

BERLIN STUDENTS AND NAZI CROWD STAGE NEW RIOT

National Leader Of Catholic Youth Organization Killed

BERLIN, July 18.—(AP)—An open revolt of Goettingen university students, a staunch ally of the Nazi anti-fraternity movement, and a report of a distinctly ancient university societies. Placards were carried Monday to the general discontent in Germany. At the same time it was revealed the national leader of a Catholic youth organization, Adelbert Probst, was killed several days ago "resisting arrest," and a new attack on Jews was inaugurated by "Der Angriff," newspaper of Propaganda Minister Goebbels. In the revolt at Goettingen, 1000 fraternity men battled with brown-shirted Nazis. The fight broke out after the fraternity men held a meeting at which they protested vigorously the wholesale dissolution of the ancient university societies. Finally order was restored after the arrest of ten leaders among the fraternity men. The university president suspended two fraternities until further notice. That the societies do not intend to lie down without a stiff fight was indicated in an editorial in the Goettingen students' fraternity association's organ by Dr. Max Blunck, head of the organization, the most powerful of its kind in Germany. Difficulties with the Catholics were emphasized by a revelation of Probst's death in a circular issued by the Catholic youth headquarters in Düsseldorf, and it was regarded as likely that the Vatican will delay any acceptance of the recently agreed upon interpretation of the concordat. The newspaper-attack on the Jews rather dashed hopes that the policy would be changed, as a result of the "purge" of "traitors" in which 77 persons were killed, in which 77 persons were killed. Goebbels' newspaper printed

material which will appear in the forthcoming issue of the Nazi satirical weekly "Brennessel" (Stinging Needle) which was designed to prove, by the Bible that the Jews are blood-thirsty. Summing up quoted passages the number of "victims" of the Jews was given as 105,570, not including the article, stated, "mass murders" in which the Biblical chroniclers gave no estimates of the number killed. The report on foreign trade showed an adverse balance of 21,000,000 marks (approximately \$86,400,000) for the first half of 1934.

TREASURY LAYS RULES TO STOP LIQUOR FAKING

Will Follow Bottles In Concerted Effort To Halt Faking

WASHINGTON, July 18.—(AP)—The Treasury has promulgated regulations governing the manufacture of liquor bottles, under the law passed by Congress recently to protect consumers and legitimate producers from sale of bootleg spirits in counterfeit containers. Beginning Aug. 1, liquor bottle manufacturers must operate under government permit. Sales will be restricted to concerns certified by the alcohol tax unit of the Internal Revenue Bureau. The one-half mill reduction in the state levy will provide little relief proportionately to our heavily burdened taxpayers unless the example is followed by the respective counties and other tax levying bodies of the state. The reduction in state millage by no means indicates the full economics of the state administration during the past year, so many of the departments, including the largest ones, are operated on revenues from other sources. On the other hand, your revenues being almost entirely from ad valorem taxation, practically the entire economy of your county administration will be reflected in your millage. Slight as the reduction in the state millage might seem, it is 7 1/2 percent of last year's levy and while this is not suggested as a maximum reduction to the other taxing bodies, it is hoped that it will be at least a minimum. If this can be accomplished by all tax levying bodies in the state it will mean a most substantial reduction for the benefit of our taxpayers next year. In fact, based on last year's assessment it would save the taxpayers approximately two and one-half million dollars in state and county taxes alone. The reduction in the state millage reflects the unwavering attitude of this administration toward continued rigid economy in state operation, and more substantial reductions may be reasonably expected to follow.

Car Bought In 1903 Still Used By Owner

WAYNESVILLE, N. C., July 18.—(AP)—Here's the record of the motor in an automobile bought by C. G. Allen in 1903. He drove the car for years and then sold it to a taxi operator who ran it a long time. Therefore the motor was dismantled and was used to run a concrete mixer. Two years later it was placed in a truck and furnished motive power until that vehicle wore out. Again the motor was dismantled and for the past 15 years has been turning a corn mill.

FARMER BADLY CUT BRADENTON, July 18.—Majorion Proveau, farmer in the Manhattan district while sharpening a hoe yesterday morning received a five inch gash in his arm. Arteries and muscles were severed to the bone. After treatment at Bradenton general hospital he was reported as resting well.

Sholtz Calls Upon Counties To Lower Annual Tax Levies

CITY BRIEFS

TALLAHASSEE, July 18.—(AP)—Governor Sholtz Monday formally called upon the counties to follow the state's lead and cut their 1934-35 tax levies. A reduction of one-half mill in the state's levy was made by the Governor last week. The levy for the new year is 6 1/8 mills. A letter to chairmen of county commissions and county budget commissions asking for county reductions was made public yesterday at the governor's office. It said: "The one-half mill reduction in the state levy will provide little relief proportionately to our heavily burdened taxpayers unless the example is followed by the respective counties and other tax levying bodies of the state. The reduction in state millage by no means indicates the full economics of the state administration during the past year, so many of the departments, including the largest ones, are operated on revenues from other sources. On the other hand, your revenues being almost entirely from ad valorem taxation, practically the entire economy of your county administration will be reflected in your millage. Slight as the reduction in the state millage might seem, it is 7 1/2 percent of last year's levy and while this is not suggested as a maximum reduction to the other taxing bodies, it is hoped that it will be at least a minimum. If this can be accomplished by all tax levying bodies in the state it will mean a most substantial reduction for the benefit of our taxpayers next year. In fact, based on last year's assessment it would save the taxpayers approximately two and one-half million dollars in state and county taxes alone. The reduction in the state millage reflects the unwavering attitude of this administration toward continued rigid economy in state operation, and more substantial reductions may be reasonably expected to follow."

