

PIRACY SINKING SHIPS OF COMMERCIAL CLASS SAYS FIVE BIG POWERS

Just How They Would Impose Sentence Dur- ing War is Problem

APPROVED TODAY

ROOT DRAWS THE RESOLUTION AND ONE TO ABANDON USE OF POISONOUS GASSES

WASHINGTON, Jan. 7.—A five power contract to impose the age old penalties for piracy against naval commanders who violate accepted laws of naval warfare was approved yesterday by the armament committee of the Washington conference. It completed the Root formula for suppression of U-boat terrorism at sea, and the committee then moved forward toward a prescription of gas warfare on sea or land.

Again Mr. Root drew the resolution to effect the prohibition. Again an immediate five power contract to abandon gas or other similar chemical weapons as beyond the pale of humane tolerance is proposed, to be worked out later by world agreement into the fabric of international law. And again it seemed certain that under American initiative, war in future would be stripped of others of the horrors German ingenuity let loose upon the world.

CANNES, Jan. 7.—Definite action looking to the rehabilitation of Europe from an economic standpoint was taken at the first session of the allied supreme council here yesterday when unanimous approval was given for the calling of an international financial and economic conference in which Germany and Russia are to have a part. Some time during the first two weeks of March has been set for the momentous gathering, and Genoa, Italy, has been designated as the place where it shall be held.

Russia's participation in the Genoa conference is conditional upon acceptance of a number of conditions, namely that she cease Bolshevik propaganda abroad, that she undertake not to attack her neighbors and that she recognize all the honorable obligations entered into by preceding Russian governments.

Premier Lloyd George of Great Britain took the most important part in the deliberations, speaking for an hour. In his opinion a place for decisive action had been reached if the economic structure of Europe was to be saved. Describing the present meeting of the supreme council as the most important since the armistice, he declared that the public opinion of the world determined that the allies take wider responsibilities to revive Europe.

The prime minister sounded a warning that the allies themselves must solve the problem of rehabilitation of Europe economically and he appealed to them to forget their prejudices and co-operate with this end in view.

AMERICAN LEGION WILL STAGE REDPATH LYCEUM COURSE

The first number of the course for this winter will be one of the eminent lecturers of the country, William Reaney Bennett. The Man Who Can, will be the subject and from all reports this lecture will equal those of Parlett's "University of Hard Knocks" and Dr. Conwells' "Acres of Diamonds." This man is an inspirator and what we all need in inspiration. The Baptist Temple will be the scenes of this first number and on next Saturday night, on 14th, there should be gathered as large an audience as ever greeted a speaker with a reputation such as this lecturer has.

Following this will be Laurant, the magician, Dunbar Male Quartette, The Genova Players and the Winters Company in a music evening.

There will be a startling announcement to make in regard the William Reaney Bennett lecturer so keep your eyes on the Herald for particulars.

SHANTUNG ISSUE IS LAID ASIDE; NO SETTLEMENT

WASHINGTON, Jan. 7.—Sine die adjournment was taken at the close of yesterday's meeting between the Chinese and Japanese delegates to the Washington conference on the question of Shantung. The conversations which have been proceeding intermittently for several weeks apparently came to an end with neither side willing to make concessions to the other.

The Chinese and Japanese delegates alike were reticent about what occurred, but it was said that Wellington Koo, for the Chinese, and Ambassador Shidehara, for Japan, remained after the meeting to arrange a statement to be made at the request of the Chinese, who desired that a full statement be made to the public.

After the meeting, Dr. Koo, said:

"The situation is quite critical and I don't want to say anything hastily. We may, however, decide to make a statement later tonight. In any event an official joint statement will be issued."

Japan made a new offer "in the nature of a concession" at yesterday's Shantung meeting, Vice Foreign Minister Hanihara said last night. This was to make a Japanese railway loan for the Shantung railroad for a term of 15 years with China granted the option to redeem the loan at the end of five years from the date of signing the agreement and after six months notice.

Mr. Hanihara said this was Japan's final suggestion for settlement and that it was based on instructions from the home government. He added that the Chinese delegates declined the offer, but said that there might be another meeting either today or Monday. There was some understanding that the Chinese would consult with Mr. Hughes and Mr. Balfour, but for the present at least the Japanese had no intention of asking Mr. Balfour and Secretary Hughes to intervene.

