no announcement as to plans and dates was forthcoming, it was stated that there would be a "redoubtable campaign" in the West.

Campaign financing came up at a meeting between the nominee and Jesse H. Jones, chairman of the finance committee. Others with whom the candidate conferred during the day were Norman E. Mack, national committeeman from New York; Senator Edwards Fisher, of Yale University, and David P. Houston, former secretary of agriculture and also of the treasury, and one of those whose names was put forward at the New York convention.

Evening Mr. Davis went to his home at Locust Valley, Long Island, where he intends to spend all of today, devoting attention to his forthcoming addresses and conferring further on itinerary with Senator Pittman.

One week from Friday Mr. Davis will go to Seagirt, N. J., to have luncheon with Governor Silzer at his summer home there. Mr. Davis announced that he would address the New Jersey State Democratic committee while at Seagirt.

Republicans Gather. WASHINGTON, Aug. 14.—President Coolidge confined himself Wednesday largely to government business and particularly the agricultural situation as Republicans assembled here preparatory to launching their national campaign today with the delivery by the president of his speech formally accepting the nomination of the Cleveland convention.

Mr. Coolidge centered attention on the agricultural situation at a conference of more than an hour with Eugene Meyer, Jr., managing director of the War Finance Corporation, and C. T. Jaffrey, president of the recently created agricultural committee.

The question of selecting a baseball team to represent that body was more generally discussed, and it was finally decided to have the Ball Park Committee take up the matter of this team playing an out-of-town team at the opening celebration of the municipal athletic field, of which the Sanford Shrine Club has charge, with the appropriate Shrine officials. The "No-tin" have secured the ball park for the opening date which will probably be on the Thursday following Labor Day and on which (Continued on page 6)

Lost

Lester Lapidus, 17, of Omaha, Neb., has vanished with the suddenness and completeness of the flame of a candle that is blown out. He is the son of Harry Lapidus, millionaire president of the Omaha Fixture and Supply Co.

JUNIOR CHAMBER HEARS ADDRESS BEAUTIFICATION

Possibilities of Beautifying Sanford, Seminole County, Are Pointed Out by Mrs. Henry Wight at Luncheon

The co-operation of the Junior Chamber of Commerce with the movement for city beautification, was assured by that body at its meeting at the Monteuomo Hotel this noon after an address on city beautification by Mrs. Henry Wight, who is chairman of the work.

Mrs. Wight, who has spoken before various other civic bodies of this city in regard to the work and has obtained their approval of such, gave an interesting talk on the possibilities of continued co-operation on the part of city and county officials with the civic organizations on a beautification program.

At the meeting of the State Beautification Association in Haines City this year, she said, only she and Mrs. J. G. Sharon were there to represent Sanford and Seminole county while Lake, Orange, Polk, Hillsborough, and other counties had representatives from both city and county executive bodies. She stated that it is her desire to have the Junior Chamber of Commerce as well as other civic organizations represented at the next meeting which is to be held in Tampa in November.

An engraved bulletin showing the times of the year to plant various flowers and shrubs is being gotten up by the Women's Club," she said, "and we are anxious to have the endorsement of the Junior Chamber of Commerce on it. It is something that would interest everybody."

Mrs. Wight also spoke of the work of ridding the county highways of the numerous advertising signs which are badly defacing this county at present. Orange and Tampa have already almost completely done away with the signs, she pointed out, and it is up to some organization to get them out of Seminole county.

In a Project Committee report, Glon Wimbish stated that matters for immediate action were: the organization of a baseball team by the junior body, the placing of certain electric signs and a change of the meeting place of the chamber each month. He also stated that the time of the meetings had been changed from Saturday nights to each Tuesday afternoon at 3 o'clock.

It was decided to set aside the electric sign project for the present, but the others were approved by the body. The matter of changing the meeting place of the body each month so as to divide luncheons between the various hotels and restaurants of this city, was referred to the House Committee which will have charge of all arrangements.

The question of selecting a baseball team to represent that body was more generally discussed, and it was finally decided to have the Ball Park Committee take up the matter of this team playing an out-of-town team at the opening celebration of the municipal athletic field, of which the Sanford Shrine Club has charge, with the appropriate Shrine officials. The "No-tin" have secured the ball park for the opening date which will probably be on the Thursday following Labor Day and on which (Continued on page 6)

Britain Will Restore 26 Per Cent Goods Tax

LONDON, Aug. 14.—The British government has informed Germany that a decision has been made to restore 26 per cent of the tax on German goods imported under the reparations recovery act. The government recently reduced the duty to five per cent after negotiations with the German government. The restored rate will be put in effect at the beginning of the transition period, under the Dawes plan.

Veteran Prize Fighter Faces Charge Killing Rich Divorced Woman

RAILROADS WELL ABLE TO HANDLE GRAIN SHIPMENTS

Western Roads in Better Shape Than Ever to Take Care Heavy Grain Shipments Says Recent Report

CHICAGO, Aug. 14.—With the crop movement under way the Western Railway Association states that its roads are in better shape to move the traffic than probably ever before.

Two conditions are enabling them thus far to handle the crop as fast as it is offered to them, says a statement issued by the Association. On July 15 they had assembled and stored in the grain loading territory about 47,000 cars fit for grain loading. This is about 10,000 more than they had assembled a year before. In addition the western roads have about one-third more of their box cars on their own lines than they had a year ago.

