# NOTICE OF LOCAL BILLS IS SOUGHT BY STATE SOLON

## Smith of Jackson County Introduces Resolution Requiring Publication in Community Affected by Measure

TALLAHASSEE, May 19.—No local or special bill shall be passed by the state legislature unless notice of intention to apply therefor has been given by publication in the locality affected under the terms of a joint resolution now pending before the legislature. The measure was introduced by Representative J. D. Smith of Jackson county, and calls for an amendment to the constitution to be voted upon at the next general election.

The published notice would be required to state the substance of the contemplated law, "and shall be published at least sixty days prior to the introduction into the legislature of such a bill," the resolution reads, "and in the manner provided by law."

Evidence that "such notice has been published shall be established in the legislature before such a bill shall be passed by having affidavit of proof of publication attached to the proposed bill when the same is introduced in either branch of the legislature," the resolution reads, "and which such affidavit constituting proof of publication shall be entered in full upon the journals of the senate and which entries shall immediately follow the journal entry showing the introduction of the bill."

More than seven hundred local measures have been introduced at the present session of the legislature, a large of the time of which has been devoted to passage of acts of this nature. They are disposed of at the rate of twenty-five or more an hour.

## Plan Boarding House For Nations' League

GENEVA, May 19.—So numerous have become the activities of the League of Nations, that the British government is considering the advisability of establishing a permanent league headquarters at Geneva. The idea is to lease or buy some building not too far from the league secretariat which would serve as an office and a place of residence for English delegates while they are in Geneva.

## IRISH STANDARDIZE PORTER BOTTLES.

DUBLIN, May 20.—The Free State government has made an order standardizing the size of porter bottles. Porter is largely sold by the bottle and the quantity of the contents varied. Some traders got 16 and the more generous ones only 14 bottles out of a gallon.

## MUNICH OPERA MANAGER DIES.

MUNICH, May 20.—Anton von Fuchs, the famous stage manager of the Munich Opera, died recently at the age of 70. He was well known throughout the world as an operatic producer of rare genius, and his stage settings were recognized in most countries as the standard for operatic performances.

The New York Public Library is consulted by more than eight thousands persons daily.

## Baby Elephant Dies From Eating Sausage

BERLIN, May 19.—German sausage, it is believed, was the cause recently of the death of Mamppe, an African baby elephant, which, with his twin brother, Karl, was given to the Berlin zoo a few months ago. The twins had become the pets of the elephant house, but since the death of Mamppe the other is inconsolable and refuses to eat.

Mamppe died from stomach trouble after a week's illness, caused, the veterinarians believe, by meat given to it by some child.

Animal experts of the zoo have found Indian elephants more hardy and more adaptable to the diet which a northern zoo affords than those from Africa.

## RAT EXTERMINATION COSTLY

LOS ANGELES, May 20.—The Rodent Extermination Department of Los Angeles, organized late last year, reports that during the first four months of 1925 it cost the city \$1.40 for every rat captured, except in the harbor district, where the figure was \$7 a head. The total cost to the city during the four months approximated \$125,000 for the capture of 40,000 rats.

## PALE, NERVOUS

West Virginia Lady Says That She Was in a Serious Condition, But Is Stronger After Taking Cardui.

Huntington, W. Va.—"I was in a very weak and run-down condition—in fact, was in a serious condition," says Mrs. Fannie C. Bloss, of 1961 Madison Avenue, this city.

"In my left side the pain was very severe. It would start in my back and sides. Part of the time I was in bed and when up I didn't feel like doing anything or going anywhere.

"Life wasn't any pleasure. I was very pale. I was nervous and thin, and so tired all the time.

"My druggist told me that Cardui was a good tonic for women and I bought a couple of bottles. I took two bottles, then I noticed an improvement. I kept on and found it was helping me. I have taken nine bottles. I'm stronger now than I have been in a long time."

Cardui is made from mild-natured medicinal herbs with a gentle, tonic, strengthening effect upon certain female organs and upon the system in general.

## Why Keep On Paying This Tax?

Everybody expects to pay some taxes, but why impose unnecessary taxes on yourself?

Do you realize that every time you drive your car on an unpaved highway you are actually taxing yourself one to four cents a mile?

This is the cost of increased repair, tire and gasoline bills.

Highway research has definitely established these facts.

Each year you tax yourself in this way a good many dollars.

Instead of spending this money for increased transportation costs, why not invest it in Concrete Highways and pay yourself some dividends?

