HOROSCOPE

By BERNICE BEDE OSOL

For Saturday, March 26, 1977

ARIES (March 21-April 19) You could get some good news today that you'll want to share with a distant friend. Call today. Your unselfish outlook could earn you a unique reward.

TAURUS (April 20-May 20) A bountiful harvest could result from seeds you sow today. You may take a combination of kind words and a material tribute.

GEMINI (May 21-June 20) There may be good reason for hope today about a new involvement. Your dreams are not that far out of line, but you must work for them.

CANCER (June 21-July 22) You're fortunate today. Others are looking out for your interests. Someone might be working quietly for you now and reveal it later.

LEO (July 23-Aug. 22) Understatement is the key to your popularity today. You do nice things for pals by underplaying your role.

LIBRA (Sept. 23-Oct. 23) While you don't want to do things alone today, you don't need a crowd. The one you love is all you require for company.

SCORPIO (Oct. 24-Nov. 22) This could be an interesting day. You could cross paths with someone you're attracted to. The feeling will be mutual.

SAGITTARIUS (Nov. 23-Dec. 21) This could be an interesting day. You could cross paths with someone you're attracted to. The feeling will be mutual.

CAPRICORN (Dec. 22-Jan. 19) You'll find it extremely satisfying today to do something creative around the house — like preparing a gourmet meal or decorating a room.

AQUARIUS (Jan. 20-Feb. 19) You effortlessly draw attention to yourself today, especially from the opposite sex. You have a mysterious inner glow.

PISCES (Feb. 20-March 20) Your material aspects continue to be favorable. A bolt from the blue could bring you a windfall today.

VIRGO (Aug. 23-Sept. 22) You might get a flash of insight regarding a commercial matter today. If the feeling is strong, follow it with positive action.

LIBRA (Sept. 23-Oct. 23) This year should hold more fun things than serious matters for you. This means new faces, new places and exciting happenings.

YOUR BIRTHDAY
March 25, 1977

This year should hold more fun things than serious matters for you. This means new faces, new places and exciting happenings.

SPIDER-MAN
by Stan Lee and John Romita

THIS EVENING WAS A REAL BUST! NOT A TRACE OF DOC OCK!

KNIGHT AIR WILL BECOME PETER PARKER AGAIN FOR ALL THE GOOD SPIDER-MAN DID!

MAN! I'D BE OUT OF BUSINESS WITHOUT MY DOUBLE KNIFE!

HEY! MY SENSE OF SENSE TINGLING!

AUNT MAY! DOC OCK!

AFTER ALL MY SEARCHING, HE'S WALKING RIGHT INTO MY ARMS!

DOONESBURY
by Garry Trudeau

GOOD EVENING, PRESIDENT CARTER'S NOMINEE FOR SECRETARY OF SYMBOLISM, DUNE DELACOURT, HAS GOTTEN OFF TO A RUNNING START.

SPREADING AT A SPECIAL PRESS CONFERENCE LAST NIGHT, THE SECRETARY OF SYMBOLISM ANNOUNCED HE WOULD BE HOLDING REGULAR PRESS-AND-TALK AND NEWS AMERICANS WANT SYMBOLS THEY WOULD MOST LIKE TO SEE IN THE CARTER ADMINISTRATION.

TODAY DUNE DELACOURT HELD HIS FIRST SUCH PRESS-AND-TALK AND NEWS WARS THERE.

HELLO! THIS IS YOUR SECRETARY OF SYMBOLISM! YES, I'D LIKE TO SEE MORE PHONE-A-TALKS.

Bone Spurs Can Cause Great Pain

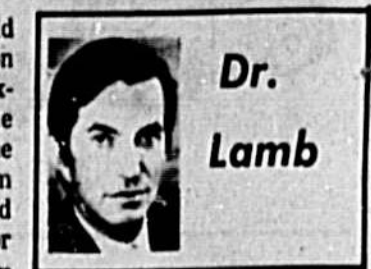

DEAR DR. LAMB— I would like to see if you do an article on bone spurs of the spine. Explaining what causes the vicious things and why the doctors do nothing to keep them from growing, there and creating a serious situation for the person. What makes them give a sickening sensation to the person when movements cause them to be pressed on at intervals.

DEAR READER— As wonderful as the human body is, it is not perfect. A major cause for bone spurs is nature's process of repairing injury. When a bone is injured or degenerates, it repairs itself. In the process the repair may not follow the original bone architecture. The regrowth may be as a spur.

This can occur in arthritis where the vertebrae are damaged, perhaps with age, perhaps with years of wear and tear and the regeneration process produces the spur. It can occur with various diseases that stimulate bone growth. A spur may also occur from excessive pull or stimulation to one area of the bone, as from an attached ligament. Heel spurs are often caused this way.

Doctors can't prevent them, even though we would like to, without stopping the normal bone regeneration process of your body which would be more harmful than the spur. If we could prevent arthritis and the disease associated with bone degeneration and prevent wear and tear from living, then there would be no need for bone regeneration but that is a bit beyond us.

The spurs can be removed if they are in an area where they cause too much trouble, for example causing excess pressure on the spinal cord. The spurs can cause irritation or pressure on nerves or by the pain they may cause by creating pressure on the

Dr. Lamb

muscles. That sudden sickening feeling is a response to pain which can be caused either way. If you injure a muscle by poking it with a sharp object you might also have the same sensation. In this instance the bone spur is the sharp object.

Since spurs are often associated with arthritis I am sending you The Health Letter, number 4-10, Osteoarthritis. Others who want this information can send 50 cents for it with a long, stamped, self-addressed envelope for mailing.

DEAR DR. LAMB— I have had colitis for many years and due to my problem with eating and drinking I now weigh 110 pounds compared to my normal weight of 150.

Since you suggest that no coffee, tea, cola or soda should be used, and since I am allergic to milk I have just one question. I would like to know what beverage you do suggest I drink? And what should I use when eating cereals such as bran or shredded wheat?

DEAR READER— The best drinking fluid over invented is water. Depending on how they affect your system you could also use fruit juices, lemonade and similar fluids. Unless you need to avoid salt you can use bouillon. Then there is tomato juice and other vegetable juices.

If you can't tolerate milk you may be happy with one of the milk substitutes that you could find in the infant feeding section of your grocery store. These are usually made from soybean products.

WIN AT BRIDGE

By OSWALD AND JAMES JACOBY

Today's hand was printed in our column of Aug. 16, 1976. We pointed out that if South plays dummy's king of spades at trick one East is likely to take the ace and shift to the queen of diamonds, whereas three diamond tricks best declarer. We then showed that if South plays low from dummy he will cover the second spade, ruff after East ruff the last spade, play four rounds of clubs to discard a diamond on the last club and catch West in an end play.

The Morrows point out East can beat the hand by playing his ace of spades at trick one and leading diamonds. Oswald Jacoby, a mere lad of 74, takes off his hat to any older or younger, people who can make this play at the table.

ASK THE JACOBY'S

A Mississippi reader wants to know what he lead from: ♠ A K Q J 10 9 8 7 6 5 4 3 2. The game is rubber bridge and the bidding by opponents has gone one spade-two spades-four spades.

We open the king of diamonds. This may cost us a trick, but it may also lead to defeat of the contract if partner holds the right cards.

One of the oldest couples who still play duplicate bridge is Mr. and Mrs. J. Edward Morrow of Joplin, Mo. Mrs. Morrow is comparatively young — say about 80. We don't know how old he is, but he retired as Bridge editor of the Dallas News some 25 years ago, and he was not taking early retirement. They are very dear friends of ours, but do need us on occasion.

Car License Code Plan: \$NAFU-001

By JANE CASSELLBERRY
Herald Staff Writer

Tax collectors have a reputation for giving headaches to others — but now the tables are reversed for Seminole County Tax Collector Troy Ray.

Ray is distressed that all is not well with the loudly hallowed alpha-numeric permanent license scheduled to go on sale July 1, or the computer network that was supposed to connect his Seminole office with agencies in the capital.

Unless the \$50,000 deleted from the state budget is restored by the legislative subcommittee in the next two weeks, the work put into coding registrations for data processing by the Department of Motor Vehicles last year will be for naught.

The state legislature had decreed that use of permanent tags with three letters and three numerals would go into effect this summer, but has failed to appropriate enough money to make the new plates. Therefore, Ray says Seminole's consignment of the alpha-numeric plate will be for out-of-state transfers and first-time registrations only.

For other car owners, it will be just another serialized decal when their birth month rolls around.

As if things weren't bad enough, Ray says he is running out of the present-style tags because the state stopped making them in anticipation of the changeover. He estimates that autos registered for the current time period will total 125,000, but he has only enough tags to last a week and a half.

It is this way all over the state, according to Ray. He says he has been instructed twice to supply Orange County with tags — but has been unable to do so. Ray says he may have to start issuing the few alpha-numeric plates he does have ahead of time as he will not have anything else to issue.

The Department of Motor Vehicles would prefer not to issue any of the new tags until there are enough for everyone, he explains. The advantage of the alpha-numeric concept, Ray points out, is its simplicity and numerous possibilities. "There are 26 million possible combinations using three letters and three numbers." The tag is issued to the owner indefinitely and transferred to his next car.

Seminole County had been selected as one of the 12-14 counties to be initially provided with terminals to institute the communication network, which is a must in the new tag renewal system, according to Ray.

"We would have had advance knowledge and experience," he laments.

"It cost the counties untold thousands of dollars to build the

TAX COLLECTOR TROY RAY: WHAT MIGHT HAVE BEEN?

\$37.5 Million Up In Smoke From Smugglers

By BOB LLOYD
Herald Staff Writer

Officials say Florida lost \$37.5 million in cigarette tax revenue last year due to thefts, smuggling of smokes into the state without Florida tax stamps and the counterfeiting of tax stamps.

State Beverage Department agents, who are charged with regulating tobacco sales outlets and enforcing tax laws, have mounted a statewide campaign to educate local law enforcement officers to the theft, smuggling and counterfeiting operations and techniques so they can help catch the culprits.