Federal Government Plans To Can Meat

WASHINGTON, July 18.—(AP)—The federal government was disclosed Sunday as planning to take a direct hand in the meat canning business as a relief measure. The plan contemplates wide use of federal funds to assist states and counties in setting up meat canning plants over the country, with suggestions also for plants to can vegetables, fruit and fish on a sizable scale.

BRITAIN WILL INCREASE ITS AIR ARMADA

Apparent Collapse Of Disarmament Meets Held By Baldwin As Basis Of Decision

LONDON, July 19.—(A.P.)—Stanley Baldwin, Lord President of the Council informed the House of Commons today that the British government has decided on a program of increasing its air force by 41 squadrons during the next five years.

Baldwin said that ever since the World War, Great Britain had taken the lead in pursuing a policy of international disarmament with the result that British armaments had been reduced to a dangerously low level in the hope that others would follow our lead.

Disarmament negotiations, however, have shown no progress, and during the period, misgivings have arisen from time to time in many quarters. At the increasing accumulation of deficiencies in our defensive armaments particularly in view of the increased expenditure on armaments in many other countries.

IN ACCIDENT

Former King Alfonso of Spain whose automobile figured in an accident near Vienna in which Karl Smetana, a former Nazi editor, was snuffed off. Alfonso's automobile is said to have been side-swiped by an automobile trying to pass him, and Smetana was killed when the car bounced off the former monarch's machine and against the curb.

OLE OLSON TAKES POSSESSION IN NORTH DAKOTA

Lieutenant Governor Revokes Langer's Martial Law Order

BISMARCK, N. D. July 19.—Lieutenant Governor Ole Olson, acting governor, took physical possession of the Chief Executive's office at 10:00 o'clock today. He merely walked into the office accompanied by two friends. National Guardsmen at the same time were posted in the corridors of the State House. There was no disturbance.

Olson immediately posted a proclamation in the corridors revoking a special session of the legislature called by William Langer ousted governor. The doors of the two assemblies were locked.

Adjutant General Earl Series who announced that he would stand behind Olson was in his office downstairs.

Legislators called by Langer were arriving in the city but it is not known whether they would attempt to assemble outside the State House.

Reports were heard of possible mob violence but on the surface all was calm.

Rumors were current that Langer partisans were concentrating in various parts of the state ready to march on the capital to rally around Langer.

Langer, after the Supreme Court ousted him, declared martial law. Olson revoked this command yesterday.

NEW TRADE BODY BOOK IS WELL RECEIVED

Chamber of Commerce officials were pleased today over the reception which is being given throughout Florida by the press and individuals to the trade body's new folder, "Sanford, the Port of Central Florida," recently issued as part of a new campaign to establish this city as the ideal distributive center for this section of the state.

Among the communications received is one from Linton E. Allen, executive vice-president and cashier of the First National Bank at Orlando; G. E. Gilliland, secretary of the DeLand Chamber of Commerce, and J. L. Ingley, vice-president of the Sanford-Atlantic National Bank.

Chas. E. Wynne, vice-president of the Atlantic National Bank at Jacksonville, wrote that his bank will feature the "Port of Central Florida" in one of its advertisements in the Times-Union and Jacksonville Journal late next month. Mr. Wynne also requested several additional copies of the folder so that he might distribute them to customers of the bank whom he believes to be interested in warehouse and distribution facilities in Sanford.

FRISCO STRIKE EVENTS LAD TO NEW DEAL BY GOVERNMENT

British Public Opinion Reflected In Press Blames Labor Code Of NRA For Trouble

LONDON, July 19.—The Rooseveltian "New Deal" blamed by British public opinion, reflected in the press—Tuesday, for events in the San Francisco general strike.

The populace, recalling the general strike in London in 1926, kept eagerly in touch with the news.

The dollar weakened slightly on exchange, the pound being quoted at \$5.04 1/8 against \$5.03 7/8 Monday. Speculators feared it would drop if the strike continues.

The Daily Telegraph commented: "Two things are amazing; firstly, that a supreme effort to effect peace should be delayed so long; and secondly, that a modern community should have shown so little ability to counter a situation foreseen for weeks. . . . It is the first concerted thrust against the NRA."

The Morning Post said: "The strikers' methods are as cruel and criminal as can be imagined. We hope that the Pacific shops will refuse to be starved and blackmailed into surrender. . . . It seems General Johnson has yet to learn the full possibilities of trade unionism."

The Daily Herald: "Dock workers ceased work because the employers refused to operate under the labor code of the NRA. . . . Other organized workers feel the dock men are 100 percent right." (Continued on Page Two)

NRA JEWELRY CODE IS DEFIED BY GOVERNMENT

Manufacturers Say No Pay Assessment Of Take Any Dictation

NEW YORK, July 19.—(AP)—Norman G. Norman, partner in a jewelry manufacturing firm, has notified the jewelry code authority that the company will neither pay a \$100 assessment nor "take any advice or dictation from the NRA."

"We have not at any time signed the President's re-employment agreement," said Norman's letter, on behalf of Charles M. Levy and sons. "We have never signed the code. We have never displayed the Blue Eagle. As a matter of fact we would not permit the bird to be hung on our wall."