Concrete Roads and Streets pay for themselves in the saving they effect on the cost of motoring.

Their maintenance cost is so low that this saving alone returns good dividends on the investment, year after year.

You are imposing an unnecessary tax on yourself from which you get no return, by failing to work for more Concrete Highways.

Not in a long time have general conditions been so favorable for carrying on such public works as permanent highway building.

Your highway authorities are ready to carry on their share of this great public work. But they must have your support.

Tell them you are ready to invest in more Concrete Highways, now.

## A Saving of \$36,000,000

According to the most conservative calculation, American motorists pay \$36,000,000 a year for class A lubrication.

And that sum represents but a fraction of the saving that motorists would enjoy if all cars were, like the Cleveland Six, equipped with the

### "One-Shot" Lubrication System

(Licensed under Bowen Products Co. patents)

This exclusive, high pressure system does more than eliminate the actual cost of having a garage or service station lubricate vital bearings.

It eliminates the inconvenience of leaving the car to have it done or of doing the job yourself. It reduces service, maintenance, and depreciation costs. And it guarantees a properly functioning, smoothly operating car at all times.

For you simply step on a plunger and every moving part is flushed with clean, live lubricant. Any Cleveland Six dealer will show you.

# FREE FRENCH CABINET HEADS DISCUSS DEBT

## Bellevue, Braind And Caillaux Consider Inter-Allied Debts First In Importance

### London Plan To Be Offered Soon

#### Washington Certain That Situation Is Greatly Clarified

PARIS, May 20.—Premier Painlevé, M. Briand, the foreign minister, and M. Caillaux, finance minister, went over the French financial situation together last evening, considering particularly the plan of inter-allied debts. At the conclusion of the conference, an official spokesman of the government announced to the press: "The inter-allied debts question now is said to have entered a state of real official negotiation. If the negotiations are not in an officially international character, an international study of the question makes it certain that they will be within a few days. The ministers of foreign affairs and finance will confer a few days for the purpose of giving up suggestions to be presented to the United States government. M. Briand will be assisted by competent authorities, among them M. Berthelot, general secretary of the ministry, and M. Orsay, director of political affairs."

**Confer Two Hours**  
The conference today occupied two hours. The ministers acquainted with the work undertaken by experts of their respective countries in drawing up proposals which will be sent to the United States and Great Britain simultaneously. Nothing in the nature of pressure, it is asserted, is to be found in the communications received by the Washington government to America's European partners, concerning a settlement of the debts and the conferences going on in Paris will conclude without undue haste. The efforts of the Briand and Caillaux experts have reached a stage when the result can be made known in a few days.

The entire French press today is in a much more friendly attitude than in the past, in which there is a "tinge of gloom" that the United States is not an official note to France. Newspapers urge the government to make all possible haste in submitting proposals acceptable to Washington.

**Situation Is Clarifying**  
WASHINGTON, May 20.—American officials, convinced that their plan for hastening funding negotiations by the government's foreign debtors is progressing satisfactorily, believe that the long clouded debt situation has begun to clarify.  
Secretary Mellon of the treasury and Kellogg of the state department feel the way has been opened for further moves from this government, if such are necessary, and they confidently expect diplomatic inquiries soon from governments other than France, Belgium and Estonia, which already are giving serious consideration to funding. In their action, high officials see ground for belief that other powers may soon take up the question.

## River Navigation Measure Is Signed By Governor Martin

(Continued from Page 1)  
Jacksonville and such a channel would give this territory transportation system unsurpassed by any other territory in the country, Mr. Douglas declares.  
Edward Higgins, president of the Seminole Chamber of Commerce, who has been most active in working for the creation of the special navigation district said that while Seminole would be greatly benefited, that the benefits would be by no means limited, but would accrue to the entire district, the same that would be given to lands in Orange, Ocala, Brevard, and Volusia in addition to giving all of this territory decreased freight rates. He asserted Titusville would be greatly benefited as it would give that city a competitive water rate which it does not now enjoy.

Mr. Higgins was of the opinion that the citizens of Seminole and the four other counties should get together and wage an intensive campaign of education between now and the election in December so that there would be no possibility that the project would fail. "The creation of this district will be of wonderful advantage to the entire central portion of Florida and to the counties on the East Coast," he reiterated.

