Hollywood

HOLLYWOOD, Feb. 7.—(AP)—If he's looking little more like somebody's favorite grandfather, Bill Ligon is certainly a success in an English drawing room. He is the star of the new picture, "The Girl in the Red Coat," which is being shown in the city...

PROUD OF HER HUSBAND, Mrs. Robert H. Undercuff displays his picture in their Camden, N. J. home, as sons Ernest, 18, and Kenneth, 16, look on. After a draft board gave permission for Ernest to enlist, the mother withdrew her consent at the recruiting office. At that point, the father, an sergeant who survived the battle of the Bulge in World War II, enlisted in his own right. He is now Sgt. Undercuff while his son, as the mother's sole support, is draft free. (International Exchange)

Bayonet Charge Clears Chinese From Hill

TOKYO, Feb. 7.—(AP)— Allied ground forces smashed today with three powerful tank columns to the last hills guarding the plains of Shantung. The Chinese and Korean Reds were digging in for a new stand on the ridges just south of Seoul. At their backs was the Han River. We are not sure how long the Reds but now on the verge of shoving.

Truman To Confer With Hoover On Famine In India

WASHINGTON, Feb. 7.—(AP)— President Truman called in former Republican President Herbert Hoover today to seek his advice and support on a proposed grant of 2,000,000 tons of grain to India. The grant would be made through the United States Food Administration. Hoover is expected to leave for India today to see the famine-stricken areas.

John Sauls Urges Contributions For Polio Fund Drive

Crippling Rail Strike Ends In Eastern Areas

By CHARLES F. CALVANO AND FRANK E. LEWINE... WOODBRIDGE, N. J., Feb. 7.—(AP)— A bright red commuter train headed toward Jersey's north shore residential area last night. It was making good time. A silent quiet of town, a temporary wooden trestle and a grinding creaking of wheels were the only sounds to be heard. The train was the first to run since the rail strike ended in the eastern areas.

82 Bodies Recovered In Rail Wreck Which Injures Five Hundred

TODAY'S HIGHLIGHTS

Job today's very busy of handling, but it is not a sign of the end of the year.

It is possible that the town is about to go mad, in spite of the cold, and a good time.

A lot of people are feeling sorry for the poor cattle men who had several thousand head of cattle during the winter of last year.

Among the outstanding accomplishments of his administration, Governor Warren reports, has been the elimination of the cow from Florida highways.

THE WORLD TODAY

BY DEWITT HACKENRICH, AP Foreign Affairs Analyst

General Eisenhower made the point in his address to the Congress that while he didn't deny the fact that the United States is engaged in a costly and bloody war in Korea, the maintenance of peace in the world, which is the real objective, is the primary concern.

This might be a small degree cause senators and congressmen to hesitate before making defamatory statements about individuals without adequate proof of their accuracy. Presumably most legislators are honest, however, and would not knowingly make false charges.

The Constitution is quite specific in stating that the members of Congress "shall not be questioned in any other place" for any speech or debate in the House or the Senate.

In time of war newspaper readers tend to concentrate their interest on national and international affairs. Between the lines, their reading is almost more closely to local news, the comics and features.

This trend has been described in the report of a survey carried out by the Research Foundation, Inc., a single news story dealing with international affairs had a top score for readers in the immediate post-war period.

It is safe to assume that this condition may be changed somewhat when peaceful times come again. American citizens have become complacent in their attitude toward the industrial and in regard to national and international affairs.

Recent events have convinced many of those least informed about his nation, its policy and its role in the rest of the world. Newspapers are high on the list of sources of this daily information.

Find in Greek Drama. A discovery which will startle all who have even the remotest acquaintance with ancient Greek drama is the finding of a new and unimagined type of tragedy.

### Bockoven Scores Forty Points As Seabreeze Beats Sanford 85-40

By ED HARPER  
Jim Bockoven, shooting from every position with either hand, fired through 40 points in leading Seabreeze to an 85 to 40 victory over a choked up Sanford five in Daytona Beach last night. Bockoven broke the Sandcrab individual scoring record set by Jim Carlin in 1949 by seven points in a brilliant exhibition of sterling defensive play and an unerring eye under the basket.

Trailing 46-11 at the end of the first half the Celeryfeds scored 29 points in the next two quarters but were unable to stop the bewildering proficiency of the Sandcrab stars who seemed able to do nothing wrong on bullet-like passes and light of hand ballhandling. The Seabreeze squad piled up a quick lead as the outclassed Sanford five played tight, overly nervous ball throughout the entire first half.

With the score 7 to 1 in the first minute of the opening period Bockoven drifted in on Jimmy Smith as he brought the ball down court, snaked a lightning fast left hand out to steal the ball in mid-dribble. The Seabreeze star moved down court and scored without breaking his stride. Clarence Glass and Garnett "Whizzer" White, each with ten points for the evening, led the Celeryfeds attack which penetrated the Sandcrab defenses without difficulty in the second half, but was unable to keep pace with the race-horse tactics and uncanny accuracy of the Daytona squad.

Bockoven, guarded at various times throughout the evening by Covington, Metis, Glass and White, in the last quarter, had some success in stopping him under the basket.

Wide Hardin showed tremendous improvement in ball handling and in a apparently finally learned to hang onto the ball. But neither of the Celeryfeds skyrapers seemed able to rebound Leubolt, the tall Sandcrab center. Jerry Brock and Cleo Kingman, two very fine ball handlers, were sparkplugs in the Seabreeze attack, each firing hard accurate passes into the Sandcrab scoring area and repeatedly setting up plays by threading the needle with down court passes to fast breaking teammates.

Coach Jim Nelson's team, which has lost only to Miami, seemed determined to average themselves on the hapless Celeryfeds as no discernible let-up came after the first half debacle.

