DISCUS WHOLESALER'S TAX TO PAY SOLDIERS' BONUS BILL IS LATEST MOVEMENT

Would Be General Manufacturers and Wholesalers' Tax Same Time BEAR THE BURDEN

IN PAYING THE BILLIONS IT WILL TAKE TO PUT OVER THE BONUS BILL.

(By The Associated Press) WASHINGTON, Dec. 23.—The financing of the soldiers' bonus by means of a manufacturers' or wholesalers' tax was discussed in what was described as a "general sort of way" at two sessions today of the republican members of the house ways and means committee dealing with this subject. It was announced that there would be no further sessions until Friday and members indicated that there was no disposition to hurry a decision.

Representative Longworth of Ohio, ranking member of the special committee, said it was his judgment that a general manufacturers' and wholesalers' tax similar to that in force in Canada would be recommended. He thought the rates would be lower than those in Canada as treasury experts had estimated that the Canadian rates if put in force in this country would yield \$580,000,000 a year, or more than \$200,000,000 in excess of the sum which it has been estimated would be needed to finance the cash payments to the former service men.

Mr. Longworth said he did not think the bonus bill would be ready for the house this week or next. He said that there was some disposition on the part of many house members to postpone action on the measure for a time to await the opening of the refunding negotiations between the United States and the debtor nations. Calling attention that the refunding commission had been appointed by President Harding, the Ohio member said there was reason to believe that before July the United States would have some of the refunded bonds in hand.

The president, Mr. Longworth went on to say, undoubtedly would not be opposed to the sale of some of the foreign bonds in this country to obtain money for the bonus. He added that before this could be done congress would have to enact a law giving authority to the secretary of the treasury to so dispose of the securities as the present law provides that he must use them in retiring a part of the public debt.

The Ohio member said the president was opposed to the enactment of bonus legislation without any provision for raising the funds. If the proposed sales tax provision was beaten in the house, he added, the bill then simply would be a charge against the treasury. It was his opinion that if a sales tax were reported the house would be given an opportunity to vote separately on that tax.

A separate vote has been demanded by opponents of a sales tax, who continued to day to fight their lines for the fight which is regarded on all sides as almost certain. Opponents said that, if necessary, there would be a fight all along the line from the ways and means committee to the party conference, then to the rules committee, and finally to the house. They did not think the fight would last long, but continued to circulate petitions among house members.

MORMON MISSIONARIES CHASED THROUGH STREETS OF PLYMOUTH, ENGLAND

(By The Associated Press) PLYMOUTH, England, Feb. 23.—Several Mormon missionaries were pursued through the streets yesterday by a mob, on account of their utterances in Market Square. The police rescued them with difficulty.

NEW YORK, Feb. 23.—Two bandits held up Jacob Wisnack, wholesale jewel broker today and escaped with \$20,000 worth of diamonds after knocking him unconscious.

ALL OFFICERS MUST GO INTO THE PRIMARY

STATE DEMOCRATIC EXECUTIVE COMMITTEE SO DECIDES TODAY AT MEETING IN JAX

(By The Associated Press) JACKSONVILLE, Feb. 22.—All appointive as well as elective officers who have been nominated in Democratic primaries last few years will be nominated again this year if the terms expire before December 31st, 1923, the State Democratic Committee decided here today. Usual one per cent of first year's salary to defray primary expenses reduced to one-half of one per cent after Chairman Raney explained a surplus in the treasury left from the last primary. Heated debate on resolution defining Democratic electors. Resolution provided electors must be white, believe in Democratic party principles and vote for party nominees. George Bassett, of St. Augustine, led the attack to eliminate provision stipulating belief in Democratic principles on the ground that the party had no platform. Colonel Robert W. Davis led supporters of provision and resolution was adopted as first submitted. Spectators attending the meeting included Governor Hardee, William J. Bryan and Frank E. Jennings, the speaker of the House of Representatives.

LOOKS LIKE FORD'S CONTRACT WILL BE GOOD

FERTILIZER PRODUCTION IS GUARANTEED UNDER MODIFIED FORM.

(By The Associated Press) WASHINGTON, Feb. 23.—Three alterations in the proposal made by Henry Ford for lease and purchase of the government's nitrate and power projects at Muscle Shoals, Ala., have been agreed to by the Detroit manufacturer. They are:

1. To write into the proposed contracts a definite guarantee to produce fertilizers in their finished form at a given annual minimum amount.
2. To capitalize the operating company which is to be created for the purpose of supervising the Muscle Shoals operations.
3. To revise the language of the so-called farmers' clause in order to deliver of fertilizers from the producing plant to the consumers at a profit not exceeding eight per cent based on the cost of manufacture.

Mr. Ford's approval of these modifications was announced today by W. E. Mayo, chief engineer for the Ford company upon his return from Detroit where he went last week to confer with the Detroit manufacturer. Formal announcement to the house military committee members who are investigating the offer in congress will be made by Mr. Mayo as soon as arrangements for him to testify are completed, probably tomorrow. While the three alterations were regarded by some committee members as greatly improving the form of the proposal, and adding to its value as they view it from the government's standpoint, other members said it would have been made more acceptable if Mr. Ford had also agreed to a reduction in the lease fee from 100 to 50 years as suggested by Secretary Weeks when he testified before the committee.

On this point, however, Mr. Mayo explained that Mr. Ford still felt the 10 year period was too short a time necessary under the proposed contract for development of the Muscle Shoals water power nitrate plants in the section of the country where they are situated.

CAPITAL IN MOURNING OVER ROMA DISASTER, RECEPTIONS CALLED OFF

Flags at Half Mast and Arrangements Being Made for Funerals

WASHINGTON, Feb. 23.—(By the Associated Press)—Due to the Roma disaster President Harding today announced the postponement until April 19th of the army and navy reception, state affair of official social season which was to have been held at the White House tonight. Four thousand invitations had been issued. Flags are at half mast in the city as work of preparing for funeral progresses. Florists were swamped with orders and shops sent emergency calls to other cities. City and every civic organization on Virginia Peninsula have expressed sympathy in resolutions and police making traffic regulations to care for thousands at the funeral tomorrow. Services for two will be held this afternoon at Hampton.

NEWPORT NEWS, Feb. 23.—Many relatives of Roma victims are here today to claim bodies and attend public funeral services to be conducted by army authorities tomorrow.

MODIFIED RESOLUTIONS FOUR TREATY LAID BEFORE SENATE COMMITTEE TODAY BY LODGE

(By The Associated Press) WASHINGTON, Feb. 23.—Modified blanket resolutions to four-power Pacific treaty laid before the senate foreign relations committee today by Chairman Lodge after conference with President Harding with immediate opposition from several Republicans as well as Democratic committee members Borah and Johnson, Republicans, both pronounced modified draft unsatisfactory. New resolution provides nothing in treaty shall be construed as committing United States to exercise of armed force without consent of congress.

CAPTAIN OF SHIP COMMITS SUICIDE VESSEL WAS ADRIFT

(By The Associated Press) KEY WEST, Feb. 23.—J. N. Schute captain of the four-masted British schooner "Lewis Brothers," on the voyage from Mobile to Spain, shot himself to death Thursday morning while the vessel was off the southeast coast of Florida. No member of the crew was able to navigate the ship and the schooner drifted aimlessly until spoken by the tanker Sabine Sun. The steamship put one of its officers aboard the schooner and he brought the vessel into Key West today.

ROCKEFELLER REFUSES CONSENT FOR MARRIAGE HIS GRAND-DAUGHTER

DAYTONA, Feb. 23.—John D. Rockefeller has not yet given his consent to the marriage of his granddaughter, sixteen year old Mathilda McCormick, to Max Oser, the Swiss sliding master, close friends here of Rockefeller said today. Harold F. McCormick was recently divorced by Rockefeller's daughter, and Miss McCormick will visit Rockefeller at Ormond in the near future to discuss her proposed marriage, it is said.

J. J. Dickinson Will Make Race For Circuit Judge

For some time it has been rumored that Hon. J. J. Dickinson, of this city, and one of Seminole's prominent attorneys, would make the race for the position of Judge of the Seventh Judicial Circuit. A representative of the Herald asked Mr. Dickinson today about the rumor and he said it was true and that he had been importuned for some time by the bar of the three counties in the circuit to stand for nomination. The circuit comprises Seminole, Volusia and Brevard counties and is one of the most compact circuits in the state. Judge Perkins is the present judge of the circuit and has given general satisfaction and at present it is not known whether he will again become a candidate or not as his large interests in farming and fruit growing are among the largest in Volusia county. Mr. Dickinson will make an announcement of his candidacy later.

Brokerage Firm Goes Broke Today, Big Liabilities

John Burke, Former U. S. Treasurer, Lost Everything.

(By The Associated Press) NEW YORK, Feb. 23.—The liabilities of the brokerage firm of Kardos & Burke, which last night went into the hands of a receiver, was variously estimated here today at from \$700,000 to \$1,500,000. John Burke, former treasurer of the United States, who resigned a little more than a year ago, is a member of the firm, and he declared today that he had lost everything in the collapse of the business. Bankers who were associated with him in the past are quoted as saying that they believed Burke the innocent dupe in the development of the amazing situation revealed by the failure. The assets of the firm are valued at \$150,000.

At times we suspect that the dogs of war are closely related to the dog in the manger.

WATER TRAFFIC LEAGUE WILL BE ATTENDED BY REPRESENTATIVE CROWD

REPUBLICANS WANT PEACE IN TARIFF ROW

AFTER TWO DAYS WRANGLING OVER PREPLEXING QUESTIONS.

(By The Associated Press) WASHINGTON, Feb. 22.—After a two days' row over American valuation, republican tariff framers of the house and senate got down today to the business of a possible compromise. Two plans were said to have been proposed with the understanding that when the senators had decided on their house members would be called in again.

Under one of the plans, as explained by Chairman Fordney, of the house ways and means committee, ad valorem duties on imported merchandise comparable with American made goods would be assessed on the basis of the value of the domestic produced articles. Imported goods not comparable with American produce would pay a duty on the basis of the wholesale selling price of those goods in American markets.

The other plan, Mr. Fordney said, was to assess all ad valorem duties on the basis of the wholesale selling price of the imported articles in the markets of the United States. This is the plan proposed by members of the tariff commission and the court of customs appeals.

BOWLING LEAGUE NOTES

By a Man Who Knows More About "Notes" than "Bowling"

Fresh from prayer meeting the Congregational boys swooped down on the Men's Club last night and trimmed them to suit their own individual tastes. Probably they were celebrating Washington's birthday, anyway they were right. Belding, the Congregational star, bowled his usual high average, but the surprise of the evening was Jake Holly. His one game of 224 tied Doc Bower for high score this season.

As a result of this victory the Congregational Club goes in first place. Below are the details of the slaughter.

