## OPEN DEBATE IN CHAMBER DEPUTIES RATIFICATION WASHINGTON TREATIES

WAS BEGUN THIS AFTERNOON WITH DISCUSSION OF PARTS

### ON LIMITATION Of Naval Armament—France Will Not Permit Interference on Plans

(By The Associated Press) PARIS, July 7.—Open debate in the French Chamber of Deputies on the ratification of Washington treaties, was begun this afternoon with discussion of those parts of treaties dealing with the limitation of naval armament and capital ships.

PARIS, July 7.—The Chamber of Deputies yesterday after a discussion of the Pope's recent letter on the subject of reparations and the Ruhr occupation voted confidence in Premier Poincare. The vote was 388 to 100.

The French government never will permit interference by the Pope either in domestic or foreign policies, is the sense of a statement made by Premier Poincare during the day. M. Poincare, however, defended embassy at the Vatican, in replying to attacks made by critics here in Paris.

The critics asserted that the embassy proved its uselessness when it failed in its duty in not preventing publication of the Pope's recent letter on reparations or at least advising the French government in advance of its being made public.

The Pope's Premier Poincare asserted, has no authority in temporal matters.

"No doubt," he continued, "the Pope's views bear certain resemblance to those of certain of our allies. We do not see that they are any more offensive coming from the Pope, than from our allies."

The Pope's letter, to which reference critics took exception, should have no political effect, the premier added, and left French critics full liberty in forming their own opinions. Consequently, M. Poincare could see no reason for suppressing the embassy at the Vatican.

The Pope, concluded the premier while the chamber applauded, has no power in the world to deprive France of its rights under the treaty of Versailles.

"Today," he went on, "France appears to certain peoples who did not have part of their territory devastated in the war, and who did not advance a hundred billion in behalf of Germany, as a hindrance to financiers who are in a hurry to form trusts."

"We went into the Ruhr, without any thought of annexation or permanent occupation, but to have a pledge of guarantee, and to exercise our rights under Versailles."

"Germany instead of honoring its obligations has ordered its officials there to organize criminal resistance. We ask above all that Germany cease resistance and withdraw their ideas of subverting France's intention to collect their reparations."

"Don't despair of seeing these truths penetrate through all of our allies. We are doing all we can to make them prevail."

New Instructions From the Vatican BERLIN, July 7.—The Reichstag will adjourn indefinitely today for the summer recess, it was authoritatively stated last night.

Chancellor Cuno continued his conference yesterday with Monsignor Pacelli, Papal Nuncio. It was announced that a special courier had arrived from Rome bringing new instructions for the Nuncio, from the Vatican. The government's anticipated declaration on the sabotage in the Ruhr section has not been outlined yet, and the federal cabinet is consulting with the Prussian government on the formulation of the statement.

Must Stop the Ruhr Crimes. BRUSSELS, July 7.—The Belgian diplomatic agent at Berlin has informed the German government that diplomatic relations will be suspended if the Reichstag does not repudiate

## BANDITS HELD UP TRAIN ON CANTON ROAD

### Chinese Highbinders At It Again Near Canton

(By The Associated Press) HONGKONG, July 7.—Bandits today held up a train on the Canton-Kowloon railway, fifteen miles from Canton, killing a Chinese military officer and one soldier and carrying off about ninety upper class Chinese, who are being held for ransom. Rottly valued at \$50,000 was also taken.

## J. J. DICKINSON OF SANFORD IS CIRCUIT JUDGE

### PERKINS RETIRES AND IS HONORED BY LAWYERS OF THREE COUNTIES IN DISTRICT

The first day of July Hon. Jas. W. Perkins, of DeLand, retired to private life after having served as judge of the seventh judicial circuit of Florida for 12 years, and Hon. J. J. Dickinson, of Sanford, assumed the office, having been nominated in the last Democratic primary without opposition.

Judge Perkins and Judge Dickinson were given a banquet at DeLand last Saturday at noon by the members of the bar of Volusia, Brevard and Seminole counties, and a mammoth silver service was presented to Judge Perkins by the members of the bar as a token of the friendship and esteem in which he is held.

The banquet was held at the Ingraham Inn and State's Attorney Geo. A. DeCottles, of Sanford, presided as master of ceremonies. The presentation of the silver service was made by David Sholtz, of Daytona. Judge Perkins feelingly responded, saying that he esteemed every member of the bar as a personal friend. "Many times I know," he said, "I have made decisions that did not please the different members of the bar, but my decisions were always as I interpreted the law, regardless of personal feelings. Mistakes I have made," he continued, "but they have been mistakes of the head and not of the heart—all of my decisions have been the law as I interpreted it." Judge Perkins concluded his talk by expressing his appreciation of the token presented. He said that he was glad to retire and doubly glad that such an able jurist as Judge Dickinson succeeded him.

