

War Measures Act Hit Yanks

Canada Cracks Down On American Draft Dodgers

EDITOR'S NOTE—One of the current ironies in Canada is the status of U.S. Army deserters and draft resisters who find north to protest what many of them said was a growing militarism at home and a lack of personal freedom. Under Canada's War Measures Act recently imposed to combat terrorism spawned by separatist groups, many of the Americans are finding life across the border somewhat harrowing. Here is a look at the situation.

By RICK MEYER, Associated Press Writer
MONTREAL (AP)—The American deserter stopped. The man facing him had a gun. "Policeman or terrorist? To a U.S. Army deserter in Quebec under Canada's recently imposed wartime security measures, it doesn't make much difference. The deserter wheeled. Too late.

"Halt," said the man with the gun, quietly. The man, a police detective, beckoned with his pistol. And before the day was out, the American, 23, a veteran of Vietnam who had deserted the 21st Division of the North American Air Defense Command, had been searched, questioned and ordered out of the country. Broke, frightened and aware that getting caught back in the United States would mean the brig, he stayed in Canada, however, sent for some money and went underground. Many of the thousands of draft dodgers in Montreal were already there.

"We used to be a resting place, an open sanctuary for these kinds of people," says Pauline Vallancourt, a political science professor with contacts in Montreal's deserter community. "Since the War Measures Act, though, this is clearly not the case."

The government invoked the war measures Oct. 16 at the request of Quebec Premier Robert Bourassa and Montreal Mayor Jean Drapeau, who feared insurrection. Labor Minister Pierre Laporte and British diplomat James Cross had been kidnapped by the Quebec Liberation Front, a terrorist group seeking independence for the province. Laporte was strangled by his abductors.

Police began using the war measures to search and arrest without warrants. Legally, says Bernard Merzler, an attorney representing many of those detained under the war measures, American

Spiders provided the decor for an extravagant double wedding in Louisiana in 1970. Plumber Charles Durand had his workmen release spiders in the three-mile venue of trees leading to his mansion. After the spiders had spun their grasshopper arches between the trees, the workmen used billows to blow silver and gold dust into the webs beneath which Durand's two daughters were wed.

deserters and draft dodgers, only if their presence wasn't gal in the first place—if, for instance, they hadn't applied for immigrant status. This was all, they could be affected, even before the act.

But practically, says Prof. Vallancourt, the sharp increase in police raids made it much more likely that deserters who here and find troops and police hadn't applied for immigrant status, might be picked up. "Just my luck," said the American deserter. "I came on supposed to be a nice, quiet place where nobody bothers you."

what I'd tried to get out of by coming to Canada. Montreal was supposed to be a nice, quiet place where nobody bothers you."

Genevan Is Jailed For Rape Charge

By BILL SCOTT
A 30-year-old Geneva man has been jailed on rape charges brought by a 14-year-old girl, also from Geneva. Edgar Allen Burkett was arrested Monday afternoon and charged with rape after an investigation by Sheriff's Lt. L. J. Kris, Sgt. Tony Calangelo and Detective A. F. Davis. The alleged assault occurred shortly past midnight Sunday, according to a statement from Sheriff John Polk, who declined to give further details of the investigation. According to a report, the incident is alleged to have happened after Burkett had been drinking heavily and reportedly was visiting the parents of the girl. In another police report, a Midway woman claimed she was cheated out of \$680 yesterday when two men used a film-film scheme to get her to draw funds out of a Sanford bank. Sanford police are investigating a report that Thelma Brooks, 3151 Sipes Avenue, was billed of her money after two unknown men told her she would receive \$800 back if she advanced to them all her money. The woman reportedly drew out all her savings at the bank and gave the cash to the men, who quickly left and have not been heard from since. Mrs. Brooks tentatively picked out a Dade County man as one of the confidence men, when she went through the police police files.

County Signs With Herndon Ambulance Service Renewed

By MARION BETHA
County Commissioners this morning renewed the contract with Herndon Ambulance Service on a three-year extension. Also contacted was University Ambulance Service in Brevard County, which advised that it is necessary that it clear the proposal with the county out of its branch operating in Lake Worth and as of this morning the county had received no word. Commissioner Greg Drummond questioned E. E. Herndon concerning the accounts receivable. Herndon replied that

he had received a reply from Beacon Ambulance Service, Daytona Beach, stipulating it would provide the service for \$27,500 on a three-year extension. Herndon said that if the hospital trustees handle the operation in Sanford it might possibly cut the cost of the subsidy in half and that two ambulances were needed to handle emergencies. Drummond then questioned the percentage of auto accidents (Continued on Page 1B, Col. 4)

SEMINOLE STUDENTS SHOW THE WAY
STUDENT BI-RACIAL Committee has been organized at Seminole High School, the first such group founded in any high school in the nation. A meeting of all black students was held by the school administrators to discuss their concern over certain matters that relate to integration at the school. The students expressed their interests and formulated these concerns to be presented to the bi-racial committee. The committee recommendation will be presented to the student government for its action. Principal Richard (Dick) Barnett said: "Seminole High will continue to provide the atmosphere for effective learning and further expects that all students will conduct themselves in a proper manner according to the school rules. Misconduct will be handled in a manner consistent with existing school policy." Pictured (seated, from the left): Edward Blackhears, Debbie Haynes, Susan Caolo, Felix McClairren, Christine Plapp, Norma McNeal and Patricia Lingle; (standing) Anthony Bryant, Barry Rodian, Barnett, Robert Whittaker and Frank Dunn. Doctor Slows Insurance Payments Hospital Retains Architect For Expansion

Doctor Slows Insurance Payments
Seminole Memorial Hospital trustees at last night's monthly meeting approved negotiations with Watson and Company, Orlando architectural firm, over planned expansion of the hospital facilities. Dr. Thomas Larsen, trustee and member of the hospital's architectural committee, which has been conducting several investigative trips over the state viewing various hospitals, recommended that a committee be created by the trustees to study the problem and indicated patients should not be discharged after doctors dismissed them until charts are completed but Gordon Fredericks, hospital attorney, cautioned that the hospital could get into serious troubles by not releasing patients when dismissed by their physicians. He said the pressure should be brought on the doctors, not

the patients, since that is where the problem can be prevented from happening. Dr. Larsen said he would keep in mind not holding patients after they had been discharged. In other business, the trustees agreed upon a resolution to open the books so that these individuals may comply with the new requirements. The books were opened at noon today and will be closed at 12 noon on Thursday.

Casselberry Reopens Books

By KATHY NIBLACK
CASSELBERRY — The City Council agreed last night to reopen the city's books so that candidates who have filed to run for a municipal office may fully qualify under a new state law. Under the new law, candidates for city office must meet the same requirements as candidates for state and county offices in that before being fully qualified they must tender to the city clerk the name of their campaign treasurer and the location of a campaign depository. The six men who had filed for candidacy in Casselberry — John Leighty, Bill Franklin, Richard Wirt, Don Wilson, Owen Shephard and Harry Sanbrook — had not been ad-

vised of the new law, but not fulfilled this condition, and so do not qualify for candidacy. Upon the recommendation of City Attorney Kenneth McIntosh, the council unanimously agreed upon a resolution to open the books so that these individuals may comply with the new requirements. The books were opened at noon today and will be closed at 12 noon on Thursday. (Continued on Page 1B, Col. 3)

James Palmer Named City Building Inspector

James Palmer Named City Building Inspector
NORTH ORLANDO — Following many weeks of interviews and discussions, Village Council appointed a building inspector to fill the vacancy created by the resignation of Wayne Miller. Hurl is a present member of the Village Planning and Zoning Board. Hurl will serve until the municipal elections next March.

PASS IT ON
by L.M. Boyd

ARE LAWYERS in general honest? Are they truly dedicated to their professions? When pollsters sampled the public with the foregoing questions, only 33 out of 100 people said yes on both counts. The others just smiled or something.

UNDERSTAND the shortage of obstetricians is getting pretty severe. So severe, in fact, the prospect is that within the next six years will give birth unattended by physicians.

SOME FOODS are masculine, some foods are feminine. That's the claim of one expert. Sounds reasonable. Sauerkraut is male. It's not? Avocado salad is female. Macaroni and cheese is male. Creamed chicken is female. Salmon steak is male. Crab Louis is female. Mince and pumpkin pies both are male. Lemon meringue and banana cream pies both are female. You try it. What's the gender of corned beef and cabbage? Tomato soup? Roast beef? Artichokes? Polish sausage? Lamb chops?

AM ACQUAINTED with a man who only buys those little hotel-type bars of soap because he can't bear to use a piece of soap more than once. Odd quirk, what? ... A CLIENT commented his doctor put him on the world's healthiest diet, prescribed as follows: "If it tastes good, spit it out."

"DID YOU SAY the only natural enemy of the mouse is the cat?" inquires a customer. "Sir, consider the mosquito. Al Walker, Fork on the Potomac River in Alaska. I've seen mouse traps for hours under-deep in the water, dipping their snouts occasionally to wash away the mosquitoes."

THE BETTERED MAN and his ladyfriends had more time to watch television, right? More time, that is, than the young people newly married. Would think so. But the network researchers say it doesn't work that way. Matrimonial mates over the age of 40 are said to spend considerably fewer hours every week in front of their TV sets than do the husbands and wives who are in their twenties.

CUSTOMER SERVICE-Q "How many American women now are entirely self-supporting?" A. About one in four. ... Q "How much do the breakfast companies spend on their ads?" A. In the neighborhood of 10 per cent of the gross. ... Q "How much life insurance does the average man carry?" A. \$18,000. I'm told. That's average among men who carry any at all.

