BIBLE VERSE FOR TODAY

WHO IS YOUR NEIGHBOR? - Le. 19:13: Thou shalt not defraud thy neighbor.

If you don't like animals' your elf, don't pick on the other man's dog. In Sing Sing yesterday a man was sentenced to death for killing another man who made fun of his dog.

According to Rep. McDowell of Pennsylvania, "an astonishing number of undesirable aliens have been getting into the United States." And most of them are spending the winter at Miami Beach.

Too late with too little, seems to be the prospect for the Marshall Plan, as the weight of the testimony concerning it all seems to be in its favor. Yet, the delay in the action on it, as well as the probability that the amount demanded will be materially reduced, seems likely to eliminate whatever chance the plan might have had for saving Europe from Communism.

All is not gold that glitters, nor does welfare legislation always turn out to be for the welfare of the people. Up in Boston, Mass. a woman with about four children has discovered that the \$60 a week she gets from the Welfare Board when her husband is not working is more attractive than the \$30 a week he is paid for his labor. So she feeds him whiskey to get him drunk, then has him locked up, and while he is in jail she draws \$60 a week. As soon as he gets out again, she buys him some more liquor. All this, according to the United Press.

One man's meat is another man's poison, so when the United Nations debated the question of studying Communism in the United States and Capitalism in Russia, a lot was said by the principal speakers, one American and the other Russian, about "poison." Said Harvard's Zechin Chafee, "What is poison in one country turns out to be the chief favorite dish in another country. The poison here is Communism and I have to spend a great deal of time trying to persuade people that they ought to allow Communism to be put in print and to be put in oral discussions and even to be discussed in educational institutions." And what is more, there is not much discussion on capitalism in Russia.

Memories of old timers stirred when they read in the paper, the other day that Joe Tracy, now a graying 52-year-old, has been arrested by the FBI for robbery of the bank of Williston. Tracy was just a kid when he first began to operate with the Ashley-Mobley gang who terrorized the lower East Coast of Florida for nearly a score of years. Old John Ashley was the first of the gang to break into the public prints when he murdered an Indian and stole his furs. After playing hide and seek with the officers, who did not seem to want to catch him, he more or less gave himself up and went to live in the Dade county jail for a while. But it is said he did not like "the food there, and so after a while his mother, Bob, brought the rest of the gang into town and that is out with the sheriff and his deputies, getting John out of jail, but only at the sacrifice of Bob's life. It was not until many years later, after countless bank robberies, holdups and murders, that the gang was virtually wiped out at the Sebastian River bridge by an avalanche led by the sheriff of Palm county.

Self-Starting Swiss

Switzerland is still a land of hot water, clean linen, and plenty of good food, writes the well known reporter, Huntington Smith, from Gstaad. This surface prosperity is based solidly on a very real attainment, and Communism is said to be made no headway there.

At the top, the government is a democratic one, modeled after our own, except that instead of a President, the executive branch consists of a seven-man board, whose members rotate in the chairmanship. Communists, whose only stronghold is in the southwest in the French corner, have seven seats out of 194 in the Parliament. Their numbers are not increasing in Switzerland, because nearly everyone in that country owns property, in the form of a home or a business, and all are self-reliant and individualistic. With representatives of three nations and two religions, they get along harmoniously.

The men can take all the credit for this prosperous regime, for women have never had anything to say in governmental matters there. In Zurich recently, two propositions were put before the electorate, one advocating complete suffrage for women, and the other offering them a ballot covering religion, education and social welfare. Both were turned down unequivocally.

Observers may well wonder about these small pockets of prosperity in the midst of the chaos of Europe: Switzerland, Luxemburg, Belgium, and to a lesser degree, Holland. What is their secret? Perhaps it lies in that very self-reliance and individualism which Mr. Smith noted in Switzerland.

Population Growth

"The population of the United States probably will total 150,000,000 by the end of 1950," Dr. Louis I. Dublin, Second Vice-President and Statistician of the Metropolitan Life Insurance Company forecasts. "This figure will be reached much earlier than had been anticipated a few years ago. The extraordinarily rapid rise in births since 1940 has completely upset earlier forecasts of our population growth and of the future maximum population of the country."

"It now appears that the census to be taken in 1950 will show an increase of about 17,000,000 since the last census in 1940. This will be almost double the gain between 1930 and 1940. These estimates allow for an expected decline in the birth rate, as well as for under-enumeration of children in the census. The prospective population gain in the 1940 decade is about on a par with the high rate of population gain during the first three decades of the 20th century. Between 1900 and 1930 the increase in population averaged nearly 16,000,000 per decade, with the maximum increase of 17,000,000 recorded between 1920 and 1930."

"The population gain of the 1940's is almost entirely by natural increase. In four of these years the number of births topped 3,000,000, exceeding all previous records. At the same time the death rate has declined. Consequently, the excess of births over deaths has been high, and, for the decade as a whole, will be about 16,000,000. Immigration will contribute only about 1,000,000 of the total population increase between 1940 and 1950. This is in contrast to earlier decades when immigration was much heavier, and contributed a large part of our total population gain."

Palestine Fighting

(Continued from Page One) reported killed in such activities. "The American Consulate General has been instructed to announce the view of the United States government that American passports are not granted to American citizens for the purpose of proceeding abroad to engage in foreign military service. The United States government most strongly disapproves of and opposes any interference or participation by American citizens in foreign political activities and especially of participation in foreign armed forces."

"The American Consulate General has, therefore, been instructed by the Department of State to take up the passports of those American citizens who are serving in a military capacity in Palestine and, in addition, to state that while engaged in such service American will not be regarded as entitled to recognition as citizens. American passports valid only for direct travel to the United States will be returned to such persons only after termination of their military service. After they have made definite arrangements to return to the United States."

The death toll in the partition warfare between Arabs and Jews reached 1,000 today. This meant the death of one person virtually every 90 minutes since the U. N. voted partition, Nov. 29.

Stenstrom Runs

(Continued from Page One) of the American Legion, Veterans of Foreign Wars, and Disabled American Veterans. He is a Mason and a member of the Junior Chamber of Commerce and National Legal Fraternity of Sigma Nu Phi. In announcing as a candidate, Mr. Stenstrom stated: "If the people of Seminole County honor me by election to the office of County Judge, I shall exert every effort to administer the affairs of the office in a prompt and efficient manner and to see that the public is given every courtesy and consideration."

"As the office of County Judge is charged with the responsibility of the Juvenile Court, it shall be my intention to work vigorously in cooperation with City and County officials, as well as with churches, schools, and civic groups in combating juvenile delinquency and in promoting all possible measures which will result in the reduction of juvenile delinquency in Sanford and Seminole County."

