THE NEW WOODTEX BRICK FOR PAVING

(By R. J. HOLLY)

In these days of bond issues and paving contracts and Dixie Highways and Hickey Byways no man knows when he goes to bed at night just what may happen in paving material ere he arises to put eau de cologne on his feet in the morning. There are sand, asphalt, and asphalt sand and sand oil roads and oiled sand roads, concrete fillers and red brick wrappers and Colorado maduro groutings and claro de brico curbs and all kinds of fancy and high sounding materials that are enough to give the boards of county commissioners the night mare.

Up to the present time the expensive brick that costs so many dollars at the factory and twice as much for freight seems to have the right of way but that there are other materials is patent to the close observers although just what these compounds may be is not at all clear at present.

Sand oil roads may be the very thing. They look good after they are laid but so did our ancient marl roads—they looked good until the automobile made them look like thirty cents. The sand oil may stand the traffic and they may not. Asphalt may be the thing or some kind of concrete mixture but all of them cost money and if in time they prove deficient the various counties that are trying them will be out the money for the experiment. Every county that tries a new kind of material or a new method of laying is doing just that much more for posterity but durned little for the present day taxpayer.

All of which brings us to the story of the Woodtex brick which may be the real thing or it may be a gold brick. Being one of a party at Kissimmee one day this week I took the time to examine the Woodtex brick and also saw a portion of the main street of Kissimmee that was laid three months ago to try the new brick. The sample piece is at the corner of one of those octagonal streets that are affected so much by the Kissimmee people. Those eight cornered streets down there were laid out by a cow puncher on horse back after he had visited the Red Eye saloon several times.

At the middle of one of the main streets leading off from Broadway these new blocks were placed in a square space about five feet across and here the bricks get the heaviest part of all the traffic that strikes the streets. Up to the present time the new bricks show no sign of wear and tear. The other day a car ran across the brick on the rims and cut a deep hole in the new brick but this same trench is almost healed over or annealed together and in a few more days this trench will not even be visible. The new brick is standing up as well as the regular vitrified brick on all sides of the space but of course this is only a three months test.

What are the Woodtex bricks? Well, they are made from cypress shavings and asphaltum and creosote, the materials of course being kept secret by the manufacturers. The bricks are placed under a tremendous pressure and come out of the machine as hard as any vitrified brick but much lighter. They are laid side by side without any sand or other material between them and seem to form a part of the whole paving, almost as well as an asphalt pavement would do. The blocks are resilient, almost noiseless for traffic, are fire proof, moisture and water proof and have many good qualities.

There is a sample of the new block in the Herald office and we shall see more of them in the near future as a large factory will soon be built in Kissimmee to manufacture them.

At present the cost of manufacture cannot be figured but they can be made much cheaper than brick and the freight can be saved, making a much cheaper paving.

As I remarked before, however they are another experiment at present.

GOVERNOR TRAMMELL

Among the policies that will be advocated by Governor Park Trammell in his candidacy for the United States senate is that of urging the United States Government to grant to the State of Florida, the equivalent of the 32 sections of public lands within the state, for the state school fund. Governor Trammell states that in justice Florida is entitled to this consideration at the hands of the Federal government and that if he is elected to the senate he will endeavor to have passed by congress a measure carrying out this policy. Governor Trammell bases his position upon this matter on the fact that congress in making

land grants to the states has granted to many of them both the 16th and 32nd section in each township, while Florida has received only the 16th section. Governor Trammell says that if Florida can only get her just share of land from the federal government for school purposes, so this state may be on equal footing with many of the other states, that the state school fund will be enriched approximately one million acres of land or its equivalent in value. It will be remembered that Governor Trammell made a recommendation to the Legislature of 1913 on this subject and as a result a memorial to congress was passed asking that the United States congress grant to the state school fund the remaining United States lands in Florida.

Rummage Sale

The Civic Department of the Woman's Club will hold a Rummage Sale in the vacant room of the Bishop Block tomorrow afternoon.

Uncle Eben Reflects.

"Some men uses big words," said Uncle Eben, "de same as a turkey spreads his tail feathers. Dey makes an elegant impression, but dey don't reppresent no real meat."

LEGAL ADVERTISING

Notice of Application for Tax Deed under Section 575 of the General Statutes. Notice is hereby given that J. P. Laing, purchaser of Certificate No. 980 dated the 3rd day of June A. D. 1912 and certificates Nos. 529, 533, 576 and 581 dated the 2nd day of June A. D. 1912 has filed said certificates in my office and has made application for tax deed to issue in accordance with law. Said certificates embrace the following described property situated in Seminole County Florida, to wit:

Certificate No. 980 dated the 3rd day of June A. D. 1912 embraces All Bk 1 N, Tier 22 Sanford, the said land being assessed at the date of the issuance of such certificate in the name of Alex. Vaughn.
Certificate No. 529 dated the 2nd day of June A. D. 1912 embraces S. 1/2 of Bk 11, Tier 13, Sanford, said land being assessed at the date of the issuance of such certificate in the name of Sam. H. Hester.
Certificate No. 533 dated the 2nd day of June A. D. 1912 embraces Lot 4, Bk 13, Tier 2, Sanford, said land being assessed at the date of the issuance of such certificate in the name of W. W. Johnson.
Certificate No. 576 dated the 2nd day of June A. D. 1912 embraces Lot 5, Standard's Add. Sanford, said land being assessed at the date of the issuance of such certificate in the name of A. D. Stentford's Heirs.
Certificate No. 581 dated the 2nd day of June A. D. 1912 embraces Lot 6, Bk 8, A. D. Chappell's Sub. Div. Goldsboro, said land being assessed at the date of the issuance of such certificate in the name of G. W. Benton.
Unless said certificates shall be redeemed according to law, tax deeds will issue thereon on the 27th day of October, A. D. 1915.
Witness my official signature and seal this 22nd day of September, A. D. 1915.

PUBLIC SCHOOLS HAVE OPENED IN THIS CITY

LARGE ATTEN- DANCE GREETED FACULTY AT HIGH SCHOOL AUDITORIUM

Sanford public schools opened yesterday with the usual large attendance and while the official figures cannot be obtained at this time there will probably be about 600 pupils enrolled in the next few weeks.

The opening exercises were formal, taking the part of a friendly gathering for a few words of encouragement to the pupils and teachers. The assemblage was at the high school auditorium about nine o'clock and was presided over by Prof. Ezell.

Dr. Brownlee, Rev. Hyman and Rev. Strong and F. P. Forster, D. L. Thrasher, H. R. Stevens and S. Runge all made strong appeals for the cooperation of patrons and parents for the upholding of the teachers' hands during the coming term. The exercises were very interesting and the scholars gathered in the auditorium were greatly impressed by the words of the gentlemen on the stage.

The task of assigning the pupils to their various grades in all the schools proceeded yesterday morning with great precision and as the rooms had already been given together with the teachers the scholars knew just where to go and the school opened with clock-like precision.

The two new rooms recently constructed at the high school for the grammar school pupils were inspected yesterday and pronounced to be all that could be desired. In fact, the public schools start in this year under most favorable circumstances and with a fine faculty and the patrons of the school are looking forward to a well rounded out scholastic session.

Funeral of J. D. Roberts

The funeral of J. D. Roberts occurred from the late residence on Laurel avenue last Friday afternoon at 3.30 o'clock. The Elks and Eagles marched to the home from their respective lodge rooms and there were over one hundred members in line. The beautiful funeral ceremony of the Elks was used at the home, supplemented by the rendering of the "Vacant Chair" by a male quartette. Rev. George Hyman of the Baptist church officiated and the members of the Baptist choir also rendered several selections.

At the grave the Elks had charge of the burial and after a prayer by Rev. Hyman all that was mortal of this fine young citizen was laid to rest amid the tears of the family, friends and relatives.

The floral tributes were perhaps the most beautiful and largest collection ever seen at a funeral in Sanford, testifying to the love and esteem in which Mr. Roberts was held by his many friends in and out of the city. Handsome mounted designs in rare and exquisite flowers were sent by the Elks, the Masons, the Woodmen's Circle and "The Boys," the latter sent by the close personal friends of the deceased. From the Eastern Star there was a beautiful bouquet, while from Wilmington, N. C., came an anchor and wreath. The room in which the casket rested was just a mass of floral offerings. The mantel and beneath it was banked with designs and flowers from friends of the family in North Carolina and Virginia. The tributes from Espaloro were equally lovely and in such quantities. The grave was an exquisite mass of bloom when the flowers had been placed.

County Takes Oil Business

H. B. Coney will take charge of the Sanford branch of the Gulf Refining business on the first, the present manager, Mr. Ellerbe leaving for his old home in Orlando to engage in the same line of business. Mr. Coney has worked up a fine business here and in Orlando on the celebrated Elder Springs water and is loathe to give up this business, but Capt. Elder will continue the

business of supplying the thirsty while Mr. Coney furnishes the oil—sort of pouring oil on the water—and the patrons of Gulf oil and Elder water will receive their supply as formerly.

MENDENHALL FOUND GUILTY

WITH RECOMEN- DATION TO MERCY

Clearwater 3 p. m.—Verdict murder in first degree. Recommend mercy of court.

