FLORIDA LOAN COMPANY

Tues., Oct. 2, 1956, Page 8 Florida Loan Co. Constructing New, Modern Building

A modern one story building to house the Florida Loan Co. offices is being constructed on Sanford Ave. between First and Second

The building is being erected with block walls, terragge floors, with a plate glass front and

plastic illuminated sign. Ceilings of the building will be of red cedar, natural finish. Another feature of the new building, which is expected to be completed in four to six weeks, will be that it is to be air

conditioned. The building is being constructed by A. W. Lee, owner and operator of the Florida Lean Co. with plans and specifications by

John Purton IV. Architect.
Location of the new building
for the Sanford dowtown area is between Hunt's Feed Store and the Wilson-Maler Furniture Co.

Here Tomorrow!

came the magic that made possible so wonderfully different a Ford. In the toughest on-theroad tests ever given to a car, this "Inner Ford" demonstrated that a '57 Ford rides you sweet and low . . . that it takes the bumps with-out a bobble, the curves without the pitch . . . and, that in power, it "takes nothing from nobody!" Nothing on wheels hurries, handle: or holds up like a Ford!

Anew kind of FORD with the mark of tomorrow

You're in for a thrill when you see this new knockout named Ford! But save your superlatives till you drive it! That's where the fun really starts.

It's fun just knowing that others who see you wish they were you. For you're commanding the longest, lowest, heaviest, biggest car ever to sport such a low price tag. There's head room to spare for a new fall bonnet ... stretch-out space for a "Daddy Longlegs."

You'll find that the tough and ready new "Inner Ford" is built to take the roughest road you'll care to travel. New outboard rear springs and ball-joint front suspension let Ford take the turns without the tilt. New swept-back control arms help take bounce out of bumps.

Best of all, Ford's library-like quiet is built in. And the new "Inner Ford" is why. For never before in

Ford's field has there been a body with so much extra bracing, so firmly anchored to its foundation. And you can choose from three big Silver Anniversary V-8's with up to 245 horsepower. There's also a new Mileage Maker Six with 144 horsepower, the most modern Six in the industry.

You can pick your Ford tailored to your desires and your budget, too! Choose from nine over-17-foot Fairlane or Fairlane 500 models or from five over-16foot Custom or Custom 300 models. Or take your pick from Ford's five longer, lower, new station wagons. Whichever model you select, you'll get a car that's been re-invented from the wheels up!

So there's the new kind of Ford. Big! Gracious! Spacious! A luxury car true-but one that any new-car buyer can easily afford. Come in! See what wonder-cars you can buy now at low Ford prices.

Many Projects Ahead In City's, **Expansion Program**

have ahead of them? . . and what does the ture reveal for the future?

There's more shead than one would casually bring into the picture called "expan-

Even though much has been accomplished, the big job is still to the front of us - and careful planning, working closely togethand with the support of the citizens in the city and county, all of the plans can be

Many of these projects are already on the crawing table - frankly, with the approval of the City Fathers, For instance - the Sanford Civic Center - Fire Station No. 2 - and the Colored Swimming Pool - these g assets to Sanford are already being put form to call for bids and begin construc-

An important project to guide the think-City Planning". Sanford is experiencing growing pains new buildings are beginning to leave the ground to rise up into sections to the south - north - east - and west, each ene of them placed in an area thought by suited to its type. But are those buildings, is this expansion, in the proper places?

Only through the employment of a pronal city planner - an engineer whose siness it is to lay out the proper and most sirable growth according to types of business, neighbors, subdivisions, streets, and all other necessary data — can the city best plan for its immediate growth.

A city, whose future reveals that its popplation will nearly triple in nine years, needs d must have at its fingertips a long range den for its immediate growth.

- What can Sanford and Seminole County look forward to? A causeway across the St. has River from French Avenue across the lake into a new route for 17-92 fourlaning the heaviest traffic in the state into an orderly ribbon of visitors coming and go-"hig through Central Florida from Tampa to Jacksonville and Daytona Beach.

The Sanford Titusville Canal is another project ahead of us that will bring untold lions into the Sanford and Seminole County area. The new canal - although planned and originated more than 80 years ago is a new avenue through which both industry and tourism will make new inroads into the immediate area.

Here in Sanford - local citizens look for-

What does Sanford and Seminole County ward to the extension of the present sewer lines to bring in all of the areas that do not now have the sanitary facilities the municipality could bring them.