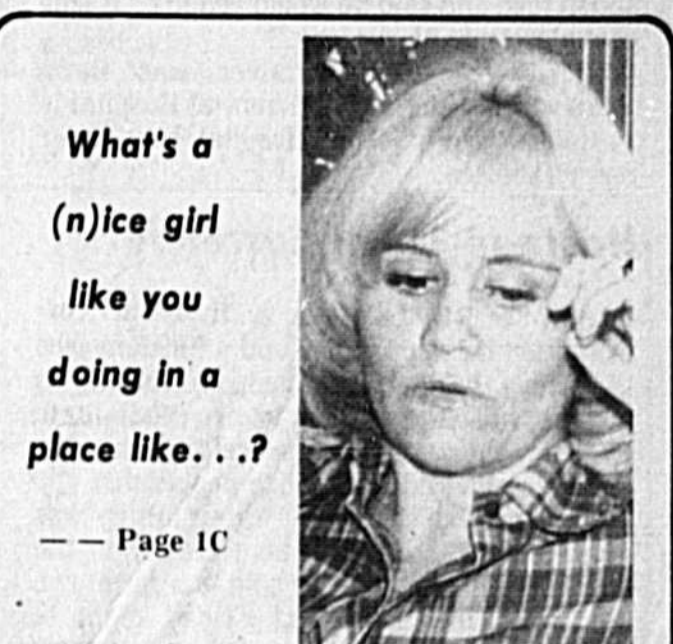

Beverage Agent Claude E. Cruce recently completed presentations to uniform officers of the Seminole County Sheriff's Department and Sanford, Casselberry and Longwood police departments.

Next month he'll be talking with Ovidio and Altamonte Springs officers.

During fiscal 1975-76 the state collected \$181.5 million in cigarette taxes and \$142.41 million was returned to latest available figures.

Cruce said the state Beverage Department, which also regulates alcoholic beverages sales and enforces beverage laws, has 70 agents to do this and also oversee tobacco tax collections and enforcement.

There are 22 agents, including five supervisors and ad-

What's a (n)ice girl like you doing in a place like...? — Page 10

ministrators, to cover 13 Central Florida counties.

He says one of the foremost problems is the smuggling of non-tax-paid cigarettes — a combination of cigarettes from North Carolina, military bases, export and stolen cigarettes.

Smugglers can buy legally in North Carolina cigarettes at costs ranging from \$2 to \$2.75 a carton. This includes the token North Carolina tax of two cents a package.

Florida's tax is one of the nation's highest on cigarettes —

See LAWMAN, Page 2A

large revenue for cities in the county.

Sanford received \$607,981; Casselberry \$362,547; Altamonte Springs \$282,951; Longwood \$114,725; Winter Springs \$75,477; and Lake Mary \$50,095, according to latest available figures.

Cruce said the state Beverage Department, which also regulates alcoholic beverages sales and enforces beverage laws, has 70 agents to do this and also oversee tobacco tax collections and enforcement.

There are 22 agents, including five supervisors and ad-

LISA JACKSON: PULL, TUG

(Un) Dressing For The Occasion

Theresa Johnson: ZIP, STRETCH

"Anything Goes" — and went — for Seminole High Schoolers Theresa Johnson and Lisa Jackson during the "Anything Goes" program at Lake Brantley in Forest City Friday night.

Objective of the two gals: who can change all kinds of clothes quicker. Objective of the entire program: to raise money for the athletic department at Lake Brantley, Seminole and Lake Howell high schools. About 1,800 attended the fun event at \$1.50 each. Other events included tug-of-war, slip-'n-slide, golf cart races.

NATION IN BRIEF

Weather May Hold Key To Food Prices Increases

WASHINGTON (AP) — If the weather cooperates, consumer food prices will rise by 4 to 5 per cent this year, government forecasters predict. But bad weather this spring and summer could drive prices higher this year and lead to a 10 per cent rise next year, the Agriculture Department's Outlook and Situation Board warned on Friday.

Crosby Changes Hospitals

BURLINGAME, Calif. (AP) — Bing Crosby has been flown to a hospital near his Northern California home to continue recuperation from injuries suffered in a fall during a performance. Doctors diagnosed his injury as a ruptured spinal disc and said he would require "a long convalescence or surgery."

Hostage Taker Surrenders

NEW YORK (AP) — A five-hour confrontation between police and a Moslem who took four hostages at gunpoint during a meeting where he sought a loan to rehabilitate Harlem tenements ended peacefully when the man surrendered to a police negotiator. Liqum Abudsh-Shahid, whose family was evicted from their apartment earlier in the day, asked the captives he held in a downtown Manhattan office building Friday night to pray with him. He then handed over his 38-caliber pistol and walked into an adjacent office where he surrendered. The hostages were unharmed.

8 Kids Saved From Fire

KANSAS CITY, Mo. (AP) — A passerby has been credited with saving eight Vietnamese children from a burning house on the city's near-south side. Denny Shepard told officers Friday that he saw smoke coming from the house and found several children behind a locked door. He said he was able to motion through a glass panel for the children to unlock the door, which they did with some difficulty.

Priest Loses License

EDDYSTONE, Pa. (AP) — An Episcopal priest, who claims miraculous healings, visions and other occurrences at his church, has lost his license because he conducted mass in Latin and unorthodox communions. But Father Chester Oleszewski, priest of St. Luke's Episcopal Church in this Philadelphia suburb, may be allowed to rent his church to hold services for his followers, a church spokesman says.

Plaque At SHS Recalls Landmark Key Club Meeting

Kiwanis and Key Club members met in Sanford Friday at a banquet to commemorate the first international convention of Key Club, which took place in Sanford in 1943. Former Seminole High School principal Glenn McKay is credited with transforming the annual state meeting into an international event. Above (from left) Sanford Kiwanis Club members Phil Roche, (kneeling) past president, Ralph Smith, secretary; Bill Fraasa, Key Club sponsor; and Fred Wilson, Kiwanis president, examine commemorative plaque. At right, SHS principal Don Reynolds receives plaque from Stephen Blake, Governor, Florida District of Key Club International, during banquet at Sanford Civic Center.

Lawmen Briefed On Cigarette Smuggling

(Continued From Page 1-A) Carolina offering cigarettes at \$3.75 a carton. What the mail-order buyers aren't told is that federal law requires the mail-order firms to report to Florida authorities to whom they ship cigarettes and how many cartons are sold. Many mail-order firms don't do this and a number of them are now under investigation by state and federal authorities. If Florida beverage agents find out you have mail-order cigarettes on which the Florida tax hasn't been paid they come to you and collect the tax. Cruce said this can mean your mail-order smokes can end up costing you more than 10 cartons with intent to defraud the state of taxes, the offense jumps to a third-degree felony — punishable by five years in prison. A person caught with a load of non-Florida tax-paid cigarettes is also liable for the cigarette taxes, plus 50 per cent penalty and six per cent interest. Cruce said agents are also available to make slide presentations on the lost cigarette tax revenue problems before local area civic groups. Programs can be arranged by contacting the state Beverage Department's district office at 1300 W. Lee Road, Orlando.

The Revival Is In Town

The Rev. DeLatte begins his message on "The Second Coming" slowly: "Jesus has been gone 2,000 years, preparing a mansion in heaven." "Amen," murmur the worshippers. "I've got something to look forward to. The Bible says there will be wars and rumors of war. This we've had." "Amen." "A lot of people don't believe what the Bible says. Hell's full of non-believers. . . We're living in the closing days before the coming. The Bible says, 'In the last days perilous times will come.'" "Amen!" "God has blessed this nation because it was built according to the word of God." The Rev. DeLatte, microphone in hand, descends the steps from the stage to the audience, his voice raised, his cadence becoming more rapid. "But there is sorrow because people have forgotten the word of God." "Amen," responds the audience more loudly, many waving upraised hands. "There'll be no sorrow, no heartaches—" a grey-haired worshiper leaves his aisle seat, dancing for joy — "when Jesus comes. Thank God the Christian has got something to look forward to." The Rev. DeLatte smiles at an elderly man in the first row. "This man could hardly walk three years ago . . . Jesus healed him because he put his faith in God. Can you leap for joy?" The man leaps convincingly. "Amen!" the audience responds. "Let me hear you say amen!" "Amen!" "I'm serving a God of miracles . . . when I pray for the sick, I don't feel God does . . . I don't have religion — I have salvation!" "Amen!" The Rev. DeLatte invites the worshippers to return the following evening to sit in the "mercy seat," a chair surrounded by a white canopy and frame, "to tell God your problems." He asks the audience to come forward and kneel in prayer in front of the stage. The audience complies, as the trustee softly sings "Leaning on Jesus." The Rev. DeLatte has preached for 45 minutes. "If you have an offering you want to give, feel free." The minister motions toward a small green plastic basket on a corner of the stage. "I didn't come here for your money, I came here because God sent me." The music swells. Most of the worshippers come forward and place offerings in the basket. The Sanford service is over.

THE REV. G.W. DELATTE IN SANFORD

The EAR
Trees, trees everywhere, but mayhaps not a one to pick. That's the quarrying facing Datsun Entrepreneur Bill Ray at his new dealership on U.S. 17-92 near General Hutchinson Parkway. . . Ray offered shrubbery and trees to Seminole citizenry who would clear them from the site. . . the offer was made to placate environmentalists who protested site's location in Seminole's lush Spring Hammock. Now, however, Ray's attorney has warned him he may not be able to let citizens grab greenery. . . Reason: why, some citizens could get snakebit, and cause Ray's insurance premiums to skyrocket. . . What to do? What to do? moaned Ray. "Just give each one of your salesmen a shovel and let him dig up the shrubs and greenery," a bemused scribe advised Ray. . .

County Commissioner Bob French is miffed at the Sierra Club. . . he says Sierra Club members made much ado about location of that Datsun dealership in environmentally sensitive Spring Hammock area. . . French is steaming. He contends Sierra Club members should address themselves to questions more important than a four-acre car lot. Also, the Democratic commissioner resents implication from Sierra Clubbers that he's disinterested in environment. . . "I grew up here," French fumed.

The ides of March may indeed bode ill for county's present method of electing its school superintendent. . . A League of Women Voters spokesman told The Ear a campaign is underway to change superintendent's position from elective to appointive. . . It won't affect School Supt. Bud Laver's tenure, however, but could change things for future aspirants who hope to be voted into school system job. . .