Men's Club	
Botts	162 121 132 415
Overlin	120 167 113 400
Amann	124 166 200
Bennett	108 95 159 362
Fox	133 89 222
Bearden	120 120 240
Club total	1938
Congregational Club	
Belding	201 177 180 558

Many Treatment Growers and Shippers Here Tomorrow Night MUCH ENTHUSIASM

IS SHOWN ALL OVER ST. JOHN'S BASIN ON THE SUBJECT OF SHIP BY WATER.

Advice has been received from W. M. Tarpley, secretary of the Central Florida Water Traffic league, that a large number of members of the league are arranging to attend the meeting to be held here Friday evening, the 24th, at 7:30 p. m. Mr. Tarpley further advised that a great deal of enthusiasm has been evidenced on the part of the members in adjacent sections, and that the league is now functioning along the lines for which it was organized. The objects of the Central Florida Water Traffic league are to promote the development of the facilities and business of the St. Johns river, to secure equitable freight rates into, out of and through Central Florida and generally to assist in improving the service for and solving the traffic problems of the shippers of freight into and out of Central Florida, and its trades territory.

To date the league has educated a great many of the shippers in cities adjacent to Sanford to the value of the river as a means of reducing their rates. The continual effort being made in this direction will in a short while build up a volume of business to this port that will prove most profitable. In addition, volume of business will entice capital to erect warehouses in Sanford and the movement of this merchandise by truck to adjacent cities will necessitate the construction of wider roads to accommodate this traffic. The ship by truck movement has been a prime factor in bringing cheaper rates to the great many sections of the country. It is a solution of the problem to those communities in this section of Florida which are not so fortunate as Sanford in having both rail and water facilities. It is the intention of the league to build up the water business to build up the water business so that truck lines will regularly serve these communities and secure for them the benefit of cheaper rates. The Sanford Chamber of Commerce strongly urges local business men to affiliate with the league and assist in materializing those objects for which it is organized. It is a wonderful opportunity now that all sections adjacent to Sanford are interested in the benefits accruing from the ship by water movement. The daily service that Sanford is now receiving is something that should be continued throughout the year, and the local chamber has been assured by the transportation company that this service will be continued only so long as there is sufficient business to make the daily operation of boats profitable.

Through the efforts of the Central Florida Water Traffic league, volume of river tonnage should show an increase, not only insuring the retention of the daily service, but augmenting it as well. It is the duty of every business man in Sanford to be present at the meeting in the Valdez Hotel this Friday evening. The future success of Sanford's efforts to become the wholesale distributing center is dependant in no small measure upon the success obtained by the Central Florida Water Traffic league in interesting shippers, and the success of the league in turn is determined by the supports of its members, amongst whom the most active should be the business men of Sanford.

FIVAL OFFERS BEFORE MILITARY COMMITTEE FOR MUSCLE SHOALS

(By The Associated Press) WASHINGTON, Feb. 23.—The rival offers of Henry Ford and the Alabama Power company for Muscle Shoals are officially before the house military committee today. That body received the power company's proposal from the house for investigation and report, while it prepared to complete the study of Ford's bid this week.

SHOALS PLANT AS PUBLIC UTILITY SUGGESTION NOW

ALABAMA POWER CO. WOULD FURNISH ELECTRICITY TO ALL IF GIVEN CHANCE

(By The Associated Press) WASHINGTON, Feb. 20.—Supply of hydroelectric power for municipal and industrial purposes throughout the region within transmission distance of Muscle Shoals, Ala., estimated by engineer experts at 400 miles, was promised last night by Thomas W. Martin, president of the Alabama Power Company, in the event congress accepts the offer of that company for purchase and lease of the shoals projects.

Mr. Martin's statement pointed out that the offer to operate at Muscle Shoals under the federal waterpower act obligated the company to function as a public utility bound to serve every one without discrimination, either in rates or in service.

The statement further said that a wide demand existed in the South for increased power facilities and that this consideration had prompted the Alabama company to make the offer.

Confidence was expressed by Mr. Martin that the entire power output would be promptly absorbed. He also declared that the company's policy would be if the offer was accepted "to make as wide a use as possible of this great resource" at Muscle Shoals.

Progress was made by the house military committee Saturday in its consideration of the Ford offer for purchase and lease of the shoals projects, although the committee's hearing were suspended Saturday until today. Members of that body individually summed up testimony taken in the last two weeks and conferred with Mr. Ford's representative.

W. B. Mayo, personal spokesman for Mr. Ford conferred with Representative James, Republican, of Michigan, before he left for Detroit. Mr. Mayo gave the Michigan member a statement for the committee's record showing the number of tons of finished fertilizers Mr. Ford could produce annually at Muscle Shoals by applying three formulas to the 110,000 tons of ammonium nitrates which he guarantees by the proposed contract to manufacture at Plant No. 2. By one formula, it was said, 1,825,000 tons would be possible while 1,283,000 and 962,500 would be produced respectively if the other processes were applied.

It was understood that Mr. Mayo would suggest several alterations in the Ford offer in addition to that which would share the shoals with an unguaranteed a minimum yearly production of completed fertilizers in lieu of the provision pledging the manufacture of certain fertilizer compounds which a number of committee members have insisted should be written into the proposed agreement.

SAULS DREW FREE LOT AT SUB-DIVISION SALE SATURDAY AFTERNOON

H. S. Sauls was the lucky one to draw the free lot in Buena Vista Saturday afternoon. There were two numbers called before his number but the holders of the lucky numbers were not on the ground to claim the lot and forfeited their rights to the same. The free lot Number two will be given away next Saturday together with the

CARDUI HELPED REGAIN STRENGTH

Alabama Lady Was Sick For Three Years, Suffering Pain, Nervous and Depressed—Read Her Own Story of Recovery.

Paint Rock, Ala.—Mrs. C. M. Stegall of near here, recently related the following interesting account of her recovery: "I was in a weakened condition. I was sick three years in bed suffering a great deal of pain, weak, nervous, depressed. I was so weak I couldn't walk across the floor; just had to lay and my little ones do the work. I was almost dead. I tried every thing I heard of, and a number of doctors. Still I didn't get any relief. I couldn't eat and slept poorly. I believe if I hadn't heard of and taken Cardui I would have died. I bought six bottles, after a neighbor told me what it did for her. "I began to eat and sleep, began to gain my strength and am now well and strong. I haven't had any trouble since. . . I sure can testify to the good that Cardui did me. I don't think there is a better tonic made and I believe it saved my life." For over 40 years, thousands of women have used Cardui successfully in the treatment of many womanly ailments. If you suffer as these women did, take Cardui. It may help you, too. At all druggists. E 85

new Ford touring car and it is expected that a record-breaking crowd will be present at that time. Many other valuable presents were given away at the time of the lot and many were made happy who attended. Others were made happy by the purchase of some of the fine lots being sold at the new subdivision on such favorable terms that anyone can purchase a nice building lot now. Go out to the new subdivision and get a lot before they are all sold.

FAIR SUCCESSFUL: PRAISED BY MANY; RECEIPTS \$15,000.00

The thirteenth Subtropical Mid-winter Fair closed last night with the greatest crowds in the history of the fair. Thousands filed through the gates during the day, all vacant lots in the vicinity of the grounds were crowded with autos, and all available space in the grounds was packed. The greatest fair in the history of Orlando, was the comment heard on all sides.

The exhibits were better than usual, great praise being heard from the thousands who visited. The midway was a solid mass of humanity until midnight, making merry and taking in the Johnny J. Jones' shows.

The grand circuit races, held in connection with the fair, brought much favorable comment, and it can be easily said that more people were interested in racing this year than ever before. About 75 of the finest horses in the country spent the winter months in Orlando, and they were in the pink of condition for the big races.

The exhibit of poultry was the best that has ever been offered the followers of the poultry industry. All classes of birds were shown, making a well balanced exhibition.

The hog and cattle entries were the best in the history of the organization, and many fine varieties were shown. This is another important industry in the state, and the interest in this work is increasing with the passing of the years.

The fair was also successful from a financial standpoint, although the official paid admissions for the final day of the fair have not been fully tabulated. The total receipts for the four days through Friday amount to \$11,561.48, and Saturday's gate receipts are expected to bring the grand total well above the \$15,000 mark. The receipts for the week by the day are as follows: Tuesday, \$1,205.33; Wednesday, \$2,036.70; Thursday, \$3,086.40; Friday, \$4,633. The attendance yesterday was far better than any day previous and the total attendance for the week is expected to be around 16,000.—Orlando Sentinel.

FLORIDA SENT CELERY TO CALIFORNIA AS FAR BACK AS YEAR 1917

Referring to press dispatches in the Times-Union yesterday relative to the shipment of celery to Los Angeles, Calif., from Sanford and Bracontown, Chase & Co., of Jacksonville, yesterday said that these cars of celery were not the first to be shipped to California from Florida.

The records of the concern show that on March 23, 1917, Chase & Co., shipped a solid car of celery from Sanford to Los Angeles.

Chase & Co. state that while California is a large producer of celery, it has drawn upon Florida for supplies, not only this season, but also in the past.—Times-Union.

TOWNS WITH A BACK COUNTRY THRIVE.

Time and again have we preached that the average Florida town not only should be a progressive place backed by 100 per cent boosters but they should depend upon other resources other than that of tourists who are with us but a few short months during the winter and then come a long dull summer which we must face. Many of the cities and towns in Florida urge the building of more hotels, more homes and more of everything except the development of the idle lands that can be found at the edge of the limits of nearly every town and city in South Florida.

Up in West Florida the people of that section make no bid for tourists yet they enjoy an all the year round trade because right at their door are farms without number. These farmers of whom some are white and some black are engaged in tilling the soil and have something to sell every month in the year and what they have to sell is brought to the best trading point and disposed of. In turn these farmers buy goods of the merchants in summer as well as in winter.

There has been in Florida during the past five weeks one Roger W. Babson, a man who is an expert surveyor of business and resources. He has visited several towns during his stay in the state and notes with

alarm that many of them are but a one-resource town. That is the said town in question has but one resource to fall back on. He paid a visit to Miami and he voices our sentiments to a T. In an interview with the Miami Metropolis editor, he said:

"I am very anxious to go through the Everglades. It seems to me there is the real answer to Miami's future. In the long run, Miami is better off for one dollar spent in draining the Everglades than for five dollars spent on places of amusement. It is important for cities to spend money on developing things that will continually yield forth wealth, rather than thigns of temporary value, which must be fed all the time in order to be kept up."

To be plain Mr. Babson can see that with the Everglades once developed and farmed by a good class of farmers it will bring more wealth into Miami than all of the tourists who enter that city and merely patronize one class of men—the hotel-keepers, and the latter in turn buy their hotel supplies from Jacksonville and the city gets but little value.

The Everglades is the solution to the prosperity of more than one South Florida city and if they do not grab the opportunity waiting them by the development of the several million acres of the richest land in the world, the fault is theirs.

At one time West Palm Beach boosters made a big bid for the Everglades trade. The Palm Beach canal leading to Lake Okeechobee was deepened, a railroad was started and the golden spike actually driven by the governor of the state. Then West Palm Beach secured a mail contract and all mail for the Glades section was delivered from that city, and to further the business the city expended \$20,000 on a stub canal and induced the F. E. C. railroad to build a spur track from their main line to the head of the stub canal where ample warehouses and docks were built to receive the large amount of products sent in from the Glades.