Judge Dickinson made a brief address, saying among other things, that he intends to spend one day each month in the several county seats and one day each month in Daytona to hear matters and thus not compel lawyers to go to Sanford on minor matters.

He asked that the lawyers of the various cities get together and select a day that they would like to have him make his monthly visits. Judge Dickinson intimated that he would follow the laws and court rules strictly in all matters, and concluded by asking the co-operation of all lawyers to expedite the business of the court as much as possible.

It was voted to form a bar association for the seventh judicial circuit, and Mr. DeCottles was made temporary chairman of the organization.—New Smyrna News.

Klasmisco—Citrus growers to enlarge packing house.

Tavares—Bumper crop expected. Many watermelons shipped.

Unequivocally the Ruhr crimes. The French ambassador was given similar notice.

## DETAILED PLANS FOR LAUNCHING BOOM FOR WILLIAM G. McADOO FOR THE PRESIDENCY IS WORKED OUT

At Dinner Recently Held in New York by His Friends

(By The Associated Press) NEW YORK, July 7.—Detailed plans for the launching of William G. McAdoo for president boom have been worked out at a dinner of a dozen of his most intimate friends here, the New York Evening Post said today. Although McAdoo has not formally announced his candidacy his supporters here are declared to be confident that his hat would be in the ring.

NEW YORK, July 7.—Diners meeting recently ostensibly to honor Samuel Amidon, National Democratic committeeman from Kansas, picked Amidon to handle the McAdoo campaign the Evening Post says. Diners discussed relative strength of former Governor Cox of Ohio, Gov. Smith of New York, Henry Ford, Senator Underwood, former ambassador to Great Britain, John W. Davis, concluding McAdoo could enter the convention with four hundred delegates and with many others ready to switch to him as soon as they had registered "favorite son" choices.

## ROTARY AND KIWANIS WILL STAGE FARCE COMEDY NEXT TUESDAY, 5 P. M.

### A Base Ball Game That Will Go Down in History as Biggest Attraction Ever Pulled Off in Sanford

The Sanford Rotary and Kiwanis Club, will, without a doubt, stage one of the biggest events in a base ball way ever seen in Sanford, at the Ninth Street Park this coming Tuesday at 5 p. m. The Herald reporter, after an interview with Manager Britt of the Rotarians and Manager Lane of the Kiwanians, was given an insight of the proposed doings and we want to go on record as stating that they are going to be some real doings.

The membership of both clubs will meet at the corner of Magnolia and Second streets at four o'clock sharp, and will parade from there, with Edgar Hall's special band, to the ball grounds. We learn that the reason for the assembling at this place is in order to give every one a chance to view the undertaking parlor before the game starts and the parade will pass the hospital, with a stop there long enough for each player to pick the bed he desires. If possible, the parade will also stop in front of the jail long enough to allow each one of the hard-boiled players to pick his cell.

The parade, which will start promptly on time, will break at the park and the players will at once get themselves into trim. That is, all except Grandpa Dumas, A. P. Connelly, and Forest Lake, as these three are practicing every day, Dumas on top of the Seminole Bank, and Connelly on his seventy acres on the heights.

This game is scheduled to go the entire nine innings, if—? The game will be played according to all the rules and regulations as laid down by the new league being organized in China. Every Rotarian and every Kiwanian, regardless of his size, age or moral standing in the community, will take part in this game at some stage or other.

The following line-ups have been decided upon for the start:

- Kiwanis**  
Lloyd, first base.  
DeCottles, short stop.  
Lake, third base.  
Connelly, right field.  
Overlin, catcher.  
Sharon, center field.  
Lawton, left field.  
Brownlee, second base.  
Dumas, pitcher.
- Rotary**  
Thrasher, third base.  
Knight, first base.  
Ruston, second base.  
Rosenbro, short stop.  
Haynes, left field.  
Newman, center field.  
Starling, right field.  
Roumillat, catcher.  
S. O. Chase, pitcher.

The entire membership of the above two clubs without as subs, umpires, pull bearers, etc. There will be a small charge made for this affair, the proceeds to be divided equally between the two clubs, and then passed on to some of Sanford's worthy institutions. Turn out and watch the fun and at the same time, help a worthy cause.

## LARGE ATTENDANCE AT MEETING CHAMBER OF COMMERCE YESTERDAY —JENNINGS ADDRESSED THE CLUB

### Many Matters of Great Interest to Community Were Taken Up

Hon. Frank E. Jennings, of Jacksonville, and gubernatorial candidate, addressed the Sanford Chamber of Commerce at its weekly meeting held last Friday. Mr. Jennings complimented the organization on its remarkable growth of Sanford. He also stressed the importance of all communities supporting their respective commercial organizations which had been primarily responsible in attracting new citizens to the state. The balance of Mr. Jennings' time in Sanford was spent visiting his numerous friends.

