Pastor's Corner Life's Like A High Wire

By REV. HAROLD A. HARRIS First Christian Church

There were two tall hotels directly across from each other on the main street of a small mid-western town...

She had become known as a high-wire artist in her own right and was billed as "Princess Maria," but on this particular day the crowds, as one person, caught its breath...

Of course they asked the little girl if she hadn't been afraid when she paused on that swaying wire and saw the sea of faces so far below...

A friend told me once about something his son, then a small boy, said it became for me a discernment to remember...

Lodge Is 89 Evergreen Lodge 23 will celebrate its 89th Anniversary Sunday at 3 p.m. at the lodge hall located at East 7th and Pine in Sanford...

Editorial Comment

Post-Election House-Cleaning Time

In the wake of the Nixon re-election landslide there are cresting waves of reaction in both the Republican and Democratic parties.

ever for the Democrats. Two new Democrats are in the Florida delegation so that the voice of Florida will have 11 Democrats and four Republicans sounding off in the House of Representatives.

Offbeat Ruminations

In Jumping, Landings Are The Risk

By HAL BOYLE NEW YORK (AP) — Jumping to conclusions:

No wife ever divorced a husband who made a habit of massaging the back of her neck regularly when she returned home after a hard day's shopping.

Two out of every four men who get their nails manicured are bald or on their way to baldness, and two out of every three are overweight.

If you lend money only to men who still wear spats in public, you won't have to lend so often.

Anybody who makes out a household budget and adheres to it strictly ain't me.

It's interesting enough, this is some warning Mao Tse-tung is known to have given Hanoi some time before Ho Chi Minh's death.

At many levels and at many places in South Vietnam there is great bitterness between the Viet Cong and the North Vietnamese cadres, many of whom despise their Southern brothers.

In part, this hatred came about because the North Vietnamese were more consistently used to take over the South, while the South Vietnamese regular troops were foreigners to the people of the South.

Will young ideologically neutral troops be worth their salt as guerrillas?

wise voters join the national trend to independent thinking. Florida Democrats have attached national attention and earned plaudits as their concern for the public interest becomes more and more shown by actions.

DEMOCRATIC PARTY

Education Notebook

Uncle Sam's Publisher, Helping Hand

By KENNETH J. RABEN Copy News Service

An increasing number of parents, pupils and schoolmen are tapping one of the richest resources in the country for inexpensive materials on almost any subject.

A gold mine of pamphlets, periodicals, posters, pictures, charts and books is available from the U.S. Superintendent of Documents by mail or at one of 18 government bookstores, including 14 outside Washington.

Prices range from a nickel for brochures on drug abuse to \$76 for the 26-volume Warren Commission report on President Kennedy's assassination. Most are modestly priced at 50 per cent above actual printing costs for handling and other expenses.

About a third of the more than two million inquiries received in Washington about the publications each year seek help with term papers and school projects.

One man asked for the best place to honeymoon.

The most popular publication is "Infant Care," with more than 15 million copies of the 26-cent pamphlet sold.

Next on Uncle Sam's best seller list is the 15-cent pamphlet "Your Federal Income Tax."

The GPO has been in existence for 77 years as publisher of the plethora of government departments, agencies and commissions which originate the material.

Needle Treatment

Is Acupuncture Hypnosis? Or What?

By JACK WEBB Copy News Service

A century ago doctors waved magnets over people and told them it would relieve pain. And often it did.

Today Chinese doctors are sticking needles in people and telling them it will relieve pain. And often it does.

include a plastic litter bag.

Last fiscal year, the GPO sold 80 million publications for \$2.5 million. Although it is not in business to make a profit, the GPO manages to return money to the Treasury.

Five years ago, the GPO decided to expand outside the nation's capital and since 1967 has opened 34 bookstores throughout the nation, each stocking nearly 2,000 items.

A sampling from Uncle Sam's cornucopia includes American history study guides; information for noncitizens seeking naturalization; Spanish-language materials; monthly magazines about the space program, the armed services, education, foreign affairs and hints for consumers.

Military training manuals explain how to fix motor vehicles; radio, television and hi-fi equipment and almost anything else man has built.

You can learn how to operate a jewelry store, a restaurant, a service station and a car wash and how to apply for loans to finance them.

If you're wondering how to decorate your school, office or home, send for Price List 81, "Posters and Charts," listing of portfolios of beautiful 16x20 inch lithographs of "Our Navy in Action."

The GPO has been in existence for 77 years as publisher of the plethora of government departments, agencies and commissions which originate the material.

Global View

Viet Foe Has Foe Within Its Ranks

By RAY CROMLEY

It is one of our weaknesses that we tend sometimes to picture an enemy as 10 feet tall, immune to ordinary human frailties. We see all too clearly the follies of our allies.

So it is today in Vietnam.

In Vietnam, Laos, one day a few years back, a man who is now one of the principal advisers in the Kissinger-Le Duc negotiations told this reporter of his pleased astonishment at the change in spirit of the Lao forces after 1962 "neutralization" accords when Vietnamese armies could no longer depend heavily on U.S. aid against the North Vietnamese. They were on their own.

We were in the Lao capital at the time, and the Lao armies surprisingly had just held back the North Vietnamese for several days in a crucial series of battles. Hanoi's men won, but they were forced to do it the hard way. A few years before, the Lao would have run if there was only a whispered rumor the North Vietnamese were coming—sometimes leaving embarrassed American advisers stranded on empty "battlefields."

There is a lesson here for South Vietnam.

As has been mentioned repeatedly, late the treaty with Laos and North Vietnam was violated by Hanoi. The international control commission was stymied. Hanoi's men aborted the tripartite agreement.

Even this time, in Vietnam, Laos, the Americans who supervised negotiation of the treaty were certain that small land would fall apart into Communist hands. But despite such pessimism, a small but important part of Laos has survived.

South Vietnam is immeasurably stronger now than was Laos. One difference can best be brought out by the Viet Cong in the North Vietnamese Tet-1968 offensive, this time with the chief of staff of the Lao army. We had been guerrillas together in the war against Japan.

It was his contention then that Hanoi had bungled badly in sacrificing the flower of the Viet Cong in the Tet operation. Without these VC cadres, he believes Hanoi, with all its military power, could not operate successfully for a long period in the South. This experienced guerrilla argued in fact that Hanoi's attempt to take over the South would collapse eventually, however many battles were won, because North Vietnamese regular troops were foreigners to the people of the South.

Our trust as well as our sincere desire to change, has been expressed this past Tuesday, November 7, at the polls. Those elected officials

are now charged with the responsibility of correcting the most important duty of any County, and that is the education of our children. It would be remiss to think that the education of our children, the Superintendent of Schools, the Board Members, and even our County Judge, alone can correct the horrendous existing conditions. It is the charge and responsibility of every single Seminole County resident to actively participate, help, and insist on the rights of individuals, regardless of race, color and creed, to be respected. Those individuals that refuse to respect these rights, or refuse to accept the opportunities offered regarding the obtaining of an education, should be allowed to remove themselves, or should be removed by the authorities, as they represent an obstacle to those remaining individuals so desiring and so willing to obtain an education.

The wanton destruction of physical facilities, as well as physical violence, is an indication of a lack of desire for an education, and, as so expressed, must be made to eliminate these individuals by the process of law from the schools. Our democratic society is founded on majority rule and, therefore, there has not been respect in the school system. Too often the trend has been to accept those few noisemakers as representative of the majority. There has been a philosophy of appeasement too long prevalent in the school system. This is the challenge and this is the charge that you now have.

Our democratic society is founded on majority rule and, therefore, there has not been respect in the school system. Too often the trend has been to accept those few noisemakers as representative of the majority. There has been a philosophy of appeasement too long prevalent in the school system. This is the challenge and this is the charge that you now have.