"We did not ask for a partnership with Mr. Roosevelt or the new Administration. We would not care to have them as partners as they have never invested money in our business."

"We absolutely refuse to take any advice or dictation from the NRA or any of its employees. We do not think the NRA, which knows nothing about our business, can tell us how to run it."

"We deny that the code authority or the government has the right to assess us for \$100 to maintain an organization, the principle of which we do not believe in and which we have never joined."

First Strikers Never Returned

By The Associated Press
The strikers in the first great walkout on record never did go back on their jobs. They were the Israelites who worked in Egyptian brick factories. The Bible tells that Pharaoh ordered them to furnish the straw for the bricks instead of getting it from their taskmasters. They objected. Having found a leader in Moses, they walked out toward the promised land—and never returned.

CONDITIONS IN SOUTHWEST HELD AS DEPLORABLE

Nature Seems To Have Walked Out On Mankind, Seen Helpless

KANSAS CITY, July 19.—(AP)—General drought in the great Southwest is paralyzing industry, creating want, destroying property and bringing untold suffering. And mankind is almost helpless in its hands. Nature seems to have walked out on mankind. Vegetation refuses to grow. Streams have stopped running. Springs, never before failing in the memory of early settlers, are dry. Trees, with leaves blighted, shriveling and falling with every gust of furnace-hot air, produce little or no shade.

Cattle, starved for proper nourishment, languish visibly. Clouds still will not form in the skies or, if they form, refuse to disgorge any moisture. Soak turned to dust, drifts over once-fertile grazing lands, unrestrained by grass roots that are brittle and crumbling.

The sun works overtime, producing almost unbelievable heat. Some idea of it can be gained from yesterday's announcement of the Topeka, Kan., weather observer, who said that only twice in 27 days has the temperature failed to reach 98 degrees, only four times has it fallen below 70 degrees at night.

In the last week alone, the average daily maximum temperature has been 107 degrees. Temperature maximums in scattered communities have been 114 degrees often sometimes as high as 117 degrees.

The produce truck has been replaced on the highways by the water wagon. There is little produce to ship but farmers are trying feverishly to keep stock alive. Many are failing.

The Kansas City livestock market has had the greatest cattle run in its history—animals rushed to the butcher because they cannot be kept alive on the pastures. There were reports in Oklahoma City today that 600 head of western Oklahoma cattle had been shot, humanely, after a futile search for water. Hundreds of others were being moved sluggishly across burning plains, gasping for breath, in search of greener pastures. Hundreds of carloads were moving eastward by rail.

Grasshoppers and bugs innumerable were an added scourge.

Arkansas farmers who have just repaid South Dakota for its aid during the drought families of 1933 were threatened today with an even worse blight.

In the Fort Smith center of the north and west Arkansas sector a seasonal record of 106.3 degrees was made yesterday, the third consecutive day of similar temperatures.

State and county officials described the prolonged dry hot spell as already approaching the 1930 intensity.

Recalling the late summer drought of 1930 which brought food riots at England, Arkansas and caused a heart-souraged state to pray for rain, officials of Fort Smith said the heat wave is the worst in the city's history.

Ex-Ku Klux Klan Official Gets 5 Year Prison Term

JACKSONVILLE, July 19.—(AP)—Edward Young Clarke, former Ku Klux Klan official, was sentenced here today to five years, and his wife to two years in federal prisons for using the mails to defraud in connection with the organization of Easkaye, Inc., a fraternal order. Mrs. Clarke collapsed as Federal Judge A. V. Long pronounced sentence.

County Agent Dawson Addresses Kiwanians

Outlining his plans as County Agent, C. R. Dawson appeared before Sanford Kiwanians at the Montezuma Hotel Wednesday noon as guest speaker, to offer the co-operation of his office in any cub endeavor, and to ask for support in making his office a busy clearing house patronized by all of the residents of the county.

His talk came after Kiwanian Karl Lehmann had welcomed Dr. H. D. Smith as the club's "baby" member, bringing the club's membership to 49.

The Kiwanians voted to join with New Smyrna Kiwanians at Coronado Beach next Thursday afternoon and evening for an afternoon of swimming, games, and other amusements which will be topped off by a fish fry.

Kiwanian S. E. Andrews of the Boy Scout committee reported that steps were being taken to provide adequate cabins for the Scouts at their Silver Lake camp.

As a musical feature of the program, Mrs. George R. Harden, soprano, offered two vocal solos, accompanied by Miss Margaret Davis at the piano.

Those attending the meeting were: Mrs. Harden, Miss Davis, Mr. Dawson, and Henry Hildebrand of Lakeland as guests, and Kiwanians S. P. Doudney, who presided, F. S. Lawson, Peter Schall, Bill DuBose, Howard Overlin, E. A. Smith, F. R. Wilson, L. T. Doss, Arthur Branan, E. C. Moore, Gordon Barnett, V. A. Spear, R. W. War, L. Thary, W. E. Coleman, W. S. Zachary, E. J. Nix, Howard Long, B. L. Hoy, A. D. Smalley, Harry Woodruff, M. H. Goodrum, Dave Bonista, W. A. Cooper, T. L. Dumas, J. L. Hurk, E. B. Randall, Jr., Ray Fox, Karl Lehmann, J. L. Kavanotte, J. D. Jankins, E. E. Andrews, E. D. Caswell, J. G. Moore, T. E. Simpson, and E. E. Leary.