Radio Permits

(Continued from Page One) ernment by unconstitutional means.

Asked by Rep. Wigglesworth (R-Mass) whether he did not know that Communists advocate overthrow of the government, Durr replied: "No, I do not."

He noted that "the Supreme Court has refused to take that view" and added that the court also has ruled that the FCC cannot consider the political beliefs of any applicant for a radio station permit.

The discussion started over questioning about the FCC's attitude toward FBI reports on applicants for station permits.

Durr cited one FBI report which said merely that an individual "was reported, in 1944, to have been in contact with another individual who was suspected of possible pro-Russian activities."

Another report, he said, cited a speech in which Senator Bricker (R-Ohio) had labeled the Democratic Party as the "Hillman-Browder-Communist party, with Roosevelt as its founder, and Mr. X was mentioned as one who helped in Roosevelt's campaign."

The "Mr. X" was the man who had asked for a station permit. "When you get that kind of thing," Durr commented, "you begin to wonder whether the FBI is dealing with political theories or with national security."

"When the FBI is engaged in an investigation of a violation of the law I have no reason to lack confidence in it. When the FBI gets into the field of opinion, I do greatly question its competence in that field."

Democrats Fight Bill

(Continued on Page Five) they represent the tax relief this bill offers.

Democratic leaders, meanwhile, worked feverishly to come up with a measure they can support as a substitute for the GOP bill. But such a substitute has no chance of House passage.

Some Democrats were reportedly favoring an effort to add onto the GOP bill a \$3,200,000,000 corporation tax.

Meanwhile the House Appropriations Committee brought in the first big money bill of the 1948 session with a 6 percent cut in President Truman's spending estimates.

Among other things, the committee whacked the President's own emergency fund from \$1,000,000 to \$700,000. It said he has been using it for things which "cannot be classified on any reasonable basis" as emergencies.

The bill is to provide funds for the Presidential office and 22 other government agencies for the fiscal year starting July 1. The committee recommended a total of \$991,588,551. The President's estimate, through the Budget Bureau, was \$1,047,798, from the \$400,000 requested for 1948.

The committee cut \$100,000 of the President's Council of Economic Advisers.

It threw out a \$504,000 item to get ready for any possible emergency which might make it necessary to draft men into the Army again.

The committee said it does not believe the draft training records is "warranted" at this time.

Explaining the cut in the President's emergency fund, the com-

Lana Turner Stars In Picture At Ritz

"Green Dolphin Street," which brings Lana Turner, Van Heflin, Donna Reed and Richard Hart to the Ritz screen in a spectacular picture, is a M-G-M prize-winning novel, has enough emotional intensity, dramatic impact and adventurous scope to provide the material for two or more motion picture hits.

Here is a powerful dramatic tale laid against such colorful and picturesque haunts of the world as a Channel Island, seaport of the 1840's, swashbuckling adventure in China, action aboard a magnificent old-time Clipper ship which ultimately is dashed against the rocks in a storm, and a terrific climax of an earthquake and an uprising of Maori natives in an early New Zealand lumber settlement.

Against this arresting background is told the story of the ruthless and bewitching Marianne Pastourel, who snatches the young and handsome William Ozanne from under the very nose of her devoted sister and who, through a series of compelling circumstances, persuades him to marry her against both his wishes and that of a mysterious adventurer, Timothy Haslam, forced to exile in New Zealand because of the blood on his hands. How this man's life against a creosote of suspenseful adventures makes for one of the most exciting romantic narratives ever brought to the screen.

It said the money should be supposed to "provide for emergency uses affecting the national interest of security."

It said the money should be supposed to establish "boards or commissions" or for other non-emergency uses to which similar funds have been put "during 1948 and in previous years."

The \$700,000 recommended was still \$200,000 more than the President got last year.

(Continued from Page One) have gained will better qualify me to perform the duties of this office and enable me to render a greater service to you citizens of Seminole County and to all the people of the State of Florida. "I intend to wage an extensive campaign and discuss with you all the major issues with which we are confronted.

"I shall appreciate the continued support of my friends." Mr. Odham was born in Brunswick, Ga. on Sept. 6, 1919, the son of Mrs. H. B. Odham and the late H. B. Odham. He moved to Sanford with his family in 1926 and graduated from Seminole High School in 1937. He worked his way through Louisiana College, graduating in 1941 with a B. A. degree.

In 1941 he married Miss Dorothy Tudor, daughter of Mr. and Mrs. S. W. Tudor of Pineville, La. They have one daughter, Francis Elizabeth. Following a tour of duty with the U. S. Navy in the European and Pacific theaters where he served with the rank of lieutenant he returned to Sanford in 1945, became a distributor for Gulf Oil, and purchased a home at 1909 Magnolia Avenue.

He was selected last week as the outstanding young man of 1947 in Seminole County. He is president of the Junior Chamber of Commerce, past commander of the Veterans of Foreign Wars, director of the Sanford Baseball Association, director of the Fernand Loughton Hospital Association and of the Seminole County Chamber of Commerce, and a member of the American Legion, Kiwanis Club, the Elks and the Baptist Church.

ANNUAL Go-To-Church Sunday The First Baptist Church SUNDAY, FEBRUARY 1st COMMORATING THE ORGANIZATION OF THE CHURCH FEBRUARY 3rd, 1884 WELCOME

Oviedo, Seminole's Second City, Abounds With Various Products

With its fertile celery farms and citrus groves, comfortable homes and pleasant surroundings, Oviedo, second largest city in Seminole County, is one of the most progressive and substantial cities in the State of Florida. The rich, black muck lands requiring little fertilizer or irrigation, annually produce hundreds of cars of some of the finest celery grown anywhere.

There are four pre-cooling plants in or near Oviedo to take care of the huge amount of icing for shipping. These include the one operated by the Lake Charm Fruit Company; another by A. Duda & Sons in nearby Slavia, the Eiras Plant and the Florida Pre-Cooling Company.

To process and ship the large celery crop there are two packing houses in the Oviedo area. One of these is Nelson and Co., of which B. F. Wheeler, Sr. is president and B. F. Wheeler, Jr. vice president. F. A. Pierson is packing house manager. The company, which was incorporated in 1923, grows its own fruit and celery and handles consignments for individual growers. They also operate a hardware and farm implement store of which O. R. Burnett is manager.

The Wheeler Fertilizer Co., a subsidiary, mixes crop fertilizer. After the original plant was destroyed by fire in 1946 a new plant, one of the most modern and up to date in the State has just been completed which has a capacity of 25,000 tons per year. J. P. Cox is manager of the fertilizer plant and George Bailey is assistant manager. Frank Talbott, associated with Nelson and Co., is also mayor of the City of Oviedo.

