

## U.S. ECONOMY URGED IN TALK BY ROOSEVELT

### Democratic Candidate For President Gives Address In St. Louis As Throgs Cheer

ST. LOUIS, Oct. 22. — (A.P.)— Leaving behind in Springfield a reiteration of his three-point farm program, Franklin D. Roosevelt came last night through a rousing welcome in East St. Louis, Ill., to a stirring reception by a huge crowd in St. Louis to deliver the second of the principal speeches he will make on his western and southern trip.

Speaking from his automobile in front of the courthouse in East St. Louis, Roosevelt told several thousand persons who cheered lustily and frequently that the economic policy of the present administration has brought us into the worst shape that we have been in in a long time.

He asserted that the Democratic party proposed to endeavor to bring prosperity to all classes of people.

"We must cut off the end of commissions," he added, and cut out some of the fruits of government.

As an approach to a balanced budget, he said, there should be added in these economic bills that could be obtained from the sale of beer in those states that wished it.

"I think there won't be much objection to such a tax," he added. "That is one tax we are going to try to put into effect just as soon as we get a Democratic Congress. We have pledged to modify the Volstead Act."

## Famed Writer And W. R. O'Neal To Be Speakers Tonight

The voting element of Sanford is said to have a very busy evening for it tonight when W. R. O'Neal, prominent Orlando banker, and Opie Read, nationally known lecturer and author, take to the town to plead the cause of Mr. J. H. Way, ex-governor of Florida.

Mr. O'Neal, considered as the more powerful speaker, is expected to give the Republican cause in this state, comes to Sanford with a message that is intended to bring more votes to the Howey cause. He will compare the record of the two candidates, and will give his reasons why he thinks Mr. J. H. Way should be the next governor of Florida.

As a humorist, Opie Read has few equals in America, according to Howey-Fox-Governor headquarters whose officials are confident that Mr. Read's address on "Florida's Future" will strike a new note in political addresses in Florida.

Mr. Read, whose latest book is an autograph, "I Remember," is a contributor to the Saturday Evening Post and Cosmopolitan. He was born in Tennessee but makes his home now in Chicago and Howey in the Hills. Twenty-five years of his life he spent as lecturer with the Reg Path Company.

The program begins at 8:00 o'clock from the temporary platform erected at Magna Avenue and First Street. Prominent local supporters of the Howey cause will be on the platform along with Mr. O'Neal and Mr. Read, and E. G. Zorenner, president of the local Howey-Fox-Governor Club is expected to introduce the speakers.

## One Is Killed, Many Injured In New York City Prison Rioting

NEW YORK, Oct. 22. — (A.P.)— One prisoner was killed and many were injured today in rioting in the city penitentiary on Welfare Island, which is being built among prisoners' cells. Two committees of peace makers had met in the warden's office to settle recent animosities which had broken out among the prisoners. The peace makers suddenly began fighting and George Holsh was shot to death. The killing was a sign for general rioting which spread among 2,000 of the prison's 1,700. The rioting was quelled after a half hour by a police army of 100 or eight hundred men.

## HOOVER CHARGED WITH TRYING TO SCARE BUSINESS

### Democratic Chairman Says Party Has Won Election A Foregone Conclusion

INDIANAPOLIS, Ind., Oct. 22. — (A.P.)— Pres. Hoover was pictured last night by Democratic national chairman James A. Farley "whispering" attempts to frighten the country into voting for him, and "trying to scare business men to death."

The Roosevelt campaign chief warned that Hoover's action against over confidence repeatedly through at this crisis.

"We have the battle won, but we can afford to take no chances," he said.

He asserted that it is not only to full politicians who in their anger will not hesitate to adopt any course that gives even a slight hope of turning the tide.

He declared "it does not do to underestimate the effect of such pressure" as that of "various industrial chiefs who are endeavoring to coerce their employees into voting the Republican ticket either directly by a threat that if Mr. Hoover is elected the factories will close, or a truth more subtly by the intimation that the man who requires a continuation of Republican rule.

