sport, instead of just one or two. Only Lofton at Oviedo will hold down two major jobs double A schools. In fact Lofton did this at Evans. It wasn't too long ago when the basketball coaches at Lyman and Seminole were just football coaches who were

given something to do after the grid season. Even Track Becoming Strong

But this has all changed now. Blythe's sole coaching responsibility at Seminole is to coach basketball and build a basketball program and that's what he's doing. Dick Prater's sole coaching responsibility at Oviedo is to continue the fine basketball program of Paul Mikler (who quit basketball to give fulltime to baseball) and that's what And now Arnold (when his appointment becomes official tonight) has one coaching responsibility at Lyman and that's to build a basketball program, and if you know about Mr. Arnold, then you know that's exactly what he's going to do.

Even track has taken a big jump to the front in the school ahtletic picture. Dick Williams has made a state power at Seminole, Jim Farley is working on it at Lyman, and from what we hear about Lofton, he'll make Oviedo a threat in Class B track circles. Each of the above coaches are truly dedicated to their respective sports, although some may be assistants in football since it takes quite a staff to keep herd on the big grid

Joe Sterling as athletic director and head basketball coach at Seminole County Junior College makes it quite evident that the county's school leaders want top-notch basketbal in this neck of the woods. The local fans, whether their allegiance is to Seminole, Lyman or Oviedo, can be very proud of this county's coach-They're a great bunch.