Our trust as well as our sincere desire to change, has been expressed this past Tuesday, November 7, at the polls. Those elected officials

are now charged with the responsibility of correcting the most important duty of any County, and that is the education of our children. It would be remiss to think that the education of our children, the Superintendent of Schools, the Board Members, and even our County Judge, alone can correct the horrendous existing conditions. It is the charge and responsibility of every single Seminole County resident to actively participate, help, and insist on the rights of individuals, regardless of race, color and creed, to be respected. Those individuals that refuse to respect these rights, or refuse to accept the opportunities offered regarding the obtaining of an education, should be allowed to remove themselves, or should be removed by the authorities, as they represent an obstacle to those remaining individuals so desiring and so willing to obtain an education.

The wanton destruction of physical facilities, as well as physical violence, is an indication of a lack of desire for an education, and, as so expressed, must be made to eliminate these individuals by the process of law from the schools. Our democratic society is founded on majority rule and, therefore, there has not been respect in the school system. Too often the trend has been to accept those few noisemakers as representative of the majority. There has been a philosophy of appeasement too long prevalent in the school system. This is the challenge and this is the charge that you now have.

Letters To The Editor

New School Board Members Challenged

Editor, Herald:

Please consider the following as an open letter, not only to the Herald, but, primarily, to the residents of Seminole County.

Now that the heat of battle has cleared and those individuals, by choice and by democratic selection of our peers, have won public office, let us hope the reality of their position is well understood.

Of prime importance to any elected office is the responsibility of public trust. Our democratic process, assumed that the individual we so confer this trust upon becomes the popular choice to represent us.

The reality of such trust has never before been more exemplified than this election year.

Discounting the National picture, as its significance is not as important as the local situation, we must charge specifically William P. "Bud" Laver, plus those newly elected members of the Seminole County Board of Education, with the responsibility of changing a deplorable situation parroted to any existing educational programs, zoning problems, industrial growth, or, for that matter, any of the normal challenges of a growing County.

We must look to The Sanford Herald to continue such journalism in its most and purest sense as illustrated by the article in the November 3 issue with the by-line of Marion Beetha. The Crooms luncheon situation was an excellent sense of journalism that reported the facts unbiased yet true. The situation as exists at this time, as well as the past, is a challenge and a charge that no individual can carry without the complete cooperation and assistance of the residents of Seminole County. Therefore, not only were you elected yesterday, Mr. Laver, but so were all of us.

Sincerely, C.C. Thorne 106 Crystal Drive Sanford, Florida 32711

Editor, Herald:

I see now that some of the Herald's employee's children are attending Crooms this year and have found how sorry a school it is. Now that it is hitting close to home, I see that the Herald is running a series of "expose" stories.

I had a daughter who attended Crooms last year and have another who will attend there next year unless I can find the money for a private school. I am attracted to the rudeness and inconsiderations given to the parents by the faculty. The only good thing about Crooms last year was a darn good band and a strong Band - Parents Association.

I contacted the Food Services supervisor last year and offered to bring her a sample of food my daughter had brought home. She wouldn't have anything to do with it. She stated that she never had any complaints and the food she had seen at Crooms was tasty and hot. I'd sure hate to eat her cooking. I was told by one of the teachers, confidentially, that the reason no silverware was used was that the administrators felt that the knives would lead to cutting and fighting.

How low we in Seminole County have sunk and how long we are going to allow a school like this to exist?

Delbert J. Euga

Ed. Note—You're about a year late. We first had a series back then and only because of the need for continuing to expose these conditions to the public are we continuing on this subject. If we don't get more people aroused, we just might be forced to write about it again — NEXT YEAR, too.)

Exploitation?

Editor, Herald:

Never have I seen such flagrant display of exploitation of one's position as Mrs. Beetha showed in her article on Crooms School.

I thought news articles were to be objective, unbiased, and valid. Why was this grossly false account allowed such prominent publicity? Why wasn't equal publicity given to the good things that happen at Crooms?

Does being from a small town license a reporter to break all rules of professional journalism? I think a retraction is in order.

Crooms is a good school with excellent administration, dedicated teachers and great students. Sure there are exceptions—but fewer at Crooms than usual.

A. L. Thank you for writing. The overwhelming response from parents of those students attending Crooms (past and present) has been to congratulate The Herald for exposing the conditions at this school. At the same time we are preparing a follow-up release on the aptitude of these 8th grade students some of whom are rated highly nationally. . . and unfortunately there are some who have a second (2nd) grade reading ability. Finally, there were witnesses accompanying Mrs. Beetha while visiting the school.)

Sincerely, C.C. Thorne 106 Crystal Drive Sanford, Florida 32711

How low we in Seminole County have sunk and how long we are going to allow a school like this to exist?

for being in a doctor's office. When the taxi did not come for them in 30 minutes, I called again to be sure the message was not misplaced. I was told the cab would be here in "just a few minutes." We waited another 30 minutes — the cab had not come — I called again — was told that he was on his way. I called a total of 4 times and finally at 6:30 pm, I took the patients home in my car.

My complaint is coming to you now because I have finally had enough. This is not an occasional occurrence, it is almost daily — the cab drivers are most inconsiderate and very unfriendly to the patients if they ever get here to pick them up. I feel that even though it is their business and they have a right to run it as they wish, they are nevertheless, licensed in this community to do a service for our citizens. I realize the city is growing very rapidly and it is very difficult to handle all the people, but I feel there should be some extra consideration given to our senior citizens, especially in services to and from doctor's offices, hospitals, etc. I might add that how this problem does not exist with the cabs operated by the black community. They are very prompt and also quite helpful to those they serve and they certainly deserve to be complimented for this.

I don't know if you can do anything about this but I thank you for listening to my complaint. If anything can be done, many of us will be grateful. I, for one, am fed up to my eyeballs with all the balcony handled to the public about how the medical field have become so inhumane and unconcerned about our fellowman, and nobody else in this community thinks they are our senior citizens anything. We have to work together as a unified community in supplying all their needs.

Again, I thank you for bending your ear my way and if there is anything that can be done, please do what you can and we will appreciate it.

Casselberry Nabs Three On Marijuana Violations

By GARY TAYLOR

Casselberry Patrolman Richard L. Monaski has arrested three men on possession of marijuana charges in two separate incidents.

According to Chief George Karcher, his department received an anonymous telephone call about 7:15 p.m. The caller said that there would be a drug buy in the Seminole Plaza.

Monaski, Sgt. Herbert Johnson and Patrolman James M. Thompson answered the call. Monaski observed a van fitting the description given by the caller. The vehicle was driving around behind the Montgomery Wards Auto Center with its lights off.

Monaski stopped the vehicle and the other two officers responded as back-up. The men got out of the van and Thompson noticed a plastic bag of leafy material on the ground next to one of the wheels of the van.

A search of the vehicle produced a paper bag containing a material believed to be marijuana. Steven Alan Thompson, 19, and John Francis Brainard, 19, both of Kissimmee, were charged with possession of cannabis sativa L. (marijuana) and placed in the Seminole County jail under \$2,500 bond.

Tracy Alan Carter, 18, of 1940 South Boulevard, Maitland, was charged with possession of cannabis sativa L. by Monaski after the officer found a plastic bag containing what is believed to be marijuana in the suspect's shirt pocket.

Monaski had stopped the car after another officer, responding to a disturbance, called the car in as leaving the scene. While checking Carter's driver's license, Monaski noticed the bag in Allen's pocket.

In another incident, the 16-year-old juvenile from that city and charged him with violation of parole and grand larceny.

