

## Two Killed In Sanford House Fire

### Effort To Call Firemen Halted By Party-Line

Allen Williams, brother of the two people killed in Monday night's fire, sits talking to Rosa Kettl, niece of the fire victims this morning, outside the gutted dwelling on West 7th Street. A brother and sister died in the blaze believed by fire fighters to have started in faulty electrical wiring.

Sanford firefighters reported they first received a call about 9:02 p.m. and arrived at the scene a few minutes later. By then, the entire front of the house, constructed of wood and tarpaper, was engulfed in flames, while the rear section, made of cinderblock, was still standing. Its interior, however, had also been gutted, firefighters said.

About eight firefighters began battling the blaze, but were unable to contain the fire which totally destroyed the structure.

A search of the building disclosed Williams' body in a rear bedroom. He had died of apparent smoke inhalation, firefighters said. His sister was found in the front part of the house, apparently killed by the flames.

Mrs. Long said the two lived in the house alone. Williams, she said, was retired, but his sister Abby worked as a housekeeper. "I know she went to work that day, too," Mrs. Long said.

"I'm so upset over this...I'm changing my number."

hampered by telephone party-liners who refused to relinquish the phone.

The neighbor, Mrs. Effie Long of 1502 W. 7th St., said she first heard about the fire from her nephew who ran into her home to report it shortly before 9 p.m. "I looked out and saw the smoke," Mrs. Long said. "I picked up my telephone to call firemen, but the line was tied up. I couldn't get to use the phone, I ran out of the house and across the street to the neighbor woman and asked her to call the fire department."

Mrs. Long said the dog killed in the fire was a shaggy poodle. "I believe the dog belonged to somebody who asked Abby to care for it ever since it was a puppy."

Mrs. Long said Williams and his sister lived in Sanford about 40 years.

Williams owned the house, said firefighters, who estimated the total damage to be about \$10,000.

"They added they believe the fire was caused by a faulty electrical line from the house to a utility pole. When they arrived on the scene, the line was down and the area around it burning strongly," they explained.

## 28 Cases In Sanford Hepatitis Problem 'Exaggerated'

Sanford's slightly higher incidence of hepatitis compared to other cities in Seminole County is "not really significant" and a reported health department investigation is "standard procedure," Dr. Joseph Deju, director of the Seminole County Health Department said this morning.

Responding to a report of a health department study, Deju said the problem has been exaggerated.

Health officials have checked Sanford's water and sewer systems and restaurants to eliminate the possibility of a common cause of the communicable disease, he said.

Children are often carriers of the disease, he said, and children playing in water and mud can pick it up and transmit it to others.

Another possible explanation for the apparent higher rate in Sanford is a concerted effort toward more reporting of cases, he said.

"The only thing we're doing different now," Deju said, "is making a greater effort to break the chain of infection."

This is accomplished, he said, by treating persons known to have been associated with someone who has or has had the disease. Particular attention is being paid to persons at day-care, Headstart centers and nurseries since these are common places for children to pick up hepatitis.

Children usually pass on the disease to siblings and parents, often without showing symptoms of the disease themselves, he said.

Contrary to what was reported, in other media only 41.4 percent of the hepatitis cases in Seminole County were notified in persons 15 to 44 years old, not 70 percent. Among those 25 to 44 years old were noted 23.5 percent of the cases.

There appears to be no race or sex differential, Deju added.

There is no cure for hepatitis, but the disease usually runs its course with no lasting damage, Deju said. Treatment consists of a gamma globulin intramuscular injection, Gamma globulin, a part of the blood, provides some immunity. An expensive treatment, Deju said people who simply have "known someone" who has known someone" with the disease should not be running in fear.

In cases of genuine need, the county health department will make the treatment available to those who do not have private physicians, Deju said.

The best defense against hepatitis remains, he said, good personal hygiene. Persons with the disease should avoid exposing their family members by always washing their hands after bathroom use and avoiding preparation of food.

Symptoms of hepatitis include malaise, aches, tenderness in the liver or right upper abdomen area, fever, dark-foetid urine, light to white colored feces, and jaundice yellowing of the skin and whites of the eyes.

## Commission Lacks Funds To Clean River

Three Seminole County Commissioners requested favorably Monday to request that they consider making appropriations for the St. Johns River a high priority, although funds are not available to act on such a project at this time.

"I'm in favor of it," Commissioner Ralph Paine said. "But it depends on available funds. There are none in this year's budget."

County and Commissioners Sandra Green and Bill Kirshoff listened to a presentation by the Friends of the St. Johns in which a plan was shown pertaining to the river's cleanup.

W. Paine representative of the pro-river group, pointed out the "deplorable" condition of the river.

"We have minimal flow six months of the year," Paine said. "And we have frequent reverse flow due to the St. Johns River Water Management Board detentions."

"The county land doesn't have the authority to remedy the situation, but it can make it more known," Paine said.

Paine is the area most affected by the river and the low flow on the river. Friends of the St. Johns is a high priority status.

Consider the improvement, protection and restoration of the St. Johns River as a high priority status.

Appoint a person, with official authority and responsibility to keep constant check on the river problem, who would report to the commission at least four times a year and attend the St. Johns River Water Management Board meetings.

Make frequent and regular representations of Seminole County's concern over the deterioration of the river to the Florida state government, the St. Johns Water Management Board and St. Johns can be improved and communicated to the various state agencies related to the river the county's concern for and insistence upon action to correct river conditions.

Insist on the restoration of many of the great tracts of former marshland to headwaters areas which originally fed the river.

Energistically seek the appointment of a representative of Seminole County on the St. Johns Water Management Board at Palatka. — DIANE PETRYK

## Iran Minister Says Captives To Be Tried

TEHRAN, Iran (UPI) — Foreign Minister Shagh Ghassemlou said today U.S. hostages will definitely be tried on a charge of espionage and will be judged summarily by their student captors.

The minister, in an interview released by the official Pars news agency, said Iran had now done all it could to detain the crisis and the next move was up to President Carter.