The Lake Charm Fruit Co. is headed by H. A. Ward, Sr. and H. A. Ward, Jr. The orange packing house is managed by Joe Beasley, Sr.

One of the largest industries in the state is the Duda Tire Sales, managed by Andrew Duda, Jr. The company, located in Orlando, converts airplane tires for

use for passenger cars, busses, tractors, sprayers, trailers and other farm and grove equipment. Realizing the value of the airplane tire for the use of equipment for A. Duda & Sons, growers and shippers of nearby Slavia, the Tire Sales was organized with a view to helping others who needed tires for farming or hauling.

Large cattle interests are owned by A. Duda & Sons and Charles S. Lee of Oviedo.

One of the largest individual growers of celery, citrus and vegetables is the Charles T. Niblack Company of which L. E. Jordan is office manager. Mrs. Paul Johnson is bookkeeper and John Coulter, Jr. is sales manager. There are several large orange groves individually owned by Howard Hunt, Charles Lee, Ben Ward, T. L. Lingo, Sr., T. L. Lingo, Jr., G. L. West and B. G. Smith.

Observance Urged Of Oviedo Fire Rules

The people of Oviedo were urged today to observe the fire rules as prepared by Fire Chief Ward by Mayor Frank W. Talbott who warned that a serious accident may result if the public continues to hamper the efforts of the fire department.

Fire Chief Ward has requested that the public be asked to obey the rules as follows:

First: If you are driving a car and hear the fire siren, pull up as close to the curb as possible and STOP. (Double park if necessary) and remain in that position until the fire truck has passed where you are located.

Second: Do not follow the fire truck or go to fire, as there has been considerable confusion that hampers the firemen in getting their equipment lined up at fires.

"This applies to every one, excepting members of the Fire Department, or any one whose property is involved in a fire," said Mayor Talbott.

Formation Of Bank In Oviedo Seen As Progressive Move

Steps taken in Oviedo in the past year and a half was the formation of the Citizens Bank in Oviedo, capitalized at \$50,000. A great asset to the growth and progress of the city of Oviedo, renders one of the greatest services in the community. Total deposits at the close of business on Dec. 31, 1947 were \$1,303,543.41 and total assets of \$1,378,889.96. B. F. Wheeler, Sr. is president of the bank and Charles G. Shaffer, cashier. Directors include J. Wheeler, Mr. Shaffer, C. R. Clonts and R. W. Estes.

Realizing the need for a fire department, the City of Oviedo recently purchased a new fire truck and adequate fire fighting equipment. W. A. Ward, Sr. is the fire chief and Roy Clonts, Jr. is assistant fire chief.

Two new highways serving Oviedo have been constructed in the past year. One through Geneva, was constructed by the L. L. Hall Construction Co. of Orange Park, at a cost of \$90,000. A new, wide, asphalt road, serving as a connecting link to Oviedo with the coast and inland highways, with a new bridge over the Econlochatchee River, leading to Chuluota was constructed at a cost of \$200,000.

A traffic light has been installed in the center of Oviedo to control the constantly moving traffic through there.

Woody's Radio Service, operated by J. W. (Woody) Shuman, doors the illis of the radios in the community. In addition to servicing all makes of radios Mr. Shuman also handles refrigerators, washing machines, outdoor motors and household electrical appliances.

Paul H. Campbell, contractor and builder also specializes in special cabinet work and operates a workshop in the garage underneath his modern three-car garage apartment. He has contracted for a number of buildings in Sanford during the past year, including several homes and the Florida Greyhound Bus Station.

Many new homes and business buildings have been built in Oviedo in the past year, lending beauty and modernity to the already growing and thriving community. One of the most modern and attractive of the new buildings is the Standard Filling Station which was recently opened. New homes include a large ranch type home that is under construction for Charles T. Niblack. It is of concrete blocks and is spacious and beautiful in its surroundings on the Sanford Highway, among tall, graceful moss covered oak trees. Over 25 new homes have been constructed or are under construction in the area, approximating several thousands of dollars in cost. A large warehouse has been constructed recently by Leon Ragsdale.

Other filling stations serving the people of Oviedo are the Pure Oil Station, managed by Henry Wolcott and the Texaco Station, operated by Ben Wainwright.

Operating all over Central Florida, the Oviedo Lumber Company, located near Oviedo on the Orlando Highway is owned and operated by Tom Williams, assisted by his sons, Ted and Bob. Thad Lingo, City Clerk, also has a real estate and insurance business in Oviedo. He was formerly secretary and treasurer for Nelson and Co. and upon his retirement opened the real estate office.

Chives may be grown in a pot indoors in winter and used for flavoring scrambled eggs, cottage cheese, cream cheese, salads and other dishes.

The colored section. It was quickly extinguished and the home of Rosa Smith was saved.

Oviedo Fire Dept. was called to the D. B. Gammas store Thursday afternoon and quickly extinguished the fire caused by a truck hitting one of the gas pumps.

Churches, Clubs Help Religious And Intellectual Life Of Oviedo

The intellectual life of Oviedo is stimulated by the Woman's Club, one of the most active organizations of the city's feminine residents. Mrs. Lena I. Hunt is president. One of the first members of the club was the late Mrs. Theodore Mead, wife of the famed Oviedo naturalist for whom the Mead Botanical Gardens in Winter Park are named. Always an active supporter, she donated many useful things to the club including its piano. Oviedo also boasts a well stocked

public library which furnishes many hours of reading pleasure to old and young alike. Mrs. George Morgan is librarian. Mrs. George C. Meana is president of the Garden Club that sponsors many beautification projects. One large, well lighted modern school serves the white community of Oviedo, which takes its students from the first through the twelfth grades. Shuffleboard courts, baseball diamonds and tennis courts on the

school grounds provide recreation. A new baseball diamond at the school was a community project at an estimated cost of \$1,000. Walter A. Teague is principal of the school. Two churches in Oviedo take care of the spiritual life of its people. The Rev. Lionel Nelson, who formerly was an announcer on the radio, is pastor of the Methodist Church. Mrs. J. H. Staley is president of the Women's Society of Christian Service. Rev. H. H. Link is pastor of the Baptist Church, which ranks among the highest in the state in the Baptist Association. President of the Woman's Missionary Union is Mrs. Fred Pierson.