Business boomed and thousands of dollars were spent in West Palm Beach among the merchants and it looked as if that city had caught Miami asleep at the switch. The latter city had done nothing in the furtherment of securing the big business from the Glades and West Palm Beach had things her own way.

Did West Palm Beach hold on to her purse of gold? She did not.

Since that time the celebrated gold spike railroad has been thrown into the discard; the stub canal has been allowed to fill up and the spur track removed. The mail contract is now delivered from Moore Haven, thanks to the energetic developer at Clewiston, John R. O'Brien, who is awake working out plans for the betterment of the Glades on and south sides of the big lake while others are sleeping.

And now comes Miami with another spurt and unless West Palm Beach is careful the former city will carry off the plum, basket, and everything.

Orlando has a back county to some extent but not enough. Yet that city is the best all the year round burg in South Florida. The merchants report a big summer business as well as winter. The many towns surrounding Orlando all pay tribute to this progressive place and the farmers and grove owners do their trading there.

Sanford is another place that enjoys an all the year round business because her merchants are live wires and sell goods cheap and people come to that town to trade twenty miles around. The celery and lettuce fields in and near Sanford contribute many dollars to the growth of the town.

Daytona and St. Augustine are strictly resort towns. Their summer business is not what is should be, and with the many hotels, apartments and private houses to say nothing of the dozen or two curio stores in each place closed for the summer, makes things look rather dull in the seven months of the summer season.

What we want to see is every town and city in Florida become all the year around places and when that time comes Florida will be the most prosperous of all the Southern states.—Winter Park Post.

PUBLICITY PULLS FOR POPULATION.

More and more is the fact being recognized that if a city or a county is to attain considerable prominence there must be used newspaper space—in addition to other forms of advertising such as booklets and folders. Common-sense would preclude any argument against the publicity thus suggested. To keep the name of the city or the county before the public is an essential. Kissimmee and Ocala county could get into The Associated Press at least three or four times a week for the next year if a proper publicity man could be afforded for such work; and whether the "story" should "dig" the county or

give adulation it would bring out the name of Kissimmee.

In speaking of the prizes won at the Tampa fair by the county of St. Lucie, and St. Lucie's plea that the splendid productive ability of that county was not receiving its due publicity, the Jacksonville Times-Union has the following to say, editorially:

"There is one sure way to make people as familiar with the exact location of St. Lucie county as they are with the location of Miami, Palm Beach, Tampa, Saint Petersburg, Jacksonville and other Florida cities, and that is by advertising, by persistent telling to the people where St. Lucie county is as well as what it is noted for in the matter of agricultural production. Saint Lucie county, by not advertising extensively is missing its one big opportunity. It is like having a million dollars locked up in a safety deposit box, drawing no interest, earning nothing."

"St. Lucie is not the only county in Florida that is 'losing out' by not advertising. Duval, like a number of others, is doing the same thing—and has thousands of dollars' worth of products, if the people only knew about it."

"There are Florida counties, those that are advertising to the world concerning what they have, telling where they are and what they are doing, that are prospering greatly. They give to generous advertising proper credit. Lake is one of the conspicuous counties in this respect. Dade, to some extent, is another. And they are not depending wholly on booklets, either. They are generously using the newspaper and magazine columns, and are getting results that are to be seen in increased population, increased land values, augmented bank deposits, more and better business all around. When other counties, Saint Lucie included, do likewise, people will not have to inquire the location of this or that county. They will know through advertising."

Let the various Chambers of Commerce in that county agree to have one of such officers made the head and then resolve that such officer shall, at least three times each week, send out by wire or by a well-written, catchy article, carefully written and accurately worded sent by mail. The northern papers would gladly publish such articles—where there was a real matter; and The Associated Press interest embodied in the body of the would be pleased to get briefer tales. If the secretary of the business body doesn't have such a man, well, fire him—and get a man who can and will do it. It would require less than five hours for three articles and the ordinary secretary has time in plenty. If Kissimmee can originate several good stories for the world's press each week it is certain that Fort Pierce can do the same. Every action of this nature will aid the city and the entire county.—Kissimmee Gazette.

THE CELERY MARKET.

From all indications Sanford has the world by the tail with a down-hill pull this year when it comes to celery. There is but little celery in other sections, and none in California to speak of, and storage stuff all used up. We can keep our celery as long as possible and only ship it when it is bleached and prime stuff and get a good price all along for it. The idea of shipping all kinds of stuff just because the market is stiff is all wrong and our people know it, yet some of them will do it year after year. Many a good market has been killed by shipping green stuff and poor stuff. Sanford has the finest and largest crop of celery this year that it has ever had. The market is good and will remain good if the growers will use common sense and judgment. Now is the time to make a killing—only don't get killed yourself.

Europe's debt to America isn't worthless. Some day it will interest the collectors of antiques.

Heavy Cold? Chest All Clogged Up?

DON'T let it get a start, Dr. King's New Discovery will get right down to work, relieving the tight feeling in the chest, quieting the racking cough, gently stimulating the bowels, thus eliminating the cold poisons. Always reliable. Just good medicine made to ease colds and coughs.

For fifty years a standard remedy. All the family can take it with helpful results. Eases the children's cough. No harmful drugs. Convincing, healing taste that the kiddies like. At all druggists, 50c.

Dr. King's New Discovery For Colds and Coughs

Feel Badly? Howels Sluggish? Haven't any "pep" in work or play. You're constipated! The stimulating action of Dr. King's Pills brings back old time energy. All druggists, 25c. PROMPT! WON'T GRIP!

A Stranger
Last Sabbath the Rev. Mr. Thirdly's sermon lasted just ten minutes. He explained that he had the regular one-hour document ready for delivery, but at the last minute his dog got hold of the manuscript and had chewed up all but the ten-minute part. After the sermon a stranger came up and introduced himself.

"I came from Bingleville," he said, "and I just thought if your dog had any pups I would like to get one to take home to our pastor."—Selected.

Thought for the Day
Before we can bring happiness to others, we must first be happy ourselves; nor will happiness abide with us unless we confer it to others. If there be a smile upon our lips, those around us will soon smile, too, and our happiness will become the truer and deeper as we see others happy. —Maeterlinck.

The Stork.
The Stork is not a bird of song,
His feathers are not gay,
His beak and neck and legs are long,
He has not much to say.

He tends to business every day,
Spring, summer, winter, fall;
He never takes a holiday
Nor seems to sleep at all.

Sometimes (perhaps) he may be late,
As some folks have accused,
(The chances are, I calculate,
They got their dates confused).

For he is "Johnnie on the spot"
In fact, sometimes, too soon
And brings in March, some little tot,
That was not due till June.

I've noticed too, in cases when
He's turned the clock ahead,
In six or eight times out of ten,
The folks are newly-weds.

Whenever asked the reason why,
I cautiously refrain
From answering—for, bye and bye,
The "grandma" will explain.

Meanwhile the Stork don't seem to care
On whom the chips may fall
(But never shows up anywhere
Unless he's had a call). —Doc Magee.

Raisull, the Morocco bandit is raising Cain again and getting so trou-

blesome that he will have to be suppressed again. We thought he came to the United States and went into ship building during the war.

When the benevolent government does something for the soldiers we will be publishing a newspaper that suits everybody.

EDITOR DROPS A DELICATE HINT.

There is a small matter which some of our subscribers have seemingly forgotten. To us it is necessary in our business. We are very impotent and do not want to speak of it.

A bunch of spiritists had a meeting her the other night and one of our friends who wears long boots was asked if he would like to communicate with some of the departed spirits and he said "yes."

"Who?" asked the medium.
"Johnny Walker," said he of the boots.

The Orlando fair was successful. The gate receipts for the week were \$25,000. And yet there are people in Seminole county who say that county fairs are not successes.

Truly man made the city, and after he became sufficiently civilized, not afraid of solitude, and knew on what terms to live with nature, God promoted him to life in the country. —John Burroughs.

The "big civil war" at MacClenny is all a myth says later reports from that place. There were a dozen or more people killed, several kidnaped, some wounded, several left the town, but there was no trouble of any kind. It was just one of those friendly little love feasts that MacClenny people have from time to time—just family affairs—as it were and they want no assistance from the outside world at all.

All honor to Miss Pattye Lyles of the Sanford High School, the only girl in the United States to make 100 per cent average in the test on current events. You are all right, Pattye. You are keeping up with what is going on around you as well as ancient history, Greek and Latin and other dead subjects. To be ahead of every high school pupil in the United States is going some and the Sanford High School again scores big this year. All honor to Miss Pattye and her teachers and her parents, for her parents are largely responsible for her good marks.

The dairy cow's the cow for me,
She pays the grocery bills;
She lifts the mortgage, keeps me free,
My life with pleasure fills.

GOOD WATER, A CITY'S GREATEST ASSET

AN EDITORIAL

Good water is a city's greatest asset. Some cities are unable to obtain it for any price, some cities have to go 200 miles for it as Los Angeles does, other cities go almost as far as New York City and some cities spend millions trying to get water that is soft and pure for it is upon pure water that the health of the world depends. Sanford just now is looking for soft and pure water. We have pure water but it is sulphur water that cannot be contaminated. In fact there is no chance to get typhoid or other germs in the artesian sulphur water of Sanford but unfortunately it is hard water and contains sulphur gas that is objectionable to many, especially the guests in the city. Once becoming accustomed to the sulphur water the gas is unnoticed but it drives many visitors from the city who are unaware of the purity of the water and once they have formed a dislike to the water you can never bring them back. Another objection to the sulphur water is the fact that it rusts or corrodes the pipes and plumbing and causes no end of worry and trouble and expense in breaking and bursting pipes to the inhabitants and to the factories. In fact it is almost impossible for boilers to use the sulphur water hence the trouble of laundries and factories of all kinds and it is high time that the city of Sanford cast about for pure soft water that would be fit for drinking purposes and fit for all kinds of purposes. Some think that there is a strata of rock somewhere beneath the city where soft water could be obtained, some think the lakes in and around Sanford would be available. Other cities have tried lake water with varying success but most of them are existing about for better water than lake water realizing that if a pure spring of water could be tapped their difficulties would be over. The Herald mentioned some time ago the fact that near Sanford was a spring of the purest water in the world—Elder Springs. We have watched the progress of Elder Springs since the time that Capt. Elder bought the place and first gave to the world this pure, sparkling health-giving water by bottling it and delivering it to the people of this part of Florida. By analysis it is almost 100 per cent pure. It is undoubtedly the purest and best water in the South and this paper said it would be a splendid idea to test the possibilities of piping Elder Springs water to Sanford. Some say the flow is not sufficient to supply Sanford. This remains to be seen and if the supply is sufficient Sanford would jump into the limelight over night as having the finest water in the South or any other part of the United States—a reputation that would boom this city as nothing else could do. While we are casting about for a supply of lake water, while we are waiting for a test by driven wells in the city, while we are waiting for the hidden springs to reveal themselves as a source of pure water that we know is flowing hundreds of gallons every hour—much of it going to waste now that cannot be bottled. Sanford uses now some \$12,000 worth of Elder Springs water a year. We do not know how much Orlando and other cities use. Would it not be a good idea to investigate Elder Springs even if it costs twice as much to get the water than to spend any time or money getting water that will not fill the bill after it is obtained? If an artesian well could be driven into pure, soft water near this city it would be the finest thing in the world for Sanford. But Elder Springs, four miles from Sanford could be piped to the city for a small sum of money considering the purity of the water after it has been obtained and unless a spring of water equally as good can be found in Sanford it would be good policy to investigate the feasibility of taking over this excellent water for this city. We have no knowledge of Elder Springs regarding the price of the property, do not know if the present owner wants to sell it, do not know how much it will cost to obtain it and bring it to Sanford. We only rise up and remark that if Elder Springs water can be obtained for Sanford people we would have the best water in the world for all purposes and the future of Sanford would be assured. Would it not be good policy to investigate this matter?