Another incident, the 16-year-old juvenile from that city and charged him with violation of parole and grand larceny.

Another Shipment of COMPACT 2 cu. ft. REFRIGERATORS

A popular model for use in the office or as a second refrigerator at home, in the den, the Florida room, or at the camp. Serves cold refreshments and makes ice cubes. Has freezer compartment, door shelves, egg rack. Uses very little current. New decorator designed Walnut grained front.

County Studies Possible Suit

ANN SIECZKOWSKI Seminole County is considering a joint suit with the City of Maitland against Maitland Utilities, concerning the treatment of sewage in the Tanglewood area.

In September, James Johnson, president of Maitland Utilities corporation inquired whether or not the Tanglewood Sewer plant area was included in the area that the City of Maitland agreed to serve at the time zoning was given to construct their Sewer plant in Seminole County.

Robert Morris, Utility Attorney for Seminole County, said that pursuant to a 1962 agreement executed on the 8th of October 1962 and amended on September 27, 1971, the County had agreed to allow the City of Maitland to construct a sewage treatment plant in Seminole County.

In turn, the City of Maitland agreed to treat sewage from various sanitary sewerage utilities in Seminole County originating in their respective service areas in Seminole generally bounded on the South by the Orange County line, on the East and North by SA 436 and on the west by the Atlantic Coast Line right of way; and the 30 acre commercial area lying East of and adjacent to Highway 17-92 and North of and adjacent to SR 436.

"It is quite apparent that the Tanglewood sewer plant area is included in this area and further that the city of Maitland had agreed to treat sewage originating within the service area of Maitland Utilities Corporation known as the Tanglewood sewer plant area," Morris concluded.

In a letter dated October 27, 1972, Johnson told Raymond Seifer, County Utilities Administrator, that Maitland Utilities Corporation has extended a contract to Emory Branch and Lake Howell Road, with expansion of the General Waterworks facility from 2.9 million gallons per day to 4.6 MGD in about 6 months.

Detective Arrests Two In Theft Of Motorcycle

By GARY TAYLOR missing articles was estimated at \$131. The Sanford Police Department is investigating a theft from Apartment 203, Commodore Apartments, on Airport Boulevard, Lucille Johnson, 20, told Patrolman Ray Bennett that several items were taken. Among the items listed as stolen from the apartment are two speakers, valued at \$250 each, a tape deck worth \$50, a \$700 tape recorder and an amplifier valued at \$250. Total value of the missing items was set at \$2,000.

Det. William Hogan of the sheriff's department arrested two Altamonte Springs juveniles, and charged them both with grand larceny. The two boys, 15 and 16 years old were arrested in connection with the October 21 theft of a motorcycle from Lake Brantley High School.

Deputies are investigating the theft of a tape case and 21 tapes from the residence of Kathy Reeves, Sheppard Road, Longwood. Total value of the

South Sanford Winter Park — Ph. 644-8916

Dear Herald Reader:

At Jack Prosser Ford, we hold our membership in Central Florida with a great deal of pride. The reasons are simple. Nowhere can there be found a better people or home.

We all enjoy the most beautiful area of our state. Especially now, with fall here, central Florida has entered its most stunning and active season.

It is indeed a time for activity. And here at the dealership we are at our busiest. Because now and then months are traditionally the most active for car buyers.

Just as so many have made a contribution to our growth, it takes many contributions to build a fine car. At Jack Prosser Ford excellence is designed in at every stage of manufacture — from the initial planning to engineering — with emphasis on sure lasting care and mechanical life of your car. "At a place in your car buying plans."

Our service department and warranty program will insure lasting care and mechanical life of your car. "At a place in your car buying plans."

As the most convenient Ford dealership, we take particular care to provide professional service. We want to deserve your business.

The natural result is quality.

We feel a great deal of pride for Central Florida and Sanford, and take pride in being your people-to-people dealer.

Very Sincerely Yours,
Jack Prosser

There is some question since on October 24, the City manager of Maitland, Don Johnson, advised Maitland Utilities that the City of Maitland would not treat the sewage from the Tanglewood sewage plant and would not accept any sewage from that area at the City of Maitland Plant.

Chairman Greg Drummond commented that the county might consider a joint suit with the City of Maitland on this matter. "The only question is whether the city of Maitland had agreed to treat sewage originating within the service area of Maitland Utilities Corporation known as the Tanglewood sewer plant area," Morris concluded.

In a letter dated October 27, 1972, Johnson told Raymond Seifer, County Utilities Administrator, that Maitland Utilities Corporation has extended a contract to Emory Branch and Lake Howell Road, with expansion of the General Waterworks facility from 2.9 million gallons per day to 4.6 MGD in about 6 months.

TRYING to whoop up some enthusiasm from the crowd at last night's homecoming parade for Sanford are the Seminole High cheerleaders. The Seminoles will be climaxing a week of activity tonight when they battle the Sandcrabs of Seabreeze in their annual Homecoming contest at Sanford Municipal Stadium. Game time is 8 p.m. The Homecoming Queen will be crowned at halftime.

Lyman Favored Greyhounds Battle Pioneers

By HERKY CUSH Assistant Sports Editor

Oak Ridge could not find itself in a better position than they are in for their game with the Greyhounds of Lyman, slated for Lyman Field tonight at 8 p.m.

The Pioneers are catching the Greyhounds after a tremendous victory after the Seminoles of Sanford and before a worrisome adventure against the top unbeaten power in the central part of the state.

Defense Seen As Key To Lake Brantley Tilt

By J. RICHARDS Herald Sports Writer

Calling defense the key, Lake Brantley Head Coach Bill Duty brings his 43 Patriots into Lyman Field Saturday night at 8 p.m. against tough Tampa Berkeley Prep in an effort to insure a winning season in the new Seminole County school's first season.

The poorest defensive effort of the season last week against relatively small Labelle High School led to the Patriots' first loss of the season, against perhaps one of the few schools matched physically with the young, freshman and sophomore team.

While Berkeley Prep enters the contest with a poorer 3-4 record, the Tampa squad has come up against strong opposition this season and they're hungry for a win, reports Coach Duty.

"Failure to tackle well and to fill people" on defense spelled doom to the Patriots winning season bid last week during the local gridder's Homecoming. "We were just plain flat," said Duty, "and we need to come around completely if we're to have any kind of chance against Berkeley."

The Tampa squad lost to state-ranked Trinity Prep earlier this season and last week was bombed by Sarasota Cardinal Mooney 68-0, but the Patriots may find the going tougher than either Mooney or Trinity.

While both teams will be running the Wishbone T offense, Berkeley's two "wide-out" receivers off the line add a new variable the young Patriots have not faced.

"We'll have to handle that without wide defensive men, especially on their crack-back type blocking. It'll put a lot of pressure on our boys," Duty said.

"We practiced a little more on tackling this week," he continued. "We knew we blew it last week and I can guarantee there'll be some rough hitting out there Saturday night. I think we'll be ready, I hope so."

While injuries to key linemen decimated the Patriots early in the season, and many of these boys are either just returning or still out, the Patriots have a seasoned backfield.

Seminole Eleven Hope: Celebrate Homecoming

By GARY TAYLOR Herald Sports Editor

The Fighting Seminoles will have one thing in mind tonight when they attempt to upset the Seabreeze Sandcrabs. The Seminoles will be concentrating all their efforts on stopping the Seabreeze ground game.

The Seminoles are looking for their second win of the season, after falling on the short end of the score in their last seven outings. Kickoff is 8 p.m. at the Sanford Municipal Stadium.

More importantly, the team will be looking for its initial win under head coach Bill Young. Young took over the head coaching job during mid-season and they have improved steadily since.