Notice

All members of the Brotherhood Class of the Baptist church are urged to be present at a special business meeting on Friday evening, 7.30 at the Temple.

GEN'L GILCHRIST REITERATES HIS IGNORANCE PLEA

BUT HERE'S OUR GLAD HAND GEN'L FOR IT'S PLAIN YOU'RE LEARNING

"I would state that there are a great many things in heaven and earth of which I am ignorant, one of which was the proposed canal on the St. Johns river. That has been thoroughly impressed upon me by Mr. Promover," says Gen'l Gilchrist.

All right, General, here's our congratulations. That's what peev'd us, to think you didn't know a thing about it, and went and committed yourself to what you hadn't ought'er. The rest of what you have to say is simply a reiteration of what we told the dear people through our excellent medium, The Sanford Herald, in our previous article, wherein we quoted from your letter to sundry Sanford friends. You've got the idea, precisely what we wanted. That was the sole and undivided object of the "attacking or torpedoing a candidate," Governor, dear, Promover.

Longwood B. Y. P. U.
Group No. 3 rendered a very interesting and instructive program Sunday, Sept. 19th. We want to let the people know that we are feeling very much enthused over our union. The president is also more encouraged over the good attendance of the members and visitors who are present every Sunday afternoon.

The program last Sunday was taken from Proverbs 4th chapter. Subject, "Solomon Exhorteth to the Study of Wisdom."

The president took charge at 3.30 and the program was rendered as follows.

Song No. 271, Praise Him, Praise Him.

Prayer by Mr. J. M. Waits.

Song No. 579, Wonderful Words of Life.

Captain, Miss Lillian Waits in charge.

Scripture Reading by members of Group 3 from Proverbs.

Song No. 419, Narrow and Straight.

Remarks on Scripture Reading.

Secretary's report.

Song No. 564, Follow On.

Dismissed with Lord's Prayer.

Reporter.

"Go-to-Sunday-School Day
Next Sunday morning at the Congregational church we have set our aim for an increase in our S. S. attendance next Sunday, at 40 per cent. It is especially desired that each class will do its share to meet this increase. Let every member of our school get busy.

PRESBYTERIANS TO CELEBRATE NEW CHURCH

WILL START WITH SERIES OF REVIVAL MEETINGS NEXT SUNDAY

At the Presbyterian church, last Sabbath, H. C. DuBose, chairman of the finance committee read a report of the progress made on the new church building, showing that up to date \$5,250 had actually been raised and spent on the building. His report was an eye opener even to the Presbyterians for few of them realized that the church officials had been putting in such good work. The Sunday school rooms are almost finished and the temporary structure for the church proper will be adequate for the services all winter. The windows have been shipped and will soon be placed in position and all the work of finishing the Sunday school will be rushed. The church building will not be touched until sufficient funds have been raised to complete it. The various organizations of the church are working and have money for the extension work. The Presbyterians feel greatly encouraged at being in their own building and already the attendance has increased one third more, as the members and visitors feel more at home in the building than they did in the theatre building.

In honor of the great event of moving into their own building the Presbyterians will hold revival meetings for several weeks commencing next Sunday. The revivals will be in charge of Rev. J. C. Venable of Jacksonville. Riverside Presbyterian church. A large choir of forty voices will render the music and much good will result from this series of meetings.

The Presbyterian congregation is to be congratulated upon their good work in building during the strenuous times of the past twelve months and their progress is marvelous considering the many difficulties encountered.

The public is cordially invited to attend the meetings and especially the revival meeting commencing next Sunday. Dr. Venable is a forceful speaker and will be a power for good in this community.

Compost Pile Saves Fertilizer

Commercial fertilizers do not build up the land. They act merely as stimulants. The best means of increasing the fertility of the soil is by the addition of organic matter. The compost pile is one means of supplying good organic material for the farm. The materials which can be used are ordinarily wasted, and the expense of making the pile is slight when compared with its fertilizing value.

C. K. McQuarrie, state agent for the University of Florida Extension Division, gives the following directions for building a compost heap. Make a water tight foundation by puddling clay. Spread the clay about 10 to 12 inches thick, moisten and stamp. A frame of 4 or 5 lumber should be started around the pile and gradually built up as material is added. The size of the pile must be determined by the amount of manure produced in a week. This of course will be determined by the number of animals. The pile should accommodate the accumulation of a week, spread 3 or 6 inches deep.

A layer of leaves, pine needles, straw, grass or weeds even, 15 to 18 inches deep should be placed on the clay. It is probable that the heat generated would kill any weed seeds. Then place a layer of manure 5 to 6 inches deep over the trash. If raw phosphate is available sprinkle 50 to 80 pounds over the manure. Then add another layer of trash, followed by a layer of manure. The pile should be kept moist. Sprinkle if rains do not occur often enough. Keep it well tramped.

It takes about a year for the pile to rot sufficiently for use. It should be spread on the land during late fall. Another pile should be started as soon as one gets too large or as soon as the year is up. The compost pile will add materially to the fertility of the land and will furnish better fertilizer than the commercial product.

COMMERCIAL CLUB MEETS FRIDAY FAIR DECISIONS

EVERY MEMBER SHOULD BE PRESENT TO DECIDE ON COUNTY FAIR

The Commercial Club will meet next Friday night at the city hall for the purpose of deciding whether Seminole county will hold a fair or not. There has been no consideration of the matter of the county fair as yet and the commissioners at their meeting last month being approached by the committee from the Orlando County Association regarding Seminole showing at Orlando decided to do nothing until the expression of the people had first been heard. The matter has been put up to the Commercial Club of this city and the boards of trade of Geneva and Oviedo to learn just what the people want in the matter of a fair exhibition.

It behooves the business men of this city to attend the meeting next Friday night and discuss this matter from every angle. If it is the desire of the people to have the fair here it is high time that something was being done to get ready for it. If we do not want a fair here Seminole county should have a fair exhibition at Orlando and Tampa and Jacksonville if possible. In other words the fair idea is a good one and our county should exhibit the resources of this section either at our own fair or at some other fair or fairs.

We have too great a country to hide our light under a bushel and the exhibition of our resources should be made every year. The Seminole Fair Association of last year was a strong one and some of our greatest hustlers were enrolled under the committee. The fair was a grand success in every way and only two days of inclement weather placed the association in arrears. It was conceded that the first two days of the Seminole county fair were the greatest in the history of Sanford and the attendance was a record breaker. If possible we should repeat the fair this year and with the experience gained last year it should be a success in every particular.

Congregational Church News

Our Christian Endeavor Society, had a splendid meeting last Sunday evening under the leadership of Mrs. J. D. Davison, assisted by Miss Margaret Strong.

The topic for the evening's discussion was "Shields against Temptation," in which almost every one present took some part.

One of Billy Sunday's most popular hymns, "Brighten the corner where you are" was effectively sung as a trio by the Misses Margaret Strong, Edna Chittenden and Clarice Hand, accompanied by Mr. Fraser Armstrong.

Next Sunday the meeting will be under the leadership of Miss Albine Frank, assisted by Mr. Percy Packard.

Appointment of Postmasters

Postmaster General Burleson has made it plain that postmasters in the Presidential grades will be held to strict accountability in the matter of the time they devote to their respective offices and the character of service they actually perform. From information received by him it is apparent that some postmasters after receiving the appointment have imposed a considerable portion of the duties of the post office upon the subordinates in order to utilize the time for personal ends, and he proposes not merely to discourage this practice but to stamp it out. It is the policy of the administration to require, in all cases conscientious and efficient service from its officers and employees. Neglect of duty and inefficient service on the part of postmasters will not be tolerated.

Clerks and carriers attached to postoffices are required by law to render service for eight hours daily and the Postmaster General sees no reason why the postmaster who is directing and whose compensation greatly exceeds that of any of the employees under him should not give at least an equivalent in time and effort. The postmaster is selected for the position which he holds because of his presumed su-

ST. JOHNS RIVER ADOPTED BY ORLANDO BOOSTERS

BOARD OF TRADE ENDORSES ST. JOHNS RIVER FOR CANAL ROUTE

Following the visit of the Sanford delegation to Orlando last week asking for an endorsement of the St. Johns river route in the event the government takes over the East Coast Canal, the committee named by the Board of Trade with authority to act, drafted and forwarded the following resolutions to Mr. E. T. Woodruff, chairman of the Sanford committee.

Whereas, It appears that citizens and public bodies, representing territory adjacent and tributary to proposed inland waterways in the eastern section of the state of Florida are suggesting to the Congressional board of engineers two routes looking toward government ownership of the better.

Whereas, The Orlando Board of Trade, representing a large territory, of which Orlando is the natural center, believing after due study and consideration of the two routes proposed, that for the reasons set forth in the general resolutions accompanying, which have brought to the notice of this board, and because it is apparent that the entire territory now being developed and populated in excess of all other similar area in the eastern southern and middle sections of the state, is that lying next to the St. Johns river, hereby presents a resolution, duly adopted in open meeting, as follows.

Resolved, That in the judgment of the Orlando Board of Trade, the proposed St. Johns river route, to a connecting point with the Indian river, both being natural waterways already established, is the route calculated to be of the greatest benefit to the largest area and of the greatest industrial value to by far the largest number of inhabitants.

