Will Meet for Program to Utilize Federal Farm Loan -

WASHINGTON, Dec. 1.—The administration had ready today a definite program of legislation for the financial relief of farmers, formulated in agreement with Senate leaders by both agriculture and banking committees and to be pressed with their support at the short session of Congress. As approved at a conference of the Federal Farm Loan Board as ner. an agency to aid in the extension of larger and more liberal credits.

WASHINGTON, Dec. 1.-The new administration program for immediate financial rollef to farmers was formulated and 'practically pocfected today at a conference between-President Harding, Secretary Wallace and 15 Republican senutors, headed by Senator Watson, of Indiana. It will be put before Congress at once and pressed with the full force of the pil-

Broadly the plans bring together in one administration measure the approved portions of various relief measures already pending in congress and contains also provisions to make the intended relief available to the small farmer as well as to the large cattle raisors and grain grow-

The conference was arranged by Senator Watson, who has been making an active survey of the question of agricultural relief. It was preceded by a series of conferences between Secretary Wallace and Department of Agriculture experts. Today President Harding kept his Thanksgiving dinner waiting while he heard the perfected program outlined and gave him general approval.

The plan proposes to utilize the Federal Farm Loan Board as the agency through which relief is to be given. The details of the financing have been practically worked out. The general purpose is larger and more liberal credits and cheaper laterest rates. The opinion of those participating in the conference was that while war finance corporation tore, its loans, because of certain limitations, did not reach down to the average small farmer who raises few cattle or has small quantities of grain to market. By using the Federal Farm Loan Bureau as the agency to carry out the plan of financing, the new administration plan of financing, the new administration plan proposes to make the government relief available directly to the small farmers who need it.

Since Seminole has no county fair it has been found in the years past that some good advertising is forthcoming from a good exhibit at Orlando and while the results are not apparent in actual dollars and cents it is sure and certain that this county realizes great benefits from a good exhibition at Orlando.

Benjamin Whitner, the county agent, will devote much of his time toward getting up the exhibits and he should receive the co-operation of all the people in the county and especially the farmers.

More dtailed information will be given through the columns of Herald from time to time.