HERE'S TO THE LATE Giovanni Pans, onetime innkeeper in Mendocino, Switzerland—clink! Years ago as a young fellow, he put on a brown derby hat, and never again took it off. In fact, he was buried in it. And travelers from all over Europe missed Giovanni's hat. To see such a hat, you'd have to come to public relations, some have the hat, some don't. Giovanni's low-budget campaign was a classic.

Your questions and comments are welcomed and will be read in PASS IT ON wherever possible. Please address your letters to L. M. Boyd, P. O. Box 90066, Seattle, Wash. 98190.

Nixon Offers His View

By WALTER R. MEARS
AP Political Writer

WASHINGTON (AP) — President Nixon believes the psychological impact of the 1970 elections will render the position of the Senate critics more difficult. He foresees criticism of his foreign policy declining in volume and easing in tone, partly because of the election defeat of two vehement critics.

Nixon said he now enjoys a close but fairly critical Senate margin on foreign and defense issues, and other senators may therefore be reluctant to appear obstructive.

Nixon said he now enjoys a view with nine Washington columnists.

They were not permitted to quote him directly in accounts of that conversation.

The President told them he believes the psychological impact of the defeat of Sens. Charles E. Goodell, R-N.Y., Albert Gore, D-Tenn., and Joseph P. Tydings, D-Md., will have an effect on members of the Senate.

Goodell was defeated by a conservative who had White House support. Gore and Tydings were ousted by Republican challengers.

Goodell and Gore have been among the more vehement critics of Nixon policy in Southeast Asia.

In suggesting that their defeats would not be forgotten by the men they leave behind, Nixon mentioned Sen. Charles H. Percy, R-Ill.

The President indicated he anticipates support from Percy on the critical decisions.

Percy will be up for reelection in 1972. His home-state party is generally conservative; his record is generally moderate to liberal.

Nixon said he thinks Percy may have a different attitude on critical decisions in the new Congress.

AREA DEATHS

CLAUDE BELL, 88, who lived on Lake Emma, in Lake Mary, died early Tuesday at Seminole Memorial Hospital. He was born in Flomston, Ala., and had lived in Pensacola most of his life before moving here four months ago. He was a member of the Emmanuel Baptist Church, Pensacola, and a veteran of WW II having served in the U. S. Navy.

Survivors include his wife, Mrs. Ernestine M. Bell, Lake Mary; three sons, Claude Calvin Bell of Pensacola; Russell E. Bell, U.S. Army in Germany; James C. Bell, Lake Mary; daughters, Mrs. Gladys Diane Bash, Asheville, N.C.; four brothers, Chester, Clyde, Clinton and James D. Bell, all of Pensacola; two sisters, Mrs. Emma Mrs. White Plant, N.Y. and Mrs. Ross Lee Hurst, Pensacola; and four grandchildren.

Funeral services and burial will be in Pensacola. Granlow Funeral Home in charge of local arrangements.

THE COLLECTORS — A portion of more than 5,500 aluminum cans turned-in by students for sale are hoisted by a trio of eager workers at FTU's College of Engineering. Dr. Robert D. Doering, left, and Dr. Martin Wanliesta, right, instruct classes in "Man and Environment" which triggered the idea for the collection. Money earned will be used by students to purchase pollution-testing equipment for use in the new course. Lending a helping hand in the operation is student Dave Eymann. (FTU Photo by Chuck Seithel)

Ambulance Service Also On Agenda

County Eyes \$29,000 Publicity Drive

By MARION BETHA

Approval of the 1970 county publicity program which has been proposed in the amount of \$29,000 by the county's publicity advisory committee, was to be made at today's meeting of the County Commission. The matter had been deferred for two weeks due to the contention of John Krider, director of the Greater Sanford Chamber of Commerce, that more than one proposal should be considered. Since no other objections have been raised in the interim the original proposal probably will be approved.

This proposal, submitted by Anderson-Bourne Advertising Agency, has the objective of attracting industry to the county as well as business and investments through an advertising campaign in such national media as the Wall Street Journal, Field and Stream and McGraw-Hill's 34 business publications, which have a circulation of two million.

The main function of the campaign, according to John A. Alexander, chairman of the committee, is to "acquaint people with what we have to offer ... in all of Seminole County."

Also on the agenda is an agreement for subsidization of ambulance service by the county. At last week's meeting of the commission it was decided to procure proposals from at least three other concerns. Present contract is with Herndon Ambulance Service in the amount of \$25,000. At the commission's budget hearings, \$20,000 was budgeted for the coming year, and it has been stated that Herndon is not amenable to this amount.

The proposal is either to remain at the \$25,000 figure on an annual basis or to negotiate for \$2,500 on a two-year contract. The contract with Herndon expired on Nov. 1, but the service has advised that it will continue to operate without interruption until the county has executed a contract.

Commission Chairman John Alexander has consistently remained opposed to the subsidization by the county, with the contention that the service should be operated by hospital trustees.

A report will be given on First Florida Utilities fence around a polishing pond at County Club Heights. The county's new regulations include such fencing, and the company was late in compliance, requesting a delay which the county denied.

Several public hearings are scheduled, and these include requests for dredging permits on Lake Rena and Lake Markham. There is also an appeal against the Board of Adjustment for a borrow pit requested by Earl Leifer on 20 acres on the east side of I-4.

A continued public hearing will be held upon a sewage treatment plant requested by Downs and McClintock at a development at Sanlando Springs. This matter had been delayed by the county.

There will be bid openings upon heavy equipment and trucks for the county road and maintenance department.

Men In Service

Kenneth Capps
CAMP LEJEUNE, N. C. — Marine Pfc. Kenneth Capps, son of Mr. Allen Capps of Route 2, Sanford, Fla., has completed Basic Plumbing and Water Supply Course, Camp Lejeune, N. C.

J. C. Scott
PATUXENT RIVER, Md. — Navy Ensign Jeff C. Scott, son of Mr. and Mrs. David Scott, of 430 West Crystal Drive, Sanford, Fla., has reported for duty at the Naval Air Station, Patuxent River, Md.

E. N. Esterson
JACKSONVILLE, N.C. — Second Lt. Eric N. Esterson, son of Mr. and Mrs. A. L. Esterson of 815 Cherokee Circle, Sanford, Fla., has reported for duty at Marine Corps Air Station, New River, Jacksonville, N.C.

G. M. Shields
PENSACOLA — Guy M. Shields, son of Mr. and Mrs. James P. Shields of 108 Pershing Drive, Altamonte Springs, completed his first phase of training toward earning the "Wings of Gold" as a Naval flight officer at the Naval Air Station, Pensacola, Fla.

C. M. Travis
USS SARATOGA — Navy Petty Officer 1st Class Gies W. Travis, husband of Mrs. Patricia A. Travis, of 1500 French Avenue, Sanford, Fla., is serving with Attack Squadron 75 aboard the aircraft carrier USS Saratoga in the Mediterranean.

Sanford, has completed basic training at Lackland AFB, Tex. He has been assigned to Keesel AFB, Miss., for training in the communications field. Airman Ponder graduated in 1966 from Dadeville (Ala.) High School and received his B.S. degree in agriculture in 1970 from Auburn University. His wife is the former A. Glenda T. Westman of Sanford.

Thank You!

Let me take this opportunity to thank my campaign workers and supporters during three long campaigns.

For you who voted for me ... another sincere "Thank You" for the confidence you placed in me at the polls.

BOB PARKER
P. O. Ad. by Bob Parker

Pollution Popular At FTU

Two hundred FTU students are tackling a new course with such enthusiasm that the two professors teaching it claim they have to keep a rein on their charges.

Entitled "Man and Environment," the course is aimed at the myriad problems arising from everyday life.

"The response is amazing and proves to me that today's students are putting more emphasis on their roles in society," exclaimed Dr. Robert D. Doering, and Dr. Martin Wanliesta, members of the college of engineering faculty, are teaching three classes between them.

Dr. Doering is a so-called "recycling" process that turns solid waste into useful items. With that in mind, his classes just completed collecting more than 3,500 aluminum cans which will be sold to an Orlando dealer. The profits will be used by the students to purchase pollution testing equipment.

"We keep hearing that people should commit themselves," Doering continued. "This course shows how important students consider such prospects." Each student in the course is handled an individual project in which he evaluates an actual operation such as noise levels, waste disposal methods, air pollution does he read about it; he does the actual testing for evaluation.

The concept of the new course is to involve the student with a real problem so that he may realize that the future of mankind depends upon understanding the interdependency of technology, social values, customs, laws and institutions at all political levels and their impact on our environmental planning, Doering pointed out.

"What we are striving to attain is a realization that constraints must be applied even while technology surges ahead," he added.

Presidential Election Strategy Taking Form

One week after the mid-term general elections... One result, which is a plus for the Democrats, is the hope for victory in the 1972 presidential elections...

Both parties must now take the character and nature of the 1970 voter into consideration. In state after state and contest after contest — no where more obvious than in our own Sunshine State — the voters wanted candidates who would speak out, who would talk sense in terms of the common needs of all and who — above all — seemed worthy of trust.

There also now appears to be a need to change priorities. Pocketbook issues, the handling of the economy, certainly have taken the spotlight. Inflation and unemployment spells doom for any party that tries to explain away rising prices and empty pocketbooks by theory and statistics.

This will not fade away. The technique will still make itself a main issue as long as the casualty lists are made public and the insatiable drain on the American treasury for dollars in southeast Asia continues.

Of course the Democrats are banking in the warmth of victories in gubernatorial elections which now gives them a political base which will become more and more solid as re-districting takes place and the state legislature where Democrats hold majorities go about that immensely important political task.

As for presidential hopefuls, the Democrats are being plagued by an embarrassment of such riches. Senators Edmund S. Muskie, Edward M. Kennedy, George McGovern, Birch Bayh, Harold Hughes, Fred Harris and Walter Mondale and Senator-elect Hubert H. Humphrey are in this treasury.