REASONABLE SOLUTION OF STRIKE SEEN

Roosevelt Expresses Confidence In Common Sense Of Two Opposing Factions

WASHINGTON, July 19.—(AP)—President Roosevelt yesterday expressed confidence that "common sense" would bring a "reasonable solution" of the San Francisco general strike.

His message was radioed from the cruiser Houston in the Pacific Ocean and was made public by Secretary Perkins.

It was the President's first public utterance on the walkout which had upset the workaday routine of the California metropolis and has stirred uneasiness over the nation.

"You may say," Miss Perkins quoted the President, "that I have expressed to you and to the public my confidence that common sense and good order will prevail on all sides of this controversy and that I have full confidence in the board (the federal longshoremen's board) and its agencies to arrive at a reasonable solution."

Secretary Perkins did not comment on the message but on its face it apparently also was an indirect appeal by the President to the warring factions to compose their differences.

Many requests from officials and business organizations in San Francisco have asked the President to interrupt his vacation voyage and return to the United States to take personal charge of the efforts to end the strike.

Secretary Perkins yesterday reviewed events which led to the general walkout but she avoided predictions as to what might happen, or expressions of opinion about recent developments. She did say, however, that the vote by the general strike committee for arbitration "indicated a spirit of reasonableness."

The secretary said attempts to prevent the general strike had failed because ship owners and marine workers could not reach an agreement to arbitrate their differences.

Had this breach been patched, she said, the longshoremen's dispute, connected only indirectly with the seamen's strike, probably would have been submitted to arbitration.

She said some of the deep water shipowners rejected proposals for outright arbitration but had agreed to deal with representatives of the striking seamen chosen through elections under the auspices of the longshoremen's board.

The marine unions, the secretary added, turned down this plan because there was no certainty that questions not settled in the employer-employee negotiations would be submitted to arbitrations.

The secretary was asked whether an attempt had been made by federal officials to "bring pressure upon the shipowners to accept arbitration." (Continued on Page Five)

Wheels Of Business Move In Frisco As Walk-Out Collapses

Pressure Of Federal, State, City Governments Brings Slow Death To Situation

SAN FRANCISCO, July 19.—(A.P.)—The wheels of business in the San Francisco metropolitan area moved again today under the relaxing brakes of the general strike.

Under pressure of federal, state, and city governments, the general walkout gave indications of collapsing rapidly.

The strike "Strategy Committee" of Alameda in which half a million of the areas 1,200,000 residents reside, announced that a vote would be taken at Oakland tonight on a proposal to end the walkout.

Resumption of East Bay transportation service controlled by the Key Route system, including the ferryboats on the bay employing 900 men, was announced for tomorrow by the carmen's strike committee.

More street cars rolled, shops were reopened, and food and gasoline service neared normal in San Francisco.

Speeding the collapse of the giant strike were two succinct statements—one from Gen. Hugh S. Johnson and the other from Mayor Angelo Rossi—to the same effect: "There will be no arbitration until the unions first call off the strike."

Said Johnson, who yesterday became definitely associated with and spokesman for the National Longshoremen's Board:

"I am here to do what the national government can do to settle this trouble. It is their job in the first instance. But the federal government cannot act under the continued coercion of a general strike. The first step to peace and agreement is to lift that strike. Until that is done I have nothing to offer."

Said Rossi:

"In the presence of a general strike nothing can be accomplished. That strike must be ended."

Raided by vigilantes and police on reputed communist hangouts continued yesterday.

Governor Frank Merriam, two municipal judges and prosecutors lent impetus to the drive to rid San Francisco of communist agitators.

Vigilantes, believed to be the same band of union men that wrecked four alleged communist halls yesterday, raided headquarters of the North Beach Workers' Association Division 18 of the communist party.

When police arrived the hall's interior was wreckage and the raiders had left. Officers seized communist literature.

City News Briefs

Local weather yesterday: High 89; low 77.

James M. Carson, prominent Miami attorney who was a candidate for governor of Florida some years ago, was in Sanford this morning en route from Tallahassee to Miami. Mr. Carson appeared before the Supreme Court at Tallahassee in the interests of Dan Mahoney, publisher of the Miami Daily News, and Vernon Hawthorne, charged with a violation of the primary election laws.

Arthur Branan, cashier of the Sanford-Atlantic National Bank, is scheduled to leave here late today for Macon, Ga., where he will join his family and spend a 10-day vacation. Mr. and Mrs. Branan also will accompany their son, Bill, to Camp Foster near Jacksonville, where he will serve as mascot for the 123rd Infantry United States National Guard during its encampment there.

Drive for \$1200 in cash with which to purchase materials for the swimming pool proposed for Oviedo was felt here this morning as several members of the committee of 13 named to raise the funds visited stores and office buildings asking for donations. Contributions were forthcoming in nearly every case, and Mayor Wm. B. Williams of Oviedo expressed the opinion that the funds would be raised in a short time.

C. M. Boyd, Jr., son of Mr. and Mrs. C. M. Boyd, 506 Magnolia Avenue, has been accepted for service in the United States Marine Corps. It was learned here today. The youth, a graduate of Seminole High School this year, was accepted through the Savannah office. He was transferred to Paris Island, S. C. for preliminary training in the duties and customs of the Sea Soldiers before being assigned to a post, ship or station for duty.