Tonight is Homecoming for the Seminoles. Pregame activities get underway at 7:30 p.m., and the Homecoming Queen will be selected from a field of eight candidates at halftime.

Tonight's lineup has only two changes from last week. Johnny Gordon suffered a neck injury during Wednesday's practice session, but according to Young, it doesn't appear to be too serious.

Gordon, a sophomore, will be replaced in the starting lineup at defensive halfback by his older brother, Stanley Gordon, a junior.

Joining Stanley Gordon in the defensive secondary are Herb Sutton at halfback and Jim Clements and Keith McClain at safeties. Starting defensive ends are Alfred Eudell and Larry German.

Reggie Smith and Billy Hardy will start at tackles, with Carlton Edge, Dickie Deas, and Jim Steffens at the linebacker spots.

On offense, Marcellous Daniels will play center, with Reggie Smith and John McGregor at guards. McGregor is back in the starting lineup after suffering a knee injury that sidelined him since early in the season.

Larry German and Billy Hardy will start at tackles, with Don Brown at tight end and Frank Sloan at split end.

There is no doubt in Coach Copeland's mind that his Greyhounds can do the job against Oak Ridge. Providing he has all of the people in the lineup that he wants to have there. But a series of injuries has forced several changes and this may account for the doubt as to the Hounds chances of a victory tonight.

Among those Copeland would like to have returning for the game tonight are linebacker Greg Abramsak who's been out six weeks with a injured wrist, Doug Dane, the 6-5 senior two-way tackle who injured his knee; Brian Stroup one of the top linemen who has not played in two months and Ralph Elliott. The Hounds starting center at the start of the season.

Even so, the Hounds should be able to roll to an easy victory tonight providing they do not take the Pioneers lightly.

Among those who must come up with their usual spur efforts are flanker Tom Gooch, who has 33 catches for over 500 yards and five scores; quarterback Bob Costantine, who passed for better than 200 yards last week; fullback Mike Massey who returned to early season form against Seminole; Steve Clark and John Mitchell, running backs.

Thus, the two lineups should look something like this: On offense it will be Al Cleveland joining Clark, Mitchell, Massey and Costantine in the backfield. Gooch is the flanker and Matt Leslie at split end. In the front will its Fred Human at center, Shane Miller and John Giovanni at guards and Glenn Hill and Mike White at tackles.

Defensively the setup has Tom Barchus, Terry Travis, Rich Stokes and Ed Callan in the secondary. Linebacking duties are shared by all-Stater Gregg Wallick, Phil Kelly, Mike Tenyson and Hill. In the line its Rod Dowling, brought over from tight end; Mike Hawkins, White, Phil Failer and Ben Craft doing the chores.

Tonight is the last of seven home games on the Lyman Schedule. They close out the season next week against the Metro Champions of two straight years, Winter Park.

Another Tough Task For Oviedo Tonight

By GREG SINDAD Herald Sports Staff

Tonight a listless band of football players known as the Oviedo Lions will have their hands full against a team that averages more than 100 yards a game through the air. This means that Larry Perrin, Robert Raulerson and Greg Washington will have to stay alert. Last week against Astronauts, they were burned several times, once for a touchdown. The rest of the defense will remain the same and the Lions will need good games from James Meeks and Dennis Allen if they are to have a chance of winning.

It should be an interesting game in Oviedo if the Lions can come out of their shell and begin performing as a team. But unless they do it could be a long night for the Lions and their fans.

Game time tonight is 8 p.m. at John Courier Field in Oviedo.

Registration For Cagers

Registration has been opened for boys who desire to compete in the Orange Belt Conference boys' basketball program. Tryouts for boys in the Sanford Youth Basketball League will be held Saturday, Nov. 18 at the Sanford Civic Center. Sanford Junior Boys will start their tryouts at 8:30 a.m. and the Intermediate Boys will begin their tryouts at 1 p.m.

The Sanford Junior League is for boys ages nine through 12 and the Intermediate League is for boys ages 13, 14 and 15.

NICEST SLICE -- by Alan Maver

WHEN THIS GRADUATE OF THE 1971 PEN QUALIFYING SCHOOL SET HIMSELF A ROOKIE YEAR GOAL OF \$100,000, HE MAY HAVE RASPED A FEW EYEBROWS, BUT THERE'S NO DENYING HIS POSITIVE APPROACH WAS 'ON THE STRICK' ALL THE WAY.

Merritt Island Hosts Central In Top Clash

By HERKY CUSH Assistant Sports Editor They are holding the state championship for the Class AAAA teams early this year. No, that's not really true but one might look at it that way in analyzing the clash of the two top rated teams in the Class AAAA division.

There are many followers of the state's most powerful division who really believe the two best teams will be squaring off tonight when Merritt Island plays host to Fort Pierce Central.

Merritt Island currently ranks number two and you can be sure they will be trying hard, perhaps even harder, to make the leap into the number one spot. But top ranked Fort Pierce, the defending state champion in Class AAAA has other ideas.

There is just no way for these two clubs to meet in the state final since they are both in District Four of the Class AAAA division.

Oddly enough neither of these two powers is leading the 4-AAAA division at the present. That honor goes to one beaten Vero Beach with 84 points from a fine 7-1 mark. The loss was to Fort Pierce. Fort Pierce has a 7-0 chart and 58 points while Merritt Island is tied with unbeaten East Galia, another of the fine teams in 4-AAAA, each having 7-0 records and 52 points.

Without a doubt the victor in tonight's battle will be tagged the favorite to at least make it to the state final in this division. In District 3-AAAA the two lone unbeaten are the Parkers

Ground Game Is Key Trinity Prep Must 'Control' Mooney

By J. RICHARDS Herald Sports Writer

The season boils down to 48 minutes as far as Tom Ruby and his Trinity Prep Saints are concerned tonight in Sarasota against rugged Cardinal Mooney in a game that should decide the winner of District III, Class A.

Tampa Faces Miami

By JOHN R. SKINNER Assistant Press Sports Writer TAMPA, Fla. (AP) — Earle Bruce's attempt to stretch his image as University of Tampa football coach past the long shadows of ex-coach Fran Curci has been like comparing a freeraker to a bomb.

But the detonation power Bruce has needed all year comes his way Saturday night when Curci brings his University of Miami Hurricanes to Tampa Stadium for homecoming.

Curci guided Tampa to a 31-14 victory over Miami two years ago and Bruce needs a similar victory to wipe out Tampa losses to Kansas State and Louisville in a 6-2 season.

Thus, he admitted after Tampa's 26-9 victory over Florida A&M last Saturday, "is the big one."

Bruce needs time to match Curci's brilliant 26-4 record at Tampa, but he managed to equal Curci in one department this year — controversy.

Curci drew attention by refusing to surrender a 24-21 victory over Tulane which was accomplished by an illegal "fifth down" touchdown pass play. The university backed Curci to end an eight-game losing streak.

Bruce drew criticism last Saturday when he insisted Florida A&M be penalized 15 yards when its hand, playing to a standing ovation, extended its show past the 20-minute half-time deadline.

Curci has no illusions about his return to Tampa, which will draw 25,000 into 40,000-seat Tampa Stadium.

state's Class A-AA ratings while Mooney enjoys the number six position in the same poll.

Typical Sarasota scores this year are: LaBelle, 50-0; Tampa Temple Heights, 68-0; Admiral Farragut 44-0; Tampa Berkeley Prep, 36-0; and Clearwater Central Catholic 26-6, revealing a potent offensive machine geared to quick scoring through the airwaves with a hard-rosed defensive unit that systematically destroys an opponent's scoring plans.

While the Saints have not racked up such an impressive scoring total, more of their games have been defensive against equally strong, if not stronger teams than those by Cardinal Mooney.