Two railroads serve the community, the Atlantic Coast Line and the Seaboard Railroad. J. B. Jones is postmaster of the Post Office which is located on the Main Street. Nine grocery stores in the business section and a good many in outlying sections assure the people of a wide variety of staples and in addition to meat departments in many of the grocery stores there is one large modern meat market, operated by Mac McKinnon. The Oviedo Variety Store, selling nationally advertised brands, is operated by A. L. Ray. The Young Harris Supply Company handles builders supplies, hardware and household appliances. Mrs. June Spencer, beautician, keeps the ladies of Oviedo young

and beautiful in her shop located on the highway to Geneva. Dr. J. W. Martin is Oviedo's general and kindly doctor. In memory of his late wife he presented recently an electric organ to the Baptist Church. The American Legion Post 243 in Oviedo is headed by J. M. Malcolm while the Masonic Lodge has for its Worshipful Master Charles West, Jr. Mrs. C. R. Clonts, Jr. is leader of the Girl Scouts which boasts a large membership. A basketball team, sponsored by the American Legion has for its coach Paul Miller. Joe Leinhardt is owner of a large nursery in Oviedo, where flowers and plants are grown and

shipped to points all over the United States. Mrs. Tim Tietema is owner of the plant making "Tim's Honey" which is managed by her son-in-law, Phil Bekard. Mr. Packard was elected to an office in the Bee Keeper's Association. One of the most popular places in the summer is the municipal swimming pool, completed in 1941 at a cost of \$10,000. The pool ranges in depth from 3 1/2 feet to 9 1/2 feet and is 35 feet wide by 75 feet long. A dance floor near the pool is a favorite place for the younger set. Sweetwater Park, in which the pool is located, is an ideal place for picnics. Tables are provided under

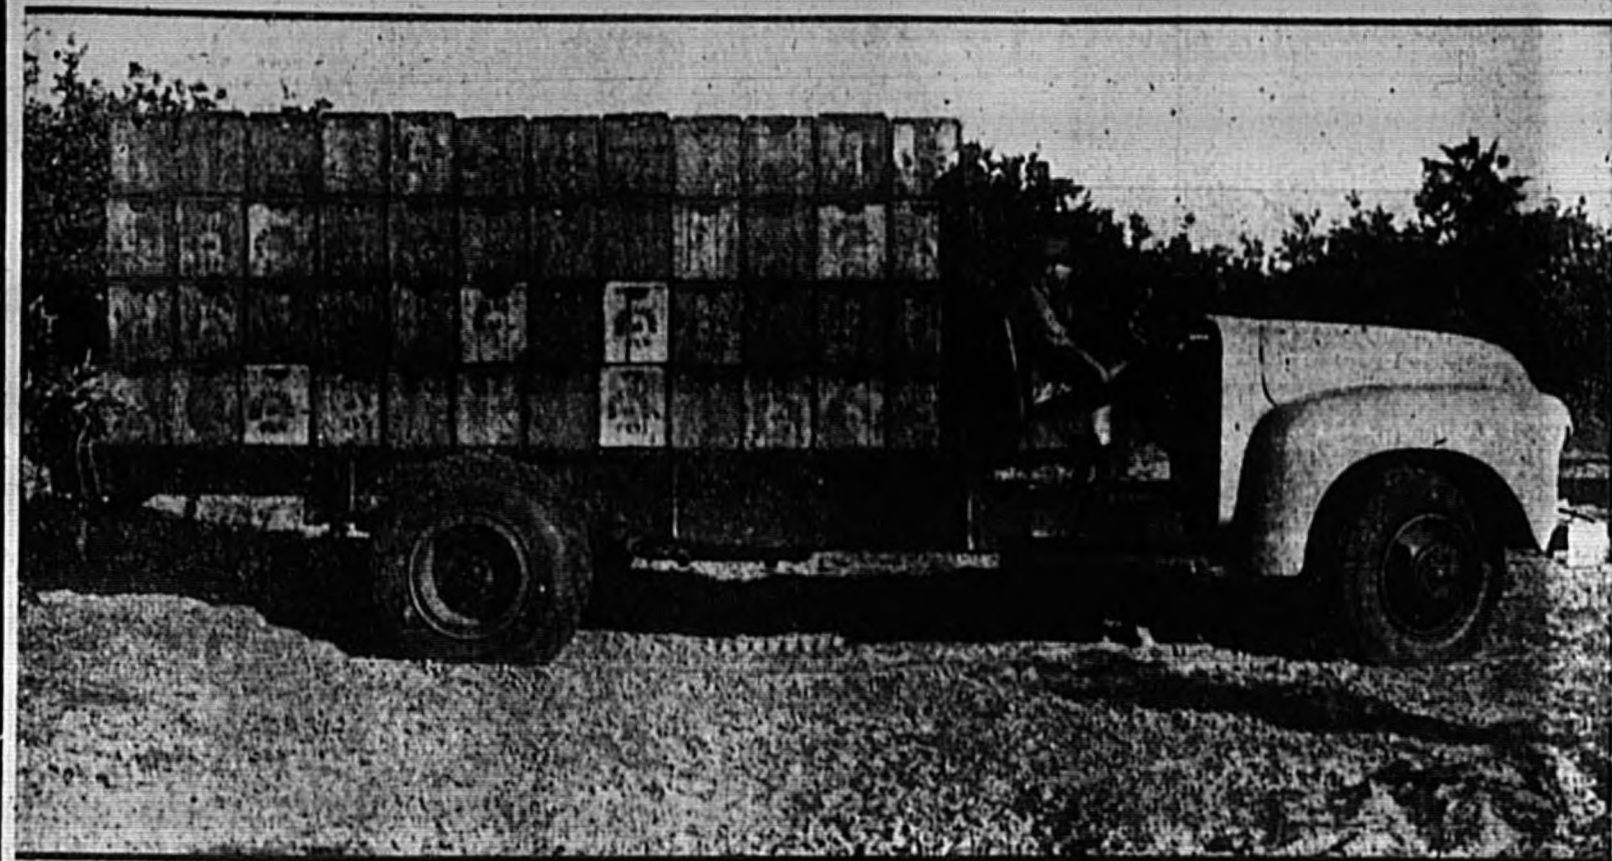

Eddie Miller To Be Offered To National League Clubs Today

NEW YORK Jan. 30 (AP)—Eddie Miller, slick fielding shortstop, has talked himself out of a job with the Cincinnati Reds. The 25-year-old infielder will be offered to any other club in the National League today. Club President Warren Giles and Manager Johnny Neun, here for the circuit's annual meeting which starts today, revealed their plans to dispose of Miller in a joint statement yesterday. Informed of Giles and Neun's plans to deal him off, Miller said in Cincinnati, "I thought the Reds would make an attempt to trade me. I think it would be best for

Baer Is Defendant In Civil Damage Suit

LOS ANGELES Jan. 30 (AP)—Max Baer, former world's heavy weight boxing champion, is the defendant in a \$120,000 civil damage suit filed yesterday by Herbert Seal, electrical contractor, whose complaint accused Baer of assault and battery. Seal contends Baer cursed and struck him last Armistice Day in a traffic argument. He asks \$50,000 for his injury, a like amount for his wife, Mrs. Jessie Mae Seal, and \$20,000 for his daughter, Marilyn, 5. Seal charged they were "frightened and terrified" by the alleged assault.