Rattlesnake stories still come to the attention of The Herald. This one was related by H. B. Durham, driver for Dr. C. W. Baker's milk truck. Mr. Durham was delivering milk in the vicinity of the S. F. Doudney home on South Melonville Avenue early Saturday morning when he spied a big snake. After he had killed it, he discovered that it not only had rattled and a button and was five and one-half feet long, but that it was 17 inches around.

Sheriff J. F. McClelland returned from Marianna late last night accompanied by Robert Burns, young white youth, who (Continued on Page Four)

REFOUNDING APPROVED

MIAMI, July 19.—(AP)—Circuit Judge Paul D. Barna Tuesday indicated the city's proposed \$225,000 refunding bond issue. The action followed presentation by State Attorney N. Vernon Hawthorne on behalf of the state of 16 objections.

Pensacola City Council Proposes New Plan Of Taxation To Raise Finances

PENSACOLA, July 19.—(AP)—Revalued land and many other taxes will be taxed by the city of Pensacola in a plan for an estimated \$2,000,000 refunding bond issue. The plan was approved by the city council's finance committee.

The plan is not an amendment of the present taxation system but it is a completely new program. It would eliminate the present 19 1/2 mills, retain several present sources of revenue, and add some of a revolutionary nature. It provides income to replace that lost through the bond issue exemption law if the new legislation is voted in November.

"Something will have to be done about taxation," Mr. Turner said last night. "The council has not been able to raise the necessary revenue law. Dollars and cents have been tallied about half a million dollars five years ago, but now we have a million dollars more."

The new plan would realize \$2,000,000 from a 16 mill levy on

WHITNEY ESTATE VALUED

NEW YORK, July 19.—(AP)—Harry Payne Whitney, sportsman, left a net estate of nearly \$23,000,000 when he died in October 1930. A transfer tax appraisal filed today showed the gross value was placed at near \$72,000,000. New York state collected a \$9,900,000 tax. The widow and three children are principal beneficiaries.

Second Wife Of Father Of 21 Children Says He Is Taking Too Much Credit

LAKELAND, July 19.—J. H. Baucum of Bowling Green, father of 21 children and expecting another by his third wife, took too much credit upon himself when he asked President Roosevelt for a paternal bonus of \$5 per month for each child over 14 children, according to Mrs. Agnes Williams of Fort Myers. Mrs. Williams was Baucum's second wife and mother of 10 of his children.

According to a written statement by Mrs. Williams, the bonus seeking father is supporting only one of his 21 children while the other ones are actually contributing to his support. On top of this, Mrs. Williams has been cooking and washing to send her younger children to school although their custody was awarded to Baucum by a court decision.

But let Mrs. Williams tell her own story in her own manner. She writes in the Associated Press:

"I notice with much interest an article in last Sunday's paper regarding J. H. Baucum of Bowling

TAMPA NURSE SPEAKS

LAKELAND, July 19.—Miss Jule Graves of Tampa, district supervisor of nurses for the state board of health, spoke before the Florio Business and Professional Women's club here Tuesday, explaining the program being put in effect to reduce the maternal death rate in Florida.

ASSIONS CRIMINAL CASES

BARTOW, July 19.—The July term docket of criminal court was sounded Monday before Judge Mark O'Quin and 40 cases were set for trial, starting Monday, July 23. County Solicitor Manuel M. Glover stated that he did not expect the term to last over a week.

ISE CITIZEN SHOCKED BY EVENTS OF DAY

When the Question All May Ask After Survey of Affairs

CHICAGO, July 15.—What will I see? How will I feel? How will I be? These are the questions that are being asked by the I. S. E. citizen after a survey of the events of the day.

A group, made up of the day's news, was read through a microphone at the I. S. E. headquarters.

One of the interesting items was a report from a woman who had been in the hospital for several days.

She was discharged by the doctor, but she was not allowed to leave the hospital until she was well enough to do so.

A. A. Wood of East Town, Ill., also was present because his party disturbed his neighbors.

A group of Boston boys played football with a bunch of Chicago boys.

The team of New York won the game.

A Chicago girl appeared in a play with fireworks.

She was in an auto, and covered herself with a blanket of Chicago.

July 15th—John Adams is the birthday of a British hero.

Four-year-old Cyril Ferguson of Chicago, Ill., broke his pipe and scattered his tobacco against the wall and on the ceiling.

Four children's legs in Toledo, Ohio, landed in a tub.

A bear equipped with legs, a head, a tail and a voice was placed on display.

The animal which had been in Chicago several years before it was exhibited at the art show on park square.

An English piece of his own design was buried under a stone.

An American on a cat island in a coffin.

The University of Chicago issued its list of hearing to "all the world's people by wireless."

Several interesting advertisements.

A couple had down 1,200 in the game—they heard they would bring them back to Chicago a horse and captain of Wichita, Kan.

Camp Foster Notes

July 15, 1918.

A large number of the boys took advantage of the holiday to leave camp for a day or two. Some of them went to the beach, some to the lake, and some to the woods.

Some of the boys who were in camp today were the ones who were in camp yesterday.

At 8:30 P. M. the regular band concert was given.

The concert was given in the large hall of the camp.

At 8:30 o'clock this morning the regular drill of the first week began, the morning being spent in physical training and field training of regiment in which each company and each platoon was given some instruction in the shape of a drill.

At 8:30 o'clock the regular drill of the first week began, the morning being spent in physical training and field training of regiment in which each company and each platoon was given some instruction in the shape of a drill.

The 10th Machine Gun Battalion, which is now in camp at Foster, has been in camp for several weeks.

from this department," Miss Pott answered.

