

Farmers To Get Payments

BY OVID A. MARTIN
WASHINGTON (AP)—Farmers will get payments under the government's new \$1,200,000,000 yearly soil bank program only for what they themselves do to reduce production of crops now in surplus.

"They will get no payments on reductions caused by nature through drought, floods, hail, storms, insects and the like," Agriculture Department officials said this will be the rule in fixing payments under the soil bank plan for 1946 crops.

The soil bank is designed to reduce production of such crops as corn, peanuts, rice and tobacco by the offer of government subsidies to farmers for planting other crops than are allotted them.

The farmer may plow under a crop immature and get a soil bank payment but only on the amount of the estimated production thus eliminated.

These rulings greatly narrow the 1945 program from that indicated by Secretary of Agriculture Benson at a news conference May 31. At that time, his comments and a press release distributed by his department were interpreted as indicating that any immature crop—whether it had good or poor prospects—would be eligible for full payment if plowed up.

Benson put a different light on the program in a speech last night at Beaver Dam, Wis.

"To the end that I am able I intend to see that the nation gets a dollar's worth of surplus reduc-

tion or a dollar's worth of conservation for every dollar paid out," he said. "We should not add load upon the program responsibility for drought relief, flood relief and credit needs."

The administration has proposed to determine the size of payments for underplanting allotments by multiplying the normal yield of the idled acres by a crop rate. These rates have been set at 90 cents a bushel for corn, \$1.20 for wheat, 15 cents a pound for cotton and \$2.25 a hundred pounds for rice. No rates have yet been set for peanuts and tobacco.

Thus a farmer who ploughed up 10 acres of corn having a normal yield of 50 bushels an acre would get a soil bank payment of 500 times 90 cents or \$450.

But under a payment method tentatively adopted for this year, the yield of ploughed-up land would not be based on the normal figure, but on an appraisal of the crop outlook at the time the farmers applied.

Thus if a field which normally produced 50 bushels was appraised at 20 bushels because of adverse weather, the payment for ploughing under each idled acre would be 20 times 90 cents or \$18. That would be only \$180 for 10 acres.

Army Issues Draft Call For August
WASHINGTON (AP)—The Army has issued a draft call for 13,000 men in August. This is the same number asked for July.

This call brings to 2,070,430 the total number drafted or earmarked for induction since the resumption of Selective Service in February 1945.

Quotas were 6,000 for each of the first four months of this year, then 12,000 for May and June and 13,000 for July.

Early Dental Care Can Save Teeth

(This article is published as a public service by The Sanford Herald in cooperation with the Seminole County Dental Society.)

Early dental care can save your child from the rocky road to ruined teeth now being traveled by millions of Americans.

With special mirror and x-ray, the dentist can spot that pinpoint decay when it can be repaired quickly, painlessly and cheaply.

He can start the child in the use of the toothbrush.

He can apply sodium fluoride to the child's teeth to prevent decay.

When a tooth is missing, the

dentist can insert a space maintainer so that the permanent teeth can come into their proper positions.

He can carefully check the "sixth year molars," the first permanent teeth that come in. Since these do not replace primary teeth, parents often do not realize that these teeth are permanent. The sixth year molars have been called the "keystone of the dental arch" because they influence the position of the other teeth.

A dentist on the first visit can also examine the child for crowded, spaced, protruded, rotated or "bad bite" teeth.

Correction of such conditions can often be made with wire appliances so slight and small that children can wear them without discomfort or visibility. Unlike the crude appliances of former years, the guide wires are as small as horsehairs and yet strong enough to move even adult teeth.

Authorities agree that a child should be introduced to a dentist long before he gets a toothache. A good time to go is when mother herself has an appointment. The dentist can show the child around, explain his equipment and strike up a happy, friendly relationship.

The visit to the dentist should be treated as a normal thing. Mother should be careful about any infection in the voice of

heavy sighing as she tells someone within earshot of the child. "I have to take Tommy to the Dentist."

Too often grownups are fond of a peculiar kind of boasting. They enlarge on any small discomforts experienced in dental work and go into useless details that frighten children needlessly. Fear of dentists, studies have shown, is learned from others. In this day of painless dentistry, it is an unnecessary fear.

THANKLESS JOB
MUSKOGON, Mich. (AP)—Muskegon Coast Guardsmen worked two weeks in snow, sleet and freezing rain to rehang their old boathouse. Now they have been notified the boathouse will be torn down to make way for a new one.

AEC Signs Contract With Boston Firm

WASHINGTON (AP)—The Atomic Energy Commission has announced the signing of a contract with the Yankee Atomic Electric Co. of Boston, to assist the company in development and operation of a large-scale power plant in Rowe, Mass.

The contract is the first to be concluded under AEC's power demonstration reactor program. The aim of that program is to bring private resources into the development of engineering information on nuclear power reactors and, AEC said, "to advance the time when nuclear power comes economically feasible."

Yankee will bear construction

costs estimated at \$4 1/2 million dollars. Of an additional five million dollars needed for research and development, the commission will perform up to a million dollars worth in its own facilities and underwrite up to four millions in private facilities.

Yankee will pay any research and development expenses above the estimated five millions.

New England utilities holding Yankee stock will distribute the electricity.

One estimate is that each juvenile delinquent child costs the taxpayer \$300.

Krider Tells Importance Of Giants To Sanford

Rotarians Discuss Plans For 1956-57 At Club Assembly

Club directors, committee chairmen and several officers met in a club assembly at the home of Dr. Charles L. Persons, president-elect of the Sanford Rotary Club at his home last night. Plans for the 1956-57 year, were discussed, committee assignments made and reports of projects completed received.

Gospel Meetings To Start Sunday

A series of gospel meetings will be held at the Church of Christ, Second St. and Elm Ave., starting Sunday and continuing through June 30, Minister Ralph Brewer, Jr. announced today. The guest speaker for the evening services to be held each night at 7:45 p. m. will be Sam Binkley of Pensacola, a former minister of the local church. In addition, a morning message will be broadcast over the local radio station at 10 a. m., Monday through Friday.

John Krider, City Commissioner, Seminole County Commissioner-elect, introduced as the "New York Giants unofficial representative" by Jaycee President George Andrew Speer, yesterday, told the New York Giants' story to the Seminole County Junior Chamber of Commerce at its noon luncheon meeting.

Following this unfortunate incident the New York Giants became interested in the Mayfair Inn and eventually invested \$200,000 for the property, \$75,000 for furnishings, and \$33,000 for national advertising.

In 1951, Krider said, the New York Giants took over the operation of the golf course. All of the money received from their operations here, said Krider, has been put back into the hotel and their facilities here for improvements. On top of this, the New York Giants have spent from 30 to 40 thousand dollars a year for improvements and expansion. Even the sprinkler system at the Mayfair Inn Golf Course cost \$24,000, he said. In addition, there has been an annual expenditure of from 20 to 25 thousand dollars for

Possibilities that the Lake Monroe Causeway connecting the French Ave. thoroughway with 17-92 across the river, and into Volusia County with the tie-in just south of Orange City will be constructed soon became eminent yesterday when the Board of Volusia County Commissioners passed a resolution, already mailed to the State Road Board and to State Road Department District Engineer Richie Greene, requesting a "survey of the costs and feasibility of the causeway."

Norman Bryant, a Jacksonville engineer who conducted a preliminary survey on the "possibilities of the causeway" said "if turned loose on the project we will be ready to award bids before the first of the year."

The total cost of the causeway and highway into the Sanford connecting link at French Ave. and Seminole Blvd. has been estimated at four and a half million dollars.

"Already in the budget," according to Road Board member William Dial of Orlando, "are the necessary funds for the highway north of Orange City to the St. Johns River."

John Krider, Sanford City Commissioner and Seminole County Commissioner-elect, said yesterday "Everybody's said on it." At a meeting with the State Road Board, local officials were told that the causeway would be under construction within 15 months if the Boards of County Commissioners of both Seminole and Volusia counties desired it.

"Otherwise," Dial told the local officials, "the entire area will be by-passed with a road that will cross the St. Johns River above the present bridge."

"In addition," said Dial, "the proposed highway that would by-pass Sanford as well as other points in Volusia County would not be ready for construction for possibly four or five years."

Father Will Induct Son In Rotary

The members of the Sanford Rotary Club at its regular weekly meeting next Monday noon at the Yacht Club will witness a rather unusual ceremony when Morton McDonald of DeLand will induct his son, Thomas R. into membership in the local club. Tommy, as he will in the future be called by his fellow members who customarily call each other by their first or some nickname, will be the fourth member of the McDonald clan to become a Rotarian. His father, a past president of the DeLand Club and a Past District Governor of Rotary International has two other sons, F. Morton McDonald and William R. (Bill) McDonald who are members of the DeLand Club. Both will be present at the Monday meeting to see Tommy inducted.

The senior McDonald, a past president of the Florida Title Assn. is at this time President of the American Title Association and is presently in Chicago attending a national convention of abstractors. He will fly home Sunday to attend the Sanford meeting.

An interested guest at the luncheon ceremony will be Samuel D'Ambrosia, of Longwood, well-known nationally as the Italian-American who, on coming to this country many years ago, vowed that he would show his respect for the American flag in a daily ritual of a flag-raising and salute and the depositing of five cents in a fund to be mailed yearly to the Treasurer of the United States in appreciation of his being permitted to dwell in the "Land of the Free and The Home of the Brave." His act of patriotism has been going on for over 37 years and has been acclaimed by press and radio. His appearance locally will be in connection with Flag Day which falls on Thursday, June 14.

Vocational School Awards Certificates

The Seminole County Vocational School completed the school year with the awarding of certificates in typing, shorthand, bookkeeping, office practice, commercial English, commercial law, and filing. Fifty-six certificates were issued to students satisfactorily completing these courses. During the year, the school placed 65 students in permanent office positions, and 25 students in temporary jobs.

On the last day of school, teachers and students enjoy a school luncheon. Laura Krueger and Rounette Sulplizio were in charge of planning the affair. Mrs. Gladys Hall, principal, presented each student with a miniature diploma. This closed another successful school year for the Seminole County Vocational School.