Seminole Sheriff John Polk doesn't plan to get too heavily involved in Seminole's new SWAT team. . . Polk told county commissioners sheriff's responsibility is to direct operations — from outside and not inside any building where hostages are being held. Too bad. . . The Ear really thought fantasized image of Polk in action, illustrated in Herald picture, was real becoming and impressive. . . enough to alert would-be lawbreakers. . .

Woman of the Year? Far out, but who will that fine female be? Kiwanis club of Sanford is choosing between 11 contenders. . . A decision has been made, and the Ear can say only that she is a remarkable woman who has made many contributions to club, community and cultural scene in Sanford.

The Ear has learned a new roller skating rink is being proposed for Casselberry. . . may be built on SR 436 at Lake Howell Road.

Don't say Sanford City Manager Pete Knowles is eager to get rid of Sanford's 52-year-old city hall. . . Just say he's eager to move into the new one. . . Construction is set to begin April 4. Williams Development Co. will build it, then demolish old city hall. . . Pete wants to help. "If you need anyone to set the fire, let us know," the Ear heard Knowles tell the contractor.

Talk in Casselberry, the Ear hears, is that Roy LaBossierie, one of paid members of fire department, has the edge for job of fire chief. . . LaBossierie applied for fire chief's position once before, but couldn't pass the civil service test and accepted instead a firefighter's job. Friends say LaBossierie has learned a lot, is a great friend of Mayor Gerald Christensen, and is expected now to pass the test without any problem. . . LaBossierie was fire chief of Longwood for a time, but resigned that office when he lost support of the city council. He learned a lot from that experience, too, the Ear understands. . .

Funds Would Pay For Training Handicapped Florida Suing To Block Federal \$ Cutoff

TALLAHASSEE, (AP) — State officials are suing the federal government in hopes of forestalling a March 31 cutoff of about \$22 million in federal funds that help pay for vocational rehabilitation for Florida's handicapped. The state Friday asked U.S. District Judge William Stafford to strike down a law requiring states to run their vocational rehabilitation programs through a single state agency. State officials say Florida's structure, hammered out by lawmakers in the 1975 reorganization of HRS, doesn't comply because the top rehabilitation official is an adviser to Page, while district HRS chiefs have major authority over the programs in their areas. State officials have charged that HEW ordered the cutoff in part because of pressure from House Majority Whip John Brademas, D-Ind., and the National Rehabilitation Association, a lobbying group of rehabilitation workers. The state asked Stafford to order a new hearing at which Dianne Rouse, an association official, could be questioned about the group's role in the administrative process leading up to the cutoff order. "We want to determine what kind of involvement there was between the lobby and the Congress that may have led to this ruling," said the state lawyer, who asked to remain unidentified. A hearing date was not set by Stafford.

'Stuck' Apopkan Jailed

By ROBYN KRAW
Herald Correspondent
A 24-year-old Apopka man was arrested by Seminole County Sheriff's deputies Saturday morning and charged with driving without a driver's license, driving under the influence, and possession of a controlled substance. Steve Craig Engel, Rt. 3, Box 78, SR-435, reportedly was found passed out behind the wheel of his wife's car. The car was stuck in the sand, motor running, lights on, and in reverse gear at Sandlake Rd., east of Lane Dr. According to reports, Engel gave verbal permission for a vehicle search for controlled substance without a search warrant. Deputy P.J. Higgins said he found a hand-rolled cigarette in the ash tray and a bag of green leafy matter in the glove compartment. THREE THEFTS
Hillard Morris, Rt. 1, Box 1338, Oviedo, reported Friday the theft of items valued at \$300 from his Chula Vista residence. Burglars allegedly entered the home, taking a silver-plated tea set, a sugar bowl and creamer on a tray, a silver salt bowl, a weather set (including humidity, temperature and barometric gauges), assorted screwdrivers, and a can of beer. In another Seminole County burglary Friday, culprits removed a color portable television valued at \$400 from the residence of Loreta Wright and Francis Deane, 1437 Oxford Rd., Fern Park. Sanford Police Department also reported the burglary of the home of Lonnie and Eva Mims, 917 Holly Ave., Sanford. Thieves reportedly entered the house Friday by breaking a square of glass out of the front door and unlocking it. Patrolman Lewis Coombs said the house was ransacked and items valued at \$105.00 were taken. Reported missing were a black and white television set, an AM-FM clock radio and a telephone. YOUTHIS ARRESTED
Seminole sheriff's deputies have arrested two juvenile boys in connection with the theft of winches valued at \$1,400 from a manufacturing plant at Sanford, according to sheriff's reports. The juveniles, ages 16 and 17, were arrested by detective David Duguid in the investigation of the reported theft of 19 electric winches from Taylor Manufacturing Co., at 505 Airport Boulevard, Sanford. A Hyattsville, Maryland, man told sheriff's deputies he

Okay, smart home shoppers, can you spot the difference?

If you've looked real close with your best eagle eye, put away your fine toothed comb. Actually, this is all a trick. You see, the difference isn't something you can see at all. But make no mistake, there is a difference. Got it now? It's the mortgage. Fact is, a First Federal of Seminole mortgage can make all the difference in the world. We're big lenders; we can get you the best rate. Fast service, too. In most cases we'll tell you if we'll lend you the money within six days after you apply.

And we'll close within two weeks after that. Our pre-qualifying plan is really helpful. You can shop knowing exactly where you stand. As you build equity and your home's value also increases, you may want to add on to your mortgage later to make a home improvement. We're one of a few lenders with an easy add-on advance clause. Last, but not least, we've got eight convenient offices, all staffed by people who know mortgages and how to make a difference for you. So see us for your mortgage. And see the difference for yourself.

FIRST FEDERAL OF SEMINOLE
Our mortgages do make a difference.

FLORIDA IN BRIEF

Florida To Seek \$64 Million For Flood Control, Navigation

TALLAHASSEE (AP) — A Florida delegation will travel to Washington next week to seek \$64 million in federal funds for 36 flood control and navigation projects. The Department of Environmental Regulation announced Friday that the agency has completed its project list for submission to Congress.

But environmental specialist A. Bishop said it was difficult to tell how Congress would respond to the state's request for a sharp hike in water resource projects money.

Stomping Victim Returns

MIAMI (AP) — A young Englishwoman who survived a near-fatal stomping in the restroom of a Miami bus station 3 1/2 years ago has returned to rekindle friendships made during her long recovery.

Helen Evans Penniket said Friday she still remembers nothing of her first trip to Miami in August 1973 up through the time she was repeatedly kicked and stomped, and then robbed of \$30, by a man in the women's restroom.

But she says she remembers the warmth and sympathy she received afterward.

Woman Wants Out of Solitary

JACKSONVILLE (AP) — Sonia Jacobs, convicted of killing two law officers and now the only woman sentenced to death in Florida, is asking a federal court to order the state to let her out of solitary confinement.

AREA DEATHS

MRS. NORA BROWN — She was an army veteran of World War II. Survivors include his wife, Mrs. Mary B. of Sanford; son, David Roetger, New Albany, Ind.; a stepson, Bucky Howard, Harrisburg, Ill.; two daughters, Mrs. Mildred Smith, Orlando; and Mrs. Sandra Williams, Tampa; a brother, Harry, Tampa; three sisters, Mrs. Mickey Webb, Miss Rowena Roetger, and Mrs. Evelyn Dabrow, all of Lake City; and 13 grandchildren.

GRANKOW FUNERAL HOME in charge of arrangements.

Clyde R. Selbee, 66, of 844 Rosalia Dr., Sanford, died Thursday. Born in Radnor, Va., he came to Sanford in 1954 and was a retired truck driver. Survivors include his wife, Joyce P. Selbee, Sanford; daughter, Mrs. Judy Givens and Miss Norma Sue Selbee, Huntington, W. Va.; and Miss Rosemary Selbee, Sanford; son, Franklin L., Huntington; brother, Claude Selbee, Phoenix, Ariz.; and three grandchildren. **BRISON FUNERAL HOME** in charge of arrangements.

FREDERICK F. ROETGER — Frederick F. Roetger, 59, of 2916 Magnolia Ave., Sanford, died Friday. A native of New Bremen, Ohio, he had lived in Sanford for the past 35 years. He was a general housepainter, assistant pastor of the Grapeville Chapel, Country Club Road; a member of Elks Lodge 1241; Moose Lodge 1851; Woodmen of the World; and VFW Post 8207.

ANGIE, CHARLOTTE LOUISE — Funeral services for Mrs. Charlotte Louise Angle, 49, of 2605 Grandview Ave., Sanford, who died Thursday will be at 2:30 p.m. Monday in the Gramkow Funeral Home chapel, the Rev. C.D. Harris officiating. Interment will follow in Oaklawn Memorial Park, Gramkow, in charge of arrangements.

ROETGER, FREDERICK F. — Funeral services for Frederick F. Roetger, 59, of 2916 Magnolia Ave., Sanford, who died Friday will be at 11 a.m. Monday in the Grapeville Chapel, with Rev. Patrick McInnis officiating. Interment will be in Oaklawn Memorial Park, Gramkow, in charge of arrangements.

SELBEE, CLYDE R. — Funeral services for Clyde R. Selbee, 66, of 844 Rosalia Drive, Sanford, who died Thursday, will be held at 2 p.m. Monday at the Church of the Latter Day Saints, Sanford, with President Freeman Baggett officiating. Burial in Evergreen Cemetery, Brinson Funeral Home in charge.

Winners in Math Fair at Teague Middle School, Forest City were (from left): Tim Hebel, with his solar reflector, first place; Mark Varga and sextant, grand prize overall; and Robert Foy, second prize. They were chosen from more than 400 projects made by Teague pupils.

Saves \$30-Month On Electric Bill Energy: A Solar First In Sunny Florida

NORTH LAUDERDALE (AP) — As the Carter administration pieces together its energy policy, one housing development here has attracted high-level interest concerning its successful use of solar energy.

Last year, builder Dan Hawley Jr. offered as an option a \$1,350 energy conservation package, including a solar energy device for heating water. Forty per cent of the firm's customers bought the package and they soon realized savings that averaged \$30 per month on their electric bills, according to one federal official.

Now, in what federal housing officials believe to be a first among large developments in the United States, a solar energy package is standard equipment in Hawley's new models.

Hawley has found that solar energy is as reliable and inexpensive as experts have predicted. He also has found that it is good for business.