Trinity easily handled Ft. Pierce John Carroll 28-6 in the season's opener; took a rough, defensive 7-0 win against

quarterback Terry Davis, has rushed for an average of 278 yards and 33.1 points per game. Coach Paul "Bear" Bryant's defense has allowed just 223 yards total offense and 9.7 points per game.

Louisiana State, 7-0 and sixth ranked, is best known for its tenacious defense, which this year has held opponents to 221.5 yards total offense and 8.3 points per game. It has given up 91.7 rushing yards per game.

LSU Coach Charlie McClendon played under Bryant at Kentucky. He has beaten his old coach twice, in 1969 and 1970, but has lost to him six times, including five straight. Alabama won last year's game 14-7.

Elsewhere in college football Saturday, No. 5 Ohio State, after key injuries last week, plays Michigan State, which goes for another victory for now-resigned Coach Duffy

Daugherty. Coach Woody Hayes' Buckeyes lost four players to surgery, including stand-out linebacker Randy Gradi-shar.

Lawrence Cleveland, who has amassed more than 1,100 yards this season en route to 15 tallies. What makes Lawrence new is the outstanding support he receives from Washburn running mates Greg Miles and Mike "Red" Austin, as well as keepers by quarterback Steve Saxon.

As with their defensive backs, the Saints have a solid group of back-up people to fill gaps in the offensive formations. Defensive safety and offensive split end Greg Chandler filled in for two weeks at quarterback while Saxon rested a bruised shoulder.

As with their defensive backs, the Saints have a solid group of back-up people to fill gaps in the offensive formations. Defensive safety and offensive split end Greg Chandler filled in for two weeks at quarterback while Saxon rested a bruised shoulder.

As with their defensive backs, the Saints have a solid group of back-up people to fill gaps in the offensive formations. Defensive safety and offensive split end Greg Chandler filled in for two weeks at quarterback while Saxon rested a bruised shoulder.

in the arm of senior Taylor-Pierson, bombed Sanford Naval Academy 86-0, engaged in another defensive contest with Jacksonville Episcopal for a tight 60 victory, defeated Tam a Berkeley Prep 26-0; fought Crescent City for a 20-12 decision; and upended Admiral Farragut 25-8.

The Saints face the passing attack of Sarasota Mooney with a defensive backfield that has yielded only one passing score all season, and that came on a 51-yard screen pass during one of the few Saints' defensive lapses all year. However, according to Ruby, the local gridirers have not faced any passing to equal this week's expected aerial barrage.

Mooney's passing strength lies in the arm of senior

quarterback Terry Davis, has rushed for an average of 278 yards and 33.1 points per game. Coach Paul "Bear" Bryant's defense has allowed just 223 yards total offense and 9.7 points per game.

Wife jealous over mate's girlie pictures

By Abigail Van Buren
[© 1972 by Chicago Tribune & New York Times, Inc.]

DEAR ABBY: My marriage would be perfect except for one thing. My husband likes to look at girlie magazines. It's the only thing we ever fight about. He's 36 and I'm 34, and I'm not all that bad.

I actually get jealous when I see him enjoying those pictures. I can't help it. I know I can't compare with the well-endowed girls in the magazines and it makes me feel so inferior.

Abby, why would a man who is satisfied with his wife want to look at such pictures?

Is it immaturity? JEALOUS

DEAR JEALOUS: Immaturity? Hardly. Admiring beautiful undraped females has been a source of pleasure among normal men. But because our "code" of morals has made many a "let no" grown man be made normal. He usually little boys if they are caught enjoying it.

It does not necessarily follow that a man who likes to look at girlie magazines is dissatisfied with his wife. But the wife who makes her husband feel guilty for responding normally to an erotic picture could be cheating herself.

DEAR ABBY: What is this world coming to? Mothers putting their daughters on birth control pills at 14 and 15? Next month I am marrying an unwed mother with a little boy. She isn't on birth control pills, and as far as I'm concerned, she doesn't have to be.

I am 26 years old and have been around a lot. Before I met this little fellow, every time I took a girl out, after the first kiss she would say, "You don't have to worry, I'm on the pill."

I thought all the girls were alike, until I met this one, but she set me straight right off. I got fresh [all guys will try], and she said, "If you want an affair, go somewhere else because I'm holding out for marriage. I made one mistake, and I made a promise to myself, to God, and to my little boy, that I'll never make another!"

We're very much in love, but if she can wait to make it legal, so can I. ARKANSAS SALESMAN

DEAR SALESMAN: The moral to that story is, experience is the best teacher, and judging from the cost, it ought to be.

DEAR ABBY: My problem is with my husband's people. I have been in this family for 35 years and every time there is a death in the family, his relatives show up at the funeral parlor with their cameras and they take a picture of the deceased lying in the casket.

They make these pictures to all the out-of-town relatives who couldn't attend the funeral. They think they are doing them a big favor. When my husband's mother passed away recently, he made it clear that he didn't want anybody taking any pictures of her in the casket. She had lived in another city, and my husband was sick and couldn't get back for her funeral, so wouldn't you know a few weeks after the burial he gets all these pictures of his mother laid out in the casket! He was so furious he almost had a spell because he wanted to remember her as she was when she was alive.

Are we crazy for not wanting to see such pictures? Or are they? They've got us thinking that maybe we're the crazy ones.

Please put your answer in the paper as we want to buy about a dozen copies and mail them around. Thank you. HATES THOSE PICTURES

DEAR HATES: To each his own, but I agree with you and your husband. And since his people know how you feel, they should respect your wishes.

Problems? Write Abby. For a personal reply, write to ABBY, BOX 6790, L. A., CALIF. 90069 and enclose a stamped, addressed envelope.

How to write letters? Send \$1 to Abby, Box 6770, Los Angeles, Cal. 90068, for Abby's booklet, "How to Write Letters for All Occasions."

CHICAGO TRIBUNE—NEW YORK NEWS SYND. INC.