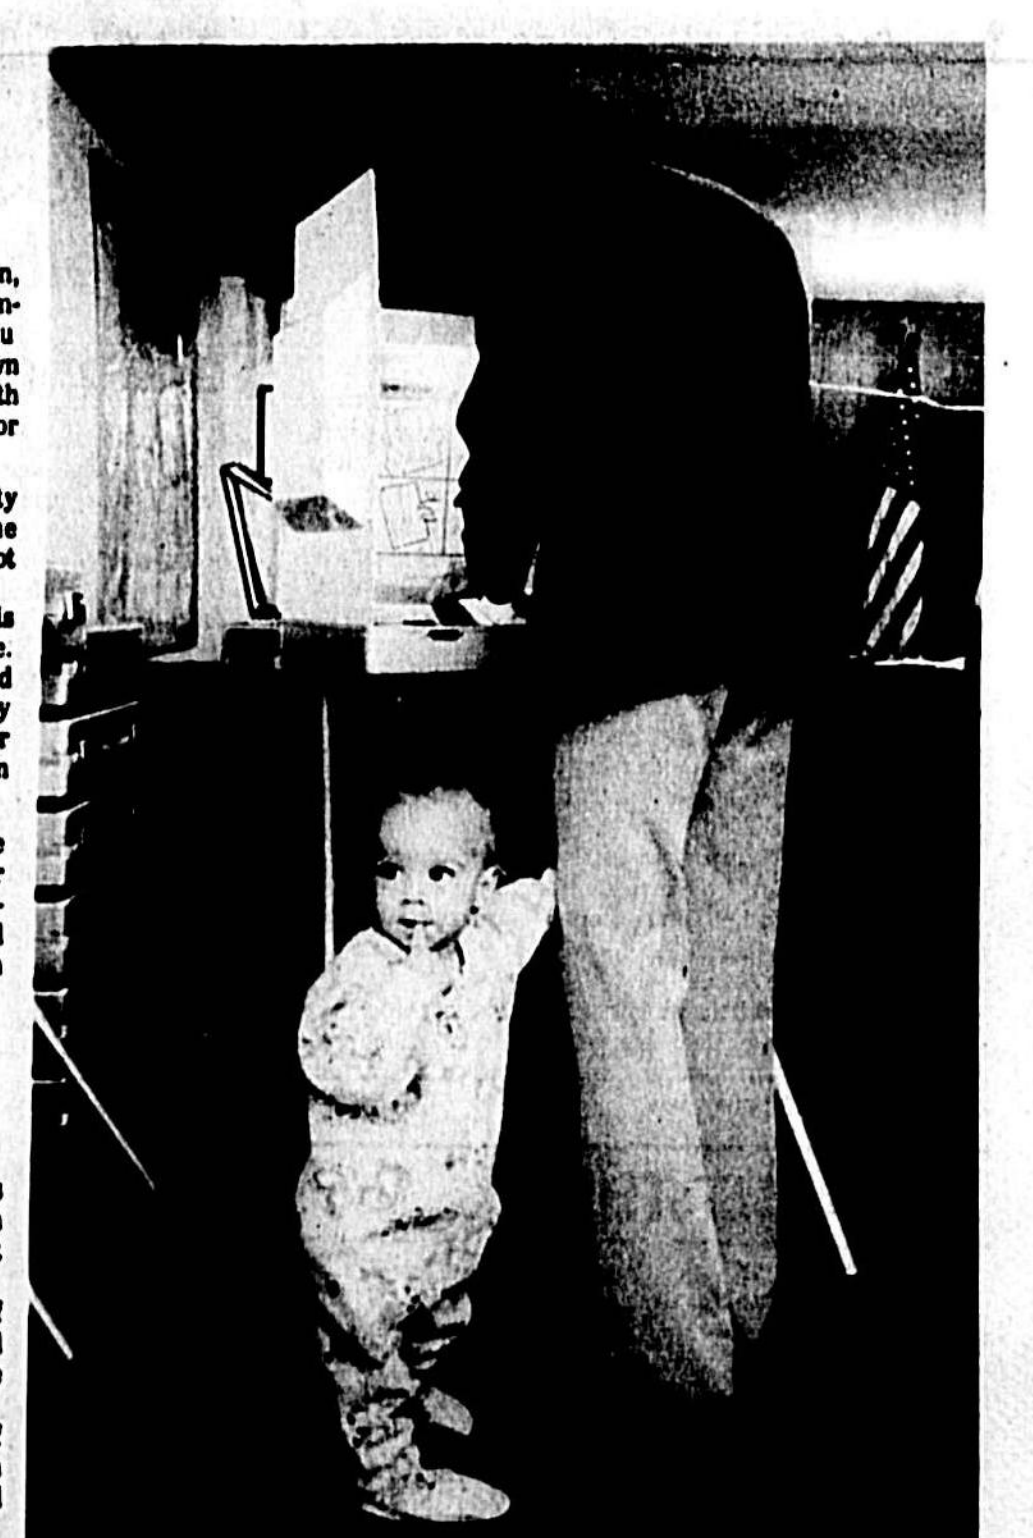

He urged the United States not to interfere in the negotiation even if the United States launched military attacks against Iran.

A spokesman for student militants holding the U.S. Embassy denied news reports that the U.S. Embassy had been reported from the main group and were undergoing interrogation for trials that could sentence them to death.

Return in a nationwide referendum that would turn Iran into a theocratic Islamic state under 79-year-old Ayatollah Ruhollah Khomeini pointed toward a massive "yes" vote.

The latest move in the worsening U.S.-Iranian economic crisis came in an announcement from Iran's Central Bank last week asking all oil companies buying Iranian oil to pay in currencies other than the dollar.

Later last month, Finance Minister Abol Hasan Bani-Sadr announced Iran would no longer accept U.S. dollars for Iranian exports but today's announcement officially implemented that policy.

Young Brad Fess enjoys his first trip to the polls at Lake Mary with his father, council candidate Dick Fess, today. Elections were also being held in Longwood and Casselberry. A total of nine municipal officials were being elected in the three cities.