"A public opinion poll," he said, "has shown that even a slight threat will cause business men to vote for the Republican ticket, though his own assembly that people are disappointed in the pool of business thought, and that a man in the army of the Hoover administration.

The mentioned Hoover has a positive record, and Mr. Hoover's record is a record of success as important as the prosperity of the Ford institution.

## Jobless Britisher Tells About Defy Hurdled At Royalty

LONDON, Oct. 22. — (A.P.)— A jobless man, who defied a royal order in connection with a strike near the Tower bridge, told his story to a group of demonstrators here last night.

"Give us food," he said, "and we will obey royal orders."

The man, who defied the royal order, was arrested at the police station where three men were being arrested on charges growing out of disturbances there yesterday while King George VI was visiting the East End.

Reserves were called out and one policeman was injured.

Police in Stratford on Avon also encountered trouble yesterday with a group of 300 unemployed from the Manchesters district marching on 1 mile for the national unemployed demonstration next week, attempted to crush the workmen where they left the policeman was injured and 80 of the marchers inquired medical attention.

### MISSION HISTORY OF GEORGIA WILL BE DELVED INTO

#### State Will Seek To Verify Claims Of Early Colonizings

ATLANTA, Oct. 21.—(AP)—Georgia will seek to establish definitely claims of historians that Spanish colonists erected missions along its coast a century before those of California.

Historical research facilities of the entire university system, containing 25 institutions of higher learning, have been given over to this work by the board of regents.

Histories in the state library here tell the story of Jesuit priests who brought the gospel of Christianity to the New World for the first time at St. Catherine's Island in the year 1565, and of a priest who translated the catechism and wrote a grammar in the Indian language, the first book written on United States soil.

Menendez de Aviles, history relates, landed at St. Augustine, Fla., in 1565 and the following April moved northward along the Atlantic Coast to St. Catherine's Island, arriving there in April 1566.

After establishing a garrison in the country of the Guale Indians with 30 men, which was reported to be the first white settlement in Georgia, he moved further north to Santa Elena, which later became Port Royal, S. C.

The priest and soldier of Spain went hand in hand in dealing with the Indians and soon missions sprang up all along the Georgia mainland and some on the mainland with St. Augustine as the base of religious operations and St. Elena its northernmost outpost with San Felipe on the Broad River its preside.

After the Jesuits came the

### Denial Made Of Motive Back Of Dismissal Move

#### WINSTON-SALEM, Oct. 21.—

(AP)—Denial that members of the Smith Reynolds family requested that murder charges against his widow, Libby Holman, and Albert Walker be dropped because his pre-marriage will left his fortune to his brother and sisters was the latest development today in the multi-angled case.

B. S. Womble, member of the law firm that advised the Reynolds family not to join in the prosecution because of lack of evidence of murder issued the statement admitting Smith's will recently admitted to probate in New York had nothing to do with the decision.

Except for a few specific requests including one of \$50,000 to young Walker, Smith left his fortune estimated between fifteen and twenty million to the elder brother, Richard, and two sisters, Mrs. Mary Reynolds Babcock and Mrs. Nancy Reynolds Bagley. Meanwhile no decision is expected as soon from Solicitor Carlisle Higgins on request of the Reynolds family that the case be dropped.

closer than in any other state, making the outcome here doubtful at this time. Roosevelt is polling 150,428 votes to Hoover's 148,796.

A close race is also evident in Delaware, where Roosevelt has a plurality of only 202 votes out of a total of 5882 cast in the state.

Hoover is still in gains in the poll during the week in California and Rhode Island. The voting in all of the other 36 states previously reported has changed only fractionally since the last report. The balloting from the 10 states in which first figures are reported furnish the bulk of the lead which Roosevelt gains this week.

### Farmers Informed Of Best Means To Fight Celery Pest

#### Twenty local celery growers last night learned at a meeting of the Evening Class at Seminole High School that in combating the insects of the celery leaf tyer, there is one dusting compound, composed of equal parts of Pyrethrum and tobacco dust, which is the most effective.

