ATTEMPTED TRAIN WRECK NEAR DUSSELDORF YESTERDAY CARRYING FRENCH HEADS

GEN. WEYGAND AND MINISTER OF PUBLIC WORKS, LE TROCQUER

OTHER INCIDENTS

Of Sabotage Such as Wrecking Signal Boxes on the Ruhr Railroads

(By The Associated Press) DUSSELDORF, Jan. 30.—The French occupational authorities today began confiscation of the large warehouses containing general merchandise and food stuffs in Duisburg and Dusseldorf.

DUSSELDORF, Jan. 30.—An attempt to wreck the train on which General Weygand and the minister of public works, Le Trocquer, were travelling to Dusseldorf from Paris was reported as occurring at Duren last evening. Other incidents of sabotage such as wrecking signal boxes on the Ruhr railroads also came to the attention of occupation officials. The train on which the officers were riding was halted in time to avert hitting an obstruction placed on the tracks.

WASHINGTON, Jan. 30.—Charges that women employees of telegraph offices at Dusseldorf in the Ruhr "have been driven with blows of riding whips from their offices," made in the German foreign office statement received today at the German embassy here.

PARIS, Jan. 30.—Twenty Germans are reported to have been killed yesterday when French soldiers were obliged to use their arms to protect themselves against a violent demonstration in Baphard, near Bingen, says the Echo de Paris. The newspaper says it has been impossible to obtain confirmation of the report on account of the interruption of communication with the Rhineland.

It is asserted that the demonstration originated through the arrest of the burgomaster of Bophard. The Ruhr valley is virtually isolated and communication for the most part is cut off and a censorship has been established. Berlin was out of touch with Essen and other Rhine points after 5 o'clock Monday evening.

The railroad strike is in full swing and the telephone and postal services are badly crippled.

The French authorities are engaged in the systematic arrest and expulsion of German officials, state and municipal, for refusal to obey orders. A number of papers in the occupied territory have been suspended by order of the Rhineland high commission for brief periods of publication of prejudicial articles.

The British parliamentary labor party wants parliament to be called earlier than February 13 so that the situation arising out of Franco-Belgian occupation of the Ruhr may be given full consideration.

Premier Poincaré announced that French troops will remain in the Ruhr until reparations are paid, but no longer.

Fritz Thyssen who is in Berlin, announces that "the people of the Ruhr for a compact unit in their determination to resist the French encroachments and under no circumstances will they give in."

The Council of the League of Nations will take no part in the Ruhr controversy beyond assisting in a settlement if requested by the international powers.

PARIS, Jan. 30.—The resistance that the French are now receiving from the Germans in the Ruhr would have been encountered at the end of a moratorium had one been granted, a high official of the French foreign office declared last night.

Furthermore, the moratorium would have facilitated military preparation on the part of Germany as well as the economic interests of that country, consequently the French would have been in a much worse position than they are now.

"We have lanced an abscess," he continued, "and we shall stick by the case until it is thoroughly cleaned and healed."

There is an air of great confidence in official circles that favorable results will follow the action in the

STATE ROAD FROM RIVER TO THE LINE

WILL HAVE ROCK SHOULDERS AND ASPHALT SURFACE SOON AS POSSIBLE

John Meisch, J. G. Ball, E. A. Douglass, Forrest Lake and H. C. Dabuse have returned from Tallahassee where they appeared before the state highway department and obtained their promise to put on rock shoulders and asphalt top on the road from Lake Monroe to the Orange County line. This was good work on the part of this committee and they deserve to be complimented by the citizens of Seminole county.

This road is part of the St. Johns Scenic highway and from Jacksonville runs through the prettiest part of the state via Palatka and Seville and DeLand on to Sanford and Orlando. Some time ago the road department agreed to put on the rock shoulders if Seminole county would pay the freight on the rock and the work was started and the rock has been put on the road from the Orange County line almost to Robinson's Springs but was stopped when the convicts were taken to some other part of the county. The rock would be of no use without an oil or asphalt top and would soon blow away and the committee went to Tallahassee to ask that more rock be sent here and that the department take care of what had been put down and would be put down by a good top of asphalt. Their request was granted and they returned home well satisfied with their good work and feeling that Seminole county will soon have a broad highway of sixteen feet all the way and with the brick in the center and the State Road Department can put down a new and better road. This is one of the state aid roads secured by Forest Lake several years ago and should have been taken care of years ago. The commissioners have not felt like doing anything with it when state aid had been promised and it has been allowed to fall into decay, and is one of the worst roads in the county. Now that the state will furnish the rock and asphalt the road should be made a good road for several years to come.

URGE EARLY MEETING

(By The Associated Press) HAMPTON, Va., Jan. 30.—Military state and county authorities of this city and adjoining territory were requested at noon by the commanding officer at Langley Field to try and locate Captain D. Cota, chief of finance officer at the field and guard of three men who drew \$43,000 from the First National Bank here at 9:15 this morning and have not been heard from since. The drive from Hampton to Langley Field requires only ten minutes by automobiles. Local police are of the opinion that the car was held up by bandits.

Ruhr. Even the closing of French blast furnaces on account of the lack of coke is being looked upon as merely a necessity and temporary inconvenience that must be suffered in order to attain the end in view.

