# JUNIOR RED CROSS

Production of Sound American Citizenship the First Aim, Says Dr. Farrand.

On the badge of every member of the Junior Red Cross are the words "I Berve." That tells the story of the school children's branch of the American Red Cross and its efforte to bring happiness to children throughout the Yards to the fair grounds. world.

Realizing that the time never was so propitious as right now for teachthe entire present program of the Junfor Red Cross has been framed under GREAT EXHIBIT TO the very inclusive phrase, "Training for Citizenship Through Service for others. Since the Junior Red Cross is the agency through which the Ameriand the schoolgirls, all its activities are designed to come within the regular school program, and without creating new courses or increasing the numof studies to lend its aid in vitalising the work of the achools.

"The thing that is needed," says Dr. American Red Cross Central Committee, "is not a perpetuation of the Jun-Cross a contributor to better citizen cisco exposition. ship in our American democracy is the realization that after all the sole hope of any nation is with the children of the country."

The plan of organisation of the Junfor Red Cross makes the school-public parochial and private—the unit. not the individual pupils. Mutual service, helpful community work such as clean-up campaigns, onre of the sick. promotion of health regulations, pardeligation in civic and patriotic movements-su'l these creative agencies designed to translate into life and action the regular school program are parts of the machinery which the Junior Red Cross places at the disposal of the school nuthoritles,

Graded study courses giving practical methods of civic training, supplemented by pamphlets and helpful auggentions, are supplied to the local schools by the Junior Red Cross. An elaborate plan for promoting an interchange or correspondence between children in different sections of the United States as well as with children in foreign lands is being devised and will take a prominent place in the established classroom program.

In promoting the general cause of child welfare, Red Cross courses in home hygiene and care of the sick. first aid, and dieting may be established in all Junior Red Cross Aux

Junior Red Cross are embodied in the and the tools he uses in "making pledge of service which the pupil takes | weather." when he signs the membership roll and pins on his cout the Juntor's bridge. The pledge which binds together service and citizenship reads;

"We will seek in all ways to live up to the ideals of the Junior Red Cross and devote ourselves to its service. "We will strive never to bring dis-

credit to this, our country, by any unworthy act. "We will revere and obey our country's laws and do our best to inspire a

like reverence and obedience in those about us "We will endeavor in all these ways, an good citizens, to transmit America

greater, better and more beautiful than she was transmitted to us." At the foundation of this school program of the lunion fled Cross is a great love for America's children.

St. Petersburg is planning for a new tourist magazine to be published weekly throughout the season. This is to be known as the Tourist News, and the list issue will come out in De-

Key West has doubled its property assessment, but will cut the millage almost in half, so that the increase in taxes will after all be very little.

## WAKEFIELD **PRODUCTS** ARE FAMOUS

Seminole County Firm Does Great Business In Preserving Line

of the greatest preserving works in 184. the state. It may not be the largest but it certainly has a reputation of the best and supplies every state in the union with the finest guava jell-

This is the celebrated Wakefield Preserving Co., and the firm is composed of Mr. and Mrs. P. T. Wakefield at the present writing and they are putting up this elegant brand of goods in a little out of the way place near Geneva-in fact in their dooryard-as make the best mouse trap in the world the people of the world will make a beaten path to your doorway and they are certainly making a beaten path to the doorway of the Wakefields in Geneva. This firm has received all kinds of flattering offers to move their plant to larger cities but they are content to remain at the old stand for the present and are greatly enlarging their present quarters and will be able to take care of their many large orders this season to better advantage They are installing new equipment and one of their kettles alone turns out over 100 jars of jelly every half hour and they are putting in several more kettles and enlarging the building and will purchase trucks for the quicker transportation to Sanford and neighboring cities. They have one order for 100,000 cases of guava jelly which demonstrates that this business that had such a small start a few years ago has attained large propor-

that is bound to become popular with the tourist trade. It is small baskets woven from Florida pine needles containing crystalized ginger and is only one of the many fine articles put up Attest:

Seminole County, Florida.

Attest: E. A. Donglass, Celrk. 4-4tc by his enterprising firm of which Sanford and the whole of Seminole county is justly proud.