Lions Club Ladies' Night, Installation Slated For June 19

The annual installation of new officers and "ladies night" of the Sanford Lions Club will be held the night on June 19, at Jim Spencer's Restaurant, beginning at 7:30 p. m.

Following the banquet dinner, the new officers for the coming year will be installed by Henry Witte Jr., of Fort Myers, formerly of Sanford, and formerly District Governor of Lions International, District 35-0.

Guests include District Governor Earl Ziebarth of Pierson, and David Lundquist, District Governor-elect of Orlando.

The new officers of the local club include Dallas E. Loop, President; Edwin O. Keith, First Vice-president; C. E. Witt, Second Vice-president; W. O. Livingston, Third Vice-president; J. Hugh Duncan, Secretary; Jack K. Morrison, Treasurer; H. W. Rawls, Tall-Twister; and Carl E. Williams, Lion-Tamer.

Couple Celebrates 50th Anniversary; Reception Is Held

Mr. and Mrs. George Wakefield of De Bary welcomed guests to their Golden Wedding anniversary Wednesday afternoon, at the Chimey Corners near DeLand, Masses of gold roses, gladioli and chrysanthemums adorned the reception room centered with a beautifully decorated table holding a massive wedding cake and festive punch bowls.

Toasting the health of the couple, who were very young at their nuptial ceremony in Oxford, Mass., on June 8, 1906, friends gathered around to compliment them on appearing still much too young for this story of "half a century of wedded life." They backed up their assertions with descriptions of intensive landscaping and horticultural interests of the couple, followed by social afternoons at neighborhood parties and cooperation in civic endeavors; all this too fatiguing for the most hardy, but never wearying to the Wakefields.

George and Louise started living in De Bary six years ago when it was a tiny community and they have been most active in its growth and progress. Their lovely home, set in deep lawns, flower beds and backed with a flourishing young citrus grove, has been the

No Indication Med Fruit Fly In Grove

"There was no indication that the Mediterranean Fruit Fly had infested the Seminole County orange grove," John W. Wilson, entomologist at the Central Florida Experiment Station, said last night.

However, Wilson pointed out that the deduction was made only from the fruit that was brought to the Experiment Station yesterday afternoon by the grove owner.

Although the appearance of the infestation in the fruit taken from the grove had all the indications of the Mediterranean Fruit Fly, it is evidently some other type of insect, Wilson explained.

"This deduction should not cause this grove owner or other grove owners in the county to relax," Wilson explained. "Neither should this grove owner discontinue efforts to ascertain whether or not the Mediterranean Fruit Fly exists in the grove from which the oranges were obtained."

The owner of the grove stated yesterday that the oranges from the grove were infested with a burrowing type of insect that had penetrated the rind of the fruit in which eggs appeared similar to that of the Mediterranean Fruit Fly that has been found in many of the groves in the southern portion of the State.

About eight oranges from the grove, in which there was a possibility that the Mediterranean Fruit Fly had infested, were taken to the Central Florida Experiment Station yesterday afternoon in order that the infestation be identified.

The exact type of insect has not yet been identified but it was brought out by the grove owner that every orange in the grove (Continued On Page Eight)

President Stricken With Inflammation; Taken To Hospital

WASHINGTON (AP)—President Eisenhower was stricken today with an inflammation of the lower intestine, and will be taken to Walter Reed Hospital.

The White House said it was "a precautionary measure," and that there was no "indication of any heart trouble."

The White House announced at 12:25 p. m. EDT that Eisenhower would be taken to Walter Reed by ambulance shortly.

Asked whether the President's condition could be regarded as critical, White House Press Secretary James C. Hagerty, replied: "I have not used any adjectives."

The President was stricken early today, White House Physician Howard M. Snyder was called to his bedside at 2 a. m. EDT.

Hagerty said in his noonday report he was not going to attempt to reach any conclusion on his own as a layman. He said he would leave that to the physicians.

Hagerty said the President has had one intravenous injection by dextrose sugar. He said Dr. Snyder has called in Dr. Francis Reed, chief of medicine at Walter Reed, for consultation.

Jets Need Landing Room

The Sanford Naval Air Station may be moved to another Seminole County site, according to unofficial and unconfirmed reports from Washington this morning.

A survey team recently looked over the Osceola strip in Seminole County and has taken into consideration the possibilities of using the long runways there for tactical operations of the local Navy Base.

Only one of the runways at the Sanford Naval Air Station is long enough to accommodate the huge jet planes that will operate and train here.

There will be somewhat of an expansion at the local base, according to news from Washington following talks with the Navy Department through the office of Congressman Syd Herlong.

This morning's release regarding the local Navy Station came from Congressman Syd Herlong following his commencement address at a Summerfield Fla. high school.

The Sanford Naval Air Station is not being contemplated as a complete move to the new base. Any part of a move would not be made in less than six years, according to information from Washington this morning.

The use of the Osceola Air strip is still being studied by the Navy Department and statements concerning its use, or any move regarding the local base, would not be ready for release before approximately six months.

Sanford and Seminole County citizens can be assured, said Congressman Herlong's office, that the Sanford Naval Air Station will not be reduced or closed—it will stay in operation with the Osceola strip could be placed in readiness.

There are possibilities that the Osceola strip would be used as a Satellite Base to the Sanford Naval Air Station and the local base maintained as a "base of operations and maintenance" station with approximately the same number of men and size of operations as are now being conducted there.

Congressman Herlong could not be reached for comment today. He left Ocala this morning for Washington and is expected to arrive there sometime tomorrow.

Methodist Confab Puts Emphasis On Youth Today

The Florida Methodist Conference attended by the Rev. and Mrs. Milton Wyatt of Sanford, today put its emphasis on youth and several hundred young persons were in Lakeland to take part in special programs.

The annual youth night came tonight and Dr. D. D. Holt of the North Carolina College Foundation is to be the principal speaker.

The conference yesterday unanimously said that Bishop John W. Branscomb be returned to Florida after completion of his service with the conference.

B. Lundquist, 5, Enters Pee Wee Golf Championship

Bobby Lundquist, five-year-old son of Mr. and Mrs. Raymond E. Lundquist of Sanford has signed up to enter the Youth Annual National Pee Wee Golf Championship to be held at Orlando, June 16-17, according to E. Stewart Johnston, manager of the Sanford Golf Club.

The family lives at 1800 S. Main Ave.

WE'LL TAKE A CUP OF KINDNESS YET. FOR AULD LANG SYNE Golden Wedding bride, Mrs. George Wakefield, serving lunch to Mrs. Elna Thiemann; Mrs. Margaret Morris, DeLand; Mr. and Mrs. Arthur Lambert and Mrs. Leona Dunton, DeLand. (Staff Photo)

Enterprise

By HELEN SNOWGRASS

The regular meeting of the Pathfinder class of the Barnett Memorial church was held in the living room of Hardin Hall of the Children's Home Monday evening. Following the devotional, the business session was conducted by president, Harvey Dunn and the following officers were elected: Charles Everett; vice president, Charles Long; secretary, Mrs. John Wagner; treasurer, Mrs. Harvey Dunn; chairman, Sunshine Committee, Miss Helen Snowgrass; program committee, Mrs. F. C. Long, Mrs. Katharine Sellers, and H. W. Finn. Refreshments were served by the Rev. and Mrs. Bascom Carlton.

The Eighth grade of the Enterprise Junior High School held the annual outing and picnic with an afternoon of swimming followed by delicious picnic supper at Sandalwood Friday afternoon. Grownsups

Baby Teeth

(This article is published as a public service by The Sanford Herald in cooperation with the Seminole County Dental Society.)

June 18, graduated with honors from a midwestern high school last June. Her high intelligence qualified her for college. But, strange to say, Jane decided to take a job as a scrubwoman in a downtown office building at night. She said she didn't have the money for college, even though scholarships were hers for the asking.

The real reason for Jane's hiding from people was her embarrassment over her appearance. She didn't want people to see her because she had a severe deformity of the teeth. They were out of position. Her "eye teeth" jutted out high in the gums so they looked very ugly. Her front teeth were widely separated. Her upper jaw protruded over her lower.

Jane's condition is known dentally as "malocclusion", meaning teeth out of their proper positions. A survey by the Chicago Board of Health showed almost half of Chicago's school children had that bad condition in varying degrees.

One of the chief causes for it, the survey found, was the too-early loss of the "baby" teeth. The survey concluded that a "diseased baby tooth can be as hazardous as a diseased permanent tooth".

Here is what happens when a primary or baby tooth comes out too early because of decay: teeth on either side of the gap tend to move together and close the vacant space. A few years later, when the permanent tooth is ready to come in, there isn't room for it where nature intended. It may, therefore, push its way through high up in the gums, or in some other wrong place.

With teeth growing out in odd positions in a growing jaw, the shape of the child's face may change decidedly. In this case, when people are more conscious of the value of fine teeth than ever before, this can be a personal tragedy.

No one knows how much juvenile delinquency stems from the rebellion of a dentally deformed youngster against a society that jeeringly called him "rabbit face" or "Andy

tend the Florida Methodist Annual Conference held in Lakeland this week

Pat Ryan left Saturday to spend the summer with his grandparents, Mr. and Mrs. Frank May in Langley, Ky.

Mr. and Mrs. Earl Tylor of Miami spent the weekend at the home of his parents, and the Rev. and Mrs. James McCullough and children of Greenboro arrived Wednesday at the home of her parents, Mr. and Mrs. W. L. Tylor and to attend the graduation of her brother, Dick Taylor from DeLand High School.

Mrs. Maud Lynam, accompanied Mr. and Mrs. Ed Daniel of DeLand to Maryland for a brief visit and will visit friends in Philadelphia.

MEAT LOAF RECIPES

Every cook has her favorite meat loaf recipe. Here's one that's different and so delicious it may become your favorite. Combine 2 pounds ground beef, 1/2 cup chopped celery, 1/2 cup chopped green pepper, 1/2 cup onion, salt pepper, ground dill seed to taste,

Gump" or "dripping teeth". Social workers believe there are hundreds of girls like Jane who gave up life goals at an early age and retreated from the world.