"Florida seemed like a natural for solar energy, but practically nobody was using it," said Hawley, 37. "We talked with some experts, got the price down to where it was reasonable, and decided to go ahead with it."

"We've been selling these houses like crazy, and a lot of the sales came during a very bad time for other developments."

About 120 of the 260 homes in Hawley's Tam O'Shanter development were bought in 1976 with the solar units. Since the 4-by-10-foot panels must face south, many of them are mounted on the front of the homes.

Although one of Hawley's salesmen admitted that the devices "are not exactly aesthetically pleasing," homeowner Charles Crespi said he's proud of it.

"It's a conversation piece," said Crespi, 38. "Sometimes my friends bring their friends over just to look at it."

Last year, before he moved from Staten Island, N.Y., Crespi was spending a maximum of \$175 a month for gas and electricity. In his two-bedroom, solar-equipped home in Florida, his highest electric bill has been \$58. Many Floridians spend at least \$100 a month for electricity during peak months.

"You can't beat that," Crespi said of his savings.

Hank Brandon, a Federal Housing Administration (FHA) official who has been keeping tabs on the development's use of solar-heated water, said he was very pleased.

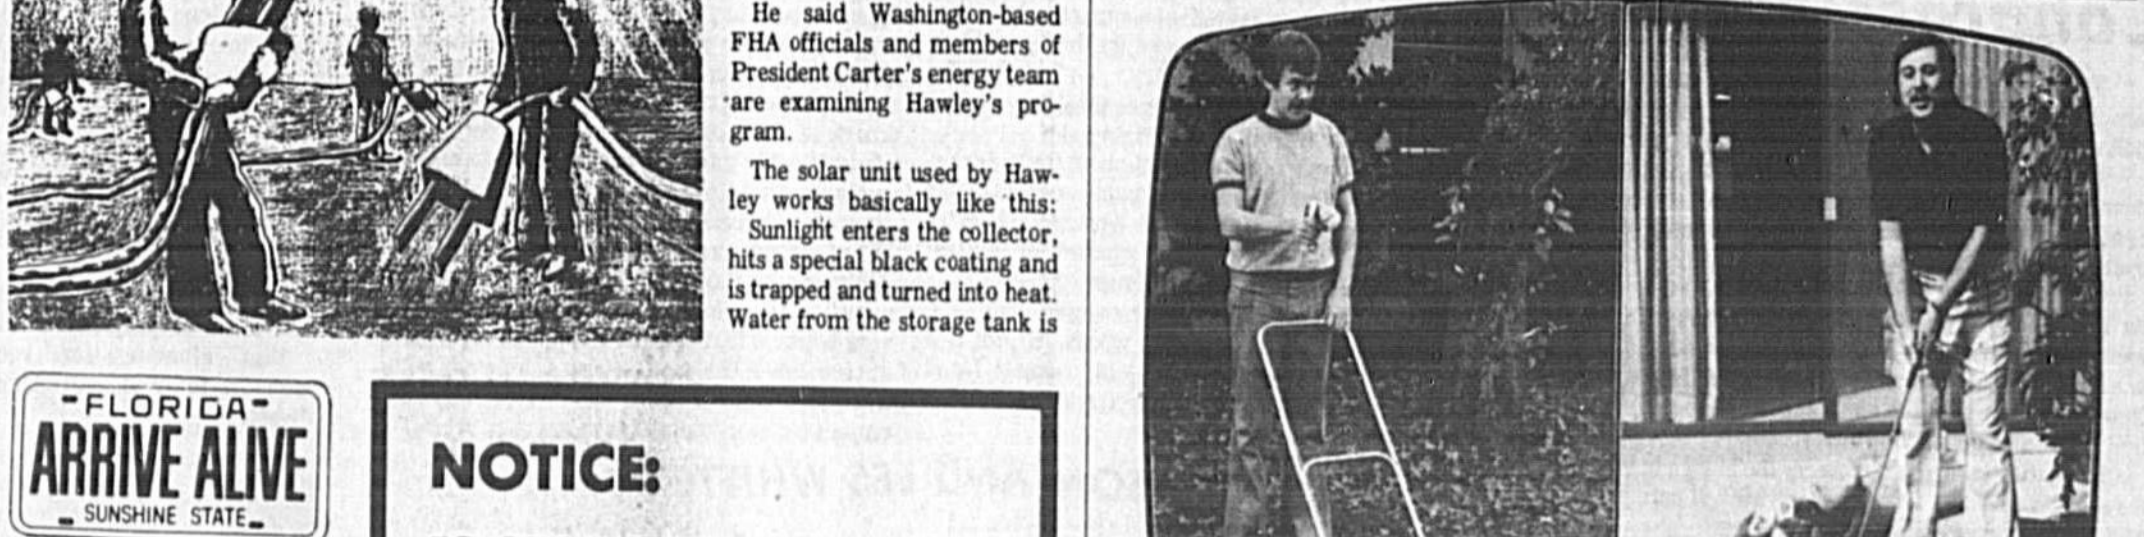

"It's an outstanding program," Brandon said. "We wish everyone would use it because it means a big savings."

The solar device, alone, costs the homeowner about \$800, 10 per cent of which has to be paid with the down payment.

"That's \$80 out of pocket," Brandon said, "which is more than made up during the first year in savings on electricity."

He said Washington-based FHA officials and members of President Carter's energy team are examining Hawley's program.

The solar unit used by Hawley works basically like this: Sunlight enters the collector, hits a special black coating and is trapped and turned into heat. Water from the storage tank is

pumped through the collector and absorbs the heat. The water then is stored in the tank until it is pumped through again. Ironically, the pump must be powered by electricity, but Hawley said the cost of its operation is only about 22 cents a month.

The water will maintain enough heat in the specially insulated storage tank to last about 24 hours without renewal. But if there is not enough heat, a thermostat in the tank switches over to a conventional supply of electricity.

In addition, the energy conservation package includes a non-combustible, spray-on insulation which is used throughout the house and a roof turbine — powered by the wind — which helps dissipate the hot air which often collects in Florida attics.

Brandon, the FHA official, calls Hawley "a pioneer."

"He's not gouging the public on the thing," Brandon said. "He's making a lot of sales, but he's not making very much money in pocket on the energy package."

"And the maintenance is almost nil, because the unit they are putting in is a very good unit."

Brandon said other developers are beginning to offer solar energy devices as an option, but he knows of no other development that includes it as a mandatory feature.

Hawley is including the system in all 170 homes in his new

NOTICE:
TO OUR MEMBERS AND FRIENDS

NATIONAL MOTOR CLUB
MEMBER 1956

The National Motor Club is actively seeking a sales representative to work in Orange and surrounding counties.

As you may know NMC is the nation's largest independently owned motor club, with more than a half million members and the best services and benefits available from any motor club.

If you are a responsible, mature individual who enjoys meeting and talking with people, your success with NMC is practically assured. We will train you fully and pay you well while you train.

Many of our first-year representatives have earned from \$12,000 to \$15,000.

Send job history and resume and name and phone number R. F. Hardee, 2118 Harjill Dr., Orlando, Fla. 32804.

BUSINESS IN BRIEF

Longwood Center Nearing Completion

Construction of the Longwood Professional Center at SR 434 and Palm Springs Road in Longwood is expected to be completed in May. The contemporary one-story wood and stone structure, designed by Donald Frederick Evans and Associates, architects and planners, Winter Park, contains 10,000 square feet of office space.

Community Service Award

The Meritorious Community Service Award will be presented for the first time by the Maitland-South Seminole Chamber on April 13 to the business man, woman, or corporation in the area who has consistently contributed most to community service. The event will be at Rosemont Golf and Country Club following the chamber's golf.

Holiday Inn Raising Funds

Each department of the Holiday Inn of Orlando-Altamonte Springs has been busy raising money for this weekend's Easter Seal telethon. Proceeds will be added to those gained from return of towels "borrowed" by guests from about 300 Holiday Inns across the U.S.

Finance Firm Names Manager

Bruce Harvey has been named branch president of Southern Discounts Co., personal and real estate finance firm, 2201 S. French Ave., Sanford. He was transferred from the Gainesville office in February and is married to the former Karen Keeling of Sanford.

Chamber To Hear County Plan

A representative of the Seminole County Planning Office will review the county's Comprehensive Land Use Plan at the April 25 meeting of the Longwood Chamber of Commerce in the Quality Inn, I-4 and SR 434, according to Walt Lee, chamber president.

Chamber Beginning Drive

The Altamonte-Casselberry Chamber of Commerce will conduct its annual membership drive Monday through Saturday. Goal, according to Chamber President Robert B. Whitehill, is enlisting of 100 new members.

Real Estate Classes Beginning

Gale Associates-Real Estate One, Inc., will begin classes in its real estate Training School next month at the Lee World Center, 1850 Lee Rd., Winter Park.

Bank Names VP In Maitland

Cecil B. McManus has been elected vice president-personal banking and head of the installment loan department of the Southeast First National Bank of Maitland.

MONEY MATTERS

Frank Arnall, C.L.U.

FINANCED LIFE INSURANCE

Paying tax-deductible interest to your life insurance company instead of the premium may be the best way to have life insurance protection. Most insurance companies will not tell you this unless you ask, but most people in the higher federal income tax brackets find it makes financial sense to borrow the premium for their life insurance from the insurance company as provided in the policy. You pay interest instead of premiums. The interest on policies issued in Florida cannot exceed 6 percent, and interest payments are tax-deductible.

For example, instead of paying \$100 in premiums this year, you would pay \$60 in interest. If you itemize deductions, the \$60 would be reduced to an after-tax cost of only \$48 in a 3 percent tax bracket or only \$30 if you have a joint taxable income of more than \$44,000.

This "four out of the first seven rule" puts a limit on the tax deductibility of the interest you pay the life insurance company. You may be able to borrow the premium from your insurance company for more than four out of the first seven years, but IRS probably will not allow deduction of interest payments.

CHRISTMAS IN MARCH

Winners of the 1976 Christmas parade competition hold trophies presented by the Greater Sanford Chamber of Commerce parade committee. (From left) Pat Register, committee treasurer; Babs Fedder, Flagship U.S. Bank of Seminole, 1st place, commercial category; Shirley Mills, first place, civic-pilot club; Roger Gotschall, St. Luke Christian Day School, 1st place, religious; Nora Gordon, 1st place, Business and Professional Women; Shirley Johnson, Shirletes Drill Team, 1st place, school; and Judy Hawkins, parade committee woman.