This dust must be spread on the celery through a power forced feed duster, it was learned. An important item in dusting is that the celery should be gone over in the opposite direction the second time dusting is made. Dusting should not be done in wet weather, instead, in the evening when the air is still.

During the discussion of the celery leaf tyer, led by C. R. Dawson, vocational agriculture teacher, and assisted by C. B. Wisecup, of the U. S. Department of Agriculture who is located here, the opinion was expressed that there can be no satisfactory result obtained from using electric lights in fields at night or from the use of charcoal pots.

Mr. Wisecup is co-author of an official Department of Agriculture bulletin, No. 251, on celery leaf pests.

## "HIT THE DIRT!" the Captain Shouted

"SLIDE, JOHNNY, SLIDE!" shouted the coach on the base line. And Johnny did! His mother barely recognized her boy that evening because it WAS dusty on the ball field. (It often happens that a fella has to "hit the dirt" when he's playing baseball, you see). In fact, "hitting the dirt" seems to be a favorite pastime for youngsters--on and off the diamond. Scrubbing off the dirt is not nearly so popular. Do you know why? Because the water is usually so chilly it gives you goose-pimples.

To teach children habits to cleanliness, an UNFAILING supply of Hot Water is the first essential. For that purpose, nothing equals a modern Electric Water Heater. Costing not more than a few pennies per day per person on your Thrifty Three electric rate, an Electric Heater supplies all the Hot Water any home needs--not simply for washing and shaving but for the dishes and the laundry as well. ### ROOSEVELT HAS OVER 3 TO 2 LEAD IN DIGEST'S POLL

#### Governor Has Clear Majority In 39 Of 48 States In Voting

NEW YORK, Oct. 21.—Roosevelt is leading Hoover by slightly over 3 to 2 in the fifth week's tabulation of The Literary Digest's nation-wide presidential poll for which returns from all forty-eight states are reported in today's issue of the magazine.

A total of 2,617,185 ballots are tallied in the current returns. Governor Roosevelt receives 1,473,440 of these, or 56.30 percent, and President Hoover gets 973,367, or 37.19 percent. The balance is divided among five minor candidates with Norman Thomas receiving 1.86 percent of the total vote cast.

The ten new states reported in this week's compilation include Florida, Maryland, Minnesota, Missouri, North Carolina, Oklahoma, Texas, Virginia, Washington, and Wyoming. All are voting for Roosevelt.

Hoover is carrying the seven states of Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut and New Jersey. Roosevelt is ahead in all of the forty-one other states.

On the basis of an electoral college vote a division of the current balloting would give Roosevelt 747 electoral votes to Hoover's 57.

The voting in New York is

Where The Money Goes

The federal deficit for the year ending June 30, 1931 was in round numbers \$900,000,000; for the year ending June 30, 1932, it was approximately \$3,000,000,000. Additional figures disclosed yesterday revealed that for the first three months of the new fiscal year, in spite of new tax levies, the deficit was still climbing until it has reached \$554,357,227, or a total of \$4,454,357,227 for the three year period.

A careful analysis of the federal budget for the current year reveals that approximately four billion dollars have been estimated as the total costs of federal government. Of this sum, \$640,000,000 is set aside for interest payments on the public debt.

To the war department has been appropriated the sum of \$423,940,802, and to the navy department some \$313,000,000 making a total of over \$750,000,000 for national defense, a sum which can not be reduced without great danger to this country until other nations are ready to enter into general disarmament agreements.

Evidently if Gov. Roosevelt reduces the total budget by 20 or 25 percent by means of eliminating these "unnecessary offices", he would wipe out the entire executive and legislative branches of the government since 25 percent of the total budget is one billion dollars and the total cost of the government proper is only \$800,000,000.

As for balancing the budget by a tax on beer, we find from the figures of the Internal Revenue Bureau, that the tax on all liquors, including whiskeys, wine, and gin, as well as beer, actually yielded only \$483,000,000 in the days before prohibition.

