Californian Has Slaying Story Which Rivals That Of Man Held In Seattle

SAN FRANCISCO, Aug. 11. (AP)—Whether Thomas Johnson, in jail in Seattle, and Philip H. Brown, due at San Bernardino today from Needles in custody of Sheriff W. A. Shay, are rival prevaricators, lunatics, fools, or all three, is a question confronting Pacific Coast authorities today.

Johnson has told an unusual tale of murdering more than a dozen persons over the central and western sections of the United States and committing more than a hundred robberies. Investigation has tended to substantiate Johnson's "confession" which followed his sudden appearance at the sheriff's office in Seattle a week ago. He admits having escaped from an insane asylum in Missouri. Brown was expected to repeat with added details his alleged confession in Needles yesterday that he strangled to death or attacked 12 women in California. He declares his attacks were all on women. Like Johnson, Brown says he served time in an asylum. This, however, has not been confirmed. A telegram from Sheriff Shay to his office in San Bernardino yesterday said Brown admitted attacks on women in San Francisco, San Jose, and southern California cities.

CHURCH QUARREL SHOWS NO SIGNS OF ENDING SOON

Catholic Authorities Insist
They Will Not Support
Revolution And The Episcopate
Pledges Aid To Government

MEXICO CITY, Aug. 11. (AP)—The controversy between the Mexican government and the Catholic Church over the government's religious regulations showed no signs of lessening today.

The Catholic authorities, who consistently have ordered moderation and no violence, declared today that they would not support any revolution. The Episcopate even went further when in a statement to the Associated Press it asserted that in the event Mexico was menaced by armed conflict with a foreign power the church and its members would support the Mexican government with absolute loyalty.

The economic boycott called in protest against the religious policy, continues to be the cause of much apprehension, but some relief is expected over the abandonment of joint debates by the government and religious leaders on the situation. These debates had been drawing big crowds and the arguments were becoming so warm that the feeling so intense that it was feared serious clashes might develop if they were continued.

Neither the Catholic Episcopate, government or the authorities had any information that priests had been killed anywhere in the state of Michoacan, Mexico City, however, constantly is filled with unfounded rumors of all sorts of bloody disasters in various parts of Mexico.

The newspapers here print reports that three citizens were executed after a court-martial at Acambaro. They were charged with leading a mob which recently killed two government engineers, Violante and Almedia, because they thought the engineers were government agents in the religious situation.

The Catholic Episcopate, in a long statement addressed to "The American People" denies Catholic responsibility for the situation. It cites in detail religious restrictions in the constitution. It also says the church is only seeking to have the constitution amended to secure religious liberty like that in the United States.

MUNICIPAL BONDS ORDERED SOLD BY CITY COMMISSION

Sanford Officials Authorize
Bids Advertised For \$1,575,000
Bonds; Represents 3
Fifths Of The Total Issue

Sanford municipal bonds, totaling \$1,575,000, to be used for public improvements, were ordered sold Tuesday afternoon in a resolution adopted by the City Commission.

This total represents three fifths of the \$2,666,000 general obligations voted at a special election held March 8, 1926. It will be the first portion of the huge bond issue to be placed on the market. The price the bonds will bring will be awaited with keen interest by Sanford City Commissioners and business men.

The notice of the sale of bonds, drawn up by George A. DeCottis, city attorney, specifies that sealed bids will be received up to 2:30 o'clock, Sept. 3. Proposals will be received on the following issues: Sewer improvement \$75,000 Street improvements 100,000 For purchase of property 100,000 Extension of waterworks system 325,000 Gas plant improvement 200,000 Municipal hospital 100,000 Extension of "White Way" system 75,000 Municipal matatorium 100,000

The City Commission it is said, has proceeded slowly in placing the municipal bonds on the market. The city sold \$734,000 of special assessment bulkhead bonds 60 days ago, and according to City Manager W. B. Williams, it is deemed wise to permit that much time to elapse between bond offerings.

The bond market is said to have been "off" in the entire country this summer, and the large offerings of Florida public improvement bonds last winter glutted the market. It was decided to wait as long as possible before placing the bond issues on the market so that the best price would be commanded.

The bonds will be dated July 1, 1926 and interest payable semi-annually July 1 and Jan. 1. They will bear 5-1/2 per cent interest. The bonds will mature 30 years after date.