In the junior varsity game the rangy, poised Seabreeze sophomores piled up a quick ten point lead as a seemingly bewildered Celeryfeds crew repeatedly threw the ball away. The final score was 24 to 16.

Player	Points

### Court Leaders Are Hard Pressed To Defeat Unknowns

NEW YORK, Feb. 7.—(AP)—Six of the top ten basketball teams in the land registered expected victories last night, but not before half of them experienced some rough going.

Columbia, Bradley and St. Louis were hard pressed while St. John's, Villanova and North Carolina State breezed past weak opposition. Basketball's "big four" of Kentucky, Oklahoma A & M, Indiana and Kansas State was idle.

Seventh-ranked St. Louis had the toughest time. The Billikens withstood a determined closing rally by Wichita to eke out a 32-4 victory. At one point St. Louis had held a 43-11 lead.

Bradley, No. 5 nationally, was hard-pressed for three quarters before turning on the steam to whip Houston, 60-47.

Sixth-rated Columbia, the only major in-state team in the country, made it 13 in a row with a 60-53 victory over Harvard. Harvard battled Columbia right to the end and only some freezing baskets by the winners held off the Crimson.

St. John's of Brooklyn, No. 7 in this week's Associated Press poll, warmed up for a brief road trip by tipping Kings Point, 66-52. The Redmen play John Carroll in Cleveland tonight, then travel to Buffalo for a tilt with Canisius on Saturday.

Villanova, No. 9, whipped Duke, 67-43, and North Carolina State, No. 10, blasted Tulane, 65-52.

Other leading games saw Toledo edge Western Michigan 43-31, North Carolina State beat Wake Forest 61-47, and Virginia whip Richmond 60-37.

### BIG SHOT - - - - - By Alan Mauer

Illustrated by Guy Fawcett Studios

### Sports Roundup

By RICHIE FULLERTON, Jr.  
NEW YORK, Feb. 7.—(AP)—It may come as a shock to the great minds of the football coaching profession to learn how lightly they're regarded by the nation's sports writers and sportscasters.

These experts currently are engaged in bidding to pick an all-time All-American team and coach for the Associated Press. The names subsequently will be presented as nominations for the football Hall of Fame. A preliminary count, embracing only a handful of votes, indicates that most of the experts stop thinking about coaches after they reach Knute Kenneth Rockne of Notre Dame. So far some 30 names have been mentioned, mostly by place or show, and the tabulation of first place votes shows Rock running ahead of Pop Warner by about 10 to 1 and Amos Alonzo Stagg by 15 to 1. No other coach has polled more than one first-place vote.

This observers wouldn't argue with the guy who name Rockne, although his personal choice would be Warner. It has been said that Pop "did more to make them change the rules than anyone else." Rock's famous shift also made the rules committee original, that or anything else. He merely perfected other coaches' inventions. Still he was a guy with winning teams and a great personality and did much to make football coaching a respected and well-paid profession.

Listen To The List  
After the top three, the first count showed only "moderns" drawing first-place votes—Bernie Bierman, Paul Brown, Frank Leahy, Bob Neyland and Clark Shaughnessy. Then, surprisingly, you find among the also-rans "fading" Yost, Bob Zupke, Howard Jones, Dan McGugin, Andy Smith and Gil Dobie. These guys were on top for so long you'd think someone would name them as best of all.

The unsavory questions arise when you mull over the names that were left out. What about

### Pirates Rebel As Rickey Cuts Pay Of Several Stars

Only Home Run King Ralph Kiner Makes Over 50 Thousand  
PITTSBURGH, Feb. 7.—(AP)—Branch Rickey's new payroll formula for his Pittsburgh Pirates has some of the players saying— "Thanks, but no, thanks."

Unsatisfactory contract offers have provoked howls from at least 10 Bucs—who think the club is able to pay more money.

But the furor hasn't budged General Manager Rickey. The boys may be squawking now but Rickey expects no holdouts.

"I have not had a holdout in many years," he said "but a last place club in a great many years—32 to be exact. It is my job as I see it to have something to do with a pennant-winning club in Pittsburgh, and as soon as possible."

And this is Rickey's pay formula: "All good players will be paid generously and all other players will be paid fairly."

Rickey believes players should get juicy incomes only for producing a winning team—not because the club happens to be in good financial condition—which the Pittsburgh club is.

Sports Editor Harry Heck of the Pittsburgh Sun-Telegraph put it this way: "If it takes hungry players to win ball games, rest assured that Branch Rickey will see to it that there will be no overfed sleek cats on his payroll."

Here's a rundown on some of the dissatisfied players: Shortstop Stan Rokicki, his \$12,000 salary was cut 25 per cent.

Pitcher Vic Lombardi—he got the same treatment on his \$8,000 a year.

Catcher Clyde McCullough—he's unhappy about an unspecified cut in the \$16,000 he drew last year.

Outfielder Wiley Westlake—Rickey honored him with a slight increase over his \$20,000, but Westlake wants more.

Second baseman Danny Murtagh—he was offered the same salary (\$13,000) he got last year.

Catcher Ed Fitzgerald (\$8,000), pitcher Mary Dickson (\$20,000), pitcher Cliff Chambers (\$16,000) and infielder Pete Castiglione (\$8,000)—all four want the same terms they had last summer or better.

But there are some happy Buccaneers, too.

Already signed up are home run slugger Ralph Kiner \$35,000 who is ratcheting out a two-year agreement, outfielder Tom Raffell (\$8,000), outfielder Pete Reiser (\$10,000 to \$11,000), and pitcher Bob Cheneau (\$12,000).

And the youngster who received \$100,000 for signing a contract a year ago, bonus baby Paul Pottit, is happily sticking to his three-year contract at \$4,000 a first money. He earned \$80 for having the low score of the day and also got \$100 for being the pro in the team finishing on top in the pre-mateur. His partner was Dr. M. A. Randall of San Antonio. They had a best ball of 62.