Gov. Roosevelt's expressed determination to reduce expenditures is good, and his desire to balance the budget is excellent, but he will have to dig deeper than the "unnecessary offices and overlapping functions", and he will also have to find a source of revenue besides a beer tax.

Impartial Political News

The test of a newspaper's desire and ability to treat political news in a non-partisan manner is seldom greater than in a national election, and with the lines so hotly drawn in the present presidential campaign it is particularly gratifying to the journalistic profession to know that the great news agency, The Associated Press, is performing its duties of disseminating political information with the least possible partisan influence.

The men who write political news for the Associated Press are not machines. They have their own party, their likes and dislikes, and their prejudices.

The difficulties which a reporter encounters in his profession are seldom realized by people who have not had experience in this sort of work. The task of quoting persons correctly, not alone of getting their actual words, but what they mean, is no easy one.

We recall the story of a professor of journalism who made an experiment with his class one day. A plan was laid whereby a man would enter the classroom and fire a blank shot at the professor in charge.

One young man declared that the attack was a hand-to-hand fight in which the professor was knocked down and trampled. Another said that a bomb was thrown into the room and exploded, while still another stated that the professor was stabbed.

But reports of automobile accidents are usually very impersonal so far as the writer is concerned. It is much easier to report accurately when there is no bias.

SANFORD, TWENTY YEARS AGO

Last night at 8:30 o'clock at the home of Mr. and Mrs. C. L. Goodhue, Miss Mary Walker and Vance E. Douglas were united in matrimony. The Rev. C. H. Summers of the First Methodist Church, officiated and only the immediate family and a few friends were present at the ceremony.

THE ORACLE OF BOISE

It is comforting in these times of doubt and politics to hear a popular and well remembered voice suddenly rolling down from the Idahoan silences to tell us precisely what is the matter with the world and what should be done about it. We have already, it is true, listened to a good deal upon the subject; but campaign speeches are very confusing (unless one skips all the rest of the opposite party), and there are moments when it seems as though they might be just a trifle tinged with partisan bias.

It gets it in four paragraphs. The matter with the world is that it hasn't solved its post-war economic problems, that the monetary systems of the world are "demoralized," that taxes are too high and that farmers and governments alike have run into debt.

That has always been the great strength of oracular utterance. It is only in the completely unbelieved that one may have perfect faith, and if Senator Borah's program were more susceptible to the ordinary tests of a common sense it would be far less reassuring.

Smith notified Kalamazoo county officers by telephone from a farm house. Armed with a shotgun, the farmer, Walter Harrison and the pastor walked down the road to a point where they found McQueen sitting beside the car, which had run out of gasoline.

Smith's valuables were recovered. Stone told the officers he and his son had no part in the robbery orders because they feared he except to carry out McQueen's would shoot them if they ignored his commands.

Harry Ward has returned from a trip to Decatur, Ind., where he was called by the serious illness of his father. He left him greatly improved.

Mrs. J. L. Moore, of Fort Meade, is the guest of her brothers, H. H. Chappell and A. E. Chappell and families.

The Clover Leaf Club, composed of the young ladies of the Congregational Church, held its first meeting at the home of Mrs. Henry Wright Friday afternoon.

The Junior Epworth League of the First Methodist Church enjoyed a delightful social afternoon at the home of Mrs. L. R. Phillips Friday.

The city council has ordered the clerk to write for prices on vitrified brick for the paving of Ninth Street from Park Avenue to the new depot. This means that Ninth Street will become one of the principal thoroughfares and will be paved with brick as soon as the city council can arrange for the brick.

AND BREVARD TOO

The fact that Seminole County stood second the past year in number of carload shipment of fruits and vegetables was considered surprising enough (and it was) for an editorial in the Tampa Times. Seminole County has been known for some time as one of the leading agricultural counties in the state; the fact that it isn't new in fruit growing or vegetable growing, however, makes of it a bit of news that seems much less startling than what Brevard county has done in the last few years in vegetable crop shipment.

