Cawthon Answers Charges Of Riley

TALLAHASSEE, July 14.—W. S. Cawthon, state superintendent of public instruction, today filed an answer to the alternative writ of mandamus granted three weeks ago to R. R. Riley, who alleged the state superintendent declined to issue him a life certificate as a teacher although he is qualified for it.

FEDERAL TROOPS HAVE EVACUATED CITY SAO PAULO

Reported Evacuation by Government Troops Has Been Confirmed by United States Government in Diapatch.

Reported 3,000 Killed

SANTOS, Brazil, July 14.—Fighting in the city of Sao Paulo, seat of the Brazilian insurrection, has been of most desperate character, during the past few days, according to two employes of an American concern, who arrived here Sunday after a perilous journey from Belagrad, the Red metropolis.

Reports which have passed the censor assert that the situation in Sao Paulo is momentarily growing worse; that the rebels are getting the upper hand of the government establishments in Sao Paulo city and are now advancing upon Santos, which port is the supply base of the government troops, which are declared to be fighting a rearguard action and endeavoring, though unsuccessfully to hold back the advance of the rebels.

Arraign 24 Cases In Police Court At Regular Session

Of 24 cases arraigned this morning before Judge J. C. Shreve in the local municipal court, 18 were fined or forfeited bonds for failure to appear, two were continued and four were dismissed. Fines, costs and estrated bonds amounted to \$148.

AROUND WORLD FLIERS ARRIVE IN PARIS TODAY

Reach Paris After Uneventful Flight—Spent Few Minutes in Strasbourg to Refuel Machines—Cover Over 5,000 Miles in Ten Days

PARIS, July 14.—The American round-the-world fliers arrived here at 4:46 o'clock this afternoon.

5,000 Miles in Ten Days WASHINGTON, July 14.—In the last ten days the three American army round-the-world fliers have covered 5,000 miles, a record for their flight thus far.

Reached Bagdad At Bagdad the fliers landed at the British air base at Hinaldi, headquarters of the royal air force in Mesopotamia.

FUNERAL OF CALVIN COOLIDGE, JR.

First and exclusive picture of the funeral of Calvin Coolidge, Jr., son of the president of the United States as the flower blanketed casket was carried by U. S. Marines into Edward's Congregational Church in Northampton, Mass., where the boy was known by everyone.

SANFORD'S NEW BANK OPENED FOR BUSINESS

Sanford Bank and Trust Company Makes Its Bow To The Public This Morning—Has Strong Organization

The Sanford Bank and Trust Company formally opened its doors and made its bow to the public today as a banking corporation and trust company.

Until today the institution was known as the Peoples Bank of Sanford. This bank during the past year under the direction of the present officers and directors of the Sanford Bank and Trust Company has made rapid strides.

"We aim to serve the public to the best of our ability so far as sound banking permits," stated E. H. Brewer, cashier, this morning.

"The members of the Eighth English squadron at the Bagdad air base have requested that the American fliers be their guests during the stay at Hinaldi. I have been very glad to accept these invitations for the flight, because such an arrangement will be much more satisfactory than going to a hotel in Bagdad, due to the distance from the city.

"The hotels here are not very good, being very insanitary and infested with rats. There is also quite a lot of plague in the city at the present time. A room which I had recently occupied, was occupied by a woman before me who died of the plague and it is said she contracted the disease in that room; but the fliers will be free from those conditions at the airbase."

Officers of the Sanford Bank and Trust Company are: W. H. Tunnicliffe, president; Dr. S. Puleston, vice-president; F. H. Brown, cashier, and H. S. Pond, assistant cashier.

The board of directors comprise J. R. Anthony, chairman; W. H. Tunnicliffe; Dr. S. Puleston; H. C. Puleston; H. C. DuBose, Edward Higgins, Harry L. Walsh, C. F. Williams, R. J. Holly, R. B. Wight, Roy F. Symes and F. H. Brown.

Lone Sanford Tonsorial Artist Is In Favor of Barber Shops for Men Only

Ladies exert a refined influence in barber shops and are welcome to invade this time-honored masculine fortress at will, a check-up among Sanford tonsorial artists revealed today.

The question has been raised by the promise of Louis J. Ward, a barber of Redlands, Cal., to start a shop "for men only."

Sanford barbers, extending the glad hand of welcome to the fair sex, have become as adept at the single or the boyish bob as they are with the "razor-hound" cut.

"I don't believe that men feel comfortable in these 'beauty parlors,'" said Mr. Ward, champion of the men of the west coast. But that is where local barbers take issue with the Californian.

Six Indictments of Sinclair Sustained

WASHINGTON, July 14.—Six of the ten counts in the indictment of Henry F. Sinclair, for contempt of senate, were sustained today in the Supreme Court of the District of Columbia.

Justice Hoehling ruled out questions asked of Sinclair about the alleged contribution of Sinclair consolidated stock to Will H. Hays, or someone representing the Republican National Committee, and the transfer of funds from the National Park Bank of New York to the National Metropolitan Bank of Washington, as not pertinent.

He also made the same decision on the final count, which charged Sinclair with refusing to answer any questions.

\$25,000 Municipal Bonds Are Retired During Past Month

The financial report of the city clerk for the month of June as submitted to the City Commission this afternoon shows that the finances of the city are in good shape and that \$25,000 of old issues of bonds have been retired.

One issue of the 1923 series for \$15,000 and one of the 1914 series for \$10,000 were retired. Interest and exchanges paid out during the month of June amounted to \$23,939.98.

Although the figures submitted show some decrease in the total of receipts for June as compared to previous months, they indicate that the collection of taxes is much less than for those months and thereby accounts for the greatest part of the difference.

Table with 2 columns: Item and Amount. Total receipts: \$137,468.77. Disbursements: \$367.40. Office city manager: \$367.40.

WOULD ESTABLISH LAW

ATLANTA, July 14.—Committee on Judiciary of Georgia Senate in its report to the senate today recommended the passage of the bill to abolish capital punishment in Georgia.

NO AMERICANS KILLED

RIO JANEIRO, July 14.—So far as is known here, no Americans have been killed or injured in fighting at Sao Paulo.

UTILITIES FIRM OFFERED \$100,000 FOR GAS PLANT

A definite offer of \$100,000 for the gas plant of the Southern Utilities Company was made by the City Commission of Sanford this afternoon to A. W. Houston, vice-president and general manager of that company, an answer to the offer to be submitted by the utilities company within the next 15 days.

The utilities company offered the gas plant to the city some time ago for a sum of approximately \$322,000. The commission deemed this too much, however, and it was rejected.

Mayor Forrest Lake stated that it was his opinion that the Southern Utilities Company will accept the offer of the city for the gas plant and asked Mr. Houston to make arrangements for the transfer as quickly as possible.

A request of Mr. Houston to have his company submit a price to the city of Sanford on or before September 1 for the sale of the local electric light plant was made by the commission following the discussion of the sale of the gas plant.

Mr. Houston expressed a desire to have as much time as possible to discuss these matters with his company, but told the City Commission that he will get the estimates and submit a price for the electric plant and give an answer in regard to the former in endeavoring to interest northern people in this state by giving them the true facts concerning climate, advantages, etc.

Recently Mr. Mitchell invested a large sum of money in land on the east coast and is now contemplating purchasing more in this county, perhaps in Sanford, said Mr. Hill. Through the campaign thus far 20 of the five-acre tracts have been sold, he stated.