Resolved. That in the judgment of the Orlando Board of Trade, the proposed St. Johns river route, to a connecting point with the Indian river, both being natural waterways already established, is the route calculated to be of the greatest benefit to the largest area and of the greatest industrial value to by far the largest number of inhabitants.

Signed,
J. H. Reese, Chairman.
E. G. Hauselt, Sec pro tem.
Orlando, Fla., Sept. 23, 1915.

The committee was composed of Messrs. W. R. O'Neal, Jas. L. Giles, C. E. Howard and J. H. Reese. Mr. Giles secured many signatures to the petition which was addressed to the board of government engineers, and which was endorsed as an independent document aside from the resolution reproduced above.

Reporter-Star.

Clarence Woods Here

Hon. Clarence Woods, editor of the Eustis Lake Region and the silver tongued orator of the Press Gang was in the city yesterday and was accompanied by one of the contractors who are putting down the sand asphalt roads in Lake county. They came over to discuss this evening with Seminole county people, but since our bonds call for brick roads, we have no alternative but take brick. Clarence Woods was made welcome nevertheless, for he has a host of friends in Sanford.

Commercial Club Friday Night

The Sanford Commercial Club will meet at the city hall next Friday night to consider the Seminole County Fair. All members and all who have the county interests at heart should be present. The county people especially are urged to attend the meeting in order that an expression of their ideas can be obtained.

Entertainment

The ladies of the Methodist church will give an entertainment next Friday evening, Oct. 1st, at the home of Mr. and Mrs. L. R. Phillips on Park avenue.

All who have mite boxes will please bring them, as the opening of the boxes will be one of the features of entertainment.

All members and friends of the church are cordially invited to attend. Those who may wish to make an offering to the mite box collections will have an opportunity to do so at this time.
Mrs. C. H. Smith, Secy.

LATE WAR NEWS SHOWS GAINS FOR THE ALLIES

FRENCH AND ENGLISH CAPTURE TRENCHES AND 20,000 PRISONERS

The tremendous struggle on the battle front in the west begun Saturday with the new offensive movement by the allies has resulted in more success for their arms.

Paris reported today that additional German positions have been occupied in the Champagne district, where in their initial drives, the French penetrated the German lines along a front of fifteen miles to a depth reaching in places as much as two and a half miles.

All the gains made in the Artois section, where Souchez was captured, and other advances scored, have been maintained, the French war office declares.

On the eastern front the Russians seem to be holding their own at most points, and doing even better in some sections. Their resistance around Dvinsk is apparently stronger while they are desperately battling with the Germans near Vitebsk and Smorgon. Petrograd reports new successes east of Novo Grodek and to the north of Vitebsk, with the taking of several hundred prisoners and some machine guns.

Little activity of a pronounced sort is reported from the Dardanelles. The Turks announce the success of a counter mining operation and the continuation of artillery exchanges.

Shell fire from German submarine sank the British steamer Natal transport, of 2,655 tons, south of Crete in the Mediterranean. Her crew was landed.

Twenty merchant vessels have been requisitioned by the Greek government for the transport of troops, of whom 400,000 are officially announced to have been called to the colors.

Rumania, in a note couched in friendly terms has asked the Soviet government for an explanation of Bulgaria's military preparations, according to information reaching Italy.

New York, Sept. 28.—The cable companies said that their lines are uninterrupted, but no war news has come from London. Apparently a strict censorship over all war news is being enforced today.

Washington, Sept. 28.—Austria has informally notified Ambassador Fenfield that the government will recall Dr. Dumba, the Austrian Ambassador to the United States, as requested by President Wilson.

Office in Herald Building Telephone No. 142

Volusia county will have a fair this year.

Seminole county should repeat the county fair idea again this year.

The Mendenhall case will soon be off the boards and then we can place the war news on the front pages of the dailies again.

Willis Powell very modestly admits that the Clearwater Sun is the greatest country daily in the world and we believe he is more than half right.

Clarence Woods not only believes that sand oil roads are good for Lake county but all the counties and he is making a personal tour to tell them about it.

All we need here to make the life of the grower complete is the establishment of a pre-cooling plant to take some fifty cars of vegetables daily. And the pre-cooling plant is coming just as all other good things needed here will come.

The Herald is in receipt daily of letters inquiring about furnished rooms, apartments, etc. If you have anything of this sort an ad in this paper would rent them at once. We always mail a copy of the Herald to those making inquiries about Sanford.

The trade papers claim that the hay gathered in the hay centers of the north this year is of inferior quality on account of the rains. The hay gathered in Seminole county is of superior quality and the farmers have plenty for their own use and then some.

We missed Bob Holly when in Sanford, but we can say that he is a prophet "not" without honor in his own home town, Okeechobee Call.

Thanks, George. Sorry we were not in when you called. Will see you in Jacksonville next month.

This past season Florida shipped about 8,000,000 boxes of citrus fruit, 6,000 cars of tomatoes and 20,000 cars of other trucking crops. Florida raised \$10,000,000 worth of corn, \$6,000,000 worth of cotton, over \$1,000,000 worth of hay, nearly \$1,000,000 worth of oats, \$3,000,000 worth of potatoes, over 1,000,000 worth of tobacco and her cattle is valued at over \$30,000,000.

Celery is being transferred from the seed beds to the fields. In the great celery district around Sanford, in this state, over 800 acres will be planted this season. If the crops come through all right and the markets prove good, and if Bob Holly is made postmaster of Sanford the people of that live city should be happy, though we do not see why an editor should ever want to be a postmaster.—The Florida Grower.

Those who have been away for the summer are home again and Sanford should take on the accustomed air of the big little city that has been made famous. We can make a greater city this winter by furnishing accommodations for the many people who are coming here to spend the winter. Get busy on the idea of fixing up what we already have in the rooming houses. Restaurants we have in plenty.

On the 13, 14 and 15th of next month the Florida editors will be the guests of Jacksonville and the big city certainly knows how to entertain. Every editor in the state should be present as this will be one of the largest editorial gatherings ever held in the state. We need better rates for medicine advertising and a great many other benefits that can be arranged at this meeting. We are especially anxious to meet George Adams, Rube Allyn and Bob Holly.—Macclenny Standard.

WHEN DREAMS COME TRUE
Bob Holly is being boomed by his friends for mayor of Sanford. They should make Holly Pooh-Bah. Don't let them decoy you from that postoffice job.—Bob—Reporter-Star.

We don't want to be mayor, nor postmaster, nor even the Pooh Bah Joe. All we want is a million dollars to build a hotel, a country club, a pavillion on the lake front, a white way over the city, a Y. M. C. A. and several other buildings besides finishing the new church. After all this is done there would be a few dollars left that we would like to expend on a few funeral services not our own and after that there would be nothing to be desired.

WATCH YOUR BANK BALANCE

A case of great interest to the banking industry of the state was on the docket of the Tampa criminal court some days ago. The case was tried under the 1915 worthless check law, the information setting out in detail that the defendant cashed a check on Plant City parties without having money in the bank to pay it, and that after having been served notice that it was not paid did not make good the amount within ten days as prescribed by law. No contest was made in the hearing of the case, the defendant pleading guilty. The amount of the worthless check was only \$5, but the drawer was sentenced by the court to a fine of \$25 and costs, with the alternative of sixty days in jail. This matter of drawing checks with insufficient funds in the bank to meet them is altogether too common and causes no little embarrassment at times to business men as well as to bank officials. The new law under which the above conviction was obtained, should have a very salutary effect upon those who have "got the habit" of drawing checks without any relation to the amount of funds to their credit. While it is true that ignorance of the law is not accepted as a defence in criminal proceedings or even as an extenuation of guilt, yet it might be well for the bankers of the state to take some "polite and inoffensive means of drawing the attention of their patrons to the fact that this valuable law is in operation and that a conviction has been obtained under its provisions. An ounce of prevention is better than a pound of cure, and a neat placard hung within the bank office or a politely phrased card enclosed with the monthly statement might have been an excellent influence in the right direction.—Hastings Herald.

AGAINST AUTO SPEEDING

Good roads, no matter how good, are not immune from damage by the speeding automobile. Advice from communities where they are supposed to have only the best of brick roads will show that a heavy car rushing at a speed of forty or fifty miles an hour will frequently tear brick from the bed and throw them better-skelter unless, of course, they be firmly imbedded in concrete, and even in such cases the car and the friction of the great weight propelled at such terrific speed will not allow the road to long remain in good condition. Several of the business men of Orlando are asking that every citizen in that locality join the un-uniformed brigade of road preservers, and when ever there shall be found a case where a driver is making more than twenty-five miles an hour over those new roads, enter complaint that the chauffeur may be arrested and fined. And the Post would suggest that the penalty be not a mere fine. That frequently does little good—except to enrich the exchequer of the city or county.

Portland, Oregon, has had hardly one case of speeding within the past year, merely because the judge decided that there should be no fine taken from a driver who was proven guilty. Instead of that he was placed on the rockpile for ten, twenty or thirty days—as the severity of the case might demand. After a few of the rich as well as the poor were served in this manner the practice stopped and the records show that there has been no speeding there for more than eight months. And the streets and roads there are a most specious argument for a happy trip!