NEW FINANCIAL ACT IS PASSED BY ASSEMBLY

Senate And Chamber Meeting
In Versailles' Pass Poincare's Measure Which Provides For Sinking Fund

Fist Fights Mark
Tumultuous Meeting

Funds Are To Be Used For
Debt Amortization; Bill
Is Triumph For Poincare

VERSAILLES, France, Aug. 11. (AP)—Amid the most tumultuous scenes ever witnessed in the national assembly, that body, made up of the chamber of deputies and the senate, in joint session late last evening endorsed France with a sinking fund having a sound constitutional basis.

This sinking fund had to be incorporated into the organic law of the land and therefore the vote of the national assembly was necessary. The fund will be used to effect amortization of the country's floating debt, and is one of the schemes with which the government hopes to relieve the tangled financial situation.

The triumph of the Poincare government by a vote of 471 to 144 came after several suspensions of the assembly because of the obstreperous tactics of the communists. At one time there were fist fights between the extreme right and extreme left members.

The one-armed General Pelletier, acting as sergeant-at-arms, mounted the rostrum to drag down the communist deputy Duriot, while other communists sang the Internationale.

After the obstruction of the communists was quelled, one fact stood out—that France's supreme legislative body had decided that the commission which will have at its disposal the income from the tobacco monopoly and part of the proceeds of the inheritance tax shall be removed from all political conflict. It made it a part of the constitution, thus guaranteeing it against the changing fortunes of parliamentary politics. The government and the majority which voted for the measure, say it assures the sinking fund against leakage, against going astray.

Hold Amendment Useless. Opponents of the measure, led by Leon Blum, the socialist leader, before the communists intervened, declared that an amendment to the constitution was a useless effort to apply constraint on the chamber and senate.

Emphasizing the necessity of the national assembly adopting the sinking fund plan and making it part of the constitution, Poincare pointed out that by this action "our creditors will find proof that we are determined to pay all our debts in the measure of our capacity."

STREET PAVING IS OKEAYED TUESDAY BY CITY OFFICIALS

Sanford Commission 'Flooded'
With Petitions For The Im-
provement Of City Streets:
To Open Up Thoroughfares

The City Commission was "flooded" with petitions for improving and opening streets Tuesday afternoon at the adjourned meeting. The Commissioners also advised the city engineer to proceed with several paving jobs that were under advisement.

A. P. Connelly appeared before the Commission and requested the opening of Fourth, Fifth and Sixth streets from Pecan Avenue west to Persimmon Avenue. The city manager was instructed to proceed with the work on a motion adopted.

In the name of the Meisch Realty Co., Mr. Connelly requested that the following streets be paved a width of 10 feet with a six-inch rock base:

Pecan Avenue from Atlantic Coast Line to Twelfth Street; Tenth Street, from Pecan to Mulberry Avenue; Mulberry, from Tenth to Thirteenth Street; Twelfth and Thirteenth Streets, from Pecan to Olive Avenue; Olive, from Tenth to Thirteenth Street. The request was approved and the city engineer ordered to proceed with the work.

The Commissioners adopted a motion to pave Park Avenue, from Katie Street south to city limits, a width of 24 feet with the same material as used by the State Road Department in paving road Number three, outside of the city limits.

The city engineer was authorized to proceed with the paving of Elm Avenue, between Fourth and Fifth Streets and Fifth Street from Elm Avenue to Laurel Avenue. The paving will be 24 feet wide, of sheet asphalt on a rock base.

French Freedom Are Absurd

BOISE, Idaho, Aug. 11. (AP)—Senator William E. Borah of Idaho, chairman of the Foreign Affairs Committee, has prepared a statement in response to inquiries regarding his opinion of the open letter from Georges Clemenceau, war-time premier of France, to President Coolidge.

In his statement Senator Borah said: "Clemenceau's letter is so cruelly misleading in reference to the sale and independence of France, and so deliberately unjust in his statement waiting for America and our separate peace treaty, and yet so pathetic in manifest love for his country that I prefer not to comment at length.

"He is one whose unfounded wrath we can afford to ignore and whose malicious insinuations we can afford to pass by. It would seem that if they have anything to say of a people whom they once hailed as their unselfish deliverers, they would at least speak the language of truth and graciousness.

To state that we are trying to undermine the independence of France, or that somebody wants to buy France, approaches the absurd.

"If they want to cancel their debts, let them include all debts and all preparations and show that benefit of the cancellation will go to humanity and to betterment of the masses of Europe and not to the benefit of imperialistic schemes which are now crushing the life out of people and who were in no sense responsible for this war."