TAMPA BOARD OF TRADE WANTS CAPITAL REMOVAL DECIDE UPON LOCATION

Getting Down to Facts Concerning Division of the State

REFERENDUM VOTE

WOULD CHOOSE SOME CITY AND LET SOUTH FLORIDA WORK FOR MEASURE.

Capital removal, state division, reapportionment and state road-building were considered yesterday afternoon by the legislative committee and members of the board of governors of the Tampa Board of Trade, in view of the fact that progressive prosperous and populous south Florida appears to be getting only a morsel of what it deserves from the legislature, state road department and other boards. T. M. Shickleford, Jr., was elected delegate of the board of trade to a good roads meeting in St. Augustine, March 29 and 30. He was also elected delegate to a meeting to be held March 15 for forming a capital removal association, recently called by the Palatka Chamber of Commerce. The Tampa board voted yesterday in favor of capital removal, and voted for having the organization meeting held in Tampa, on the ground that to avoid favoritism the meeting should not be held in Palatka, Orlando, Ocala or other contestants for the capital. The meeting yesterday adopted a resolution presented by Col. W. F. Stovall, calling for a referendum at the primary next June, in peninsula Florida, to vote on what city is preferred for the new capital, the place selected to receive united support against Tallahassee. The resolution follows: Whereas, There is every year renewed agitation, particularly in Peninsula Florida, for state capital removal; and Whereas, until some specific made because of the several cities demanding that they be the new proposed state capital; and Whereas, the apparent demand of at least 80 per cent of the voting strength of the state appears to be insisting on legal steps being taken this year toward settlement of the question, and Whereas, Until some specific city

town or locality has been agreed upon by all contenders for the proposed new honor, any steps taken will be leading only to the nowhere of past efforts; therefore, be it Resolved, By the board of trade of the city of Tampa, that proper arrangements be made at the approaching primary election for a referendum to the people of Peninsula Florida of the question of location of said proposed new capital, and the place selected shall receive the support of all Peninsula Florida in any statewide capital removal campaign; and, Resolved, Further, that "Peninsula Florida," as referred to in this resolution shall be all of the state extending between the Gulf of Mexico and the Atlantic ocean, south of the north boundary lines of Dixie, Alabama, Alachua, Putnam and Flagler counties.—Tampa Tribune. GENERAL FOSTER LEAVES FOR NEW YORK TO WORK (By The Associated Press) ST. AUGUSTINE, Feb. 21.—General J. Clifford R. Foster, for many years adjutant general of the Florida National Guard, has moved to New York City to become executive manager of the Broadway Association. In this capacity he will direct all civic improvements to be carried out on Broadway, which is twelve miles in length from the Battery to Kingsbridge. General Foster has been engaged in promotion work for the American City Bureau for several years. OVER SEVENTY THOUSAND ILLITERATES IN FLORIDA (By The Associated Press) TALLAHASSEE, Feb. 21.—There are 71,811 illiterates in Florida according to a report prepared by the state superintendent of public instruction, which includes in this class persons over 10 years of age who cannot read or write. The per centage of illiteracy in proportion to the state's population is 9.6. Jacksonville, the largest city in the state, has the largest number of illiterates, the report listing 4,125 in this class. Tampa has 3,188 while St. Petersburg has 236 and Lakeland 249. 666 quickly relieves a cold. 13-15tc

LEWIS WANTS CONFERENCE TO STOP WAR

BETWEEN UNION OFFICIALS AND COAL OPERATORS IMPENDING (By The Associated Press) CHICAGO, Feb. 21.—President Lewis, of the United Mine Workers, asked the coal operators of the Central Competitive field to meet with union officials in Cleveland March 2 for a wage conference which he said might avert impending strike.

DEMAND FORD'S PLAN ACCEPTED

ALABAMIANS DENOUNCE POWER CO'S BID FOR MUSCLE SHOALS PROJECT. (By The Associated Press) BIRMINGHAM, Ala., Feb. 21.—Resolutions denouncing the Alabama Power company's bid for the Muscle Shoals project, and demanding acceptance of Henry Ford's proposal, were sent to every Alabama congressman and senator. They were adopted yesterday afternoon by a mass meeting which filled the largest theatre here to capacity and from which hundreds were turned away. The meeting turned into a great protest against the proposal of the Alabama Power company, despite the fact that this company maintains its home office in Birmingham. Its bid was denounced as an attempt to defeat Ford "for selfish purposes" and stress was laid on the charge that much English money is invested in the company while Ford's concern is American enterprise. Opening with prayer, the meeting was then addressed by H. L. Harold, secretary of the Birmingham civic association and by Judge B. M. Allen, who presided. Judge Allen introduced former Gov. Emmett O'Neal, the principal speaker, who declared: "The Alabama Power company and Wall Street interests are afraid for Ford to win out. They fear the 'normalization of labor by increased wages which would follow Ford's ownership of the Shoals. 'The interests have a staunch ally in Secretary Weeks to aid in delaying proceedings as much as possible. 'The power company is out to defeat Ford, not to make nitrates. God pity the people if their bid is accepted. The fertilizer and gunpowder trusts, and all other trusts who are seeking their personal interests, are furnishing the money to back the Alabama Power company. Do you think the power company could purchase this momentous project alone? No, they couldn't, even if they mortgaged their properties."

MARION COUNTY BOARD OF TRADE CHANGES NAME TO CHAMBER OF COMMERCE (By The Associated Press) OCALA, Feb. 21.—After March first the Marion County Board of Trade will be known as the Marion County Chamber of Commerce. In changing the name of the organization the constitution and by-laws have been amended to provide for the admission of women to membership. This is considered a big step forward and one which will make for a very much more effective organization. Membership is to be sought also on a different basis from that followed in the past. Instead of seeking members for one year, for three or some other definite period, members will be signed up for an indefinite period. This will be done with a view to giving permanence to the work and to avoid frequent membership drives. The new membership will continue in force until the member submits his resignation in writing, or until his removal from the city or county.

ROBBED THE THEATRE OF ELECTRIC FIXTURES (By The Associated Press) TAMPA, Feb. 21.—Darkness enshrouds the operations of burglars who entered the San Souci Theatre here and took away the electric light globes. The perpetrators entered the playhouse after its performance a few nights ago, entrance being easy because of the custo mof leaving the theatre doors open. Six electric fans were also taken. CHOLMELEY-JONES, FORMER DIRECTOR DIED IN NEW YORK (By The Associated Press) NEW YORK, Feb. 21.—Colonel R. G. Cholmeley-Jones, formerly director of the bureau of war risk insurance, died in a hospital here today. He has been ill at the hospital since October.

WHISKEY RING IS ORGANIZED FOR FLORIDA

HAVE THE STATE THOROUGHLY MAPPED AND SPOT OFFICERS AT ONCE. Disclosures revealing a thoroughly organized intelligence department and the existence of a bootleggers' blue-book within the million-dollar whiskey syndicate, said to be operating with Florida as its main importing point were made to the Post Monday. Retail whiskey dealers are being systematically warned of the approach of federal prohibition detectives by heads of the ring, it became known through reliable sources. The names of several prominent Floridians were connected with the "smuggler's secret service." One of them, it was declared is a well-known politician. Federal officers who reached Orlando last week for the purpose of operating in Orange county were spotted several days before the arrival here and local bootleggers informed by mail of details concerning their party. These details included a description of the automobiles in which they were traveling. An Essex car, with the license number C-33156, and a Cadillac bearing a tag D-61, were named in the advices. The result was a virtual nullification of the officers' efforts at secrecy concerning their work. It has been reliably reported that at one Orange county establishment the officer who entered for the purpose of searching the place was greeted by the proprietor, who called him by name and then told him he had been expecting him. While individual bootleggers are not acquainted with each other by virtue of the existence of the whiskey-ring, there is known to be a list or "blue-book" in the hands of the higher-ups which bears the name of practically every professional salesman in the state. Bootleggers who have "squealed" or who, under examination at a trial have told where they bought their liquor are marked with an "X" it is claimed. Thus do the rum-smugglers of Florida keep track of who's who and why in the whiskey trade not only here but, it is believed, elsewhere in the country. Armed with a system of espionage equal in efficiency to that of Germany before the war, and fortified by apparently unlimited capital, the syndicate is everywhere at once. The "litter fellows" who sell booze by the "quart don't know its members, but they know there is an every-ready protection somewhere as long as they continue to buy their stock from so-and-so—a sort of "we-stand-behind-each-other-we-sell" guarantee of safety with each lot of whiskey purchased.—Winter Park Post. If Sanford will go after soft water for the domestic use of the people we will have accomplished something that will make this city great. What Mrs. Brenninger, of New York, Says About Rat Poison "Tried preparations that kill rats, but RAT-SNAP is the only one that prevents disagreeable odors after killing. Also like RAT-SNAP because it comes in handy cakes, no mixing with other food. You don't have to dirty your hands, it's the best for household use." Try RAT-SNAP. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

ADMINISTRATION (Citation) In Court of County Judge, Seminole County, State of Florida. Estate of J. W. RHEES. WHEREAS, John T. Hammond, has applied to this Court for Letters of Administration on the estate of J. W. RHEES, deceased, late of said County of Seminole. THESE ARE, THEREFORE, To ete and admonish all and singular the kindred and creditors of said deceased to appear before the Court on or before the 20th day of March, A. D. 1922, and file objections, if any they have, to the granting of Letters of Administration on said estate, otherwise the same will be granted to said John T. Hammond, or to some other fit person of persons. WITNESS my hand as County Judge of the County aforesaid this 15th day of February, A. D. 1922. (SEAL) E. E. HOUSHOLDER, County Judge.