Make a man pay a cash penalty for breaking an ordinance and he will not fear to risk one more try at it—when he has the money. Let him work on the road ten days because of the offense—and he'll run no more "whizzers." That is a sure-enough result—and the people of Orlando might do worse than remember the fact.—Palm Beach Post.

THE EAST COAST CANAL

Poor old Senator Morgan died like a rat in a cage, fighting for his Nicaragua Canal. Now that he is dead and gone, another route far more expensive and nothing like as beneficial has been selected and the Panama Canal completed. It has dawned upon us that our own Goethels has succeeded where DeLesseps failed. But we have also been made to believe that we have invested in a pretty expensive "white elephant" to feed.

The Panama route with all its locks and dams and tremendous and constant caving, is proving the correctness of Senator Morgan's contentions.

We are now awakening to the importance of Coast Defenses. We have for full twenty years advocated the condemnation of this Florida East Coast Canal by the United States government and making a sure enough canal out of the old tadpole ditch as it now stands. We wanted to go to congress with this one pet scheme to fight for. But while the deepening of this canal would be of inestimable value to the people along its line, its advocacy was the one thing that mercilessly slaughtered us in the election following.

We may not live to see it, but some day these people may have cause to regret that they did not elect a congressman who would and could carry out this work.

With less than fifty miles of digging in South Carolina, this inland waterway would extend from Miami, Florida, clear through into Boston's splendid harbor. It would enable our farmers and truck growers to get their products to market. It would be worth millions upon millions to our country in time of war. It would be a God-send to our embryo cities and the people along its route, but the Railroads don't want it, and "thereby hangs the tale."—The Floridian.

You are right, Albert, in one particular. We should have an inland waterway in Florida, but we don't want the government to buy the upper end of the "tad-pole" ditch as you call it. The upper end is already made by using the St. Johns river and no one knows this any better than you, Albert, who have made a study of canals for Florida to lessen the freight rates. Pull for the St. Johns river, Albert, and pull for it strong.

THE AVALANCHE

At the Star Friday

The Play

John Malvin Grey, a member of the New York Stock Exchange is paying court to Clara Fenton, his affection being reciprocated by her.

Miss Fenton aspiring to extreme wealth and social distinction, contrary to the dictates of her heart, accepts the proposal of marriage of Peter Vaughn, a millionaire of somewhat advanced years.

Helen Barrington, possessing a secret attachment for Grey, finally becomes his wife, when he realizes that his affection for Miss Fenton can be of no avail.

After her marriage to Vaughn, Clara, unable to subdue her deep love for Grey, at every opportune moment appears in his company, endeavoring to continue her love affair with him, regardless of the fact that she is now married.

At a dinner given by her, Peter Vaughn is shocked to observe the carrying on of his wife and her persistent advances to Grey. At a climax, his attention being called to the affectionate attitude assumed by his wife toward Grey, his heart gives way, he collapses and expires.

In widowhood, regardless of the fact that Grey now leads a happy married life as a loved husband and father, she pursues her wiles and attentions.

Being repulsed by Grey, she conceives a plan of inveigling him, with the aid of Ashton Cameron, in the purchase of Avalanche mining stock, and then to cause the market to drop, reducing Grey to all but ruin, coming to her assistance with her extreme wealth, raising the price of stock and restoring him to affluence.

She engages in this plan, believing that thereby she will place Grey under everlasting obligations to her and possibly serve her end in having him abandon his wife to assume relations with her.

By various tricks and subterfuges, she arouses her suspicions and jealousy of Mrs. Grey, until the moment arrives when, believing that her husband is carrying on a secret liaison with Mrs. Vaughn, she determines to divorce him.

Grey's young sister, Rose, is in love with Philip Carlton, and throughout the entire play reigns as the standby of Grey.

Ashton Cameron, also in love with Rose, offers to assist Grey out of his difficulties on Avalanche stock, providing he uses his endeavors to procure Rose's consent to marry him.

Grey refuses this assistance at the sacrifice of his sister's future happiness, and Cameron proceeds to carry out his agreement with Mrs. Vaughn to ruin Grey.

A street walk, Polly, who is injured in an accident by Grey's automobile is adopted by him into the family as his charge.

In the denouement of the piece, at a gathering at the office of Shaw, Grey's family lawyer, Polly reveals that she has observed Grey repulse Mrs. Vaughn and declares to her

that he loves his wife and will have nothing to do with her.

Mrs. Vaughn is confronted with the proof of her various intrigues and diabolical scenes to arouse Mrs. Grey's jealousy, and finally admits the true situation and her own despicable actions.

Grey is reconciled to his wife and Clara Vaughn is left to pursue her way in the world, rejected and alone.

Millinery Opening

September the 29th the Sanford Millinery Co., located in the Bishop Block next door to the fire station wishes to announce their opening of the latest style of Ladies', Misses' and Children's Hats, Caps, etc. Our trimmer spent some time in the northern markets. Some care has been taken in the selection of our stock. We insist on the people to inspect our stock before purchasing elsewhere, as our prices are beyond comparison. Also we give your last winter's hats special attention should you care to have same retimmed.

Letter of Thanks

In a recent issue of the Florida Christian Advocate I made an appeal for clothing, etc for our children. As usual our Sanford friends lost no time in coming to our aid, and I sincerely thank all who helped in getting up the donation sent us last week. I would also like to thank Mrs. L. R. Phillips for her untiring zeal in behalf of our children. I would also like to thank the management of the Star Theater for their kindness in extending the courtesy of the theater to our children whenever they visit Sanford.

H. W. Lench, Supt.

Diversified Farming

Diversified farming is just a means of playing safe. The Florida farmer is in the habit of staking his all on a single crop or a single class of crops. If the crop does well, and if the markets are good, and if the crop can be marketed, and if disease does not wipe it out and well, if he has good luck he will be able to live through the coming year and have enough surplus to purchase another crop. But if any one of a dozen things does strike that crop his work is lost and it takes considerable bracing to hearten him again.

John M. Scott, vice director of the University of Florida Experiment station is anxious for the farmers of Florida to grow a greater variety of crops so that if one fails they will have another or others upon which to fall back. Stock raising is one of the most easy and profitable means of diversifying farming operations. In this way the farmer raises his own meat and in addition produces valuable fertilizer which will enrich the soil for his crops.

Truck farming is profitable—some years. If the truck farmer would plant only half his land to some staple crop, for which there is always a ready market, he would find the business more encouraging.

There is a large variety of crops which could be grown which would be profitable every year. Some years they would not bring so great returns as truck or some other specialized crop, but when one takes into consideration the years when the single crop fails for one reason or another, the staple crops will make a pretty good showing.

Notice

Notice is hereby given that the annual meetin of the stockholders of the Crystal Ice Company will be held at the office of the company at Sanford, Florida, on Monday, the 11th day of October, 1915, at 11:00 o'clock a. m. for the purpose of electing directors, and for the transaction of such other business as may be brought before the said meeting. F. G. WHITNEY, Secretary.

THE NEW YEAR

Now is the time when all commercial interests pause for a while in their struggle for business and carefully look over last year's transactions. In taking your inventory, are you taking into account your banking services? We are prepared to give you the best of service.

FLORIDA'S FIRST "GO TO SUNDAY SCHOOL DAY"

OCTOBER 3RD ESPECIALLY DESIGNATED GOVERNOR TRAMMELL ISSUES STATE WIDE PROCLAMATION, FOLLOWED BY MAYORS VARIOUS CITIES

The Florida Sunday School Association has set aside Sunday, October 3rd as Florida "Go to Sunday School Day."

This is the first definite movement looking toward a systematic increase in Sunday school attendance throughout the state. This special day is for all denominations.

Available statistics show that there are approximately 80,000 white people enrolled upon the Sunday school books of all denominations. This means that only one in ten attend the Sunday sessions. For the purpose of creating go to Sunday school sentiment and producing a go to Sunday school environment in every county, city, hamlet and village, the Florida Sunday School Association selected October 3rd as an appropriate time for a united effort of the entire forces of the Florida schools.

Governor Park Trammell has issued a special proclamation calling upon people everywhere to attend Sunday school on that day. In doing this he is following the custom set by the governors of Kentucky, Georgia, Mississippi and other

states where this movement has proved a wonderful success. Boardman does the governor express the idea in his proclamation.

The interest in this special day has grown wonderfully since the first announcement was made a little over a month ago. Demonstrations for monster rallies have been made in many of the cities. Both Jacksonville and Tampa Sunday School Associations are active, and each city promises to have at least 12,500 in its Sunday schools October 3rd. Many other cities and towns are planning for similar increases.

The Florida State Sunday School Association has set the state attendance goal for that day at 100,000. This means an increase of 20,000 over the normal attendance. Indications now point to an even greater attendance, and it will not surprise the leaders of the movement if 110,000 or even 120,000 attend the various schools of the state.

Go to Sunday School Day is for every school of every denomination. There are no exceptions. At least two denominations are using this same day as Rally Day. It is most fortunate that these special efforts coincide. It means that in every part of the state attendance at Sunday school will be a popular bit of conversation.