## Pattillo Funeral To Be Held on Thursday

TAMPA, May 20.—Funeral services are to be held tomorrow for Dr. Charles Evans Pattillo, 61, who died at his home here last night. Bishop Cameron Mann of Orlando is to officiate.

A bonfire of 100,000,000 lire in bank notes was made recently in Rome, as the inauguration of the policy of the government to reduce the circulation of paper money.

## Tunney in Training

No, this is not one of the hired hands massaging the old wood pile before breakfast. But Gene Tunney, light heavyweight champion, is training for his bout with Tommy Gibbons next month. Tunney has mapped out a strenuous training program. Chopping wood is one of the stunts on his list. Photo was snapped at White Sulphur Springs, N. Y., his training headquarters.

## Church Orphanage Across Lake Cares For 84 Children

(Continued from Page 1)  
Campbell-Eberline Post, American Legion, will hold its weekly meeting tonight at which, the officers announce, plans will be made for the drive to raise Seminole's share of the Florida quota of the \$5,000,000 endowment fund, which will be held throughout the state next week.

Commander Haggard addressed the audience at the Princess Theatre last night with reference to the drive. He said that the Legionnaires themselves were to continue to contribute to their utmost ability and that he hoped that the citizens in general would respond to the appeal of the increasing number of war orphans, who he declared, needed the loving care of the Legion, a care which the government could not give.

A committee of three-minute speakers will address theater audiences every night during the drive and street meetings also will be held, Commander Haggard announced. It is the hope of Legion officials that Seminole's quota can be raised in two days.

## Sanford and League Leading Saints Will Clash Here Tomorrow

After an entire week on the road, the Celerymen will come home tomorrow for a series of three games with the league's leading Saints, who were whipped by a score of 4 to 2 on Monday. The fans are hopeful that the local boys have banished the jinx and that the leaders will be taken down a notch or two while here.

Nick Carter's bunch, although they have been dropping a majority of the games while on the road, have been hitting the pill, and the fans believe that once the pitchers can hold the opposing batters to reasonable scores that the Celerymen will put across enough runs to win.

## Big Enrollment In University Summer School Is Expected

GAINESVILLE, May 20.—June 10 to August 7 has been set as the date for the annual Summer School at the University of Florida. It is announced today by Dean J. W. Norman of Tencher's College, who will be in charge of the summer session. Inquiries and enrollments already in Dean Norman's office indicate that the enrollment this year will be larger than ever before, even exceeding the 1924 enrollment, which is the largest in the history of the school.

## Commission Form Of Government Is Sought By DeLand's Citizens

DELAND, May 20.—A new charter for the city of DeLand is now being drawn up by City Attorney Phillip E. Buck, who states that it will be presented to the Legislature within a few days. The new charter proposes that the present form of government be changed from that of a mayor and two councilmen to a commission form of government which would have five commissioners elected from the four wards of the city and one at large who would act as mayor. A municipal court would be established and provisions for the issuing bonds is made so that only a majority of votes would be required to ratify bond issue instead of the present law of two-thirds vote. All present bond issues would be carried out.

A planning board is also provided for, the duties of which would be to investigate and suggest plans for the improvement of the city. The members would serve without pay.

By Edwin Markham

SING, MINSTREL

Sing, Minstrel, music-mad: Let the wild chords grow madder: Make all the glad hearts sad, The sad hearts gladder.

Sound yet a wilder strain— More than a song can capture: Let glad hearts taste the pain, Sad hearts the rapture.

We all are blind until we see That, in the human plan, Nothing is worth the making, if It does not make the man.

Why build these cities glorious If man unbuilds them? In vain we build the world, unless The builder also grows.

YOUR TEARS

I dare not ask your very all; I only ask a part: Bring me—when dancers leave the hall— Your aching heart.

Give other friends your lighted face, The laughter of the years: I come to crave a greater grace— Bring me your tears!

Busy Kicking Himself

Fortunately for Sanford, Florida has many friends in the North who are busily engaged writing articles telling of the wonderful development and the glorious future of this state. Almost every day some widely read magazine or newspaper finds its way to our exchange desk, telling the story of the remarkable prosperity to be found here.

The value of these articles to this state is incalculable. They are read by hundreds of thousands throughout the United States, and written as they are from an editorial point of view, they carry a tremendous effect which could not be secured by millions of dollars' worth of advertising. Home folks in northern cities read, are convinced, become tourists, and then settle permanently in Florida.