## Soviets Warn U.S. About Iran

MOSCOW (UPI) — The Tass News Agency said the use of force by the United States against Iran would result in "the most dangerous consequences."

The agency said Monday the United States is flirting with such consequences by moving its naval forces closer to Iran. The report, which follows a Soviet accusation the United States has resorted to "aggressive espionage," said American military movements were designed to be interpreted by Iranian officials as a threat.

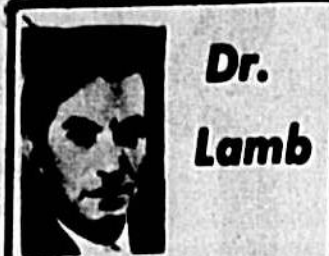

"These measures of rude pressure on Iran are being taken despite the obvious fact that only level-headedness and restraint can lead to a satisfactory resolution of the present crisis in the interest of the world community," Tass said.

"Attempts to find a solution by means of using force will have the most dangerous consequences," it said.

The Tass story summarized U.S. news reports that more than 20 U.S. Navy ships were "near the shores of Iran." It made no mention of the 50 American hostages being held at the U.S. Embassy in Tehran, referring only to "the present crisis."

## Ear Plugs Keep The 'Thump' Out

DEAR DR. LAMB—I wonder if you can help me. After we moved into our home, a factory was put into operation and it works 24 hours a day. I feel I'm losing my mind because I can't stand the constant hum of the motors. Thump. Thump. Thump.

I have an awful time getting any sleep. I usually end up on the sofa. Is there any place I can get something to block out all sound? I've tried cotton and beeswax in my ears as well as covering my head with a pillow, but nothing stops the noise. I take Valium when it gets to my nerves too badly but I'd rather block out the noise.

I am 30 and at the nervous age although I'm not the only neighbor the noise bothers. I've appealed to the town council but the firm is too big to be forced to do anything. DEAR READER— You could go to an ear, nose and throat specialist and be fitted for ear plugs. He or she can provide you with custom-made ear plugs by making molds of your ears. Some of these plugs are designed to eliminate the noise that are most annoying and still enable you to hear speech.

Unless you already have heavy curtains in your bedroom, they might help some to block out the sound. So will heavy rugs and any other form of increased insulation.

Since your basic problem is difficulty in getting to sleep, I am sending you The Health Letter number 104, Sleep And Insomnia. Other readers who want this issue can send 75 cents with a long stamped, self-addressed envelope for it. Send your request to me, in care of this newspaper, P.O. Box 1363, Radio City Station, New York, NY 10019. This issue will give you guidelines on improving sleep habits.

One of the worst things that can happen to a young woman as far as getting started off right in married life is to have an unattached vaginal vault and be married to man who is impatient to satisfy his desires. The end result is often very painful and results in her thinking that sex is a very unpleasant experience. It's a good way to ruin a young couple's sex life.

So since you asked my advice, I would say that after marriage is a lot more important than trying to prove that you have had no sex experience.

**HOROSCOPE**

By BERNICE BEDE BOOL

For Tuesday, December 4, 1979

**YOUR BIRTHDAY**  
December 4, 1979

This coming year you are likely to form several very beneficial alliances. These arrangements will prove to be good both for you and your partners.

**AQUARIUS** (Nov. 21-Dec. 21) Although it's very uncharacteristic of you, you may have trouble seeing the other person's point of view today. An open mind is a must in negotiations. Find out more of what lies ahead for you in the year following your birthday by sending for your copy of Astro-Graph Letter, Mail #1 for each to Astro-Graph, Box 489, Radio City Station, N.Y., 10019. Be sure to specify birth date.

**CAPRICORN** (Dec. 22-Jan. 19) Be wary of tendencies today to worry about how hard something you want to accomplish is. Today is a day when negative thoughts halt your progress.

**SAGITTARIUS** (Jan. 20-Feb. 18) Before volunteering to manage something for another today, be certain you know what you're getting into. Things could be more complicated than they appear on the surface.

**PISCES** (Feb. 19-March 20) Invest in your own ideas today regarding something you like to see changed. If you worry too much about others may think it won't get done.

**ARIES** (March 21-April 19) Better be prepared today by having a flexible schedule.

**WIN AT BRIDGE**

# WORLD IN BRIEF

## Saudis Root-Out Moslems From Grand Mosque

**RIYADH, Saudi Arabia (UPI)** — Saudi troops early today rooted out the last of the Moslem fanatics from the basement of the Grand Mosque of Mecca, but sources said there has spread to the kingdom's vital oil fields.

The Saudi Press Agency officially announced the end to the two-week siege of Islam's holiest shrine and Radio Riyadh repeatedly carried the message from Interior Minister Nayef Bin Abd Al-Aziz that the vaults of the Grand Mosque were completely cleared at 1:30 a.m. 5:30 p.m. EDT.

Fanatic Moslems who seized the mosque on Nov. 20 and declared one of their members the mosque's imam had been holding out in the catacombs beneath the complex.

The interior minister said that "members of the corrupt gang of renegades from Islam have been either arrested or killed."

## Dollar Rallies In Europe

**LONDON (UPI)** — The dollar rallied on European money markets today while gold maintained the advance it made after the Iranian crisis swept investors out of the U.S. currency.

Gold maintained its overnight Zurich price on an opening at \$429.50 an ounce and in London climbed to an opening at \$429.00 on Dec. 3.

A dealer for bullion brokers Sharda Pizley, said in London speculators were still keen for the metal despite the dollar's mild recovery.

The dollar halted its decline against the mighty German mark by closing at 1.7063 marks against the overnight all-time low of 1.7009, but one source said "the dollar's underlying tone remains very weak."

## School Dispute In Family

**RED DEER, Alta. (UPI)** — The son of the chairman of the local school board will lead a boycott of classes today to protest a recent board decision to switch from the trimester system to the standard two-semester system.