FIRST CAR OF GREEN CELERY GOES OUT THIS MORNING FROM THE EAST SIDE

Golden Celery Will Probably Start Next Week With Good Prospects

Sanford has been so busy building the city that the farms have not come in for much notice especially during the lettuce season when so much of it went to seed and when it did go to market the market was gone. However, the Sanford section is unlike any other section in the world since one crop is a small matter with all the other crops that can be planted and brought on in a few months time.

The first car of celery goes out today being of the green top variety and the price is unknown; it will no doubt sell for a good price. A. H. Moses bought the car and the celery was raised on the Raulerson farm near Cameron City.

It is estimated that there will be about 1,300 acres of celery in the Sanford section this year and that when it starts rolling about the first of February the market will be cleaned up on New York state cold storage celery and California celery and Sanford celery will bring a good price.

The Sanford crop is looking fine and the weather is ideal for growing and it has taken a wonderful start during the past two weeks.

Just now cabbage and cauliflower have the boards and are being shipped from Sanford in large quantities bringing good prices and being in first class condition. Many people think this is a cabbage year and it looks like this dish fit for the kings and paupers will go over big this year.

In fact the prospects for a big crop, for a paying crop and for a good season all round are very bright and with the big spring crops coming right along there should be a big lift in the community toward that goal set many years ago.

Fifty-Four Schools in The Association Will Have a Big Meet

GAINESVILLE, Jan. 7.—The Florida High School Athletic Association starts the 1922 season with 54 member schools throughout the state, according to a report recently issued by B. F. Ezell, secretary of the association.

Such a membership, officials of the association assert, speaks well for the organization which came into being in the fall of 1920 for the purpose of sponsoring athletics among the schools of the state. Development of sports under the guidance of the state. Development of sports under the guidance of the association has had much to do with increased attendance at the schools and has placed the state in prominent relief in the athletic realm.

Under the leader of the association the high schools have gone in for virtually every department of sports. report they were well supported by the student bodies and the citizenry. An attendance of 2,000 persons at some of the games in the smaller places was not an unusual report. At Jacksonville three of Duval's games drew a crowd of more than 5,000.

The excellent strides made in the development of football will be of material benefit to the University of Florida, whose eleven came in for considerable prominence itself the last season because of the marked improvement over the previous years. While the material of this year's second squad is to be had in abundance while 1923 should see many of the high school stars of 1921 wearing the Gator colors of the 'varsity.'

The lamps and candle shades were also of red. The following menu was served: Oyster cocktail, saltines, cream of celery soup, crotons, olives, roast chicken with dressing, creamed potatoes, cauliflower, cranberry jelly, buttered rolls, fruit salad, wafers, strawberries and whipped cream, cake, coffee and minths.

SENATE TO RUSH NEWBERRY CASE TO COMPLETION

WASHINGTON, Jan. 7.

The senate began yesterday its final discussion of the Newberry case, precipitated by the contest of Henry Ford against the seating of Senator Truman H. Newberry, of Michigan, his Republican opponent in the 1918 elections and was told by Senator Spencer, Republican, Missouri, the chairman of the senate privileges and elections committee, that Senator Newberry himself would take the floor Monday and defend himself against the charges which involve his campaign expenditures. The subject under unanimous consent agreement, will remain continuously before the senate until disposed of. A vote is expected some time next week.

During the debate yesterday, Senator Newberry's claim to his seat was denounced and defended. At the outset Senator Caraway, Democrat, of Arkansas, launched an attack on the Newberry supporters for the position he said they were preparing to take and Senator Spencer and Senator Williams, Democrat, Mississippi, soon joined in the debate.

Senator Williams said he desired to hear the defense to be offered in the hope that Mr. Newberry could give reasons why he should retain his seat and "not disgrace not only his own good family but the good family of his wife."

"I have known his family a long time," continued Mr. Williams. "I am very fond of them. They have lived straight and useful lives. I knew his wife's family, and they were citizens of which the nation also could be proud. They made their money in the right way, and I hope he can explain away these charges, for I have nothing personally against him."

There was also hurled at the Newberry supporters the prediction by Senator Hefflin, Democrat, Alabama, that "the American people will lash out of the senate chamber every man who casts a vote for Newberry."

Jazz Clothes Are the Latest On Exhibition

CLOTHES SET TO MUSIC WOULD BE ACCORDING TO TERP- SCHORE IDEA

(By The Associated Press)
NEW YORK, Jan. 7.—Clothes set to music, especially created for young men who can't resist the lure of jazz, are on exhibition at the convention of the American Designers Association in progress here.