The total shipments of grain and grain products are now exceeding those of last year. In the week ended July 12 the total number of cars loaded was 41,970, an increase of about 2,500 cars over the corresponding week of last year. In the western territory alone the number of cars of grain and grain products loaded was 20,489, an increase of 2,770 cars over the corresponding week in 1923. Some of the railroads moving grain from the winter wheat territory are breaking all previous records.

The farmers produce vast quantities of fruits and vegetables which must be transported in refrigerator cars. A great deal of difficulty has been experienced in previous years in handling this kind of traffic because there has been a very great increase in it. The railroads in 1923 moved 439,278 cars of fruit, 444,879 cars of vegetables and 830,889 cars of fresh meats, poultry, eggs, and dairy products, a total of 1,705,046 cars of perishable products.

The business in 1923 was not less than 50,000 cars larger. There were severe congestions of refrigerator cars in many terminals, and in consequence, serious delays in their movement, largely because of excessive detention of them by shippers for reconignment and other reasons. On April 20, 1923, there was a total of 142,218 refrigerator cars available and on April 20, 1924, this had increased to 151,921. On the latter date the car builders also had orders for 9,255 refrigerator cars which were under construction and some of which have now been delivered.

In consequence, the supply of cars available for handling perishables will be larger than last year. In addition, co-operative arrangements have been made by the railroads and the shippers through the Regional Advisory Shippers' Board, which it is believed will prevent such congestions and delays as occurred last year. All the larger organizations of fruit and vegetable shippers are parties to these arrangements.

Virginia National Guardsmen Enjoy Target Practices

NORFOLK, Va., Aug. 14.—Smashing moving targets floating on Chesapeake Bay, 9,000 yards off shore, has furnished plenty of excitement for members of the 24th Coast Artillery, Virginia National Guard, which has been training at Fortress Monroe for several days.

Target practices was the order of the day Wednesday and today, and a number of excellent hits were made. Yesterday's firing was under unfavorable weather conditions and the scores were not as high as on the preceding day.

The Virginia troops were given an opportunity to try their marksmanship with some of the most formidable guns at Fortress Monroe. They fired a specified number of times with 12-inch guns, 12-inch mortars and 10 and 8 inch guns. The Virginia troops ended their practice yesterday and today 30 organized reserve officers of the Fifth Corps Area will participate in the anti-aircraft practice. These officers hail from Ohio, West Virginia, Indiana and Kentucky. They will be trained by the Sixty-third anti-aircraft company, regularly stationed at Fortress Monroe.

On Saturday, National Guards from Florida composed of 10 officers and 225 men, and the 215th artillery and anti-aircraft corps of Pennsylvania will arrive at the fort and go into training. There will be 50 officers and 800 men in the Pennsylvania aggregation.

Kid McCoy Confesses To Murdering Rich Divorced Wife Of An Antique Dealer

Only Woman Ever Loved He Declares

SLAYER IS ARRESTED AFTER HE HAD GONE TO MURDER HUSBAND

LOS ANGELES, Aug. 14.—Kid McCoy, veteran of the prize ring, faces a charge of murdering Mrs. Theresa Mors, divorced wife of a wealthy antique dealer, who was found dead Wednesday in an apartment that she and McCoy, whose true name is Norman Selby, had occupied for several weeks as "Mr. and Mrs. N. Shields."

"A pistol was found nearby and a note signed by McCoy, bequeathing possessions to his mother, McCoy was arrested several hours later after terrorizing employees of a fashionable shop and slightly wounding several. Police doubt suicide intentions.

McCoy confessed to the murder of Mrs. Mors to his sister shortly after Mrs. Mors was shot early yesterday, it was later announced by Captain of Detectives Herbert Cline.

"After the first shot she fell into my arms, and I placed her on the floor. She died with my arms around her and trying to speak to me. "I placed a sheet over her and then placed my picture in her folded arms. I was covered with blood, so first washed myself and then I got my revolver and started out to kill Albert E. Mors, the man who caused it all.

"I did not find him, but if I had I would have shot him down. I am sorry I didn't find him." McCoy went to the home of his sister, whose name is being withheld, at 1100 1/2th St., after the shooting, according to Cline, about 7 o'clock Wednesday morning, several hours before the body of Mrs. Mors was discovered in the apartment house where McCoy and Mrs. Mors had been living.

The sister will be questioned further by the district attorney today, McCoy's version.

Kid McCoy's sworn version of the shooting of Mrs. Theresa W. Mors, divorced wife of a wealthy antique dealer, in the apartment which he and the woman occupied under assumed names since July 10 last, was revealed by police last night.

The "Kid" poured out his story to the police detectives in a little cafe in the center of the downtown quarter, where they took him several hours after his arrest at the conclusion of a shooting spree in and near the Mors antique shop, resulting in the wounding of two men and a woman.

Over a huge bowl of soup McCoy began to relate the sensational series of events beginning with the death of Mrs. Mors and ending in his capture before the shooting affray.

He told how he and Mrs. Mors Tuesday afternoon went out for an automobile ride, returning to the apartment about 8 o'clock. At the time she accused her husband of robbing their store, Mrs. Mors had also sworn to an affidavit charging he had lately threatened to kill her.

"I will kill you," she quoted him as shouting at her during a dispute over the \$200,000 property settlement and her relations with McCoy.

Albert Mors, divorced husband of the dead woman also has been located after a frantic search following the discovery of Mrs. Mors' body yesterday morning. The former pugilist, nine times a husband and who, common report said, was planning to make Mrs. Mors his tenth wife, in the first hour on Saturday his arrest would make only one statement and that was, "he killed the only woman I ever loved."