It is Senator Muskie, however, who has presented the voters an approach to the 1972 elections which is balanced, realistic and important. He discounts the away-the-curtain-or-urine control issue with an approach which takes it out of the realm of an issue. He calls it a problem which disturbs all Americans and should not be tagged with either a Republican or Democratic label.

Thus the 1972 presidential campaign, for which the mid-term elections were but a curtain-raiser, starts taking form. It will provide a kaleidoscope of scenes which will baffle and confuse. But what should not be lost sight of is that the issue of presidential leadership, already criticized by important and responsible commissions, is the one on which the voters' eyes must be focused!

Police Academy

Among the unfinished business which the Florida State Cabinet will deal with is that of the selection of a site for the \$1 million Florida Police Academy.

Sanford has been a foremost contender for selection. It has had and is having the very best action by our city officials and our county sheriff that any community could want.

What is being offered the state is a location which provides a 40,000 square foot building for a \$250,000 a year rental. This is a specific. But what goes along with this is the opportunity to establish such a police academy in a more centralized part of the state.

GETTING OUT OF REACH

Domestic Comment:

Russians - Takers Not Givers

WASHINGTON — (NEA) — It can be said with authority there is growing suspicion here in top governmental circles that the Soviet Union is not ready for meaningful long-range settlements or co-operation with the United States in strategic arms limitation, in the Middle East, in Vietnam, or in East-West Europe.

There is, as a result of events over the past year, a strong conviction in White House, State Department and Pentagon circles that the men in the Kremlin are not ready to sacrifice immediate gains for long-range good.

Tragically, these conclusions come at a time when if these analysts are correct, the men in the Kremlin are strongly determined to attain objectives which should by Western reasoning lead the Russians to meaningful mutually beneficial compromises.

Political Notebook:

Election Myths Down Drain

By BRUCE BHOSSAT NEA Washington Correspondent HONOLULU (NEA) — Each general election quickly breeds its own myths. In this 1970 affair, some were budding even before the voting. Right now, let's knock those in the head that deserve it.

Another myth germinated early was that a special kind of apathy (a turn-off from too much) for the model, in here liberals will resist the Agnew attacks and support the incumbent over the evident leader, Democratic Rep. Charles Ottinger. The tactic was tricky and might well have failed. Ottinger came to Nixon's rescue and avoided usual heavy House losses.

Local Comment

Through Candid GOP Eyes

By JANE CASSELLBERRY Herald Staff Writer If you were any thing like this writer by the time Nov. 4 arrived you were in a state of voter fatigue and confusion having been deluged with campaign literature, signs, polished TV commercials, charges and counter-charges through two primaries and the general election.

CHRISTMAS BAZAAR of Holy Cross Episcopal Church will be held Thursday from 10 a.m. to 6 p.m. Mrs. Jack Horner and Mrs. Fred Dyson admire the handwork of several women of the church for sale at the bazaar. The public is invited. Luncheon will be served from 11:30 a.m. to 1:30 p.m.

Water Skiing Course Killed By Pollution

WEST PALM BEACH, Fla. (AP) — While collegians up north bounced basketballs in snow-covered gymnasiums, Palm Beach Junior College students happily got a sun and a suntan in a water skiing course in a water skiing course — until pollution cancelled the class.

Editor's note: Associated Press goofed on this story, as did Elizabeth Erling, who is quoted that Palm Beach Junior College has the only accredited water skiing course. Sembrable Junior College here at Sanford has the world woman's ski champion, Liz Allen, as instructor for its water skiing instructor.

Freon-Powered Engine In End Pictured For Diesel Trucks

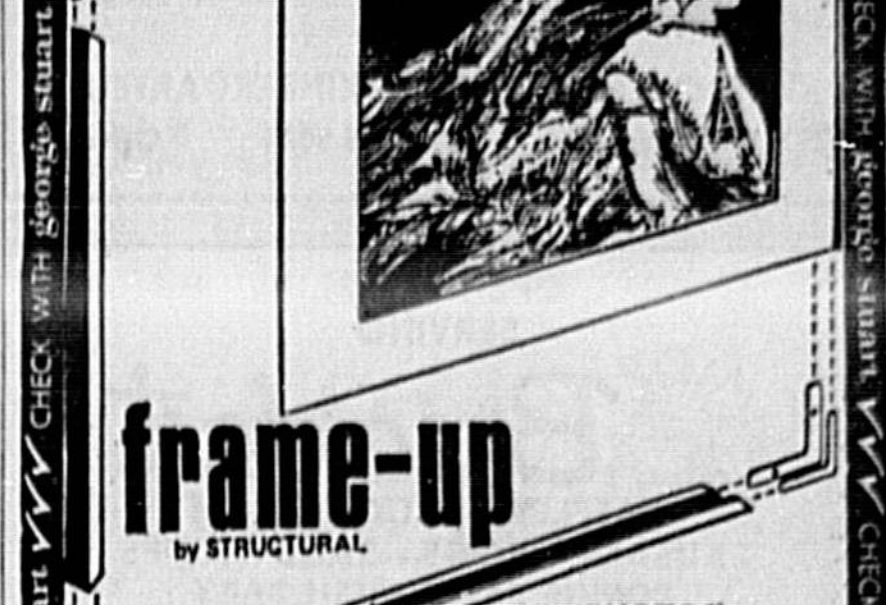

SARASOTA, Fla. (AP) — The inventor of a freon-powered steam engine says he has signed a contract with a Texas firm to develop an engine that may drive air-pollution diesel trucks right off the road.

Minto said his engine is pollution free, costs 25 per cent less than a standard internal combustion engine, could be made in just a few months and has only two moving parts.

Minto also signed a production contract with Yanmar Corp. of Japan to build a marine version of the engine. "We're starting to build the first one here," he said. "It will develop about the same power as a 750 horsepower diesel engine."

Suspended Constable Refutes 'Speed Trap'

TALLAHASSEE, Fla. (AP) — A suspended constable told legislators Monday he was not operating a speed trap in the little U.S. 301 town of Coleman, even though he arrested 308 motorists — virtually all out-of-towners — in his first 18 months.

few such courses in the whole country," said Elizabeth Erling, chairman of the college's physical education and recreation.

VETERANS DAY — NOV. 11

SO PROUDLY WE HAIL . . . those gallant patriots who gave their lives for the security and liberty that is ours today. Also, to commemorate those who are valiantly fighting for our country in our present conflict. May we dedicate ourselves to endeavor to perpetuate an honorable peace among peoples of the world.

ONE OF THE BENEFITS PROVIDED FOR ALL MEN AND WOMEN WHO HAVE HONORABLY SERVED OUR COUNTRY IS FREE BURIAL SPACE IN A NATIONAL CEMETERY. BECAUSE THERE ARE NO OPEN NATIONAL CEMETERIES WITHIN 350 MILES OF THIS AREA, BURIAL SPACE IS BEING ASSIGNED IN THE VETERANS SECTION AT GLEN HAVEN MEMORIAL PARK, WINTER PARK. YOU MUST REGISTER IN ADVANCE AND HAVE PROOF OF HONORABLE SERVICE. THESE SPACES ARE SUBJECT TO A ONE-TIME \$25 PERPETUAL CARE CHARGE AS REQUIRED BY STATE LAW. SPACES WILL BE ASSIGNED ON A PRIORITY BASIS ACCORDING TO THOSE THAT REGISTER FIRST.

Form for registration at Glen Haven Memorial Park, including fields for Name, Address, City, Phone, Married, Single, Branch of Service.

B. E. Link And Son: Your 'Link' With Quality

THE BEFORE AND AFTER PICTURES of the Walker Peterson home on Upsala Road in Sanford prove the contentions of Bryon Link. His remodeling job has turned the Peterson home into a show-place. (Note inset picture taken before remodeling.)

By CHARNER LEONE
You know what the "before" picture of your house would look like—probably a house in need of a coat of paint, and a house that looks a bit too small to fit the family within. But have you considered the "after" picture? A two-car carport, perhaps, with storage space neatly hiding the lawn mower and kids' bicycles. And mentally add that extra bedroom and bath, any maybe even a family or play room that would add that much-needed space for your growing family.
Get the "picture" — You'd probably like to, and you'd probably like to change the "scene" around your home before the Christmas season arrives so that you may look your very best for the friends and family that will be visiting. Now, to "link" up that imaginary "after" picture with a top quality new look for your home contact B. E. Link and Son. They are your "link" to quality, fairness and efficiency in the construction business. The Links will design and custom build your home, if you wish. So you may have that extra bath or family room right from the start that may not be included in the model home you select from.
It is an interesting fact, but absolutely true, says Link, that custom building is no more expensive than buying from a model. And this is true regardless of the price of the home. "No job is too small or too large," said the senior Link. "We can handle the job from start to finish. You have absolutely no worries." Link takes the total responsibility for any job he undertakes.
Free consultation is always available. Call 322-7029 in Sanford.

THE SAUNA BATH, a Finnish Custom, has come to Seminole County. And you may enjoy the relaxing, luxurious ritual Slenderama, an exercise studio offers the Sauna to their patrons to loosen taut muscles. You'll never know how relaxing an experience the Sauna is until you try it! That's adjacent to Walker's Barber Shop, 716 West First Street in Sanford. Here Agnes Walker and a patron demonstrate a favorite exercise technique.
(Charner Leone Photo)

Experience An Exotic Sauna Bath, Come To Walker's Slenderama

By CHARNER LEONE
A Sauna Bath is a most remarkable experience! It's refreshing, exhilarating, and altogether luxurious.
A shower, warm at first to accustom the body to the outside temperature, gradually cools the body after the Sauna. The result? Muscles, tired and taut a short time ago, are relaxed. Consequently, many follow a hot steam exercise with a hot shower. The bather emerges, dripping, and enters a red-wood enclosed, small room. Wooden benches line the room.
It is the custom, though many prefer complete privacy, for several individuals of the same sex to enjoy the Sauna at the same time. Thus the fifteen minutes or so spent in the dry-heated room (160 degrees) is a friendly time, as well as relaxing.