TO WHOM IT MAY CONCERN: Notice is hereby given that I, Gilmore Felder, through my attorney, J. G. Sharon, will make application for a pardon, or parole, to the Board of Pardons and Pardoners, Florida, for the criminal conviction of said board, held March 14th, 1922, for the offense of unlawfully having in my possession, intending to deliver, having been convicted of said offense at the Spring term of the Circuit Court of the 7th Judicial District for Seminole County, Florida. J. G. SHARON, 27-28c Attorney for Applicant. In the Circuit Court, Seventh Judicial Circuit in and for Seminole County, Florida.—In Chancery. DIVORCE Harold Hall vs. Elizabeth Hall, Buffalo, New York: It appearing from the affidavit of Harold Hall herein duly filed, that he is complainant in the above entitled cause, that it is the belief of the affiant that Elizabeth Hall is a non-resident of the State of Florida, and that she is a resident of the State of New York, residing in Buffalo, New York, and that there is no person in the

State of Florida, the service of a subpoena upon whom would bind the defendant; and that affiant further says that he believes the age of the defendant to be over twenty-one years; you, therefore, Elizabeth Hall, are ordered to appear to this bill herein duly filed in this cause on the 3rd day of April, A. D. 1922, the same being a Rule Day of this Court. It is further ordered that this notice be published for four consecutive weeks in the Sanford Herald, a newspaper published in Seminole County, Florida. Witness: E. A. DOUGLASS, Clerk of the Circuit Court, and a seal thereof, this 16th day of February, A. D. 1922. (SEAL) E. A. DOUGLASS, Clerk of the Circuit Court. THETFORD & WILKINSON, Solicitors for Complt. 27-5tc In the Circuit Court, Seventh Judicial Circuit, in and for Seminole County, Florida. IN CHANCERY F. L. Woodruff, Complainant, vs. C. H. Lindley, P. Freder and E. J. Close, Defendants. ORDER OF PUBLICATION TO C. H. LINDLEY, P. FREDER AND E. J. CLOSE: It appearing from the affidavit of F. L. Woodruff, the complainant, in the above entitled suit herein duly filed, that it is the belief of the affiant that the residence of the above named defendants are unknown; that there is no person in the state of Florida, the service of subpoena upon whom would bind the defendant, and that it is his belief that said defendants are over the age of twenty-one years of age. IT IS THEREFORE ORDERED that said defendants C. H. Lindley, P. Freder and E. J. Close be and they are hereby required to appear to the bill of complaint in this cause on or before the rule day in April, the same being the 3rd day of April, A. D. 1922, at the Court House in Sanford, Florida, in default whereof, complainant will be authorized to proceed ex parte as provided by law. IT IS FURTHER ORDERED that this notice be published in the "Sanford Herald" a newspaper in general circulation in said County and State, once a week for eight consecutive weeks. Witness my hand and the seal of this Court this 11th day of February, 1922. (SEAL) E. A. DOUGLASS, Clerk. By: A. M. WEEKS, D. Less than fifty dollars worth of trees, shrubs and plants caused a property to sell for five hundred dollars more than had been offered for it. One pecan tree often produces many dollars' worth of nuts in a season. A few fig trees will net even more and other nuts and fruits are equally profitable. How Else Can You Make More Money? The first cost of trees and the upkeep expense are insignificant in comparison with returns. Even a small lot will accommodate a few specimens, in odd corners. Start your planting this winter, making additions as you can. You will get pleasure as well as profit. Our catalog and planting guide will help you. This book is free for the asking. Write for it today. We have a complete stock of good trees, shrubs, plants of all kinds adapted to Florida and the South, in the best varieties. INTER-STATE NURSERIES C. M. The Shell Fish funds excess helps the general revenue in the state of Florida says a dispatch in Florida papers. That tells the story of production of fish and sea foods in the state of Florida.

Walter Rose again heads the Florida State League—a position that sought the man instead of the man seeking the position. Walter will fill it as usual—to the best of his ability—honestly, fairly and square. Success to the league. We are with them in spirit.

Bob Holly wonders why a slaughter house and an abattoir have never been built in Sanford. He thinks Sanford the logical place for such an establishment. It would be—If Orlando was not so nearby.—Reporter-Star.

Well, let's make it at Longwood, half-way.

Sanford claims to have the only girl in the United States who, made 100 per cent on a test in current events. Well, Sanford is a 100 per cent city, why not?—Reporter-Star.

Thanks, old dear, for them kindly wurruds. Your attitude is so different from some of your contemporaries, extempories and crabapplearies.

A bank messenger robbed of \$22,000 in New York the other day while the money was being carried from one bank to the central bank had been in the employ of the bank for many years and was drawing the munificent salary of \$10 a week. The dispatch does not state that the messenger was suspected in any way but we can draw our own conclusions.

Park Trammell has the consolation of knowing that he owns a fine orange grove in Florida even if he should be defeated in the coming election (which he will not be). Being the owner of an orange grove is better than being United States senator any time.—Winter Haven Chief.

Quite true, old chap. But in either case they could get a frost.

A statue of George Washington was unveiled in Trafalgar Square in London yesterday. If the "jingoes" want any further proof of the friendship of England for America they will have to go to a place of which we have but uncertain knowledge. The statue was the gift of the state of Virginia and the historical value of this event is worthy of a place in the text books of our country.

JUDGE DICKINSON

It pleases the Herald to be able to announce the possible candidacy of Hon. J. J. Dickison for the exalted position of Judge of the Seventh Judicial Circuit. Ever since Mr. Dickison has lived in Sanford he has been our friend and while we have differed on some subjects it has never changed our friendship and we have admired his many sterling qualities the greatest of which is his steadfast advocacy for the right at all times. He is a man who when he believes he is right will take this stand against all the world and he is adamant in his convictions although subject to reason and debate and gives the other fellow the right to his own opinions. What he has gained in fame and fortune were hewed from the solid rock of experience starting from the cotton fields of West Florida, teaching country school, high school, making his own money to take a law course and then digging down to hard work of study that fitted him for the practice of law in which he has been successful. The editor of the Herald and the judge were opponents for the legislature one time and we traveled together to the various meetings over the county and it was during the campaign that we learned of the many traits of character, the high standards to which he ever held and the honest endeavors maintained to be fair and square with his fellow man at all times.

That he will, if elected, make the Seventh Circuit a splendid arbiter of justice is assured and his friends in Seminole and the other counties can be counted upon to rally to his standard for they know who is this manner of man that is asking them for their support.

OUR PROSPECTS.

Sanford never had better or brighter prospects in the past twenty-five years. This is big stuff, but you can sum it up and find out that this is real truth. All we need now is that spirit of optimism that will go ahead and build this city as it should be built. We need many improvements of all kinds and we should not hold back for one instant. We need better water, better lights and better gas and we need lake front improvements and we need more paved streets and sewers and all those improvements that mean a greater city. There are many buildings that should be condemned and torn down, streets that should be opened, all unsightly objects should be demolished and Sanford should be built into that big city which we have talked and dreamed for so many years. Now is the time to do all of this for celery money will help much. Our people and our city will be on a solid foundation this spring and there will be more money here than ever at that time of the year. We should spend this money at home where it will do the most good, instead of throwing it into the rat holes that have received it in the years gone by. If all the money that was made in Sanford was spent in Sanford this would be the biggest city in the State. This is something to think about also. Then we need all those new buildings on First street that have been planned and talked about. This is the time to build them. This summer is the time to build the golf links and the country club and that tourist hotel. We have the real prospects for success this summer. Are we going to take advantage of them or will we spend the money foolishly in foreign stocks, in automobiles, in summer trips, in riotous living, instead of making a real investment in real estate in the best city in the world. It is worth thinking about.

REPUBLICANS AND THE HONUS.

There need be little sympathy for the Republican majority in congress as it finds itself in a maze of embarrassments over the soldiers' bonus proposal. The nest is of Republican weaving. It is spun of demagoguery, double-dealing and insincerity. Let those who made the snarl unravel it.

The question of a bonus, involving billions of dollars of the public treasury, has deserved the most unselfish consideration that enlightened statesmanship can give it. The issue has been clean; if the bonus is paid, the taxpayer must foot the bill. There is no alternative. Only two questions were worthy of consideration: first, should and can the bonus be paid; and, second, if it should be paid and can be paid without too great menace to financial stability, how can the funds be raised most equitably?

But in so far as the majority of the Republican congressional bloc is concerned, these questions have had little weight. The whole matter from the first has been put upon the unworthy basis of vote-snatching. The one desire has been to find a way to pay—or pretend to pay—a bonus that will win the soldier vote without sacrificing the support of too great a number of the rank and file of taxpayers.

This unholy wish was father of the iniquitous proposal to obtain funds for a soldier bonus from the principal or interest of the foreign debt. Although it is notorious that there is no income from this source now and none in immediate prospect, certain gentlemen of capitol hill were willing to pass such a bill and trust to luck that its fallacy and insincerity would not become apparent until after the congressional elections next fall.

Fortunately there has been some statesmanship in Washington. The secretary of the treasury pointed out the absurdity of basing a bonus upon the foreign debt in logic that it is irrefutable. Even the president after shifting his position from frank opposition to any bonus to espousal of the proposal, has had to yield to the opposition to a bond issue.

No comprehensive knowledge of finance is needed to realize the unwisdom of further large bonding activities by the federal government at a time when all our resources should be directed toward reducing our colossal and burdensome debts. If the American people desire a bonus to be paid, they are quite willing to foot the bill, and they will take a certain measure of satisfaction in paying it directly and knowing what they pay. To suggest that the bonus can be paid from any other source than from the American pocketbook is an insult to intelligence.

If the administration is sincere in advocacy of a bonus, let the gentlemen frankly say to the people: "This should be paid; let us pay it, wholeheartedly and cheerfully." That would be statesmanly and would win applause. If the administration believes that the public finances will not stand the strain, or if it believes that a bonus should not be paid under any

circumstances, let it say as much frankly. That, too, also would be statesmanship and would be applauded.

But one thing the gentlemen at Washington cannot do with impunity. They cannot play both ends against the middle. They cannot eat their cake and have it.—Tampa Tribune.

"I AM A DUB."

Patrick M. Tammany, secretary of the Kiwanis Club, of Seattle, recently contributed to the Kiwanian magazine a sermon, directed especially to the selfish citizens who sees nothing but his own business that is a masterpiece and its analysis of the modern individual who "let's George do it." He says:

"I have spent the days of my life building my business. I have been a slave to that business. My waking hours have been so full of my business that I have lost touch with my fellow man. The night is tedious and long and restless with worry that I cannot shake off, for I have no thought but of my business. My great city around me seems nothing more to me than a vast collection of prospects. I hear of men and groups of men who are said to be earnest, public-spirited citizens who are seeking to achieve things that mean nothing to me, for I see no immediate return in them to my business. Yet these men are far more successful than I am. And as they pass from the community great industries halt and men linger on their busy way to mourn for one who has been a friend to the community. Should I pass on tomorrow only my immediate family would miss me, and in my business there would be some slight speculation as to who would be the new boss, but this great city which has been my bread and butter, that has made it possible for me to raise and educate my family, that has given me everything that I have and which my family will have after me, will not care and will not miss me, for I have been narrow and selfish in my dealings with my city and with the men that have made my city worth while. I have failed to realize that my city could be no more prosperous, no better, than the men and business houses in it. I have not been broad enough, far-seeing enough, to realize that my business could not be a great business without a great city behind it. I have been too selfish and too much engrossed in my affairs to know that other men were facing the same troubles and difficulties as myself and that simple solutions could come thru co-operation. Down the street from me is a man in the same business. His problems are the same. Yet I do not know him and because I do not know him I distrust him. How easy it would have been had we met on a common footing and talked things over. What the things he and I could have done by co-operating for the good of our city. And by making a better city, how we could have helped our business. All around me are successful business men. Men who are thinkers and have the confidence of the public. These men and I, what is there, that, working together, we could not accomplish for our city. And meeting them for an hour once a week, knowing them so we would be Jack and Joe to each other, talking as only friends can talk, how we would each have profited. I am a dub."