Yarns Varied. Later, he varied it. "She committed suicide last night," he mumbled. "First I put her on theavenport, then I moved her on to the floor."

Detectives found what seems to be corroboration of this—a large blood spot on the doavenport and a smaller one on the floor where the body was found this morning in the apartment house janitor.

Near the body was a .25-caliber automatic pistol and a bullet. It was taken from the woman's head by police surgeons. Chapped (Continued on page 6)

effort to have Dr. that subject won John R. Cavanaugh punishment at the state.

Police prepared to conduct Jean to the spot described, in a search for girls who have been reported missing here and in other places.

Weeping and stumbling along, Jean ran into the arms of the policeman after sunrise. A man had invaded the dock-strewn dell, which served as a dining room, bath and bedroom for herself and her wayward companions, said the girl. The man had chased her, and she had sprained an ankle. Magistrate Levine heard the rest

NEW YORK-MIAMI SERVICE NEW YORK, Aug. 14.—Direct service between New York and Miami, Fla., is being planned by the Clyde Line Steamship Company, officers of the line said today. The first ship will probably sail early in December.

KNIGHT'S LANDING. Aug. 14.—Because of bad weather the smoldering ruins of the Wednesday, which is believed to have claimed 30 lives, roomed the bodies will not be removed.

HUMAN NEGLIGENCE IS FOUND TO BE PRIMARY CAUSE FOREST FIRE PERIL; TIMBER LOSS RUNS INTO MILLIONS

Of 830 Fires, 657 Are Attributed to Carelessness of Campers; Many Areas Necessarily Closed to Public

SAN FRANCISCO, Aug. 13.—The great forests of fir, pine, spruce, hemlock, redwoods and other of the Pacific Coast have been damaged more seriously by fires this summer than at any time in recent years. California, in the grip of a protracted drought, was the worst sufferer.

Despite the tinder-like condition of the California national forests, where the most disastrous fires have been burned, Paul G. Reding, United States district forester here, is of the opinion that there would have been virtually no fire hazard, and would not be at any time, if human carelessness could be eliminated.

In a recent statement, Mr. Reding attributed to negligence 657 of 830 fires in the state this year.

"About 90 per cent," he said, "are caused by careless campers, motorists, fishermen and others who frequent the forests. It is estimated that every summer a certain number of fires are started by lightning, but we do not fear the lightning fire. Generally they are started in exposed places at high elevations, spots easily discovered by our lookout men. It usually is a much simpler matter to get them out than to check those of human origin. Campers are apt to cause blazes along stream beds, in places less cool and less accessible."

So serious has the situation been in the California forests that the federal forester arranged for United States soldiers to patrol certain districts of the national reserves where the hazard was greatest. The federal forest service maintained a force of 660 men in this state throughout the summer, and at times, when several huge fires were burning in different national forests, thousands of temporary fire-fighters supplemented the regulars.

At times, when fires were raging uncontrolled and in several instances, towns were threatened, men near the scenes were conscripted for service. But this was resorted to rarely. At the close of July the fires all had been controlled and most of them were out, but the drought remained. Normally there is little rainfall on the Pacific Coast in summer. The dry spell in California, however, by the latter part of the summer had started in the early spring, the federal forester had lost more than \$1,500,000 in timber, with unestimated damage to water-sheds.

There also were several fire losses in Oregon, Washington, Idaho and Montana, though the peril was less acute than in California. Late summer rains removed much of the hazard in Oregon and Washington.

It was held necessary to close to the public large areas of the California national forests. Such the public large areas of the California national forests. Such the public large areas of the California national forests. Such the public large areas of the California national forests.

There also were several fire losses in Oregon, Washington, Idaho and Montana, though the peril was less acute than in California. Late summer rains removed much of the hazard in Oregon and Washington.

DAVIS PLEASED WITH COMMENT ON HIS SPEECH

(Continued from page 1.)

"For the tangible evidence of your regard shown by the committee of the arrangements, the untiring effort of the committees and the unfailing courtesy and generosity of my townmen to our guests, I can and do thank you from the bottom of my heart. I shall always remember it."

WASHINGTON, Aug. 13.—Senator Harris (Dem.), Georgia, who returned Tuesday from Clarksville, W. Va., where he attended the Democratic notification ceremonies, issued a statement in which he said John W. Davis speech was "one of the ablest and most convincing ever delivered by a presidential candidate."

With his splendid ability, character, and personal magnetism, when he goes before the country there will be no doubt of his election by a large majority.

While West Virginia is a Republican state, after talking with both Democrats and Republicans from all sections, I feel absolutely sure it will give Davis a large majority.

Mrs. Harding to Help Replace Mission Boat

ETCHIKAN, Alaska, Aug. 13.—Mrs. Florence King Harding, widow of President Harding, and Mrs. John Grier Hibben, wife of the president of Princeton University, have guaranteed \$50,000 to build and equip a power boat for church work in southeastern Alaska. It is announced here by Dr. S. Hall Young, superintendent of Presbyterian missions in Alaska.

The ship will cost \$40,000, and Dr. Young will raise the rest of the amount. His first mission vessel was destroyed by fire.