Call Mixon Auto Parts

By CHARNER LEONE
It's an acknowledged fact that cars and trucks do break down. But wouldn't it be nice if they'd break down on schedule. That is, instead of the alignment "coming apart" on the night before a trip — it could conveniently fall apart on the morning after your return. Or those tires could wear thin right after your paycheck arrives. Or, even better, the battery could get pernickety while you are having your gas tank filled on the way home from work.
Wouldn't it be wonderful...? But since they don't, and probably never will cooperate with your time schedule, there is a shop in town that supplies all the parts necessary to fix your ailing auto.
Mixon's Auto Parts, conveniently located in Sanford at 222 Magnolia Avenue, takes these idiosyncrasies into account. They are open 12 hours a day, from 8-8, Monday through Saturday. As well as on Sunday from 9-4. No "Doctor's hours" for your sick car!
"We're here during the evening and weekend hours to serve the working man," claims Lee Mixon, co-owner with his Dad, Roy, of Mixon Auto Parts. He elaborated: "People stop in as they leave work. The period from 5 to 8 p.m. is the busiest for us."
So those men who like to "tinker" with the car in the evenings and on weekends (with the football game tuned in on radio, of course!) or the professional service station attendant will find the doors of Mixon's Auto Parts when they are most needed.
Mixon's is a well-established family-type business. Mae Mixon, Roy's wife, runs the office. The store has three well-qualified employees, including Jim Fussell, a well-qualified machinist.
"We can rebuild the engine on foreign and domestic cars," said Lee proudly. He put the emphasis on the word foreign.
"We can completely rebuild engines, do valve jobs, surface heads and blocks, recondition rods, bore blocks and so forth,"

Pre-Nuptial Party Compliments Miss Jay Morrison

★ ★ ★
A BRIDAL SHOWER at the Ed Alderman home on Tower Road honored Miss Jay Morrison, Ph.D., to shows, from left, Mrs. Donald Carter, hostess; Mrs. J. E. Lee, mother of the bride; Mrs. David Lee, Miss Morrison, her mother, Mrs. Jack Morrison; and Mrs. Alderman, hostess.

Mrs. Donald Carter and Mrs. Ed Alderman were hostesses at a bridal shower on Friday, Nov. 6, at the Alderman home on Tower Road, honoring Miss Jay Morrison, Nov. bride-elect of David Lee.

A bridal buffet was carried out in the home decor. Featured on the piano was a pink and white umbrella with an arrangement of pompons in a silver bowl centering the coffee table.

The beautifully packaged gifts were placed under an umbrella on a table in the living room which was covered with a pink cloth. Highlighting the evening's festivities was the bride-elect opening the lovely gifts.

Refreshments were served from a table overlaid with sheer white lace, over white linen, and centered with a sheet

Do-It-Along Decorators Need Courage And Talent

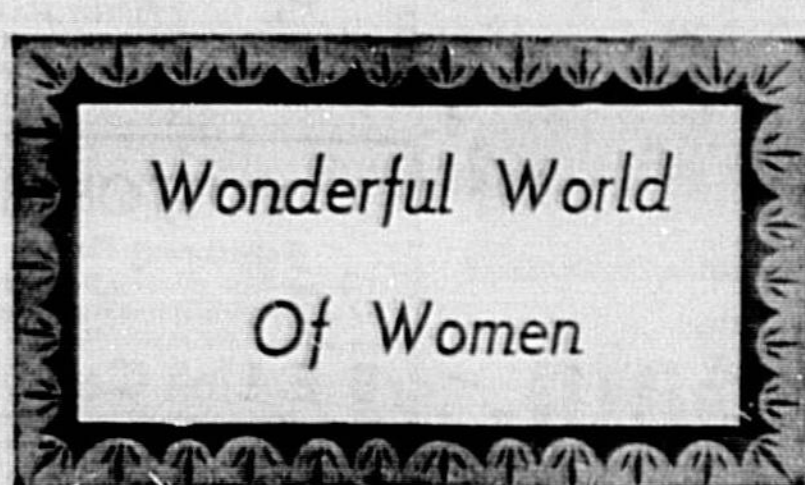

By VIVIAN BROWN
AP Newsfeature Writer

Memo to Fall Decorators: If you have the courage to decorate your own home, you'll also need patience, crystal-ball logic and design talent to put it together. And, oh yes, choosing a color scheme may be the biggest challenge of all. It even stymies professional decorators, advises a thoroughly unflappable interior designer, Bess Bernard of New York.

But don't let it put you off, she says. Decide whether you are gluttonous colors available or whether you are playing it safe. With beige and gray, maybe?

"Beige is very pretty, especially when it is used with white, and many people like it because it is a quiet color. They may choose it the third time around in decorating after they've experimented with livelier colors. Many beige people can be enchanted with an accent of a brighter color—electric blue, orange, yellow, and sometimes they get to like it so well, they want it in bigger doses," she explains.

If one is a quiet-color type, she can think of a lot of yummy color schemes that can take the place of standard beige and gray—for example, one of her newest color schemes—lettuce green, cetero green, pale lemon and white—pale, not chalky white. It can be used with contemporary, traditional, modern furnishings. Miss Bernard likes to mix furniture, but she also

BPW Club Airs Drug Problems

The dinner-meeting of the Sanford BPW Club was held at the Trophy Lounge Nov. 4, 1970. A buffet dinner was enjoyed by all members and their guests.

A very informative talk and discussion was given by Det. Sgt. Ralph Kessell, who is working hard to help combat the drug problem, that some young people seem to enjoy.

Sgt. Russell brought samples of all narcotics that have been taken from these young people while being apprehended. He also showed some of the "works" that many are using to get their "kicks."

Neighbors Gather For Gala Holiday Party

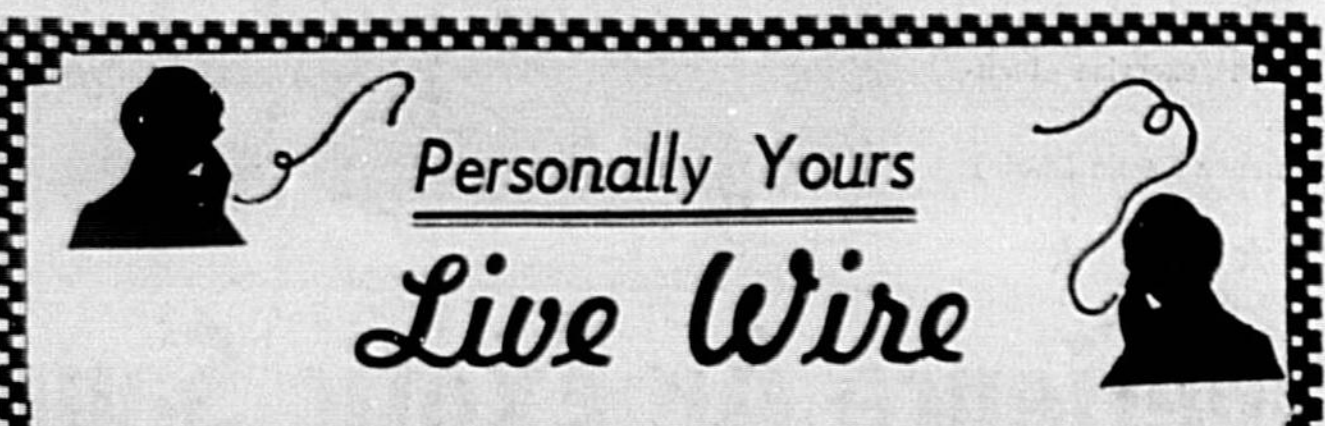

By MARY HYATT
NORTH ORLANDO — The elementary school children of the Ranchlands were entertained with a Halloween barn party at the home of Mr. and Mrs. Wayne Miller on Tradeville Road Saturday night. The barn was decorated with spooky faces and skeletons and Halloween games were played.

The refreshment table was filled with goodies for the trick and treaters. Mrs. Donald Keifer and Mrs. Wayne Miller stirred the mystery brew. There was a wicker roast out in the open on a big bonfire that the fathers kept going while the children romped around waiting to be served. Lots of pop of different flavors was served with the hot dogs and potato chips.

Mothers of the community were hostesses.

Civic League Officers

LONGWOOD Civic League is an active group that has been that way since 1911. Officers for 1970-1971 to lead further activities are Leota Putnam, second vice president, Ota Martin, corresponding secretary, Lee Carlson, recording secretary, Emma Kohne, first vice president, and Peggy Kuhn, president. (Ann Riley Photo)

GENEVA
By LIZ MATHIEUX

Why is it that whenever a gal gets to feeling chipper and the weather begins to perk up one's blood that old devil "Mr. Flu" catches your toes and slows you down. Woe is me! Here I sit with the mustard plasters, hot lemmoteals, etc. and I still feel awful and all I can do is grunt! Oh well, things could be worse. What if I had to sing a solo!

Several days ago it was my privilege to see Mr. and Mrs. Herman Morris at a home coming over in Oriside and did we ever have one happy time renewing old times. The Morrises will be happily remembered as the former owners of the "M.Q." Ranch over in Osteen and Mr. Morris was the principal at Seminole Senior High School for a number of years. They told us that they had been passengers aboard the ill-fated 747 which was blown-up in Amsterdam and that they had just disembarked only moments before.

That's one miracle that I'll whisper a prayer for. They looked great and are settled on the "M.Q." Ranch by Sarum after having gone around the world several times. It was more than grand to see them.