The Business Of Detente: Becoming 'Washington-wise'

NEW YORK — When E. Douglas Kenna became president of the National Association of Manufacturers in 1973 he moved the office to Washington, D.C. from New York. The move was more than geographical, because it meant also that the biggest corporations in America had recognized, perhaps belatedly, the growing power of Washington in their lives.

A CAKE BREAK (ER)

Opening of Williamson's Communication and Engraving at 2109 S. French Ave. was a piece of cake for the Williamson's (Anita, left front) and Russ (right) together with well-wishers, City Commissioner Eddie Keith, Carol Farella, Commissioner A.A. McClanahan, and Irene Brown, Flagship Bank of Sanford.

Breaker...Breaker... Is That You, Preacher?

WALLINGFORD, Conn. (AP) — It's disconcerting, says the Rev. W. Robert Alter, "particularly in the middle of a sermon."

He's talking about interference, a variety of strange noises he attributes to Citizens Band hobbyists, that has become an almost weekly occurrence over the public address system at Faith Baptist Church.

Those Tales Of Crime In Arizona

By The Associated Press
The complicated deals of land promoter Ned Warren Sr. were highlighted last week in published accounts of the second week's installments of a series by a team of journalists who reported that organized crime is flourishing in Arizona.

Other figures mentioned in accounts of the series last week included Arizona Gov. Raul Castro and Kemper Marley Sr., a millionaire liquor dealer whose name has been linked to the murder of Arizona Republic reporter Don Bolles.

Warren, 63, was the subject of three of last week's installments. He is free on \$300,000 bond pending an appeal of his extortion conviction last year. In an unrelated case, he has been indicted on 20 felony fraud counts in connection with the attempted sale of Arizona land to U.S. servicemen living overseas.

The stories in print said that in 1974, Johnny Montoya was listed as chairman of the board of a planned club called Little King Ranch in the Colorado Rockies. According to the published accounts, his associates in the enterprise were William Terranova and John Flores Lachon. Terranova was described in the stories as having "a long history of introducing topless dancing to the bars of the American West."

WOMEN

Power Play!

What's A (N)ice Girl Like You Doing In The NHL?

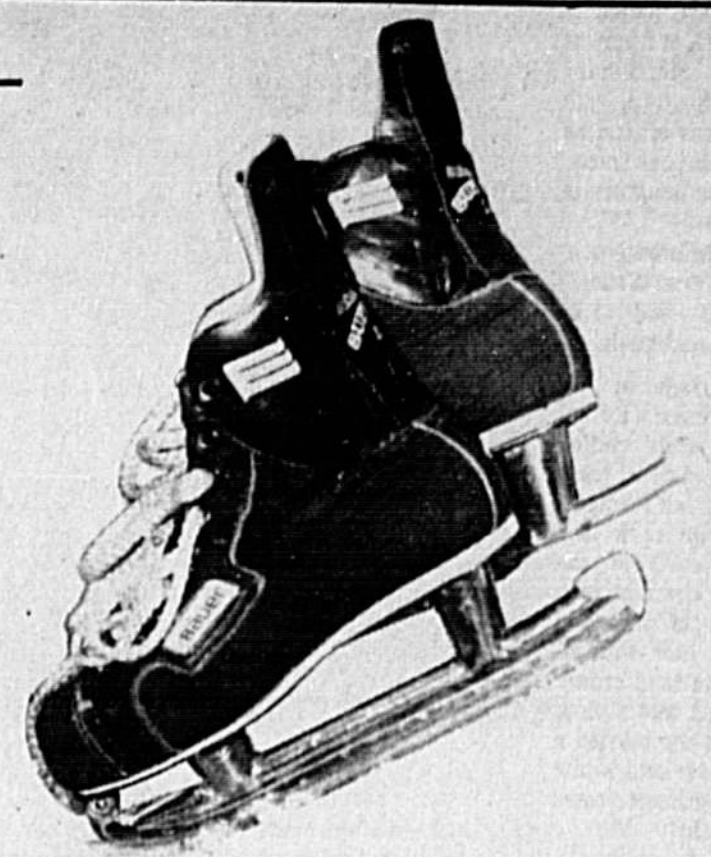

Barbara Williams commands the undivided attention of an entire National Hockey League team, the New York Islanders. "I've never had any trouble," she says.

By MARVLYN K. TIPTON
Herald Writer
Most attractive blond-haired gals with soft brown eyes can get a man to sit up and take notice. Only one of them—Barbara Williams—is likely to get the undivided attention of an entire National Hockey League (NHL) team.

Barbara is a petite woman with fashion flair and a knack for touching just the right amount of mascara in the right places. She is also the first woman coach of any kind in the NHL, and the first power skating coach, male or female, for the league.

Barbara Williams commands the undivided attention of an entire National Hockey League team, the New York Islanders. "I've never had any trouble," she says.

As those done by many women to firm their stomachs and thighs. With Barbara's instruction, however, the exercise is performed flat on one's back on the ice and in full hockey uniform.

Head Start: 'Hello...I'm Fine... And I Hope You Are Too'

Gas rationing, and waiting in long pre-dawn lines to fill up before the pumps run dry is already a faded memory.

My parents are retired, and travel is their passion. Now they must do their driving during the week; plan their stops for the weekends.

Sanford when her parents passed away and she decided to stay in order to start the program. She feels that in helping the child, the program is also helping the child's family.

Perhaps most tantalizing of all to the oil-hungry nation, is the daily sight of giant oil tankers cranking past its shores, bound for Europe and America. There was a time when many of those tankers would break their journey and unload some of the cargo in the South African port of Durban.

Floyd, Black Repeat Vows

Carmen Kasandra Floyd and Herbert Black were united in marriage March 12, at 2 p.m. at Morning Glory Missionary Baptist Church, Sanford, with Rev. Andrew Evans officiating at the double ring ceremony. The bride is the daughter of Mr. and Mrs. Leroy C. Floyd Sr., Ft. Pierce. The bridegroom is the son of Mrs. Francis Black, Sanford and J.B. Humphrey, Ft. Lauderdale.

Given in marriage by her father, the bride wore a formal length gown of white chiffon with floral lace and pearl trim. Her A-line gown with empire waistline and high neck lace collar was trimmed at the wrists with lace. Her matching full length veil of imported illusion net and lace was attached to a white lace crown. The veil extended into a floor length train, and she carried a bouquet of yellow and white carnations, sweet peas and baby's breath.

Mrs. Cassandra Clayton was matron of honor. She wore a yellow chiffon scoop-neck, floor-length gown. The low neckline extended into an A-line bodice and the back matched the front. She wore a yellow rose corsage.

Bridesmaids were Gloria Salter, Vleria Black, Carolyn Bellinger, Paulette Wynn. They wore identical yellow floral print chiffon scoop-neck dresses, with four-tiered skirts. They wore yellow roses in their hair, and each carried one yellow mum.

Fred Harris served as best man. Albert Mitchell, Charles Mitchell, Johnny Ashford and Henry Fields were ushers. Lina Lawrence served as ring bearer. A flower girl and Herbert Dixon as ring bearer.

A reception followed in the service in the church fellowship hall. Another reception was held later in the clubhouse of the Goldside Villas Apartments. The couple will make their home at 804 Edgemoor St., Winter Springs. The bride is employed as an English teacher at Evans High School, Orlando. The bridegroom is a child care worker at the Seminole Juvenile Detention Center, Sanford.

MR. AND MRS. HERBERT BLACK

Every parent's dream came true for us last week. Our daughter and son-in-law, Sgts. Susan and J. Steven Rogers, USAF came home on a 3 day visit. It was all over a year since we were together. After the severe winter which the Rogers spent at SAC headquarters in Nebraska, they appreciated the summer-like weather of the Sunshine State. They spent time visiting Disney World, Sea World, Gatorland and made a trip to the West Coast to swim in the Gulf. The rest of the time, we spent together "catching up."

Sue and Steve brought word of our youngest daughter, Karen, and her husband, Sr. A. John Whitley, USAF. Sue and Steve spent a week visiting the Whitleys in England, where he is stationed, before coming to Winter Springs.

The Rogers will be stationed at Keesler AFB, Miss. for the next year.

Happy Birthday wishes to Mrs. Cathy Parker of Meadowlark who celebrated her birthday on March 22. Many happy returns, Cathy.

Betty Ash of the Handchamps, wife of Councilman Claude Ash, was asked to speak at the Tuesday morning meeting of the Hacienda Villa Women's Club.

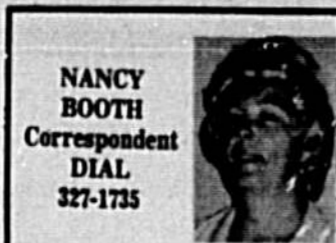

Mrs. Ash, who owns and operates a macrame and ceramics shop in Longwood (Misty Illusions) was asked to talk about those crafts. There are many senior citizens in the Village who find they have time on their hands and in expressing their interests in macramé and ceramics not only fill up leisure time, but give one the satisfaction of the newly formed Sertoma Club of Winter Springs is going great guns. The group is made up of men, ages 18 and over who are dedicated to working in their community for the good of the community.

Andersons Travel To Holy Land

Lloyd and Geraldine Anderson of Hacienda Village have returned from an 11-day tour of the Holy Land which included stops in Cairo, Egypt, Athens, Greece and all of Israel, concentrating mostly on Jerusalem. The Andersons joined 91 others who were taking part in the Bible Study Tour sponsored by Rev. Jimmy Johnson of Raleigh, N.C.

At night they attended study groups and read in the Bible about the places they would then visit the next day. It brought to life the places spoken of in the Bible and gave fresh meaning to their religion and especially the Easter scene, according to Mrs. Anderson.

On the return trip, the Andersons stopped off at Sanford, N.C. to visit with their son-in-law and daughter, Mr. and Mrs. Ronald Shigman and family.

NANCY BOOTH Correspondent DIAL 327-1715

Fredericksburg, spent 3 days at the Snyder home. Mr. Dugan was former director of audit for the State Department in Washington, Washington, D.C.