Black Leading Field Of Five In Alabama Senatorial Contest

"Ma" Ferguson Says
She Is In Texas Race
"With All Her Heart"

AUSTIN, Texas, Aug. 11. (AP)—Governor Miriam A. Ferguson today declared she is in the race for governor of Texas, "with all her heart."

In a 2,000-word statement, she declared that Attorney Dan Moody, her chief opponent, never had accepted her offer to resign.

The governor's statement, which has been awaited since the Democratic state executive committee last Monday certified her name with that of Moody's for the primary run-off, promises a heated two-week campaign for the Democratic nomination, which, in Texas, means election.

No official statement as to her plans had been made by Governor Ferguson since her announcement two days after the July 24 primary in which she said she would not be a candidate for the nomination in the run-off.

Mrs. Ferguson makes the Ku Klux Klan her principal issue, declaring that the Klan is celebrating Moody's large vote in the first primary as "a Klan victory."

NEW ORLEANS, La., Aug. 11. (AP)—Prohibition and Al Smith are pushing themselves to the fore as the predominant issues of the Louisiana primary campaign.

In seeking the Democratic senatorial nomination, former Governor J. Y. Saunders, running on a dry ticket and favoring a referendum on the prohibition question, is being recorded the support of the "wet" wing of the party. Senator E. S. Broussard, an avowed wet, is seeking re-nomination.

BIRMINGHAM, Aug. 11. (AP)—Returns from 512 out of Alabama's 1,100 precincts today increased the lead of Hugo L. Black for nomination to the United States Senate, over Bankhead, running against Black, said he would concede Black the nomination.

Figures for the 512 precincts gave Black 26,321, Bankhead 19,644.

BIRMINGHAM, Aug. 11. (AP)—Hugo L. Black, candidate for the Senate, today continued to maintain his lead over the field as returns from yesterday's Democratic primary were tabulated, will be 24 hours before definite results are known. Second-choice votes may play big part in final results.

Black was believed to have received the vote of the Ku Klux Klan notwithstanding the fact the national headquarters of the order had endorsed another candidate, L. B. Mugrove. Mugrove appeared fourth in the list of candidates. John H. Bankhead was running second.

In the governor's race, Graves held a small lead over Charles S. McDowell, Jr., and C. Michael was running second. Road bonds and the governor's race favored a \$75,000,000 road issue while Patterson was "pay as you go" plan.

Sanford Police
Negro's Work
Preacher, Detective

The preaching and detective activities of J. W. Allen, near Sanford, arrested last night on three charges of assault, carrying concealed weapons and disorderly conduct, will be confined for some time to the city jail. Judge W. E. Allen sentenced Allen to 50 days in the charge of assault, 30 days on the charge of carrying concealed weapons, and 30 days for disorderly conduct.

Allen claimed to be a preacher of long experience and also that he had been a detective in 1913. He was alleged to have threatened to clear up the colored section of Sanford last night just before he was taken into custody by members of the local police force.

Other news appearing before Judge W. E. Allen were: Elmer E. Zornis, charged with assault and discharging fire arms, arrested Sunday, who forfeited bonds of \$100 and \$15 on the two charges; Oliver Tinsman, reckless driver, dismissed; Fred Dixon, reckless driving, fined \$5; Marney, reckless driving, dismissed; Leon Shanks, assault, transferred to the county; John Brown, disorderly conduct, forfeited \$25; Ireta Martin, assault, dismissed; A. Blair, parking violation, \$5; S. S. Summitt, disorderly conduct, fined \$5; L. B. Mack, charged with reckless driving, transferred to the county.

Bankers Trust Company Head Denies Any Intent To Conceal His Assets

ATLANTA, Ga., Aug. 11. (AP)—Denial that he transferred \$500,000 in assets to the W. D. Manley and Company, Inc., with the intention of defrauding his creditors as alleged in the bankruptcy petition filed against him, was made Tuesday by W. D. Manley, president of the Bankers Trust Company, in an answer to the bankruptcy proceedings.

The answer, filed in federal district court in the name of Mrs. W. D. Manley, "appearing as next friend," set forth that Mr. Manley, is "physically and mentally unable to appear" at the bankruptcy proceedings.