Mrs. Harding became interested in this church work when she was in Alaska with President Harding, shortly before his death last year. Mrs. Hibben visited Alaska

Fruit Juice With Kick Is Declared An Illegal Drink

WASHINGTON, Aug. 13.—A warning against using the current fruit crop to make intoxicating beverages in the home has been issued by Wayne B. Wheeler, general counsel of the Anti-Saloon League. The case pending against Representative John Phillip Hill, of Maryland, for alleged manufacture of illegal fruit juices at home is cited. Mr. Wheeler set forth his views on fruit juices to correct possible misinterpretation of his recent statements on the subject before the house judiciary committee, when the 2.75 per cent bear bills were being aired.

"The fruit crop now coming on the market may be used in making non-intoxicating fruit juices for exclusive home use," Mr. Wheeler explained. "If the juices become intoxicating in fact, then they are forbidden for beverage use by the constitution and the Volstead act, which exempts only non-intoxicating fruit juices and cider for exclusive use in the home."

"Congressman Hill tested this law when he made fruit juices containing as high as 10 per cent of alcohol," Mr. Wheeler said. "The law permitted this. The government challenged his right to make fruit juice that was in fact intoxicating wine. A temporary injunction issued by United States District Judge Saper prevents Mr. Hill from further violations of the law. The date of final hearing has not been set, although the case was filed Oct. 11, 1923. If Mr. Hill makes more beverage intoxicants under the name of fruit juices, he is liable for contempt of court. Intoxicating fruit juices are under the ban even when made in the home to drink. Mr. Hill is in Europe, where fruit juices may be obtained with as high an alcoholic content as desired."

Injuries Received In Auto Accident Fatal To Woman

Continued from page 1.

he is building a new house. Mr. Ferguson stated that the accident occurred, but was at the place, a little ways toward the lake from his first street residence, where Ferguson went after him immediately, it was learned, and brought him to the scene of the accident.

At the coroner's inquest this morning, Dr. Stevens, Mr. Ferguson and Mrs. Ferguson and L. A. Sapp were called as witnesses. The jury, composed of T. W. Williams, C. L. Flowers, G. W. Spencer, Sr., W. R. Bates, I. F. Rivers and T. A. Butler, after hearing the evidence, brought in a verdict of unavoidable accident and as such, exonerated Mr. Styron of blame.

A representative of The Herald was unable to get in touch with Mr. Styron this morning to obtain his version of how the accident occurred.

CROWE STARTS HIS REBUTTAL IN FRANKS CASE

(Continued from page 1.)

the four alienists for the defense. The doctor had been sent after duplicate X-ray pictures of Loeb and Leopold ordered into court under a subpoena duces tecum.

Crowe Attacks Gland Theory. The theory of functional disorders of the endocrine glands, advanced by Dr. Hulsberg, as responsible for the "mental illness" of Leopold and Loeb, was the subject of a vicious attack by Robert E. Crowe, state's attorney. The prosecutor also pointed on the idea of the emotional age of the defendants, fixed by defense alienists as below twelve years.

The prosecutor said Tuesday he probably would summon witnesses to testify that the "king-slave" phantasy advanced by the defense as the reason Leopold blindly followed Loeb's leadership in the Frank's murder even after his superior intellect had told him commission of the "perfect crime" was impossible, had been garnered from the recently published "The Hill of Dreams" by Arthur Machen, English writer.

First State Alienist. Dr. Hugh E. Patrick, of Chicago, former president of the American Neurological Society and the Mississippi Medical Association, was the first state alienist called. In addition to Dr. Woodruff, called because of his study of endocrinology, Dr. Patrick will be supported by three alienists who have appeared for the state in numerous Chicago murder trials.

"Have you an opinion as to whether Loeb was suffering from mental disease?" Dr. Patrick was asked after he had detailed his lengthy qualifications and his study of the youthful defendants.

JUNK PROVEN VALUABLE. LOS ANGELES, Aug. 13.—The Southern Pacific Railroad Company saved \$2,531,872.72 last year by accumulating and reclaiming materials which otherwise might be classified as junk, according to a report. Reclamation of materials netted a saving of \$612,253 and its sale to use by the company of scrap amounted to \$1,919,622.40.

Reports of Business Centers Indicate Fall Trade Will Be Good

ATLANTA, Ga., Aug. 13.—The promise is good for business this fall and winter, despite the excitement of a presidential campaign.

This is the word of E. H. Bailey, president of the American School of Commerce of Atlanta, and a close student of economic conditions, who has just received reports from eastern business centers.

"Just now summer dullness is on," said Mr. Bailey. "It is a dullness that comes every year and it is no more pronounced this year than in others. But business takes advantage of a dull season to make a survey of the immediate future and to plan for meeting conditions as they arise. The survey this year has proved encouraging. It holds much promise for a good demand and liberal buying through out the whole country when once fall trade has opened up."

Mr. Bailey, himself a business expert of long experience and the head of a school which turns out hundreds of highly trained men for business careers, says the fact that a political campaign is in progress has nothing to do with business.

"The country has outgrown the tendency once so general to let business go while all hands played at politics. Now politics plays second fiddle to business and the business man gives first thought to trade in his particular line and worries less about election day."

Club Leaders Are Urged by Editor to Wear Cotton Goods

ATLANTA, Aug. 13.—Will an appeal to their patriotism induce the vast majority of women to abandon silk and their beloved "gorgette" and wear cotton clothes?

This question is being asked by Edna Cain Daniel, brilliant Georgia newspaper woman and the wife of Royal Daniel, himself a nationally known newspaper man, formerly of Atlanta. Mr. Daniel now edits the Quillman (Ga.) Free Press, in which he is ably assisted by his wife.