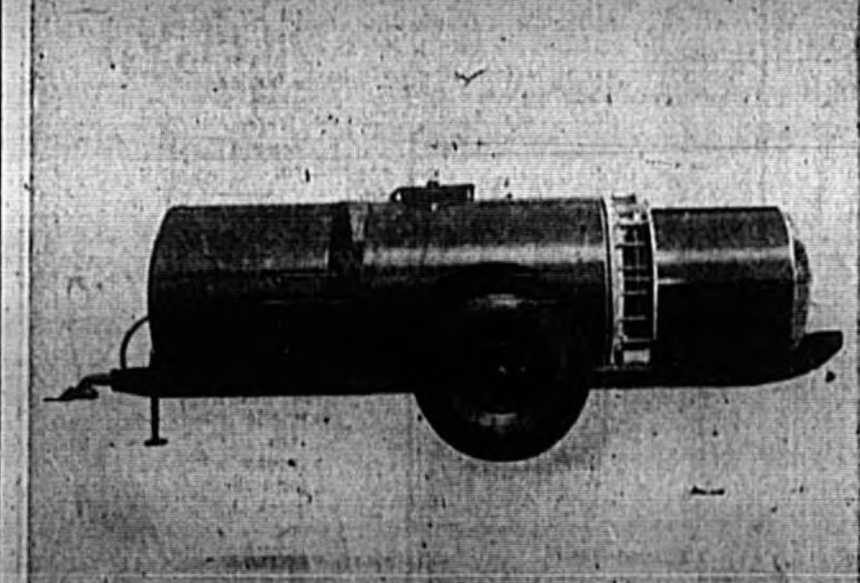

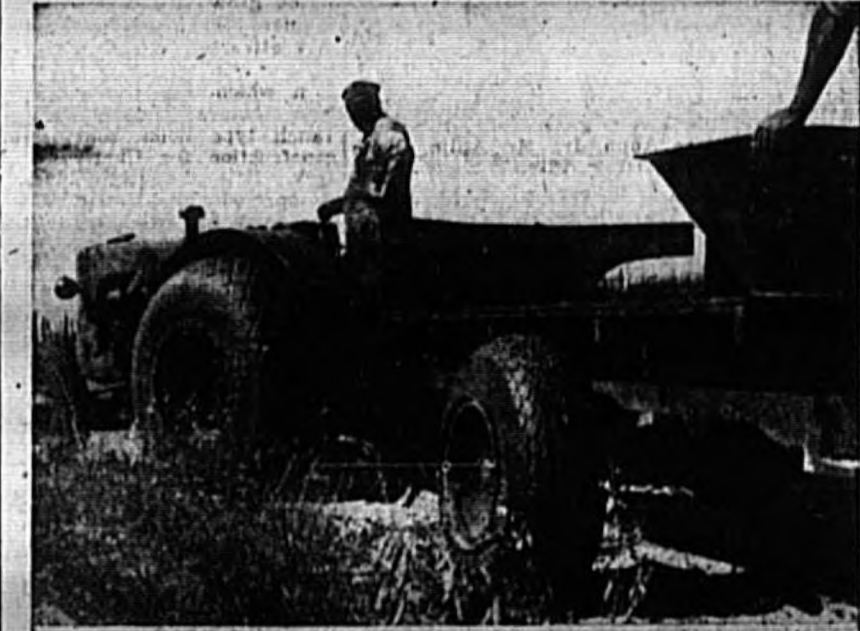

Here's Duda Tire Equipment in Action All Over Industrial Florida

AIRPLANE TIRES COME THROUGH!

By converting Airplane tires to various other uses, The DUDA TIRE EQUIPMENT offers the solution to most of the transportation problems of industry and agriculture, saving time and money for owners of many types of equipment, including passenger cars, trucks, tractors, sprayers, trailers, buses and pickups.

The demand for bigger ply loads and more economical operations have called for bigger truck tires. Turpentine and logging operators as well as citrus, farm and industry users can now experience less time-costing bogdowns and stalls over rough terrain. Farm and grove tractor operators find the going much easier when they have DUDA TIRE EQUIPMENT. The later model sprayers are becoming heavier as they incorporate greater spray carrying capacity and power units. The 1700 x 16 Airplane Tires are now standard equipment of the new Speed Sprayers. Whether pulled by trucks or tractor, heavily loaded trailers offer a tough transportation problem. Big DUDA TIRE EQUIPMENT is helping trailers over all kinds of farms, groves and rough going woodlands. These tires pull easier and carry greater loads for owners at less cost. They have proved very good on logging trailers, cabbage carts, sugar cane wagons and other vehicles moving over swampy or muck land.

Apparently the land shift, sometime during the past 17,000,000 years, had exposed two different types of soil. Pine thrives on the inland side of the prehistoric cliff. Hardwoods and palmetto dominate growth on the coastal side in the rear of Gulf Hammock. Further, geological study proved Vernon's theory.

Gandhi Assassinated

detook this month the last of his many fasts. After five days in which he threatened to starve himself to death, Gandhi broke his fast Jan. 18 on the "pledge and counsel" of friends in both dominions. He said they had assured him of "complete unbroken friendship" between all communities.
During the tense days of his fast, some of the more militant shouted bitterly in the streets and before his living quarters: "Let Gandhi die."
But there was every indication that this was the view of a tiny minority, embittered by the communal warfare.
Shortly after the fast, a bomb exploded near by prayer meeting, also in the Birla Mansion estate, but did no harm. A Hindu was arrested.
Some Hindus, their womenfolk violated in the communal upheavals, has resented Gandhi's pleas for peace with the Moslems.
Gandhi, born to the upper Hindu caste, espoused the cause of the Untouchables in later years. Educated as a lawyer in London, he organized his first civil dis-

He attracted world attention in 1930 by leading 70 volunteers on a march from Ahmadabad to Dandi on the Gulf of Cambay to make salt illegally, in a protest against the British salt tax.
A victim of violence, Gandhi throughout his life urged his followers to adhere to a policy of non-violence, even when the Japanese threatened and actually invaded India. His brushes with the British caused him to spend a total of 12 years in prisons.
"I always get the best bargains from behind prison bars," he once said.
The British treated him with increasing benevolence through the years but as late as 1942, the British Secretary of State

Indian Rioting

As well as Hindus, paid tribute. In Washington President Truman, grieved over the assassination of Gandhi, today was said to regard the Indian leader's death as a tragic loss to the whole world.