Friends of Joanie Pace, manager of Ron's Pizza, Winter Springs, will have to keep those prayers coming a little longer. Joanie has had a serious setback and had to undergo open heart surgery last week. She is holding her own at present. We are rooting for you, Joanie.

Every parent's dream came true for us last week. Our daughter and son-in-law, Sgts. Susan and J. Steven Rogers, USAF came home on a 3 day visit. It was all over a year since we were together. Yeackle To Demonstrate

The Sanford-Seminole Art Association will open its doors to the public when Sanford artist John Yeackle gives a demonstration of his art at the group's April 11 meeting, 7:30 p.m. at the Greater Sanford Chamber of Commerce.

Yeackle, a microbiologist turned artist, expresses his love for the outdoors through his sensitive watercolor of rustic scenes and objects.

He has established himself as one of the Southeast's outstanding artists.

Carol and Harvey Korfin, directors of the Diet Workshops in Seminole County, said that their organization was sending similar petitions to Washington from across the country.

They added that products containing the sweetener, particularly diet sodas and sweeteners for hot beverages, were already difficult to find in area super-markets because a panicked public is buying up and hoarding items containing saccharin.

Local restaurants are also starting to ration packets of saccharin because customers are pocketing them off the tables.

Mrs. Korfin said that her husband has had diabetes and is now on a strict diet.

Saccharin has been the only artificial sweetener permitted in the U.S. since 1909. In that time, over 30 separate tests on its safety have been conducted, including tests by the National Cancer Institute. None of these tests implicated saccharin in human cancer.

The cause of the present ban is a series of Canadian tests in which rats were fed a five per cent saccharin diet, and some developed cancer.

The Delaney Amendment for the Food, Drug and Cosmetic Act prohibits the use in food of any additive shown to cause cancer in animals or man. Although the Canadian tests are not yet complete, the FDA has ordered the ban, which will probably be in effect no later than July 1. Mrs. Korfin said that dieters are angered that the ban has been ordered before the tests are completed, and in spite of the fact that an unreasonable amount of saccharin was fed to the test animals.

CAROL AND HARVEY KORFIN

Dieters Bitter Over Ban Of Saccharine

Dismailed by the ban on saccharin, members of Altamonte Springs Diet Workshop presented a protest petition to a state legislator. The petition stated that "the undersigned wish to have the Delaney amendment modified so we may have the benefit of saccharin in our weight control."

Kelly's aide, Barbara Bascera, said that the congressman was working on a law to prevent non-specific bans, and that "it seems everyone on the Hill is opposed to the ban."

Carol and Harvey Korfin, directors of the Diet Workshops in Seminole County, said that their organization was sending similar petitions to Washington from across the country.

They added that products containing the sweetener, particularly diet sodas and sweeteners for hot beverages, were already difficult to find in area super-markets because a panicked public is buying up and hoarding items containing saccharin.

Ballet Buff Fights Fishermen's Battles

Her CB handle says it all. Dancing Fish. That's Dora Lee Russell.

A woman who says she gets her kicks helping people, Mrs. Russell has broad-ranging concerns which see her presiding over the board of the Ballet Guild of Sanford-Seminole, and at the same time lobbying in Tallahassee for the rights of the St. Johns commercial fishermen.

She admits to being a frustrated ballerina — there was no dancing school in town when she was a girl growing up in Sanford.

So she has realized her prima donna dreams through her daughter, Debbie, a professional dancer who got her start with the local ballet guild.

Her involvement in the rights of commercial fishermen stemmed from her belief that "anyone with problems who gets put down, needs someone to speak up for them."

The girls getting put down in this instance were the 300 commercial fishermen along the St. Johns River near Sanford. "Suddenly, five years ago the river was closed to commercial fishermen. It seems that sportsmen out on the water having fun were complaining about the fishing lines of the men out on the river earning their living."

The injustice of it all aggravated Dora Lee.

She knew about it because she now lives on the river — her husband, Tommy, is a cattle rancher who also operates a fishing business on the St. Johns near Geneva.

It irked her to see the fishermen sitting idle on the banks and doing nothing about their plight. So she went from fish camp to fish camp, urging the men to attend an organizational meeting at her home.

DORA LEE RUSSELL AND HER RIVER

"I knew from PTA days that you have to organize if you want to get things done," she grinned.

About 100 fishermen attended the meeting. They formed a group called the Mid-Florida Fishermen's Association (later to become a chapter of the Organized Fishermen of Florida), and elected a president.

Their first step was to meet with the five-member Florida Game and Fresh Water Fish Commission, urging that the river be re-opened to commercial fishing. Their answer was a unanimous "no." But the commission did agree to come to Sanford and hear complaints.

The Civic Center was rented. More than 400 persons showed up — all rooting for the commercial fishermen.

Dora Lee, meanwhile, had followed up a tip to find out how much revenue the fishermen brought into the county. A healthy \$1 million, was the wonderful world of dance when Luis discovered ballet — or vice versa.

On several occasions the entertainer has auditioned for roles in area productions, and was always chosen for the role he was trying out for.

More recently Luis auditioned for a scholarship to the School of American Ballet, New York, where he will be heading as recipient in a few short weeks.

She has also been involved in the controversy over the introduction to Central Florida lakes of the white amur. It has been suggested that this weed-eating fish be used to gobble up all the excess hydrilla presently choking many of the area's lakes.

"Ten years ago the white amur was introduced to a large lake in Minnesota. Today they call that 'lake the Dead of Dr. Robert, and Norma Robb, Leroy's better half."

The entertainment committee of Seminole Mutual Concert Association (SMCA) took this week to plan next season's series and the proposed talent sounds real exciting.

"There are fewer fish, so there is more food to go around, so the fish grow bigger."

Mrs. Russell is currently lobbying in Tallahassee for the Florida Wildlife Federation and the Organized Fishermen of Florida on behalf of a restoration bill to be introduced by Rep. Gus Crain (Dem-St. Augustine).

"For reasons we still don't understand, there are times of the year when the catch won't hit the trot lines or take bait in the river," she explained, "the fishermen were saying to me, 'you got the trot lines back, what about the wire baskets?'" (Wire baskets are traps placed near the river bottom, which have long been banned in the river).

The fishermen took the request to the County Commission, who endorsed a move to re-introduce the wire baskets. Back to Tallahassee with a new petition," smiled Dora Lee.

A one-year trial period was approved by the Game Commission, and the following year commercial fishermen were given the go-ahead to continue using their wire baskets.

"Our final victory," said Dora Lee, "was hoop nets." These nets, she explained, had been used along the St. Johns by the Indians, but their commercial use had been outlawed.

The fishermen took the request to the County Commission, who endorsed a move to re-introduce the wire baskets. Back to Tallahassee with a new petition," smiled Dora Lee.

A one-year trial period was approved by the Game Commission, and the following year commercial fishermen were given the go-ahead to continue using their wire baskets.

"Our final victory," said Dora Lee, "was hoop nets." These nets, she explained, had been used along the St. Johns by the Indians, but their commercial use had been outlawed.

"For reasons we still don't understand, there are times of the year when the catch won't hit the trot lines or take bait in the river," she explained, "the fishermen were saying to me, 'you got the trot lines back, what about the wire baskets?'" (Wire baskets are traps placed near the river bottom, which have long been banned in the river).

Ask the Jacobys

A New York reader wants to know if anyone ever won all the events at a major tournament. Back in 1934 when there were only three events in the Eastern championships, Oswald Jacoby won the mixed with Mrs. Jacoby, Waldemar von Zedwitz and Mrs. Gertrude Farrow, the open pairs with David Bruce and the team of four with Bruce, Schenken and Gottlieb. However that was only three events.

SPIDER-MAN by Stan Lee and John Romita

I SPOTTED DOC OCK JUST TIME!
HERE'S WHERE I KISS OFF PETER PARKER—
--SO THAT SPIDEY CAN GO INTO HIS ACT!
THERE'S NO WAY I'M LOSING THAT TUCKER AGAIN!
--NOT TILL I LEARN WHAT HE'S PLANNING FOR, AUNT MARY!

DOONESBURY by Garry Trudeau

I am only nine (9) years old, but I have the idea for a symbol. Here's my idea: you move to the home of a loyal campaign worker.

Then you sell the White House, and send the profits to an average American in Dayton, Ohio.

I hope you like this symbol. Your friend, Miller Jitz, Dayton, Ohio

HOROSCOPE

By BERNICE BEDE OSOL
For Sunday, March 27, 1977

ARIES (March 21-April 19) Much attention will be focused today on domestic matters. All will go smoothly, provided you don't try to dominate things. TAURUS (April 20-May 20) Bring that which disturbs you out in the open today. Keep it locked inside and you will only brood over it. GEMINI (May 21-June 20) Enjoy yourself today, but try to do it as inexpensively as possible. You don't want to blow it all on one day's fun. CANCER (June 21-July 22) Make it a point today to avoid dominating or dictatorial types. You will react to them in a harsh way you'll later regret. LEO (July 23-Aug. 22) If there's something you need from a peer, this may not be a good day to ask for it. Your favor could be granted in a way you'll find demeaning. VIRGO (Aug. 23-Sept. 22) Not a good day to try to work out a business deal with a friend. Do it when it can be accomplished in a proper setting. LIBRA (Sept. 23-Oct. 23) You enjoy doing things with partners, but today they could be a liability, especially if you want to move quickly moneyside.

For Monday, March 28, 1977

ARIES (March 21-April 19) You'll want to please everyone today, but you'll make no one happy if you heed the advice of others. Follow your own conscience. TAURUS (April 20-May 20) Today you're a bit of a fault-finder, looking more for the negative side of things. Seek out trouble and you'll find it. GEMINI (May 21-June 20) Avoid activities with friends today that might cause you to overspend. What's fun for them might be too costly for you. CANCER (June 21-July 22) Should you be caught in a tight spot today, weigh carefully all plans to extricate yourself. You could get in even deeper! LEO (July 23-Aug. 22) When others make mistakes today, they may try to blame you. Be alert, or you could be the fall guy. VIRGO (Aug. 23-Sept. 22) Even though a well-intentioned friend steers you onto a "good buy," it could be anything but a bargain. LIBRA (Sept. 23-Oct. 23) Guard your image today! Among those watching are some who'd like to see you fail.