Asked whether other government departments might have discussed the advisability of persuading the shipowners to agree to arbitration by reminding them that they were receiving federal assistance, the secretary replied: "Well, financial phases have been discussed in my presence."

The secretary said raids on communist centers in San Francisco had not been made with the approval of the labor department.

"We know nothing about them until they had occurred," she said. "I do not know the reason for them."

The secretary said she knew nothing of the transportation of strike breakers to San Francisco "other than what I have seen in the papers."

"I do think, however," she said frankly, "that the use of strike breakers is preventive and preventive."

Jap Spokesmen Will Come To Washington

WASHINGTON, July 18.—(AP)—Japanese spokesmen will visit Washington next month and will meet, by informal conference, to prepare for the negotiation of a new naval arms limitation treaty in 1953.

These discussions are generally expected to include: An effort by Japan to obtain a new understanding on respective positions and purposes in the Pacific, later to be extended to Great Britain.

The continuing Japanese quest

HANSON TELLS HOW HE HANDLED SEATTLE STRIKE

Pioneers Say General Strike Can't Exist If Law, Order Rule

By OLE HANSON
(Special Writer for The Associated Press)

LOS ANGELES, July 13.—If San Francisco wants to see its industries decline and its prestige as a rival California city, Los Angeles, all it has to do is to allow agitators and communists to run its affairs.

No general strike has a chance to reach first-class law and order is maintained.

A general strike began in Seattle while I was mayor. It started Feb. 6, 1919, and ended in complete defeat for the strikers in a few days. Seattle was a staunch union town. When the shipyards called many thousands of its itinerant workers, including draft dodgers and a large number of radical forgers, the Central Labor Council, which up to that time had played the game fairly and squarely, changed first to a pink and then to a deep red.

The American flag was torn down from the Labor Temple, revolutionary speeches were made, anti-American resolutions were passed, and a conspiracy was hatched whereby under the guise of the shipyard workers' grievance, a general strike was called in the belief trouble would spread and overthrow eventually our government.

Votes of the workers were taken at night after the home owners had gone home, and finally a general strike was declared.

As a member of the Boiler Makers' Union, I worked in the shipyards from 4 P. M. until 12 P. M. after my day's work as mayor was done. I had assisted in passing in Washington nearly every labor law on the statute books for 20 years, but when the general strike was called, punishing 800,000 people innocent of wrongdoing, and labor leaders printed permission placards, stating that unless persons obtained such cards they could not buy bread or even bury their dead, I saw at once it was a revolutionary attempt and nothing else.

Sixty-five thousand men walked out; elevators were left at the floor when the hour struck, street cars stopped, restaurants closed, and the strike committee went into a prolonged session which I attended. They wanted to turn off the water and electricity and tie everything up tight.

I told them to go to hell, that I

15 OUTSTANDING FINDS MADE AT STATES STATION

Advance Copy Of 1933 Agriculture Report Gives Plant Credit

GAINESVILLE, July 13.—With attention over the country turned to the Florida Experiment Station for its recent discovery of the cause of leukemia in chickens, Dr. Wilmon Newell, director of the station, has received an advanced copy of last year's annual report of J. T. Jardine, chief of agricultural experiment stations over the country, and it contained fifteen mentions of outstanding discoveries made by the Florida station during the fiscal year.

This report shows an unusual contribution toward solving the state and nation's farm problems, considering the small number of research workers in Florida compared with other states.

Among Jardine's mentions were discoveries that touched citrus growers, truckers, live stockmen, and about every other type of farmers in the state. He gave liberal space to the discovery of a method for storing orange juice in milk bottles for a week or longer, making regular delivery feasible.

He told how research with grasses has allowed Florida's cattlemen to pasture from two to ten times as many cattle per acre. Solving of salt sick, the state's most costly cattle trouble, received no little praise. An earlier study of citrus freight rates, Jardine said, "was believed to have played an important part in reductions that saved Florida growers a million dollars the first six months of 1932 and large amounts since."

Money saved for Florida was again shown in Jardine's comment about the station's working out of a spray for a deadly tomato disease in the lower peninsula. Sprayed tomatoes, he said, have given 50 percent better yields and 40 percent more of the shipped tomatoes have reached market without rotting. The station also showed how poor grading and packing of vegetables is costing the state millions, and putting it at a disadvantage with other sections.

In finding the cause of stiffs or sweency in cattle the station has solved another mineral deficiency in feeds, the report showed. It also made mention of finding a citrus fruit wrapper that checks loss of juice, of citrus and tobacco insect control experiments, of pecan fertilizers, of a study of the diet and health of Florida families, and of other vital findings made during the year.

The time has come for every person in Seattle to show his Americanism. Go about your daily work without fear. We will see to it that you have food, transportation, light, water, gas and all necessities. The anarchists in this community shall not rule its affairs. All persons violating this law will be dealt with summarily.

Our willingness to use armed force and protect life and property need those in control of the strike. Not a shot had to be fired. Not a fist fight took place. There was no rioting of any kind or character. We opened up all stores, ran the street cars, and not a light was turned out.

A few weeks after the general strike was over a city election was held. I induced certain candidates for election who had stood by me in the strike. Everyone was elected and our largest majority was in the union wards.

The mayor of San Francisco and his acting governor of California have but one path to tread and that path leads them direct to their sworn oath. They are sworn to uphold the law, and the law does not differentiate between strikers and strike breakers, employes and employers, or between union owned property or employer owned property.