Francis Craigie said Monday the trimester system makes it impossible to compare the academic performance of the students because they can't take the traditional departmental tests. He added it's easier to get good marks under the trimester system but more difficult to transfer from Lindsay Thurgate High School to other schools in the province.

His son, Iain, refused to comment. Mrs. Craigie said, "We're trying to be rational with each other. It's really a most unfortunate situation. I don't enjoy it one bit."

Iain said 90 percent of the school's 1,700 students and 60 percent of the teachers favor the trimester system, which mandatorily is to be implemented in a time-bound manner to each course.

## Hostage: Bullet Whizzed By Head

**LAKE CITY, Fla. (UPI)** — Melissa Myers said she felt the "vibration" when a police sniper's bullet hit her kidnaper in the head and "he screamed then I didn't know whether it was his or my own blood."

An 18-month-old child ended more than 16 hours of terror for the 25-year-old Miss Myers Monday, she had been sitting at the wheel of the red Plymouth station wagon for nearly 48 hours with the kidnaper's arm wedged her neck and his pistol aimed at her head.

"She (the sniper) shot right over my head," she recalled, shaking her head.

Nearly 60 minutes before, a Columbia County deputy spotted the car at Interstate 75. An officer had had in a company from behind and ran the car to get it to stop at the road block.

Columbia County Sheriff Glenn Bulley said most of the time he was driving in the car, the kidnaper to give himself up. Then Bulley finally decided to a deputy, who had stationed himself about 25 feet away from the open driver's side window.

The deputy spotted the trigger of the .38-caliber rifle and an orange bullet struck the kidnaper in the face, killing him.

"When the shot was fired, the deputies rushed the car and rescued the girl," Bulley said.

## AREA DEATHS

**CHERRY BENTLEY** (79), Mrs. M. J. Bentley, died Monday at 10:50 a.m. at the home of her daughter, Mrs. J. W. Bentley, 138 S.W. 22nd Ave., Ocala. Burial will be in Ocala Cemetery, Ocala, Fla. at 11 a.m. Wednesday.

**CHERRY GARDNER**, George Gardner, died Monday at 10:50 a.m. at the home of his daughter, Mrs. J. W. Bentley, 138 S.W. 22nd Ave., Ocala. Burial will be in Ocala Cemetery, Ocala, Fla. at 11 a.m. Wednesday.

**CHERRY GARDNER**, George Gardner, died Monday at 10:50 a.m. at the home of his daughter, Mrs. J. W. Bentley, 138 S.W. 22nd Ave., Ocala. Burial will be in Ocala Cemetery, Ocala, Fla. at 11 a.m. Wednesday.

# 'Students Pretty Upset' About Drinking Charges

**By DONNA ESTES**  
Herald Staff Writer

Preliminary investigation by Seminole Community College (SCC) Criminal Justice Program Coordinator Edward Kall and Florida Highway Patrol (FHP) First Sgt. J.H. Johns revealed that some drinking did take place during a lunch break of students and part-time instructors in November, but the drinking wasn't as rampant as first reported.

Johns, assigned to investigate the allegations made by an unidentified student concerning the drinking, said today the proprietor of a Longwood restaurant reported five pitchers of beer and five large pizzas were served to 10-15 students in the group. Each pitcher contains four small glasses.

Whatever the results of the investigation into the matter, Kall said, "One thing for sure I bet they (the part-time instructors) won't even have lunch with the main (police recruits) again, let alone have beer with lunch."

Kall also said the investigation will have to be completed before it can be decided if the two part-time instructors — Walter Aalberg, a Winter Park patrolman and PHP Sgt. Jim Humphreys — will be listed again next semester to teach the next safety driving course. "It's out of my hands," Kall said.

The course which ended in November in part of the 200 hours of state-mandated, minimum-standard training for police recruits in the criminal justice program.

Kall said he contacted many of the 30 students who had participated in the fast safety driving course Monday during class.

He said several said they had lunch at the restaurant with the instructors.

Some said they had beer with lunch, others said they did not and others said they had not been at the restaurant at all, Kall said.

"The students are pretty much upset about the whole thing," Kall said, adding he asked the students who wished to discuss the matter to come see him at the office at the school. The driving portion of the program ended Nov. 10 for this semester.

An unidentified student in the program charged that the two part-time instructors drank beer with the students to the point where the complaining student was concerned about riding in a car with them.

Walter Aalberg, a patrolman with the Winter Park Police Department and part-time instructor in the SCC program for the past five years, said he may have had a glass of beer with his lunch.

Edward Kall (above), coordinator of the SCC Criminal Justice Program, said he has contacted many of the 30 students in the class. Kall said some students claim their driving instructors had beer with lunch before a driving class.

# Midway Man Charged In Knife Assault

**By DAVID M. RAZLER**  
Herald Staff Writer

A Midway man was arrested on charges of assault Monday evening after he cut a woman while holding a knife at her throat, Sheriff's deputies say.

John Junior Cotton, of 318 1/2 S.W. 8th Ave., was arrested after deputies received a sworn statement from Susan Mae Williams of the same address, claiming Cotton held a pocket knife to her neck, making a 2-inch cut, following an argument at 8:16 p.m. The assault allegedly occurred following an argument between the two, police added.

Cotton was held pending a hearing this afternoon in lieu of \$1,000 bail.

**SLEEPING ON JOB**  
A Midland man was arrested Sunday after he was found sleeping in his neighbor's bed, say Sheriff's deputies.

Donald W. Lucas, of 68 Manotola Ave., Midland, was held in lieu of \$855 bond Monday.