FORWARD NOW—TOGETHER!

The time has come for all of us in America to move forward—unitedly and with determination—into an era of sound Prosperity.

We are due to come into our own. NOW is none too soon. We must make up our minds to GO AHEAD—flash this signal all along the line. The way is open if our will is strong.

The wheels of industry will turn in response to our command, expressed in terms of action.

It is up to YOU, to all of US, to say the right word and do the right thing to stabilize business. Stability waits on activity plus faith that all is well—faith in ourselves, in one another, in business.

FAITH is the very foundation of prosperity. Make it the cornerstone of your thinking and of your action.

TODAY, let us start putting our shoulders to the wheel, all together. Let us work a little more, think a little harder, but without foreboding—and sell with a conscience. We must keep a clear eye out for the other fellow's interests as well as our own.

The one rule that assures a full measure of prosperity is the Golden Rule. It is simple, sure, safe. Work this rule and let it rule your work.

Some say there has been a breaking down of faith by the recent scramble to "get while the getting is good." Even if that is so, we must dismiss from our minds that phase of reaction from war endeavors and declare for new, high standards.

Nothing tangible is holding us back. The fundamental factors making prosperity are all favorable.

At core American business is solid. At heart American men and women are courageous.

We must show the world, each other, ourselves, what American spirit really means.

Forward now, together, confidently.—(A Message from the Associated Advertising Clubs of the World).

THE LIBERAL USE OF PRINTERS' INK.

Some people wonder why certain towns are so popular and ask why it is that 95 per cent of the tourists who meander down the East Coast stop only at St. Augustine, Daytona, the Palm Beaches and Miami. Then they retrace their steps and go down the interior of the state to the West Coast, stopping at Sanford, Orlando, Tampa, Eustis and St. Petersburg.

The answer is easy. The above towns use thousands of dollars yearly for printers' ink and mail out thousands of booklets to clients in the north who are contemplating a trip to Florida the following winter.

They have read the handsomely illustrated booklets sent to them by mail and also they have read numerous advertisements in the big dailies in the north and also the magazines, telling of the beauties and advantages those respective cities possess.

The curiosity of the tourist that is to be, is aroused and when he enters Florida by way of Jacksonville his main idea is to visit the towns that were so well advertised. His coming to the town always adds a few dollars to the wealth of the town, though the hotel keeper may get it all, but Mr. Tourist helps to swell the crowd on the main streets and at the clubs and also at every public entertainment.

There are many towns in Florida that do advertise and there are many towns that do not. There are also

towns in Florida that are bonded up to the limit and are growing faster than weeds. There are towns that refuse to bond for schools, for good roads or sewerage. That class of towns should be avoided by all concerned.

A liberal and judicious use of printers' ink will sell the goods. It will help any merchant to close out his stock of goods that within a few weeks will be unsaleable. But the merchant must advertise right and tell the truth. Advertising is done in many ways.—Florida Post.

The Herald would like to hear from the citizens of Sanford regarding the public ownership of public utilities, getting a better water supply and the need of streets and sewers and other

improvements. Now is the time to express yourself on these important measures for they are coming to a head and will soon be voted at a city election. The time to talk about them is right now. Your communications to the Herald must be signed but your name need not be printed unless you wish it.

"We rather like that idea of the judges and state's attorneys being taken out of politics. It is really the better plan to have the governor appoint them instead of having them go before the people. It makes them more independent and not subservient to every whim of a fickle public. The bench should be above petty politics and should be taken away from the hustings altogether.

AUBURN CERTIFIED TIRES

AFTER SEARCHING THROUGH THE MYRIADS OF TIREDOM AND CONSIDERING THE MERITS AND QUALIFICATIONS OF MORE THAN A SCORE OF MAKES OF TIRES, WE HAVE SELECTED THE AUBURN AS BEST SUITED FOR THE NEEDS OF OUR CUSTOMERS AND FRIENDS.

AUBURN CERTIFIED 'XTRA PLY' FABRIC TIRES

Understand plainly what this means. It means that every size of Auburn Tire is built with one more ply of fabric than standard construction calls for. For example, where so-called "standard" construction calls for 4 plies, we use 5. Where 5 plies are customary we use 6. And instead of ordinary fabric we use the finest imported, long-fibre Egyptian fabric. Thus, in Auburn Tires we start with a fabric carcass 15 to 25 per cent thicker, which means fully 50 per cent greater power to resist

AND THEY ARE GUARANTEED FOR 6,000 MILES

AUBURN CERTIFIED "BIG SIZE" CORD TIRES

have won their way to popular demand on sheer merit. They long ago passed the experimental stage and are now being sold in every state in the Union and many foreign countries.

AUBURN CORDS ARE FULL OVERSIZE
GUARANTEED FOR 8,000 MILES

INTRODUCING PRICES AND SIZES

In order to introduce Auburn Tires to the motorists of Sanford and vicinity, we are offering them at following low prices:

Sizes	"Xtra Pli" Fabric	"Big Size" Cord
30x3	\$ 7.75	
30x3 1/2	9.90	\$15.00
32x3 1/2		18.00

THE PRESIDENT NOT GIVING OUT INFORMATION

ON THE TREATIES AND SAYS THE ARE CONFIDENTIAL

WASHINGTON, Feb. 21.—President Harding informed the senate yesterday he could not comply with its request for records of the four power Pacific treaty negotiations because no such records ever existed and because he considered it incompatible with the public interest to reveal "informal and confidential conversations."

The president's five sentence reply to the resolution of inquiry sent to the White House last week was accepted by those in charge of the treat-

ty at the capitol as closing the incident, although at the same time it aroused increased dissatisfaction among senators who instigated the move for more complete information. A proposal to call Secretary Hughes before the foreign relations committee was revived momentarily, but without any immediate prospect of success.

Meantime the committee took its first formal action on any of the international agreements negotiated during the arms conference by reporting favorably the Japanese-American treaty by which the United States is accorded cable and wireless rights on the Pacific Island of Yap. The committee leaders later made known their purpose to press the treaty toward a vote on the senate floor indicating that debate on it might begin today.

MINE WORKERS DO NOT NEED THE RAILROAD MEN

TO JOIN THEM IN STRIKE SAYS PRESIDENT LEWIS TODAY

(By The Associated Press) CHICAGO, Feb. 22.—United Mine workers do not want nation's railroad employees to join them in a strike, President Lewis, of the miners, said today addressing conference leaders of the mine and railway unions. He spoke of what he termed the coming strike of the miners and said his organization wanted only full moral support of the railroad men.

LIGHTNING STRUCK MIAMI POWER PLANT

(By The Associated Press) MIAMI, Feb. 22.—Lightning struck Miami power plant last night and burned out two generators, reducing power production by two-thirds.

The Democrats intend to give Senator Lodge the fight of his life now that he is making the race for reelection to the senate. Lodge was one of the bitterest opponents of the League of Nations and fought President Wilson with every weapon he could find. That it will now re-act on Lodge is apparent. The truth sometimes prevails even in politics.

The Herald for Post Cards.

WHAT SANFORD HAS AND WHAT SHE IS DOING

The following circulars printed by C. H. Leffler were distributed at the Seminole County booth at the Orlando Fair. Under the heading of "What Sanford Has and is Doing" the following figures are given:

Item	Quantity	Value
CELERY	3,000 cars	\$1,750,000.00
LETTUCE	1,525 cars	180,000.00
POTATOES	80 cars	60,000.00
PEPPERS	620 cars	250,000.00
TOMATOES	150 cars	200,000.00
BEEFS	40 cars	20,000.00
Miscellaneous Vegetables	80 cars	32,000.00
CITRUS FRUITS	200 cars	160,000.00
Total	5,495 cars	\$2,652,000.00

To move this amount of vegetables, it required 734 carloads of Crute material and approximately 520 carloads of fertilizer, or a total of 1,254 cars.

TURTLE HELD UP TRAFFIC.

ST. PETERSBURG, Feb. 21.—Chief of Police Bideman personally made an unusual "arrest" here recently on a charge of trespass. A small mud turtle appeared on the sidewalk of a street in the center of the downtown business district and its presence resulted in a congestion of pedestrian traffic until the Chief's arrival. The chief escorted the turtle to William's Park and placed it in a fountain. Nobody seemed to know how the turtle happened to be on the street.

Also mice. Absolutely prevents odors from carcasses. One package proves this. RAT-SNAP comes in cakes—no mixing with other food. Guaranteed.

35c size (1 cake) enough for Pantry, Kitchen or Cellar.

65c size (2 cakes) for Chicken House, coops, or small buildings.

\$1.25 size (5 cakes) enough for all farm and out-buildings, storage buildings, or factory buildings.

Sold and guaranteed by Ball Hardware Co.

BY BIG MAJORITY

ORANGE COUNTY CAPITAL WILL TAKE STEPS TO OWN PUBLIC UTILITIES.

The four bond issues providing for an expenditure of \$1,000,000 for civic improvements and for the purchase of the plant of the Orlando Water and Light company were authorized by the people of Orlando at the special bond election yesterday. Each received a two-thirds majority of the votes cast, which was necessary for their passage under an act of the state legislature.

The issues were: For constructing additional sewers, \$340,000; for purchasing and extending the plants of the Orlando Light and Water company, \$975,000; for constructing an incinerator, \$25,000; and for erecting a public library building, \$80,000.

The purchase of the utilities by the city was generally considered the most important of the questions voted upon yesterday and the decision of the citizens that the two plants should pass under municipal control is regarded as an assurance that the growth which has made Orlando the seventh city of Florida will continue unhampered. The city was assumed control of the utilities as soon as the bonds can be sold and plans for ex-

tending service will be made immediately. Mayor Duckworth said last night that it was likely the bond issue could be validated and the bonds disposed of within the next two months.

There has never been any concerted opposition to any of the bond issues. They were endorsed by the chamber of commerce and had the support of both local newspapers. The citizens who attended the series of mass meetings called by Mayor Duckworth voiced their approval in no uncertain terms. The belief was expressed that the silent vote of the city might be large enough to defeat the propositions, but it was proved otherwise.—Orlando Sentinel.