I hope that you good Geneva folk noticed the sparkling bright lights overhead when

Major Airlines Losing \$

By JOHN CUNNING
AP Business Analyst

NEW YORK (AP) — Some of the major airlines are seeking permission to reduce the number of flights. Others are laying off scores of workers. And the once enthusiastic parade of passengers seems to be marking time.

Charges of unfair government regulation and unfair market-place competition are widespread. Fears are expressed loudly about a crisis in financing modern equipment. And some of the major lines might be in the red for the year.

Reflecting the problems, and compounding some of them, prices of airlines stocks have dropped more sharply than the Dow Jones Industrial Average.

POPULAR SPOT at the Altamonte Springs Community Library is the crowded children's corner. Left to right, Debbie and Kelly Crosby, and Valerie Overstreet are among the young readers looking forward to the completion of the new library building when more elbow room will be available. (Ray Knight Photo)

Bombings At Rochester Puzzling Police Experts

By DON WATERS
ROCHESTER, N.Y. (AP) — In the first hours of Columbus Day, five closely timed dynamite bombs exploded at a Federal building and a county building, a pair of black churches and a union official's home.

Rochester was a prosperous and, until the bombs, peaceful city of 200,000. Why the violence?

Fifteen days later, terrorists struck again. Dynamite bombs exploded at two synagogues.

Another synagogue and another bombing three days after election day. This time a fuse-type device exploded shortly after 1 a.m., blowing two holes in the rear of Temple Beth Am in suburban Henrietta.

The private home that was the bombers' target is occupied by Richard T. Clark, business agent for four Rochester locals of the Operating Engineers Union, and his family.

Some people see in the bombings, especially of the churches and synagogues, as the work of neo-Nazi rightists. Others, mindful of leftist extremists implicated in bombings of government buildings elsewhere in the nation, feel a radical element may be trying to bring revolution to Rochester.

City and law enforcement officials say they are not sure which end of the political spectrum can be blamed for the attacks.

Above all, there is the general puzzle over why Rochester was chosen to be hit.

Most residents view Rochester as a stable, orderly community that has one of the lowest unemployment rates and best-paid work forces in the nation.

In recent months, however, several thousand workers at two General Motors Corp. plants

Rail Union Rejects 36% Salary Hike

By NEIL GILBRIDE
AP Labor Writer

WASHINGTON (AP) — A key union official has spurned a White House board's recommendation for the largest wage settlement in railroad history—a 36 per cent pay increase over three years for more than 50,000 workers.

"It's not enough," said C. L. Dennis, president of the Brotherhood of Railway and Airline Clerks, after the recommendation was made public Monday.

The panel called for boosting the average wage of the workers from the current \$3.88 hourly level to \$5.00 over the life of the contract.

Dennis, however, said the recommendation of the five-member board, appointed by President Nixon to head off a threatened nationwide rail strike, could serve as the basis for further talks.

"It could be the basis for real hard, gut negotiations," said Dennis, whose union is the largest of the four AFL-CIO organizations in the wage dispute, representing about 75 per cent of all rail workers.

Under the Railway Labor Act, strikes or lockouts are prohibited for 30 days after the board's report. The earliest the unions could strike is 12:01 a.m. Dec. 30.

The other unions involved reported trainmen, track maintenance employees and dining car workers.

The board, headed by private arbitrator Lewis M. Gill of Merion, Pa., recommended a 5 per cent wage hike retroactive to last Jan. 1, another 23 cents or 6.5 per cent retroactive to Nov. 1, 1970, another 4 per cent April 1, 1971, and three additional 5 per cent boosts effective Oct. 1, 1971, April 1, 1972, and Oct. 1, 1972.

The compounded total of 36 per cent compares with the unions' demands of 40 per cent and the railroad industry's last offer totaling 13 per cent.

2 Russian Ships Sail To Cuba

By ROBERT A. DORBIN
AP Military Writer

WASHINGTON (AP) — Government officials are playing down the movement of two Soviet ships toward the Cuban port where the United States recently charged the Russians were building a submarine base.

"I wouldn't want to characterize any concern. I'm just advising where they are," said Pentagon spokesman Jerry Friedman in reporting Monday that a submarine tender and a salvage tug were again nearing Cienfuegos.

Moscow repeatedly has denied it is building a sub base in Cuba, but the constant presence of the two ships in the Caribbean has otherwise remained a mystery.

The Pentagon Sept. 25 reported evidence of construction on what it said could be a Russian sub base, and the White House responded by drawing a parallel with the 1962 Cuban missile crisis, warning of serious consequences.

But since then the administration has tried to keep the controversy over the episode in a low key.

There were reports last month, which the administration never confirmed publicly, of a secret U.S. Russian understanding in which the Soviets agreed to stop their activities at Cienfuegos.

The White House ledged against saying straight out a sub base was being built until the day before last week's election. Then communications director Herbert Klein said, "There is no question but that they tried to build a submarine base." He added, however, the Russians had halted construction and removed all equipment after the administration applied "strong but quiet diplomacy."

"THE FRIENDLY BANK"

Dear Abby:

By Abigail Van Buren

DEAR ABBY: I have a small cottage at the rear of my home which we are renting (at very low rent) to my newly married nephew and his wife. They are both teenagers. We let them live in it for free for over a month. The problem is that the nephew has a very nice car and they invited over another teenage couple who are not married, and they let them stay the night there. I told them that I would not object to their having overnight guests providing they were married, but I was not going to stand for their having unmarried kids staying with them all night. I have children of my own and I do not think it sets a good example for my unmarried teen "living" together back there. I realize that if my nephew and his wife approve of that sort of thing, they could invite their friends over and let them do whatever they want—and I wouldn't take all night, but I still think I am right for forbidding them to let their unmarried friends stay together all night. Am I wrong?

DEAR ABBY: I have a dear friend I'll call Mary, whom I have known for many years. Mary's two biggest problems are her health and a husband who has abused her in every way possible. She has seen many specialists, and they all tell her it's "nerves," about which little can be done. Mary's husband squanders his money on drinking companions and other women, and there have been times when I have had to lend Mary money to feed her family. Mary calls me and cries every day. She keeps asking, "Should I leave him?" I always give her the same answer, "That's for you to decide." She left him a few months ago, but he talked her into taking him back. Now he treats her worse than ever. I am ashamed of myself for becoming so unympathetic, but her phone calls spread a cloud of gloom over my every day. Would it be selfish of me to break off my friendship with Mary entirely? I am very fond of her and need your advice.

DEAR ABBY: I have a friend who is disfigured, but her phone calls spread a cloud of gloom over my every day. Would it be selfish of me to break off my friendship with Mary entirely? I am very fond of her and need your advice.

Horoscope Forecast

Wednesday, Nov. 11, 1970

GENERAL TENDENCIES: You feel you are held back by some important matter in your life. But a new and intelligent approach to smaller affairs of daily living will be successful. Take matters time out to assure you... expect much of you... you won't disappoint them.

ARIES (Mar. 21 to Apr. 19): You must have patience if you want to handle those monetary matters intelligently and profitably today. A person you know has the answers to your personal questions, and their advice will make you happier.

Taurus (Apr. 20 to May 20): Your relations with a partner could prove quite difficult if you insist on harping on the past. Think in terms of the future instead. Work on those behind-the-scenes matters that are important.

GEMINI (May 21 to June 21): Do something constructive about personal worries and you can later go out with friends for recreational or other purposes. Do not take your business worries with you. Take time tonight to assist some relative.

MOON CHILDREN (June 22 to July 21): You are going to get the cooperation of others for whatever your plans may be of an ethical nature today. Forget that one project that could be quite worrisome. Pick it out another day.

LEO (July 22 to Aug. 21): If you handle business or family matters with a calm and level-headed vision of the situation, you will get out to educational or recreational events that appeal to you. Don't be critical of high-ups or you get into deep trouble. Show that you have tact.

VIRGO (Aug. 22 to Sept. 22): Find a more modern mode of operation now that can be most helpful in your career. Get your work done quickly and then look into new projects, ideas, and ideas.

LIBRA (Sept. 23 to Oct. 22): Stop worrying about finances and follow suggestions of a clear-headed and practical person. You can reach a fine reconciliation with mate if you use diplomacy at this time. Avoid his-tories.

SCORPIO (Oct. 23 to Nov. 21): Making sure you get work done properly instead of starting an argument with a partner is your best way to proceed now. Try to please an attachment who is feeling pined. Plan to save more money in the days ahead.

SAGITTARIUS (Nov. 22 to Dec. 21): Instead of worrying yourself sick over something, get about society and find cheerful persons who make you feel much better. You have some creative talent that should be utilized now. Fix your budget in P.M.