Deputies report Lucas' neighbor at 627 Magnolia returned home at 8 p.m. Sunday and discovered his screen door cut and

## Action Reports

- ★ Fires
  - ★ Courts
  - ★ Police Beat
- CARS STOLEN**  
A Sanford woman couldn't find her car says Monday, and a short time later she discovered her car was also missing, say police.
- Doris Wine of 3642 E. Portal Ave., Sanford, told police her car was taken between 8 p.m. and 10 p.m. Monday from the front of her house. She said she had not been able to find her
- BLACK MAYOR IN NORTHEAST**  
NEW LONDON, Conn. (UPI) — Councilman Leo E. Jackson has become New England's first black mayor, but civil rights officials view his role as limited in a largely ceremonial post.
- Jackson, 53, was chosen unanimously by the City Council Monday night and he downplayed the racial significance of his election.
- "I've been asked 'How does it feel to be New London's first black mayor?' Well, I want to be the best mayor of New London, black or white," he told a crowded assembly that applauded his election.

## Kennedy: Barbs Unjust

**BIRMINGHAM, N.D. (UPI)** — Sen. Edward Kennedy lashes out at critics of the proposed shift of Iran to a different from remarks by President Carter and down to represent a break with the administration over Iran.

Kennedy said Monday the real issue now is whether the shift should be permanent or temporary. He said it is important to consider the impact of such a shift on the lives of the 200,000 American hostages who are being held in Iran.

He said he has long been critical of the shift and said he would continue to speak out against it. He said he would continue to speak out against it.

## Audits Bill Applauded

Legislation passed by the Florida Legislature to audit the state's accounts for the 1976-77 fiscal year was given a thumbs up by county budget director J.G. Richardson.

Richardson said the legislation is "totally in line with our recommendation and the county commission's desire to have an audit of the 1976-77 fiscal year by a full-time audit of county records, including accounts of the constitutional officers for the 1976-77 fiscal year."

The new law allocating the \$6.7 million statewide, according to State Rep. Robert Stinson, of Alachua County, calls for each county to obtain their own auditing firms and to select the lead auditor for the work.

## Commission Considers Park

Sanford County, Orange-Seminole Commission Monday will hold a public hearing on the proposed park at the intersection of I-95 and Highway 17.

A group of citizens have organized to build a public park in the area of the intersection.

The proposed change in the public hearing commission will only consider the area of the park. The change will be proposed after State Representative Robert Stinson has spoken for a representative hearing in

# NATION IN BRIEF

## Marine To Face Charges Of Assisting The Enemy

**CAMP LEJEUNE, N.C. (UPI)** — Marine Pfc. Robert Garwood, who was listed as a prisoner of war for 14 years, makes his first formal appearance before military authorities investigating charges he collaborated with the North Vietnamese.

The Marine Corps has accused Garwood, 25, of deserting in time of war, being absent without leave and mistreating two fellow POW's. He could face the death penalty if convicted of desertion.

An article 32 hearing, the military equivalent to a grand jury hearing, was scheduled to begin this afternoon, amid speculation Monday that military authorities would deal only with some technical matters before releasing him after Christmas.

## Army Officer Is Buried

**SWANSBORO, N.C. (UPI)** — Army Chief Warrant Officer Bryan Ellis, killed last month during an attack on the U.S. embassy in Islamabad, Pakistan, was buried Monday with simple ceremonies recognizing his dedication to his country.

A seven-man firing squad from Fort Bragg, where Ellis was stationed before going to Pakistan in April to serve as a pilot for the embassy, fired the traditional 21-gun salute and the playing of "The Star-Spangled Banner" as the casket was lowered into the earth. Some 200 mourners observed the military rites held in sunny, but chilly weather.

## Black Mayor In Northeast

**NEW LONDON, Conn. (UPI)** — Councilman Leo E. Jackson has become New England's first black mayor, but civil rights officials view his role as limited in a largely ceremonial post.

Jackson, 53, was chosen unanimously by the City Council Monday night and he downplayed the racial significance of his election.

"I've been asked 'How does it feel to be New London's first black mayor?' Well, I want to be the best mayor of New London, black or white," he told a crowded assembly that applauded his election.

## Merchant Kills Burglars

**HOUSTON (UPI)** — Merchant James K. Mills was ready for the burglars he said he had a truck through the front door late in the evening and he was on his feet in a matter of minutes. He says he killed the two burglars with a shotgun and a .38 Smith and Wesson.

"I've been setting up on them for ages," Mills said. "I've been setting up on them for ages. I've been setting up with this trap for six years."

Mills, whose store Monday was described by a police detective as a natural result of "the big city" and said he was looking for a way to get out of the business of his northeast Houston clothing store.

## Did Man Rape His Wife?

**CARLE Place, Pa. (UPI)** — A Monaca woman told a jury her husband, Robert, had raped her seven years ago, claimed her. But Robert's lawyer said the wife had committed the crime and urged the jury to find her guilty.

The wife, Mrs. Mary E. West, said she was raped in 1972. She said her husband had forced her to have sex with him in a room in his northeast Houston clothing store.

## WEATHER

**Forecast:** Partly cloudy through Tuesday. High 60 to 65, low 45 to 50.

**Extended Forecast:** Partly cloudy through Wednesday. High 60 to 65, low 45 to 50.

## HOSPITAL NOTES

- General Hospital**
- Mr. J. B. Smith, 65, admitted to the hospital for a heart condition.
  - Mr. G. D. Jones, 72, admitted to the hospital for a respiratory infection.
  - Mr. F. L. Brown, 58, admitted to the hospital for a surgical procedure.

# NIGHTMARE

## Stampede At 'Who' Concert Kills 11

**CINCINNATI (UPI)** — Eleven people were trampled to death Monday night in a stampede by a crowd of 10,000 concert-goers at Riverfront Coliseum who "lost all sense of rationality" after waiting for hours in near-freezing weather.

The concert, by the rock group The Who, went on with most of the 10,000 fans already inside oblivious to what one survivor called "the nightmare outside."

It took police some 15 minutes to wedge into the surging crowd to reach the dead and to help an unknown number of injured. Early today, police still did not know the identity of all the victims.

"I thought I was dead," said Jim Holstrom, 28, of Cincinnati, who was standing near the front of the crowd with his brother, Dave, 32.

"I can't stop shaking. I think my brother is dead. He was next to me and went down in the rush. I don't know how I got out. Somebody was on top of me. I couldn't breathe."