Mrs. Daniel, who always writes as Edna Cain Daniel, as she was Edna Cain of literary fame, calls attention to the drop in the price of cotton during the last few months, which is said to be partly due to the falling off in demands for cotton goods in this country.

"It is a silk spree," says Mrs. King Cotton, like some other royalties, is a precedent at the back Daniel says that here is a starter; do with none so good to do him the honor of wearing cotton clothes.

Asking the question, "Will the club women sponsor cotton?" Mrs. Daniel says that here is a starter; do with none so good to do him the honor of wearing cotton clothes.

Ermine of the South. "Fleecy cotton is actually the ermine that adorns the robe of agricultural supremacy in the South. If women could visualize the vast importance of cotton they would insist on wearing it."

"I know of no more exquisite luxury than a bath and perfectly clean, soft cotton clothes throughout," declares Mrs. Daniel, who practices what she preaches about cotton garments.

"Ankles would be ankles, even in cotton," Mrs. Daniel says "Certainly they used to be before The Georgia newspaper woman is just as strong for cotton stockings.

Chinese Women in Order To Take Over Banks

BEKING, Aug. 13.—Thirty girls students have graduated from a school of banking established in Peking two years ago, and will be appointed to posts as clerks and officers in the Peking's Women's Commercial and Savings Bank, says the Asiatic News Agency.

The banking school was established by a Mrs. Woo who was impressed by the success attending efforts by Chinese women in Shanghai to found a bank. The Peking women's bank is still in embryo but it is proposed to start it with \$1,000,000 and to be ready for business next spring.

In an address to the graduates Mrs. Woo stressed the point that Chinese women should interest themselves in business in order that they may not lag behind their western sisters. By cultivating an earning capacity, she said, educated girls may not be forced by their parents against their will.

Mrs. Hejing Heo-in, wife of ex-premier Hejing, is said to be a patroness of the new banking enterprise.

Women in Germany Absolve Ex-Kaiser From Onus of War

EISENACH, Germany, Aug. 13.—The Amalgamated Women's Clubs of Germany have resolved that Germany was not the blame for the beginning of the war in 1914, and held a special meeting to decide ways and means of scientifically assembling material designed to prove their contentions to the world. The meeting, attended by women from all parts of the republic, was held in the castle of Wartburg, where Martin Luther fought the devil while he was passing ten months under the friendly arrest of the Elector of Saxony.

Frau Clara Mende, president of the organization, in her opening address, asserted that the club women had made arrangements to give wide publicity to documents which tended to show that a secret understanding existed prior to 1914 between the Russian Czar and other nations and with which Germany had no connection whatever. It was due largely to these secret agreements, she contended, that the war was brought about.

The onus of starting the war had been put on Germany by the world at large, declared Frau Mende, but the life work of the associated clubs would be to prove otherwise.

FRUIT ACIDS IN BODY ACT SAME SOAP IN HOUSE

Doctor Says Acids Keep Poisons Circulating Through Body; Will Improve Health

The human body needs fruit acids to keep it in order, just as much as a house needs soap to keep it clean, says Dr. F. L. Wilson, a writer in the Orthopaedic Magazine for August.

"Paradoxical as it may appear," writes Dr. Wilson, "acid fruits are our strongest alkaline foods, for they not only give to the body the little potassium they contain, but they also reclaim the waste potash of the intestinal secretions."

He goes on to point out that no other alkali can take the place of potassium in the scheme of nutrition, and that much of this is thrown off in the bile and wasted, unless fruit acids are ingested, to unite with it and throw it back into the blood where it can be used.

This potassium goes around and around, in the healthy body, according to Dr. Wilson. "Potassium carbonate," he says, "in lymph and blood, absorbs and eliminates other acid wastes as sulphuric, phosphoric, lactic and acetic. It liquefies the fatty content of the bile. It holds the solid matter of bile in solution. Bordered finally with intestinal secretions into the alimentary tract it is ready to digest more acid fruits." And thus it goes back to work again.

Dr. Wilson shows that true fruit acids are not confined to what we usually think of as acid fruits, but that they exist in all fruits and vegetables, even in fresh corn, wheat and potatoes. He says also that the person who believes that he cannot eat fruit acids, has his trouble because he has not eaten them for so long that there is not sufficient potash in the bile to take care of them, and that the whole body is suffering from this lack. If such a person will persist in eating fruit acids, he will retain such potassium as there is in the body and gradually add to it, thus improving the health in general.

INFANT ACTORS BARRED

BERLIN, Aug. 13.—The chief of police has issued a decree prohibiting children under three years of age from acting in the movies. Special dispensations must be obtained for children children more than three years of age, and even with this granted the children are prohibited from the movies before school and at the life work of the associated clubs would be to prove otherwise.

105 PALMETTO AVENUE

AN EXHILARATING EFFECT. A bottle of Harbin on the shelf at home is like having a doctor in the house all the time. It gives instant relief when the digestion gets out of order or the bowels fail to act. One or two doses in all that is necessary to start things moving and restore that fine feeling of exhilaration and buoyancy of spirits which belongs only to perfect health. Price 60c. Sold by Union Pharmacy.

FOR HOME AND STABLE. The extraordinary Borosone treatment for flesh wounds, cuts, sores, galls, burns and scalds is just as effective in the stable as in the home. Horse flesh heals with remarkable speed under its powerful influences. The treatment is the same for animals as for humans. First wash out infectious sores with liquid Borosone, and the Borosone Powder completes the healing process. Price (liquid) 80c, 90c and \$1.00. Powder 30c and 60c. Sold by Union Pharmacy.