The Florida Sunday School Association has prepared a neat program for use in all Sunday schools on this occasion. These programs can be secured free from the Jacksonville office. The program is unique containing data of Sunday school work, and being well adapted to any congregation. These programs can be used with splendid effect even by the schools which have denominational Rally Day programs, as the Florida program is fine as supplemental information.

Governor's Proclamation

Whereas, it is of the greatest importance to the welfare of our state that the forces which make for intelligence, character and patriotism among the people should be encouraged, and

Whereas, one of the greatest forces for good, for strengthening character, for promoting patriotism and spreading Christianity, is the Sunday school, and

of the various denominations are great forces for good in our state; forces worthy of recognition and cooperative assistance, and

Whereas, the Sunday schools of the state, through the Florida Sunday School Association, are making, and have made special efforts for a great Sunday School Rally Day, which shall be state-wide in its scope and influence, and have set October the 3rd, 1915, as the day for this great state-wide Sunday School Rally Day;

Therefore, I, Park Trammell, governor of the State of Florida, do hereby issue this proclamation calling upon all of the people of the state of Florida, and the visitors who shall be within our borders, to attend Sunday school in the church of their choice on Sunday, October the 3rd, 1915, that they may give encouragement and honor to those who faithfully labor in this noble work, and that they may receive to themselves the benefits of participating in this particular devotion to and worship of God.

In testimony whereof, I have hereunto set my hand and caused the great seal of the state of Florida to be affixed at Tallahassee, the capital, the 15th day of September, A. D. 1915.

Park Trammell, Governor

By the governor, attest: H. Clay Crawford, Secy of State

Too Much for Her

Unobserved and unannounced the president of a church society entered the composing room of a newspaper just in time to hear these words issue from the mouth of the boss printer.

"B.P., go to the devil and tell him to look that 'murder' he has got this morning. Then 'kill' 'William J. Bravens' Youngest Grand child,' and dump the 'Sweet Angel of Mercy' into the 'hell box. Then 'make up that 'Naughty Parisian Actress' and lock up 'The Lady in Her Boudoir'."

Horror! the good woman fled, and now her children wonder why they are not allowed to play with the printer's youngsters.

IN AND ABOUT THE CITY

Little Happenings—Mention of Matters in Brief—Personal Items of Interest

Summary of the Floating Small Talks Succinctly Arranged for Hurried Herald Readers

Claude Howard is taking charge of the street gang during the illness of John Anderson.

Miss Eugenia Mauldin of Washington is in the city the guest of her aunt, Mrs. A. P. Connelly.

Mrs. Hill of Jacksonville is the guest of her sister, Mrs. Savage at her home on Myrtle avenue.

5 or 6 doses 666 will break any case of Fever or Chills. Price 25 cents. 71-52tc

Mrs. R. C. Bower is the guest of Mr. and Mrs. E. B. Brown of Tampa and is the recipient of many social attentions during her stay.

Mrs. B. T. Houser has returned from an extended trip to relatives in Ohio. Mrs. Houser also spent some time in the west and attended the exposition.

Miss Ann Higgins is home again after a most delightful trip to New York, Philadelphia and other points Mrs. Hurt who accompanied her returned several days earlier.

Go to Munson's Pool these hot days. Open every day except Tuesdays and Fridays. Mornings for ladies only. 7-1g

Mr. and Mrs. Herbert Lyman and Mr. and Mrs. George Kingsley of Alhambra passed through the city yesterday enroute home from Daytona Beach where they spent Sunday.

Mr. and Mrs. Will Shelley and children are home after spending several weeks at West Baden, Indiana, enjoying the baths. Both Mr. and Mrs. Shelley return home greatly benefited by their trip.

A. P. Connelly, the real estate man has sold one of the Sirrine houses on Park avenue to Hal Wight. The house is being remodelled and Mr. and Mrs. Wight will make it their future home.

We will pay you 4 cents a pound for old rim cut casings, sizes 30 x 3 and 30 x 3 1/2. Sanford Machine & Garage Co. 4-1f

Mrs. J. H. Bruton and daughters Irene and Annie have returned from a trip to Atlanta, where Mrs. Bruton purchased her big stock of fall millinery. An announcement of the opening will be given later in The Herald.

Mr. and Mrs. W. E. Seoggan and family have returned to Sanford and are at home in the Fernside cottage on Oak avenue. They spent the greater part of the summer at Highlands, North Carolina and made the trip in their car.

Miss Ethel Thomas of Jacksonville is in the city this week and will be the guest of Mrs. Savage on Myrtle avenue and also of her aunt, Mrs. R. J. Holly for a few days. Miss Thomas is secretary for City Recorder G. D. Ackerly of Jacksonville.

Use your coupons now. Don't wait until the last day of the sale Phillips Studio. 10-2tc

It is rumored that Mr. and Mrs. E. R. Ellerbie will leave in a few days for their former home in Orlando. Mr. Ellerbie having given up his position here with the Gulf Oil Co. We will hate to lose this estimable family from our midst but wish them well in whatever city they may locate.

"Mr. Bob" played at Winter Park last Friday night and while the attendance was small the company cleared some money above expenses and had the fun of putting on the play besides. "Mr. Bob" has been very successful in the barn storming tour and the company will have something else equally as good during the winter season.

Hon. Forrest Lake, Mrs. Lake, Serita and family arrived home Sunday night. Mr. Lake met the folks in Jacksonville and accompanied them home. Mrs. Lake and the children have been to points in New York, Canada, all through the west and the exposition at San Francisco and had one of the most enjoyable trips of their lives.

Notice

We will appreciate it very much if all persons holding coupons and wishing good work and service will kindly use same before the last days of the sale. Sale ends on Nov. 1, 1915. PHILLIPS STUDIO 10-21pc

Notice

Occupation License Tax will be due October 1st and should be paid before that date at the office of the city clerk. M. W. LOVELL City Clerk.

FARM ELECTRIC MOTORS.

Variety of Work Which These Machines Can Accomplish.

A very important feature is that a few motors properly selected may be used to operate all of the machines on the farm instead of having a steam or gasoline prime mover attached to each machine, writes Frank Koester in his book, "Electricity For the Farm and Home." In this feature lies a great advantage of electrically operated farm machinery. For instance, a motor may be placed on a low wheeled truck and connected by means of a belt to a thrashing machine, taking its electric supply from the main by a flexible cable plugged into a suitable outlet. On the throwing of a switch the motor starts and operates continuously without attention. After the thrashing is completed the motor may then be connected to the balling machine, which packs the straw into bales, while if necessary the motor may be used in loading the bales upon wagons by operating a hoist. At other times the same motor may drive a water pump, wood saw, etc.

It is readily seen that the electric motor can be operated without the attention necessary for steam or gasoline prime movers, which have to be supplied with water and fuel. With all other prime movers, when placed in the barn or hay mow, or beside the stack in the field, the risk from fire is a thousandfold greater than with an electric motor. In fact, an inclosed

SMALL TRACTOR-STABLE MOTOR

electric motor may be placed anywhere on the farm without such a risk or the fear of an explosion.

The motors used on dairy appliances and for the various household operations are of such small size and weight that they may readily be carried around by one or two persons and applied to one machine or another wherever needed. Thus many farms can get along with one large and one small motor. As the various farm machines operate at different speeds the motors are supplied with suitable regulating devices, so that the desired speeds may be obtained.

The great advantage of cold storage is not properly recognized today by farmers. By means of electrically operated cold storage systems, butter, milk, eggs and other perishable goods may be saved from spoiling. In many cases, especially with fruit, a farmer is forced to let his product lie on the ground and rot, because the price offered does not pay the expense of picking, packing and shipping to the commission merchant. A private cold storage system would enable him to pick his fruit in season, when the market price was low, and store it until he received his own price.

For such purposes electric ice making machines for refrigerating plants are preferable. The motor applied to this equipment can be arranged to start and stop automatically and will keep the temperature in the cold storage room within a few degrees of that desired.

For irrigation purposes electric pumps are of great service, whether on a large or a small scale. As these pumps work only in certain seasons of the year and at certain hours of the day public service corporations have recognized of late that they are a means of keeping up a uniform power demand on the plant, and consequently energy for this purpose is offered at exceptionally low rates. The motor driven pumps may be stationary or portable.

Large sums are yearly spent for irrigation purposes, waterways regulation and drainage systems and seemingly in almost all cases without due consideration for the possibilities of utilizing the energy of the water for generating an electric current which might advantageously be used for farming or rural industries.

Planting of Forage Crops. (Prepared by Kansas State Agricultural college.)

Where a stand of corn has been obtained on a part of the land and it is necessary to plant the remainder to a spring crop, kaffir or sorghum is recommended. In southern Kansas kaffir planted from June 15 to 29 will mature. If the weather continues wet until the last of June or the first of July feterilla maturing from eighty to ninety days may be planted. Feterilla sorghum will mature in from seventy to eighty days. Sudan grass can also be planted as late as the last week in June or the first week of July. Cowpeas planted the 1st of July as a hay crop may be removed in time to seed a crop of wheat in the fall. Soy beans will mature if planted the last week in June and millet can be used for hay until the first of July.

PETS

Pets are not an acquired habit, they are an instinct, a kind of appetite—especially with the female of the race—and this habit is in evidence from the time the girl is old enough for her first doll.