It was said by a high official yesterday afternoon that the leaders of the iron industry had been consulted on this question and they had agreed that they would rather draw their fires now than see all hopes of collecting the reparations due France fade away.

BORAH RENEWS PROPOSALS FOR ECONOMIC CONFERENCE CALLED BY PRESIDENT

Which Has Already Been the Center of One Senate Storm

(By The Associated Press) WASHINGTON, Jan. 30.—Senator Borah renewed in the senate his proposal for an international economic conference called by President Harding. The conference proposal which already has been the center of one senate storm and is expected to develop another was submitted this time by the Idaho senator as a separate resolution which at his own request was immediately laid aside for consideration after pending farm credits legislation is out of the way. In order to prevent any undue delay Borah indicated that when the proper time came he probably would move to add the resolution as an amendment to some bill already under discussion.

TWENTY MEN ON TRIAL FOR CHICAGO FRAUD CASE, MILLION DOLLARS INVOLVED

Prominent Politicians Indicted Ask for Immediate Trial

(By The Associated Press) CHICAGO, Jan. 30.—Early trials for twenty-four men indicted on charges of conspiring to obtain million dollars of the Chicago Board of Education funds anticipated here when it became known all those indicted including Fred Laundin, reputed political boss, are on their way here to submit to arrest and ask an immediate hearing. Virtus Rohm Laundin's nephew has surrendered to Los Angeles police, his assistant, General Brown, announced.

NO NEW DEVELOPMENTS IN THE PEABODY CASE, SEARCHERS COME HOME

There have been no new developments in the Peabody case since late yesterday afternoon at which time the searching party from this city branch places in all the cities around augmented by many from Daytona Sanford. His business necessitated and New Smyrna gave up the search, his being on the road considerably and the officials seem to think that if he was collecting at New Smyrna Peabody was killed on the road that and Daytona on Saturday of last his body was either thrown in one of the woods when he disappeared from view, the numerous creeks or layous on his car was found near the Daytona, the Daytona and New Smyrna road or carried back in the dense woods and hidden and only time will tell just what happened to him. Mr. Peabody was the head of the Sanford, Bel-Jar Coffee Co., and was a Sanford boy who bore an excellent reputation as a business man and citizen. He left here many years ago and went to Ocala where he managed a picture show, going from there to New York where during the World War he served his country and about one year after the war came here with his wife and little son to reside. He was in the grocery store of Deane Turner for some time afterward associating himself with Mr. Snyder, of the Bel-Jar

MURDOCK ASTONISHED AUDIENCE LAST NIGHT AT THE PARISH HOUSE

Murdock, known as the "White Mahatma" astonished and mystified and greatly pleased a good sized audience at the Parish House last night in his "Night in the Orient" and with all the mystery of the East. He answered the questions propounded to him on cards by various people in the audience and the way he read their past history and foretold the future made even the most skeptical think that Murdock was the best of the kind ever seen here and that his stuff was too deep for the mind to grasp just how it was accomplished. His ability to tell the initials, name and residence of those in his audience who had asked various questions on the cards, his delving into their innermost secrets, his perfect knowledge of their lives, was simply great and his work last night was of such a superior order that the house will be crowded tonight with those patrons who saw him last night and many who have heard about him and his marvelous ability.

Psychic phenomena it is and of the highest order. He even made the editor of the Herald guess the color, the number and the day of the week that Murdock had already written on a card and placed in a sealed envelope and allowed another one in the audience to hold. Maybe you know how it is done. Maybe you do not. However, see Murdock tonight and you can be assured of a real entertainment and maybe you will know more or know less when you have seen the work.

Missionary Institute At Methodist Church This Week

Beginning tomorrow, Wednesday night at 7:30 and continuing through Friday the Methodists will conduct a Missionary Institute. The Presiding Elder, Rev. J. F. Bell, will be in the chair. Wednesday the noted and well beloved evangelist Dr. Jno. B. Culpepper will preach and his son as singer will render some of those soul touching songs. Dr. Culpepper is known far and wide and is a great preacher, generally preaching to thousands at every meeting.

Dr. J. M. Glenn of Savannah, Ga., Centenary Secretary and a great and forceful man will preach Thursday night. I. P. McCord, a banker of Jacksonville connected with the People's Bank there who is not a preacher but a very wide awake layman who has a vision of what our church can and should do will be on the program and figure largely in its success. Other speakers of note are Rev. Ira F. Patterson, of Jacksonville, a former beloved pastor of Sanford church, but who is now in the great Centenary work. Prof. F. M. Williamson, of Lakeland, our conference Sunday school field worker who is establishing training schools for the Sunday school workers at various places over the state that our Sunday school work may be done more efficiently. Rev. J. A. Hendley also has a part in the program, and others. The full program has not been sent but these are some of the prominent speakers.

This is a meeting every Methodist and every Methodist inclined should attend, no matter what your work in the church.

Services begin Wednesday night at 7:30. Preaching by Dr. J. B. Culpepper, Jun. B. Culpepper, Jr., singer.

Thursday at 9 a. m., program on Lay Activities and a most important meeting.

