

Thousands Will View Show And Fair At College

GAINESVILLE, Apr. 4.—(Special)—Thousands of rural people from all sections of Florida are expected to attend the tenth Little International Livestock Show and Rodeo and Agricultural Fair to be presented by students of the University of Florida College of Agriculture on Saturday, Apr. 19.

Twelve thousand persons, or 24 times the attendance at the first show and rodeo 19 years ago, attended the events in 1940, and the students are expecting attendance to be larger than ever before.

The show and rodeo is sponsored by the Block and Bridle Club, animal husbandry students organization, while the fair is sponsored by Alpha Zeta, honorary leadership fraternity.

President Bill Atwater, of Block and Bridle, and Chancellor George Byrd, of Alpha Zeta, reported today that members of their organizations are busy preparing exhibits, and grooming stock for the big day, Apr. 19.

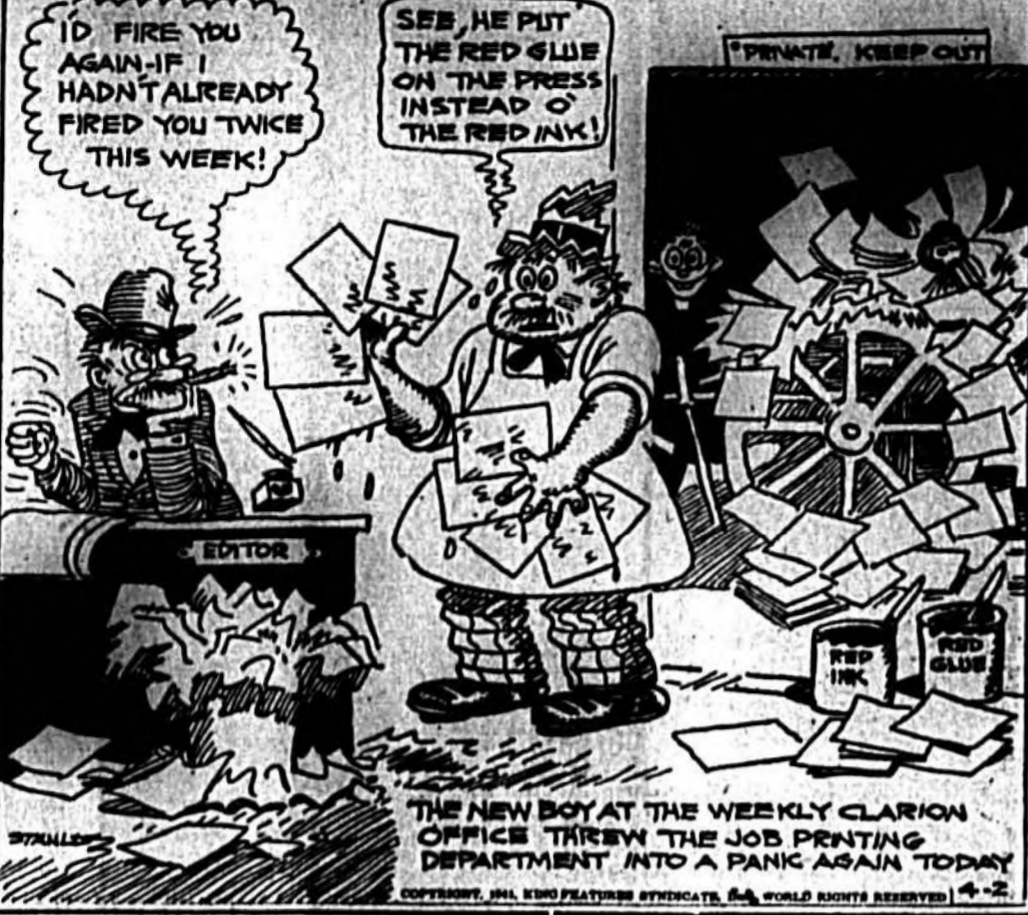

The day's activities will get under way at 12:00 o'clock with the opening of the Agricultural Fair in the University gymnasium. Exhibits representing all departments of the College of Agriculture, including an egg show and an animated drama of the Florida national egg laying contest, will be displayed by the students.