This habit, like other habits, grows. The inanimate caricature of the human form divine sooner or later loses its place in the juvenile affection, and some pet that can move of its own accord, that can retaliate with a cry or a bite or a scratch when hurt, that has to be fed and defended against its enemies, something that may or may not respond to kind treatment or the opposite, takes the supreme place in the young affections. And by and by, when the real responsibilities of life come along, these affections gather about the new human being, which is smothered in a wealth of maternal love.

But it so happens in this sad world that the gift of "olive branches" is denied to some, to many, or their own choice deprive them of the greatest, sweetest joy, granted by an all-wise Providence. The instinct of affection, having no natural object for its lavish bestowal, seeks other objects more or less unnatural.

There are some rude, cold blooded people who sneer at the display of human affection that centers about a tiny, long-haired puppy. They envy the plaything the kisses that are bestowed upon it as it nestles in the arms of its beautiful mistress or perhaps they turn away in ill-concealed disgust. It all depends upon the disposition or the inclinations of the observer.

And so it comes about that dogs and cats and monkeys, even rats and mice and chickens, goats, calves and pigs rise sometimes above their level and are privileged with admissions to the intimacies of the family circle. In fact, they become "one of the family," and are entered to and petted like a sick baby. The uglier they are in appearance or in disposition, the more lovable do they seem to their partially demented owner. Effusive demonstrations of affection are lavished upon them of course, it's nobody's business excepting that of the mistress, for the pet can't help itself.

But there's another side to this pet business, and a serious side, too.

All animals, including the human animal are naturally dirty, but the human has certain instincts toward cleanliness that are earnestly fostered by the strict watchfulness of the mother from the earliest infancy of her offspring. If you don't believe this charge against the other animals, watch the pet dog, escaping from his mistress rushing to make the acquaintance of a fellow canine. Note their way of shaking hands then hug your pet to your bosom, if you want to.

But worse than the common dirty habits, dogs and cats and monkeys are subject to diseases which they may communicate to human beings. Cats and monkeys suffer from tuberculosis, and with dogs they share the dangers of rabies and pneumonia. All fur wearing animals carry fleas in their hair, and sometimes other disease bearing parasites. Of course, your particular pet may be free from them now, but his hide may be infested with them next week.

It is possible—even probable—that the human being may take disease from an infected pet, and the early stages of these diseases that are common to man and animals are more difficult to detect in the animal than in man.

Men and women do not hug vipers in their bosoms unless they are weary of life. Sensible men and women, realizing the dangers of disease from the long haired animals will not give them the privileges of an only child. They will treat them as faithful friends, but not as pets, for God never intended that we should go outside the limits of the human race seeking something to love.

The South's Progress. Columbus, Ga., Sept. 22.—The Industrial Index says in its issue for this week.

"The reports for the week of buildings to be erected, construction contracts awarded and manufacturing enterprises to be established in the southeast comprise a pleasing story that throbs with activity and tells of returning prosperity.

"It is not the 'old-time' prosperity,—as fine as that was—but a more comprehensive prosperity, which in some respects is new to this section. It is new in a measure because it contains more of self help and self independence and self confidence. It has a broader basis because this section is growing, raising, manufacturing and mining things for which heretofore it was sent millions of

dollars to other sections of the country. New markets are being developed for products, and the resources of this section are attracting investment in increasing degree.

"A New York company with capital stock of \$1,000,000 will develop a tract of 150,000 acres in Florida. Wisconsin investors have purchased an extensive tract of Florida timber lands for more than \$2,000,000.

"A charter has been granted a company and some of the contracts awarded for the construction of a railroad between Charleston, S. C., and Savannah, Ga. Two railroad lines in Georgia are to be extended.

"Jacksonville, Fla., voted \$500,000 of improvement bonds. A district of Putnam county, Fla., voted \$208,000 of bonds for building roads and bridges.

"Among the items of construction work to be done, as reported this week, are:

"Apartment house, Atlanta, Ga.; bridge, Cedartown, Ga.; and Jackson county, Miss.; church buildings, Doerun and Fort Valley, Ga., and Troy, Ala.; fraternal building, Fort Myers, Fla.; office building, Atlanta, Ga.; roads, Houston county, Ala., and Lowndes county, Miss.; school building, Columbia, S. C.; seawall, Bay St. Louis, Miss.; trade board building, West Palm Beach, Fla.; street improvement, Montgomery, Ala.; warehouse, LaFayette, Ga.; water works system improvement, Covington and Madison, Ga., and Spatanburg, S. C.

"Construction contracts have been awarded as follows:

"An oil distributing station will be established in Savannah, Ga., by a California company.

"Dadeville, Fla., and Scottsboro, Ala., voted municipal improvement bonds.

Occupation and Automobile Licenses Now Due

All State and County Licenses, including occupation licenses, Automobile and Motorcycle Licenses are due and should be paid on or before October first.

Jno D Jenkins, Tax Collector, Semmes Co. 11-1c

Never size a man up as a brute because of the sad look his wife wears. He may be a humorist.

Why is it that the man who spends his automobile the fastest has nothing to do when he gets there?

Farm and Garden

NUTRIMENT IN SOY BEAN.

Large Percentage of Protein Commends it to the Stock Feeder.

One of the qualities of the soy bean that commends it to the stock feeder is its protein richness. The Virginia experiment station has found that the assay when ground into meal may be substituted for equal amounts of linseed meal in feeding dairy cows.

The hay is also rich in protein, and this is why it is extensively used in eastern states for ensiling with corn, as this combination will practically

THE SOY BEAN.

produce a balanced ration. A comparison between an acre of green cut timothy and soy beans at the Massachusetts station showed that the beans produced nearly 34 per cent more protein than the corn, while the acre of corn produced over 84 per cent more of carbohydrates and fat than the soy beans.

While corn and soy bean silage constitute a balanced ration, it is not to be inferred that grain is entirely unnecessary where the silage is fed to dairy cows. But it has been found possible to reduce the grain ration considerably under these conditions and still maintain the milk flow. According to Professor W. A. Henry, silage made of corn and soy beans is more digestible than that made from corn silage alone.

ABOUT PEOPLE AND EVENTS...

A RESUME OF SANFORD HAPPENINGS UP TO DATE

Address all Communications for this Column to "Society Editor," of Phone Mrs. R. A. Terheun, Phone No. 200

Woman's Club

In less than two weeks Club activities will begin with the meeting of the Woman's Club Wednesday, Oct. 6. Upon this occasion Mrs. W. S. Jennings, president of the State Federation will be the guest of the Club at which time the members will have the privilege of meeting her. She will make an informal address on club work. Mrs. Jennings is a woman of brilliant intellect, a deep thinker and possesses a charming personality that has made her one of the most popular women of the state. There is much interest shown by the members, in anticipation of her visit and it is safe to predict that there will be a large gathering to greet her. Following the business of the meeting an informal reception will be held.

A movement that is creating much interest in local circles is the Fannie Stenbridge Munson bill that will be presented to the club for definite action at the October meeting. To Mrs. Munson belongs the honor of evolving a scheme providing for the reimbursement of a certain sum of money to a man who has been imprisoned for a term of years and proven innocent of the crime with which he is charged. The bill has been drawn up by Mr. J. J. Dickinson of this city and is in the hands of Mrs. Munson. The Munson bill will be presented at the next term of the legislature by the Woman's Club of Sanford. It is believed by men and women prominent in public work for the good of humanity that this bill will be far reaching in its effect.

The Music Department of the Woman's Club have purchased a very fine concert grand piano for the use of the club. In tone and volume it is conceded to be one of the best instruments on the market. It is a Mason & Hamlin and was bought of the Cable Piano Co. of Atlanta, Ga. Much interest attaches to the purchase of the piano in the fact that Paderewski made it famous, having played upon it as did also many of the leading stars of the Metropolitan Grand Opera Company. It is described with the autograph of Paderewski and is otherwise considered a wonderfully fine acquisition to the equipment of the club house.

Many improvements are being made in the club house, interior and exterior, also a new coat of paint and a railing to the porch adding much to the appearance of the building. The grounds will be put in good condition and kept up by the City Beautiful and Civic Committees of the Welfare Department. The attention of the club members is called to the payment of dues. The improvements will necessitate the outlay of funds, so it is imperative that dues are paid promptly. The time limit for payment of dues expires at the business meeting in November. The need is urgent so please pay up. Dues can be paid to the club treasurer, Mrs. Geo. Fox or any member of the finance com-

mittee, of which Mrs. Deane Turner is chairman.

Mrs. R. A. Terheun will resume her duties as society editor with the next issue of the Herald, Friday, Oct. 1st, and will appreciate the co-operation of the ladies of Sanford. Personal items, social functions and church social affairs will find space on the society page if the editor is notified. Phone 203.

Ten-Ten Social

Mrs. J. O. Packard will entertain with a ten-ten social at her home on the Heights Thursday afternoon for the benefit of the Ladies Union of the Congregational church. All the lady folks of the church are invited to attend and bring their friends with them. A pleasant time is anticipated.