High waists, braids and satin pipings are outstanding attractions of the new Terpsichorean garments, genius of designer apparently having been concentrated on effort to fashion them in keeping with the gaiety and frivolity of the dance. The backs of the coats have inverted plaits, finished with silk crow-foot. Predominating colors, black, blue, and dary brown.

About twenty members of the chapter set enjoyed this enjoyable occasion.

WOMAN'S CLUB NOTES.

The first business meeting of the Woman's Club for the new year, was well attended and full of interest to the members. After reports of officers and committees an important amendment was finally adopted after a full and lengthy discussion.

The committee on lots reported a list of lots for selection of a building site for the new club house. Among these lots was one generous offer of one free to the club by the owners of Rose Court. No definite action was taken on these lots as the plans for the sale of the old club house are not yet complete.

Mrs. A. M. Phillips gave an interesting and cheering report of the 27th annual convention of Florida Women's Club recently held in Gainesville.

The following delegates to the sectional meeting to be held at Winter Park, January 19th and 20th, were appointed: Mrs. Henry Wight and Mrs. D. A. Kelly.

A lively contest, "A Floral Wedding" afforded much merriment, the prize, a crystal bud vase was won by Miss Georgia Mobley.

CUT IN FREIGHT RATES ON FARM PRODUCTS HAS GONE TO \$80,000,000

NEW YORK, Jan. 6.—Freight rate reductions on farm products, made voluntarily by the railroads and ordered by the Interstate Commerce Commission, will cut down railroad revenues throughout the country by approximately \$80,000,000 it is estimated. The commission's order calling for a decrease of freight rates on hay, grain, grain products and alfalfa, for trans-Mississippi territory will go into effect on Saturday and will add 1-2 to 10 per cent voluntary reduction of rates on various classes of farm products effective January 1 by all railroads except those of New England.

Arrangements have been made by the commission to resume next Wednesday the inquiry upon which would

be based the board's action in further rate cases. One week would be devoted to listening to evidence submitted by the carriers, while shippers of coal, coke, building materials, lumber and forest products will give testimony from Jan. 19 to Jan. 30. The hearings will continue into February, when tariffs on grain, flour, livestock, packing house products, fruits, vegetables, canned goods, and dairy products would be under scrutiny. The investigation will not be concluded much before March 1, and it is probable the commission will not be able to reach any decision before April 1.

The Star To-day

"The Old Nest"

By Rupert Hughes. A heart gripping story of home and a mother whose children no longer seemed to want her. Suddenly they have all grown up and left her—the babies she used to tuck in bed at night. The old house is empty and silent. All have forgotten her. Her hirings pass unnoticed. Each child has embarked on a drama of his own. Loves, ambitions, temptations carry them away. There are moments of laughter and comedy, romance, adventure, comedy. The story of their lives sweeps you along. Your life—your home—your mother. Never before has the screen touched with such beauty and such dramatic force a subject which finds an echo in the lives of every one of us. It is a masterpiece of a new type—a presentation of life as it really is with its moments of great joy and flashes of exquisite pain. One of the most heart-gripping dramatic stories ever narrated.

This picture to be followed next Friday and Saturday by "A Dangerous Curve Ahead."

"Excuse it, Please"

Hundreds of times every day telephone subscribers start a call and abandon it before it is completed. They hang up the receiver before getting an answer.

In some cases the person called is slow in answering. In many cases the person calling decides the call is not desired.

The result is that annoying report, "My bell rang," and needless answering and waiting at the telephone.

Almost every one who is disturbed in this way naturally blames the operator for the inconvenience.

We instruct the operators to say "Excuse it, please," to avoid an argument.

Care in this matter will greatly reduce the number of unnecessary calls and assist the operators in their efforts to improve the service.

The Tampa Dry Dock Co., is seeking a refund from the government because the war did not last five years. If it had lasted five years the majority of us would have been seeking a refund from the bread lines and soup kitchens. Wonder if the owners of the shipyards had any sons in the service?

PROMINENT DELAND MAN DIED THURSDAY NIGHT

DELAND, Jan. 7.—Asa Davis McBride, 87, who came here from Rochester, N. Y., in 1894, died at his home here late Thursday night. He was prominently identified with business here, president of the largest bank, and owned large property interests.

SANFORD HAS SOME REAL MUSICIANS

The local orchestra at the Valdez Hotel Thursday night that furnished the music for the Chamber of Commerce banquet was complimented most highly by all those present and the singing of Charles Brady and Miss Satterfield came in for a most generous share of the applause. It brings to mind the fact that Sanford has musical talent in abundance and it is being encouraged to greater efforts through E. A. Ball since his advent into the musical circles of the city as the leader of the band. Joe Reizenstein was noted with his beloved violin tucked under his chin as in the days of yore and another one not seen for some time was Mrs. Turner Houser at the piano—both of them good musicians and both of them demonstrating it Thursday night. The ten piece orchestra was excellent and the Herald wishes to compliment each and every one of them. There is nothing like good music.