Only about three years ago Seminole county was making even more rapid strides as a vegetable shipper.

GEORGE V CUTS EXPENSE

LONDON, Oct. 22.—(AP)—King George, for economy's sake, has let out three home service messengers. They used to carry dispatches to him when he was away from London, but now the post-offices will do the work. The King's couriers, who travel abroad, are not affected.

STEAL PAYROLL

DELAWANNA, N. J., Oct. 22.—(AP)—Robbers locked the superintendent, the cashier and six women office workers in an office yesterday at the plant of T. B. Goodlette & Sons, oil cloth manufacturer. They looted a payroll of \$3000 and escaped.

BIBLE VERSE FOR TODAY

REAL PEACE: — Wisdom's ways are ways of pleasantness, and all her paths are peace.— Proverbs 3:17.

The Times-Union says getting "out of debt is one of the hardest things in the world. It's easy enough if you go through bankruptcy."

Speaker Garner, in denouncing the Hoover administration declares, "The Republican Party has conducted the government for nearly eight years." Twelve years, to be exact, Mr. Garner.

Reading about the loans and cash advances which have been made by the government to the farmers, and the war veterans, the railroads, the banks, the insurance companies, and the building and loan associations, and realizing that one-third of the population are office holders anyhow, we have about come to the conclusion that "The Forgotten Man" must be a newspaper publisher.

The people of Sanford and Seminole County should take particular pride in the efficiency and economical management of their public offices. Recent figures showed that Seminole County ranks first in the state in point of percentage of tax collections and on Thursday figures prepared by George W. Simmons of Jacksonville revealed that the per capita cost of operating our city government is lower than any other city in the state of similar size.

Germany is coming in for a good deal of pausing as a result of its devaluation on foreign debt payment in kind, coming as it did on the heels of its demand for increased armament. But such criticism is born of an ignorance of the problems of foreign exchange and international transfers. It might be easy enough for Germany to raise sufficient revenues to provide for a large standing army and yet at the same time find it utterly impossible to pay its foreign loans. Arms may be paid in depreciated government currency. Foreign loans are payable only in gold or its equivalent.

Gov. Murray has a novel idea of unemployment relief. He would use federal relief funds to construct lakes in Oklahoma which would produce fish to give to the poor to keep them from starving. Isn't it amazing that in the midst of such tremendous plenty as exists in this country, in the midst of an over-production that is stifling commerce all over the world, that the only relief plans which some of our so-called leaders can conceive should contemplate nothing but further production! Why not give the starving multitudes some of the wheat, corn, and meat which is already glutting the markets of the world? Why drive the fishermen out of business by producing more fish!

Gov. Carlton issued a statement the other day which should put to shame critics of his administration who have tried to maintain that the state has been grossly mismanaged. At a time when most other governmental entities about the country are facing huge deficits, are raising taxes by leaps and bounds in an effort to meet these deficits and are steadily increasing their debts in order to find money with which to operate, it should be refreshing to everyone to know that the state of Florida during the past five and one-half years has paid off its budget, incurred no new obligations, has reduced the value of tax on real estate from 1-4 mills to 1-2, and taken over a large portion of the operating costs of the county schools. Not a bad record, at that.

## Plans Being Made For Benefit Bridge Party

Plans are being made by the Seminoles High School P. T. A. for a subscription bridge party to be given on Friday, Oct. 28 at 3:00 o'clock at the Episcopal parish house. The proceeds of the affair will be used for the milk fund of the school.

## Marlene Dietrich To Be At Milane Sunday

Harlem night clubs, last stand of the "hot-cha" variety of night life, form part of the background for the action of "Blonde Venus," Marlene Dietrich's latest starring picture, which comes to the Milane Theater Sunday and Monday.

A dozen such places in New York's black belt still preserve the "hot" music, the wild dances, the uproarious tempo, that 10 years ago was the rule in dance halls and supper clubs throughout the country. Elsewhere music of the slow, sweet type has replaced the old variety.