NOTICE. The City of Sanford Roll will be submitted to the Equalizing Board for approval on Monday, August 26th, 1924, at 3 o'clock p. m. All persons desiring to have corrections made in said Roll must file with the City Clerk a list of such corrections on or before above date.

L. R. PHILLIPS, City Clerk.

Thursday, August 14, 1924 BIBLE THOUGHT FOR TODAY LOVE NOT THE WORLD:—Love not the world, neither the things that are in the world.

OMNIA SOMNIA Dawn drives the dreams away, yet some abide Once, in a tide of pale and sunless weather,

Still it was Winter, even in the dream; There was no leaf nor bud nor young grass springing;

Blackbird and thrush and plaintive willow-wren, Chaffinch and lark and linnet, all were calling;

What's in a name? Mrs. I. R. Stout is said to be the thinnest woman on Long Island.

Everyone seems to like John Davis's clear-cut and unequivocal statements. The thwarting of justice is the encouragement of crime.

Sometimes we fear that the only reason certain men don't go into beauty contests is their knees. Henry Ford won't run for the Senate.

We notice that newspapers which preach against the carrying of revolvers don't mind carrying advertisements for them. What if they do accuse Davis of throwing mud?

President Coolidge, it is said, will lean heavily on his advisers during the campaign. We understand that repair work on the Sanford-Orlando road will soon be under way.

Luther Burbank is about to retire and intends to give his "Creation's Garden" at Sebastopol, to the people of California. The American Association of Community Organizations has \$5,000,000 for distribution for charitable purposes this year.

Some legislators who reported favorably upon a bill meant to prohibit the teaching of the theory of evolution in Georgia schools, are just the kind of folks who laughed at Columbus when he said the world was round.

Some folks are queer machinery. When they get married or put an ad in your paper, they get sore if you don't give them a big write-up. Editor Benjamin of the Ocala Star has been indicating a little in retrospect that he makes mighty interesting reading.

St. Augustine is planning the construction of a new bridge over Matanzas River. The plans call for an expenditure of six hundred thousand dollars and it has been recommended that a bond issue be authorized for the city for that purpose.

Articles on this merchant's shelves were examined and in almost every instance they were found to be advertising their products constantly in every conceivable way.

Something To Boast Of

Every little while one of the New York papers sets out to tell the world how much "the East"—meaning commuting distance of New York City—has contributed to the improvement of other sections of the United States.

And the funny part of it is we can read this glib boasting with little irritation. Other sections of the country have so infinitely much that New York does not and cannot have.

And when you come to speak of it, why shouldn't New York be proud of itself? When the New York Herald-Tribune went so far as to insist that its city should be classed as one of the wonders of the world it was not far astray.

New York City has more than 5,500,000 people of whom nearly 2,000,000 are foreign-born. It has more Italians than Rome, more Irish than Dublin, more Germans than Bremen, and one-tenth of all the Jews in the world.

More telephones than London, Paris, Berlin, Petrograd and Rome combined. Five of the largest bridges in the world, each more than a mile long.

More than 2,000 theaters and photoplay houses. More than 1,500 churches of all denominations. Taxable property values at about \$8,500,000,000.

About 300,000 visitors a day. A passenger train arriving every fifty-two seconds. A wedding every thirteen minutes, and a birth every six minutes.

A new business firm starting up every ten minutes. A new building erected every fifty-one minutes. Those figures, moreover, would make material for some interesting comparisons.

"Glassed-In Sun Parlors," A Joke?

Health resorts and hotels which have made much of their "glassed-in sun parlors" are going to have to advertise that the glass is not the ordinary sort, but a special kind of quartz.

In other words when you sit under glass for your sun bath you are not getting the ultra-violet waves at all unless you happen to have glass made out of "fused quartz" which allows the healing rays of sunlight to pass through it!

Sun parlors and glassed-in sleeping porches in Florida, of course, don't have to have their windows closed against searching, cold winds; but in other sections of the country, there will be some rushing business for the "fused quartz" makers, if their claims for their product are proved.

Here in Florida people not only don't need glassed-in porches. They don't need shut-tight houses. They should be living in the out-doors, screened against mosquitoes, but with every opportunity for the breathing of out-door air.

Faith, there have been many great men that have flattered the people, who never loved them; and there be many that have loved, they know not wherefore; so that, if they love they know not why, they hate upon no better a ground.

HE'S KIDDING HIMSELF

A Tampa business man approached on the proposition of advertising his store in this paper the other day made the statement that advertising didn't pay and that three-fourths of the money spent on advertising was wasted.

Efforts to find out how much money he spent on advertising, a number of which are worked in every town in the country every year were futile, but it wasn't difficult to assure the non-advertiser that if he'd spent his money in newspaper advertising and give a little attention to the proper preparation of his copy, the money so spent would not be wasted but would return to him many times in increased sales.

The same merchant, when asked what kind of a suit he had on said it was a "Kuppenheimer." He was asked what brand of shoes he wore and "Kuppenheimer" he stated without hesitation that his shirt was an "Arrow" brand and that he always wore a "Stetson" hat.

Why does he wear those things and why was he able to tell the representative of this paper the names of the brands so readily? Simply because they're all advertised, the length and breadth of the nation.

Articles on this merchant's shelves were examined and in almost every instance they were found to be advertising their products constantly in every conceivable way.