The attendance at Friday's meeting was unusually large indicating a greater interest by the citizens in the work the Chamber is attempting. Seventeen new members have been secured by the Membership committee during a ten day period. The committee has prepared a list of prospects for membership who are continually solicited by mail. The majority of the new members to date have been secured this way.

A brief resume of the proceedings of each weekly meeting is mailed to both members and prospects keeping them informed of the progress being

made by the Chamber through its various committees. These reports go out under the caption "Sanford Substantiations" and it is hoped to develop a periodical house organ in the near future with this name.

The golf course committee announced a very important meeting of stockholders in the Country Club which will be held Monday evening, July 9th for the purpose of reorganizing. The new plan will permit the Country Club to become a corporation for profit, and membership shares, at the present time of no negotiable value, will represent a pro rata ownership in the property on which the club house and course are located. Those having the matter in charge are confident of interesting a great many more people in subscribing when the new feature is adopted.

Advice has been received from theighthouse department that aids to navigation would be placed marking the recently completed channel in Lake Monroe.

A letter from the Railroad Commission was read in which they advised that they had turned down the petition of the Atlantic Coast Line to permit the latter to increase the mil-

## LAKE STEAMER FINDS BASKET OF BALLOON

### Drifting in Lake But No Word Received as Yet

(By The Associated Press) CLEVELAND, O., July 7.—Western Reserve Navigation Company operating the steamer Colonial between here and Port Stanley, Ontario, received unconfirmed report this morning that the Colonial sighter a balloon with the basket submerged drifting in Lake Erie last night. The company officials here say the Colonial reached Port Stanley this morning and was scheduled to leave there for Cleveland at 11 o'clock. The steamer is not equipped with wireless and the company officials have not received on word from the captain regarding the balloon.

## Chicago Editor is Guilty of Labeling American Legion

(By The Associated Press) CHICAGO, July 7.—Arthur Lorenz, former editor of the Staats Zeitung, a German language newspaper, was found guilty of criminal libel against the American Legion by a jury today. Lorenz was indicted in connection with the publication in the newspaper of an editorial referring to the legion members in derogatory terms. A motion for a new trial was heard July 21.

If motion for a new trial is denied Judge Hugo Pann will impose sentence which may be a year in the penitentiary or \$500 fine or both. Lorenz did not take the stand in his own defense. The editorial to which the legion objected was printed in December, 1921, and charged that legion members were "bums, tramps and vagabonds" and that the legion was bought with British gold to suppress truth.

## Negro Boy Who Shot White Man Taken from Jail to Save His Life

ABBEVILLE, S. C., July 7.—Henry Allen, a 10 year old negro, held on the charge of shooting A. S. F. Ginn, of Vanna, Ga., was removed from the Abbeville county jail here during the night and taken to an unannounced destination for safe keeping, it became known here today. The removal followed threats of violence.

Ginn, a 60 year old traveling salesman, was shot three times in the head, shoulder and arm and his automobile stolen yesterday afternoon. Allen who had accompanied the Georgian to show him the route from Abbeville to Vva, was arrested when he walked into Lowndesville late yesterday.

Sheriff McLane said yesterday that Allen admitted the shooting, saying he wanted Ginn's automobile. The automobile was found a short distance from Calhoun near the scene of the shooting. It was said today he has a slight chance for recovery.

From Jacksonville to Sanford from one hundred twenty-four to one hundred thirty-two miles which would mean an increase in rates. The commissioners refused to approve this distance table until actual measurements could be made. This matter had been previously taken up with the commissioners by the Chamber of Commerce.

A most interesting communication was read from W. T. Donnelly, of New York, elaborating further on the proposed new boat line for the St. Johns river and the possibilities of shipping a portion of the products of this section to eastern seaboard markets via refrigerated vessels. Mr. Donnelly is still actively engaged in securing a handsome tourist hotel for Sanford and stated that he expected to have something of special interest to report on this matter before long.

The meeting approved the recommendations of the Tourist and Convention Committee that the Chamber sponsor Musical Carnival Day which will be held July 19th at Lake Mary for the benefit of the Regimental Band.

## JUROR RETURNS TO JURY BOX IN HIGGINBOTHAM TRIAL ARGUMENTS ARE STARTED

## NAVY AIRPLANE FALLS IN SEA AT NEW YORK

### Duffy and Two Navy Men Were Rescued Uninjured

(By The Associated Press) NEW YORK, July 7.—A navy airplane in charge of Lieut. Duffy, fell into the New York harbor near Hay Ridge, Brooklyn today. Duffy and two navy men who were with him were rescued uninjured.