There are miles of city streets which need paving in order to modernize and bring the entire community, city limits to city limits, into an area which might be called completely modern

The annexation program is yet to come about - a necessity for a city bursting at its seams. Even though hundreds of home owners and property owners look forward to being a part of the City of Sanford, it has

not yet been realized. A sewage Treatment Plant is another step forward for the city. No doubt, when the Utility Department of the city comes within the financial condition as enumerated by the city's fiscal agents, the disposal plant will become a reality. It is one of the necessary improvements each member of the Board of Sanford City Commissioners feels should be done. However, they are awaiting the time when monies can be provided, for this part of the city's expansion plan can not be realized immediately without

which much has been written; the docks and wharves for water freight moving along the St. Johns River from shipping centers of the East to the shipping center of Fiorida. Industralists have long realized that such a project would immediately bring to Sanford and Central Florida a flurry of industry, trade, traffic, and population growth unknown in years gone by.

Sanford and Seminole County are for-

tunate in having so much ahead of them just over the horizon.

made up as a divan. "Is this a pro-fessional sall or a social one?" He saled, smiling, "If it's the latter, one I send for some ten? I was just thinking that a cup of ten would be nice."

these past few days, Doctes, she said sympathetically.

He was some little time replying.

Then he shrugged his powerful shoulders. "I don't know other than that Mrs. Featherstone may have been putting ideas into your head."

Then he shrugged his powerful shoulders. "I don't know other than that Mrs. Featherstone may have been putting ideas into your head."

Well," she said gravely, "you

"lett plenty. Cruise passengers, Pre found, always require a great deal of attestion, I suppose in had weather the poor dears are bored

Peatherstone's trouble," Val said.
"Sine & bored, poor thing—at least," she amended, "when Dirk isn't visiting her."

"She likes that, does she?"
"Well, talking to him seems to
make a pleasant change from talk-

"Two gathered she's kept you pretty tied up in the cabin. I've looked for you each mealtime. You haven't been in the dining saloon."

Her heart lifted and she felt absurdly pleased that he had noticed her absence. There was a pause that was faintly embarrassing. Oddly she felt it as a relief when the steward knocked and brought

said abruptly, "You're not looking any too well yourself." She smiled. "Perhaps I've been

feeling slightly seasick."
He nodded and leaned across the small table and poured her a cup of tea. "Somehow you look dif-ferent from that first morning we talked," he said. "You looked so well then, full of vitality and life, able to cope with anything that might come siong. Now, if you don't mind my saying so, you look sort of flattened out, as though you were frightened of something.

Are you afraid of anything?"
"I don't know why I should be,"
she said evanively, and deliberately
she bent over her cup of tea.
"What could I be frightened of on this ship?"
He was some little time replying.

saw more rain than anything else over the weekend, and the spotlight was popped out at the Cocoa-Winter Park game that was reckoned to be the game that would determine the final outcome been two days layoff over the of the OBC championship race.

But one very important conference tilt did take place, and that was a close one. The Leesburg Yellow Jackets eked out a slim 13-6 victory over a sharp looking Apopka Darter eleven.

The Yellow Jackets were unimpressive in the first half of the game as the young Darters played superior game, Eddie Parker, the Jacket sparkplug was benched for the entire game with torn ligaments in an ankle, and that may account for the lack of snap in the Jacket offense.

A host of Blue Darters showed impressive promise in their unsuccessful invasion of Leesburg. Leading them was Tom King, 198 pound tackle, and fullbacks Dalton Cleghorn and Dickie Johnson Jerome Shaw 160 pound sopho more quarterback showed a lot of speed and razzzle-dazzle for the losing Darters. Curtis Stone was impressive with his left-handed passing effectiveness. He has a good receiver in the person of Carl Cousins, veteran end.

The Blue Darters are a young season progresses the Darters will Orange Belt team.

What Does "Castile" Mean On Soap Label?

TOU can't always judge a seap by its label.

Castile seap used to be, as you probably know, the aristocrat of soap. The term "castile" encomeant that the fat content of a coap was life per cent clive oil.

Castile seap had, at that time, a much higher standard of quality than other more crudely made hears, which were harsh and irritated the skin. But today, the American Medical Association mays castile may mean just about any bland white seap.

Recent Report

Mrs. Veronica L. Conley, secretary of the A.M.A.'s committee on sesmetics, reported in an A.M.A. bublication:

"At the present time, there are seastle on a scap wrapper the standards for the compesition of castile seap, the method by which it is made or the color or tay other characteristic of the finished product."