Already seven families have given their intention of removing to this state and settling upon property purchased in Gards Park, it was stated. It is hoped and believed that more will be persuaded to do likewise before the winter season arrives.

Mr. Hill is also very enthusiastic about Florida which he declares is the garden spot of the United States. No city in the state has any better, he stated, than does Sanford, he stated after going over the city during the past few days.

Last of John Brown's Raiders Writes To A Friend In Sanford

Luke F. Parsons of Salina, Kan., said to be the last surviving member of the famous John Brown's anti-slavery scouts of years ago, is an old time friend of Charles F. Haskins of this city. Recently Mr. Parsons passed his ninety-first birthday, hearty and hale as ever, according to a letter just received by his friend here.

Mr. Parsons, who is president of the John Brown Memorial State Park near Salina, in a reminiscent mood wrote the letter, recalling events of many years ago. The two men had not heard from each other in years and to Mr. Haskins, Mr. Parsons related happenings of years ago. Mr. Parsons, in his letter, asked to be remembered to Aaron Robbins, another resident of this city and a friend of his.

AUTHORITIES BELIEVE MISSING UNITED STATES ARMY OFFICER HAS BEEN VICTIM OF FOUL PLAY

50,000 CIRCULARS GIVE PROSPECTS OF THIS COUNTY

Delaware Man Tells of Advantages Offered in Literature Advertising Garding Park Properties.

An extensive campaign in which not only his properties in Seminole county but the county as a whole are being advertised far and wide, is being carried on by Hugh S. Mitchell of Wilmington, Del., according to C. L. Hill, who is handling the sales department for the former.

Mr. Hill, who is spending a few days in Sanford in the interest of "Gards Park" properties owned by Mr. Mitchell, exhibited some of the literature which is being mailed out to prospective home-seekers in northern states. Over 50,000 circulars together with follow-up letters are being sent out, Mr. Hill stated.

In all this literature there is boasting for Seminole county, which will be of great advertising value to this county, declared Mr. Hill, who stated that Mr. Mitchell is telling the world of the advantages of Seminole as he found them to be, when he came here several months ago and purchased valuable property interests in the western part of the county.

"Gards Park," which is the subject of the advertising literature, is located about eight miles from Sanford, lying along the Yuck River along its easterly banks. The property, 180 acres in size, has been divided into five-acre tracts and these are being offered on easy terms and at reasonable prices in order to induce more people to come to Seminole to live.

The land is said to be particularly adapted to the production of citrus fruits and is also excellent for raising vegetable products. Mr. Mitchell, a retired business man of Wilmington, became interested in Florida some time ago and during the past winter purchased the Straut Farm Agency, the tract of land which he calls "Gards Park."

That Mr. Mitchell is enthusiastic about the future of Florida in general and Seminole county in particular, goes without saying, according to Mr. Hill, who stated that the former is endeavoring to interest northern people in this state by giving them the true facts concerning climate, advantages, etc.

Recently Mr. Mitchell invested a large sum of money in land on the east coast and is now contemplating purchasing more in this county, perhaps in Sanford, said Mr. Hill. Through the campaign thus far 20 of the five-acre tracts have been sold, he stated.

Already seven families have given their intention of removing to this state and settling upon property purchased in Gards Park, it was stated. It is hoped and believed that more will be persuaded to do likewise before the winter season arrives.

Mr. Hill is also very enthusiastic about Florida which he declares is the garden spot of the United States. No city in the state has any better, he stated, than does Sanford, he stated after going over the city during the past few days.

Kiwanis Nine Will Play Leesburg Club On Next Thursday

Having conquered the Orlando Kiwanis Club baseball team twice during the past few weeks and now eager for more triumphs on the diamond, the nine representing the Sanford club will invade Leesburg on Thursday afternoon of this week to engage in combat with the Kiwanis outfit of that city, according to an announcement made today by Edward F. Lane, captain of the local team.

All the arrangements for the game have been completed and Mr. Lane has just received a letter from the secretary of the Leesburg club, which in a measure might be construed as being one filled with absolute confidence on the outcome of the game.

That the local club will continue its winning streak and emerge victors in Thursday's struggle is the confident prediction of Mr. Lane and the ball tossers composing the local aggregation. "It is too late in the season to begin losing games now," said Mr. Lane, while Schelle Maines added that the word loss is not in a Sanford Kiwanian's dictionary.

Here is an excerpt of the letter which Mr. Lane received this morning: "After the game, if there is anything left of you allow, you are cordially invited to enjoy the hospitality of our club at the Marlborough Hotel. The food that we shall dish up for you has been carefully prescribed by our physicians and surgeons as particularly adapted to those who are sore of body and weary of mind. For we know you will be both."

"Flere we shall be before the game but health and vigor after we are finished you as you may wish."

Touring Car, Two Suit Cases and Uniform of Officer are Found At Canton Sunday

Missing From His Home Since July 2

ASHVILLE, N. C., July 14.—An intensive search in this section was begun today for the body of Major Samuel H. McCleary, who disappeared from Raleigh July 2 and has not been heard from since.

Major McCleary's automobile was found near Canton, N. C. yesterday, containing personal effects and baggage as well as a stained army cap.

Until finding of the cap, officials had entertained hope that the officer might have suffered a temporary lapse of memory, but that theory has been abandoned today and it was definitely believed that McCleary has been slain.

The car was found abandoned about two miles east of Canton. It bears a Kansas state license number 18,718 and the motor number 539,257. These numbers are identical with those given in the description of the officer's car with the exception of the motor number which was given as 591,759.

Positive identification was made, however, when a permit to operate the Dodge car on the government reservation at Fort Leavenworth was found made out in the name of Major McCleary.

Paul Play Theory Later Discarded. Belief that Major Samuel H. McCleary, army officer who disappeared after being seen at Raleigh, N. C., on July 2, had with him \$500,000 was expressed by police authorities last night when it was reported that an army cap found in his abandoned automobile near Canton, N. C., was blood-spattered.

This belief was strengthened when it was reported by a resident of Thickety a settlement near Canton, that two men on Friday driving the car later found abandoned had asked him for water to wash their hands and had stated that they were having trouble with the car. This man later found the automobile abandoned and reported it to Canton authorities, who communicated with officials here today.

Immediately after these reports had been received by the Williams, National Guard officer, attempted to communicate with Adjutant General Metts at Raleigh. Failing to get the communication Major Williams organized a volunteer searching party last night and left for the Canton section to aid in the hunt for the missing officer.

Last Seen in Raleigh. ATLANTA, Ga., July 14.—Major Samuel H. McCleary, last seen in Raleigh, N. C., on July 2, when he stopped over for a few hours on his way from Norfolk, Va., to Fort Monrith, Charleston, S. C. He was supposed to have left the North Carolina capital the next day for Columbia, S. C., but despite an exhaustive search by officials of three states, no clue as to his whereabouts has been found.

The finding of his automobile near Canton, N. C., Sunday, gave the authorities their first definite trace of him.

The last actually known of his movements was when he wired from Raleigh for a sum of money to be sent to him at Columbia. Immediately afterward he dropped out of sight as mysteriously as if he had been swallowed up by the earth.

Mrs. McCleary, who remained in Norfolk, and relatives and friends at first expressed the belief that he had met with foul play, but this theory later was rejected by the belief that he had fallen a victim of amnesia. Friends called that some time ago he suffered a stroke and often since had complained of severe headaches. The opinion also was expressed that wounds he received during the World War might have caused his mind temporarily to wander.