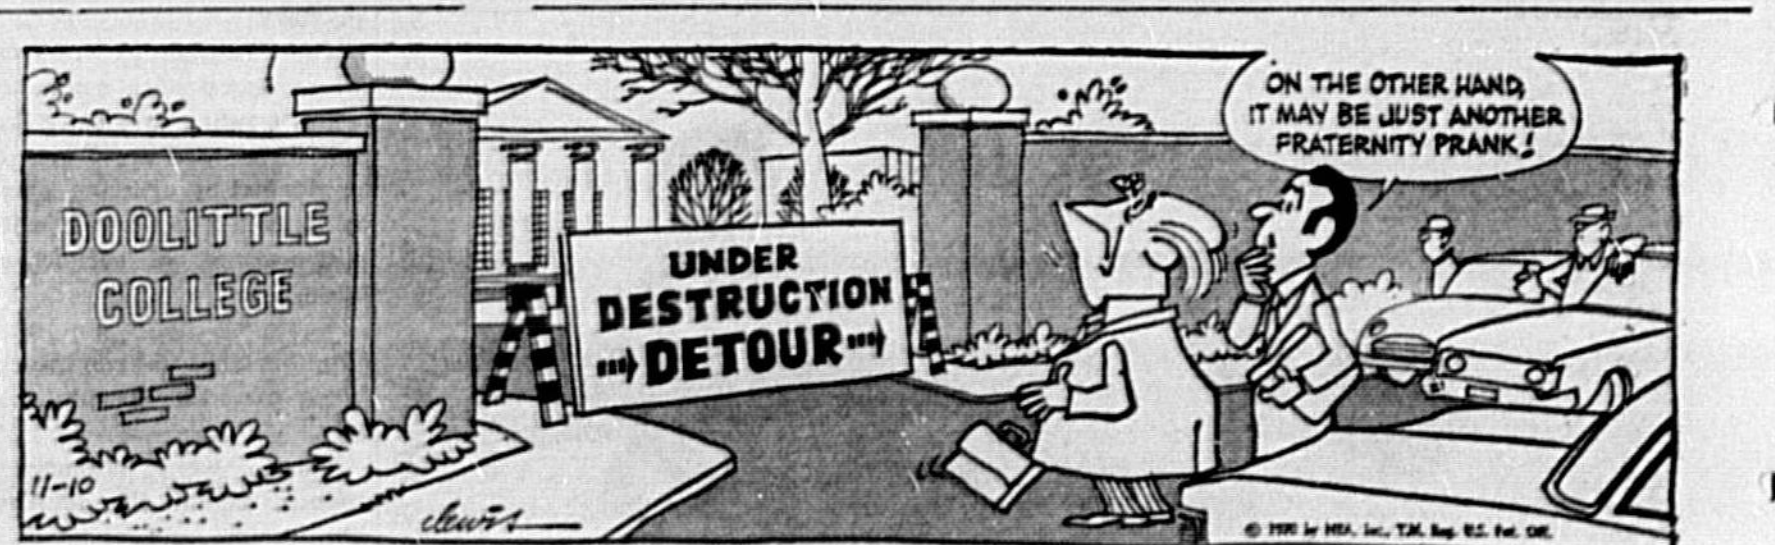

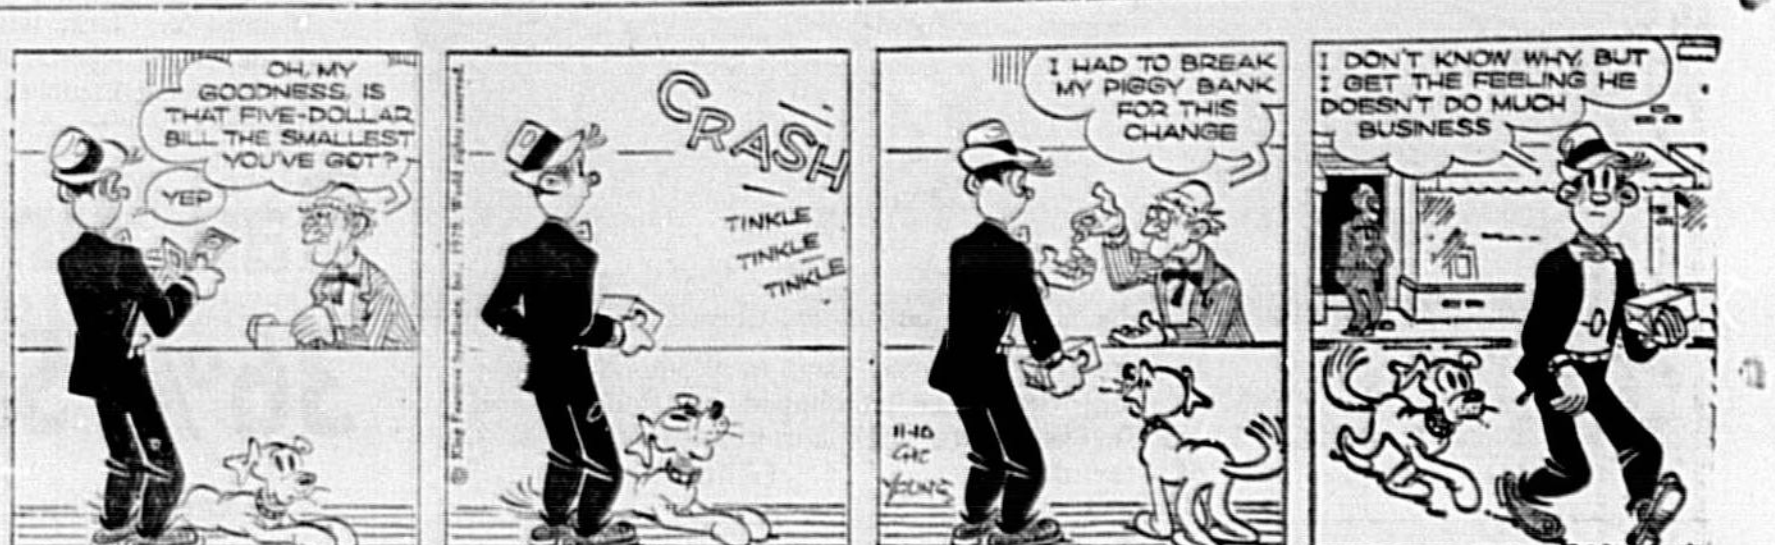

CAPRICORN (Dec. 22 to Jan. 20): While getting your home straightened up; think up some plan to bring the attention of high-ups. Get all basic affairs well organized. Getting is best time for recreation.

AQUARIUS (Jan. 21 to Feb. 19): Put financial discussions aside for now and delve into those ideas to make the future brighter that you have had buzzing around in your mind for some time. Take care that others do not use some trick to relieve you of some assets.

PISCES (Feb. 20 to Mar. 20): Get busy on those tasks that improve your financial structure, but do not neglect to handle affairs expected of you by associates. Showing others how diplomatic you are is fine. IF YOUR CHILD IS BORN TODAY... he or she will be one of those pioneering young people who is full of new ideas but who meets with other persons who throw cold water on plans and try to change today's progeny into a more staid type of individual. Make sure you give an opportunity to express self properly by sending to the right schools and supervising the friends early in life. Early religious training is a must here or the mind could go off on a tangent. Sports are important.

The Stars impel, they do not compel. What you may do, your life is largely up to YOU!

TV Time Previews

father's day since the opening is a special treat for dad. It shows a Marine barber separating 30 long-haired young Marines recruits from their shaggy locks. The story centers on one of these young men, a new Marine who arrives for boot training, garbed in a hindu meditation robe, sandals and shoulder-length hair. But what is more important is the personality and character that is soft and sensitive, yet fired to steel strength in the life style convictions he's espoused. Earl Holliman and Darren McGavin are two drill sergeants whose ideas of how to deal with the hippie are miles apart. Jan-Michael Vincent co-stars. 9-11 NBC Tuesday Night at the Movies. "The Intruder." Don Murray and Edmond O'Brien star in this "World Premiere" production as a pair of lawmen in a small frontier town. They close ranks in preparation for an unwanted visitor by the notorious Cole Younger-Jesse James gang. Then they are split by the arrival of a town outcast, a half-breed recently released from jail. The Colonel wants the man evicted from the town while the Marshal insists he has a right to stay and prove himself in the coming confrontation. John Saxon and Anne Francis are featured. 10-11 ABC. Marcus Welby, M.D. Ricardo Montalban is frighteningly sincere as a scientist who believes he is about to die. The researcher had been working with Mexican Indians and their use of hallucinogenic drugs. He believes his experimentation cannot be complete unless he himself experiences the effects of the narcotics. Afterwards it isn't known if death really is beckoning him, or if the drug has had a longer and more deadly effect on him than on the Indians.

"A very nicely played hand," remarked the club president. "I don't quite see how it qualifies for discussion in this club." "But, it does," was the immediate reply. "I find it disconcerting a spade instead of fortunate."

Worry Clinic

By Dr. Crane

By GEORGE W. CRANE, PH.D., M.D.

CASE 0-580: Tab B, aged 35, is a business executive.

"Dr. Crane," he moaned, "we have been married for six years and I thought my wife was quite happy.

"But last week I found a 'Dear John' letter on the table when I got home from the office.

"She had run away with a shiftless salesman who talks a good line but could never support her as I have done.

"But he would pour out his troubles to her and ask her advice about everything he did.

"Dr. Crane, I gave her a beautiful home and her own swanky car, plus a liberal monthly allowance check.

"Yet she runs off and leaves me!

"How do you explain such illogical conduct?"

Hippies are also codified youngsters whose parents have made all the sacrifices for them.

Which deflates the ego of such recipients?

You have heard the old adage about "biting the hand that feeds you."

The "biter" is usually a person whose ego has been chronically punctured by always "receiving" instead of "giving."

Tad tried to surround his wife with luxuries and regarded her as a prize possession.

She was thus a "kept" wife.

But everybody at birth is tattooed with this invisible brand:

"I want to feel important."

So his wife felt belittled in her ego.

Along came the shiftless salesman who asked her favors, including occasional cash hand-outs till payday.

So she felt important when with the salesman.

"Dr. Crane," she later told me, "my husband doesn't need

ing marital conversation!

Many a wife of a wealthy, generous husband has duplicated the behavior of Tad's wife and thus run away with a weeping.

For the weeping, by leaning on such a woman for advice and support, makes her feel important.

Recipients of constant largesse feel unimportant.

Donors or givers gain the ego inflation that bolsters their spirit.

So lean on your wives more (as well as on your children) and you'll not have hippie youngsters nor lose your mate, even though your hoodlum technique is very poor!

And women want words! Especially so up to me at my phrases!

Yet many husbands sink down an easy chair to read the paper or watch TV, with but an occasional grunt as their main contribution to the evening.

'Saved Our Honor . . . Saved Us From Civil War' Gen. Charles de Gaulle Dies Of Heart Attack

By RAY F. HERNDON
PARIS (UPI)—Former President Charles de Gaulle, who brought France from the brink of civil war into an era of grandeur, died at his country home of a heart attack Monday evening while watching television.