One of the best publicity articles which we have read recently appeared in Liberty Magazine and was written by our old friend, Paul Kinkead, whom we were once inclined to assault because he had omitted the name of Sanford in an article describing the various sections of Florida. But through boosting Florida, Kinkead has done us all a great deal of good, and we should all appreciate it.

In his latest contribution to Liberty he describes a certain real estate transaction as follows: "About two years ago a Boston bank wanted to close up an estate which owned a huge tract of land north of Tampa. The land had been held for years and originally cost about \$1.25 an acre.

"Part of the pine has been cleared in the lumbering days and I believe it was originally purchased for the pine rather than for the land. To close the estate the bank offered to sell the tract for \$7 an acre. A syndicate of "Crackers" in Tampa wanted to take over the land and urged a northern friend of mine to join them.

"He refused unless he could bring a noted oil expert from the Pacific Northwest. The syndicate had no time to wait, and he dropped out of the deal. The Tampa crowd bought the land, paying about \$460,000, or rather agreeing to pay that sum. They did not put up a cent of cash but agreed to pay off mortgages in five, ten, twenty and thirty years.

"Nine months later, the syndicate sold that tract for \$5,600,000, and parts of it now are being sold off at \$400 an acre. My friend is still busy kicking himself."

How Much Are You Worth?

On the assumption that it is not the money you have but the service you render the community in which you have that is your real index of value, how much are you worth?

People who estimate success and failure on the dollar and cent basis will not be inclined to agree with The Herald that sometimes the wealthiest man in a prosperous town hasn't enough cash to pay his own funeral expenses, nor enough property to raise a fifty dollar mortgage.

Nor would the dollar-and-cent people comprehend us if we should endeavor to picture a poverty-stricken woman in the person of a woman with an enormous fortune in money and real estate at her disposal.

The woman of whom The Herald is thinking has everything money can buy, but she has a mean heart and not a single, sincere friend. She adds nothing to the betterment of the community in which she lives. She makes no one happier by her ministering. She offers no inspiration. Her money she handles on a cold business principle. She gets usurious rates of interest. She barter and haggles. She knows nothing of the joy of loving service. She is poor and pitiful. Yet in answer to the question, "How much are you worth?", she could answer, "I am the richest woman in this town."

The most valuable citizen in a town is often a quiet little woman, a successful mother and housewife. Sometimes the most valuable citizen is the twinkly-eyed old man mending shoes, and instilling the wisdom of the world in the hearts of little boys who hang about his shop.

Unless a man or woman can show "service rendered" in the valuation of life, it avails nothing to cite the cash in bank or the possessions money has bought. Genuine success and actual failure never are measured by dollars and cents.

MY FAVORITE STORIES

BY IRVIN S. COBB

A colored person of a formidable aspect was arraigned in a South Carolina court of justice on a charge of mayhem. As Exhibit A, for the case of prosecution, the mutilated victim of his wrath was presented for the juror's sympathetic eyes. The face of the victim was but little more than a recent site—a place where a face had been, but was no longer.

When the jury very promptly and very properly had returned a verdict of guilty, his honor, the presiding judge, pointing to the chief complaining witness and addressing the defendant, said: "This is the most lamentable example of brutality I have ever seen in a long experience on the criminal bench. Surely no human being, unless he were inspired by infernal influences and hell-

born suggestions, could deliberately work such wreckage as you have worked upon the countenance of a defenseless and helpless fellow creature. Demons from below surely must have prompted you in what you did. It must have been the devil himself who urged you on and on."

"Well, judge," said the prisoner, "come to think it over, I ain't shore but what you're right. As I look back on it now it do seem lak to me 'at we'en I was cuttin' his nose loose from his face wid a razor, the devil was right behind me sayin' 'This right, separate him from his nose.' An' I 'spects it must a been dem suggestions to me stompin' out his front teeth.

"But judge, bitin' off his ear was strictly my own idea."

OUR LAST SECTION

NEW YORK HERALD TRIBUNE

General Lee's soldiers, as every one knows, took their horses home from Appomattox to do the spring plowing; sixty years later visitors at the Southern Exposition are impressed with the fact that the crop includes textile mill, steel mills, harbor developments, hydro-electric power systems, a wide variety of manufactures and a diversified agriculture. A hard-earned and mineral production of the South is now more than 50 per cent greater than the agricultural; the soft tones of the Southern accent flow about the booths, but the old planters' South which they used to console has disappeared irrevocably. The economic basis has changed.