MARKET

CHICAGO, July 14.—Wheat September 119 1/2 to 120 1/2; December, 122 1/2 to 123 1/2. Corn September, 101 1/2 to 102 1/2; October, 46 1/2 to 47 1/2.

MEETINGS POSTPONED. Rev. J. L. Whitworth will not have begun week-day services at the new Methodist church at Lake Mary, beginning at 10 o'clock on Monday.

War Claim Award \$14,500,000 Against Germany

WASHINGTON, July 12.—Capitalization of the work accomplished by the German-American Mixed Claims Commission, the organization that up to the present has awarded \$14,500,000 to American firms and individuals on claims against Germany losses sustained in the war through death or property damage. In addition to the principal, Germany will be required to pay five per cent interest on each claim allowed from the date of the award to the time of payment. No payments will be made by Germany, however, until the commission concludes its labors and a funding method is devised upon.

When the commission adjourned recently for the summer, it had pending before it 116 claims amounting to approximately \$500,000,000, including by the United States government for \$255,644,510, representing the cost of the American war effort. This claim, however, is expected to be settled through other than commission means. Of the more than 12,000 pending claims, 2,044 have been considered by the American and German agencies of the commission and are ready for final settlement.

William Kiebach, German commissioner, recently went to Germany for the summer and will return to Washington early in the fall when the commission contemplates resuming its sessions. Robert W. Bonny, American agent on the commission, and Agent von Lewinski, Germany, accompanied by a secretary and assistants, will sail on separate steamers July 9 to Germany where evidence necessary to adjudicate American claims not obtainable in this country will be investigated.

While Germany is obligated to pay the amounts agreed upon by the Mixed Claims Commission, it remains to be decided where she will get the funds for such payments.

One of the questions of how the claims are to be met is determined by the German government, which will determine the amount of the respective awards to the individual claimants.

Medical System of The British Army Found Defective

LONDON, July 12.—Lessons from sins of omission and otherwise in the medical services during the war, have been compiled into an 11-volume edition of the Official Medical History of the Great War, recently issued. They should furnish the basis for the reorganization of the medical staffs of the forces of the great powers on a level with modern science, say the editors of this voluminous work.

The books deal frankly with the tactical and strategic errors of the medical services in the war, notably in areas typical of middle eastern terrain. No attempt has been made to gloss these errors. The lack of co-operation between the combatant and medical staffs is frequently noted, and it is in this that the editors find the greatest lesson.

Although in some respects faulty administration was a factor in the breakdown of the medical services in the Dardanelles, Mesopotamia and East Africa, the chief lesson to be learned from the study of these campaigns, say the editors, is the need of a close liaison between the medical administration and the general staff from the outset, and clear and definite preparations before the campaign is begun to meet all possible contingencies. Too often in the past war the medical service was found to be totally inadequate because the medical staffs had no clear idea of what was to be expected of them, or the possible extent of the campaign upon which they were engaged.

The Dardanelles operations was an example, it is shown, of the necessity for establishing large general hospitals near the scene of operations and for providing a sufficient number of steamers and small craft for the evacuation of sick and wounded while the fighting taken place on or near waters.

Pensacola Woman Nominated County Commissioner Is First In This State

PENSACOLA, July 12.—Miss Fannie Salmons, of this city, has the honor of being the first woman nominated to serve as a county commissioner in Florida, and she won on a platform of more permanent highways and beautified highways.

The young lady, who is a reporter on the Pensacola News, has been very active in behalf of highway beautification and more permanent roads for Florida, and as there is a large road-building program under way in Escambia county, decided she could carry out her ideal better as a member of the board of county commissioners, so entered the race in the recent primary and received as many votes as the total of her seven opponents which is a pretty good indication of the popularity of Miss Salmons and the sentiment in this county toward highway beautification.

Florida is receiving nation-wide publicity on its advanced position in highway beautification as a result of Miss Salmons' campaign and nomination, which is equivalent to election, as she advocated that when the permanent roads are completed they be made things of beauty as well as of utility, and several hundred newspapers are publishing feature stories about her platform and nomination.

Says Should License Real Estate Dealers

MIAMI, July 12.—A commission should be formed in this city to license operators in real estate, according to the views of W. L. Green, executive secretary of the Miami Realty Board. In a speech before the local Kiwanis Club Mr. Green explained the code of ethics adopted by the National Association of Real Estate Boards, which he said, deals with three specific points governing a realtor's relationships. First, with his fellow realtors; second, that between realtor and client, and third, relationship between realtor and the public.

Announces No Tourist Camp in Tampa in Fall

TAMPA, July 12.—L. P. Dickie, secretary of the board of trade, has announced that this city will provide no municipal camp for "tin can" tourists during the coming season. DeSoto Park, the motor camp last year, has been closed to the campers this year, but Oak Park Springs camp, not within the city limits, will be opened for use on September 1, it is stated. The new camp is well situated and has all necessary conveniences for the travelers.

Expects Nearly 700 At October Meeting

ST. PETERSBURG, July 12.—Between 600 and 700 visitors are expected here next Oct. 18 for a rally of the United Commercial Travelers of America. A large class of candidates will be taken into the order. Next May, Tampa and St. Petersburg will be hosts of a grand council session, comprising more than 15 councils from Georgia and Florida.

AIRPLANES SOW SEED

MIAMI, Fla., July 12.—One of the latest commercial uses of the airplane, which may possibly be perfected to revolutionize certain phases of agriculture, is that of sowing seed by plane, successfully demonstrated in the suburban territory of Miami recently, where 840 acres of land were sown to carpet grass within a period of 20 minutes, or the area sown during the experiment, it was said, it would require two men hand-seeders 3 days.

NEW OATH FOR IRISH

DUBLIN, July 12.—The new oath of the Gaelic League, or Irish Free States government, just introduced in the Dail, imposes on all officers a new form of oath. In addition to the ordinary oath to obey orders, the officers will have to swear that they "will not join or be members of or subscribe to any political society or organization whatever, or any secret society whatsoever."

HONORS CO-OPERATIVE FEDERATION

GIENT, Belgium, July 12.—The first international exhibition of co-operative and social works has been opened here. Gient being the birthplace of the co-operative movement, the exhibition which will remain open three months, has displays from 82 countries; the United States being represented by the Co-operative League.

American Scholar In Oxford Unmasks Alleged Pretense

LONDON, July 11.—Oxford University has found a subject for heated discussion in a speech made recently by a Rhodes Scholar from the United States, W. C. Greene of Rhode Island, a graduate of Brown University. Mr. Greene was responding to a toast proposed by the Rhodes scholars at the annual dinner at Oxford of the Rhodes Scholarship Trust.

"Oxford and Europe," said Mr. Greene, as reported in the Daily Mail, "have brought depth to us of our dreams, our romance, and our hopes that here we find three years of life of continuous strangeness and duty.

The prime minister of England represents to many of us the thing which Oxford has brought to us, rightly or wrongly. Here we have sat down frequently, sometimes with intense reverence, at the feet of the grizzled figure of history. We have come to see the need of the new attitude towards peoples and people toward the state. We go home, many of us, with the secret hope that some day we may enter the politics of our own country and perhaps breathe in the slow amalgam of our nature, the recognition of the social truth which has been enunciated so many times and so vainly during the last 2,000 years, which we with our younger ears, though older ones seem often unable to do so, can hear.

APPOINTED TO COMMISSION

TALLAHASSEE, July 12.—Governor Hardee has appointed G. D. Edwards, J. E. Stevens and S. C. Yoman of Crystal River to be members of the Oyster Rehabilitation Commission in and for Citrus county.

