THE EASTER STORY

John 20:1-17

The first day of the week cometh Mary Magdalene early, when it was yet dark, unto the sepulchre, and seeth the stone taken away from the sepulchre.

Then she runneth, and cometh to Simon Peter, and to the other disciple, whom Jesus loved, and saith unto them, They have taken away the Lord out of the sepulchre, and we know not where they have laid him.

Peter therefore went forth, and that other disciple, and came to the sepulchre.

So they ran both together; and the other disciple did outrun Peter, and came first to the sepulchre.

And he stooping down, and looking in, saw the linen clothes lying; yet went he not in.

Then cometh Simon Peter following him, and went into the sepulchre, and seeth the clothes lie.

And the napkin, that was about his head, not lying with the linen clothes, but wrapped together in a place by itself.

Then went in also that other disciple, which came first to the sepulchre, and he saw, and believed.

For as yet they knew not the scripture, that he must rise again from the dead.

Then the disciples went away again unto their own home.

But Mary stood without at the sepulchre weeping; and as she went, she stooped down, and looked into the sepulchre.

And seeth two angels in white sitting, the one at the head, and the other at the feet, where the body of Jesus had lain.

And they say unto her, Woman, why weepest thou? She saith unto them, Because they have taken away my Lord, and I know not where they have laid him.

And when she had thus said, she turned herself back, and saw Jesus standing, and knew not that it was Jesus.

Jesus saith unto her, Woman, why weepest thou? whom seekest thou? She, supposing him to be the gardener, saith unto him, Sir, if thou have borne him hence, tell me where thou hast laid him, and I will take him away.

Jesus saith unto her, Mary. She turned herself, and saith unto him, Rabboni, which is to say, Master.

Jesus saith unto her, Touch me not; for I am not yet ascended to my Father; but go to my brethren, and say unto them, I ascend unto my Father, and your Father; and to my God, and your God.

"He who gives himself with his alms, feeds three; himself, his hungry neighbor and ME." Our presence at God's House is necessary to us, our neighbor and HIS cause on earth.

Judge R. W. Ware

I was glad when they said said unto me, Let us go into the house of the Lord. Ps. 122:1.

Big Year Ahead

The work of the Chamber of Commerce in the year ahead is more important than in time of peace when business and agriculture are less subject to the violent wrenches and sudden dislocations of an all-out war.

To the business man, and to the farmer as well, war conditions have raised innumerable problems which are threatening his very existence.

The voice of the individual is lost in the gales of ban and discord which sweep our country, but the voice of the Chamber of Commerce is that of an organization often loud enough to be heard clear to Washington.

There is grave danger that during the coming summer the production of cereals which has already been classified as a non-essential vegetable may be further restricted or hampered altogether.

But this fight is going to cost money. You cannot maintain an office staff working on countless projects in this day and time for nothing.

The winning of the war depends upon the success of the farmers in feeding the nation. It depends upon the having sufficient labor to harvest their crops and adequate facilities for moving their produce once it is harvested.

We should keep this in mind when making our contribution to this essential organization and give twice as much as we usually have in the past.

Monthly Points

The hardest thing about the rationing business, say many housewives, is the confusion about dates. Coffee coupon runs out on one date, sugar on another, blue stamps are cumulative to a certain point and then no more, red stamps likewise.

Two great reforms are called for, according to the lady who got her gasoline and sugar mixed up, with the consequent loss of sixteen gallons of gas. One is to have all coupons good for one even month's supply. Then everybody would know that the coupons had to carry through April or May or whatever month it was.

"Why," asks the lady without gas, "if there is enough gas allowed for so I can have my sixteen gallons on Mar. 21, is that gas not there for me on March 22?"

The lady who lost her gas seems to have a case. Why cannot the experts get together, and get the points together, with monthly units easy to keep track of?

Things get terribly complicated when Father drives into the gas station with the shoes, sugar and coffee ration book, while Mother finds all she has for the grocer is the gas book.

Current Comment

Maybe the food of the future, and not so remotely so at that, will be dehydrated and concentrated in various containers and shipping space. Reduction in bulk can be as great as 75 percent, in the claim an important item in the shipments we shall be obliged to make to starving nations.

Well, here's one tally for the Japs: they do not like our jazz music and say it is decadent and barbaric. I rather think they have something there. But they do like "Home, Sweet Home."

Old Zeb Grumpy says he is so fond of honey that he has broken out with hives.