The story of "baby teeth" neglect doesn't end with a lost personality. Well-functioning teeth are a necessary part of a child's digestive apparatus, particularly in a period of rapid growth and development.

With the capacity to chew affected, proper foods often cannot be eaten. Neglected primary or baby teeth can be a factor, too, in gum disease or even in later life.

Showers for outdoor cookery may be rusty when you take them out after their winter's storage. Working each skaver in and out of the cans will usually remove spots.

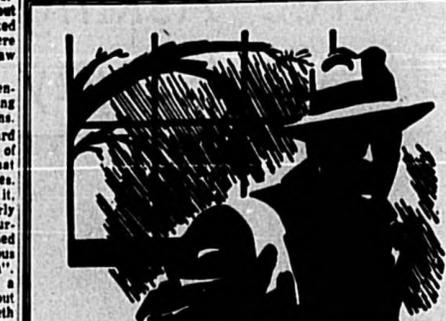

ELIMINATE STRAIN

An incinerator eliminates the strain of carrying heavy cans to the curb and in the case of middle-aged or older people, may actually prevent serious injury. Homemakers also report that they have fewer colds in the winter, as they no longer have to run out in freezing weather to bring in the empty garbage cans.

Soviet Communism Is Playing Double Game

By WILLIAM L. RYAN
AP Foreign News Analyst

Soviet communism is playing a bold double game.

The Kremlin seeks to make itself respectable in the eyes of the Western world. But it makes no effort to hide the fact that it still actively supports and inspires revolution by violence.

Moscow proclaims itself the champion of peaceful coexistence. But Communist doctrine in its up-to-date revision clings to the notion that Western capitalism must lead to war.

Russian leaders are engaged in a concentrated campaign to win friends. But Moscow still preaches subversion by trickery, deceit and violence.

The Soviet hierarchy throws out one challenge after another to the West, and looks for challenges to accept. It may even go so far — in the light of reappraisal of push-button war prospects of the future — as to accept some aspects of President Eisenhower's open offers for mutual air inspection of military installations.

The Russian leadership may do this because its planning is long range. The immediate objectives are propaganda victories aimed at breaking down Western unity. For the next 10 years at least, the Soviet Communists have indicated, the idea of world war is ruled out. But the Soviet Union will remain armed to the teeth, prepared to take advantage of any accident that might require a revision of the timetable.

The Soviet program has been publicly spelled out, for the benefit of communist leaders from 55 countries who attended the 20th Soviet Communist Congress in Moscow last February. The dogma, laid down in the resolutions of that Congress, is that there can be no true peace while capitalism exists. The specific resolution said: "While capitalism remains on earth, the reactionary forces representing the interests of the capitalist monopolies, will also, in the future, strive for military adventures and aggressions and try to unleash a war."

This is the foundation underlying the Soviet policy of all for heavy industry. The U.S.S.R. must be the strongest military nation until capitalism perishes from the earth.

The doctrine newly affirmed by the whole Soviet collective leader-

HITCH HIKER
DANVILLE, Va. (AP)—Mrs. Arlon Loving heard a strange sound as she drove her station wagon for several miles. She stopped at a service station, had the vehicle raised on a grease rack for a quick inspection. Perched precariously on a rear spring, and straddled over the axle was a tiny kitten.

The kitten seemed none the worse for the buggy ride.

Just as they will continue their attempts to win friends and influence people. Does this mean the Communist world leadership has reformed?

Its published program is evidence to the contrary. The West has been amply forewarned.

TAX CLAIM SETTLED
JACKSONVILLE, Fla.—A \$111,131.31 government tax claim against Harlan A. Blackburn of Orlando, convicted lottery kingpin, has been settled for \$16,713.45, it was learned yesterday.

The government announced at U. S. Tax Court sessions here in March that it had agreed to settle claims against Blackburn but details were withheld pending filing of the stipulation at Washington.

Blackburn is serving a five-year sentence at state prison for promoting a lottery in Polk County. He also faces federal gambling tax charges.

ORGANIZATIONS COMPLETED
VERO BEACH, Fla.—The federal citrus control committees and Florida Citrus Mutual completed their organizations here yesterday.

At the final mutual district meeting, A. B. Michaels of Wabasso, W. G. Strickland of Vero Beach and R. C. Brady of Titusville were re-elected directors from this east coast area.

Growers also picked Alex Rayburn of Vero Beach a member of the Growers Administrative Committee which helps administer the federal marketing agreement. Phil Gals of Fort Pierce was chosen an alternate.

HERE IS AN artist's conception of the atomic-powered plane of the future. The drawing by Jo Kertula, of New York, shows an eight-jet plane that would fly 100,000 miles on less than a pound of enriched uranium fuel. It could carry H-bombs to any spot on the globe without difficulty. (Newsweek Magazine Photo from International)

5 Local Retiring Teachers Have Set Example We Hope Others Will Follow

"Once upon a time" are magic words in the ears of children.

Magic words that have been repeated so many times that an analysis of story telling, examples placed before children by their teachers, and through factual representation of past events, would not reveal the infinite number of times they have been told and used.

It would perhaps lead us to say "once upon a time" five teachers began their careers in Seminole County—five young people who were prompted by their desires to devote themselves to a lifelong purpose of serving those so much younger—those who must be led into channels of usefulness.

Together—these five teachers have devoted 160 years of teaching and leading. Together—these five teachers have instructed thousands upon thousands of children in subjects that today—as adults—would have our minds reeling to keep up with them.

Today—five Seminole County teachers are retiring. They're leaving their positions of trust to find refuge in their years ahead—a refuge of indulging themselves in rest and relaxation—searching through a maze of desires to pursue hobbies and do the things that time during their teaching careers has not permitted.

There is no one with an imagination so great that would enable them to sum up all of the accomplishments reached during the 160 years of teaching on the part of these teachers—the number of great lives that have been molded—the number of successful businessmen and businesswomen, successful wives and housekeepers created by the examples and the teachings of these leaders.

There is no tribute great enough to bestow upon this group of teachers who will, no doubt, be missed from their classrooms and their positions when school bells ring again in the fall.

The list of teachers and principals who retire at the end of this school year, and the number of years they have devoted to the teaching of our youth in Seminole County includes: Herman E. Morris, Principal, Seminole High School, 30 years; R. E. True, principal, Sanford Junior High School, 31 years; Mrs. Gladys Smith, Semi-

nole High School, 29 years; Mrs. Janie Hart, Oviedo School, 28 years; and Mrs. Hettie McNamara, Lyman School, 42 years.

It is to these teachers that untold numbers of people of many ages owe many, many debts of gratitude for their devotion, for their prayers, for their untiring efforts, for their hours of coaching, for their patience, and for their leadership.

There are no words capable of expressing an honor that is due these five wonderful people who have put young people and their lives ahead of their personal desires. Should such words be made available they would be so forceful that their everlasting remembrance would be etched deeply into the minds of countless thousands.

To wish them luck, successful years ahead, and continued happiness would be quite compared to the honor that is due them.

Our hope is that the examples they have set will mold teachers for the future to carry on their banners of devotion and love for the youngsters in our schools.

Gift Scouts of all ages serve their communities in many ways. An estimated 200,000 Girl Scouts across the nation participated in the national Get-Out-the-Vote campaign during the 1952 Presidential elections. By setting up baby-sitting booths at the polls and taking care of children at home, they enabled mothers to vote and feel confident that their children were receiving competent and dependable care. Similar programs will be set up during elections in the future.

Recreation Program

The City of Sanford is again providing a citywide recreation program for the youngsters of the City during the summer months.

All children of school age will be registered for the program beginning Monday morning at 9 o'clock at the playground on the lakefront.

Buses are being provided for the transportation of the children to the recreation areas and back home again. Two buses will be operated on a regular schedule to see that as many children as possible will have an opportunity to participate in the activities under the direction of John Angel who will head up the City's summerlong program.

Swimming will be provided for the children, movies once each week, plus the programs of handicraft, athletics, storytelling and reading.

Each year the number of children participating in the program has grown and this year the largest number of children in the program's history is expected to turn out to take part in the planned and supervised activities that will keep children busy, happy and healthy.

We are hoping that many Sanford parents will avail themselves of the opportunity to send their children to the citywide summer recreation program throughout the summer.

The success of the program depends on the number of children taking part and a successful program provides reasons for the Sanford Board of City Commissioners to continue to provide the financial assistance to keep the annual program going.

Administration Not Saying Much

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP) — Although the Soviet leadership says Russia is "ready" for getting together with the United States, the Eisenhower administration shows no signs of either pushing for it or being ready.

There is no sign it has worked out any policy for handling the new Soviet tactics of soft talk and friendly gestures which, if pursued long enough, may weaken this country's world leadership and its ties with its allies.

This country was shocked this week to read Communist party boss Khrushchev's speech on Stalin's monstrous murders, particularly since Khrushchev and the other Soviet leaders were Stalin's co-workers.

The question—how could anyone deal with these leaders?—is a natural reaction to the speech. But either this country works out peaceful coexistence with Russia or the two nations must stay mightily armed against each other indefinitely.

So far as can be seen at this point the United States is merely reacting to Russian actions. President Eisenhower of yesterday's news conference indicated this country would not take the initiative on exchanging official visits.

In this election year it is possible the administration might get some sour reaction in this country if it stopped stiff-arming the Russians. Some of Eisenhower's republicans have publicly objected to exchanging official visits.

But, to show that the elections and his own candidacy for president are not taking up much of his time, Eisenhower gave this reply when asked if he thought he was in for a tough battle to be re-elected:

"Will you take an honest answer? I haven't thought a single thing about it. I am too busy."

In Moscow Wednesday, Khrushchev talked to an American, John A. Kennedy, publisher of the Sioux Falls (D.D.) Daily Argus Leader, who, after a month in Russia, told Khrushchev, "Our countries can and must get together."