The Bankers Trust Company acted as fiscal agent for a majority of the small Georgia and Florida banks which closed recently. Representatives of Mr. Manley, said he was in Allen's sanitarium at Milledgeville, where it was said that an operation was performed yesterday. His condition was believed to be serious.

Text of Manley's answer follows: "The answer of W. D. Manley, president of the Bankers Trust Company, to the bankruptcy petition filed against him, was made Tuesday by W. D. Manley, president of the Bankers Trust Company, in an answer to the bankruptcy proceedings.

City Budget Being Prepared Now By City Clerk Philips

The city budget for the fiscal year, beginning Oct. 1, is being prepared by L. R. Philips, city clerk, for early submission to the City Commission.

Estimates on the financial needs of the city departments have been submitted by the departmental heads to the City Clerk. The growth of the city has increased the work of the police, fire, health, and engineering departments and estimates on the operating expenses will be bigger than those submitted last year.

Mr. Philips, who is also city assessor, is preparing his tax roll for the new year. The tax receipts and revenue from all other sources will determine the total to be allowed for the budget, which will be submitted to the Commissioners for their acceptance or rejection.

Fate Of Five Miners Is Still Uncertain

SALEM, Ky., Aug. 11. (AP)—An air of intensity pervaded the camp of rescue workers here today while crews worked feverishly to reach their five entombed companions in the Hudson mine.

The shaft in which the miners have been imprisoned since last Thursday when a cave-in closed them underground was almost clear and it was a matter of hours until the fate of the victims could be determined.

At least four of the men, George Patillo, Randolph Cobb and Harry and U. B. Wilson are thought to have reached a ledge about 200 feet on the other side of where the reservoir broke through. The fifth man, Roy James, was walking back from the shaft toward the cave a few moments before the crash.

Of The Founder Of 'April Farm' Colon Is Granted Divorce Tuesday

WYBURN, Mass., Aug. 11. (AP)—Mary When Garland Tuesday won her liberty from the man which her eccentric millionaire husband, Charles T. Garland, termed "unfortunate" in the last letters he wrote to the Allentown, Pa., jail.

For the next two years he bobbed up frequently in the news because of a "back to nature" movement he staged on a farm on Cape Cod. Several investigations were conducted into conditions there.

His wife, who was Mary When, daughter of a socially prominent family in Dedham, Mass., left him during this period. But in 1922 they were reconciled on the birth of a son.

Fortune continued to shower Garland with her gifts. His father left him a third interest in a \$1,000,000 trust fund in 1923 (Continued on Page 2)

VAUDEVILLE

ED. WALTHALL, who has been singing in the "Sam" role Hudson Essex Co., Sanford, Fla.

Why do all vaudeville entertainers think they have to sing? Vaudeville shows would be ten times as entertaining if they would get out the songs.

The system is all wrong. No matter how good an act a performer may contribute to a program, either as a part of that act, or as a separate act somewhere else in the program a song must be attempted.

Now, I rise to inform the powers that be in vaudeville that it is not necessary to follow that, because a woman has a shapely neck, she also has a sweet voice. Nor is it a fact that because a man is a thrilling acrobat and does stunts that make your hair stand on end, if you have any, he is also a fine vocalist.

It is wanted to contribute one of the greatest boons to a long suffering humanity, and had the time to do it, I would make it a life-time offense for any one to ever sing in a vaudeville show.

I could imagine no finer inscription on the slab that is to mark the place where I am to spend my last long sleep than this, "Bill, the man who put a stop to singing in vaudeville."

The trouble with most vaudeville performers is they think they are too versatile, they do not recognize their own limitations. As soon as people get on the vaudeville stage they think that gives them a right to punish the public with songs.

On the same principle, just because the Essex Coach gives such a wonderful performance as an automobile it would also be a fine motor boat.

BIBLIC VERSE FOR TODAY

What is so rare as a day in June? A cool one in August.

We didn't win two, but breaking even's better than losing a pair and that's that.

They are having lots of good times over in Panama City. The Pilot reports the holding of an old-fashioned spelling bee the other day. We'd like to know when they are going to stage a log-rolling or a corn-busking?

T. A. Joyce, the explorer, found Mayan tribes wearing garments like Oxford bags. That's almost as precious as if they had been found wearing galoshes.

Joe Tracey had an easy time of escaping from prison guards. Pretty soon they'll become so lax up there, at Raiford, we will be hearing of Al House, J. J. Mendenhall and a few others of lesser prominence calmly walking away without stopping to say good-bye.