Q&A

1. Which state capital's name means "sheltered bay"?
2. The United States of America lost states to the Confederacy during the Civil War, but also gained what state as a result of the conflict?
3. The capital of Canada is (a) Ottawa (b) Vancouver (c) Toronto

- ANSWERS:
1. Honolulu (Hawaii) 2. West Virginia 3. (a) Ottawa (b) Vancouver (c) Toronto

While attending a demonstration in radiology, student PETER PARKER was bitten by a spider which had accidentally been exposed to RADIOACTIVE RAYS. Peter soon found he had GAINED the insect's powers... and had become a human spider.

County Man Hunted; Rommie Loudd Figure

Officials said today that the FBI has entered the search for a Winter Springs man named in a Federal Court warrant charging unlawful flight to avoid confinement.

The warrant was issued today by a Federal Court judge at Orlando for Cecil Johnson, 30, who has been the object of a nationwide search by investigators since Jan. 15 when he allegedly jumped a \$15,000 appeal bond in a drug abuse case.

Officials said Johnson failed to turn himself in after a higher court denied his appeal on a delivery of heroin conviction. Johnson has already been sentenced to 14 years in prison on the conviction.

A state legislator probing allegations that Rommie Loudd, former managing general partner of the now-defunct Florida Blazers professional football team at Orlando, may have been framed in a cocaine case has also been looking for Cecil Johnson because he may know something about the Loudd case.

Rep. Arnett Girardeau, D-Jacksonville, caused an uproar last week when he said his probe as a member of the House Committee on Corrections gave preliminary indications that Loudd may be innocent of drug charges.

Loudd is serving concurrent 14-year sentences at Avon Park Correctional Institute on November 1975 cocaine delivery convictions at Orlando.

Loudd has repeatedly claimed he was the victim of a plot and conspiracy by Orlando area leaders because he is black.

Investigators were searching the Sanford-Seminole County area for Johnson after San Francisco area police failed to locate him at his sister's residence or her travel agency.

Friday Winter Springs police assisted Orange and Seminole Sheriff's agents and other investigators in searching a house at 225 Albert Street but found no trace of Johnson.

Investigators identified a Seminole Community College instructor, Mrs. Minnie Johnson, as Johnson's wife. She was unavailable for comment today.

Probers said Cecil Johnson has been tracked across the U.S. since Jan. 15 and that he reportedly was seen by his

DICK WILLIAMS AND THE 'SO-CALLED ISSUE'

Williams: We Need Double-Tax Talk

By ED PRICKETT
Herald Staff Writer

County Commission Chairman Dick Williams, at a special news conference today, called for a series of meetings with representatives of Seminole's seven cities to resolve once and for all the "so-called issue of double taxation."

In Williams' first press conference since he was elected last November, he designated Sanford as the first city the county will meet with in an attempt to resolve the con-

troual issue. The meeting is scheduled for Thursday.

Williams said he expects to resolve the issue within 60 days.

Williams said double taxation is just a symptom of the problem. Government entities need to sit down and sincerely and realistically evaluate any duplication of services that is to the detriment of the taxpayers, he suggested.

"I see some dollars being saved," by the meetings Williams said.

The second city earmarked for double-taxation talks is Seminole county cities See DOUBLE-TAX, Page 2A

BUNNY HUG

Orange Or Oviedo? Seminole Sewer Showdown

City of Orlando officials and the Seminole County Commission have scheduled a showdown Tuesday over construction of a \$40-million regional sewage treatment plant near Oviedo.

Orlando officials want to build the plant in Seminole County, but Seminole Commissioners have fired off a list of questions concerning the facility.

County Commissioner Bob French said the list of questions sent Orlando officials was "quite lengthy" and questions the desirability of locating the plant here.

"I have some objections," French said.

On March 15, Seminole commissioners postponed a decision after about 20 Seminole residents protested locating the plant on 120 acres west of SR 520. The facility has been nicknamed the Iron Bridge Plant because of a dirt road that runs through the proposed site.

Orange County officials say the Seminole site is the "most feasible," a contention French disputes.

"The bottom line is Orange County wouldn't let them put it (the plant) in Orange County," the Democratic commissioner declared.

Orlando officials say the huge plant would be financed with about \$16-million in city funds, with the remainder to come from the federal government.