De Gaulle, who would have been 80 Nov. 2, twice ruled France—first for two years at the end of World War II and then from 1958 to 1969. He retired to his country home at Colombey-les-Deux-Églises in April, 1969, after failing to get support in a nationwide referendum on administration reform.

The French government announced his death today, more than 12 hours after he slumped

over from an easy chair about 7:30 p.m. Monday while watching the beginning of a news broadcast on the first channel of the state-owned French television.

President Georges Pompidou told the nation in a televised speech "Gen. De Gaulle is dead, France is a widow."

He said "In 1940 Gen. De Gaulle saved our honor. In 1944 he led us to the liberation and to victory. In 1958 he saved us from civil war."

"He gave France her institutions, her place in the world," Pompidou concluded. "In the national soul, De Gaulle will live forever."

In the French parliament, the national assembly, Gaullist leader Marc Jacquet announced over the radio that the late president's remains will be taken to Paris Thursday to attend a state memorial service for Charles de Gaulle in the Cathedral of Notre Dame.

Nixon issued a statement mourning De Gaulle and describing his death as "a loss not only for the French nation but for all mankind."

As president of France, De Gaulle went to Washington in 1963 for the funeral of President John F. Kennedy, the death of members.

"My children," he said, tears

Gen. Charles de Gaulle

Sanford Nixes Second Airport Operator

By BILL SCOTT
Sanford Commissioners at last night's meeting voted four-to-one to not allow another fixed base operator at the Sanford Airport until the commission deems in some future time a second is desired.

With only Commissioner Gordon Meyer opposing the measure, the commission approved a motion by Commissioner J. H. Crapps to keep all other fixed base operators out of the airport.

The action apparently sealed the doom of hopes of Sanford Aviation, Inc., and KOSCOT to become second operator at the airport, since it was made clear by the commission that unless the present operator, Page Airways, Inc., approves the request for airport facilities made by another operator then there is no further discussion on the matter.

Commissioner Y. Vincent Roberts said "If Page agrees, then space will be rented."

Commissioner Gordon Meyer said Sanford Aviation had indicated it would be able to work out the fee problem with Page and wondered if Page would lapse back into not providing all air services if assured of no competition.

Robert Mooney, a city resident, asked if the commission or Page Airways is operating the airport but there was no reply to his query.

Mayor Lee P. Moore said he believes the Commission handled the problem and he was thankful that it kept coming up. The problem was brought back to the Commission yesterday after the Sanford Industrial Commission (SIC) voted at Thursday meeting to ask the

Commission to reconsider an earlier action which disallowed any other operator.

Commissioner Thomas McDonald said there is no history behind Sanford Aviation; therefore, nothing about the firm is known. "It was just reported," he said.

Two towns, an airport and two bridges were hit. Thousands of reinforcements trying to reach the battle zone were reported blocked by destruction of a large bridge during the night.

A Cambodian communiqué said North Vietnamese troops attacked the airport at Kompong Cham, the country's third largest city which is 47 miles northeast of Phnom Penh, and simultaneously made assaults against the district capitals of Treng Treung and Kampong Speu, on a line running west of Kompong Cham some 32 miles.

Allies Clobbered

By JOHN T. WHEELER
Associated Press Writer
PHNOM PENH (AP)—The heaviest North Vietnamese Viet Cong attacks in two months were reported Monday by the government's northern front into disarray today and cut it off from Phnom Penh.

Two towns, an airport and two bridges were hit. Thousands of reinforcements trying to reach the battle zone were reported blocked by destruction of a large bridge during the night.

A Cambodian communiqué said North Vietnamese troops attacked the airport at Kompong Cham, the country's third largest city which is 47 miles northeast of Phnom Penh, and simultaneously made assaults against the district capitals of Treng Treung and Kampong Speu, on a line running west of Kompong Cham some 32 miles.

'Not In Candy . . .'

By JOHN T. WHEELER
Associated Press Writer
PHNOM PENH (AP)—A five-year-old boy who died of a heroin overdose apparently received the drug in a capsule and not from spiked Halloween candy, police investigators say.

Inspector Robert A. Slotke, chief of the homicide bureau, said Monday that the boy, Kevin T. . . . apparently swallowed the capsule while visiting an uncle's home.

Slotke said no warrants were being sought and police did not know how the child obtained the capsule.

Initially, police say Kevin got the fatal dose when he ate Halloween candy, but later they found a capsule which had been sprinkled with the narcotic.

Slotke said the investigation disclosed an unidentified person sprinkled heroin on Kevin's Halloween candy later to hide the source of the deadly dose.

Previously the boy's mother had said that Kevin went to sleep on the night of Nov. 2 at his uncle's home after eating some candy. When he could not be awakened the next morning, he was hospitalized. The boy never regained consciousness and died Friday.

Slotke said the case remains under investigation.

James Palmer Named City Building Inspector

* Continued From Page 1
James, Mayor Jordan suggested that letters which were sent to past members of Council and interested parties one year ago be checked to ascertain if these are interested in serving on the charter revision committee at the present time.

Freeman opined that the group meet at least one night weekly and mentioned that the state Legislature requires submission of the initial draft of all legislation which municipalities wish passed by the middle of February. Freeman also noted that in matters of this nature it is almost mandatory that the group meet with a legal adviser. The first meeting of the committee is tentatively set for Nov. 23 at 7:30 p.m.

The ordinance of intent to annex a portion of U. S. 17-92 which was requested by Jack Rossmann of Jack's Mini Mart, and which was adopted upon first reading on Nov. 2, was deleted from the agenda last night for consideration due to the 10-day waiting period. The property is located at the junction of U. S. 17-92 and SR 419, out of town.

Also deleted from consideration was the ordinance for a natural gas franchise in the Village. Freeman told Council that the legal department of Florida Public Utilities had not returned the ordinance to him with their comments. The company had requested that Freeman send the ordinance for their perusal.

Ambulance Service Renewed

* Continued From Page 1
handled by the service and received the answer of 80 percent, with most of these occurring on SR 426. Alexander contended that the county may be subsidizing transient accidents.

Drummond told the board that he had spoken with six trustees, who suggested a six-month contract be executed during which time they would gather a program. Since this did not appear to be feasible, he suggested the board meet with the trustees prior to the next budget hearings to ascertain a workable program which he said would initiate a considerable tax saving.

Commissioner Sidney Vihlen Jr. said that he believes the board had no alternative but to renew the present contract since the county must have ambulance service.

REGULATIONS
Commissioner Robert Parker then questioned Herndon when they would accept a proposal of \$2,500 for a one-year contract. Herndon replied negatively, saying that they must maintain federal regulations and in addition already had expended \$50,000 in real estate during the time which they had been serving the county.

Herndon then delivered a "bombshell" with the statement that government regulations which have been discussed would necessitate a cost of \$100,000 per ambulance for service in the county.

Herndon said the federal government is proposing that ambulances be "a rolling emergency room" with the lights and sirens removed. It is further proposed that each ambulance would include an emergency medical technician, registered nurse and driver, qualified in medical procedures, all of which would sky rocket the cost.

Herndon said, "I wonder where the money will come from. To which Alexander quipped, "It's coming from the taxpayer just as it always has."

PROTESTS
Before the question to review the contract, Drummond noted that he was casting an affirmative vote only under duress that too many protests would mean no service.

Hostess Faints At Trial

Sylvia Tobia Powell, 37-year-old Sanford hostess, accused of murder in the shooting death of her 25-year-old husband, fainted yesterday during an appearance before Peace Justice R. E. Carroll for a preliminary hearing, which bound her over to Circuit Court.

Mrs. Powell was removed to Seminole Memorial Hospital where she was revived.

"The woman, and her alleged lover Henry Porter Joyce, are accused of the Sept. 25 shooting death of Maynard G. Powell of Lake Monroe.

"It's 11 p.m. Mrs. Powell waived her preliminary hearing and was taken back to Titusville where she has been held without bond since her Oct. 28 arrest.

"Joyce is still confined without bond in the county jail.

People In The News

Santa Capote
SANTA ANA, Calif. (AP)—After spending 18 hours in the Orange County jail, best-selling author Truman Capote says, "I don't advise anybody to go to write a book."

The 46-year-old writer was released Thursday after serving only three days in jail for contempt of court. He was freed after his personal physician telephoned the judge from New York City and the judge said "expressed apprehension about Mr. Capote's health." The judge didn't elaborate.

Amelia Earhart Alive?

By KATHERINE S. VINZI
NEW YORK (UPI)—Two former Air Force officers published a book Monday claiming Amelia Earhart was captured 33 years ago by the Japanese on a 1937 mission. She survived eight years of captivity and may be living today under the name of Irene Bolam.

Mrs. Irene Bolam of Monroe, La., who said she had been a close friend of Miss Earhart, had "no comment" on the book.

Anyone who ever knew Amelia Earhart the aviatrice would know her today, despite the added years since she became "one of the missing," in the opinion of Fred Van Pelt, managing editor of The Sanford Herald.

Van Pelt was aviation reporter for the Dayton (Ohio) Herald some 10 years ago when he first became acquainted with Miss Earhart. At that time she visited what is now Wright-Patterson AFB for "pointers" in her upcoming transatlantic and trans-world flights.

It was during that time, too, that Miss Earhart came to Dayton barnstorming for Fleetchut in an autogiro, a combination airplane and helicopter. The aviatrice took the young reporter on a flight around Dayton for about a half hour.

Van Pelt recalls his last interview with Miss Earhart, just prior to her flight from which she never returned. Miss Earhart had just finished lunch with the Army Air Corps chief of the base, Gen. Henry Conner Pratt, and told the reporter they had "spaghetti and meat balls for lunch."