"We believe that too, and we are ready," Khrushchev said. This is an example of Eisenhower's thinking, carefully avoiding taking the initiative, on Russian gestures toward an exchange of official visitors.

Recently the Russians invited Gen. Nathan Twining, Air Force chief of staff, to Moscow to watch the Soviet celebration of Aviation Day. After much discussion within the administration, Eisenhower

re-elected. Asked at his news conference if he would reciprocate by inviting the Russian air force chief to this country, Eisenhower said:

"If we have any indication that he would like to come, he will be welcome to exactly the same kind of things here that Gen. Twining saw over there."

But when asked if he would invite his World War II friend, Marshal Georgi Zhukov, Soviet defense chief, to Washington, Eisenhower replied:

"Well, I don't know that there will be any (invitation) extended at all. As I say, anything that would be done would be on a completely reciprocal basis."

Then he added that if the Russians asked Secretary of Defense Wilson to Moscow, Zhukov would be invited here.

Try and Stop Me

By BENNETT CERF

TWO GARDENERS met at the village store. "I hear you're up at Golden Acres, working for that banker feller Rocker-bill?" said one by way of greeting. "Me working for Rocker-bill? You've got it all wrong." The other assured him. "Why he gets up at six-thirty every morning to catch that crowded old train to commute to the hot city so he can keep up his estate and pay us all our wages. Rocker-bill is working for me!"

Mrs. Teitelbaum gasped and announced, "It says in the paper here that a man is run over in New York every twenty minutes."

"How sad," mumbled Mr. Teitelbaum. "The poor fellow!"

Breed Of Metals Being Improved

BY SAM DAWSON

PITTSBURGH (AP) — Improving the breed—usually associated with Churchill Downs or Belmont—today is the goal of thousands of scientists, engineers, technicians and pilot plant workmen in the nation. The breed they're out to improve isn't horses but metals.

They are trying to meet the ever growing industrial and military demands for better metals to do precise and often seemingly impossible tasks. Business in general, and even the stock market, watches their result.

That's because improving the breed of metal not only can bring success in the defense armament race but also, metallurgists here say, can make the difference between profit and loss for railroads, airlines, trucking. They say that improved metals lies the key to automation in manufacturing, building construction, to design, mining and even man-made satellites.

U.S. Steel has just opened a research center at nearby Monroeville, Pa., dedicated to improving the breed of metals. Two thirds of the work there is aimed at improving processes of handling metal and one third at seeking new products or applications.

Allegheny-Ludlum Steel's research scientists here are working on many problems, including new alloys to enable the Air Force to pierce the heat barrier; the speed at which many metals now used would melt. There already exists a small pilot plant that can fly that fast without melting and big ones are the new goal.

American Brake Shoes, which has a plant here and a research center at Mahwah, N.J., is working on new alloys, new heat techniques.

Board Of Health Warns Against Bats

JACKSONVILLE (AP) — The State Board of Health warned Tuesday that bats with rabies do not always appear ill and seem able to spread the disease while apparently normal.

It made the statement in a report on a three-year study of the part bats play in the spread of rabies to other species of animals and human beings. Bats carry rabies in salivary glands much longer than other mammals, the report said. The board has collected and examined 2,258 bats—21 of which were found to be rabid.

The report says "free living" bats—the kind that live in trees—are more likely to have rabies than colony bats found in caves.

The incidence among "free living" bats is 2.3 per cent and among colony bats, less than 1 per cent. Two cases of rabid bats biting human beings have been reported in Florida although no cases of rabies developed.

The most recent case was on May 24 in Alturas where a 10-year-old boy and his mother were bitten by a yellow bat he captured in his front yard. The board's laboratory at Tampa made a diagnosis of rabies and both mother and son are taking treatment.

Henry D. Vanders, director of the -agpa laboratory, made the first diagnosis of rabies in the United States in 1923. It was the case of a 7-year-old boy living near Plant City. He took treatment.

TODAY'S BIBLE VERSE
Ye have need of patience, that after ye have done the will of God, ye might receive the promise. Hebrews 10:36—Every great discovery is the result of patience. If a chemist must be diligent and patient to work out a formula why should we expect lightning quick results in the spiritual realm?

Candidates Beware Of 'Transceiver'

NEW YORK (AP) — While the 1956 national political conventions may not be the greatest shows on earth, they're going to be the most thoroughly covered shows on earth by television and radio.

All the networks are loaded with all sorts of engineering plans. Now comes NBC with a small gadget that could make a big stir. Convention candidates be warned. Purify your thoughts and watch your language or the Transceiver will get you.

The Transceiver is a pocket-sized two-way radio, much smaller than the "walkie-talkie" and "beermug" models used in previous convention coverage. The tiny two-way unit, about the size of a woman's formal handbag, will be used by NBC reporters on the convention floor.

If the Transceiver doesn't catch you, then the new one-man portable television camera may. These are only a bit larger than your youngster's toy death ray gun. Camera men can poke them into cranials of the convention halls and cameras that are inaccessible to the bulkier standard studio equipment.

Politicians speaking off the cuff

ASTHMA?
If you have asthma, you know how hard it is to breathe. You know how it can make you feel like you're being smothered. You know how it can make you feel like you're being choked. You know how it can make you feel like you're being strangled. You know how it can make you feel like you're being suffocated. You know how it can make you feel like you're being asphyxiated. You know how it can make you feel like you're being...
AT YOUR DRUGGIST OR YOUR PHYSICIAN'S OFFICE.
100 W. 1st St. Grand & Operated By Wm. B. Jones Phone 2119

should beware of microphones hidden under the cuff. For NBC reporters will be equipped with hip pocket wire recorders with wrist-watch and tie-clasp microphones. No, sir, the only way to assure the secrecy of anything will be not even to open your mouth.

In previous conventions reporters assigned to outlying beats of ten had trouble in learning what was happening inside the convention hall. But not this year. NBC reporters will be provided with a new model "personal" television receiver weighing just 22 pounds and having eight-inch screens which will keep them in touch with the convention floor.

A team of more than 30 NBC news commentators and reporters will cover the conventions from caucus to caucus. The total staff for the network will number about 400. NBC is considering insuring this expensive staff and equipment for five million dollars with Lloyd's, by the way.

Social Events Calendar

MONDAY
The Circles of the WSCS of the First Methodist Church will meet as follows: Circle 5: Mrs. Albert Jarrell, chairman, 3 p. m.; 1301 Seminole Blvd.; Circle 6: Mrs. Ned Smith, 3 p. m., Silver Lake; Circle 7: Mrs. H. B. McCall, chairman, 3:30 p. m. at 2317 Melonville Ave.; Circle 8: Mrs. Albert Hickson, chairman at 3 p. m., 1119 Myrtle Ave.; Circle 9: Mrs. G. B. Hudson, 3:30 p. m. at 113 Holly Ave.

Sunday School Members Celebrate Last Meeting

The Daughters of Wesley Sunday School Class held a social and business meeting in McKinley Hall Tuesday evening with Mrs. M. L. Wright, Mrs. Zeb Ratliff, Mrs. G. W. Bailey, Mrs. C. H. Wain and Mrs. Lyda Stall as hostesses.

Ladies Honor Miss P. Collins With Luncheon

A luncheon was given in honor of Miss Patsy Collins by Mrs. Harry Woodruff and Mrs. Algie Speer in the Woodruff home Saturday at 12:30 p. m.

The dining room table was centered with a lovely floral arrangement and pastel gladioli were used throughout the other rooms.

Each individual place was marked with a tiny place card centered with a miniature bride and groom.

The honoree was presented with a gift of her chosen silver by the hostesses.

Miss E. Woodruff, Jack Schirard Feted At Ranch

Elizabeth Woodruff and Jack Schirard were feted Saturday afternoon with a swim-ski and supper party at the MQ Ranch by Mr. and Mrs. H. W. Morris and their two sons, Bobby and Ernie.

Elizabeth, popular and honored graduate from Seminole High School and Jack who was graduated from University of Florida, Gainesville receiving an agriculture degree in citrus, enjoyed the events with their friends.

Swimming and skiing were done by the group climaxed by a delicious Ranch supper at the cook house of the Morris Ranch. The honorees were presented with individual invitations personalized with hand paintings depicting the many activities each had done during their four years at their respective school and college.

Student Night Planned Sunday

It has been announced that the Sunday Night service of the First Methodist Church will be conducted by the college students of the church.

Student night will begin at 8 p. m. and all interested persons are urged to attend. Boys and girls representing the various colleges through the nation will direct the singing, Bible reading and whole service.

The Session of the First Presbyterian Church will meet in the Session Room at 7:45 p. m.

The Women of the First Presbyterian Church Evening Circle No. 1 will meet in the Philathea Class Room at the Church at 8 p. m.

The co-hostesses will be: Mrs. Fred Bistline, Mrs. J. A. Bistline, Mrs. R. T. Milroe, and Mrs. W. J. Hartley.

The First Presbyterian Church Vacation Church school will be held as follows: Nursery-Junior departments, 9 to 11:30 a. m. and Pioneer from 7 p. m. to 9 p. m.

The W.M.U. Circles of First Baptist Church will meet at 10:45 a. m. Covered-dish luncheon will be served at 12:00 noon. The program will be conducted at 1 p. m.

The G.A.'s and Sunbeams will meet at this same hour during the vacation period.

The Elsie Knight Circle of the First Baptist Church will meet at the home of Mrs. V. C. Meesenger, 137 N. Elliott at 8:00 p. m.

Vance Duke will be in charge of the program.

A coke party was given for Miss Patsy Collins, bride-elect of June 16, by Mrs. Fred Ball, Mrs. S. O. Shindler of New Smyrna Beach at the Ball home recently.

Margolds, magnolias and hydrangeas were used in various arrangements about the rooms of the lovely home.

Cokes, open face sandwiches, nuts and cookies were served the guests as they "chatted" in the afternoon.

Miss Collins was presented during the event with a piece of her chosen silver by the honoree.

Approximately 75 guests were invited to come between hours of 3:30 and 5:30 p. m.