Best known of the current crop of Harlem supper clubs is the Cotton Club, where Cab Calloway, co-writer of "Minnie the Moocher" and other songs of the "swung-and-low-down" type, and his orchestra preside. It is patronized by a wealthy clientele.

Others of a less savory reputation draw cosmopolitan crowds of thrill-seekers. Their orchestras, boasting no well known names, blare hot, fast tunes well into the dawn; blacks and whites mingle on the dance floor; liquor flows freely; and the entertainers entertain with more gusto than anywhere else in the country.

## MARRIAGE ANNOUNCED

Announcement is being made of the marriage on June 23 in DeLand of Miss Lucille Tomlinson, daughter of Mrs. G. H. Tomlinson, of this city, to J. E. Williams, also of this city. Mrs. Williams was educated in the Sanford schools and was graduated from Seminole High School in 1930. Mr. Williams is engaged in farming on the East Side. The couple are at home to their friends on Celery Avenue.

## Officers Are Elected At W.C.T.U. Meeting

Officers for the coming year were elected at the meeting of the W. C. T. U. held yesterday afternoon at the home of Mrs. John G. Leonardy in Pinehurst. Mrs. F. R. Mitchell will serve as president this year and other officers will be Dr. Elizabeth Tracy, vice-president; Mrs. Walter L. Cooper, secretary; Mrs. Beatrice Hobbs, treasurer; and Mrs. W. J. Thornley, corresponding secretary.

During the meeting good reports were heard from the various committees which are making arrangements for the state W. C. T. U. convention to be held here on Oct. 31 and Nov. 1. Mrs. Mary Harris Arceneux, known as the "Georgia Cyclone," will be here for the convention and will give two talks at that time.

At the conclusion of all business a social period was enjoyed when refreshments were served by the hostess, assisted by Mrs. John D. Jinkins. Those present were: Mrs. F. R. Mitchell, Mrs. John D. Abraham, Mrs. John G. Leonardy, Mrs. John D. Jinkins, Mrs. W. I. Hughey, Mrs. Beatrice Hobbs, Mrs. J. F. McClelland, Mrs. W. J. Thornley, Mrs. G. U. Stewart, and Dr. Elizabeth Tracy.

## Brownlee To Preach After Long Absence

Of interest to the members of the First Presbyterian Church of this city, is the fact that the Rev. E. D. Brownlee, pastor of the church, who has been ill since the middle of July, will have charge of the regular morning service to be held tomorrow morning at 11:00 o'clock at the church. This will be the first time that Dr. Brownlee has had charge of a service here since the second Sunday in July from now on he hopes to conduct his services at the church, but for the first two weeks no evening services will be held.

## Baptist Association Meets During Week

At the meeting of the Seminole Baptist Association held at the Ovidio Baptist Church on Tuesday and Wednesday of this week, the Rev. H. S. Wrightman, of Day Beach, was elected moderator, the Rev. J. W. Dickett, of Ovidio, vice-moderator, and G. M. Boyer, of New Smyrna, clerk.

The principal events of the Wednesday afternoon meeting were an address on Christian Education by Dr. Lincoln Hully, president of Stetson University at DeLand, and a talk by Professor F. W. Futch, of DeLand, on law enforcement and prohibition.

At the conclusion of the two-day session it was decided that the 1933 session will be held in Sanford.

## No Action Will Be Taken In Reynolds Case Until Nov. 7

WINSTON-SALEM, N. C., Oct. 22.—No action on the case of Libby Holman, indicted in the death of her play-boy husband, Smith Reynolds, will be taken until Superior Court opens here Nov. 7, Solicitor Carlisle Higgins announced yesterday.

Higgins has received a letter from the family of Smith Reynolds requesting that charges against Miss Holman and Ab Walker, Reynolds' secretary, be dropped. He is now prosecuting cases at Jefferson, N. C., and said he was too busy to take up the request at this time.

## CROP INCREASE IS PREDICTED BY FARM MAGAZINE

### Jump In Revenue For Winter Production Expected In State

TAMPA, Oct. 22.—Materially increased income to the state from fall and winter crops is indicated in information collected by the Florida Grower, farm magazine published here, after the resumption of profitable shipments, during the first half of the current month. Last season the products were valued at approximately \$30,000,000.