## SUMMER SCHOOL AT TALLAHASSEE LARGE ENROLLMENT

### HAS FIVE HUNDRED AND EIGHTY STUDENTS IN ATTENDANCE

(By The Associated Press) TALLAHASSEE, July 7.—State Woman's College here has the largest enrollment in summer school this year in its history with approximately five hundred and eighty students in attendance. This number exceeds the largest enrollment of preceding years by more than fifty, it is said. Not more than ten per cent of those enrolled are men. Students this year are taking more professional work than in other years.

## Speeches and Dinners Mark Collier County On First Day of Baby

### Collier County, Youngest in State Comes Into Being Today

(By The Associated Press) FT. MYERS, July 7.—Speeches and picnic dinner at Taximbla followed by a trip to the Everglades where the new county officers are to be inducted into office were features of the program marking the official birth of Collier county carved from the lower part of Lee county by the last session of the state legislature. Everglades is the county seat.

## U. S. to Maintain Full Efficiency for Year Minimum Naval Force

### Battleships and Cruisers and Many Submarines

(By The Associated Press) WASHINGTON, July 7.—The United States will maintain a full efficiency during the next fiscal year "minimum naval force at sea" of eighteen first line battleships and fourteen cruisers and eighty-four submarines, under decision by the general board formally approved by Secretary Denby. The decision is viewed as significant in view of uncertain status of five power naval treaty resulting from continued delay of France to ratify. Analysis of complete program shows the navy will keep at fighting trim and at sea full strength allotted to the United States under the treaty.

## East Coast Railway Makes Improvements and Extensions

### Several Persons Injured When Train Was Upset

(By The Associated Press) TAMPA, July 7.—According to report here several persons were injured at 1 o'clock this afternoon, when fast passenger train of Atlantic Coast Line was upset near Seffner 12 miles east of here. All ambulances in the city and a number of physicians left for the scene of reported wreck. The train was on its way from Jacksonville.

## CASE IS EXPECTED TO GO TO JURY LATE THIS AFTERNOON

### SUNDAY SESSION

Of Jury May be Case as Predictions of Hung Jury Are Being Made

(By The Associated Press) LAKE CITY, July 7.—With the reappearance of Juror Chambers, who doctors said last night, was suffering with acute appendicitis was in the box today. Arguments were started in the closing chapter of the trial of Thomas Higginbotham, charged with the murder of Martin Tabert in the convict camp of the Putnam Lumber Company. The case is expected to go to the jury late today.

LAKE CITY, July 7.—The trial of Thomas Walter Higginbotham today hangs in the balance. Court was abruptly recessed yesterday by the illness of I. M. Chambers, a member of the jury, who is in a serious condition, according to physicians, and probably will have to be removed to a hospital. The juror is threatened with appendicitis.

Court was recessed until 9 o'clock today by Judge McMullen. At that time attending physicians will report on the condition of the juror. In the event Chambers, who is 82 years old and a farmer, is not able to enter the box again, Judge McMullen has announced a mistrial will be declared and the case continued to the next term of court.

In the event he is able to return to jury duty, the defense tendered a suggestion to the court, that if agreeable with the state, it would close its case and limit the arguments to three hours for each side, with two attorneys speaking for each side. The state today will announce whether the defense suggestion will be acceptable.

Attending physicians, according to court announcement, declared Chambers had a high fever and was on the verge of an attack of appendicitis. They expressed themselves as doubtful as to whether he would be able to return to duty. If an unfavorable turn is taken, they said, Chambers will have to be removed from his room in a local hotel to a hospital.

The juror was taken ill yesterday, but after medical attention he was able to report for duty and a short session was held. It was after the noon recess was taken yesterday that the announcement was made he had collapsed.

The defense announced it had but one or two more witnesses to testify in rebuttal and then would close its case.

Rebuttal testimony by the state was completed early today, after placing several witnesses on the stand who testified the defendant's reputation was bad in Clara, Fla., where the state contends Martin Tabert of North Dakota received a whipping which resulted in his death and in this city, where Higginbotham is said to have resided for a short time.

Objection by the defense to an effort by the state to introduce in evidence a strap which the state declared similar to the one used by Higginbotham in whipping Tabert, was sustained. The whereabouts of the strap, said to have been used, is not known and the state had on hand an instrument formerly in convict camps in this county.

Forty-seven citizens, including bankers, lawyers, legislators, county and city officials of Perry and other Florida towns, testified as to the good character and veracity of Dr. T. Capers Jones, Putnam Lumber Company's physician, who testified Tabert died from lobar pneumonia. His testimony was supported by six expert witnesses. The state is contending Tabert died from traumatic pneumonia, brought about by an "excessive flogging."