POLLY'S POINTERS

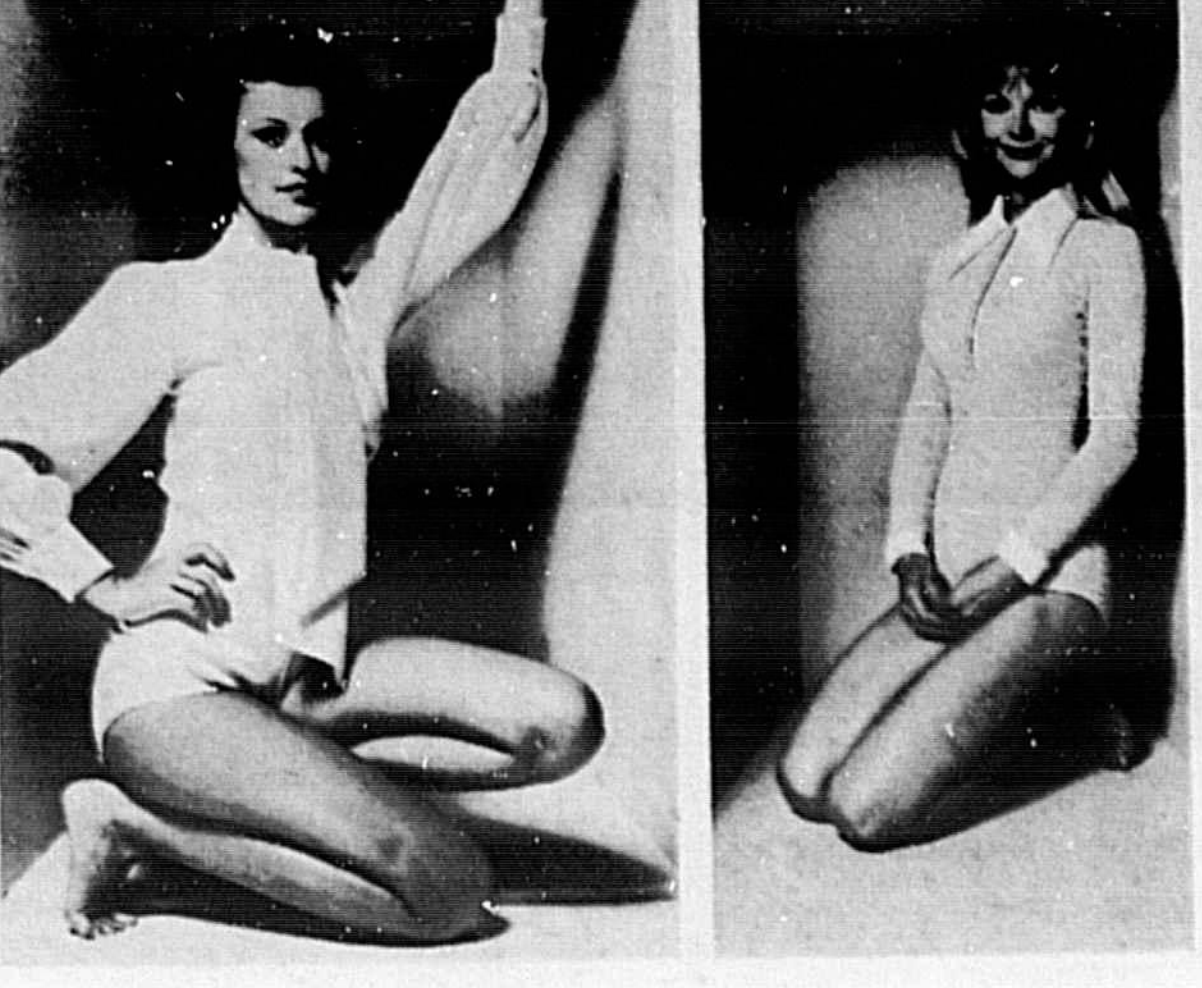

Tots' Sleepers Are Color Coded
By POLLY CRAMER

DEAR POLLY—My small children are near the same ages and size so I have always bought the size-one onesies in pink, the size-two in turquoise and the size-three in yellow and this makes both bedtime and fall warmer and happier. We can tell at a glance which sleeper is for which child and they soon notice and appreciate the variety of colors. My children's outgrown garments are laundered, stored in plastic bags to keep them dust free and then placed in a cardboard box which is labeled with the sizes and the proper season for wearing the contents. They are all ready for hand-me-downs, a clothing drive or emergency loan for a small guest. This saves precious time and eliminates guesswork.—MARGARET

Polly's Problem
DEAR POLLY—I do hope some of the girls can give me some pointers on the care of soiled towels so they will be sweet smelling again. Also, how does one remove banana stains from children's clothing?—GLORIA

DEAR POLLY—My Pet Peeve is with signs along the road that should have been removed days, weeks or even years before as the restaurant service station or store has long been closed. Such signs divert the traffic flow unnecessarily and can be traffic hazards. Recently, I noticed plywood and cardboard signs directing one to yard or garage sales that had stayed on utility poles and fence posts for weeks after the sales were over.—MRS. B. G.

DEAR POLLY—My answer is for the reader who wants to protect certain places on her wall-to-wall carpeting. She can purchase from a carpet store a plastic runner, by the foot, that has little cleats on the bottom which hold the strip in place and do not harm the carpet. I have used them ever since we put down such carpeting and really like them. Wash up with a wet mop and it looks great. These come in clear plastic and colors. 100—DOT W.

New Looks Wrap Body

A BEAUTIFUL new way to top holiday wardrobes with body suits, body blouses and body sweaters features new fabrics and styles. The tie-shirt front, photo 1, has full sleeves with fitted cuffs in washable acetate and nylon satin. Go-with-everything pucker fabric comes in several colors, photo 2, all trimmed with solid white collar and cuffs. Ruffle feathers with ribby-knit body sweater with cascades of ruffles in a washable blend, photo 3, Mad plaid, lower right, glitters for the holidays in silver lurex and nylon, wash and wear. The turtle neck also gleams in black, white and champagne, all by Cheri Alan.

Responding with true community spirit, three members of the Hacienda Village Women's Club visited the home after hearing Mrs. Hart speak to see in what way they could be of assistance. The menues were Mrs. Goldia Burge, Mrs. Doreen MacLean and Mrs. Ellen Bertand.

Woman's Club Assisting Exceptional Children

The workshop session was a result of a talk given by Mrs. Evelyn Hart, president of the Ladies Auxiliary No. 6207, V. F. W.

Speaking at the Hacienda Village Women's Club last week, Mrs. Hart told of the various projects that the auxiliary is involved in. She also mentioned a special project that the auxiliary has just recently adopted. It is the helping of the exceptional children at the Krandle Kare Home for Handicapped Children in what ever way possible.

Mrs. Grace Zemejda, senior vice president of Veterans Foreign Wars Ladies Auxiliary to Post No. 6207, instructed the members on how to make baskets out of egg cartons and yarn. The baskets will be sent to the Veterans Administration Hospital at Lake City.

HACIENDA VILLAGE Women's Club officers are, from left, Mrs. Goldia Burge, chairman; Mrs. Mabel Rytzenski, publicity; Mrs. Dolores Enger, secretary; and Mrs. Doreen MacLean, treasurer. (Nancy A. Booth Photo)

Oviedo Happenings

By LIZ MATHIEUX

I surely am sad to have to be the one to tell you that Rev. A. B. Dismore is a patient at Winter Park Memorial where he is undergoing some tests to determine the cause of his discomfort. Please get well real soon, "Brother Brad." We love you and the community needs you!

Mrs. Pennie Olliff, the recently capable Cashier of the Citizens Bank of Oviedo, has been returned from the 57th Annual Convention of the Bank Marketing Association which was held at the Hotel Hermitage.

Mrs. Olliff has recently become a member of the Bank Public Relations and Marketing Association. For the benefit of those who are not aware, Pennie is also married to our very distinguished Mayor, Leon "Pluto" Olliff.

I hope that all of you took the opportunity to pass by the home of Mr. and Mrs. Ed Kasel to see the "Pumpkin Family" which

BETTY CANARY Spare Time? You Have to Make It

By BETTY CANARY

This is the time of year when young mothers facing the prospect of being trapped within four cozy walls are asking, "Is this all there is?"

To the young mother who has just spent seven hours cleaning paint off the basement walls while sighing, "At least he didn't spray it in his eyes," I can tell her that, no, this is not all there is. There is more.

There's the mess little Brenda made in the kitchen, the writing with red toothpaste on the bathroom floor and as soon as that's cleaned up you'll probably notice the knob is broken on the TV set.

Any woman who complains about being trapped with her children is always careful to preface her remarks with, "Of course I love them!" She knows that any young mother is supposed to whoop with delight at the prospect of spending 24 solid hours per day with her children. She knows that in this country, "young motherhood" is an exalted position still. One ranking with a Girl Scout saluting the flag with a piece of apple pie.

The important thing, however, is to learn how to live into old motherhood. With one's mind reasonably intact, we're not going to waste time giving tips on how to lock up the toothpaste or how to set garbage on top a refrigerator. Young mothers already know these things.

They also know that toddlers can pick locks designed to reach the top of the refrigerator, thereby setting a mother up for a bigger mess to clean.

Research tells me the most successful old mothers got that way by thinking of themselves almost as often as they thought of others. One doesn't reach old motherhood by being soft.