Citye all eastle seap originally served a useful and important purpose. However, Mrs. Couley agent to small to be searched as a seap wrapper that the development of uproved seap-making processes.

Castile seap was developed in the 18th century in the Spanish the Supply of clive cil was plennish province of Castile, where the supply of clive all was permited. For soap was low and eastlie soap metics and salves as for washing. After soap could be made more consentedly and militer and in larger quantities, manufacturers became almost meaning less."

Meet a mere development in a scap wrapper to be made a more castile or a scap wrapper to be standards for the compenities on standards for the compenities or south to be a scap with the certainty mirror labely and militer and in larger quantities, manufacturers became almost meaning less in the list century in the Spanish the century in the Spanish with the list near device of Castile and province of Castile and province of Castile and province of Castile and supply of clive all was plennish province of Castile and province of Castile and supply of clive all was plennish province of Castile and province of Castile and province of Castile and supply of clive all was plannish province of Castile and pro

Conservatively Speaking - - -

The Sanford Herald at present has 28 employees, 12 correspondents, 28 carrier boys. Most of these people have families, over 100 people are supported by the wages earned by the Sanford Herald staff.

The Sanford Herald's yearly payroll is \$100,000 This is "working money" — an important factor in the day-by-day economy of the great community it serves. National statistics show that each dollar changes hands an average of five times before again returning to a bank... which means you have a second chance to see the dollar you spend FOR ADVERTISING YOU BUY in Seminole County's own local newspaper.

The Sanford Herald employees spend their share of the \$100,000 payroll at home in Sanford, for groceries, clothes and all of their living necessities. Many of the Sanford Herald employees own their own homes in Sanford built by local builders, in many cases financed by local institutions.

Here Tomorrow!

came the magic that made possible so wonderfully different a Ford. In the toughest on theroad tests ever given to a car, this "Inner Ford" demonstrated that a '87 Ford rides you sweet and low . . . that it takes the bumps without a bobble, the curves without the pitch ... and, that in power, it "takes nothing from nobody!" Nothing on wheels hurries, handles or holds up like a Ford!

Anewkind of FORD with the mark of tomorrow

ere up top where you can reach them easily! You're in for a thrill when you see this new knockout

named Ford! But save your superlatives till you drive it! That's where the fun really starts. It's fun just knowing that others who see you wish they were you. For you're commanding the longest, lowest, heaviest, biggest car ever to sport such a low price tag. There's head room to spare for a new fall bonnet ... stretch-out space for a "Daddy Longlegs."

You'll find that the tough and ready new "Inner Ford" is built to take the roughest road you'll care to travel. New outboard rear springs and ball-joint front suspension let Ford take the turns without the tilt. New swept-back control arms help take bounce out of bumps.

Best of all, Ford's library-like quiet is built in. And the new "Inner Ford" is why. For never before in

Ford's field has there been a body with so much extra bracing, so firmly anchored to its foundation. And you can choose from three big Silver Anniversary V8's with up to 245 horsepower. There's also a new Mileage Maker Six with 144 horsepower, the most modern Six in the industry.

You can pick your Ford tailored to your desires and your budget, too! Choose from nine over-17-foot Fairfane or Fairfane 500 models or from five over-16foot Custom or Custom 500 models. Or take your pick from Ford's five longer, lower, new station wagons. Whichever model you select, you'll get a car that's been re-invented from the wheels up!

So there's the new kind of Ford. Big! Gracious! Spacious! A luxury car true-but one that any new-car buyer can easily afford. Come in! See what wonder cars you can buy now at low Ford prices.

Many Projects Ahead In City's, Program

What does Sanford and Seminole County ave ahead of them? . . and what does the ture reveal for the future?

There's more ahead than one would casally bring into the picture called "expan-

Even though much has been accomplished, no big job is still to the front of us - and eareful planning, working closely togethand with the support of the citizens in e city and county, all of the plans can be

Many of these projects are already on the drawing table — frankly, with the approval of the City Fathers. For instance — the Sanford Civic Center - Fire Station No. 2 - and the Colored Swimming Pool - these g seests to Sanford are already being put form to call for bids and begin construc-

An important project to guide the think-City Fisming". Sanford is experiencing rowing pains—new buildings are beginning beave the ground to rise up into sections to the south - north - east - and west, each one of them placed in an area thought by the builder, to be the most central location d to its type. But are those buildings, this expansion, in the proper places?

Only through the employment of a proscional city planner - an engineer whose siness it is to lay out the proper and most desirable growth according to types of business, neighbors, subdivisions, streets, and all other necessary data - can the city best ian for its immediate growth.