Chopley—New \$22,000 L. & N. passenger and freight depot nearing completion.

us. There are not many of us left now, Ernest—not many. And every year we grow less and our ranks grow thinner. To most of us that monthly pension check you send us, comes like a God-send. I am sorry to say, Ernest, I didn't lose an eye, foot or hand during the war. I wish now I had. All I lost during the war was my reputation and I know you won't pay me anything for that."

**EDUCATING OUR CHILDREN**

The Carnegie Foundation for the Advancement of Teaching reports that, in its opinion, public schools must be limited in number and scope because of gradually increasing tax burdens. The report advises the elimination of pupils whose intellectual endowment is ill-suited for formal study and a restricted curriculum.

The National Education Association meets the charge that the nation is now, or is likely in the future, to spend "too much" on education, with facts, in the face of which, it contends, argument is hardly necessary.

First asking these questions: "Is there justification for the belief that the cost of the public schools is enormous and is sorely taxing the ability of the American people to support them? Do figures as to the cost of education and the ability of the nation to pay for education support this attitude?" the National Education Association asserts that:

"The nation in 1920 spent \$17 for luxuries for every dollar that is spent for education.

"It spent \$8.50 for other forms of public service for every dollar it spent for public elementary and secondary schools.

"The cost of all public elementary and secondary schools in 1920 was four-tenths of 1 per cent of the nation's wealth.

"The cost of all public education was less than 7 per cent of the amount of money lying in the savings accounts of the banks of the nation in 1921, a year of acute business depression."

**AGRICULTURAL MARKET NEWS SERVICE**

To enable "producers to regulate shipments so as to prevent the glutting or undersupplying of markets," and as a result the "stabilization of prices to both producers and consumers," is the object of the agricultural market news service which, beginning with this week, the United States department of agriculture has extended to the Southeast.

Establishing one of the largest commercial leased telegraph wire and radio system in the world, the department designs to provide for farmers, shippers and receivers an accurate picture daily of the national agricultural market situation by means of radio telephone or telegraph broadcasting stations and the press. It will show daily the total volume of perishable fruit and vegetable products moving to the various cities, the estimated receipts at livestock markets, the supply, demand and wholesale prices of livestock, meats and other products and the conditions governing the various markets. Quotations and other information on cold storage and dairy products, eggs, honey, etc., will be furnished during the day.

This will introduce a degree of certainty into the marketing end of farming which is almost absolute, leaving all the uncertainty in the production. After the farmer has weather and insects and gungoid pests he will not have to guess at the reception his products will meet with in the markets if he studies the reports wisely. He will not ship to a market already overloaded with the particular product he desires to sell, if he seeks to know where that particular product is likely to find a waiting market.

It makes of the whole country one giant exchange. Heretofore, the farmer and shipper has been in the dark. Light a searchlight is thrown on the market conditions throughout the country. The usefulness of the United States department of agriculture could not be shown in a more striking manner than this.

An immense volume of statistical information must be considered, assimilated and reduced to shape in a very short time, much of it received by night, in order to be moved early in the next day—information useful for that day only. Some forecasting must be done to keep the farming public informed of the possible supply of farm products in the various markets, not only of the amounts on hand but of those on their way thereto. But the farmer, the shipper, the receiver and the customer will all be benefited in the stabilization of prices through the event distribution of products.—Times-Union.

**ARE YOU MOVING? CALL 498 FOR A QUICK SERVICE TRANSFER, AND HAVE IT DONE RIGHT.**

**RAILROADS SHOULD BE GOOD CUSTOMERS**

WELLESLEY HILLS, Mass., July 7.—Roger W. Babson is optimistic over the condition of the railroads, even though he is not bullish on railroad stocks. He insists that the railroads are making more money than they have made for years and that business should get the benefit of this money before long. Mr. Babson's authorized statement is as follows:

"Whatever may happen to the stock market, the fact, nevertheless, remains that the railroads are making money, in fact, more money than they have made for years. The two hundred leading roads should report for the last month, for which we have available figures, about \$550,000,000 gross compared with about \$450,000,000 for the corresponding month of last year, thus showing an increase of over a hundred million. Two-thirds of this has been eaten up by operating expenses, but about forty million is left as an increase of net. During the month of May, 1923, 4,873,427 freight cars were loaded, compared with 3,841,683 freight cars during May, 1922. The loading figures for June show a greater increase. Truly this is remarkable and a similar situation has seldom happened before in the railroad world. This means that over a million freight cars are being loaded a week. It therefore shows that when the present area of business readjustment is completed and we are ready to enter a period of real prosperity, the railroads are liable to break down as they will be unable to care for the country's business. One wonders if the Interstate Commerce Commission or the politicians of the country realize this serious condition. The number of freight cars should be increased as the normal line of the Babson chart runs upward. The car loadings naturally fluctuate with the hills and valleys of the chart, but the number of freight cars in existence should increase as the normal line of the chart increases.