The history of the United States is a history of sectional differences, and the South has always been the most distinct of our sections. It would, for example, be difficult to find any other one group of states to which it would occur to give such an exhibition at all; there is no other group of states which has clung so stubbornly to its political, social and intellectual solidarity as the South, and

there is in consequence no other single group of states which has had so striking an influence on the course of our national development. A South which found its interests veering upon those of the manufacturing-agricultural Central and Northern states would alter completely the whole of American party politics to take the most obvious illustrations; it would be able to make a new contribution to the intellectual life of the country; it could easily shift our centers of population, change our preoccupations, alter our outlook.

There are two exhibits which provide an interesting contrast. One is a map showing how a hydro-electric power company has drawn cotton mills to itself all over the Carolinas; the other is a remote reminder in corner of the third floor that the first museum in the West was established at Charleston. The cultivated aristocracy of the cotton and rice plantations has disappeared into a romantic memory and it upon the mill town and there is ultimately to be developed natural resources that a new culture. It is a loss for the pictures, but it is a vast gain for the wealth of the nation.

As Brisbane Sees It

AN OLD HORSE, \$100,000. WILD CATS SCRATCH. IF MUSSOLINI HAD ONE BABY. AT THE KING'S PLEASURE. By ARTHUR BRISBANE. (Copyright 1925)

AUGUST BELMONT died and left some race horses. They are sold for \$782,200 and one, an old stallion, brought \$100,000. That horse, named Fair Play, was bought by J. E. Widener, because one of the 20-year-old stallion's colts was the famous Man o' War.

ORDINARILY A horse 20 years old, which exceeds the age of 50 in mankind, is about through with life. A kind owner turns him out, to end his days at pasture, a cold owner puts a bullet in his head.

BUT HORSES, unlike men, "breed true." Even in his old age, Man o' War's father, bred to a young mare, might produce a colt as great as Man o' War, and so, in spite of his knees getting weak, his sunken eyes, hollow back, poor teeth, and poorer temper, the old stallion sells for \$100,000. That interests the workman of 50, as he puts a little black dye on his white hair before going out to look for a job.

IF YOU HLL-TREAT a wildcat, expect to be scratched. That warning is for men that need it, as did Samuel Cantelmo, shot to death by Mildred Saxe, a young woman whom he treated badly.

THE YOUNG woman goes to jail for five to ten years, and the courtroom crowd hissed the jury for convicting her. There are seven women on the jury, five men. You will NOT be surprised to read that the five men were at first acquitted, while the seven women insisted on a verdict of manslaughter, and got it.

Women are hard on women. The five men knew that Cantelmo, the dead man, got only what men may expect, under certain circumstances. It is the danger involved that has slowly educated and civilized men.

THE ABLE Mussolini, now that Italian women are allowed to vote, believes they should also enter the army. His new mobilization orders summon all ADULTS to the colors male and female.

To some it sounds reasonable to say "If women want to vote, let them also fight." How would Mussolini answer this: "If you want to vote, you must also bear children?" If Mussolini, or any other man ever bore even ONE child, to say nothing of a dozen, he would say to the women: "Go ahead and vote and you need not fight. I'll do that, if you will produce the children."

ERNEST RHODES, a valet, nearly killed a young actress of 16, and the London court, finding him insane, decrees that he be "detained at the King's pleasure." That takes you back to days when kings actually TOOK PLEASURE in punishment and torture; back to the great Cyrus cutting off the nose and lips of a conquered king and keeping him chained at his door, where he could see him; or, more horrible, consider the very Christian King James, having miserable old women, burnt and tortured for "witchcraft," brought before him and, to relate imaginary conversations, to relate imaginary conversations, had his the old women, had his with the devil. The poor tortured creatures told how the devil had expressed his fear and hatred of the great Christian King James and that King was highly gratified that the devil had thus feared him.

"At the King's pleasure" does not mean what it did once.

MANY THINGS the young masculine mind may ignore with impunity, but one thing must not be overlooked. NOT later than the day after tomorrow, the young male minds should appear covered with a new straw hat. If, also, a little concentration can be devoted to what goes on under the hat, so much the better. But get the hat.

Young gentlemen ordering extra SMALL hat sizes may let this come to them. The brain of the brilliant French writer, Anatole France, examined by Dr. Felix Regault, is found to weigh only 1,017 grams, while the brain of the average nobody weighs 1,290 grams.