Notice of Application for Tax Deed, Under Section 575 of the General Statutes of the State of Florida

Notice is hereby given that V. W. Estes purchaser of Tax certificate No. 315, dated the 3rd day of June, A. D. 1918, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit:

Beg. 305 ft. S and 30 ft W of NE cor. of SW 1-4 of NW 1-4, Sec. 9, Twp 21 S, Range 29 East, run S to F. M. Ry, W. 605 ft., N to pt. W of beg., E to beg., containing 5 acres more or less.

The said land being assessed at the date of the issuance of such certificate in the name of Unknown.

Also Tax Certificate No. 308, dated the 2nd day of June, A. D. 1919, has filed said certificate in my office and has made application for Tax Deed to issue thereon in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit:

E 1-2 of SW 1-4 of NW 1-4 (less 9 acres in NE cor. Sec. 9, Twp. 21 S., Range 29 East, containing 11 acres, more or less.

The said land being assessed at the date of the issuance of such certificate in the name of Unknown.

Tired

"I was weak and run-down," relates Mrs. Eula Burnett, of Dalton, Ga. "I was thin and just felt tired, all the time. I didn't rest well. I wasn't over hungry. I know, by this, I needed a tonic, and as there is none better than—

CARDUI

The Woman's Tonic

"I began using Cardui," continues Mrs. Burnett. "After my first bottle, I slept better and ate better. I took four bottles. Now I'm well, feel just fine, eat and sleep, my skin is clear and I have gained and sure feel that Cardui is the best tonic ever made."

Thousands of other women have found Cardui just as Mrs. Burnett did. It should help you.

At all druggists.

E. 47

SALES TAX IS UNPOPULAR AND FARMERS TO OPPOSE ANY TAX ON THE PEOPLE

Would Only Mean Further Burdens on the People IS HEAVY ENOUGH

BONUS BILL WILL NEVER BE SETTLED BY TAX ON HEAVILY BURDENED PEOPLE

(By The Associated Press) WASHINGTON, Feb. 20.—The soldier's bonus situation had simmered down yesterday perceptibly following the first reaction from President Harding's suggestion that the adjusted compensation be financed by a sales tax or that the enactment of the legislation be postponed. There was, however, no apparent softening of the determination of Republican house leaders to pass the measure at this session.

Majority members of the house ways and means committee were called to meet today to tackle the whole problem anew. They were expected to pass upon the legislative provisions of the measure before going into the question of ways and means of raising funds.

Proponents of a sales tax appeared to be confident that the Republican committeemen would decide on this form of taxation as a means of raising the approximately \$800,000,000 that would be needed to cover the cash payments as now provided for in the measure. It was certain, however, that the sales tax would not be voted in without a sharp fight.

It was said that any sales tax adopted would not be a general one. A manufacturers' tax similar to that proposed by Senator Smoot, Republican, Utah, and rejected by the senate during consideration of the tax revision bill, was one of the suggestions advanced. It was claimed that this tax at a rate of one per cent would raise the amount of money required.

Several other forms of a sales tax are known to be under consideration and it is not expected that there will be a hasty decision as to any of them. It was learned that treasury experts recently had prepared a form of sales tax which its framers contend can be easily administered and can not be avoided.

Whether a bonus bill with a sales tax attached could be put through the house still seemed to be a moot question, some leaders declaring that the situation in this respect was one defying analysis at this time. Meantime, farm organizations continued their attack on this tax, Gray Silver, Washington representative of the American Farm congress, sent a letter to each member of congress protesting against it.

"Taxes are already exceedingly high," the letter said, "and a sales tax would only mean further burden upon the average individual, and when we stop to consider that the average income of each man, woman and child in this country whose income is below the income tax level is only \$333 a year, the American Farm Bureau Federation believes it would be a rank injustice to raise further revenue for this soldiers' bonus by this method. It would take away from these people any prospect of accumulating a competence no matter how small and would blight their hope of bettering their conditions."

Seeking Chauffeur Who Knew Taylor and Who Disappeared Recently

LOS ANGELES, Feb. 20.—A search for a taxicab driver who disappeared from his home here about the time William Desmond Taylor, film director, was murdered, was the outstanding feature today of the police investigation of the case.

The man, it was said, had driven Taylor home on several occasions, and detectives believe he might have visited the director the night he was slain.

The driver's disappearance was reported to the police several days ago by his wife, who expressed alarm at his absence. The officers, in looking over his effects, discovered three bullets of the calibre of that which killed Taylor and a cap similar to that worn by a man several persons are said to have seen near the Taylor apartments the night the director was slain.

The parents of Mabel Normand, film actress, one of the last persons to see Taylor alive, arrived from New York last night to visit their daughter. Miss Normand Saturday moved from her Los Angeles residence to an unannounced address, which, it was learned today, is in Altadena, a suburb of Pasadena. Her friends said she was seeking rest and seclusion.

THE VALUE OF ADVERTISING

Sanford, Fla., Feb. 18, '22
Mr. R. J. Holly,
Editor Sanford Daily Herald,
Sanford, Florida.

Dear Sir:— I have been asked by several merchants that I call on if advertising in their local paper brought them any business. I wish to answer these many questions by making this statement:

I have just closed probably one of the largest tailoring sales with the Churchwell Co. here at Sanford with the assistance of S. W. Bradford (formerly of the Sanford Shoe & Clothing Co.), that has ever been held in Sanford. This sale being advertised daily in your paper, which we largely attribute our success. But Sam Bradford knows most everybody in Seminole county. He also knows what the young men like, and what the older men like, and he has the confidence of the people, and when Sam tells them anything they know they can count on it.

One other reason that we had such a wonderful opening was the fact that the Churchwell Co. allowed me to sell suits at a smaller margin of profit than other merchants have allowed me to do.

They pay cash, and sell for cash, and naturally can sell suits for less.

I also wish to say to any of our customers that bought suits during this sale that they are guaranteed to give perfect satisfaction by the Churchwell Co., who are backed up by my firm, and I have known Mr. J. R. Forrest, who is manager of the Churchwell Co., for the last ten years, and you will find him true blue, and a perfect gentleman in every respect.

I will be back with the Churchwell Co. for another opening next week, Thursday, Friday and Saturday, February 23-24-25.

Very truly yours,
W. E. HERRIN,
With the Wabash Tailoring Co., of Chicago.

Preacher Strikes — Will Find Out What is Matter

(By The Associated Press) BLACKPOOL, Eng., Feb. 20.—Reverend Adam Hamilton, pastor of the Congregational church here, announced his intention of going on a strike for two weeks. He said empty pews in his church showed something was wrong either with his sermons or the church.

Sixteen Year Old Daughter of Millions Weds Riding Master

(By The Associated Press) CHICAGO, Feb. 20.—Mathilde McCormick, sixteen years old, today had permission from her father, Harold F. McCormick, to marry Max Oser, riding academy proprietor of Heurich, Switzerland. Mr. McCormick announced the engagement last night. The romance of John D. Rockefeller's young granddaughter is pictured by Emil Burgy, a Chicago interior decorator, who says he is a first cousin of Oser, as "love of spring and winter." "Oser is not three times Miss McCormick's age, as newspapers have stated," Burgy said. "He is older. He is 57 years old, not forty-seven. He is just my age. I am his cousin and I should know."

STOCK BROKERS SUSPENDED IN NEW YORK CITY TODAY

(By The Associated Press) NEW YORK, Feb. 20.—Suspension of Kohler, Bromer & Co., stock brokers, was announced from the rostrum of the Consolidated Stock Exchange today.

BUSINESS IS NOW BETTER ALL OVER THE COUNTRY FEDERAL RESERVE SAYS

Upper Trend of Business is Apparent to Bankers in Report Submitted to Congress by Federal Reserve Board Today

(By The Associated Press) WASHINGTON, Feb. 20.—Business throughout the country is progressing through well defined cycles is nearing point of upward swing of economic pendulum, according to annual report of Federal Reserve Board transmitted today to congress. "There are those the report said who believe the beginning of a revival is not far distant. When it does definitely set in it will be followed in due course by new era of prosperity."

SANFORD HIGH SCHOOL GIRL TAKES FIRST PRIZE IN THE UNITED STATES

Made One Hundred Per Cent in Current Event Questions HAS SOME RECORD

MISS PATTYE LYLES ONLY PUPIL IN AMERICA MAKING A PERFECT SCORE

Interest has been aroused during the past few years over the averages in the test on current events in every part of the United States. The following from the New York World will be interesting:

New York City School children averaged fifty-three correct answers to every 100 questions on current events contained in the second countrywide test made by the Review of Reviews, the result of which have just been tabulated by the Institute for Public Service. The general average in all parts of the United States was only forty-one.

New York students made particularly good scores in identifying pictures of men and women prominent in the current news and in understanding the meaning of cartoons on news subjects.

The questions are sent out twice a year to schools of all grades and kinds to stimulate interest in teaching current events. Startling as are some of the answers, they are not as surprising as the condition revealed by analysis of the returns as a whole. W. C. Blakey of the Institute for Public Service said yesterday.

Out of the 19,446 papers received from all over the United States, only 115 contained more than 90 per cent of correct answers, while 15,288 children answered less than 60 per cent correctly. Only one out of the whole 19,446 got every answer right.

The single 100 per center is Miss Pattye Lyles, sixteen years old, of Sanford, Fla.

Boys made better scores than girls throughout. Normal school students did little better than high school boys and girls. One normal school with 535 students averaged only 25 per cent of correct answers. The last record was made by a seventh grade class of forty-three pupils in a St. Louis school. They averaged 82 per cent.

Here are some of the answers to the question: "Give one fact about each of the following persons, showing why they are now prominent in current history?"

Myron T. Herrick. Head of the brick trust.

Christy Mathewson. Headed an expedition to the South Pole.

Lloyd George. King of England. Also King of France.

William E. Borah. The Senator who voted against everything.

Stinnes. Head of the Ku Klux Klan.

Volstead. The greatest killer of spirits.

Charles G. Dawes, Andrew Mellon and Will H. Hays were all identified as head of the American Federation of Labor, while Samuel Gompers was declared to be Postmaster General.

Fifty per cent of the children knew of H. G. Wells, but nearly all identified him as "a newspaper reporter" instead of as the writer of the "Outline of History."

The best known man was General Pershing and the next best known Lloyd George. The least known was Hugo Stinnes.

Fifty per cent thought Woodrow Wilson signed the peace treaty.

One youngster named Urbaine Ladoux "Mr. Zero" as chairman of the Unemployment Conference.

Guesses at the name of the only woman in congress ranged from Ruth Law to "Mrs. Katz"—presumably intended for Mrs. Carrie Chapman Catt.

More girls than boys knew the name of the star in the motion picture "Three Musketeers." One identified him as "Mary Pickford's husband."

