HOROSCOPE

By BERNICE BEDE OSOL

For Wednesday, October 29, 1975

ARIES (March 21-April 19) You will be both industrious and ingenious today when dealing with difficult tasks. Bright ideas will save you steps.

TAURUS (April 20-May 20) This will be a rather exciting day socially. Don't pass up any invitations. You have a chance to meet someone new.

GEMINI (May 21-June 20) A little preventive maintenance around the house now will save you dollars later. Repair your home's minor ills today.

CANCER (June 21-July 22) There's one you should get in touch with on an important matter. If you let it go past today this person will be difficult to reach.

LEO (July 23-Aug. 22) A friend will impulsively offer you something of value today. His feelings will be hurt if you refuse it.

VIRGO (Aug. 23-Sept. 22) Your customary caution and reserve will not be dominant traits today. You may even surprise yourself with your daring.

LIBRA (Sept. 23-Oct. 23) A profitable secret ambition should be pursued in earnest today. Your chances for acquisition look very good.

SCORPIO (Oct. 24-Nov. 22) While others today might sit around wishing for things to happen, you'll be doing what's necessary to realize your dreams.

SAGITTARIUS (Nov. 23-Dec. 21) Challenges bring out the best that's in you today. Situations that appear intimidating to associates won't look that fearful to you.

CAPRICORN (Dec. 22-Jan. 19) It may take a little selling to get others to go along with your ideas today, but you're more than up to the challenge.

AQUARIUS (Jan. 20-Feb. 19) Work hand in glove today with your mate or partner on a common goal. Excellent results will be achieved if you pull as a team.

PISCES (Feb. 20-March 20) Put your imagination to work today. You'll find alternatives to a problem you thought had but one solution.

YOUR BIRTHDAY
Oct. 29, 1975

A dynamic new friend will be partially responsible for the more active social life you'll experience this coming year. He's a real doer and knows the right people.

Reader Aches At Age Of 86

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB — As a dedicated reader of your column, I think I am sufficiently informed for certification. The only problem, I cannot pronounce those long words.

I would like to read something discussing the effects and what to expect as one grows old, physically and mentally.

I'm 86 and recently some of my old injuries are bothering me, and after sitting I feel a bit stiff in the hip joints when I arise. I have been very active all my life.

DEAR READER — At 86 you could probably give all of us some useful tips on living, staying active and enjoying it.

There are a vast array of changes that occur in your body with time, and you can do something about a good many of them. If you don't mind a few of those big words, I would suggest that you read my book, "Stay Youthful and Fit" (Harper and Row). Your library should have a copy.

The book describes what happens to your body. It will tell you why you develop eye changes and the eye problems common with aging, such as glaucoma, cataracts and floaters. The changes you have in your ears, causing the ringing and buzzing and loss of balance, are discussed. You can help prevent these.

Of course, you need to know about vascular disease, because it is the big one that you can do something about to prevent strokes, senility and heart attacks, the things that make you old before your time.

A lot of the posture changes with age are because of lack of proper exercise. At your age I'm sure you have seen people with bent knees, bent hips and a tottering gait. This is often related to loss of muscle strength and flexibility. The tendons and muscles shorten, bending the hinge joints. Proper movement of joints through their full range of motion helps prevent this. The book will explain these in detail and tell you which exercises you can use to help prevent these problems.

Your lung function changes in part because people lose the flexibility of the movement of their ribs. This cuts down on the full capacity to exercise and causes breathlessness or fatigue with limited exertion. Good posture exercises help to prevent these. These, too, are discussed.

Of course, there are changes in sexual functions as you get older, but as the book points out, men may be active well into their 90s. One example of a man 118 years old and still potent is mentioned. Your living habits have a lot to do with whether you are over the hill at 50 or still enjoying yourself at 90.

Psychological factors are important, too. That includes being socially active with family, friends and community. The desire to live and the feeling of being useful or needed are important factors. These important aspects of aging and others in the book were included in recent U.S. Congressional hearings on fitness and aging. I think it will give you all you want and tell you where we stand on doing something about aging.

Opening lead — Q ♦

By Oswald & James Jacoby

The need for an entry finesse is usually the result of some overbidding. South didn't know what to do after East opened the bidding in front of him. Eventually, he decided to overbid to six hearts. As he explained later, he had hopes that East or West would believe him and take a save at seven diamonds. When they just passed and West opened the diamond queen. South was stuck with his bid.

He ruffed the second diamond high and saw that he had one chance for his contract. He needed to take two spade finesses and that meant he had to find two entries to dummy.

Therefore, at trick three he led a low trump and finessed dummy's eight spot. This would have left him two tricks short if East had produced the nine, but when East had to follow low, South had his extra entry.

A quick spade finesse, a trump to dummy's 10, another spade finesse and it was all over but the scoring.

Ask the Jacobys

An Indiana reader wants to know when a hand with 13 high-card points should overcall at the two level.

Such hands are worth an opening bid, but not necessarily a two-level overcall. The principle requirement here is playing strength and we would never make such an overcall with a mere four-card suit, seldom with a five-carder, but almost any time with six good cards in the suit.

We will discuss these overcalls in the next few articles.

Second Hearing Sought

By JOE ASKREN
Herald Staff Writer

A local union of non-instructional personnel Tuesday filed a petition of rehearing with the state's Public Employes Relations Commission (PERC), opposing last week's certification of three more individual bargaining units within the Seminole County School system.

Frank Joyce, custodian at Lyman High School and campaign chairman of Local 10-10, affiliated with the AFL-CIO, said his 114-member group has charged both Superintendent W. P. "Bud" Layer and Harry Pelley, chief negotiator for the board, with "unfair labor practices."

"They (Pelley and the board) put their nose in where it shouldn't be in 'aiding' the three bargaining units to be certified by the state," said Joyce.

"It's the old story of divide and conquer, you know," Joyce added.

Joyce said the 137-member Seminole County Bus Drivers Inc., the 525-member Non-Instructional Personnel of Seminole County (NIPSCO), and the 335-member Secretarial-Clerical and Aides Association, would have a better bargaining position if they had organized themselves instead into one group.

Joyce said his organization, which includes custodians, maids, some bus drivers, and food service personnel, are about 90 per cent black.

In response, both Layer and Pelley said the local people in the three bargaining units and the board "wanted it that way and PERC agreed in their 3-1 vote!"

"All three organizations had a majority of the people in the unit sign authorization cards giving their reprepentatives the right to bargain," said Pelley.

Pelley said the union's petition is asking PERC for a rehearing, appealing PERC's certification of the three individual bargaining units. He also said it was the "prerogative" of the board which "felt these were the most appropriate units."

Layer said now "we'll have to wait and see. . . I hope PERC will throw it out. PERC already decided that this was the proper procedure."

City, County Chiefs To Mull Pulling Out Of Drug Task Force

By BOB LLOYD
Herald Staff Writer

Sanford police and Seminole sheriff's deputies may be withdrawn from a Federal Drug Enforcement Administration area task force headquartered in Orlando, depending on the outcome of a meeting Monday in Winter Park of heads of area law enforcement agencies.

Orlando Police Chief James Goode withdrew four of his department's vice squad agents from the 10-month-old task force Tuesday and accused federal agents of not cooperating with local area lawmen.

Goode charged federal DEA agents have violated guidelines set up for the task force operations. Goode had assigned four of his department's five vice agents to the task force.

Seminole Chief Deputy Duane Harrell said federal agents haven't kept commitments that they would keep local agencies informed on the whereabouts and activities of their agents.

He told reporters that he has reports that the federal task force apparently hasn't cut down on the availability of drugs on the streets of the Orlando area.

The Brevard County Sheriff's Department withdrew agents assigned to the task force last month following a reported argument over informants.

Sanford Police Chief Ben Butler said he has one vice agent working with the federal task force and the Seminole Sheriff's Department has two men assigned to the unit that was formed to break up drug trafficking in Central Florida.

"I haven't had any problems," Butler said. "I don't know what Chief Goode is talking about, but I expect to know after we meet Monday morning at the Winter Park Police Department."

Seminole Chief Deputy Sheriff Duane Harrell confirmed that area law enforcement agency heads will meet concerning task force participation at Winter Park on Monday.

Harrell said federal agents haven't kept commitments that they would keep local agencies informed on the whereabouts and activities of their agents.

"We're had no problems of any magnitude," Harrell said, "but I suspect there's a communication problem between Orlando police and the DEA."

"I don't know what problems Orlando has with the task force operation, but we'll have to have some good reasons for Seminole to pull out of the task force," Harrell said.

Harrell quoted Sheriff John Polk, hospitalized with a recurring back ailment, as "feeling the task force is the only effective way to fight drugs."

Goode has declined to reveal details of his department's complaints of uncooperation against the federal agents pending the meeting of area law enforcement agency heads on Monday.

A spokesman for the Orange County Sheriff's Department told reporters and the department hasn't experienced any communications problems in the task force operation.

Motorists Stranded

Rains Deluge County, Homes Hit By Floods

By JANE CASSELBERRY
Herald Staff Writer

Seminole County was deluged Tuesday as heavy rains fell for several hours, flooding the area leaving motorists stranded and residents bailing out their homes and businesses.

The tropical storm dumped 5.6 inches of rain in Altamonte Springs, 4.5 inches in Casselberry and 3.5 at the Ag Center, south of Sanford.

Dureen Nutter of Winter Park abandoned her car in K-Mart parking lot in Fern Park after water came up over the hood and inside the vehicle. Other cars were also flooded out in the parking lot and on nearby Orford Road.

Motorists were detoured by Casselberry police around flooded sections of Winter Park Drive and Triplet Drive. One motorist on Triplet, in front of city hall, got out of his Volkswagen when it began to float and pushed it out of the water.

Severe washouts were reported on Wymore Road, south of SR 436 near the Pacesetter Apartments.

An estimated four inches of water were reported inside the Busy Bee Day School, 398 Douglas Ave., Altamonte Springs with 14 inches on the lawn and parking lot. The 60 children were moved to a school addition.

Residents of Mobile Manor off SR 434, where Roger Rich-

Sanford Police reported flooding of the downtown section with water up to the doors of many businesses along First Street, 13th Street and Mellonville Avenue.

mond recorded 3¼ inches of rain in less than an hour, also experienced flooded conditions.

Mrs. Charles Smith of 125 Nashua Ave., was still trying to sop up the water that was ankle deep Tuesday afternoon in the Florida room built on to her mobile home.

Mrs. Smith said this is the fourth time her home has been flooded in five weeks. She said up until four years ago residents in the Mobile Manor did not have the drainage problem, which she said might be caused by the building development and paved streets that have been put in the area.

She said the water also drains off of SR 434 and the one small drain by the post office is inadequate.

She said she called the road commissioners office Tuesday but could only talk to the secretary, who said he would call.

State Road 434 was flooded from Palm Springs Road to Douglas Avenue, causing a two-hour traffic jam, according to Longwood police.

Police Chief John Govorchik of Winter Springs reported over knee-deep water on South Cortez, flooding in The Terraces, on Sherry Street in Meadowlark, Hayes Road at Gee Creek and near SR 434 in the Hacienda Village area. Gee Creek was reported over its banks and washing away the fields along its banks.

Sanford Police reported flooding in the downtown section with water up to the doors of many businesses along First Street and along 13th Street and Mellonville Avenue, and a back-up of traffic caused by stalled cars.

A resident of the Ridgewood Arms apartments in Sanford said the courtyard was so flooded you could not tell where the sidewalk ended and the large swimming pool began.

Courtesy Bus Research Needed, Principal Says

"We're still in the hashing stage. We have no firm recommendations nor conclusions yet regarding the best alternative to courtesy busing."

That's how Sal Manfre, principal of Milwee Middle School and one of the eight ad hoc committee members recently appointed by the Seminole County School sized up its first meeting Tuesday.

Manfre said more research is needed regarding cost estimates.

"Some feel the present free cost (to parents) for providing the courtesy busing system is costing taxpayers money," said Manfre.

Courtesy busing is transportation for pupils who live less than two miles from school for which no state funds are provided, as with regular busing.

Manfre said he prefers a one mile limit.

The committee will meet again at 9:30 a.m. Nov. 20 in the board's conference room on Commercial Street.

Board member Pat Telson, who urged the board to set up the committee, said the parents should decide where the safety hazards exist which may face children walking to school.

State Sen. John Vogt, (D-Cocoa Beach) said Monday the needs would have to be determined and community support would be needed before a special bill could be introduced to the State Legislature later this fall or after the first of the new year.

The special bill, if passed presumably would either provide state funds for courtesy busing of children in hazardous areas, or allow parents involved to pay for the service.

The ad hoc committee also includes Roger Harris, assistant superintendent for finance; Fred Taylor, transportation director; Dick Barnett, principal of Lake Brantley High School; Mrs. Jewel Morgan, principal of Lake Orienta Elementary School; Bill McLaughlin, chairman of the countywide advisory committee; Dr. Stewart Abel; and one other parent. An "efficiency expert" from Florida Technological University is to be appointed to the committee later, Telson said.

AskPolk To Take $18,700

Upon recommendation of County Attorney Tom Freeman, the Seminole County Commission has drafted a letter to Sheriff John Polk asking that Polk accept an additional $18,700 in his 1975-76 operating budget as recommended by state officials.

"If the sheriff would accept, I recommend you approve," Freeman told commissioners Tuesday. He said approval would "obviate" the need for a hearing next Tuesday before the Florida Cabinet.

Assistant Secretary of Administration Wallace Henderson recommended last week that Polk receive an additional $18,700. But that recommendation must be approved by the cabinet before it's final. And the sheriff will have an opportunity for a final appeal the day of the cabinet hearing.

Commission Chairman Sid Vihlen Jr. was instructed by the board to draft a letter to Polk — who is in a Winter Park hospital — and his attorney, Doug Stenstrom, asking the sheriff to accept the $18,700.

Polk initially requested $2.65-million, but the commission awarded only $2.45-million. Then the sheriff appealed to Tallahassee.

NATION
IN BRIEF

Women's Strike Seen Fizzling; Sponsors Expect Few To Skip

By THE ASSOCIATED PRESS

A scheduled nationwide strike by American women today was expected to fizzle because of the very thing the strike was supposed to demonstrate: the value of women's work.

Spokespeople for women's organizations throughout the country predicted that only small numbers of women would support the National Organization for Women's call to walk off their jobs and refuse to perform household chores.

First Lady Betty Ford, New York Lt. Gov. Mary Anne Krupsak, Minnesota Secretary of State Joan Growe and the female staff at the International Women's Year Commission in Washington were among women who said they could not stay off their jobs.

Ford To Seek Change In Law

WASHINGTON (AP) — President Ford is preparing to ask Congress to change federal bankruptcy laws so that financially troubled New York City could continue police and fire protection in the event of default.

Ford will spell out his proposal today in a speech before the National Press Club. A White House spokesman said the President remains firm in his decision "not to take any action to prevent default," despite a Tuesday report from New York state's Municipal Assistance Corp. that the city could default as early as Nov. 14.

But an administration official said Tuesday that Ford is not convinced that default is inevitable. He decided to offer the plan, the official said, because "he was concerned he was being pictured as being inhuman and not compassionate enough toward New York City."

GM Reports Huge Turnaround

DETROIT (AP) — General Motors' earnings in the third quarter rose nearly 15 times higher than disastrous year-ago levels to $243 million, marking one of the most dramatic financial turnarounds in the auto giant's history.

At the same time, a stillstruggling Chrysler Corp., in part a victim like the other U.S. auto makers to GM's renewed strength in the market, disclosed on Tuesday a record third-quarter loss of $79 million. It was the fifth consecutive loss period for the nation's No. 3 car company and pushed its losses since the summer of 1974 to a record $313 million.

Chrysler Chairman John J. Riccardo expressed optimism the firm would turn a modest profit in the fourth quarter.

Oil Cartels Have Small Share

WASHINGTON (AP) — Despite fears that oil-rich countries would use their new wealth to gobble up U.S. companies, the latest government statistics show that oil cartel nations account for only 3 per cent of foreign investments in the United States.

The figures released Tuesday also showed there has been a big increase in foreign investment in the United States in recent years, much more than was estimated previously by the government.

The reports showed that the big overseas investors are the same nations that traditionally have invested here — the United Kingdom, Canada, Switzerland, The Netherlands, France, Germany and Japan.

Reagan To Avoid Meeting Ford

WASHINGTON (AP) — President Ford is traveling to Los Angeles tonight for a Republican party fund-raiser, but Ronald Reagan, a sponsor of the event, is staying away out of concern that a joint appearance might undercut his White House challenge.

Ford's two-day political mission marks his first trip to California since a woman allegedly tried to shoot him outside a San Francisco hotel five weeks ago. He makes an appearance at the hotel Thursday.

This time, Ford's crowd exposure is being held to a minimum, meaning about the only people to see him will be some 2,000 persons who paid $250 for tonight's dinner and a Thursday luncheon in San Francisco.

GOP In Financial Pickle

WASHINGTON (AP) — The Republican National Committee may have to shut its doors and send its staff on a two-week vacation without pay in December unless it can raise close to $1 million above anticipated revenues, a top party official says.

"If the money doesn't come in, undoubtedly it's a possibility," executive director Edward Mahe said in an interview Tuesday.