THE BRAIN is covered with a dark "corte" and its value depends on the depth of the convolutions in that fertile brain covering, which compares with the fertile dark, top layer of soil.

Anatole France's convolutions were unusually deep and that accounts for his talent and facility. Under a new straw hat, size six and a half, there may be very deep convolutions. Their depth depends on the amount of hard thinking. So, after you have carefully thought out your spring hat and spring suit problems, give a little thought to other, duller things.

GENERAL MILES is dead, at 85. He was a good servant of his country, clearing the way for civilization—such as it is—in the West. He was the last of the old line of American fighters, leading back to Daniel Boone.

SOME ABLE spiritualistic medium could do the world a favor by getting in touch with Miles' spirit, before it loses interest in this dull world.

It would be interesting to know what happened to the redskins that Miles sent to the Happy Hunting Grounds, and whether those Indians came nearer than the whites to guessing correctly about the hereafter.

What an interesting shoe a few authenticated words from a dead man might give to our beliefs. They should be sure to amaze three-quarters of the human race, no matter what they said.

THESE ARE HARD DAYS FOR SLAPSTICK ARTISTS

WAR WITH THE RIFFIANS

MIAMI TRIBUNE

It has been stated that there is always a famine in some portion of India. In similar fashion it may be stated that there is always a war going on in some part of the world.

Just at present the conflict between the French and the Riff Berber tribes of North Africa is taking on more of the atmosphere of war than either the French or the Spanish, who are colonizing in that part of the world, relish. Abdel-Krim, who is proving to be an able and exceedingly formidable leader of those Mohammedan peoples has been attacking French native troops over a 120-mile front and the present situation seems to be somewhat alarming.

There has been a capture of a large number of French aeroplanes on the part of the Berber tribes, and the Riffian chief is thought to be endeavoring to capture the town of Fez. The situation is complicated by the belief that funds are being furnished to the North African Berber leader by the Soviet, as well as by his religious brethren in Turkey and Egypt.

The fighting gives indication of a good-sized revolution or rebellion from French and Spanish rule on the part of the North African tribes, who admit of no leader above Mohammed, the Prophet. In spite of the colonizing of

the French throughout Algeria, the building of modern roads and the establishment of schools, there are scattered throughout the country many thousands of Berbers and Arabs who have never been sympathetic to the foreigners' rule in North Africa. The Kabyles, for example, who inhabit long stretches of mountain fastness territory on the edge of the Mediterranean, date back to the time when the Romans or the Byzantines ruled in North Africa, and many of these tribes make the proud boast that they have never really been defeated.

It is the old warfare between the Oriental and the Occidental, with the religious fanaticism of the Moslem and the Moor mixed with the colors.

That the French and the Spanish will need to give larger and more practical attention to this incipient war north of the Sahara Desert, lest it spread throughout the Mohammedan countries lying about the Mediterranean, is thought certain by those who have given experienced and thoughtful study to the subject.

The Eastern Crescent, religiously speaking has never yielded to the Occidental cross, as far as the Mohammedan is concerned, whether he be called Moor, Berber, Arab, Egyptian or Turk. He never ceases to consider that the Christian is his inveterate enemy.

The Riffian rebellion is but another outbreak in a long line of bloody wars that have made the pages of history around the Mediterranean Sea.

A TRACE AT GENEVA

MACON TELEGRAPH

When the conference to discuss limitation in the traffic of armaments between nations was called by the League of Nations at Geneva, armored trains, warships, submarines, airships, flame-throwers, tanks, artillery and munitions were included in the agenda for discussion and action.

One by one, they have been taken up. Great Britain protested that there should be no ban upon the sale of warships, because warships did not constitute armaments that could be sold without publicity. A battleship was big enough to be seen before and after it was sold, England protested. The military committee voted to allow battleships to be bartered between nations.

The question of war airplanes arose. Great Britain protested that airplanes should not be upon the proscribed list because you couldn't tell by looking at them whether planes were designed for war or for freight hauling. Airplanes may be sold between nations.

Armored trains came up for discussion. Thirteen out of the 21 nations represented contended that armored trains and cars should be sold. They may be sold.

THE BIGGEST WORD

MIAMI TRIBUNE

One of the biggest words in the English language is "Think."

The railroad yard who thinks is the man who is advanced; the ship man who thinks is the man who become foreman; the foreman who thinks is the man who becomes superintendent or manager. Thinking is the motive force behind all creation, all invention, all there is to art and literature.