Lt. Dale Menckhaus said 25 officers were on duty when the

Coliseum doors opened. They discussed the possibility of opening more doors because of the crowd size, he said, "but it was my understanding there weren't enough personnel at that time to make last-minute arrangements to open more doors."

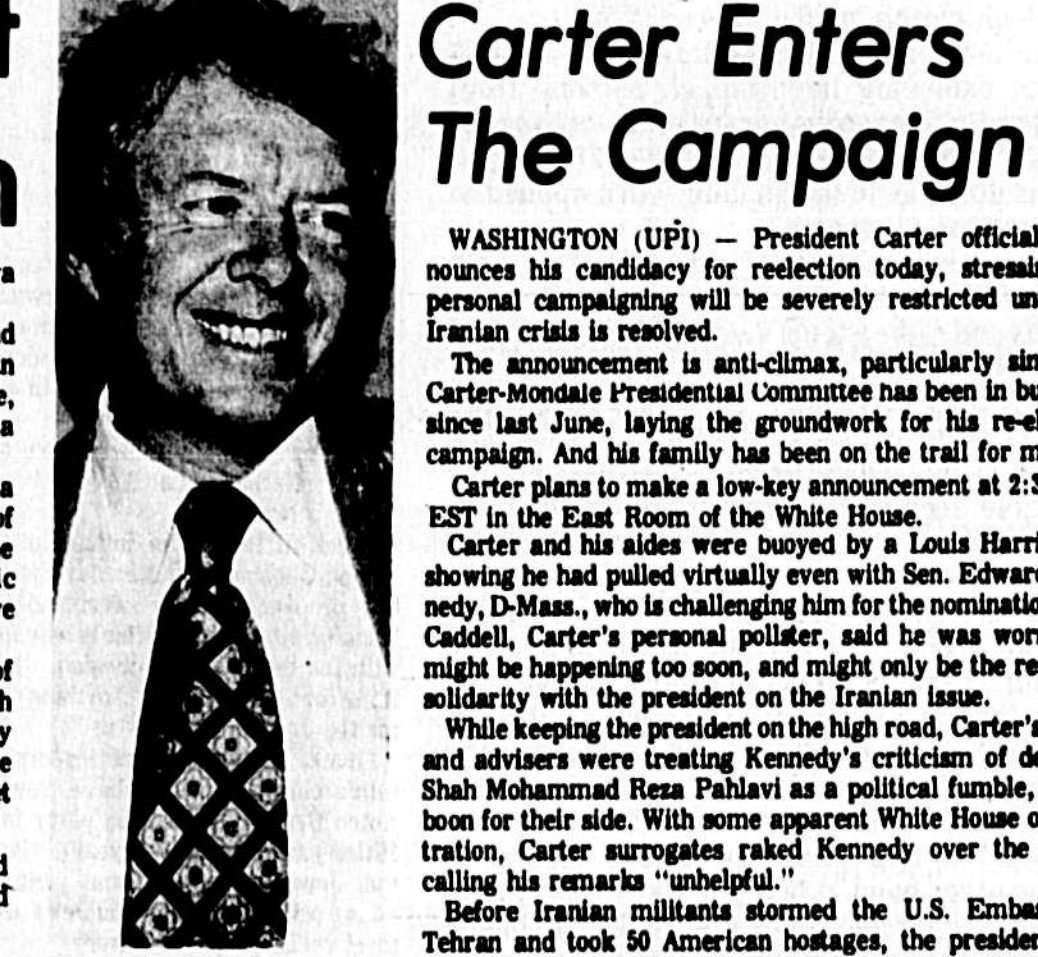

The crowd who held general admission tickets, began gathering at midday Monday along the white concrete walkway outside the Coliseum and waited in near-freezing temperatures until the doors opened for the 8 p.m. concert.

When two banks of doors in a 100-foot-wide area opened at about 7:30 p.m., they tried to push in all at once, police said. The press of the crowd shattered the glass doors and forced down scores of the concert-goers.

"A lot of young people apparently had been out there a long time before the doors opened," Mayor J. Kenneth Blackwell said at the scene. "They were cold. Some were drinking. Some were smoking marijuana, and when the doors opened, all sense of rationality left the group."

Jeff Manchester, 22, of Sidney, Ohio, was in the crowd when

## Carter Enters The Campaign

President Carter was better known as "Jimmy Who" (above) when he spoke with Herald reporters during his successful try for the presidency in 1976. Today in a low-key announcement Carter was to again announce his candidacy for the nation's highest office.

**WASHINGTON (UPI)** — President Carter officially announces his candidacy for reelection today, stressing his personal campaigning will be severely restricted until the Iranian crisis is resolved.

Carter plans to make a low-key announcement at 2:30 p.m. EST in the East Room of the White House.

Carter and his wife were buoyed by a Louis Harris Poll showing he had pulled virtually even with Sen. Edward Kennedy, D-Mass., who is challenging him for the nomination. Pat Caddell, Carter's personal pollster, said he was worried it might be happening too soon, and might only be the result of solidarity with the president on the Iranian issue.

White House officials said Carter's announcement would be a surprise. Carter's advisers were treating Kennedy's criticism of supposed Shah Mohammad Reza Pahlavi as a political puff, and a boon for their side. With some apparent White House orchestration, Carter surrogates raised Kennedy over the coals, calling his remarks "unhelpful."

Before Iranian militants stormed the U.S. Embassy in Tehran and took 50 American hostages, the president had planned an announcement ceremony with much fanfare attended by political supporters from throughout the country.

The continuing crisis put a damper on such plans.

Carter is, however, scheduled to attend a fund-raising dinner in Washington tonight. Vice President Walter Mondale will substitute for Carter at fund-raisers in major cities during the next few days. Mondale also will attend a fund-raiser with Mondale in New York Wednesday night, then cut out on her own Thursday, going to Jackson, Miss., Atlanta and Little Rock, Ark.

On the crisis front, the outlook for an early release of the American hostages was not hopeful, according to press secretary Jody Powell who told reporters he could point to an event that might make Carter more optimistic.