As Brisbane Sees It

Iron False Teeth. Price and President. Too Much Wine. No Sure State. BY ARTHUR BRISBANE (Copyright 1924)

THE GREAT KRUPP concern, makers of big cannon on which the Kaiser's power used to rest, now manufactures false teeth of steel, enameled, the same steel that once went into fighting machinery.

Can you imagine anything stranger in history than the possibility of the Kaiser wearing a set of false teeth made by the Krupp? Not the same bits in that set as there was in the old cannon.

THE PRINCE of Wales will lunch at the White House with President Coolidge. That should be a labored conversation. A Bushman and an Esquimaux would have fewer points of intellectual contact than President Coolidge and the Prince of Wales.

IT WILL BE something like the meeting of the late Joseph Pulitzer and the grandson of a British duke who traveled from London to Pulitzer's villa on the Mediterranean to offer himself as a "sociable companion." The Duke's grandest made one remark in the conversation which was to display his entertaining qualities.

ITALY DOESN'T know what to do with her wine crop this year. She has not enough casks to hold it. Citizens can walk into a wine cellar and "drink as much as desired" for a few cents.

Good prohibitionists will say: "What terrible drunkenness there will be in Italy." But they don't know the Italian people. They don't get drunk, whether the wine is cheap or dear.

ON ONE occasion when the wine crop was excessive, the Italians mixed it with oats and fed it to horses to give them strength. They believe that the iron, tannin and acid in the wine build health, not attaching so much importance to the alcohol.

SEVERAL HUNDRED years ago the Asiatics gave strong alcoholic drink, made of palm juice, to the fighting elephants to "wilder them desperate and indifferent to pain."

Here occasionally they give a little whiskey to a jumping horse before he "goes over the sticks" to give him courage.

But Italians go along on their natural nerve, which is ample. REPUBLICANS admit that states of which they are "absolutely sure" are not enough to guarantee a majority in the Electoral College.

In the election, except one or two Northern States and the usual loyal Southern Democracy, there are no States that ANYBODY is sure to carry. (Except Wisconsin and three others safe for La Follette.)

The nearer you get to election the more it looks no election in the Electoral College, and a decision from the House, or Senate.

SOCIALISTS say that union labor supporting La Follette, has been tricked into starting a movement that will develop into a socialist labor party like the one ruling in Great Britain.

That's a poor guess. In a hundred years or so, when the different kinds of Americans of different nationalities and religions stop hating each other, you might have a successful labor party. Perhaps by that time the people will be sufficiently educated not to need one.

LIFESAVER Rooney, through a heavy surf, saved four lives and brought in one already drowned. To save two of the drowning men he had first to knock them senseless.

Some voters among the "lower class" and some powerful men among the "upper class," remind you of the two that had to be knocked unconscious. Until something happens that does know them unconscious, some voters have a feeble idea of what their welfare demands.

ENGLAND is worried because increase in wheat prices has already added \$90,000,000 to her bread bill. It is a good deal to pay to help along our Republican election. But the English make a mistake in comforting themselves with the theory that "there is no serious shortage of wheat." There is a shortage, and wise people will buy what they need instead of waiting for it to come down.

JUDGE TALLEY SAYS: "The United States is the most lawless nation, and most criminals are youngsters." That's just it. The United States is a youngster. Youth is always lawless. Lawlessness is terrible, but there is one worse thing, and that is stagnation.

Parts of the West that were once most lawless in the gold fever days are now typically law abiding. This country will settle down. There is a sure for exuberance, none for stability.

AN ALIENIST IN EVERY HOME

Remarkably Fitted For President

Florida Times-Union. "To be well-born is a great honor, and to be well-educated is a great boon and of great value, but after all, everything turns upon the principles and manner of life and the fulfillment of its duties which the man gives in his day and generation to the community in which he lives. There is never a time that the world does not want and greatly need the right man in more places than one."

THE GRIEVOUS BURDEN OF A JUDGE

Florida Times-Union. The judge, sitting in a court of justice, has imposed upon him the most grievous burden that can be placed on any human being. This is especially true when the judge is called upon to preside in a murder trial. It is true, in a lesser degree, in minor actions, when administration of the law has important results, affecting individuals or large numbers of people, as the case may be.

PERSONALS

Frank Bulger, of Orlando spent Wednesday in the city on business.

Mr. and Mrs. J. P. Hall announced the birth of a daughter August 13, 1924.

W. B. Crane, of Palatka, is stopping at the Valdez, while in Sanford on a several days business trip.

Mrs. M. Y. Bledsoe and her guest, Miss Vallie Stokes of Birmingham, Ala., leave today for that city.

G. R. Irvin, of Miami, spent Wednesday in the city, the guest of friends, en route to Jacksonville.

Mr. and Mrs. W. C. Hill, and daughter left Wednesday in their car for Hendersonville, N. C., to spend several weeks.

Mr. and Mrs. R. A. Newman and son left Wednesday for Hendersonville, N. C., to spend several weeks.

A. E. Dickson, manager of the Orlando Credit Association, spent Wednesday in the city attending to business.

Mrs. V. L. Wagner is spending the day in Eustis, the guest of her daughter, Mrs. Frank Donaldson.

Mrs. J. S. Moore, Miss Doris Moore, and Milton Moore leave today for Demorest, Ga., after a pleasant visit in Sanford.

Miss Le Claire Jones left Wednesday for Miami where she will be the guest of relatives for the several months while taking a commercial course.