# The MOLINE Tractor is Universal

### One man with one tractor does all field work from plowing to harvest

#### –Wash Tubsvs. Gold Dollars–

This is the year of years to put in a full acreage, and courageous business farmers are getting their "wash tubs" out of doors despite difficulties, all ready for the rain of "gold dollars" that is just ahead of them.

A factory overcomes labor shortage by using machines that do the work of a number of men. They often pay very high prices for such machines, but it pays them in labor savings.

The labor shortage never was so great as right now, but it need not affect you, if you use a Moline-Universal Tractor.

Here is what one man and a Moline-Universal Tractor can do in a ten hour day:

Plow 7 to 9 acres Dire 27 acres with a 7 Tandem Dire Harrow Disc 38 acres with a 10' Disc Harrow Harrow 76 acres with a 201 Peg Tooth Harrow Cultivate from 13 to 20 acres with a two-row Drill 35 acres with a 10' Grain Drill

Harvest 40 acres with a 101 Grain Binder Harvest 10 acres with a Corn Binder Mow 25 acres with a 81 Mower Rake 40 acres with a 121 Rake

In addition it makes a powerful and economical stationary power plant up to 24" separator capacity.

We can prove to you that a Moline-Universal Tractor will be a profitable investment for you. A demonstration on your own farm cheerfully arranged.

If desired you can use the "drag behind" or horse drawn implements you now have with the Moline-Universal the same as with other types of tractors.

Bell Bros., Lake Monroe, Fla.

## RIG SYNDICATE PURCHASES MUCH ORANGE LAND proposition.

TY BUSINESS MEN IN COMPANY.

Six thousand, six hundred and sixseven acres of Orange county perhaps the largest individua sfer, except the Sylvester E. Wilpurchase, to take place in this ity, has been sold by F. E. Bax a syndicate of local business who will take steps to immediateaprove 4,000 acres by the planting range groves.

property is located west o. Garden, embracing some of most fertile land in the State. section has long been famous for range grovs. The land is particarly adapted to trucking and grove it laying to the west of the Apopka delta and containing picturesque lakes. The land ill be improved immediately old to homeseekers on such ertaking. The project is primarclope this section to increase ith and population.

# I his section certainly owes a lot to the automobile

OOK at it just from the business standpoint, compared with, say, ten years ago-or even five.

Everything speeded up-made easier. Nearly every business man depending on the automobile to transport himself and his products.

That is one reason, perhaps, why more attention is being paid to tires—why tire costs are being figured closer and people are beginning to look for better tires.

We believe that people are entitled to better tires-the best they can get.

Not only the man with the

big car, but the man with the small car, and the medium sized car.

III

We represent U.S. Tires for that reason—because their policy is the same as ours-every tire as good as you can get it, regardless of the size of the car it is to go on.

It was that policy which led to the introduction of the straight side automobile tire, the pneumatic truck tire.

And you can't beat it.

IV

U. S. Tires are guaranteed for life, with no limitation of mileage.

It will pay you to talk to us about tires, if you are looking at them from a business standpoint.

HARD TEST ON TUESDAY

Moline Tears Up New Ground to Re-Markable Depth-Fordson Trots Along at High Speed With

Plaw

On he Gibson farm back of Fruitland Park the Moline and Fordson tractors were given extremely severe tests on Tuesday offernoon of this week and some of the most marvelous stunts were pulled off by the Moline after the real demonstration of straight plowing was completed.

The ground was newly cleared and the plows had to cut through roots six inches in diameter. On the straight & work the Fordson went at a considerably higher speed than the Moline but the Moline was plowing a deeper furrow. There were very deep holes in the ground where large trees had been taken out and the very large wheels of the Moline were not disturbed by these, while the smaller wheels of the Fordson were compelled to make such harder pulling of the work at these

After the demonstration of plowing was over, the Moline plow was lowered and a trench dug around the "land" to a depth sufficient to have buried several times as many people as were present and covered them up. Then the operator spun the wheels and due them into the soft plowed ground so deep that it looked like they would never get out. But they did.

Altogether, it was a splendid show. extremely spectular, but one spectator remarked that if farmers had to do their plowing in that kind of land all the time some folks would have to o hungry. Leesburg Commercial. Bell Bros., of Lake Monroe are a