Led by the University of Florida Orange and Blue Band, the Block and Bridle Club will stage a mounted parade through Gainesville at 4:30 o'clock in the afternoon.

The curtain will rise on the Livestock Show and Rodeo at 7:00 o'clock in Florida Field Stadium, and for two hours the Block and Bridle Club members will show dairy and beef cattle, sheep, and swine, and perform in such exciting rodeo features as steer riding, steer wrestling, horse racing, (chair and barrel events), wild cow milking, and catching the greased pig. Exhibition of animals will alternate with rodeo events to keep the show moving at a fast pace.

The show and rodeo and fair are planned and presented by students. They are presented to

Hailstorm Causes Severe Damage To Citrus And Truck

LAKE WALES, Apr. 4.—(Special)—A freak hailstorm, extending from Waverly to Hesperides and on to the Kissimmee River, caused severe damage to citrus and truck in this section of the Ridge early yesterday morning. The hail was accompanied by rain and high wind, which blew down several trees and disrupted electrical service.

Citrus trees, many now in full bloom, were partially stripped of their foliage and blossoms were scattered all over the ground. Much fruit of this year's crop was bruised or shaken from the trees.

Over two inches of rain fell within less than two hours during the height of the storm. Much more damage was reported by property owners throughout Lake of the Hills and Waverly where hail stones, some as large as an inch in diameter, broke windows, neon signs, and defoliated flowers and shrubbery.

According to many persons, it was not an unusual sight to see the ground covered with a white blanket of ice from three to four inches thick. Late yesterday afternoon, a lake of ice still remained in one grove where tor-

G. O. P. Chairman Calls For Unity

WASHINGTON, Apr. 4.—(AP)—Representative Martin, Republican national chairman, called on Americans last night to unite in making the nation invincible against assault from within or without and declared his own party must police and audit the Roosevelt Administration in the present emergency.

In an address prepared for broadcast over CBS, the Massachusetts representative declared that in the midst of a great national crisis there was a vital need for "a vigorous, virile Republican party."

FUND FOR MISSIONS

ATLANTA, Apr. 4.—(AP)—Dr. J. B. Lawrence, executive secretary-treasurer of the Southern Baptist Home Mission Board said Thursday a special income of \$46,473 would be spent on Cuban missions, radio broadcasts and school work on the island.

Flots in the area reported winds of possibly hurricane force were experienced, along with turbulent conditions, at high altitudes, but the Weather Bureau found a ground wind velocity of only 35 miles an hour at Tampa and less elsewhere.

FOR DEFENSE HOUSING

WASHINGTON, Apr. 4.—(AP)—The Senate voted Thursday to authorize expenditure of \$150,000,000 for defense housing in addition to \$150,000,000 previously provided by Congress. The new authorization now goes back to the House for action on Senate amendments, including a pro-

vision increasing the average maximum cost of housing units from \$300 to \$350.

Inspectors from the U. S. Department of Labor, wage-hour division, will begin a wage-hour inspection drive in the citrus and vegetable belts this week, it was announced.

STOCKS CLIMB

NEW YORK, Apr. 4.—(AP)—The stock market Thursday caught some of the bullish spirit exhibited recently by speculative commodities and many leading stocks climbed \$1 to around \$2 a share.

Senator R. C. Horne of Madison has been named chairman of the Senate Finance and Taxation Committee by Senate President John R. Beacham for the coming legislative session.

Coast Guardmen keep a careful watch on the German freighter *Pennine Friederich* in Boston harbor to prevent sabotage. Five ships were grabbed in the harbor in the nation-wide seizure of axis vessels.

Home Demonstration Notes

By MRS. REVA D. ANDREWS
GROW YOUR OWN
For several weeks the Agricultural News Service issued by the State Agricultural Extension Service in Gainesville has carried stories of successful farmers and their families in different counties. Some of these farmers have been general farmers, others truck growers, and still others engaged in various principal lines of activity.

But two points have stood out in all of the stories. Whatever their specialty, these successful farm families have had a diversity of products and all of them have followed consistently a policy of producing at home the greater part of needed food and feed products. In "good" times and "bad" times they have found these two policies to be advantageous and to contribute towards their success.