# Tax Reform

## Governor Loses The Battle As Legislature Adjourns

**TALLAHASSEE, Fla. (UPI)** — Gov. Bob Graham threw in the towel today and allowed the Legislature to adjourn without passing his proposed tax reform. Moments later, lawmakers formally adjourned the special session.

The governor gave up hope Monday night when a House committee voted to reject his bill. It was the first time in the history of the state that a governor has lost a legislative battle.

Graham said he was disappointed but he would continue to work on his proposal. He said he would continue to work on his proposal.

## Federal Energy Funds Low

**TALLAHASSEE, Fla. (UPI)** — Florida's share of federal funds earmarked to help low-income families pay their heat bills this winter will fall to its lowest level in a decade, according to state officials.

The state has nearly 900,000 households that qualify for the program, but the state's share of the federal funds will be cut by about 50 percent this year.

## Mold On Tank Explosion Kills 3

**TALLAHASSEE, Fla. (UPI)** — Three people were killed and 11 others injured Monday in a tank explosion in a chemical plant.

The explosion occurred in a tank containing a highly flammable liquid. The cause of the explosion is still under investigation.

## Alcohol Provides Little Nutrition

**Dr. Lamb**

**DEAR DR. LAMB**— I'm sending you a news story about the beneficial effects of alcohol. I know in the past you've written about how alcohol could be harmful to the body and I really would appreciate your position again on the importance of abstinence in raising our children. We see so many people who are dependent on alcohol as a drug. You hear people say, "How can you have any fun at a party without drinking?" Or someone will say, "Boy, I need a drink."

We think life is richer with out having to rely on drugs and we are raising our children in that light even though I personally feel there probably isn't anything harmful in alcohol being used socially as a food. For instance, one glass of beer with a meal. When you see articles like this about daily drinking habits, it does not make you wonder. What is your answer to articles like this?

**DEAR READER**— New observations always deserve to be reported even if we don't agree with the findings or the conclusions. It helps us to learn new facts and sometimes enables us to improve our living patterns. There have been several studies now that suggest that very limited drinking decreases the incidence of heart attacks. Some of these studies have not been well designed, limiting the conclusions. Some news stories have not given all the facts. They failed to mention that individuals who drank more than one or two beers a day had an increased number of health problems.

Alcohol doesn't contain any fat or cholesterol. And it doesn't contain any vitamins or minerals either. It's the closest thing to an empty calorie, one which doesn't provide any nutritional benefits, other than calories.

The alcohol habit is the fourth most common cause of death in the age group between 35 and 54 for American men and 60 percent of these deaths from cirrhosis of the liver are caused by drinking excess alcohol. I personally consider alcohol to be the most important health problem in our society.

## HOROSCOPE

By BERNICE BEDE BOOL  
For Wednesday, December 5, 1979

**YOUR BIRTHDAY** December 5, 1979

Before the year following your birthday ends, things will have turned out for you in a most fortunate way. Look for the unusual to happen at the most unexpected times.

**SAGITTARIUS** Nov. 23-Dec. 21: Just when you think nobody appreciates you, someone important will come along today to reward you in a most generous fashion. You'll deserve it. Getting along with other stars in one of the sections you'll enjoy in your Astro-Graph Letter, which begins with your birthday. Mail it for mail to Astro-Graph, Box 686, Radio City Station, N.Y. 10101. Be sure to specify birth date.

**CAPRICORN** (Dec. 22-Jan. 19) In dealing with another today you might have provocative actions as to how this person will react. However, he or she will treat you more fairly than you surmised.

**AQUARIUS** (Jan. 20-Feb. 19) This little extra effort you may be asked to put out today will be well worth the effort. It won't be as difficult as you think.

**TAURUS** (April 20-May 20) In a matter on which others are not so well informed as you, try not to be too influenced by their opinions. Your views are much more accurate.

**GEMINI** (May 21-June 21) Although it may come as a surprise, your checkbook was not so heavily dented as you might think. You'll stretch further because of some unusual circumstances.

**CANCER** (June 22-July 22) Good things will be happening today in relation to your work and give you a much more optimistic perspective.

**LEO** (July 23-Aug. 23) Keep your hopes up. Conditions being so favorable, you'll find yourself in a way that you've long desired.

**VIRGO** (Aug. 24-Sept. 23) You'll have much more luck today if you get others to go along with your ideas rather than going along with theirs. It won't be as difficult as you think.

**LIBRA** (Sept. 24-Oct. 23) A break comes today from an area you've least expected, so be patient if at first things look dark. You could be celebrating by evening.

**SCORPIO** (Oct. 24-Nov. 23) An irritating situation could give you to action you wouldn't ordinarily take. It will turn out to be an opportunity when you least expect it.

## WIN AT BRIDGE

By Oswald Jacoby and Alan Bonning

You never know what is going to be had result in a match. Even games with the scores are 3-1.

Play at five clubs. South wanted no time in checking his contract out the front door. He grabbed a nutritional bar instead of trick one and eventually lost a heart and a diamond.

East was one of those smart Aces who like to point out their opponent's mistakes. He explained carefully that since South had to lose a heart trick some time or other, he should have planned to lose it in such manner that East could not get in. In other words, South should have let West hold the first spade. This South could discard a heart on the ace of spades, set up three long hearts and get three diamonds discarded.

North became somewhat annoyed and finally turned to East and said: "Your analysis is good. Too bad you bid like money has gone out of style. If you had jumped to four no-trumps as you should have, the chances are that your partner would have played that contract. My partner was hard put to bid four clubs. He surely wouldn't have bid five. Four spades is a lay-down and when the scores are in, you will find that your plus 100 isn't going to be worth much." (NEWSPAPER ENTERPRISE ASSN)

## Panel To Decide Downtown Fate

By DONNA ESTES  
Herald Staff Writer

Whether current plans for the revitalization of downtown Sanford will be consummated, changed through compromise or abandoned will be up to a special eight-member committee to be named in the next few days.