"This improvement in the railroad situation has developed without any special reasons. The country has been enjoying for the past few months, a small intermediate area of prosperity. As this was not a real area of prosperity, one can readily imagine what will happen when the real area of prosperity comes. Furthermore, these earnings have come about during a period of very bad weather conditions. Railroad men tell me that this is the worst spring, from a railroad point of view, that the railroads have ever experienced. Even during April, the northern part of the country had severe snowstorms, while the southern part suffered continually from floods. The cold weather over the entire country, during April and May, greatly retarded buying. Of course, the railroads had an increase in rates, but this increase took place more than a year ago. There has been a decrease in rates and an increase in wages since the blanket increase two years ago. On July first, last year, the Interstate Commerce Commission put into effect a cut of 10 per cent on most commodities except grain, which was cut 10 1/2 per cent January 1, 1922. In addition to this, there have been many other reductions of rates. When comparing the net earnings of the railroads with four years ago, we must allow for the increase of rates; but the forty million dollars a month increase in net earnings, which the railroads are now making, compared with a year ago has developed with a decrease in rates.

"Railroad stocks usually go with

to make Lakeland their permanent home. Maps prepared for market under strict supervision and bearing the stamp of the inspecting officers as to cleanliness and health, would find that ready sale that is now denied because of present procedure. Another astonishing development as a result of the agitation of this matter is that hundreds of people in Lakeland, Bartow, Winter Haven, Haines City and other places in Florida will not buy a pound of Florida meat, preferring Western meat because it bears the stamp of inspection as meeting all sanitary and food requirements.

Judging from this, it would seem reasonable to suppose that with a well-managed civic slaughter pen, the products from Polk county's live stock farms would find a ready and profitable market right here at home. With regard to the profit, it is a certainty that the Florida stock raiser would greatly benefit because he would receive a better price for his meats and would eventually increase a demand for the home product that would make us forget to ask for Western beef, pork and lamb. Under proper conditions of stock-raising and preparation for market, the cattle of Florida ought to enjoy a demand and popularity equal to an even exceeding the products shipped long distances from other far-away states.—Lakeland Star-Telegram.

**"SYNDICATE EDITORIALS."**

The Ocala Banner disapproves the use of "syndicate editorials" because after reproducing some of them with proper credit it not infrequently sees them later in other papers. Still, there is something to be said for them.

The proper editorial field of the small city newspaper is its local field, and its best work must be the treatment of matters of direct concern to its own community or state. But home issues will not suffice for all the paper's editorial space, and there must be "fillers" of a more general nature. These the "syndicate" editorials furnish, and they may be of a high degree of excellence. The sentiments expressed in them, if any, are in agreement with the paper's own policy, and the fact that they are obtained elsewhere is one immaterial to the reader.

Even if such editorials were strictly home production they still could not be altogether original; the themes and treatment would often be more or less borrowed—like sermons.—St. Petersburg Times.

**MASONIC HOME AT FT. PIERCE TAMPA SHOWS BIG INCREASES**

Fort Pierce, July 7.—Work is progressing here on the new \$50,000 home of local Masons. Contract for the building was let a few days ago by Fort Pierce Lodge 87, F. & A. M. It will be three stories high, of steel and concrete, hollow tile and stucco construction.

APPOINTED ADJUTANT.  
 GAINESVILLE, July 7.—William Maurice Harrison, Florida University graduate, has been appointed adjutant to the civilian aide to the Secretary of War for the state of Florida. Mr. Harrison is employed by the R. O. T. C. work at the university this year. His home is at Cottdale, Fla., where he received his public school training.

TAMPA, July 7.—Building statistics, postal and custom receipts, bank clearings and cigar manufacturers phosphate shipment, reports all show an appreciable increase over the same period of time in previous years, according to figures covering the first half year of Tampa's 1923 record. More than two million dollars worth of new buildings were started since the first of January.

Why do we do 75 per cent of the long distance hauling of Seminole county? The answer is, because we do it right, at the right price.—**QUICK SERVICE TRANSFER**, Phone 498. 834c

Oldfield Cord Tires are race tested—holding all of the track records made in the past three years.

Oldfield Cord Tires are road tested—in the Wichita, Kansas, Economy Road Test, in the winter of 1922, the official record showed a set of Oldfield Cords had traveled 34,323 miles before the first tire gave way. And this is only one of many instances of unusual highway performance.

Oldfield Cords are built by one of the largest tire manufacturers, who must maintain the established reputation of these remarkable cords.

Here are the biggest tire and tube values ever offered by anyone. Come in today. Buy your tires now, before our stock is exhausted. Purchase from a regular tire dealer, located near you. We stand behind these tires and are ready at all times to give you prompt service.