Mahe said the committee has held an unprecedented number of party conferences and has been hit by expenditures of $500,000 for support of President Ford's political efforts.

2,300 Officers May Be Back

WASHINGTON (AP) — A regulation that Army officials failed to follow may force the Pentagon to reinstate more than 2,300 career officers who were turned down for promotion and told they must leave the service.

The Army is refusing to permit the officers to remain on active duty while the issue is decided. Some already have become civilians.

President To Tape Statement

SACRAMENTO, Calif. (AP) — President Ford will give a videotaped statement this week on what he saw and heard when Lynette Fromme allegedly tried to kill him.

U.S. District Court Judge Thomas MacBride refused on Tuesday to throw out his order directing Ford to give the sworn testimony as a defense witness for Miss Fromme.

Building Probe Continues

Van Eepoel Censured After Brock Resigns

By JANE CASSELBERRY
Herald Staff Writer

WINTER SPRINGS — In a surprise turn of events Tuesday night, City Council, meeting to investigate charges against City Building Official Ray Bradshaw, voted to censure Councilman Irene Van Eepoel following an angry resignation by City Attorney Newman Brock.

Having agreed to accept five of the 10 affidavits submitted by city residents for further investigations, Mayor Troy Piland opened the meeting for comments from the audience.

Laurent Pellerin, a candidate for mayor in the December election, was suggesting Brock confine his comment to legal opinion and not inject personal opinion when Mrs. Van Eepoel uttered an under the breath, "Touche."

This was apparently the spark which lit the attorney's fuse. He exploded with, "I am sick and tired of your improprieties and innuendos. I'm tired of being subjected week after week to what amounts to blasphemy and I am resigning as city attorney. A person should not be put in this position."

Councilman Irwin Hunter moved that the "Council apologize to Brock and Mrs. Van Eepoel be censured for her actions and strongly admonished."

Councilman John Daniels suggested no one should act in haste and that the meeting called for investigative purposes was not the proper forum for the action against Mrs. Van Eepoel, "just as I hope Mr. Brock would submit his resignation at a regular meeting — if after sleeping on it he still wishes to do so."

Mrs. Van Eepoel said, "What you construe as attacks are not attacks on Mr. Brock. They were incidents of extreme doubt on some of his opinions."

Brock answered, "I see coming before me the same thing that happened to Tom Freeman" (former city attorney, who resigned to become county attorney) referring to criticism of Freeman from Mrs. Van Eepoel.

Brock challenged Mrs. Van Eepoel to prove her statements against him, calling them untrue.

In a face to face confrontation following adjournment, Brock told Mrs. Van Eepoel she was the "most nauseating woman" he had ever met and he dreaded to come to the meetings because of her. He said he would submit his resignation in writing at Monday's meeting of Council, and this was not just an impulse as he had considered the action for some time.

Several members of Council begged Brock to reconsider his action.

Voting for censure were Hunter, Ernest Hendrix, Daniels and Donald Browning; Mrs. Van Eepoel, who is running for re-election, termed the action, "a definite political move."

In the next building department inquiry meeting scheduled for Tuesday at 7:30 p.m., council voted to consider an affidavit submitted by Gary D. Hunt. Witnesses to be subpoenaed by Council include Hunt, Bradshaw, and, at request of Bradshaw, Planning and Zoning Board members (at the time in question) Sharon Patrick, Marlene Rossiter, Don Smith, Dave Moreland and John Newsome.

Unemployed Mechanic Held In Shooting Of Prowler

ORLANDO (AP) — An unemployed auto mechanic is being held in jail without bond on a murder charge in the shooting death of a prowler.

James Rice, 30, was arrested on murder charges Monday following the slaying of a 38-year-old transient whose name was withheld until his relatives are notified.

Asst. State Atty. Lawson Lamar ordered a coroner's inquest to decide Rice's fate because of a contradiction in a new Florida law on the use of deadly force against burglars.

Carter Campaigns In State

TALLAHASSEE (AP) — Former Georgia Gov. Jimmy Carter has urged sympathetic students to support him in Florida's presidential primary to keep Alabama Gov. George Wallace from running away with the state's delegates.

Carter said Florida has a national reputation as one of Wallace's strongest states. He noted that Wallace captured all 67 Florida counties in winning 41 per cent of the state's 1972 Democratic presidential primary vote.

"I don't intend to lose in Florida, but I do need your help," Carter told the Florida State students. "It's important because the eyes of the nation are going to be focused on whether Wallace does better or worse in Florida in 1972. I'm determined Wallace will do much worse."

Turlington: Tax Hikes Needed

TALLAHASSEE (AP) — Education Commissioner Ralph Turlington says that in addition to possible increases in cigarette and liquor taxes, the state should consider extending the sales tax to gasoline for more education money next year.

Turlington warned Cabinet aides Tuesday that sooner or later elected officials are going to have to face the need for a tax increase or face the prospect of less money for educational needs.

"Just to have a budget next year equal to this year's, which is no prize, we will have to have a tax adjustment," Turlington said.

Court Overrules Dismissal

TALLAHASSEE (AP) — A circuit court acted improperly in summarily dismissing a damage suit by one of Gov. Reubin Askew's former law partners, the 1st District Court of Appeal has ruled.

Jack S. Graff of Pensacola had claimed permanent injuries from a July 24, 1974, accident although he had not consulted a physician and knew of no physician to support his claim.

Graff claimed injuries "in and about his body and extremities" in his suit against Mr. and Mrs. R.L. McNeil and their insurance company, United Services Automobile Association.

Force Eyes Compensation

ORLANDO (AP) — An insurance task force today begins looking into the growing problems of small businessmen unable to buy workmen's compensation insurance.

Many of the businessmen have been forced to turn to a voluntary assigned-risk program where the premiums are 8 per cent higher. This comes on top of a 14.2 per cent increase granted last week.

"The situation is becoming more serious every day," said Robert Trewek, a Gainesville insurance man who heads the task force's committee on workmen's compensation.

Police Quit Drug Team

ORLANDO (AP) A second Central Florida police agency has pulled its men out of a federal Drug Enforcement Administration task force.

Citing what he called a lack of cooperation and coordination, Orlando Police Chief James Goode disclosed Tuesday that he had withdrawn from the task force. He did not elaborate.

"We have talked with members of the task force and we told them we feel the city can be better served by agents working under police department supervision," Goode said after pulling four of his officers out of the task force.

Child-Snatcher Sentenced

MIAMI (AP) — Self-proclaimed child-snatcher Eugene Austin has been sentenced to 30 months in jail by a judge who told him, "I admire your style."

Despite the words of admiration, Circuit Judge Thomas Testa sternly lectured Austin, 52, who stood before the judge Tuesday with hands shaking nervously behind his back.

Austin, of St. Louis, says he has snatched more than 200 children away from one of parent for the other. He says he's fighting for reform of divorce procedures that usually grant custody to the mother.

Two Die In Light Plane Crash

BUNNELL (AP) — Two people died when a twin-engine airplane smashed into in a swamp near the North Florida community, officials say.

Flagler County Sheriff Paul Edmonson said late Tuesday that the identities of the victims crash had not been firmly established.

But he said Toledo, Ohio, engineer Edward E. Willhardt, 45, and his wife, Norma J., 45, took off from West Palm Beach early Tuesday after filling the plane's fuel tanks near to capacity.

Tucker Defaulted, Firm Says

TALLAHASSEE (AP) — House Speaker Donald Tucker and his business associates have defaulted on $2.6 million in mortgages, a Massachusetts firm claims in two suits.

"It's just a dispute with the mortgage holder," Tucker, D-Tallahassee, said Tuesday. "There is a dispute over the amount we owe and several other things. I will file an answer."

He said he would not comment further on the grounds that all his transactions are not public business.

Judge: Jails Violate Law

JACKSONVILLE (AP) — A federal judge says the law is being violated by poor conditions that exist in county jails around the state.

U.S. District Judge Charles R. Scott issued an injunction Tuesday ordering Secretary William J. Page Jr. of the Florida Department of Health and Rehabilitative Services to get the jails in compliance.

Sentence Pending On Earlier Charge

Sanford Man, 21, Charged In Auto Theft

By BOB LLOYD
Herald Staff Writer

A Sanford man, free on bond pending sentencing next week for unauthorized use of a motor vehicle, has been jailed on a charge of larceny of an auto.

Sanford police Tuesday arrested James Randolph Tabor, 21, Sanford Route One, after recovering a 1962 model auto reported stolen from a shopping center parking lot on Oct. 18.

Detective Tom Bernosky said the auto, owned by a DeBary man, was disabled when it was left at Zayre Plaza shopping center, Sanford. Bernosky said that when officers located the vehicle Tuesday on SR-46, west of Sanford, it had been partially stripped and parts were found on another vehicle.

Tabor was booked at the county jail on $5,000 bond on the auto larceny charge.

Circuit Court records show Tabor pleaded guilty to the lesser and included offense of unauthorized use of a motor vehicle Sept. 17 and Circuit Judge J. William Woodson allowed Tabor to remain free on bond pending a pre-sentence investigation.

Tabor, in the earlier case, had been charged with larceny of an auto in Casselberry. He told the court that a juvenile had taken the auto and then picked him up for a ride. When Tabor was arrested by Casselberry police July 22 he listed his residence as with his parents in Longwood.

Sheriff's deputies jailed Cynthia Anne Morris 20, of Winter Park, on $5,000 bond after her arrest on a Seminole Circuit Court Warrant charging grand larceny.

Robbery Probed

Sheriff's detectives today were investigating an attempted robbery Tuesday night in which a Longwood man was struck on the head by a tire iron wielding man wearing a ski mask.

Miller L. Sylar, 20, told deputies he was on duty at the Eastern Oil Service Station, SR-436 and Lake Howell Road, Altamonte Springs, when two men wearing brown and green ski masks and armed with a tire iron and a gold-colored automatic pistol confronted him in the station office and forced him to call attendant Kevin Kierstead, 20, to the office.

Kierstead told deputies that he started into the office, saw the bandits and ran down SR-436 and called Altamonte Police.

Sylar said one of the masked men then struck him on the head, knocking him to the floor. "You're lucky," Sylar quoted the bandits as saying before they fled on foot toward Lake Howell Road without the gas station's receipts.

Other Reports

In other reports, Althea A. Hutchinson, 9505 Bear Lake Circle, reported burglars made off with $1,000 in old coins and currency after forcing a door to enter her residence.

Thomas A. Binford, 115 Marcy Blvd., Longwood, told deputies that someone stole a $451 state of Florida check from his mailbox at his residence. Binford said the check had been endorsed for deposit only and was being mailed to a Maitland bank, deputies reported.

Sanford police today were investigating a burglary at the 1305 Olive Ave. residence of Anthony Brown. Brown reported $150 in coins, mostly Kennedy half dollars, was missing. Officers said the money was reportedly contained in a large clown bank that was also reported missing.

'On Drugs' When He Confessed

Robbery Suspect Not Guilty

By BOB LLOYD
Herald Staff Writer

A circuit court jury today freed a 23-year-old admitted heroin user who claimed he was on drugs when he confessed to the robbery of a Sanford man.

Alonza Teague, 23, 1108 W. 10th St., Sanford, shouted "Praise God," as the verdict of innocent of robbery was read and Circuit Judge Joe A. Cowart Jr. warned the hand-clapping defendant that he'd be held in contempt if he disrupted the court again.

Teague confessed under oath to police and Assistant State Atty. Claude Van Hook — and later in a handwritten statement to police — that he and a Sanford school teacher committed the robbery and used their share of money taken to buy heroin and "shot up" at an apartment after police arrested a third man in the case, according to testimony.

Sanford police Sgt. Bill Bernosky told the five man, one woman jury Tuesday that Teague "was in tears" as he voluntarily confessed Sept. 3 to the July 30 strongarm robbery of Lou Dritz at 110 Holly Ave., Sanford.

Bernosky said the confession was a "surprise". He said Teague "just came out with it" while a sworn statement was being taken before an official court reporter in the office of Assistant State Atty. Claude Van Hook, prosecutor in the trial.

Bernosky said Teague said he and Sylvester Denmark robbed Dritz at Kessler's Junk Yard after going there on the pretense of looking for hubcaps.

In the confession Teague said that Denmark grabbed Dritz, took his wallet and threw him to the ground and they ran to a waiting car and left the area with James Tucker Jr.

Denmark, a Lakeview Middle School vocational teacher who has been suspended pending a trial next week in the robbery case, got $45 of the robbery loot, Tucker got $15 and he (Teague) got $35, according to the confession related by Bernosky.

Tucker was arrested by police as a suspect in the case and Teague said he and Denmark bought heroin with their part of the robbery proceeds and "shot up" at another's man's apartment, Bernosky quoted Teague as confessing.

Tucker, 29, had been charged with robbery but Circuit Court Judge Joe A. Cowart Jr. dismissed the charge and case the week of Aug. 25.

A transcript of the confession wasn't introduced as evidence in the case and the jury was out of the courtroom Tuesday during a suppression hearing in which Teague testified under oath that he was "high on heroin" when he went to Van Hook's office and confessed the robbery.

Teague said he'd been questioned earlier by Bernosky and that the officer gave him $20 to get some "street talk" about Denmark. Teague said he used the $20 to buy drugs and got high with another man, Leonard Sutton, before calling Bernosky to pick him up at a bar on W. 13th St. and take him to the State Attorney's office.

Bernosky denied giving Teague any money or that he was a paid informant. "I don't give money to people," Bernosky said.

The jury did hear defense testimony from Julia May Lewis, who said Teague was the father of her small child and "we live together sometimes," that Teague was high on heroin and vodka when Bernosky picked him up at the bar and he confessed before Bernosky and Van Hook.

Sutton took the stand to verify that both he and Teague were high on heroin at the time. But Sutton told the jury that "you tell the truth when you're high on heroin."

Dritz, his wife and another man who witnessed the robbery were unable to positively identify Teague as one of the men who ribbed Dritz at the junkyard.

Zoning Request Denied

The Seminole County Commission rejected County Attorney Tom Freeman's advice Tuesday and refused to rehear a two-year old zoning request from a real estate firm.

By a 3-2 decision, the commission rejected an appeal by the real estate firm of Carrigan and Boland for lot size variances on property near Oviedo.

Commissioners felt that a rehearing of the issue would have detracted from their legislative powers and turned power over to the judiciary, specifically to Circuit Judge Dominick Salfi.

Freeman has recommended appointment of a special master to comply with an order from Salfi to rule out testimony in the rezoning request which could be deemed irrelevant and immaterial. Freeman's special master was to decide which material was proper for presentation to the commission.

The commission by a 3-2 consensus earlier Tuesday voted to send the issue back to the circuit court. The same 3-2 decision was in evidence at Tuesday night's public hearing.

Commissioners Sid Vihlen Jr., and John Kimbrough voted against.

But Commissioner Mike Hattaway and Harry Kwiatkowski were adamant that the public be heard and that the commission not turn over any power to the judicial branch of government.

Though citizens asked to speak at Tuesday night's session, Freeman advised against it while the issue was being discussed.

SURPRISE
Chevrolet

Our Vega Dura-Built 140 engine is guaranteed for more miles than VW, Toyota and Datsun combined.

VW: 24,000 miles/Toyota: 12,500 miles/Datsun: 12,000 miles

Vega 140: 60,000 miles.

Get out your pocket calculator and punch in the figures. The engine warranties of three leading foreign cars, all added together, don't equal that of Chevy Vega's Dura-Built 140 engine guarantee.

The Chevrolet guarantee covers 60,000 miles, or 5 years, whichever occurs first. The guarantee is for 1976 Vegas equipped with 4-cylinder, Dura-Built 140-cubic-inch engines. It means that should something go wrong with the engine, your Chevy dealer will fix it free. The guarantee covers repairs to the cylinder block, cylinder head, all internal engine parts, intake and exhaust manifolds, and water pump, made necessary because of defects in material or workmanship. It does not cover repairs required because of accident, misuse or lack of proper maintenance.

This 5-year/60,000-mile engine guarantee is an added value feature included in your 1976 Vega.

See your Chevy dealer for complete guarantee statement. And see him about his pleasantly surprising Vega prices, too. It's a one-two punch that's changing the minds of a lot of small car buyers about foreign cars.

Don't buy any small car until you've seen your Chevy dealer.

Natural Gas Price Decontrol Urgent

Energy Administrator Frank Zarb is saying it would take an act of God to prevent a severe shortage of natural gas in some parts of the United States of America this winter. The divine intervention he has in mind would be exceptionally mild weather. Barring that, the outlook is for a shortage of 1.3 trillion cubic feet of gas — about 30 per cent greater than the shortages which have caused temporary industrial shutdowns in the last three winters.

Even the U.S. Congress, which at times seems to consider itself omnipotent, cannot legislate this problem away. The emergency legislation being pushed by senators and representatives from the states most threatened by the shortage promises to ease its effects but is anything but a solution.

Under this bill, utilities and pipeline companies which provide these states with natural gas could bid for surplus supplies from states where gas is produced and where there is no shortage in prospect. The trouble is, the surplus in these states is likely to total no more than 200 billion cubic feet this winter — about one-sixth of the amount the other states might need.

Neither Congress nor any federal agency can create instant gas wells, which is all that would avert the impending shortfall in production. What the government has done, however, is create the conditions — through regulation of the gas industry and control of its prices — which resulted in the gap in available supplies.