The advantage of thinking does not lie in original ideas, nor in giving unique expression to words, but in exercising the brain cell that run errands back and forth through the paths of the brain. The man who always thinks is three armed, and it has solved the

knottiest problems of all history.

If you form the habit of thinking things out for yourself, and you will cultivate an independence of thought, a clear and exact purpose behind this thought and make yourself felt as an influence wherever you go. A man who always talks his stand apart from the crowd.

The progressive, refreshing man or woman, has original ideas and courage to express them. They are not trallers, nor do they think as someone else directs them. The man who will honestly think is bound to become leader of men because so many of us depend upon his brain power.

## Library Story Hour Set For 10 O'clock Saturday Morning

The Story hour for the younger children will be held at the library next Saturday morning at 10 o'clock. Mr. Goodale and Mrs. Owen will divide the program and all the little folk are invited.

The Reading Club will discontinue its meetings for the summer, beginning this week. It has been conducted with great success throughout the entire season, and the library wishes to thank Kenneth Hait and all others who have helped to carry it through. It has helped to create a taste for the worth while books, and more books of this class have been used as a consequence at the library. It has been an important feature of the winter's work, and the young people themselves have derived much pleasure as well as profit from it.

## Mrs. Tolar Entertains Pipe Organ Club

The Pipe Organ Club met Monday afternoon with Mrs. R. E. Tolar at her home on Magnolia Avenue. The rooms were lovely with decorations of bright dahlias. Mrs. A. M. Philips presided at the meeting. Plans for the musical tea which is to be given Friday evening at the home of Mrs. Frances Bolz on Magnolia Avenue were discussed. Mrs. Forrest McAllister, the bazaar chairman received some lovely handkerchiefs and is ready to fill orders for them if placed immediately.

The members were delighted to have Mrs. Mitchell, a former member with them. During the social hour Mrs. Tolar delighted her guests with a number of piano selections. The hostess assisted by Mrs. McAllister and Mrs. W. D. Gardner, served a dainty salad course.

Next Monday Mrs. J. H. Colclough and Mrs. J. L. Miller will entertain the Pipe Organ Club at the home of Mrs. Miller, complimenting Miss Leola King, a June bride to be.

Mrs. and Mrs. Lucius McLeod and children of Tampa are expected Sunday for a visit with Mr. and Mrs. Ralph Wight.

## Charlotte Considers Big Road Bond Issue

FT. MYERS, May 20.—A bond issue of between \$500,000 and \$1,000,000 has been proposed for the building of roads in Charlotte county. This proposal was made by the Punta Gorda Chamber of Commerce to the board of county commissioners, which has taken the matter under advisement. The proposal asked that the commissioners seek the privilege from the legislature of the people voting on the bond issue.

Plans submitted with the proposal call for a system of improved roads and highways throughout the entire county.

## Mrs. Key Entertains Bridge Club Tuesday

## WALTER JOHNSON HITS HOMER AND WINS GAME 4 TO 3

**Veteran Hurler Is Put In As Pinch Hitter and Delivers In Spectacular Manner; Tigers Beat New York Yankees**

CLEVELAND, May 20.—Washington rallied in the ninth inning and defeated Cleveland, 4 to 3. Walter Johnson, pinch hitting for P. Ogdan, put the ball over the right field fence, Adams, a pinch runner for Ruel, scoring ahead of him.

Until this inning, Shaute had pitched excellent ball and had two strikes on Johnson when he made his hit, the first home run ever made over the right field fence by a right hand batter. Uhlw went in as a pinch hitter for McNulty in the 8th inning, but was replaced by Hendrick before a ball was pitched.

Score by innings:  
Washington 000 000 112—4—8—0  
Cleveland .011 000 100—3—13—0  
Batteries: Coveleski, Mogridge, Marberry, Ogdan, Russell and Ruel and Tate; Uhlw and Myatt.

**DETROIT DEFEATS YANKEES**  
DETROIT, May 20.—Detroit bunched hits behind passes by Jones and defeated the New York Yankees yesterday, 11 to 5. In the sixth the Tigers scored five runs, mixing their hits with four passes issued by Jones.

Score by innings:  
New York 030 020 000—5—9—1  
Detroit .100 005 41x—11—12—2  
Batteries: Jones, Johnson and Schang; Doyle, Wells, Cole and Bassler.