"It is plain," said Mr. Blakey "that school children today are reading lit-

NEWSPAPER ADS PAY

R. A. Newman, of the Hill Hardware Co., believes in newspaper advertising and has had so many demonstrations of the pulling power of advertisements in the Daily Herald that he will take regular advertising and special advertising in a more generous measure from this time forward. His store was crowded this morning with a throng of ladies anxious to buy the aluminum ware. They were anxious to buy because the Hill Hardware Co. never advertises anything unless they have the goods and the prices. The best of aluminum ware at the remarkably low price of \$1.49 and a free piece of aluminum beside. The sale was all that had been advertised, it was well advertised in the Daily Herald, it brought the crowds this morning so big that the Hill force of clerks could not wait on them all at once and Bob Newman could not take in the cash fast enough. Asked if advertising paid, Mr. Newman replied: "I'll say it does and we are for the Daily Herald whenever we have anything special and want to reach the people" and the Daily must have several thousand subscribers, the way they came into our store."

Advertising as everyone knows, is several items put together in the proper way. First you must have something that appeals to the public and something that is good and carries the right brand and then it must have the right price and last, but not least, it must be advertised in a real live newspaper and some times dodgers help a lot also. But if you will stick to the newspaper you will eventually get the people looking for your advertisement and reading it just as religiously as they read the sports, the society, the locals or any other part of the paper. Try it. Others have done it.

All successful business men believe in systematic advertising in the newspapers.

TOURISTS URGED TO STAY HERE UNTIL MARCH

RAILROADS WILL NOT URGE THEM TO DEPART SO SOON

(By The Associated Press) MIAMI, Feb. 20.—Railroads entering Florida have agreed not to begin advertising for northbound passenger traffic until after March first so as not to hurry tourists away and thus shorten the Florida season, a local representative of the Southern Railway announced today.

The Herald for real job printing.

tle and inaccurately, and that misinformed, to a degree that we have not realized."

FOUR HUNDRED CASES OF BOOZE WERE STOLEN

FROM OSCAR PEPPER DISTILLERY IN KENTUCKY TODAY

(By The Associated Press) LEXINGTON, Ky., Feb. 20.—Between 350 and 400 cases of whiskey were stolen early today from the Oscar Pepper distillery in Woodford county by masked bandits who held up and tied four guards. Whiskey valued at \$40,000 was carried away in three trucks.

HABEAS CORPUS WRIT IS DENIED FOR TAPPERS

CIRCUIT JUDGE GIBBS NOT IN FAVOR OF RELEASING CON MEN

(By The Associated Press) JACKSONVILLE, Feb. 20.—Circuit Judge Gibbs today denied a writ of habeas corpus for the release of five alleged wire tappers arrested in a raid here two weeks ago. The court held that in its opinion sufficient evidence had been adduced to hold the defendants. Previous attempt to effect release of defendants on habeas corpus was denied last week by Gibbs.

Ocala Fire Loss is \$242,000 With Less Than Half Insured

OCALA, Feb. 20.—Ocala is already climbing from the ruins of Saturday's fire, the revised estimates of which place the total loss at \$242,000 with less than half of it insured. The largest losers, George Mackay & Co., with a loss of \$200,000 and \$80,000 insurance, are already planning to rebuild and Mrs. J. E. Chace, whose building valued at \$12,000 was lost with \$2,500 insurance, is also to rebuild. Architects will begin work today on a plan for a new Mackay structure.

FOOTBALL PLAYERS IN IRISH JAILS ARE RELEASED TODAY

(By The Associated Press) BELFAST, Feb. 20.—Members of the Irish Republican army football team captured at Dromore last month were released from Londonderry jail today.

BISHOP GAILOR SAYS AMENDMENT IS A MISTAKE

ALSO SAID HE BELIEVED IN A MODIFICATION OF THE VOLSTEAD LAW

(By The Associated Press) CHICAGO, Feb. 20.—Bishop Thomas F. Gailor, president of the National Council of the Episcopal Church, said in an address here last night he believed the "Eighteenth amendment was a mistake." He also said he believed in modification of the Volstead law.

AIRPLANES TO BE USED IN FLORIDA ON SMUGGLERS

RUM RUNNERS WILL BE RUN DOWN BY AVIA. TORS

(By The Associated Press) WASHINGTON, Feb. 20.—The use of airplanes along the Florida coast in war on rum smugglers is understood today to be under consideration by prohibition headquarters as part of a gigantic program to stem the tide of illicit liquor flowing into the country from the West Indies. Commissioner Haynes refused to disclose details but indicated extraordinary means would be adopted to cope with the Florida situation.

STUDENTS FIGHT TAKES OFFICERS TO QUELL RIOT

STARTED BETWEEN SOPHOMORES AND FRESHMEN AT DINNER

(By The Associated Press) LYNNBROOK, N. Y., Feb. 20.—It took the fire department, police department and all the town officials and practically every resident of this hitherto peaceful Long Island village to quell a battle between Columbia University freshmen and sophomores early today. After a fire hose pointed at the combatants had stopped the fight ten students were placed in the town jail. A score were bathing discolored eyes and applying liniment to numerous bruises and forty freshmen were tied hand and foot, captives of the sophomores. Fifty sophomores had rushed an inn where one hundred and fifty freshmen were having dinner.

DEMOCRATIC EXECUTIVE COMMITTEE

WILL CONVENE AT JACKSONVILLE TO PUT NAMES ON TICKET

TALLAHASSEE, Feb. 21.—The records of the secretary of state show that many state offices expire within the coming year, and provision to have these offices placed on the ticket for the primary election in June will doubtless be made by the state Democratic executive committee, which convenes tomorrow in Jacksonville. The following offices must be filled:

U. S. Senator, Park Trammell; term expires June 3, 1923.

Representatives in congress: First congressional district: H. J. Drane, Lakeland, term expires March 4, 1923; Second congressional district: Frank Clark, Gainesville, term expires March 4, 1923; Third congressional district: J. H. Smithwick, Pensacola, term expires March 4, 1923; Fourth congressional district: W. J. Sears, Kissimmee, term expires March 4, 1923.

Justices of the Supreme Court: R. F. Taylor, Tallahassee, term expires first Tuesday after the first Monday in January, 1923; Jefferson B. Browne, Tallahassee, term expires first Tuesday after the first Monday, January, 1923.

Railroad Commissioners: R. Hudson Burr, Tallahassee, term expires first Tuesday after the first Monday in Jan., 1923; A. D. Campbell, Tallahassee, term expires first Tuesday after the first Monday in Jan., 1923.

Circuit Judges: Judge A. G. Campbell, of first judicial circuit; term expires June 8, 1923; Judge E. C. Love, of the second judicial circuit, term expires June 8, 1923; Judge Mallory F. Horne, third judicial circuit, term expires June 8, 1923; Judge George C. Gibbs, fourth judicial circuit, term expires July 2, 1923. Judge W. S. Bullock, of the fifth judicial circuit, term expires June 11, 1923; Judge M. A. McMullen, of the sixth judicial circuit, term expires with next senate; Judge James W. Perkins, of the seventh judicial circuit, term expires June 8, 1923; Judge E. C. David, of the eighth judicial circuit, term expires April 20, 1923; Judge D. J. Jones, of the ninth judicial circuit, term expires June 11, 1923; Judge John S. Edwards, of the tenth judicial circuit, term expires on June 11, 1923; Judge H. Plerro Branning, of the eleventh judicial circuit, term expires June 11, 1923; Judge George W. Whitehurst, of the twelfth judicial circuit, term expires May 30, 1923; Judge F. M. Robles, of the thirteenth judicial circuit, term expires June 20, 1923; Judge C. L. Wilson, of the fourteenth judicial circuit, term expires June 20, 1923; Judge E. C. David, of the fifteenth judicial circuit, term expires June 13, 1923; Judge Charles O. Andrews, of the seventeenth judicial circuit, term expires June 3, 1923.

Criminal Courts of Record: Duval county—Solicitor L. D. Howell, term expires May 6, 1923; Monroe county—Judge W. Hunt Harris, term expires June 9, 1923; Solicitor Arthur Gomez, term expires June 24, 1923.

State Attorneys: Fifth judicial circuit, George W. Schofield, Inverness, term expires June 13, 1923; Eighth judicial circuit, A. S. Crews, Starke; term expires June 9, 1923; Tenth judicial circuit, B. O. Rogers, Lakeland; term expires July 4, 1923; eleventh judicial circuit, John C. Cramwell, Miami, term expires June 9, 1923; Twelfth judicial circuit, S. W. Lawler, Jr., Fort Myers, term expires June 15, 1923; Seventeenth judicial circuit, Joseph H. Jones, Orlando, term expires June 9, 1923.

State senators in even-numbered districts, and in Districts Nos 9 and 27.

Members of the house of representatives.

Five county commissioners, each county.

Three members board of public instruction, each county.

Justices of the peace, and constables, where there are vacancies.

STATES ATTORNEY WILL INVESTIGATE McLENNY DISORDER

(By The Associated Press) JACKSONVILLE, Feb. 22.—A. S. Crews, of Starke, state attorney of the Eighth Judicial district, said here today that he intended to investigate the trouble at McLenny Saturday which caused the sheriff of Baker county to telegraph the sheriff of Duval county for help, but which the Baker county sheriff said later amounted to nothing.

It may be that gold can be made of a combination of other substances. A combination of svent and elbow grease has always given good results.

POTATO ACREAGE THIS SEASON TO BE OVER 22,000

A most complete report of the total acreage of potatoes planted in the Hastings potato belt has just been completed by A. W. Clow, field manager for the Nix Produce Company.

The report covers thoroughly the immediate Hastings section and gives a fair estimate of what is planted in the entire potato belt in this section. The total estimated acreage for the counties of St. Johns, Flagler, Putnam and Clay is believed to be 22,500 and will cost the planters in the neighborhood of \$1,500,000 to plant, dig and place aboard the railroad cars or steamboat lines. It is estimated that the crop will bring to this section of Florida in the neighborhood of \$4,000,000.00 within the next ninety days.

In the immediate Hastings section there is planted 15,750 acres divided as follows:

Hastings	7,000
Elkton	3,000
East Palatka	1,400
Spuds	800
Orange Mills	550
Federal Point	500
Armstrong	100
St. Augustine	100
San Mateo	100
Bunnell	650
Epanola	375
Yelvington	300
Roy	150
Potatoville	125

Total 15,750

The above does not include the acreage for a number of important points in the potato belt such as Tocoi, Green Cove Springs, St. Johns Park, Dupont and others which it is believed will run the total up to about 22,500.

—Palatka News.

STRIKER KILLED DURING A RIOT BY POLICEMAN

DISCHARGED RIOT GUNS AFTER MOB REFUSED TO DISPERSE

(By The Associated Press) PAWTUCKET, R. I., Feb. 21.—Joseph Assuncan, strike sympathizer, was killed today when police discharged riot guns after a mob of sympathizers refused to disperse, and two others were seriously injured. Mayor Kenyon, in command of the police, had read the riot act to the crowd. The shooting occurred near Jenckes Spinning Company's plant where the strike is in progress.

Sneeze into your handkerchief, not into the community; you get just as good a sneeze, and the community may avoid an epidemic.