As late as last Sunday the Florida Morning Star was quoting the Tampa Telegraph. We had heard that things were shaky at Tallahassee but had no idea they moved that slow. Tampa Times. No doubt you have heard that Tallahassee is where the legislature meets occasionally. Sanford Herald. Sure, and that reminds us that we hope that the legislators will go slow on reducing the state's surplus just because it has one—Tampa Times.

H. J. Holly, genial bald head 44 Bro. former editor and publisher of the Daily Herald, and secretary of the Florida State Press Association has been named acting secretary of the Chamber of Commerce, following the resignation of Bob Pearman. The Board of Governors lost no time in filling the vacancy and there is strong probability that Mr. Holly will soon become the active secretary instead of the acting secretary. Few men are better known over the state than Mr. Holly and local business men have been identified with every movement for the betterment and upbuilding of the City Substantial. He got his first training in news work in the office of the Tampa Tribune. He has been in the news business in Indiana, many years ago, and aside from service during the World War has been a resident of Sanford ever since coming to Florida. Publishers News.

We know Bob of old can vouch for the above news item. 'Tis true that Bob has more face to wash than many of us but it is also true that Bob is genial. Bob, we wish you every success and invitation to a talk duel with our Karl Lehmann of the Orange Co., and O. C. C.—Orlando Sentinel.

Let These Threats Become Action

"Insurance companies threatening to act if flimsy construction continues"—a headline in the Tampa Tribune that should be broadcast as good news throughout Florida. That is, if the insurance companies not only "threaten" but actually do something drastic to put an end to the shoddy building work that is tolerated in every town in Florida.

In Tampa complaints have been made by architects and honest contractors that the city building department is entirely too lethargic in the matter of enforcing the city's building code. In all the newly developed sections of that city, the Tribune reports, are fire hazards caused by flimsy construction. Light wood and paper lunch stands, real estate offices and curio nooks are built flush against structures that are valued highly, according to the secretary of the Builders' Exchange in Tampa. And he further reports that members of the building code committee are frankly disgusted with the laxity of that city in enforcing the code.

Moreover what is true in Tampa is true in practically every other Florida city. Not only are fire hazards permitted to be built, but buildings constructed out of materials that are not even rain-proof are thrown together for the purpose of cheating some gullible buyer out of his money. The insurance companies can scarcely "threaten" to expose that sort of flimsy construction, but by going after the fire hazards without show of mercy, they can arouse city building departments to an alertness that will bring attention to defective cement blocks, cheap-mixture concrete, dangerous plumbing, imitation roofing—the countless trickeries used in the erection of buildings that are to be sold to the first fool that will pay the price.

If the insurance companies will begin to make things unpleasant where fire hazards exist; and if honest contractors and builders will go about exposing the windlers who are putting up unsafe structures, Florida will reap the reward.

And while we are on the subject, are there any oil tanks in Florida that are not properly protected against lightning? Not long ago the United States sustained a snug little loss of more than a hundred million dollars, and destruction of life which could not be measured by money. That loss was caused by failure to have explosives in storehouses that were safeguarded against lightning.

Our same United States is getting ready for another disaster by failing to have its naval oil storage base equipped with lightning protectors. In Florida, how many large oil storage tanks are safe from lightning? Have the insurance companies made any complaint regarding the privileges according to oil companies in this state?

"Flimsy construction" is the target for Tampa citizens interested in their city's safety and stable growth. And, fortunately, if they can get some drastic action taken in their own city, it will start the rest of the state into investigation of shoddy building, and perhaps bring punishment for the crooks responsible for any kind of dishonesty in construction work.

Books, What Are They Doing For You?

How many books have you read this summer? Do you buy books as a regular practice? Do you keep adding to the number of books in your home library? And how much service are you getting from the books that stay on your shelves year in and year out?

Those are some pretty good questions for your consideration. Practically everybody who knows how to read can find time for the reading of an occasional book, at least. The riches of the world are found in printed pages, and the best enjoyment can be derived from the world's literature. If you are not using books, if you are not making time for the reading of books, you are depriving yourself of advantages—cheating yourself out of benefits that would not only mean a broader, happier life for you, but increased wealth.

Out of your budget there should be a little money for books. It is possible to buy books of the better kind at moderate prices. You can buy a book for the price of a dinner. Why not forego your dinner, if necessary, and buy something to feed your mind and soul? Your home library should be growing at a goodly pace. And while it is growing it should be of use. Your books should be circulating among your friends. When the volumes are literally worn out by much reading, replace them with new copies. And send these out to be worn to shreds by people who can enjoy them.