Atlantic Coast Line Safety Committee Has Meeting Friday

The regular meeting of the Jacksonville District Safety Committee was held at the local offices of the Atlantic Coast Line here Friday and proved to be one of the most enthusiastic and instructive held by this committee during the present year and strongly indicated the interest of the employees in safety work, according to information received here today from O. R. Estridge, chief clerk.

Ways and means of "having life and limb" by the prevention of accidents and personal injuries, not only to employees themselves but also to the public in general were the main topics of discussion.

Many prominent visitors attended Friday's meeting, including M. M. Smith, president of the Florida Automobile Association, and Jack Hughes, secretary of the same organization.

Addresses by both of these men on the subject of accidents and their prevention at grade crossings featured the meeting, Mr. Estridge stated. They offered suggestions as to how such accidents may be eliminated or prevented.

They also assured the committee of constant support by the organization they represent in the prevention of unnecessary accidents.

Other speeches that were helpful, it is said, were those by Engineer W. E. Shelley, Conductor C. J. Wolfe, Engineer J. R. Lyden, and John Adams, supervisor of safety of Wilmington, N. C.

Favor Land of Israel New Name Palestine

JERUSALEM, July 12.—"Land of Israel" is being favored as a name for the Holy Land instead of the official "Palestine." For the first time it is in use only among Jews outside of the country writing to Palestine. In the country, Palestine is the official name used universally, except in Hebrew translations of government documents. There the Hebrew letters forming the initials of the two Hebrew words "Eretz Israel" (Land of Israel) are being used interchangeably.

FORMER GOVERNOR SOUTH CAROLINA ON TRIAL AGAIN

(Continued from page 1)
In the state treasurer's office was brought out today in cross-examination of witnesses for the prosecution today in the case of former Gov. Wilson G. Harvey, who is being tried for the second time on charges of violating the state banking laws in the circuit court of Allendale.

The certified copy on which the former governor and president of the defunct bank went to trial in Charleston for the first time contained the statement that the bank had approximately \$94,000 in "worthless paper," it was testified. The first report, today's testimony brought out, showed the bank to have that amount in "doubtful paper."

White House in Mourning for Calvin, Jr.

American Progress Is Based on Power Says Guy E. Tripp

LONDON, July 12.—Superpower development is necessary in the United States in order to maintain the high standard of living in that country, Guy E. Tripp, chairman of the board of directors of the Westinghouse Electric and Manufacturing Company, New York, today told the World Power conference which is in session here.

Mr. Tripp explained that "more and cheaper" electric power was what the term "super-power" included. This super-power development, he said, is now being carried out vigorously in America under private initiative. He maintained that government ownership is not essential to its accomplishment. Government-owned super-power systems, he declared, cannot furnish electric power at lower cost to the public than can privately-owned systems.

Extensive plans are already under way, it was explained, for a practical determination of the extent to which electric power may be used upon farms. A considerable area in one of the great farming districts of the northwest is to be equipped with an adequate distribution system, and with the cooperation of the farmers experiments will be carried out on a scale hitherto not attempted.

"The vision of the electric power leaders is so broad and comprehensive," said Mr. Tripp, "that it marks a new era in the application of power to industry; and, if they are allowed to go ahead without undue obstruction, we may look forward in a comparatively few years to a practically nation-wide super-power system consisting of great high tension trunk lines receiving power not only from water powers and supplementary steam stations, but from all other cheap sources."

Indians Get Votes Next Fall Under Citizenship Act

WASHINGTON, July 12.—Provided the various states that embrace their reservations will set up the necessary machinery, thousands of Indians will become voters in the coming election as a result of the Citizenship Act passed at the recent session of congress.

With the passage of the law every native-born Indian in the United States automatically became a citizen, Commissioner Burke recently estimating the number at approximately 125,000. At least one-fourth of this number, it is calculated, are adults and therefore entitled to vote except in states where the election laws fix certain qualifications, such as education, property ownership or payment of poll taxes, that the new Indian citizens may not be able to meet.

However, this condition is believed by authorities on the subject to be only a minor hindrance to the newly enfranchised Indians going to the polls, the chief obstacle mentioned being the lack of organized machinery. Most of the Indians, it is pointed out, live on closed reservations located in unorganized counties where there are no officials to provide the necessary ballots, polling places and other election facilities.

In one or two states, however, this condition is said to have been remedied by counties bordering on Indian reservations permitting the citizens in unorganized jurisdictions to cast their ballots in the adjoining counties.

More than 200,000 Indians had been made citizens before the passage of the new citizenship act and a large percentage of these are said to be placed in the similar position of not being able to vote solely because the facilities enabling them to exercise this right are not available.

McAdoo Will Help Davis in Campaign For the Presidency

(Continued from page 1)
The nominee so far has been receiving suggestions from these and other leaders but probably will not make a choice until next week.

Josephus Daniels, former secretary of the navy; George Brennan, Chicago leader; David Hunter Miller, a member of the legal advisory staff of the peace commission; Herbert C. Pell, New York state chairman; John S. Cohen, Georgia national committeeman and publisher of the Atlanta Journal, and J. B. Cotton, a son of Mr. McAdoo's law partner, were others who paid more than perfunctory visits to Mr. Davis.

After selecting a national chairman and arranging for the notification ceremony, Mr. Davis hopes to be able to turn the machinery of party affairs over to his manager long enough to take a vacation of perhaps two weeks.

Mr. and Mrs. Charles Dana Gibson Friday invited Mr. and Mrs. Davis to visit them at their summer home at Islesboro, Maine, for this interim and the nominee will accept if he can clear up organizational problems by the end of next week.

Cordell Hull, chairman of the national Democratic committee, said Friday he would not hold the chairmanship during the campaign, although he would take an active part and make a speaking tour. Mr. Hull, who had lunch with John W. Davis yesterday, explained that although he was holding the chairmanship pending the reorganization of the committee, he felt he should have a respite. He said he had not had a day's vacation in nearly three years and that he felt obliged to give some attention to personal affairs in Tennessee.

William G. McAdoo called on John W. Davis, Democratic presidential nominee, at the home of Frank L. Polk late yesterday afternoon. Mr. McAdoo, who alighted hurriedly from a taxicab and entered without speaking to the correspondents assembled at the Polk home, is to sail for Europe today.

Tourist Movement To National Breaks All Records

WASHINGTON, July 12.—National parks through country are being visited by unprecedented numbers of tourists, some of whom are expected to get a glimpse of the scenic wonders of the west.

Reports to the National Service of the Interior department say there were 1,000,000 tourists to Yellowstone for the week ended June 15, a 125 per cent increase for the same period for a record of 128,252 that was established.

A big increase in automobile travel to Yellowstone is shown, 8,550 persons visiting the park in the first week of last year, and an increase of 20 per cent, by means of travel. The total had reached more than half of whom were automobiles. The record mark was 130,046.

The reports state that Lake, Oregon, has experienced a pre-season principally to the attraction of campers of the June 16 a total of 1,100 automobiles carrying 4,228 persons, including 422 campers, New York, Wash. D. C., and Texas, had the mark. At this time the visitor had entered the 1935 season mark was 123,708.

Southern Will Play Again Next

LAKELAND, Fla.—Plans are being made by local authorities at Sebring to begin drilling a well on September 15 to W. W. Alderman, who will be the fall season's champion. Mr. Alderman stands out for a good team, he is encouraging. The team is captained by Hollis Walkersville, W. V., the school.