Natural gas is selling for an average of $1.25 per thousand cubic feet in Texas, Louisiana, Oklahoma and other gas producing states. The same gas is sold for 52 cents per thousand cubic feet when it goes through interstate pipelines to other states and is subject to federal price controls. With the regulated price so far below what it would be if it were based on costs of production and the market demand, it is no wonder that development of new gas fields has been going down as steadily as consumption has been going up.

The case for deregulation of interstate gas prices is clear. But so is the case for decontrol of domestic petroleum prices, and Congress is insisting on a longterm phaseout of those controls to protect consumers from sudden increases in the price of gasoline and fuel oil. The present attitude in Congress is to go on "protecting" the public from natural gas prices that would spur new production.

As warnings were voiced on the Senate floor that gas shortages could throw 500,000 people out of work this winter, senators voted 50 to 45 to attach a long-term phaseout of gas price controls to the emergency bill. At least some members of Congress are awakening to the fact that the government is gambling with the livelihood of Americans by trying to keep fuel bills artificially low.

Light One Candle...

The selection of Soviet physicist Andrei Sakharov to receive the Nobel Peace Prize reemphasizes the point which the Nobel committee tried to make when it awarded the 1970 prize to another Russian dissenter, Alexander Solzhenitsyn. In the words of Mr. Saknarov's citation, his conduct "has emphasized that the inviolable rights of man can serve as the only sure foundation for a genuine and long-lasting system of international cooperation." That, too, was the basis for the Solzhenitsyn prize.

We wish there were more evidence that the defiance of Soviet authority by these two Russian intellectuals were actually moving the world closer to peace. The worldwide attention which the Peace Prize brought to Mr. Solzhenitsyn did not lead the Soviet Communists to ease up on their repressive policies. They simply got rid of Mr. Solzhenitsyn, sending him into exile.

Mr. Sakharov lost his job in the Soviet nuclear program as a result of his political activity.

The Nobel committee praises Mr. Sakharov for standing up for the principles of the U.N. Declaration on the Rights of Man and for the kind of changes in Soviet policy which were implied at the Helsinki conference on European security last summer. His courage deserves recognition. Unfortunately, the rights of man must gain recognition by the Kremlin if hi risk and sacrifice is to further the cause of peace.

BERRY'S WORLD

"I thought, Ms. Brown, that you were different — but you're just like all the others!"

Around The Clock

As the night of the ghouls and goblins rapidly approaches, we continue to hit upon the theme of making this Halloween one of the safest ever.

Therefore, we highly recommend a project undertaken by the South Seminole Jaycees, in cooperation with the Altamonte Mall Merchants' Association.

The project is Igor's Haunted House, which has been placed in the Altamonte Mall across from York Steak House.

There are 13 'scary areas' in the haunted house that has been set up to provide a place where parents and children alike can capture all the fun of Halloween in one, safe location.

Included among the items to be found in the haunted house are:

— A spectacular electronic Frankenstein's Laboratory.

— An eerie graveyard suitable for the discerning ghoul and creepy thing.

— A frozen meat locker for the storing of...

— A baffling table that is adorned with a talking, body-less head.

— A torture chamber filled with the finest fiends and their 'guests.'

— A special room where anything can happen to all who might venture in.

— A highly-trained staff of resident crawlies, ghouls, assorted ghosts and goblins and a sprinkling of unmentionables to delight and frighten the customers.

The project will be open to the public Thursday, Friday and Saturday of this week. Hours are from 6:30 p.m. to 10:30 p.m. on Thursday and Friday with Saturday's established hours from 5 p.m. to 10:30 p.m.

The South Seminole Jaycees adopted the haunted house as a community project when disturbances, vandalism and adulterated foods and candy were reported to authorities.

The Altamonte Mall Merchants' Association will have free candy and surprises during the open hours of Igor's Haunted House and the public is cordially invited.

We salute the South Seminole Jaycees for their thoughtfulness and hope everyone will avail themselves of this worthy project.

In case you haven't heard it yet, let us be the first to inform you of a Great American Air Show which is coming to the DeLand Municipal Airport on Saturday and Sunday, Dec. 6-7.

This giant air show, featuring some of the world's finest aerial spectaculars, also features pre-World War II biplanes, the world's finest pilots and television's Sky King — Kirby Grant.

Spectators will see two hours of non-stop solos, duos, comedy, wing-riding, parachute jumping, aerial dog fights, a plane cutting a ribbon in two while flying upside down just 15 feet above the ground and the first attempt ever to fly duo aerobatics with both planes tied together.

Tickets to the air show are now available at Streep's, Colonial Plaza and Altamonte Mall Ticket Agencies and at the DeLand Airport and Four Seasons condominiums in DeLand.

Advance tickets for children are $1 and adult ducats $2. Tickets purchased at the gate will be increased in price by 50 cents, with proceeds to benefit Kirby Grant's Youth Ranches of America.

Pre-show activities get under way at 1:30 p.m. each day with the aerial spectacular set to start promptly at 2 p.m.

Sounds well worth the price and it's for a worthy cause.

—Bill Currie

DON OAKLEY

Halloween Hoaxes Hide Dangers

It's trick or treat time again, and if the pattern of recent years is repeated, the day after Halloween we will be hearing stories of tainted candy allegedly being given unsuspecting youngsters.

In the most horrifying incident of last year — or of any year — an eight-year-old boy in Pasadena, Tex., died from eating candy laced with cyanide. Although the boy's own father was later convicted of the crime and had only used the holiday as a cover in hopes of getting away with murder (and insurance), for many parents the incident was proof that there are a lot of evil people in the world and that Halloween is a dangerous time for their children.

Because of the number of such stories — though none as bad as the one in Texas — the National Confectioners Assn. (NCA) in 1972 began a program of investigation into alleged Halloween poisonings.

That year it investigated 200 tainted-treat incidents out of 363 reported nationally and found that 76 were outright admitted hoaxes. There was not a single confirmation of any attempt by an adult to harm a child.

In 1973, there were only 67 reported incidents and of these, 26 were hoaxes or at least highly questionable and in most of the rest, police had no information other than the initial complaint and felt that further investigation would not be justified.

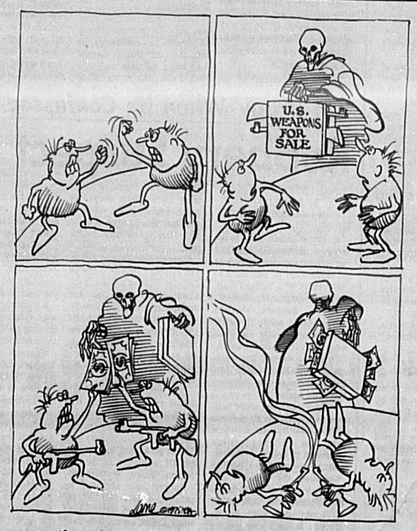
Two of the 1973 cases, however, were apparently valid. Police in Sonoma, Calif., found evidence of barbiturates in a child's candy, but no arrests were made. In Philadelphia, police reported that a pill was placed in a child's bag by an 80-year-old woman in "advanced stages of senility" who was ultimately given mental health supervision.

For Halloween of 1974, the NCA sent questionnaires directly to police departments across the country and 114 departments responded. Of these, 58 reported no incidents of any kind. The remaining 56 departments reported a total of 90 incidents, of which 27 were proved to be hoaxes; 22 were considered questionable and could not be factually supported, and in 40 instances there was no information other than the initial complaint and further investigation was not considered justified.

Significantly, survey forms returned by police included such comments as: "The kids do it to get attention, but we couldn't get any of them to admit it."

Just as skyjacking stories appear to breed more skyjacking, the NCA feels that Halloween hoax stories breed more hoaxes. And although follow-up media coverage often explains the true nature of Halloween hoaxes, it rarely has the same impact as the original, sensational news item.

To be on the safe side, however, and to keep Halloween the happy occasion it is supposed to be, parents are encouraged to accompany their children, to confine trick or treat visits to the immediate neighborhood and to permit their children to accept only wrapped or sealed candy or other treats.



If we don't sell to them, somebody else will.

TOM TIEDE

Collectors' Tactics Get A Close Look

As millions of other Americans have at one time or another, Darz Sue Godowsky of Virginia Beach, Va., fell behind in her debt payments last spring. It wasn't her fault, technically, her husband having suddenly died and her income thus interrupted by wholly understandable circumstances. Still, creditors assigned a debt collector to set the woman right.

Though Mrs. Godowsky is crippled by polio, and her emotional condition aggravated by the death of her husband, the collector hounded her without mercy, harassing her with phone calls and abusive visits at early morning hours.

Finally, the collector, acting under no authority but his own, confiscated Mrs. Godowsky's automobile, a vehicle specially fitted for her handicap, and at the time of repossession, had her crutches in the back seat. Ignoring pleas, the collector refused even to return the crutches.

As it happened, a lawyer intervened to protect Mrs. Godowsky from further outrages, but according to an investigation by Rep. Frank Annunzio (D-Ill.) thousands of other people from coast to coast remain almost defenseless from similar abuses. The methodology of some of America's debt collection agencies, he says, is "horrendous." Collectors have posed as FBI agents, have used false and threatening documents and have even gone so far as to blacken the image of the debtor with calls to employers and neighbors.

Annunzio makes it clear that he feels debt collecting is necessary, and in fact usually done for the common good. Unpaid debts affect all consumers, the defaults of a few invariably being made up by escalating prices for everyone. Nor does he condemn excessive collection tactics with a broad brush, saying rather that the immorality is the fault of a minority of collectors. Yet the problem is genuine enough, he says, to approach terror for some sad victims.

One family has told Annunzio that a "storm trooper" collector threatened seizure of their home. A twice-married Vietnam veteran has complained of being cruelly, albeit falsely, dunned for debts compiled by his ex-wife. In another case, a woman says her husband was so brutalized by a collector it aggravated his heart condition, hospitalized him, eventually closed his business and rendered the couple "helpless now to do anything about any of our bills."

Apparently even violence has been threatened by some collectors. A spokesman for Annunzio's Consumer Affairs Subcommittee says: "We've had numerous complaints where people have been warned of physical harm if they didn't pay up. In one case the collector told the debtor that he might turn up one morning floating face down in a river."

Most of the collecting abuses, Annunzio knows, are already contrary to long existing laws, it being a decided crime, for example, to threaten to shove somebody into a river. Yet as a means of focusing law enforcement attention, Annunzio has introduced legislation that clearly spells out excessive collection techniques.

Letters To The Editor

Question Of Safety

While waiting to appear before the county commission on another matter, I had an opportunity to listen to the commissioners consider the question of a sidewalk to serve the pupils of Eastbrook Elementary School in south Seminole County.

I was somewhat surprised to hear a couple of the commissioners reiterate to a parent's representative in the audience that this was really not a county commission problem but a school board problem.

I don't agree at all.

First of all, the safety of our children — in this and other instances — is everybody's problem.

Secondly, the school board certainly is not directly responsible for paving roads and sidewalks to provide access to pupils. Can you imagine what the county commission or another governing body such as a city commission would do if the school board started constructing sidewalks, bike paths and streets on county or city right-of-ways without authorization?

Finally, all the money comes from the same source anyway. It's the taxpayer who foots the bill.

The primary question is not who is or who is not responsible. The safety of our children is paramount. It's a responsibility no governmental official, elected or otherwise, can shirk as long as they have jurisdiction. The safety of our children going to and from school should not be subject to a debate about responsibility.

Julian Stenstrom
City Commissioner,
Sanford

Leave Railroad Alone

As a life-long resident of Seminole County born in the community of Lake Monroe and a man who has worked for the railroad for nearly 31 years, I would like to ask the county commission to stop harassing the Seaboard Coast Line about blocking the crossing at SR 46.

The railroad was there before the road was built and at the time it was built, officials should have seen far enough ahead to have built an overpass over the railroad. Our county commission has already caused some jobs to be moved from Sanford and will cause more to be moved if they don't stop harassing the railroad.

How inconsistent can you get? They want to put a speed limit on the trains, yet don't want a crossing blocked more than five minutes.

I will guarantee our commissioners one thing for sure: when they want votes at election time they won't get the first railroad man's vote. The vote is the one weapon we have to use on them and all railroad people vote. We don't miss elections.

Claude S. Hawkins
Chairman, Lodge 458
Brotherhood of Railway Carmen
Sanford

JACK ANDERSON

Warren Commission Suspected Coverup

In earlier columns, we reported that the FBI defied a Warren Commission resolution and held back internal documents about the John F. Kennedy assassination.

The commission, according to its own internal memos, suspected this from the beginning.

Early in 1964, for example, the commission obtained from the Justice Department two FBI memos that could not be found in the commission's files. Staff attorney Charles Shaffer, who later was to gain national prominence as John Dean's Watergate lawyer, declared in a confidential memo:

"I am morally certain that neither of (the memos) have been transmitted to (general counsel J. Lee) Rankin as they properly should have been. Accordingly, I am disturbed that the Bureau is conducting (an) investigation and not furnishing us with the results.

"Knowing the Bureau as we do, I suggest the matter be informally discussed with their representative in contact with the Commission. In this way, the matter can be corrected with the least amount of friction."

Rankin replied in a handwritten scrawl that he had "noted and talked" with the FBI liaison man about the missing documents on Jan. 14, 1964. Nonetheless, hundreds of internal memos were withheld from the commission.

The commission attorneys also suspected — correctly, it now turns out — that the FBI wasn't leveling with them about its contacts with the accused assassin, Lee Harvey Oswald.

One of them, Norman Redlich, now dean of the New York University Law School, discovered a startling omission in an FBI summary of the contents of Oswald's notebook. The FBI neglected to mention that one of its agents, James Hosty, was listed in the notebook.

This also disturbed another staff attorney, Howard Willens, who wrote Rankin in the strictest confidence on Feb. 13, 1964: "I share everyone's concern that this is a matter of great importance." He urged Rankin to demand a "full explanation" from the FBI.

A week later, Rankin wrote sternly to the late FBI director J. Edgar Hoover: "The Commission would like to be informed of the circumstances surrounding this omission," including the names of those who ordered it.

An outraged Hoover fired back the astonishing explanation that Hosty's name was omitted because it wasn't needed by the commission as an investigative lead."

Added Hoover crisply, if not correctly: "This Bureau from the beginning of this investigation has developed and reported all available and relevant facts and it will continue to do so."

Meanwhile, Dallas County's big, shaggy district attorney, Henry Wade, reported to the Warren Commission that he had heard Oswald was an FBI informant.

Inside FBI headquarters, Hoover exploded with rage. He scribbled some sizzling comments about Wade, a former FBI undercover agent, in the margins of memos which were never shown to the commission.

What he sent to the commission was a sworn, detailed affidavit denying that Oswald had ever been an FBI informant. But this didn't satisy one staff attorney, Leon D. Hubert Jr., who pointed out in a confidential memo:

"Mr. Hoover's affidavit . . . covers his knowledge, but it can only do that. What about an affidavit of the head of the security division at headquarters, FBI, Washington? He should know who is or who is not an informant . . .

"It should be noted that payment in money is not the only way to engage an informant. I do not think there is any chicanery here; but for the sake of a perfect record, refuting the rumor, I make these comments."

Rankin tried to bring the conflict with Hoover to a head, as gently as possible, on March 26, 1964. Rankin praised the FBI chief for being "most cooperative," and then hit him with 30 blockbuster questions.

"What was the FBI evaluation of Oswald? . . . Why did the FBI make three attempts within eight days (Oct. 29 to Nov. 5, 1963) to locate Oswald? . . . Were any further efforts made between Nov. 5 and Nov. 22 to locate Oswald, and if not, why not?"

Like bombs hitting around a target, the questions almost exploded the secrets that the FBI has buried for 12 years. But Hoover, if he knew that Oswald had delivered a threatening note to the FBI office in Dallas less than a week before assassinating President Kennedy, didn't reveal it to the Warren Commission.

"At the outset," wrote Hoover, "I wish to emphasize that the facts available to the FBI concerning Lee Harvey Oswald prior to the assassination did not indicate in any way that he was or would be a threat to President Kennedy . .

"In the absence of any information showing Oswald to be a possible threat to the President, there was no basis to inform the Secret Service concerning Oswald's presence or employment in Dallas."

We have had access at least to some of the material that the FBI suppressed. We have found nothing that would change the official verdict that Oswald, acting alone, gunned down President Kennedy.

The purpose of the coverup, apparently, was to spare the FBI any embarrassment.

WORLD IN BRIEF

Struggling Franco Rallies, Prince's Succession Prepared

MADRID, Spain (AP) — Generalissimo Francisco Franco rallied again today but continued in grave condition, his doctors reported as government leaders prepared for an orderly transfer of his powers to Prince Juan Carlos de Borbon.

The doctors announced late Tuesday that the 82-year-old dictator's condition had deteriorated sharply and was "extraordinarily grave." But a medical bulletin at 7:30 a.m. reported he was again "lucid," internal hemorrhaging was responding slowly to "intense and constant treatment" and the condition of his failing heart was "stabilized."

The bulletin said intestinal paralysis which developed Tuesday was beginning to disappear although the dropsy which accompanied it persisted.