Friday, Feb. 2, the meeting opens at 8:30 a. m. Laymen, both men and ladies, are urged to arrange their business and home cares so that they may attend these uplifting and most interesting and important meetings.

University Y. M. C. A. Is Good Samaritan Says The Students

To the Students of the University of Florida the University Y. M. C. A. is the "Good Samaritan" because of the numberless ways that this organization lends a helping hand.

President A. A. Murphy, yesterday said this about the work carried on by the University Y. M. C. A.

"When a boy is ill and is taken to the University Infirmary, it is the Y. M. C. A. secretary who calls on him daily, bringing him magazines, newspapers and other little comforts. In case of serious illness, the Y. M. C. A. keeps in close touch with the sick one's family, relaying news to the anxious parents and bringing to the sick bed words of comfort and encouragement from the loved ones at home."

"When a student falls down in his studies it is the Y. M. C. A. that first tries to help him back into good standing."

"If a boy is up against it financially, it is the Y. M. C. A. that locates work for him, and in many cases actually loans him money so that the boy's education may not be interrupted."

The Y. M. C. A. at the University of Florida, under the leadership of George L. White, general secretary, is promoting the ideal that every man should have a strong body, a trained mind and a christian experience in order that he may go forth better prepared to meet the problems of life.

Clean, wholesome athletics is fostered, efficiency in class room urged, and systematic bible study promoted. The best available ministers are brought before the students to the end that the students may become better acquainted with the problems of today.

Harbor Oaks Offers Home to Hardings For Their Vacation

U. S. Budget May Balance at End of Current Year

For First Time Since Fiscal Year 1916, Says Harding

(By The Associated Press) WASHINGTON, Jan. 30.—Representatives of the Government "business organization," assembled for consideration of budget problems, were told yesterday in a message from President Harding that for the first time since the fiscal year 1916, the Nation's income and outgo probably would balance at the end of the current fiscal year on June 30. The president's message, delivered by Vice-President Coolidge, announced instead of a deficit of \$998,000,000, estimated at the beginning of the fiscal year, the economy drive had forced a reduction to \$92,000,000 ten days ago.

Mr. Harding urged a continuance of the efforts at curtailing expenditures and eliminating waste, declaring that by such continued attention would the balanced budget be realized June 30. Supplementing the president's plan, Brigadier General Lord, director of the budget, called on all government workers to subordinate local, departmental or sectional requirements to the greater good of the whole people, admonishing the officials that "US" meant the United States and not "us."

General Lord reported that the final estimate of expenditures for the new fiscal year surveyed January 15, was \$3,574,554,732, while the forecast of receipts on the same was \$3,481,904,959. This leaves, he pointed out, a deficit of slightly more than \$92,000,000, and expressed the belief that within the five months of the fiscal year ahead in which to cut away less than one-fifth of the amount eliminated in the excess expenditures in the first seven months of the twelve months period, the deficit could be eliminated. He declared, however, that the tireless, unremitting efforts of the president to accomplish the result must have the support of every public servant.

Sealey's Appointment High School Inspector, Has Been Approved

(By The Associated Press) TALLAHASSEE, Jan. 30.—Appointment of Prof. Sealey as state High School Inspector recently announced by Supt. of Public Instruction Cawthon, has been approved by the General Education Board of New York it was announced. The board maintains an office though it functions under the superintendent of public instruction.

HON. TELFAIR STOCKTON HERE

The many friends of Hon. Telfair Stockton were glad to see him here this morning and to learn that he will open an office here for the Prudential Insurance Company. Mr. Stockton is one of the most prominent figures in the state in political affairs and the Herald would like to see him announce his candidacy for Governor of Florida. He would make a wonderful race for as a successful business man he is far and away ahead of anyone that has announced and it is about time for Florida to have a real business man for governor and one who is not a politician. The many friends and the warm supporters of the late John Stockton would welcome the return of the Stockton clan to politics for they are clean and they are square and you can depend upon them.

"WOLF" MUST SERVE

(By The Associated Press) WASHINGTON, Jan. 30.—Holding that his motion for a writ of habeas corpus was for the purpose of delaying his incarceration and was without merit, the supreme court yesterday ruled that David Lamar "the Wolf of Wall Street" would be arrested to go to the Mercer county jail and begin serving at once the sentence imposed upon him on a charge of conspiracy in restraint of foreign commerce.

Over Affair Which Usually Takes Place Before Outbreak of War in Turkey

(By The Associated Press) LONDON, Jan. 30.—Interest in the near east situation revived by delicate state affairs at Lausanne were intensified here by a Times dispatch from Constantinople reporting the departure of Mustafa Kemal Pasha from Smyrna for Angora amid such demonstrations as usually take place before the outbreak of war. The Turkish nationalist leader is reported to have visited the grave of his mother who he swore he would rather join her in death than "allow the sovereignty which the Turkish people had reconquered at the price of blood to be imperiled. He is also said to have taken an oath by his mother's soul that he would defend the liberties of Turkey."

LAUSANNE, Jan. 30.—Constructive influences are being brought to bear on the various delegations at the Near East peace conference to reduce to a minimum the chances of a rupture of the conference Wednesday, when the allied draft of the proposed treaty of peace is officially submitted to the Turks.