Increases have been enlarged on most vegetables in comparison with 1931-32, it was found. While the movement so far has been hardly heavy enough to establish prices, excellent returns were reported on several of the early shipments. Improved economic conditions are believed to forecast even better demand for the products than existed last season.

Picking, packing and transportation of the current production of truck crops will employ many persons who have been out of work for several months. Estimates of the Florida Grower place the number at 10,000 against 15,000 similarly engaged in the citrus industry. Home supplies of labor are ample in all parts of the territory, it is stated.

First carload of fall beans left the state on the last day of September. Initial shipment from the Everglades moved a week ago. Canners started to go two days later. Including other vegetables, the movement has been around half a dozen cars for several days.

Federal crop estimates put the autumn plantings of beans at about the same figure as last year, when 11,000 acres were raised. Again the Everglades section will provide over two thirds of the acreage. Local authorities estimate more liberally on the total area sown to beans in that region.

Cabbage seems to be coming back in Florida, according to the Florida Grower survey. Last year planting of 5,500 acres will be increasing to 6,500 this winter, it appears. Farmers at Sanford are reported as shifting from celery to cabbage, and around Dunell and Hastings some will grow cabbage instead of potatoes.

Fall crop of pumpkins to be harvested about equal that of last season in extent. 1,500 acres of celery plantings promise to be smaller in the Sand but may be enlarged in Manatee and Sarasota counties. Everglades production also will increase.

Eggplant has been put out more liberally than a year ago. Estimates give 12,000 acres against 10,000 of the current crop. Homestead county has 350 acres. Haverly 200, Lee and Orange 150 each. Strawberry settings in the state territory have run up to 2,000 acres from 1,000. Security of

Church School, 9:45.  
During the Church School for the month badges will be awarded to those who have carried them through a year's period attendance.

## Leading Economists Of Nation Are Endorsing Share-The-Work Scheme

B. F. Haines, of Altamonte Springs, local chairman of the national job-sharing campaign to combat unemployment, announces that many of the nation's leading economists have endorsed the Share-The-Work Movement.

Hailing the Movement as a common sense measure to meet the unemployment emergency, 25 of the leading American economists subscribed to a statement of their views, which was made public by the National Co-ordination Committee, headed by Walter C. Teagle. The economists believed the principle of the Movement could be applied within reasonable limits to the mutual benefit of all concerned.

The statement of the economists reads as follows:  
"The Share-The-Work Movement aims to decrease the number of totally unemployed by spreading work among more employes, wherever possible, rather than by firing fewer employes for more hours per week."

"As a matter of common sense and merely as a temporary emergency measure, we believe that a sane application of this principle within reasonable limits will be helpful to employes, employed and unemployed in every community. Each individual employe, as an offset to the cost of his or her sharing, would enjoy greater job security, not only because of his employer's commitments to him as an individual, but, even more important, because the Movement will tend to reduce the number of unemployed men who are equipped with ability to take over his job and might be willing to do so at a substantially reduced wage or salary if left wholly unemployed."

## FEDERAL WORK ON WATERWAY IS ABOUT DONE

### Great Lakes To Gulf Connection Is Practically Completed

CHICAGO, Oct. 22.—Government work on the Illinois Waterway, which is to open navigation between the Great Lakes and the Gulf of Mexico, is practically completed, it is announced by United States Army engineers here.

The last unit, a dam at Matanzas, Ill., a 2 1/2 mile canal between the dam and the Mississippi lock, was put into use Saturday. This, as far as the United States engineers are concerned, virtually finishes the \$7,500,000 project undertaken by the Hoover Administration 18 months ago and speeded up as an emergency employment relief measure.

During the week school sessions conducted on a tour of inspection a large party of business men, delegates from the Army and Navy, and members of Congress, all by the route. They found some highways and railroad bridges to be done and a stretch of the channel to be widened from 100 to 200 feet. A formal opening is planned for next March.