Now that this country is engaged in a tremendous national defense effort, attention has been focused on the necessity for better nutrition among both rural and urban residents, and the high desirability of each farm family growing its own needed foods and feeds. The largely self-sufficient farm family is in a better position now than at any time, but particularly so when prices of purchased foods rise or when transportation facilities become clogged.

And so, as the national defense effort gets into full swing, farm families are being encouraged to provide themselves with more adequate gardens, more family milk cows, more home poultry flocks, and more beef to supplement pork in the diet. These things are needed not just part of the year, but as nearly as possible throughout the year. Gardens which flourish in Spring and are available in other times need to be made in flourish most of the year.

products are grown, they must be served attractively and in variety enough to give balance to meals. Unpalatable, unattractive foods are not eaten, no matter how many vitamins or calories they contain. Prejudices against certain desirable foods are another barrier to proper nutrition among too many people. Good food habits are easily formed.

There is a growing tendency among rural families to work out together plans and programs for the farm and the family. All members of the family counsel together, and the home is considered as the important part which it is of the farm.

Desirable at any time, these things are especially important now. Anyone desiring additional information as to how to go about producing and using more food and feed can obtain it from county and home demonstration agents, farm and home supervisors, or other agencies.

British Expect Spring Offense By Nazis Soon

German Attack Said "About To Begin" By Authoritative Source In London

Seven Outlets For Blow Seen

Invasion Of Ireland Or England, Drive On Gibraltar Likely

LONDON, Apr. 5.—(AP)—An authoritative source said today Germany's Spring offensive "obviously is about to begin" and declared Britain's army, navy, and air force are on guard for a Nazi assault in one or more of seven directions.

Yugoslavia from Hungary, Slovakia and Rumania to prevent the German flank from driving on Rome.

Through Turkey, a drive through Spain to seize the Straits of Gibraltar, the invasion of Ireland, and the invasion of the Russian Ukraine.

The source said that German plans were being attacked in many ways and that the British were making every effort to disrupt them.

End Of Strike In Coal Mines Believed Near

Committee Named To Draw Up Contract To Take Place Of Expired Agreement

NEW YORK, Apr. 5.—(AP)—A seven-man sub-committee representing the management and the union in the bituminous coal negotiations was named today "to draw a contract" and present it to the full negotiating committee Monday morning.

The move indicated that the end of work stoppage, caused by a disagreement among operators and the United Mine Workers (C. I. O.) over the terms of a contract to replace one which expired Mar. 31, was imminent.

Named to do the drafting were Percy Taylor, representing the miners and Charles O'Neill for the operators.

The Ford Motor Company, delayed in \$185,000,000 in national defense work by the continuing three-day strike at its Rouge plant, sent an emissary to Washington last night to confer with Secretary of War Stimson.

T. A. Caprial, Ford attorney, flew to the capital bearing evidence, the company said, of "activities of Communists" in the strike of the C. I. O.'s United Automobile Workers, which now has tied up operations in all Ford plants in America.

There was no immediate announcement of Caprial's plans. He left Detroit in the midst of a fresh exchange of charges by company and union that each was willfully obstructing defense work.

At the same time there was a somewhat optimistic statement from Federal Mediator Dewey on negotiations for a strike settlement.

"We feel that we are making progress," Dewey said, "and the situation is more hopeful now than it has been at any time in the past."

Ray Stout, superintendent of the Rouge plant, accused strikers of "deliberate breakage of tool and die parts vital in aircraft production." He said the damage reached \$100,000. The union denied this and, through a statement, said the company was "completely insincere" in declaring it wished to help national defense.

Mediator Dewey took his first step last night toward evacuating an estimated 1500 production workers from the plant, a situation which he termed "very delicate."

"There is a very bad attitude in there," Dewey told reporters as he left the plant.

He would say no more, but previously, before going to work, he had said the men were "afraid to come out for fear of being beaten up." He said "a great many" were "armed with weapons they made themselves."