A city, whose future reveals that its nonblation will nearly triple in nine years, needs and must have at its fingertips a long range plan for its immediate growth.

What can Sanford and Seminole County mok forward to? A causeway across the St. Johns River from French Avenue across he lake into a new route for 17-92 fouraning the heaviest traffic in the state into an orderly ribbon of visitors coming and going through Central Florida from Tampa to Jacksonville and Daytona Beach.

The Sanford Titusville Canal is another -groject ahead of us that will bring untold lions into the Sanford and Seminole County area. The new canal - although planned and originated more than 80 years ago is a new avenue through which both instry and tourism will make new inroads into the immediate area.

Here in Sanford - local citizens look for-

ward to the extension of the present sewer lines to bring in all of the areas that do not now have the sanitary facilities the muni-cipality could bring them.

There are miles of city streets which need paving in order to modernise and bring the entire community, city limits to city limits, into an area which might be called complete-

The annexation program is yet to come about - a necessity for a city bursting at its seams. Even though hundreds of home owners and property owners look forward to being a part of the City of Sanford, it has not yet been realised.

A sewage Treatment Plant is another sten forward for the city. No doubt, when the Utility Department of the city comes within the financial condition as enumerated by the city's fiscal agents, the disposal plant will become a reality. It is one of the necessary improvements each member of the Board of Banford City Commissioners feels should be done. However, they are awaiting the time when monies can be provided for this part of the city's expansion plan can not be realised immediately without raising the utility tax now being enforced.

There is still another important phase of expansion not yet accomplished and about wharves for water freight moving along the plans. The public continues to step which much has been written; the docks and wharves for water freight moving along the up its total spending, cutting back St. Johns River from shipping centers of the coaly on such things as autos, houses and stocks. dustralists have long realised that such a project would immediately bring to Sanford their speeding and berrowing plans and Central Florida a flurry of industry, trade, traffic, and population growth unknown in years gone by.

Sanford and Seminole County are fortunate in having so much shead of them just over the horizon.

Talking about them will not make dreams come true. It is self-help, cooperation, unity within our municipality and county, the push and shove that comes from an aggressive apirit aimed at Sanford and Seminole County rice this month, the Department growth.

OCTOR BRUCE HARRIDAN new the door open himself, in the steward tooking at Val and she

men," Silvers continued we'll play them all.

MATHEWS

NAVE TO HOUR IT ON DOWN THE HOMESTRETCH

BAGEMAN,

"That may be part of Mrs.
Featherstone's trouble," Val said.
"She is bored, poor thing—at least," she amended, "when Dirk isn't visiting her."
"The likes that, does she?"

"T've gathered she's kept you pretty tied up in the cabin. I've looked for you each mealtime. You haven't been in the dining salcon."

Her heart lifted and she felt absurdly pleased that he had noticed her absence. There was a pause that was faintly embarrassing. Oddly she felt it as a relief when the steward knocked and brought in the tas.

"That makes sense." He grinned faintly. "Tou're a regular little detective, aren't you?"

She gianced away from him. "Of course not. But if you Aed meant to de it, you would have done it there and then, wouldn't you?" she grinned faintly. "Tou're a regular little detective, aren't you?"

She gianced away from him. "Of course not. But if you Aed meant to de it, you would have done it there and then, wouldn't you?"

"That makes sense." He grinned faintly. "Tou're a regular little detective, aren't you?"

She gianced away from him. "Of course not. But if you Aed meant to de it, you would have done it there and then, wouldn't you?" she said quietly.

"That makes sense." He grinned faintly. "Tou're a regular little detective, aren't you?"

She gianced away from him. "Of course not. But if you Aed meant to de it, you would have done it there and then, wouldn't you?" she here and then, wouldn't you?" she grinned faintly. "Tou're a regular little detective here and then, wouldn't you?" she grinned faintly. "Tou're a regular little detective here."

When the steward had gone he ild abruptly, "You're not looking any too well yourself."

She smiled. "Perhaps I've been feeling slightly seasick."

He noded and leaned across the small table and poured her a cup of tea. "Somehow you look different from that first morning we talked," he said. "You looked so well then, full of vitality and life, able to cope with anything that might come along. Now, if you looked be nice."

"It's professional in a way." She said state a cup of tea would be nice."

"It's professional in a way." She you don't mind my saying so, you look sort of flattened out, as though you were frightened of something.