This month 1,000,000 gallons of molasses waterway was taken by Illinois in October, 1930. Probable traffic in this waterway has been estimated at 10,000,000 gallons annually.

Navigation could begin at any time if a number of bridges obstructing it were removed.  
The project extends 110 miles from Matanzas, Ill., where the canal of the St. Louis District of Chicago ends to Utica, taking in the cities of Joliet, Hannibal, Cairo, St. Louis, Hannibal, and Cairo. From Utica a cut-through to the waterway makes use of the previously improved Illinois River to Granton, Ill., where it empties into the Mississippi 38 miles north of St. Louis, Mo.

## U. S. ECONOMY URGED IN TALK BY ROOSEVELT

### (Continued From Page One)

Springfield took him to the tomb of Lincoln, to his second farm speech in the arsenal, and a series of conferences with Illinois Democratic leaders. Congress a definite plan for the Carlville and Alton, Ill., before detaining in St. Louis.

"The arsenal was filled with upward of 10,000 persons to hear his re-statement of the three steps he enumerated in his Topeka speech several weeks ago as necessary to meet the farm problem. It called first for a 'properly adjusted tariff' to help raise farm prices, pending which he said measures should be taken to give the farmer immediate tariff benefit; next for an assessment in the burden of local, state and national taxation on the farmer, and finally for dealing with the farm mortgage question in such a way as to help prevent foreclosure, lower interest rates and provide for refinancing the loans."

"My friends," he said, "I can't do very much before the fourth of March but when I go down to Washington I shall propose to Congress a definite plan for the refinancing of farm mortgages in line with the principles which I stated in my Topeka speech and which I repeated here today."

"I shall recommend legislation to Congress on the scaling down of amortization installments of federal land bank borrowers when in the judgment of bank directors conditions justify such action with provision for deferring such unpaid amounts to the end of such amortization period. And I shall enforce such legislation."

"This partial and temporary extension will help the farmers to save their farms in a very large percentage of cases, and they can secure a better net income through the working out of the plan which I have discussed for the solution of the general farm program."

As for those farm mortgages which obtain from any source except the new paper...  
In telling of newspaper of general interest, Wiley said:  
"The editors of that time gave views rather than news, and it was not easy to gain information upon which an independent and impartial person could base his judgment on the questions of the day."

"For the college man of the generation, whose education is based on the application of principles to facts, the newspaper of 1932 represents the true golden age of journalism."  
At a time in the history of the newspaper has it been possible for the intelligent reader to obtain from a morning paper a greater wealth of information on national, local, cultural events, a more complete and accurate picture of the world than he could get from any other source?

He told his own story before the World War. Adolph S. Ochs, the publisher of the New York Times, saw the importance of better foreign news.  
He cautioned his audience to choose your newspaper as carefully as you choose your friends.  
He told his own story before the World War. Adolph S. Ochs, the publisher of the New York Times, saw the importance of better foreign news.

Institutions not under the control of the federal government, I renew the statement made in my address at Topeka declaring for loans by federal financial agencies to such concerns to enable them to carry defaulted mortgages of deserving borrowers. It must never be forgotten that the funds so loaned the banks are primarily for the benefit of the farmer and must be so employed.

"Finally I propose consideration by Congress of the necessity for a complete reorganization of the means provided to operate in the field of agricultural finance."

Roosevelt said that at present there were at least seven agencies concerned with farm mortgages. "Within my broad agricultural program," he added, "I advocate the coordination of such agencies and the consolidation of many of them to the end that the federal agricultural policy in regard to farm mortgages may be guided by a single purpose and be concentrated in its operation that it may really become an effective aid to the farmer."

The candidate said President Hoover in his Des Moines speech "took occasion to disclaim responsibility" for the policies of the joint stock land banks. Roosevelt added that under the federal farm loan act authority was conveyed to the board to exercise supervisory authority over the federal land banks, the national farm associations and the joint stock land banks.