## HUMPHRIES IS HIT HARD AND LEACHMEN WIN

LAKE LAND, July 7.—Lakeland hit Humphries hard and often yesterday, winning the second straight game from Orlando, 6 to 3. Guley, Stewart and Loutstutter contributed sensational catches. The score: Orlando 010 200 000—3; Lakeland 003 111 00x—6.

## Indians Win When Jamieson Hits Homer With Two on Bases

CLEVELAND, July 7.—Charlie Jamieson's home run with two on in the seventh yesterday, drove Elmke from the box, and Cleveland defeated Boston 5 to 3 in the first game of the series. The score: Boston 000 000 030—3; Cleveland 200 000 30x—5; 9 0.

ST. LOUIS, July 7.—New York pounded Shocker for 12 hits and won the opening game of the series with St. Louis yesterday, 5 to 2. The score: New York 110 000 021—5; St. Louis 200 000 000—2; 8 1.

## FOR THE MOVIE FAN

Oh, boy!  
Look who's here tonight!  
Walter Heira in "Sixty Cents an Hour"  
Sixty laughs a minute with jolly Walter Heira as a small-town soda clerk in love with a bank president's daughter, a sweetly-flavored concoction, guaranteed to quench your thirst for sparkling, sure-fire comedy. Jacqueline Logan as the girl who made him go like sixty to win her.

Also International News, only one day old.  
And the honor guests tonight will be V. C. Collier and family and will see this fine comedy without cost to them as the treat is on Osborne, so be there V. C. and bring the family.

Monday—Wallace Heery, Estelle Taylor and Silvia Breamer in "Bavu." Also Stan Laurel in "The Egg" a two part comedy.

Tuesday and Wednesday—Gloria Swanson and Theodore Roberts in "Prodigal Daughters" with round three of the "Leather Pushers."

Thursday—An All-star cast in "Mighty Lak' a Rose." Also "Spooky Romance" a two-part comedy as an added attraction.

### TAMPA CLUB CHANGES HANDS

TAMPA, July 7.—T. T. Roberts, of Birmingham, Ala., yesterday purchased the franchise of the Tampa Baseball club, taking over all of the stock, practically all of which was held by S. B. Denton and F. P. Fariss, of this city. Despite the present position of the Smokers, in last place, of the Florida State League race, Mr. Roberts expressed himself as being confident he could place the team upon a winning basis.

S. F. L. D. Carr, business manager, will remain with the club in his present capacity until such time as Mr. Roberts decides to handle it himself.

## State Comptroller Will Have Offices All Ready to Work

The New Business of Certificate of Ownership.

TALLAHASSEE, July 7.—The state comptroller's department will have his machinery running smoothly and everything in readiness within a week to promptly handle all applications for certificates of ownership under the new motor vehicle "anti-theft" law, passed by the last session of the legislature. Numbers of applications already have been received, and some are being attended to, but the supply of blank certificates has been limited.

This shortage soon will be a thing of the past, however, Robert A. Gray, chief bank examiner of the state, under whose supervision the applications are issued, stated today that 300,000 application blanks have been ordered and that enough of these were expected within the next few days to more than take care of the 150,000 automobiles in use in Florida.

Leesburg is now a Bird Sanctuary and is to give adequate protection to birds from the kindly mocking bird to the lowly woodpecker. This matter was decided at a meeting of the city commissioners. Manager Bivens says that there has been an ordinance on the statute books of the city for many years against killing of song and harmless birds but evidently very little effort has been made to enforce it.

## OLD MAN LUCK GOES AGAINST THE GROWERS

DAYTONA, July 7.—Baseball luck almost prevented a defeat for the pennant chasing Growers here yesterday, but the Daytona Islanders beat the fickle old lady and the Bradentown team out 5 to 5 in one of the hardest fought games ever witnessed here. In the first of the ninth, with the score 3 to 0 in favor of Daytona, with the bases full, Johnson hit to shallow right, the ball being lost in the tall grass, and four Growers trotted over the plate. Then Arnold hit a home, which accounted for Bradentown's five runs. Daytona scored three more runs in the last of the ninth on four hits off Franks, who replaced Camp. The score: Bradentown 000 000 005—5; Daytona 000 000 033—6.

## 12-Hour Day May Be Abolished in Steel Industry Centers

Southern Negro Influx Will Make It Possible

(By The Associated Press)  
NEW YORK, July 7.—Influx into northern industrial centers of negroes from the south, and laborers from Mexico, the Philippines, Canada and a few European countries, soon will make possible abolition of the 12-hour day in the steel industry, E. H. Gary, chairman of the board of United States Steel Corporation, announced yesterday.

Mr. Gary declared he could not say when his corporation or any other company would get rid of the 12-hour day entirely, but he asserted he could publicly state that they would begin to act in that direction very soon and would be very diligent in their efforts.