Yugoslav-German Relations Ebb As Balkan War Looms

Where "Lost" Airliner Was Found

The Eastern Airlines plane lost for hours with thirteen persons aboard is shown in the swamp, 10 miles from Vero Beach, where the pilot brought it down. None of the plane's occupants was critically injured. Arrow shows one of the wheels from the damaged undercarriage. The plane was enroute from Miami to New York when it flew into a storm.

Zero Hour Has Arrived, Diplomats Say; Borders With Italy And Reich Closed

Aircraft Roar Over Belgrade

British Seek Knock-out Blow Against Italians In Africa

ROME, Apr. 5.—(AP)—The Axis has given Yugoslavia a few more days to make peace with it to escape attack, it was indicated today by Virginio Gayda, authoritative Fascist spokesman.

Gayda's assertion came a few hours after it was reported the Italo-Yugoslav frontier had been closed.

Yugoslav relations with Germany ebbed swiftly today. The Balkan kingdom apparently on the verge of war.

Government circles asserted gravely the "zero hour" had arrived and a neutral diplomatic status could government negotiations had ended with a "new stage" a matter of days or hours away.

In Berlin, it was authoritatively declared that for all practical purposes German-Yugoslav diplomatic relations have ceased to exist.

Yugoslavia's borders with Germany, Italy, Neuchampstead Hungary, Bulgaria and Rumania were closed.

Squadrons of Yugoslav fighter planes roared over Belgrade, headed for the Hungarian front, according to reports.

Committee Chairman Named By McCarty

ORLANDO, Apr. 5.—(AP)—Senator W. B. McCarty of Florida appointed Representative Clyde C. Edmondson to head the powerful Florida and Louisiana committees in the 1911 Legislative Council, effective Tuesday.

The Florida committee will be headed by McCarty, chairman of the Florida House of Representatives. The Louisiana committee will be headed by Representative C. J. McCreary.

Sanford To Meet Red Hats Sunday

Sanford's baseball team will play its first contest of the year when it travels to Deland tomorrow afternoon to meet the Red Hats in a pre-season game. Otto Caldwell said this morning.

The Deland team is expected to play a return game here next Friday night and there is a possibility of games being scheduled against the Red Hats here before the season officially opens April 17, he added.

Richard Monroe and Miss Irene Johnson, both of Sanford, were issued a marriage license at the Court House yesterday.

The Boy Scout Board of Review will hold a meeting at the Junior High School Monday night at 7:30 o'clock. E. L. Kelsey, chairman of the advancement committee of the Seminole District, said today.

ST. AUGUSTINE, Apr. 5.—(AP) Brigadier General Vivian Collins announced last night quotas for individual boards under the seventh call for selectees from Florida.

Seven counties, Monroe, Seminole, St. Johns, Franklin, Lafayette, Nassau and Duval, were not required to furnish any selectees under the seventh call.

Allocations by local boards: Bayard, 15; Highlands, 5; Orange, 1; St. Johns, 5; Polk, 1; Seminole, 5; Volusia, 1; Duval, 5.

ST. AUGUSTINE, Apr. 5.—(AP) The American Hotel Association, representing the city of St. Augustine, is planning a parade to celebrate the opening of the new highway.

Approximately 25 members of the Sons of the American Legion, Drum and Bugle Corps and the Seminole High School Band will leave Monday around noon for Orlando, where they will take part in the Army Day parade.

St. Augustine, Fla., is the first city in the state to have a band.

The band from the DeSoto High School will march in the parade.

ATLANTA, Apr. 5.—(AP)—Chairman W. B. Grant of the Mitchell county draft board resigned today after being advised he would not be permitted to carry out a policy granting deferment to all prospective selectees until the federal government put an end to all defense strikes.

Mr. Pappworth had written to the Florida Senator to find out the progress of the reimbursement committee in the nation's capital. The Sanford grower said that a number of farmers in this section had asked him as to the outcome of the hearings.

"I am sorry that the hearing in Deland gave rise to the belief that payments in reimbursement for damages might be made right off," Grant asserted.

The University of Santo Tomas, at Manila, Philippines, is the oldest university under the American flag. It was founded by Spanish Dominican friars in 1611.