Beirut Street Fighting Rages

BEIRUT, Lebanon (AP) — Street fighting raged around Beirut's major tourist hotels today, and more than 100 foreigners and Lebanese were reported trapped in them.

An Arab military commentator for the newspaper An Nahar said more rockets, mortars and machine-gun bullets had been fired in Beirut since Tuesday morning than during the entire seven-month period since the Christian-Moslem civil war began last April.

Israelis Kill Two Guerrillas

TEL AVIV, Israel (AP) — Israeli soldiers killed two Arab guerrillas and captured five others in a brief gunfight on the Israeli-Syrian front Tuesday, the Israeli military command announced today.

No Israeli casualties were reported.

The guerrillas slipped across the narrow United Nations buffer zone on the Golan Heights at a point where only a few hundred yards separate the barbed wire fences marking the Israeli and Syrian front lines, a military spokesman said.

Sadat Wants Talks Resumed

WASHINGTON (AP) — Egyptian President Anwar Sadat says the Geneva talks on the Middle East should be resumed and that the United States should relax its opposition to a Palestinian Liberation Organization role in those talks.

Sadat, scheduled to fly to New York City to address the United Nations today, said the Ford administration should accept the PLO as "an equal partner" in the Geneva conference and called on the United States to "start the dialogue" toward that end.

CALENDAR

OCT. 29
Career Education Program (college night) hosted by Lake Brantley High School, Forest City, 7:30 p.m. Open to high school students and parents.

Starlight Promenaders Square Dance Club of DeBary Halloween Ragamuffin Dance, 8 p.m., DeBary Civic Center on Shell Road. Costumes optional, prizes and refreshments.

OCT. 27-29
GED test leading to high school equivalency diploma, Seminole Community College.

OCT. 30
Scout European Trip meeting, 7:30 p.m. First Presbyterian Church, Fourth and Park. Anyone between ages of 15-24 interested in going to Germany next summer may attend. You do not have to be a Scout.

Tuesday's high 85. Overnight low 64. Rainfall was 3.50 inches.

Considerable cloudiness through Thursday with scattered thundershowers likely. Highs in the low to mid 80s. Lows near 70. Mostly easterly winds 10 to 15 mph, gusty near thundershowers. Rain probability 30 to 40 per cent through Thursday.

EXTENDED FORECAST

Chance of showers and thundershowers, mostly in the north. Lows from near 60 north to the 70s in the south. Highs in the upper 70s in the north, mostly in the 80s elsewhere.

Daytona Beach tides: high 3:20 a.m., 3:47 p.m.; low 9:30 a.m., 9:58 p.m. Port Canaveral: high 3:11 a.m., 3:34 p.m.; low 9:35 a.m., 9:52 p.m.

Urges School Board To Correct Situation

Longwood Rejects Sidewalk Proposal

By DONNA ESTES
Herald Staff Writer

LONGWOOD — City council has again turned down a suggestion from the district school board that the city provide safe walkways for students of the proposed Rock Lake School Middle School, Woodlands Elementary, Lyman High School and Milwee Middle School.

The council, Monday night, instructed Mayor James R. Lormann to notify the school board that the city recognizes the hazards children must face while walking on highways to the schools and urges the School Board to take measures to correct the situation.

Lormann's letter to the board is also to suggest that the board discuss with the county commission the financial problems of providing walkways.

Several weeks ago Councilman Gerard Connell urged that the city use part of the $70,000 to $80,000 which the state said would be received by the city over and above funds budgeted from state revenue sharing for safe walkways all over the city for the school children.

He noted in particular walkways should be constructed on the right of way of SR 427 for Lyman and Milwee students, on E.E. Williamson Road for Woodlands students and in other areas needed for students of the planned Rock Lake School.

Connell's colleagues turned down the recommendation.

Councilman H.A. Scott said Monday night, however, that arrangements are proceeding for sidewalk construction along SR 427 to the Lyman School.

In other business, council:

— Accepted the $2,691.25 low bid of Armco Steel Corp. for pipe.

— Authorized Public Safety Director Doug Keller to designate where traffic signs will be placed in the city and to set speed limits.

Connell requested that Keller investigate the need to place a stop sign at Dancy and Temple Streets in Longwood Groves and three-way stop signs at Devonshire and Chelsea in Devonshire.

— Designated Council Chairman J.R. Grant to work with the Chamber of Commerce on the city's annual Children's Christmas party. The party is to be held Saturday, Dec. 20, at the city park.

— Set a special meeting for 6:30 p.m., Nov. 7, to interview applicants for the $10,000 annually salaried city planner post to be funded from the federally-sponsored Comprehensive Employment and Training Act (CETA) program.

— Approved findings of fact wherein the monthly sewer charge of $4.50 was authorized increased to $7.50 to customers of Longwood Utilities Inc., sewer system. Those households affected are located in Longwood Groves, Shadow Hill, Sandalwood and Highland Hill.

Connell voted against the "findings of fact," calling the increase "exhorbitant."

— Authorized Connell to look into a report that a new Shadow Hill resident, who refused to post the required water deposit, broke the lock off a water meter and turned on water at his residence in violation of city law.

Council indicated it will require the resident to pay all costs of repairing the meter or of installing a new one.

A One-Year Experiment

McGrady's Switch Roles; She Works, He Cooks, Cleans

NEW YORK (AP) — Dressed in a frilly white apron, scouring pad in hand, the dishwasher manages a brave little smile across the array of shiny pots and pans.

Mike McGrady's picture graces the cover of his book, "The Kitchen Sink Papers: My Life as a Househusband," a poignant, funny account of the year that he and his wife switched roles.

Corrine McGrady went out into the world to become the family wage earner. Mike stayed home to care for three children and tend the household chores.

He was 40 years old, a successful author (he masterminded the X-rated spoof, "Naked Came the Stranger") and a newspaper columnist earning $35,000 a year. But McGrady quit it all for chauffeuring the children, aged 15, 13 and 11 to dentist appointments, rushing home in time to make dinner, vacuuming and ironing.

"I wanted desperately to stop doing the same thing every day of my life," said McGrady, a boyish, witty charmer.

"And I had always said that what I really needed was a wife," said the woman behind the man.

Corrine McGrady was already a businesswoman before the switch. She has been juggling her housewife duties with commitments to her spare time career as a jewelry and graphics designer and manufacturer of such plastic classics as a cook book stand and a salad bowl.

"I was going crazy from all the responsibilities but I managed," said Corrine, 37, a tiny dynamo with black hair piled on top of her head. "But I always had this vision of my tot being a housewife. I hated the deadness of being confined. I wanted another slice of life. I wanted to be self-sufficient. Money is power, and I wanted my own."

Then that mid-life restlessness hit Mike. Corrine's business was bringing in about $10, 000, and she encouraged the switch. She had no doubts about her ability to expand the business and provide for the family. And she was confident of her husband's talent at wielding egg beater and broom.

> **"To men, it was the sacrifice of a precious birthright. To women, it was insanity. At parties, women loved me for about eight minutes and then thought about the ramifications — that their job was so easy and so dumb, any guy could do it."**
>
> — Mike McGrady

Their friends could not take the role change seriously. Mike was repeatedly asked what he was really doing that year.

"To men, it was the sacrifice of a precious birthright. To women, it was insanity," said Mike. "At parties, women loved me for about 8 minutes and then thought about the ramifications — that their job was so easy and so dumb, any guy could do it."

"In the beginning, I felt very lost and threatened," said Corrine. "I felt outside the framework of my friends. I didn't belong anymore. I was a heroine of sorts but their envy was combined with hostility."

Mike got a contract to do the book after he quit. He kept a diary of his troubles:

The provider coming home late without calling resulting in a ruined dinner. Mike sneaking off to the local bar for solace where he invariably ended up giving out recipes for steak Diane and mayonnaise. Mike feeling pangs of jealousy as Corrine casually recounts luxurious lunches at chic restaurants. Familiar family exchanges with a twist — "Your mother will speak to you about that when she comes home tonight ... You never take me out anymore, Corrine ..."

Mike was a gourmet chef, producing such exotic dishes as Oysters Rockefeller, but he never did get the hang of housecleaning.

"I expected to come home to a well-ordered house. But it was in utter chaos most of the time," Corrine said. "I just couldn't kick off my shoes and forget about it because deep in my heart I still had that sense of responsibility about the house."

So Wednesday nights while Mike left for his basketball night off, Corrine tidied up. The experiment almost collapsed there.

"I felt he had not kept up his end of the bargain. I felt he didn't want to do it," Corrine said. "And then suddenly I realized no one would ever want to do it. He had never been conditioned to think that a spotless home was necessarily a good thing."

She was plagued with guilt when Mike slipped into occasional depressions about the monotony of his life.

But they survived.

Corrine found the children respected her more. "Before I was just a housewife, a secondclass citizen. Now they're very proud of me and it's wonderful to be respected for the right reason: what I can do as a human being."

"The marriage is better than ever. We don't con each other," said Mike. "It's much harder to role play. I don't have to be the strong, silent provider."

"I don't have to be Mother Earth, and I will never take housekeeping seriously again. I will become a slob," said Corrine.

Amish On Road For Christ

HARTLAND, Maine (AP) — Three years ago, when Roland Church set out in a horsedrawn covered wagon with his wife and two small children, he thought he would never finish his mission.

Recent converts to the Amish faith, the Churches traveled through 48 states preaching the gospel, seeking followers to a way of life which espouses simplicity and sobriety as the only way to heaven.

After three years on the road, the Churches won only a small following. They were joined by David Byler, his wife, Katie, and their 12 children — all Amish by birth. A third man joined them, but dropped out after a few months.

"There're not many people who are ready to live a life for Christ," said Connie Church, a 28-year-old native of Caribou, Me.

Last June, the two families founded a settlement here on land loaned to them by Lewis Elliot, an old friend of Church. They live several miles outside of town, on top of a hill, at the end of a two-mile-long dirt road.

The men, dressed in floor-length light blue robes, and the women, in long light blue or dark brown smocks, their heads covered by black scarves, have become familiar sights to residents of Hartland.

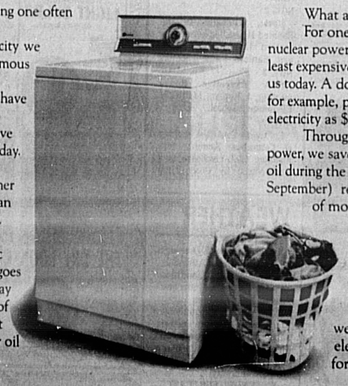
Next time you do a load of wash, think about how much oil you're using.



We admit, it's not something one often thinks about. But we do.

Because most of the electricity we generate depends on oil. An enormous amount of oil. And we have to buy that oil at market prices that have tripled since 1972.

Fact is, our fuel oil costs have soared to over a million dollars a day. Fuel comprises 59% of our total operating costs. Or to put it another way, our '74 fuel bill was more than three times our entire net income.

That's why there's a fuel adjustment charge on your electric bill. Your fuel adjustment charge goes to help pay that million dollar a day fuel bill. We don't keep one cent of that money. And frankly, we don't like paying that kind of money for oil any more than you do.

What are we doing about it?

For one thing, we're building more nuclear power plants. Nuclear power is the least expensive source of energy available to us today. A dollar's worth of nuclear fuel, for example, produces the same amount of electricity as $12 worth of oil.

Through the use of nuclear generated power, we saved nearly 14 million barrels of oil during the past 12 months (ending in September) representing a fuel cost savings of more than $161 million.

We're also exploring exotic energy alternatives for the future. Such as solar energy. Tidal energy. And synthetic fuels.

In short, we're doing all we can to keep the costs of your electric bill down. For now. And for the years ahead.

Commission Passes Ordinance; 2 Opposed

Executive Aide Now Official County Job By 3-2 Vote

By ED PRICKETT
Herald Staff Writer

The "rose" grew into a full-fledged executive assistant Tuesday with county commission approval of an ordinance creating the $18,000 to $25,000 position over opposition from a few citizens and two commissioners.

"It's time to establish the position of executive assistant — otherwise known as the 'rose'," Commission Chairman Sid Vihlen Jr. remarked as the meeting got underway.

Both Commissioners Dick Williams and John Kimbrough argued against passage of the ordinance as it's worded.

"He (the assistant) could be hired to look after tissue paper or he could be given complete control over county government," Kimbrough said after a motion to approve the ordinance was made by Commissioner Harry Kwiatkowski and seconded by Mike Hattaway.

Kimbrough also objected to the "cumulative power" such a person could garner by staying in office while commissioners come and go at the whim of the voters.

A few citizens, including Mrs. June Cameron, also spoke in opposition. She pointed out a commissioner earns $15,062 yearly. Mrs. Cameron said at that salary a commissioner should either do the job or "resign and let somebody else take the job."

Mrs. Cameron asked commissioners two questions: "Are you competent and can you devote full time to service?"

"I think that's a loaded question," Vihlen answered. But Williams told Mrs. Cameron the answer was "yes" to both questions. Williams said, however, that he opposed the ordinance for different reasons.

"It won't solve our problems," Williams said. According to the commissioner, the county needs to develop a set of goals and objectives, but he said the commission — and not an executive assistant — is charged with that responsibility. He said hiring the assistant before developing those goals is a "serious mistake."

Kimbrough said the ordinance was "vague and ambigious" and should spell out the power allotted the assistant and pay him accordingly. He objected to paying $25,000 yearly to anyone who doesn't have executive lvel power and authority.

Asked after the meeting for a statement Vihlen said he felt "bullish."

The reason, Vihlen said, is that the size of the county mandates hiring of a county manager type. He said each commissioner is responsible for more than 30,000 people.

E.H. "Woody" Underwood, the county's management consultant, said creation of the position "rounds out" an efficiency study prepared for implementation in Seminole County.

It was Underwood who came up with the title executive assistant after commissioners called the position the "rose" because of disagreement over the title.

25 Enter Air Race

Some 25 entries have registered to enter the Nov. 7 Deltona Derby — a two-day, air, land and sea obstacle race by female pilots. A Sanford stop is included.

Gene Eiselein, marketing director of Aero Services Inc., at Sanford Airport, said tomorrow is the entry deadline. As to the number of entries allowed, Eiselein said "the sky's the limit."

Individual flight kits will be provided for the women aviators making the "cross country" flight from St. Augustine to Naples, said Eiselein.

Mrs. Jean Birks, with Air Sanlando, in Sanford, is the timer, and the chief scorer is Beth Landers, Maitland, he said. Mrs. Bonnie E. Quenzler, Merritt Island is the race chairman.

The Derby is sponsored by the Deltona Corporation.

Sewer Contract Dispute Unsettled Until Job Is Finished

By DONNA ESTES
Herald Staff Writer

ALTAMONTE SPRINGS — A dispute between the city and Associated Contractors and Builders, the firm which contracted for construction and installations in the Northside sewer system, over money owed will remain unsettled until work is completed, city commissioners decided Tuesday night.

City Attorney Joe Davis was instructed to notify the firm's bonding company that the city will make no further payments to the firm and will invoke the $100 per day penalty until all physical work on the project is completed.

Davis reported to the commission that the firm is insisting it is owed $108,000 for contracted work plus another $40,000 for change-orders.

Davis said city consulting engineer Bill Palm of Glace and Radcliffe, however, has reported the city owes $89,688.56 for work including $14,245 for change-orders.

Palm said the city has already paid Associated $1,158,-301.22, which has been verified by city records, and was due in total $1,247,989.78 including the extras, leaving a balance owed of $89,688.56.

The engineer advised the city to pay no more than $50,000 of the $89,688.56 at this time since a $16,230 generator is yet to be purchased and installed.

Floyd, recommending the city pay no additional money until all work is completed, said, "I don't think the city should pour any more money down the drain."

The city has been plagued with notices from subcontractors of the firm that money is due them by Associated for work they did in the northside district.

In other business, the commission amended before adoption an ordinance regulating taxi-cab service in the community to give existing companies doing business in the city one year to bring vehicles into compliance. The ordinance requires that taxicabs in the city be no more than five years old.

The ordinance was amended at the request of Leo J. Cote of Casselberry, who operates a business in the city.

After adoption of the ordinance, the commission agreed to permit Cote to pay a $300 renewal fee for his license rather than the $500 filing fee required under the law, because of Cote's existing business.

In other action, commissioners:

— Passed on first reading an ordinance rezoning the entrance-way on SR 434 to Northwood apartments from residential to professional office district. A public hearing was set for Nov. 18.

— Adopted on second reading after public hearings ordinances annexing lots in Dol Ray Manor abutting SR 436 with professional office zoning.

— Approved on second reading an ordinance setting requirements on commercial carriers within the city and an amendment to the zoning ordinance to permit package dry cleaning in planned industrial development.

— Approved for advertising purposes a payment of $100 to the Altamonte-Casselberry Chamber of Commerce Christmas Parade. Davis first said he wished the city would terminate donations.

He added, however, that the city can spend municipal funds for a public purpose or to promote the city.

Christmas Opening Supper Club Goal

Sanford's new supper club, to be located at the former Global Carpets site at 119 Magnolia Ave. is "shooting for a Christmas grand opening," its general manager said Wednesday.

Allan Zane, said "planning is progressing rapidly," but no name has been decided upon yet.

A revised conditional use permit to allow the establishment of the supper club in the downtown area instead of a discotheque as previously requested, was approved Monday night by the City Commission on a 3-2 vote.