SEEING ORLANDO

Orlando Reporter-Star has headline "Negro Fined \$100 for the Wreckless Driving of a Car." There was evidently no wreck if he was wreckless so they probably fined him on general principles. Wreckless comes from the word "wreck," meaning to tear down, wrecked by shine, wrecked on the St. Johns, etc. It might also mean "wrecked by the building code."

They are talking about selling the court house at Orlando. Hope they don't sell it to any of the unsuspecting tourists. Man bought the Federal building at Jacksonville but couldn't get a title to it.

President Daetwyler, of the Orlando Chamber of Commerce has written a new song entitled "If you pick it—it will never get well." It is very tuneful, spoonful and mournful and should be sung by every one in Orlando. It was really composed to be sung in the Chamber of Commerce but if the night is warm it can be handled in the open air.

WHAT A NEWSPAPER SHOULD BE

President M. J. Daetwyler, of the Orlando Chamber of Commerce in speaking about the work of a Chamber of Commerce the other night in Sanford said that private quarrels should be settled in the Chamber of Commerce—meaning that any political or local issues should never be aired in the newspapers or in public but should be discussed among the men of the city at their meetings and should be settled there to go no farther. He likened these petty differences to a sore and said "If you pick a sore it will never get well." He was eminently correct and the editor of the Herald agrees with him. If this paper attempted to print all the letters some of them signed and some of them anonymous, if the editor attempted to take up half the fights that are thrust upon him every day, if he listened to half the stories that are told to him, he would have the city of Sanford standing on its head half the time and the entire place would be in an uproar. It is not what you print that makes a good paper, but what you leave out. That sounds funny to the average citizen but it's a well known fact and the greatest task of a newspaper editor is trying to patch up differences and keep peace in the family—the family in this instance being the citizens of the place in which the paper is published.

Narrow newspaper views were taken up by W. T. Donnelly at the Chamber of Commerce luncheon yesterday at noon while he was speaking on the subject of "Publicity." Mr. Donnelly paid the Herald a fine compliment by saying that he was well pleased to note the Herald taking a stand for all things for the public welfare with no idea of private gain and with no idea of self aggrandizement. He also stated that one of the largest daily newspapers in the country at one time wanted him to put over a public project that would have benefitted the paper and because he did not see fit to do so had never mentioned his name in connection with any of the big plans that he put over in that city.

It is most pleasing to the editor of the Herald to know that his policy of square dealing with the public is appreciated so much that it is even recognized by those who do not reside in Sanford. It is our only reward for the kind of service that we think is the only kind a newspaper should render to its community.

A fair and square deal, building up the city instead of tearing it down, fostering all the plans that tend to make the city bigger and better, standing for the right at all times and regardless of friends or enemies hewing to the line, keeping the petty political fights out of the paper, eliminating factions and their private grievances and treating all alike is our idea of operating a newspaper. It may not get the money, it may not meet with the approval of those who would like to use a newspaper for their own selfish ends, it may not suit those who are not working for the best interest of the city but it will win out in the end and we see daylight ahead.

DELAND'S NEW THEATRE BUILT BY HOME CAPITAL

The DeLand News came out yesterday with sixteen pages, the extra being all about the New Athens Theatre recently completed and said to be one of the finest in the state. DeLand people, among them several bankers, built this fine new theatre costing thousands of dollars and being up to date in every particular. We congratulate DeLand people and DeLand bankers upon their abiding faith in their city to go ahead and build a theatre building of such magnificence, it shows that DeLand has the right spirit especially since G. A. Dreka, one of the biggest merchants of that city recently completed one of the finest movie theatres in the state. Think of it. DeLand with two of the finest theatres in the state built by home people.

GRADE CROSSINGS ELIMINATED

We are glad to note that at last the United States is willing to eliminate the railroad grade crossings as they effect the state and national roads. We spoke of the English roads many times after returning from that country and the manner in which every road in that country either went over the railroad crossings or under it so that railroad crossing accidents never happen in England. America could profit by this idea even if it is an old world idea. No road should ever cross a railroad track. Now the National Highway Association has decided that all national roads shall eliminate the grade crossings by going under or over the railroad tracks. We are improving with age.