Formation of the committee was approved at a joint meeting of the Sanford Business Association (SBA) and the Sanford Development Corp. (SDC) with opponents to the current plan led by Sanford Attorney G. Algeon Spoor this morning.

Acting as moderator of the meeting was Vice Mayor, Greater Sanford Chamber of Commerce president,

radio issued conflicting commentary, both criticizing and praising the resolution.

In a morning commentary, the radio called the resolution "unintelligible." But a later commentary said it left the way open "for continuing efforts" to bring a peaceful end to the crisis, now in its 25th day.

The later commentary said the committee should be named in the next few days.

Security Council resolution was "not compulsory" and in no way condemned Iran but "indirectly warned the United States about military threats or actions."

Iranian students in the Soviet Union were held in silence on the Tehran hostage situation, condemning Iran but the United States for breaking international law.

Knovics also said the group has to decide whether it is envisioned that the downtown will remain a business center or will be changing to a service center of offices and small shops. "If it is going to be a service center, there needs to be different plans," he said.

"If it's going to be a business center, it needs to be a business center," Knovics said. "I've been involved in five different downtown renovation plans," said Carl Calkoun, president of the SBA.

Spoor has said that if plans are continued as currently envisioned, he will file suit.

"I've folks need to get together so we know each other... know not just each one is saying, but what each of you is thinking," Knovics told the group meeting at city hall.

Knovics also said the group has to

## County Prepares The Way For 2nd Cable TV Company

By DIANE PETRYK  
Herald Staff Writer

The Seminole County Commissioners Tuesday night paved the way for a second cable television company in the county.

The Commissioners unanimously passed an amendment waiving the requirement that any franchised cable firm provide service to all areas of the county.

Seminole Cablevision has applied for a franchise to operate in Seminole County since 1974. The company was required under the CATV ordinance to provide service to all areas of the county.

Seminole Cablevision said it has applied for a franchise to operate in Seminole County since 1974. The company was required under the CATV ordinance to provide service to all areas of the county.

## County Awaits State Orders Tax Base To Rise?

By DAVID M. RAZLER  
Herald Staff Writer

Seminole County may be forced to reassess all real property this year, a move which might change the tax bill for some residents, either up or down.

Governor Bob Graham announced Tuesday he would demand 11 Florida counties assess all property at 100 percent of value, as mandated by the state constitution.

He also announced that Department of Revenue Director Randy Miller has sent letters to 19 counties, including Seminole, asking them to reassess their property at 100 percent of value.

But Bill Suber, Seminole County Commissioner, said he doesn't believe the department has yet received the letter, nor has the state yet given it an exact figure on how much assessments are off.

"It depends on the figures you're looking at. One says we're at 70 percent, another at 71 percent and one at some other number," Suber said. "I don't know what the state officials are meeting to determine where Seminole assessments stand."

## Few County Churches Ring 'Hostage' Bells

By JANE CASSELBERRY  
Herald Staff Writer

Most churches in Seminole County are not ringing their bells to show concern for the hostages in Iran.

But that does not mean area ministers or their flocks are apathetic about the plight of the captives.

In a statement to the press last week, Rev. Wayne Smith, minister of Altamonte Community Chapel indicated they intend to start ringing the bells in their historic old churches each noon.

Knovics said he would begin today, thinks the bell ringing is a good idea to show solidarity and that they were praying daily for the hostages.

Pastor John Kucharik of St. Luke's Lutheran Church, Slavia, said he is setting up a schedule for bell ringers each day during the crisis.

Rev. William Zentis of All Souls Catholic Church, Sanford, says tape-recorded Angelus chimes are rung out automatically three times a day, including noon. This was being done before the situation exploded in Iran. "We are praying daily in the Masses for peace and the safety of the hostages," said Rev. Zentis.

Rev. Leroy Super Jr. said his church has a bell, but is not yet ringing it at noon. "We have no one to ring it at noon, but may start if we find someone," he added.

Most of the newer churches in the area do not have bells to ring. This is true of First Baptist of Sanford and First Baptist of Altamonte. "We have no one to ring it at noon," said Rev. Zentis.

How long will that take? "I have to look about it," McMillan said. — DIANE PETRYK

## Iranian Students Reject U.N. Resolution

TEHRAN, Iran (UPI)— Militant Iranian students today rejected a U.N. Security Council resolution calling for the immediate release of the 46 American hostages held in Tehran.

The students also announced the resolution is "void," but the country's official

## Nursery Fire Rages

Fire which had already destroyed four units of the Mulford Hickerson greenhouses on Euna Lane, Altamonte, continued to rage today after noon today.

Nearly 400 firefighters were on scene today. "We have no one to ring it at noon, but may start if we find someone," he added.

Most of the newer churches in the area do not have bells to ring. This is true of First Baptist of Sanford and First Baptist of Altamonte. "We have no one to ring it at noon," said Rev. Zentis.

How long will that take? "I have to look about it," McMillan said. — DIANE PETRYK

## Boat Dock Must Be Shortened, Commissioners Say

After a year of controversy, the Seminole County Commissioners today said the boat dock on the waterfront must be shortened to conform with zoning regulations.

The dock and boathouse, on lot 16, of the John Henry Estates, near the waterfront in Sanford, were built by the late Dr. J. M. Williams. The dock was 15 feet longer than the zoning ordinance allowed.

Neighbors of the dock and boathouse have long complained about the structure as an obstruction in the water way.

The original permit to build dock and boathouse was withdrawn by the county and a stop-work order issued when it was found out that the structure was going to extend about 15 feet further into the canal than the county intended to allow.

Despite this, the dock and boathouse were built, according to Assistant County Attorney Bob McMillan.

"Disrupting a written plan by the county attorney that a decision is to be made by the county is not a good thing," McMillan said. "The dock and boathouse, on lot 16, of the John Henry Estates, near the waterfront in Sanford, were built by the late Dr. J. M. Williams. The dock was 15 feet longer than the zoning ordinance allowed.