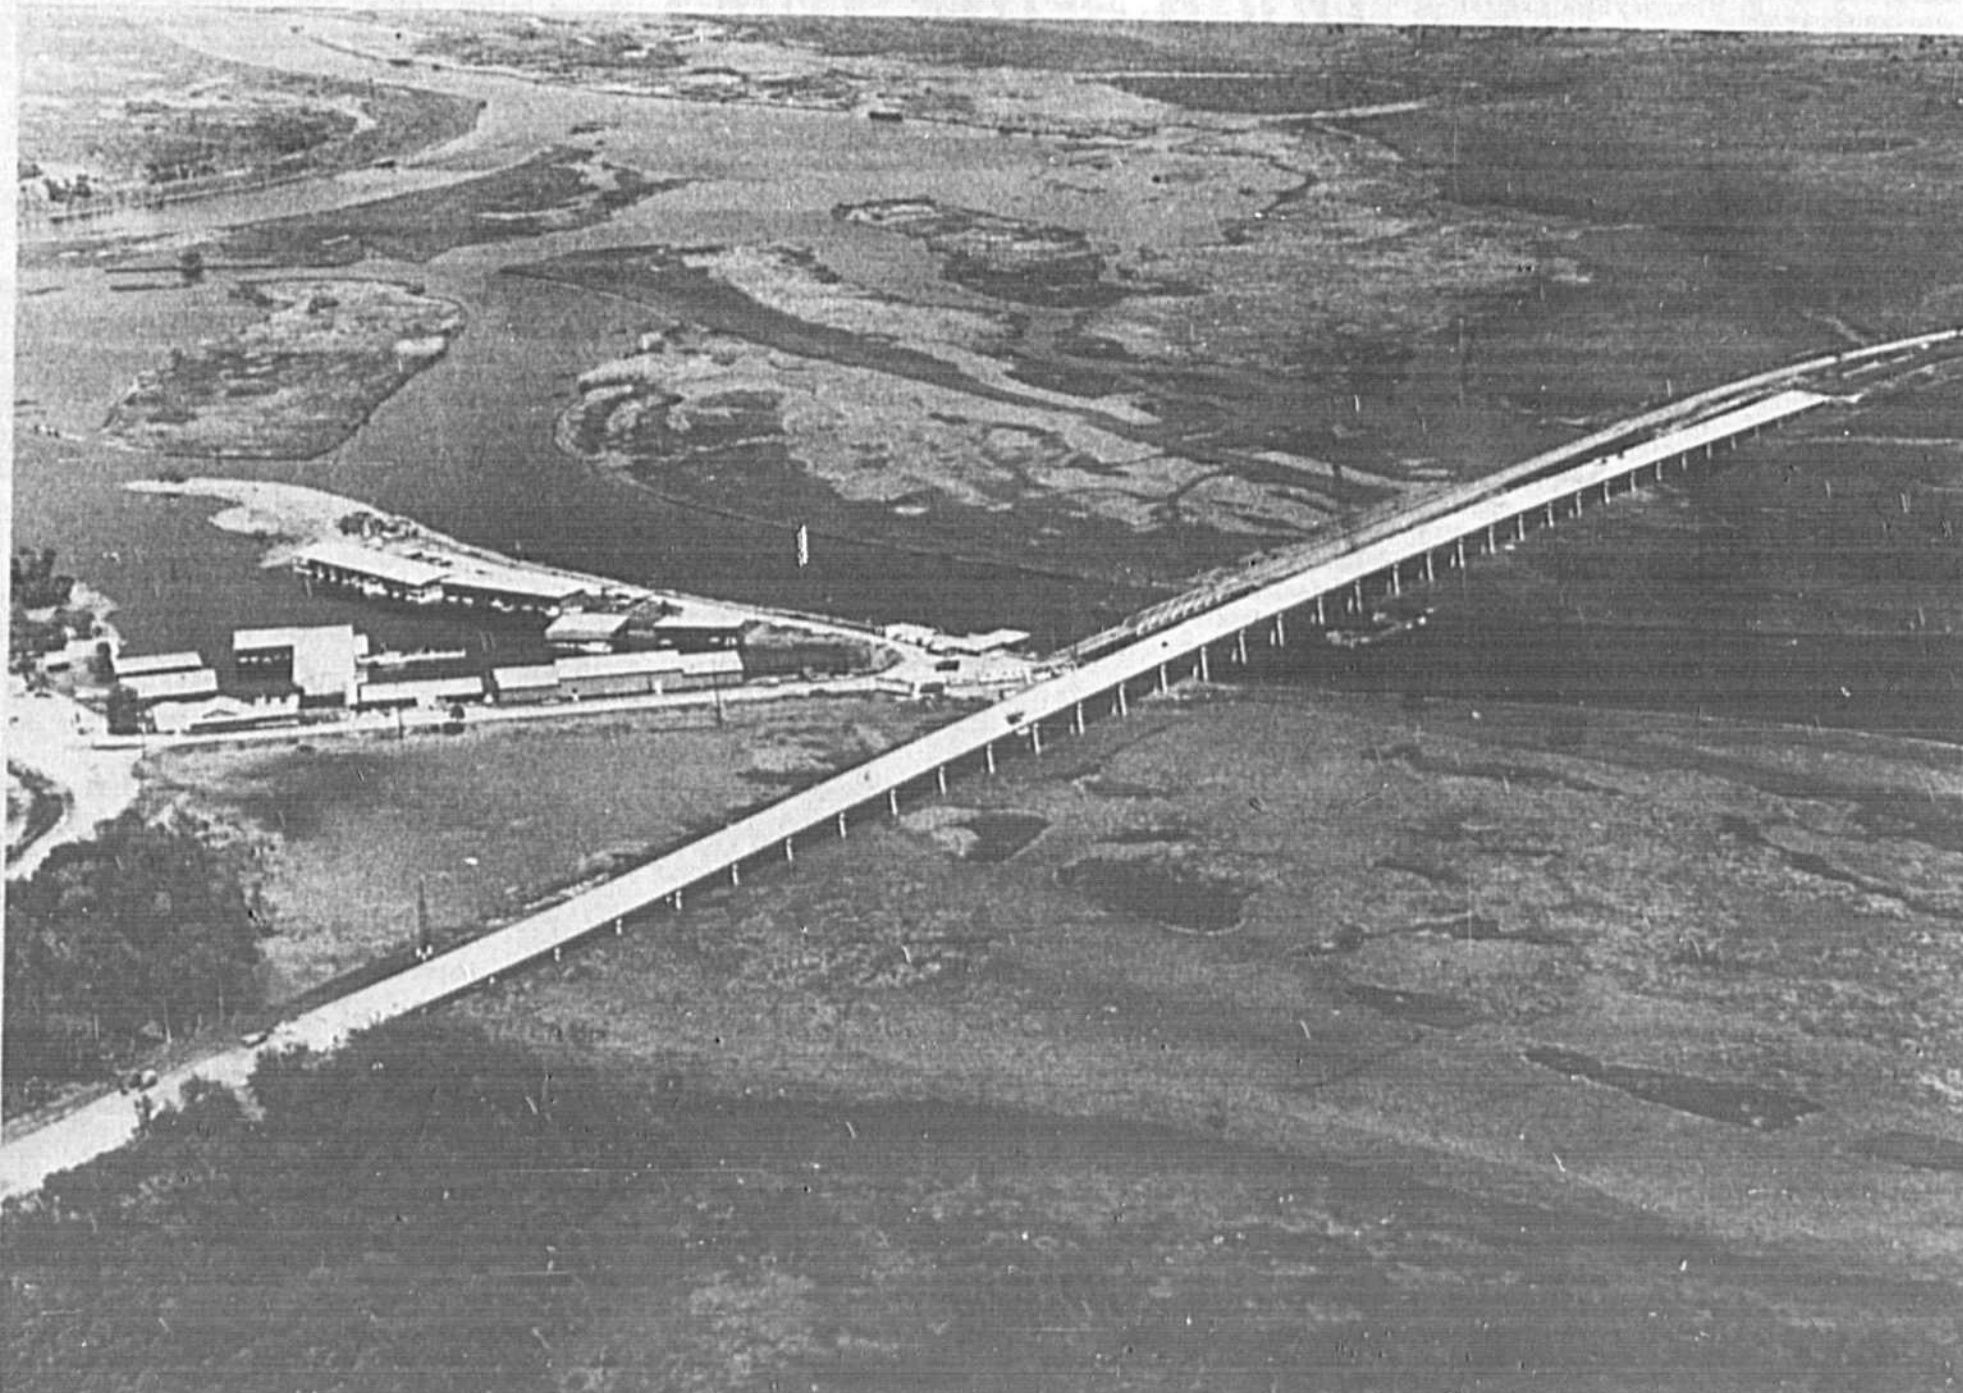

Scheduled for completion in 1979, the facility would serve 500,000 residents of east Orlando, Orange County and southeast Seminole.

But Oviedo residents complained the plant will further pollute the Little Econlockhatchee River by dumping effluent into it. They also complained of plant noise and said a sewer plant in the area would lower the value of area homes.

Orlando Public Works Director Paul Matthes led a contingent of engineers and officials into Seminole's courthouse at the last meeting and is expected to repeat the performance at Tuesday's 7 p.m. public hearing. The issue will be discussed in Room 203 at the courthouse in Sanford.

Matthes said Orlando is facing a grant deadline of April 1. Seminole Commissioner Bill Kirchhoff expressed concern over who will assume prime responsibility for the facility. He said that way, Kirchhoff said, citizen complaints will be acted on. Otherwise, elected officials responsible for plant operations could be voted out of office.

As it is presently conceived, Orlando would be in charge of sewer plant operations. — ED PRICKETT

THE BRIDGE OVER THE RIVER ST. JOHNS

\$3.3 Million and nine months later, the new Osteen Bridge is rising. It is scheduled for opening to traffic before April 15; possibly April 8. No formal opening ceremony is planned, according to Sam Thurmond, department of transportation's district construction engineer. The bridge spans 2,300 feet, replacing the 50-year-old antiquated wooden bridge. The old bridge, scene of a fatal accident in October 1974, is believed to be the last wooden bridge on a state road in Florida. Concrete portion of old bridge will remain for use as fishing pier.

The Bataan Death March

Official captured Japanese prison

By ELVA NICHIOS
Herald Correspondent

Bataan! The name evokes bitter memories of those days in April, 1942, for several Central Florida residents. Then in the Philippines, it was then that the infamous Bataan soldiers marched, so named because only one out of 10 U.S. soldiers survived.

Colloquially, the term "Bataan" is used to describe a death march, generally by boat, sickness or injuries meant to kill. Several area survivors gathered recently to reminisce about the ordeal that began on April 9, 1942, when the Japanese 14th Army landed on the island of Bataan.

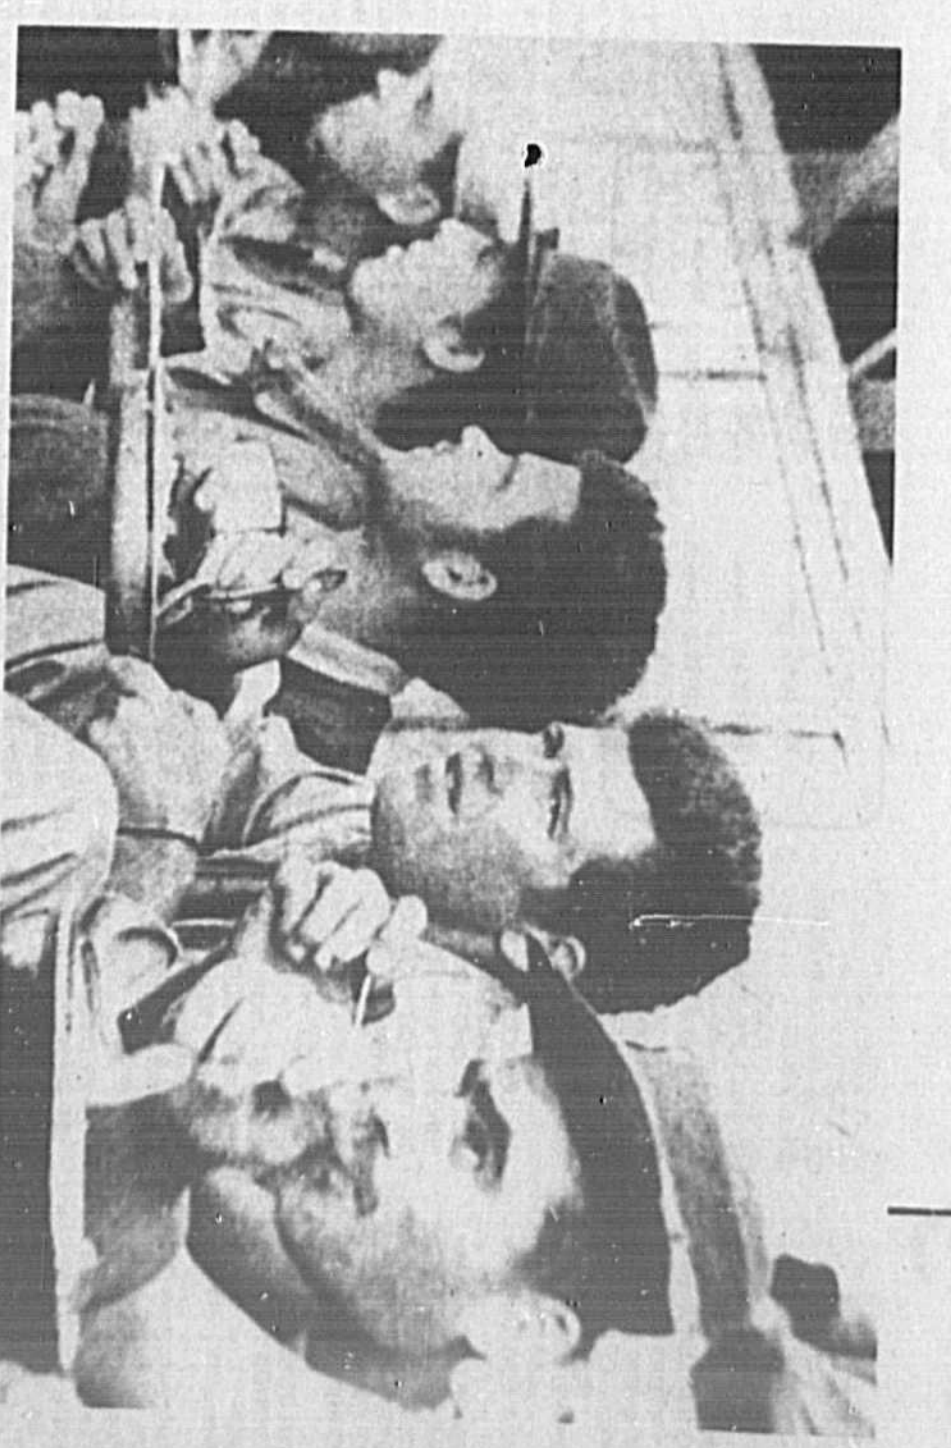

Seven area survivors gathered recently to reminisce about the ordeal that began on April 9, 1942, when the Japanese 14th Army landed on the island of Bataan.

Without these 90 days, the Japanese would have invaded the Philippines.

John Bertram, also from Altamonte, calls himself a "professional soldier." He was a navigation mechanic at the time. He had the worst equipment, you could imagine. We had the Dutch and Peds that had been turned down by the Japanese. Our helmets and guns were WWI relics and we were served second WWI canned meat. We didn't eat it, but it was there.

After the surrender, there was mass confusion. The Japanese, not used to taking prisoners, did not know what to do with us. We were all afraid of the unknown.

Arthur Dixon of Altamonte recalled the uncertainty. "We got what we had done a good job with what we had. We were not well fed. We were all afraid of the unknown. Dixon, Dixon of Altamonte recalled the uncertainty. "We got what we had done a good job with what we had. We were not well fed. We were all afraid of the unknown. Dixon, Dixon of Altamonte recalled the uncertainty. "We got what we had done a good job with what we had. We were not well fed. We were all afraid of the unknown."