The team will play 10 games during the season, beginning September 27 with the Charleston, S. C., and ending October 25 at Stetson, Deland.

November 1—University of Gainesville, Fla.
November 11—Bolling, Md.
November 23—Newberry, Fla.
November 29—University of Havana, Havana, Cuba.

LOST—July 3rd, valise containing two strand pocket knife, also several articles. Finder please return to Herald office.

Bible Thought for Today: Return to the Lord. Let the wicked forsake his way, and the unrighteous man his thoughts; and let him return unto the Lord, and he will have mercy upon him; and to our God, for he will abundantly pardon.—Isaiah 55:7.

Looking Toward the Light: I asked the robin, as he sprang from branch to branch, and sweetly sang, 'What made his breast so sound and red?'

I asked the violets, sweet and blue, All sparkling with the morning dew, 'Whence came their color, then, so shy?'

I asked the roses, one by one, 'Unfold their petals to the sun. I asked what made their tints so bright?'

I asked the thrush, as his silvery note Came like a song from an angel's throat, 'What made him sing in the twilight dim?'

The best time to buy Sanford real estate is now, before prices advance. And now they say Orlando is to have another daily newspaper. It is to be a Republican publication and will be issued in the morning.

The little girl down the street wants to know whether the Kentucky Derby is the latest creation in man's hats.

The Vero Press contains the picture of a new hotel which is to be built there between now and fall. Vero is becoming known as one of Florida's promising towns.

Have you written all your friends about the way Sanford is growing? Did you tell them about the population figures? It might surprise them.

How doth the little flapper improve each shining hour? By trying to make sixty to seventy-five miles per hour in her chummy roadster.

It has been discovered that John W. Davis is handsome in golf breeches. If he loses in the election, he can become a model for a tailoring firm.

Have you ever met the man who is so insistent upon collecting from others that he doesn't have the time or seem to have the inclination to pay what he himself owes?

Some enterprising person would become rich by inventing some kind of shovel for getting circulars out of automobiles which have been parked in the business section of the city for a few minutes.

Because her husband has transferred his affections to a more robust girl, a slender New York wife is suing him for divorce. Another indication that stout people are coming into their own.

It is an easy matter to make a promise. Some people do so just for the purpose of getting rid of the bill collector, and then dismiss the matter entirely from their minds. It is far better to make no promises that cannot be lived up to.

Judas Iscariot Appleyard and Benedict Arnold Bowden will ever be a stench in the nostrils of Florida's militant upstanding decent Democracy, is the way the Tampa Observer expresses it.

Our golf friend says he would rather be a member of the hole-in-one club than president. Which is the wrong way to look at the matter. If he were president, he would probably be elected as an honorary member.

An aged Massachusetts woman has bequeathed Hyman L. Leaderman cash and property worth more than four hundred thousand dollars just because he was kind to her while she was a guest at his hotel. Don't get the money Leaderman must marry and he is undecided whether to take the chance.

Every drop of bootleg liquor contains some form of poison in its reports Federal Chemist C. J. Minnahan of Minneapolis, Minn., who is making a series of analyses of bootleg liquor seized by prohibition agents in six states. Mr. Minnahan today contains forty-five bootleg liquors and kills.

Disease Germs in Bath Tubs

Beware the bathtub. Out of one hundred and thirteen bathtubs tested by Katherine Hirst and Jean Broadhurst of Teachers' College, New York, thirty-nine were found to give positive "Bacterium coli" findings. The investigators tell all about it in "The Nation's Health," Chicago, and leave their readers amazed to think that they had not realized before what dangers might be lurking in even the shiniest of porcelain tubs.

One-third of the tubs examined had not been thoroughly cleaned between periods of use. Yet the tubs looked clean to the eye. Refined people had been making use of them and were believing, of course, that the tubs were quite as clean as they looked. They would have been shocked to know that even from dry, clean-looking tubs, those investigators took specimens of disease germs left there by previous users of the tubs.

It seems that ordinary cleansing processes do not thoroughly clean bathtubs, unless you happen to include chlorinated lime, used as a powder or in freshly made saturated solutions, as an ordinary cleanser. The article says that tests made five minutes after each application of the lime showed that "Bacterium coli" was killed in twelve out of twelve trials.

The article further says that chlorinated lime is the most satisfactory of the agents tested for home and institutional use, both because of its low cost and the rapidly with which it acts. It recommends dissolving a five cent can of the lime in a quart of water to be kept in a corked jar or bottle for use during an entire week.

"Bathtubs in boarding-houses, hotels, dormitories, etc.," say the investigators, "should be washed thoroughly with chlorinated lime after use, or at least five minutes preceding filling."

And this brings us to the particular application for this lesson. In Florida where there are so many hotels, boarding houses and private homes opened to strangers, bathtubs can be a source of much danger. State-wide sanitary regulations—actually enforced—should directly apply to the care of bathtubs, and bathrooms in general.

As for the tub in the private home, it may be more polite to assume that it is always carefully cleaned. But it seems that more often than not the so-called clean tub is not clean at all. Unquestionably it is a matter worthy of attention. There may be "Bacterium coli" floating around in your morning tub.

Principles of Business Conduct

There is no business concern but what has a certain number of business principles by which their business is conducted. The little business man and the big business man has his code of ethics. Great and powerful corporations have their business principles. Little companies doing a small amount of business have adopted sets of rules by which they are governed. Every concern follows some sort of code of business dealings.

There has been prepared by the Chamber of Commerce of the United States a set of fifteen principles of business conduct. At the meeting of the Sanford Chamber of Commerce last Friday these principles were adopted by the local organization as the kind which should govern business relations.

In reprinting these business principles The Herald does so in the belief that they are good enough to be adopted by almost any concern of individual and that if followed, business relations would be greatly improved. Here they are:

The foundation of business is confidence, which springs from integrity, fair dealing, efficient service, and mutual benefit.

The reward of business for service rendered is a fair profit plus a safe reserve, commensurate with risks involved and foresight exercised.

Equitable consideration is due in business alike to capital, management, employees, and the public.

Knowledge—thorough and specific—and unceasing study of the facts and forces affecting a business enterprise are essential to a lasting individual success and to efficient service to the public.

Permanency and continuity of service are basic aims of business, that knowledge gained may be fully utilized, confidence established and efficiency increased.

Obligations to itself and society prompt business unceasingly to strive toward continuity of operation, bettering conditions of employment, and increasing the efficiency and opportunities of individual employees.

Contracts and undertakings, written or oral, are to be performed in letter and in spirit. Changed conditions do not justify their cancellation without mutual consent.

Representation of goods and services should be truthfully made and scrupulously fulfilled.

Waste in any form,—of capital, labor, services, materials, or natural resources,—is intolerable and constant effort will be made toward its elimination.

Excesses of every nature,—inflation of credit, over-expansion, over-buying, over-stimulation of sales,—which create artificial conditions and produce crises and depressions are condemned.

Unfair competition, embracing all acts characterized by bad faith, deception, fraud, or oppression, including commercial bribery, is wasteful, despicable, and a public wrong. Business will rely for its success on the excellence of its own service.

Controversies will, where possible, be adjusted by voluntary agreement or impartial arbitration.

Corporate Forms do not absolve from or alter the moral obligations of individuals. Responsibilities will be as courageously and conscientiously discharged by those acting in representative capacities as when acting for themselves.

Lawful co-operation among business men and in useful business organizations in support of these principles of business conduct is commended.