### "Slug" Richards Declares Speed In Outfield Is Need Of White Sox

(This is the 15th of a series of 16 articles written by the major league managers for the Associated Press under their own bylines giving a preview of their team's chances for 1951 and signing up the other clubs.)  
CHICAGO, Feb. 7.—(AP)—According to the information I have received, the basic weakness of the Chicago White Sox in 1950 was the lack of speed, especially in the outfield.

That is one of the reasons we gave up two such fine pitchers to the Red Sox like Bill Wright and Ray Scarborough for outfielder Al Zarilla. I know we gave up a lot but I believe in the long run, the deal will prove beneficial to us.

The addition of Zarilla, as nearly a proven ball player as it is possible to obtain in a deal, should improve our outfield, both defensively as well as offensively and add speed as well.

Gus Zernial, who drove in 93 runs last year, but who struck out 110 times, must prove to me he can hold down one of the outfield positions regularly.

I'm going to give the young fellows—Jim Busby, from Sacramento, Eddie McGuire and Bill Higdon, from Memphis—a thorough try-out. All have speed and ambition and are our most promising rookies.

Despite the loss of two fine pitchers, we are still very strong in that department. That along with the fancy fielding of Chico Carrasquel at shortstop, probably is our main strength. We are hoping that a year of experience with the talented South American has added to Nelson Fox at second and that his natural improvement will make him a worthy partner in double play production.

Where we need some luck is in developing some new right-handed pitching strength. Joe Dobson should help us a lot. But we're also looking for Howie Judson or Lou Kretlow to come through for us.

We have some good power. With hitters like Hank Majeski, Eddie Robinson, Zernial and Zarilla in the lineup, we should be able to give any pitcher something to worry about. Nobody will have much better catching than we with Phil Masi and Gus Nierbach.

Anyone who ventures an opinion on the possible effect of the military draft must realize that it amounts to something less than a good guess.

I'm sorry I do not feel qualified to evaluate the remainder of the league as I have been away from the American League since 1947. This is my first try at managing a big league club, you know.

Tomorrow: Frank Frick, Chicago Cubs.

### 275 Golfers Gather For Texas Tourney

SAN ANTONIO, Tex., Feb. 7.—(AP)—A field expected to number around 275 first time top-up rounds today for the \$10,000 Texas Open.

The twenty-fourth tournament will start tomorrow with more than 70 touring pros among those seeking the prize money.

Par cracking has become monotonous in the practice rounds. Yesterday Doug Ford of Blair Cliff, N. Y., did a three-under-par 68 over the Oak Hills Country Club course in the annual \$2,500 pro-amateur to take down first money. He earned \$80 for having the low score of the day and also got \$100 for being the pro in the team finishing on top in the pre-mateur. His partner was Dr. M. A. Randall of San Antonio. They had a best ball of 62.

### Kell Dissatisfied With Tiger Contract

DETROIT, Feb. 7.—(AP)—Hard hitting, slick fielding George Kell headed home to Arkansas today without having agreed on a new Detroit Tiger contract.

The star Tiger third baseman, reportedly seeking a \$10,000 raise, evidently is still short of his goal.

Kell and General Manager Billy Evans had a talk yesterday and George came away dumfounded with the club's attitude toward "the best year in my life last season."

"I have been offered a raise, but I still don't think it's enough," Kell said.

He declined to state exact figures but said he and Evans were within "a few thousand dollars" of one another.

Last season Kell was paid about \$33,000.

### Preakness To Field Sixty-Four Of Best Young Race Horses

BALTIMORE, Feb. 7.—(AP)—Sixty-four of the country's top three-year-olds are eligible to enter the \$200,000 Preakness stakes set for May 13 at Pimlico, the Maryland Jockey Club announced today.

At the top of the heap are Battiefield and Big Stretch, impressive sophomores last year. Missing from the list is Uncle Milton, an early favorite for three-year-old honors this year, but he still can't enter as a supplementary nomination.

Battiefield stood out in last summer's campaigning with victories in the Hialeah Juvenile, the Youthful, Tremont, Saling and hopeful Stakes as well as the Saratoga Special and the Belmont Futurity.

Big Stretch was an impressive second to Battiefield in the Belmont Futurity and drew a big following by taking the mile and a sixteenth Pimlico Futurity after encountering interference twice.

Only one filly was nominated for this running. It was Belair Stud's Vulcania, second in the Demoiselle and the Selma last fall to Duval Headey's champion two-year-old filly, Aunt Ginny.

The Preakness, bracketed by the Kentucky Derby and the Belmont Stakes to make up the traditional triple crown, carries on half the pocket money as do its running mates.

The Derby, to be run two weeks earlier on May 6, was the only \$100,000 race for three-year-olds in the past last year when the Belmont was cut to \$75,000. This year it is restored to the \$100,000 figure when it is run about the middle of June.

There has been no indication yet whether J. J. Colando will consider it worthwhile to put up the \$15,000 supplementary fee to enter Uncle Milton in the Preakness.

The black colt showed plenty of promise last year when he won the Champagne stakes and the Wakefield handicap and came in second to Battiefield in the sapping stakes. These victories netted nearly \$40,000, a pretty fair return for his class.

Prominent sibilites other than Battiefield, Big Stretch and Vulcania include S. B. Mason's Tom Marzani; Mrs. Sarah Child's Lord Putnam; Brownell Combs' Bernard; King Ranch's Black Douglas and Marzara, full brother to Anasalt, 1946 Preakness winner; I. B. McPhail's General Staff; third in the Pimlico Futurity; Alfred C. Vanderbilt's Good Loser; C. V. Whitney's Manelake; Sam E. Wilson's Bugledrum.

Rail Wreck

(Continued From Page One) handbags and other belongings of victims were strewn over the area. The dead include bankers, lawyers and businessmen, prominent in their localities and civic life, most of them home-bound from New York City offices.