MISS SHIRLEY WALL (Photo by Cox)

Late Summer Wedding Planned By Miss Wall, Tom Norris

Mr. and Mrs. Roy Wall announce the engagement and forthcoming marriage of their daughter, Shirley Ruth to A/3C Thomas C. Norris, son of the late Mrs. J. C. Boyce.

Miss Wall, a graduate of Seminole High School is now attending Florida Southern College in Lakeland.

Mr. Norris, also a graduate of Seminole High School is now stationed at Lowry Air Force Base in Denver, Colo.

The wedding is planned for late summer.

Delicious refreshments were then served to Mrs. Kirby, Mrs. Chorpensing Jr., Mrs. Ted Williams, Mrs. J. W. Brantley, Mrs. R. C. Duncan, Mrs. C. L. Butner, Mrs. Bob Bennett, Mrs. R. T. Hatchett, Mrs. W. M. Colbert, Mrs. G. G. Myers, Mrs. W. F. Patsch, Mrs. J. H. Lee, and Miss Pamela Patsch.

The next meeting will be July 10 at 8 p. m. with Mrs. R. F. Hatchett.

Methodist Circles

Circle No. Ten of the First Methodist Church met with the chairman, Mrs. J. H. Nicholson, Tuesday night for the first meeting of the new church year.

The new officers were introduced as follows: chairman, Mrs. W. B. Kirby; study chairman, Mrs. G. G. Myers; devotional, Mrs. C. E. Chorpensing; Sunshine, Mrs. W. F. Patsch; Christian social relations, Mrs. Robert Bennett; and bassist, Mrs. R. C. Duncan.

Mrs. Chorpensing gave the devotional followed by prayer after which routine business was taken care of.

land, Mr. and Mrs. Harry Woodruff, Mr. and Mrs. John Schirard, Mr. and Mrs. R. S. Morris, and Robert and Ernie Morris.

Personals

Miss Alice Brown and Miss Jo Ann Moore have completed their Junior year at the University of Miami and have returned home.

They also have two guests, Miss Genia Palasantian, Peris; and Miss Nancy Smith, Coral Gables.

Mrs. Paul Brown spent the past weekend in Miami, returning Tuesday.

Miss Marianne Strickland has arrived home to spend the summer holidays with her parents, Mr. and Mrs. M. R. Strickland after completing her freshman year at Virginia Intermont College.

Miss Jane Adams and Miss Betty Clineard of Springfield, Tenn., are the guests of Mr. and Mrs. M. L. Raborn Sr.

Mr. and Mrs. Robert Miller, Charmon and Robert Jr., along with George Hardin Jr., have returned from Greenboro, N. C., where they attended the graduation of Miss Mildred Miller from the Woman's College of the University of North Carolina.

Charles L. Armstrong Jr., and Bob Kilpatrick are attending the School of Banking of the South at the Louisiana State University in Baton Rouge, which started June 4, and will run to June 18.

Charles is representing the Sanford Atlantic National Bank and Bob the Florida State Bank.

Miss Marty Stemper, Miss Lynda Echols, Miss Sandra McKinney, Miss Marilyn Hunt and Miss Ariene Gonzalez will leave Sunday for the MQ Ranch where they will attend the girls session for two weeks.

Lt. Col. George M. of Ft. Hill, Okla., and children, Linda, Mary, and George Jr., are visiting his mother, Mrs. M. E. Mays and brother and sister-in-law, Mr. and Mrs. W. B. Mays of this city.

Miss Sonja and Miss Sandra Monforton have completed their freshman year at Virginia Intermont College at Bristol, Va.

Miss Martha Owen, and Miss Nancy Rountree are home for the summer after completing their Sophomore year at the Florida State University, Tallahassee.

James Davis has completed a successful year at Florida State University in Tallahassee and is home to visit his parents, Mr. and Mrs. J. C. Davis and sister, Ann.

Mr. and Mrs. Jimmy Wade and family, were at New Smyrna Beach Sunday enjoying the warm weather and fine swimming.

Morning Coffee Fetes June 16 Bride-Elect, Miss Patsy Collins

A morning coffee was given by Mrs. E. S. McCall and Mrs. J. N. Robson in honor of Miss Patsy Collins, whose marriage to Eugene Estridge III will be an event of June 16, yesterday morning at 11 a. m. in the McCall home.

Lovely decorations of summer flowers using the theme of pink, white and green were placed in various spots about the rooms of the lovely home.

The serving table, overlaid with a cutwork cloth, was centered with a clever creation of tiny sweetheart roses and baby statts in a silver bowl, flanking the arrangement on four sides were burning white tapers.

Other creations of pink carnations and white gardenias were used in the other rooms.

Miss Collins and little Susan McCall greeted the guests as they arrived at the door.

Gifts were presented the honoree from each hostess of or which refreshments were served.

Those invited to attend with the popular young bride-elect were Miss Ellen Lyon, Miss Martha Owen, Miss Nancy Rowntree, Miss Joan Saunders, Miss Rosemary Garner, Miss Beverly Cooper, Miss Grace Marie Stinescoper, Miss Peggy Wright, Mrs. Francis Stanstrom, Mrs. William Howard, Miss Jeanette Cleveland, Mrs. M. L. Raborn Jr., Miss Caroline Meinnis, Mrs. Floyd Cooper, Mrs. Robert Berg, Miss Patsy Walker, Miss Paulette Cason, Miss Jeanette Kinsaw, Mrs. Gerald Covington and Mrs. J. S. Adams.

Also attending were Mrs. Robert Williams, groom's aunt; Mrs. Eugene Estridge, Mrs. A. L. Collins, bride-elect's mother; Miss Susan McCall and the hostesses.

Couple Married In Live Oak

BY HELEN SNODGRASS
Miss Jonell Diets and Glenn Harrell were married Thursday May 31 at 6 p. m. in a simple double ring ceremony performed by Judge Hearn of Live Oak at his home.

Mrs. Corwin Rice, sister of the bride, Palatka, and Mrs. Leon Harrell of Live Oak attended them.

The former Miss Diets wore a white nylon street length dress with white accessories and a corsage of pink carnations.

Also attending the wedding were Mr. and Mrs. C. Diets, former residents of Enterprise and Mr. and Mrs. Albert Harrell, Live Oak.

Mrs. Harrell, who was a member of the graduating class of Live Oak High School was graduated the same evening of the wedding.

The couple left immediately on a honeymoon trip to the central part of the state but will make their home in Live Oak.

Cut weds out of English muffins; butter the cut surfaces and toast the muffins in a hot oven. Fill the wells with scrambled eggs mixed with diced ham.

Classmates Fete Miss L. Brinson At Informal Dance

A lovely dance was given Wednesday evening, in the home of Mr. and Mrs. John Williams of Loch Arbor, honoring Miss Lucretia Brinson who will be leaving soon to make her home in Charleston, S. C.

Hostesses for the occasion were Miss Wynne and Miss Betty Williams.

Dancing and games were enjoyed by Rosemary Southward, Judy Ludwig, Helen Pittard, Linda Williams, Bonnie Wilson, Diane Williams, Sally Williams, Carolyn Washburn, Cindy May, Margaret Jones, Ethel Lee Riser, Barbara Bradley, Susanne Jones, Deanna Nicholas, Sally Robb, Melinda Murray, Anna Libby, and Marilyn Washburn.

Also Johnny Walch, Alex McKibbin, Buddy Kirk, Johnny Emerson, John Mauer, Harry Robinson, Lad McCoy, Duane Coombel, Jimmy Kipp, Dan McCoy, Glynn Hodges, Emmett McCall, Tommy Butner, Mike Roberts, and Bobby Harbour.

How Much Can Human Ear Safely Stand?

BY ALLAN MERRITT
ST. LOUIS (AP)—The ear-splitting noise of the military jet airplane—the world's greatest maker of sustained noise—has given rise to a big question: How much can the human ear safely stand?

The deafening sound waves already have reached the point where they cause physical pain at close range.

And the noise is becoming greater year by year with constant steps in jet engine power.

There's nothing in nature similar to the jet noise. That's why it's hard to accept.

"It is not something we are going to have to live with," Gen. Nathan F. Twining, the Air Force chief of staff, told the Air Force Assn.

The noise of commercial jet airliners probably can be reduced to that of present propeller driven aircraft, through the use of silencers or mufflers, by the time they come into use in 1958 or 1959.

But military aircraft, with their afterburners, simply cannot afford to give up the performance that would be lost through noise suppression.

Some measures have been taken to combat the noise.

The Air Force puts barriers around tailpipes of its noisier jets to corral and enclose sounds during engine warmups, and uses the most isolated parts of its airfields for this purpose.

Among those trying to determine whether jet noise constitutes a danger are scientists at St. Louis' Central Institute for the Deaf, who are studying the effects on flight deck personnel aboard an aircraft carrier at sea.

Studies show the noise from a jet engine is not made inside but from 2 to 20 feet in back of the plane. Measured in power rendered to generate noise, a truck uses about 10 watts, a propeller-driven aircraft perhaps 1,000, some present jets 10,000 and future jets possibly 100,000.

Members of the Noise Abatement Panel in Washington said that when noise exceeds 140 decibels, pain is experienced and people become frightened and try to get away.

The noise of the new jets coming into use exceeds 140 decibels.

Authorities on sound tolerance have said in recent years the boundary line between noises which cause hearing losses and those which do not lies between 90 and 95 decibels or, for brief exposures, perhaps 100 or more.

Gen. Earl E. Partridge, commander in chief of the Air Force's Continental Air Defense Command, gave this verdict:

"Between 40 and 85 decibels, only a Rip Van Winkle can sleep; from 85 to 90, no man can yell loud enough to be heard; from 90 to 100, there is physical discomfort; and from there on it's painful to the ears."

The Delta-winged F102 Convair, which soon will be added to the Air Force arsenal, goes one point over the ear-paining minimum for

persons with out ear plugs. It has to get up two miles to get outside the range where it interferes with speech.