Although the Allied front still remains unbroken there are clear indications that France and Italy, at least will not subscribe to any proceedings having the ring of an ultimatum to the Turks when the draft treaty is handed out.

As for the Turks, they are beginning to show evidences of despair. The treaty was presented to them privately yesterday. It consists of over 150 typewritten pages, and contains many clauses to which they are absolutely opposed and many others, inserted at the last minute, which they say they are unable to understand.

The Angora delegates have worked themselves into such a state that they are now distrustful of anything and everything the allies put forward and they hesitate to make definite decisions.

If the Ottoman delegation returns an answer Wednesday which will permit further negotiations on the vital, essential clauses, it seems likely that the French and Italian delegations will be ready to remain in Lausanne for a limited period, even if Marquis Curzon adheres to his announced program of leaving Friday night.

The idea of an adjournment is becoming repugnant. It is pointed out that such a step might well be interpreted as a rupture and that despite the terms of the Mudania armistice, this would open the possibilities of renewal of hostilities, from even the consideration of which all Europe shinks.

A delicate situation at Lausanne and alarming possibilities are liable to follow a brusque rupture of the conference; this is further emphasized by the reports relating to the movement of troops.

Turkey and Russia were alleged to have already signed a special accord whereby Russia would hasten to the aid of Turkey in the event of a resumption of hostilities and occupy Mesopotamia, wresting this disputed territory from the British.

The Russians and Turks, however, have declared this report to be an invention, but these and other rumors are causing the statement to hesitate to make decisions which would menace the continuance of the conference.

KNIGHTS TEMPLAR ATTEND CHURCH

There was a fine attendance of the Knights Templar at the Congregational church on Sunday.

The church was nicely decorated with flowers and a splendid musical program arranged.

The sermon delivered by the Rev. P. C. Burhans was a masterly effort, abounding with facts and wholesome truths, giving evidence of deep study and broad reading and was devoutly received.

Taylor Commandery No. 28, K. T. extend to Dr. Burhans and the members of the Congregational church their sincere appreciation and thanks for the kind invitation to attend services at their church.

The next regular convocation of Taylor Commandery will be held on next Friday evening, Feb. 2, commencing promptly at 7:30.

The Order of the Temple will be conferred on several candidates, and there may be a possibility of a visit from the Grand Commander and his staff.

The Entertainment committee of which Sir Knight Edward T. Lane is chairman has promised some good things in the eating line for that night.

A cordial invitation is extended to all sojourning and visiting Knights Templar to be present and enjoy the unbounded sociability that prevails in Taylor Commandery and witness the conferring of the Orders.

FAMOUS, "MAN WHO KNOWS" HERE TONIGHT AT PARISH HOUSE

WILL CONTINUE ENGAGEMENT TUESDAY AND WEDNESDAY NIGHTS ALSO

Tonight comes an attraction which is heralded as the season's greatest amusement event: it is the appearance here of the nation's foremost mystic Murdock, "The Master Mind", whose astounding demonstrations of the occult has made his name known to amusement lovers and scientists, the world over.

During his mysterious entertaining "Crystal Seance," amid the splendor of an elaborate oriental setting, Murdock proves himself the peer of all mystics, for it is here that he answers with amazing rapidity and accuracy questions of any nature asked by members of the audience through his phenomenal crystal readings.

Murdock, who was born of American parentage in Upper Burma, India, received his first revelation at the age of seven and has since that time devoted the major portion of his life to the study of the occult upon the very ground of his birth, India. He states that there is nothing supernatural about his work and during a recent interview said, "I would like to have it distinctly understood that though undoubtedly possessed of an inherent psychic mentality, there is nothing of the super-natural entering into the study of the occult, and all people unconsciously exercise the principals to a greater or less degree in their daily lives and routine, while it remains dormant in the majority of cases, yet I believe that in the re-development of these latent powers, lies the real secret of success."

The same production and effects which have characterized his great success in other cities will be shown here intact, starting tonight for three days only at the Parish House in benefit of the Men's Club.

WASHINGTON, Jan. 30.—Acceptance of Henry Ford's Muscle Shoals offer was urged before the house agricultural committee today by Gray Silver, of the farm bureau federation at hearings on a resolution authorizing the government to purchase \$10,000,000 worth of Chilean nitrates for distribution in this country.
Mr. Silver said the Muscle Shoals plant would be able to produce nitrates at six cents a pound instead of 22 cents now charged by the Chilean product. He did not oppose the resolution but insisted that a source of supply was available to this country.

Knott Candidate For Comptroller It Is Alleged
(By The Associated Press)
TALLAHASSEE, Jan. 30.—The appearance at the capital of W. V. Knott, superintendent of the state hospital at Chattahoochee renewed speculation as to the successor of Ernest Amos, comptroller, should he resign. Knott indicated his visit was strictly a business one in connection with the hospital.

CONTRIBUTIONS TO WILSON FUND TAX EXEMPT
Says Commissioner Blair in Statement Today
(By The Associated Press)
WASHINGTON, Jan. 30.—Commissioner Blair of the Internal Revenue Bureau has ruled that contributions to Woodrow Wilson made subsequent to December 26 last year are legally free from application of the income tax. The ruling represents a reversal from the bureau's previous stand because of the incorporation one December 26 of the foundation.