In mid-morning, the list of known dead stood at 77, with four bodies still unidentified. The rush-hour crackup was the worst in the nation since 1918 when 115 were killed in a Nashville, Tenn., wreck, and more disastrous than a 1943 accident outside Philadelphia that took 80 lives.

- It was the third major train wreck in the Metropolitan area in less than a year. A total of nearly 200 died in the three crackups. In Washington, the Interstate Commerce Commission ordered an inquiry into the new disaster, with a public hearing to open tomorrow. On orders of New Jersey Governor Alfred E. Driscoll, the state's Attorney General, Theodore Parsons, also began an investigation. He reached the scene early today, and sent an assistant to a hospital to question the critically injured engineer of the wrecked train.

Crazed Commuter

(Continued From Page One) best crawled into the cars to administer the last rites of his church to the dead and injured. "It was terrible I could only see parts of bodies strewn in the aisles," he said.

Richard Douglas, 19-year-old engineering student from West Long Branch, talked from a hastily improvised stretcher. "I was thrown on top of a pile of squirming people. Blood poured on my face from the man on top of me. After what seemed like an hour I reached a smashed window."

As he recalled his escape, rescuers and firemen—using ladders to reach the overturned coaches from the street 20-feet below—carried broken, lifeless forms to improvised morgues or laid them out across the street along a white-washed picket fence. A pitiful line of wives and mothers and fathers and relatives crowded moraines and hospital for loved ones. Some women to sense impending grief. But for others—at home holding supper for fathers and husbands—it came harder. A telephone rang impatiently in the home of Edward Thomas McDonough. His daughter cried softly into the phone. "My father didn't always take 'The Broker' home. I must hang up now, I've just broken the news to my mother and it's terribly hard," she said.

Laurette Luez smiles at the sweet words of Errol Flynn, in this scene from MGM's spectacular film, "Kim," in color by Technicolor, showing at the Ritz Theatre screen Thursday and Friday.

My New York

NEW YORK—The true university of these days, wrote Carlyle, "is a collection of books." and if this is true, the leading college in the country is situated at 18th street and Fifth avenue, where a shop called Barnes and Noble has a stock of more than one million books.

It has a couple of hundred employees and serves as many as 500 customers an hour. It is also a convenient place to get lost, as witness one customer who started the janitor at 11 o'clock one night by strolling out of a section and saying calmly "Good evening"—five hours after closing.

It could be that the most fascinating item about Barnes and Noble is its cafeteria system of getting books for customers. Great ladders reach to the high ceilings of the shop and clerks climb those and pitch books down to other clerks, like a hot-rivet team working on a skyscraper. Just as the construction workers have their absorbed admirers, the more expert of the B. and N. clerks always attract audiences when they start throwing and catching.

THE PRESIDENT OF THE LITERARY CENTERS is a six-foot, graying, husky man named John W. Barnes, who was a Marine major on the staff of Adm. Chester W. Nimitz in the last war, looks to be hunt and doesn't look bookish at all. Barnes always has run B. and N.; indeed, Barnes has been in this country since 1836, and they can trace kinship back to Noah Webster. Somebody who delights in figuring such things out has deduced that the stock of this shop if laid end to end, a rather foolish idea at best, would reach from Fifth avenue to Philadelphia and back.

Hollywood

HOLLYWOOD, Feb. 7.—(AP)—Sherman Douglas has abandoned the international social whirl for a \$150-per-week job in Hollywood. Not long ago, Miss Douglas was the glamor girl of the U. S. Embassy in London, where her father, Lewis Douglas, was ambassador to England. Today she lives alone in a bachelorette apartment near Hollywood and is intent on a career as a public relations counselor for RKO studios.

"Of course, I don't know whether I'll end up a career girl," she remarked. "That depends on how I like the job and how it likes me. But it certainly is interesting and I'm anxious to make a go of it."

She laughed at reports that she had taken the job to prove to her father that she could earn her own way. "That isn't true," she remarked. "But my father does know about the job and is delighted."

Miss Douglas' official title is "liaison between the Gabriel Pascal film production and the United States." "I'm going to make the film version of George Bernard Shaw's 'Andros and the Lion'."

"I just went to work last Thursday and I'm not quite sure what I'm supposed to do," she admitted. "I do know that I am going to work with Jean Simmons, who is starring in the picture. I will help her meet people out here and assist in her publicity. My first duty was to take her out to a lion farm. Rather frightening."

Truman-Hoover

(Continued From Page One) pressive staff of cabinet members and their experts for his meeting with Mr. Hoover. They included Secretary of State Acheson, Assistant Secretary George McGhee; Secretary of Agriculture Brannan, and ECA Director William Foster.

Hoover is noted as a relief expert and a leader of humanitarian causes. His work in this field goes back to World War I. After World War II, in 1946-47, he made a survey trip through Europe and southeast Asia. He visited India at President Truman's request and arranged for food supplies necessary to carry that country through a famine at that time.

A touch of drama was given to today's conference by the fact that while President Truman and former President Hoover have worked together on some great undertakings—namely famine relief and government reorganization—they have been sharply divided in recent months on the question of how the United States should build defenses against the threat of Communist aggression.

Mr. Hoover has urged that American aid for the nations of western Europe be based on evidence of their ability to defend themselves and United States policy be directed toward creating a Gibraltar in the Western Hemisphere.

Mr. Truman and Acheson have taken the contrasting line that the Defense of Europe in the present state of affairs is essential to the defense of the United States and American help must be directed toward building up as well as maintaining Europe's protective power. Hoover made his position known several months ago. He is scheduled to make another speech Friday at 9 to 9:30 P. M. over the Mutual Broadcasting System on the subject "We should revise our foreign policy."