President Truman said that Gandhi's sacrifice should inspire the people of all the world to work with increased vigor toward the brotherhood and peace which the Mahatma symbolized.

He issued a statement saying: "This morning when I heard the tragic news of the assassination of Mahatma Gandhi I sent a message to Earl Mountbatten, the governor general of India, expressing my condolences to him and to the people of India."

"Gandhi was a great Indian nationalist, but at the same time was a leader of international stature. His teachings and his actions have left a deep impression on millions of people."

"He was and is revered by the people of India and his influence was felt not only in affairs of government but also in the realm of the spirit. Unhappily he did not live to witness the full realization of those ideals for which he struggled."

"I know not only the people of India, but all the peoples, will be inspired by his sacrifice to work with increased vigor toward the brotherhood and peace which the Mahatma symbolized."

Senator Barkley (Ky), Democratic leader, said: "I regard the assassination of Gandhi as a great international tragedy. Notwithstanding the great sorrow this will cause the world I sincerely hope it will not retard the peace of India and the world."

At Lake Success, a United Nations delegate to the United Nations said the assassination of Gandhi "is the biggest disaster which has overtaken our country."

The delegate, N. Gopalaswami Ayyangar, said he would not change his plans to speak today to the United Nations Security Council in the Indian capital of New Delhi despite his mourning for Gandhi. The council was called to meet at 2:30 P. M. EST.

"I do hope the country will survive even this enormous blow," Ayyangar said. "There is sufficient leadership yet in the country to pull it out of the gloom into which the mad miscreants' act has thrown it."

In a Prime Minister, Jawaharlal Nehru, describes the assassination of Gandhi as a "great disaster," the All India radio had today. NBC monitored the broadcast.

The dominion leader, his voice heavy with emotion, announced the body will be cremated in accordance with Gandhi's wish, the broadcast said. The body will be taken from Birla House tomorrow and cremation will be at 4 P. M.

Winston Churchill in London said of the Gandhi assassination, "I am shocked at this wicked crime."

Churchill's seven-word statement was issued through his Conservative Party's headquarters. Churchill many times has attacked the Atlee government's handling of the Indian situation, and warned that the granting of Dominion status to India and Pakistan would bring violence.

U.S. Rejects Soviet Charge Regarding Iran

Pravda Accused By State Department Of Distortions And False Statements

WASHINGTON, Feb. 2 (AP)—A State Department official denounced as "false" and "distortions" today Russian charges that the United States is seeking to make Iran an American "strategic base." He denied in detail charges which the Moscow newspaper Pravda said Russia had made in a note to the Iranian government.

A few hours earlier, the United States formally rejected as "without foundation" a Soviet protest that visits of American warships to Italian ports were violation of the new Italian treaty.

Press Officer Michael J. McDermott, told reporters that the United States has in Iran two missions totalling 26 officers. He said these are training the Iranian gendarmes force and advising the Iranian army strictly in accord with published agreements.

He said the United States also has given Iran a \$25,000,000 credit to buy surplus war material but Iran is proposing to take only \$10,000,000 of this. This is the extent of the American official help to Russia's oil-rich southern.

Cold Wave Surges Southward Through Midwestern Region

CHICAGO, Feb. 2 (AP)—Another "extremely cold" wave surges southward through the upper Midwest today as the chilled eastern half of the country eyed the antics of the groundhog for his legendary long-range weather forecast.

Probably most prone to string along with predictions indicated by gadgets in the Weather Bureau but the groundhog's shadow or lack of it won't go unnoticed whether it forbodes prolonged cold weather or an early spring.

In most of the eastern half of the nation where an estimated 250,000 workers have been made idle because of gas and other fuel shortages in industry, the week-long cold wave was broken, the Weather Bureau said.

Somewhat warmer weather is in prospect today in both the East and South.

In eastern states generally, the temperature was expected to climb.

Time To Qualify For County Jobs Ends

Opposition against M. B. "T-Bone" Smith, incumbent State Legislator in Group No. 1, faded Sunday morning when a candidate qualified to run, and then at 11:59 o'clock, one minute before the clerk's office closed, came back and withdrew from the race. It was reported by O. P. Herndon, county clerk, who kept his office open Sunday morning to accommodate last minute candidates.

The would-be candidate was Robert F. "Bob" Cole, Atlantic Coast Line engineer. In Group No. 2, J. Bralley Odham, incumbent, and J. R. Lytle have qualified to run.

Walter Williams, Sr. has qualified to run as Congressional Committee man. Mr. Herndon announced all commitments, county state and congressional have to run this year for four year terms, he revealed, March 30 in the deadline for this qualification.

Herman L. "Pops" Brumler, former Calvary Fed star football player, has qualified to run for constable in the 4th District.

HOME LOANS
WASHINGTON, Feb. 2 (AP)—Despite rising prices, Americans added \$9,000,000,000 to their savings last year, the Home Loan Bank Board reported today.

The agency said this compares with increases of \$10,800,000,000 during 1946 and \$19,700,000,000 in 1944 and \$22,900,000,000 in 1944. Total savings at the end of 1947 were placed at \$155,700,000,000.

J. Bralley Odham

Rep. Odham last week announced his candidacy for re-election to the State Legislature from Group No. 2 in Seminole County. He is now serving his first term in public office and during the last session was the youngest freshman member.

Nehru Promises Restoration Of Peace In India

Ashes Of Gandhi Are Scattered On Waters Of Jumna River

NEW DELHI, Feb. 2 (AP)—Prime Minister Pandit Jawaharlal Nehru told the Indian constituent assembly today that he accepted the restoration of peace in this troubled land as an issue on which his government would stand or fall.

"If we don't do that we are not worth being in this government; certainly not of being his (Mahandas K. Gandhi's) followers or even saying words of praise for this great soul," Nehru said.

"I have a sense of utter shame as an individual and as the head of the government that we should have failed to protect the greatest treasure we possess."

On the banks of the Jumna, meanwhile, the ashes of the assassinated Gandhi were reverently scattered.

Plane Crash Victims Found By Frenchmen
DIGNE, France Feb. 2 (AP)—French skiers found today the bodies of Mrs. Shirley G. Martin of Princeton, N. C., and her year old son, Benjamin. They were killed with ten other Tuesday when a U. S. Army C-47 transport crashed in the French Alps.

Their bodies were in the snow near the wreckage. Two other women, four more children and 15 Army fliers were killed in the crash of the transport and a Flying Fortress which was hunting for it.