Four Members Of Girls School End Visit In Sanford

Four girls and two teachers of the St. Anne's Episcopal Girls School of Lake Geneva, Wis., left the Hotel Mayfair yesterday where they had spent more than two months of their winter term.

The group, which left on an afternoon train, included Miss Helen Krohn and Mrs. M. C. Wood, the two teachers, and Elaine Watts, New York City; Dianne Dalpe, Chicago; Mary Wood, Chicago, and Gwendolyn Morrison, Bridgeport, Conn., students.

Mrs. Wood and her daughter, Mary, will go to Chicago, while the others will go to the school headquarters at Lake Geneva.

They arrived at the Hotel Mayfair on Jan. 25 and before they left expressed to the management their desire to return next year.

Seven boys members of the Piquette Boys School of Elizabeth, N. J., left the hotel last Saturday after a visit of two weeks.

They were accompanied by their teachers, Mr. and Mrs. J. C. Wood.

Seven boys members of the Piquette Boys School of Elizabeth, N. J., left the hotel last Saturday after a visit of two weeks.

They were accompanied by their teachers, Mr. and Mrs. J. C. Wood.

Mr. Wood and his daughter, Mary, will go to Chicago, while the others will go to the school headquarters at Lake Geneva.

They arrived at the Hotel Mayfair on Jan. 25 and before they left expressed to the management their desire to return next year.

Seven boys members of the Piquette Boys School of Elizabeth, N. J., left the hotel last Saturday after a visit of two weeks.

They were accompanied by their teachers, Mr. and Mrs. J.

Learning To Fly

With the United States Army preparing to expand its air corps to 30,000 flying officers within the next year, a wonderful field of opportunity for advancement has been opened to the young men of America who can pass the strict physical examinations and the rigid mental tests. Although the examinations are difficult, one does not have to be a college graduate or even with two years of college work. Any well grounded high school student with a little additional work can take the examinations and probably pass them.

1) The telegraph poles along a railroad are set 400 feet apart. In passing by train you count 80 poles in 10 minutes. How fast is the train going?
2) A hole 11 inches in diameter is punctured in the bottom of a steamship when it strikes a rock. What force is required to hold a board over the hole if the hole is 10 feet below the water level?
3) What states are generally associated with the following names: Everglades, Key West, Black Hills, Pikes Peak, Great Salt Lake, Erie Canal?

4) Cross out the incorrect word in each of the following sentences. (What the "tham" have you told of matter? I know (wh) whom (ie. Three weeks (was) were) a long time in that town.
5) Correct the following paragraph: "The Latin population are split between the opposing political and idealogical system of France and Italy with later Spain and Portugal a bone of contention between them if later France agrees to allow Italy to instaur herself and Germany in a fascist Spain then the present iterna will be divided into 700000000 or more Italian spaniards and portegese on the totalitarian right wing and France 42000000 on the democritic western front."

Fifth Column Activities

Senator Styles Bridges of New Hampshire warns the American people against activities of the Fifth Column in the United States in an interview with Thomas C. Murray, published in Forbes Magazine, and reveals how business throughout the nation can deal with subversive activities.

We have a Fifth Column in this country and it is operating with an synchronism and protection that is appalling, according to Senator Bridges who declared that no honest industrialist, laborer, or government official even remotely connected with the national defense program can longer be unaware of this or day danger. He declared that the regular war industries, armament, shipbuilding—have experience with which to deal with this thing. But today hundreds of industries, thousands of businessmen, are being drawn into the defense program, and many of these have never had to deal with subversive activity before.

Troops Invade Sanford Streets And Restaurants

Over a dozen troops from the 8888th Central Postal Directory invaded Sanford streets and restaurants Sunday afternoon, according to reports from here.

Yugoslav-Nazi Relations Ebb; War Seen Near

WASHINGTON, Apr. 5 (Special)—Yugoslav-Nazi relations are showing signs of a decided improvement, according to a report from the State Department today.

Yugoslav-Nazi relations have been showing signs of improvement since the signing of the Geneva accords in March. The report states that the two sides have been exchanging views on a number of points, including the question of territorial adjustments in the Balkans.