"Ambush Avenue" Survivor Tells Of Hamhung Retreat

WITH X CORPS IN KOREA, Feb. 7.—(Special)—Cpl. Johnny W. Joseph of Sanford, a soldier who knows firsthand how it feels to be ambushed by Chinese Reds, has been building bridges and roads in support of X Corps soldiers and Marines on both sides of the Korean peninsula.

"I came out of 'Ambush Avenue' near Hamhung without a scratch, but I can tell you—that place is named correctly," he said. "It was hotter than Saturday night in Harlem!"

As a member of the hard-working 3rd Engineer Combat Battalion, the Florida-born soldier helped to effect the first Han river crossing in the Seoul liberation last September. The 3rd Engineers were among the first UN troops to land at Wonsan above the 38th Parallel.

Cpl. Joseph frequently worked round the clock on the front lines advancing to the Yalu river and the Chosin reservoir. While X Corps units were evacuating the war-torn Hamhung beachhead, the 3rd kept roads and bridges open, often times under fire.

The engineer battalion, commanded by General Almond for its "soldierly conduct", helped to delay the Chinese Reds descending in hordes upon Hamhung by a series of skillfully-timed demolitions. Cpl. Joseph, who enlisted at MacDill Field in 1947, is in Korea for the second time. He served on occupation duty with the Army in 1948. The Crooms Academy graduate is an engine operator in the 3rd ECB. His parents are Lincoln and Queen E. Joseph at 2200 1/2 First Street in Sanford.

Korean War

(Continued From Page One) rearguards wherever they choose to make a stand. Task Force Fisher rolled with in four miles of the Han River and was only seven miles southeast of Seoul. Task Forces Bartlett and Dolvin met heavy Red resistance as they rumbled to points eight to 10 miles southwest of Seoul. Late in the day they made their customary nightly withdrawal to bivouac positions.

In their Wednesday thrusts Task Force Dolvin pushed up the main road toward Seoul. Task Force Fisher ranged east of the highway and Task Force Bartlett fought up a parallel road three or four miles west of the main artery.

Doughboys cleared the hills of Chinese as the tankers fought up valley roads. An American infantry company stormed a hill three miles west of Anyang with cold steel when small arms fire and grenades failed to drive off 100 well-dug-in Reds.

"We had to get the hill or get the hell out of there," said Capt. Lewis Millett, South Dartmouth Mass., whose men were stalled with 75 feet of the crest. "Fix your bayonets, boys," he yelled. "We're going to drive those bastards off that hill."

The doughboys plumed up the snow-covered slope. The Reds crumbled. Forty fell under bayonet thrusts. Another 50 were shot in the back as they fled down the slope. A field dispatch said Millett himself killed three by bayonet, and shot two more. The drive straight up the center of Korea was pushed by five columns. It threw off balance the North Korean Fifth Corps which had massed along the Hongkong-Hoengsong highway for a possible renewal of the Red drive down the spiny center of South Korea. Maj. General Edward M. Almond, 10th Corps commander, ordered the five columns to sweep the ridges and clean out the Reds. One reached Pungsuwon, 10 miles northeast of Hoengsong near Yudong; the fifth was moving in reserve. In the battle at Wkk, soldiers said Chinese army headquarters had warned Seoul residents to stay indoors because of an epidemic. There have been reports of house-borne typhus among Red troops.

Rail Strike

(Continued From Page One) completely erroneous," he said that for every group that goes back to work "there's another bunch that goes out."

The situation in Chicago, where about 95 percent of the normal freight movements were paralyzed, remained serious. Only one of 24 carriers—the Chicago, Burlington and Quincy—reported a near normal number of workers, 68, on the job early today. The number of switchmen back to work on the Milwaukee, the Elgin, Joliet and the Eastern and the Chicago and Eastern Illinois, was far below normal, the Army's Railroad Control Office said.

The back-to-work movement appeared not developing in some parts of the west. But there were signs of the walkout ending on the Union Pacific Line in San Francisco; Los Angeles and other far West cities. The National Mediation Board met with rail union leaders in Washington yesterday and obtained written demands from the four brotherhoods involved in the long-standing wage-hours dispute. The carriers are insisting on terms of an agreement signed last Dec. 21, calling for a 25-cent hourly wage hike for yard service employees and a 10-cent raise for road service workers.

U. N. Assembly

(Continued From Page One) tion was in favor, 50 against and 8 (Afghanistan and Yugoslavia) abstaining. The committee's action disposed of the long-standing Soviet charges which were leveled at the United States while the U. N. considered similar accusations against Communist North Korea and Communist China.

A move will be made this afternoon to suspend indefinitely consideration of an American item on the future status of Formosa. This will complete the Committee's agenda carried over from last year. U. N. sources confirmed meanwhile, that Canada's Lester B. Pearson has turned down a bid to serve on the U. N. Good Offices Commission set up to seek a peaceful solution to the Korean conflict.

## Resistance Crumbles As U.N. Tanks Shell Outskirts Of Seoul

### 8th Army Estimates Red Casualties At Over 57 Thousand In 3 Weeks Campaign

TOKYO, Feb. 8—(AP)—U. S. tanks shelled Seoul's blackened ruins today and howitzers, wheeling into easy range, plastered Chinese positions north of the frozen Han River tonight.

Puerto Rican doughboys seized a commanding height only 4 1/2 miles south of the former Korean Republic capital. The entire Allied line advanced another mile or more toward Seoul. The Eighth Army said:

"Destruction of Communist forces in the pocket south of the Han in the western sector, the objective of the current phase of the limited offensive, is proceeding and may sum up as a stable victory in terms of enemy losses."

"No further implications should be attached to the present situation."

That was a cool military appraisal of a two-week series of armored punches and bayonet charges that have violently rid the snow-custed ridges and valleys of thousands of Chinese on Seoul's approaches.

The Eighth Army has estimated more than 57,000 Red casualties, most of them in the western sector. Now the Chinese are being quitted back to the Han.