Mrs. Howard Overlin returned the first of the week from a pleasant visit in Hendersonville, N. C., and with her father in Danville, Ill.

W. G. Duke and C. Clements of Jacksonville are spending several days in the city looking over business prospects, stopping at the Valdez Hotel.

Mr. and Mrs. Jimmy Ridge returned Wednesday night from Louisville, Ky., where they spent the past two weeks, pleasantly with Mr. Ridge's parents.

Mrs. J. D. Jenkins and Misses Helen and Virginia Jenkins and their guests Miss Gladys Ponder and Miss Cornelia Young spent Tuesday most delightfully at Daytona Beach.

Roy McNab returned Wednesday night from his vacation spent in Atlanta, Douglas, and other Georgia towns, where he reports having spent a delightful two weeks.

J. T. Ward, of Jacksonville, agent for the Merchants and Miners' Steamship Company, spent Wednesday in the city attending to business, the guest of the Montezuma Hotel.

Miss Glisson Gives Picnic for Miss Bollinger

Miss Honorine Bollinger, of Macon, Ga., who is the attractive guest of Mrs. Henry McLaulin, was delightfully entertained at a picnic Wednesday night at Palm Springs, given by Miss Olive Vera Glisson.

After a most enjoyable swim a delicious picnic supper was spread. Dancing was enjoyed.

Among those present were Mrs. L. C. Glisson, Mrs. Jack Scott, Mrs. Roby Laing, Misses Martha Brown, Francis Dutton, Allie Gillon, Maydelle Culpepper, Trassa McRae, and Nonie Williams; Hampton D. Rose, Ralph Woodruff, Peter Schall, H. S. Pond, Henry McLaulin, Jr.; Claude Sistrunk, Roby Laing, and R. E. Steven.

Mr. and Mrs. Robbins Give Bridge Party

Mr. and Mrs. S. Robbins entertained informally at a bridge party Tuesday night, at their home on Magnolia avenue, honoring Mrs. M. Marcoe, of Jacksonville.

During the evening punch and fresh fruits were served by the hostess.

Among those present were Mr. and Mrs. Joe Burson, Mr. and Mrs. Henry Bendel, Mrs. Brice, and William Weber of Tampa.

RAILWAYS OF JAPAN GROW

TOKIO, Aug. 14.—Japan will hold a public celebration in Osaka in the coming autumn to mark the increase of the mileage of the Imperial Government Railways to 10,000 miles. That total is expected to be passed this summer with the completion of a new trunk line along the western coast of the

ANCHORAGE, Alaska, Aug. 14. This is the latest Alaskan city to establish an aerial landing field. A smooth, level one has been provided, six blocks from the business section. A commercial aviation company is carrying on a regular passenger service to mining districts.

INDIAN DIES AT AGE OF 121

GLENDALE, Cal., Aug. 14.—Francisco Arballo, an Indian, credited with being one of the oldest men in the world died near here recently at the age of 121. He fought through eight wars and had many other adventures. He came to California 63 years ago.

IRISHMAN, SPANISH CABINET

DUBLIN, Aug. 14.—Th eO'Donnell, Duke of Tetuan, who has been appointed Spanish minister for war by General Primo de Rivera, is the head of the Irish family of that name. He was president of the Irish Race convention in 1922 and keeps up his Irish interests.

VALUE COW'S MILK

PARIS, Aug. 14.—French veterinarians insist that a cow's tail can determine her milk output and also her milk value. The quantity and value are indicated, say the veterinarians, by the smoothness and slenderness of the tail from a sort of break in the bone structure to the end of her fly swatter.

Welfare Worker on Vacation

Jane Addams, former social worker of Hull House, Chicago, is spending her vacation at Hall's Cove, Me. Here she is enjoying brief respite from her work.

CHILDREN'S FATAL DISEASES

Worms and parasites in the intestines of children undermine health or activity of the child, that they are unable to resist the diseases so fatal to child life. The safe course is to give a few doses of White's Cream Vermifuge. It destroys and expels the worms without the slightest injury to the health or activity of them child. Price 35c. Sold by Union Pharmacy.

THREE WAYS OF LOOKING COOL AND LOVELY IN THE SUMMER SUGGESTED IN THESE DESIGNS

surely no girl should let the summer slip by without a satin slip, with one or more sheer tops to it. An organdy top, such as is shown in the sketch at the extreme left, or a net top, such as Mary Astor is wearing in the photo, or a calf top, shown in the sketch at the right.

The first dress has a light brown, or tan, slip, with tan-colored organdy over it. The net is made up of two wide ruffles of it, and the bodice is covered with a single layer, made in a baggy, with a wide bertha collar atop. The sash is a deeper tangerine, and the roses on it are tan roses. There is a hat to match of course, of the organdy over a brown straw shape.

Mary Astor's dress is the one she wears in her latest Paramount picture, "Unguarded Women." This is a black taffeta slip with short, shoulder cape edged in white net, and a full white net skirt, doubled about to the waist. There is a black bertha hat to match, trimmed in white net and liller of the veil, and a black and white parasol to complete the costume.

The sketch at the extreme right shows the same idea carried out in lighter pastel shades. The slip in this case is flesh pink, and the chiffon over it is cream, set all over with large lace medallions, or imported doilies of toud de bonnet and valencienes. The hat is flesh pink, too, and is trimmed in front with a large, fat rose.

Dressed of this type, with their fluttering overdresses of airy materials, bring out in the most picturesque way the delicate, dainty, soft things that make summer time and coolness and beauty.