Business should render restrictive legislation unnecessary through so conducting itself as to deserve and inspire public confidence.

IT WAS MERELY of the physical, not of the spiritual, or the intellectual man that the declaration was made, you cannot by taking thought add one cubit to your stature. When a tree ceases to grow, your science teaches you that it should be harvested. When the sun ceases to rise, its rays fall mournfully eastward, and the day is surely drawing to its close. When you cease to grow, you have already begun to decay. Grow then while you may; grow to the full height of the duties before you. The land never needed you as it does today; the time will never come in which it will not need you more and more.—Whitelaw Reid.

AH, HOW HAPPY would many lives be if individuals troubled themselves as little about other peoples' affairs as about their own.—Lichtenberg.

HE THAT PASSETH by, and meddeth with strife belonging not to him, is like one that taketh a dog by the ears.

As Brisbane Sees It

All Politics And Rather Dull. Many Questions. Wheat Is Up.

TEN MILLION voters ask each other ten million questions. Here are samples of the questions:

What about the votes of Catholic citizens next November? There is no such thing as a "Catholic vote," but there are millions of voting Catholics, men and women. How do they feel about the religious question raised in the Democratic convention? How many of them, through their votes, will say to the Democratic party, in spite of the Constitutional guarantee, the religion that we profess seems to be an insuperable objection in a Democratic convention. If our RELIGION isn't good enough for you, then our VOTES can't be good enough for you.

AND THEN LaFollette. What about his vote, in view of John W. Davis's nomination? By how much will the Davis nomination increase the LaFollette vote? That it will increase it there is no doubt.

Certainly hundreds of thousands of Democrats that did not consider themselves as "radical as LaFollette" would rather be radical like LaFollette than conservative like John W. Davis.

AND WHAT about Mr. Coolidge? How will the Davis nomination affect him? Men in Wall Street yesterday were saying that "Davis's nomination will cost Coolidge many conservative votes, because ultra-conservatives will prefer Mr. Davis, the Morgan attorney, to Mr. Coolidge, presumably more independent of big financial influences."

Many political questions were raised when the Democrats selected their ticket, tired and angry in the late night hours.

AND WHAT about William J. Bryan and his brother, Governor Bryan of Nebraska?

Can W. J. Bryan even PRETEND to work for a man whom he described as he described Mr. Davis?

Governor Bryan is able, honest, sincere. Many farmers would undoubtedly have voted for him, rather than for LaFollette, had he been at the head of the ticket. But the farmer does not buy a cow for the sake of the tail, or a hen for the sake of the comb, or a presidential ticket for the sake of the tail, no matter how admirable that tail may be.

AND WHAT about those conservatives that are going to vote for Davis, saying "All's well with the world," and go happily to sleep? Do they realize that Davis is not immortal, that automobiles can run over him and germs attack him, absit omen? How would they feel, should they succeed in making the J. Pierpont Morgan lawyer president, and suddenly find that through an accident William Jennings Bryan's brother had become president? That would wake them out of their sleep with a bang.

STRANGELY ENOUGH, Wall Street didn't feel so happy yesterday. Perhaps, with Davis of Morgan & Company on one side, and steady, conservative Mr. Coolidge on the other, speculators remembered the fly that fell into a tub of honey. It was too sweet for the fly's digestion. Mr. John W. Davis and Calvin Coolidge is a combination so sweet that it makes high finance worry about LaFollette. The latter won't win the election, but he MIGHT throw it into the house and that would not be acceptable to the "safe and sane" gentlemen.

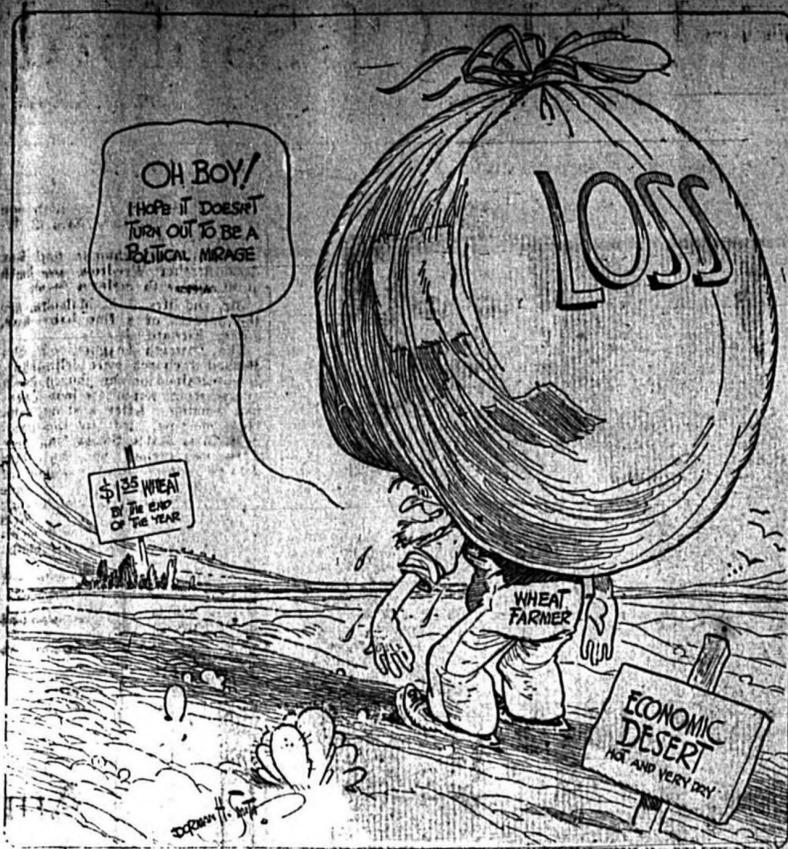

THE PRICE OF wheat went up again yesterday. Perhaps some of the big fellows are busy. They know, or at least believe, that higher prices for grain would do to LaFollette what Paris green does to potato bugs.

BEFORE YOU decide that this country should enter the League of Nations and mix up in foreign affairs, consider facts in connection with foreign money. Three big nations, France, Belgium and Switzerland, have the franc as their unit of money; the Italian lira is the second; and the Swiss franc is worth about twenty cents, before the war.

FRANCE WENT into the war. Her franc is now worth less than six cents. Italy went into the war. Her lira is worth less than five cents. Belgium went into the war. Her franc is worth less than five cents. Switzerland STAYED OUT, minded her own business, said to the other nations, "Keep away from me or I will blow your head off." And the Swiss franc is worth more than eighteen cents.

REMEMBER HOW the American dollar dropped below Chinese money and was worth only half as much as a dollar of Spanish money AFTER we entered the war. Ask yourself what the value of our dollars would be if we entered the League of Nations and a general war should come on, as it will some corner or later, with us mixed in it.

AN OASIS AT LAST

THE BASTILLE MIAMI-HERALD

July 14 has very much the same significance to the people of France that July 4 has to the American people. It is the date upon which, at the beginning of the French revolution, the Bastille was attacked and captured by the Parisians. The French make rather more of their great national holiday than we do of ours. They begin celebrating two days before, and on the day itself hold a vast military review, in which all the notable of the republic participate. The fall of the Bastille was a significant event in France. This grim prison had stood for cruelty and atrocity and when the harrassed people attacked it they were doing more than attempting to open the doors and free the few political prisoners who were held there at the time. They were uttering a noisy protest against the whole system of oppression of which the Bastille was the visible symbol. The attack upon the prison had much the same meaning that the Boston

Tea Party had in this country. Democracy is a slow growing plant. It works its roots deep down into the souls of a few far-visions persons. It creates a spirit which grows until it cannot be longer restrained, and is then likely to manifest itself in some such expression of unrestrained anger as was shown by the mobs of Paris. The fall of the Bastille did not bring freedom to France, nor did the signing of the Declaration of Independence bring freedom to the colonists. Freedom had already been planted in the soul of the nation. These events were but the means of giving notice that freedom was about to come into flower. The dates have no value in themselves. They do not stand for events that were really important except for that which they represented. It is a great thing to remember the dates, however, and to seek the spirit which gives the dates their significance.