L. Johnson Fulfills Father's Prediction

WASHINGTON (AP)—The story goes that when Lyndon Johnson was born, his Indian fighting grandpa Sam Johnson, of Johnson City, Tex., studied the boy carefully and predicted:

"He'll be a U. S. senator some day."

Johnson fulfilled the prediction in 1949 at the age of 40.

Five years later he became the youngest floor leader in Senate history.

Now there is talk that the tall, dark-haired Texan may be destined for an even greater role than his grandpa Sam envisioned—President of the United States.

With the quiet but powerful support of House Speaker Sam Rayburn, (D-Tex.) his longtime friend and mentor who will be wielding the gavel as chairman at the Chicago convention, Johnson figures in speculation as one of the top dark horse candidates for his party's presidential nomination this summer.

If Johnson wins the nod—and President Eisenhower again heads the Republican ticket as expected—it would mean that health could hardly be an issue on either side.

Exhausted by his hard-driving duties as Senate majority leader, Johnson suffered a "moderately severe" heart seizure last July 2. Eisenhower experienced a similar attack on Sept. 24. Both have apparently made strong comebacks from their coronary ailments.

Johnson will be just a week away from his 46th birthday—18 years younger than Eisenhower—when the Democratic National Convention opens in Chicago on Aug. 30. He was born on a farm near Johnson City, Aug. 27, 1908.

Johnson's stock as a potential dark horse took a dramatic upsurge last month when Texas voters gave him a landslide victory over Gov. Allan Shivers in a battle for control of the Texas Democratic Party. Shivers had bolted the party and led his state in a Democrats-for-Eisenhower sweep in the 1952 elections.

Spurred by his triumph over Shivers, Johnson will go to the Chicago convention not only as his state's favorite son candidate, but also as leader of the 54-vote Texas delegation—the latter a potent weapon in the heralded nip-and-tuck scramble for votes.

In addition, deep and powerful undercurrents are at work that might develop in Johnson's favor.

Political experts say that if Northern "liberals" press the explosive segregation issue by insisting on a strong civil rights plank in the party's platform—thus wiggling another North-South tight line that in 1948—it could benefit Johnson spectacularly.

In that event, they say, the Texan is likely to pick up a rack of votes from Southern delegates.

Sen. Walter George (D-Ga.) has said his state may swing behind Johnson early in the convention. Similar expressions of support have come from Democratic Sens. Byrd and Robertson of Virginia, Russell of Georgia, McClellan of Kansas and Smathers of Florida.

A middle-of-the-road moderate Johnson is on record as opposing force in carrying out the Supreme Court's mandate against segregation in the nation's schools. The problem, he says, should be left to states to solve.

Johnson has served notice, however, that he would resist any attempt to rally the South around him in a battle against integration.

"I will have no part of any move that can create tension and turmoil in our party," he says. "There is no public office I want enough to preach race hatred to get it."

Some of Johnson's closest associates are serious about whether the Texas would be happy about getting the nomination this year. His pretty dark-eyed wife, Lady Bird, is dead set against Johnson embarking on an arduous stump campaign after his heart attack last summer.

The couple has two daughters, Lynda, 12, and Lucy, 9, of whom Johnson is extraordinarily proud.

Besides consideration for the opposition within his family to a rigorous campaign, Johnson is thoroughly devoted to his present job as Senate Democratic leader.

If nominated and elected, Johnson would be a political rarity. Senators are frequently mentioned

Farmers Will Be Allowed To 'Bank' Some Croplands

WASHINGTON (AP)—Secretary of Agriculture Benson announced Thursday that farmers in areas where 1956 crops are not too far advanced will be permitted to "bank" some croplands this year under the new billion-dollar soil bank program.

Under this program, authorized by a new farm law signed by President Eisenhower Monday, the department will offer payments to farmers for reducing production of such surplus crops as cotton, wheat, corn, rice, peanuts and tobacco.

Payments will not be offered, Benson told a news conference, on crops that already have matured. He said he did not believe the public would look with favor on this.

Benson said he could make no forecast as to what percentage of the farmers will take advantage of the soil bank on this year's crops, or how much money will be paid out. He said the leniency of the season undoubtedly will hold down participation.

Benson announced rates which will be offered for taking land out of cotton, wheat, corn and rice. Rates for tobacco and peanuts will be announced within a few days, he said.

The rates are: corn 90 cents bushel; cotton 15 cents a pound; wheat \$1.20 a bushel, and rice \$2.25 a hundred pounds. These rates are equivalent to about 80 per cent of parity in the case of corn, cotton and wheat and 50 per cent of parity in the case of rice.

Parity is a standard for measuring farm prices declared by law to be fair to farmers in relation to prices they pay.

April Personal Income Rises

WASHINGTON (AP)—Personal income in April rose by nearly 3 billion dollars to a record annual rate of \$17 billion, the Commerce Department said Tuesday.

It was the second straight month in which a rise of nearly two billion dollars on an annual rate had been recorded. The April rate compares with \$15,200,000,000 for March, and \$15,300,000,000 for February.

Significant in the April report was a rise of 16 billion dollars in total agricultural income from \$14,100,000,000 in March to \$14,600,000,000 in April.

This was the highest annual rate for farm income in any month since last November. For the first four months of the year farm income has been running at a rate of \$14,300,000,000, or slightly below the \$14,800,000,000 for the entire year of 1955.

Personal income includes wages and salaries, the net income of proprietorships and partnerships, farm income, dividends and interests, net rents, and other types of individual income.

The department said wage and salary payments rose by about a billion dollars in April over March. March also had shown a billion dollar gain over February.

FLY IN THE CAR

SAN DIEGO, Calif. (AP)—A housefly cost James Horn \$400. The fly got into Horn's car and distracted his attention from driving.

Police said the car ran off the road and hit a street sign and a small building. Damage to the Horn's sedan — \$400.

Some scientists believe that carbon dioxide released by burning of coal and oil is helping to make the world warmer.

In speculation for the presidency but seldom get the nomination.

The last Democratic senator nominated for president was Stephen A. Douglas way back in 1860. Harry A. Truman, a former senator, reached the White House via the vice presidency. The only Republican senators nominated since the Civil War were James G. Blaine, Benjamin Harrison and Warren G. Harding. The latter two were elected but in general, while senators make headlines, they also seem to make enemies.

Fess Parker Is Very Impressed With Foreign Dolls

HOLLYWOOD (AP)—Fess Parker, a man of well-chosen words, says he was "very favorably impressed" with the foreign dolls he met on his recent European tour.

This may come as a blow to American girls, since Fess is one of the most eligible males in Hollywood, but the lanky Texan was high in his praise of women he met abroad.

"They say that American women are the best groomed in the world," said Fess, "and it's probably true. The European girls do not have the financial or educational advantages that girls in this country do. But they make up for it by doing the most with what they have. English women are supposed to be cold and distant. I didn't get that impression at all. I found them to be very friendly."

He said he plans to return to Europe "as soon as possible." He opined that he thought it better to satisfy his wanderlust before abandoning his bachelorhood.

When he'll be able to get back to Europe is a question. His boss, Walt Disney, has kept Fess working since steadily for the 21 months he has been under contract. He leaves his work for the Atlanta, Ga., premiere of "The Great Locomotive Chase" and Walt expects to have another picture bustling for his star this summer.

Fess remarked that his European tour exceeded his expectations, as far as public reaction is concerned.

"The reception I got in England compared very favorably with the enthusiasm I met in American cities during the height of the Davy Crockett period," he observed.

"The picture had been playing only a few weeks over there, but the song was at the top of their hit parade."

John Russell appears to be co-star Richard Egan cornered in this scene from Twentieth Century-Fox's CinemaScope screen version of the sensational best-seller, 'The Revolt of Mamie Stover,' currently at the Ritz Theatre. The luscious star has the coloring and temperament of a volatile redhead in the Deluxe color film which also features Joan Leslie and Agnes Moorehead in its cast.

Legal Notice

NOTICE OF SUIT
IN THE CIRCUIT COURT OF THE STATE OF FLORIDA
THOMAS KEITH WILKINSON, Plaintiff,
vs.
JOHN RUSSELL, Defendant.
The undersigned, Plaintiff, do hereby advise the Defendant, that a suit in law has been filed in the County of Seminole, State of Florida, to recover the sum of \$10,000.00, plus interest, and costs, and to have declared null and void the purchase contract of THOMAS KEITH WILKINSON dated February 11, 1956, and to have the same set aside and annulled. The cause of action is set forth in the complaint on file with the Clerk of the Circuit Court of Seminole County, Florida, at Sanford, Florida, on June 7, 1956.
Dated at Sanford, Florida, June 7, 1956.
THOMAS KEITH WILKINSON, Plaintiff.
By: _____, Attorney for Plaintiff.
Circuit Court Clerk
Sanford, Florida

Rotarians

(Continued From Page 1)
Bradley, George Touhy, B. L. Perkins Jr., T. E. (Gene) Tucker and C. L. Redding; officers, Dr. R. W. Ruprecht, secretary and W. M. Hayes, treasurer; committee chairmen, attendance, James (Jimmy) Holtzclaw; fellowship, George Smith; public information, Fred P. Perkins; youth, Ben Wiggin; club bulletin, Charlie Morrison; club history, Walter M. Hayes; community projects, William Bush. Other chairmen, unable to be present, were announced as follows: program, Myron Beck; membership, F. D. Scott; classification, Benny Powell; magazine, the Rev. H. L. Zimmerman; club activities, Francis Roumillat; student loan, William (Bill) Kirk; Rotary information, Andrew C. Blime.
The directors present elected the following to honorary membership: Gen. J. C. Hutchison, Lee Leasher, Robert A. Williams and Harry Kudell. At the completion of the evening's business, the group enjoyed delightful buffet refreshments.
Boll around the Dead Sea is so filled with salt that it cannot be tilted until it is washed.