The bodies of 16 of the victims were flown to Frankfurt this morning for removal to the United States.

The women and children were dependents of U. S. troops in the Trieste occupation zone.

Local Tourist Team Beats Orange City
Sanford's Tourist Club Shuffle Board team which had bowed to Deland and Eustis in previous encounters, won 30 games out of 39 over the visitors from Orange City Friday afternoon at the lakefront shuffle-board court.

A pot luck supper was enjoyed by the visitors and local club members at the Tourist Center at 6:30 o'clock.

At 8:00 o'clock the Center was jammed to capacity to see Mr. and Mrs. Lestas in an interesting program of magic and sleight-of-hand. The program included producing flags, ribbons and bouquets from apparently empty cylinders, pouring of numerous glasses of milk from a tiny silver pitcher and making coins appear and disappear.

COURT RULING
WASHINGTON, Feb. 2 (AP)—The Supreme Court did not act today on the request of Mrs. Ada Lois Sipel Fisher, negro student for an order requiring her immediate admission to the University of Oklahoma law school.

CIO Official Seeks Quick Meat Controls

Flanders Bill With "Get Ready" Clause Is Not Good Enough For UAW's Agent

WASHINGTON, Feb. 2 (AP)—A CIO official opposed today legislation to set up meat rationing on a "get ready" basis—he said "it is not good enough."

Donald Montgomery, Washington representative of the United Auto Workers-CIO, who said he spoke for the parent organization, told a Senate Banking Subcommittee that both price controls and rationing are needed.

The subcommittee is considering a bill by Senator Flanders (R-Vt) which would provide standby authority for rationing meat, but no direct price control. The program could be instituted by Congress or the President, with Congress holding a veto power.

Boris Shiklin, economist for the AFL, told the subcommittee "it is difficult to escape the conclusion that a major share of responsibility for rising meat costs rests with the packers."

Shiklin did not say whether the AFL favors or opposes the Flanders bill. But he noted that AFL president, William Green has advocated general price control and rationing of food commodities.

Montgomery said that since (Continued on Page Two)

Rat Control Will Be Studied Friday By Farm Bureau

Problems in rat control and in breeding new corn varieties in Florida will be the main topics of discussion Friday evening at the February meeting of the Seminole County Farm Bureau at the High School agricultural building. Supper will be served by Mrs. M. D. Galecki at 7:00 P. M.

W. L. Johnson of the U. S. Fish and Wildlife Service will briefly outline a rat control program and efforts will be made to stimulate interest in a county wide rat control campaign.

Dr. Fred H. Hall and Dr. F. S. Jamison of the Florida Agricultural Experiment Station will be speakers.

Stine Stresses Need To Welcome Giants

The importance of extending a cordial welcome to members of the Giants Baseball organization, was stressed at the luncheon of the Rotary Club by A. C. Stine who pointed out that it is a big thing for Sanford to have this group in training here. He urged that the merchants particularly should strive to welcome them, give the best possible service, and make them feel at home.

A quiz program was conducted by Charles Morrison with G. W. Spencer, Dr. O. W. Baker, J. L. Ingley and Roland Dean being declared winners by the Rev. Mark Carpenter. The following merchants donated prizes: Clarence Redding, Joe Sanders, and H. L. Perkins.

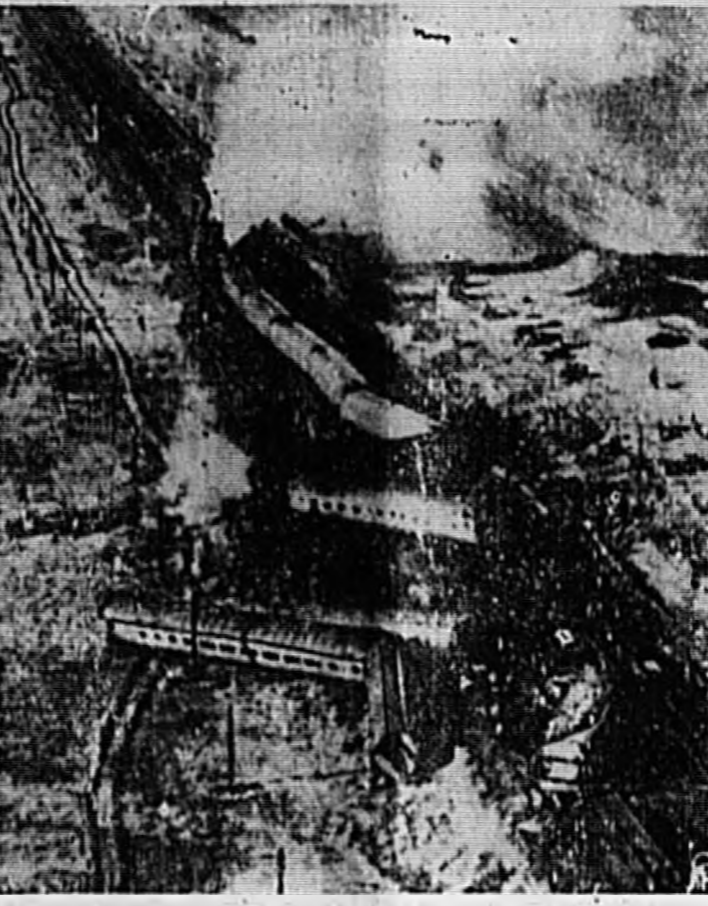

Visitors included Springfield Ketter of Grayson, Ky; Wade Traylor of Hampton, Va.; Charles Marlan of Lakewood, N. J.; Garland Ashworth of Kimhill, W. Va.

New York Giants Formally Open Baseball School At City Airport

The New York Giants opened their baseball school at the Municipal Airport site here this afternoon with nearly 150 young aspirants on hand to greet Carl Hubbell, director of the Giants' farm system, who will conduct the session.

Mayor R. A. Williams greeted the men and was given the honor of throwing out the first ball to inaugurate the first class held in Sanford by the Giants.

Among those present to witness Mayor Williams' toss and to welcome the men to Sanford were City Commissioner John Krider and Florida State League President A. S. Herling.

Hubbell stated that the school started today with one-day workouts, but will hold two sessions daily from now until the end of the school. We will not hold a class on Sunday morning, however," Hubbell added. "We want to give the boys a chance to attend the church of their faith every Sunday," he declared.

Instructors for the school include Hal Gruber, recently named skipper of the Sanford entry in the Florida State League; Nick Shinkoff, Giant scout; John (Hans) Lobert, who is a scout and has been in charge of building the Sanford training site for the Giant farm clubs; Bubber Bonard; Bill Harris, Eddie Montague; Jerry Monte; George Mack; Bill McKechnie, Jr. and Gene Bonabeau, scouts for the Giants.