Bill to Regulate Commission Men Operating in Fla.
REPRESENTATIVE KENNERLY, OF PUTNAM, WILL INTRODUCE ONE
(By The Associated Press)
PALATKA, Jan. 30.—A bill to regulate commission merchants operating in this state, and an amendment to the present fertilizer law to prevent the use of inferior fillers, will be introduced in the next session of the legislature by Representative C. H. Kennerly, of Putnam county, he stated to the Associated Press recently.

The commission merchant bill which has been placed in the hands of the printer, will provide for the licensing of commission merchants. Mr. Kennerly stated. Every merchant of this class will be required to make bond with the commissioner of agriculture of not less than \$5,000. The commissioner of agriculture would be empowered to either revoke or refuse to issue a license in case of violation of the provisions of the bill.
The amendment to the present fertilizer law would prohibit the use as a filler, of any substance "worthless as a fertilizer." This is understood to have particularly to do with the use of sand for such purposes.
Mr. Kennerly stated that in drawing up the two pieces of legislation he had had the hearty co-operation of L. M. Rhodes, state market commissioner, J. L. Sheppard, president of the State Farmers' Union; Henry McKenzie, representative from Putnam county and several others, including "one of the most reliable chemists in the state."

JUDGE TO ASSIST CLEARING DOCKET IN DADE COUNTY
(By The Associated Press)
TALLAHASSEE, Jan. 30.—The first action taken to relieve the congested court dockets under the validating interpretation recently given by the supreme court to the law providing that the governor may assign circuit judges to another circuit without divesting the resident judge of his jurisdiction, came today when Governor Hardee directed Judge C. L. Wilson, of the 14th circuit, to proceed to Dade county and assist in clearing the docket there.
The Dade county circuit is understood to have a crowded docket and it was from this county that the case recently originated to test the provisions of the law under which two circuit judges may have concurrent jurisdiction in the same circuit. The court held the law to be valid, the resident judge being without authority only in any case set forth in the executive order to come under the specific jurisdiction of a visiting judge.

ANTI-SALOON LEAGUE LOSES ROCKEFELLER SUPPORT IN NEW YORK
NEW YORK, Jan. 30.—The financial support of John D. Rockefeller, senior and junior, has been withheld from the Anti-Saloon League of New York state, it was learned today after the appearance of Raymond D. Fiedler, representative of the Rockefeller family, at the district attorney's inquiry into the financial affairs of William H. Anderson, state superintendent of the league.
Both the Rockefellers ceased contributing to the league several months ago, it was ascertained after their representatives were informed league officials were splitting commissions on contributions.

MANY MEN HEARD TALK BY DR. KING
POWERFUL MESSAGE DELIVERED TO LARGE CROWD OF MEN AT BAPTIST TEMPLE
Without mincing words, but hitting the nail on the head, and without any attempt to entertain or to work upon the emotions of men, in a masterful manner Dr. F. D. King, who is conducting the successful series of evangelistic meetings at the First Baptist church presented a powerful message to an immense crowd of several hundred men last night, two men later responding to the appeal of the preacher for those who desired to unite with the church.
A song service of forty minutes preceded the sermon and afforded a variety of music such as is seldom heard in a similar service. Opening with a negro spiritual solo, "Do You Love My Lord?" the singer immediately captured the hearts as well as the undivided attention of his great audience of men and boys. He soon had everybody in a good humor as he led them in the singing of "What a Friend We Have in Jesus," and "The Sweet Bye and Bye," and then proceeded to sing in an inspiring and delightful fashion, "The Holy City," which proved to be a favorite. A male quartet, consisting of Messrs. Hawkins, Lovell, Henderson and Wolslagel sang two appropriate numbers and several other hymns were sung by the congregation of men that comfortably filled the lower floor of the church auditorium.
Another solo, "An Old Account Settled," by Mr. Wolslagel, completed the musical portion of the program. Dr. McCaslin was the efficient accompanist of the evening.
"Adam in Town Again" was the subject announced by Dr. King for the special sermon to me and he spoke in part as follows: "What is the greatest need of France? was the question asked of Napoleon, and the general replied, 'French mothers.' Yes, but what kind of mothers? The kind that would give France or the world the best quality of men needed. The greatest need of Florida, Sanford, or the nation today is men who will hold their honor dearer than their own lives, men who will try to touch the lives of their brother men in a manner such as to make them better and stronger, and men who are willing to make Christ supreme in their lives. As big as are their resources there are tasks and places for men. Testing times come and men need to develop strength that will help them out of dilemmas. Giants, well equipped for battle, are all about us and if not defeated they will defeat us. Some of the modern giants are temper, tongue selfishness, greed, passion for money and unholy desires. God never intended that men should be beaten down or slaughtered by them.
In the service to song at the meeting tonight Mr. Wolslagel will be assisted by Prof. Henry Simonis, of Orlando. It is probable that a visiting pianist will also be heard.

ALLEGED THEFT OF AN AIRPLANE AT ARCADIA

Lane was arrested yesterday at an aviation field where he was dismantling the missing plane, according to the sheriff.