Mrs. McAdoo Secures Divorce From Senator

LOS ANGELES, July 13.—(AP)—Mrs. Eleanor Wilson McAdoo, daughter of the late President Wilson, obtained a divorce from William Gibbs McAdoo, Democratic Union senator from California, in superior court here Tuesday.

Within 20 minutes after she had filed a suit complaining of incompatibility and of the climate at Washington, where her husband spends so much time, she was granted a decree and custody of the couple's two children. A property settlement which was not made public, was approved and

he was working, gave way under his weight, and he fell on a rafter. He came here recently from Kansas.

Ten Million People HELPED BUILD THIS TIRE!

The NEW Firestone CENTURY PROGRESS TIRE

THE TIRE SENSATION OF '34 Sells on Sight!

TO SEE it is to buy it! That's the way extra value stands out in the new Firestone Century Progress Tire. We found out what car owners wanted most in a tire—then we gave it to them. Out of more than ten million visitors to the Firestone Factory at the World's Fair last year, we obtained this opinion: "Give us Slowest Protection, Non-Skid Safety, and Long Wear, at a Moderate Price."

So we built the greatest tire ever made by sell at these low prices. Then the wave of buying started—car owners from Coast to Coast bought—not just one at a time—but complete sets!

Go to the Firestone Service Dealer or Service Station in your community TODAY! See the new Firestone Century Progress Tire—just look at the broad, heavy shoulders, massive flat tread, deep-cut non-skid and non-slippery cords. Did you ever see so much tire for so little money? No wonder it's the Tire Sensation of '34 and sells on sight! Why not equip your car with a standard non-skid tire that are still at today's low level. And remember, you get the new Firestone Tire Guarantee.

Grizzly Bears Mangle Denver Zoo Keeper

DENVER, July 13.—(AP)—Two huge grizzly bears, maddened by the heat, attacked and killed their keeper, Charles E. Wyman, as he was cleaning their pen at the City Park Zoo Tuesday.

Scores of persons, attracted to the scene by the roars of the bears and the shouts of the 70-year old keeper, stood by powerless to aid. Zoo guards attempted to drive off the enraged animals by shotgun fire, but the buckshot seemed only to arouse the bears to greater fury.

Police were called, but before they could reach the scene Wyman had been mangled to death.

DARING RAID ON ARMY POST IS SUCCESS

Unidentified Civilian Cows Several Men On Governor's Isle, Escapes With Friend

NEW YORK, July 20.—(AP.)—A soldier, cowing his fellow soldiers, an unidentified civilian "attacked" the Governor's island post of the United States Army and executed a daring delivery of an Army prisoner today.

The prisoner was Melvin Blanton of Camden, Ohio, an inmate of the disciplinary barracks.

Blanton, who had twice escaped previously from Fort Thomas in Kentucky and once from Fort Benjamin Harrison in Indiana, was working with other prisoners at the southernmost end of the island.

A sentry, Stephen Gressgorok, stood guard armed with an automatic shotgun when a civilian approached.

He drew a pistol and told the guard "Drop that gun or you'll get hurt."

The sentry dropped the gun and the man picked it up.

Just then an Army truck with two soldiers and a chauffeur arrived.

The bold invader forced them to get off the truck and stand with the sentry and the two other prisoners.

Next a passenger automobile came along with an island detachment of the Civilian Corps.

Wanting the group not to pursue Blanton and his deliverer ran to a road and left.

The sentry followed the chase and he was on the Brooklyn side of the bay.

Blanton, who had twice escaped previously from Fort Thomas in Kentucky and once from Fort Benjamin Harrison in Indiana, was working with other prisoners at the southernmost end of the island.

Al Smith Returns To Give Advice To James Dooling, Tammany Hall's Chieftain

NEW YORK, July 20.—Al Smith, "Happy Warrior" of other days, made his peace yesterday at the Tammany wigwam.

The former governor, estranged from Tammany Hall in the turbulent reign of John F. Curry, returned to give his advice and counsel to the new leader, youthful but cautious James L. Dooling.

"I had a talk with the new leader," Smith said at his office in the Empire State Building.

"We discussed the constitutional amendments for a new form of city government. I found his views were very sound. He expressed the desire to be helpful and I think he'll come along in fine shape. He's coming to see me next week for a longer discussion."

Asked if their visit foretold a return to influence once more in Tammany, the 1928 Democratic presidential candidate asked: "What do you mean by that?"

"Well, everyone knows your advice has not been sought and has not been given in Tammany in recent years. Does your visit with Dooling mean you'll once more be active and give your counsel in shaping its policies?"

"Yes," he replied. "I suppose that's right."

"I am anxious to help the young man all I can. I like him and I think he's going to do a fine job."

The hearing showdown in the (Continued On Page Two)

CITY, COUNTY GROWERS ARE BLAMED FOR BOND RETURNS TO OLD LEVELS CITRUS ILLS

Washington Attorney Urges End Of Consignment Shipping, Auction Marketing

TALLAHASSEE, Fla., July 20.—(AP)—Florida counties have been told by the supreme court that they must make up their minds and keep them that way—on what disposition is to be made of bond funds accruing to their credit with the state board of administration.

If a county wants to buy bonds with the money, that's all right, the court said, so long as the county specifically says so and then sticks to it.

In this case, said the court, this situation prevailed: Pinellas county put into its road and bridge district bonds for bond interest and principal the gasoline tax funds accruing to its credit with the state board of administration.