His announcement followed action by President Harding in making public yesterday of correspondence between himself and directors of the American Iron and Steel Institute, in which they pledged themselves to abolition of the long day, when a sufficient labor supply is assured.

He estimated that the change would require sixty thousand additional laborers, and would increase the cost of finished steel products by 16 per cent. Mr. Gary predicted that good progress towards abolition of the 12-hour day would soon result and success would soon be reached in a comparatively short time provided the increase in number of available workers which is now apparent continues as at the present.

The decision Mr. Gary said, was made in recognition of the growing public sentiment in favor of such a step and in recognition of the president's attitude. He pointed out, however, that he also had always been opposed to the 12-hour day, and that its retention had been dictated by circumstances.

## PUTS KIBOSH UPON PUBLICITY GIVEN BIG FIGHTING FEE

Money-Making Basis Is Cause of Many Wrong Impressions.

DE SMOINES, July 7.—America will suffer a loss of idealism in the future because of the prominence given to huge salaries and fees paid to movie stars, prize fighters and baseball players, according to Clarence Hamilton, of Boston, in addressing today's session of the International Endeavor Convention here.

"Modern heroes as pictured in the newspapers and magazines are not very desirable characters for our boys and girls to emulate," said Mr. Hamilton. "Practically all of them are placed upon a money-making basis. Character and achievement for little with them. The prize fighters who can deliver a punch to knock his opponent senseless is given many big headlines before and after the effective punch is delivered and for

## SMOKERS AND SAINTS PLAY SHORT GAME

TAMPA, July 7.—St. Petersburg and Tampa went six innings here yesterday for a 4-4 tie, the game being called on account of darkness. Tampa's new pitcher, Rufus Atkins, made his debut, working against Ollinger. The Saints' hurler was weak at the start, Tampa promptly taking the lead, only to lose it when the visitors made a single, walk and an error counted for two runs. The score: St. Petersburg 000 220—4; Tampa 210 010—4.

### RECOVERS FROM LAME BACK

"My daughter suffered with a lame back and could scarcely move without great pain. She tried Foley Kidney Pills and the trouble with her back is all gone," writes Mrs. J. C. Perkins, Boston, Mass. For Backache, Rheumatic Pains, Kidney and Bladder Trouble use Foley Kidney Pills. Will relieve that tired feeling. Take no substitute—Insist upon Foley's. Sold everywhere.—Adv.

Things are still looking good around Groveland and several new buildings are contemplated. J. B. Arnold will erect a new \$10,000 residence on Indiana avenue, which will be one of the nicest in the city. W. H. Hunter, of Clermont and J. W. Farley, of Groveland, are making arrangements for the erection of a brick building on Broad street to be used as a moving picture theatre with upstairs apartments also.

### The Herald for first class job work.

that punch he gets several fortunes, besides notoriety which passes in our day for fame. Likewise the movie stars who can go through some capers and simulate virtues which they do not possess, are heralded as great men and women because they attract buyers of tickets to box offices. The same is true of baseball players.

"Boys and girls and young men and women who emulate these weaklings, termed and pictured as heroes and heroines, are building on sand. The real heroes are those who are contributing to our physical and mental and spiritual well-being. They should be heralded and emulated. The value of their work can not be appreciated with the dollar sign. The idealism of America will suffer if false standards of value are accepted by a large proportion of our American youth."

### NEW COAL DEPOSIT OPENED

Five miles east of Gillette, Wyo., a new coal deposit was recently opened. Significance attached to this new field of coal operations because this is said to be the third largest deposit in the world. The vein extends to a depth of 95 feet thick and covers an area of 800 acres. Only two other fields in the world are larger, it is claimed, one in France and one in Australia. But the Gillette field has this advantage over the other two—it is not uniform or constant in character, it is said, whereas the Gillette field is of uniform character.

### BEATING HER TO IT

"Did you tell her that you had seen her husband down town with a strange woman?"  
"Yes, and I wish I hadn't now."  
"Why?"  
"She just smiled at me in her wise way and said: 'Yes, I know all about that. My husband saw you and knew you'd hurry right up to tell me all about it so he telephoned the news to me himself just to beat you to it.'"

## JEWETT SIX PAIGE BUILT

\$1065 f. a. b. factory

### Paige-Timken Rear Axles—99.8% Dependable!

THIS Paige-Timken rear axle has delivered phenomenal service in the Jewett Six. A careful factory check-up recently made on the first 20,000 Jewetts in use revealed that only two-tenths of 1% had ever had any axle trouble whatever—even including those due to accidents.

A remarkable record—said to be unequalled in the history of the industry. But it is typical of Jewett's stout and dependable construction. Extra-tough steel and ample size give this Paige-Timken rear axle of the Jewett a great surplus of strength for safety. See Jewett Six for yourself—get the facts of its Paige engineering, big Six qualities. We'll be glad to explain them to you.