Often you will come across strange characters who think a book's place is on a library shelf. Such people are even known to keep books with unread leaves for the "show" they make. But you do not have to exhibit the same sort of idiosyncrasy. You can use your books and make them do service until they no longer hold together.

Now and then, too, it is good business to select a book, or a dozen books perhaps, and give them to the public library. Or if you are not established in a home where there is room for a rapidly growing home library, make a practice of giving your books to the public library as soon as you have read them. That is a way to be of service to all the community. And you could do it with surprisingly little cost to yourself.

The Herald hears of the increasing patronage of the Municipal Library with much pleasure. The people of Sanford seem to be genuinely enjoying the advantages offered by that institution. But it would be worth while for Sanford to have a sort of book revival and a concerted movement for bringing more patrons to the library and more books for the library shelves.

Take a thought today for books and what they are doing for you and your people.

PITY THE PARENTS

A lad only 18 years of age is lying at death's door in Indianapolis. That in itself is not unusual. But the circumstances are unusual. The lad was attempting to steal an automobile and was caught in the act and while being arrested, whipped a pistol from his pocket and shot the policeman; he was wounded in his attempt to make his escape. Lying on a cot in the detention ward of the city hospital, he was visited by his father and mother. The mother was described as being hysterical; she fell upon her knees beside the cot and wept. The father remained calm and thoughtful but said he did not believe his boy could do such a terrible thing; and he did not believe he knew how to shoot a revolver. But that father, like many an other father, did not know his boy. And herein is the secret to many a tragedy—that a father does not take time to know his boy and know what he can do. The boy had had one year in college. The parents had average standing in the community. This was the first

As Brisbane Sees It

Monument To Wren. Revolution Power. 100 Percent Anglo-Saxon. Religion As An Issue. BY ARTHUR G. BRISBANE (Copyright 1926, by Star Co.)

IT IS suggested that 19 old churches in London, threatened with demolition, some designed by Sir Christopher Wren, be removed and set up in the United States.

Better spend the money for a monument to Wren, one of the world's great men. He was a great architect, great mathematician and a great astronomer.

Last words of great men are nicely collected. Frederick the Great's "Tote D'Armee," Pitt's "My Country, how I love thee" or "How I leave thee," Goethe's "More light," etc.

A YOUNG poleman, Frank Murphy, killed by bandits in the performance of duty, said to his captain who consoled with him, as he lay dying, "That's all right, Cap, it's all in the job. Those last words are as good as any."

NEW COMES from Denmark of an uprising in Russia, stories of Trotsky leading military revolts. The Russian government has power, but it is all the power of revolution, which is great. It is able to touch revolutionists to conquer and terrorize European countries.

The revolution in Russia possesses the power that comes of giving land to people working on it. Bolsheviks took gigantic estates from which revenues were spent by worthless grand dukes and divided the land among Russian peasants.

These peasants support Bolshevism in spite of their fear of losing their land if Socialism should fail.

THEY WILL come, presumably, if always done from quarter to quarter. In the French revolution, Robespierre cut off Napoleon's head, after he had proclaimed a "high priest" at the Festival of the Supreme Being. Then the convention declared Robespierre an outlaw, and with his jaw broken, Robespierre was dragged to the guillotine and his head cut off.

Marie had her day of power, but Charlotte Corday murdered him, the French god of revolution and Napoleon took charge of them, dragged them all over Europe and gave them something to make them really tired.

Something like that probably will come in Russia for history really does repeat itself. DEATH IS and to now, he cannot be quiet. During the last week from 10,000 to 15,000 have been killed. A boy cut on all his hands in Mexico, came to a hospital in Spain, but that would be a boy cut on all his hands, carrying a flag. Practically all workers in Mexico are Catholics.

HERE A religious political fight starts. The current about time Bishop Vena W. Leonard, general superintendent of the Methodist Episcopal church in New York, attacking Governor Al Smith, says: "No governor, be he nullificationist or not, can kiss a papal ring and ever get within gunshot of the White House."

BISHOP LEONARD wants "no immigration laws enforced against Latin races that would block this country." The Bishop should read "I am 100 percent Anglo-Saxon" America is a Protestant nation and always will remain so.