Red resistance was crumbling. In some sectors there was no opposition.

U. S. 25th Division tanks shelled Seoul at noon Thursday. Howitzers of the veteran American third division rolled into position after a night's rest.

(Continued on Page Two)

### 19 Million Have Been Boy Scouts, Kiwanis Is Told

### America's Potential Lies In Its Youth, Executive Asserts

Since the formation of the Boy Scout movement 41 years ago, more than 19,000,000 American boys have gone through the ranks of scouting. Tom Burgess, executive of the Central Florida Boy Scout Council told Kiwanis today. He announced the soon coming Boy Scout drive.

He pointed out that the Sanford Kiwanis Club today has many former Boy Scouts among its members including B. H. Cumley, Marion Harman, Ralph A. Smith, O. K. Goff, Judge Douglas Stratton and others.

America's strength lies not alone in its vast industrial potential, he declared, but in the power of its individuals, including its youth.

He drew a hearty laugh when he said, "Boys will act like their parents despite all our efforts to teach them good manners."

Boy Scout training for physical fitness, citizenship and character, was stressed by Mr. Burgess. Boys join the Scout movement for fun, and incidentally gain "those qualities we like to see in all young men of America," he stated.

The Cubbing program, he said, is carried out by boys of 8 to 11 in their own homes in preparation for becoming Boy Scouts. Explorer Scouts are those of 14 years of age or older. Their programs include service to country, social activities, outdoor games and hunting and fishing and developing outlets for vocational aspirations.

### Remington Found Guilty Of Lying About Red Ties

### Jury Is Out Only 45 Minutes To Convict Communist Agent

NEW YORK, Feb. 8—(AP)—Convicted perjurer William W. Remington today was sentenced to a maximum term of five years in prison and fined \$2,000. The 33-year-old former government economist was convicted by a federal court jury last night which decided he lied when he swore he never had been a Communist. The jury deliberated less than five hours. Sentence was imposed on the tall, handsome defendant by federal Judge Gregory F. Noonan who presided over the 32-day trial. Remington heard his fate pronounced with grim-faced composure. Then in a brief address to the court he swore again denied that he ever had been a Communist and asserted he was "confident that I will be vindicated."

NEW YORK, Feb. 8—(AP)—William W. Remington, convicted of perjury and branded with Communism by a federal court jury, will be sentenced today.

He faces a possible maximum sentence of five years in prison and \$2,000 fine.

The 33-year-old former government economist last night heard a jury of seven women and five men pronounce him guilty of lying to a federal grand jury last summer when he denied ever being a member of the Communist Party.

Remington frowned heavily when he heard the verdict—but said nothing.

The jury returned its verdict after deliberating about five hours.

It decided a 32-day trial during which the handsome defendant was accused of transmitting government secrets to Elizabeth Bentley, self-described former Communist courier.

Judge Gregory F. Noonan gave the case to the jury after a 30-minute charge. Out 45 minutes.

(Continued on Page Two)

### Three People Hurt In Auto Accident

Three people in a 1948 Ford sedan narrowly escaped injury at 11:00 o'clock yesterday morning when their automobile was wrecked in a three car collision on Celery Avenue about a mile east of the city limits. State Highway Patrolman R. D. Harrison reported this morning damage to the automobile was estimated at \$1,000.

The Ford, driven by Lewis Neil of Stoneville, N. C. had its left side practically sheared off in a side-imping collision with an oncoming truck driven by John Lee Martin, Negro. In the Ford also was Mrs. Nell and Mrs. Forrest Lewis of New Smyrna. Damage to the truck was estimated at \$100 and to its load, \$100.

The third car in the collision, a 1941 Studebaker Club Coupe, had, according to Patrolman Harrison, been parked on that two feet off it was on the highway by Henry Jackson Robinson, 50 year old Negro, who is charged with parking on a highway. Damage to the car was \$10.

Mr. Neil, traveling west on Celery Avenue attempted to pass the parked automobile and the collision with the oncoming truck resulted. It was reported.

### Mayfair Raises \$205 For March Of Dimes

A benefit bridge was held at the Mayfair Inn Tuesday night which raised \$205 for the Seminole County March of Dimes, Charles Marlan, manager announced today.

In acknowledging receipt of \$205.60, including the long lung contributions, John Sauls, chairman of the March of Dimes, expressed his appreciation to Mr. Marlan and Mrs. B. Williams who handled the affair and commented that such fine co-operation as this is what is needed to put the local drive on the top.

Mr. Sauls again urged all those who have not yet contributed to send their checks to R. W. Deane at the Atlantic Bank and pointed out that with the end of the drive rapidly approaching several hundred dollars yet remain to be raised.

### Boy Scouts To Launch Fund Drive On 41st Anniversary Of Movement

Boy Scouts of Seminole County, who this week are celebrating the 41st anniversary of scouting in America, will launch their annual fund drive here Friday.

In Sanford, Boy Scout week will be marked by special observances at church services on Boy Scout Sunday, and feature programs at civic and service club luncheons. The Scouts themselves staged an advance celebration on Jan. 27 in the first annual Scout "Kickapoo" held at Seminole High School.

The "Kickapoo" consisted of competition between Scout troops of the county in activities of tent-pitching, axemanship, firebuilding, cooking, signmaking, physical fitness, and fun games for Cubbins.

Since the concept of Scouting in America in 1910, over fifteen million young men and boys have passed through the ranks of scouting and have benefited from its program of physical fitness, citizenship training, and character building. At the present time, there are over two and half million Scouts in America, and an additional 700,000 adult leaders.

In Seminole County, there are 15 Scout troops, both Negro and white, three Cub Packs, and two Explorer Scout Units, included in those Scout units are about 400 active Scouts. Plans are underway

## Truman Dares Legislators To Cut Budget

### President Says Rail Workers Ran Out On Agreement Like "A Bunch Of Russians"

WASHINGTON, Feb. 8—(AP)—Congress to cut his \$71,000,000,000 budget.