NEEDLESS AUTOMOBILE NOISES ROCHESTER TIMES-UNION

Our cities are undoubtedly too noisy. There is going to be more attention paid to reducing this annoyance in the near future than there has been in the past. Chicago's health commissioner, Dr. H. N. Bundesen, calls the automobile "one of the worst offenders" in the production of unnecessary noises. No one who had passed the stage of childhood would think of standing and yelling to attract the attention of someone inside. Yet there are many drivers of automobiles who play the childish trick of tooting loud and long without thought of the annoyance to other persons, who take no interest in the summons yet have their ears assailed by the braying horn.

Then there is the driver who rushes through the street at midnight with his cut-out open. Some types of machines make more noise than others when starting. But it will generally be found that the machine which makes a great uproar in the early hours of the morning or late at night is in the hands of some fellow who is indifferent to the comforts of his neighbors. Some drivers of big trucks arouse the anger of motorists by smashing

ahead through the traffic and startle pedestrians by blowing their sirens, thinking bulk exempts from use of brakes. An automobile has the big advantage of riding on rubber and air. Properly handled it is a quiet machine. But automobiles are so numerous that any carelessness in handling them gives rise not only to the dangers which call forth traffic rules but to annoyance and acute discomfort for many people. Thoughtfulness and courtesy should be sought for their own sake. Most persons do not wish to be rude, but many are thoughtless. The careless and indifferent should remember that courtesy pays and that it is unwise to irritate the public by unnecessary noise.

Contemporary Comment

Congressman Frederick says that "Congress is no better and no worse than the country." We've always feared the worst.—Columbia Record. A Chicago bandit held up a cabaret and robbed the waiters. The bandit at least had enough discretion to know whom to rob.—Southern Lumberman.

Some Baby!

Oh, yes, they raise something besides cotton in the south! Charles Bowen, Jr., for instance, who is quite the fattest baby south of the Mason-Dixon line. He lives in Lowndesville, S. C., and has won any number of "healthy baby" prizes.

Oviedo

Mrs. O. P. Swove and little son Oliver were guests of Mrs. E. W. Swove July 4.

Miss Lillian Schuman and her little brother Woodrow, are both quite sick with malaria fever.

Mr. and Mrs. J. E. Malcom are the parents of a fine baby boy, James Edward, Jr.

The Epworth League of the Methodist church were delightfully entertained on the church lawn by the social committee last Tuesday evening. After a short business meeting, led by the president, Miss Mable Swove, the program was turned over to Miss Maxine Young, superintendent of the fourth department. All to some lively games were played, outside and cake were served. Miss Young was assisted by other members of her committee in entertaining.

Mr. and Mrs. B. F. Wheeler left

Monday for a motor trip to Miami. They expect to return the last of this week.

The "Womanless Wedding" given at the school house in Oviedo Friday night was a great success. A storm of applause greeted the dainty little bride, W. P. Carter. Another feature of the entertainment was a burlesque meeting of the Oviedo Woman's Club. The men carried this off almost as well as did the women a few years ago when they "exposed" to the public a meeting of the Oviedo Board of Trade. The proceeds of Friday night's entertainment will go toward building a swimming pool at Sweetwater Park. The program was gotten up by the Woman's Club under the direction of Mrs. W. J. Lawton.

Mr. and Mrs. Andrew Anlin are the parents of a lovely little daughter whom they have named Miss Lenora.

Little Miss Lola May Whidden is spending two weeks with her grandparents at Sebring, Fla.

Mr. and Mrs. N. F. Lorette are spending several weeks at Daytona Beach.

Mr. and Mrs. Blake and two children left last week by auto for Detroit and other points in Michigan and Illinois. They expect to be away five or six weeks.

Miss Nell King left July 3 via Clyde Line for New York where she will take a summer course at Columbia University.

The members of the B. Y. P. U. of the Oviedo Baptist Church were entertained by Mrs. Edward Farnel. The occasion was also the birthday celebration of Alton Farnel. Amusing games were enjoyed after which delicious refreshments were served and the evening was most enjoyably spent by all.

Miss Moore and Miss Stewart, who are visiting their brothers in Oviedo, are spending this week in Miami and other East Coast points.

J. F. Williams, who has been replacing Miss A. D. Mitchell for a few days as agent at the Sebring station, returned last week to his home at Ellisey, Fla.

Mr. Wright and Fletcher White left last week for an auto trip down the East Coast.

The regular monthly council of the Epworth League met at the home of Miss Mable Swove Monday night. Almost all of the officers were present and some very important business was transacted.

J. B. Jr., Malcolm and Ben Jones left Sunday for Valdosta, Ga., where they will visit relatives for several weeks.

Miss Bettina Condon is the guest of Miss Palmer Argo for a few days.

Mr. and Mrs. S. W. Swove, Mrs. C. S. Lee and children, Mrs. Alan Macfarlan and Gamble Macfarlan were Orlando visitors Saturday.

G. O. Shepherd, of Savannah, Ga., is relieving Mr. B. E. Wheeler, agent at the Atlantic Coast Line station this week.

Mrs. W. E. Argo has returned home from Orlando, where she was called by the illness of her nephew, J. L. Ensign, Jr. While on a visit to his father in Palatka, appendicitis developed and he had to be rushed to a hospital in Jacksonville for an operation. He is rapidly recovering from the operation and will soon be out again it is said.

SELL SOMETHING DIFFERENT!
 Then let us explain how you can sell the famous Brown Fish Meal Kitchen Waste. Best quality from \$75 to \$100 weekly. No capital, no experience, no merchandise sales ability necessary. Write TOM MERRITT, Salesman, c/o THE BROWN FISH MEAL MANUFACTURING CO., 220 FIFTH AVENUE, NEW YORK.

Hawkins Bros. Meat Market

The 430 pound Jew Fish caught Sunday is on sale at our Market. We solicit your orders for steaks from this fine fish.

SANFORD AVENUE AND THIRD STREET

AMERICAN STARS ONCE MORE CAPTURE OLYMPIAD BY EASILY DEFEATING FINLAND'S STARS

Eighth Olympic Games Huge Success With American Stars Piling Up 255 Points Or Nearly 100 Points Ahead of Finland, Their Nearest Rival.

PARIS—July 14. Ray! Ray! Ray! U. S. A. All! A-m-e-r-i-c-a!!! United States! United States!!!

The Olympic stadium at Colombes rocked with that barking shout Sunday afternoon when, in a blaze of red, white and blue glory, the stout-hearted, lithe-limber, sinewy sons of America squelched Finland's Olympic threat by piling up a total of 255 track and field points to Finland's 166, and registering 12 first places to Finland's 10.

In doing so American athletes broke two world's records, wiped out an Olympic mark in still another test, and scored well up in a fourth event on the day's program, while Finland, absolute ruler in the distance running, could add but two first places to its record.

The new world's records came in the 400-metre and 1,600-metre relay races, and the new Olympic record in the discus throw.