PROHIBITION RAIDS ARE FREQUENT IN MIAMI
(By The Associated Press)
MIAMI, Jan. 30.—Over fifty war-campaign being conducted by federal prohibition agents to make the city dry. Raids are being conducted by a working under the direction of the divisional prohibition agent.
A total of seven raids in Miami and vicinity and the issuing of thirty warrants for violations of prohibition laws are the results of activities of forces under A. B. Stroup, division federal prohibition chief, of Jacksonville, operating here.
The "offensive" began with the raiding of a big house outside the city limits Saturday night. So unexpected was the raid that a former prohibition agent was reported as being at the gate passing the guests through, and a deputy United States Marshal, stationed at Miami, was reported as being a guest at the place.
With the arrival of the agents a buzzer was sounded in the road house and immediately all employes feverishly began to destroy all liquor in reach. Women were frantic in efforts to escape publicity, and one employe attempted to bribe the officers, they said. One employe was arrested and a quantity of liquor seized.

DUCKS AND DRAKES
They Cause Sleight Trouble in "Back Home and Broke"
Thomas Meighan, Paramount star, couldn't be stuck on a definition of the term "Ducks and Drakes," which is used in referring to worthless stock certificates—shares in gold mines that never panned out, airplanes that never flew, in wonderful inventions that never got anywhere. It was several "ducks and drakes" that brought about his numerous troubles in "Back Home and Broke," his new Paramount starring vehicle, specially written for him by George Ade, which is presented at the Princess Theatre two days, Friday and Saturday of this week. Alfred Green, who has produced other Meighan successes, was the director and Lila Lee appears opposite Mr. Meighan in an unusually strong role. The supporting cast is far above the average.

SEARCH FOR CASHIER AND MISSING \$50,000
(By The Associated Press)
NEW YORK, Jan. 30.—An international search for Mortimer E. Lautman, Pittsburgh department store official who disappeared here Thursday while carrying upwards of \$50,000 was instituted by police who ordered his arrest "for grand larceny."
Telegrams asking detention of Lautman were sent police in principal cities of the United States and Canada after Sol Michaels, New York lace manufacturer complained he had given the missing man \$20,000 for stock in the Kaufman Brothers store Pittsburgh, but had not received the stock.
Lautman was general merchandise manager for the Kaufman firm.

DUVAL HIGH WILL PLAY IN SANFORD THIS COMING FRIDAY

Double Bill Expected as Girls Will Play the Jacksonville Fair Ones

A basket ball bill that will no doubt be the most important game of the season insofar as Sanford is concerned, will be staged at the Parish House this coming Friday night, as Duval will be here to give the Celery Feds a chance to redeem themselves and thereby keep them eligible to play in the state meet at Gainesville. Duval had little trouble in downing the Sanford team in Jacksonville and from the dope being spread up that way they now feel that it will take little effort to do the same trick in Sanford, but Coach Wilkinson and his team are not the least discouraged over the outlook and if they do not win, they will let Duval know that they have met a sure enough team. The Duval girls will also play in Sanford that same night, and this double bill will be well worth the fans consideration.

road this week for two games. On Friday they are booked to play Sanford, and Saturday will doubtless take on Deland. "These two contests are both return games, and in the combats staged here in Jacksonville Duval had no trouble winning the honors. "The Tigers have no alibi to offer for the defeat at the hands of the Greenbacks Saturday. It was just a case of a good team going up against one equally good, if not better, and the South Jacksonville five went home with the big end of a 26-21 score. It was the first defeat for Duval in many months. "Duval Tigerettes were also out of luck Saturday night, bowing to the Orlando High girls 23 to 15."

CLEVELAND CLUB PLAYS 12 GAMES Meets Five National Clubs During Stay at Lakeland

LAKELAND, Jan. 30.—A circular issued by the Cleveland baseball club has just been received giving the games which have been scheduled for the spring training of the team. Lakeland is the training camp, and Frank Van Dellen, the Cleveland ground keeper, returned to Cleveland this past week after having put the local park in shape. Lakeland has an excellent field, and this will prove a decided acquisition for the local club after the big leaguers leave. The Cleveland squad will commence arriving in Lakeland the first of March and will make headquarters at the Hotel Thelma. The first exhibition game scheduled is with the Cincinnati Reds on March 15th at Orlando. The Reds come to Lakeland and play a return game on March 19.

The following day Tris takes his team to Bradentown and the St. Louis Cardinals are the opponents of the Indians. On March 22 Cincinnati is again encountered at Orlando. Wilbert Robinson brings his Brooklyn team to Lakeland on March 24th, and the next day Cincinnati plays in Lakeland.

On March 26, the Phillies come down from Leesburg, and on the following day the Indians journey to Clearwater and take issue with Brooklyn. On March 28, the St. Louis Nationals are entertained in Lakeland, and on March 29 the trip to Leesburg is made to play the Phillies. The last Lakeland game is played with Boston on March 31, and on April 3 the Indians make their last Florida appearance in St. Petersburg, opposing the Braves.

After this game the Indians start north, and play games in Atlanta, Troy, Ala.; Mobile and New Orleans. The Cleveland team opens up the American League season in Cleveland on April 18th. The circular in addition to the above information gives the statistics of the players, such as their weight, age, length of service with the Cleveland team, etc.—Tampa Times.