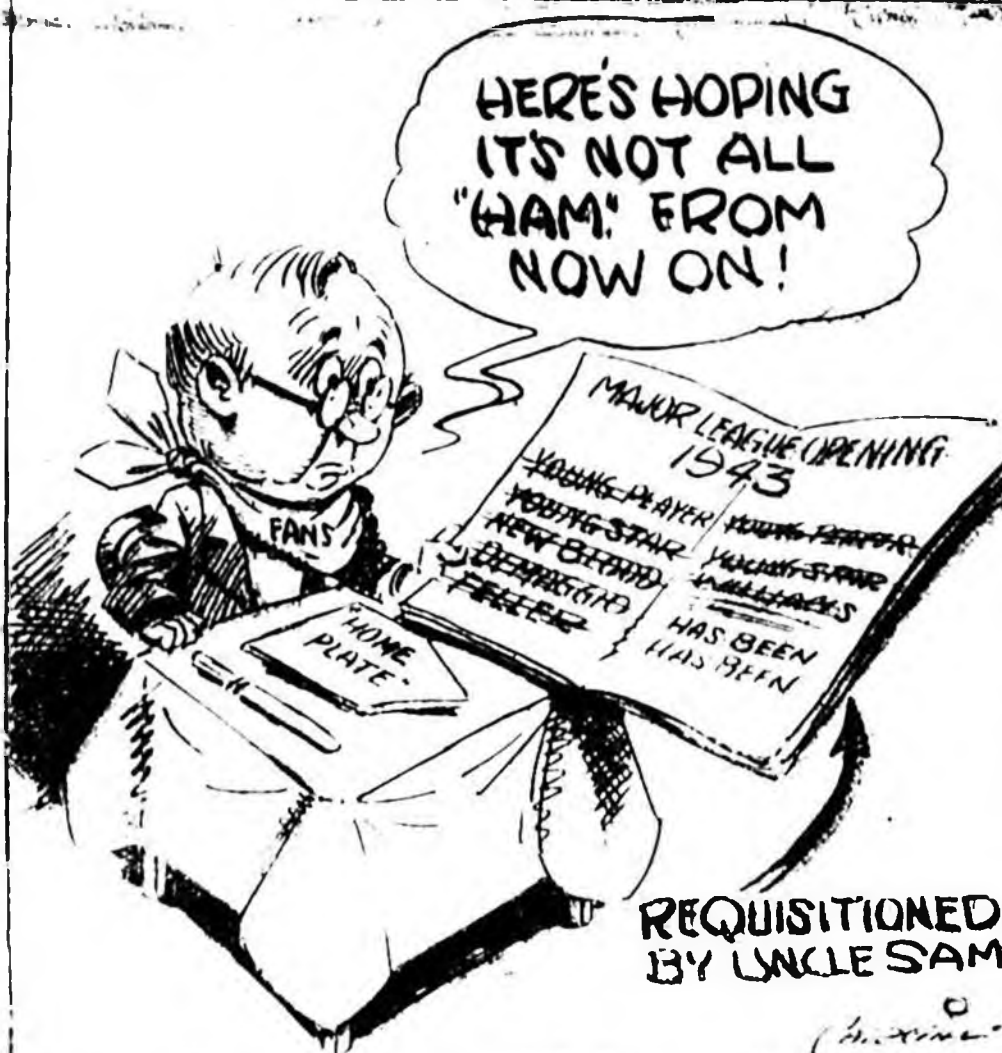

One Warren writes the Miami Daily News that "One" Baldwin's proposed three-cent tax on cigarettes is growing in favor and may pass.

Columist Jack Ball writes in the Miami Herald that during the past three months Dade county has consumed half a million gallons of beer and wine and asks "What if we had put half of that money in war bonds?"

The noble apple is about to come into its own. Its juice is now on the market in cans and will prove a "strong" competitor against other fruit juices. When we use both over the counter that we use oranges and other fruits, we should consider the matter of retaliation we could have on either the Japanese or German side.

One thing seriously wrong with the people of Florida is the inordinant consumption of oranges.

ANOTHER STRIKE-OUT RECORD

YOU'RE TELLING ME!

GRANDPAPA JINKINS says he has just had the nicest birthday of his career. Everyone in the family gave him some of their most ration points. Calgony, Canada, is upset, we read, over the presence there of one bootlegger. And this is no tempest in a teapot, either. The difference between a submarine and an Italian cruiser is that they both go down but only one comes back up. Easter occurs extremely late this year. Good, that gives us

The Florida state chamber of commerce report that this state was second last year in the value of its fruit crop, totaling nearly 78% million dollars, an increase above 30 percent over 1941 and forming 30 percent of the entire farm proceeds; vegetables formed 21 percent of the state income (\$24,284,000). Tobacco proved to be the most profitable crop, running to \$8,181,000, nearly double the 1941 crop. Poultry and eggs brought \$9,976,000, of which almost half was from hen fruit alone. Federal aid to the state dropped to less than two percent, totaling \$3,142,000.

