like to reprint some of the things others are saying.

For instance, the November 3 issue of The Capital Post, Tallahassee, Fla., carried an article written by Don Petit, its Editor and Publisher:

It seems to be a foregone conclusion that Gov. LeRoy Collina will become a candidate in the coming May primaries, if the Supreme Court permits him to, and that Former Gov. Fuller Warren will be his principal competitor for the state's Number One executive post.

Other potential candidates. Ted David, and J. Ferris Bryant are receiving some attention hut not enough to take them serious-

Mr. Bryant, as able as he is, just does not have enough "push" in all sections of Florida to make the runoff. David has been playing fontsis with the incumbent to be taken too seriously-this time.

Now somes from Miami a quote by J. Brailey Odham, able campaigner who recently told Bill Bagga, columniat for The Miami Daily News that Collins is doing a better Job in office "than I could have done." Thus far, no one has suggested that

Odham might some into the race. It has been

### TODAY'S BIBLE VERSE

Yes, his soul draweth near unto the arave, and his life to the destroyers .- Job 8:22. Christ bounds and terminates the wast desires of the soul; He is the very Sebbath of the soul.-John Flaval.

T In our editorial column today, we would | taken for granted that when he said he was through running for office that he meant it. But many people have forgotten that

it was Brally Odham who swung the pendulum that resulted in Collins winning the gubernatorial race against able Charley Johns.

It goes without saying, to be practical about it, that no candidate can run for such a high office without support. You might even say the supporters pick the candidate instead of the candidate picking the supporters.

In the event that Collins was ruled ineligible to seek reelection, the Collins crowd would be faced with the necasity of digging up a candidate someplace quick like or, in the alternative, looking forward to a fouryear vacation.

The Odham camp, it would seem, would be the logical place to go. Odham has developed a strong organization after two races for the office-but not quite strong enough

to do the trick. If the Collins crowd deserted their hero -as is being rumored in many sections of the state-as is being rumored in many secquite a formidable machine.

enough to know that its powerhouse be- run of Mr and Mrs. J. M. Leon | many. hind the Odham organization would be its and of 2041 Holly Ave., Sanford. The exercise included a tactical in office.

BAR ALL IN FILME MY Isn's it natural to want to spend a little time with the people who spend most of their time with your children? lan't a first-hand knowledge of your schools worth while? Especially in

these difficult years of swiftly rising enrollments-when teachers, principals, and school boards deserve the active interest and support of every citizen.

One of the best ways to learn about schools-their programs and their problems-is through local community

conferences on education. If one is held in your community during American Education Week, be sure to attend. The work you do for better schools is your investment in America.

American Education Week has become an annual community custom across the nation. This year, the 35th annual observance, some 20 million Americans will visit their local schools during the second week in November. Shall we see you then?

In cooperation with the National Citizen's Commission for the Public Schools, this advertisement is sponsored by