FOR THE MOVIE FAN

"PINK GODS" tonight. Bebe Daniels, James Kirkwood and other stars will carry the big rolls in this play.

It is a drama with breath taking climaxes and will be followed by a Snub Pollard comedy.

Osborne will allow some family to see the show free each night and the name will be published in these columns.

And if Mr. and Mrs. Sardy Anderson will clip this out and present it at the box office tonight they can see "Pink Gods" without charge.

Watch this column every day; your name may be next. This pass must be used on the day it is published and for the show that night only. A new name will be published each day.

Tomorrow night, "THE INFIDEL" with Katherine McDonald. This play is hailed by critics as Miss McDonald's crowning success of her career.

It will be up to Sanford Friday night.

They must put it over Duval if they expect to contend for state honors.

Duval is coming here looking for something easy after the defeat they handed out at Jacksonville, but we must show 'em.

The Green backs from South Jax handed the Duval team a slow one last week. Maybe the fans will remember the game between the Masked Wanderers and the Greenbacks.

And there are those that know that Sanford can play as good as the Masked Wanderers and are looking for them to trim Duval this trip.

The Sanford girls will also have a battle on their hands when they play the Duval girls. The girls had a bad week last week but should come out from under it this week.

Doc Nance has been made 1923 manager of the Tampa Smokers. A good selection, we'd say. Doc is popular not only with the fans but his players as well. We're betting on Doc.

It won't be long now until some of the major league exhibition games will start in this state and then we will see how much out of luck we are in not having a ball park to invite some of them here.

"Flu" Still Dangerous Now Prevalent Throughout Nation Dread Scourge Again Makes Its Appearance RE-CU-MA, The Wonderful New Medical Discovery—A Boon to "Flu" Sufferers. Newspaper dispatches from all sections of the country declare that the recent reappearance of "Flu" is general throughout the United States. While not so virulent in its attack as in former years "Flu" is still to be reckoned with as one of the most serious and treacherous of all the diseases of modern times. The best precaution against "Flu" is a strong and healthy body. Take plenty of exercise in the fresh air and sunshine. Eat sparingly. Drink an abundance of good water. Keep the bowels open. If you have had "Flu" or if you are weak, nervous, and run-down—if you do not sleep well at night—if you suffer from indigestion,—or if your stomach is out of order—take RE-CU-MA—that wonderful new tonic. It will regulate your stomach and bowels. It will build up your system, and it will enable you to regain your health and strength as nothing else will. RE-CU-MA is quick and positive in its action. You feel better almost immediately after beginning the treatment. Forty-eight hours often works miracles, as many will testify who have used this marvelous remedy. IF YOU HAVE HAD "FLU" OR "GRIPPE" BY ALL MEANS TAKE RE-CU-MA. RE-CU-MA is on sale in Sanford at the Union Pharmacy and at almost all good drug stores.—Adv.

Probable Earthquake May Be Located and Save Humanity Loss

Carnegie Institute Thinks They Will Be Able To Locate Quakes

WASHINGTON, Jan. 30.—While man can never hope to harness the forces of nature to the extent of preventing, or even forestalling earthquakes, it is not impossible, says the Carnegie Institution of Washington, that scientists may be able to devise methods of forestalling their disastrous effects by the selection of the safer locations for cities and by appropriate methods of construction.

Earthquakes have occurred ever since the crust of the globe began to form. Indeed, the condition of instability is the earth's normal one and man long has suffered in consequence. To say then that what mankind has characterized as a phenomenon which is as sure and as inevitable as an eclipse of the sun, might be eluded finally, seems almost an impossibility. Yet such thorough studies of the nature of quakes and their occurrence have been made in recent years that in future years, construction of great buildings, dams and even cities, may be affected by recent discoveries in geology.

Earthquakes are a natural occurrence in certain regions where the mountains are alive, Carnegie officials declare. There are districts, like the Atlantic coast, where the mountains are dead, but around the Pacific and in a great belt which reaches across Asia and the Mediterranean, the mountains are still growing. In their growth large masses comprising many thousands of cubic miles of rock are pressed against each other, but are held by friction until the strain becomes too great. Then they slip and what is called an earthquake occurs. This is the modern theory of earthquakes. It has been developed thru prolonged studies and demonstrated by observations of many minor quakes and of the lines along which they occur.

The earthquake plane is often spoken of as a fracture but it is not really a break, a recent statement of the institution declares. It is the surface between the great masses which never have been united, but which for ages have been slipping past each other; and where this plane comes to the surface of the earth there is a line called an earthquake rift. The greatest of these rifts in the United States, so far as known, extends along the coast ranges of California for a distance of six hundred miles. It passes just west of San Francisco, to the east of Los Angeles, and disappears in the Gulf of California. Along the San Andreas rift, as it is called, the earth shakes have occurred at different times in different sections.

South of that stretch for some 300 miles there has been no movement since 1857 when a severe shock occurred, the mark of which may still be traced across the desert plains like an irrigation ditch. Still further south there have been several recent shocks, but none of great violence, although there is evidence of considerable activity in the section east and west of Los Angeles.