He told a news conference it is a good budget and a tight budget, and that he dared the legislators to do anything to it.

His remarks were touched off by a report of Congress members that a reporter's assertion that a number of them were going "to squeeze the water" out of the President's spending recommendations.

Mr. Truman said they were welcome to try.

He added that they threatened to do the same thing in past years and instead of cutting his budget they had added a couple of billion dollars to it.

WASHINGTON, Feb. 8—(AP)—President Truman today bitterly denounced a railroad strike as "intolerable" and ordered the Army to take appropriate action "at once to restore full rail operations."

He said the leaders of the striking unionists had acted like a bunch of Russians by running out on an agreement last December for ending the workers' decade-long strike.

## President Truman Orders Army To Take Over Rails

### Emergency Workers Carry Off Victim Of Train Disaster

One of the many crews of rescue workers carry on a stretcher a victim of the Pennsylvania Railroad commuter train disaster at Woodbridge, N. J. Some 20 persons were reported to have been killed when the crowded train, en route from New York to Bayhead, N. J., plunged from a collapsed overpass to the ground, some 20 feet below. An estimated 500 were injured, some critically.

## 9 Are Killed In Explosion Which Roars Through Minerals Building

ST. PAUL, Minn., Feb. 8—(AP)—Nine men and possibly more were killed today by an explosion that roared through the minerals building of the Minnesota Mining and Manufacturing Company, makers of Scotch tape.

Cause of the blast was not definitely known but officials of the company and fire department heads theorized that gas fumes used in treating abrasives had exploded.

Bodies of six of the victims were brought from the blast scene to the Ramsey county morgue. Three other victims who were dead on arrival at Ancker (city) hospital and were being kept there.

It was also reported that three more bodies had been removed from the wreckage. Whether they were among those at the morgue could not be checked definitely.

The company manufactures cellulosic tape under the trademark name of "Scotch Tape," used coating for automobiles and abrasives.

An early report from the Ramsey county coroner's office gave the number of dead as 15. This report said there were "eight dead in hospitals and six or seven more bodies that we can't get out."

A supervisor said the workers got out of the six-story building when the blast came just as the shift of workers were being changed. Cause of the explosion was not immediately determined. Several of the workmen with lesser injuries said they had heard reports there was a gas leak in the basement just before the explosion.

Abrasive materials were processed in gas-fired furnaces in the basement. The company manufactures, besides "Scotch Tape," industrial abrasives and undercoating materials for automobiles.

Both of some of the dead were described as "mangled." Whether additional bodies were in the wreckage could not be learned because of the presence of gas fumes. An emergency crew from the gas company was summoned immediately. Members said the fumes would have to be pumped from the building before a search could be made.

## Jaycees Approve Reactivation Of Navy Air Station

### Kirk Says Certain Interests Oppose Navy Coming Here

The Seminole County Jaycees today voted to send telegrams to both Florida Senators, Secretary of the Navy Matthews and Representative Sid Helms declaring that Sanford welcomes the reactivation of the Naval Air Station regardless of any relocation which may cause local organizations now using facilities at the base.

The move came after W. L. Kirk warned the meeting that he had been informed that the Navy was considering moving elsewhere because of political pressure brought to bear by certain groups which he said are opposed to the reactivation of the station.

Mr. Kirk pointed out that other civic organizations have sent such messages and emphasized the need of quick action to convene the naval authorities that they will be able to expect the utmost co-operation from Sanford citizens.

He said 69 other localities in Florida are competing for the Naval Air Station, first to be reactivated.

## Marine Murders Estranged Wife; Police Are Foiled

DETROIT, Feb. 8—(AP)—The terrifying blast of a shotgun ended a last 15-minute talk police allowed a young Marine with his socially prominent estranged wife in suburban Grosse Pointe at midnight.

Hurting through a barricaded door, the policemen found Mrs. Virginia Hebb Daly, 22, dying on her bed, a shotgun charge in her abdomen.

In the center of the room, his hands above his head stood Pvt. Albert Lester Daly, 23, begging: "Don't shoot! Please, please don't shoot!"

Daly, home on emergency furlough from Camp Lejeune, N. C., claimed his wife was shot accidentally. But police chief Thomas (Continued on Page Two)

## Socially Prominent Woman Is Killed By Shotgun Blast

Hurting through a barricaded door, the policemen found Mrs. Virginia Hebb Daly, 22, dying on her bed, a shotgun charge in her abdomen.

In the center of the room, his hands above his head stood Pvt. Albert Lester Daly, 23, begging: "Don't shoot! Please, please don't shoot!"

Daly, home on emergency furlough from Camp Lejeune, N. C., claimed his wife was shot accidentally. But police chief Thomas (Continued on Page Two)

## Tallahassee Reports Radioactive Particles

TALLAHASSEE, Feb. 8—(AP)—Radioactive particles carried in the atmosphere from the atomic testing grounds in Nevada apparently have showed up in Tallahassee.

Dr. Howard E. Johnson, chemistry instructor at Florida State University, reported dust particles he tested with a Geiger counter "showed significantly more radioactivity than is generally normal in the atmosphere."

He added there are not enough activated particles in the air to be considered harmful.

Dr. Johnson said it is likely the chilly air mass which brought last week's cold snap pushed into Florida the Nevada air containing the radioactivity.

## Carolina Plan Will Be Combined H And A Bomb Production Center

By HOWARD W. BLAKESLEE  
ASSOCIATED PRESS SCIENCE EDITOR

AUGUSTA, Ga., Feb. 9—(AP)—The South Carolina H-bomb plant is our act in the hole for A-bomb.

Because it is apparent from the carefully worded announcements of the United States Atomic Energy Commission that the reactor or reactors to be built here will be able to make either H or A bomb materials.