Krider

(Continued From Page 1)
national advertising and in each instance the name of "Sanford" was carried in conjunction with it. Krider surprised his Jaycee audience when he told them that over 100,000 guests registered at the Mayfair Inn last year. "We would feel that we had a successful year if seventeen thousand tourists were brought into Sanford," said Krider. The Mayfair Inn has 84 people on their payroll with an expenditure of \$14,000 a month and \$2,500 a month payroll at the golf course.
There will be an addition to the hotel constructed this year at a cost of approximately \$125,000, Krider said, and when furnished, the cost will exceed \$150,000. The dormitory and administrative office building to be constructed at the Mayfair Inn will have 100 rooms, a cafeteria, lobby and offices at a cost of an estimated \$348,000. It will cover an area of 35,000 square feet and house 250 men.
Krider emphasized the importance of the New York Giants to Sanford when he displayed an armful of clippings from nearly 300 newspapers from around the country written on the PGA Tournament last year.
Next year, he said, there will be at least 15 sports writers, radio and television sports men in Sanford to cover the New York Giants activities.
It will cost \$2,500 a day to house and feed the men coming to Sanford for the spring training season, Krider said, a total of \$245,000 turned loose in Sanford, and "most of this will stick to Sanford, not counting what the boys in training spend."
One thing that Krider emphasized yesterday was the fact that "The New York Giants are paying over \$10,000 a year in taxes—just as large a taxpayer as our biggest industries," he said.
"The City has made a good deal," Krider stated, "with a \$280,000 building program in exchange for a small amount of land."
"By 1967 the New York Giants will have nearly a million dollars invested in Sanford," he pointed out. "They are desirable people and want Sanford people to like them."
MIAMI—A 12-year-old boy was killed and another youngster was critically injured yesterday when their bicycle collided with a car and was dragged 122 feet.
The dead youngster was James Daniel Jr. The critically injured boy was 8-year-old Johnny Lord.

Geneva

By ADDIE PREVATT
Oris Mathieux of New York is visiting his mother, Mrs. Mamie Mathieux and his son, Donald for a while.

Mr. and Mrs. R. Kieley have moved from Sanford into the Tubbs house. He is serving a tour

No Indication

(Continued From Page 1)
had been infested with whatever insect had attacked the citrus acreage. The exact number of trees or acreage was not disclosed in revealing the possibility that the Med-Flay existed here.
Florida Citrus Mutual, yesterday, in a special bulletin, said that the Mediterranean Fruit Fly is a rapidly multiplying insect, smaller than the common housefly, highly destructive to citrus fruits and other host plants. Its destructiveness, said the bulletin, results from its reproductive habit of depositing eggs in a ripe fruit host, the female using a hypodermic-like appendage, through which the eggs are forced after the rind has been punctured. The bulletin goes on to say, "The eggs develop into larvae in two to three days. These feed inside the fruit for about 10 days, drop to the ground—where the pupae—soon stage and remain just under the surface of the earth for about 10 days, becoming adult flies which emerge and start the reproducing cycle again."
of duty with the Navy and currently stationed at NAS, Sanford. Chief and Mrs. Marvin Coleman have returned from a vacation spent visiting his mother in St. Louis, Mo., and her mother in northern Illinois.
Chief and Mrs. C. R. Bone and two daughters have moved from Lake Mary into their newly purchased home on Rosella Drive, Sanford.

Hospital Notes Couple

(Continued from page One)
scene of many social gatherings. With them for the happy occasion were their daughter, Mrs. Bruce Allen and son, Richard, of Cleveland, the latter proudly representing his father, who was unable to be present.
Their many De Bary friends and those from adjoining towns who attended the reception professed their best wishes to this popular couple who now start their second half century of life together "for which the first was made."

FOR UNIVERSITY
CLEARWATER—The Pinellas County Commission has offered 400 acres as the site for a new four-year state university. The land lies between the western entrance to Gandy Bridge and Pinellas International Airport.
The city of St. Petersburg has offered the World War II maritime training base and Tampa has proposed acreage north of that city. The Board of Control is now studying the sites for possible locations of a possible university in the Tampa area.

Delta Phi Chorus, Variety Show Will Appear in Orlando

Members of the Sanford Branch, Church of Jesus Christ of Latter Day Saints (Mormons) announce today that the Delta Phi Chorus and Variety Show from the Brigham Young University have been scheduled for an appearance in Orlando. Composed entirely of college students, the show has toured widely throughout the Western States. This is the first Eastern tour.
Members of the 25-voice male chorus have served two or more years as missionaries for the Church of Jesus Christ of Latter Day Saints. It has sung at general conferences of the church in the Salt Lake City.
The Chorus is directed by John Thompson, a popular tenor soloist who has appeared in more than 100 shows in the Mountain States during the past season. He has recently returned from a tour in Europe with the Mormon Tabernacle Choir.
In its performance, the chorus will be accompanied by a cast of talented vocal, instrumental, and dramatic artists.
The appearance will be in the City Auditorium in Orlando at 8 p. m., June 11. Tickets will be on sale at the door or may be obtained in Sanford by calling 1841-W.
The proceeds will go to the Boy Scouts of the Church in Orlando.

Board To Hear 3 Ordinances

Lutheran Church 10-Day Convention Set In Minnesota

Nearing the completion date of the local Lutheran Church of The Redeemer, more than a thousand voting and advisory delegates are expected to chart the course of the Lutheran Church-Missouri Synod for the next three years when the 43rd regular convention of the church convenes in St. Paul, Minnesota, June 20.

Participating in the 10-day triennial convention will be 704 voting and 332 advisory delegates.

The Lutheran Church of The Redeemer is a Missouri Synod Church.

Five days before the convention is called to order by the Rev. Dr. John W. Behnken, church president, convention committees on seminars and colleges, missions, liturgical and doctrinal matters, parish education, and nominations will start work. The two hundred committee members involved will attend pre-convention sessions at the church's ministerial preparatory school in St. Paul, Concordia College.

Actual convention sessions will be held in the theater section of St. Paul Civic Auditorium. Official convention hotels are the St. Paul and Lowry.

The Rev. Dr. Arnold H. Grumm of Fargo, N. D., second vice-president of The Lutheran Church-Missouri Synod, will deliver a sermon entitled "Stand Firm and Be Courageous" at the service opening the convention, on Wednesday morning, June 20, in the Civic Auditorium.

The Rev. Hugo A. Gamber, president of the host Minnesota District, will be the officiant.

The hundredth year of Missouri Synod Lutheranism in Minnesota will be observed at a rally service on Sunday afternoon, June 24. Dr. Behnken will address the audience in the 10,000 capacity arena.

That evening, a choral union concert will be conducted by William Neuhar, organist and choirmaster at Christ Lutheran Church in Minneapolis.

Wednesday evening, June 27, the Minneapolis Symphony Orchestra will present a concert in St. Paul Civic Auditorium, with Robert Berg, an instructor at Concordia Theological Seminary in St. Louis, as violin soloist in the Vivaldi A Minor Concerto. The orchestra will play arrangements of Lutheran chorales, including "W a k e A w a k e," "A Mighty Fortress is our God," and "Finlandia."

Twice daily during morning and afternoon opening devotions, convention delegates and guests will hear a 35-voice choir under the direction of Harold W. Otte, member of the faculty of Concordia College. The boys, drawn from the sixty congregations of the Missouri Synod in St. Paul and Minneapolis, have been rehearsing weekly since March, and during the convention will be seen on area television screens as featured musicians.

Trinity First Lutheran Church, Minneapolis, will mark its centennial year with a historical pageant on Saturday evening, June 23. Chartered buses will take delegates and guests to the church. The next morning, the Rev. Dr. Oswald Hoffmann, director of public relations for the Missouri Synod and speaker on the Lutheran Hour, will speak at anniversary services at the parish.

Two young men were arrested early this morning and are now on the Seminole County jail charged with "petit larceny" in connection with the taking of batteries and gasoline from a Paola warehouse.

Constable J. Q. "Slim" Galloway took David Garvin, 20, Uplala, Everett Hawkins, 18, Lake Monroe, and an unnamed 18-year-old juvenile into custody at 1 o'clock this morning following a week-end investigation of the burglary.

Constable Galloway said today that he received a report Saturday morning of the stolen batteries and gasoline from a warehouse owned by Harry Tooka.

"By picking up their car tracks," said Constable Galloway, "and following them to various places I was able to track down the theft."

Three ordinances and a resolution are the top items on the 16-item agenda to come before the Board of Sanford City Commissioners at their meeting tonight at the City Hall in the commissioners room.

The first reading of the ordinance granting a 30-year franchise to the Florida Power and Light Company in the City of Sanford will be heard.

Another first reading of an ordinance will be heard following a special public hearing on the rezoning of the city's athletic field at Mellenville and Celery Avenues. The ordinance will rezone the three-lot area from an R1A area to an R2 area. It is on this property that the nearly \$250,000 New York Giants' dormitory and administrative office building will be constructed.

The third ordinance to confront the commissioners tonight will be the first reading of an ordinance vacating Myrtle Avenue from Fourth St. north to the south right-of-way line of the Atlantic Coast Line Railroad property.

A resolution similar to the one adopted by the Board of Seminole County Commissioners at their Saturday morning special meeting will be presented to the Board of Sanford City Commissioners for consideration. This resolution will urge the feasibility study and survey of the causeway over the St. Johns River and Lake Monroe to connect the French Avenue Thoroughway with 17-92.

The twelve other items to come before the Board for discussion and consideration include the water plant agreement with the Florida Power and Light Company; consideration of a quit claim deed on the old hospital property; a discussion of the use of the American Legion property in conjunction with the baseball facilities for the purpose of the possible sale of two lots on the northwest corner of Commercial St. and Hood Ave.; a request for a transfer of an abutment on a street light request at Washington St. and Cooke Ave.; approval of two plots; appointment of two members of the Zoning and Planning Commission; appointment of one member to the Board of Adjustment; discussion of the use of the Colton Cruts for recreational purposes; the proposed purchase of playground equipment; and a proposal to open an alleyway.

The regular monthly meeting of the Board of Directors of the Seminole County Chamber of Commerce will be held tomorrow evening at 8 o'clock in the Educational Building on Commercial Ave.