THE BISHOP might remember that Christopher Columbus was not 100 percent Anglo-Saxon, hadn't come to America the ratio of bishop might not be here.

ALSO NOBODY can say, with certainty, "I am 100 percent Anglo-Saxon." Many things happened on those foggy British Islands when the Romans came from Spain and left their bread and butter, when Caesar brought his troops of the "Latin Races" to take possession of Saxon lands and Saxon ladies, when William the Conqueror brought his Frenchman, also of the "Latin race," to the British Isles. The tall Catholic bishop might remember that the Methodist bishop might have some of his blood.

MARK SULLIVAN believes that Mr. Conner of Ohio might be elected as compromise candidate between Smith and McAdoo. But if Governor Smith is thrown out of the convention because he is a Catholic the chances are ten to one that no other Democrat will be elected in 1928.

EMORY RAYES CAN hardly expect to throw out a Catholic candidate because of his religious without all the throwing the Catholics' vote out of the Democratic party.

TODAY AT primaries in four states, Ohio, Nebraska, Alabama and Arkansas, citizens will vote on issues none of which ever worried Thomas Jefferson or Washington the Ku Klux Klan, Labor issues, farm relief, and especially prohibition.

THIS IS a religious country. Financially at least. D. L. Loyola of the "Council of the Churches of Christ of the United States and Canada," says religious Americans gave to religion last year \$648,000,000. That sum, about \$6 a head for everybody in the United States, ought to save many souls if carefully spent.

IT CAN'T HELP BUT GROW NOW

JOKING WITH JUSTICE

The prize gullibles are the "gullible" who were sent out with Tracey, the outlaw, ostensibly to enable the said Tracey to recover a package of stolen Liberty Bonds, which he had concealed somewhere in the Everglades, unless we think the prison authorities who permitted this desperado to go forth on any such wild goose chase. The reward allowed Tracey to go another he would. He "visited" the towns along the route. His wife and she gave him the precious "envelope." It was supposed to contain the valuable bonds. The officers accepted blindly and trustfully. They even granted Tracey request that he not open them until they returned to Raiford. Can you imagine the out-laws waiting in his sleeve at the sight of his own property? The package contained worthless paper. The reward was a little joke. Even the "part" Tracey, after receiving, went to the real hiding place and received the bonds to use at his own pleasure. Any individual with a double full of brains would have known that the outlaw would not return valuable loot when he had good chances of escaping and enjoying its proceeds himself. Then Tracey wanted to see his "old man." The truth officers took him to the place of escape, already carefully arranged. Tracey had the officers to "leave him for a few minutes." The poor boys were so awfully modulatingly polite that they didn't hesitate. While the officers waited, Tracey went through the house, mounted a waiting horse and was off. He is still off, and perhaps will continue to be off. Even childhood laughed at the stupidity of these guards. A five-year-old boy, when they exclaimed in surprise, "He's escaped!" he said, "You know damn well he has."

SPOONING

Authorities in Chicago are at variance. Is it over spoons and spooning. The ban which the Chicago park board had placed over spooning in Lincoln Park has been lifted. We hear Superintendent Emil Johnson declares that spooning should be done in a wholesome atmosphere where parents come naturally, and where the natural place, than among the beautiful trees in the park. The South Side Park committee agree. The West side officers are differently minded. Captain William Stocker of the West Side police says "Give the young people good exercise and sports and they will forget about spooning." Superintendent Johnson has the best of the argument, and it is to be admitted that even some of the contrary young people have not had good exercises and sports. They have been spooning in Garback as history goes. They will long as history is still in the making. Spooning is as natural for young folks as to make for it going as for a martini. The place of it makes little difference. Even in our short life we have known it done in the family parlor, in a gutter along the corner, in a hammock on the front porch, in automobiles going down the highway or parked alongside it, everywhere. It will not encourage or discourage spooning to say where it shall or shall not be done. Given time to spoon and letting the proper parties young people can be relied upon to find a place for spooning. And we believe they can be so relied upon in what we suggest about the corner and sports are prescribed for them. We recall that our first sweetheart ran away with and married the star player of the local baseball team, when we thought we were going to

Were you one of the fortunate to have automobile insurance after the storm of Tuesday? This was just a criticism of what the August and September winds will do. A serious accident may occur on a sudden. They usually happen before. Before you take it out today. After the blow it's too late. The premium isn't large, and the benefits might be. See the old reliable "Edgemo" for solid protection. All classes of automobile written.