Mayor Williams stated "We certainly are glad to have you men here, and if there is anything we can do for you," (Continued on Page Two)

The funeral will be held on Wednesday in New Middletown.

Air Line Service Is Explained And Lauded At Dinner At Mayfair

Joseph L. Dyer, president of Florida Airways, heard glowing tributes paid to the service rendered by this local service airline that now operates six daily scheduled flights per day through Sanford's Municipal Airport at a testimonial dinner Mr. Dyer gave at the Mayfair Inn Friday night to the men and women who had made Sanford Airline Week a success.

President Dyer said that he was deeply appreciative of the enthusiasm and support shown by the citizens of Sanford and Seminole County for the airline service. He pointed out that Florida Airways is a partner in the development and growth of Sanford because "We have invested our money, time and effort here in Sanford to serve you with complete air transportation facilities to all parts of the world from your own airport."

Trade Treaty Signed By U.S. And Italians

Dunn Says He Wants To Confirm Denial That Neither Asks Special Privilege

ROME, Feb. 2 (AP)—A treaty of friendship, trade and navigation—the first the U. S. has made with an ex-enemy of World War II—was signed at the Italian foreign ministry today.

It replaced the pact of 1871 abrogated by joint consent in 1937 as Benito Mussolini bent on tying Italy's destiny to the Axis, began aiming for economic self-sufficiency.

Because signature of the pact coincided with Soviet Russia's diplomatic drive against extension of America's zone of influence to the Western Mediterranean, the ceremony was the biggest news of the day for Italian editors.

Independent and right-wing editors generally approved and Italian Nova, the Fascist organ, said that Washington's desire for the treaty proved Italy is now considered "decisive in the world equilibrium."

The left press, hostile to the United States, nevertheless treated the event factually except for the Communist L'Unita, it hinted that the treaty gave Americans unequal privileges in Italy.

Ambassador James C. Dunn, signing for the U. S., said he wanted to "confirm categorically that neither the United States nor Italy has sought or obtained through this treaty any special or exclusive privileges."

Dunn said the document covered "not only the relations between our two countries but also the responsibility of each of our countries to contribute to international cooperation."

Foreign Minister Carlo Spazza signed for Italy.

The treaty—which consists of 27 articles and two additional protocols—in the broadest the U. S. has ever concluded with any country.

Market Director Warns Farmers To Plan Operations

JACKSONVILLE, Feb. 2 (Special)—"Continued instability of world conditions, both economic and political, makes it very important in my opinion that our Florida farmers plan their operations for this year on the most conservative basis," said William H. Wilson, Director of State Markets today.

"It has always been considered a good policy for farmers to do their best to 'live at home'—that is, to produce on their own farms, by their own efforts, a minimum portion of the food consumed by their families. With no very definite indication of a let-up in the 'high cost of living' it seems that this business of producing food on the farm, for use of the farm family, is very important for the coming months."

"We know that during the current year, conditions are such that..."

Truman Advocates Anti-Lynching Bill
WASHINGTON, Feb. 2 (AP)—President Truman today asked Congress for anti-lynching and a fair employment practice laws. He also urged other measures to preserve civil rights.

Mr. Truman submitted a 10-point program.

First was a recommendation for establishment of a permanent commission on civil rights, a joint congressional committee on civil rights and a civil rights commission in the Department of Justice.

The President called for a specific federal measure "to deal with the crime of lynching — against which I cannot speak too strongly."

House Passes GOP Tax Reduction Bill By Vote Of 297-120

Bill Cuts Everybody's Taxes And Deletes 7,400,000 Citizens From Tax Register

WASHINGTON, Feb. 2 (AP)—The House passed the GOP-backed \$6,500,000,000 tax-cutting bill. The vote was 297 for and 120 against.

It cuts everybody's income taxes and drops 7,400,000 low-pay people from the tax rolls. But the House vote is just the start. The bill now goes to the Senate which may make a lot of changes.

Whatever Congress finally agrees on will then go to the President. He can veto it if he thinks the cuts are too big. A veto is considered probable for a \$6,500,000,000 cut.

Before its final vote, the House turned down a Democratic-backed substitute to cut the tax bill of individuals by \$4,000,000,000 but up corporation taxes by \$3,200,000,000.

The GOP measure, drafted by Chairman Kautson (R-Minn.) of the House Ways and Means Committee, calls for:

An increase of \$100 in personal income tax exemptions; Application of the community property principle of tax payment; And reductions in tax rates ranging from 30 percent in the lowest bracket to 10 percent in the upper brackets.

Reserve Body Says Buyer Credit Gain Hits \$423,000,000

WASHINGTON, Feb. 2 (AP)—The Federal Reserve Board reported today that credit extended to installment buyers increased by \$423,000,000 in December, the second month after expiration of government controls over installment credit.

The board lifted the total of installment credit outstanding to \$6,152,000,000, only \$11,000,000 below the record high set three months before Pearl Harbor.

The \$423,000,000 rise in December compared with a monthly average increase of \$160,334,000 during the last 12 months of controlled credit. December, however, always shows heavy installment buying because of the Christmas season.

Consumer credit of all kinds, which covers charge accounts and loans payable in a single sum as well as installment transactions, increased another \$739,000,000 or about six percent in December to another record high of \$13,898,000,000.

There was a substantial increase in installment credit (Continued on Page Two)

Recruiting Slump In National Guard Told

WASHINGTON, Feb. 2 (AP)—Recruiting in the National Guard is in a slump, Maj. General Kenneth F. Cramer, chief of the Army's National Guard Bureau said today.

The Guard showed an increase of only 5,400 men last month compared with a gain of 11,000 last July and 33,000 in October, when special campaigns were underway.

In an address prepared for a meeting of the Adjutants General Association, Cramer said he has written to the adjutant general of each state urging renewed efforts.

"If we continue at the present rate," the General asserted, "we may fall short of our (June 30) goal of 271,000 men in 4,800 Army units and 355 air units."

Despite the recent downward trend, the guard's total strength is well above any previous peacetime high except 1940. Cramer reported the present strength at 213,767 men, with 3,701 ground and 350 air units federally approved and others awaiting approval.

UNLICENSED FURY
DULUTH, Minn., Feb. 2 (AP)—Angered when his request for a beer tavern license was rejected last week, a 32-year-old Minnesota Crossroads community storekeeper, shot and killed three members of the Elmer, Minn., town board, wounded a fourth member and then committed suicide.

The fifth member of the board, fleeing amid the shooting, escaped uninjured and hid in a snowbank.

THE WEATHER