It's all right to look soft on the outside, but inside, the mothers who survive are strung together with piano wire and steel hooks. They make time for themselves each day. They do not "find" time, or "have" time, or "get" time. They make it—if only an hour each day.

A suggestion—you can always hire a sitter for an hour. Just take the money from the grocery budget and list it Food for Thought.

'Nothing Play' Loses Again

By Oswald & James Jacoby

The nothing play is a play that can lose or break even, but can't possibly win. Every one of us has made them on occasion.

Some nothing plays are more expensive than others and here is an example of a rather expensive one.

North's 10-point opening bid is not recommended and he wants it at all happy when South bid game. South's game bid was an overbid in itself. A conservative bidder would have passed two diamonds; a normal bidder would have tried just two no-trump.

South looked over the dummy unenthusiastically. There was one legitimate play for the contract and South tried it.

CARROLL RIGHTER'S HOROSCOPE

from the Carroll Righter Institute

SATURDAY

GENERAL TENDENCIES: Most everyone and various personalities involved. It is wise to refrain from stirring up a hornet's nest which could have adverse effects. Use care on the highways, also, and you will avoid accidents.

TAURUS (Apr. 20 to May 20) Officials may be arguing with a partner of yours, but keep out of it, or you get into real trouble. It will soon blow over. Avoid bigwigs who are irate and keep busy at tasks ahead of you.

GEMINI (May 21 to June 21) You have obligations that need immediate attention, so do not delay any longer; get at them conscientiously. Try to please more and without having to be pressured into doing what is expected of you. Avoid a troublemaker.

MOON CHILDREN (June 22 to July 21) You find that associates are busy today and cannot help you, so work alone with determination and all is fine. Family matter is not difficult, anyway. Do nothing to encourage an argument between others.

LEO (July 22 to Aug. 21) Not a good day for going off on tangents. Keep steady at the work ahead of you which has to be done, though it is a Saturday. Take needed health treatments. Assist those who are in need.

VIRGO (Aug. 22 to Sept. 21) If you plan your time well, you find you can do important business matters and still have hours for the recreation you enjoy. Concentrate on the practical but think of the creative, though not a good day for delving into letters.

LIBRA (Sept. 22 to Oct. 21) Listen to what kin have to say and then you can establish greater harmony within the home. Rid yourself of whatever is obsolete at home and replace with the new. Stop being such a self-satisfying person.

SCORPIO (Oct. 22 to Nov. 21) Plan your routines more wisely and increase your income—save time, effort as well. Add to comfort at home Don't take any risks in motion of any kind. Control that inclination to flirt.

SAGITTARIUS (Nov. 22 to Dec. 21) It would be wise to get together with friends who have good ideas, who can make your day much happier. Get partners to understand you and your ideas better. Don't lose your temper.

CAPRICORN (Dec. 22 to Jan. 20) You feel that you can handle civic matters better than bigwigs, but don't make the mistake of saying so, or you get into trouble. Show you are an A-1 citizen instead. Avoid one who gossips.

AQUARIUS (Jan. 21 to Feb. 19) You have new ideas you want to put in operation, but you first have to finish a personal letter that is important, or you are limited. One of different backgrounds from yours is blint. This is good for you, so do not resent it.

PISCES (Feb. 20 to Mar. 20) If you get at all those responsibilities ahead of you, you need not have to worry about them any longer. Then you can enjoy congenial. Take care of those business matters in a most efficient way.

IF YOUR CHILD IS BORN TODAY... he or she will be one of those charming young people with so much energy that changes will be made just to use up the energy, many of which will be failures. However, your experience will lead to really big success later in life, especially in such fields as astrology, philosophy, teaching, writing and the like. Teach while young to think first and then act, and to use care in all ways. There would be fame in this chart. Give religious training that suits this child's needs.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

GENERAL TENDENCIES: First think out the new ways that you like you can put in effect your highest spiritual ideas, then you are able to get out in the world of people to gain their support for your personal wishes. You can have a good time as well as adding to the enjoyment of others.

ARIES (Mar. 21 to Apr. 19) If you get together with your friends, you find that they have fine ideas you can profit by later on, and become a successful, happy person. Think more clearly where your ambitions are concerned. Adopt the best of the modern.

TAURUS (Apr. 20 to May 20) Plan how to improve your position within the community in which you live. Improve your mind considerably. Enjoy public affairs and make an excellent impression on others. Try to get at the bottom of some puzzling situation.

GEMINI (May 21 to June 21) Discuss those ideas you have with wise people and get their reactions before you put them in operation. Do some corresponding with out-of-towners. Ask their views, which can be very helpful to you.

MOON CHILDREN (June 22 to July 21) Listen to the voice of your intuition and use your hunches where most needed, then you can get ahead. Show much affection to mate for right results.

LEO (July 22 to Aug. 21) You have a habit of wanting to change and convert others to your way of thinking, but if you accept them for their differences, you get along better. Listen to their ideas for your advancement. Fundamental changes with approval of kin are fine.

VIRGO (Aug. 22 to Sept. 21) Show appreciation to those who have done you many favors. Get busy rearranging your wardrobe so it is attractive. Do not waste time on whatever is a worthless nature. Think logically.

LIBRA (Sept. 22 to Oct. 21) You are truly devoted to the one you love, you can renew faith and make the future brighter. Get into the religious studies necessary. You enjoy fascinating fun after that with congenials.

SCORPIO (Oct. 22 to Nov. 21) Do whatever will please kin and they will willingly cooperate in some plan you have for mutual good. Investigate new outlets via brochures that will bring you an added income. Show others how much you like them.

SAGITTARIUS (Nov. 22 to Dec. 21) You can accomplish much on the religious field, since this is an exact your forte, although you appear to be very practical only. After meditation, get together with persons you like for constructive purposes. Retire early in p.m.