The club's owner, Robert Patrick, had decided that a supper club would be a more practical operation than a discotheque. He said discotheques are popular now but they may be "just a fad."

Altamonte Police To Protect Youth

ALTAMONTE SPRINGS — Police Chief Justus East announced Tuesday night 25 units of his department will be out on the city streets on Halloween with the sole job of protecting the city's children from possible harm.

Chief East said a similar program conducted over the past two years has been successful in stopping problems seen in other parts of the nation where young trick-or-treaters have been given narcotics and other dangerous substances rather than candy and goodies.

In other matters, East said he has been informed by Victor M. Nesheim, executive vice president of Capital International Financing and Logistics Supply Co. of Orlando, that the nation of Colombia South America, has ordered some 1,200 fully equipped police cruisers identical to those used by the Altamonte Springs Police Department.

East said a delegation from Colombia inspected the city cruisers recently and decided to purchase identical cars and equipment for the Colombian National Police Force.

East took the group on a tour of the Orlando Police Department as well where they saw a troop carrier, riot gear and the heavy type vehicles needed for mountain terrain.

Police, Fire Talk Scheduled Tonight

LAKE MARY — The city council, appointed fire commissioners and directors of the city's volunteer fire department will meet at 7:30 p.m. today at city hall for a "talk session."

The meeting was scheduled to "talk out" a proposal by Councilman Harry Terry that the city's police and fire departments be combined into a department of public safety.

Fire commissioners, appointed by Mayor Walter Sorenson to act as liaison between the city and the volunteers, include Ralph Stumbo, Lloyd Gibbons, Ralph Schweickert, Wayne Sanders and Frank Herndon.

Volunteer Fire Department directors are Virgil Shivley, Margie and George Hess, Doug Gehman, Lewis (Zip) Schweickert, Kyle Woodard and Wayne Hoffman.

While councilmen have recommended Sorenson appoint Councilman Bert Perinchief head of the new department, Perinchief said he would not accept the position unless the volunteers agreed and indicated they would be willing to work with him.

Perinchief is currently commissioner of the police department. Sorenson has been acting as commissioner of the fire department since Council member Virginia Mercer asked to be relieved of the responsibility when Fire Chief Chuck Smith resigned.

Football Doesn't Come First At Oviedo, Ward Laments

By JIM HAYNES
Herald Sports Editor

OVIEDO — Oviedo High School's football team is finished "with the animals" this season, but according to the school's star quarterback the major problem in a 2-5 season has been that "football just doesn't come first at this school."

Oviedo coach Bill Klein is optimistically looking forward to the three remaining games — this Friday at West Orange, Nov. 7 at Lake Brantley and Nov. 17 at Apopka. "We're done with the animals on our schedule," he said, referring to Sanford, New Smyrna Beach, Bishop Moore and Astronaut, teams who registered wins by margins of 53-6, 39-0, 17-6 and 32-0. Klein predicts Astronaut will win the Class AAA state championship.

Lee Ward, considered by Klein the top quarterback in the area and a sound college prospect for a school with a drop-back offense, makes no bones about the fact he feels Oviedo has improved since the opening loss to Seminole.

"We are 100 per cent better," he says, "but not against an Astronaut. We stood no chance . . . no chance at all."

And it had nothing to do with desire. "There are about 20 or 25 guys walking around school and going to the game on Friday night to raise hell that should be out for football. I see 'em every day. They didn't want to pay the price — practice two and three times a day, and stuff like that.

"Nope, football just doesn't come first at this school."

Ward is a strong-armed passer who has completed 60-of-143 passes, a completion rate of 42 per cent. His yardage is only 580 and for seven TDs, but consider that it has been a tough season against some tough defensive teams.

"Lee Ward is super," says Klein. "He's definitely a college quarterback, but he has to find a school who wants a drop-back passer. Seems a lot of schools are going to the veer."

Ward admits running isn't his strong suit. "I'm lousy running, but I can throw," he says pointblank. He recently received a feeler from VMI, but wasn't turned on terrifically. "I'm not much on that military stuff," he says.

Ward is 17, stands 6-2 and weighs 185. He hasn't decided whether he will work or play basketball, but says he will not miss baseball season, when he uses his rifle arm on the pitching mound.

Gradewise, Ward has an overall 2.8, but expects it to be closer to 3.0 after the current grading period.

Ward has nothing but praise for his receivers — with Billy Merchant and Rick Evans rating as his primary targets. "They are doing a super job," he says. "And the offensive line is doing a great job now. They give me plenty of time to set up and throw."

Klein isn't as happy with the defensive line, where most of the Lions' problems have originated this fall.

"The defense just has to play very, very well," are Klein's words.

"If you see us in practice we look like a 7-0 ball club," Klein adds. "We work hard, and the attitude is good."

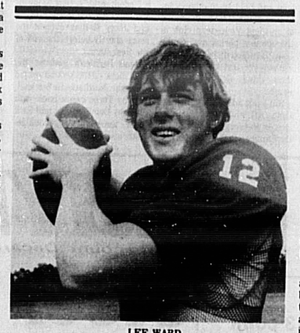
Of the final three games, Klein says "at least we'll be in 'em."

As for Ward, he is guaranteed to come out throwing.

He's in the minority at Oviedo. Simply because football does come first with him.

too long, get worn down and isn't that strong physically in the first place," Klein says. "We have trouble stopping the off tackle power play. The problem is physical."

Klein also has high praise for the two players who go both ways — Tim Meeks and Frank Procell. Meeks plays offensive guard and defensive linebacker while Procell is an end on offense and linebacker on defense. "Both have played



LEE WARD

Four Turnovers Per Game

Gator Defense In Key Role

GAINESVILLE (AP) — "When our explosive offense gets the football, it's going to put points on the board," says Florida assistant coach Doug Knotts. "So our defense is doing its job by turning the football over an average of four times a game."

Knotts, defensive coordinator, says his unit has shown improvement in every game even though it did give up two touchdowns in beating Duke 24-16 last Saturday after yielding at most one to any previous foe.

Two regulars were hurt and some reserves were getting experience after the Gators took a 21-3 lead, letting Duke complete a bundle of late passes.

"All our veterans are grading out high, and the rest are showing a lot of effort," Knotts said.

He calls junior tackle Darrell Carpenter and senior middle linebacker Sammy Green the most consistent, without a poor grade in seven games to date.

"Carpenter must hold a record for batting down passes at the line," Knotts said. "And Green is playing super football while making 14 to 18 tackles a game."

The other tackle, sophomore Scott Hutchinson, is strong and talented with "all the potential in the world."

"Now, we've really improved at end," Knotts continued. "Mike Smith is doing what we hoped he would and Joe Allen is very steady."

Both are seniors.

Outside linebackers Charlie Williams, a sophomore, and Vernon Barber, a junior, are doing a fine job, according to Knotts' rundown.

"In fact," he said, "Charlie goes so hard he needs resting, and Kevin Logan is doing real well relieving both him and Vernon."

Jimmy Ray Stephens is injured and will miss the game at Auburn this Saturday.

Florida had to replace two secondary stars this season and lost strong safety Wayne Fields when a knee was slow healing. He saw his first action as a senior last week, but sophomore Steve Blair is learning fast.

"He makes some mistakes but he makes up for them with a lot of effort," Knotts said.

Alvin Cowans, a junior, was the only returning regular in the secondary and is playing well. Senior Robby Ball and junior Henry Davis are the cornerbacks.

Ball, a quarterback as a sophomore, is what Knotts calls the leader of the foursome, "and a good one," while Davis "has a chance at greatness because he always senses where the ball is and gets there."

Davis has three interceptions and lost two others he thought he deserved; one to an interference call and the other ruled out of bounds.

Boston's Lynn Named AL Rookie Of Year

NEW YORK (AP) — From Rookie of the Year to Sophomore Jinx: it's such a familiar story. But 1975's best American League freshman, Fred Lynn of Boston, thinks he knows how to elude the jinx.

"I think the big thing I learned this season is the mental part of the game, which should really help next year," the center fielder said Tuesday after learning of his near-unanimous selection.

"One thing I want to do is take a day off once in awhile and make sure I go to a lighter bat."

Lynn came within one-half vote of becoming only the second rookie ever to win unanimous acclaim. He was named on all 24 ballots but split one vote with teammate Jim Rice.

He also has a good shot at becoming the first player ever to win Rookie of the Year and his league's Most Valuable Player awards in the same season.

"It's everything I worked for," said the 23-year-old Lynn. "I thought about the award a little during the season. As we went around the league, it was easy to figure Jim Rice was the fellow I'd have to beat in order to be selected."

Lynn follows Mike Hargrove of Texas as the AL rookie winner and is the fourth Red Sox player to win the AL rookie award since the Baseball Writers of America originated the award in 1947. First baseman Walt Dropo won it in 1950, pitcher Don Schwall took it in 1961 and catcher Carlton Fisk won it in 1972.

Fisk was the only unanimous winner but Lynn came as close as possible to matching that achievement.

The voting committee was composed of two writers from each of the league's 12 cities. They vote for one player each, but one writer split his ballot, saying he couldn't choose between the two young Red Sox.

Lynn wound up last season hitting .331, trailing only Minnesota's Rod Carew in the American League batting race. He hit 21 home runs, drove in 105 runs and led the league in slugging, runs scored and doubles.

Rice hit .309 and had 102 RBI. He and Lynn were the first rookie teammates in the AL ever to hit over .300 and drive in more than 100 runs.

Lynn credited consistency for his outstanding season.

"I'm not sure, but I don't think I ever went three games in a row without a hit this season," he said.

The National League Rookie of the Year will be announced Thursday.

Masias Outslugs Tuten

Wells Batters Baker To Earn Title Chance

By LOUIS SAPSIS
Herald Boxing Writer

ORLANDO — Mike Baker left the Orlando Sports Stadium last night with his coveted United States junior middleweight crown still on his battered head, but only because he refused to put it up for grabs when he met Orlando's Gene Wells in a 10 round main event.

But the real scene-stealer was a three round brawl between amateurs Terry Tuten of Georgia and Sammy Masias of Homestead. The pair stood toe-to-toe and slugged it out for three rounds before Masias scored a split decision.

The highly-publicized feature bout, held before the third largest crowd to witness a fight card at the Sports Stadium, was a one-sided affair. Wells took early control of the contest to win an easy unanimous decision over his 23-year-old opponent who hails from Washington, D.C.

After a first round that saw both stand-up boxers feel the other out, Wells started taking the lead in thesecondand began punishing the champion with lefts and rights to the head.

This assault continued into the third and when Baker tried to take the play away from Wells he was met with some pin-point counter punching by the 32-year-old.

Round after round it continued, Wells beating a steady tatoo on the face and body of Baker while Mike tried in vain to reach him with similar blows.

By round six Baker was cut around both eyes and was also bleeding from his left ear, but the gutty youngster kept trying and was able to stay with Wells in rounds seven, eight and nine.

In the tenth and final round, Wells went all out for a knockout as he staggered Baker with a whistling right hand that caught Mike on the chin and slammed him into the ropes in a neutral corner.

But by that time Wells was too tired to take advantage of the stricken Baker and the champ finished the fight on his feet.

At the round's conclusion the howling mob leaped to its feet and gave both boxers a long, well deserved ovation.

What the bout lacked in furious toe-to-toe punching, it more than made up with some of the best scientific boxing ever seen in these parts.

After the official verdict was announced, 98-94, 97-93, and 98-93, all in favor of the jubilant Wells, Baker announced he would defend his title in a rematch with Wells in the very near future.

The only hitch with this is, that it most likely will be held in Landover, Md, where Baker does most of his fighting.

In other professional action Joey Vincent returned to the ring wars with a one punch knockout over Max Horde and Mad Dog Ross ran his mark to 21-1-1 with a four round K.O. over Wayne Battle.

Vincent, who tipped the scales at 153, three pounds heavier than his opponent from Jacksonville, had predicted he would point to the spot on which Horde would fall. Before the bout Joey went over and marked the ring with an X with his foot but Horde did not accommodate him and was counted out around four feet from the designated area.

The K.O. punch, that came midway through the second round was a straight, lead right hand. It caught the part-time promoter flush on the chin and dropped him in his own corner for the count.

Ross was able to overcome a slow start with some wicked body punching that finally took its toll and set up Battle for the knockout that came after 1:19 had elapsed in the fourth.

The amateur Masias-Tuten bout was for the southern welterweight championship and it lived up everyone's expectations as Masias outslugged Tuten to win a split decision.

The 16-year-old Tuten roared out of his corner in the first round and slammed into Maisias with thunderous lefts and rights that drove the Mexican around the ring.

On three different occasions it looked like Masias would not be able to stand up to the pounding he was taking but the game 142-pounder kept coming back until he was in confrol of the action by the round's conclusion.

Round two was more of the same. Both fighters slamming away at each other while a delirious mob screamed its approval and cheered them on to even greater heights.

The crowd stood and applauded the two battlers through most of the one minute rest period that preceeded the third and if possible, more brutal round.

Again Tuten started out like he would stop the two-time former golden Gloves champion. He crashed home booming rights and lefts that gashed Masias over his left eye and drove him into the corner.

But the migrant worker who wants to turn pro, refused to fold under the furious attack and tore back into Tuten. The two of them stood in the middle of the ring and pounded each other with everything they had until the final bell sounded ending the most action-packed fight ever witnessed in this area.

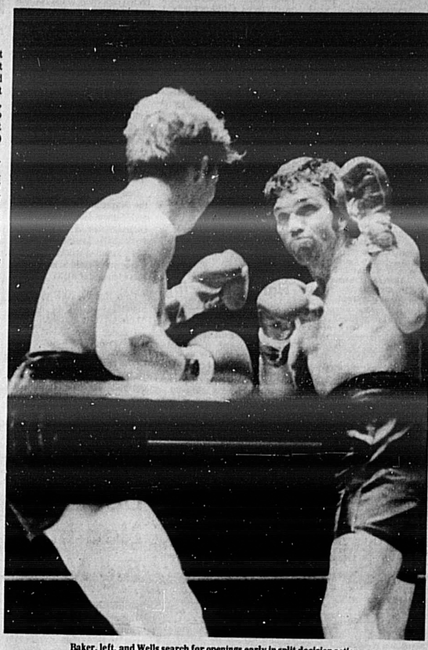
The crowd stood and cheered both men for over three minutes and only stopped to hear the scorecards read. Judge Mick Andrews saw it for Tuten, while judges Bob Burns and Al Aldrich called it for Masias. All three men had just one point separating the pair.

The unofficial Herald scorecard called the fight a flat-footed draw, with Tuten winning the first, Masias the second and the third round even.

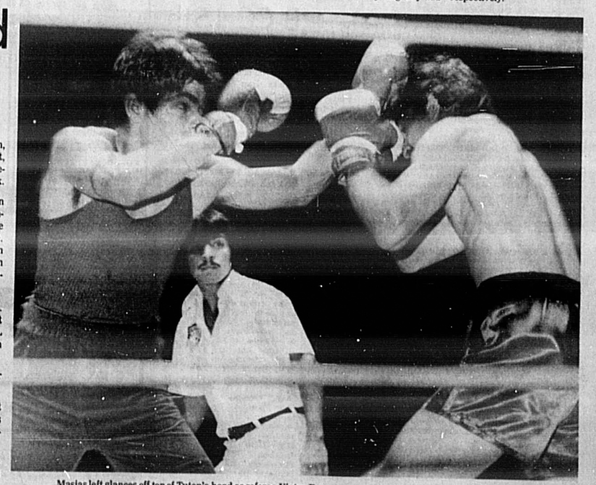
Other amateur results round Forest City's Donald Monks give away 12 pounds to his 92 pound opponent, David Velasco, but still come out on top to run his impressive mark to 38-3.

Oviedo's seven-year-old, 50-pound bomber Rock Sweet also was declared the winner when he out-slugged Baby Fry of Tampa in a real crowd pleaser.

In heavyweight action, Joe Sach and Travis Poythres both from Jacksonville, scored impressive wins over Len Richardson and Clyde Fussel respectively.



Baker, left, and Wells search for openings early in split decision action.



Masias left glances off top of Tuten's head as referee Victor Perez watches. (Herald Photos by Louis Sapsis)

'Show Me' Stand Taken On NFL Blackouts

WASHINGTON (AP) — Rep. Torbert H. Macdonald, DMass., chairman of the House communications subcommittee, wants the sports leagues to show him how the television antiblackout legislation hurts them.

Macdonald's defiance is directed especially to the National Football League.

"Nobody thinks the football leagues are the bad guys," he said last month, but for them to resist making the law permanent is, in his opinion, "chutzpah at its highest."

Professional hockey and basketball give their views today during the first of three sessions on Macdonald's bill to make permanent the three-year-old law on the lifting of TV blackouts.

Don Ruck, vice president of the National Hockey League, and Simon Gourdine, deputy commissioner of the National Basketball Association, were the scheduled witnesses today along with Gerald S. Blum, station manager of WQXI, Atlanta.

Pete Rozelle, NFL commissioner, was set to appear Thursday with Baseball Commissioner Bowie Kuhn testifying Friday.