Following is the complete record of track and field points in the Olympic games: United States, 255; Finland, 166; Great Britain, 85 1/2; Sweden, 81 1/2; France, 26 1/2; Italy, 19; Switzerland, 15; South Africa, 11; Hungary, 10 1/2; Australia, 10; Canada, 8; Norway, 6; Argentina, 5; New Zealand, 4; Estonia, 4; Holland, 4; Denmark, 3; Japan, 1; Chile, 1.

First place, United States, 12; Finland, 10; Great Britain, 3; Australia, 1; Italy, 1.

Only Saturday the United States team of Francis Hussey, Louis

Clark, Loren Murchison and Alfred Le Coney lowered the 400-metre relay figures to the almost unbelievable mark of 41 1-5 seconds.

Sunday, in the most thrilling exhibition of spring relay running, they knocked the fraction off that mark by capturing the event in 41 seconds flat.

Set New Records

The 1,600-metre relay team from the United States, with Jack McDonald, Bill Stevenson, Commodore Cochran and Allan Helfrick in its lineup, had shown little indication of record ability in its qualifying test of Saturday, but Sunday afternoon they whirled through the taxing contest in three minutes, 16 seconds, a mark two-fifths of a second better than the record book shows.

From Clarence "Bud" Houser's robust right arm came the new Olympic record for "Bud" scaled the Olympic discus a distance of 152 feet, 6 1/4 inches, beating by more than four feet the previous Olympic mark.

But the classic Marathon went to Finland for the third successive Olympiad when J. Stanroos plodded home the winner, and gallant little Finland made its clean-up in distance absolute when Uaavo Nurmi, already the winner in three events, finished first in the 3,000 metre team race in New Olympic time; Willie Ritola, already the winner of two first places and two seconds, came right behind his compatriot and J. Katz of the Finnish team climbed into fifth place for the low team total in the event.

The remaining contest of the day,

"Celery Feds" Play St. Cloud Thursday

The "Celery Feds" will meet the fast team from St. Cloud at the local Ninth Street Park next Thursday afternoon at 4 o'clock. It was definitely announced today.

The locals won over the St. Cloud team last Thursday at that place but the defeated team threatens to give Sanford a drubbing in the second game if the Sanford players are not "up to the notch," it was learned.

Manager C. A. Whiddon asks that everybody come out and help the team win.

the 10,000 metre walk, went to Italy when U. Figaro, 1920 champion, duplicated his heel and toe victory Sunday.

Late Saturday evening Harold Osborn of the Illinois A. C., and Emerson Norton of Georgetown, by battling into first and second places in the gruelling Decathlon, gave to America a point total which Finland could not possibly match, but the first place issue, created four years ago when Finland scored the same number as the United States, was still very much in the air when the athletes reported to the stadium Sunday.

Finland had won the Marathon and the discus throw at the Antwerp games and was confident of repeating those triumphs. The United States faced most difficult opposition, and the slip of a baton would mean certain defeat for the star-spangled team of stars.

But the first completed event of the day brought joy to the hearts of the American team and its supporters, for Clarence Houser, a youth from Los Angeles, whipped the steel-rimmed, ebony disc to the new Olympic mark, and gave America a first place which the Finns had called their own.

America Wins Relay

Then came the second completed event—the 400-metre relay—and once again the starry banner of Yankee land was hoisted to the top of the giant flag pole.

That triumph meant that Finland

at the very best could no more than equal the American team in first places. But that Finnish hope fell before the day was over when came the spirited and well-won victory of the Yankee 1,600-metre relay quartet.

Between the two relays came Finland's triumph in the 3,000-metre team race, and at the close of the day the dust-covered Stanroos entered the stadium to complete the final 500 metres of the marathon run.

The day was jammed with sensations, and the crowd of onlookers, although numbering 25,000, was moved to wilder display than on any day of the track and field games. The American cheer was called forth on a dozen occasions, while the cry of Finland:

"Haer! haer! haer!" "Suomal suomal suomal!"—was barked at the applauding Yankees on as many occasions.

Francis Hussey, the New York schoolboy, brought the first wild burst from the American section. He was the lead-off man on the American 400-metre relay team, filling a most important role in that event, and opposing him was the great Harold Abrahamson of England, who had conquered four of Hussey's teammates in the 100-metre dash.

The brown-haired New York youth was the coolest man on the mark. Very carefully and deliberately he dug his heels; very carefully and deliberately he assumed that "at ease" position on the mark. But came the starter's "Ar. A vos marques! preparez-vous," and the careful, deliberate youngster became an intensely live and active personage.

At the sound of the gun he was off at even terms with his older and more experienced rivals. Abrahamson appeared to have gained a slight lead at the 10-metre mark, but the flashing feet of the New Yorker proved lightning swift and Abraham's lead was wiped out, and then began a bristling battle at even terms, which lasted half the distance of the course, but which ended when the American boy found unbelievable speed in his twinkling limbs and edged inches, then feet and then yards in front of his British rival.

There Was No Split

Breaths were held as Hussey approached, his teammate, Louis Clark, for the passing of the baton. A slip there, or the juggling of the stick, might spell defeat, but there was no slip, Hussey shot the baton to his partner and Clark was

off with winged feet, no more than held his own; so—in that did Loren Murchison, the third Yankee runner, and Leoney, with a seven-foot lead over the British anchor man, came in the winner, with the new world's record of 41 seconds.

The 3,000-metre team race was notable for several reasons. It marked the fourth time in the meet that Paavo Nurmi led all his rivals. It marked the 46,000 metres that Willie Ritola covered in the course of the games, for he has competed in trials and finals in the 10,000 metre run, 3,000-metre steeplechase, 5,000 metre run, 10,000-metre cross-country and the 3,000 metre team race, winning two of the five events in a new world's record time and finishing second in the remaining three contests; and the event marked the athletic flop of "Chesty Joe" Ray.

An old tobacco secret —

Re-discovered!

A new richness from Wellman's old-time method

Slow burning—cool smoking — and packed in foil to save you money 10¢

Cranger Rough Cut

A Pointer on Tobacco—
The slower a tobacco burns, the cooler it smokes. Also the longer it lasts. This slow burning is due to the "cut". Cranger is "rough cut" so smokes slow and cool—cut for pipes, not cigarettes. And Wellman's famous old secret method produces richer fragrance and taste.

Romance of Miami Real Estate

Every fast growing city in this country has enjoyed at some time or another rapid increases in land values and correspondingly large profits in real estate. Los Angeles, Detroit, and other well known centers have been remarkable examples of places where harvest of profits have been taken by the wise and shrewd real estate investors.

Miami has been not only one of the remarkable real estate investment centers in the South for several years, but it is as good today as ever before. Increases in land values continue now just as they have for the past ten years.

Coral Gables—Miami's Master Suburb—is just as much of a revelation from the investment angle as it is from that of beautiful city building. The property values have increased from 200 to 400 per cent during the last three years. This is not the increase in a few particular pieces of property in Coral Gables—it is the general average for the entire development.

Coral Gables is a high-grade residential suburb in every sense of the word. Every dollar which buyers have invested in it during the last three years has been put back in beautifying improvements which in turn have brought rapid increases of value to the investor. Here are found everything which makes for ideal home life, and every restriction which protects the buyer and insures safety and security for the investor.

Coral Gables de luxe houses make weekly trips from this city to Miami and Coral Gables. Make this trip now before the winter rush of visitors come, and you will never regret it.