The court laid down its instructions in a case brought against Pinellas county and the state board of administration by the Florida National Bank at St. Petersburg.

The bank won a peremptory writ of mandamus requiring the state board to use funds credited to Pinellas county in payment of bond interest and principal.

In this case, said the court, this situation prevailed: Pinellas county put into its road and bridge district bonds for bond interest and principal the gasoline tax funds accruing to its credit with the state board of administration.

The court laid down its instructions in a case brought against Pinellas county and the state board of administration by the Florida National Bank at St. Petersburg.

In this case, said the court, this situation prevailed: Pinellas county put into its road and bridge district bonds for bond interest and principal the gasoline tax funds accruing to its credit with the state board of administration.

Supreme Court Instructs Counties To Decide Upon Use Of Thier Bond Funds

Washington Attorney Urges End Of Consignment Shipping, Auction Marketing

TALLAHASSEE, Fla., July 20.—(AP)—Florida counties have been told by the supreme court that they must make up their minds and keep them that way—on what disposition is to be made of bond funds accruing to their credit with the state board of administration.

If a county wants to buy bonds with the money, that's all right, the court said, so long as the county specifically says so and then sticks to it.

In this case, said the court, this situation prevailed: Pinellas county put into its road and bridge district bonds for bond interest and principal the gasoline tax funds accruing to its credit with the state board of administration.

FRISCO BACK TO NORMAL AS STRIKE ENDS

Seattle Is Scene Of Clash Between Police And Pickets; Portland Disturbed

San Francisco regained its normal routine today following the termination of the general strike, but in Seattle police and pickets clashed.

Shooting long range tear gas guns, police led by Mayor Charles Smith drove long shore pickets from two piers.

Several persons were injured by the gas which proved somewhat of a boomerang. Police did not wear gas masks.

Ten miles out of Portland National Guardsmen are camped prepared to advance upon the city with bowiters and machine guns if pickets interfere with shipping plans to open the port.

Labor has threatened a general strike if troops invade Portland's waterfront.

The mass strike of San Francisco union labor was called off yesterday as its very structure was being smashed by public opinion.

The labor steering committee which engineered the mass walk-out voted 191 to 174 recommending the immediate return to work of all unions that went on strike in sympathy with longshoremen and marine workers.

As soon as the word of the committee's action was flashed, the truck back to work, out of almost the proportions of a stampede of the metropolitan area of 1,400,000 persons.

Called off, both union and non-union men had been returning to work.

Industry that had been paralyzed for a time for the mass walk-out last Monday of nearly 100,000 workers was reviving against the degrees set up by the strike organization for the emergency conduct of its affairs.

Statements from the persons who figured largely in the general strike follow:

General Hugh Johnson, NRA administrator, spokesman for the national longshoremen's board said: "Since the general strike has been called off and the threat of martial law dispelled, I will use all my influence to bring this controversy to immediate arbitration."

Mayor Rossi of San Francisco congratulated the real leaders of organized labor on their decision. "We will tolerate no tyranny either of communism or any other interference with constitutionally established rights. The crushing of this general strike must not be equated by means San Francisco either will declare or will tolerate any attempt to destroy union labor or invade its rights."

Ralph Malin, publicist chairman of the international longshoremen's association: "It can take 30 days to get off the strike and will carry on. We would have been a lot better off if the general strike never had been called. Now we are a lot worse off than ever. But we will prove that we can take it."

Sizzling Heat Wave Brings Death To 50 All Over Country

Blazing midsummer heat left death and devastation today from Texas to New York and Georgia to Nebraska.

The death list numbered more than half a hundred. Some sections had acute water shortages.

AVIATION BOARD OPPOSES IDEA OF UNIFIED FORCE

WASHINGTON, July 20.—Creation of a unified air force—of the most hotly-contested questions in American aeronautical policy—is opposed in the report just made to Secretary Dern by the special aviation committee headed by Newton D. Baker.

The committee, headed by the war-time secretary of war, based its recommendation on the contention that its three-months' study of American aviation problems showed conclusively the United States was second to no other nation in aeronautics.

MRS. MORSE SENT TO DAYTONA TO DIRECT RELIEF

Regional Relief Administrator O. P. Swope of Orlando announced from Jacksonville headquarters today that he had appointed Mrs. Helen T. Morse of Sanford as director of relief for Volusia county, succeeding Mrs. Emma Cochran. The change is effective as of next Monday.

Mrs. Cochran, target for considerable criticism which also is directed at many other FERA officials in Volusia county, will take charge of the relief division in Brevard county while the director of the relief division in Volusia county will be Mrs. Morse.

ORLANDO'S IDLE WANT O. P. SWOPE FIRED FROM JOB

ORLANDO, July 20.—Decision to picket all FERA jobs, where men are still at work, and announcement that the Central Labor Council of Orlando had voted unanimously to support the plans of Orange County Workers Square Deal Association were the principal features of the meeting of the association held at the city auditorium Thursday afternoon.

A. P. Lillivik, president of the association, told the approximately 500 workers present that the petition being circulated asking the removal of Regional Director O. P. Swope and Col. R. M. Shearer, director of work in Orange county, already had 1,000 names.

CITY NEWS BRIEFS

Local weather yesterday: High 95; low 74.

The Department of Agriculture at Tallahassee reported today that during June, this county consumed 187,679 gallons of gasoline, 18,987 gallons of kerosene, and 280 tons of fertilizer.