French Millinery Opening

The French Millinery Shop announces the opening for Friday, October 1st. Every one is cordially invited to attend this opening. Mrs. Mehrtens has just returned from the north with all the very latest styles. Something to suit every one. Mrs. Mehrtens has with her this season, Miss Combs an expert in her line and will a little later have her Dress Making Parlor, Hair Dressing, etc., all running.

Every one is asked to attend this opening. Refreshments served throughout the day. Adv.

CURBSTONE GLEANINGS

BUDGET OF OPINION "JUST BETWEEN YOU AND ME."

EVEN THE GATE POST NOT IN IT

A CHIEF IS AMONG YE TAKING NOTES AND FAITH. "HE'LL PRENT 'EM"---SO SAYS SAUNTERER.

The public schools opened yesterday and I would like to remark that we have the best schools in the state and in a few years will have plenty of new buildings for all purposes.

I never like to raise any fuss about little things, but speaking about the bill boards in the heart of the city, what do you think of the nerve of them putting up the sign things anywhere and everywhere and blotting out the things beautiful along the lake front.

I understand that no ordinance can be framed that will keep these people from putting up bill boards anywhere they please and may be this is true but I really believe that public sentiment will be so strong against the defiling of the lake front that this bill board at least will have to come down.

Anyhow this matter will bear looking into a little farther, and since other cities have kept the bill boards out of the principal sections of the place we can do the same.

I hear something of a county fair here and while the last one might not have been a financial success it was no different from the other county fairs that are just starting. None of them are any great success financially the first few years and we should not expect too great a return from a monetary standpoint.

I really believe that we should hold the Seminole county fair again this year and if possible it should be held on the reclaimed land on the lake front, for this place would be

the grand fair grounds for the kind of fair that we expect to hold. I believe that the Seminole county fair was the first one held in Florida that charged nothing for admission and when you come to think of it this was a stupendous undertaking. The gate receipts of all the county fairs pay the most of the current expenses and to hold a fair as we did last year and holding it absolutely free and giving the people the fair that we did speak well for the undertaking.

After the fair is held the exhibits can be taken to other fairs at very little cost and this county would get more advertising and advertising of the right sort.

It will take some money of course. Nothing can be done without money and yet this money will go farther than any other method. It calls all of our people together, creates a better feeling with all sections of the county. Means the money spent in our own county and means that our products will be on display to the hosts of winter visitors and that our growers and cattle raisers can gather for a day and get together on better crops and better stock.

You care a lot about me, you men of Georgia, now that I am dead.

You have spent thousands of dollars trying to learn who mutilated my body.

You have filled columns of your newspapers with the story of my wrong.

You have broken into prison and murdered a man that I might be avenged.

But why did you not care for me when I was alive?

I was a child, but you shut me out of the daylight.

You held me within your four walls watching a machine that crashed through the air.

Endlessly watching a knife as it cut a piece of wood.

Noise fills the place--noise, dust and the smell of oil.

I wish some of the thousands of dollars that you spent on the trial might have kept me in school.

A real school, the kind you build for the rich.

I worked through the hot August days.

When you were bossing the girls, or shooting birds.

Or lounging in doorways cursing the Nigger.

And you never paid me enough to buy a pretty dress.

You sometimes spoke coarsely to me when I went to and from work; Yes, you did, and I had to pretend I liked it.

Why did you despise me living and yet love me so now?

I think I know. It is like what the preacher told me about Christ.

People hated him when he was alive. But when he was dead they killed man after man for his sake.

The Tampa Tribune copies the above with the following comments. "We have heard endless talk and read interminable controversy about Mary Phagan dead. It has remained for a woman, writing for the New Republic, to recall Mary Phagan living. She does it most effectively, in verse--and we must confess that there is much more of menace to the race in the countless Mary Phagans who toil at life wrecking tasks than in the murder of the one Mary Phagan and the trials and tragedies that followed it."

Mary Ovington White speaks Mary Phagan's message, not only to the men of Georgia, but to the men of America--and her work k, of pleading for the living Mary Phagans who are suffering, as she suffered in the soul stifling factories, slaves of insatiable machines."

Personal Conduct Rules.

I am convinced that it is by his personal conduct that any man of ordinary power will do the greatest amount of good that is in him to do.

Uplift Must Be Material.

We improve with the improvement of humanity; nor without the improvement of the whole can you hope that your own moral and material conditions will improve.

Almanacs of the Past.

Almanacs are in existence that were compiled in the eleventh century, but they are in manuscript; the first printed almanac was issued about the year 1475.

Chief Woods Used for Boxes.

White pine and yellow pine are the woods most used for boxes, and each contributes more than 1,000,000,000 feet to the box industry annually.

Feminine Mistake.

A woman who thinks she has met the ideal man merely thinks so. There isn't any such person.

GOOD ROADS MEET AT OSTEEN WELL ATTENDED

SPECIAL ROAD DISTRICT BONDS ARE CERTAIN TO BE CARRIED

It seems almost an assured fact that the special road district known as No. One of Volusia county will vote bonds for good roads at the election to be held on October 15th.

The meeting was scheduled to take place at seven o'clock and the good ladies of Osteen thinking of the inner man had a most sumptuous spread at the hall, consisting of delicious chicken pilau, bread and butter, pickles, cake and hot coffee and when the delegations from Sanford and New Smyrna and from the surrounding country arrived on the scene they were immediately taken in tow and placed at the long tables where the good ladies waited upon them and saw to it that their appetites were appeased.

Hon. Forrest Lake, C. R. Walker, A. T. Rosetter, L. R. Brumley, A. P. Connelly and R. J. Holly, of the Sanford delegation were called upon and assisted in the good work of boosting good roads.

Those going over last night to Osteen were Messrs. Lake, C. M. Hand, Connelly, Welker, Holly, Brumley, Willie Brumley, A. T. Rosetter, Stanley Walker, Jim Lee.

The entire distance to be paved in this special road district will be about 67 miles and will be paved with sand or shell, as brick would be too expensive.

With the Methodists Sunday, Some good things are being planned for the Sunday school, Communion Sunday, Supt. Mettlinger will be there to tell you about it.

The morning subject will be "Making the Ideal Real." In the evening the pastor will preach a gospel sermon to which every one is invited.

The Temple Circle Organized On last Wednesday afternoon at the home of Mrs. M. M. Mitchell on Park avenue was organized the Temple Circle.

Committees were appointed to draw up constitution showing plan of organization, etc. There will be several departments to the Circle. A Bible department, in which the circle will assemble as a part of the Baptist Sunday school; a social department, literary department, music department, civic department.

FEELING AGAINST MENDENHALL

St. Petersburg, Sept. 30. Little but the Mendenhall case was discussed in St. Petersburg today, and on Central avenue the jurors who sat through the trial were surrounded whenever they appeared and were eagerly listened to whenever they mentioned the famous trial.

St. Petersburg generally disapproved of the verdict, and did not like the recommendation for mercy. The people here think that Mendenhall should have been given the death penalty, and they are inclined to criticize the jury for recommending mercy.

That William Jennings Bryan and Mrs. Bryan will spend the winter in Miami was the announcement of Mr. Bryan last night. Mr. Bryan spent yesterday in Miami, visited his winter home at Villa Serena, and called on many friends during his short stay.

Mr. Bryan left early this morning for Nashville, Tenn., where he is scheduled to deliver an address tomorrow night. From Nashville he will visit Memphis, Little Rock, Ark., Not Springs, Ark., and then will follow a short tour of cities and towns in northern Texas.

From the Lone Star state the former secretary of state will go to Washington, after which he will return to Miami early in November to spend the balance of the season at his beautiful home here. Miami Herald.

Mrs. F. F. Dutton and children arrived home on Sunday evening from an extended trip to points in Illinois.

SEVERE STORM SWEEPS GULF, CAUSING DEATH

NEW ORLEANS AND OTHER CITIES ON THE GULF COAST FEEL DISASTROUS EFFECTS OF BLOW

New Orleans, La., Sept. 30.—Five persons are known to be dead, many more injured and property loss reaching into millions has been caused tonight by the most severe Gulf storm in the history of the city.

A howling gale with a velocity of eighty-six miles an hour swept the city at six o'clock tonight, demolishing scores of buildings, stripping the roofs from hundreds of other structures, and drawing the streets with broken glass and debris.

At 7.30 tonight a rising barometer gave evidence that the storm was subsiding, the center passing to the northwest of New Orleans. The barometer at its lowest registered 28.11 and the wind velocity of eighty-six miles was the highest ever recorded here.

Railroad and wire communication with the outside world has been cut off, and telephone, electric light and trolley service discontinued in the city. All railroads have annulled train service from New Orleans.

Wireless communication from New Orleans was cut off by the failure of the electric plant, but electric messages were transmitted from the steamship Excelsior and relayed by the steamship Crook, anchored below New Orleans, to Mobile.

New Orleans, Sept. 30. Just before 3 o'clock the wind was blowing sixty miles an hour. Weather Bureau officials said the wind for an instant blew at the rate of ninety miles an hour. Indications at 3 o'clock were that the center of the storm would pass west of New Orleans, turning slightly to the east.

Lake Pontchartrain has risen 12 feet and the water is above the sea wall. Automobiles are bringing people into New Orleans from that section. Milneburg and another town on the lake-front report that the water is still rising.