"Amelia Earhart Lives." But she said she would hold a news conference at 3 p.m. EST today after she and her lawyer had a chance to read the book.

Mrs. Bolam moved into the Lathrop "Lathrop World" apartment complex three years ago and neighbors said she had kept to herself. Mrs. Bolam said her husband, Guy Bolam, died "last spring."

Authority For Airport Considered By Sanford

Sanford City Commission, cognizant of the importance of a Sanford Airport Authority to look after the business of the airport and its industrial applications, deferred until tonight a discussion of how to enact legislation to set up a non-political airport operation.

Commission Attorney W. C. Hutchison said the best method to handle the authority would be a legislative act and not by the process of home rule.

Hutchison said unless the authority is given sufficient powers, as would be forthcoming by an act of the Legislature, the airport authority would be just another name for the Sanford Industrial Commission (SIC).

The attorney implied the City Commission would have to get approval from the Federal Aviation Agency (FAA) to deed the airport over to the authority, since the City Commission is now prevented from parting with the airport unless given authority from the governmental service.

Hutchison indicated that under a legislative act, the City Commission could not change the authority budget after it had been approved by the commission, which is similar to that power now held by the Seminole Port Authority.

City Manager W. E. Knowles is expected to report during tonight's meeting the prospect of using the county's refuse disposal facility at Osceola landfill.

The commission is attempting to determine which route to take in handling the disposal of refuse, when at the first of the year a decision on what to do about the city's garbage pickups will be made.

Casselberry Reopens Candidate Books

* Continued From Page 1
In further action at last night's regular council meeting, Mayor Curtis Blow and the Council presented a resolution commending several citizens and police officers for their civic action in saving the life of 11-year-old Danny Gardner, who was the victim of a cave-in on Oct. 4. Those commended were: 12-year-old Robert Oldham, David Drebert, Ed Drebert, Fran Phillips, Officer Bonnie Tamburo, Officer Timothy McEvers, and Officer Gilbert Hughson. (See Photo, Page 1B)

Mayor Curtis Blow had intended to submit several appointments and promotions to the Board. He set the deadline for submitting these bids as 12 noon on Thursday, Nov. 12.

APPOINTMENTS
APPROVED
In other action, the council approved the appointments of Raymond Morris, Mrs. Vernon Storks, Mrs. Frank Steule, and Mrs. John Zimmer, and Mrs. Myron Jacobs to the Election Board. It heard bids on two new patrol cars, and submitted these bids to the Police Department for further study.

It authorized the mayor to enter into a license agreement with Casselberry Land Company on the placing of safety walkways going into Casselberry schools.

The council also authorized a Police Department Study on a traffic hazard which exists at the intersection of Sunset and Overbrook Avenues. A bid was set for a new front-end loader for the City was accepted from the State Tractor and Equipment Co. in Orlando, which was the low bidder at \$12,425.00. The council authorized Mayor Blow to prepare the proper documents for financing the loader through the First National Bank in Maitland.

Mass. Test Suit Nixed War Shadow Over High Court

By BARRY SCHWEID
Associated Press Writer
WASHINGTON (AP) — Unless the Vietnam war comes to an unexpected, abrupt end, it is certain to envelop the Supreme Court in its shadow again despite the court's latest refusal to consider an antiwar case.

Drug Education Parley Scheduled At Fla. Tech

A busy three days are fore-cast for doctors of Central Florida school administrators, school board members and county drug education coordinators who begin a conference Wednesday at Florida Technological University. Representing Seminole will be Fred Gatus, health and PE supervisor.

Six counties in the region will be represented at the meeting. Seminole County is being represented by Justice John M. Harlan, supported by Douglas and Stewart in seeking a hearing for the Massachusetts case.

Their decision simply noted the request for a hearing, made nearly four months ago, had been turned down. There was no other comment.

Benefit Art Auction Slated Sunday

By JANE CASSELLBERRY
An art auction to benefit the Good Samaritan Home building fund will be held at the Santa Fe Civic Center starting at 3 p.m. on Sunday. The art — an outstanding collection of limited edition graphics and oils from the Santa Galleries of Winter Park — will be an view from 2 p. m.

A highlight of the auction will be the offering of original portraits of the founder of Good Samaritan Home, Ruby Wilson, and her husband, Timothy (Lappy) Wilson.

Microwave Ovens OKd

By G. DAVID WALLACE
Associated Press Writer
WASHINGTON (AP) — The government has begun eliminating some of the suspicion cast over microwave ovens last January when a survey showed one-third of the quick-cook ovens emitted excessive radiation.

Most important accomplishment since the survey, according to federal officials, is correction of the industry's initial failure to provide for maintenance and repair that would keep the ovens safe in use.

So far, the Department of Health, Education and Welfare has issued safety clearances for all models of Amstar, General Electric and Yoshida microwave ovens. The department has also cleared the newest models of Sears, Roebuck, Montgomery Ward and Westinghouse.

Working on a model-by-model basis, officials expect to clear all of the microwave ovens in the nation by the time new radiation emission standards go into effect next fall.

An estimated 120,000 microwave ovens are in service in U.S. homes, institutions, restaurants and vending machines. Another 75,000 are sold every year. Sales are expected to rise to 1.8 million, or 25 percent of the ovens market, by 1975. About 10 percent of the ovens now in use are in homes.

The ovens, which generate a type of radiation identical to that of a microwave oven, can heat a potato in four minutes.

The Florida Department of Health has reported detecting some leakage 26 times the voluntary maximum standard established by the industry in 1966. Laboratory tests showed some leaking 26 times the voluntary standard.

Robert L. Elder, director of ELEC's division of electronic products, said in an interview the industry was generally producing ovens which were safe coming out of the production line. But the industry was not prepared to keep the ovens safe under the wear and tear of use, said Elder. Some of the worst leakage was found in ovens which were just plain dirty.

Under the new operation, the city will drive its garbage packers to the transfer station located at Five Points, geographic center of the county at intersections of U.S. 17-92, SR 419 and 427, and the county will haul the refuse to the landfill site for disposal.

Under this plan, the city will pay \$21,266 for a year's use of the county facility, according to information prepared by City Manager W. E. Knowles, who just completed a study of what methods were available to the city for refuse disposal since the present city landfill located near the municipal airport is at capacity.

Highway Program Approved

In County
By MARION BETHA
County Commissioners yesterday adopted the 1970 county road program for which \$210,000 in material funds had been budgeted. Of this amount \$20,000 has been reserved for routine maintenance and materials. The balance of \$190,000 was further declined by the allocation of \$18,000 to District 2 for a resurfacing program, due to the fact that this district had the lowest amount of funding in the program. Total left for the road program is \$172,000.

Chairman John Alexander noted to the board that as usual the number of roads discussed and proposed during a work session on the matter far exceeded the amount available.

The appropriations include for District 1, Osceola Road, old SR 44 to the airfield, widen to 22 feet and overlay 5.6 miles at a cost of \$36,000; the airfield to the east, resurfacing as is, 0.4 mile \$2,000. Total for this district is \$38,000.

District 2 — Myrtle Avenue, resurfacing from South Sanford Avenue to Hester, 1.5 miles, \$5,000; Hester Avenue, from Myrtle to S 427, resurfacing 5 miles, \$3,700. Total in this district is \$10,700.

District 3 — Sand Lake Road, from West Lake Brantford to the board that as usual the number of roads discussed and proposed during a work session on the matter far exceeded the amount available.

Parley Slated For Friday

Airport Authority Act Eyed

By BILL SCOTT
First steps toward the creation of a Sanford Airport Authority will start with a Friday breakfast for the Sanford City Commission and the Sanford Industrial Commission (SIC), the industry seeking arm of the city.

The breakfast table, when the commission will play host to the Orange-Seminole legislative delegation to get an indication of how receptive that newly elected body will be in lending support to the passage of a legislative act in the next session that will set up an appointed airport authority with bonding provisions.

Commission decided on these initial moves after a two-hour Tuesday night session recessed for the purpose of discussing whether to implement the authority by a local act under home rule procedures or try for a legislative statute that would grant broader powers.

The city fathers indicated a need to talk over the situation first with the Sanford Industrial Commission, since that body has been operating the industrial aspects of the city, which includes the airport property.

County Approves Program

Following a brief delay, the county publicity program for 1970 has been initiated with the approval of County Commissioners yesterday. The program in the amount of \$20,700 has been proposed by the county Publicity Advisory Committee, and will utilize the service of Anderson Bourne Advertising Agency.

Through advertising in McGraw-Hill's 34 business publications, which includes Business Week, it is anticipated to reach a circulation of over two million persons. Further advertising is contemplated in the Wall Street Journal, Florida Trend, Field and Stream, local news media, billboards and brochures. The objective of the promotional campaign is to attract business, industry and investment to Seminole County from areas outside the state.

It is felt that even with all the provisions whereby the county has to offer, that business competition throughout the nation is keen, and therefore attention will be focused upon appeal to individuals.

Commissioner Sid Vilhen Jr. advised the board that as a result of the publicity program for 1970 has been initiated with the approval of County Commissioners yesterday. The program in the amount of \$20,700 has been proposed by the county Publicity Advisory Committee, and will utilize the service of Anderson Bourne Advertising Agency.

From Supt. Of Schools: Open Letter To Public

Dear Seminole High School parents:
This is to acknowledge your concern for the tension that has developed over our high school. The school board, the school staff and I certainly share this concern.

1. A peaceful climate is essential to education, and teachers have the moral and legal support of the community in establishing and maintaining order.

2. The problems in our society are reflected in the lives of our young people who express them in frustrations and anger that create "crisis" for our school administrators.

3. Schools are a vulnerable and visible target for society's disaffection.

4. To respond to school crisis in ways that reduce the level of conflict, we must draw upon some area of student trust.

5. All Seminole County senior high schools have a student council or similar agencies for pupil participation in school government.