It is implied that a switch from one to the other may be made on short notice. Even if the hydrogen bomb should fail, the South Carolina plant still is a first-line bomb source.

The Commission's announcement reads: "The new AEC plant, while having a primary military purpose at this time, will add to the nation's atomic energy resources by utilizing the atomic energy for useful power. If the new facilities are not needed for defense, they can produce fuel for industry."

Not an official word was said about making tritium, the heavy hydrogen needed in H-bomb. The Commission does not rule out tritium, or plutonium, the A-bomb explosive.

It might be possible to design a reactor that would make tritium but not be adaptable for plutonium. That possibility seems ruled out by the emphasis on fuel for industry.

Tritium is not a fuel. Scientists have said generally that tritium will give either an explosion or nothing. It is a fact that their statements never said tritium atomic power is an impossibility, but that is because they dislike the word impossible.

"The tritium power is definitely ruled out by a recent report of the joint committee on atomic energy (congressional) which states—'Tritium—has no known or foreseeable peacetime uses as a source of power.'"

The only other possible product of the South Carolina reactors is plutonium bomb metal—which is (Continued on Page Five)

## Boulevard Pavement Will Be Replaced

Work is due to start next week in replacing with 18 inch concrete pipe the damaged sewer outlet which caused a collapse in the pavement of Seminole Boulevard near Park Avenue some weeks ago. City Manager Clifford McKibbin said this morning.

Street Supt. Sid Richard will have charge of the work. After the sewer is repaired the "big cavity" in the Boulevard will be filled. This work is being held up for a few days, in spite of the delivery of the pipe by the Sherman Concrete Pipe Co. This said Mr. McKibbin, is due to the fact that air compressor equipment needed for the job is being used to operate a sand blaster to remove paint in preparation for the application of rubber base paint.

## Lend Lease Talks Stalled As Soviet Refuses U.S. Terms

WASHINGTON, Feb. 8—(AP)—The United States has formally demanded that Russia immediately return 672 lend-lease naval and merchant ships loaned her during World War II.

The State Department disclosed that the demand was made in a note handed yesterday by John Lee Martin, Negro, in the Ford also was Mrs. Nell and Mrs. Forrest Lewis of New Smyrna. Damage to the truck was estimated at \$100 and to its load, \$100.

The third car in the collision, a 1941 Studebaker Club Coupe, had, according to Patrolman Harrison, been parked on that two feet off it was on the highway by Henry Jackson Robinson, 50 year old Negro, who is charged with parking on a highway. Damage to the car was \$10.

Mr. Neil, traveling west on Celery Avenue attempted to pass the parked automobile and the collision with the oncoming truck resulted. It was reported.

## Harvard Students Lampoon Hollywood

CAMBRIDGE, Mass., Feb. 8—(AP)—Actress Elizabeth Taylor today holds the unwanted distinction of being the "most objectionable ingenue in motion pictures," a citation conferred by the Harvard Lampoon, undergraduate humor magazine.

Clifton Webb was cited for "the worst performance of the year" (1950) in "Cheaper By The Dozen."

The editors of the Lampoon selected Miss Taylor and Dean Stockwell as "The Most Objectionable Movie Children of the Year."

And in the "Happiest Event of the Year," the editors chose Shirley Temple's announced retirement from the movies.

The Lampoon said their "Rascals" go annually to the actor or actress who in the previous year "has shown those qualities of perseverance, leadership and personal integrity which have helped make Hollywood what it is today."

## END DEGREE BURNS

Mrs. ROXY FOGG of Osteen was treated for second degree burns this morning by Dr. Orville Barke at Fernald-Laughlin Memorial Hospital.

The burns, caused by her dress catching on fire from the kitchen stove, were located on her right hand and arm and right side. Her condition is regarded as favorable.

## PROPERTY BEG OBSCLETE

ROCK ISLAND, Ill., Feb. 8—(AP)—The national debt may be growing bigger daily but the Federal government is selling red ink—not buying it.

The government said and ink market today. Plans are underway

## Homestead Exemption Applications Are Due

Applications for homestead exemption as of Jan. 31 totalled 1,689, only two less than on the same date of the previous year, Sanford County tax assessor, announced this morning.

Property owners have until March 31 to apply and file for personal property returns and intangible property returns, he said.

Failure to file on time makes the owner liable to loose the right to homestead exemption, together with other exemptions such as for disability, exemption as the head of a family, or for household furniture up to \$500 in value, he stated.

To this will be added a 10 percent penalty which will be levied on the personal and intangible property.

There is no tax on homesteads up to \$5,000 in valuation. Mr. Boudney pointed out. The Sanford district has a 2 mill levy on school bonds, and the Lake Monroe, Palatka and Geneva districts have a 1 mill. The other districts have no school bond millage.

## MORE BROKER TROUBLE

WOODBRIDGE, N. J., Feb. 8—(AP)—Trouble continued to plague the Pennsylvania Railroad "The Broker" last night—24 hours after the Tuesday night train crashed here killing 60 persons.

At Matawan, N. J., several stations beyond Woodbridge, the train apparently was switched to the wrong track, made a sudden stop and backed up into the path of an oncoming Jersey Central train.

Both trains were traveling slowly and stopped at a safe distance. "The Broker" was an hour late when it reached its terminal at Bayhead Junction.

## POSTAL BOX

Postmaster Joel Field announced this morning that a notorious "courtesy" mail box has been installed on the northeast corner of Palmetto Avenue and First Street which will enable patrons in automobiles to drop letters directly into the box. Parcels also may be mailed.

Mail deposited in this courtesy box will be collected in time to make all dispatches up to 9:30 P.M., the same as the letter drop in the main post office.

The box now at the entrance to the Post Office will be moved and patrons are requested to use the courtesy mail box instead.