The pressed the bell by the cabin less and a few minutes later when she to cope with anything that might come along. Now, if you don't mind my saying so, you look sort of flattened out, as though you were frightened out, as though you were frightened of something.

Are you afraid of anything?"

"I don't know why I should be," she said evasively, and deliberately she said evasively, and deliberately she be not over the cup of tea."

"Tou stust have been kept pretty these past few days, Doc-

"Tou must have been kept pretty this ship?"

He was some little time replying.

Then he shrugged his powerful shoulders. "I don't know other than that Mrs. Featherstone may have been seasick. The crew as that Mrs. Featherstone may have been putting ideas into your head."

Well," she said gravely, "you (To Be Continued)

by its label.

Castile scap used to be, as you probably know, the aristocrast of scap. The term "castile" once province of Castile, where the scap was 100 per cent clive oil.

Castile scap had, at that time, a much higher standard of quality than other more erudely made bars, which were harsh and irritated the skim. But today, the American Medical Association larger quantities, manufacturers may castile may mean just about any bland white scap.

Recent Report

Mrs. Veronica L. Conley, secretary of the A.M.A.'s committee on term castile on a soap wrapper became almost meaningless."

THE SANFORD HERALD Tues., Oct. 2, 1956, Page 7

THE CARD OF THANKS GOOD DOWNTOWN LOCATION
Large income property. Salesroom, warehouse and other income possibilities. Present rental income \$200.00 monthly. A
buy at \$22,000. Attractive terms.
LOVELY-MODERN

Very often a Card of Thanks in the Banford Hersig meets a shed
which is difficult to fill in any other way. Not only is it a gradient
expression of gratitude to those who have sent floral tributes but
also courteously acknowledges the services and kindnesses of the
many to whom a personal note of thanks cannot well be mailed.

Newspaper Cards of Thanks are accepted as socially conrect. Emily Post, the noted authority on etiquette, feels they are

TBedroom home, terrazzo floors, electric kitchen, beautifully landscaped. Monthly payments less than rent.

LOVELY-MODERN

many good uses.

There is no prescribed form for a Card of Thanks. It can be seen than seen than rent.

THE "IN MEMORIUM" NOTICE

It is the custom of many families in this country to commemorate a becavement by an "in Memorium" notice in newspaper classifications. They find a real solace therein. Preparation or selection of a suitable verse brings back to them tender, pleasant recollections. As Eliza Cook, the English poet has so beautifully expressed it:

"liow cruelly sweet are the echoes

When memory plays an old tune on the heart." Most frequently an In Memorium is inserted on the anniversary of death. However, other dates, which it is felt are appropriate or neaningful are also selected. The birthday of the departed, the welding anniversary, Memorial Day, even Christmas are among other significant occasions chosen.

If you are healtant to express your tender thoughts in poetle form you may avail yourself of the Herald's collection of original verse. These express in poetle beauty the emotions of the heartstrips.

Among them are verses appropriate to any circumstance. Cards of Thanks are \$1.00 per insertion regardless of size In Memorium notices, due to be fact they may run to considerable ength, are billed at \$1.00 per column inch.

The Sanford Herald at present has 28 employees, 12 correspondents, 28 carrier boys. Most of these people have families, over 100 people are supported by the wages earned by the Sanford Herald staff.

The Sanford Herald's yearly payroll is \$100,000 This is "working money" — an important factor in the day-by-day economy of the great community it serves. National statistics show that each dollar changes hands an average of five times before again returning to a bank... which means you have a second chance to see the dollar you spend FOR ADVERTISING YOU BUY in Seminole County's own local newspaper.

The Sanford Herald employees spend their share of the \$100,000 payroll at home in Sanford, for groceries, clothes and all of their living necessities. Many of the Sanford Herald employees own their own homes in Sanford built by local builders, in many cases financed by local institutions.

EIGHT LITTLE MEMBERS of Brownie Troop number five accompanied by two of their leaders, visited The Sanford Herald plant in observance of National Newspaper week and were conducted by Charlie Morrison, member of the paper's advertising staff, on a tour that showed them the fashioning of a newspaper from the time copy arrives until the complete paper rolls off the giant press. Making the visit were the following Brownies: Brenda David, Linda E thridge, Jimmie Sue McClellan, Scottie McClellan, Suzanne Orseno, Linda Robson, Barbara Thomas and Barbara Williams. Troop leaders were Mrs. Joseph Orseno and Mrs J. P. McClellan, As a souvenir of their visit, e each child received a type metal slug with her name thereon. They expressed themselves as grateful for an interesting visit, (Staff Photo)