Members of the Seminole County Chamber of Commerce are urged to attend this meeting in order to meet the new members of the 1934-35 directorate who will be at the meeting.

Reports to be heard at tomorrow night's meeting include the National and Legislative Affairs Committee, Highway, Industrial, and Naval Affairs committees.

Christian Church Members Planning 31st Anniversary

The 31st anniversary and homecoming of the First Christian Church will be observed Sunday, Sept. 23, with morning and afternoon program and dinner on the grounds, the pastor announced today. The church was organized Sept. 20, 1903.

Plans have been laid and committees appointed. The program committee, composed of W. H. Young (chairman), Mrs. O. T. Pason and Mrs. H. K. King, is expected to secure a guest speaker. Invitations to non-residents and former members will be sent by Lester Tharp, Miss Flo Bishop and Miss Nancy Hicks and an exhibit of pictures, clippings and other materials relating to the history of the church will be arranged by Mrs. C. E. Hester, Mrs. V. E. Grantham and J. J. Knight.

With the assistance of Mrs. W. C. Clause, Mrs. A. P. Bandy and Mrs. J. P. Richards, the Rev. Perry L. Stone will write a historical sketch of the church. Special music will be planned by Jay M. Walter, Mrs. J. C. Dietz and Mrs. O. D. Landress; and decorations arranged by Mrs. Mabel Bishop, Mrs. W. Roland and Mrs. Barlow S. Hinson Jr., Mrs. W. H. Young, Mrs. Harry Falk and Mrs. C. R. Grieme will be in charge of the dinner. Tables are to be set up on the lawn by Belt E. Purvis, Karl Evans and Clyde E. Feathers.

O. D. Landress, Mrs. F. L. Elett and Mrs. J. Bair have been appointed to handle publicity. A special offering for the education building fund will be promoted by George W. Morgan, Mrs. W. P. Yesley and B. H. Williams. J. Bair and Donald Tucker are assigned to take pictures of the occasion and souvenir booklets will be published by Harry Falk, Mrs. Chandler Vall and Mrs. DeWayne Free. The booklet covers are to be printed and contain pictures; the inside pages including the day's program and a historical sketch are to be mimeographed.

The celebration is expected to attract a large crowd, including out-of-town guests.

3 SHS Girls Chosen To Attend Girls State

Three Seminole High School girls were named representatives to Girls State today.

Girls State, a movement of the American Legion Auxiliary to inform the youth of the working and operation of our government, will be held in Tallahassee for a full week beginning June 23.

State representatives are selected by the Class of Seminole High School according to their leadership and scholastic ability.

They will attend a district meeting in Orlando Saturday to become acquainted with one another and to start their campaign of political offices.

Those selected from Seminole High School are: Nancy Cash, sponsored by the American Legion Auxiliary; Carol Nutt, sponsored by the Anna Miller Circle of the Girl's Club; and Juanita Wynne, sponsored by the Sanford Pilot Club.

Others chosen were: Nancy Cushing, Sylvia Price, and Nancy Grace Houby.

While in Tallahassee they will be housed at the Florida State University dormitories. The possible highlight of the event for the girls is a tea given by the Governor for them.

Brevard Board Authorizes Decree For New Causeway

Almost simultaneously with the resolutions of the Board of Volusia County Commissioners and the Board of Seminole County Commissioners for a survey and feasibility report on the causeway over Lake Monroe to connect the French Avenue Thoroughway with 17-92 in Volusia County was a resolution of the Brevard County Board of County Commissioners.

County Commissioners of Brevard County took the first step last week toward setting up a toll bridge over the Sebastian Inlet south of Melbourne Beach and Bridges over both the Banana and Indian rivers connecting Port Canaveral with the mainland.

Under the proposal the bill would cover the possibility of a toll bridge over the Sebastian Inlet south of Melbourne Beach and Bridges over both the Banana and Indian rivers connecting Port Canaveral with the mainland.

Final Step Taken To Get Causeway Plans Underway

SRD Advertising For Construction Of State Road 415

The State Road Department is for bids for the construction of new advertising in Volusia County State Road 415. The bids are returnable on June 21 in Tallahassee.

The road will run from a point two miles east of the Osteen Bridge to State Road 30 at Semolula where it will join with the DeLand-New Smyrna Beach Road.

All of the right-of-way has been acquired by Volusia County and the Board of County Commissioners has given the project top priority in Volusia County.

Three concrete bridges are to be constructed and 15 miles of road will be widened and paved, however, the project does not include a new bridge over the St. Johns River.

Senator Douglas Stenstrom, commenting on the project, said today, "Everyone who has worked on the long-needed road reconstruction is happy at the progress which has been made."

"This means for Seminole County," he said, "a new up-to-date access road from the East Coast to Sanford and our new prospective four-lane 17-92."

"We are hopeful, of course, that in the not too distant future a new bridge can be built over the St. Johns River on 415," he said.

Senator Stenstrom said, "I am extremely hopeful that the State Road Department will do something on the widening and repaving of State Road 46 from the Geneva Ave. bridge to 17-92."

"This will give Seminole County another good access road to our main highway," he said.

With the widening of repaving of State Road 415, people from Lake and Orange Counties will be brought through Sanford as they travel in New Smyrna Beach and will ultimately mean a greater development of eastern Seminole County.

Board Adopts Resolution

The final step in getting plans for the causeway across Lake Monroe to join the French Ave. Thoroughway with 17-92 in Volusia County was accomplished Saturday morning at a special meeting of the Seminole County Board of Commissioners.

The commissioners unanimously adopted a resolution requesting the State Road Department to "make a traffic and earning survey of the feasibility of constructing a causeway across Lake Monroe."

The resolution, on adoption, was mailed to the State Road Department Fifth District Road member William Dial, and District Engineer Richie Greene.

Money for the engineering survey, to be paid by the State Road Department, will be appropriated on June 15.

According to Norman Bryant, an engineer making preliminary surveys for the State Road Board at no cost, said "If turned loose on the project everything will be ready for the awarding of bids by Jan. 1, 1937."

John Krider, City Commissioner and County Commissioner-elect, told the Board of Seminole County Commissioners Saturday morning "It is either one thing or another—get a regularly traveled highway or a limited access one."

The regularly traveled highway mentioned by Krider would be the rerouting of 17-92 through Volusia County to meet French Ave. by a causeway and the limited access highway would be a highway for limited travel with limited access roads that would be practically every Central Florida City on its way to Tampa.

It was also revealed at the Saturday morning meeting that engineers had stated that the causeway would calm the waters of Lake Monroe and make it more adaptable for recreation and sports such as boating and skiing.

Also planned for the causeway would be two six acre islands for recreational purposes. The two islands would provide a spot for fishing, swimming, skiing, boating, and other recreational activities.

Krider commenting on the project following the adoption of the resolution, said "It is the starting of the biggest thing that has ever been developed here."

Brailley Odham, attending the meeting Saturday morning said "The project will go through."

The general opinion expressed at the meeting was that with the building of the causeway, the completion of 17-92 throughout its entire length that has been planned, would be assured.

William Dial also expressed, prior to the meeting in Orlando, that there would be a brand new access road to 17-92 the causeway for the residents of DeBary.

William Dial also expressed, prior to the meeting in Orlando, that there would be a brand new access road to 17-92 the causeway for the residents of DeBary.

Galbreath Named 'Airman Of Month'

Mark A. Galbreath, Jr., A-2C, who is rotation clerk for the 38th Air Base Group, was named Airman of the month for May.

Keeping the M O T and forecast documents for a thousand men is a considerable job for the 19-year-old Airman.

In a letter of recognition signed by Col. Frank P. Gallo, commander, 38th Air Base Group, Galbreath was lauded for his "exceptional pleasant disposition, tact, and high degree of job accuracy."

A native of Daytona Beach, Galbreath has spent 10 of his 18 months in the Air Force in Korea. In addition to the group awards and letters of recognition, Galbreath will receive a trophy, a certificate signed by Col. Carlisle of the Wing, and a check for \$15.

Mark Galbreath spent part of his childhood in Sanford attending schools here. He is the nephew of Mrs. George C. Harden and C. E. "Jim" Spencer and the son of the late Ella Spencer Galbreath.

Teacher Is Named Mrs. Homemaker

DAYTONA BEACH, Fla. — Mrs. Gayle Dupont, 45-year-old Houston, Texas, history teacher, has been named "Mrs. Homemaker 1934."

She was one of 40 regional winners of a contest, based on hints to housewives, sponsored by Miller Products Inc., starch manufacturer. The winners came here for the finals Thursday night.

Mrs. Dupont said her hint was a "positive approach to the overweight problem." She explained her 15-year old daughter Gayle once came to her with a newspaper clipping showing a striped dress.

"I told Gayle that if she lost five pounds, she could get the dress," Mrs. Dupont said. "So as a constant reminder about keeping her weight down, the picture of the dress was pasted on the refrigerator. Every time she went near the refrigerator for a snack, that clipping reminded her about her weight. She lost the five pounds—and got the dress."

Sanford Group To Attend Orlando Church Dedication

The first building of the East Orlando Christian Church, corner of Francis and Vine Sts., Orlando, will be dedicated Sunday at 4 p. m.

The Rev. Lawrence S. Ashley, executive secretary, Florida Christian Missionary Society, Ocala, will deliver the dedication sermon. The Rev. Perry L. Stone will offer the prayer of dedication and the pastor, Bruce E. Burghard is the pastor of the young congregation.

A group from Sanford is expected to attend the dedication service.

Apopka Woman Stumps 'What's My Line?' Panelist

A Central Florida girl stumped the "What's My Line?" panelists last night on the TV broadcast of the popular Sunday night show.

Sara Detwiler of Apopka, kept the panelists guessing the entire time of her appearance on the show.

The panel of experts, which included Jack Leonard, George Axelrod, Dorothy Kilgallen and Arlene Francis failed to name the "What's My Line," title of the young Central Florida spotswoman who is currently diving 45 feet into a tank of water on a horse at Atlantic City, N. J.