BRIDGE AT MONROE FERRY TO BE BUILT

Engineers are here this week making surveys of the land and river at the Monroe ferry preparatory to the building of the steel drawbridge there for Michael Sholtz of Daytona. This bridge would have been constructed some time ago but the government wanted a wider draw and the change made a delay in the original plans but Mr. Sholtz is game and intends to build the bridge and make it 100 feet wide.

Preparations for the revival services which begin Sunday morning are progressing nicely. A large chorus of men and women have promised to lead in the singing.

Mr. D. B. Curry, president of the Florida Christian Endeavor Society and a member of Rev. J. G. Venable's church is in the city, and he speaks in the highest terms of Mr. Venable's Christian character and his ability as a preacher. He is recognized as one of the strongest men in the ministry in Jacksonville. We feel fortunate in securing him.

We hope that the public generally will give us their sympathy by attendance and work. We give a special invitation to the members of the other churches of the city to attend these meetings when they do not conflict with their own work.

You are reminded of the Sunday School Rally, Services Sunday. We hope to see the largest attendance in the history of the school. Everybody come.

MOBILE GULF COAST ISOLATED

Mobile, Ala., Sept. 30.—The Mississippi Gulf Coast from Bay St. Louis to Pascagoula was isolated tonight by the tropical hurricane which caused an 89 mile gale at New Orleans and swept inland to the northeast.

Pascagoula and Mobile escaped material damage although 50-mile winds prevailed at both ports during the afternoon and night.

Reports of excessive damage and high water at Biloxi and Gulfport, Miss. were discounted tonight by officials of the Louisville & Nashville Railroad, whose telephone cable down the coast to Bay St. Louis furnished the sole means of communication. There is no wireless station on the coast between Mobile and New Orleans, and this cable was operated successfully only at intervals and officers said that the dispatchers denied reports of the flooding of the streets of Biloxi to a depth of six feet and of the destruction of the great trestle of the L. & N. and the Rigolets.

Three small children, members of the Savage family at Pascagoula were reported to have been injured when their home was demolished by high winds but there is no news from there.

All train service southeast of here has been suspended, only one train arriving this afternoon from Ocean Springs, Miss. A train bearing relief supplies will be sent from Mobile tomorrow morning as far down southwest as possible.

Jacksonville, Sept. 30. The grand automobile parade which opened the Georgia Florida Dixie Highway convention here yesterday morning was pronounced the most successful event of its kind ever held in Jacksonville.

It is estimated that there were a thousand cars in the line, some of them beautifully decorated, and all flying banners bearing various slogans. The line was almost three miles long. The streets over which it passed were crowded with people.

Over three hundred delegates registered at the registration room in the Chamber of Commerce building during the morning and this is said to be less than half of the delegates in attendance. Some of the counties are represented by large delegations and made a splendid showing in the parade this morning.

Georgia and Florida counties interested in the proposed routes of the Dixie Highway were well represented in almost every instance and special sections of the auditorium of the Jacksonville Chamber of Commerce have been set aside for those representing various routes. The opening session of the convention which began at 2 o'clock in the afternoon was one of the most interesting good roads discussion ever conducted.

Will Traer Here Will Traer, editor and general factotum of the Florida Home-seeker of St. Augustine, was in the city yesterday and spent several hours with representative citizens and also paid the Herald office an appreciated visit. Will is arranging for a write up of Seminole county in a special edition of the East Coast Annual, one of the greatest magazines that has ever come down the pike. We shall hear more about the booklet later.

ANOTHER NEGRO THIEF CAUGHT BY THE POLICE

At Montic News Mr. R. J. Holly was here last week and was a welcome visitor at the home of Mr. and Mrs. N. H. Fogg.

Mr. Herbert Fuller is spending a few days at Daytona Beach. The many friends of Mr. and Mrs. Peter Nolan will regret to learn that he has had to undergo a very serious operation on his eyes and is at Dr. McEwen's sanitarium in Orlando.

Mrs. N. H. Fogg has returned from Lenia, Idaho, where she has been spending the summer with her daughter, Mrs. J. M. Tracy. Mrs. J. M. Lewis has returned from Sanford, where she has been under the care of Dr. Neal and is very much improved in health.

Our school opened on the 13th with Miss Kate Mathews as teacher. Mrs. E. Turner has returned to her home in Winter Park after spending the week end at the home of Mr. and Mrs. N. H. Fogg.

THE STATE HIGHWAY COMMISSION NAMED

Tallahassee, Sept. 30.—Governor Trammell has announced the appointment of four of the five members of the State Highway Commission which was created by the last legislature.

The appointments follow: State of Florida at large, F. T. Miller of Jacksonville. First district, Ed Scott of Arcadia.

Second district, W. J. Hillman of Live Oak. Third district, yet to be appointed. Fourth district, W. M. Smith of Orlando.

The bill creating the State Highway Commission to supervise the construction of roads throughout the state to devise ways and means for a uniform system for road construction, was introduced in the house by Representative Wood of Pinellas and in the senate by Senator Himes of Hillsborough. The bill provides for the appointment of a highway engineer, whose office will be in Tallahassee, and whose duty it will be to render aid to various counties in the matter of devising road systems.

No money for the maintenance of the department was appropriated, but by turning over a part of the funds that formerly went into the general fund from the sale of automobile licenses a considerable sum will be raised. In addition, 20 per cent of the revenues derived by the counties by the tax on horsepower will go into the fund to be used by the state highway commission.

Woman's Club The first meeting of the season of the Woman's Club will be held Oct. 6th, but owing to the absence of the president, Mrs. J. W. Dickins, state president's day has been changed to Thursday, Oct. 14, when Mrs. Dickins will be at home to preside. Upon this date, Mrs. W. S. Jennings, president of the State Federation will be the guest of the club. She will address the club on the "Work of the Federation." It is requested that every member of the club be present upon this occasion. Invitations have been sent throughout Seminole county and acceptances received so the club will be hostess to these representatives also.

New Grocery Firm S. Runge and E. P. Rines have formed a partnership under the firm name of Runge & Rines and will open a grocery store on Ninth street between Palmetto and Sanford avenue. The building is now being erected and as soon as it is finished the new firm will open a strictly cash grocery store. Both gentlemen are well known in grocery circles and need no introduction to the public. Their motto will be cash sales and small profits and being out of the high rent district they expect to make prices that will be very attractive.

CITY AND COUNTY OFFICERS ROUNDING UP SNEAK THIEVES

The city police force and the county officers are gradually rounding up the sneak thieves that infest this city and environs. Yesterday the sheriff's office was called to capture a negro named Sam London, who had taken \$40 out of the house of another negro named Albert McLain. Deputy Lee took the negro to jail and searched the house where he had been staying, finding two ten dollar bills in one place and a ten and five in another place, being hidden in books. He afterward searched the negro again in the jail and found another five on him. The negro was given a trial this morning before Judge Herring and bound over to the circuit court. He is no doubt one of the sneak thieves who have been giving the officers so much trouble around here and makes the third one to be placed in jail or on the road.

Red Ray is Coming Sanford fans will remember "Red" Ray who pitched for Sanford several years ago when he had the winning North Carolina team here and Ralph Stevens sends the following from the Philadelphia Ledger concerning this young pitcher.

Manager Mack sent a young southpaw named Ray from Greensboro of the Carolina Association, to the mound in the first game on Saturday, and he failed to last four innings. This was not a very impressive showing, but that young man is due to be one of the greatest left-handed twirlers in the game if some of Mack's wise veterans are to be believed.

Ray has control and nerve only to occupy the position vacated by Eddie Plank, after he has been schooled and the rough spots smoothed over. It will take more than a few games to find out just how strong is the youngster's nerve. Ray pitches entirely unlike any left hander who ever broke into the major leagues in this city. He has an underhand delivery that is a duplicate of the one Earle Moore had, and in addition he has that peculiar overhand cross-fire swing Eddie Plank used. Ray's fast ball breaks late and fast, while his cross-fire curve sweeps past the left-handed batters with blinding speed.

Congregational Church "Go to Sunday School Day" is to be observed in our Sunday school next Sunday. Every class in the school is expected to be in reaching the 40 per cent increase which our school aims at. Let every scholar please get busy. A routing preliminary program will be used in the S. S. opening. At the morning service the pastor will preach a long phase of the Sunday school.

The C. E. Society is gaining in membership and enthusiasm for real C. E. work. You young people, who go not elsewhere are urged to join us in this young people's work for and with young people.

Evening services, 7.30 o'clock. The theme will be "Cheer Up!" Special music, and Young Ladies' Chorus. All will be cordially welcomed.

Baptist Church Corner of Park and 6th The services at the Temple next Sunday will be very interesting.

9.30 Bible school. Promotion day will be the order. The school is graded and uses graded literature. A band of forty-four officers and teachers look after the school.

11:00 The pastor, Rev. George Hyman will speak on "The Holy Spirit a Teacher." The observance of the Lord's Supper will take place just after the sermon.

6.30 Jr. B. Y. P. U. 6.30 Sr. B. Y. P. U. 7.30 Mr. Hyman will begin a series of addresses on "Stories from the New Testament." The first will be "The Introduction of Evil into the World."

Be sure to go to the Temple Sunday.