Equipment of combat troops with a new type of uniform is announced for July 1. It is to be twopiece and reversible. The side most used will be dark green and for snowy regions or sea transport the reverse side will be white. The claim is made that they will be wind resistant, water-repellant and rip proof. Strange "eternal triangle" we are at war with Japan; we are helping Russia lick Germany but Russia and Japan are not at war. Hereinfore Florida has been able to produce all the milk needed.

Effective May 8, 1943, the undersigned Banks will observe the following banking hours: 9:00 A.M. to 1:00 P.M. Monday through Saturday. ed but the heavy inflow of military men has made it necessary to have more than a million ration points in the first quarter of this year. The United States Army and Navy, according to a statement by Secretary Morgenthau, quite a remarkable record and if the war lasts the two or three more predicted this year will be needed. War correspondent Ernie Pyle, writing from London, describes the different reactions of German and Italian prisoners. As a rule the Germans were sullen and obstinate though a few were glad to be out of it. The Italians were cheerful, happy when they found they were not to be shot as they were thought to believe would be the case. They were allowed to keep their ration points and sweethearts, which most of them carried. Reports from our men in German internment camps were that they were being well treated, better than those in Italian hands. The American Press says that the 12,000 prisoners and 14,000 German civilians who were captured in the 1942 campaign were never brought into practical use. It now takes the place of ration points for electric light, tobacco, etc. releasing the other ration points for other purposes. Sale of 11 billion was made.

### C. of C. Dinner Inaugurates Drive For New Members And Goal Of \$5,000

Prominent civic speakers addressed the Seminole County Chamber of Commerce at a kick-off dinner at the Mayfair Hotel last night, preliminary to the launching of its annual membership drive, on the importance of unity and co-operation within Seminole County and the need for continued activity by the Chamber of Commerce.

Declaring that we must put into the hands of Chamber of Commerce officers the necessary funds with which to do the work, Karl Lehmann, deputy administrator of the War Savings Staff for Florida, reminded his audience that "No one else is going to do the job that needs to be done if the Chamber of Commerce fails."

Introducing the speakers was W. A. Laffler, president of the Chamber of Commerce, who announced that the goal for this year is \$5,000, about \$2,000 more than last year, but he pointed out that it costs money to get things done and added, "We are worth the money and we are going to give value received."

Other speakers in behalf of the Chamber of Commerce were: Frank Evans, who stressed the importance of good roads to a growing community; T. W. Lawton, county school superintendent, who emphasized unity and co-operation within the county; and Mayor Ed Higgins, secretary of the Chamber of Commerce, who explained the set-up of the drive.

Rev. Joe Tolle pronounced the invocation.

Mr. Lehmann paid tribute to the work of William Speer and J. L. Ingley in setting up the second war loan in Seminole County, pointing out that this was the

## Coal Strike Impending As Miners Quit

### 16,000 Men Are Out In Alabama As General Strike Seems To Be Inevitable

WASHINGTON, Apr. 28, (AP)—The suit coal industry today moved swiftly toward a wage dispute which will threaten a substantial strike and talk of subsequent mine operations behind bayonet lines.

Birmingham, Ala., a walk-out of Alabama coal miners spread to 11 more shafts, bringing the number shut down to 37. The closed mines employ approximately 16,000 men.

The threat of a general shutdown in the country's bituminous coal mines increased sharply today as more workers remained away from their jobs and John L. Lewis, president of the United Mine Workers, indicated in New York that none of the miners would work for the coal industry not reached by Friday midnight.

In Washington, Government officials strove desperately to head off a work stoppage in the safe coal mines, whose production is badly needed to keep the Nation's war plants at "anarchy."

George W. Taylor, vice chairman of the War Labor Board, said he had a report that Lewis intended to call a general strike and that this would be the first strike of its kind at the W.L.B. hearing on the controversy Wednesday morning.

While reports of sporadic strikes throughout the bituminous fields continued to reach New York, Lewis and the U.M.W. international policy committee demanded that Secretary Frances Perkins instruct the operators to resume negotiations.

Scuttled in the shallow waters of the New Jersey mud flats, between Jersey City and Bayonne, is the large cargo vessel loaded with explosives which burned for three hours in the middle of the New York harbor. When the fire broke out, the Coast Guard was unable to control the flames, and the ship was taken in tow by tug boats, which, in order to avoid personal danger to crew members, scuttled the ship. The flames spread, firefighters used the ship's own coxles to scuttle her. (Official U.S. Navy photo. International)