**LYONS HOLDS ATHLETICS**  
CHICAGO, May 20.—Lyons was in fine form yesterday and held the Athletics helpless until the ninth inning while his team mates bunched hits off Rommel and took the final game of the series 4 to 3. Bing Miller's home run smash in the ninth inning with two men on base saved Philadelphia from its first shut out of the season.

Score by innings:  
Philadelphia .000 000 003—3  
Chicago . . . . . 201 100 00x—4  
Batteries: Rommel, Walberg, Andrews and Cochrane and Perkins; Lyons and Schalk.

**JOE BUSH BEATS BOSTON**  
ST. LOUIS, May 20.—Joe Bush pitched well and the St. Louis Browns defeated the Boston Red Sox yesterday 8 to 2, in the final game of the series.

Left fielder Carlyle of the Boston Red Sox wrenched his shoulder and was forced to retire when he ran into a pavilion in endeavoring to field Sisker's triple in the third inning.

## Young Wallace Of New Orleans Here For Tilt With Cox

Young Wallace, of New Orleans, who is to fight Bobby Cox, of Jacksonville, here tomorrow night in the National Guard Armory, the bout being the headliner in the first of a series of boxing programs to be given here under the direction of "Seaman" Mitchell, arrived in Sanford today and announced that he was in the best condition of his ring career.

Three weeks ago Cox fought to a draw with Wallace and the latter says he is out to wipe this off his record by a decision or a knock-out. With Cox doing the work he did three weeks ago at Orlando and Wallace with a grudge the fight fans may expect one of the fastest mills ever staged here, according to Promoter Mitchell.

Garner Johns of Philadelphia will arrive here tomorrow morning ready to meet Kid Burns, of Tampa, and Manager Mitchell expects this bout which is a semi-final attraction to be fully as interesting as the one between Wallace and Cox.

# When Pay Day Comes

When pay day comes we expect our money. If 8:30 in the morning is paytime, we want our money at 8:30. If the people we are working for should ask us to wait until next week or next month or maybe wait for three months or more, we would be pretty apt to just quit the job, that's all.

And yet how often do we treat the other fellow the same way? The merchant who credits us is merely working for us. Not only his time but his money is working for us. Like us, he wants his pay when payday comes. If we impose upon him too much he simply has to "quit the job."

The tenth day of the month is payday for the merchant. He needs his money the same as we need ours. If he "quits the job"—give us a bad credit rating and refuses to sell us on credit any longer—whose fault is it?

This is the twentieth of the month. Have you paid those April bills yet? It's worth thinking over. Monday is another day. Make SOME KIND of arrangements. Pay promptly, when due.

It's never uphill to the man on the level.

Our emblem may be seen in all the better stores.

## An easy "company" SALAD

IT'S comforting — isn't it — to have in the pantry the makings of a real bang-up salad—the kind that's a luncheon in itself when company drops in. Here's one that's specially choice and yet so easy to make—once you have the recipe for Borden's Eggless Mayonnaise. Isn't it marvelous—to make rich, thick mayonnaise in no time at all, without an egg yolk? You'll want to keep it on hand all the time—nothing takes the place of mayonnaise for tuna, salmon, or shellfish.

**TUNA FISH WITH BORDEN'S EGGLESS MAYONNAISE**

1 can tuna fish	Lettuce or shredded cabbage
1 tablespoonful minced parsley	1 tablespoonful chopped stuffed olives
1 cup Borden's Eggless Mayonnaise	1 teaspoonful capers

Remove fish from can, rinse quickly in boiling water, and let stand fifteen minutes. Then chill. Color the mayonnaise a delicate green with a little vegetable coloring; add a few capers, the chopped olives, and parsley. Arrange fish in solid piece on lettuce or cabbage; cover with mayonnaise. Garnish with capers, slices of lemon, and stuffed olives. Salmon or any cold boiled fish may be substituted for the tuna.

**MAYONNAISE**

3 tablespoonfuls Borden's Evaporated Milk	1/2 teaspoonful pepper
1/2 cup salad oil	1/2 teaspoonful paprika
1/2 teaspoonful salt	1/2 teaspoonful sugar
1/2 teaspoonful mustard	2 tablespoonfuls vinegar or lemon juice

Combine the dry ingredients, add the milk, and gradually beat in the oil; then add the vinegar, beating until smooth. This dressing will keep indefinitely in a cool place.

**Borden's**  
comes in two sizes; tall (16 oz.) and small (6 oz.)  
Order from your grocer's by the half-dozen or more cans.