The antiblackout law prohibits home games of professional football, baseball, basketball and hockey from being blacked out on local commercial TV if they are sold out 72 hours in advance. Besides making the law permanent, the Macdonald bill would change the 72-hour cutoff for postseason games of baseball, basketball and hockey to 24 hours.

Last week, Sen. John O. Pastore, D-R.I., chairman of the Senate communications subcommittee, along with Sen. J. Glenn Beall, R-Md., introduced a bill to extend the current law for another three years.

Macdonald launched into criticism of the NFL, expressing amazement that the league is complaining it is harmed by the law.

"I shed no tears for the NFL and their financial plight," he said, condemning the NFL's claim that the antiblackout has increased the number of noshows at games as "propaganda line" and a "frivolous complaint."

"I don't really seee what business it is of the football team what (a ticket holder) does with the ticket — if he eats it or gives it away or sells it ... it doesn't seem to me that that affects the gate in any way," said Macdonald.

Russell Lambasts NBA Officials

By THE ASSOCIATED PRESS

"The Bulls did not beat us tonight," said an angry Bill Russell, "it was (Jerry) Lober and (Lee) Jones, the two referees."

The Seattle coach was not amused after his Sonics got beat by the Bulls 101-90 in a National Basketball Association game in Chicago Tuesday night. Seattle outscored the Bulls from the field but lost it at the foul line, making 18 of its 25 free throws while Chicago cashed in on 33 of a whopping 51 attempts. Four Sonics — Leonard Gray, Slick Watts, Bruce Seals and John Hummer — fouled out as opposed to one Bull.

There was only one American Basketball Association game played and San Antonio won it 108-103 over Virginia.

Bob Love scored 23 points and reserve forward Rowland Garrett added 22 for Chicago. Garrett collected five straight points late in the fourth period to stall a Seattle comeback bid.

Watts led the Sonics with 18 points but high-scoring guard Fred Brown was limited to one basket in 14 shots.

Lakers 99, Bucks 92

Kareem Abdul-Jabbar made his return to Milwaukee a success with 30 points and Cazzie Russell had 33, including a pair of clutch buckets late in the game, for Los Angles. Rookie Dave Myers, who came to the Bucks in the Abdul-Jabbar trade, led the losers with 21 points.

Warriors 111, Knicks 94

Rick Barry netted 24 points and Jamaal Wilkes added 23 for the NBA's defending champs who broke it open midway through the third period and coasted home. Walt Frazier led New York with 19 points.

Jazz 99, Trail Blazers 90

Mel Counts held Portland's Bill Walton to four points in the second half and Louie Nelson netted 19 points as surprising New Orleans won for the third time in four games.

Braves 124, Rockets 108

Bob McAdoo scored 34 points, Ernie DiGregorio had 22 points and nine assists and Randy Smith added 20 points as Buffalo led all the way.

Spurs 108, Squi...

James Silas, hitting on 13 of 19 shots from the floor, scored 31 points and George Gervin had 20 as San Antonio handed winless Virginia its third loss of the season.

LA Kings Maul Washington Caps

By THE ASSOCIATED PRESS

Marcel Dionne is on a torrid scoring streak, Rogie Vachon has apparently "filled up the holes in his gloves" and that could spell trouble for the Los Angeles Kings' National Hockey League foes.

Center Dionne scored three times and goalie Vachon posted his first shutout of the year as the Kings mauled the Washington Capitals 6-0 Tuesday night. The victory moved Los Angeles into a tie for first place with Montreal in the Norris Division.

Acquired from Detroit during the off-season, Dionne has now scored seven goals in his last seven games. His four points against the Capitals moved him into second place in the scoring race, one point behind Montreal's Guy Lafleur, who has 22.

Vachon, who had been bombed for 16 goals in the Kings' first two games this season, now has given up just two goals in his last two outings.

Flames 7, Canucks 2

Atlanta, led by Curt Bennett's two goals, took a 3-0 first-period lead and held on to edge Vancouver. Bennett took advantage of an inept Vancouver club in the opening period and goalie Dan Bouchard carried the Flames the rest of the way to their third victory in nine games.

Bill Flett added the other Atlanta goal, while Don Lever and Dennis Ververgaert scored for the Canucks in the final period.

Toros 6, Nordiques 4

Vaclav Nedomansky and Gavin Kirk each scored two goals to lift Toronto over Quebec. Quebec took a 2-0 lead early in the first period when Real Cloutier tucked in a shot from around the net and Serge Bernier blasted in a penalty shot past rookie goalie Mario Vien.

Nedomansky's first goal of the night cut the margin to 2-1 and Jerry Rollins evened the score shortly before the end of the first stanza.

Jean Bersier's goal at the 8:54 mark of the second period gave the Nordiques a 3-2 lead, but the Toros came back with goals by Bob D'Alvise and Kirk before the end of the second period.

Nedomansky and Kirk had goals in the third period to seal the victory for Toronto.

Oilers 7, Roadrunners 3

Tim Sheehy knocked in two goals and Dave Dryden performed brilliantly in goal, helping Edmonton beat Phoenix.

Rain Postpones Freshman Game

Rain threw an incompletion in Wednesday's scheduled freshman football games between teams from Lyman and Lake Howell High Schools.

The game at Lake Howell was postponed because of poor field conditions and was rescheduled for today at 4.

DuBose Nearing Big Mark

BIRMINGHAM, Ala. (AP) — Jimmy Dubose of Florida gained 141 yards against Duke last week to join Kentucky's Sonny Collins in nearing the 1,000-yard mark in season rushing among Southeastern Conference football players.

Collins gained 89 yards on Georgia to run his total to 944 yards. Dubose has 906 yards. Collins ranks fourth in the nation with a 134.9 yards per game rushing. Dubose is eighth with 129.4 yards.

Johnny Davis of Alabama edges Dubose 8.1 to 8.0 yards per carry. Kevin McLee of Georgia leads in rushing touchdowns with eight.

Randy Wallace of Tennessee completed 12 passes Saturday to keep his place at the top of SEC passing statistics. He has the most completions, 42, for the most yards, 779, at the best average, seven per game.

Tim Ellis of Ole Miss has the best completion percentage, .654 on 34 of 52. Kentucky's Cliff Hite has suffered only one interception in 69 attempts. Florida's Don Gaffney has the most TD passes, six.

Texas A&I Tops Poll; B-CC 15th

KINGSVILLE, Tex. (AP) — Texas A&I Coach Gil Steinke heard the news then drawled: "Folks down here appreciate being No. 1. That means I get a discount at the coffee shop."

Meanwhile, Bethune-Cookman edged into the elite for the first time this season. The 6-0 Wildcats tied for 15th.

Texas A&I has won 20 games in a row and is the defending champion in the NAIA.

The top-ranked Associated Press team captured 24 of 45 first-place votes to take a narrow lead over Eastern Kentucky which bagged nine first place ballots.

By The Associated Press

The Top 15 in the Associated Press college division football poll, with first place votes in parentheses, season records and total points. Points based on 10-9-8-7-6-5-4-3-2-1:

SPORTS IN BRIEF

Ali Says He'll Seek Fortune In Bahamian Fishing Firm

NASSAU, Bahamas (AP) — World heavyweight champion Muhammed Ali says he's not getting rich fast enough as a boxer. So, he says, he may seek his fortune in the Bahamian fishing industry.

He said he doesn't want the money for himself but for "black people who need hospitals and schools.

"We are looking into the fishing thing here and we got to buy a bunch of boats," Ali said. "But it's a lot of hard work."

Stocks To Run At LeMans

DAYTONA BEACH (AP) — Several new types of racing machines, including big American stock cars, will be accepted as entries in 24-hour road races at LeMans, France, and Daytona International Speedway next year.

Bill France Sr., president of International Speedway Corp., announced Tuesday that his organization and the A.C. de l'Oest, which sponsors the 24 Hours of LeMans, have agreed on the eligibility of several new categories of cars.

Both endurance races have been limited to lighter sports cars.

Florida, 'Bama Dominate SEC

BIRMINGHAM, Ala. (AP) — Florida and Alabama continue to dominate in Southeastern Conference football statistics and Alabama is a leader in the national figures.

The sixth-raiked Crimson Tide, with 37.4 points a game, is the highest scoring team in the nation, followed by Texas at 37.

Florida is second in the SEC in scoring at 28.7 points a game and in defense against scoring at 8.9.

Team Tennis Stalks Evert

By THE ASSOCIATED PRESS

What will it take to entice golden girl Chris Evert away from the women's summer circuit and into the razzle-dazzle world of team tennis along with the game's other top female stars?

Does $160,000 a year sound reasonable?

That's the figure sources close to World Team Tennis were quoting Tuesday night to The Associated Press.

Payoff Alleged

Jai-Alai Probe Involves Csonka

By THE ASSOCIATED PRESS

Several prominent Florida names, among them football star Larry Csonka, are involved with an $11-million jai alai fronton being investigated by Connecticut authorities.

A one-man grand jury in Hartford, Conn., quizzed Hollywood, Fla., restaurant operator William Moy for three hours Tuesday about allegations that an associate paid $200,000 to license the fronton, being built at Bridgeport, Conn.

Judge Harold Mulvey, the sole member of the grand jury, was continuing his probe today.

The Connecticut Gaming Commission has charged that David Friend of Hollywood, the president of Connecticut Sports Enterprises, paid John Bailey, late Democratic National Chairman and once Connecticut Democratic Chairman, for his help in getting the license.

Friend and Moy have denied wrongdoing. Bailey's widow also denies that they ever got $200,000 cash from anyone.

The commission has called the promoters and some prominent Connecticut politicians to a Nov. 6 hearing on whether to revoke the license.

Friend said Csonka, who took part in ground-breaking for the fronton, put "a few dollars" into the venture.

Csonka was then with the Miami Dolphins in the National Football League and was a neighbor of Friend. He's now with the Memphis franchise of the defunct World Football League.

"It looked like a pretty good investment," Csonka said. "A friend told me about it. Now, I would just like to forget it."

Until last week, the secretary of CSE was Thomas A. Thomas, the chairman and, with Friend, one of the organizers of the American Bank of Hollywood. Thomas is a former Hollywood city attorney and former acting dean of the University of Miami law school.

The Florida Division of Banking has investigated loans by the Hollywood bank to the fronton's investors. Division regional director Don Dotzler says the probe ended when the loans were repaid in August.

Thomas confirmed that he borrowed part of the reported $437,000 but would not identify the other borrowers. He said he couldn't recall details of the transaction.

Special investigator Harry Gulkin of the Broward County State Attorney's office said he's investigating to see if bribery occurred when "more than" $200,000 was moved from the bank to Connecticut. He said CSE investors wrote $260,000 in checks to the corporation shortly before the cash movement and he's trying to find out what became of the remaining $30,000.

The Track For Action!
Home of the Original Trifecta.
Post time 7:45 PM Mon.-Sat.
• Play the original big payoff Trifecta Wager!
• Gourmet dining in the air-conditioned clubhouse.
• Grandstand admission only 50¢. Free parking!
• Action packed racing under the lights Mon.-Sat.
• Ladies night- Every Thursday night

Hoople: Gators, FSU To Win; Miami To Fall

By MAJOR AMOS B. HOOPLE
The Herald Services

Egad, friends, here, quick as that proverbial wink, we are into the last four weeks of the collegiate pigskin season. And, I might add, the month that separates the genuine contenders from the pretenders.

The schedule is replete with such traditional engagements as Southern California vs. California (63rd contest), Alabama-Mississippi State (60th game), Mississippi vs. LSU (64th meeting), Kansas-Kansas State (their 73rd), Oklahoma-Oklahoma State (70th joust).

Another crowd pleaser which is short on tradition but long on desire brings the Air Force and the Army together to settle the unofficial Service Academy championship. Having whipped the Navy Middies earlier this season, the Falcons will claim the title by trouncing Army, 31-12.

Also in the Southeastern, Florida's Gators will triumph over Auburn's Tigers, 28-7. 'Tis a sad season for retiring Shug Jordan, completing his 25th year as boss of the Tigers.

The Big One of the day brings together the Oklahoma Sooners and Oklahoma State on the Cowboys' home grounds. This is the best Cowboy entry in years but, alas, they will not be able to withstand the darting runs of Joe Washington and the relentless drive of the Sooners. In a high-scoring affair Oklahoma will win, 37-27. Another Big 8 beauty matches Kansas and Kansas State at Lawrence. Make it Jayhawks, 29, the visiting State Wildcats, 20 — kaff-kaff.

In the tough Southwestern Conference, the Texas Longhorns will stampede

TV HIGHLIGHTS

THE CHALLENGE: ABC launches its totally reorganized early morning show next Monday and, in the words of network vice president Bob Shanks, "It won't be a screaming, alarming presentation. The news always seems to be grave. We're going to present it in a calm approach." Fine, but how can you calm down a Jonathan Winters, the funniest nut on TV who will be "reviewing" films and TV for the new show, which will hereafter be known as "Good Morning, America!"

DARLING AROUND: Nice Howard Cosell contradicted colleague Frank Gifford's assessment of the Dallas Cowboys on the air a couple of Mondays back, it incurred the wrath of the Dallas faithful. They bombarded ABC with more than 3,000 hate-Howard letters. . . "Big Eddie's" swan song on CBS will be Nov. 14. Then will come a succession of specials until the network makes up its mind about a replacement.

ABOUT TONIGHT:

8-9 CBS TONY ORLANDO AND DAWN Barbara Eden joins Tony on a Halloween show that has them dressed as the cat on Mary Tyler Moore's show, Barbara and MGM's famous lion, Tony. They manage to poke fun at TV. Country-singer Mel Tillis also joins the hour.

8-9 NBC LITTLE HOUSE ON THE PRAIRIE "The Spring Dance" The annual spring dance draws the usual attention. And the single girls line up on one side, and the available men on the other side, and never the twin shall meet, until the girls take some drastic steps.

8-9 PBS THE TRIBAL EYE "Sweat of the Sun" This is the third of seven in the cultural series. It concentrates with the Spaniards' fascination with the lavishness of gold utilized by the Aztecs and Incas. Private collections are visited in Mexico and Peru. David Attenborough, producer and narrator, also talked to Indians still practicing ancient tribal customs.

9-10 CBS CANNON A promise to a dying police buddy sends Cannon off on a strange mission to Baja to return the dying man's missing son, who is believed dead. When Cannon gets there, he encounters a mystery and a sinister American, played by Stuart Whitman.

9-10 NBC DOCTORS HOSPITAL "Watchman, Who will Guard Thy Sleep" Cliff DeYoung, who starred in last season's short-lived "Sunshine" series, is this week's brash young resident, but he has a nice manner, the only doctor capable of coping with an embittered film executive, played by Robert Loggia, who is dying.

9-10 ABC BARETTA "Photography by John Doe" A retired policeman dies in a fall from a rooftop. An accident is listed, but the victim's grandson prevails on Baretta to reopen the case. His investigation leads to a mobster and his unholy alliance with a respected judge. Brock Peters guests as the judge.

Public Notice No. FL0001554 Dated: October 29, 1975

NOTICE OF PROPOSED ISSUANCE OF NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND NOTICE OF CONSIDERATION FOR STATE CERTIFICATION

The U.S. Environmental Protection Agency proposes to issue a National Pollutant Discharge Elimination System (NPDES) permit to Florida Power and Light Company, P.O. Box 013100, Miami, Florida 33101, for its Sanford Plant, Lake Monroe, Florida 32747. Application No. FL 074 0YL, 2 000229, NPDES No. FL0001554. The company describes one existing discharge from the generation of electricity, SIC #911. The discharge enters the St. Johns River near Lake Monroe, approximately 600 feet south southwest of the plant. This section of the St. Johns River has been classified by the State of Florida as Class III, defined as suitable for recreation and the propagation and management of fish and wildlife.

The proposed NPDES permit contains limitations on the amounts of pollutants allowed to be discharged and was drafted in accordance with the provisions of the 1972 Amendments to the Federal Water Pollution Control Act (P.L. 92-500) and other lawful standards and regulations. The pollutant limitations and other permit conditions are tentative and open to comment from the public.

Persons wishing to comment upon or object to permit issuance or to the proposed permit limitations and conditions are invited to submit same in writing within thirty days of the date of this notice to the Enforcement Division, U.S. Environmental Protection Agency, 1421 Peachtree Street, NE, Atlanta, Georgia 30309, ATTN: Mona M. Ellison. The application number and/or NPDES number should be included in the first page of comments.

All comments received within the 30 day period will be considered in the formulation of final determinations regarding the permit. Where there is a significant degree of public interest in the proposed permit issuance, the EPA Regional Administrator will hold a public hearing.

After consideration of all written comments and of the requirements and policies in the Act and appropriate regulations, the EPA Regional Administrator will make determinations regarding permit issuance. If the determinations are substantially unchanged from those announced by this notice, the EPA Regional Administrator will so notify all persons submitting written comments. If the determinations are substantially changed, the EPA Regional Administrator will issue a public notice indicating the revised determinations. Requests for adjudicatory hearings may be filed after the Regional Administrator makes the above-described determinations. Additional information regarding adjudicatory hearing is available at 39 F.R. 27081 or by contacting the Legal Support Branch at the address above or at 404-526-3506.