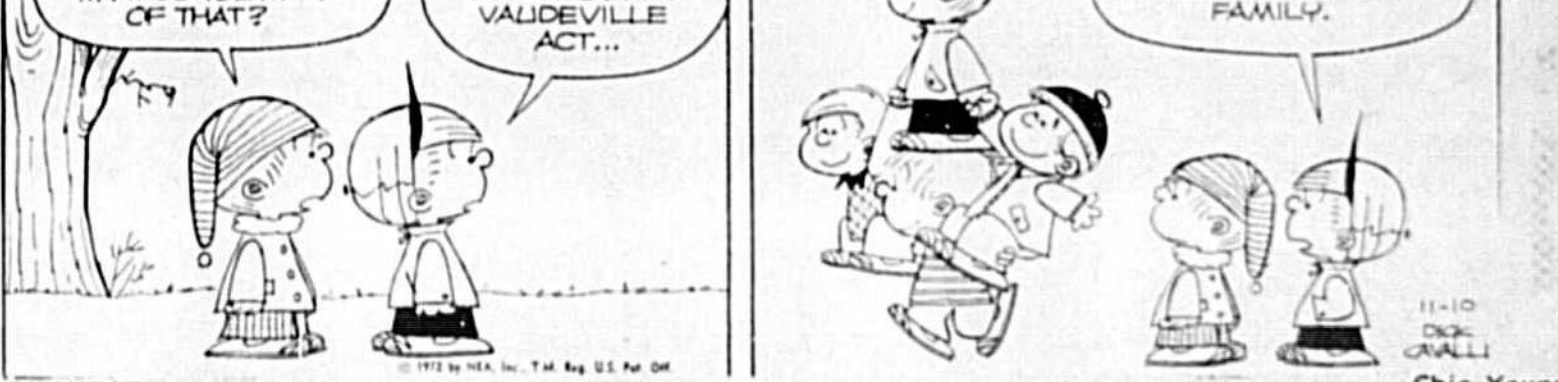

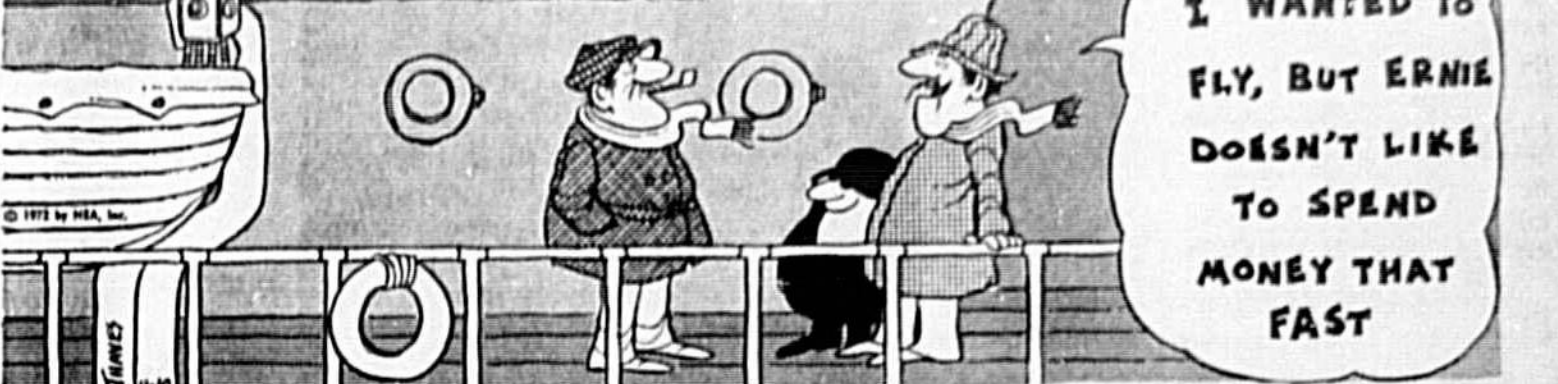

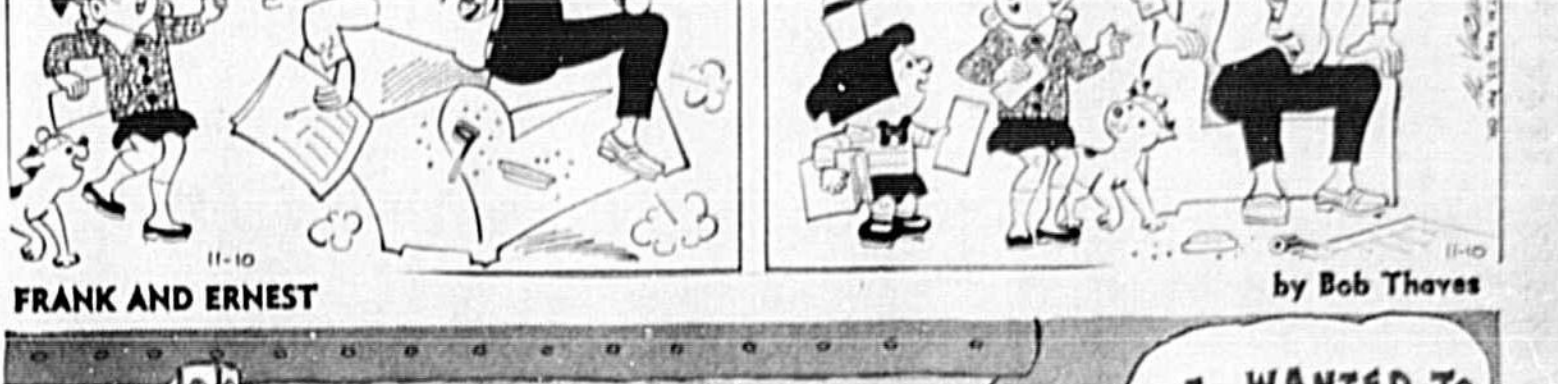

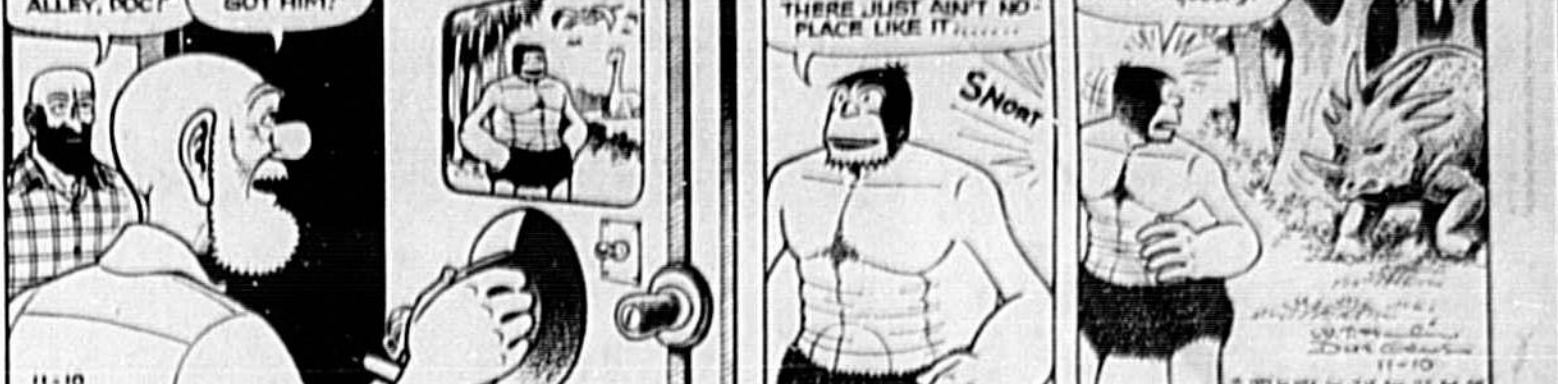

CAPRICORN (Dec. 22 to Jan. 20) If you study your newspaper well, you can find just the right advertisement that will give you added income, which you need now. Consult with financial experts you know, also. Stop worrying so much—get to work.

AQUARIUS (Jan. 21 to Feb. 19) If you talk over with a prominent person you know just how to handle that personal or financial matter best that is vital to you, you get right results. Attend a group meeting that can be helpful. Avoid one you do not particularly like.

PISCES (Feb. 20 to Mar. 20) Meditation will help you gain your fondest aims now, then you can contact the right person who can be of assistance. The information you need must come from the right source. Do not take anything for granted.

IF YOUR CHILD IS BORN TODAY... he or she will be one of those idealistic young people who requires a fine education. The great promise in this chart is to be realized properly for leadership in community or country. There is the ability here to make many, many friendships and keep them. Give good religious training early that will permit your offspring to get on the right road of life early and continue steadily on it. Sport are important here.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

...THE HOPE OF OUR COMMUNITY, OUR NATION!

Center of life

At our house bedtime reading ranges from the "just so stories" to the encyclopedia, from "Mary Poppins" to the Bible, depending upon Billy's interest.

And always there are the questions. "How high are the stars, Daddy?" "Where did the dinosaurs go?" "Daddy, did Adam love Eve?" "What makes electricity spark?"

How challenging to watch the alert mind of a youngster mature! I know I'll have to keep on my toes with new ideas in every field, if I want answers for Billy as his questions grow more profound.

Of one thing I am confident, the age-old truths of my church and the Bible never change. Integrity, responsibility and the love of God are a source of strength now as in every age. I have no qualms about teaching my son that God's Church is the center of a man's life.