For some years now, the Carnegie Institution has been deep in the study of earthquakes, and only recently organized the advisory committee in seismology, calling on the cooperation of many other scientists to aid in the research. Its activities have resulted in the discovery of many facts of practical importance to mankind in this connection. The cooperation of the United States Navy was obtained in making a depth measuring survey over the large area adjacent to the California coast, and while the survey was made to find the trend of the earthquake rifts, it resulted in important data for mariners and map makers. Through the financial assistance of the Carnegie Foundation, of New York, Dr. Bailey Willis, seismologist of Stanford university, was sent by the institution to Chile to study the effects of the recent earthquake there and survey, the aim being to arrive at the probable causes.

It might be asked what value to mankind will result from the expenditure of great sums for the study of a natural occurrence which, it is admitted, can never be prevented, and which may continue to exact its toll of human lives and property. In view of the fact that scientists can now locate the certain lines along which quakes have occurred and seem sure to occur again in the future, they are able to speak of live earthquake rifts as they speak of live volcanoes. It is known by the fact of the volcano eruptions that the occurrence of eruptions within a historical time that it is potentially actually active, and much the same may be said of the earthquake rifts.

They are lines of special danger on which no schoolhouse, skyscraper or dam should be built. They should be avoided, as far as possible, by railroad lines, bridges, aqueducts and other public works, and yet it happens that they often run through valleys where such works are suggested by the conditions of the ground. As long as builders remain ignorant of their location they run the risk of inviting

destruction. It was added; but it is not difficult by proper study to locate these lines of danger on a map and to make the information public for the benefit of engineers and others. Indeed, there is now being published an earthquake rift map of the state of California, showing the lines of active rifts and also of faults that are supposed to be inactive, as a result of the work carried on in cooperation with the institution's advisory committee.

That is how the engineers who build out the new water supply line for San Francisco were able to remove it from the former line which followed an active rift for miles, and locate it along a mountain range, where if it moves at all, will move as a block and not become dislocated or destroyed.

Runaway Lumber Market Becoming Very Real, Report

Situation Is Gradually Forcing The Market Out of Bounds

The danger of a runaway lumber market is becoming very real, says the American Lumberman. Realizing the harmful effects it would have on trade, the industry is making every effort to avoid it, but the situation is so shaping itself as to force the market out of bounds. Demand is record breaking, and continues to expand. During the second week in January normally one of comparative dullness, bookings by subscribers to the Southern Pine Association reached the second highest point in years, while all records for orders and shipments in the Douglas fir industry were smashed. Manufacturers of other softwoods make similar reports.

Great countrywide building activity during the coming spring and summer is forecast, while the general industrial outlook was rarely better. This indicates that lumber consumption this year will be great. Unsold stocks are rapidly diminishing and buyers are rushing into the market in order to cover their future requirements as far as possible. Prices are moving upward steadily, and no weakness that may cause a reversal of the trend is discernible anywhere.

The heaviest softwood demand is for building items, due not only to prospective requirements but also to the fact that current retail sales are unprecedentedly heavy for this season. Railroad, oil field and other industrial requirements expand the mills' order files considerably, and the export movement is sizable.

Hardwood manufacturers say that they sold far more lumber during the first three weeks of this month than they did during the first six weeks of 1922. The automobile industry continues to buy and contract for enormous quantities of hardwoods. Exhibitors at the recent furniture shows have returned with large sheaves of orders, and the furniture industry's spring and summer production is likely to be the largest in history. Flooring and interior trim manufacturers, in the face of a voluminous current business, are making every effort to build up manufactured stocks in preparation for spring. Box and crating makers report continued excellent business; miscellaneous consumers have needs that aggregate into an important volume and the export demand is considerable. The shortage of dry stocks is becoming intensified, the movement of green lumber is growing an apace are advancing steadily.

Why the Nation Demands Calumet

because it has more than the ordinary leavening strength; it raises millions of bakings every day to a light perfectly baked perfection that cannot be equaled. —because it contains white-of-egg—the vital element that gives the housewives protection against using a baking powder that has lost its original leavening strength. It assures light, tender, tasteful things every time you bake. —because it is economical—pure, sure and wholesome. That's why the sale of Calumet is over 150% greater than that of any other baking powder. A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

Should a Bank Loan Money for Advertising?

By FESTUS J. WADE President, Mercantile Trust Company of St. Louis

When we strike at advertising, meaning, of course, efficiently applied advertising, we strike at salesmanship, and the heart of business. For the banker to do anything to retard business right now is suicide.

When the merchant pulls down his shingle and waits for business to come to him in a buyers' market, we laugh at him, and call him a poor business man.

When he is forced to cut down one of his best methods of selling because his banker considers advertising an unnecessary item of expense and refuses an otherwise deserved loan purely on that principle, it is my humble opinion that we should laugh at the banker, and feel sorry for the merchant.

Don't mistake my meaning. It is a basic banknig principle that a loan must be well secured, and a firm cannot borrow merely because it is a big and successful advertiser. But the fact that it is a believer in advertising and wants to use a portion of the money for that purpose should never stand in its way when it calls on the Bank's credit department.