A fact sheet which outlines the applicant's current discharge(s) and EPA's proposed pollutant limitations and conditions is available by writing or calling the EPA. A copy of the draft permit is also available from EPA. The application, comments received, and other information are available for review and copying at Room 305, 1421 Peachtree Street, Atlanta, Georgia, between the hours of 8:15 a.m. and 4:30 p.m., Monday through Friday. A copying machine is available for public use at a charge of 10 cents per page.

The Florida Department of Environmental Regulation has been requested to certify the discharge in accordance with the provisions of Section 401 of the Federal Water Pollution Control Act, as amended (P.L. 92-500). Persons wishing to comment on the state certification of this discharge are invited to submit same in writing to: Mr. John Jackson, NPDES Permit Section, Florida Department of Environmental Regulation, at the state agency address above, within thirty (30) days of the date of this notice. If a public hearing is held, as described above, the state agency will co-chair the hearing in order to receive comments relative to state certification.

Please bring the foregoing to the attention of persons who you know will be interested.

HOROSCOPE

By BERNICE BEDE OSOL

For Thursday, October 30, 1975

ARIES (March 21-April 19) You're not likely to get too much accomplished today unless you're working on something artistic or creative.

TAURUS (April 20-May 20) Don't come on too strong today in front of friends about something good that has happened to you recently. One pal is a bit envious.

GEMINI (May 21-June 20) Put things back in their places around the house today, or later when you look for something you need you'll not find it.

CANCER (June 21-July 22) Be extra careful today not to pass on information told to you in the strictest confidence.

LEO (July 23-Aug. 22) This is not a good day to make important purchases. You could easily be talked into paying more than something is actually worth.

VIRGO (Aug. 23-Sept. 22) Pay compliments today if they're sincerely deserved, but don't attempt to use flattery to gain your ends. It won't work.

LIBRA (Sept. 23-Oct. 23) Don't expect someone to bail you out of a problem situation today that was self-created. It will be left to you to unravel.

SCORPIO (Oct. 24-Nov. 22) Debit spending could be your downfall today. Wait till you have it tucked in the bank before assuming new obligations.

SAGITTARIUS (Nov. 23-Dec. 21) Don't do anything today that could later reflect on your honor or reputation. Adhere to your highest ideals.

CAPRICORN (Dec. 22-Jan. 19) Wait till all the facts are in today before making judgments. Your first impressions won't be wholly reliable.

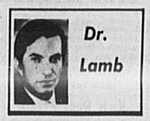
AQUARIUS (Jan. 20-Feb. 19) Do business today only with persons you've dealt with before, or know by reputation to be ethical. Be wary of strangers.

PISCES (Feb. 20-March 20) Don't agree to do something today contrary to your own good, just because you don't want to hurt a sensitive friend.

YOUR BIRTHDAY
Oct. 30, 1975

The coming year will be a favorable one for you romantically. Stronger bonds will be established with one who is already near and dear to your heart.

Hiatal Hernia Causes Pain



By Lawrence E. Lamb, M.D.

DEAR DR. LAMB — Your write-up in the paper gave me an answer to my problem. My doctor said I had a hole, but didn't say any more.

I would get what I thought was heartburn just drinking Sanka coffee and eating a piece of toast in the morning. Now I want you to send me The Health Letter on Hiatal Hernia, number 4-8.

I'm 84 years old and am in good health. I have not had an attack in about a month.

DEAR READER — Many people who have "heartburn" really have a regurgitation of acid digestive juice into the lower esophagus. The stomach is costed with a protective mucus that prevents the acid digestive juice from burning its lining, but the lower esophagus (food tube) where it joins the stomach does not.

I'll send you The Health Letter you asked for. It will give you the information you need on living habits to prevent or minimize the burning pain from reflux of acid digestive juice into the lower esophagus. It will also tell you what you need to do about an eating routine for this problem.

Others who want this same information can send in 50 cents for The Health Letter on Hiatal Hernia, Esophageal Reflux, number 4-8. Just send your request to me in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019. Be sure to enclose a long, stamped, self-addressed envelope for mailing.

About half of the people over 50 years of age have this problem. Often it doesn't cause symptoms at first or the symptoms are mild enough that they are ignored. Good living habits will help avoid complications later.

DEAR DR. LAMB — Would you please tell me what the symptoms of cancer of the throat, lungs and liver are?

DEAR READER — Apparently many people do not understand that almost any tissue in your body can become a cancer. A cancer is a wild, unorganized growth of cells, which may be thyroid cells, breast cells, liver cells, lung cells, brain cells or any other. The cancer will have some of the cellular characteristics of the normal cells of the organ it started in.

The primary cancer, such as lung cancer, can then spread to other parts of the body and the areas of spread will look much like the original cancer.

The symptoms depend entirely on the type of cancer, where it is located and the amount of spread. A small cancer of the lungs may cause no symptoms at all until it has begun to spread. This is why regular examinations are important. The same may be said of a small, cancerous lump in the breast; other than the lump there are usually no symptoms at first. A small lump in the liver may cause no symptoms. This is unfortunate. If all cancers actually hurt when they started they could be found early and that would lead to life-saving treatment.

Opening lead — Q♣

The object of bidding is to win as many points as possible with good hands and lose as few as possible with bad ones. General experience has shown that when you hold 13 or more high-card points you will do well to open the bidding. It has also shown that when you want to compete against an opponent's opening bid your main requirement is playing strength. When you overcall, you risk getting doubled.

North has an opening bid. It includes a six-card club suit and North gets right into the action with a two-club overcall.

This bid suggests the possibility of defending at clubs in case East-West have the hand. It also suggests game possibilities if South has the balance of power.

South does have the balance of power. He has 10 high-card points and good club support. He also has a balanced hand with a spade stopper and decides to try for the game in notrump. He bids two notrump and North is happy to take him right to game.

There is no problem in the play. South takes his king of spades and promptly cashes six clubs and two hearts before giving up the lead.

Ask the Jacobys

A Michigan reader wants to know if we overcall a diamond opening bid to our right with: ♠A Q J 7 6 ♥5 4 ♦K 8 3 2 ♣7 5.

The answer is a resounding affirmative. We don't have an opening bid, but we do have a good spade suit and when you have a good spade suit it behooves you to get into the action.

(Do you have a question for the experts? Write "Ask the Jacobys" care of this newspaper. The Jacobys will answer individual questions if stamped, self-addressed envelopes are enclosed. The most interesting questions will be used in this column and will receive copies of JACOBY MODERN.)

Maybe 'Alice Doesn't'...But She Did Today!

By JEAN PATTESON
Women's Editor

Leading today's "Alice Doesn't" march in Eola Park, Orlando, was Louise Hudson Howell, dynamic coordinator of the Orlando Area Chapter, National Organization for Women (NOW).

The march, which attracted women from throughout Orange and Seminole Counties, was staged to demonstrate the local NOW chapter's support of the nationwide "women's strike" called for today by NOW. The object of the strike is to emphasize how much the nation depends on women in day-to-day living both at home and in the business and professional worlds.

The "Alice Doesn't" strike was named for the Ellen Burstyn film, "Alice Doesn't Live Here Any More," which portrays a woman setting out on her own after the death of her husband.

With the economy at a low ebb and jobs at a premium in Central Florida, Ms. Howell said she doubted enough women would risk their jobs to make a strike in the Orlando area effective. However the march, which started shortly before noon and continued about two hours, enabled many women to participate during their lunch breaks.

Ms. Howell, who protests the use of the adjective "militant" to describe NOW's activities, became a member of the women's rights organization after experiencing sex discrimination in her personal life.

LOUISE HOWELL

"Over the years I've been discriminated against as a woman both in my jobs and when making credit applications," said Ms. Howell. "I still see discrimination all around me, in spite of the laws.

"Every day I get "horror calls" from women who aren't getting a fair deal one way or the other."

Ms. Howell claims to be "super involved" with the Equal Rights Amendment (ERA) and is on the Publicity Committee of the State ERA Coalition and serves as representative for the Florida Women's Political Caucus to the State ERA Coalition.

She is confident that the ERA will pass before 1979 — "In Florida it will, if I have anything to do with it," she exclaimed.

She sees the ERA as a "blanket protection" for women who at present have to fight for their rights, case by case in the courts.

Membership of the Orlando Area NOW is about 100 strong. Meetings are held the first and third Wednesdays of each month in the Winter Park Library and are always open to the public.

Goals of NOW nationwide, according to Ms. Howell, include ratification of the ERA; enforcement of equal opportunities for women; elimination of sex discrimination in education; development of a nationwide network of high quality child care centers and the setting up of paid maternity leave.

Also the revision of income tax and social security laws; the repeal of laws limiting access to contraception and governing abortion; fighting to give women in poverty a chance to better their lot; revision of marriage, divorce and family laws to equalize rights for women in this sphere and the fight for full participation of women in political activities.

NOW's goals also cover volunteerism, social justice, greater participation of women in religion and the improved image of women in the mass media.

Mrs. Ralph Austin Smith, left, and Mrs. Wilfred Conrad discuss upcoming programs at the Mutual Concert Association reception (photo top left). Membership Irene Brown, seated, talks with members, from left, Mr. and Mrs. Dennis Doigner, Mr. and Mrs. Francis Shaw and Mr. and Mrs. Jack Hamm. (Top right), new member Mary Holst, center, is welcomed to group by, from left, Mrs. J. E. Pearson, Mr. Pearson, Dr. Robert J. Smith and Mrs. Smith, association president.

Music Group Fete Launches Season

Board members of Seminole Mutual Concert Association (SMCA) hosted a gala reception at the Mayfair Country Club, Saturday evening, for all Association members.

President Bettye Smith and her husband, Dr. Robert J. Smith greeted the large number of guests at the door and other board members were floating hosts and hostesses.

Membership chairman Irene Brown was still signing up new members during the evening, and will continue to do so up until the Association's first concert, "Dames at Sea," scheduled for Monday at 8 p.m. in the Sanford Civic Center.

"Dames at Sea," the Broadway musical spoof of the 1930s Hollywood extravaganzas, will open the Mutual Concert Association's 1975-76 season.

The production is performed by the Continental Theatre Company from Wichita, Kan., a professional, nation-wide touring repertory company.

"Dames at Sea" deftly and delightfully captures the Hollywood "dream machine" delusions and grand illusions of the 1930s. It offers a delightful combination of melodies, lyrics and dancing to provide a nostalgic glimpse back to the Busby Berkeley-Ruby Keller-Dick Powell days of "innocent entertainment."

The show opens with a grand collection of problems, conflicts, heartaches and on-again, off-again romances, all of which are told in colorful song and dance routines. But happiness is just around the corner, along with a star spangled, red-white-and-blue, slam bang, cannon shooting finale.

Admission is by membership to the Seminole Mutual Concert Association only; no tickets will be sold at the door.

Funeral Becomes Drive For Funds

Dear Abby

By ABIGAIL VAN BUREN

DEAR ABBY: Yesterday, I attended the third funeral in two months, and I promised myself I would not attend another whose services were conducted by this minister.

Each time I was trapped for over an hour with a preacher who started with the sins of Adam and Even and worked his way through the new Testament.

He said nothing to comfort the family and made no mention of the deceased. Instead, he launched into a tirade, calling everyone present "sinners" and predicting that the world was going to hell because of its greed and selfishness. Then he wrapped it up with a pitch to raise money for the church's building campaign.

It was revolting!

People come to a funeral to pay their last respects to the deceased, not to be bawled out by the preacher or to be solicited for money.

What is your opinion of a minister who would take advantage of a full house in the above manner?

REVOLTED IN ROANOKE

DEAR REVOLTED: I think he's a short-sighted opportunist who believes in shooting the ducks while they're flying.

DEAR ABBY: My husband retired recently and found himself with very few pleasures and interests, so he bought a myna bird. Now he spends all his time teaching the bird dirty words and vulgar phrases.

Needless to say, a foul-talking myna bird is a source of much embarrassment when I have my bridge club meetings here. Also, it's a very bad example for my grandchildren who visit me often.

I have asked my husband to please get rid of that bird, but he refuses.

Please help me before I move in with my daughter and her family.

SERIOUS IN EUGENE, ORE.

DEAR SERIOUS: Don't move. Instead, move the bird to the garage, basement, attic or some out-of-the-way place where its X-rated monologue will not offend tender ears.

DEAR ABBY: How can I break my husband of the habit of calling me "Mamma?" And are there other wives who dislike it as much as I do?

I don't mind his referring to me as "Mamma" when he talks to one of the children — for instance, "Go get Mamma."

But when he says to me, "Mamma, will you please hand me the paper?" it irritates me no end!

I am NOT his Mamma. And I do not want him to call me "Mamma." If I had wanted to be his Mamma I would have adopted him, not married him.

Will you please put this in your column? He reads you religiously and maybe it will take effect. Telling him hasn't helped. NOT "MAMMA"

DEAR NOT: Here's your letter. Now tape it to his bathroom mirror so he can see it every time he shaves.

WOMEN

Urge Mother In Law Day

Establishment of a special "day" to honor mothers-in-law, who are cherished members of most families despite the jokes, is being urged by the National Mothers-In-Law Day Council.

The Council proposes that the last Sunday in October be observed as Mothers-In-Law Day "to honor mothers-in-law for their endless contributions to the success of families and for the good humor they display in suffering all those bad jokes."

The celebrations doesn't have to be fancy, the Council says, and offers these suggestions for honoring mother-in-law on her day:

—Tell her you love her.

—Thank her for all her help and support.

—Apologize for imposing on her at times.

—Have her over for dinner or take her out to a restaurant.

—Buy her a small gift you take time to select.

—Tell her a joke where the laugh's on a son-in-law or daughter-in-law.

200 YEAR HERITAGE of GREAT AMERICAN FOODS

In the early days of our country, the druggist was a candy maker. His drops made of peppermint and wintergreen were popular with the children. A type of sugar candy was made by melting sugar in water and letting it crystallize. And taffy pulls were a social occasion.

VANILLA TAFFY

4 cup sugar
¾ cup light corn syrup
¼ cup water
¼ teaspoon cream of tartar
1 tablespoon butter
1 teaspoon vanilla

Place sugar, corn syrup, water and cream of tartar in a saucepan and bring to a boil over medium heat stirring constantly until sugar dissolves. Cook without stirring to 266° or until a small amount of the mixture forms a hard ball when dropped into cold water.

Remove from heat and stir in butter and vanilla. Pour into an 8-inch square pan that has been greased generously. When candy is cool enough to handle, pull it with your fingers until it has a smooth shiny finish and is a creamy white color. Pull into strips ¾ inch in diameter. Cut into pieces with scissors and wrap in waxed paper.

Cook Of The Week

Liking The Job Key To Successful Baking

By JEAN PATTESON
Women's Editor

You've got to like baking to really be good at it, says Mrs. J.L. (Phyllis) Bransom, revealing the secret of her successes with pies, cakes and cookies.

The president of the Altamonte Springs Homemakers Club, and vice president of the Seminole County Homemakers Council, Mrs. Bransom finds she doesn't bake quite as much now that her son and daughter are grown and have homes of their own.

"But I do keep my hand in," said Mrs. Bransom, who though she doesn't care much for eating baked goods herself, finds they are always welcome gifts to her friends.

To enjoy baking, you've got to be creative, maintains Mrs. Bransom. Decorating the cakes and cookies which she bakes with such a light and delicious touch, is half the pleasure of making them, she says. Although she has never taken cake decorating lessons, by using a little imagination and a lot of practice, Mrs. Bransom produces beautiful looking (as well as tasting) delicacies.

Having a daughter helped, she adds. "Every year she wanted a different birthday cake. I've made a lot of doll cakes and heart cakes and things like that."

Active in PTA while her children were in school, Mrs. Bransom is now a member of the Altamonte Springs Woman's Club and an officer in Rachel Chapter 308, Eastern Star.

Mrs. Phyllis Bransom, displays some of her sugar cookies. (Herald Photo by Bill Vincent)

DATE PUDDING

1 cup dates
1 Tbsp. butter or oleo
1 tsp. baking soda
1 tsp. vanilla
1 cup hot water
1 cup sugar
1 egg
1½ cups flour
½ cup nuts

Pour hot water over dates and soda, mix well, cool, mix other ingredients, add cooled date mix, blend well. Bake in slow oven (250-275) for about an hour. Bake in long cake pan as baked pudding will not be over ½ to ¾ inch in height. This may be made in advance and stored till company arrives then make hot foamy sauce and serve.

HOT FOAMY SAUCE

1 cup powdered sugar
pinch of salt
1 egg
½ cup butter or oleo
½ tsp. vanilla

Cook together in double boiler, beat constantly till foamy. Serve over pudding. Delicious.

SUGAR COOKIES

Two-thirds cup shortening
1 cup sugar
½ tsp. vanilla
2 eggs
3 cups flour
2 tsps. baking powder
½ tsp. salt
one-third cup milk

Cream shortening and sugar, add vanilla and beaten eggs, then the flour, baking powder and salt together, alternating with the milk. Roll and cut to any desired shape. Bake in moderate oven (350-375) 10-12 minutes. Excellent for Christmastime. Decorate with powdered sugar icing and green and red sugar. Make 5 dozen cookies.

BARBECUE

1 lb hamburger
1 large onion (diced)
½ tsp. salt
½ bottle ketchup
2 tsps. sugar
2 Tbsps. vinegar
½ stick oleo or butter

Fry onions in butter, add hamburger and fry till well done, add sugar, salt vinegar and ketchup and simmer for 10 minutes.

MEAT LOAF

1 lb hamburger
½ lb. sausage
1 egg
¼ cup milk
½ cup broken up crackers
½ small onion (diced)
1 tsp sage
¼ tsp salt
black pepper to taste

Mix well, make into loaf, place in pan (uncovered) with enough water to keep from burning, garnish with ketchup and sliced green peppers. Bake in moderate oven (350-375) for 1 hour.

FRIED EGG PLANT

1 egg plant
2 eggs
2-3 Tbsps. milk
1½ cups cracker crumbs
salt and pepper to taste

Peel and wash egg plant, slice thin and soak in salt water for 2 hrs. Drain and place on absorbant towel. Dry well slices and dip in beaten egg and milk mixture, then dip in cracker crumbs and fry till crisp at low to medium heat. Arrange on platter with towel to absorb any oil left on slices. This is an excellent meat substitute.

Salads Are A Versatile And Economical Main Dish

By NANCY BOOTH
Herald Correspondent

A salad, according to Webster's dictionary, is a dish of lettuce or other vegetable, herbs, meat or fowl, fish, eggs, fruit, etc., prepared with various seasonings or dressings and usually served cold.

That is, by necessity, a long definition, due to the versatility you can use in preparing salads.

A salad can range from a simple lettuce and tomatoes combination to a Chef's salad, which is a meal in itself, and anywhere in between. It adds color to your table, bulk to your diet and, since most are served cold, you save on the cost of electricity or gas.

It is the ideal food for dieters, but also appeals to the most particular gourmet cook.

One of the nicest things about the salad is that you don't have to be an expert to cook to prepare one. A child can do it. Even the most elaborate salads are simple to prepare and a time saving method for those women who can not spend hours in the kitchen.

Apart from the cook book salad, there are many ways to use leftovers in salad, saving on your food budget. Almost any leftover meat can be used and made into a salad by cutting it into cubes, adding onion, olives or celery, and mayonnaise to moisten. This method makes delicious sandwiches or can be scooped onto a bed of lettuce to eat at home.

Leftover broccoli or green beans can be turned into a delicious Italian dish by adding oil and garlic powder, and sprinkling with parmesan cheese. In fact, most salads take on a different and tasty flavor by the use of grated cheese.

Another method is to take an assortment of leftover vegetables and create your own garden salad.

Gelatin, fruit and a mold can create salads that are not only appealing to the eye, but low in calories. A mixture of fruit and vegetables can be used to create the ever popular Waldorf salad.

As you can see, the choice is unlimited. You can purchase fresh produce or use your own leftovers. You can create tasty side dishes or a main course meal by using a little imagination.

I'd like to share with you two salads that are family favorites. One is a meal in itself, and the other is a tasty combination of vegetable, cheese and pineapple that can be served at a party.

MACARONI SALAD. . .
BOOTH STYLE

8 oz. pkg. elbow macaroni
1 can Spam, sliced into long, thing pieces
1 stalk celery, cut crosswise into ½ pieces
6 oz. of swiss cheese, cut into long thin pieces
½ cup Italian dressing
½ cup prepared mustard
½ cup mayonnaise or salad dressing

Cook elbows according to package directions, drain, and while still hot, toss with italian dressing. Cover and chill in refrigerator for several hours. Add spam, celery, and cheese and toss well. Combine mustard and mayonaise. Mix well. Cover and chill several more hours to blend flavors and serve.

ISLAND SALAD

½ sm. head of lettuce torn into small pieces
3 ouces grated sharp cheddar cheese
1 sm. can of pineapple chunks with liquid from can
1 cup mayonaise
4 marachino cherreis

Divide lettuce into four portions and place in individual salad bowls. Sprinkle grated cheese equally over each bowl. Dot the same with the pineapple. Take pineapple liquid and mix with mayonaise. Pour equal amounts into each bowl. Top with cherry and serve.

In And Around Sanford

250 At Fete For New Residents

DORIS DIETRICH
Correspondent
DIAL 322-4525

Newcomers to the area, Mr. and Mrs. Tom (Darlene) Blayney were honored at a gala reception Sunday afternoon in an elegant setting at The Springs Clubhouse, Longwood. More than 250 guests were invited to meet the genial couple who now call The Springs home.

Forming the receiving line with the guests of honor were the hostesses and their husbands, Betty and Tom Binford, Beverly and Tom Freeman, Peggy and Bob Hattaway and Judy and Harry Kwiatkowski.

While new to the immediate area, Tom and Darlene are not newcomers to Florida. A former aide to Governor Reubin Askew, Tom's present position is director of corporate affairs for Auto-Train Inc., in Florida.

Seminole's concert season was launched with a glittering reception for all patrons of Seminole Mutual Concert Association (SMCA) Saturday night at Mayfair Country Club.

SMCA president Bettye Smith and her husband, Dr. Robert J. Smith, greeted the throngs of beautiful people attending the festive event.

The committee arranging the reception, including tasteful decorations and a variety of party fare, included Annette Wing, chairman, Pat Shaw, Lucy Layer, Dr. Vann Parker and John Morris.

Sanford Moose Lodge was filled to capacity Saturday night with costumed merrymakers celebrating Halloween at a lively dance given by Women of the Moose.

Highlighting the fun-filled evening was the awarding of prizes for the best costumes. Faye and Don Siler, attired in colorful western costumes won the prize for the most outstanding couple. Eleanor Woodward, decked out as a jack-o-lantern, was awarded the prize for the most unusual woman's costume. Dressed as Peter Cottentail, complete with a huge rabbit's head, Bob Borem's identity was unknown until he won top prize in the men's category, and removed his head.

The committee in charge of the highly successful Tri-County Roadrunners C.B. Radio Jamboree over the weekend is deserving of a standing ovation. Hard-of-hearing children of Seminole County will benefit from the efforts of this endeavor, which was under the command of Anita Williamson.

Carried out to the peak of professionalism, the Hearing Conservation Queen contest attracted a full auditorium at the Civic Center. Margaret Koger, Citizens Band Radio Association Queen of Florida, coordinated and directed the beauty pageant in a regal manner. Jack Horner did a great job as master of ceremonies.

Using the point system as a guide and a number for each of the lovely 37 queen contestants, the judges tally added up as follows: Margo Dowlen, queen; Doris Ann Stogner, first runner-up; Patricia Ann McClanahan, second runner-up; Kathy Joe Capko, third runner-up; and Gina Madden, fourth runner-up.

Judges, including myself, facing the difficult decision, were Crela Higginbotham, Nora Gordon, Skip Venkarik, Ray Turman, Nellie Ivey of Washington, N.C., and Regina Benson of Jacksonville.

Mrs. Frank (Claire) Evans has returned to her Lake Mary home after a two-month tour of Canada, the eastern states and a visit to New York.

Two local couples and their children, Sonya and Bob Morris of Sanford, and Delores and Jim Lash of Lake Mary, recently drove their motor homes to North Carolina for a long weekend. Although the group was on the road during most of the outing, they enjoyed the brief camping trip while absorbing the beauty of the autumn foliage.

Mildred Stemper was at the side of her husband, Bill, when he underwent recent heart surgery at Houston, Texas. Bill is steadily improving and hopes to be back on the job in about a week.

Research scientists in university laboratories throughout the country need thousands of mice to help save lives from cancer.

County Action Awaited

Action approving cost figures and updated reports submitted on two proposed sidewalks needed for Idyllwilde and Pinecrest Elementary school children is now up to the Seminole County Commission, two county officials said today.

County Public Works Director Robert Andrew said the next step regarding the $2,100 county share for sidewalk construction on S.R. 46A from Larkwood Drive to Vihlen Road for Idyllwilde pupils is up to Commission Chairman Sid Vihlen Jr., "to bring it before the board next Tuesday."

Sanford City Commission approved its $1,050 share Monday.

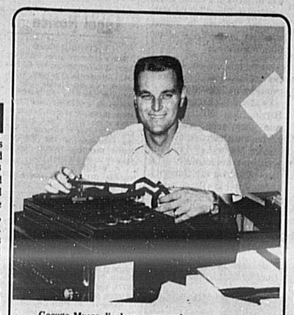
Andrew said he also gave a status report for a sidewalk on 27th Street between U.S. 17-92 and Sanford Ave. for Pinecrest pupils, to Vihlen as requested, but has received no direction.

County Engineer Bill Bush said "the county has all the figures" on the 27th Street project. He said the city's share for labor and materials on the 250 feet portion would be about $1,000.

Bush said the county's share for materials for the 950 feet section would be about $ 2,000, plus labor.

Bush said the county already spent about $10,000 for condemnation proceedings for right-of-way from Sanford Avenue to the east side of Pinecrest school.

City Commissioners Julian Stenstrom and Gordon Meyer said the 27th Street project has been bouncing back and forth from the city to the county for nine years.



George Myers displays recovered stereo equipment

Lake Mary Sleuth Recovers Equipment

By AUDIE MURPHY
Herald Staff Writer

LAKE MARY — Investigative work by the one-man detective force of the Lake Mary Police Department has resulted in the recovery of over two-hundred dollars' worth of stereo equipment.

Lawrence Stephan Sassman, 18, 162 West Wilbur Ave., reported to police Tuesday afternoon that the stereo equipment had disappeared after he had accepted a ride from his home to a local convenience store from three youths in an automobile.

Sassman said he discovered the stereo equipment was missing when he returned to his residence.

According to police officials, an intensive investigation conducted by Patrolman George Myers brought results within 24 hours. The stereo equipment was recovered and charges are pending against one youth.

"This case is very significant because it's the first real case we've had to deal with since I was assigned detective duties on a part-time basis," Myers said.

Myers, 35, said he assumed the duties of part-time detective at the beginning of October.

"Before that," he said, "we had to patrol all the time because there were only a few people in the department. Now with five people on duty, we can have one person performing this kind of follow-up on these cases."

Some May Pay More

County Tax Bills Out Today

By JOE ASKREN
Herald Staff Writer

Seminole County taxpayers may receive their 1975 tax bills in time for Halloween, Mrs. Sally Lipsey, assistant tax collector, said today.

No tricks, and the only "treat" involved, Mrs. Lipsey said, is no increase in taxes unless a property owner's assessed valuation went up 30 per cent or more.

"If a person's reappraisal increase of his property was 30 per cent or less, there is no increase in taxes," said Mrs. Lipsey.

Tax bills are being put in the mail today, she said.

Mrs. Lipsey said 62,283 bills on property valued at $1.4 billion are being mailed. She said the office of Tax Collector Tray Ray should receive some $23,663,315.30 from taxpayers this year, considering the discount schedule for early payment.

She explained that taxpayers will receive a four per cent discount on their taxes if they mail in their payment before the end of November, a three per cent discount if they return it before the end of December, a two per cent discount if they return it before the end of January, and one per cent discount if they pay the bill before the end of February.

"We go by the postmark on the envelopes to determine the discount," said Mrs. Lipsey.

The full amount is due in March and taxes become delinquent April 1, she said.

The biggest slice of revenue goes to the county school system. County taxes range from a low of $14 for each $1,000 worth of property — $8.60 to the school system and $5.40 for county operation — to a high of $20.33 per $1,000 worth of property.

The difference depends on where you live in the county, and taxpayers in Sanford pay an additional $6.33 for each $1,000 worth of property, she explained. Your taxes will be higher than the base rate if you live within one or more special taxing districts, such as a fire or street lighting district.

Residents in the county's six municipalities will also receive their city tax bills along with the county bills. A breakdown of where a person's taxes go will be included in the bill, she said.

Mrs. Lipsey also said 21,300 notices with tax breakdowns are being mailed to property owners who hold their own mortgages. Those who haven't received their tax bills by Nov. 15 should contact Ray's office.

FORGET-ME-NOTS FOR VETERANS

Sanford Mayor Lee Moore proclaims Saturday Forget-me-not Day when forget-me-nots made by disabled veterans will be distributed by Disabled American Veterans and Auxiliary members who will collect donations for use in veteran's rehabilitation. $300,000 Additional Cost Cited

Utility Firm Bond Sale Approved By County Board

By ED PRICKETT
Herald Staff Writer

Seminole County officially entered the utility business Tuesday when the county commission approved the sale of $2.4-million in bonds to finance the purchase of Indian Hills and Consumer Utilities.

County officials estimated the 7.35 per cent interest rate paid the Orlando firm of William R. Hough & Co., cost the county's taxpayers an additional $300,000 more than the same sale would have cost earlier this year when the county attempted to have the bonds validated in circuit court.

But the bond validation was blocked by a suit signed by Casselberry Mayor Bill Grier, a suit county officials claim was "harassment" and did nothing but cost the taxpayers a lot of money.

The issue centered on thousands and thousands of dollars the county already has paid owners of the two firms because the Grier suit delayed the purchase, which, by contract, held the county liable for default payments in the event the sale wasn't consumated after the bond validation hearing.

Bill Dale, the county's director of environmental services, said Tuesday the 7.35 interest rate will cost an additional $260,000 over and above what the sale would have cost in January when Dale speculated the bonds could have been sold for a low of 6.2 to a high of 6.8 per cent.

In addition county officials estimate $90,000 in default payments will be paid owners of the two firms.

Grier says he acted on behalf of city council. The mayor also says he doesn't believe Dale has adequately checked the interest rates because Grier says he doesn't believe the market has changed that drastically.

But commissioners, one by one, have severely criticized the Grier suit, calling it irresponsible and a ripoff of the taxpayer's money. One reason for the suit is Casselberry, for two years, had attempted to purchase the two firms prior to the time the county entered the picture.

George Bland, a Hough representative, also is the financial consultant for the county.

Dale says Bland gave up a $25,000 fee because the firm is the county's consultant, but Dale also said the firm stands to make about $60,000 off the bonds. Of course, Dale noted, the firm must take the risk of selling the bonds on a market made shaky by New York and other conditions.

Dale said the county hopes to close the purchase agreement within 30 days. Dale and County Fiscal Agent Emmett Taylor highly recommended the commission accept the Hough proposal, rather than take the bonds to market.

The motion to accept the Hough offer was made by Commissioner John Kimbrough and seconded by Commissioner Harry Kwiatkowski who quipped: "I've never made a $3.97-million second."

Commissioner Dick Williams asked whether the county was getting the best deal possible?

Price tag for the two utilities is $3.97-million.

DBA Has Banquet At Inn

Almost 200 members and guests enjoyed an evening of good fellowship at the Downtown Business Association (BDA) Banquet held in the Holiday Inn, Sanford Marina, on Wednesday evening.

This is the first time the DBA has had a board of directors and full slate of officers, most of whom attended the banquet including Forrest Foggin, president; Earl Black, vice president; Brad Hollingsworth, secretary; Bill Brown, treasurer.

Also Ralph Larson, Dave Farr and Sara Jacobson. Bill McLaughlin and Mike Capko were unable to attend.

Guests included Sanford Mayor Lee P. Moore; Sanford City Commissioners and other city officials and area business persons.

The purpose of the banquet, said Foggin, was "to draw our business people together in a spirit of good fellowship."

This objective was reached during an evening which began with a social hour from 6:30-7:30 p.m. followed by the pledge of allegiance led by City Commissioner Gordon Meyer and invocation by Rev. J. T. Cosmato and finally the informal buffet-style banquet.

Emcee at the event was Greater Sanford Chamber of Commerce Executive Manager Jack Horner.

Pot Smoking Report Probed

Oviedo High School Principal Keith Stone today was investigating complaints of pupils smoking marijuana on a local school bus recently, Fred Taylor, transportation director of the Seminole County School system, said today.

Taylor said the reported incident involved bus No. 23 and its first year driver, Jack Grass, and complaints from other pupils.

Taylor said this is the first such incident he could recall "and we're not sure this one involves maijuana or not." He said no evedence of the pot has yet been found. He said School Board Attorney Douglas Stenstrom will be consulted on the matter.

No smoking of any type is permitted on any school bus, said both Taylor and Superintendent W.P. "Bud" Layer.

Layer said if a pupil is caught smoking on a school bus he can be suspended for up to 10 days and can be expelled from school if drugs are involved. Layer said he can't remember when pot smoking was reported on a bus, but there are "always rumors."

"I can't remember when we last expelled a pupil for smoking pot on a school bus," said Layer.

Both Layer and Taylor said local law enforcement personnel are permitted to board a school bus, if a driver suspects there's a problem or if there is a disturbance.

"If there's a disturbance on a bus, we would welcome assistance from the police to board a bus," said Taylor.

"We'll cooperate with the law enforcement officials if it occurs, and we always have," said Layer. He said police assist school bus drivers in other disturbances about twice a year.

Layer said drug abuse programs are in all the county's schools.

"Drugs in schools are becoming less frequent, but we still have it," said Layer.

Voters Must Return Cards

Some 11,500 Seminole County citizens will have their names purged from the voter rolls unless they immediately return renewal cards to Seminole County Supervisor of Elections Camilla Bruce's courthouse office.

Mrs. Bruce said today that her office mailed out 45,543 voter renewal cards nearly a month ago, advising voters to sign and return the cards within 30 days to keep their voter registration in force.

Today

Picking the winners is no easy task, as the Evening Herald's Fearless Football Forecasters have found out all season long. For this week's predictions, consult Page 1-B today, but don't bet the ranch on it.
